**Notes to Financial Statements**

**Three and Nine Months Ended September 30, 2009**

(Unaudited)

The accompanying financial statements of Dais Analytic Corporation are unaudited, but in the opinion of management, reflect all adjustments (consisting only of normal recurring adjustments) necessary to fairly state the Company's balance sheets, operations, stockholders' deficit and cash flows as of and for the dates and periods presented. The financial statements of the Company are prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information.

These unaudited condensed financial statements should be read in conjunction with the Company's audited financial statements and footnotes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2008 filed with the Securities and Exchange Commission (SEC). The results of operations for the nine month period ended September 30, 2009 are not necessarily indicative of the results that may be expected for the entire year ending December 31, 2009 or for any future period.

**1. Background Information**

Dais Analytic Corporation (the "Company"), a New York corporation, has developed and is commercializing applications using its nano-structure polymer technology. The first commercial product is an energy recovery ventilator (ERV) (cores and systems) for use in commercial Heating, Ventilating, and Air Conditioning (HVAC) applications. In addition to direct sales, the Company licenses its nano-structured polymer technology to strategic partners in the aforementioned application and is in various stages of development with regard to other applications employing its base technologies. The Company was incorporated in April 1993 with its corporate headquarters located in Odessa, Florida.

**2. Going Concern**

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. For the nine months ended September 30, 2009, the Company incurred a net loss of \$1,430,110. As of September 30, 2009, the Company has an accumulated deficit of \$30,206,879, negative working capital of \$2,725,449 and a stockholders' deficit of \$3,158,106 and is in default on notes in the aggregate principal amount of \$1,175,000. In view of these matters, there is substantial doubt that the Company will continue as a going concern. The recoverability of recorded property and equipment, intangible assets, and other asset amounts shown in the accompanying financial statements is dependent upon the Company's ability to continue as a going concern and to achieve a level of profitability. The Company intends on financing its future activities and its working capital needs largely from the sale of public equity securities and possible exercise of warrants with some additional funding from other traditional financing sources, including term notes and proceeds from sub-licensing agreements until such time that funds provided by operations are sufficient to fund working capital requirements. However, there can be no assurance that the Company will be successful in its efforts. The financial statements of the Company do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts and classifications of liabilities that might be necessary should the Company be unable to continue as a going concern.

**3. Significant Accounting Policies**

In the opinion of management, all adjustments consisting only of normal recurring adjustments necessary for a fair statement of (a) the results of operations for the three and nine month periods ended September 30, 2009 and 2008, (b) the financial position at September 30, 2009 and December 31, 2008, and (c) cash flows for the nine month periods ended September 30, 2009 and 2008, have been made.

The unaudited financial statements and notes are presented as permitted by Form 10-Q. Accordingly, certain information and note disclosures normally included in the financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted although the Company generally believes that the disclosures are adequate to ensure that the information presented is not misleading. The accompanying financial statements and notes should be read in conjunction with the audited financial statements and notes of the Company for the fiscal year ended December 31, 2008 included in the Company's Annual Report on Form 10-K filed with the

## Edgar Filing: DAIS ANALYTIC CORP - Form 10-Q

Securities and Exchange Commission on March 31, 2009 and the Company's quarterly reports filed with the securities and Exchange Commission on May 20, 2009 and August 14, 2009, respectively. The results of operations for the three and nine month periods ended September 30, 2009 are not necessarily indicative of the results that may be expected for any future quarters or for the entire year ending December 31, 2009.

The significant accounting policies followed are:

**Use of estimates** - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Table of Contents****Dais Analytic Corporation****Notes to Financial Statements****Three and Nine Months Ended September 30, 2009**

(Unaudited)

**3. Significant Accounting Policies (continued)**

**Loan and stock issuance costs** - Direct loan costs incurred with the issuance of notes payable are deferred and amortized to interest expense over the life of the related notes payable. For the three months ended September 30, 2009 and 2008, the Company incurred amortization from direct loan costs of \$0 and \$26,068, respectively. For the nine months ended September 30, 2009 and 2008, the Company incurred amortization from direct loan costs of \$1,004 and \$78,810, respectively.

Stock issuance costs are recorded as a reduction of the related proceeds through a charge to stockholders' equity.

**Inventory** - Inventory consists of raw materials and is stated at the lower of cost, determined by first-in, first-out method, or market. Market is determined based on the net realizable value, with appropriate consideration given to obsolescence, excessive levels, deterioration and other factors.

**Revenue recognition** - Generally, the Company recognizes revenue for its products upon shipment to customers, provided no significant obligations remain and collection is probable. Our ConsERV product typically carries a warranty of two years for all parts contained therein with the exception of the energy recovery ventilator core which typically carries a 10 year warranty. The warranty includes replacement of defective parts. Warranty cost has been immaterial to our overall operations in the past and therefore, the Company has not recorded an accrual for any estimated warranty expenses. Revenue derived from the sale of licenses is deferred and recognized as revenue on a straight-line basis over the life of the license, or until the license arrangement is terminated. The Company recognized revenue of \$21,036 and \$63,108 from license agreements for each of the three and nine month periods ended September 30, 2009 and 2008, respectively.

**Employee stock options** - The Company recognizes all share-based payments to employees, including grants of employee stock options, as compensation expense in the financial statements based on their fair values. That expense will be recognized over the period during which an employee is required to provide services in exchange for the award, known as the requisite service period (usually the vesting period).

The value of each grant is estimated at the grant date using the Black-Scholes option model with the following assumptions for options granted during the nine month periods ended September 30, 2009 and 2008:

	Nine Months Ended September 30, 2009		Nine Months Ended September 30, 2008	
Dividend rate	0%		0%	
Risk free interest rate	1.65%	3.21%	2.64%	3.98%
Expected term	5 - 10 years		5 - 10 years	
Expected volatility	92%	105%	80%	114%

The basis for the above assumptions are as follows: the dividend rate is based upon the Company's history of dividends; the risk-free interest rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the time of grant; the expected term was calculated based on the Company's historical pattern of options granted and the period of time they are expected to be outstanding; and expected volatility was calculated by review of a peer company's historical activity.

Forfeitures are estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. Based on historical experience of forfeitures, the Company estimated forfeitures at zero percent for the nine months ended September 30, 2009 and 2008 and incorporated this rate in the estimated fair value of employee option grants during 2009 and 2008.

**Financial instruments** Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy distinguishes between (1) market participant assumptions developed based on market data obtained from independent sources (observable inputs) and (2) an entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). The fair value hierarchy consists of three broad levels, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability (e.g., interest rates); and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs that are both significant to the fair value measurement and unobservable.

Fair value estimates discussed herein are based upon certain market assumptions and pertinent information available to management as of September 30, 2009. The respective carrying value of certain on-balance-sheet financial instruments approximated their fair values due to the short-term nature of these instruments. These financial instruments include accounts receivable, prepaid and other current expenses, accounts payable, accrued compensation and accrued expenses. The fair value of the Company's convertible notes payable is estimated based on current rates that would be available for debt of similar terms which is not significantly different from its stated value.

**Income taxes** Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently due plus deferred taxes resulting from temporary differences. Such temporary differences result from differences in the carrying value of assets and liabilities for tax and financial reporting purposes. The deferred tax assets and liabilities represent the future tax consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized.

As of September 30, 2009, the Company had no unrecognized tax benefits or related interest and penalties. We will include future interest and penalties associated with any unrecognized benefits within provision for income taxes on the Statements of Operations. We do not anticipate any unrecognized benefits in the next 12 months that would result in a material change to our financial position.

**Loss per share** Basic loss per share is computed by dividing net loss attributable to common stockholders by the weighted average common shares outstanding for the period. Diluted loss per share is computed giving effect to all potentially dilutive common shares. Potentially dilutive common shares may consist of incremental shares issuable upon the exercise of stock options and warrants and the conversion of notes payable to common stock. In periods in which a net loss has been incurred, all potentially dilutive common shares are considered antidilutive and thus are excluded from the calculation. At September 30, 2009 and 2008, the Company had 37,791,597 and 43,266,716 potentially dilutive common shares, respectively, which were not included in the computation of loss per share.

**Recent accounting pronouncements**

## Edgar Filing: DAIS ANALYTIC CORP - Form 10-Q

In June 2009, the Financial Accounting Standards Board (FASB) approved its Accounting Standards Codification (ASC) (Codification) as the single source of authoritative United States accounting and reporting standards applicable for all non-governmental entities, with the exception of the SEC and its staff. The Codification which changes the referencing of financial standards is effective for interim or annual periods ending after September 15, 2009. As the codification is not intended to change or alter existing US GAAP, this standard had no impact on the Company's financial position or results of operations.

**Three and Nine Months Ended September 30, 2009**

(Unaudited)

We adopted the authoritative guidance in ASC 855, Subsequent Events, (prior authoritative literature: FASB Statement No. 165, Subsequent Events) which establishes general standards of accounting and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. This accounting standard requires the disclosure of the date through which an entity has evaluated subsequent events and the basis for that date. This standard had no impact on the Company's financial position, results of operations and cash flows.

The following new accounting standards have been issued, but have not yet been adopted as of September 30, 2009, as adoption is not required until future reporting periods.

In August 2009, the FASB issued Accounting Standards Update (ASU) 2009-05 Measuring Liabilities at Fair Value to provide guidance on measuring the fair value of liabilities under ASC Topic 820. This ASU clarifies the fair value measurements for a liability in an active market and the valuation techniques in the absence of a Level 1 measurement. This ASU is effective for the interim period beginning October 1, 2009. The adoption of this ASU is not anticipated to have a material impact on the Company's financial statements.

In October 2009, the FASB issued ASU 2009-13 Multiple-Deliverable Arrangements which amends FASB ASC Topic 605 Revenue Recognition to provide another alternative for determining the selling price of deliverables, allowing entities to allocate revenue in multiple deliverable arrangements based on their relative selling prices. This ASU is effective prospectively for revenue arrangements entered into or materially modified after January 1, 2011. The Company is currently evaluating the impact that this new accounting guidance will have on the financial statements.

Other recent accounting pronouncements issued by FASB (including EITF), the AICPA and the SEC did not or are not believed by management to have a material impact on the Company's present or future financial statements.

**4. Notes Payable**

Notes payable consist of the following at September 30, 2009, and December 31, 2008:

	September 30, 2009 (unaudited)	December 31, 2008
Convertible notes payable; interest at 9%; maturing from December 2008 to October 2009, collateralized by the Company's patents and patent applications	\$ 1,175,000	\$ 2,244,864
Less: Current portion notes payable	\$ (1,175,000)	\$ (2,244,864)
<b>Long-term portion of notes payable</b>	<b>-</b>	<b>-</b>

Notes payable to a related party; non-interest bearing; due on demand; unsecured	624	624
<b>Current portion of related party notes payable</b>	<b>\$ 461,624</b>	<b>\$ 624</b>

**Convertible Notes Payable.**

During December 2007 and January 2008, the Company issued convertible promissory notes (the "Convertible Notes") and warrants to purchase common stock in exchange for proceeds totaling \$2,950,000. The Convertible Notes bear interest at 9% per annum and have stated maturity dates from December 2008 to January 2009. The Convertible Notes are repayable in cash or convertible into shares of the Company's stock at a rate of one share per \$0.20 of outstanding principle and interest. Warrants to purchase 14,750,000 shares of the Company's common stock accompanying the Convertible Notes are subject to certain limitations, exercisable at \$0.25 per share, vest immediately, and expire between December 2012 and January 2013.

The Convertible Notes contain an embedded conversion feature. The Company accounted for this conversion feature and detachable warrants by allocating the proceeds from issuance of the convertible notes to the beneficial conversion feature and the warrants based on their relative fair values. The Company concluded that the warrants should be recorded as a component of permanent equity based on applicable accounting guidance.

To recognize the fair value of the warrants, the Company discounted the notes and increased additional paid in capital. The fair value of the beneficial conversion feature of \$1,383,437 and discount related to the warrants of \$1,566,563 were amortized over the term of the Convertible Notes. For the three months ended September 30, 2009 and 2008, the Company recognized interest expense from the amortization of the beneficial conversion feature and discount of \$0 and \$735,479, respectively. For the nine months ended September 30, 2009 and 2008, the Company recognized interest expense from the amortization of the beneficial conversion feature and discount of \$30,136 and \$2,174,932, respectively.

The following table presents a reconciliation of the proceeds received from the financing to the carrying value of the Convertible Notes:

(Unaudited)

Between December 11, 2008 and January 21, 2009, all amounts due under the Convertible Notes matured and became due and payable in full. The Company has not repaid all of the amounts due under the respective Convertible Notes and has from time to time proposed and is currently proposing that holders of matured Convertible Notes either (i) convert their notes into shares at this time in exchange for additional warrants or (ii) extend the maturity of the Convertible Notes and continue to accrue interest. During the nine months ended September 30, 2009 thirteen investors converted the principal balance of \$1,525,000 plus accrued interest of \$193,982 on their Convertible Notes into 8,594,904 shares of common stock. Certain of said investors converted during a period in which the Company was making the above offer and the additional warrants issued pursuant to the offers included 1,665,000 warrants, exercisable immediately at \$0.25 per share and valued at \$126,367, and 162,500 warrants, exercisable immediately at \$0.75 per share valued at \$139,654, which was recorded as interest expense during the nine months ended September 30, 2009.

Four investors holding Convertible Notes with an aggregate outstanding principal balance of approximately \$450,000 at December 31, 2008 had notified the Company that they were asserting their rights to receive payment of the principal and interest pursuant to the terms of the Convertible Notes. In June of 2009, three of these investors, holding an aggregate principal note balance of \$250,000, entered into a confession of judgment with the Company. Under that agreement, the three investors had the right, should the Company fail to pay all principal and interest due pursuant to their Convertible Notes on or before September 11, 2009, to file the confession of judgment with the court and seek to secure a judgment against the Company in the amount of all principal and interest due under their Convertible Notes together with the reasonable cost and expense of collection. In September of 2009, the Company repaid \$250,000 of principal plus the associated interest with respect to the three Convertible Notes. In July of 2009, the fourth investor, who had previously provided notice and holds a Convertible Note in the principal amount of \$200,000, agreed to extend the Convertible Note to September 2009. As of September 30, 2009, \$1,175,000 of convertible notes were outstanding, of which \$100,000 has been extended to October 2009 with the remaining notes due and payable in full.

In October 2009, five investors elected to convert their Convertible Notes and the related accrued interest in the amount of \$957,756 into 4,788,881 shares of the Company's common stock. The investors also received additional warrants to purchase up to 412,500 shares of the Company's common stock, at an exercise price of \$0.75 per share in consideration for converting the Convertible Notes. As of November 10, 2009, Convertible Notes in the amount of \$350,000 plus the related accrued interest are outstanding.

Accrued interest on all notes payable, including related party notes, was \$190,681 and \$268,453 at September 30, 2009 and December 31, 2008, respectively.

**5. Related Party Transactions**

The Company rents a building that is owned by two stockholders of the Company, one of which is the Chief Executive Officer. Base rent expense is \$3,800 per month. The Company recognized rent expense of \$12,198 and \$36,594 in each of the three and nine month periods ended September 30, 2009 and 2008, respectively. These amounts are not necessarily indicative of the amounts that would have been incurred had comparable transactions been entered into with independent parties. However, at the time the Company entered into the lease agreement, based on then current economic conditions, the real estate market, and the Company's prospects, the Company believed that the lease was on terms no less favorable to the Company than could generally be obtained from independent parties.

The Company also has accrued compensation due to the Chief Executive Officer and one other employee for deferred salaries earned and unpaid as of September 30, 2009 of \$1,283,439.

On May 21, 2009, to evidence a loan, Company issued its Chief Executive Officer a promissory note in the principal amount of \$51,900. The note is unsecured and bears a simple interest rate of 7% per annum. The principal amount plus all accrued interest is to be paid in full to the holder no later than July 31, 2009. This note was paid in full prior to maturity.

## Edgar Filing: DAIS ANALYTIC CORP - Form 10-Q

On June 10, 2009, to evidence a loan, the Company issued a promissory note in the principal amount of \$10,000 to Ethos Business Ventures, an entity in which the Company's Chief Executive Officer holds a controlling financial position. The note is unsecured and bears a simple interest rate of 7% per annum. The principal amount plus all interest accrued is to be paid in full to the holder no later than July 31, 2009. This note was paid in full prior to July 31, 2009.

During July 2009, the Company issued a \$300,000 note payable to a shareholder. The note bears 7% interest per annum, however, the repayment terms have yet to be finalized.

On September 11, 2009, to evidence a loan, Company issued its Chief Executive Officer a promissory note in the principal amount of \$124,000. The note is unsecured and bears a simple interest rate of 9% per annum. The principal amount plus all accrued interest is to be paid in full to the holder no later than October 15, 2009. This note was paid in full prior to October 15, 2009.

On September 11, 2009, to evidence a loan, the Company issued a promissory note in the principal amount of \$37,000 to Ethos Business Ventures, an entity in which its Chief Executive Officer holds a position. The note is unsecured and bears a simple interest rate of 9% per annum. The principal amount plus all interest accrued is to be paid in full to the holder no later than October 15, 2009. This note was paid in full prior to October 15, 2009.

**6. Stock Options and Warrants**

For the nine months ended September 30, 2009, the Company has a stock option plan (the "2000 Plan") that provides for the granting of options to qualified employees of the Company, independent contractors, consultants, directors and other individuals. As of September 30, 2009, the Company's Board of Directors approved and made available 11,093,882 shares of common stock to be issued pursuant to the 2000 plan. The 2000 Plan permits grants of options of common shares authorized and approved by the Company's Board of Directors for issuance prior to enactment of the 2000 Plan.

The following summarizes the information relating to outstanding stock options activity with employees during 2009:

Between December 11, 2008 and January 21, 2009, all amounts due under the Convertible Notes matured and became due and payable in full. The Company has not repaid a portion of the amounts due under the respective Convertible Notes. In 2009 four investors with outstanding principal balances of approximately \$450,000 in the aggregate, notified the Company that they were asserting their rights to receive payment of the principal and interest pursuant to the terms of the Convertible Notes. In June 2009, three of these investors, holding an aggregate principal note balance of \$250,000, entered into a confession of judgment with the Company. Under that agreement, the three investors had the right, should the Company fail to pay all principal and interest due pursuant to their Convertible Notes on or before September 11, 2009, to file the confession of judgment with the court and seek to secure a judgment against the Company in the amount of all principal and interest due under their Convertible Notes together with the reasonable cost and expense of collection. In September 2009, the Company repaid \$250,000 of principal plus the associate interest with respect to these three Convertible Notes. In July 2009, the fourth investor, who had given notice and holds a Convertible Note in the principal amount of \$200,000, agreed to extend the Convertible Note to September 2009. The Company is currently proposing that the holder of the matured Convertible Notes either (i) convert their notes into shares at this time in exchange for additional warrants or (ii) extend the maturity of the Convertible Notes and continue to accrue interest. As of September 30, 2009, \$1,175,000 of convertible notes plus the accrued interest thereon was outstanding, of which \$100,000 and the corresponding accrued interest has been extended to October 2009 with the remaining notes due and payable in full. As of November 10, 2009, Convertible Notes in the amount of \$350,000 plus the related accrued interest are outstanding.

The Company entered into an agreement with the holders of the Convertible Notes to file a registration statement within a defined timeframe. The Company will incur penalties and damages of up to approximately \$236,000 if it does not file and keep the registration statement effective pursuant to the terms of this agreement. As of September 30, 2009, the Company has recorded a liability of \$41,000 in accrued expenses related to this agreement.

The Company entered into a consulting agreement in August 2009 with an individual to provide marketing and advisory assistance services to the Company. The term of the agreement is two years and calls for the Company to issue the consultant a warrant to purchase 200,000 shares of the Company's common stock at a \$0.37 exercise price, five year term with one half of the warrant vesting immediately. The remaining 100,000 warrant shares become vested one year from the date of the Agreement dated August 18, 2009. The Company has valued the vested portion of the warrant at \$12,609 and is amortizing the cost over the life of the agreement. At September 30, 2009, the Company has included \$11,821 in prepaid expenses.

The Company entered into a consulting agreement in August 2009 with an individual to provide advisory services to the Company. The term of the agreement is two years and calls for the Company to issue the consultant a warrant to purchase 50,000 shares of the Company's common stock at a \$0.75 exercise price and a five year term. The Company has valued the warrant at \$5,106 and is amortizing the cost over the life of the agreement. At September 30, 2009, the Company has included \$4,565 in prepaid expenses.

**8. Genertec Agreement**

On August 21, 2009, the Company, entered into a Exclusive Distribution Agreement (the Agreement) with Genertec America, Inc., a California corporation (Genertec), to grant Genertec the exclusive right to obtain, distribute and market three of the Company's nanotechnology-based membrane products and related products in Great China, including main land China, Hong Kong, Macau and Taiwan (the Territory). The Agreement provides that during the initial term of the Agreement, Genertec agreed to order and purchase the Company's products in the aggregate amount of Two Hundred Million U.S. Dollars (\$200,000,000). Certain terms of the agreement have been granted confidential treatment by the Securities and Exchange Commission.

Under the Agreement, the Company will supply and Genertec will distribute the Company's products in the designated Territory on an exclusive basis. Genertec agreed to purchase from the Company a minimum of the Company's products during any contract year. In the event Genertec fails to purchase such minimum in any given year, the Company may convert the exclusivity to Genertec into a non-exclusive basis or terminate

## Edgar Filing: DAIS ANALYTIC CORP - Form 10-Q

the Agreement. Pursuant to the terms of the Agreement, Genertec will engage and appoint authorized person(s) or firm(s), to install, engineer, perform maintenance, sell and use the products within the Territory. Genertec nor its designated Buyer is permitted to alter, decompile or modify the Company's products in any way. As consideration for entering into the Agreement, Genertec agreed to pay the Company a deposit in monthly installments beginning in September 2009 and continuing through April 2010. During the initial term of the Agreement, the Company and Genertec agreed to negotiate in good faith a royalty bearing license agreement whereby Genertec shall be granted a license to manufacture certain portions of the Company's products in the Territory.

## Edgar Filing: DAIS ANALYTIC CORP - Form 10-Q

The initial term of the Agreement shall be for a period of five (5) years, commencing on August 21, 2009, unless earlier terminated. Unless notice of termination is delivered to the respective parties 180 days prior to the expiration of the initial term, the Agreement will automatically renew for consecutive one (1) year periods. The Company may terminate the Agreement in the event: (1) Genertec fails to pay the deposit as indicated, (2) that Genertec has not purchased a minimum amount of the Company's products during any contract year, (3) breach by Genertec of its obligations under the Agreement, or (4) at the discretion of the Company, immediately upon the transfer of fifty percent (50%) or more of either the assets of the voting stock of Genertec to any third party. Genertec may not assign the Agreement to any party without the prior written consent of the Company.

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION**

*The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our financial statements and the notes thereto included elsewhere in this quarterly report on Form 10-Q and in our annual report on Form 10-K filed with the Securities and Exchange Commission on March 31, 2009.*

THIS FILING, INCLUDING BUT NOT LIMITED TO MANAGEMENT'S DISCUSSION AND ANALYSIS, CONTAINS FORWARD-LOOKING STATEMENTS. THE WORDS ANTICIPATED, BELIEVE, EXPECT, PLAN, INTEND, SEEK, ESTIMATE, PROJECT, WILL, COULD, MAY, AND SIMILAR EXPRESSIONS ARE INTENDED TO IDENTIFY FORWARD-LOOKING STATEMENTS. THESE STATEMENTS INCLUDE, AMONG OTHERS, INFORMATION REGARDING FUTURE OPERATIONS, FUTURE CAPITAL EXPENDITURES, AND FUTURE NET CASH FLOW. SUCH STATEMENTS REFLECT THE COMPANY'S CURRENT VIEWS WITH RESPECT TO FUTURE EVENTS AND FINANCIAL PERFORMANCE AND INVOLVE RISKS AND UNCERTAINTIES, INCLUDING, WITHOUT LIMITATION, GENERAL ECONOMIC AND BUSINESS CONDITIONS, CHANGES IN FOREIGN, POLITICAL, SOCIAL, AND ECONOMIC CONDITIONS, REGULATORY INITIATIVES AND COMPLIANCE WITH GOVERNMENTAL REGULATIONS, THE ABILITY TO ACHIEVE FURTHER MARKET PENETRATION AND ADDITIONAL CUSTOMERS, AND VARIOUS OTHER MATTERS, MANY OF WHICH ARE BEYOND THE COMPANY'S CONTROL. OUR ACTUAL RESULTS COULD DIFFER MATERIALLY FROM THOSE ANTICIPATED IN THESE FORWARD-LOOKING STATEMENTS AS A RESULT OF SEVERAL FACTORS, INCLUDING THE RISKS FACED BY US AS DESCRIBED BELOW AND ELSEWHERE IN THIS FORM 10-Q AS WELL AS IN OUR FORM 10-K FILED WITH THE SECURITIES AND EXCHANGE COMMISSION ON MARCH 31, 2009. IN LIGHT OF THESE RISKS AND UNCERTAINTIES THERE CAN BE NO ASSURANCE THAT THE FORWARD-LOOKING STATEMENTS CONTAINED IN THIS FORM 10-Q WILL OCCUR. WE HAVE NO OBLIGATION TO PUBLICLY UPDATE OR REVISE THESE FORWARD-LOOKING STATEMENTS TO REFLECT NEW INFORMATION, FUTURE EVENTS, OR OTHERWISE, EXCEPT AS REQUIRED BY FEDERAL SECURITIES LAWS AND WE CAUTION YOU NOT TO PLACE UNDUE RELIANCE ON THESE FORWARD-LOOKING STATEMENTS. WE MAY NOT UPDATE THESE FORWARD-LOOKING STATEMENTS, EVEN THOUGH OUR SITUATION MAY CHANGE IN THE FUTURE.

**OVERVIEW**

We have developed and patented a nano-structure polymer technology, which is being commercialized in products based on the functionality of these materials. We believe the applications of our technology have promise in a number of diverse market segments and products.

The initial product focus of the Company is ConsERV, an energy recovery ventilator. Our primary focus is to expand our marketing and sales of our ConsERV product.

We also have new product applications in various developmental stages. We believe that three of these product applications, including an advanced air conditioning system which is projected to use less energy and emits fewer emissions than current HVAC equipment, a sea-water desalination product and an electrical energy storage device, can be brought to market in the foreseeable future if we receive adequate capital funding.

**REVENUES**

We generate our revenues primarily from the sale of our ConsERV products in residential and commercial HVAC markets. Sales channels for our ConsERV products include OEMs, distributors, retailers, and consumers. We also occasionally license our technology to strategic partners and sell various prototypes of other product applications that use our polymer technology.

Our revenue growth is dependent on continued sales from (i) more seasoned independent sales representatives, (ii) a greater number of independent sales representatives (iii) fulfilling the ventilation needs of the growing energy consultant marketplace which work to lower their client's energy costs and emissions, and (iv) from the Company's own customer direct sales activities, all of which focus on the sale of product primarily into the commercial user marketplace with a growing emphasis on low rise structures (small commercial buildings, multi-purpose structures, and residences). In addition, the Company and its independent sales representative sales force will work to secure orders for ConsERV core only sales (i) from HVAC equipment manufacturers, (ii) from distribution firms servicing the equipment needs of the HVAC installer community, and (iii) creating license/supply relationships to HVAC or ERV OEMs preferably having a dominant presence in existing direct related sales channels.

**Table of Contents****COST OF SALES**

Our cost of sales consists primarily of materials (including freight), direct labor, and outsourced manufacturing expenses incurred to produce our ConsERV products.

We are dependent on third parties to manufacture the key components needed for our nano-structured based materials and value added products made with these materials. Accordingly, a supplier's failure to supply components in a timely manner, or to supply components that meet our quality, quantity and cost requirements or our technical specifications, or the inability to obtain alternative sources of these components on a timely basis or on terms acceptable to us, would create delays in production of our products or increase our unit costs of production. Certain of the components contain proprietary products of our suppliers, or the processes used by our suppliers to manufacture these components are proprietary. If we are required to replace any of our suppliers, while we should be able to obtain comparable components from alternative suppliers at comparable costs, this would create a delay in production.

**SELLING, GENERAL AND ADMINISTRATIVE EXPENSES**

Our selling, general and administrative expenses consist primarily of payroll and related benefits, share-based compensation, professional fees, marketing and other infrastructure costs such as insurance, information technology and occupancy expenses.

**Results of Operations**

The following table sets forth, for the periods indicated, certain data derived from our Statements of Operations and certain of such data expressed as a percentage of revenues:

**Table of Contents*****Summary of Three Months Ended September 30, 2009 Results of Operations***

**REVENUES:** Total revenues for the three months ended September 30, 2009 and 2008 were \$414,014 and \$260,727, respectively, an increase of \$153,287 or 59%. The increase in revenues in the 2009 period is primarily attributable to the Company increasing the sales price of the ConsERV products, introducing a new product to the ConsERV line generating additional sales in a new price category and an increase in the number and size of its sales transactions in 2009. The Company also attributes the sales increase to a realignment of its independent sales representatives. During the three months ended September 30, 2009 and 2008, four and two customers accounted for approximately 78% and 70% of revenues, respectively.

**COST OF GOODS SOLD:** Cost of goods sold increased \$43,046 to \$246,359 and represented 59.5% of revenues, for the three months ended September 30, 2009 compared to \$203,313 or 78% of revenues for the three months ended September 30, 2008. The increase in cost of goods sold during 2009 is primarily due to the increase in sales. The decrease in cost of goods sold as a percentage of revenue in 2009 is primarily attributable to a decrease in the cost of materials due to the implementation of improvements to the production process of certain product components and a decrease in the cost of both labor and materials through outsourcing some of the production in order to maximize the gross margin.

**SELLING, GENERAL AND ADMINISTRATIVE EXPENSES:** Selling, general and administrative expenses of \$400,811 for the three months ended September 30, 2009 decreased \$385,136 from \$785,947 in the same period of 2008 or 49%. This decrease is primarily due to a decrease of \$97,600 in payroll expenses due, in part, to a salary adjustment initiated in April 2009, a decrease of \$194,000 in stock based compensation which was primarily due to a decrease in the number of option awards in 2009 as compared to 2008. There was also a \$20,800 decrease in travel as the prior year contained additional travel to establish new customers and investigating potential vendors. There was also a \$17,500 decrease in professional fees, both legal and accounting for 2009.

**INTEREST EXPENSE:** Interest expense was \$203,845 for the three months ended September 30, 2009 compared to \$828,070 for the same period of 2008, a decrease of \$624,225. During the three months ended September 30, 2008, interest expense was related to convertible notes issued from December 2007 to January 2008 and comprised of approximately \$66,000 of interest payable to note holders, loan cost amortization of approximately \$26,000 and approximately \$736,000 for the amortization of the note discount and embedded beneficial conversion feature. During the three months ended September 30, 2009, interest expense was comprised of approximately \$42,000 of interest payable to note holders and approximately \$139,700 in expense relating to warrants issued to induce conversion of principal and interest accrued on convertible notes.

**NET LOSS:** Net loss for the three months ended September 30, 2009 decreased by \$1,117,063 to \$436,927 from \$1,553,990 for the three months ended September 30, 2008. The decrease in net loss is primarily due to the increase in gross margin, coupled with the decreases in selling, general and administrative expenses and interest expense as discussed above.

***Summary of Nine Months Ended September 30, 2009 Results of Operations***

**REVENUES:** Total revenues for the nine months ended September 30, 2009 and 2008 were \$1,099,721 and \$758,316, respectively, an increase of \$341,405 or 45%. The increase in revenues in 2009 is primarily attributable to the Company increasing the sales price of the ConsERV products, introducing a new product to the ConsERV line generating additional sales in a new price category, an increase in sales due to its realignment of its independent sales representatives educated with respect to the ConsERV product line and hiring an additional internal sales person. During the nine months ended September 30, 2009 and 2008, four and three customers accounted for approximately 72% and 51% of revenues, respectively.

**COST OF GOODS SOLD:** Cost of goods sold increased \$109,600 to \$690,903 and represented 62.8% of revenues, for the nine months ended September 30, 2009 compared to \$581,303 or 76.7% of revenues for the nine months ended September 30, 2008. The increase in cost of goods sold in 2009 is primarily a factor of the increase in sales. The decrease in cost of goods sold as a percentage of revenue in 2009 is primarily attributable to a decrease in the cost of materials due to the implementation of improvements to the production process of certain product components and outsourcing some of the production in order to maximize the gross margin.

**SELLING, GENERAL AND ADMINISTRATIVE EXPENSES:** Selling, general and administrative expenses of \$1,384,318 for the nine months ended September 30, 2009 decreased \$1,160,032 from \$2,544,350 in the same period of 2008 or 45.6%. This decrease is primarily due to a decrease in stock based compensation awards of approximately \$992,100 as there were only two awards given during 2009 and the Company granted multiple stock compensation awards during 2008. Also, there was a decrease in payroll expenses of approximately \$117,700, due to a companywide temporary reduction in salaries.

## Edgar Filing: DAIS ANALYTIC CORP - Form 10-Q

*INTEREST EXPENSE:* Interest expense was \$454,721 for the nine months ended September 30, 2009 compared to \$2,518,725 for the same period of 2008, a decrease of \$2,064,004. During the nine months ended September 30, 2009, interest expense was related to convertible notes issued from December 2007 to January 2008, and comprised of approximately \$156,800 of interest payable on the notes payable and approximately \$266,000 in expense relating to warrants issued to induce conversion of principal and interest

accrued on convertible notes. Interest expense for the nine months ended September 30, 2008 relates primarily to amortization of the beneficial conversion feature and discount on outstanding notes payable. The decrease in interest expense is due to the fact that the beneficial conversion feature and discount on the notes payable became fully amortized in January 2009.

*NET LOSS*: Net loss for the nine months ended September 30, 2009 decreased by \$3,437,057 to \$1,430,110 from \$4,867,167 for the nine months ended September 30, 2008. The decrease in the net loss is primarily due to the increase in gross margin in 2009, coupled with the decreases in selling, general and administrative expenses and interest expense as discussed above.

**Liquidity and Capital Resources**

The Company finances its operations primarily through sales of its ConsERV products, sales of its common stock, the issuance of convertible promissory notes and license agreements.

Our historical revenues have not been sufficient to sustain our operations. We have not achieved profitability in any year since inception and we expect to continue to incur net losses and negative cash flow from operations until we can produce sufficient revenues to cover our costs, which is not expected for several years. Furthermore, even if we achieve our projection of selling a greater number of ConsERV units, we anticipate that we will continue to incur losses until we can cost-effectively produce and sell our products to a wider market. Our profitability will require the successful commercialization of our ConsERV products and any future products we develop. No assurances can be given when this will occur.

In December 2007 and January 2008 we issued \$2,950,000 of one year Convertible Notes. At September 30, 2009, we had outstanding debt from these 9% convertible secured promissory notes of \$1,175,000 plus related interest. The notes matured commencing in December 2008 through January 2009. We did not have adequate funds to repay the notes upon maturity. The notes are secured by all of the Company's patents and the majority of the Company's patent applications. The Company is currently proposing that holders of matured Convertible Notes either (i) convert their notes into shares at this time in exchange for additional warrants or (ii) extend the maturity of the Convertible Notes and continue to accrue interest. During the nine months ended September 30, 2009 thirteen investors converted the principal balance of \$1,525,000 plus accrued interest of \$193,982 on their Convertible Notes into 8,594,904 shares of common stock. Some of these investors converted during periods in which the Company offered an additional warrant in exchange for conversion. Additional warrants issued as a result of such offers include 1,665,000 warrants, exercisable immediately at \$0.25 per share and valued at \$126,362, and 162,500 warrants, exercisable immediately at \$0.75 per share valued at \$139,654, which was recorded as interest expense during the nine months ended September 30, 2009.

Four investors holding Convertible Notes with an aggregate outstanding principal balance of approximately \$450,000 at December 31, 2008 had notified the Company that they were asserting their rights to receive payment of the principal and interest pursuant to the terms of the Convertible Notes. In June 2009, three of these investors, holding an aggregate principal note balance of \$250,000, entered into a confession of judgment with the Company. Under that agreement, these three investors had the right, should the Company fail to pay all principal and interest due pursuant to their Convertible Notes on or before September 11, 2009, to file the confession of judgment with the court and seek to secure a judgment against the Company in the amount of all principal and interest due under their Convertible Notes together with the reasonable cost and expense of collection. In September 2009, Company repaid in full the \$250,000 principal amount and all interest relating to the three Convertible Notes. In July 2009, the fourth investor, who had previously provided notice and holds a Convertible Note in the principal amount of \$200,000, agreed to extend the Convertible Note to September 2009. As of September 30, 2009, \$1,175,000 of convertible notes plus the accrued interest thereon was outstanding, of which \$100,000 and the corresponding accrued interest has been extended to October 2009 with the remaining notes due and payable in full.

In October 2009, five investors elected to convert their Convertible Notes and the related accrued interest in the amount of \$957,756 into 4,788,881 shares of the Company's common stock. The investors also received additional warrants to purchase up to 412,500 shares of the Company's common stock, at an exercise price of \$0.75 per share in consideration for converting the Convertible Notes. As of November 10, 2009, Convertible Notes in the amount of \$350,000 plus the related accrued interest are outstanding.

The Company may not be able to secure additional financing to repay the notes on acceptable terms, if at all, and we are currently unable to pay the notes that have matured. As an alternative, management may attempt to renegotiate the repayment terms of the notes and seek extension of the maturity dates. There is no guarantee that any re-negotiated terms we may be able to secure would be favorable to the Company. Unfavorable terms, in either a financing transaction or debt renegotiation, would adversely impact our business, financial condition and/or results of operations. In the event (i) we are unable to secure additional financing sufficient to pay the notes, (ii) the notes are not converted into shares of our common stock pursuant to their terms, or (iii) we are not able to negotiate extensions to the maturity dates of the notes, note holders will have the option to foreclose on all of our patents and those patent applications securing the notes, which would likely result in the failure of our business.

Any future financing may result in substantial dilution to existing shareholders, and future debt financing, if available, may include restrictive covenants or may require us to grant a lender a security interest in any of our assets not already subject to an existing security interest. To the extent that we attempt to raise additional funds through third party collaborations and/or licensing arrangements, we may be required to relinquish some rights to our technologies or products currently in various stages of development, or grant licenses or other rights on terms that are not favorable to us. Any failure by us to timely procure additional financing or investment adequate to fund our ongoing operations, including planned product development initiatives, clinical studies and commercialization efforts, will have material adverse consequences on our financial condition, results of operations and cash flows.

We will be dependent upon our existing cash of \$300,667 at September 30, 2009, product sales and additional debt and equity issuances to finance our operations through the next 12 months. We need to raise additional capital of approximately \$13 to \$18 million, net of offering costs, during the next nine to twelve months, the proceeds of which will be used to pay down existing debt, secure new patents for innovative applications of our core technology, purchase equipment, and fund our working capital requirements through June 30, 2010. We currently have no commitments for any such funds. If we are unable to raise the funds we may delay development plans and reduce expenditures wherever possible.

Our ability to continue as a going concern is highly dependent on our ability to obtain additional sources of cash flow sufficient to fund our working capital requirements, including repayment of our debt obligations. We intend to finance our operations, including the repayment of notes payable, primarily through private sales of debt and equity securities, possible exercise of warrants, licensing revenues, and sales of non-core uses of our technology. Any failure by us to timely secure the cash flow adequate to fund our debt obligations and ongoing operations will have a materially adverse consequence on our financial condition, results of operations and cash flows.

**Statement of Cash Flows**

The following table sets forth, for the periods indicated, selected cash flow information:

	<b>Nine Months Ended September 30,</b>	
	<b>2009</b>	<b>2008</b>
Cash flows used in operating activities	\$ (536,435)	\$ (1,477,738)
Cash flows used in investing activities	(39,265)	(15,155)
Cash flows provided by financing activities	849,500	1,366,000
Net increase in cash and cash equivalents	\$ 273,800	\$ (126,893)

During the nine months ended September 30, 2009, cash used in operating activities consisted of our net loss of \$1,399,643, less non-cash adjustments such as issuance of stock options and warrants for services and debt conversions totaling \$544,532 and also adjusted for cash provided by increases in accounts payable and accrued expenses of \$207,208, as well as other changes in operating assets and liabilities. Financing activities provided \$849,500 of cash from net proceeds from the issuance of common stock of \$638,500 and \$211,000 from the issuance of notes payable, net of repayments.

During the nine months ended September 30, 2008, the cash flows provided by financing activities was mainly attributable to the issuance of convertible notes payable and the release of escrow cash related to the convertible notes payable.

**ECONOMY AND INFLATION**

Except as disclosed herein, we have not experienced any significant cancellation of orders due to the downturn in the economy and only a small number of customers requested delays in delivery or production of orders in process. Our management believes that inflation has not had a material effect on our results of operations.

**OFF-BALANCE SHEET ARRANGEMENTS**

We do not have any off balance sheet arrangements that are reasonably likely to have a current or future effect on our financial condition, revenues, and results of operations, liquidity or capital expenditures.

**Table of Contents**

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

Not applicable.

**ITEM 4T. CONTROLS AND PROCEDURES**

**Evaluation of disclosure controls and procedures**

Our Chief Executive Officer and Chief Financial Officer (collectively the Certifying Officers ) maintain a system of disclosure controls and procedures that is designed to provide reasonable assurance that information, which is required to be disclosed, is accumulated and communicated to management timely. The Certifying Officers have concluded that the disclosure controls and procedures are effective at the reasonable assurance level. Under the supervision and with the participation of management, as of the end of the period covered by this report, the Certifying Officers evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Exchange Act). Furthermore, the Certifying Officers concluded that our disclosure controls and procedures in place are designed to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is (i) recorded, processed, summarized and reported on a timely basis in accordance with applicable Commission rules and regulations; and (ii) accumulated and communicated to our management, including our Certifying Officers and other persons that perform similar functions, if any, to allow us to make timely decisions regarding required disclosure in our periodic filings.

**Changes in Internal Control Over Financial Reporting**

No change in the Company s internal control over financial reporting occurred during the nine months ended September 30, 2009, that materially affected, or is reasonably likely to materially affect, the Company s internal control over financial reporting.

**Part II OTHER INFORMATION**

**Item 1. Legal Proceedings**

The status of our legal proceedings, as disclosed in our Annual Report remains unchanged.

The Company is party to lawsuits from time to time arising in the ordinary course of its business. The Company provides for costs relating to these matters when a loss is probable and the amount is reasonably estimable. The effect of the outcome of these matters on the Company s future results of operations cannot be predicted because any such effect depends on future results of operations and the amount and timing of the resolution of such matters.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

In addition to the disclosures made in our Forms 8-K, filed with the Securities and Exchange Commission on September 23, 2009, September 29, 2009 and October 16, 2009, the Company issued warrants to purchase 250,000 and 50,000 shares of Common stock at an exercise price of \$0.34 per share and \$0.75 per share, respectively. Each warrant was issued pursuant to a consulting agreement, has a five year term, is immediately exercisable and subject to adjustment for standard anti-dilution events, including but not limited to stock dividends, split-up, reclassification or combination of Company's share, exchange of stock for other Company stock, or certain capital reorganizations or reclassification of the capital stock or consolidation, merger or sale of substantially all Company's assets. In addition, subject to certain conditions, upon the per share market price of the Common Stock (as defined in warrant) being \$1.50 per share for ten consecutive trading days, the Company may require the holder of the warrant to exercise the warrant or it will automatically terminate. The issuance of these securities was exempt from registration under Section 4(2) and Regulation D of the Securities Act.

**Item 3. Defaults Upon Senior Securities**

Other than disclosed in Company's Form 8-K filings with the Securities and Exchange Commission there have been no defaults in any material payments during the covered period.

**Item 4. Submission of Matters to a Vote of Security Holders**

During the three months ended September 30, 2009, the Company did not submit any matters to a vote of its security holders.

**Item 5. Other Information**

The Company does not have any other material information to report with respect to the three month period ended September 30, 2009.
