The following email was sent by David Engert, Chief Executive Officer of NightHawk Radiology Services (NightHawk) to Nighthawk s employees and radiologists on November 24, 2010:

Dear Employees and Radiologists,

In the interest of keeping everyone up to date, I would like to share with all of you, that the planned combination of vRad and NightHawk has taken another important step forward. Yesterday we mailed a definitive proxy statement to our stockholders. In that document, we set December 22nd as the day when our stockholders will vote on the merger. Assuming the stockholders approve the merger, we expect to complete the legal closing of the merger later that day.

Integration planning efforts are underway and teams are hard at work determining the plan for integrating the two organizations. The goal for the integration remains to bring the expertise and resources of vRad and NightHawk together to provide our clients with enhanced quality and service. We will continue to share more information with you regarding the efforts of the integration planning as decisions are made.

As we have stressed, prior to the closing of the merger, we are only allowed to discuss integration planning and are not allowed to take any integration steps. Through the closing of the transaction, the vRad team will continue to serve existing vRad customers as they always have, and the NightHawk team will continue to serve existing NightHawk customers as we always have. Integration of the combined organizations will be evolutionary and may take up to 12 months.

Looking ahead, the value of NightHawk and vRad together is clear regarding our combined ability to fundamentally improve the delivery of radiologic care across the United States by expanding access, improving quality, and reducing costs. Thank you for your continuing efforts, and I look forward to working together with all of you to make this combination a great success for our clients and for you.

Sincerely,

Dave Engert

Forward Looking Statements

This communication contains statements that are forward-looking statements as defined within the Private Securities Litigation Reform Act of 1995. These forward-looking statements are subject to risks and uncertainties that could cause actual results to differ materially from the statements made, including general economic conditions, competitive conditions in the radiology industry, and regulatory risks.

Such risks also include failure to satisfy the conditions of the proposed transaction, including failure to obtain the required approvals of NightHawk's stockholders; the costs and expenses associated with the proposed transaction; contractual restrictions on the conduct of NightHawk's business included in the merger agreement; the potential loss of key personnel, disruption of NightHawk's business or any impact on NightHawk's relationships with third parties as a result of the proposed transaction; any delay in consummating the proposed merger or the failure to consummate the transaction; and the outcome of, or expenses associated with, any litigation which may arise in connection with the proposed transaction.

Other factors that could cause NightHawk's operating and financial results to differ are described in the company's periodic reports filed with the SEC. Other risks may be detailed from time to time in reports to be filed with the SEC. NightHawk does not undertake any obligation to publicly update its forward-looking statements based on events or circumstances after the date hereof, except as required by law.
