ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2010

OR

.. **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE**
ACT OF 1934

For the transition period from to

Commission File Number: 000 - 30559

eDiets.com, Inc.

(Exact name of registrant as specified in its charter)

Edgar Filing: EDIETS COM INC - Form 10-K

Delaware
(State or other jurisdiction of
incorporation or organization)

56-0952883
(I.R.S. Employer Identification No.)

1000 Corporate Drive, Suite 600

Fort Lauderdale, FL 33334

(Address of principal executive offices)

(954) 360-9022

(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Name of each exchange on which registered
Common Stock, Par Value \$0.001 Per Share	The Nasdaq Capital Market

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§ 229.405 of this chapter) is not contained herein and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K .

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Edgar Filing: EDIETS COM INC - Form 10-K

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The aggregate market value of shares of the Common Stock held by non-affiliates at the end of the most recently completed second fiscal quarter, based upon the close price for such stock on that date, was approximately \$13.0 million.

As of March 25, 2011, there were 61,230,338 shares of the registrant's Common Stock outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

The registrant intends to file a proxy statement pursuant to Regulation 14A within 120 days of the end of the fiscal year ended December 31, 2010. Portions of such proxy statement are incorporated by reference into Part III of this Annual Report on Form 10-K.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

The information contained in this Annual Report on Form 10-K and the documents that are incorporated by reference contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These statements concern expectations, beliefs, projections, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. Specifically, this Annual Report on Form 10-K and the documents incorporated by reference contain forward-looking statements regarding:

our expectation that we will seek additional financial support, including through a private placement or public offering of our common stock, selling one or more lines of our business and reducing or eliminating operations;

our belief regarding market demand for our products and our competitive position in our industry;

our expectation that our total gross margins will improve in the future as our efforts to improve meal delivery margin are realized;

our expectation that revenue streams from meal delivery will continue to become a larger share of total revenues;

our belief that we can rapidly secure alternate technology infrastructure vendors if we experience an interruption in Website service;

our expectations regarding implementing programs designed to enhance the privacy protection of our visitors to our Website;

our expectation that we will conduct our operations in compliance with applicable regulatory requirements;

our expectations regarding our advertising commitments;

our expectation regarding the effect of any legal proceedings or legal inquiries on our financial condition or results of operations; and

our estimates regarding certain accounting and tax matters, including the adoption of certain accounting pronouncements.

These forward-looking statements reflect our current views about future events and are subject to risks, uncertainties and assumptions. We wish to caution readers that certain important factors may have affected and could in the future affect our actual results and could cause actual results to differ significantly from those expressed in any forward-looking statement. The most important factors that could prevent us from achieving our goals, and cause the assumptions underlying forward-looking statements and the actual results to differ materially from those expressed in or implied by those forward-looking statements include, but are not limited to, the following:

our ability to raise additional capital;

our ability to maintain compliance with applicable regulatory requirements;

Edgar Filing: EDIETS COM INC - Form 10-K

our ability to maintain our listing under The Nasdaq Capital Market;

our ability to attract and retain customers through advertising, and our ability to secure advertising commitments;

our ability to accurately assess market demand for our products;

our ability to improve our meal delivery margin and its effect on total gross margins;

our ability to rapidly secure alternate technology infrastructure vendors if we experience Website service interruption;

our ability to successfully implement programs designed to enhance the privacy protection of our visitors to our Website;

our ability to sufficiently increase our revenues and maintain expenses and cash capital expenditures at appropriate levels;

the state of the credit markets and capital markets, including the level of volatility, illiquidity and interest rates; and

our ability to successfully estimate certain accounting and tax matters, including the effect on our Company of adopting certain accounting pronouncements.

ITEM 1. BUSINESS GENERAL

Products and Services

eDiets.com, Inc. leverages the power of technology to bring weight loss solutions to both consumers and businesses. We generate revenue in four ways:

Index to Financial Statements

We sell digital weight-loss programs.

We offer a nationwide weight loss oriented meal delivery service.

We derive licensing revenues for the use of our intellectual property and development revenues related to the planning, design and development of private-label nutrition Websites.

We sell advertising throughout our content assets, which are primarily our diet, fitness and healthy lifestyle-oriented Websites.

Subscription Business (includes our digital subscription-based plans and our meal delivery plans)

We have been offering digital subscription-based plans in the United States since 1998, when we launched our first diet plan. Our digital diet plans are personalized according to an individual's weight goals, food and cooking preferences and include the related shopping lists and recipes. eDiets offers a variety of approximately twenty different diet plans, some of which we have developed and some of which we have licensed from third parties under exclusive arrangements. We also offer a subscription-based nationwide weight loss oriented meal delivery service.

Subscribers to our digital diet and meal delivery plans are acquired through our own advertising or through co-marketing arrangements with third parties. In addition to a digital diet or meal delivery product, they receive access to support offerings including interactive online information, communities and education as well as telephone and online support. eDiets offers message boards on various topics of interest to our subscribers, online meetings presented by registered dietitians and the resources of approximately 30 customer service representatives and nutritionists.

Digital subscription programs ranging from four weeks to 52 weeks are billed in advance in varying increments of time. Substantially all of our digital subscribers purchase programs via credit/debit cards, with renewals billed automatically, until cancellation. During 2010 we recorded approximately \$3.7 million in digital plans revenue, or approximately 16.0% of total revenues for 2010.

Meal delivery subscribers purchase a full week or five days of prepared breakfasts, lunches, and dinners, supplemented by snacks that are generally shipped to arrive within two to three days. During 2010 we recorded approximately \$16.2 million in meal delivery revenue, or approximately 69.5% of total revenues for 2010.

License Business (includes business-to-business and royalty revenue)

Our eDiets Corporate Services subsidiary is actively engaged in providing private label online nutrition, fitness and wellness programs to companies mainly in the health insurance, pharmaceutical and food industries. During 2010 we recorded approximately \$2.5 million in business-to-business revenue, or approximately 10.7% of total revenues for 2010.

We also recognized \$0.6 million in royalty revenue in 2010 as a result of having licensed to Tesco plc (Tesco) the exclusive rights to use eDiets brand and diet plan technology in the UK and Ireland. Effective July 31, 2009, we terminated this exclusive licensing agreement with Tesco. The termination agreement provides Tesco with certain continuing rights in the Company technology used by or incorporated into Tesco's diet website prior to termination, including a three-year non-exclusive right to use such technology and, thereafter, an assignment of certain intellectual property rights relating to such technology.

Content Business (includes advertising and ecommerce revenue)

Our advertising sales revenues were approximately \$0.2 million, or 1.0% of total revenues for 2010, and are derived from our flagship Website, www.eDiets.com. The site includes free, regularly updated content developed primarily by our in-house editorial staff. Content is grouped into channels including Diet & Nutrition, Fitness, Mind & Body, Health, Food & Recipes and Success Stories.

Additional advertising revenues are generated through placements in our free opt-in email newsletters and through placements within the subscription sales process.

Our Industry

Edgar Filing: EDIETS COM INC - Form 10-K

The weight loss industry in the U.S. is large and continues to grow. According to Marketdata Enterprises, Inc. in a 2011 report, our particular segment, the Online Dieting Market, is estimated to grow from approximately \$990.0 million in 2010 to \$1.2 billion in 2014.

We believe the growing population of overweight and obese people who are motivated by both an increasing awareness of the health benefits of weight loss and the desire to improve their lives is driving the growth of weight loss solutions. We believe our comprehensive and integrated weight loss offerings, which include our fresh meal delivery service, personalized online subscription-based plans and licensing related to private-label websites uniquely positions us in serving both consumers and businesses.

Index to Financial Statements

Marketing

Our total advertising spending in 2010 was \$9.0 million, or 38.4% of revenues. We currently pay to advertise our services through third party online banners, online paid and natural search programs, Web affiliate programs and cable television placements. In addition, we advertise on our Websites and in our email newsletters. Over the last few years our cost to acquire subscribers through banner advertisements on the major online portals has risen dramatically as a result of rapidly rising online advertising rates. We have responded by shifting an increasing percentage of our advertising budget to paid search programs, television and co-marketing partnerships.

Competition

We face significant competition. In the online subscription diet business our most significant competitor is www.weightwatchers.com, which is owned by Weight Watchers® International. We also compete with privately-held Waterfront Media, Inc., which operates a variety of diet- and self-help-oriented Websites including www.southbeachdiet.com, and with the WebMD® Weight Loss Center operated by WebMD, Inc. In the meal delivery business we compete with NutriSystem, Inc. and Jenny Craig, Inc. as well as others. In the business-to-business licensing of digital diet, fitness and healthy lifestyle content, tools and services we compete with Miavita, which is owned by Matria Healthcare, Inc., Nutrihand, Genesant, and with several private companies. Many of our competitors in the weight loss industry, including NutriSystem, Inc. and Jenny Craig, Inc., are significantly larger and have greater financial resources than we do and may be able to devote greater resources for the development and promotion of their services and products. We mainly compete in the areas of program efficacy, price, taste, customer service and brand recognition.

Dependence on Third Parties

We derive significant portions of our business from relationships with both third party Websites and third party licensors. Beginning in April 2003, we began to offer online personalized meal plans based upon intellectual property licensed from third parties.

In addition, we depend on certain third party technology vendors for the day-to-day smooth operation and availability of our Website and services. We have designed our infrastructure to provide reliability and scalability as it supports our operations. Our data centers are located within two secure tier 1 collocation facilities in Saint Louis, Missouri and Lithia Springs, Georgia. The facilities provide us with:

ready access to increased network bandwidth;

improved redundancy, security, and disaster recovery; and

24-hour onsite management and support.

Although the facilities provide us with increased security and reliability, there can be no assurance that we will not experience an interruption in service. During 2010, our site was operating 99% of the time. To the extent that service is interrupted or delayed, we could experience a decrease in traffic, loss of customers and harm to our reputation. However, we believe that we could secure alternate technology infrastructure vendors rapidly.

Approximately 70% of our revenue comes from our meal delivery program, from which we currently depend on one third party meal delivery vendor for the manufacture and fulfillment of our prepared meals. If we are unable to obtain sufficient quantity, quality and variety of food and fulfillment of customer orders in a timely and low-cost manner from this manufacturer, we will be unable to adequately fulfill our customers orders which would adversely affect our operating results and damage the value of our brand.

INTELLECTUAL PROPERTY, PROPRIETARY RIGHTS AND DOMAIN NAMES

Our success depends on the goodwill associated with our trademarks and other proprietary intellectual property rights.

We attempt to protect our intellectual property and proprietary rights through a combination of trademark, copyright and patent law, trade secret protection and confidentiality agreements with our employees and marketing and advertising partners. We pursue the registration of our domain names, trademarks and service marks and patents in the United States and abroad. A substantial amount of uncertainty exists concerning the

Edgar Filing: EDIETS COM INC - Form 10-K

application of the intellectual property laws to the Internet and there can be no assurance that existing laws provide adequate protection of our proprietary intellectual property or our domain names. The steps we take to protect our proprietary rights may not be adequate and third parties may infringe or misappropriate our copyrights, trademarks, service marks and similar proprietary rights.

Index to Financial Statements

GOVERNMENT REGULATION

There are an increasing number of laws and regulations being promulgated by the United States government, governments of individual states and governments overseas that pertain to the Internet and doing business online. In addition, a number of legislative and regulatory proposals are under consideration by federal, state, local and foreign governments and agencies. Laws or regulations have been or may be adopted with respect to the Internet relating to:

liability for information retrieved from or transmitted over the Internet;

online content regulation;

commercial e-mail;

visitor privacy; and

taxation and quality of products and services.

Moreover, the applicability to the Internet of existing laws governing issues such as:

intellectual property ownership and infringement;

consumer protection;

obscenity;

defamation;

employment and labor;

the protection of minors;

health information; and

personal privacy and the use of personally identifiable information.

This area is uncertain and developing. Any new legislation or regulation or the application or interpretation of existing laws may have an adverse effect on our business. Even if our activities are not restricted by any new legislation, the cost of compliance may become burdensome, especially as different jurisdictions adopt different approaches to regulation.

LIABILITY FOR INFORMATION RETRIEVED FROM OUR WEBSITE AND FROM THE INTERNET

Content may be accessed on our Website and this content may be downloaded by visitors and subsequently transmitted to others over the Internet. This could result in claims made against us based on a variety of theories, including, but not limited to, tort, contract and intellectual property violations. We could also be exposed to liability with respect to content that may be posted by visitors to our chat rooms or bulletin boards. It is also possible that if any information contains errors or false or misleading information or statements, third parties could make claims against us for losses incurred in reliance upon such information. In addition, we may be subject to claims alleging that, by directly or indirectly providing links to other Websites, we are liable in tort, contract or intellectual property, for the wrongful actions of third party Website operators. The Communications Decency Act of 1996, as amended, provides that, under certain circumstances, a provider of Internet services shall not be treated as a publisher or speaker of any information provided by a third-party content provider. This safe harbor has been interpreted to exempt certain activities of providers of Internet services. Our activities may prevent us from being able to take advantage of this safe harbor provision. Any claims brought against us in this respect may have a material and adverse effect on our business.

PRIVACY CONCERNS

The Federal Trade Commission (FTC) has adopted regulations and guidelines regarding the collection and use of personally identifiable consumer information obtained from individuals when accessing Web sites, with particular emphasis on access by minors. Such regulations include requirements that companies establish certain procedures to, among other things:

give adequate notice to consumers regarding the type of information collected and disclosure practices;

provide consumers with the ability to have personally identifiable information deleted from a company's database;

provide consumers with access to their personal information and with the ability to rectify inaccurate information;

notify consumers of changes to policy and procedure for the use of personally identifiable information;

clearly identify affiliations with third parties that may collect information or sponsor activities on a company's Web site; and

obtain express parental consent prior to collecting and using personal identifying information obtained from children under 13 years of age.

Index to Financial Statements

These regulations also include enforcement and redress provisions. We have implemented and intend to continue to implement programs designed to enhance the protection of the privacy of our visitors and comply with these regulations. However, the FTC's regulatory and enforcement efforts may adversely affect our ability to collect personal information from visitors and customers and therefore limit our marketing efforts.

TRADE PRACTICES REGULATIONS

The FTC and certain states' regulatory authorities regulate advertising and consumer matters such as unfair and deceptive trade practices. The FTC renewed its focus on claims made in weight-loss advertisements, announcing for example in December 2003 an education campaign to assist media in voluntarily screening out weight-loss product advertisements containing claims that are too good to be true. In addition, the state of Florida, where our corporate offices are located, regulates certain marketing and disclosure requirements for weight loss providers. The nature of our interactive Internet activities may subject us to similar legislation in a number of other states. Although we intend to conduct our operations in compliance with applicable regulatory requirements and continually review our operations to verify compliance, we cannot ensure that aspects of our operations will not be reviewed and challenged by the regulatory authorities and that if challenged that we would prevail. Furthermore, we cannot ensure that new laws or regulations governing weight loss and nutrition services providers will not be enacted, or existing laws or regulations interpreted or implied in the future in such way as to cause harm to our business.

In addition, while we receive most of our revenue from membership subscriptions, we also rely at least in part on advertising revenue. Many of these advertisements are weight-loss related. Any regulations or enforcement actions that adversely affect the companies which advertise on our Web site may indirectly have an adverse effect on us through either lower advertising budgets at those companies, redirected marketing campaigns or restrictions on the type of advertisements that these companies run.

COMMERCIAL E-MAIL REGULATION

As an Internet-based company, we rely to varying degrees on online advertising and e-mail in our marketing efforts. The use of e-mail advertising may become less effective in the future for a number of reasons. Some of these reasons are regulatory, as legislators attempt to address problems related to perceived deceptive practices in unsolicited bulk e-mails. For example, the federal CAN-SPAM Act of 2003, which became effective January 1, 2004, places requirements on certain commercial e-mail activity relating to, among other things, making conspicuous and effective opt-out procedures available to the recipient and the identification and location of the sender. We have implemented procedures to ensure compliance with the federal CAN-SPAM Act of 2003, but future legislation or regulatory developments under existing laws may have a negative impact on our ability to advertise by e-mail. E-mail advertising also may become less effective in the future for non-regulatory reasons, including the sheer volume of unsolicited e-mail being received, increased use of "white lists" through which only pre-approved sender addresses are not filtered, and other e-mail filtering systems which may become more robust in response to recent viruses and worms circulating on the Internet.

Furthermore, we cannot provide any assurance that future regulation of commercial e-mail will not also impose significant costs or restrictions on even subscriber-based or "opt-in" e-mail services such as our newsletter service. As part of the public debate on commercial e-mail regulations, for example, some have advocated an electronic stamp program applicable to commercial e-mail generally, and it is unclear what exceptions, if any, there would be under such a program for a periodic newsletter service such as ours if such a program were passed as legislation.

REGULATION BY OTHER JURISDICTIONS

Due to the global nature of the Internet, it is possible that, although transmissions by us over the Internet originate primarily in the United States, the governments of other foreign countries might attempt to regulate our transmissions or prosecute us for violations of their laws. These laws may be modified, or new laws enacted, in the future. We may unintentionally violate these laws to the extent that our transmissions are sent to or made available in these jurisdictions. Like domestic regulations that may apply to our activities, even if compliance is possible the cost of compliance may be burdensome. Any of these developments could cause our business to suffer. In addition, as our service is available over the Internet in multiple states and foreign countries, these jurisdictions may claim that we are required to qualify to do business as a foreign corporation in each state or foreign country. We have not qualified to do business as a foreign corporation in any jurisdiction, except Florida. This failure by us to qualify as a foreign corporation in a jurisdiction where we are required to do so could subject us to taxes and penalties and could result in our inability to enforce contracts in such jurisdictions.

Index to Financial Statements

Company Information

General information about us can be found at <http://www.ediets.com/company/AbouteDiets.jsp>. We make available our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to these reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended (the Exchange Act) as soon as reasonably practicable after we electronically file such materials with the Securities and Exchange Commission, free of charge on our website.

Information contained on our website, or on any other website mentioned in this Annual Report, is not incorporated by reference in this Annual Report and does not constitute a part of this Annual Report.

We currently employ approximately 50 employees, 48 of which are full time employees.

General Development of the Business

The predecessor to eDiets was incorporated in the State of Delaware in March 1996 under the name Self-help Technologies, Inc. The Company's mission was, and remains, to provide solutions that help individuals to realize their full potential. Initially, the product developed and promoted was personalized diet programs for direct to consumer sales at in-store locations such as grocery stores. However, we quickly shifted our promotional strategy to online direct to consumer sales as consumer acceptance and usage of the Internet began to accelerate.

Much of 1996 and 1997 were spent in developing a software platform that facilitates the production of individualized meal plans and shopping lists using a specific mathematical algorithm, which takes into account such criteria as the user's physical condition, proclivity to exercise, food preferences, cooking preferences, desire to use pre-packaged meals or dine out, among others.

We sold our first online diet program in 1998 and continued to market memberships through modest online advertising arrangements with several leading Internet portals throughout 1998 and 1999. These advertising arrangements were enhanced in February 1999 when our founder and then Chief Executive Officer, David Humble, completed the development of software that measures consumer response to marketing, pricing and other elements of a direct marketing campaign. Mr. Humble has granted the Company a perpetual royalty-free license for this technology for use in the scope of its current business.

In November 1999, eDiets merged into a newly-created, wholly-owned subsidiary of Olas, Inc., a publicly-traded company of which substantially all of the operating assets had been sold in 1995. Olas, Inc. then changed its name to eDiets.com, Inc. Following the merger, in November and December 1999 eDiets completed a private placement of common stock and warrants that generated approximately \$6.3 million in net proceeds to the Company. Beginning in early 2000, we primarily used the proceeds from this financing to fund online advertising expenditures that significantly increased in the Company's base of paying subscribers.

In 2003, we implemented a strategy to obtain exclusive licenses for the intellectual property associated with a variety of third party nutrition and fitness approaches and to offer personalized versions of these approaches in addition to our own internally-developed plans all at one web location.

In 2006, we started to diversify our revenue streams by entering the business-to-business nutrition space with the acquisition of Nutrio.com, Inc. (Nutrio) and also with our launch of a nationwide diet meal delivery service.

Seasonality: We typically experience our weakest click-through and conversion rates during our fiscal fourth quarter due to the November-December holiday season, and we moderate our advertising expenditures accordingly.

ITEM 1A. RISK FACTORS

You should carefully review and consider the following risks as well as all other information contained in this Annual Report on Form 10-K, including our financial statements and the notes to those statements. The following risks and uncertainties are not the only ones facing us. Additional risks and uncertainties of which we are currently unaware or which we believe are not material also could materially adversely affect our business, financial condition, results of operations, or cash flows. To the extent any of the information contained in this annual report constitutes forward-looking information, the risk factors set forth below are cautionary statements identifying important factors that could cause our actual results for various financial reporting periods to differ materially from those expressed in any forward-looking statements made by or on our behalf and could materially adversely affect our financial condition,

results of operations or cash flows. These risk factors are not necessarily listed in terms of their importance or level of risk.

Index to Financial Statements

We have experienced recurring operating losses and our liquidity has been significantly reduced, and we expect to continue incurring losses in the future.

For the year ended December 31, 2010, we had a net loss of \$43.3 million and used \$6.9 million of cash in operations. As of December 31, 2010, we had an accumulated deficit of \$103.4 million and a total stockholders' deficit of \$2.0 million. As of December 31, 2010 and February 28, 2011 we had unrestricted cash of \$0.5 million and \$1.6 million, respectively.

Due to uncertainty about our ability to meet our current operating expenses and capital expenditures, in their report on our annual financial statements for the year ended December 31, 2010, our independent registered public accounting firm included an explanatory paragraph regarding our ability to continue as a going concern. We may not achieve profitability in the future, and even if we do, we may not be able to sustain being profitable.

We will be required to raise additional funds to finance our operations and remain a going concern; we may not be able to do so when necessary, and/or the terms of any financings may not be advantageous to us.

The continuation of our business is dependent upon raising additional financial support. In light of our results of operations, management has and intends to continue to evaluate various possibilities. These possibilities include: raising additional capital through the issuance of common or preferred stock, securities convertible into common stock, or secured or unsecured debt, selling one or more lines of business, or all or a portion of the Company's assets, entering into a business combination, reducing or eliminating operations, liquidating assets, or seeking relief through a filing under the U.S. Bankruptcy Code. These possibilities, to the extent available, may be on terms that result in significant dilution to our existing stockholders.

Management has plans to seek additional capital through a private placement and public offering of its common stock during 2011. There can be no assurances that we will be successful in raising additional cash to finance operations. If we are not successful, we will be required to reduce operations and/or liquidate assets and/or seek relief through a filing under the U.S. Bankruptcy Code. The Company's consolidated financial statements do not include any adjustments relating to the recoverability of assets and classification of assets and liabilities that might be necessary should we be unable to continue as a going concern.

If we fail to continue to meet all applicable Nasdaq Capital Market requirements, our stock could be delisted by the Nasdaq Capital Market. If delisting occurs, it would adversely affect the market liquidity of our common stock and harm our businesses.

Our common stock is currently traded on The Nasdaq Capital Market (Nasdaq) under the symbol DIET. If we fail to meet any of the continued listing standards of Nasdaq, our common stock could be delisted from Nasdaq. These continued listing standards include specifically enumerated criteria, such as:

a \$1.00 minimum closing bid price;

shareholders' equity of \$2.5 million, market value of publicly-held shares of \$35 million, or net income from continuing operations of \$500,000 in the most recently completed fiscal year or in two of the last three most recently completed fiscal years;

500,000 shares of publicly-held common stock with a market value of at least \$1 million;

300 round-lot stockholders; and

compliance with Nasdaq's corporate governance requirements, as well as additional or more stringent criteria that may be applied in the exercise of Nasdaq's discretionary authority.

Index to Financial Statements

On June 28, 2010, we received a notice of non-compliance with Nasdaq's continued listing standard relating to the \$1.00 minimum closing bid price requirement. When we were unable to regain compliance during an initial period of 180 calendar days, a Nasdaq hearing panel provided us with an additional period of time, until June 28, 2011, to regain compliance. If the bid price of our common stock does not close at \$1.00 per share for at least ten consecutive days prior to June 28, 2011, our common stock will be subject to immediate de-listing from Nasdaq. In addition, we received a second notice of non-compliance with Nasdaq's continued listing standard relating to the requirement that we maintain a market capitalization of at least \$35.0 million. We have a period of 180 calendar days, until August 1, 2011, to regain compliance with the Nasdaq market capitalization rule. If our common stock is delisted, we cannot provide any assurance that our securities will be quoted on any other quotation service, such as the over the counter bulletin board or the pink sheets quotation services. The delisting of our securities may adversely affect the liquidity and market price of our common stock and adversely impact our future access to the capital markets. Such delisting could also adversely affect our ability to obtain financing for the continuation of our operations and could result in the loss of confidence by investors, suppliers and employees.

We have no long-term credit facility or other source of long-term funding other than \$1.0 million in Notes held by an officer and directors of our Company (the Director Notes), and as of December 31, 2010, we had approximately \$7,000 in accrued interest on the Director Notes that will mature on December 31, 2011.

We have no long-term credit facility or other source of long-term funding other than the Director Notes which represent: (i) a promissory note to Kevin A. Richardson II, one of the Company's directors and an officer of Prides Capital Partners, LLC (Prides), pursuant to which the Company borrowed \$600,000, (ii) a promissory note to Lee S. Isgur, one of the Company's directors, pursuant to which the Company borrowed \$200,000 and (iii) a promissory note to Kevin N. McGrath, one of the Company's directors and the Company's President and Chief Executive Officer pursuant to which the Company borrowed \$200,000. The Director Notes mature on December 31, 2011 at which time we must repay the original principal amount of \$1.0 million, together with accrued interest of approximately \$57,000. We do not believe that our cash flows from operations alone will be sufficient to support repayments and otherwise satisfy our repayment obligation under these Director Notes. Furthermore, even if we are able to refinance or extend the Director Notes, we will need additional financing to continue our operations. Based on our current financial condition, we may be unable to obtain such financing on commercially reasonable terms if at all. If we are unable to obtain third party financing, we will be required to pursue one or more alternative strategies, such as seeking additional equity capital, reducing operations, liquidating assets, or seeking relief through a filing under the U.S. Bankruptcy Code. Any such actions could adversely affect our financial condition and the value of our common stock.

Economic conditions are adversely affecting consumer discretionary spending and may continue to negatively impact our business and operating results.

Because our meal delivery offerings consist of freshly prepared meals, they are priced higher than our major competitors such as Nutrisystem and Jenny Craig. The success of our meal delivery business is therefore dependent on customers' willingness and ability to invest a larger percentage of discretionary spending in our meal delivery products than may be required with our competitors' products. Because discretionary spending is influenced by general economic conditions, consumer confidence and the availability of discretionary income, a protracted economic slowdown, increased unemployment, decreased salaries and wage rates, increased energy prices, inflation, rising interest rates or other industry-wide cost pressures adversely affect consumer behavior and decrease consumer discretionary spending. A decline in our customers' discretionary spending could adversely affect our business, financial condition, operating results and cash flows. If this difficult economic situation continues for a prolonged period of time or deepens in magnitude, our business and results of operations could be materially affected.

We may be forced to enter into business combinations and strategic alliances on unfavorable terms which may disrupt our business.

In order to continue our business, we may be required to enter into asset sales, business combinations, investments, joint ventures or other strategic alliances with other companies. To the extent we are able to find a purchaser or other joint venturer, due to our weak financial and operating condition, these transactions may be on highly unfavorable terms, which may materially adversely affect or eliminate the value of our common stock. If we are unable to consummate a transaction of this type, we may be required to cease operations.

Our future growth and profitability will depend in large part upon the effectiveness and efficiency of our marketing expenditures and our ability to select the right markets and media in which to advertise.

Our future growth and profitability will depend in large part upon the effectiveness and efficiency of our marketing expenditures, including our ability to:

Edgar Filing: EDIETS COM INC - Form 10-K

create greater awareness of our brand and our program;

identify the most effective and efficient level of spending in each market, media and specific media vehicle;

Index to Financial Statements

determine the appropriate creative message and media mix for advertising, marketing and promotional expenditures;

effectively manage marketing costs (including creative and media) in order to maintain acceptable customer acquisition costs;

select the right market, media and specific media vehicle in which to advertise; and

convert consumer inquiries into actual orders.

Our planned marketing expenditures may not result in increased revenue or generate sufficient levels of brand name and program awareness. We may not be able to manage our marketing expenditures on a cost-effective basis whereby our customer acquisition cost may exceed the contribution profit generated from each additional customer.

As the largest stockholder, Prides has significant influence over our company.

As of March 25, 2011, Prides owned approximately 60.7% of our outstanding voting common stock based upon 61,230,338 shares outstanding. Therefore, as a practical matter, Prides has significant influence over the outcome of any shareholder vote, including the election of directors and the approval of mergers or other business combination transactions. Additionally, concentration of control in one stockholder may discourage potential investors from providing additional financing if we need it. Prides initially acquired our common stock under the terms of a 2006 Securities Purchase Agreement (the "Company Purchase Agreement"). The Company Purchase Agreement affords Prides certain participation rights and anti-dilution protections which could make it more difficult for us to obtain additional financing or to effect a merger or other business combination transaction. In addition, under the terms of the Company Purchase Agreement, as long as Prides owns at least 5% of our outstanding common stock, the following require the approval of a majority vote of our board of directors, which majority must include at least one Prides director:

authorize, create, designate, establish or issue any other class or series of capital stock ranking senior to our capital stock as to dividends or upon liquidation, or reclassification of any shares of our capital stock into shares having any preference or priority as to dividends or upon liquidation superior to any such preference or priority of our common stock;

adopt a plan for the liquidation, dissolution or winding up of the affairs of our company or any recapitalization plans;

amend, alter or repeal, whether by merger, consolidation or otherwise our Certificate of Incorporation;

alter or change the rights, preferences or privileges of our common stock or the warrants issued to Prides; or

directly or indirectly, declare or pay any dividend (other than dividends payable in shares of our common stock) or directly or indirectly purchase, redeem, purchase or otherwise acquire any share of our common stock (except for shares of our common stock repurchased from current or former employees, consultants, or directors upon termination of service in accordance with plans approved by our board of directors (whether in cash, securities or property or in our obligations).

We face significant competition.

Competition is intense in the weight management industry and we must remain competitive in the areas of program efficacy, price, taste, customer service and brand recognition. In addition to Weight Watchers® International, Inc., Waterfront Media, Inc. and NutriSystem, Inc. we currently compete with several Internet sites which provide diet and nutrition information, including WeightWatchers.com. We know of several other online competitors aggressively marketing online programs which may be somewhat similar to ours, including some that are offered at no charge to the customer.

Edgar Filing: EDIETS COM INC - Form 10-K

Increased competition and a proliferation of free online diet plans could result in reductions in the prices we receive for our programs, lower margins, loss of customers and reduced visitor traffic to our Website.

Several of our existing competitors and potential competitors have longer operating histories, greater name recognition and significantly greater financial, technical and marketing resources and may be able to devote greater resources for the development and promotion of their services and products. These competitors may also engage in more extensive marketing and advertising efforts, adopt more aggressive pricing policies and make more attractive offers to advertisers and alliance partners. Accordingly, we may not be able to compete successfully.

We rely on third parties to provide us with adequate food supply and certain fulfillment, the loss of which could cause our revenue, earnings or reputation to suffer.

Food Manufacturer. We currently depend on one third party meal delivery vendor for manufacture and fulfillment of our prepared meals. If we are unable to obtain sufficient quantity, quality and variety of food and fulfillment of customer orders in a timely and low-cost manner from this manufacturer, we will be unable to adequately fulfill our customers' orders which would adversely affect our operating results and damage the value of our brand.

Freight and Fulfillment. Our orders are shipped by one third-party, United Parcel Service, Inc. (UPS). Should UPS be unable to service our needs for even a short duration, our revenue and business could be harmed. Additionally, the cost and time associated with

Index to Financial Statements

replacing UPS on short notice would add to our costs. Any replacement fulfillment provider would also require startup time, which could cause us to lose sales and market share.

Therefore, we are dependent on maintaining good relationships with these third parties. The services we require from these parties may be disrupted by a number of factors associated with their businesses, including the following:

labor disruptions;

delivery problems;

financial condition of operations;

internal inefficiencies;

equipment failure;

natural or man-made disasters; and

with respect to our food supplier, shortages of ingredients or United States Department of Agriculture (USDA) and United States Food and Drug Administration (FDA) compliance issues.

Index to Financial Statements

We depend heavily on our network infrastructure and its failure could result in unanticipated expenses and prevent our subscribers from effectively utilizing our services, which could negatively impact our ability to attract and retain subscribers and advertisers.

Our ability to successfully create and deliver our content depends in large part on the capacity, reliability and security of our networking hardware, software and telecommunications infrastructure. Failures of our network infrastructure could result in unanticipated expenses to address such failures and could prevent our subscribers from effectively utilizing our services, which could prevent us from retaining and attracting subscribers and advertisers. The hardware infrastructures on which our system operates are located in Saint Louis, Missouri and Lithia Springs, Georgia. We do not currently have a formal disaster recovery plan. Our system is susceptible to natural and man-made disasters, including war, terrorism, earthquakes, fires, floods, power loss and vandalism. Further, telecommunications failures, computer viruses, electronic break-ins or other similar disruptive problems could adversely affect the operation of our systems. Our insurance policies may not adequately compensate us for any losses that may occur due to any damages or interruptions in our systems. Accordingly, we could incur capital expenditures in the event of unanticipated damage.

In addition, our subscribers depend on Internet service providers, or ISPs, for access to our Website. In the past, ISPs and Websites have experienced significant system failures and could, in the future, experience outages, delays and other difficulties due to system failures unrelated to our systems. These problems could harm our business by preventing our subscribers from effectively utilizing our services.

Problems with the performance and reliability of the Internet infrastructure could adversely affect the quality and reliability of the services we offer our subscribers and advertisers.

We depend significantly on the Internet infrastructure to deliver attractive, reliable and timely e-mail messages to our subscribers. If Internet usage grows, the Internet infrastructure may not be able to support the demands placed on it by this growth, and its performance and reliability may decline, which could adversely affect our ability to sustain revenue growth. Among other things, continued development of the Internet infrastructure will require a reliable network backbone with necessary speed, data capacity and security. Currently, there are regular failures of the Internet network infrastructure, including outages and delays, and the frequency of these failures may increase in the future. These failures may reduce the benefits of our services to our subscribers and undermine our advertising partners' and our subscribers' confidence in the Internet as a viable commercial medium. In addition, the Internet could lose its viability as a commercial medium due to delays in the development or adoption of new technology required to accommodate increased levels of Internet activity or due to government regulation. These factors could adversely affect our business by adversely affecting the quality and reliability of the services we offer our customers.

The unauthorized access of confidential member information that we transmit over public networks could adversely affect our ability to attract and retain subscribers.

Our subscribers transmit confidential information to us over public networks, and the unauthorized access of such information by third parties could harm our reputation and significantly hinder our efforts to attract and retain subscribers. We rely on a variety of security techniques and authentication technology licensed from third parties to provide the security and authentication technology to effect secure transmission of confidential information, including customer credit card numbers. Advances in computer capabilities, new discoveries in the field of cryptography or other developments may result in a compromise or breach of the technology we use to protect customer transaction data and adversely affect our ability to attract and retain customers.

Because of volatility in the advertising markets which we target, we may not be able to effectively attract and retain subscribers.

We are currently dependent in large part on the online advertising market to attract and retain subscribers to our digital plans and meal delivery service. We expect competitive pressures to continue to increase in the future which may result in higher costs in the online advertising market, thereby significantly impacting our costs to acquire and retain subscribers. Although we are currently developing alternative channels of customer acquisition, including television, print and radio advertising, there can be no assurance that these measures will as effectively attract and retain subscribers as have our online advertising programs in the past.

We may have to litigate to protect our rights or to defend claims brought against us by third parties, and such litigation may subject us to significant liability and be time consuming and expensive.

We face a substantial risk of litigation, including litigation regarding intellectual property rights in Internet-related businesses. Legal standards relating to the validity, enforceability and scope of protection of certain proprietary rights in Internet-related businesses are uncertain and still evolving. We may have to litigate in the future to enforce our intellectual property rights, protect our trade secrets or defend ourselves against claims of violating the proprietary rights of third parties.

Edgar Filing: EDIETS COM INC - Form 10-K

We also face the risk of having to defend against lawsuits brought by third parties related to our business activities. For example, we depend heavily on Internet advertising, and we have been involved in both civil litigation and administrative proceedings arising out

Index to Financial Statements

of pop-up ads and other advertising practices, in both cases brought by one of our competitors. If the outcome of similar proceedings that we may face in the future were to make certain types of advertising unavailable to us, then our marketing may become less effective and our financial results could suffer.

Any of this type of litigation may subject us to significant liability for damages, result in invalidation of our proprietary rights, be time-consuming and expensive to defend, even if not meritorious, and result in the diversion of management time and attention. Any of these factors could adversely affect our business operations and financial results and condition.

If we pursue competitive advertising, we may be subject to litigation from our competitors.

If we pursue competitive advertising, our competitors may pursue litigation regardless of its merit and chances of success. Competitive advertising may include advertising that directly or indirectly mentions a competitor or a competitor's weight loss program in comparison to our program. Defending such litigation may be lengthy and costly, strain our resources and divert management's attention from their core responsibilities, which would have a negative impact on our business.

We may be subject to health-related claims from our customers.

Our weight loss program does not include medical treatment or medical advice, and we do not engage physicians or nurses to monitor the progress of our customers. Many people who are overweight suffer from other physical conditions, and our target consumers could be considered a high-risk population. A customer who experiences health problems could allege or bring a lawsuit against us on the basis that those problems were caused or worsened by participating in our weight management program. Currently, we are neither subject to any such allegations nor have we been named in any such litigation. However, if we were, we would defend ourselves against such claims. Defending ourselves against such claims, regardless of their merit and ultimate outcome, would likely be lengthy and costly, and adversely affect our results of operations. Further, our general liability insurance may not cover claims of these types.

If we cannot protect and enforce our trademarks and other intellectual property rights, our brand and our business will suffer.

We believe that our trademarks and other proprietary rights are important to our success and competitive position. The actions we take to establish and protect our trademarks and other proprietary rights may prove to be inadequate to prevent imitation of our products or services or to prevent others from claiming violations of their trademarks and proprietary rights by us. In addition, others may develop similar trademarks or other intellectual property independently or assert rights in our trademarks and other proprietary rights. If so, third parties may seek to block or limit sales of our products and services based on allegations that use of some of our marks or other intellectual property constitutes a violation of their intellectual property rights. If we cannot protect our trademarks and other intellectual property rights, or if our trademarks or other intellectual property rights infringe upon the rights of third parties, the value of our brand may decline, which would adversely affect our results of operations.

Our industry is subject to governmental regulation that could increase in severity and hurt results of operations.

Our industry is subject to federal, state and other governmental regulation. For example, some advertising practices in the weight loss industry have led to investigations from time to time by the FTC and other governmental agencies. Many companies in the weight loss industry have entered into consent decrees with the FTC relating to weight loss claims and other advertising practices. The FTC has recently published revisions to its Guides Concerning the Use of Endorsements and Testimonials in Advertising. Among other things, the revised Guides require us to monitor the activities of bloggers and other third parties over whom we have limited control. Our inability to do so effectively could lead the FTC to bring administrative or legal action against us. Further, the revised Guides significantly affect our ability to advertise the successes our customers have achieved in losing weight through our programs. For example, we are no longer able to include the phrase "results not typical" in advertisements describing our customers' successes. Uncertainties surrounding the application of the revised Guides may adversely affect our ability to advertise our programs effectively and may require us to incur significant additional costs. In addition, regulation of advertising practices in the weight loss industry may increase in scope or severity in the future, which could have a material adverse impact on our business.

Index to Financial Statements

Other aspects of our industry are also subject to government regulation. For example, food manufacturers are subject to rigorous inspection and other requirements of the USDA and FDA. If federal, state or local regulation of our industry increases for any reason, then we may be required to incur significant expenses, as well as modify our operations to comply with new regulatory requirements, which could harm our operating results. Additionally, remedies available in any potential administrative or regulatory actions may include requiring us to refund amounts paid by all affected customers or pay other damages, which could be substantial.

Laws and regulations that apply to Internet communications, commerce and advertising are becoming more prevalent and these laws and regulations could significantly increase the costs we incur in using the Internet to conduct our business. The United States Congress has recently enacted Internet legislation regarding children's privacy, commercial email, copyright and taxation. The European Union has recently adopted a directive addressing data privacy that may result in limits on the collection and use of member information. A number of other laws and regulations, including those at the state or local level, may be adopted that regulate the use of the Internet. These may include laws addressing user privacy, pricing, acceptable content, taxation, use of the telecommunications infrastructure, commercial email and quality of products and services. The laws governing the Internet remain largely unsettled, even in areas where there has been some legislative action. It may take years to determine whether and how existing laws, including those governing intellectual property, privacy, libel and taxation apply to the Internet and Internet advertising. In addition, the growth and development of the market for Internet commerce may prompt calls for more stringent consumer protection laws, both in the United States and abroad, that may impose additional burdens on companies conducting business over the Internet. As a result of these uncertainties, we may incur unanticipated, significant costs and expenses that could impact our financial results and condition.

We may effect a reverse stock split to avoid our common stock being delisted from the Nasdaq Capital Market.

We may effect a reverse stock split in order to avoid being delisted from the Nasdaq Capital Market. However, while we expect that the resulting reduction in our outstanding shares of common stock will increase the market price of our common stock, we cannot assure you that the reverse stock split will increase the market price of our common stock by a multiple equal to the number of pre-split shares in the reverse split ratio, or result in any permanent increase in the market price. In some cases the stock price of companies that have effected reverse stock splits has subsequently declined back to pre-reverse split levels. A reverse stock split is often viewed negatively by the market and, consequently, could lead to a decrease in our overall market capitalization.

Our recent restructuring plan may adversely affect our ability to react to business developments and manage our business.

In order to manage our expenses and reduce our use of our limited cash, we have recently implemented a reduction in force which significantly reduced the number of employees that we employed. However, this reduction may adversely affect our ability to react to business developments, grow our revenue or manage our business, which would adversely affect the financial condition of the Company and the value of our common stock.

The price of our common stock is likely to be volatile.

In the past year, our stock has closed at prices ranging from a high of \$1.44 on March 30 and 31, 2010, to a low of \$0.3349 on February 8, 2011. We expect our market price to continue to be extremely volatile. The market price of our common stock is also subject to fluctuations in response to general trends in the weight loss industry, seasonality, announcements by our competitors, our ability to meet or exceed securities analysts' expectations, recommendations by securities analysts, the condition of the financial markets and other factors. In addition, short-term trading strategies of certain investors can also have a significant effect on the price of specific securities and the concentration of ownership of our stock could lead to heightened volatility even if relatively few shares are traded. These fluctuations, as well as general economic and market conditions, may adversely affect the market price of our common stock and cause it to fluctuate significantly.

The exercise of warrants or options may depress our stock price.

There are a significant number of warrants and options to purchase our common stock outstanding at prices ranging from \$0.3535 to \$6.07 per share. Holders may sell the common stock acquired upon exercise of the warrants and options at a market price that exceeds the exercise price of the warrants and options paid by the holders. Sales of a substantial number of shares of common stock in the public market by holders of warrants or options may depress the prevailing market price for our common stock and could impair our ability to raise capital through the future sale of our equity securities.

We do not expect to pay dividends.

Edgar Filing: EDIETS COM INC - Form 10-K

We have never paid any cash dividends on our common stock, and we do not anticipate paying any cash dividends in the foreseeable future. We currently intend to retain any future earnings for use in the business. Therefore, you may not receive any return on an investment in our common stock in the form of dividends.

Index to Financial Statements

We have authorized but unissued preferred stock, which could affect rights of holders of our common stock.

Our certificate of incorporation authorizes the issuance of preferred stock with designations, rights and preferences determined from time to time by our board of directors. Accordingly, our board of directors is empowered, without shareholder approval, to issue preferred stock with dividends, liquidation, conversion, voting or other rights that could adversely affect the voting power or other rights of the holders of common stock. In addition, the preferred stock could be issued as a method of discouraging a takeover attempt. Although we do not intend to issue any preferred stock at this time, we may do so in the future.

We will need to keep pace with rapid technological change in the e-commerce and Internet subscription diet and wellness plan industries.

In order to remain competitive, we will be continually required to enhance and to improve the functionality and features of our subscription products and website, which could require us to invest significant capital. If our competitors introduce new products and services embodying new technologies, or if new industry standards and practices emerge, our existing services, technology, and systems may become obsolete and we may not have the funds or technical know-how to upgrade our services, technology, and systems. We may face material delays in introducing new services, products, and enhancements. If such delays occur, our users may forego use of our services and select those of our competitors, in which event, our business, prospects, financial condition and results of operations could be materially adversely affected.

The sale of prepared meals and nutritional supplements involves product liability and other risks.

We face an inherent risk of exposure to product liability claims if the use of our prepared meal delivery products and nutritional supplements results in illness or injury. We are subject to various laws and regulations, including those administered by the United States Department of Agriculture and Food and Drug Administration, that establish manufacturing practices and quality standards for food products. We may be subject to claims that our products contain contaminants, are improperly labeled, include inadequate instructions as to use or inadequate warnings. Product liability claims could have a material adverse effect on our business as our contract indemnification rights and existing insurance coverage may not be adequate. Distributors of food products, vitamins, and nutritional supplements are frequently named as defendants in product liability lawsuits. The successful assertion or settlement of an uninsured claim, a significant number of insured claims or a claim exceeding the limits of our insurance coverage would harm us by adding costs to the business and by diverting the attention of senior management. Product liability litigation or regulatory action, even if not meritorious, is very expensive and could also entail adverse publicity for us and reduce our revenue.

Provisions in our certificate of incorporation may deter or delay an acquisition of us or prevent a change in control, even if an acquisition or a change of control would be beneficial to our stockholders.

Provisions of our certificate of incorporation may have the effect of deterring unsolicited takeovers or delaying or preventing a third party from acquiring control of us, even if our stockholders might otherwise receive a premium for their shares over then current market prices. In addition, these provisions may limit the ability of stockholders to approve transactions that they may deem to be in their best interests.

Our certificate of incorporation permits our Board of Directors to issue preferred stock without stockholder approval upon such terms as the Board of Directors may determine. The rights of the holders of our common stock may be junior to, and may be adversely affected by, the rights of the holders of any preferred stock that may be issued in the future. The issuance of preferred stock could have the effect of making it more difficult for a third party to acquire, or of discouraging a third party from acquiring, a majority of our outstanding common stock. The issuance of a substantial number of preferred shares could adversely affect the price of our common stock.

We rely on qualified, key executive management personnel.

The success of our business will also depend on our ability to hire and retain additional qualified key executive management personnel, particularly in the marketing, administrative and financial areas. If we are unable to attract and retain additional qualified personnel, our business could suffer.

Changes in consumer preferences could negatively impact our operating results.

Our program features pre-packaged food selections, which we believe offer convenience and value to our customers. Our continued success depends, to a large degree, upon the continued popularity of our program versus various other weight loss, weight management and fitness regimens, such as low carbohydrate diets, appetite suppressants and diets featured in the published media. Changes in consumer tastes and preferences away from our weight loss oriented meal delivery service and digital weight-loss programs, and any failure to provide innovative responses to these changes, may have a materially adverse impact on our business, financial condition, operating results, cash flows and

prospects.

Index to Financial Statements**ITEM 1B. UNRESOLVED STAFF COMMENTS**

None.

ITEM 2. PROPERTIES

Our employees operate out of our leased facility of approximately 20,000 square feet in Fort Lauderdale, Florida. Our lease is due to expire in September 2016. The aggregate current monthly rental, including lessor leasehold improvements repayment obligations and pro-rated share of common area facilities expenses, is approximately \$53,000.

ITEM 3. LEGAL PROCEEDINGS

We are involved in various claims and legal actions arising in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on our consolidated financial position, results of operations, or liquidity.

ITEM 4. RESERVED**PART II****ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES**

Our common stock trades on The Nasdaq Capital Market under the symbol "DIET". The following table sets forth the high and the low sales prices for the common stock as quoted on The Nasdaq Capital Market for the periods indicated.

	LOW	HIGH
YEAR ENDED DECEMBER 31, 2010:		
Fourth quarter	\$ 0.46	\$ 0.99
Third quarter	\$ 0.57	\$ 0.92
Second quarter	\$ 0.68	\$ 1.52
First quarter	\$ 1.11	\$ 2.00
YEAR ENDED DECEMBER 31, 2009:		
Fourth quarter	\$ 1.10	\$ 1.78
Third quarter	\$ 0.71	\$ 3.06
Second quarter	\$ 0.85	\$ 1.90
First quarter	\$ 0.98	\$ 3.44

As of March 4, 2011, there were approximately 86 holders of record of our common stock. This number does not include the number of persons whose stock is held in nominee or "street name" accounts through brokers.

We have never declared or paid cash dividends. We currently intend to retain any earnings for use in the business and do not anticipate paying any cash dividends on our capital stock in the foreseeable future.

ITEM 6. SELECTED FINANCIAL DATA

The following table summarizes certain selected consolidated financial data of the Company as of, and for each of the years in the five-year period ended December 31, 2010. The selected consolidated financial data has been derived from our audited Consolidated Financial Statements. The selected consolidated financial data should be read in conjunction with our "Management's Discussion and Analysis of Financial Condition and Results of Operations" and our Consolidated Financial Statements and Notes included in this Annual Report.

**ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
RESULTS OF OPERATIONS****Going concern and continuing operations**

Our consolidated financial statements have been prepared assuming we will continue as a going concern. For the year ended December 31, 2010, we had a net loss of \$43.3 million and used \$6.9 million of cash in our operations. As of December 31, 2010, we had an accumulated deficit of \$103.4 million and a total stockholders' deficit of \$2.0 million.

In light of our results of operations, we have and intend to continue to evaluate various possibilities, including raising additional capital through the issuance of common or preferred stock, securities convertible into common stock, or secured or unsecured debt, selling one or more of our lines of business or all or a portion of our assets, entering into a business combination, reducing or eliminating operations, liquidating assets, or seeking relief through a filing under the U.S. Bankruptcy Code. These possibilities, to the extent available, may be on terms that result in significant dilution to our existing stockholders.

Due to uncertainty about our ability to meet our current operating expenses and capital expenditures, in their report on our annual financial statements for the year ended December 31, 2010, our independent registered public accounting firm included an explanatory paragraph regarding our ability to continue as a going concern.

Management has plans to seek additional capital through a private placement and public offering of its common stock during 2011. There can be no assurances that we will be successful in raising additional cash to finance operations. If not, we will be required to reduce operations and/or liquidate assets and/or seek relief through a filing under the U.S. Bankruptcy Code. The Company's consolidated financial statements do not include any adjustments relating to the recoverability of assets and classification of assets and liabilities that might be necessary should we be unable to continue as a going concern.

The following table sets forth our results of operations expressed as a percentage of total revenue:

	YEAR ENDED DECEMBER 31,		
	2010	2009	2008
Revenue	100%	100%	100%
Cost of revenue	49	40	52

* Less than 1%

COMPARISON OF THE YEARS ENDED DECEMBER 31, 2010 AND DECEMBER 31, 2009

Revenue: Total revenue for the year ended December 31, 2010 was \$23.4 million, an increase of 29% versus the \$18.1 million recorded for the year ended December 31, 2009.

Index to Financial Statements

Revenue by type for the years ended December 31, 2010 and 2009 is as follows (in thousands):

	2010	2009
Digital plans	\$ 3,745	\$ 4,970
Meal delivery	16,239	7,839
Business-to-business	2,499	4,054
Advertising	212	702
Ecommerce	37	20
Royalties	625	523
	\$ 23,357	\$ 18,108

Digital plans revenue was \$3.7 million and \$5.0 million for the years ended December 31, 2010 and 2009, respectively. Digital plans revenue is driven by the following two factors: the average number of digital plans subscribers and the average weekly fee paid by digital plans subscribers. For the year ended December 31, 2010, the average number of paying subscribers was approximately 15% lower than the corresponding prior year period and the average weekly fees were approximately 3% lower than the corresponding prior year period. Fewer digital plans subscribers were added for the year 2010 compared to 2009. Due to cash constraints and uncertain returns from online advertising, we targeted more of our advertising investments in general to meal delivery. Increased competition, the growth of similar services that are offered for free, economic conditions, and our reduction in online advertising expenditures have all contributed to the decline in subscribers during the last several reporting periods and our current number of subscribers is insufficient to sustain our liquidity. Our advertising is now driving potential customers to our call center rather than visit our website. As a result of these factors and to prevent further decreases in liquidity, we have diversified from a subscription-based model to a more integrated business model that includes the sale of food and other weight-loss products to better capture cross-selling opportunities and leverage our existing customer relationships.

Meal delivery had revenues of \$16.2 million and \$7.8 million, including shipping revenue, in fiscal years 2010 and 2009, respectively, representing an increase of 107% for 2010. The increase in meal delivery revenue for the year ended December 31, 2010 as compared to the year ended December 31, 2009 is directly related to an approximately 115% increase in meals shipped during the twelve months ended December 31, 2010 as compared to the same period of the prior year. We have expanded our meal delivery promotional offerings in order to achieve a higher volume of shipments which impacted our net revenues for 2010. During the year ended December 31, 2010, we increased our offline advertising expense by approximately 258% over the year ended December 31, 2009.

Business-to-business revenues, which are primarily license related revenues, were approximately \$2.5 million and \$4.1 million for the years ended December 31, 2010 and 2009, respectively. During 2009, an eDiets Corporate Services contract was terminated and resulted in the acceleration of approximately \$0.6 million in previously deferred revenue which was recognized during the first quarter of 2009. Additionally, other development revenue decreased during the year ended December 31, 2010 as a result of contracts not being renewed upon expiration in either late 2009 or during 2010. Our current customers are also using less of our consulting and support services compared to 2009, contributing to the business-to-business revenue decline.

Advertising revenue from our website and our newsletter and Ecommerce revenue was approximately \$0.2 million and \$0.7 million for the years ended December 31, 2010 and 2009, respectively. The decrease was due to fewer site visitors who observe third-party banner impressions in 2010 as compared to 2009. The number of visitors to our websites has declined over the last few reporting periods because our advertising is now driving potential customers to our call center rather than our website. We are also allocating a greater share of the website to advertisements for our own products rather than advertisements for other companies' products.

Royalty revenues related to our licensing agreement with Tesco were approximately \$0.6 million and \$0.5 million for the years ended December 31, 2010 and 2009, respectively.

In the future we expect that revenue streams from meal delivery will continue to be a larger share of total revenue as we diversify from a digital subscription-based and licensing-based model to a more integrated business model that better captures cross-selling opportunities and leverages our existing customer relationships.

Cost of Revenue: Total cost of revenue was approximately \$11.4 million for the year ended December 31, 2010 as compared to \$7.2 million for the prior year.

Edgar Filing: EDIETS COM INC - Form 10-K

Cost of revenue by type for the years ended December 31, 2010 and 2009 is as follows (in thousands):

	2010	2009
Digital plans	\$ 515	\$ 863
Meal delivery	10,599	5,912
Business-to-business	130	198

Index to Financial Statements

	2010	2009
Other	180	236
Total cost of revenue	\$ 11,424	\$ 7,209

Consolidated gross margin decreased to approximately 51% for the year ended December 31, 2010 as compared to approximately 60% for the corresponding prior year period. The decrease in the consolidated gross margin for the year ended December 31, 2010 as compared to the same period last year is the result of a shift in revenue mix. The increase in lower-margin meal delivery revenue combined with the decrease in high-margin digital plans revenue and the decrease in high-margin business-to-business revenue during 2010 as compared to 2009 is the reason that consolidated gross margin declined. Gross margin for digital plans increased to approximately 86% for the year ended December 31, 2010 as compared to approximately 83% for the corresponding prior year period. This increase is primarily the result of the continued stabilization of our technology platform, terminating certain revenue share arrangements and a decrease in the amount included within digital plans cost of sales relating to our call center. Meal delivery gross margin increased to approximately 35% for the year ended December 31, 2010 as compared to approximately 25% for the corresponding prior year period. This is the result of continued cost reductions from stabilizing our technology platform, a reduction in product costs and food production efficiencies realized with our primary food vendors, and a reduction in our shipping costs. We anticipate our total gross margin will improve in the future as our efforts to improve the meal delivery margin through reduced food costs and increased shipping efficiencies continue to be realized. Business-to-business gross margin remained flat during year ended December 31, 2010 as compared to the corresponding prior year period.

Cost of digital plans revenue consists primarily of variable costs such as credit card fees and revenue sharing or royalty costs related to the exclusive license agreements with third party nutrition and fitness companies. Other costs include Internet access fees, compensation for nutritional and consulting professionals and depreciation. Cost of digital plans revenue decreased to approximately \$0.5 million for the year ended December 31, 2010 as compared to \$0.9 million in the corresponding prior year period primarily because variable costs declined in conjunction with the decline in subscribers mentioned above.

Cost of meal delivery revenue consists primarily of variable costs such as credit card fees, product costs, fulfillment and shipping costs, as well as costs associated with revenue share arrangements, depreciation and promotional costs. Cost of meal delivery revenue increased to \$10.6 million for the year ended December 31, 2010 from \$5.9 million for the year ended December 31, 2009. Cost of meal delivery revenue increased because the variable costs increased as a result of the increased revenue levels mentioned above.

Cost of business-to-business revenue consists primarily of Internet access fees to support the various Corporate Services customers. Cost of business-to-business revenue was approximately \$0.1 million for the year ended December 31, 2010 and \$0.2 million for the year ended December 31, 2009.

Cost of other revenue consists primarily of Internet serving fees, product and fulfillment costs for ecommerce sales and credit card fees. Cost of other revenue was approximately \$0.2 million and \$0.2 million for the years ended December 31, 2010 and 2009.

Technology and Development: Technology and development expenses consist of payroll and related expenses we incur related to testing, maintaining and modifying our Websites, telecommunication systems and infrastructure and other internal-use software systems. Technology and development expenses also include depreciation of the computer hardware and capitalized software we use to run our Website and store our data. These expenses were approximately \$2.8 million for 2010 as compared to \$3.7 million in 2009. Technology and development compensation expenses were lower during 2010, primarily due to a reduction in headcount.

Sales, Marketing and Support Expense: Sales, marketing and support expenses consist primarily of Internet advertising expenses and compensation for employees in those departments related to promoting our digital and meal delivery subscription plans. These expenses increased to approximately \$14.0 million in 2010 from \$8.9 million in 2009 and represent mainly advertising media expense and compensation expense. The increase is primarily the result of an increase in offline advertising expense. In total, advertising media expense was approximately \$9.0 million in 2010 versus \$3.7 million in 2009. During the first quarter of 2010, we implemented a new offline advertising campaign and we also launched and expensed two new commercials during 2010. The expenses associated with another component of our sales process, our call center, increased as we added staff and incentives to drive higher sales.

General and Administrative Expenses: General and administrative expenses consist primarily of salaries, overhead and related costs for general corporate functions, including professional fees. General and administrative expenses were approximately \$4.6 million for the year ended December 31, 2010 as compared to \$4.9 million in the corresponding prior year period. Overall, in an effort to reduce costs, the Company reduced overall general and administrative compensation expense during 2010. In addition, the current year decrease is also the result of lower professional fees and a reduction in insurance premiums during 2010.

Edgar Filing: EDIETS COM INC - Form 10-K

Amortization of Intangible Assets: Amortization expense relates primarily to the intangible assets acquired in the 2006 Nutrio acquisition. Amortization expense was approximately \$31,000 and \$0.3 million for the years ended December 31, 2010 and 2009, respectively. The reduction in amortization expense during 2010 is the result of certain Nutrio intangibles being completely amortized.

Index to Financial Statements

Impairment of Goodwill and Intangible Assets: During the second quarter of 2010, we performed additional impairment assessments of the U.S. business-to-business reporting unit due to anticipating certain customer contracts that will not be renewed as well as certain new contract opportunities that have been delayed or cancelled due to customer concerns regarding economic uncertainty. As a result, we determined that goodwill and intangible assets, specifically the Nutrio tradename, were fully impaired. This resulted in a non-cash impairment of goodwill and intangible assets of approximately \$6.9 million, which is included in the Consolidated Statement of Operations under Impairment of goodwill and intangible assets during 2010.

Interest Income: Interest income was less than \$0.1 million for the years ended December 31, 2010 and 2009.

Interest Expense: Interest expense decreased to \$2.7 million for the year ended December 31, 2010 as compared to \$5.2 million for the corresponding period of the prior year. Interest expense relates primarily to interest costs and the amortization of discounts and issuance costs recorded in connection with the senior secured notes issued in August 2007, May 2008 and November 2008, which were converted into 22,088,981 shares of our common stock on June 4, 2010.

Interest Expense Incurred With Debt Conversion: In connection with converting our senior secured notes into 22,088,981 shares of our common stock on June 4, 2010, we also adjusted for the remaining balance of the beneficial conversion feature discounts, warrant discounts, and issuance cost discounts which totaled approximately \$1.9 million and additional interest expense incurred relating to the reduction in the original conversion prices totaled approximately \$22.1 million.

Loss on Extinguishment of Related Party Debt: In connection with converting our senior secured notes into 22,088,981 shares of our common stock on June 4, 2010, we also converted a related party note into 506,027 shares of our common stock. We incurred a loss on the extinguishment of this related party note of approximately \$0.2 million during the year ended December 31, 2010.

Income Tax Benefit (Provision): Income tax benefit (provision) of less than \$0.1 million for the years ended December 31, 2010 and 2009 relates to eDiets Europe.

Net Loss: As a result of the factors discussed above, we recorded a net loss of \$43.3 million in 2010 compared to net loss of \$12.1 million for 2009.

COMPARISON OF THE YEARS ENDED DECEMBER 31, 2009 AND DECEMBER 31, 2008

Revenue: Total revenue for the year ended December 31, 2009 was \$18.1 million, a decrease of 24% versus the \$23.9 million recorded for the year ended December 31, 2008.

Revenue by type for the years ended December 31, 2009 and 2008 is as follows (in thousands):

	2009	2008
Digital plans	\$ 4,970	\$ 9,345
Meal delivery	7,839	9,405
Business-to-business	4,054	3,646
Advertising	702	967
Ecommerce	20	40
Royalties	523	532
	\$ 18,108	\$ 23,935

Digital plans revenue was \$5.0 million and \$9.3 million for the years ended December 31, 2009 and 2008, respectively. Digital plans revenue is driven by the following two factors: the average number of digital plans subscribers and the average weekly fee paid by digital plans subscribers. For the year ended December 31, 2009, the average digital plans subscriber base was approximately 29% lower than the corresponding prior year period and the average weekly fees were approximately 3% lower than the corresponding prior year period. Fewer digital plans subscribers were added for the year 2009 compared to 2008. Due to cash constraints and uncertain returns from advertising, we had significantly reduced our spending in both offline campaigns and online advertising, as well as our targeting more of our advertising investments to meal delivery. Increased competition, the growth of similar services that are offered for free, economic conditions, and our reduction in advertising

Edgar Filing: EDIETS COM INC - Form 10-K

expenditures all contributed to the decline in subscribers during the year ended December 31, 2009.

Meal delivery had revenues of \$7.8 million and \$9.4 million, including shipping revenue, in fiscal years 2009 and 2008, respectively, representing a decrease of 17% for 2009. The decrease in meal delivery revenue was related to lower advertising spend during 2009 due to cash constraints.

Index to Financial Statements

Business-to-business revenues, which are primarily license related revenues, were approximately \$4.1 million and \$3.6 million for the years ended December 31, 2009 and 2008, respectively. The increase in revenue was related to consulting and customer service revenues generated from existing customers that eDiets Corporate Services manages.

Advertising revenue from our website and our newsletter was approximately \$0.7 million and \$1.0 million for the years ended December 31, 2009 and 2008, respectively. The decrease was due to fewer site visitors who observe third-party banner impressions in 2009 as compared to 2008. The number of visitors to our websites has declined in 2009. Due to rising online advertising rates, cash constraints and uncertain returns from advertising, we had significantly reduced our spending in both offline campaigns and online advertising, resulting in fewer visitors to our websites.

Royalty revenues related to our licensing agreement with Tesco were approximately \$0.5 million and \$0.5 million for the years ended December 31, 2009 and 2008, respectively.

In the future we expect that revenue streams from revenue sources other than digital plan subscriptions will continue to become a larger share of total revenue as we diversify from a subscription-based model to a more integrated business model that better captures cross-selling opportunities and leverages our existing customer relationships.

Cost of Revenue: Total cost of revenue was approximately \$7.2 million for the year ended December 31, 2009 as compared to \$12.4 million for the prior year.

Cost of revenue by type for the years ended December 31, 2009 and 2008 is as follows (in thousands):

	2009	2008
Digital plans	\$ 863	\$ 2,610
Meal delivery	5,912	9,358
Business-to-business	198	136
Other	236	321
Total cost of revenue	\$ 7,209	\$ 12,425

Gross margin as a percent of revenue increased to 60% for the year ended December 31, 2009 from 48% in the prior year. Gross margin for digital plans increased to 83% from 72% as a result of stabilizing our technology platform and terminating certain revenue share arrangements. Meal delivery gross margin increased to 25% in 2009 as compared to less than 1% for 2008. This was the result of raising the price of our meal delivery service, cost reductions from stabilizing our technology platform, a reduction in food product waste, a reduction in product costs and food production efficiencies realized with one of our primary vendors. In an effort to reduce costs, the Company reduced all salaries during 2009. Cost of digital plans revenue consists primarily of variable costs such as credit card fees and revenue sharing or royalty costs related to the exclusive license agreements with third party nutritional and fitness companies. Other costs include Internet access fees, compensation for nutritional and consulting professionals and depreciation. Cost of digital plans revenue decreased to approximately \$0.9 million for the year ended December 31, 2009 as compared to \$2.6 million in the corresponding prior year period primarily because variable costs declined in conjunction with the decline in subscribers mentioned above.

Cost of meal delivery revenue consists primarily of credit card fees, product, fulfillment and shipping costs. Cost of meal delivery revenue decreased to \$5.9 million for the year ended December 31, 2009 from \$9.4 million for the year ended December 31, 2008 as a result of the lower revenue levels, as well as a result of the gross margin improvements mentioned above.

Cost of business-to-business revenue consists primarily of Internet access fees to support the various Corporate Services customers. Cost of business-to-business revenue was approximately \$0.2 million for the year ended December 31, 2009 and \$0.1 million for the year ended December 31, 2008.

Cost of other revenue consists primarily of Internet serving fees, product and fulfillment costs for ecommerce sales and credit card fees. Cost of other revenue was approximately \$0.2 million and \$0.3 million for the years ended December 31, 2009 and 2008.

Edgar Filing: EDIETS COM INC - Form 10-K

Technology and Development: Technology and development expenses consist of payroll and related expenses we incur related to testing, maintaining and modifying our Websites, telecommunication systems and infrastructure and other internal-use software systems. Technology and development expenses also include depreciation of the computer hardware and capitalized software we use to run our Website and store our data. These expenses were approximately \$3.7 million for 2009 as compared to \$4.3 million in 2008. The decrease in technology and development expenses was primarily related to the overall reduction in salaries during 2009, as well as a reduction in technology consulting expenses during 2009.

Sales, Marketing and Support Expense: Sales, marketing and support expenses consist primarily of Internet advertising expenses and compensation for employees in those departments related to promoting two of our product line segments: digital plans and meal

Index to Financial Statements

delivery. These expenses decreased to \$8.9 million in 2009 from \$11.7 million in 2008 which is mainly the result of a decrease in advertising media expense and compensation expense. In total, advertising media expense was \$3.7 million in 2009 versus \$5.5 million in 2008. Due to cash constraints and uncertain returns from advertising, we reduced our spending in both offline campaigns and online advertising during the first, second and third quarters. However, at the end of the third quarter of 2009, we implemented a new offline campaign which continued through December 31, 2009.

General and Administrative Expenses: General and administrative expenses consist primarily of salaries, overhead and related costs for general corporate functions, including professional fees. General and administrative expenses were \$4.9 million for the year ended December 31, 2009 as compared to \$6.1 million in the corresponding prior year period. In an effort to reduce costs, the Company reduced all salaries during 2009. In addition, the decrease in 2009 was also the result of lower recruiting expenses, lower legal fees and lower depreciation expense.

Amortization of Intangible Assets: Amortization expense was \$0.3 million and \$0.9 million for the years ended December 31, 2009 and 2008, respectively. The reduction in amortization expense for 2009 was the result of certain Nutrio intangibles being completely amortized as of December 31, 2008.

Impairment of Goodwill and Intangible Assets: During 2008, we performed impairment testing for our business-to-consumer segment. As a result of our testing, we determined that the business-to-consumer segment's goodwill was impaired. As a result, in the year ended December 31, 2008, we recorded impairment charges of approximately \$5.2 million to reduce the segment's goodwill to zero.

Interest Income: Interest income was less than \$0.1 million for the year ended December 31, 2009 as compared to \$0.1 million for the year ended December 31, 2008.

Interest Expense: Interest expense increased to \$5.2 million for the year ended December 31, 2009 as compared to \$3.4 million for the corresponding period of the prior year. The increase in interest expense related to interest costs and the amortization of discounts and issuance costs recorded in connection with the senior secured notes issued in August 2007, May 2008 and November 2008.

Income Tax Benefit (Provision): Income tax benefit (provision) of less than \$0.1 million for the years ended December 31, 2009 and 2008 relates to eDiets Europe.

Net Loss: As a result of the factors discussed above, we recorded a net loss of \$12.1 million in 2009 compared to net loss of \$19.8 million for 2008.

LIQUIDITY AND CAPITAL RESOURCES

The Company's principal use of cash in its operating activities for the year ended December 31, 2010 was for online and offline advertising promoting meal delivery and digital diet programs to potential subscribers and to support our business infrastructure as we diversify from subscription-based to a more integrated model that better captures cross-selling opportunities and leverages our existing customer relationships. Advertising expense in the first half of the year usually exceeds advertising in the second half of the year due to seasonality in the weight loss business. As a result, we have historically experienced proportionally lower or negative cash flows from operating activities in the first six months of each year. The amount of advertising and its effectiveness is a significant driver of our operations. Our advertising commitments are typically short term in nature with most of it purchased on the spot market. Generally, this trend is expected to continue going forward, but 2010 may be considered an exception because we elected to continue to aggressively pursue customer acquisition in the second half of the year through increased advertising.

On April 5, 2010, we entered into subscription agreements with investors relating to the issuance and sale (the "Registered Offering") of 5,275,000 shares of our common stock, par value \$0.001 per share at a price of \$1.00 per share. The net proceeds from the Registered Offering, after deducting the placement agent's fees, were approximately \$4.9 million. The Registered Offering closed on April 9, 2010. We made the Registered Offering pursuant to a shelf registration statement on Form S-3 (Registration No. 333-165445) declared effective by the Securities and Exchange Commission on March 25, 2010.

On April 5, 2010, we entered into a Debt Conversion Agreement (the "Prides Debt Conversion Agreement") with Prides Capital Partners, LLC ("Prides") to convert the aggregate principal amount of the three outstanding notes issued in favor of Prides on August 31, 2007, May 30, 2008 and November 13, 2008 (the "Prides Notes") plus all accrued and unpaid interest through the date of conversion, into shares of common stock at a per share price equal to the price at which the Shares were sold in the Registered Offering (the "Prides Debt Conversion"). Pursuant to the Prides Debt Conversion Agreement, Prides has agreed to release all security interests, liens and other encumbrances on the assets of the Company held by Prides pursuant to its existing Security Agreements. Further, pursuant to the Prides Debt Conversion Agreement, Prides has agreed to release the

Edgar Filing: EDIETS COM INC - Form 10-K

guarantors under any and all obligations arising under or in connection with the Subsidiary Guaranty Agreements in favor of Prides dated August 31, 2007 and May 30, 2008. The Prides Debt Conversion closed on June 4, 2010, when we issued to Prides 22,088,981 shares of common stock in full satisfaction of the aggregate principal amount of the Prides Notes, plus all accrued and unpaid interest.

Index to Financial Statements

Also on April 5, 2010, we entered into a Debt Conversion Agreement (the Richardson Debt Conversion Agreement) with Kevin A. Richardson, II, one of the Company's directors and an officer of Prides, to convert the principal amount of an outstanding note issued in favor of Mr. Richardson (the Richardson Note), plus all accrued and unpaid interest through the date of conversion, into Common Stock at a price equal to the price at which the Shares were sold in the Registered Offering (the Richardson Debt Conversion). In addition, on April 5, 2010, we entered into Securities Subscription and Purchase Agreements with Mr. Richardson, Kevin N. McGrath, one of the Company's directors and its President and Chief Executive Officer, and Lee S. Isgur, one of the Company's directors, pursuant to which they agreed to purchase \$500,000 of common stock at a price equal to the price at which the Shares were sold in the Registered Offering (the Private Placement). The Richardson Debt Conversion and the Private Placement both closed on June 4, 2010. We issued 506,027 shares of common stock in full satisfaction of the aggregate principal amount of the Richardson Note, plus all accrued and unpaid interest, and we received \$500,000 and issued 500,000 shares of common stock in the Private Placement.

Pursuant to the Prides Debt Conversion Agreement, Prides waived (i) the prohibition on related party transactions outside the ordinary course of business under its August 2007 Note and Warrant Purchase Agreement and the May 2008 Note and Purchase Warrant with the Company as to the Registered Offering, the Private Placement and the Richardson Debt Conversion, (ii) the prepayment premium pursuant to certain of the Prides Notes in respect of the Prides Debt Conversion, and (iii) the mandatory prepayment provisions pursuant to certain of the Prides Notes in respect of the Registered Offering, the Private Placement, and the Richardson Debt Conversion.

On November 12, 2010, we issued the Director Notes, consisting of (i) a promissory note to Kevin A. Richardson II pursuant to which we borrowed \$600,000, (ii) a promissory note to Lee S. Isgur pursuant to which we borrowed \$200,000 and (iii) a promissory note to Kevin N. McGrath pursuant to which we borrowed \$200,000. The entire outstanding principal balance of the Director Notes, together with all accrued and unpaid interest, is due and payable on December 31, 2011. Interest accrues on the Director Notes at a rate of five percent (5%) per annum. In the event the principal is not paid in full within three business days of the due date, or any other default occurs thereunder, then interest shall accrue on the outstanding principal balance of the Director Notes at a rate of ten percent (10%) per annum.

At December 31, 2010, we had a net working capital deficit of approximately \$3.7 million, compared to a net working capital deficit of approximately \$13.6 million at December 31, 2009. Cash and cash equivalents at December 31, 2010 were approximately \$0.5 million, a decrease of approximately \$1.0 million from the balance of \$1.5 million at December 31, 2009.

In light of our results of operations, we have and intend to continue to evaluate various possibilities, including raising additional capital through the issuance of common or preferred stock, securities convertible into common stock, or secured or unsecured debt, selling one or more of our lines of business or all or a portion of our assets, entering into a business combination, reducing or eliminating operations, liquidating assets, or seeking relief through a filing under the U.S. Bankruptcy Code. These possibilities, to the extent available, may be on terms that result in significant dilution to our existing stockholders.

Our condensed consolidated financial statements do not include any adjustments relating to the recoverability of assets and classification of assets and liabilities that might be necessary should we be unable to continue as a going concern.

Our condensed consolidated financial statements have been prepared assuming we will continue as a going concern. Our accumulated deficit amounts to approximately \$103.4 million as of December 31, 2010.

We have never declared a dividend or paid a cash dividend. We currently intend to retain any earnings for use in the business and do not anticipate paying any cash dividends on our common stock in the foreseeable future.

In order to maintain listing on The Nasdaq Capital Market, the closing bid price of our listed common stock must be at least \$1.00 per share. On June 28, 2010, we received a notice of non-compliance with Nasdaq's continued listing standard relating to the \$1.00 minimum closing bid price requirement. When we were unable to regain compliance during an initial period of 180 calendar days, a Nasdaq hearing panel provided us with an additional period of time, until June 28, 2011, to regain compliance. If the bid price of our common stock does not close at \$1.00 per share for at least ten consecutive days prior to June 28, 2011, our common stock will be subject to immediate de-listing from The Nasdaq Capital Market. In addition, we received a second notice of non-compliance with Nasdaq's continued listing standard relating to the requirement that we maintain a market capitalization of at least \$35.0 million. We have a period of 180 calendar days, until August 1, 2011, to regain compliance with the Nasdaq market capitalization rule. If our common stock is delisted, we cannot provide any assurance that our securities will be quoted on any other quotation service, such as the over the counter bulletin board or the pink sheets quotation services. The delisting of our securities may adversely affect the liquidity and market price of our common stock and adversely impact our future access to the capital markets.

Cash Flows from Operating Activities: For the year ended December 31, 2010, we used approximately \$6.9 million of cash in operating activities. The negative cash flow related to our net loss of approximately \$43.3 million, adjusted for, among other things, certain non-cash items

Edgar Filing: EDIETS COM INC - Form 10-K

including approximately \$1.5 million of depreciation, \$1.3 million of amortization of the senior secured notes related party discount and expenses, \$2.1 million of accrued and paid-in-kind interest of the senior secured notes related party, \$24.0

Index to Financial Statements

million of interest expenses incurred with the debt conversion of the senior secured notes related party, \$6.9 million of impairment of goodwill and intangible assets, \$0.2 million in loss on extinguishment of debt related party, and \$0.9 million of stock-based compensation, as well as an aggregate decrease in cash flows from our operating assets and liabilities of approximately \$0.4 million.

For the year ended December 31, 2009, we used \$4.6 million of cash in operating activities. The negative cash flow related to our net loss of \$12.1 million, adjusted for, among other things, certain non-cash items including \$1.6 million of depreciation, \$0.3 million of amortization of intangibles, \$2.2 million of amortization of the senior secured notes related party discount and expenses, \$2.9 million of paid-in-kind interest of the senior secured notes related party, less than \$0.1 million of provision for bad debt, less than \$0.1 million for an inventory write-down and \$1.6 million of stock-based compensation, and an aggregate decrease in cash flows from our operating assets and liabilities of approximately \$1.0 million.

Cash Flows from Investing Activities: For year ended December 31, 2010, we used approximately \$0.7 million of cash in investing activities. The cash usage was due to capital expenditures, primarily purchased software, software development and computer equipment.

For the year ended December 31, 2009, we used less than \$0.1 million of cash in investing activities. The cash usage was due to capital expenditures, primarily computer equipment.

Cash Flows from Financing Activities: For the year ended December 31, 2010 our financing activities provided for approximately \$6.5 million of cash. We received approximately \$4.5 million in total net proceeds from issuance of common stock under a registered direct offering. We also received \$500,000 from the issuance of common stock in connection with a private placement transaction whereby three of our directors purchased 500,000 shares of our common stock. We also received \$500,000 from the issuance of common stock in connection with the Richardson Note. The Richardson Note was converted into 506,027 shares of our common stock on June 4, 2010. We issued the Director Notes, consisting of promissory notes to three of our directors pursuant to which we borrowed a total of \$1.0 million.

For the year ended December 31, 2009 our financing activities provided for \$3.6 million of cash. This was primarily attributable to approximately \$1.0 million in net proceeds from issuance of common stock in connection with the private investment transactions in July and September 2009, \$2.7 million in proceeds from the exercise of warrants, offset by \$0.1 million of repayment of capital lease obligations.

Inflation

The impact of inflation on our operations has not been significant to date.

Off-Balance Sheet Arrangements

We are not involved in any off-balance sheet arrangements.

Revenue and Related Expense Recognition

Subscription fees are billed in advance and in almost all cases are charged to the subscriber's credit card, resulting in immediate subscription cash flow to the Company. However, various portions of these fees are recognized ratably over the period services are being provided. The difference between cash fees received and the portion previously recognized is reflected in deferred revenues in our balance sheet; the majority of these revenues relating to our digital plans are expected to be recognized over the next fiscal quarter or within the next year. Subscriptions to our digital plans are recognized as revenue on a straight-line basis over the period of the digital plan subscription. Meal delivery revenue is recognized when our product is shipped from a fulfillment center to the end-customer.

Recent Developments

During February 2011, we executed Subscription Agreements with investors pursuant to which 3,811,818 shares of our common stock were issued under a private placement at a price of \$0.4125 per share, which provided approximately \$1.6 million of capital. Kevin A. Richardson, II and Lee S. Isgur, two of the Company's directors, entered into Subscription Agreements for approximately \$0.8 million and \$0.1 million, respectively, of the total \$1.6 million of proceeds received. In addition, we also issued warrants entitling the purchasers to acquire a total of 1,905,909 shares of common stock at an exercise price of \$0.3535 per share.

The shares of common stock sold in the private placement have not been registered under the Securities Act of 1933, as amended, or any state securities laws and may not be offered or sold in the United States absent registration or applicable exemption from the

Index to Financial Statements

registration requirements of such Act and applicable state securities laws. However, eDiets has agreed to register for resale the shares of common stock issued in the private placement pursuant to a registration rights agreement with the purchasers of the shares.

Contractual Obligations: The following summarizes future cash outflow related to our non-cancelable contractual obligations at December 31, 2010 (in thousands):

	Total	Less than 1 year	1-3 years	After 3 years
Contractual obligations:				
Capital lease obligations	\$ 48	\$ 24	\$ 24	\$
Operating leases	4,464	664	1,407	2,393
Related party notes	1,057	1,057		
Total contractual cash obligations	\$ 5,569	\$ 1,745	\$ 1,431	\$ 2,393

CRITICAL ACCOUNTING POLICIES

We have identified the policies outlined below as critical to our business operations and an understanding of our results of operations. Critical accounting policies and estimates are defined as those that are reflective of significant judgments and uncertainties, are the most pervasive and important to the presentation of our financial condition and results of operations and could potentially result in materially different results under different assumptions, judgments or conditions. Management has reviewed these critical accounting policies and estimates with the Audit Committee of our Board.

The listing is not intended to be a comprehensive list of all of our accounting policies. For a detailed discussion on the application of these and other accounting policies, see Note 2, Summary of Significant Accounting Policies, of the Notes to Consolidated Financial Statements, of this Annual Report on Form 10-K. In many cases, the accounting treatment of a particular transaction is specifically dictated by accounting principles generally accepted in the United States, with no need for management's judgment in their application. The impact and any associated risks related to these policies on our business operations is discussed throughout Management's Discussion and Analysis of Financial Condition and Results of Operations where such policies affect our reported and expected financial results. Note that our preparation of the financial statements requires us to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of our financial statements, and the reported amounts of revenue and expenses during the reporting period. Management bases these significant judgments and estimates on historical experience and other assumptions it believes to be reasonable based upon information presently available. There can be no assurance that actual results will not differ from those estimates.

REVENUE RECOGNITION:

Digital plan revenue is generated by our membership subscriptions to the proprietary content contained in our Websites. Subscriptions to our digital plans are paid in advance, mainly via credit/debit cards, and cash receipts are deferred and recognized as revenue on a straight-line basis over the period of the digital plan subscription. Beginning in January 2008, we began to offer a guarantee to all customers, under which if a customer did not meet their weight loss goal upon completion of consecutive six months of digital subscription and met the guarantee requirements they would receive the next six months of digital subscription for free. We therefore recognize digital subscription revenue over the potential term of twelve months of digital subscription or until the subscriber no longer meets the guarantee requirements, whichever comes first.

In accordance with Accounting Standards Codification (ASC) 605-45 (formerly Emerging Issues Task Force (EITF) 99-19), *Revenue Recognition - Principal Agent Considerations*, we recognize gross digital subscription revenues associated with licensed diet and fitness plans based on the relevant facts of the related license agreements, while the license fee incurred to the licensor is included in cost of revenues.

Meal delivery revenue is recognized when the earnings process is complete, which is upon transfer of title of the product. This transfer occurs upon shipment from our fulfillment center to the end-customer. Meal delivery revenue includes amounts billed for shipping. In accordance with ASC 605-45, we recognize gross meal delivery revenues based on the relevant fact that we are the primary obligor and have assumed asset risk when the customers place orders. Beginning in January 2008, we began offering two promotions: a) buy seven weeks of meal delivery and get the 8th week for free and b) buy a meal delivery program and get a free non-cash gift. For the first promotion and in accordance ASC 605-50 (formerly EITF 01-09), *Revenue Recognition - Customer Payments and Incentives*, we recognize the cost of the free offer as cost of revenue

Edgar Filing: EDIETS COM INC - Form 10-K

proportionally over the term of the meal delivery subscription or until the customer cancels and no longer is entitled to the free offer. For the second promotion and in accordance with ASC 605-45, we recognize meal delivery revenue when the meals are shipped and the cost of the free non-cash gift as cost of sales when the non-cash gift is shipped

Index to Financial Statements

Business-to-business revenue relates to our Nutrio subsidiary, also known as eDiets Corporate Services. eDiets Corporate Services generates three types of business-to-business revenue. Licensing and development revenues are accounted for in accordance 605-25 (formerly EITF 00-21), *Revenue Recognition - Multiple Deliverables*. Development revenue relates to the planning, design and development of websites for customers. Both licensing and development revenues are recognized on a straight-line basis over the license period once the website is launched. Consulting revenue relates to consulting services provided to customers and revenue is recognized when services and/or deliverables are completed and collection is probable.

Advertising revenue is recognized in the period the advertisement is displayed, provided that no significant Company obligation remains and collection is probable. Our obligations typically include guarantees of a minimum number of impressions or times that visitors to our Website view an advertisement. Amounts received or billed for which impressions have not yet been delivered are reflected as deferred revenue. Opt-in email revenue is derived from the sale of email addresses of visitors to our Websites who have authorized us to allow third party solicitations. Revenues from the sale of email addresses are recognized when no significant Company obligation remains and collection is probable.

Ecommerce revenue is currently derived from the sale of our various health and fitness store products, including vitamin supplements, to consumers. We offer an unconditional 30-day guarantee on all of our products. In accordance with ASC 605-15-25-1 (formerly Statement of Financial Accounting Standards (SFAS) 48), *Revenue Recognition - Products*, we recognize revenue on those products only when the guarantee period lapses.

Royalty revenue is derived from the exclusive technology licensing agreement related to our previous operations in the United Kingdom and Ireland and is being recognized on a straight-line basis. On July 31, 2009 the Company terminated the 15-year exclusive licensing agreement with Tesco Ireland Limited (Tesco) which provided Tesco with exclusive rights to use the Company's personalized diet technology in the United Kingdom and Ireland, with an effective date of July 1, 2009. The termination agreement provides Tesco with certain continuing rights in the Company technology used by or incorporated into Tesco's diet website prior to termination, including a three-year non-exclusive right to use such technology and, thereafter, an assignment of certain intellectual property rights relating to such technology.

Our most significant accounting estimate is our reserve for refunds for digital plans and meal delivery. Since digital plan subscriber payments are deferred upon receipt, at the end of each month we reclassify a portion of our deferred revenue to reserve for refunds. Based on historical experience, a range of between approximately 1%-3% of digital plan subscriber sales will result in a refund issued in the subsequent month after sale. All other refunds issued relate to current month digital plan subscriber sales. Because the revenue has not been recognized, refunds do not result in a reversal of digital plan subscription revenue. Instead, refunds result in a decrease to the amounts maintained in deferred revenue. Meal delivery refunds mainly result from late shipments or packaging issues. Based on historical experience, a range of between approximately 1%-3% of prior month's meal delivery sales will result in a refund, accordingly we estimate a reserve based on that assumption for future refunds. We do not believe there is a reasonable likelihood that there will be a material change in the future estimates or assumptions we use to calculate the reserve for refunds. However, if actual results are not consistent with our estimates or assumptions stated above, we may be exposed to income or losses that could be material to our consolidated financial statements.

GOODWILL AND INTANGIBLE ASSETS:

We regularly review identified intangible assets to determine if facts and circumstances indicate that the useful life is shorter than we originally estimated or that the carrying amount of the assets may not be recoverable. If such facts and circumstances exist, we assess the recoverability of the finite-lived intangible assets by comparing the projected undiscounted net cash flows associated with the related asset or group of assets over their remaining lives against their respective carrying amounts.

As a result of customer contracts that will not be renewed, as well as certain new contract opportunities that have been delayed or cancelled due to customer concerns regarding economic uncertainty, we performed an impairment assessment of Nutrio's finite-lived intangible assets during 2010. We determined there were no future cash flows attributed to the tradename intangible asset. Since the undiscounted cash flows were zero, compared to the carrying value of approximately \$30,000, we deemed that the tradename was fully impaired. The non-cash impairment charge of approximately \$30,000 relating to the tradename was recorded under Impairment of goodwill and intangible assets in our Consolidated Statement of Operations during 2010.

ASC 350 describes the reporting unit as an operating segment as that term is used in ASC 280, *Segment Reporting* (formerly SFAS 131). We operate in a single market consisting of the sale of services, information and products related to nutrition, fitness and motivation. We have three reportable segments: the U.S. business-to-consumer segment (which includes meal delivery), the U.S. business-to-business segment (which includes eDiets Corporate Services) and the European business segment. We evaluate goodwill along these segment lines, which represent our reporting units.

Edgar Filing: EDIETS COM INC - Form 10-K

We use judgment in assessing goodwill for impairment. Goodwill is reviewed annually for impairment, or sooner if events or changes in circumstances indicate that the carrying amount could exceed fair value. Fair value of the Company's reporting units is based on discounted cash flows using a discount rate determined by our management to be consistent with industry discount rates and the risks

Index to Financial Statements

inherent in our current business model. Assumptions used in our impairment testing, such as forecasted growth rates and cost of capital, are consistent with internal projections and operating plans. Due to uncertain market conditions and potential changes in our strategy and product portfolio, it is possible that the forecasts we use to support our goodwill result in non-cash charges that adversely affect our results of operations and financial condition. Our impairment testing may be impacted by, among other things, our expected operating performance, ability to retain key personnel, changes in operating segments and competitive environment.

During 2010, indicators of potential impairment of the U.S. business-to-business reporting unit caused us to conduct an interim impairment test. Those indicators included customer contracts that will not be renewed, as well as certain new contract opportunities that have been delayed or cancelled due to customer concerns regarding economic uncertainty. We completed step one of the impairment analysis and estimated the fair value of the U.S. business-to-business reporting unit using a discounted cash flows method. The discount rate used was the Company's weighted average cost of capital (WACC) discount rate. The WACC includes the cost of debt and the cost of equity and was derived using the Capital Asset Pricing Model, whereby market participants were identified and used in our calculation of the WACC. Upon performing the first step of the goodwill impairment test, we determined that the carrying amount of this reporting unit exceeded its fair value, based on a discounted cash flows method. Therefore, the second step of the goodwill impairment test was performed to allocate the fair value of the reporting unit to the fair value of all tangible and identifiable intangible assets and determine the implied value of goodwill. Determining the implied value of goodwill requires the valuation of the reporting unit's tangible and intangible assets and liabilities in a manner similar to the allocation of purchase price in a business combination. This analysis indicated a remaining implied value of goodwill of zero which we compared to the carrying amount of the goodwill.

As a result of the assessments performed, we determined that goodwill and intangible assets, specifically the tradename, were fully impaired. This resulted in a non-cash impairment of goodwill and intangible assets of approximately \$6.9 million, which is included in our Consolidated Statement of Operations under "Impairment of goodwill and intangible assets" during the year ended December 31, 2010.

ACCOUNTING FOR EMPLOYEE STOCK-BASED COMPENSATION:

We account for stock-based compensation plans in accordance with ASC 718-10 (formerly SFAS 123R), *Compensation - Stock Compensation* .. Under the provisions of ASC 718-10, the Company estimates the fair value of each stock option on the date of grant using a Black-Scholes-Merton (BSM) option-pricing formula and amortizes that value to expense over the option's vesting period using the straight-line attribution method.

We also account for certain options and restricted share awards using variable accounting under ASC 718-10 as interpreted by ASC 505-50 (formerly EITF 96-18), *Equity*, which requires that such costs be measured at the end of each reporting period to account for changes in the fair value of our common stock until the stock options or restricted shares are vested. Common stock is valued using the market price of common stock on the measurement date as defined in ASC 505-50 for such grants.

The fair value of restricted stock and vested shares is determined by the market price of our common stock on the date of grant. The fair value of option awards is estimated on the date of grant using the Black-Scholes-Merton option pricing model, which requires estimates of the expected term of the option, the volatility of the Company's stock price, the risk-free interest rate and the expected dividend yield. We recognize expense for all share-based awards based on the fair value of the number of awards we estimate will fully vest. A change in these underlying assumptions will cause a change in the estimated fair value of share-based awards and the underlying expense recorded. We continue to evaluate these estimates and assumptions and believe that these assumptions are appropriate.

ACCOUNTING FOR INCOME TAXES:

We account for income taxes under ASC 740 (formerly SFAS 109), *Income Taxes*. Deferred income tax assets and liabilities are determined based upon differences between financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. A valuation allowance is recorded when it is more likely than not that some portion or all of a deferred tax asset will not be realized.

We adopted ASC 740-10 (formerly FIN 48), *Income Taxes - Overall*, effective January 1, 2007. ASC 740-10 clarifies the accounting for uncertainty in income taxes recognized in financial statements and requires the impact of a tax position to be recognized in the financial statements if that position is more likely than not of being sustained by the taxing authority. In accordance with ASC 740-10, we did not recognize any liability for unrecognized tax benefits.

As part of the process of preparing our consolidated financial statements, we are required to estimate our income taxes in each of the jurisdictions in which we operate. This process involves us estimating our actual current tax exposure together with assessing temporary

Edgar Filing: EDIETS COM INC - Form 10-K

differences resulting from differing treatment of items for tax and accounting purposes. These differences result in deferred tax assets and liabilities, which are included within our consolidated balance sheet. We must then assess the likelihood that our deferred tax assets will be recovered from future taxable income and to the extent we believe that recovery is not likely, we must

Index to Financial Statements

establish a valuation allowance. To the extent we establish a valuation allowance or increase this allowance in a period, we must include an expense within the tax provision in the consolidated statement of operations.

Management judgment is required in determining our provision for income taxes, our deferred tax assets and liabilities, and any valuation allowance recorded against our net deferred tax assets. We have recorded a full valuation allowance as of December 31, 2010, due to uncertainties related to our ability to utilize our deferred tax assets, primarily consisting of certain net operating losses carried forward, before they expire. The valuation allowance is based on our estimates of taxable income and the period over which our deferred tax assets will be recoverable. In the event that actual results differ from these estimates, or we adjust these estimates in future periods, we may need to establish an additional valuation allowance which could materially impact our financial position and results of operations.

We adjust our provision as appropriate for changes that impact our underlying judgments. Changes that impact provision estimates include such items as jurisdictional interpretations on tax filing positions based on the results of tax audits and general tax authority rulings. Due to the evolving nature of tax rules combined with a few jurisdictions in which we operate, it is possible that our estimates of our tax liability and the realizability of our deferred tax assets could change in the future, which may result in additional tax liabilities and adversely affect our results of operations, financial condition and cash flows.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

Management Report on Internal Control Over Financial Reporting

We, as members of management of eDiets.com, Inc. are responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rules 13a-15(f). Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of our assets that could have a material effect on the financial statements.

Because of its inherent limitations, our internal control systems and procedures may not prevent or detect misstatements. An internal control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected. Also, projections of any evaluation of effectiveness to future periods are subject to the risks that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate.

We, under the supervision of and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2010, based on criteria for effective internal control over financial reporting described in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this assessment, we concluded that as of December 31, 2010, our internal control over financial reporting is effective based on the specified criteria.

Evaluation of Disclosure Controls and Procedures

We carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) as of the end of the period covered by this Annual Report. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this Annual Report.

There has been no change in the Company's internal control over financial reporting during the quarter ended December 31, 2010 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Attestation Report of the Independent Registered Public Accounting Firm

This annual report does not include an audit report of the Company's independent registered public accounting firm regarding internal controls over financial reporting. Management's report was not subject to audit by the Company's independent registered public accounting firm pursuant to the rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this annual report.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors and Stockholders

eDiets.com, Inc.

We have audited the accompanying consolidated balance sheets of eDiets.com, Inc. as of December 31, 2010 and 2009, and the related consolidated statements of operations, stockholders' deficit, and cash flows for each of the three years in the period ended December 31, 2010. Our audits also included the financial statement schedule listed in the Index at Item 15(a). These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of eDiets.com, Inc. at December 31, 2010 and 2009, and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2010, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

The accompanying financial statements have been prepared assuming that eDiets.com, Inc. will continue as a going concern. As more fully described in Note 2, the Company has incurred recurring operating losses and has a working capital deficiency. These conditions raise substantial doubt about the Company's ability to continue as a going concern. The December 31, 2010 financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the outcome of this uncertainty.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2010

1. ORGANIZATION

eDiets.com, Inc. (the Company) was incorporated in the State of Delaware on March 18, 1996 for the purpose of developing and marketing Internet-based diet and fitness programs. The Company markets its products both to consumers and to businesses primarily in North America.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Going Concern

The Company's consolidated financial statements have been prepared assuming the Company will continue as a going concern. For the years ended December 31, 2010 and 2009, the Company had net losses of \$43.3 million and \$12.1 million, respectively, and used \$6.9 million and \$4.6 million, respectively, of cash in its operations. As of December 31, 2010 and 2009, the Company had an accumulated deficit of \$103.4 million and \$60.1 million, respectively, and a total stockholders' deficit of \$2.0 million and \$9.6 million, respectively.

Due to uncertainty about the Company's ability to meet its current operating expenses and capital expenditures, in their report on our annual financial statements for the year ended December 31, 2010, the Company's independent registered public accounting firm included an explanatory paragraph regarding the Company's ability to continue as a going concern.

The continuation of the Company's business is dependent upon raising additional financial support. In light of the Company's results of operations, management has and intends to continue to evaluate various possibilities. These possibilities include: raising additional capital through the issuance of common or preferred stock, securities convertible into common stock, or secured or unsecured debt, selling one or more lines of business, or all or a portion of the Company's assets, entering into a business combination, reducing or eliminating operations, liquidating assets, or seeking relief through a filing under the U.S. Bankruptcy Code. These possibilities, to the extent available, may be on terms that result in significant dilution to the Company's existing stockholders.

Management has plans to seek additional capital through a private placement and public offering of its common stock during 2011. There can be no assurances that the Company will be successful in raising additional cash to finance operations. If not, the Company will be required to reduce operations and/or liquidate assets and/or seek relief through a filing under the U.S. Bankruptcy Code. The Company's consolidated financial statements do not include any adjustments relating to the recoverability of assets and classification of assets and liabilities that might be necessary should the Company be unable to continue as a going concern.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. All inter-company transactions and balances have been eliminated in consolidation.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The most significant areas that require management judgment and which are susceptible to possible changes in the near term include the Company's revenue recognition, goodwill and intangible assets, accounting for stock-based compensation and accounting for income taxes. The accounting policies for these areas are discussed elsewhere in these consolidated financial statements.

Cash and Cash Equivalents

Edgar Filing: EDIETS COM INC - Form 10-K

The Company considers all highly liquid investments purchased with an original maturity of three months or less, when purchased, to be cash equivalents. The Company maintains cash and cash equivalents which consist principally of demand deposits and money market funds with high credit quality financial institutions. At certain times, such amounts exceed the Federal Deposit Insurance Corporation (FDIC) insurance limits. At December 31, 2010 and 2009, there was approximately \$0.2 million and \$1.0 million, respectively, in excess of the FDIC limit of \$250,000 within cash and cash equivalents. The Company has not experienced any losses on these investments. Cash equivalents at December 31, 2010 and 2009 included a money market fund with a fair value, which approximates cost, of \$16,000 and \$0.4 million, respectively. The Company considers these investments to be held-to-maturity securities and considers the interest rate risk to be low due to the short-term nature of the investments.

F - 7

Index to Financial Statements

EDIETS.COM, INC

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

Prepaid Meal Delivery and Inventory

As of December 31, 2010 and 2009, inventory consists of meal delivery finished goods and finished goods sold through the Company's online store. Inventories are stated at the lower of cost or market on a first-in, first out-basis and are included in the Consolidated Balance Sheets under Prepaid meal delivery and inventory for the years ended December 31, 2010 and 2009.

Restricted Cash

Restricted cash in the accompanying consolidated balance sheets as of December 31, 2010 consists of approximately \$0.3 million held by the Company's credit card processor and approximately \$0.5 million held by a financial institution as collateral for a letter of credit established in connection with the Company's lease for its corporate office. Restricted cash as of December 31, 2009 consists of approximately \$0.5 million held by a financial institution as collateral for a letter of credit established in connection with the Company's lease for its corporate office.

Property and Office Equipment

Property and office equipment is stated at cost less accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets, which is approximately three years for office equipment and computer hardware and software, including internal use software, approximately seven years for furniture and fixtures and the shorter of the lease term or the life of the asset ranging from five to ten years for leasehold improvements.

Expenditures for maintenance and repairs are charged to operations as incurred, while significant renewals and betterments are capitalized. The assets and related depreciation are adjusted for asset retirements and disposals with the resulting gain or loss included in operations. Capitalized leases are initially recorded at the present value of the minimum payments at the inception of the lease.

ASC 350-40 (formerly AICPA Statement of Position (SOP) 98-1), *Goodwill and Other Internal Use Software*, requires capitalization of certain costs incurred in connection with developing or obtaining internal use software. Costs capitalized pursuant to ASC 350-40 are included in property and office equipment in the accompanying consolidated balance sheets.

The Company accounts for the development and maintenance of its website in accordance with ASC 350-50 (formerly Emerging Issues Task Force (EITF) 00-2), *Goodwill and Other Web Site Development Costs*. Costs capitalized pursuant to ASC 350-50 are included in property and office equipment in the accompanying consolidated balance sheets.

Intangible Assets and Goodwill

Intangible assets related to the acquisition of Nutrio.com, Inc. (Nutrio) in May 2006 were being amortized using the straight-line method over periods ranging from 2-5 years with a weighted average life of approximately 2.8 years. The Company regularly reviews identified intangible assets to determine if facts and circumstances indicate that the useful life is shorter than the Company originally estimated or that the carrying amount of the assets may not be recoverable. If such facts and circumstances exist, the Company assesses the recoverability of the finite-lived intangible assets by comparing the projected undiscounted net cash flows associated with the related asset or group of assets over their remaining lives against their respective carrying amounts.

The Nutrio tradename, which was acquired in May 2006, was the only finite-lived intangible asset with a remaining carrying value at the time of the review of Nutrio's intangibles during the year ended December 31, 2010. As a result of customer contracts that will not be renewed, as well as certain new contract opportunities that have been delayed or cancelled due to customer concerns regarding economic uncertainty, the Company performed an impairment assessment of Nutrio's finite-lived intangible assets. At the time of the assessment, the remaining carrying value of the tradename was approximately \$30,000. The Company determined there are no future cash flows attributed to the tradename intangible asset. Since the undiscounted cash flows are zero, compared to the carrying value of approximately \$30,000, the Company deemed that the tradename was fully impaired. The non-cash impairment charge of approximately \$30,000 relating to the tradename was recorded during the second quarter of 2010 under Impairment of goodwill and intangible assets in the Consolidated Statement of Operations. Prior to the

Edgar Filing: EDIETS COM INC - Form 10-K

impairment charge, the total accumulated amortization relating to the tradename was approximately \$140,000. Overall, the aggregate amortization expense of intangible assets was approximately \$18,000 for the year ended December 31, 2010, excluding the \$30,000 impairment charge, and approximately \$0.3 million and \$0.9 million for the years ended December 31, 2009 and 2008, respectively.

The Company reviews its goodwill on an annual basis, or more frequently if events and circumstances warrant, to determine, if any impairment exists. The Company follows the provisions of ASC 350, *Goodwill and Other Intangible Assets* (formerly SFAS 142). ASC 350 requires goodwill to be subject to an assessment of impairment on an annual basis, or more frequently if circumstances indicate that a possible impairment has occurred. The assessment of impairment involves a two-step process prescribed in ASC 350, whereby an initial assessment for potential impairment is performed, followed by a measurement of the amount of impairment, if any.

F - 8

Index to Financial Statements

EDIETS.COM, INC

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

ASC 350 describes the reporting unit as an operating segment as that term is used in ASC 280, *Segment Reporting* (formerly SFAS131). The Company operates in a single market consisting of the sale of services, information and products related to nutrition, fitness and motivation. The Company has three reportable segments: the U.S. business-to-consumer segment (which includes meal delivery), the U.S. business-to-business segment (which includes eDiets Corporate Services) and the European business segment. The Company evaluates goodwill along these segment lines, which represent the Company's reporting units. The Company performed additional impairment assessments which resulted in impairment charges as described below.

During 2010, indicators of potential impairment of the U.S. business-to-business reporting unit caused the Company to conduct an interim impairment test of its goodwill. Those indicators included customer contracts that will not be renewed, as well as certain new contract opportunities that have been delayed or cancelled due to customer concerns regarding economic uncertainty. The Company completed step one of the impairment analysis and estimated the fair value of the U.S. business-to-business reporting unit using a discounted cash flows method. The discount rate used was the Company's weighted average cost of capital (WACC) discount rate. The WACC includes the cost of debt and the cost of equity and was derived using the Capital Asset Pricing Model, whereby market participants were identified and used in management's calculation of the WACC. Upon performing the first step of the goodwill impairment test, the Company determined that the carrying amount of this reporting unit exceeded its fair value, based on a discounted cash flows method. Therefore, the second step of the goodwill impairment test was performed to allocate the fair value of the reporting unit to the fair value of all tangible and identifiable intangible assets and determine the implied value of goodwill. Determining the implied value of goodwill requires the valuation of the reporting unit's tangible and intangible assets and liabilities in a manner similar to the allocation of purchase price in a business combination. This analysis indicated a remaining implied value of goodwill of zero which the Company compared to the carrying amount of the goodwill. As a result, the Company determined that its goodwill was fully impaired. This resulted in a non-cash impairment of goodwill of approximately \$6.8 million, which was incurred during the year ended December 31, 2010 and included in the Consolidated Statement of Operations under Impairment of goodwill and intangible assets.

The changes in the carrying amount of intangible assets and goodwill for the U.S. business-to-business segment for the years ended December 31, 2010 and 2009 are as follows (in thousands):

	Tradename and Customer Relationships	Goodwill
Net Balance as of January 1, 2009	\$ 334	\$ 6,835
Amortization	(287)	
Impairment		
Balance as of December 31, 2009	47	6,835
Patents and trademarks	7	
Amortization	(18)	
Impairment	(30)	(6,835)
Balance as of December 31, 2010	\$ 6	\$

Revenue Recognition

Digital plan revenue is generated by the Company offering membership subscriptions to the proprietary content contained in its Websites. Subscriptions to the Company's digital plans are paid in advance, mainly via credit/debit cards, and cash receipts are deferred and recognized as revenue on a straight-line basis over the period of the digital plan subscription. Beginning in January 2008, the Company began to offer a guarantee to all customers, under which if a customer did not meet their weight loss goal upon completion of consecutive six months of digital subscription and met the guarantee requirements they would receive the next six months of digital subscription for free. The Company recognizes digital subscription revenue over the potential term of twelve months of digital subscription or until the subscriber no longer meets

Edgar Filing: EDIETS COM INC - Form 10-K

the guarantee requirements, whichever comes first.

In accordance with ASC 605-45 (formerly Emerging Issues Task Force (EITF) 99-19), *Revenue Recognition - Principal Agent Considerations*, the Company recognizes gross digital subscription revenues associated with licensed diet and fitness plans based on the relevant facts of the related license agreements, while the license fee incurred to the licensor is included in cost of revenues.

F - 9

Index to Financial Statements**EDIETS.COM, INC****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)**

Meal delivery revenue is recognized when the earnings process is complete, which is upon transfer of title of the product. This transfer occurs upon shipment from the Company's fulfillment center to the end-customer. Meal delivery revenue includes amounts billed for shipping. In accordance with ASC 605-45, the Company recognizes gross meal delivery revenues based on the relevant fact that the Company is the primary obligor and has assumed asset risk when the customers place orders. Beginning in January 2008, the Company began offering two promotions: a) buy seven weeks of meal delivery and get the 8th week for free and b) buy a meal delivery program and get a free non-cash gift. For the first promotion and in accordance with ASC 605-50 (formerly EITF 01-09), *Revenue Recognition - Customer Payments and Incentives*, the Company recognizes the cost of the free offer as cost of revenue proportionally over the term of the meal delivery subscription or until the customer cancels and no longer is entitled to the free offer. For the second promotion and in accordance with ASC 605-50, the Company recognizes meal delivery revenue when the meals are shipped and the cost of the free non-cash gift as cost of sales when the non-cash gift is shipped.

Business-to-business revenue relates to the Company's Nutrio subsidiary, also known as eDiets Corporate Services. eDiets Corporate Services generates three types of business-to-business revenue. Licensing and development revenues are accounted for in accordance with ASC 605-25 (formerly EITF 00-21), *Revenue Recognition - Multiple Deliverables*. Development revenue relates to the planning, design and development of websites for customers. Both licensing and development revenues are recognized on a straight-line basis over the license period once the website is launched. Consulting revenue relates to consulting services provided to customers and revenue is recognized when services and/or deliverables are completed and collection is probable.

Advertising revenue is recognized in the period the advertisement is displayed, provided that no significant Company obligation remains and collection is probable. Company obligations typically include guarantees of a minimum number of impressions or times that visitors to the Company's website view an advertisement. Amounts received or billed for which impressions have not yet been delivered are reflected as deferred revenue. Opt-in email revenue is derived from the sale of email addresses of visitors to the Company's websites who have authorized the Company to allow third party solicitations. Revenues from the sale of email addresses are recognized when no significant Company obligation remains and collection is probable.

Ecommerce revenue is currently derived from the sale of the Company's various health and fitness store products, including vitamin supplements, to consumers. The Company offers an unconditional 30-day guarantee on all of its products. In accordance with ASC 605-15-25-1 (formerly Statement of Financial Accounting Standards (SFAS) 48), *Revenue Recognition - Products*, the Company recognizes revenue on those products only when the guarantee period lapses.

Royalty revenue is derived from the exclusive technology licensing agreement related to the Company's operations in the United Kingdom and Ireland and is being recognized on a straight-line basis. On July 31, 2009 the Company terminated the 15-year exclusive licensing agreement with Tesco Ireland Limited (Tesco) which provided Tesco with exclusive rights to use the Company's personalized diet technology in the United Kingdom and Ireland, with an effective date of July 1, 2009. The termination agreement provides Tesco with certain continuing rights in the Company technology used by or incorporated into Tesco's diet website prior to termination, including a three-year non-exclusive right to use such technology and, thereafter, an assignment of certain intellectual property rights relating to such technology.

The Company establishes a reserve for refunds for digital plan and meal delivery sales. Since all digital plan subscriber payments are deferred upon receipt, at the end of each month a portion of the deferred revenue is reclassified as a reserve for refunds. Based on historical experience, a range of between approximately 1%-3% of digital plan subscriber sales will result in a refund issued in the subsequent month after sale. All other refunds issued relate to current month digital plan subscriber sales. Because the revenue has not been recognized, refunds do not result in a reversal of digital plan subscription revenue. Instead, refunds result in a decrease to the amounts maintained in deferred revenue. Meal delivery refunds mainly result from late shipments or packaging issues. Based on historical experience, a range of between approximately 1%-3% of prior month's meal delivery sales will result in a refund, accordingly the Company estimates a reserve based on that assumption for future refunds. The Company does not believe there is a reasonable likelihood that there will be a material change in the future estimates or assumptions used to calculate the reserve for refunds. However, if actual results are not consistent with the estimates or assumptions stated above, the Company may be exposed to income or losses that could be material to the consolidated financial statements.

Revenue by type for the three years ended December 31, 2010 is as follows (in thousands):

Edgar Filing: EDIETS COM INC - Form 10-K

	2010	2009	2008
Digital plans	\$ 3,745	\$ 4,970	\$ 9,345
Meal delivery	16,239	7,839	9,405
Business-to-business	2,499	4,054	3,645
Advertising	212	702	967
Ecommerce	37	20	41

F - 10

Index to Financial Statements**EDIETS.COM, INC****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)**

	2010	2009	2008
Royalties	625	523	532
	\$ 23,357	\$ 18,108	\$ 23,935

Cost of Revenue

Cost of digital plans revenue consists primarily of credit card fees and revenue sharing or royalty costs related to the exclusive license agreements with third party nutritional and fitness companies. Other costs include Internet access fees, compensation for nutritional and consulting professionals and depreciation.

Cost of meal delivery revenue consists mainly of credit card fees, product, fulfillment and shipping costs.

Cost of business-to-business revenue consists primarily of Internet access fees to support the various Corporate Services customers.

Cost of other revenue consists principally of Internet serving fees, product and fulfillment costs for ecommerce sales and credit card fees.

Stock-Based Compensation

The Company accounts for its stock-based compensation plans in accordance with ASC 718-10 (formerly SFAS 123R), *Compensation - Stock Compensation*. Under the provisions of ASC 718-10, the Company estimates the fair value of each stock option on the date of grant using a Black-Scholes-Merton (BSM) option-pricing formula and amortizes that value to expense over the option's vesting period using the straight-line attribution method.

The Company also has certain options and restricted share awards which are subject to variable accounting under ASC 718-10 as interpreted by ASC 505-50 (formerly EITF 96-18), *Equity*, which requires that such costs be measured at the end of each reporting period to account for changes in the fair value of the Company's common stock until the stock options or restricted shares are vested. The Company values stock options and restricted shares using the Black-Scholes-Merton pricing model. Common stock is valued using the market price of common stock on the measurement date as defined in ASC 505-50.

Long-lived Assets

The Company accounts for long-lived assets pursuant to ASC 360-10 (formerly SFAS 144), *Property, Plant, and Equipment / Impairment or Disposal of Long-Lived Assets*, which requires impairment losses to be recorded on long-lived assets used in operations when events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Management reviews long-lived assets and the related intangible assets for impairment whenever events or changes in circumstances indicate the assets may be impaired. An impairment loss is recorded when the net book value of the assets exceeds their fair value, as determined by projected discounted future cash flows.

Income Taxes

The Company accounts for income taxes under ASC 740 (formerly SFAS 109), *Income Taxes*. Deferred income tax assets and liabilities are determined based upon differences between financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. A valuation allowance is recorded when it is more likely than not that some portion or all of a deferred tax asset will not be realized.

ASC 740-10 (formerly Financial Accounting Standards Board Interpretation No. 48, FIN 48), *Income Taxes - Overall*. ASC 740-10 applies a more likely than not threshold for tax benefit recognition, identifies a defined methodology for measuring benefits and increases the disclosure requirements for companies. See Note 12 - Income Taxes for further discussion.

Advertising Expense

The Company expenses advertising costs as incurred. Advertising expenses incurred for the years ended December 31, 2010, 2009 and 2008 totaled approximately \$9.0 million, \$3.7 million and \$5.5 million, respectively.

At December 31, 2010 and 2009, the Company had less than \$0.1 million and \$0.1 million, respectively, of prepaid advertising costs representing future online and offline advertising. Such costs are reflected as prepaid advertising costs in the accompanying consolidated balance sheets.

Index to Financial Statements

Barter Transactions

The Company did not enter into barter transactions for the years ended December 31, 2010, 2009 and 2008.

Loss Per Common Share

Basic loss per common share is computed using the weighted average number of common shares outstanding during the period. Diluted loss per share is computed using the weighted average number of common and dilutive potential common shares outstanding during the period. Dilutive potential common shares consist of the incremental common shares issuable upon exercise of stock options and warrants (using the treasury stock method), which were not included in diluted loss per share as they would have been anti-dilutive and were approximately 515,000, 1,489,000 and 416,000 for the years ended December 31, 2010, 2009 and 2008, respectively. In addition, at both December 31, 2010 and 2009, the Company had zero dilutive potential common shares related to its convertible debt.

Concentrations of Credit Risk

Financial instruments which potentially subject the Company to concentrations of credit risk consist principally of cash and cash equivalents, including investments, accounts receivable from credit card transaction processing companies, and receivables from third parties related to advertising, ecommerce, and royalties. The Company has policies that limit its investments as to maturity, liquidity, credit quality, concentration and diversification of issuers and types of investments. The credit risk associated with cash and cash equivalents and credit card receivables is considered low due to the credit quality of the financial institution and issuers. The Company performs credit evaluations of the third parties from which advertising, ecommerce, and royalty revenue is earned and generally does not require collateral. The Company maintains allowances for potential credit losses for such events.

Fair Value of Financial Instruments

ASC 820 (formerly SFAS 157), *Fair Value Measurements and Disclosures*, clarifies how to measure fair value and requires enhanced fair value measurement disclosures. The standard emphasizes that fair value is a market-based measurement, not an entity-specific measurement and sets out a fair value hierarchy with the highest priority being quoted prices in active markets for identical assets or liabilities. See Note 3 Fair Value Measurements for further discussion.

ASC 825 (formerly SFAS 159), *Financial Instruments*, provides companies with an option to report selected financial assets and liabilities at fair value. The objective of ASC 825 is to reduce both the complexity in accounting for financial instruments and the volatility in earnings caused by measuring related assets and liabilities differently. ASC 825 also establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities.

Foreign Currency Translation

Foreign currency assets and liabilities are translated into United States dollars using the exchange rates in effect at the balance sheet date, and revenues and expenses are translated at average rates prevailing during the periods reported. The effects of exchange rate fluctuations on the translation of assets and liabilities are reported as other comprehensive loss, which is a separate component of stockholders' equity.

3. FAIR VALUE MEASUREMENTS

The Company adopted ASC 820 (formerly SFAS 157), *Fair Value Measurements and Disclosures*, as of January 1, 2008. ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. ASC 820 describes three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Edgar Filing: EDIETS COM INC - Form 10-K

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

F - 12

Index to Financial Statements**EDIETS.COM, INC****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)**

The Company's debt consists of \$1.0 million of principal of related party notes (the "Director Notes") as of December 31, 2010, as discussed more fully in Note 9, which are not traded in an active market and are held by three of the Company's directors. As a result of the volatility of substantially all domestic credit markets that currently exist and the difficulty of the Company obtaining similar financing from an unrelated party, the Company is unable, as of December 31, 2010, to determine the fair value of such debt. The Company converted approximately \$22.1 million of senior secured notes into 22,088,981 shares of the Company's common stock during June of 2010, as discussed more fully in Note 10. The senior secured notes were not traded in an active market and were previously held by the Company's largest shareholder, Prides.

4. ACCOUNTS RECEIVABLE

Accounts receivable are shown in the accompanying consolidated balance sheet net of an allowance for doubtful accounts of less than \$0.1 million as of both December 31, 2010 and 2009. The Company performs ongoing credit evaluations of its customers and adjusts credit limits based upon payment history and customers' creditworthiness, as determined by the Company's review of their current credit information. The Company continuously monitors collections and payments from its customers and maintains an allowance for estimated credit losses based upon its historical experience and specific customer collection issues that the Company has identified. Accounts receivable are evaluated and written-off against the allowance if they are determined to be uncollectible.

5. PROPERTY AND OFFICE EQUIPMENT

Property and office equipment, net consists of the following (in thousands):

	December 31,	
	2010	2009
Office and computer equipment	\$ 3,300	\$ 3,485
Software	5,812	5,441
Furniture and fixtures	401	401
Leasehold improvements	485	485
	9,998	9,812
Less accumulated depreciation and amortization	(8,847)	(7,627)
	\$ 1,151	\$ 2,185

Software includes approximately \$4.0 of costs associated with internal-use software projects and Website development that have been capitalized pursuant to ASC 350-40 and ASC 350-50 as of December 31, 2010 and 2009, and approximately \$0.6 million of costs under a capital lease as of December 31, 2010 and 2009. Amortization expense related to internal-use software was approximately \$0.8 million, \$0.8 million and \$0.8 million for the years ended December 31, 2010, 2009, and 2008, respectively.

Included in office and computer equipment is equipment under capital leases of approximately \$1.4 million as of December 31, 2010 and 2009, less accumulated amortization of approximately \$1.4 million and \$1.3 million, respectively. Depreciation expense includes amortization of equipment under capital leases.

Total depreciation expense of property and office equipment for the years ended December 31, 2010, 2009 and 2008 was \$1.5 million, \$1.6 million and \$1.8 million, respectively.

6. ACCRUED LIABILITIES

Accrued liabilities consist of the following (in thousands):

Edgar Filing: EDIETS COM INC - Form 10-K

	December 31,	
	2010	2009
Advertising	\$ 133	\$ 152
Accrued compensation and employee benefits	121	113
Professional fees	66	233
Foreign taxes payable	3	4
Deferred rent	264	308
Interest payable	7	674
Refunds reserve	25	25
Other	432	346
	\$ 1,051	\$ 1,855

F - 13

Index to Financial Statements**EDIETS.COM, INC****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)**

Refunds reserve relates to digital plan and meal delivery sales refunds. Since all digital plans payments are deferred upon receipt, at the end of each month the Company reclassifies a portion of its deferred revenue to reserve for refunds. Based on historical experience, a range of between approximately 1%-3% of digital plans sales will result in a refund issued in a subsequent month after sale. All other refunds issued relate to current month digital plans sales. Because the revenue has not been recognized, refunds do not result in a reversal of digital plans revenue. Instead, digital plan refunds result in a decrease to the amounts maintained in deferred revenue. Meal delivery refunds mainly result from late shipments or packaging issues. Based on historical experience, a range of between approximately 1%-3% of prior month's meal delivery sales will result in a refund. Based on this historical refund rate, the Company determined that the refunds reserve of \$25,000 was the appropriate level of reserve at December 31, 2010 and 2009, respectively, as this amount represented the estimated refunds that would be required in subsequent periods for sales made through the end of each fiscal year. Actual refunds issued in 2011 and 2010 pertaining to sales made in 2010 and 2009, respectively, indicate that this estimate was reasonable with no material variance.

For the years ended December 31, 2010 and 2009, refunds to customers who paid their digital plans subscription fees in advance totaled approximately \$0.4 million and \$0.2 million, respectively.

For the years ended December 31, 2010 and 2009, refunds to customers in the meal delivery plan totaled approximately \$0.6 million and \$0.3 million, respectively.

7. DEFERRED REVENUE

Deferred revenue consists of the following (in thousands):

	December 31,	
	2010	2009
Deferred revenue		
Unearned digital plan revenue	\$ 425	\$ 425
Unearned development revenue	120	176
Unearned licensing revenue	31	26
Deferred royalty	852	1,537
Total deferred revenue	1,428	2,164
Less: current portion of deferred revenue	(1,144)	(1,242)
Non-current portion of deferred revenue	\$ 284	\$ 922

8. EMPLOYEE BENEFIT PLAN

The Company maintains a defined contribution benefit plan, or 401(k) salary deferral program, covering substantially all employees. Employees may elect to contribute to the plan amounts not to exceed a specified percentage of annual compensation, subject to the current limit imposed by Internal Revenue Service guidelines. The Company, at its discretion, may match the participants' contributions at a specified percentage, limited by a stated maximum amount. An unrelated investment company administers the assets of the plan. The total employer contributions charged to expense for the years ended December 31, 2010 and 2009 were zero, and approximately \$0.1 million for the year ended December 31, 2008.

9. DEBT TRANSACTIONS

On August 31, 2007 the Company borrowed \$10.0 million from Prides Capital Partners, LLC ("Prides"), in the form of a Senior Secured Note and accompanying agreements ("First Note"). The First Note, along with accrued and paid-in-kind interest, was converted into 15,000,643 shares of the Company's common stock on June 4, 2010 ("First Note Debt Conversion"). During the year ended December 31, 2010, the Company recorded

Edgar Filing: EDIETS COM INC - Form 10-K

approximately \$14.8 million of additional interest expense due to the reduction in conversion price associated with the First Note Debt Conversion.

In accordance with ASC 470-20-55 (formerly EITF 98-5) and ASC 470-20-30 (formerly EITF 00-27), *Debt Debt with Conversion and Other Options*, the First Note's conversion feature was considered a beneficial conversion feature and was treated as a note discount with a fair value of approximately \$2.4 million, which was amortized to interest expense through June 4, 2010 using the

F - 14

Index to Financial Statements**EDIETS.COM, INC****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)**

effective interest method. As of December 31, 2010, the Company had amortized approximately \$2.1 million of the beneficial conversion feature discount and during the year ended December 31, 2010, the Company adjusted the additional \$0.3 million to interest expense incurred with the First Note Debt Conversion.

Additionally, in connection with the issuance of the First Note, a warrant to purchase one million shares of the Company's common stock at \$5.00 per share was issued to Prides. The warrant had a 10-year term and was redeemable at the option of the Company. The Company determined in accordance with ASC 470-20-25 (formerly Accounting Principles Board Opinion No. 14), *Debt - Debt with Conversion and Other Options*, that the warrant had a relative fair value of \$1.8 million, which was treated as a note discount and amortized using the effective interest method until the debt was converted on June 4, 2010. As of December 31, 2010, the Company had amortized approximately \$1.6 million of this discount and during the year ended December 31, 2010, the Company adjusted the additional \$0.2 million to interest expense incurred with the First Note Debt Conversion.

On June 23, 2009, the Company executed an Agreement to Amend Warrants (Warrant Amendment) in which the Company agreed to amend this warrant, among others, to reduce the purchase price per share of common stock to \$1.00 and the warrants were exercised at the \$1.00 exercise price during 2009 (as described in Note 10).

The Company incurred approximately \$0.2 million in issuance costs paid directly to Prides in connection with the First Note. In accordance with ASC 470-20-30, these issuance costs were treated as a note discount and were amortized to interest expense using the effective interest method through June 4, 2010. As of December 31, 2010, the Company had amortized approximately \$180,000 of this discount and during the year ended December 31, 2010, the Company adjusted the additional \$20,000 to interest expense incurred with the First Note Debt Conversion.

During the year ended December 31, 2010, the Company recorded approximately \$1.8 million of interest expense prior to the First Note Debt Conversion, including amortization of the note discounts of approximately \$0.9 million, related to the First Note. The Company recorded approximately \$3.6 million and \$2.8 million of interest expense, including amortization of the note discounts of \$1.6 million and \$1.1 million, related to the First Note for the years ended December 31, 2009 and 2008, respectively. These amounts are included in the Consolidated Statements of Operations under Interest expense .

On May 30, 2008, the Company borrowed an additional \$2.6 million from Prides in the form of a Senior Secured Note and accompanying agreements (Second Note). The Second Note, along with accrued and paid-in-kind interest, was converted into 3,718,176 shares of the Company's common stock on June 4, 2010 (Second Note Debt Conversion). During the year ended December 31, 2010, the Company recorded approximately \$4.1 million of additional interest expense due to the reduction in conversion price associated with the Second Note Debt Conversion.

In accordance with ASC 470-20-55 (formerly EITF 98-5) and ASC 470-20-30 (formerly EITF 00-27), *Debt - Debt with Conversion and Other Options*, the Second Note's conversion feature was considered a beneficial conversion feature and was treated as a note discount with a fair value of approximately \$1.1 million, which was amortized to interest expense through June 4, 2010 using the effective interest method. As of December 31, 2010, the Company had amortized approximately \$0.5 million of the beneficial conversion feature discount and during the year ended December 31, 2010, the Company adjusted the additional \$0.6 million to interest expense incurred with the Second Note Debt Conversion.

Additionally, in connection with the issuance of the Second Note, a warrant to purchase approximately 0.5 million shares of the Company's common stock at \$4.25 per share was issued to Prides. The warrant had a 10-year term and was redeemable at the option of the Company. The Company determined in accordance with ASC 470-20-25 (formerly Accounting Principles Board Opinion No. 14), *Debt - Debt with Conversion and Other Options*, that the warrant had a relative fair value of \$1.0 million, which was treated as a note discount and amortized using the effective interest method until the debt was converted on June 4, 2010. As of December 31, 2010, the Company had amortized approximately \$0.4 million of this discount and during the year ended December 31, 2010, the Company adjusted the additional \$0.6 million to interest expense incurred with the Second Note Debt Conversion.

In connection with the Warrant Amendment mentioned above, on June 23, 2009, the Company agreed to amend this warrant, among others, to reduce the purchase price per share of common stock to \$1.00, and the warrants were exercised at the \$1.00 exercise price during 2009 (as

described in Note 10).

The Company incurred approximately \$0.1 million in issuance costs paid directly to Prides in connection with the Second Note. In accordance with ASC 470-20-30, these issuance costs were treated as a note discount and were amortized to interest expense using the effective interest method through June 4, 2010. As of December 31, 2010, the Company had amortized approximately \$47,000 of this discount and during the year ended December 31, 2010, the Company adjusted the additional \$48,000 to interest expense incurred with the Second Note Debt Conversion.

Index to Financial Statements**EDIETS.COM, INC****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)**

During the year ended December 31, 2010, the Company recorded approximately \$0.6 million of interest expense prior to the Second Note Debt Conversion, including amortization of the note discounts and expenses of approximately \$0.3 million, related to the Second Note. The Company recorded approximately \$1.0 million and \$0.4 million of interest expense, including amortization of the note discounts of approximately \$0.5 million and \$0.1 million, related to the Second Note for the years ended December 31, 2009 and 2008, respectively. These amounts are included in the Consolidated Statements of Operations under Interest expense .

In the Note and Warrant Purchase Agreement for the Second Note, Prides committed to provide the Company with an additional \$2.55 million in Senior Secured Notes (Third Note), with terms similar to the Second Note and as set forth in the Note and Warrant Purchase Agreement. On November 13, 2008 the Company executed the Third Note and the issuance of this Third Note does not impact the accounting or the valuation of the warrants that were issued in connection with the Second Note. The Third Note, along with accrued and paid-in-kind interest, was converted into 3,370,162 shares of the Company s common stock on June 4, 2010 (Third Note Debt Conversion). During the year ended December 31, 2010, the Company recorded approximately \$3.1 million of additional interest expense due to the reduction in conversion price associated with the Third Note Debt Conversion.

In accordance with ASC 470-20-55 (formerly EITF 98-5) and ASC 470-20-30 (formerly EITF 00-27), *Debt Debt with Conversion and Other Options*, the Third Note s conversion feature was considered a beneficial conversion feature and was treated as a note discount with a fair value of approximately \$0.1 million, which was amortized through June 4, 2010 using the effective interest method. As of December 31, 2010, the Company had amortized approximately \$33,000 of the beneficial conversion feature discount and during the year ended December 31, 2010, the Company adjusted the additional \$39,000 to interest expense incurred with the Third Note Debt Conversion.

The Company incurred approximately \$0.1 million in issuance costs paid directly to Prides in connection with the Third Note. In accordance with ASC 470-20-30, these issuance costs were treated as a note discount and were amortized to interest expense using the effective interest method through June 4, 2010. As of December 31, 2010, the Company had amortized approximately \$26,000 of this discount and during the year ended December 31, 2010, the Company adjusted the additional \$30,000 to interest expense incurred with the Third Note Debt Conversion.

During the year ended December 31, 2010, the Company recorded approximately \$0.3 million of interest expense prior to the Third Note Debt Conversion, including amortization of the note discounts and expenses of approximately \$27,000, related to the Third Note. The Company recorded approximately \$0.6 million and \$0.1 million of interest expense, including amortization of the note discounts of approximately \$42,000 and \$4,000, respectively, related to the Third Note for the years ended December 31, 2009 and 2008. These amounts are included in the Consolidated Statements of Operations under Interest expense .

On March 9, 2010, the Company issued a promissory note (the Richardson Note) to Kevin A. Richardson II, one of the Company s directors and an officer of Prides. Pursuant to the Richardson Note, the Company borrowed \$500,000 from Kevin A. Richardson II. The Richardson Note, along with accrued interest, was converted into 506,027 shares of the Company s common stock on June 4, 2010. During the year ended December 31, 2010, the Company recorded approximately \$213,000 as a loss on extinguishment of related party debt when the Richardson Note was extinguished on June 4, 2010 in exchange for 506,027 shares of the Company s common stock.

The First Note, Second Note and Third Note previously placed certain limitations on the Company s ability to enter into various transactions including, in aggregate, capital leases in excess of \$2 million, other forms of indebtedness in excess of \$250,000, and total investments in excess of \$250,000. Pursuant to the Prides Debt Conversion Agreement, Prides released all security interests, liens and other encumbrances on the assets of the Company held by Prides pursuant to its Security Agreements. Further, pursuant to the Prides Debt Conversion Agreement, Prides released the guarantors under any and all obligations arising under or in connection with the Subsidiary Guaranty Agreements in favor of Prides dated August 31, 2007 and May 30, 2008.

Pursuant to the Prides Debt Conversion Agreement, Prides waived (i) the prohibition on related party transactions outside the ordinary course of business under its August 2007 Note and Warrant Purchase Agreement and the May 2008 Note and Warrant Purchase Agreement with the Company as to the Registered Offering, the Private Placement and the Richardson Debt Conversion, (ii) the prepayment premium pursuant to certain of the Prides Notes in respect of the Prides Debt Conversion, and (iii) the mandatory prepayment provisions pursuant to certain of the Prides Notes in respect of the Registered Offering, the Private Placement, and the Richardson Debt Conversion.

Edgar Filing: EDIETS COM INC - Form 10-K

On November 12, 2010, the Company issued the following promissory notes (the "Director Notes"): (i) a promissory note to Kevin A. Richardson II, one of the Company's directors and an officer of Prides, pursuant to which the Company borrowed \$600,000, (ii) a promissory note to Lee S. Isgur, one of the Company's directors, pursuant to which the Company borrowed \$200,000 and (iii) a promissory note to Kevin N. McGrath, one of the Company's directors and the Company's President and Chief Executive Officer pursuant to which the Company borrowed \$200,000. The entire outstanding principal balance of the Director Notes, together with all

F - 16

Index to Financial Statements**EDIETS.COM, INC****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)**

accrued and unpaid interest, is due and payable on December 31, 2011. Interest accrues on the Director Notes at a rate of five percent (5%) per annum. In the event the principal is not paid in full within three business days of the due date, or any other default occurs thereunder, then interest shall accrue on the outstanding principal balance of the Director Notes at a rate of ten percent (10%) per annum.

10. STOCKHOLDERS EQUITY**2010 Related Party Equity Transactions**

On April 5, 2010, the Company entered into a Debt Conversion Agreement with Prides (the Prides Debt Conversion Agreement) to convert the aggregate principal amount of the three outstanding Prides Notes, plus all accrued and unpaid interest through the date of conversion, into common stock at a price equal to the price at which the common stock was sold in the Registered Offering, or \$1.00 per share (the Prides Debt Conversion). Also on April 5, 2010, the Company entered into a Debt Conversion Agreement with Kevin A. Richardson II, one of the Company's directors and an officer of Prides (the Richardson Debt Conversion Agreement) to convert the principal amount of the Richardson Note, plus all accrued and unpaid interest through the date of conversion, into common stock at a price equal to the price at which the common stock was sold in the Registered Offering, or \$1.00 per share. (the Richardson Debt Conversion and, together with the Prides Debt Conversion, the Debt Conversions).

In addition, on April 5, 2010, the Company entered into Securities Subscription and Purchase Agreements with Mr. Richardson, Kevin N. McGrath, one of the Company's directors and its President and Chief Executive Officer, and Lee S. Isgur, one of the Company's directors, pursuant to which they agreed to purchase \$500,000 of common stock at a price equal to the price at which the common stock was sold in the Registered Offering, or \$1.00 per share (the Private Placement).

The Debt Conversions and the Private Placement each closed on June 4, 2010. At closing, the Company issued 22,088,981 shares of common stock to Prides in full satisfaction of the Prides Notes, and the Company issued 506,027 shares of common stock to Mr. Richardson in full satisfaction of the Richardson Note. In addition, the Company issued 500,000 shares of common stock in connection with the Private Placement. The Company entered into an amendment to the Registration Rights Agreement described below under 2009 Related Party Equity Transactions pursuant to which it agreed to register, upon the occurrence of certain conditions, the resale of the shares of common stock issued as a result of the Debt Conversions and the Private Placement.

Pursuant to the Prides Debt Conversion Agreement, Prides waived (i) the prohibition on related party transactions outside the ordinary course of business under its August 2007 Note and Warrant Purchase Agreement and the May 2008 Note and Warrant Purchase Agreement with the Company as to the Registered Offering, the Private Placement and the Richardson Debt Conversion, (ii) the prepayment premium pursuant to certain of the Prides Notes in respect of the Prides Debt Conversion, and (iii) the mandatory prepayment provisions pursuant to certain of the Prides Notes in respect of the Registered Offering, the Private Placement, and the Richardson Debt Conversion.

2010 Registered Offering of Common Stock

On April 9, 2010, the Company completed the Registered Offering of 5,275,000 shares of common stock to investors for a price of \$1.00 per share. The Company received net proceeds of approximately \$4.9 million, after placement agent fees and expenses from the Registered Offering.

Warrants Issued to Related Parties

The Company issued Warrants to purchase approximately 1.2 million shares at \$6.00 per share to Prides in connection with the private placement that occurred in connection with the May 2006 acquisition of Nutrio. In connection with the Notes issued in August 2007 and May 2008, as described in Note 10, the Company issued warrants to purchase 1.0 million shares at \$5.00 per share and 0.5 million shares at \$4.25 per share, respectively.

Edgar Filing: EDIETS COM INC - Form 10-K

In connection with the Warrant Amendment as described in Note 9, on June 23, 2009, the Company agreed to reduce the price of all Prides outstanding warrants to \$1.00, and Prides agreed to use diligent efforts to exercise, in one or more tranches, a portion of the outstanding warrants as soon as reasonably practicable in order to purchase 2.5 million shares underlying these outstanding warrants. The repricing of these warrants resulted in an additional fair value of the warrants of approximately \$0.5 million. To encourage the exercise of Prides rights under the outstanding warrants, as amended by the Warrant Amendment, the Company agreed in the Warrant Amendment to issue Prides one or more New Warrants (the New Warrants) to purchase nine shares of the Company's common stock for every 20 shares purchased by Prides as a result of an exercise of the outstanding warrants with an exercise price of \$1.20 per share.

F - 17

Index to Financial Statements**EDIETS.COM, INC****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)****2009 Related Party Equity Transactions**

On June 23, 2009 and on September 8, 2009, respectively, the Company executed Securities Subscription and Purchase Agreements (collectively the Purchase Agreements) with three of its directors, Kevin A. Richardson II, Lee Isgur and Kevin McGrath, who is also the Company's President and Chief Executive Officer. Under the terms of the Purchase Agreements, the three directors agreed to purchase an aggregate of 1,066,040 shares of the Company's common stock in exchange for an aggregate of \$1.1 million in cash in a Private Placement (the 2009 Private Placement). The Company used the \$1.1 million of gross proceeds from the share sale to fund its business. As part of the 2009 Private Placement, the Company agreed to issue Warrants for the Purchase of Shares of Common Stock (each a Warrant) to the three directors, to purchase an aggregate of 479,718 shares of the Company's common stock at an exercise price of \$1.20 per share. Each Warrant has a ten year expiration date, is exercisable beginning immediately and provides for a cashless net exercise under certain conditions with respect to up to 25% of the shares of common stock issuable upon exercise thereof. The exercise price of each Warrant is subject to adjustment under certain circumstances; however, no adjustment to the exercise price will operate to reduce the exercise price to a price less than the closing price of the Company's common stock on (i) June 22, 2009, for Warrants issued in connection with the June 2009 transaction, and (ii) September 4, 2009, for Warrants issued in connection with the September 2009 transaction. The Company has the option to change the expiration date of the Warrant in the event that the closing price per share of common stock is in excess of 150% of the exercise price for thirty (30) consecutive days as reflected on The Nasdaq Capital Market.

The Company also executed a Registration Rights Agreement (Registration Rights Agreement) with the three directors participating in the Private Placement and with Prides Capital. Pursuant to the Registration Rights Agreement, the Company agrees to register, upon the occurrence of certain conditions, the resale of the shares of common stock issued to the three directors and the shares of common stock issuable upon exercise of each Warrant and New Warrant.

In September 2009, Prides exercised a portion of the outstanding warrants to purchase 200,000 shares of the Company's common stock. In connection with this exercise, the Company received \$0.2 million and issued a New Warrant, with a 10-year term, to purchase 90,000 shares of the Company's common stock at \$1.20 per share. The Company has the option to change the expiration date of the Warrant in the event that the closing price per share of common stock is in excess of 150% of the exercise price for thirty (30) consecutive days as reflected on The Nasdaq Capital Market. In October and November 2009, Prides exercised warrants to purchase approximately 2.5 million shares of the Company's common stock. In connection with these exercises, the Company received approximately \$2.5 million and issued New Warrants, with a 10-year term, to purchase an aggregate of 1,119,652 shares of the Company's common stock at \$1.20 per share.

As of December 31, 2010, 144,626 stock options previously granted to Prides were vested, and 25,727 shares previously granted to Prides were unrestricted. These options and restricted share awards were subject to variable accounting under ASC 718-10 as interpreted by EITF 96-18. The Company valued these stock options and restricted shares using the Black-Scholes-Merton pricing model (see assumptions under Stock-Based Compensation). Common stock is valued using the market price of common stock on the measurement date as defined in EITF 96-18. Compensation expense of \$0, \$0 and less than \$(0.1) million was recorded for the years ended December 31, 2010, 2009 and 2008, respectively, related to such grants.

At December 31, 2010, there were 1,209,652 Prides New Warrants outstanding and 479,718 Warrants outstanding for the three directors.

Common Stock

At December 31, 2010, 5,478,759 common shares were reserved for future issuance related to outstanding stock options and RSUs and 1,689,370 common shares were reserved for future issuance related to outstanding warrants. When stock options are exercised or restricted share awards restrictions lapses, new shares of the Company's common stock are issued.

Stock-Based Compensation

The Company grants stock options, restricted stock units and restricted stock awards to its employees, officers, directors and consultants. In November 2004, the Company adopted the eDiets.com, Inc. 2004 Equity Incentive Plan (the Incentive Plan) (as amended effective May 6, 2008 and as amended and restated effective May 4, 2010). The Incentive Plan provides for the grant of incentive stock options or ISOs, non-qualified

Edgar Filing: EDIETS COM INC - Form 10-K

stock options or NSOs, stock appreciation rights or SARs, restricted stock, restricted stock units (RSUs), performance awards, deferred stock and unrestricted stock. The Incentive Plan is administered by the Compensation Committee of the Board of Directors (the Committee). A maximum of 6,000,000 shares of common stock may be delivered in satisfaction of awards made under the Incentive Plan. The maximum number of shares of common stock that may be issued in any calendar year pursuant to the exercise of ISOs and NSOs is 3,000,000 each. The maximum number of shares as to which options may be granted under the Incentive Plan in any calendar year is 2,000,000 shares. The maximum number of shares subject to

F - 18

Index to Financial Statements

EDIETS.COM, INC

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

SARs under the Incentive Plan in any calendar year is 2,000,000 shares. The maximum number of shares subject to performance awards granted under the Incentive Plan in any calendar year is 800,000 shares. The term of any ISO granted under the Incentive Plan may not exceed ten years, or five years if granted to a person that owns common stock representing more than 10% of the voting power of all class of stock of the Company. Options granted under the Incentive Plan generally vest ratably over a three-year period. SARs may be granted either in tandem with or independent of stock options. The Incentive Plan also provides for awards of fully vested unrestricted stock, but no more than 360,000 shares in the aggregate may be granted at less than fair market value unless granted in lieu of cash compensation equal to such fair market value. The Incentive Plan also provides for deferred grants entitling the recipient to receive common stock upon satisfaction of conditions determined by the Committee in its discretion. The Incentive Plan provides for performance award grants which may be linked to the market value, book value, net profits or other measure of the value of common stock or other specific performance criteria determined appropriate by the Committee, or may be based upon the appreciation in the market value, book value, net profits or other measure of the value of a specified number of shares of common stock over a fixed period or periods determined by the Committee.

As of December 31, 2010 and 2009, there were 23,000 and 248,000 RSUs outstanding, respectively, which excludes certain RSUs subject to performance-based vesting conditions as disclosed below, and 4,292,415 and 2,973,477 options outstanding, respectively, under the Incentive Plan.

In November 1999, the Company adopted the eDiets.com, Inc. Stock Option Plan (the Plan) (as amended and restated effective April 1, 2002 and as amended effective September 30, 2009). The Plan terminated in November 2009 pursuant to the Plan provisions and therefore, the Company will not grant any additional shares or options under the Plan. The Plan, as amended, provides for the grant of ISOs and NSOs to purchase up to 5,000,000 shares of the Company's common stock to employees, directors and consultants to the Company. Options granted to employees under the Plan generally vest ratably over a two- or three-year period and expire five or ten years from the date of grant. Such options generally have an exercise price equal to the fair market value of the underlying common stock at the grant date and are fully exercisable on the date of grant for a period of up to five to ten years. In October 2009, the Company's Board of Directors approved an amendment (effective September 30, 2009) allowing for the transferability of stock options under limited circumstances. As of December 31, 2010 and 2009, 687,344 and 1,133,230 options, respectively, were outstanding under the Plan.

The Company accounts for its stock-based compensation plans in accordance with ASC 718-10 (formerly SFAS 123R), *Compensation - Stock Compensation*. Under the provisions of ASC 718-10, the Company estimates the fair value of each stock option on the date of grant using a Black-Scholes-Merton (BSM) option-pricing formula, applying the following assumptions, and amortizes that value to expense over the option's vesting period using the straight-line attribution method.

	Year Ended December 31,		
	2010	2009	2008
Expected term (in years)	3.5	3.5	3.2
Risk-free interest rate	1.3%	1.5%	1.9%
Expected volatility	.703	.680	.630
Expected dividend yield	%	%	%

Expected Term: The expected term represents the period over which the share-based awards are expected to be outstanding for employees and directors. The Company uses the historical exercise experience in determining the expected term.

Risk-Free Interest Rate: The Company based the risk-free interest rate used in its assumptions on the implied yield currently available on U.S. Treasury zero-coupon issues with a remaining term equivalent to the stock option award's expected term.

Expected Volatility: The volatility factor used in the Company's assumptions is based on the historical price of its stock from 2001 to the current period because the Company believes that this extended period reflects the true Company history.

Expected Dividend Yield: The Company does not intend to pay dividends on its common stock for the foreseeable future. Accordingly, the Company uses a dividend yield of zero in its assumptions.

Edgar Filing: EDIETS COM INC - Form 10-K

As required by ASC 718-10, the Company estimates forfeitures of employee stock options and restricted stock awards and recognizes compensation cost only for those awards expected to vest. Forfeiture rates are determined for three groups (employees, officers and directors) based on historical experience. Estimated forfeitures are adjusted to the actual forfeiture experience as needed.

F - 19

Index to Financial Statements**EDIETS.COM, INC****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)**

During the years ended December 31, 2010, 2009 and 2008, the Company recognized stock-based compensation expense under ASC 718-10 (related to stock options, RSUs and restricted stock awards) of \$0.9 million, \$1.6 million and \$1.0 million, respectively. The breakdown of stock-based compensation expense per line item on the accompanying consolidated statements of operations for the three years ended December 31, 2010, 2009 and 2008, is as follows (in thousands):

	2010	2009	2008
Cost of revenue	\$ 10	\$ 22	\$ 33
Technology and development	138	343	299
Sales, marketing and support	199	370	387
General and administrative	535	716	250
	\$ 882	\$ 1,451	\$ 969

A summary of option activity under the Company's stock plans for the years ended December 31, 2010, 2009 and 2008 is as follows (shares in thousands):

	Number of Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (yrs)	Aggregate Intrinsic Value (\$000)
Outstanding at January 1, 2008	1,868	3.88	4.25	
Granted	1,292	4.47		
Exercised	(91)	3.33		
Forfeited	(251)	4.48		
Expired	(93)	4.14		
Outstanding at December 31, 2008	2,725	4.11	3.88	
Granted	1,825	1.73		
Exercised				
Forfeited	(178)	3.56		
Expired	(265)	4.04		
Outstanding at December 31, 2009	4,107	\$ 3.08	5.32	\$ 126
Granted	1,799	1.17		
Exercised				
Forfeited	(421)	2.54		
Expired	(505)	4.10		
Outstanding at December 31, 2010	4,980	\$ 2.34	6.29	\$
Vested or expected to vest at December 31, 2010	4,512	\$ 2.42	6.07	\$
Exercisable at December 31, 2010	2,691	\$ 3.03	4.57	\$

Edgar Filing: EDIETS COM INC - Form 10-K

The weighted-average fair value of stock options granted during the years ended December 31, 2010, 2009 and 2008 was \$0.44, \$0.81 and \$1.96, respectively.

There were no stock option exercises during 2010 or 2009. The total intrinsic value of stock options exercised was \$0.1 million for the year ended December 31, 2008. As of December 31, 2010, there was \$0.9 million of total unrecognized compensation cost related to the stock options granted under the Company's stock plans. That cost is expected to be recognized over a weighted-average period of 2.1 years.

The total fair value of stock options that vested in 2010, 2009 and 2008 was \$1.2 million, \$1.3 million and \$1.2 million, respectively.

Cash received from the exercise of stock options under the Company's stock plans for the years ended December 31, 2010, 2009 and 2008 was \$0, \$0 and \$0.3 million, respectively.

EDIETS.COM, INC

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

A summary of the RSUs outstanding under the Company's Incentive Plan for the years ended December 31, 2010, 2009 and 2008 is presented below (shares in thousands):

	Number of Shares	Weighted Average Fair Value At Grant Date
Non-vested at January 1, 2008	297	\$ 3.96
Granted	85	5.62
Vested	(81)	5.66
Forfeited	(38)	4.49
Non-vested at December 31, 2008	263	\$ 4.87
Granted	18	3.37
Vested	(20)	3.65
Forfeited	(13)	4.24
Non-vested at December 31, 2009	248	\$ 4.89
Granted		
Vested		
Forfeited	(225)	4.93
Non-vested at December 31, 2010	23	\$ 4.52

No RSUs vested during 2010. The non-vested RSUs listed above are expected to vest upon achievement of performance goals that are not currently deemed probable by management as of December 31, 2010. The total fair value of restricted stock awards that vested in each of the years ended December 31, 2009 and 2008 was \$0.1 million and \$0.5 million, respectively. During January 2010, 225,000 of the non-vested restricted stock awards were forfeited.

As the restricted stock and RSUs are subject to graded vesting, the cost is being recognized on an accelerated basis. As of December 31, 2010, there was no unrecognized compensation cost related to restricted stock awards granted under the Company's stock plans.

In March 2008, 69,000 RSUs were awarded to an officer, subject to performance-based vesting conditions. Performance conditions were established for one third, or 23,000 RSUs, which were expected to vest in March 2009, but as the performance condition was not achieved, all previously recorded compensation cost of approximately \$0.1 million was reversed in the first quarter of 2009. As of December 31, 2010, performance conditions have not been established by the Board for the remaining 46,000 RSUs, and thus no compensation expense has been recorded to date related to these 46,000 RSUs. At the time that the performance conditions are established, the value of these RSUs will be determined and the resulting compensation cost recorded. All 69,000 RSUs are not vested as of December 31, 2010. The 46,000 RSUs have been excluded from the summary of RSU activity above.

In December 2008, 425,000 RSUs were awarded to an officer, subject to performance-based vesting conditions, which have not yet been established by the Board, and thus no compensation expense has been recorded to date related to these RSUs. At the time that the performance conditions are established, the value of these RSUs will be determined and the resulting compensation cost recorded. These 425,000 RSUs have been excluded from the summary of RSU activity above.

In January 2009, 5,000 RSUs were awarded to an officer, subject to performance-based vesting conditions, which have not yet been established by the Board, and thus no compensation expense has been recorded to date related to these RSUs. At the time that the performance conditions

Edgar Filing: EDIETS COM INC - Form 10-K

are established, the value of these RSUs will be determined and the resulting compensation cost recorded. These 5,000 shares have been excluded from the summary of RSU activity above.

F - 21

EDIETS.COM, INC

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

11. COMMITMENTS AND CONTINGENCIES

The Company leases office space and equipment under an operating lease. In addition to rent, the leases require the Company to pay for taxes, insurance, maintenance and other operating expenses. Certain of the leases contain stated escalation clauses while others contain renewal options. The Company recognizes rent expense on a straight-line basis over the term of the lease, excluding renewal periods, unless renewal of the lease is reasonably assured. Commitments for minimum rentals under non-cancelable leases at the end of 2010 are as follows (in thousands):

	Capital Leases	Operating Leases
2011	\$ 24	\$ 664
2012	24	690
2013		717
2014		745
2015 and thereafter		1,648
Total minimum lease payments	48	\$ 4,464
Less amount representing interest	(4)	
Present value of minimum lease payments	\$ 44	

The Company had approximately \$0.5 million in leasehold improvements related to the operating lease for corporate office space. These leasehold improvements are being amortized over the shorter of the lease term or the life of the asset ranging from five to ten years.

Rental expense under operating leases was approximately \$0.6 million for each of the years ended December 31, 2010, 2009 and 2008.

The Company has an irrevocable standby letter of credit from a bank in the amount of \$0.5 million, which expires on June 30, 2011 and is automatically extended each year for one year unless written notice is provided. The letter of credit may not be extended beyond June 30, 2017. The letter of credit is collateralized by certain cash equivalents and is being used to guarantee lease obligations related to the corporate office in the event that the Company does not pay its rent.

In the ordinary course of business, the Company and/or its subsidiaries may be parties to legal proceedings and regulatory inquiries, the outcome of which, either singly or in the aggregate, is not expected to have a material adverse effect on the Company's financial condition or results of operations.

12. INCOME TAXES

The Company adopted ASC 740-10 (formerly FIN 48), *Income Taxes - Overall*, effective January 1, 2007. ASC 740-10 clarifies the accounting for uncertainty in income taxes recognized in financial statements and requires the impact of a tax position to be recognized in the financial statements if that position is more likely than not of being sustained by the taxing authority. In accordance with ASC 740-10, the Company did not recognize any liability for unrecognized tax benefits. The Company policy is to record accrued interest and penalties related to unrecognized tax benefits as part of other expense. The Company's federal income tax returns for 2007 through 2010 are open tax years and are subject to examination by the Internal Revenue Service.

Index to Financial Statements

EDIETS.COM, INC

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

The components of the income tax (provision) benefit for the years ended December 31, 2010, 2009 and 2008 are as follows (in thousands):

	2010	2009	2008
Current tax expense Foreign	\$ (1)	\$ (18)	\$ (6)
Deferred tax benefit Foreign			
Total	\$ (1)	\$ (18)	\$ (6)

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Significant components of the Company's net deferred income taxes as of December 31, 2010 and 2009 are as follows (in thousands):

	2010	2009
Deferred tax assets:		
Net operating loss carry-forwards	\$ 15,881	\$ 12,740
Stock option compensation ASC 718-10	2,383	2,051
Credits	946	946
Deferred revenue	189	303
Allowance for doubtful accounts and reserve for refunds	42	69
Deferred rent	99	90
Depreciation and amortization	245	
Other	5	3
	19,790	16,202
Valuation allowance	(19,790)	(16,173)
Total deferred tax assets		29
Deferred tax liabilities:		
Depreciation and amortization		(11)
Identifiable intangibles		(18)
Total deferred tax liabilities		(29)
Net deferred income tax liability	\$	\$

ASC 740 (formerly SFAS 109), *Income Taxes*, requires a valuation allowance to reduce the deferred tax assets reported if, based on the weight of the evidence, it is more likely than not that some portion or all of the deferred tax assets will not be realized. After consideration of all evidence, both positive and negative, management has determined that an approximately \$19.8 million and \$16.2 million valuation allowance at December 31, 2010 and 2009, respectively, is necessary to reduce the deferred tax assets to the amount that will more likely than not be realized. The change in the valuation allowance for the years ended December 31, 2010, 2009 and 2008 was an increase of approximately \$3.6 million, \$3.1 million and \$4.0 million, respectively.

At December 31, 2010, the Company had approximately \$57.2 million in net operating loss carry-forwards for U.S. federal income tax purposes that expire in various amounts through 2030. Approximately \$15.0 million of the net operating loss carry-forwards relate to stock option deductions that will be recognized through additional paid-in-capital when the net operating losses are utilized. In May 2006, the Company

Edgar Filing: EDIETS COM INC - Form 10-K

acquired Nutrio, which had net operating losses of \$3.3 million, which are subject to an annual Section 382 limitation. As a result of the Section 382 study update for 2009, it was determined that the Company has not experienced a change in control, as defined under Section 382 of the Internal Revenue Code. Therefore, the utilization of the Company's net operating loss carry-forwards may be limited on an annual basis due to a previous change in control and could expire unused. Although the Company has not completed the required study update for 2010, the Company does not believe it has experienced any additional changes in control as defined under Section 382 of the Internal Revenue Code.

F - 23

Index to Financial Statements**EDIETS.COM, INC****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)**

The reconciliation of income tax computed at the U.S federal statutory rate to income tax expense (benefit) for the years ended December 31, 2010, 2009 and 2008 is as follows:

	2010	2009	2008
Tax at U.S. statutory rate	(34.0)%	(34.0)%	(34.0)%
State taxes, net of federal benefit	(0.8)	(2.2)	(2.1)
Non-deductible items	21.2	14.4	5.6
Changes in valuation allowance	8.4	25.6	19.9
Return to provision adjustment	(0.1)	(2.1)	4.6
Undistributed earnings of foreign subsidiary			(2.9)
Goodwill impairment	5.4		8.9
Other	(0.2)	(1.6)	
	0.1%	0.1%	0.0%

13. SEGMENT INFORMATION

ASC 280 (formerly SFAS 131), *Segment Reporting*, designates the internal reporting that is used by management for making operating decisions and assessing performance as the source of the Company's reportable segments.

The Company operates in a single market consisting of the sale of services, information and products (ecommerce and meal delivery) related to nutrition, fitness and motivation. The Company has three reportable segments: the U.S. business-to-consumer segment, the U.S. business-to-business segment and the European business segment. Meal delivery revenue and cost of revenue are included in the U.S. business-to-consumer segment.

The Company does not engage in inter-company revenue transfers between segments. The Company's management evaluates performance based primarily on business segment. Accounting policies of the reportable segments are the same as the Company's consolidated accounting policies.

Net revenues and segment loss of the Company's three reportable segments for the years ended December 31, 2010, 2009 and 2008 are as follows (in thousands):

	2010	2009	2008
Net revenues:			
U.S. business-to-consumer	\$ 20,233	\$ 13,531	\$ 19,758

EDIETS.COM, INC

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

16. LEGAL PROCEEDINGS

In the ordinary course of business, the Company and/or its subsidiaries may be parties to legal proceedings and regulatory inquiries, the outcome of which, either singly or in the aggregate, is not expected to have a material adverse effect on the Company's financial condition or results of operations.

17. SUBSEQUENT EVENTS

During February 2011, the Company also awarded approximately 125,000 stock options under its Incentive Plan to one newly hired employee. During March 2011, the Company awarded a total of approximately 675,000 stock options under its Incentive Plan to certain employees.

During February 2011, the Company executed Subscription Agreements with investors pursuant to which 3,811,818 shares of the Company's common stock were issued under a private placement at a price of \$0.4125 per share, which provided approximately \$1.6 million of capital. Kevin A. Richardson, II and Lee S. Isgur, two of the Company's directors, entered into Subscription Agreements for approximately \$0.8 million and \$0.1 million, respectively. In addition, the Company issued warrants entitling the purchasers to acquire a total of 1,905,909 shares of common stock at an exercise price of \$0.3535 per share.

The shares of common stock sold in the private placement have not been registered under the Securities Act of 1933, as amended, or any state securities laws and may not be offered or sold in the United States absent registration or applicable exemption from the registration requirements of such Act and applicable state securities laws. However, eDiets has agreed to register for resale the shares of common stock issued in the private placement pursuant to a registration rights agreement with the purchasers of the shares.

During March 2011, the Company awarded approximately 1,150,000 stock options under its Incentive Plan to certain directors as 2011 compensation for Board of Director fees.

18. RECENT ACCOUNTING PRONOUNCEMENTS

In May 2009, the Financial Accounting Standards Board (FASB) issued new guidance contained within ASC 855-10-50 (formerly Statement of Financial Accounting Standards (SFAS) 165), *Subsequent Events - Overall* , which provides guidance to establish general standards of accounting for and disclosures of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. ASC 855-10 also requires entities to disclose the date through which subsequent events were evaluated as well as the rationale for why that date was selected. ASC 855-10 is effective for interim and annual periods ending after June 15, 2009, and accordingly, the Company adopted this Standard during the second quarter of 2009. ASC 855-10 requires that public entities evaluate subsequent events through the date that the financial statements are issued. We have evaluated subsequent events through the time of filing these financial statements with the Securities and Exchange Commission (SEC) and have disclosed such events in Note 17 - Subsequent Events.

In October 2009, the FASB issued ASU 2009-13, *Multiple-Deliverable Revenue Arrangements*, (amendments to FASB ASC 605, *Revenue Recognition*) and ASU 2009-14, *Certain Arrangements That Include Software Elements* , (amendments to FASB ASC 985, *Software*). ASU 2009-13 requires entities to allocate revenue in an arrangement using estimated selling prices of the delivered goods and services based on a selling price hierarchy. The amendments eliminate the residual method of revenue allocation and require revenue to be allocated using the relative selling price method. ASU 2009-14 removes tangible products from the scope of software revenue guidance and provides guidance on determining whether software deliverables in an arrangement that includes a tangible product are covered by the scope of the software revenue guidance. ASU 2009-13 and ASU 2009-14 are required to be applied on a prospective basis for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010, with early adoption permitted. The Company does not expect adoption of ASU 2009-13 or ASU 2009-14 to have a material impact on the Company's consolidated financial position or results of operations.
