FINANCIAL INFORMATION

ITEM 1: FINANCIAL STATEMENTS

The information furnished in the accompanying unaudited Consolidated Balance Sheets, Statements of Income, Statement of Changes in Shareholders' Equity and Statements of Cash Flows reflects all adjustments, consisting of normal recurring items, which are, in the opinion of management, necessary for a fair presentation of the financial position, results of operations and cash flows for the interim periods. The accompanying financial statements and notes thereto should be read in conjunction with the financial statements and notes for the three years ended December 31, 2010 included in WRIT's 2010 Annual Report on Form 10-K.

WASHINGTON REAL ESTATE INVESTMENT TRUST AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2011

(UNAUDITED)

NOTE 1: NATURE OF BUSINESS

Washington Real Estate Investment Trust (We or WRIT), a Maryland real estate investment trust, is a self-administered, self-managed equity real estate investment trust, successor to a trust organized in 1960. Our business consists of the ownership and development of income-producing real estate properties in the greater Washington metro region. We own a diversified portfolio of office buildings, medical office buildings, industrial/flex centers, multifamily buildings and retail centers.

Federal Income Taxes

We believe that we qualify as a real estate investment trust (REIT) under Sections 856-860 of the Internal Revenue Code and intend to continue to qualify as such. To maintain our status as a REIT, we are required to distribute 90% of our ordinary taxable income to our shareholders. When selling properties, we have the option of (a) reinvesting the sales proceeds of properties sold, allowing for a deferral of income taxes on the sale, (b) paying out capital gains to the shareholders with no tax to WRIT or (c) treating the capital gains as having been distributed to the shareholders, paying the tax on the gain deemed distributed and allocating the tax paid as a credit to the shareholders.

Generally, and subject to our ongoing qualification as a REIT, no provisions for income taxes are necessary except for taxes on undistributed REIT taxable income and taxes on the income generated by our taxable REIT subsidiaries (TRS). Our TRS is subject to corporate federal and state income tax on its taxable income at regular statutory rates. Our TRS has net operating loss carryforwards available of approximately \$4.7 million. These carryforwards begin to expire in 2028. We have determined that there were no material income tax provisions or material net deferred income tax items for our TRS for the quarters ended March 31, 2011 and 2010.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PRESENTATION

Significant Accounting Policies

We have prepared our consolidated financial statements using the accounting policies described in our Annual Report on Form 10-K for the year ended December 31, 2010.

New Accounting Pronouncement

In January 2010, the FASB issued ASU No. 2010-06, *Improving Disclosures About Fair Value* (ASU 2010-06), which requires new disclosures about fair value measurements. Specifically, a reporting entity should disclose separately the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements and describe the reasons for the transfers. Additionally, the reconciliation for Level 3 fair value measurements should present separately information about purchasers, sales, issuances and settlements. To date, we have not had any transfers in and out of Level 1 and Level 2 fair value measurements, nor do we have any Level 3 fair value measurements. Therefore, ASU 2010-06 did not have any impact on the fair value disclosures included in our consolidated financial statements.

Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and note disclosures normally included in annual financial statements prepared in accordance with U.S. generally accepted accounting principles (GAAP) have been condensed or omitted pursuant to those rules and regulations, although we believe that the disclosures made are adequate to make the information presented not misleading. In addition, in the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of the results for the periods presented have been included. These unaudited financial statements should be read in conjunction with the financial statements and notes included in our Annual Report on Form 10-K for the year ended December 31, 2010.

Edgar Filing: WASHINGTON REAL ESTATE INVESTMENT TRUST - Form 10-Q

Within these notes to the financial statements, we refer to the three months ended March 31, 2011 and March 31, 2010 as the 2011 Quarter and the 2010 Quarter, respectively.

Use of Estimates in the Financial Statements

The preparation of financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Table of Contents*Reclassifications*

Certain prior year amounts have been reclassified to conform to the current year presentation due to the reclassification of certain properties as discontinued operations (see note 3 to the consolidated financial statements).

NOTE 3: REAL ESTATE ACQUISITIONS AND DISCONTINUED OPERATIONS*Acquisitions*

WRIT acquired the following Washington, DC office properties during the 2011 Quarter:

Acquisition Date	Property Name	Property Type	Rentable Square Feet	Contract Purchase Price (in thousands)
January 11, 2011	1140 Connecticut Avenue	Office	184,000	\$ 80,250
March 30, 2011	1227 25 th Street	Office	130,000	\$ 47,000
		Total	314,000	\$ 127,250

The results of operations from these acquired properties are included in the income statement as of their acquisition dates. The total contract purchase price of \$127.3 million does not reflect credits received at settlement totaling \$0.3 million.

Discontinued Operations

We dispose of assets (sometimes using tax-deferred exchanges) that no longer meet our long-term strategy or return objectives and where market conditions for sale are favorable. The proceeds from the sales may be reinvested into other properties, used to fund development operations or to support other corporate needs, or distributed to our shareholders. Properties are considered held for sale when they meet the criteria specified by GAAP. Depreciation on these properties is discontinued at that time, but operating revenues, other operating expenses and interest continue to be recognized until the date of sale.

During the 2011 Quarter we committed to, and actively embarked upon, a plan to sell Dulles Station, Phase I, a 180,000 square foot office building in Herndon, Virginia. Subsequent to the end of the 2011 Quarter, we sold this property for a contract sales price of \$58.8 million. During the 2011 Quarter, we recorded a \$0.6 million impairment charge to reflect the property's fair value less any selling costs based on the contract sales price. We have classified this property as held for sale at March 31, 2011 and December 31, 2010.

We sold the following properties during 2010:

Disposition Date	Property Name	Property Type	Rentable Square Feet	Contract Purchase Price (In thousands)
June 18, 2010	Parklawn Portfolio ⁽¹⁾	Office/Industrial	229,000	\$ 23,400
December 21, 2010	The Ridges	Office	104,000	27,500
December 22, 2010	Ammendale I&II and Amvax	Industrial	305,000	23,000
		Total 2010	638,000	\$ 73,900

(1)

Edgar Filing: WASHINGTON REAL ESTATE INVESTMENT TRUST - Form 10-Q

The Parklawn Portfolio consists of three office properties (Parklawn Plaza, Lexington Building and Saratoga Building) and one industrial property (Charleston Business Center).

Table of Contents

Operating results of the properties classified as discontinued operations are summarized as follows (in thousands):

	Quarters Ended March 31,	
	2011	2010
Revenues	\$ 1,132	\$ 3,788
Property expenses	(492)	(1,642)
Real estate impairment	(599)	
Depreciation and amortization	(499)	(1,021)
Interest expense		(226)
	\$ (458)	\$ 899

Operating income (loss) by each property classified as discontinued operations is summarized below (in thousands):

Property	Segment	Quarters Ended	
		March 31, 2011	2010

Dulles Station, Phase I	Office	(458)	63
		\$ (458)	\$ 899

NOTE 4: MORTGAGE NOTES PAYABLE

	March 31, 2011	December 31, 2010
On October 9, 2003, we assumed a \$36.1 million mortgage note payable and a \$13.7 million mortgage note payable as partial consideration for our acquisition of Prosperity Medical Center. The mortgages bear interest at 5.36% per annum and 5.34% per annum respectively. Principal and interest are payable monthly until May 1, 2013, at which time all unpaid principal and interest are payable in full.	43,814	43,987
On August 12, 2004, we assumed a \$10.1 million mortgage note payable with an estimated fair value* of \$11.2 million, as partial consideration for our acquisition of Shady Grove Medical Village II. The mortgage bears interest at 6.98% per annum. Principal and interest are payable monthly until December 1, 2011, at which time all unpaid principal and interest are payable in full.	9,293	9,375
On December 22, 2004, we assumed a \$15.6 million mortgage note payable with an estimated fair value* of \$17.8 million, and a \$3.9 million mortgage note payable with an estimated fair value* of \$4.2 million as partial consideration for our acquisition of Dulles Business Park. The mortgages bear interest at 7.09% per annum and 5.94% per annum,	18,144	18,311

respectively. Principal and interest are payable monthly until August 10, 2012, at which time all unpaid principal and interest are payable in full. On March 23, 2005, we assumed a \$24.3 million mortgage note payable with an estimated fair value* of \$25.0 million as partial consideration for our acquisition of Frederick Crossing. The mortgage bears interest at 5.95% per annum. Principal and interest are payable monthly until November 1, 2012, at which time all unpaid principal and interest are payable in full.

22,116

22,268

Table of Contents

	March 31, 2011	December 31, 2010
On April 13, 2006, we assumed a \$5.7 million mortgage note payable as partial consideration for the acquisition of 9707 Medical Center Drive. The mortgage bears interest at 5.32% per annum through June 30, 2012, at which time the rate will be reset based on the Moody's Long-term Corporate Bond Yield Average, but never lower than 5.0% per annum. The interest rate will be reset annually thereafter for the duration of the note. Principal and interest are payable monthly until July 1, 2028, at which time all unpaid principal and interest are payable in full. During the first 90 days of 2013, the lender has the option to elect to accelerate the maturity date of the note to July 1, 2013. For the remainder of 2013, we have the right to prepay the note without any prepayment penalties.	4,912	4,955
On June 22, 2006, we assumed a \$4.9 million mortgage note payable as partial consideration for the acquisition of Plumtree Medical Center. The mortgage bears interest at 5.68% per annum. Principal and interest are payable monthly until March 11, 2013, at which time all unpaid principal and interest are payable in full.	4,488	4,512
On July 12, 2006, we assumed an \$8.8 million mortgage note payable as partial consideration for the acquisition of 15005 Shady Grove Road. The mortgage bears interest at 5.73% per annum. Principal and interest are payable monthly until March 11, 2013, at which time all unpaid principal and interest are payable in full.	8,105	8,149
On August 25, 2006, we assumed a \$34.2 million mortgage note payable as partial consideration for the acquisition of 20-50 West Gude Drive. The mortgage bears interest at 5.86% per annum. Principal and interest are payable monthly until February 11, 2013, at which time all unpaid principal and interest are payable in full.	31,303	31,486
On June 1, 2007, we assumed a \$21.2 million mortgage note payable as partial consideration for the acquisition of Woodholme Medical Office Building. The mortgage bears interest at 5.29% per annum. Principal and interest are payable monthly until November 1, 2015, at which time all unpaid principal and interest are payable in full.	20,200	20,285
On June 1, 2007, we assumed a \$3.1 million mortgage note payable and a \$3.0 million mortgage note payable as partial consideration for our acquisition of the Ashburn Farm Office Park. The mortgages bear interest at 5.56% per annum and 5.69% per annum, respectively. Principal and interest are payable monthly until May 31, 2025 and July 31, 2023, respectively, at which time all unpaid principal and interest are payable in full.	4,781	4,841
On May 29, 2008, we executed three mortgage notes payable totaling \$81.0 million secured by 3801 Connecticut Avenue, Walker House and Bethesda Hill. The mortgages bear interest at 5.71% per annum and interest only is payable monthly until June 1, 2017, at which time all unpaid principal and interest are payable in full.	81,029	81,029
On December 2, 2008, we assumed a \$101.9 million mortgage note payable with an estimated fair value* of \$91.7 million as partial consideration for the acquisition of 2445 M Street. The mortgage bears interest at 5.62% per annum. Interest is payable monthly until January 6, 2017, at which time all unpaid principal and interest are payable in full.	94,652	94,339
On February 16, 2009, we executed a \$37.5 million mortgage note payable secured by Kenmore Apartments. The mortgage bears interest at 5.37% per annum. Principal and interest are payable monthly until March 1, 2019, at which time all unpaid principal and interest are payable in full.	36,496	36,634
	\$ 379,333	\$ 380,171

* *The fair value of the mortgage notes payable was estimated upon acquisition by WRIT based upon market information and data, such as dealer or banker quotes for instruments with similar terms and maturities. There is no notation when the fair value at the inception of the mortgage is the same as the carrying value.*

Table of Contents

Total carrying amount of the above mortgaged properties was \$624.4 million and \$623.6 million at March 31, 2011 and December 31, 2010, respectively. Scheduled principal payments during the remaining nine months in 2011 and the years subsequent to December 31, 2011 are as follows (in thousands):

	Principal Payments
2011	\$ 12,344
2012	42,489
2013	85,504
2014	1,516
2015	20,040
Thereafter	223,978
	385,871
Net discounts/premiums	(6,538)
Total	\$ 379,333

NOTE 5: UNSECURED LINES OF CREDIT PAYABLE

As of March 31, 2011, we maintained a \$75.0 million unsecured line of credit (Credit Facility No. 1) maturing in June 2011 and a \$262.0 million unsecured line of credit (Credit Facility No. 2) maturing in November 2011. Subsequent to the end of the 2011 Quarter, we exercised a one-year extension option on Credit Facility No. 1, which now expires in June 2012. The amounts of these lines of credit unused and available at March 31, 2011 are as follows (in millions):

	Credit Facility No. 1	Credit Facility No. 2
Committed capacity	\$ 75.0	\$ 262.0
Borrowings outstanding	(60.0)	(100.0)
Letters of credit issued	(0.8)	(0.9)
Unused and available	\$ 14.2	\$ 161.1

We executed borrowings and repayments on the unsecured lines of credit during the 2011 Quarter as follows (in millions):

	Credit Facility No. 1	Credit Facility No. 2
Balance at December 31, 2010	\$ 78.0	\$ 100.0
Borrowings	78.0	
Repayments	(18.0)	
Balance at March 31, 2011	\$ 60.0	\$ 100.0

We borrowed \$18.0 million on Credit Facility No. 1 in January 2011 to partially fund the purchase of 1140 Connecticut Avenue. We repaid this borrowing later in the 2011 Quarter with cash from operations. We subsequently borrowed \$60.0 million on Credit Facility No. 1 during March 2011 to fund the purchase of 1227 25th Street and for general corporate purposes. This borrowing remained outstanding at the end of the 2011 Quarter.

NOTE 6: DERIVATIVE INSTRUMENTS

Edgar Filing: WASHINGTON REAL ESTATE INVESTMENT TRUST - Form 10-Q

In May 2009, we entered into a forward interest rate swap with a notional amount of \$100 million that qualifies as a cash flow hedge. We enter into interest rate swaps to manage our exposure to variable rate interest risk. We do not purchase derivatives for speculation. We record our cash flow hedges at fair value in accordance with GAAP, based on various discounted cash flow methodologies and observable inputs. We record the effective portion of changes in fair value of cash flow hedges in other comprehensive income. This change in fair value of cash flow hedges is the only activity in other comprehensive income (loss) during the periods presented in our consolidated financial statements. We record the ineffective portion of changes in fair value of cash flow hedges in earnings in the period affected. We assess the effectiveness of our cash flow hedges both at inception and on an ongoing basis. We deemed the hedges to be effective for the 2011 and 2010 Quarters, as applicable.

Table of Contents

The fair value and balance sheet locations of the interest rate swaps as of March 31, 2011 and December 31, 2010 are as follows (in millions):

	March 31, 2011 Fair Value	December 31, 2010 Fair Value
Accounts payable and other liabilities	\$ 1.1	\$ 1.5

The interest rate swap has been effective since inception. The gain or loss on the effective swaps is recognized in other comprehensive income, as follows (in millions):

	Quarters Ended March 31,	
	2011	2010
	Fair Value	Fair Value
Change in other comprehensive income (loss)	\$ 0.4	\$ (0.2)

Derivative instruments expose us to credit risk in the event of non-performance by the counterparty under the terms of the interest rate hedge agreement. We believe that we minimize our credit risk on these transactions by dealing with major, creditworthy financial institutions. As part of our on-going control procedures, we monitor the credit ratings of counterparties and our exposure to any single entity, thus minimizing our credit risk concentration.

NOTE 7: STOCK BASED COMPENSATION

WRIT maintains short-term and long-term incentive plans for which components allow for stock-based awards to officers and non-officer employees. Stock based awards are provided to officers and non-officer employees, as well as trustees, under the Washington Real Estate Investment Trust 2007 Omnibus Long-Term Incentive Plan which allows for awards in the form of restricted shares, restricted share units, options, and other awards up to an aggregate of 2,000,000 shares over the ten year period in which the plan will be in effect. Restricted share units are converted into shares of our stock upon full vesting through the issuance of new shares.

WRIT's Compensation Committee conducted an extensive review of our executive compensation philosophy and a fundamental redesign of our short-term and long-term incentive plans for our officers, resulting in new short-term incentive (New STIP) and new long-term incentive (New LTIP) plans, which were approved by the Compensation Committee and Board on February 17, 2011 and were effective as of January 1, 2011.

New STIP

Under the New STIP, officers will earn awards, payable 50% in cash and 50% in restricted shares, based on a percentage of salary and achieving various performance conditions within a one-year performance period (except for 15% of such restricted share awards which will be exclusively service-based).

With respect to the 50% of the New STIP award payable in restricted shares, (i) the restricted shares subject to performance conditions will vest over a three-year period commencing on the January 1 following the end of the one-year performance period, and (ii) the restricted shares subject only to a service condition will vest over a three year period commencing at the beginning of the one-year performance period.

With respect to the 50% of the award payable in cash, the officer may elect to defer up to 80% of the cash portion pursuant to WRIT's deferred compensation plan for officers. If the officer makes such election, the cash will be converted to restricted share units and WRIT will match 25% of deferred amounts in restricted share units.

For the service based awards we recognize compensation expense based on the grant date fair value, ratably over a three-year period commencing with the start of the performance period. With respect to the restricted shares subject to performance conditions expected to be awarded under the New STIP at the end of the one-year performance period, we recognize compensation expense based on the current fair market value of the probable award until the performance condition has been met, according to a graded vesting schedule over a four-year period commencing with the date the performance targets were established. Approximately 20% of the restricted shares subject to performance conditions awarded by the Compensation Committee at the end of the one-year performance period are based on subjective strategic acquisition and disposition goal criteria, for which we recognize compensation expense when the grant date occurs at the end of the one-year period.

Table of Contents

New LTIP

Under the New LTIP, officers will earn awards, payable 50% in unrestricted shares and 50% in restricted shares, based on a percentage of salary and achieving various market and performance conditions during a defined three-year performance period (e.g., commencing on January 1, 2011 and concluding on December 31, 2013).

New LTIP performance will be evaluated on objective and subjective performance goals and weightings. Of the officers' total potential award, 40% is subject to market conditions based on absolute total shareholder return (TSR) and relative TSR. The remaining 60% of the award is based primarily on strategic plan fulfillment, evaluated and determined by the Compensation Committee in its discretion at the end of the three-year performance period.

The unrestricted shares vest immediately at the end of the three-year performance period, and the restricted shares vest over a one-year period commencing on the January 1 following the end of the three-year performance period.

With respect to the 40% of the New LTIP subject to market conditions we recognize compensation expense ratably (over three years for the 50% unrestricted shares and over four years for the 50% restricted shares) based on the grant date fair value, as determined using a Monte Carlo simulation, and regardless of whether the market conditions are achieved and the awards ultimately vest. With respect to the 60% subjective portion of the New LTIP, we will recognize compensation expense for the 50% unrestricted shares when the grant date has occurred at the end of the three year performance period. We will recognize compensation expense for the 50% restricted shares over the one-year vesting period commencing upon the grant date at the end of the three-year performance period.

Modification of Prior LTIP Awards

In connection with the adoption of the New STIP and the New LTIP, the prior LTIP for officers was amended such that awards subject to performance conditions through 2012 under the prior LTIP were converted when the new plans were adopted into 154,400 restricted share units as of February 17, 2011. Such restricted share units will vest consistent with the periods in which they otherwise would have vested under the terms of the prior LTIP (i.e., either December 31, 2011 or December 31, 2012). We accounted for the amendment of these awards as a modification.

Prior LTIP

Other non-officer members of management continue to earn restricted share units under the prior LTIP based upon various percentages of their salaries that vest ratably over five years from the grant date based upon continued employment. We recognize compensation expense for these awards according to a graded vesting schedule over six years from the date the performance target was established.

Trustee Awards

We continue to award trustees share based compensation on an annual basis in the form of restricted shares which vest immediately and are restricted from sale for the period of the trustees' service.

Total Compensation Expense

Total compensation expense recognized in the consolidated financial statements for all share based awards, including share grants, restricted share units and performance share units, in the 2011 and 2010 Quarters was (in thousands):

	Quarter Ended	
	March 31,	
	2011	2010
Stock Based Compensation Expense	\$ 1,257	\$ 1,633

Restricted and Unrestricted Shares

The total fair value of prior period shares vested during the 2011 Quarter is \$28,800. As of March 31, 2011, there are no remaining unvested restricted shares granted under prior LTIPs.

Edgar Filing: WASHINGTON REAL ESTATE INVESTMENT TRUST - Form 10-Q

During the 2011 Quarter, 10,822 restricted shares, with a total fair value of \$0.3 million, were granted under the New STIP to officers for the portion of the New STIP award subject only to service conditions. We value these awards based on the fair market value on the

Table of Contents

date of grant. As of March 31, 2011, the total unamortized value of these unvested share awards was \$324,700, which we expect to recognize as compensation expense over a weighted average period of thirty-three months. As of March 31, 2011, the future expected expense related to restricted shares with performance conditions, estimated based on the probable number of restricted shares expected to be awarded under the New STIP, totaled \$1.0 million, which we expect to recognize as compensation cost over a weighted average period of 33 months.

Restricted and Unrestricted Shares with Market Conditions

Stock based awards with market conditions under the New LTIP were granted in February 2011 with fair market values, as determined using a Monte Carlo simulation, as follows (in thousands):

	Grant Date Fair Value	
	Restricted	Unrestricted
Relative TSR	\$ 1,016	\$ 1,016
Absolute TSR	\$ 348	\$ 348

The unamortized value of these awards with market conditions as of March 31, 2011 was as follows (in thousands):

	Unamortized Value at March 31, 2011	
	Restricted	Unrestricted
Relative TSR	\$ 984	\$ 973
Absolute TSR	\$ 341	\$ 339

We expect to recognize these unamortized values as compensation expense over a weighted average life of 45 months for the restricted shares and 33 months for the unrestricted shares.

Restricted Share Units

Restricted share units granted to officers and non-officers in prior periods continue to vest in the current year. The total fair value of restricted share units vested during the 2011 Quarter is \$247,100. In connection with the adoption of new executive incentive plans, on February 17, 2011, all performance share units were converted into a fixed number of restricted share units. The total number of restricted share units awarded was 89,000 and 65,400, which vest on December 31, 2011 and December 31, 2012, respectively. The value of unvested restricted share units at March 31, 2011 was \$6.1 million, which we expect to recognize as compensation cost over a weighted average period of 29 months. As of March 31, 2011, the future expected expense related to restricted share units with performance conditions expected to be awarded to non-officers in December 2011 is \$1.1 million, which we expect to recognize as compensation cost over a weighted average period of 44 months.

Options

WRIT still has options outstanding from the 2001 Stock Option Plan and Stock Option Plan for Trustees. The 138,785 options outstanding at March 31, 2011, all of which are exercisable, have exercise prices between \$24.85 and \$33.09, with a weighted-average exercise price of \$26.83 and a weighted average remaining contractual life of 1.8 years. The aggregate intrinsic value of outstanding exercisable shares at March 31, 2011 was \$0.6 million. In the 2010 Quarter, the aggregate intrinsic value of options exercised was minimal. There were 7,200 options exercised in the 2011 Quarter.

NOTE 8: FAIR VALUE DISCLOSURES*Financial Assets and Liabilities Measured at Fair Value*

For assets and liabilities measured at fair value on a recurring basis, quantitative disclosures about the fair value measurements are required to be disclosed separately for each major category of assets and liabilities, as follows:

Level 1: Quoted Prices in Active Markets for Identical Assets

Edgar Filing: WASHINGTON REAL ESTATE INVESTMENT TRUST - Form 10-Q

Level 2: Significant Other Observable Inputs

Level 3: Significant Unobservable Inputs

The only assets or liabilities we had at March 31, 2011 and December 31, 2010 that are recorded at fair value on a recurring basis are the assets held in the Supplemental Executive Retirement Program (SERP) and the interest rate hedge contracts. We base the

Table of Contents

valuations related to these items on assumptions derived from significant other observable inputs and accordingly these valuations fall into Level 2 in the fair value hierarchy. The fair values of these assets and liabilities at March 31, 2011 and December 31, 2010 are as follows (in millions):

	Fair Value	March 31, 2011			December 31, 2010			
		Level 1	Level 2	Level 3	Fair Value	Level 1	Level 2	Level 3
Assets:								
SERP	\$ 1.6	\$	\$ 1.6	\$	\$ 1.7	\$	\$ 1.7	\$
Liabilities:								
Derivatives	\$ 1.1	\$	\$ 1.1	\$	\$ 1.5	\$	\$ 1.5	\$

The nonrecurring fair value assessment for the held for sale asset discussed in note 3 to the consolidated financial statements was based on sales price less costs to sell, a Level 2 assessment in the fair value hierarchy.

Financial Assets and Liabilities Not Measured at Fair Value

The following disclosures of estimated fair value were determined by management using available market information and established valuation methodologies, including discounted cash flow. Many of these estimates involve significant judgment. The estimated fair value disclosed may not necessarily be indicative of the amounts we could realize on disposition of the financial instruments. The use of different market assumptions or estimation methodologies could have an effect on the estimated fair value amounts. In addition, fair value estimates are made at a point in time and thus, estimates of fair value subsequent to March 31, 2011 may differ significantly from the amounts presented.

Below is a summary of significant methodologies used in estimating fair values and a schedule of fair values at March 31, 2011.

Cash and Cash Equivalents

Cash and cash equivalents includes cash and commercial paper with original maturities of less than 90 days, which are valued at the carrying value, which approximates fair value due to the short maturity of these instruments.

Notes Receivable

The fair value of the notes is estimated based on quotes for debt with similar terms and characteristics or a discounted cash flow methodology using market discount rates if reliable quotes are not available.

Derivatives

The company reports its interest rate swap at fair value in accordance with GAAP, and thus the carrying value is the fair value.

Mortgage Notes Payable

Mortgage notes payable consist of instruments in which certain of our real estate assets are used for collateral. The fair value of the mortgage notes payable is estimated by discounting the contractual cash flows at a rate equal to the relevant treasury rates (with respect to the timing of each cash flow) plus credit spreads estimated through independent comparisons to real estate assets or loans with similar characteristics.

Lines of Credit Payable

Lines of credit payable consist of bank facilities which we use for various purposes including working capital, acquisition funding or capital improvements. The lines of credit advances are priced at a specified rate plus a spread. The carrying value of the lines of credit payable is estimated to be market value given the adjustable rate of these borrowings.

Table of Contents*Notes Payable*

The fair value of the notes payable is estimated by discounting the contractual cash flows at a rate equal to the relevant treasury rates (with respect to the timing of each cash flow) plus credit spreads derived using the relevant securities market prices.

(in thousands)	March 31, 2011		December 31, 2010	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Cash and cash equivalents	\$ 12,480	\$ 12,480	\$ 78,767	\$ 78,767
Restricted cash	\$ 24,316	\$ 24,316	\$ 21,552	\$ 21,552
2445 M Street note receivable	\$ 7,273	\$ 7,974	\$ 7,090	\$ 8,048
Mortgage notes payable	\$ 379,333	\$ 399,425	\$ 380,171	\$ 399,282
Lines of credit payable	\$ 160,000	\$ 160,000	\$ 100,000	\$ 100,000
Notes payable	\$ 753,692	\$ 789,954	\$ 753,587	\$ 785,637

NOTE 9: EARNINGS PER COMMON SHARE

We determine Basic earnings per share using the two-class method as our unvested restricted share awards have non-forfeitable rights to dividends, and are therefore considered participating securities. We compute basic earnings per share by dividing net income attributable to the controlling interest less the allocation of undistributed earnings to unvested restricted share awards by the weighted-average number of common shares outstanding for the period.

We also determine Diluted earnings per share under the two-class method with respect to the unvested restricted share awards. We further evaluate any other potentially dilutive securities at the end of the period and adjust the basic earnings per share calculation for the impact of those securities that are dilutive. Our diluted earnings per share calculation includes the dilutive impact of employee stock options based on the treasury stock method and our long-term incentive share units under the contingently issuable method. The diluted earnings per share calculation also considers our operating partnership units and 3.875% convertible notes under the if-converted method. The operating partnership units and 3.875% convertible notes were anti-dilutive for the 2011 and 2010 Quarters and are not included in our earnings per share calculations.

Table of Contents

The following tables sets forth the computation of basic and diluted earnings per share (amounts in thousands; except per share data):

	Quarter Ended March 31, 2011		
	Income	Weighted Average Shares	Per Share Amount
	(Numerator)	(Denominator)	
Basic earnings:			
Income from continuing operations	\$ 5,146	65,885	\$ 0.08
Less: Net income attributable to noncontrolling interests	(23)		
Allocation of undistributed earnings to unvested restricted share awards and units	(46)		
Adjusted income from continuing operations attributable to the controlling interests	5,077	65,885	0.08
Income (loss) from discontinued operations	(458)	65,885	(0.01)
Adjusted net income attributable to the controlling interests	4,619	65,885	0.07
Effect of dilutive securities:			
Employee stock options and restricted share awards		22	
Diluted earnings:			
Adjusted income from continuing operations attributable to the controlling interests	5,077	65,907	0.08
Income (loss) from discontinued operations	(458)	65,907	(0.01)
Adjusted net income attributable to the controlling interests	\$ 4,619	65,907	\$ 0.07

	Quarter Ended March 31, 2010		
	Income	Weighted Average Shares	Per Share Amount
	(Numerator)	(Denominator)	
Basic earnings:			
Income from continuing operations	\$ 4,366	59,898	\$ 0.07
Less: Net income attributable to noncontrolling interests	(49)		
Allocation of undistributed earnings to unvested restricted share awards and units	(28)		
Adjusted income from continuing operations attributable to the controlling interests	4,289	59,898	0.07
Income from discontinued operations, including gain on sale of real estate	899	59,898	0.02
Adjusted net income attributable to the controlling interests	5,188	59,898	0.09
Effect of dilutive securities:			
Employee stock options and restricted share awards		103	
Diluted earnings:			
Adjusted income from continuing operations attributable to the controlling interests	4,289	60,001	0.07
Income from discontinued operations, including gain on sale of real estate	899	60,001	0.02
Adjusted net income attributable to the controlling interests	\$ 5,188	60,001	\$ 0.09

Table of Contents**NOTE 10: SEGMENT INFORMATION**

We have five reportable segments: office, medical office, retail, multifamily and industrial/flex properties. Office buildings provide office space for various types of businesses and professions. Medical office buildings provide offices and facilities for a variety of medical services. Retail centers are typically neighborhood grocery store or drug store anchored retail centers. Multifamily properties provide rental housing for individuals and families throughout the Washington metropolitan area. Industrial/flex centers are used for flex-office, warehousing, services and distribution type facilities.

We evaluate performance based upon operating income from the combined properties in each segment. Our reportable operating segments are consolidations of similar properties. GAAP requires that segment disclosures present the measure(s) used by the chief operating decision maker for purposes of assessing segments performance. Net operating income is a key measurement of our segment profit and loss. Net operating income is defined as segment real estate rental revenue less segment real estate expenses.

The following table presents revenues and net operating income for the 2011 and 2010 Quarters from these segments, and reconciles net operating income of reportable segments to net income as reported (in thousands):

	Quarter Ended March 31, 2011						Consolidated
	Office	Medical Office	Retail	Multifamily	Industrial/Flex	Corporate and Other	
Real estate rental revenue	\$ 34,103	\$ 11,131	\$ 12,147	\$ 12,493	\$ 8,281	\$	\$ 78,155
Real estate expenses	11,488	3,669	3,542	4,828	2,561		26,088

NOTE 11: SUBSEQUENT EVENTS

Subsequent to the end of the 2011 Quarter, we settled on the sale of Dulles Station, Phase I, for the contract purchase price of \$58.8 million (see note 3 to the consolidated financial statements). We recognized a real estate impairment loss of \$0.6 million during the 2011 Quarter.

Table of Contents

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with our consolidated financial statements and the notes thereto appearing in Item 1 of this report and the more detailed information contained in our Annual Report on Form 10-K for the year ended December 31, 2010 filed with the Securities and Exchange Commission on February 25, 2011.

We refer to the three months ended March 31, 2011 and March 31, 2010 as the 2011 Quarter and the 2010 Quarter, respectively.

Forward-Looking Statements

This Form 10-Q contains forward-looking statements which involve risks and uncertainties. Forward-looking statements include statements in this report preceded by, followed by or that include the words believe, expect, intend, anticipate, potential, project, will and other similar expressions. We claim the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995 for these statements. The following important factors, in addition to those discussed elsewhere in this Form 10-Q, could affect our future results and could cause those results to differ materially from those expressed in the forward-looking statements: (a) the effects of changes in Federal government spending; (b) the economic health of the greater Washington metro region, or other markets we may enter; (c) the timing and pricing of lease transactions; (d) the effect of the recent credit and financial market conditions; (e) the availability and cost of capital; (f) fluctuations in interest rates; (g) the economic health of our tenants; (h) the supply of competing properties; (i) consumer confidence; (j) unemployment rates; (k) consumer tastes and preferences; (l) our future capital requirements; (m) inflation; (n) compliance with applicable laws, including those concerning the environment and access by persons with disabilities; (o) governmental or regulatory actions and initiatives; (p) changes in general economic and business conditions; (q) terrorist attacks or actions; (r) acts of war; (s) weather conditions; (t) the effects of changes in capital available to the technology and biotechnology sectors of the economy, and (u) other factors discussed under the caption Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2010 filed with the Securities and Exchange Commission on February 25, 2011. We undertake no obligation to update our forward-looking statements or risk factors to reflect new information, future events, or otherwise.

General

Introductory Matters

We provide our Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) in addition to the accompanying consolidated financial statements and notes to assist readers in understanding our results of operations and financial condition. We organize the MD&A as follows:

Overview. Discussion of our business, operating results, investment activity and capital requirements, and summary of our significant transactions to provide context for the remainder of MD&A.

Critical Accounting Policies and Estimates. Descriptions of accounting policies that reflect significant judgments and estimates used in the preparation of our consolidated financial statements.

Results of Operations. Discussion of our financial results comparing the 2011 Quarter to the 2010 Quarter.

Liquidity and Capital Resources. Discussion of our financial condition and analysis of changes in our capital structure and cash flows.

When evaluating our financial condition and operating performance, we focus on the following financial and non-financial indicators:

Edgar Filing: WASHINGTON REAL ESTATE INVESTMENT TRUST - Form 10-Q

Net operating income (NOI), calculated as real estate rental revenue less real estate expenses excluding depreciation and amortization, interest expense and general and administrative expenses. NOI is a non-GAAP supplemental measure to net income.

Funds From Operations (FFO), calculated as set forth below under the caption Funds from Operations. FFO is a non-GAAP supplemental measure to net income.

Occupancy, calculated as occupied square footage as a percentage of total square footage as of the last day of that period.

Table of Contents

Leased percentage, calculated as the percentage of physical net rentable area leased for our commercial segments and percentage of apartments leased for our multifamily segment.

Rental rates.

Leasing activity, including new leases, renewals and expirations.

Overview

Business

Our revenues are derived primarily from the ownership and operation of income-producing properties in the greater Washington metro region. As of March 31, 2011, we owned a diversified portfolio of 87 properties, totaling approximately 11.0 million square feet of commercial space and 2,540 multifamily units, and land held for development. These 87 properties consisted of 27 office properties, 16 industrial/flex properties, 18 medical office properties, 15 retail centers and 11 multifamily properties.

We have a fundamental strategy of regional focus and diversification by property type. During the 2011 Quarter we acquired two Washington, DC office buildings, 1140 Connecticut Avenue and 1227 25th Street, totaling approximately 314,000 square feet. After the end of the 2011 Quarter, we sold Dulles Station, Phase I, an office building in Herndon, Virginia, for a contract sales price of \$58.8 million. These purchase and sale transactions are consistent with our strategy in recent years of upgrading our portfolio by acquiring or developing higher quality properties that are inside the Beltway, near major transportation nodes or associated with Base Realignment and Closure (BRAC) initiatives or other significant employment drivers in the greater metro area. We will seek to continue to upgrade our portfolio as opportunities arise. However, market conditions may limit our ability to acquire or sell properties at attractive prices in the future.

Operating Results

Real estate rental revenue, NOI, net income and FFO for the 2011 and 2010 Quarters were as follows (in thousands):

	2011 Quarter	2010 Quarter	\$ Change	% Change
Real estate rental revenue	\$ 78,155	\$ 73,551	\$ 4,604	6.3%
NOI ⁽¹⁾	\$ 52,067	\$ 47,382	\$ 4,685	9.9%
Net income attributable to the controlling interests	\$ 4,665	\$ 5,216	\$ (551)	(10.6%)
FFO ⁽²⁾	\$ 29,914	\$ 28,824	\$ 1,090	3.8%

⁽¹⁾ See page 28 of the MD&A for reconciliations of NOI to net income.

⁽²⁾ See page 40 of the MD&A for reconciliations of FFO to net income.

Real estate rental revenue increased by \$4.6 million in the 2011 Quarter as compared to the 2010 Quarter due to the acquisitions made during 2010 and the 2011 Quarter, and higher occupancy and rental rates in the multifamily segment. These were partially offset by lower occupancy in the rest of the portfolio. The \$4.7 million increase in NOI reflects the higher real estate rental revenue and a \$0.1 million decrease in real estate expenses, as lower snow removal costs during the 2011 Quarter were offset by real estate expenses from properties acquired during 2010 and the 2011 Quarter.

The decrease in net income attributable to the controlling interests reflects acquisitions costs related to the purchase of 1140 Connecticut Avenue and 1227 25th Street and a real estate impairment charge recognized during the 2011 Quarter related to the sale of Dulles Station, Phase I.

Investment and Sales Activity

We executed two property acquisitions during the 2011 Quarter, while selling a property shortly after the end of the quarter. We are currently exploring the marketplace for potential acquisitions during the remainder of 2011, continuing with our stated acquisition strategy of focusing on properties inside the Washington metro region s Beltway, near major transportation nodes and in areas with strong employment drivers and

Edgar Filing: WASHINGTON REAL ESTATE INVESTMENT TRUST - Form 10-Q

superior growth demographics. We also continue to explore the sale of all or a portion of our industrial/flex segment and potentially using the sales proceeds to further our acquisition strategy.

Table of Contents

Capital Requirements

As of March 31, 2011, our unsecured lines of credit had \$160.0 million outstanding, leaving a remaining borrowing capacity of \$177.0 million, and mature in 2011. Subsequent to the end of the 2011 Quarter, we extended for one year our \$75.0 million unsecured line of credit, which now expires in June 2012. We currently expect to enter into a new unsecured revolving credit facility at an amount at least equal to our \$262.0 million unsecured line of credit during 2011.

We have a combined \$105.7 million of unsecured and mortgage notes payable that mature during the remainder of 2011. We currently expect to pay these maturities with some combination of proceeds from new debt, property sales and equity issuances.

Significant Transactions

We summarize below our significant transactions during the 2011 and 2010 Quarters:

2011 Quarter

The acquisition of two office buildings for \$127.3 million, adding approximately 314,000 square feet. We incurred \$1.6 million in acquisition costs related to these purchase transactions.

The execution of new leases for 0.4 million square feet of commercial space (excluding first generation leases at recently-built properties), with an average rental rate decrease of 0.6% from expiring leases.

2010 Quarter

The repurchase of \$1.2 million of our 3.875% convertible notes at 99.3% of par, resulting in a net loss on extinguishment of debt of \$41,600.

The issuance of 0.5 million common shares at a weighted average price of \$30.00 under our sales agency financing agreement, raising \$15.8 million in net proceeds.

The execution of new leases for 0.3 million square feet of commercial space (excluding first generation leases at recently-built properties), with an average rental rate increase of 15.8% over expiring leases.

Critical Accounting Policies and Estimates

We base the discussion and analysis of our financial condition and results of operations upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. On an on-going basis, we evaluate these estimates, including those related to estimated useful lives of real estate assets, estimated fair value of acquired leases, cost reimbursement income, bad debts, contingencies and litigation. We base the estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. We cannot assure you that actual results will not differ from those estimates.

We believe the following accounting estimates are the most critical to aid in fully understanding our reported financial results, and they require our most difficult, subjective or complex judgments, resulting from the need to make estimates about the effect of matters that are inherently uncertain.

Allowance for Doubtful Accounts

Edgar Filing: WASHINGTON REAL ESTATE INVESTMENT TRUST - Form 10-Q

We recognize rental income and rental abatements from our multifamily and commercial leases when earned on a straight-line basis over the lease term. We record a provision for losses on accounts receivable equal to the estimated uncollectible amounts. We base this estimate on our historical experience and a monthly review of the current status of our receivables. We consider factors such as the age of the receivable, the payment history of our tenants and our assessment of our tenants' ability to perform under their lease obligations, among other things. In addition to rents due currently, accounts receivable include amounts representing minimal rental income accrued on a straight-line basis to be paid by tenants over the remaining term of

Table of Contents

their respective leases. Our estimate of uncollectible accounts is subject to revision as these factors change and is sensitive to the impact of economic and market conditions on tenants.

Real Estate

We record acquired or assumed assets, including physical assets and in-place leases, and liabilities, based on their fair values. We record goodwill when the purchase price exceeds the fair value of the assets and liabilities acquired. We determine the estimated fair values of the assets and liabilities in accordance with current GAAP fair value provisions. We determine the fair values of acquired buildings on an as-if-vacant basis considering a variety of factors, including the replacement cost of the property, estimated rental and absorption rates, estimated future cash flows and valuation assumptions consistent with current market conditions. We determine the fair value of land based on comparisons to similar properties that have been recently marketed for sale or sold.

The fair value of in-place leases consists of the following components (a) the estimated cost to us to replace the leases, including foregone rents during the period of finding a new tenant and foregone recovery of tenant pass-throughs (referred to as absorption cost), (b) the estimated cost of tenant improvements, and other direct costs associated with obtaining a new tenant (referred to as tenant origination cost); (c) estimated leasing commissions associated with obtaining a new tenant (referred to as leasing commissions); (d) the above/at/below market cash flow of the leases, determined by comparing the projected cash flows of the leases in place to projected cash flows of comparable market-rate leases (referred to as net lease intangible); and (e) the value, if any, of customer relationships, determined based on our evaluation of the specific characteristics of each tenant's lease and our overall relationship with the tenant (referred to as customer relationship value).

We discount the amounts used to calculate net lease intangibles using an interest rate which reflects the risks associated with the leases acquired. We include tenant origination costs in income producing property on our balance sheet and amortize the tenant origination costs as depreciation expense on a straight-line basis over the useful life of the asset, which is typically the remaining life of the underlying leases. We classify leasing commissions and absorption costs as other assets and amortize leasing commissions and absorption costs as amortization expense on a straight-line basis over the remaining life of the underlying leases. We classify above market net lease intangible assets as other assets and amortize net lease intangible assets on a straight-line basis as a decrease to real estate rental revenue over the remaining term of the underlying leases. We classify below market net lease intangible liabilities as other liabilities and amortize net lease intangible liabilities on a straight-line basis as an increase to real estate rental revenue over the remaining term of the underlying leases. Should a tenant terminate its lease, we write off the unamortized portion of the tenant origination cost (if it has no future value), leasing commissions, absorption costs and net lease intangible associated with that lease.

Capitalized Interest

We capitalize interest costs incurred on borrowing obligations while qualifying assets are being readied for their intended use. We amortize capitalized interest over the useful life of the related underlying assets upon those assets being placed into service.

Real Estate Impairment

We recognize impairment losses on long-lived assets used in operations and held for sale, development assets or land held for future development, if indicators of impairment are present and the net undiscounted cash flows estimated to be generated by those assets are less than the assets' carrying amount and estimated undiscounted cash flows associated with future development expenditures. If such carrying amount is in excess of the estimated cash flows from the operation and disposal of the property, we would recognize an impairment loss equivalent to an amount required to adjust the carrying amount to the estimated fair value. The estimated fair value would be calculated in accordance with current GAAP fair value provisions.

Stock Based Compensation

We initially measure compensation expense for performance-based restricted share units, restricted shares and unrestricted shares at fair value at the grant date as payouts are probable, and we re-measure compensation expense at subsequent reporting dates until all of the award's key terms and conditions are known and a vesting has occurred. The number of performance-based restricted share units, restricted shares and unrestricted shares that actually vest or are issued may differ significantly from our estimates. We amortize such performance-based share units to expense over the performance period.

We measure compensation expense for performance-based restricted shares and unrestricted shares with market conditions based on the grant date fair value, as determined using a Monte Carlo simulation. We amortize the expense ratably over the requisite service period, regardless of whether the market conditions are achieved and the awards ultimately vest.

Table of Contents

We estimate forfeitures for unvested stock based compensation based on historical pre-vesting employee forfeiture patterns. We ultimately adjust our pre-vesting forfeiture assumptions to actual forfeiture rates, so changes in forfeiture assumptions would not affect the expense ultimately recognized over the vesting period. Estimated forfeitures are reassessed each reporting period based on historical experience and current projections for the future.

Federal Income Taxes

Generally, and subject to our ongoing qualification as a REIT, no provisions for income taxes are necessary except for taxes on undistributed REIT taxable income and taxes on the income generated by our taxable REIT subsidiaries (TRS). Our TRS is subject to corporate federal and state income tax on its taxable income at regular statutory rates. Our TRS has net operating loss carryforwards that begin to expire in 2028. We have determined that there were no material income tax provisions or material net deferred income tax items for our TRS.

Results of Operations

The discussion that follows is based on our consolidated results of operations for the 2011 and 2010 Quarters. The ability to compare one period to another may be significantly affected by acquisitions completed and dispositions made during those periods.

For purposes of evaluating comparative operating performance, we categorize our properties as same-store , non-same-store or discontinued operations. A same-store property is one that was owned for the entirety of the periods being evaluated and is included in continuing operations. A non-same-store property is one that was acquired or placed into service during either of the periods being evaluated and is included in continuing operations. Results for properties sold or held for sale during any of the periods evaluated are classified as discontinued operations.

To provide more insight into our operating results, we divide our discussion into two main sections:

Consolidated Results of Operations: Overview analysis of results on a consolidated basis.

Net Operating Income (NOI): Detailed analysis of same-store and non-same-store NOI results by segment.
Consolidated Results of Operations

Real Estate Rental Revenue

Real estate rental revenue for properties classified as continuing operations is summarized as follows (all data in thousands except percentage amounts):

	Quarters Ended March 31,			
	2011	2010	Change	%
Minimum base rent	\$ 68,740	\$ 62,976	\$ 5,764	9.2%
Recoveries from tenants	7,847	9,255	(1,408)	(15.2%)
Provisions for doubtful accounts	(1,625)	(1,546)	(79)	(5.1%)
Lease termination fees	284	315	(31)	(9.8%)
Parking and other tenant charges	2,909	2,551	358	14.0%
	\$ 78,155	\$ 73,551	\$ 4,604	6.3%

Real estate rental revenue is comprised of (a) minimum base rent, which includes rental revenues recognized on a straight-line basis, (b) revenue from the recovery of operating expenses from our tenants, (c) provisions for doubtful accounts, which includes provisions for straight-line receivables, (d) revenue from the collection of lease termination fees and (e) parking and other tenant charges such as percentage rents.

Edgar Filing: WASHINGTON REAL ESTATE INVESTMENT TRUST - Form 10-Q

Minimum Base Rent: Minimum base rent increased by \$5.8 million in the 2011 Quarter as compared to the 2010 Quarter due primarily to real estate acquisitions (\$5.5 million), as well as a \$0.3 million increase in minimum base rent from same-store

Table of Contents

properties. The same-store increase was due to higher rental rates (\$1.6 million), partially offset by lower occupancy (\$1.2 million).

Recoveries from Tenants: Recoveries from tenants decreased by \$1.4 million in the 2011 Quarter as compared to the 2010 Quarter due to lower reimbursements for operating expenses and utilities (\$0.5 million), common area maintenance (\$0.7 million) and real estate taxes (\$0.5 million) at same-store properties. Lower occupancy across the commercial properties caused these decreases, as well as lower snow removal costs and property tax assessments in the 2011 Quarter. Recoveries from tenants at acquisition properties (\$0.4 million) partially offset the same-store decreases.

Provisions for Doubtful Accounts: Provisions for doubtful accounts increased by \$0.1 million in the 2011 Quarter as compared to the 2010 Quarter due to higher provisions in the retail (\$0.3 million) and medical office (\$0.2 million) segments, partially offset by lower provisions in the office (\$0.2 million) and industrial (\$0.2 million) segments.

Lease Termination Fees: Lease termination fees slightly decreased in the 2011 Quarter as compared to the 2010 Quarter.

Parking and Other Tenant Charges: Parking and other tenant charges increased by \$0.4 million in 2011 Quarter as compared to the 2010 Quarter due to higher parking income (\$0.1 million) and percentage rents (\$0.1 million) from same-store properties, as well as parking income from acquisitions (\$0.1 million).

A summary of occupancy for properties classified as continuing operations by segment follows:

	Quarters Ended March 31,		
	2011	2010	Change
Office	88.9%	90.2%	(1.3%)
Medical Office	88.3%	87.7%	0.6%
Retail	92.0%	93.2%	(1.2%)
Multifamily	95.3%	94.4%	0.9%
Industrial	80.2%	83.0%	(2.8%)
Total	88.4%	89.4%	(1.0%)

Occupancy represents occupied square footage indicated as a percentage of total square footage as of the last day of that period.

Our overall occupancy decreased to 88.4% in the 2011 Quarter from 89.4% in the 2010 Quarter due to lower occupancy across the office, retail and industrial segments, partially offset by higher multifamily and medical office occupancy.

A detailed discussion of occupancy by sector can be found in the NOI section.

Real Estate Expenses

Real estate expenses for properties classified as continuing operations are summarized as follows (all data in thousands except percentage amounts):

	Quarters Ended March 31,			
	2011	2010	\$	%
Property operating expenses	\$ 18,419	\$ 18,915	\$ (496)	(2.6%)
Real estate taxes	7,669	7,254	415	5.7%
	\$ 26,088	\$ 26,169	\$ (81)	(0.3%)

Real estate expenses as a percentage of revenue were 33.4% and 35.6% for the 2011 and 2010 Quarters, respectively.

Edgar Filing: WASHINGTON REAL ESTATE INVESTMENT TRUST - Form 10-Q

Property Operating Expenses: Property operating expenses include utilities, repairs and maintenance, property administration and management, operating services, common area maintenance, property insurance, bad debt and other operating expenses.

Table of Contents

Property operating expenses decreased by \$0.5 million in the 2011 Quarter as compared to the 2010 Quarter as lower snow removal costs (\$1.4 million) and higher recoveries of bad debt (\$0.3 million) at same-store properties were offset by operating expenses from acquisition properties (\$1.2 million).

Real Estate Taxes: Real estate taxes increased \$0.4 million in the 2011 Quarter as compared to the 2010 Quarter as real estate taxes on acquisitions (\$0.7 million) were partially offset by lower assessments across the same-store portfolio (\$0.3 million).

Other Operating Expenses

Other operating expenses are summarized as follows (all data in thousands except percentage amounts):

	Quarters Ended March 31,			
	2011	2010	Change	
			\$	%
Depreciation and amortization	\$ 24,750	\$ 22,587	\$ 2,163	9.6%
Interest expense	17,126	16,838	288	1.7%
Acquisition costs	1,649	55	1,594	2,898.2%
General and administrative	3,702	3,783	(81)	(2.1%)
	\$ 47,227	\$ 43,263	\$ 3,964	9.2%

Depreciation and Amortization: Depreciation and amortization expense increased by \$2.2 million in the 2011 Quarter as compared to the 2010 Quarter due to acquisition properties (\$3.2 million). The \$1.0 million decline in the same-store portfolio is due to lower amortization of intangible assets associated with the acquisition of properties.

Interest Expense: A summary of interest expense by debt type for the 2011 and 2010 Quarters appears below (in millions, except percentage amounts):

	Quarters Ended March 31,			
	2011	2010	Change	
			\$	%
Notes payable	\$ 10.5	\$ 10.2	\$ 0.3	2.9%
Mortgages	5.8	5.9	(0.1)	(1.7%)
Lines of credit/short-term note payable	0.9	1.0	(0.1)	(10.0%)
Capitalized interest	(0.1)	(0.3)	0.2	66.7%
Total	\$ 17.1	\$ 16.8	\$ 0.3	1.8%

Interest expense increased \$0.3 million in the 2011 Quarter compared to the 2010 Quarter due the net impact of issuing 4.95% senior notes during 2010, and using the proceeds to pay down significant portions of our 3.875% convertible notes and our 5.95% senior notes.

Acquisition Costs: Acquisition costs increased by \$1.6 million in the 2011 Quarter as compared to the 2010 Quarter due to costs associated with the purchases of 1140 Connecticut Avenue and 1227 25th Street during the 2011 Quarter. We did not acquire any properties during the 2010 Quarter.

General and Administrative Expense: General and administrative expense decreased by \$0.1 million in the 2011 Quarter as compared to the 2010 Quarter as lower expense related to incentive compensation (\$0.4 million) was partially offset by higher salaries (\$0.2 million) due to annual pay increases.

Table of Contents

Discontinued Operations

We dispose of assets (sometimes using tax-deferred exchanges) that no longer meet our long-term strategy or return objectives and where market conditions for sale are favorable. The proceeds from the sales may be reinvested into other properties, used to fund development operations or to support other corporate needs, or distributed to our shareholders.

Properties we sold during 2010 are as follows:

Disposition Date	Property	Type	Rentable Square Feet	Contract Purchase Price (In thousands)
June 18, 2010	Parklawn Portfolio ¹	Office/Industrial	229,000	\$ 23,400
December 21, 2010	The Ridges	Office	104,000	27,500
December 22, 2010	Ammendale I&II and Amvax	Industrial	305,000	23,000
		2010 Total	638,000	\$ 73,900

¹ The Parklawn Portfolio is comprised of three office properties (Parklawn Plaza, Lexington Building and Saratoga Building) and one industrial property (Charleston Business Center).

During the 2011 Quarter we committed to, and actively embarked upon, a plan to sell Dulles Station, Phase I, an office property in Herndon, Virginia. We completed the sale subsequent to the 2011 Quarter on April 6, 2011. We treat revenues and expenses of properties classified as held for sale as discontinued operations for all periods presented in the consolidated statements of income.

Operating results of the properties classified as discontinued operations are summarized as follows (in thousands, except for percentages):

	Quarters Ended March 31,			
	2011	2010	\$	%
Revenues	\$ 1,132	\$ 3,788	\$ (2,656)	(70.1%)
Property expenses	(492)	(1,642)	1,150	70.0%
Real estate impairment	(599)		(599)	
Depreciation and amortization	(499)	(1,021)	522	51.1%
Interest expense		(226)	226	
Total	\$ (458)	\$ 899	\$ (1,357)	(150.9%)

The \$0.5 million loss from discontinued operations during the 2011 Quarter is due to a \$0.6 million impairment of real estate at Dulles Station, Phase I. We sold this property subsequent to the 2011 Quarter and recorded an impairment charge to reduce the property's carrying amount to its fair value.

Table of Contents*Net Operating Income*

NOI is the primary performance measure we use to assess the results of our operations at the property level. We believe that NOI is useful as a performance measure because, when compared across periods, NOI reflects the impact on operations of trends in occupancy rates, rental rates and operating costs on an unleveraged basis, providing perspective not immediately apparent from net income. NOI excludes certain components from net income in order to provide results more closely related to a property's results of operations. For example, interest expense is not necessarily linked to the operating performance of a real estate asset. In addition, depreciation and amortization, because of historical cost accounting and useful life estimates, may distort operating performance at the property level. As a result of the foregoing, we provide NOI as a supplement to net income calculated in accordance with GAAP. NOI does not represent net income calculated in accordance with GAAP. As such, it should not be considered an alternative to net income as an indication of our operating performance. A reconciliation of NOI to net income follows.

2011 Quarter Compared to 2010 Quarter

The following tables of selected operating data provide the basis for our discussion of NOI in the 2011 Quarter compared to the 2010 Quarter. All amounts are in thousands except percentage amounts.

	2011	Quarters Ended March 31,		
		2010	\$ Change	% Change
Real Estate Rental Revenue

Edgar Filing: WASHINGTON REAL ESTATE INVESTMENT TRUST - Form 10-Q

Occupancy	Quarters Ended March 31,	
	2011	2010
Same-store	88.7%	90.0%
Non-same-store ⁽¹⁾	84.8%	1.8%
Total	88.4%	89.4%

Table of Contents

(1) Non-same-store properties include:

2011 Office acquisitions 1140 Connecticut Avenue and 1227 25th Street

2010 Office acquisitions Quantico Corporate Center (925 and 1000 Corporate Drive)

2010 Retail acquisition Gateway Overlook

2009 Medical Office acquisition Lansdowne Medical Office Building

(2) Discontinued operations include gain on disposals and income from operations for:

2011 held for sale Dulles Station, Phase I

2010 dispositions Parklawn Plaza, Lexington Building, Saratoga Building, Charleston Business Center, the Ridges, Ammendale I&II and Amvax

Real estate rental revenue increased by \$4.6 million in the 2011 Quarter as compared to the 2010 Quarter due to acquisitions (\$6.1 million), partially offset by a \$1.5 million decrease in real estate rental revenues from same-store properties. This decrease at same-store properties was due to lower occupancy (\$1.2 million), lower operating expense and common area maintenance reimbursements (\$1.2 million) and lower real estate tax reimbursements (\$0.5 million), partially offset by higher rental rates (\$1.6 million).

Real estate expenses decreased by \$0.1 million in the 2011 Quarter as compared to the 2010 Quarter due to lower snow removal costs (\$1.4 million), lower real estate taxes (\$0.3 million) and higher recoveries of bad debt (\$0.3 million) at same-store properties. These were offset by \$1.9 million in operating expenses from acquisitions.

Same-store occupancy decreased to 88.7% in the 2011 Quarter from 90.0% in the 2010 Quarter, as decreases in the office, medical office, retail and industrial segments were partially offset by higher occupancy in the multifamily segment. Non-same-store occupancy increased to 84.8% in the 2011 Quarter from 1.8% in the 2010 Quarter, reflecting the acquisitions made during the 2011 Quarter and 2010. Lansdowne Medical Office Building, which was vacant upon acquisition during the 2009 Quarter, was 22.8% leased as of the end of the 2011 Quarter. During the 2011 Quarter, 76.9% of the commercial square footage expiring was renewed as compared to 68.1% in the 2010 Quarter, excluding properties sold or classified as held for sale. During the 2011 Quarter, we executed new leases (excluding first generation leases at recently-built properties) for 416,200 commercial square feet at an average rental rate of \$20.53 per square foot, a decrease of 0.6%, with average tenant improvements and leasing costs of \$6.65 per square foot.

An analysis of NOI by segment follows.

Table of Contents*Office Segment:*

	Quarters Ended March 31,			
	2011	2010	\$ Change	% Change
Real Estate Rental Revenue				
Same-store	\$ 30,073	\$ 30,973	\$ (900)	(2.9%)
Non-same-store ⁽¹⁾	4,030		4,030	
Total real estate rental revenue	\$ 34,103	\$ 30,973	\$ 3,130	10.1%
Real Estate Expenses				
Same-store	\$ 10,168	\$ 10,775	\$ (607)	(5.6%)
Non-same-store ⁽¹⁾	1,320		1,320	
Total real estate expenses	\$ 11,488	\$ 10,775	\$ 713	6.6%
NOI				
Same-store	\$ 19,905	\$ 20,198	\$ (293)	(1.5%)
Non-same-store ⁽¹⁾	2,710		2,710	
Total NOI	\$ 22,615	\$ 20,198	\$ 2,417	12.0%

	Occupancy	
	2011	2010
Same-store	88.3%	90.2%
Non-same-store ⁽¹⁾	93.3%	
Total	88.9%	90.2%

⁽¹⁾ Non-same-store properties include:

2011 acquisitions 1140 Connecticut Avenue and 1227 25th Street

2010 acquisitions Quantico Corporate Center (925 and 1000 Corporate Drive)

Real estate rental revenue in the office segment increased by \$3.1 million in the 2011 Quarter as compared to the 2010 Quarter due to acquisitions (\$4.0 million), partially offset by a decrease in real estate rental revenue from same-store properties (\$0.9 million). This decrease at same-store properties was due to lower occupancy (\$0.8 million) and lower real estate tax (\$0.4 million) and operating expense (\$0.3 million) reimbursements, partially offset by higher rental rates (\$0.6 million).

Real estate expenses in the office segment increased by \$0.7 million in the 2011 Quarter as compared to the 2010 Quarter due to the acquisitions (\$1.3 million), partially offset by lower real estate taxes (\$0.4 million) and higher recoveries of bad debt (\$0.3 million) at same-store properties.

Same-store occupancy decreased to 88.3% in the 2011 Quarter from 90.2% in the 2010 Quarter, driven by lower occupancy at Monument II and 2000 M Street. These were partially offset by higher occupancy at Courthouse Square. The non-same-store occupancy of 93.3% reflects high occupancy at Quantico Corporate Center and 1140 Connecticut Avenue, partially offset by 1227 25th Street, which was 72% occupied upon its acquisition near the end of the 2011 Quarter. During the 2011 Quarter, 33.8% of the square footage that expired was renewed compared to 71.0% in the 2010 Quarter, excluding properties sold or classified as held for sale. During the 2011 Quarter, we executed new leases for 138,100 square feet of office space at an average rental rate of \$30.97 per square foot, a decrease of 1.4%, with average tenant improvements and leasing costs of \$8.05 per square foot.

Table of Contents*Medical Office Segment:*

	2011	Quarters Ended March 31,

Same-store	93.5%	93.8%
Non-same-store ⁽¹⁾	14.7%	1.8%
Total	88.3%	87.7%

⁽¹⁾ Non-same-store properties include:
2009 acquisition Lansdowne Medical Office Building

Real estate rental revenue in the medical office segment decreased by \$0.3 million in 2011 Quarter as compared to the 2010 Quarter due to lower occupancy (\$0.2 million), higher bad debt (\$0.2 million) and lower operating expense (\$0.3 million) and real estate tax (\$0.1 million) reimbursements at same-store properties. These were partially offset by higher rental rates (\$0.4 million) at same-store properties and higher occupancy (\$0.1 million) at Lansdowne Medical Office Building.

Real estate expenses in the medical office segment decreased by \$0.3 million in the 2011 Quarter as compared to the 2010 Quarter due to lower snow removal costs (\$0.2 million) and utilities expense (\$0.1 million).

Same-store occupancy decreased to 93.5% in the 2011 Quarter from 93.8% in the 2010 Quarter, driven by lower occupancy at 8501 Arlington Boulevard, Plumtree Medical Center and 15005 Shady Grove Road. These were partially offset by higher occupancy at Sterling Medical Office Building and Alexandria Professional Center. The increase in non-same-store occupancy to 14.7% in the 2011 Quarter from 1.8% in the 2010 Quarter reflects the continued lease-up of Lansdowne Medical Office Building, which was newly-constructed and vacant when purchased during the fourth quarter of 2009. During the 2011 Quarter, 84.3% of the square footage that expired was renewed compared to 48.8% in the 2010 Quarter. During the 2011 Quarter, we executed new leases (excluding first generation leases) for 43,400 square feet of medical office space at an average rental rate of \$37.24, an increase of 13.1%, with average tenant improvements and leasing costs of \$21.10 per square foot.

Table of Contents*Retail Segment:*

Non-same-store ⁽¹⁾	90.0%	
Total	92.0%	93.2%

⁽¹⁾ Non-same-store properties include:
2010 acquisition Gateway Overlook

Real estate rental revenue in the retail segment increased by \$1.6 million in the 2011 Quarter as compared to the 2010 Quarter due to the acquisition of Gateway Overlook in 2010 (\$1.9 million). Real estate rental revenue from same-store properties decreased by \$0.3 million due to higher bad debt (\$0.3 million) and lower common area maintenance reimbursements (\$0.2 million), partially offset by higher percentage rents (\$0.1 million) and occupancy (\$0.1 million).

Real estate expenses in the retail segment increased by \$0.3 million in the 2011 Quarter as compared to the 2010 Quarter due to the acquisition of Gateway Overlook (\$0.6 million), partially offset by lower snow removal costs (\$0.4 million) at same-store properties.

Same-store occupancy decreased to 92.2% in the 2011 Quarter from 93.2% in the 2010 Quarter, driven by lower occupancy at Wheaton Park and the Centre at Hagerstown, partially offset by higher occupancy at Frederick Crossing. The non-same-store occupancy of 90.0% reflects the acquisition of Gateway Overlook in 2010. During the 2011 Quarter, 99.6% of the square footage that expired was renewed compared to 86.4% in the 2010 Quarter. During the 2011 Quarter, we executed new leases for 78,700 square feet of retail space at an average rental rate of \$16.48, an increase of 5.4%, with average tenant improvements and leasing costs of \$1.07 per square foot.

Table of Contents*Multifamily Segment:*

	2011	Quarters Ended March 31,		
		2010	\$ Change	% Change
Real Estate Rental Revenue				
Total	\$ 12,493	\$ 11,842	\$ 651	5.5%
Real Estate Expenses				
Total	\$ 4,828	\$ 5,103	\$ (275)	(5.4%)
NOI				
Total	\$ 7,665	\$ 6,739	\$ 926	13.7%

Occupancy	2011	2010
Total	95.3%	94.4%

Real estate rental revenue in the multifamily segment increased by \$0.7 million in the 2011 Quarter as compared to the 2010 Quarter due primarily to higher rental rates (\$0.4 million), lower rent abatements (\$0.2 million) and higher occupancy (\$0.1 million).

Real estate expenses in the multifamily segment decreased by \$0.3 million in the 2011 Quarter as compared to the 2010 Quarter due primarily to lower snow removal costs (\$0.2 million) and utilities expense (\$0.1 million).

Occupancy increased to 95.3% in the 2011 Quarter from 94.4% in the 2010 Quarter, driven by higher occupancy at 3801 Connecticut Avenue and Roosevelt Towers.

Table of Contents*Industrial Segment:*

	2011	Quarters Ended March 31,		
		2010	\$ Change	% Change
Real Estate Rental Revenue				
Total	\$ 8,281	\$ 8,820	\$ (539)	(6.1%)
Real Estate Expenses				
Total	\$ 2,561	\$ 3,056	\$ (495)	(16.2%)
NOI				
Total	\$ 5,720	\$ 5,764	\$ (44)	(0.8%)

Occupancy	2011	2010
Total	80.2%	83.0%

Real estate rental revenue in the industrial segment decreased by \$0.5 million in the 2011 Quarter as compared to the 2010 Quarter due primarily to lower occupancy (\$0.4 million) and lower common area maintenance reimbursements (\$0.5 million), partially offset by higher rental rates (\$0.2 million) and lower bad debt (\$0.2 million).

Real estate expenses in the industrial segment decreased by \$0.5 million in the 2011 Quarter as compared to the 2010 Quarter due to lower snow removal costs.

Occupancy decreased to 80.2% in the 2011 Quarter from 83.0% in the 2010 Quarter, driven by lower occupancy at Dulles Business Park, NVIP and Fullerton Industrial Center. During the 2011 Quarter, 60.4% of the square footage that expired was renewed compared to 51.5% in the 2010 Quarter, excluding properties sold or classified as held for sale. During the 2011 Quarter, we executed new leases for 156,100 square feet of industrial space at an average rental rate of \$8.70, a decrease of 15.3%, with average tenant improvements and leasing costs of \$4.21 per square foot.

Table of Contents

Liquidity and Capital Resources

Capital Structure

We manage our capital structure to reflect a long-term investment approach, generally seeking to match the cash flow of our assets with a mix of equity and various debt instruments. We expect that our capital structure will allow us to obtain additional capital from diverse sources that could include additional equity offerings of common shares, public and private secured and unsecured debt financings, and possible asset dispositions. Our ability to raise funds through the sale of debt and equity securities is dependent on, among other things, general economic conditions, general market conditions for REITs, our operating performance, our debt rating and the current trading price of our common shares. We analyze which source of capital we believe to be most advantageous to us at any particular point in time. However, the capital markets may not consistently be available on terms that we consider attractive. While we have seen increased investor appetite for securities issued by REITs, we have learned from the recent economic downturn that investor appetite can change dramatically in a very short period of time. As a result, there can be no assurance that we will be able to access the public or private debt and equity markets at a given point in the future.

We currently expect that our potential sources of liquidity for acquisitions, development, expansion and renovation of properties, and operating and administrative expenses, may include:

Cash flow from operations;

Borrowings under our unsecured credit facilities or other short-term facilities;

Issuances of our equity securities and/or common units in our operating partnership;

Proceeds from long-term secured or unsecured debt financings;

Investment from joint venture partners; and

Net proceeds from the sale of assets.

During 2011, we expect that we will have the following capital requirements. There can be no assurance that our capital requirements will not be materially higher or lower than these expectations.

Funding dividends on our common shares and noncontrolling interest distributions to third party unit holders;

Capital to refinance the \$105.7 million of remaining 2011 maturities on our mortgage notes payable and unsecured notes payable;

Capital to refinance our \$262.0 million unsecured line of credit which expires in 2011;

Approximately \$35.0 - \$45.0 million to invest in our existing portfolio of operating assets, including approximately \$20.0 - \$25.0 million to fund tenant-related capital requirements and leasing commissions;

Edgar Filing: WASHINGTON REAL ESTATE INVESTMENT TRUST - Form 10-Q

Approximately \$1.0 million to fund first generation tenant-related capital requirements and leasing commissions;

Approximately \$1.0 - \$5.0 million to invest in our development projects;

Approximately \$200.8 million to fund our known property acquisitions, including \$127.3 million of acquisitions that closed in the 2011 Quarter; and

Funding for potential property acquisitions throughout the remainder of 2011, with a portion expected to be offset by proceeds from potential property dispositions.

We currently believe that we will generate sufficient cash flow from operations and have access to the capital resources necessary to fund our requirements. However, as a result of the potential for federal government budget reductions, general market conditions in the greater Washington metro region, economic downturns affecting the ability to attract and retain tenants, unfavorable fluctuations in interest rates or our share price, unfavorable changes in the supply of competing properties, or our properties not performing as expected and charges in lenders institutional regulations, we may not generate sufficient cash flow from operations or otherwise have access to capital on favorable terms, or at all. As a result, if we are unable to obtain capital from other sources, we may need to alter our capital spending plans which may limit our future growth. If we are unable to obtain capital, we may not be able to pay the dividend required to maintain our status as a REIT, make required principal and interest payments, make strategic

Table of Contents

acquisitions or make necessary routine capital improvements or undertake re-development opportunities with respect to our existing portfolio of operating assets.

Debt Financing

We generally use secured or unsecured, corporate-level debt, including mortgages, unsecured notes and our unsecured credit facilities, to meet our borrowing needs. Long-term, we generally use fixed rate debt instruments in order to match the returns from our real estate assets. We also utilize variable rate debt for short-term financing purposes. At times, our mix of variable and fixed rate debt may not suit our needs. At those times, we may use derivative financial instruments including interest rate swaps and caps, forward interest rate options or interest rate options in order to assist us in managing our debt mix. We may either hedge our variable rate debt to give it an effective fixed interest rate or hedge fixed rate debt to give it an effective variable interest rate.

Our total debt at March 31, 2011 and December 31, 2010 is summarized as follows (in thousands):

	March 31, 2011	December 31, 2010
Fixed rate mortgages	\$ 379,333	\$ 380,171
Unsecured credit facilities	160,000	100,000
Unsecured notes payable	753,692	753,587
	\$ 1,293,025	\$ 1,233,758

If principal amounts due at maturity cannot be refinanced, extended or paid with proceeds of other capital transactions, such as new equity capital, our cash flow may be insufficient to repay all maturing debt. Prevailing interest rates or other factors at the time of a refinancing, such as possible reluctance of lenders to make commercial real estate loans, may result in higher interest rates and increased interest expense or inhibit our ability to finance our obligations.

Mortgage Debt

At March 31, 2011, our \$379.3 million in fixed rate mortgages, which includes a net \$6.5 million in unamortized discounts due to fair value adjustments, bore an effective weighted average fair value interest rate of 5.9% and had a weighted average maturity of 4.7 years. We may either initiate secured mortgage debt or assume mortgage debt from time-to-time in conjunction with property acquisitions.

Unsecured Credit Facilities

Our primary external source of liquidity is our two revolving credit facilities. We can borrow up to \$337.0 million under these lines, which bear interest at an adjustable spread over LIBOR based on our public debt rating.

Credit Facility No. 1 is a four-year, \$75.0 million unsecured credit facility originally set to expire in June 2011. After the end of the 2011 Quarter, we exercised a one-year extension option on this facility, which now expires in June 2012. We had \$60.0 million outstanding and \$0.8 million in letters of credit issued as of March 31, 2011, related to Credit Facility No. 1. Borrowings under the facility bear interest at our option of LIBOR plus a spread based on the credit rating on our publicly issued debt or the higher of SunTrust Bank's prime rate and the Federal Funds Rate in effect plus 0.5%. The interest rate spread is currently 42.5 basis points. All outstanding advances are due and payable upon maturity in June 2011, and may be extended for one year at our option. Interest only payments are due and payable generally on a monthly basis. In addition, we pay a facility fee based on the credit rating of our publicly issued debt which currently equals 0.15% per annum of the \$75.0 million committed capacity, without regard to usage. Rates and fees may be adjusted up or down based on changes in our senior unsecured credit ratings.

Credit Facility No. 2 is a four-year \$262.0 million unsecured credit facility expiring in November 2011. We had \$100.0 million outstanding and \$0.9 million in letters of credit issued as of March 31, 2011, related to Credit Facility No. 2. Advances under this agreement bear interest at our option of LIBOR plus a spread based on the credit rating of our publicly issued debt or the higher of Wells Fargo Bank's prime rate and the Federal Funds Rate in effect on that day plus 0.5%. The interest rate spread is currently 42.5 basis points. An interest rate swap fixes the interest rate at 2.525% (2.10% plus 42.5 basis points) through the interest rate swap's maturity date of November 1, 2011. All outstanding advances are due and payable upon maturity in November 2011. Interest only payments are due and payable generally on a monthly basis. Credit Facility

No. 2 requires us to pay the lender a facility fee on the total commitment of 0.15% per annum. These fees are payable quarterly.

Table of Contents

We currently anticipate that, prior to the November 2011 expiration of Credit Facility No. 2, we will negotiate a replacement facility substantially similar to the expiring facility. Although we anticipate that we will be able to obtain a replacement facility in the same or greater amount than the expiring facility, there is no assurance that we will be able to do so. Further, we anticipate that the interest rates and facility fees on the replacement facility will be higher than the expiring facility, though we do not currently expect that the revised terms will have a material adverse effect on our financial results. The terms of the replacement facility will be subject to the condition of the financial and lending markets, which, while improving, remain volatile and less predictable than in past periods.

Our unsecured credit facilities contain financial and other covenants with which we must comply. Some of these covenants include:

A minimum tangible net worth;

A maximum ratio of total liabilities to gross asset value, calculated using an estimate of fair market value of our assets;

A maximum ratio of secured indebtedness to gross asset value, calculated using an estimate of fair market value of our assets;

A minimum ratio of annual EBITDA (earnings before interest, taxes, depreciation and amortization) to fixed charges, including interest expense;

A minimum ratio of unencumbered asset value, calculated using a fair value of our assets, to unsecured indebtedness;

A minimum ratio of net operating income from our unencumbered properties to unsecured interest expense; and

A maximum ratio of permitted investments to gross asset value, calculated using an estimate of fair market value of our assets.

Failure to comply with any of the covenants under our unsecured credit facilities or other debt instruments could result in a default under one or more of our debt instruments. This could cause our lenders to accelerate the timing of payments and would therefore have a material adverse effect on our business, operations, financial condition and liquidity. In addition, our ability to draw on our unsecured credit facilities or incur other unsecured debt in the future could be restricted by the loan covenants. As of March 31, 2011, we were in compliance with our loan covenants.

We anticipate that in the near term we may rely to a greater extent upon our unsecured credit facilities and potentially maintain balances on our unsecured credit facilities for longer periods than has been our historical practice. To the extent that we maintain larger balances on our unsecured credit facilities or maintain balances on our unsecured credit facilities for longer periods, adverse fluctuations in interest rates could have a material adverse effect on earnings.

Unsecured Notes

We generally issue unsecured notes to fund our real estate assets long-term. In issuing future unsecured notes, we generally seek to ladder the maturities of our debt to mitigate exposure to interest rate risk in any particular future year.

Depending upon market conditions, opportunities to issue unsecured notes on attractive terms may not be available. During periods in the recent past, unsecured notes were essentially unavailable for extended periods of time. While debt markets have materially improved, it is difficult to predict if the improvement is sustainable.

Our unsecured notes have maturities ranging from June 2011 through February 2028, as follows (in thousands):

	March 31, 2011
	Note Principal
5.95% notes due 2011	\$ 93,862
5.05% notes due 2012	50,000
5.125% notes due 2013	60,000
5.25% notes due 2014	100,000
5.35% notes due 2015	150,000
4.95% notes due 2020	250,000
3.875% notes due 2026 ⁽¹⁾	2,659
7.25% notes due 2028	50,000
	\$ 756,521

- ⁽¹⁾ On or after September 20, 2011, we may redeem the convertible notes at a redemption price equal to the principal amount of the notes plus any accrued and unpaid interest, if any, up to, but excluding, the purchase date. In addition, on September 15, 2011, September 15,

Table of Contents

2016 and September 15, 2021 or following the occurrence of certain change in control transactions, holders of these notes may require us to repurchase the notes for an amount equal to the principal amount of the notes plus any accrued and unpaid interest thereon. Our unsecured notes contain covenants with which we must comply. These include:

Limits on our total indebtedness;

Limits on our secured indebtedness;

Limits on our required debt service payments; and

Maintenance of a minimum level of unencumbered assets.

Failure to comply with any of the covenants under our unsecured notes could result in a default under one or more of our debt instruments. This could cause our debt holders to accelerate the timing of payments and would therefore have a material adverse effect on our business, operations, financial condition and liquidity. As of March 31, 2011, we were in compliance with our unsecured notes covenants.

We may from time to time seek to repurchase and cancel our outstanding notes through open market purchases, privately negotiated transactions or otherwise. Such repurchases, if any, will depend on prevailing market conditions, our liquidity requirements, contractual restrictions and other factors. The amounts involved may be material.

Common Equity

We have authorized for issuance 100.0 million common shares, of which 65.9 million shares were outstanding at March 31, 2011.

We have a dividend reinvestment program, whereby shareholders may use their dividends and optional cash payments to purchase common shares. The common shares sold under this program may either be common shares issued by us or common shares purchased in the open market. We use net proceeds under this program for general corporate purposes. For the 2011 Quarter, we issued 42,682 common shares at a weighted average price of \$30.81 per share, raising \$1.3 million in net proceeds.

Dividends

We pay dividends quarterly. The maintenance of these dividends is subject to various factors, including the discretion of our Board of Trustees, our results of operations, the ability to pay dividends under Maryland law, the availability of cash to make the necessary dividend payments and the effect of REIT distribution requirements, which require at least 90% of our taxable income to be distributed to shareholders.

The table below details our dividend and distribution payments for the 2011 and 2010 Quarters (in thousands).

	Quarters Ended March 31,			
	2011	2010	\$	Change %
Common dividends	\$ 28,590	\$ 25,898	\$ 2,692	10.4%
Distributions to noncontrolling interests	25	47	(22)	(46.8%)
	\$ 28,615	\$ 25,945	\$ 2,670	10.3%

Dividends paid for the 2011 Quarter as compared to the 2010 Quarter increased due primarily to the issuance of 5.6 million common shares under our sales agency financing agreement during 2010.

Edgar Filing: WASHINGTON REAL ESTATE INVESTMENT TRUST - Form 10-Q

Cash flows from operations are an important factor in our ability to sustain our dividend at its current rate. If our cash flows from operations were to decline significantly, we may have to borrow on our lines of credit to sustain the dividend rate or reduce our dividend.

Table of Contents*Historical Cash Flows*

Consolidated cash flow information is summarized as follows (in millions):

	Quarters Ended March 31,			
	2011	2010	Change	
			\$	%
Net cash provided by (used in) operating activities	\$ 32.6	\$ 29.0	\$ 3.6	12.4%
Net cash provided by (used in) investing activities	\$ (130.8)	\$ (4.0)	\$ (126.8)	(3,170.0%)
Net cash provided by (used in) financing activities	\$ 31.9	\$ (25.4)	\$ 57.3	225.6%

Our operating activities generated \$32.6 million of net cash in the 2011 Quarter, an increase from \$29.0 million in the 2010 Quarter that is attributable to the operations of the properties acquired in 2010 and the 2011 Quarter, as well as lower interest payments. The decrease in interest payments is primarily due to a change in the timing of the semi-annual interest payments on our unsecured notes.

Our investing activities used net cash of \$130.8 million in the 2011 Quarter compared to \$4.0 million in the 2010 Quarter. The increase in cash used by investing activities is due to the acquisition of two properties during the 2011 Quarter, as compared to no acquisitions during the 2010 Quarter.

Our financing activities provided net cash of \$31.9 million in the 2011 Quarter as compared to using \$25.4 million in the 2010 Quarter. The increase in cash provided by financing activities is primarily due to net borrowings of \$60.0 million from our unsecured lines of credit during the 2011 Quarter.

Ratios of Earnings to Fixed Charges and Debt Service Coverage

The following table sets forth our ratios of earnings to fixed charges and debt service coverage for the periods shown:

	Quarters Ended March 31,	
	2011	2010
Earnings to fixed charges	1.3x	1.2x
Debt service coverage	2.7x	2.5x

We computed the ratio of earnings to fixed charges by dividing earnings by fixed charges. For this purpose, earnings consist of income from continuing operations attributable to the controlling interests plus fixed charges, less capitalized interest. Fixed charges consist of interest expense, including amortized costs of debt issuance, and interest costs capitalized.

We computed the debt service coverage ratio by dividing Adjusted EBITDA (which is earnings before interest expense, taxes, depreciation, amortization, real estate impairment, gain on sale of real estate, gain/loss from the extinguishment of debt and gain/loss on non-disposal activities) by interest expense and principal amortization. We believe that Adjusted EBITDA is appropriate for use in our debt service coverage ratio because it provides an estimate of the cash available to pay down long term debt. Adjusted EBITDA does not represent net income calculated in accordance with GAAP. As such, it should not be considered an alternative to net income as an indication of our operating performance. A reconciliation of Adjusted EBITDA to net income attributable to the controlling interests is in Exhibit 12 Computation of Ratios.

Funds From Operations

FFO is a widely used measure of operating performance for real estate companies. We provide FFO as a supplemental measure to net income calculated in accordance with GAAP. Although FFO is a widely used measure of operating performance for REITs, FFO does not represent net income calculated in accordance with GAAP. As such, it should not be considered an alternative to net income as an indication of our operating performance. In addition, FFO does not represent cash generated from operating activities in accordance with GAAP, nor does it represent cash available to pay distributions and should not be considered as an alternative to cash flow from operating activities, determined in accordance with GAAP, as a measure of our liquidity. The National Association of Real Estate Investment Trusts, Inc. (NAREIT) defines FFO (April, 2002 White Paper) as net income (computed in accordance with GAAP) excluding gains (or losses) from sales of property plus real estate depreciation and amortization. We consider FFO to be a standard supplemental measure for REITs because it facilitates an understanding of the

operating performance of our properties without giving effect to real estate depreciation and amortization,

Table of Contents

which historically assumes that the value of real estate assets diminishes predictably over time. Since real estate values have instead historically risen or fallen with market conditions, we believe that FFO more accurately provides investors an indication of our ability to incur and service debt, make capital expenditures and fund other needs. Our FFO may not be comparable to FFO reported by other REITs. These other REITs may not define the term in accordance with the current NAREIT definition or may interpret the current NAREIT definition differently.

The following table provides the calculation of our FFO and a reconciliation of FFO to net income for the periods shown (in thousands):

	Quarters Ended March 31,	
	2011	2010
Net income attributable to the controlling interests	\$ 4,665	\$ 5,216
Adjustments		
Depreciation and amortization	24,750	22,587
Discontinued operations depreciation and amortization	499	1,021
FFO as defined by NAREIT	\$ 29,914	\$ 28,824

Table of Contents

ITEM 3: QUALITATIVE AND QUANTITATIVE DISCLOSURES ABOUT MARKET RISK

The principal material financial market risk to which we are exposed is interest-rate risk. Our exposure to market risk for changes in interest rates relates primarily to refinancing long-term fixed rate obligations, the opportunity cost of fixed rate obligations in a falling interest rate environment and our variable rate lines of credit. We primarily enter into debt obligations to support general corporate purposes including acquisition of real estate properties, capital improvements and working capital needs.

As the majority of our outstanding debt is long-term, fixed rate debt, our interest rate risk has not changed significantly from what was disclosed in our 2010 Annual Report on Form 10-K. See Management's Discussion and Analysis of Financial Condition and Results of Operations Liquidity and Capital Resources Debt Financing.

ITEM 4: CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Securities Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer, Chief Financial Officer and Executive Vice President of Accounting, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

We carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer, Chief Financial Officer and Executive Vice President of Accounting, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report. Based on the foregoing, our Chief Executive Officer, Chief Financial Officer and Executive Vice President of Accounting concluded that our disclosure controls and procedures were effective at the reasonable assurance level.

There have been no changes in WRIT's internal control over financial reporting (as defined by Rule 13a-15(f)) that occurred during the period covered by the report that have materially affected, or are reasonably likely to materially affect, WRIT's internal control over financial reporting.
