SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

Form 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the Quarterly Period Ended June 30, 2011

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Commission file number: 001-08038

KEY ENERGY SERVICES, INC.

(Exact name of registrant as specified in its charter)

Edgar Filing: KEY ENERGY SERVICES INC - Form 10-Q

Maryland (State or other jurisdiction of incorporation or organization)	04-2648081 (I.R.S. Employer Identification No.)
1301 McKinney Street, Suite 1800, Houston, Texas (Address of principal executive offices)	77010 (Zip Code)
(713) 651-4300 (Registrant's telephone number, including area code)	
None (Former name, former address and former fiscal year, if changed since last report)	

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer <input checked="" type="checkbox"/>	Accelerated filer <input type="checkbox"/>
Non-accelerated filer <input type="checkbox"/> (Do not check if a smaller reporting company)	Smaller reporting company <input type="checkbox"/>

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of July 29, 2011, the number of outstanding shares of common stock of the registrant was 143,096,368.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

In addition to statements of historical fact, this report contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Statements that are not historical in nature or that relate to future events and conditions are, or may be deemed to be, forward-looking statements. These forward-looking statements are based on our current expectations, estimates and projections about Key Energy Services, Inc. and its wholly owned and controlled subsidiaries, our industry and management's beliefs and assumptions concerning future events and financial trends affecting our financial condition and results of operations. In some cases, you can identify these statements by terminology such as may, will, should, predicts, expects, believes, anticipates, projects, potential or continue or the negative or other comparable terminology. These statements are only predictions and are subject to substantial risks and uncertainties and not guarantees of performance. Future actions, events and conditions and future results of operations may differ materially from those expressed in these statements. In evaluating those statements, you should carefully consider the information above as well as the risks outlined in *Item 1A. Risk Factors* in our Annual Report on Form 10-K for the year ended December 31, 2010.

We undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date of this report except as required by law. All of our written and oral forward-looking statements are expressly qualified by these cautionary statements and any other cautionary statements that may accompany such forward-looking statements.

Key Energy Services, Inc., and Subsidiaries

NOTES TO CONDENSED CONSOLIDATED UNAUDITED FINANCIAL STATEMENTS

NOTE 1. GENERAL

Key Energy Services, Inc., its wholly-owned subsidiaries and its controlled subsidiaries (collectively, Key, the Company, we, us, its, and o provide a full range of well services to major oil companies, foreign national oil companies and independent oil and natural gas production companies. Our services include rig-based and coiled tubing-based well maintenance and workover services, well completion and recompletion services, fluid management services, fishing and rental services, and other ancillary oilfield services. In addition, certain of our rigs are capable of specialty drilling applications. We operate in most major oil and natural gas producing regions of the continental United States and have operations based in Mexico, Colombia, the Middle East, Russia and Argentina. In addition, we have a technology development and control systems business based in Canada.

The accompanying unaudited condensed consolidated financial statements were prepared using generally accepted accounting principles in the United States of America (GAAP) for interim financial information and in accordance with the rules and regulations of the Securities and Exchange Commission (the SEC). The condensed December 31, 2010 balance sheet was prepared from audited financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2010 (the 2010 Form 10-K). Certain information relating to our organization and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted in this Quarterly Report on Form 10-Q. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in our 2010 Form 10-K.

Certain reclassifications have been made to prior period amounts to conform to current period financial statement classifications. We revised our reportable business segments effective in the first quarter of 2011, and in connection with the revision, have restated the corresponding items of segment information for all periods presented. The new operating segments are U.S. and International. We revised our segments to reflect changes in management s resource allocation and performance assessment in making decisions regarding the Company. Our fluid management services, fishing and rental services, intervention services and domestic rig services businesses are aggregated within our U.S. segment. Our international rig services business and our Canadian technology development group are now aggregated within our International segment. These changes reflect our current operating focus in compliance with Accounting Standards Codification (ASC) No. 280, *Segment Reporting* (ASC 280). These presentation changes did not impact our consolidated net income, earnings per share, total current assets, total assets or total stockholders equity.

The unaudited condensed consolidated financial statements contained in this report include all normal and recurring material adjustments that, in the opinion of management, are necessary for a fair presentation of our financial position, results of operations and cash flows for the interim periods presented herein. The results of operations for the three- and six-month periods ended June 30, 2011 are not necessarily indicative of the results expected for the full year or any other interim period, due to fluctuations in demand for our services, timing of maintenance and other expenditures, and other factors.

We have evaluated events occurring after the balance sheet date included in this Quarterly Report on Form 10-Q for possible disclosure as a subsequent event. Management monitored for subsequent events through the date these financial statements were available to be issued. Subsequent events that were identified by management as requiring disclosure are described in *Note 19. Subsequent Events*.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES AND ESTIMATES

The preparation of these unaudited condensed consolidated financial statements requires us to develop estimates and to make assumptions that affect our financial position, results of operations and cash flows. These estimates may also impact the nature and extent of our disclosure, if any, of our contingent liabilities. Among other things, we use estimates to (i) analyze assets for possible impairment, (ii) determine depreciable lives for our assets, (iii) assess future tax exposure and realization of deferred tax assets, (iv) determine amounts to accrue for contingencies, (v) value tangible and intangible assets, (vi) assess workers compensation, vehicular liability, self-insured risk accruals and other insurance reserves, (vii) provide allowances for our uncollectible accounts receivable, (viii) value our asset retirement obligations, and (ix) value our equity-based compensation. We review all significant estimates on a recurring basis and record the effect of any necessary adjustments prior to publication of our financial statements. Adjustments made with respect to the use of estimates relate to improved information not previously available. Because of the limitations inherent in this process, our actual results may differ materially from these estimates. We believe that the estimates used in the preparation of these interim financial statements are reasonable.

Table of Contents

There have been no material changes or developments in our evaluation of accounting estimates and underlying assumptions or methodologies that we believe to be a Critical Accounting Policy or Estimate as disclosed in our 2010 Form 10-K.

New Accounting Standards Adopted in this Report

ASU 2009-13. In October 2009, the FASB issued ASU 2009-13, *Revenue Recognition (Topic 605) Multiple-Deliverable Revenue Arrangements, a consensus of the FASB Emerging Issues Task Force* (ASU 2009-13). ASU 2009-13 addresses the accounting for multiple-deliverable arrangements where products or services are accounted for separately rather than as a combined unit, and addresses how to separate deliverables and how to measure and allocate arrangement consideration to one or more units of accounting. As a result of ASU 2009-13, multiple-deliverable arrangements will be separated in more circumstances than under prior guidance. ASU 2009-13 establishes a selling price hierarchy for determining the selling price of a deliverable. The selling price will be based on vendor-specific objective evidence (VSOE) if it is available, on third-party evidence if VSOE is not available, or on an estimated selling price if neither VSOE nor third-party evidence is available. ASU 2009-13 also requires that an entity determine its best estimate of selling price in a manner that is consistent with that used to determine the selling price of the deliverable on a stand-alone basis, and increases the disclosure requirements related to an entity's multiple-deliverable revenue arrangements. ASU 2009-13 must be prospectively applied to all revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010. Entities may elect, but are not required, to adopt the amendments retrospectively for all periods presented. We adopted the provisions of ASU 2009-13 on January 1, 2011 and the adoption of this standard did not have a material impact on our financial position, results of operations, or cash flows.

ASU 2009-14. In October 2009, the FASB issued ASU 2009-14, *Software (Topic 985) Certain Revenue Arrangements That Include Software Elements a consensus of the FASB Emerging Issues Task Force* (ASU 2009-14). ASU 2009-14 was issued to address concerns relating to the accounting for revenue arrangements that contain tangible products and software that is more than incidental to the product as a whole. ASU 2009-14 changes the accounting model for revenue arrangements that include both tangible products and software elements to exclude those where the software components are essential to the tangible products' core functionality. In addition, ASU 2009-14 also requires that hardware components of a tangible product containing software components always be excluded from the software revenue recognition guidance, and provides guidance on how to determine which software, if any, relating to tangible products is considered essential to the tangible products' functionality and should be excluded from the scope of software revenue recognition guidance. ASU 2009-14 also provides guidance on how to allocate arrangement consideration to deliverables in an arrangement that contains tangible products and software that is not essential to the product's functionality. ASU 2009-14 was issued concurrently with ASU 2009-13 and also requires entities to provide the disclosures required by ASU 2009-13 that are included within the scope of ASU 2009-14. ASU 2009-14 is effective prospectively for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010. Entities may also elect, but are not required, to adopt ASU 2009-14 retrospectively to prior periods, and must adopt ASU 2009-14 in the same period and using the same transition methods that it uses to adopt ASU 2009-13. We adopted the provisions of ASU 2009-14 on January 1, 2011 and the adoption of this standard did not have a material impact on our financial position, results of operations, or cash flows.

ASU 2010-13. In April 2010, the FASB issued ASU No. 2010-13, *Compensation - Stock Compensation (Topic 718): Effect of Denominating the Exercise Price of a Share-Based Payment Award in the Currency of the Market in Which the Underlying Equity Security Trades.* This ASU codifies the consensus reached in EITF Issue No. 09-J, *Effect of Denominating the Exercise Price of a Share-Based Payment Award in the Currency of the Market in Which the Underlying Equity Security Trades.* The amendments to the Codification clarify that an employee share-based payment award with an exercise price denominated in the currency of a market in which a substantial portion of the entity's equity shares trades should not be considered to contain a condition that is not a market, performance, or service condition. Therefore, an entity would not classify such an award as a liability if it otherwise qualifies as equity. ASU 2010-13 is effective for fiscal years beginning on or after December 15, 2010. The amendments in this update should be applied by recording a cumulative-effect adjustment to the opening balance of retained earnings. The cumulative-effect adjustment should be calculated for all awards outstanding as of the beginning of the fiscal year in which the amendments are initially applied, as if the amendments had been applied consistently since the inception of the award. The cumulative-effect adjustment should be presented separately. We adopted the provisions of ASU 2010-13 on January 1, 2011 and the adoption of this standard did not have a material impact on our financial position, results of operations, or cash flows.

ASU 2010-28. In December 2010, the FASB issued ASU No. 2010-28, *Intangibles - Goodwill and Other (Topic 350): When to Perform Step 2 of the Goodwill Impairment Test for Reporting Units with Zero or Negative Carrying Amounts.* This ASU reflects the

Table of Contents

decision reached in EITF Issue No. 10-A. The amendments in this ASU modify Step 1 of the goodwill impairment test for reporting units with zero or negative carrying amounts. For those reporting units, an entity is required to perform Step 2 of the goodwill impairment test if it is more likely than not that a goodwill impairment exists. In determining whether it is more likely than not that goodwill impairment exists, an entity should consider whether there are any adverse qualitative factors indicating that impairment may exist. The qualitative factors are consistent with the existing guidance and examples, which require that goodwill of a reporting unit be tested for impairment between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying amount. For public entities, the amendments in this ASU are effective for fiscal years, and interim periods within those years, beginning after December 15, 2010. We adopted the provisions of ASU 2010-28 on January 1, 2011 and the adoption of this standard did not have a material impact on our financial position, results of operations, or cash flows.

ASU 2010-29. In December 2010, the FASB issued ASU 2010-29, *Business Combinations (Topic 805): Disclosure of Supplementary Pro Forma Information for Business Combinations*. This ASU reflects the decision reached in EITF Issue No. 10-G. The amendments in this ASU affect any public entity as defined by Topic 805, Business Combinations, that enters into business combinations that are material on an individual or aggregate basis. The amendments in this ASU specify that if a public entity presents comparative financial statements, the entity should disclose revenue and earnings of the combined entity as though the business combination(s) that occurred during the current year had occurred as of the beginning of the comparable prior annual reporting period only. The amendments also expand the supplemental pro forma disclosures to include a description of the nature and amount of material, nonrecurring pro forma adjustments directly attributable to the business combination included in the reported pro forma revenue and earnings. ASU 2010-29 is effective prospectively for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2010. We adopted the provisions of ASU 2010-29 on January 1, 2011 and the adoption of this standard may result in additional disclosures related to future acquisitions, but it will not have a material impact on our financial position, results of operations, or cash flows.

Accounting Standards Not Yet Adopted in this Report

ASU 2011-04. In May 2011, the FASB issued ASU 2011-04, *Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS*. This ASU represents the converged guidance of the FASB and the IASB on measuring fair value and for disclosing information about fair value measurements. The amendments in this ASU clarify the Board's intent about the application of existing fair value measurement and disclosure requirements and changes particular principles or requirements for measuring fair value and for disclosing information about fair value measurements. ASU 2011-04 is effective prospectively for interim and annual reporting periods beginning after December 15, 2011. We expect to adopt the provisions of ASU 2011-04 on January 1, 2012 and do not believe that the adoption of this standard will have a material impact on our financial position, results of operations, or cash flows.

ASU 2011-05. In June 2011, the FASB issued ASU 2011-05, *Comprehensive Income (Topic 220): Presentation of Comprehensive Income*. The amendments in this ASU allow an entity the option to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In both choices, an entity is required to present each component of net income along with total net income, each component of other comprehensive income along with a total for other comprehensive income, and a total amount for comprehensive income. This ASU eliminates the option to present the components of other comprehensive income as part of the statement of changes in stockholders' equity. ASU 2011-05 should be applied retrospectively for interim and annual reporting periods beginning after December 15, 2011 with early adoption permitted. We expect to adopt the provisions of ASU 2011-05 on January 1, 2012 and do not believe that the adoption of this standard will have a material impact on our financial position, results of operations, or cash flows.

NOTE 3. ACQUISITIONS**2011 Acquisitions**

Equity Energy Company (EEC). In January 2011, we acquired 10 saltwater disposal (SWD) wells from EEC for approximately \$14.3 million. Most of these SWD wells are located in North Dakota. We accounted for this purchase as an asset acquisition.

Table of Contents**2010 Acquisitions**

OFS Energy Services, LLC (*OFS*). In October 2010, we acquired certain subsidiaries, together with associated assets, owned by OFS, an oilfield services company of ArcLight Capital Partners, LLC. The total consideration for the acquisition was 15.8 million shares of our common stock and a cash payment of \$75.8 million subject to certain working capital and other adjustments at closing. We accounted for this acquisition as a business combination. The results of operations for the acquired businesses have been included in our consolidated financial statements since the date of acquisition.

The following table summarizes the changes in the estimated fair values of the assets acquired and liabilities assumed between December 31, 2010 and June 30, 2011. We finalized the third-party valuations of the tangible and intangible assets during the second quarter and our acquisition accounting is final.

	June 30, 2011	December 31, 2010
	(in thousands)	
<i>At October 1, 2010:</i>		
Cash and cash equivalents	\$ 539	\$ 539
Accounts receivable	23,335	23,384
Other current assets	1,372	1,372
Property and equipment	101,734	108,152
Intangible assets	17,696	20,988
Deferred tax asset	1,851	1,851
Total identifiable assets acquired	146,527	156,286
Current liabilities	18,881	18,498
Other liabilities	707	1,134
Total liabilities assumed	19,588	19,632
Net identifiable assets acquired	126,939	136,654
Goodwill	102,799	93,084
Net assets acquired	\$ 229,738	\$ 229,738

Of the \$17.7 million of acquired intangible assets, \$16.7 million was assigned to customer relationships that will be amortized as the value of the relationships are realized using rates of 30.0%, 21.0%, 14.7%, 10.3%, 7.2%, 5.0% and 3.6% through 2017. The remaining \$1.0 million of acquired intangible assets was assigned to non-compete agreements that will be amortized on a straight-line basis over 18 months. For the goodwill acquired, \$101.7 million was assigned to intervention services, and \$1.1 million was assigned to fluid management services, all of which are included in our U.S. reportable segment.

Five J.A.B., Inc. and Affiliates (*5 JAB*). In November 2010, we acquired 13 rigs and associated equipment from 5 JAB for cash consideration of approximately \$14.6 million. We have accounted for this acquisition as a business combination. The goodwill acquired was assigned to rig-based services and is included in our U.S. reportable segment. The following table summarizes the changes in the estimated fair values of the assets acquired between December 31, 2010 and June 30, 2011. We completed the valuations of the property and equipment and intangible assets acquired during the second quarter and our acquisition accounting is final.

Goodwill	2,511	
Net assets acquired	\$ 14,583	\$ 14,583

Enhanced Oilfield Technologies, LLC (EOT). In December 2010, we acquired 100% of the equity interests in EOT, a privately-held oilfield technology company, for a cash payment of \$11.7 million and a performance earn-out equal to 8% of adjusted revenue over five years from the acquisition date. We have estimated our liability under the earn-out agreement to be \$2.8 million. We accounted for this acquisition as a business combination. The acquired business was still in the developmental stage at the time of acquisition and continues to be in the developmental stage. The goodwill acquired of \$10.1 million was assigned to fishing and rental services, which is included in our U.S. reportable segment. The acquired intangible asset of \$4.4 million was assigned to developed technology and will be amortized on a straight line basis over a period of 20 years.

The following table summarizes the changes in the estimated fair values of the assets acquired between December 31, 2010 and June 30, 2011. We are in the process of finalizing third-party valuations of the intangible assets acquired; thus, the provisional measurements of intangible assets and goodwill are preliminary and subject to change.

Customer relationships and contracts	6.7	5,622	6,822	4,910	3,492	2,491	1,871
Developed technology	19.0	402	221	221	221	221	221
Customer backlog	0.2	39					
Total intangible asset amortization expense		\$ 7,898	\$ 9,829	\$ 5,670	\$ 4,186	\$ 2,767	\$ 2,132

Certain of our goodwill and other intangible assets are denominated in currencies other than U.S. dollars and, as such, the values of these assets are subject to fluctuations associated with changes in exchange rates. Additionally, certain of these assets are subject to purchase accounting adjustments. Purchase accounting adjustments in 2011 relate to reduction of fixed assets and intangibles acquired from OFS in 2010, and adjustments to the goodwill and intangibles related to the EOT and 5 JAB acquisitions. Amortization expense for our intangible assets was \$3.9 million and \$2.3 million for the three months ended June 30, 2011 and 2010, respectively, and \$8.1 million and \$5.1 million for the six months ended June 30, 2011 and 2010.

NOTE 6. EQUITY METHOD INVESTMENTS***IROC Energy Services Corp.***

In April 2011, we sold our 8.7 million shares of IROC Energy Services Corp. (IROC), an Alberta-based oilfield services company, for \$12.0 million, net of fees. We recorded a net gain on sale of \$4.8 million (including the write-off of the cumulative translation adjustment of \$1.1 million) during the second quarter of 2011, as the proceeds received exceeded the carrying value of our investment.

NOTE 7. LONG-TERM DEBT

As of June 30, 2011 and December 31, 2010, the components of our long-term debt were as follows:

	June 30, 2011	December 31, 2010
(in thousands)		
6.75% Senior Notes due 2021	\$ 475,000	\$
8.375% Senior Notes due 2014	3,573	425,000
Senior Secured Credit Facility revolving loans due 2016	90,000	
Capital lease obligations	3,980	6,100
Total debt	572,553	431,100
Less current portion	2,881	3,979
Long-term debt and capital leases	\$ 569,672	\$ 427,121

Table of Contents

8.375% Senior Notes due 2014

On November 29, 2007, we issued \$425.0 million aggregate principal amount of 8.375% Senior Notes due 2014 (the 2014 Notes). On March 4, 2011, we repurchased \$421.3 million aggregate principal amount of our 2014 Notes at a purchase price of \$1,090 per \$1,000 principal amount. On March 15, 2011, we repurchased an additional \$0.1 million aggregate principal amount at a purchase price of \$1,060 per \$1,000 principal amount. In connection with the repurchase of the 2014 Notes, we incurred a loss of \$44.3 million on the early extinguishment of debt related to the premium paid on the tender, the payment of related fees and the write-off of unamortized loan fees. Interest on the remaining \$3.6 million aggregate principal amount of 2014 Notes outstanding is payable on June 1 and December 1 of each year.

6.75% Senior Notes due 2021

On March 4, 2011, we issued \$475.0 million aggregate principal amount of 6.75% Senior Notes due 2021 (the 2021 Notes). Net proceeds, after deducting underwriters' fees and offering expenses, were \$466.0 million. We used the net proceeds to repurchase the 2014 Notes as described above, including accrued and unpaid interest and fees and expenses. We capitalized \$10.0 million of financing costs associated with the issuance of the 2021 Notes that will be amortized over the term of the notes.

The 2021 Notes are general unsecured senior obligations and are subordinate to all of our existing and future secured indebtedness. The 2021 Notes are or will be jointly and severally guaranteed on a senior unsecured basis by certain of our existing and future domestic subsidiaries. Interest on the 2021 Notes is payable on March 1 and September 1 of each year, beginning on September 1, 2011. The 2021 Notes mature on March 1, 2021.

On or after March 1, 2016, the 2021 Notes will be subject to redemption at any time and from time to time at our option, in whole or in part, at the redemption prices below (expressed as percentages of the principal amount redeemed), plus accrued and unpaid interest to the applicable redemption date, if redeemed during the twelve-month period beginning on March 1 of the years indicated below:

Year	Percentage
2016	103.375%
2017	102.250%
2018	101.125%
2019 and thereafter	100.000%

At any time and from time to time before March 1, 2014, we may on any one or more occasions redeem up to 35% of the aggregate principal amount of the outstanding 2021 Notes at a redemption price of 106.750% of the principal amount, plus accrued and unpaid interest to the redemption date, with the net cash proceeds from any one or more equity offerings provided that (i) at least 65% of the aggregate principal amount of the 2021 Notes remains outstanding immediately after each such redemption and (ii) each such redemption shall occur within 180 days of the date of the closing of such equity offering.

In addition, at any time and from time to time prior to March 1, 2016, we may, at our option, redeem all or a portion of the 2021 Notes at a redemption price equal to 100% of the principal amount plus a premium with respect to the 2021 Notes plus accrued and unpaid interest to the redemption date. If we experience a change of control, subject to certain exceptions, we must give holders of the 2021 Notes the opportunity to sell to us their 2021 Notes, in whole or in part, at a purchase price equal to 101% of the aggregate principal amount, plus accrued and unpaid interest to the date of purchase.

We are subject to certain negative covenants under the indenture governing the 2021 Notes (the Indenture). The Indenture limits our ability to, among other things:

incur additional indebtedness and issue preferred equity interests;

pay dividends or make other distributions or repurchase or redeem equity interests;

make loans and investments;

enter into sale and leaseback transactions;

Table of Contents

sell, transfer or otherwise convey assets;

create liens;

enter into transactions with affiliates;

enter into agreements restricting subsidiaries' ability to pay dividends;

designate future subsidiaries as unrestricted subsidiaries; and

consolidate, merge or sell all or substantially all of the applicable entities' assets.

These covenants are subject to certain exceptions and qualifications, and contain cross-default provisions relating to the covenants of our 2011 Credit Facility discussed below. Substantially all of the covenants will terminate before the 2021 Notes mature if one of two specified ratings agencies assigns the 2021 Notes an investment grade rating in the future and no events of default exist under the Indenture. As of June 30, 2011, the 2021 Notes were below investment grade. Any covenants that cease to apply to us as a result of achieving an investment grade rating will not be restored, even if the credit rating assigned to the 2021 Notes later falls below investment grade. We were in compliance with these covenants at June 30, 2011.

Senior Secured Credit Facility

On March 31, 2011, we simultaneously terminated (without pre-payment penalty) our \$300 million credit agreement dated November 29, 2007, as amended, which was to mature no later than November 29, 2012, and entered into a new credit agreement with several lenders and JPMorgan Chase Bank, N.A., as Administrative Agent and Swing Line Lender, Bank of America, N.A., as Syndication Agent, and Capital One, N.A. and Wells Fargo Bank, N.A., as Co-Documentation Agents. In connection with the termination of our previous credit agreement, we incurred a loss of \$2.2 million on early extinguishment of debt related to the write-off of the unamortized portion of deferred financing costs. The new 2011 credit agreement provides for a senior secured credit facility (the 2011 Credit Facility) consisting of a revolving credit facility, letter of credit sub-facility and swing line facility of up to an aggregate principal amount of \$400 million, all of which will mature no later than March 31, 2016. The 2011 Credit Facility and the obligations thereunder are secured by substantially all of our assets and those of our subsidiary guarantors and are guaranteed by certain of our existing and future domestic subsidiaries.

In connection with the execution of the 2011 Credit Facility, we capitalized \$4.8 million of financing costs that will be amortized over the term of the debt.

The interest rate per annum applicable to the 2011 Credit Facility is, at our option, (i) adjusted LIBOR plus the applicable margin or (ii) the higher of (x) JPMorgan's prime rate, (y) the Federal Funds rate plus 0.5% and (z) one-month adjusted LIBOR plus 1.0%, plus in each case the applicable margin for all other loans. The applicable margin for LIBOR loans ranges from 225 to 300 basis points, and the applicable margin for all other loans ranges from 125 to 200 basis points, depending upon our consolidated total leverage ratio as defined in the 2011 Credit Facility. Unused commitment fees on the facility equal 0.50%.

The 2011 Credit Facility contains certain financial covenants, which, among other things, limit our annual capital expenditures, restrict our ability to repurchase shares and require us to maintain certain financial ratios. The financial ratios require that:

our consolidated funded indebtedness be no greater than 45% of our adjusted total capitalization;

our senior secured leverage ratio of senior secured funded debt to trailing four quarters of earnings before interest, taxes, depreciation and amortization (as calculated pursuant to the terms of the 2011 Credit Facility, EBITDA) be no greater than 2.00 to 1.00;

we maintain a collateral coverage ratio, the ratio of the aggregate book value of the collateral to the amount of the total commitments, as of the last day of any fiscal quarter of at least:

Table of Contents

<i>Fiscal Quarter Ending</i>	<i>Ratio</i>
June 30, 2011 through June 30, 2012	1.85 to 1.00
September 30, 2012 and thereafter	2.00 to 1.00

we maintain a consolidated interest coverage ratio of trailing four quarters EBITDA to interest expense of at least 3.00 to 1.00; and

we limit our capital expenditures and investments in foreign subsidiaries to \$250.0 million per fiscal year, up to 50% of which amount may be carried over for expenditure in the following fiscal year, if after giving pro forma effect thereto the consolidated total leverage ratio exceeds 3.00 to 1.00.

In addition, the 2011 Credit Facility contains certain affirmative and negative covenants, including, without limitation, restrictions on (i) liens; (ii) debt, guarantees and other contingent obligations; (iii) mergers and consolidations; (iv) sales, transfers and other dispositions of property or assets; (v) loans, acquisitions, joint ventures and other investments (with acquisitions permitted so long as, after giving pro forma effect thereto, no default or event of default exists under the 2011 Credit Facility, the pro forma consolidated total leverage ratio does not exceed 4.00 to 1.00, we are in compliance with other financial covenants and we have at least \$25 million of availability under the 2011 Credit Facility); (vi) dividends and other distributions to, and redemptions and repurchases from, equityholders; (vii) making investments, loans or advances; (viii) selling properties; (ix) prepaying, redeeming or repurchasing subordinated (contractually or structurally) debt; (x) engaging in transactions with affiliates; (xi) entering into hedging arrangements; (xii) entering into sale and leaseback transactions; (xiii) granting negative pledges other than to the lenders; (xiv) changes in the nature of business; (xv) amending organizational documents; and (xvi) changes in accounting policies or reporting practices; in each of the foregoing cases, with certain exceptions. Furthermore, the 2011 Credit Facility provides that share repurchases in excess of \$200 million can be made only if our debt to capitalization ratio is below 45%.

We were in compliance with these covenants at June 30, 2011. We may prepay the 2011 Credit Facility in whole or in part at any time without premium or penalty, subject to certain reimbursements to the lenders for breakage and redeployment costs. As of June 30, 2011, we had borrowings of \$90.0 million under the revolving credit facility and \$59.5 million of letters of credit outstanding, leaving \$250.5 million of available borrowing capacity under the 2011 Credit Facility. The weighted average interest rate on the outstanding borrowings under the 2011 Credit Facility was 2.76% for the three-month period ended June 30, 2011.

On July 27, 2011, we amended our 2011 Credit Facility. See *Note 19. Subsequent Events* for additional discussion.

NOTE 8. OTHER INCOME AND EXPENSE

The table below presents comparative detailed information about our other income and expense, shown on the condensed consolidated statements of operations as Other, net for the periods indicated:

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2011	2010	2011	2010
	(in thousands)		(in thousands)

Interest income	(2)	(21)	(22)	(36)
Foreign exchange (gain) loss	(2,717)	855	(4,185)	(509)
Gain on sale of equity method investment	(4,783)		(4,783)	
Other expense (income), net	21	(687)	(207)	(886)
Total	\$ (7,319)	\$ 467	\$ (9,704)	\$ (776)

Table of Contents

In April 2011 we sold our shares in IROC and recorded a gain on the sale of \$4.8 million during the second quarter. Our foreign exchange gain relates to an increase in U.S. dollar-denominated transactions in our foreign locations and the strengthening of the U.S. dollar.

NOTE 9. INCOME TAXES

We are subject to U.S. federal income tax as well as income taxes in multiple state and foreign jurisdictions. Our effective tax rates for the three months ended June 30, 2011 and 2010 were 36.4% and 34.8%, respectively, and 39.7% and 38.3% for the six months ended June 30, 2011 and 2010, respectively. Our effective tax rate varies due to the mix of pre-tax profit between the U.S. and international taxing jurisdictions with varying statutory rates, permanent differences impacting mainly the U.S. effective rate, and discrete tax adjustments, such as tax expense or benefit recognized for uncertain tax positions. The variance between our effective rate and the U.S. statutory rate reflects the impact of permanent items, mainly non-deductible expenses such as fines and penalties, and expenses subject to statutorily imposed limitations such as meals and entertainment expenses, plus the impact of state income taxes.

As of June 30, 2011 and December 31, 2010, we had \$2.3 million and \$2.2 million, respectively, of unrecognized tax benefits, net of federal tax benefit, which, if recognized, would impact our effective tax rate. We recognized tax expense of less than \$0.1 million and \$0.1 million in each of the quarters ended June 30, 2011 and 2010 related to these items. We have substantially concluded all U.S. federal and state tax matters through the year ended December 31, 2006.

We record interest and penalties related to unrecognized tax benefits as income tax expense. We have accrued a liability of \$0.9 million and \$0.8 million for the payment of interest and penalties as of June 30, 2011 and December 31, 2010, respectively. We believe that it is reasonably possible that \$0.9 million of our currently remaining unrecognized tax positions, each of which are individually insignificant, may be recognized in the next twelve months as a result of a lapse of statute of limitations and settlement of ongoing audits. No release of our deferred tax asset valuation allowance was made during the quarter ended June 30, 2011.

NOTE 10. COMMITMENTS AND CONTINGENCIES***Litigation***

Various suits and claims arising in the ordinary course of business are pending against us. Due in part to the locations where we conduct business in the continental United States, we may be subject to jury verdicts or arbitrations that result in outcomes in favor of the plaintiffs. We are also exposed to various claims abroad. We continually assess our contingent liabilities, including potential litigation liabilities, as well as the adequacy of our accruals and our need for the disclosure of these items. We establish a provision for a contingent liability when it is probable that a liability has been incurred and the amount is reasonably estimable. As of June 30, 2011, the aggregate amount of our liabilities related to litigation that are deemed probable and reasonably estimable is \$6.2 million. We do not believe that the disposition of any of these matters will result in an additional loss materially in excess of amounts that have been recorded. During the second quarter of 2011, we recorded a net increase in our liability of \$3.6 million related to new claims and the revision of our exposures for ongoing legal matters.

In June 2011, we agreed to accept \$5.5 million in damages, related to the settlement of a KeyView® patent infringement lawsuit, which was paid in full in July 2011. We recognized related legal fees and other expenses of \$1.3 million and \$1.4 million during the three- and six-month periods ended June 30, 2011, respectively. The settlement amount has been recorded in general and administrative expenses on the condensed consolidated statement of operations.

Self-Insurance Reserves

We maintain reserves for workers' compensation and vehicle liability on our balance sheet based on our judgment and estimates using an actuarial method based on claims incurred. We estimate general liability claims on a case-by-case basis. We maintain insurance policies for workers' compensation, vehicle liability and general liability claims. These insurance policies carry self-insured retention limits or deductibles on a per occurrence basis. The retention limits or deductibles are accounted for in our accrual process for all workers' compensation, vehicular liability and general liability claims. As of June 30, 2011 and December 31, 2010, we have recorded \$62.2 million and \$60.3 million, respectively, of self-insurance reserves related to workers' compensation, vehicular liabilities and general liability claims. Partially offsetting these liabilities, we had \$16.7 million and \$15.4 million of insurance receivables as of June 30, 2011 and December 31, 2010, respectively. These insurance receivables are recorded as other assets as of June 30, 2011. We believe that the liabilities we have recorded are appropriate based on the known facts and circumstances and do not expect further losses materially in excess of the amounts already accrued for existing claims.

Table of Contents**Environmental Remediation Liabilities**

For environmental reserve matters, including remediation efforts for current locations and those relating to previously disposed properties, we record liabilities when our remediation efforts are probable and the costs to conduct such remediation efforts can be reasonably estimated. While our litigation reserves reflect the application of our insurance coverage, our environmental reserves do not reflect management's assessment of the insurance coverage that may apply to the matters at issue. As of June 30, 2011 and December 31, 2010, we have recorded \$5.7 million and \$4.0 million, respectively, for our environmental remediation liabilities. We believe that the liabilities we have recorded are appropriate based on the known facts and circumstances and do not expect further losses materially in excess of the amounts already accrued.

NOTE 11. EARNINGS PER SHARE

Basic earnings per common share is determined by dividing net earnings attributable to Key by the weighted average number of common shares actually outstanding during the period. Diluted earnings per common share is based on the increased number of shares that would be outstanding assuming conversion of potentially dilutive outstanding securities using the treasury stock and "as if converted" methods.

The components of our earnings per share are as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
(in thousands, except per share amounts)				
Basic EPS Calculation:				
<i>Numerator</i>				
Income (loss) from continuing operations attributable to Key	\$ 36,080	\$ (10,418)	\$ 17,945	\$ (19,893)
Income from discontinued operations, net of tax		8,182		10,077
Income (loss) attributable to Key	\$ 36,080	\$ (2,236)	\$ 17,945	\$ (9,816)
<i>Denominator</i>				
Weighted average shares outstanding	142,833	125,412	142,521	125,183
Basic earnings (loss) per share from continuing operations attributable to Key	\$ 0.25	\$ (0.08)	\$ 0.13	\$ (0.16)
Basic earnings per share from discontinued operations		0.06		0.08
Basic earnings (loss) per share attributable to Key	\$ 0.25	\$ (0.02)	\$ 0.13	\$ (0.08)
Diluted EPS Calculation:				
<i>Numerator</i>				
Income (loss) from continuing operations attributable to Key	\$ 36,080	\$ (10,418)	\$ 17,945	\$ (19,893)
Income from discontinued operations, net of tax		8,182		10,077
Income (loss) attributable to Key	\$ 36,080	\$ (2,236)	\$ 17,945	\$ (9,816)
<i>Denominator</i>				
Weighted average shares outstanding	142,833	125,412	142,521	125,183
Stock options	404		346	
Warrants			40	
Stock appreciation rights	83		69	
Total	143,320	125,412	142,976	125,183
Diluted earnings (loss) per share from continuing operations attributable to Key	\$ 0.25	\$ (0.08)	\$ 0.13	\$ (0.16)
Diluted earnings per share from discontinued operations		0.06		0.08
Diluted earnings (loss) per share attributable to Key	\$ 0.25	\$ (0.02)	\$ 0.13	\$ (0.08)

Edgar Filing: KEY ENERGY SERVICES INC - Form 10-Q

The diluted earnings per share calculation for the three and six months ended June 30, 2011 exclude the potential exercise of less than 0.1 million and 0.1 million stock options, respectively. These options were considered anti-dilutive because the exercise prices exceeded the average price of our stock during those periods. None of our stock appreciation rights (SARS) were anti-dilutive for the three and six months ended June 30, 2011. Because of our loss from continuing operations for the three and six months ended June 30, 2010, 3.3 million stock options and 0.4 million SARS were excluded from the calculation of our diluted earnings per share, as the potential exercise of those securities would be anti-dilutive in those periods. See *Note 19. Subsequent Events* for events occurring after June 30, 2011 that would materially affect the number of weighted average shares outstanding.

Table of Contents

NOTE 12. SHARE-BASED COMPENSATION

We recognized employee share-based compensation expense of \$3.9 million and \$3.4 million during the three months ended June 30, 2011 and 2010, respectively, and the related income tax benefit recognized was \$1.4 million and \$1.2 million, respectively. We recognized employee share-based compensation expense of \$7.9 million and \$6.5 million during the six months ended June 30, 2011 and 2010, respectively, and the related income tax benefit recognized was \$2.8 million and \$2.6 million, respectively. We did not capitalize any share-based compensation during the three- or six-month periods ended June 30, 2011 and 2010.

The unrecognized compensation cost related to our unvested stock options, restricted shares and phantom shares as of June 30, 2011 is estimated to be less than \$0.1 million, \$19.4 million and \$0.3 million, respectively and is expected to be recognized over a weighted-average period of 1.0 years, 1.3 years and 0.8 years, respectively.

During March 2011, approximately 0.2 million performance units subject to the performance period of March 2010 to March 2011 expired unvested. As of June 30, 2011, the fair value of the remaining performance units was \$1.9 million, and is being accreted to compensation expense over the vesting terms of the awards. As of June 30, 2011, the unrecognized compensation cost related to our unvested performance units is estimated to be \$0.6 million and is expected to be recognized over a weighted-average period of 0.7 years.

During May 2011, we issued 99,999 shares of common stock to our outside directors. These shares vested immediately and we recognized \$1.6 million of expense related to these awards.

NOTE 13. TRANSACTIONS WITH RELATED PARTIES

Employee Loans and Advances

From time to time, we have made certain retention loans and relocation loans to employees other than executive officers. The retention loans are forgiven over various time periods, so long as the employees continue their employment with us. The relocation loans are repaid upon the employees selling their prior residence. As of June 30, 2011 and December 31, 2010, these loans, in the aggregate, totaled less than \$0.1 million, respectively.

Transactions with Affiliates

In October 2010, we acquired certain subsidiaries, together with associated assets, from OFS, an oilfield services company owned by ArcLight Capital Partners, LLC. At the time of the acquisition, OFS conducted business with companies owned by a former owner and employee of an OFS subsidiary that we purchased. Subsequent to the acquisition, we continued to provide services to these companies. The prices charged to these companies for our services are at rates that are equivalent to the prices charged to our other customers in the U.S. market. As of June 30, 2011 and December 31, 2010, our receivables from these related parties totaled \$0.6 million and \$1.0 million, respectively. Revenues from these customers for the three-month periods ended June 30, 2011 and 2010 totaled \$0.7 million and \$0.5 million, respectively, and \$2.1 million and \$0.7 million for the six-month periods ended June 30, 2011 and 2010, respectively.

We provide services to an exploration and production company owned by one of our employees who had been the owner of the business we acquired. The prices charged to this company for these services are at rates that are an average of the prices charged to our other customers in the California market where the services are provided. As of June 30, 2011 and December 31, 2010, our receivables from this company totaled \$0.5 million and \$0.2 million, respectively. Revenues from this company totaled \$1.0 million and \$1.7 million for the three-month periods ended June 30, 2011 and 2010, respectively, and \$1.6 million and \$2.3 million for the six-month periods ended June 30, 2011 and 2010, respectively.

Board of Director Relationships with Customers

A member of our board of directors is the Senior Vice President, General Counsel and Chief Administrative Officer of Anadarko Petroleum Corporation (Anadarko), which is one of our customers. Sales to Anadarko were approximately 2% of our total revenues for each of the three- and six-month periods ended June 30, 2011 and 2010. Receivables outstanding from Anadarko were approximately 2% of our total accounts receivable as of June 30, 2011 and December 31, 2010, respectively. Transactions with Anadarko for our services are made on terms consistent with other customers.

Table of Contents

A former member of our board of directors who resigned in May 2011 is a member and managing director of the general partner of the indirect, majority owner of Element Petroleum, LP (Element), which is one of our customers. Sales to Element were less than 1% of our total revenues for the three and six months ended June 30, 2011 and 2010. Receivables outstanding from Element were less than 1% of our total accounts receivable as of June 30, 2011 and December 31, 2010. Transactions with Element for our services are made on terms consistent with other customers.

NOTE 14. ESTIMATED FAIR VALUE OF FINANCIAL INSTRUMENTS

The following is a summary of the carrying amounts and estimated fair values of our financial instruments as of June 30, 2011 and December 31, 2010.

Cash, cash equivalents, accounts payable and accrued liabilities. These carrying amounts approximate fair value because of the short maturity of the instruments or because the carrying value is equal to the fair value of those instruments on the balance sheet date.

	June 30, 2011		December 31, 2010	
	Carrying Value	Fair Value	Carrying Value	Fair Value
(in thousands)				
Financial assets:				
Notes and accounts receivable related parties	\$ 1,136	\$ 1,136	\$ 1,198	\$ 1,198
Financial liabilities:				
6.75% Senior Notes	\$ 475,000	\$ 475,000	\$	\$
8.375% Senior Notes	3,573	3,743	425,000	450,500
Credit Facility revolving loans	90,000	90,000		

Notes and accounts receivable related parties. The amounts reported relate to notes receivable from certain of our employees related to relocation and retention agreements and certain trade accounts receivable with affiliates. The carrying values of these items approximate their fair values as of the applicable balance sheet dates.

6.75% Senior Notes due 2021. The fair value of our 2021 Notes is based upon the quoted market prices for those securities as of the dates indicated. The carrying and fair values of these notes as of June 30, 2011 was \$475.0 million.

8.375% Senior Notes due 2014. The fair value of our 2014 Notes is based upon the quoted market prices for those securities as of the dates indicated. The carrying value of these notes as of June 30, 2011 was \$3.6 million, and the fair value was \$3.7 million (104.77% of carrying value).

Credit Facility Revolving Loans. Because of their variable interest rates, the fair values of the revolving loans borrowed under our 2011 Credit Facility approximate their carrying values. The carrying and fair values of these loans as of June 30, 2011 were \$90.0 million.

NOTE 15. SEGMENT INFORMATION

We revised our reportable business segments as of the first quarter of 2011. The revised operating segments are U.S. and International. We also have a Functional Support segment associated with managing each of our reportable operating segments. Financial results as of and for the three and six months ended June 30, 2010 have been restated to reflect the change in operating segments. We revised our segments to reflect changes in management's resource allocation and performance assessment in making decisions regarding our business. Our domestic rig services, fluid management services, fishing and rental services, and intervention services are now aggregated within our U.S. reportable segment. Our international rig services business and our Canadian technology development group are now aggregated within our International reportable segment. These changes reflect our current operating focus in compliance with ASC 280. We aggregate services that create our reportable segments in accordance with ASC 280, and the accounting policies for our segments are the same as those described in *Note 1. Organization and Summary of Significant Accounting Policies* of the notes to our consolidated financial statements included in Item 8 of our 2010 Form 10-K. We evaluate the

Table of Contents

performance of our operating segments based on revenue and income measures. All inter-segment sales pricing is based on current market conditions. The following is a description of the segments:

U.S. Segment

Rig-Based Services

Our rig-based services include the completion of newly drilled wells, workover and recompletion of existing oil and natural gas wells, well maintenance, and plugging and abandonment of wells at the end of their useful lives. We also provide specialty drilling services to oil and natural gas producers with certain of our larger well servicing rigs that are capable of providing conventional and horizontal drilling services. Our rigs consist of various sizes and capabilities, allowing us to service all types of wells with depths up to 20,000 feet. Many of our rigs are outfitted with our proprietary KeyView® technology, which captures and reports well site operating data. We believe that this technology allows our customers and our crews to better monitor well site operations, improves efficiency and safety, and adds value to the services that we offer.

The completion and recompletion services provided by our rigs prepare a newly drilled well, or a well that was recently extended through a workover, for production. The completion process may involve selectively perforating the well casing to access production zones, stimulating and testing these zones, and installing tubular and downhole equipment. We typically provide a well service rig and may also provide other equipment to assist in the completion process. The completion process usually takes a few days to several weeks, depending on the nature of the completion.

The workover services that we provide are designed to enhance the production of existing wells and generally are more complex and time consuming than normal maintenance services. Workover services can include deepening or extending wellbores into new formations by drilling horizontal or lateral wellbores, sealing off depleted production zones and accessing previously bypassed production zones, converting former production wells into injection wells for enhanced recovery operations and conducting major subsurface repairs due to equipment failures. Workover services may last from a few days to several weeks, depending on the complexity of the workover.

The maintenance services that our rig fleet provides are generally required throughout the life cycle of an oil or natural gas well. Examples of the maintenance services that we provide as part of our rig-based services include routine mechanical repairs to the pumps, tubing and other equipment, removing debris and formation material from wellbores, and pulling the rods and other downhole equipment from wellbores to identify and resolve production problems. Maintenance services generally take less than 48 hours to complete.

Our rig fleet is also used in the process of permanently shutting-in oil or natural gas wells that are at the end of their productive lives. These plugging and abandonment services generally require auxiliary equipment in addition to a well servicing rig. The demand for plugging and abandonment services is not significantly impacted by the demand for oil and natural gas because well operators are required by state regulations to plug wells that are no longer productive.

Fluid Management Services

We provide fluid management services, including oilfield transportation and produced water disposal services, with our fleet of heavy and medium-duty trucks. The specific services offered include vacuum truck services, fluid transportation services and disposal services for operators whose wells produce saltwater or other non-hydrocarbon fluids. We also supply frac tanks used for temporary storage of fluids associated with fluid hauling operations. In addition, we provide equipment trucks that are used to move large pieces of equipment from one well site to the next, and we operate a fleet of hot oilers capable of pumping heated fluids used to clear soluble restrictions in a wellbore.

Fluid hauling trucks are utilized in connection with drilling and workover projects, which tend to use large amounts of various fluids. In connection with drilling, maintenance or workover activity at a well site, we transport fresh and brine water to the well site and provide temporary storage and disposal of produced saltwater and drilling or workover fluids. These fluids are removed from the well site and transported for disposal in a saltwater disposal well owned by us or a third party.

Table of Contents

Intervention Services

Our intervention services include our coiled tubing services business and our specialty pumping business. Coiled tubing services involve the use of a continuous metal pipe spooled on a large reel for oil and natural gas well applications, such as wellbore clean-outs, nitrogen jet lifts, and through-tubing fishing and formation stimulations utilizing acid, chemical treatments and fracturing. Coiled tubing is also used for a number of horizontal well applications such as milling temporary plugs between frac stages.

Fishing & Rental Services

We offer a full line of services and rental equipment designed for use in providing both onshore and offshore drilling and workover services. Fishing services involve recovering lost or stuck equipment in the wellbore utilizing a broad array of fishing tools. Our rental tool inventory consists of drill pipe, tubulars, handling tools (including our patented Hydra-Walk[®] pipe-handling units and services), pressure-control equipment, power swivels and foam air units.

International Segment

Our international operations include Mexico, Colombia, the Middle East, the Russian Federation and Argentina. Services in these locations include rig-based services such as the maintenance, workover, and recompletion of existing oil and natural gas wells, completion of newly-drilled wells, and plugging and abandonment of wells at the end of their useful lives. We also provide drilling services in the regions where we work and we provide engineering services for the development of reservoirs.

Our operations in Mexico consist mainly of drilling, workover, project management and consulting services. We generate significant revenue from our contract with the Mexican national oil company, Petróleos Mexicanos.

In Argentina and Colombia, our operations consist of drilling and workover services. Our operations in Colombia commenced in the third quarter of 2010.

In Russia, we provide drilling, workover, and reservoir engineering services. Our Russian operations are structured as a joint venture in which we have a controlling financial interest.

In the Middle East, we formed a joint venture in the first quarter of 2010 in which we have a controlling financial interest. We commenced operations in the Middle East in the fourth quarter of 2010. Our operations in the Middle East consist mainly of drilling and workover services.

Advanced Measurements, Inc. (AMI)

Also included in our International segment is AMI, our technology development and control systems business based in Canada. AMI is focused on oilfield service equipment controls, data acquisition and digital information flow.

Functional Support Segment

Our Functional Support segment manages our U.S. and International operating segments. Functional Support assets consist primarily of cash and cash equivalents, accounts and notes receivable and investments in subsidiaries, deferred financing costs, our equity-method investments and deferred income tax assets.

The following tables set forth our segment information as of and for the three- and six-month periods ended June 30, 2011 and 2010:

Table of Contents*As of and for the three months ended June 30, 2011*

	U.S.	International	Functional Support	Reconciling Eliminations	Total
Revenues from external customers	\$ 367,455	\$ 77,914	\$	\$	\$ 445,369

NOTE 16. CONDENSED CONSOLIDATING FINANCIAL STATEMENTS

During the first quarter of 2011, we issued the 2021 Notes, which are guaranteed by virtually all of our domestic subsidiaries, all of which are wholly-owned. These guarantees are joint and several, full, complete and unconditional. There are no restrictions on the ability of subsidiary guarantors to transfer funds to the parent company.

As a result of these guarantee arrangements, we are required to present the following condensed consolidating financial information pursuant to SEC Regulation S-X Rule 3-10, *Financial Statements of Guarantors and Issuers of Guaranteed Securities Registered or Being Registered*. The information presented below for the year ended December 31, 2010 reflects our previous guarantee arrangements under the 2014 Notes, which were issued in the fourth quarter of 2007 and of which an aggregate principal amount of \$3.6 million remains outstanding as of June 30, 2011.

NOTE 17. DISCONTINUED OPERATIONS

On October 1, 2010, we completed the sale of our pressure pumping and wireline businesses to Patterson-UTI Energy, Inc. Management determined to sell these businesses because they were not aligned with our core business strategy of well intervention and international expansion. For the periods presented in this report, we show the results of operations related to these businesses as discontinued operations. The following table presents the results of discontinued operations for the businesses sold in connection with this transaction:

NOTE 18. VARIABLE INTEREST ENTITIES

On March 7, 2010, we entered into an agreement with AlMansoori Petroleum Services LLC to form the joint venture AlMansoori Key Energy Services LLC. We hold three of the five board of directors seats and a controlling financial interest in the joint venture; accordingly, we consolidate the entity in our financial statements.

For the three and six months ended June 30, 2011, we recognized \$2.5 million and \$4.2 million of revenue, respectively, and \$0.3 million and \$0.6 million of net income, respectively, associated with this joint venture. For the three and six months ended June 30, 2010, we recognized no revenue or net income associated with this joint venture. Also, we have guaranteed the timely performance of the joint venture under its sole contract valued at \$2 million. At June 30, 2011, there were approximately \$5.7 million of assets in the joint venture.

NOTE 19. SUBSEQUENT EVENTS

Proposed Acquisition

On July 13, 2011, we entered into an agreement and plan of merger with Edge Oilfield Services, L.L.C. and Summit Oilfield Services, L.L.C. (collectively, Edge). Edge primarily rents frac stack equipment used to support hydraulic fracturing operations and the associated flow back of frac fluids, proppants, oil and natural gas. It also provides well testing services, rental equipment such as pumps and power swivels, and oilfield fishing services. The total consideration for the acquisition is approximately \$300 million consisting of approximately 7.5 million shares of our common stock and approximately \$164 million in cash, which is subject to working capital and other adjustments at closing. In addition to the \$300 million of consideration, we have also agreed to reimburse or fund up to \$40 million of Edge s pre-closing capital expenditures. The acquisition is subject to satisfaction of certain regulatory approvals and other customary closing conditions. We received notification that the waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976 terminated effective July 29, 2011. We expect the closing of the transaction to take place in the third quarter of 2011. We intend to account for this acquisition as a business combination. We plan to fund this acquisition with funds available under the amended 2011 Credit Facility and the issuance of equity.

Amendment of Credit Facility

On July 27, 2011, we entered into the First Amendment to the 2011 Credit Facility (the Amendment) with several lenders and JPMorgan Chase Bank, N.A., as Administrative Agent, Bank of America, N.A., as Syndication Agent, and Capital One, N.A., Wells Fargo Bank, N.A., Credit Agricole Corporate and Investment Bank and DnB NOR Bank ASA, as Co-Documentation Agents. The Amendment, which is effective as of July 27, 2011, amends certain provisions of our 2011 Credit Facility, dated as of March 31, 2011, which provides for a senior secured credit facility consisting of a revolving credit facility, letter of credit sub-facility and swing line facility of up to an aggregate principal amount of \$400.0 million, all of which will mature no later than March 31, 2016. The 2011 Credit Facility and the obligations thereunder are secured by substantially all of our assets and those of our subsidiary guarantors, and are guaranteed by certain of our existing and future domestic subsidiaries. Among other changes, the Amendment increased the total commitments by the lenders under the credit facility from \$400.0 million to \$550.0 million, effected by an increase in the commitments of certain existing lenders under the facility and the addition of certain new lenders. The Amendment also modifies the 2011 Credit Facility by, among other things: increasing, from \$500.0 million to \$650.0 million, the maximum aggregate amount of commitments permitted under the 2011 Credit Facility pursuant to our option to increase commitments by the lenders; and amending the requirement that we maintain a debt to capitalization ratio of consolidated total funded indebtedness to total capitalization of 45% or less by changing the maximum required ratio to 50% through March 31, 2012.

In connection with the execution of the Amendment to the 2011 Credit Facility, we anticipate capitalizing \$1.5 million of financing costs that will be amortized over the term of the debt.

Table of Contents**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
OVERVIEW**

Key Energy Services, Inc., its wholly owned subsidiaries and its controlled subsidiaries (collectively, Key, the Company, we, us, its, and o provide a full range of well services to major oil companies, foreign national oil companies and independent oil and natural gas production companies. Our services include rig-based and coiled tubing-based well maintenance and workover services, well completion and recompletion services, fluid management services, fishing and rental services, and other ancillary oilfield services. Additionally, certain of our rigs are capable of specialty drilling applications. We operate in most major oil and natural gas producing regions of the continental United States and have operations based in Mexico, Colombia, the Middle East, Russia and Argentina. In addition, we have a technology development and control systems business based in Canada.

The following discussion and analysis should be read in conjunction with the accompanying unaudited condensed consolidated financial statements and related notes as of and for the three and six months ended June 30, 2011 and 2010, included elsewhere herein, and the audited consolidated financial statements and notes thereto included in our 2010 Form 10-K.

We operate in two business segments; U.S. and International. We also have a Functional Support segment associated with managing our U.S. and International operating segments. See *Note 15. Segment Information* in *Item 1. Financial Statements* of Part I of this report for a summary of our business segments.

PERFORMANCE MEASURES

We believe that the Baker Hughes U.S. land drilling rig count is the best barometer of overall oilfield capital spending and activity levels in our primary U.S. onshore market, and this data is made publicly available on a weekly basis. Historically, our activity levels have been highly correlated to capital spending by oil and natural gas producers. Generally, when oil and natural gas prices rise, capital spending by our customers tends to increase. Conversely, if oil and natural gas prices fall, capital spending by our customers tends to decrease, and the Baker Hughes U.S. land drilling rig count tends to decline.

	WTI Cushing Oil	NYMEX Henry Hub Natural Gas	Average Baker Hughes U.S. Land Drilling Rigs
	(1)	(1)	(2)
2011:			
First Quarter	\$ 94.07	\$ 4.20	1,695
Second Quarter	\$ 102.02	\$ 4.38	1,803
2010:			
First Quarter	\$ 74.78	\$ 5.14	1,354
Second Quarter	\$ 74.79	\$ 4.30	1,513
Third Quarter	\$ 72.46	\$ 4.30	1,626
Fourth Quarter	\$ 85.16	\$ 3.98	1,688

(1) Represents the average of the monthly average prices for each of the periods presented. Source: EIA and Bloomberg

(2) Source: www.bakerhughes.com

Internally, we measure activity levels in our U.S. and International segments primarily through our rig and trucking hours. Generally, as capital spending by oil and natural gas producers increases, demand for our services also rises, resulting in increased rig and trucking services and more hours worked. Conversely, when activity levels decline due to lower spending by oil and natural gas producers, we generally provide fewer rig and trucking services, which results in lower hours worked.

Table of Contents

The following table presents our quarterly rig and trucking hours from 2010 through the second quarter of 2011:

	Rig Hours	Trucking Hours
2011:		
First Quarter	525,460	711,701
Second Quarter	544,917	776,382
2010:		
First Quarter	485,183	459,292
Second Quarter	489,168	518,483
Third Quarter	503,890	559,181
Fourth Quarter	493,945	707,616
Total 2010	1,972,186	2,244,572

MARKET CONDITIONS AND OUTLOOK**Market Conditions** *Quarter Ended June 30, 2011*

Market conditions during the second quarter of 2011 continued to improve, especially in the oil markets we serve. Many of our major customers increased oil-directed activity during the quarter.

Demand for our services in the U.S. was strong in all our oil-driven markets. We saw improvement in pricing compared to previous quarters due largely to price increases implemented late in the first quarter of 2011. Overall, results for the majority of our U.S. operations improved due to increased demand, pricing and favorable work mix. We continue to deploy assets across all our domestic lines of business to more profitable regions to help offset our rising costs.

Our international segment continued to have profitable results in the second quarter of 2011. Our assets in Mexico were fully utilized and we saw significant improvements over the first quarter. These improvements were partially offset by negative results in Argentina as a result of general work strikes throughout the quarter. In Colombia, we placed additional rigs into service during the quarter, which improved our results in this region.

Market Outlook

We believe that we will continue to see growth in our U.S. and international markets during the remainder of 2011 due to increased activity and pricing relative to 2010. Driven by higher oil prices, we anticipate that our core businesses will continue to show improvement, as our customers increase capital expenditures in an effort to grow production.

In the U.S., with the largest fleet of onshore well servicing rigs, we believe we are well positioned to benefit from increasing demand for conventional well maintenance and repair. Given our recent and ongoing investments in larger, higher capability rigs and coiled tubing units, as well as fluid transportation, frac tanks, and fishing and rental equipment, we believe we are well positioned to benefit from increased horizontal well drilling activity, which is driving a higher level of revenue and margin intensity per well.

We also believe that our international operations will play an increasing role in the growth of our business. We intend to deploy additional assets internationally during 2011. We expect our activity in the Middle East and Russia to grow in 2011, and combined with full utilization of assets in Mexico and Colombia, this should result in positive contributions to our revenues and earnings for the remainder of 2011.

We also continue to explore opportunities for expanding our service footprint into new markets or new lines of business as those opportunities present themselves.

Table of Contents**RESULTS OF OPERATIONS**

The following table shows our consolidated results of operations for the three and six months ended June 30, 2011 and 2010, respectively (in thousands):

Consolidated Results of Operations Three Months Ended June 30, 2011 and 2010*Revenues*

Our revenues for the three months ended June 30, 2011 increased \$177.6 million, or 66.3%, to \$445.4 million from \$267.8 million for the three months ended June 30, 2010 mostly due to increased demand for our services from improved market and overall economic conditions as well as both domestic and international expansion. See *Segment Operating Results Three Months Ended June 30, 2011 and 2010* below for a more detailed discussion of the change in our revenues.

Direct Operating Expenses

Our direct operating expenses increased \$94.4 million, to \$290.6 million (65.3% of revenues), for the three months ended June 30, 2011, compared to \$196.2 million (73.3% of revenues) for the three months ended June 30, 2010. The increase was a direct result of activity increases in our business and inflation. Fuel and salary expenses have increased compared to the second quarter of the prior year due to rising prices. We have also reinstated employee benefits that were suspended since 2009.

Depreciation and Amortization Expense

Depreciation and amortization expense increased \$7.4 million, or 22.7%, to \$39.9 million during the second quarter of 2011, compared to \$32.5 million for the second quarter of 2010. The increase is primarily attributable to the increase in our fixed asset base through our acquisitions during 2010, as well as increased capital expenditures in 2010 and the first six months of 2011.

Edgar Filing: KEY ENERGY SERVICES INC - Form 10-Q

General and Administrative Expenses

General and administrative expenses increased \$10.1 million, to \$55.0 million (12.3% of revenues), for the three months ended June 30, 2011, compared to \$44.9 million (16.8% of revenues) for the three months ended June 30, 2010. The second quarter increase was primarily due to the rescission of temporary employee compensation and benefit reductions as well as increased headcount due to our growth.

Table of Contents*Interest Expense, net of Amounts Capitalized*

Interest expense decreased \$0.7 million, or 6.4%, to \$10.0 million for the three months ended June 30, 2011, compared to \$10.7 million for the same period in 2010. We repurchased 99.2%, or \$421.4 million, in aggregate principal amount of our 8.375% Notes due 2014 during the first quarter pursuant to a tender offer for the notes and simultaneously issued \$475.0 million aggregate principal amount of 6.75% Notes due 2021, therefore decreasing interest expense due to the lower interest rate.

Other, net

The following table summarizes the components of other, net for the periods indicated:

	Three Months Ended June 30,	
	2011	2010
	(in thousands)	
Loss on disposal of assets, net	\$ 162	\$ 320
Interest income	(2)	(21)
Foreign exchange (gain) loss	(2,717)	855
Gain on sale of equity method investment	(4,783)	
Other expense (income), net	21	(687)
 Total	 \$ (7,319)	 \$ 467

In April 2011 we sold our shares in IROC Energy Services Corp. (IROC) and recorded a gain on the sale of \$4.8 million during the second quarter. Our foreign exchange gain relates to an increase in U.S. dollar-denominated transactions in our foreign locations and the strengthening of the U.S. dollar.

Income Tax (Expense) Benefit

We recorded income tax expense of \$20.8 million on pre-tax income of \$57.2 million in the second quarter of 2011, compared to an income tax benefit of \$5.9 million on a pre-tax loss of \$16.9 million in the second quarter of 2010. Our effective tax rate was 36.4% for the three months ended June 30, 2011, compared to 34.8% for the three months ended June 30, 2010. Our effective tax rates for the periods differ from the U.S. statutory rate of 35% due to a number of factors, including the mix of profit and loss between various taxing jurisdictions and the impact of permanent items that affect book income but do not affect taxable income.

Discontinued Operations

We recorded no amounts from discontinued operations for the three months ended June 30, 2011, compared to net income from discontinued operations of \$8.2 million for the three months ended June 30, 2010. Our discontinued operations in 2010 relate to the sale of our pressure pumping and wireline businesses during the fourth quarter of 2010.

Noncontrolling Interest

For the three months ended June 30, 2011, we allocated \$0.3 million associated with the income incurred by our joint ventures to the noncontrolling interest holders of these ventures compared to a net loss of \$0.6 million for the three months ended June 30, 2010.

Segment Operating Results Three Months Ended June 30, 2011 and 2010

Table of Contents

The following table shows operating results for each of our segments for the three-month periods ended June 30, 2011 and 2010 (in thousands):

For the three months ended June 30, 2011

	U.S.	International	Functional Support	Total
Revenues from external customers	\$ 367,455	\$ 77,914	\$	\$ 445,369
Operating expenses	281,253	71,537	32,685	385,475
Operating income (loss)	86,202	6,377	(32,685)	59,894

For the three months ended June 30, 2010

	U.S.	International	Functional Support	Total
Revenues from external customers	\$ 224,221	\$ 43,564	\$	\$ 267,785
Operating expenses	189,505	55,419	28,591	273,515
Operating income (loss)	34,716	(11,855)	(28,591)	(5,730)

U.S.

Revenues from external customers for our U.S. segment increased \$143.2 million, or 63.9%, to \$367.5 million for the three months ended June 30, 2011, compared to \$224.2 million for the three months ended June 30, 2010. The increase for this segment was due to an increase in activity for our rig-based services and fluid management services along with improved pricing during the period, as well as a shift in our work mix to higher intensity horizontal well completion. Activity also increased in our intervention services business due to the acquisition of additional coiled tubing units during 2010. Demand for fishing and rental services also increased compared to the prior year, and pricing for these services improved as drilling and completion activity has increased.

Operating expenses for our U.S. segment were \$281.3 million during the three months ended June 30, 2011, which represented an increase of \$91.7 million, or 48.4%, compared to \$189.5 million for the same period in 2010. The increase was directly attributable to increased activity during the period combined with the impact of inflationary pressure on fuel and wage expenses and the impact of the rescission in late 2010 of temporary cost reduction measures implemented in 2009.

International

Revenues for our international segment increased \$34.4 million, or 78.8%, to \$77.9 million for the three months ended June 30, 2011, compared to \$43.6 million for the three months ended June 30, 2010. The increase for this segment is primarily attributable to our international expansion during 2010 to Colombia and the Middle East, in addition to increased activity in Mexico and Russia.

Operating expenses for our international segment increased \$16.1 million, or 29.1%, to \$71.5 million for the three months ended June 30, 2011, compared to \$55.4 million for the three months ended June 30, 2010, and increased as a direct result of additional activity during the period.

Functional Support

Operating expenses for Functional Support, which represent expenses associated with managing our U.S. and International operating segments, increased \$4.1 million, or 14.3%, to \$32.7 million (7.3% of consolidated revenues) for the three months ended June 30, 2011 compared to \$28.6 million (10.7% of consolidated revenues) for the same period in 2010. The increase in costs relates to the reinstatement in late 2010 of certain employee compensation and benefits that had been suspended in 2009 as part of our cost savings effort.

Table of Contents

Consolidated Results of Operations Six Months Ended June 30, 2011 and 2010

Revenues

Our revenues for the six months ended June 30, 2011 increased \$316.6 million, or 60.9%, to \$836.4 million from \$519.7 million for the six months ended June 30, 2010. See *Segment Operating Results Six Months Ended June 30, 2011 and 2010* below for a more detailed discussion of the change in our revenues.

Direct Operating Expenses

Our direct operating expenses increased \$177.0 million, to \$562.4 million (67.2% of revenues), for the six months ended June 30, 2011, compared to \$385.4 million (74.1% of revenues) for the six months ended June 30, 2010. The increase was a direct result of activity increases in our business and inflation. Fuel and salary expenses have increased compared to the first six months of the prior year due to rising prices. We have also reinstated employee compensation and benefits that were suspended since 2009.

Depreciation and Amortization Expense

Depreciation and amortization expense increased \$14.0 million, or 21.2%, to \$79.8 million for the six months ended June 30, 2011, compared to \$65.8 million for the six months ended June 30, 2010. The increase is primarily attributable to the increase in our fixed asset base through our acquisitions during 2010, as well as increased capital expenditures in 2010 and 2011.

General and Administrative Expenses

General and administrative expenses increased \$23.9 million, to \$107.8 million (12.9% of revenues), for the six months ended June 30, 2011, compared to \$83.9 million (16.1% of revenues) for the six months ended June 30, 2010. The increase for the first six months of 2011 was primarily due to an increase in employee compensation resulting from the rescission of temporary employee compensation and benefit reductions as well as increased headcount due to our growth. We also incurred additional professional fees related to acquisition activity.

Interest Expense, net of Amounts Capitalized

Interest expense decreased \$0.6 million, to \$20.4 million for the six months ended June 30, 2011, compared to \$21.0 million for the same period in 2010. The decrease relates to the first quarter repurchase of the majority of our 8.375% Notes due 2014 as well as lower interest rates on the 6.75% Notes due 2021.

Loss on Extinguishment of Debt

Loss on extinguishment of debt was \$46.5 million for the six months ended June 30, 2011, compared to zero for the same period in 2010, due to our tender offer for the 2014 Notes and the termination of the 2007 Credit Facility during the first quarter of 2011. The loss consisted of the tender premium on the 2014 Notes, as well as transaction fees and the write-off of the unamortized portion of deferred financing costs.

Other, net

The following table summarizes the components of other, net for the periods indicated:

Table of Contents

	Six Months Ended June 30,	
	2011	2010
	(in thousands)	
(Gain) loss on disposal of assets, net	\$ (507)	\$ 655
Interest income	(22)	(36)
Foreign exchange gain	(4,185)	(509)
Gain on sale of equity method investment	(4,783)	
Other income, net	(207)	(886)
 Total	 \$ (9,704)	 \$ (776)

In April 2011 we sold our shares in IROC Energy Services Corp. (IROC) and recorded a gain on the sale of \$4.8 million during the second quarter. Our foreign exchange gain relates to an increase in U.S. dollar-denominated transactions in our foreign locations and the strengthening of the U.S. dollar.

Income Tax (Expense) Benefit

We recorded income tax expense of \$11.6 million on pre-tax income of \$29.3 million for the six months ended June 30, 2011, compared to an income tax benefit of \$13.6 million on a pre-tax loss of \$35.6 million for the six months ended June 30, 2010. Our effective tax rate was 39.7% for the six months ended June 30, 2011, compared to 38.3% for the six months ended June 30, 2010. Our effective tax rates for the periods differ from the U.S. statutory rate of 35% due to numerous factors, including the mix of profit and loss between various taxing jurisdictions, specifically the charge recorded in the U.S. on the early extinguishment of debt, and the impact of permanent items that affect book income but do not affect taxable income.

Discontinued Operations

We recorded no amounts from discontinued operations for the six months ended June 30, 2011, compared to net income from discontinued operations of \$10.1 million for the six months ended June 30, 2010. Our discontinued operations in 2010 relate to the sale of our pressure pumping and wireline businesses during the fourth quarter of 2010.

Noncontrolling Interest

For the six months ended June 30, 2011, we allocated \$0.3 million associated with the net loss incurred by our joint ventures to the noncontrolling interest holders of these ventures compared to \$2.0 million for the six months ended June 30, 2010.

Segment Operating Results Six Months Ended June 30, 2011 and 2010

The following table shows operating results for each of our segments for the six-month periods ended June 30, 2011 and 2010 (in thousands):

For the six months ended June 30, 2011

	U.S.	International	Functional Support	Total
Revenues from external customers	\$ 697,359	\$ 138,994	\$	\$ 836,353
Operating expenses	552,510	131,049	66,418	749,977
Operating income (loss)	144,849	7,945	(66,418)	86,376

Table of Contents*For the six months ended June 30, 2010*

	U.S.	International	Functional Support	Total
Revenues from external customers	\$ 420,529	\$ 99,215	\$	\$ 519,744
Operating expenses	372,439	109,937	52,692	535,068
Operating income (loss)	48,090	(10,722)	(52,692)	(15,324)

U.S.

Revenues from external customers for our U.S. segment increased \$276.8 million, or 65.8%, to \$697.4 million for the six months ended June 30, 2011, compared to \$420.5 million for the six months ended June 30, 2010. The increase for this segment was due to an increase in activity for our services along with improved pricing. During the first quarter of 2011, we implemented price increases for all of our lines of business.

Operating expenses for our U.S. segment were \$552.5 million during the six months ended June 30, 2011, which represented an increase of \$180.1 million, or 48.3%, compared to \$372.4 million for the same period in 2010. The increase was directly attributable to increased activity during the period combined with the impact of inflationary pressure on fuel and wage expenses and the impact of the rescission in late 2010 of temporary cost reduction measures implemented in 2009.

International

Revenues for our international segment increased \$39.8 million, or 40.1%, to \$139.0 million for the six months ended June 30, 2011, compared to \$99.2 million for the six months ended June 30, 2010. The increase for this segment is primarily attributable to our international expansion during 2010 to Colombia and the Middle East, in addition to increased activity in Mexico and Russia.

Operating expenses for our international segment increased \$21.1 million, or 19.2%, to \$131.0 million for the six months ended June 30, 2011, compared to \$109.9 million for the six months ended June 30, 2010, and increased as a direct result of additional activity during the period.

Functional Support

Operating expenses for Functional Support increased \$13.7 million, or 26.0%, to \$66.4 million (7.9% of consolidated revenues) for the six months ended June 30, 2011 compared to \$52.7 million (10.1% of consolidated revenues) for the same period in 2010. The increase in costs relates to the reinstatement in late 2010 of certain employee compensation and benefits that had been suspended in 2009 as part of our cost savings effort.

LIQUIDITY AND CAPITAL RESOURCES*Current Financial Condition and Liquidity*

As of June 30, 2011, we had cash and cash equivalents of \$14.6 million. Our working capital (excluding the current portion of capital leases and long-term debt) was \$223.9 million, compared to \$136.4 million as of December 31, 2010. Our working capital increased from the prior year end primarily as a result of the payment of income taxes in March 2011 through borrowings on our long-term revolving credit facility and an increase in accounts receivable due to activity increases associated with improving market conditions during the six months ended June 30, 2011. Our total outstanding debt (including capital leases) was \$572.6 million, and we have no significant debt maturities until 2016. As of June 30, 2011, we have \$90.0 million in borrowings and \$59.5 million in

Table of Contents

committed letters of credit outstanding under our 2011 Credit Facility (defined below), leaving \$250.5 million of available borrowing capacity. We amended the 2011 Credit Facility effective July 27, 2011 which increased our available borrowing capacity by \$150 million (as discussed further below under Senior Secured Credit Facility).

Cash Flows

The following table summarizes our cash flows for the six-month periods ended June 30, 2011 and 2010:

	Six Months Ended June 30,	
	2011	2010
	(in thousands)	
Net cash provided by operating activities	\$ 29,861	\$ 64,695
Cash paid for capital expenditures	(178,077)	(67,923)
Proceeds received from sale of fixed assets	6,769	20,073
Proceeds from sale of equity method investment	11,965	
Other investing activities, net		165
Repayments of capital lease obligations	(2,132)	(3,992)
Repayments of long-term debt	(460,509)	(6,970)
Proceeds from long-term debt	475,000	
Proceeds from borrowings on revolving credit facility	143,000	30,000
Repayments on revolving credit facility	(53,000)	(30,000)
Repurchases of common stock	(5,399)	(2,357)
Other financing activities, net	(5,079)	4,255
Effect of exchange rates on cash	(4,386)	1,700
Net (decrease) increase in cash and cash equivalents	\$ (41,987)	\$ 9,646

Cash provided by operating activities was \$29.9 million and \$64.7 million for the six months ended June 30, 2011 and 2010, respectively. Operating cash inflows for 2011 relate to net income for the period, partially offset by the payment of our income tax obligations from 2010 and an increase in accounts receivable associated with increased activity.

Cash used in investing activities was \$159.3 million and \$47.7 million for the six months ended June 30, 2011 and 2010, respectively. Investing cash outflows during these periods consisted primarily of capital expenditures. Our capital expenditures through June 30, 2011 relate to the increased demand for our services and associated growth initiatives.

Cash provided by financing activities was \$91.9 million during the six months ended June 30, 2011 compared to cash used in financing activities of \$9.1 million for the six months ended June 30, 2010. Overall financing cash inflows for 2011 relate to borrowings on our revolving credit facility to fund a portion of our capital expenditure program and an income tax payment made in March 2011.

Sources of Liquidity and Capital Resources

Our sources of liquidity include our current cash and cash equivalents, availability under our 2011 Credit Facility, and internally generated cash flows from operations.

Debt Service

We do not have any significant maturities of debt in 2011. Interest on our revolving credit facility is due each quarter. Interest on our 2021 Notes (as defined below) is estimated to be \$16.4 million for the remainder of 2011. We expect to fund interest payments from cash generated by operations. At June 30, 2011, our annual debt maturities for our 2014 Notes and 2021 Notes and borrowings under our 2011 Credit Facility were as follows:

Table of Contents

	Principal Payments (in thousands)
2011	\$
2012	
2013	
2014	3,573
2015 and thereafter	565,000

Total principal payments \$ 568,573

At June 30, 2011, we were in compliance with all the covenants required under the 2011 Credit Facility and the indentures governing the 2014 Notes and 2021 Notes.

8.375% Senior Notes due 2014

On November 29, 2007, we issued \$425.0 million aggregate principal amount of 8.375% Senior Notes due 2014 (the "2014 Notes"). On March 4, 2011, we repurchased \$421.3 million aggregate principal amount of our 2014 Notes at a purchase price of \$1,090 per \$1,000 principal amount. On March 15, 2011, we repurchased an additional \$0.1 million aggregate principal amount at a purchase price of \$1,060 per \$1,000 principal amount. In connection with the repurchase of the 2014 Notes, we incurred a loss of \$44.3 million on the early extinguishment of debt related to the premium paid on the tender, the payment of related fees and the write-off of unamortized loan fees. Interest on the remaining \$3.6 million aggregate principal amount of 2014 Notes outstanding is payable on June 1 and December 1 of each year. The 2014 Notes mature on December 1, 2014.

6.75% Senior Notes due 2021

On March 4, 2011, we issued \$475.0 million aggregate principal amount of 6.75% Senior Notes due 2021 (the "2021 Notes"). Net proceeds, after deducting underwriters' fees and offering expenses, were \$466.0 million. We used the net proceeds to repurchase the 2014 Notes as described above, including accrued and unpaid interest and fees and expenses. We capitalized \$10.0 million of financing costs associated with the issuance of this debt that will be amortized over the term of the notes.

The 2021 Notes are general unsecured senior obligations and are subordinate to all of our existing and future secured indebtedness. The 2021 Notes are or will be jointly and severally guaranteed on a senior unsecured basis by certain of our existing and future domestic subsidiaries. Interest on the 2021 Notes is payable on March 1 and September 1 of each year, beginning on September 1, 2011. The 2021 Notes mature on March 1, 2021.

On or after March 1, 2016, the 2021 Notes will be subject to redemption at any time and from time to time at our option, in whole or in part, at the redemption prices below (expressed as percentages of the principal amount redeemed), plus accrued and unpaid interest to the applicable redemption date, if redeemed during the twelve-month period beginning on March 1 of the years indicated below:

Year	Percentage
2016	103.375%
2017	102.250%
2018	101.125%
2019 and thereafter	100.000%

At any time and from time to time before March 1, 2014, we may on any one or more occasions redeem up to 35% of the aggregate principal amount of the outstanding 2021 Notes at a redemption price of 106.750% of the principal amount, plus accrued and unpaid interest to the redemption date, with the net cash proceeds from any one or more equity offerings provided that (i) at least 65% of the aggregate principal amount of the 2021 Notes remains outstanding immediately after each such redemption and (ii) each such redemption shall occur within 180 days of the date of the closing of such equity offering.

In addition, at any time and from time to time prior to March 1, 2016, we may, at our option, redeem all or a portion of the 2021 Notes at a redemption price equal to 100% of the principal amount plus a premium with respect to the 2021 Notes plus accrued and unpaid interest to the redemption date. If we experience a change of control, subject to certain exceptions, we must give holders of the

Table of Contents

2021 Notes the opportunity to sell to us their 2021 Notes, in whole or in part, at a purchase price equal to 101% of the aggregate principal amount, plus accrued and unpaid interest to the date of purchase.

We are subject to certain negative covenants under the indenture governing the 2021 Notes (the Indenture). The Indenture limits our ability to, among other things:

incur additional indebtedness and issue preferred equity interests;

pay dividends or make other distributions or repurchase or redeem equity interests;

make loans and investments;

enter into sale and leaseback transactions;

sell, transfer or otherwise convey assets;

create liens;

enter into transactions with affiliates;

enter into agreements restricting subsidiaries ability to pay dividends;

designate future subsidiaries as unrestricted subsidiaries; and

consolidate, merge or sell all or substantially all of the applicable entities assets.

These covenants are subject to certain exceptions and qualifications and contain cross-default provisions relating to the covenants of our 2011 Credit Facility, discussed below. Substantially all of the covenants will terminate before the 2021 Notes mature if one of two specified ratings agencies assigns the 2021 Notes an investment grade rating in the future and no events of default exist under the Indenture. As of June 30, 2011, the 2021 Notes were below investment grade. Any covenants that cease to apply to us as a result of achieving an investment grade rating will not be restored, even if the credit rating assigned to the 2021 Notes later falls below investment grade. We were in compliance with these covenants at June 30, 2011.

Senior Secured Credit Facility

On March 31, 2011, we simultaneously terminated (without pre-payment penalty) our \$300 million credit agreement dated November 29, 2007, as amended, which was to mature no later than November 29, 2012, and entered into a new credit agreement with several lenders and JPMorgan Chase Bank, N.A., as Administrative Agent and Swing Line Lender, Bank of America, N.A., as Syndication Agent, and Capital One, N.A. and Wells Fargo Bank, N.A., as Co-Documentation Agents. In connection with the termination of our previous credit agreement, we incurred a loss of \$2.2 million on early extinguishment of debt related to the write-off of the unamortized portion of deferred financing costs. The new 2011 credit agreement provides for a senior secured credit facility (the 2011 Credit Facility) consisting of a revolving credit facility, letter of credit sub-facility and swing line facility of up to an aggregate principal amount of \$400 million, all of which will mature no later than March 31, 2016. The 2011 Credit Facility and the obligations thereunder are secured by substantially all of our assets and those of our subsidiary

Edgar Filing: KEY ENERGY SERVICES INC - Form 10-Q

guarantors and are guaranteed by certain of our existing and future domestic subsidiaries.

In connection with the execution of the 2011 Credit Facility, we capitalized \$4.8 million of financing costs that will be amortized over the term of the debt.

The interest rate per annum applicable to the 2011 Credit Facility is, at our option, (i) adjusted LIBOR plus the applicable margin or (ii) the higher of (x) JPMorgan's prime rate, (y) the Federal Funds rate plus 0.5% and (z) one-month adjusted LIBOR plus 1.0%, plus in each case the applicable margin for all other loans. The applicable margin for LIBOR loans ranges from 225 to 300 basis points, and the applicable margin for all other loans ranges from 125 to 200 basis points, depending upon our consolidated total leverage ratio as defined in the 2011 Credit Facility. Unused commitment fees on the facility equal 0.50%. The weighted average interest rate on the outstanding borrowings under the 2011 Credit Facility was 2.76% for the three-month period ended June 30, 2011.

Table of Contents

The 2011 Credit Facility contains certain financial covenants, which, among other things, limit our annual capital expenditures, restrict our ability to repurchase shares and require us to maintain certain financial ratios. The financial ratios require that:

our consolidated funded indebtedness be no greater than 45% of our adjusted total capitalization;

our senior secured leverage ratio of senior secured funded debt to trailing four quarters of earnings before interest, taxes, depreciation and amortization (as calculated pursuant to the terms of the 2011 Credit Facility, EBITDA) be no greater than 2.00 to 1.00;

we maintain a collateral coverage ratio, the ratio of the aggregate book value of the collateral to the amount of the total commitments, as of the last day of any fiscal quarter of at least:

Fiscal Quarter Ending	Ratio
June 30, 2011 through June 30, 2012	1.85 to 1.00
September 30, 2012 and thereafter	2.00 to 1.00

we maintain a consolidated interest coverage ratio of trailing four quarters EBITDA to interest expense of at least 3.00 to 1.00; and

we limit our capital expenditures and investments in foreign subsidiaries to \$250.0 million per fiscal year, up to 50% of which amount may be carried over for expenditure in the following fiscal year, if after giving pro forma effect thereto the consolidated total leverage ratio exceeds 3.00 to 1.00.

In addition, the 2011 Credit Facility contains certain affirmative and negative covenants, including, without limitation, restrictions on (i) liens; (ii) debt, guarantees and other contingent obligations; (iii) mergers and consolidations; (iv) sales, transfers and other dispositions of property or assets; (v) loans, acquisitions, joint ventures and other investments (with acquisitions permitted so long as, after giving pro forma effect thereto, no default or event of default exists under the 2011 Credit Facility, the pro forma consolidated total leverage ratio does not exceed 4.00 to 1.00, we are in compliance with other financial covenants and we have at least \$25 million of availability under the 2011 Credit Facility); (vi) dividends and other distributions to, and redemptions and repurchases from, equityholders; (vii) making investments, loans or advances; (viii) selling properties; (ix) prepaying, redeeming or repurchasing subordinated (contractually or structurally) debt; (x) engaging in transactions with affiliates; (xi) entering into hedging arrangements; (xii) entering into sale and leaseback transactions; (xiii) granting negative pledges other than to the lenders; (xiv) changes in the nature of business; (xv) amending organizational documents; and (xvi) changes in accounting policies or reporting practices; in each of the foregoing cases, with certain exceptions. Furthermore, the 2011 Credit Facility provides that share repurchases in excess of \$200 million can be made only if our debt to capitalization ratio is below 45%.

On July 27, 2011, we entered into the First Amendment to the 2011 Credit Facility (the Amendment) with several lenders and JPMorgan Chase Bank, N.A., as Administrative Agent, Bank of America, N.A., as Syndication Agent, and Capital One, N.A., Wells Fargo Bank, N.A., Credit Agricole Corporate and Investment Bank and DnB NOR Bank ASA, as Co-Documentation Agents. The Amendment, which is effective as of July 27, 2011, amends certain provisions of our 2011 Credit Facility. Among other changes, the Amendment increased the total commitments by the lenders under the credit facility from \$400.0 million to \$550.0 million, effected by an increase in the commitments of certain existing lenders under the facility and the addition of certain new lenders. The Amendment also modifies the 2011 Credit Facility by increasing, from \$500.0 million to \$650.0 million, the maximum aggregate amount of commitments permitted under the 2011 Credit Facility pursuant to our option to increase commitments by the lenders and amending the requirement that we maintain a debt to capitalization ratio of consolidated total funded indebtedness to total capitalization of 45% or less by changing the maximum required ratio to 50% through March 31, 2012.

Capital Lease Agreements

We lease equipment, such as vehicles, tractors, trailers, frac tanks and forklifts, from financial institutions under master lease agreements. As of June 30, 2011, there was \$4.0 million outstanding under such equipment leases.

Off-Balance Sheet Arrangements

Edgar Filing: KEY ENERGY SERVICES INC - Form 10-Q

At June 30, 2011 we did not, and we currently do not, have any off-balance sheet arrangements that have or are reasonably likely to have a material current or future effect on our financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Table of Contents***Liquidity Outlook and Future Capital Requirements***

As of June 30, 2011, we had cash and cash equivalents of \$14.6 million, available borrowing capacity of \$250.5 million under our 2011 Credit Facility, and no significant debt maturities until 2016. Also, with the amendment of our 2011 Credit Facility in July 2011, we increased our available borrowing capacity by \$150 million. We believe that our internally generated cash flows from operations, availability under the 2011 Credit Facility and current reserves of cash and cash equivalents will be sufficient to finance the majority of our cash requirements for current and future operations, budgeted capital expenditures, and debt service for the next twelve months. Also, as we have historically done, we may, from time to time, access available funds under our 2011 Credit Facility to supplement our liquidity to meet cash requirements for day-to-day operations and times of peak needs throughout the year. Our planned capital expenditures, as well as any acquisitions we choose to pursue, could be financed through a combination of cash on hand, cash flow from operations, borrowings under our 2011 Credit Facility and, in the case of acquisitions, equity.

Capital Expenditures

During the six months ended June 30, 2011, our capital expenditures totaled \$178.1 million, primarily related to fluid management expansion in the Bakken Shale, the deployment of heavy duty workover rigs, the purchase of premium drill pipe and major maintenance of our existing fleet and equipment. Our capital expenditures program is expected to total \$365.0 million during 2011, focusing mainly on expansion to selected growth regions in the U.S. market. Our capital expenditure program for 2011 is subject to market conditions, including activity levels, commodity prices, and industry capacity. During the remainder of 2011, we plan to focus on maximizing our current equipment fleet, and we have increased our planned capital expenditures to increase market share and expand our presence into new markets. We currently anticipate funding our 2011 capital expenditures through a combination of cash on hand, operating cash flow, and borrowings under our 2011 Credit Facility. Should our operating cash flows or activity levels prove insufficient to warrant our currently planned capital spending levels, management expects it would adjust our capital spending plans accordingly. We may also incur capital expenditures for strategic investments and acquisitions.

Proposed Acquisition

On July 13, 2011, we entered into an agreement and plan of merger with Edge Oilfield Services, L.L.C. and Summit Oilfield Services, L.L.C. (collectively, Edge). Edge primarily rents frac stack equipment used to support hydraulic fracturing operations and the associated flow back of frac fluids, proppants, oil and natural gas. It also provides well testing services, rental equipment such as pumps and power swivels, and oilfield fishing services. The total consideration for the acquisition is approximately \$300 million consisting of approximately 7.5 million shares of our common stock and approximately \$164 million in cash, which is subject to working capital and other adjustments at closing. We received notification that the waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976 terminated effective July 29, 2011. In addition to the \$300 million of consideration, we have also agreed to reimburse or fund up to \$40 million of Edge's pre-closing capital expenditures. The acquisition is subject to satisfaction of certain regulatory approvals and other customary closing conditions. We expect the closing of the transaction to take place in the third quarter of 2011. We intend to account for this acquisition as a business combination. We plan to fund this acquisition with available funds under the amended 2011 Credit Facility and the issuance of equity.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in our quantitative and qualitative disclosures about market risk from those disclosed in our 2010 Form 10-K. More detailed information concerning market risk can be found in *Item 7A. Quantitative and Qualitative Disclosures about Market Risk* in our 2010 Form 10-K.

ITEM 4. CONTROLS AND PROCEDURES***Disclosure Controls and Procedures***

As of the end of the period covered by this Quarterly Report on Form 10-Q, management performed, with the participation of our Chief Executive Officer and our Chief Financial Officer, an evaluation of the effectiveness of our disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the Exchange Act). Our disclosure controls and procedures are designed to ensure that information required to be disclosed by us in the reports we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information is accumulated and communicated to our management, including

Edgar Filing: KEY ENERGY SERVICES INC - Form 10-Q

our Chief Executive Officer and our Chief Financial Officer, to allow timely decisions regarding required disclosures. Based on this evaluation, management concluded that our disclosure controls and procedures are effective.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the second quarter of 2011 that materially affected, or were reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**PART II OTHER INFORMATION****ITEM 1. LEGAL PROCEEDINGS**

In June 2011, we agreed to accept \$5.5 million in damages, related to the settlement of a KeyView® patent infringement lawsuit, which was paid in full in July 2011. We recognized related legal fees and other expenses of \$1.3 million during the second quarter of 2011.

We are subject to various suits and claims that have arisen in the ordinary course of business. We do not believe that the disposition of any of our ordinary course litigation will result in a material adverse effect on our consolidated financial position, results of operations or cash flows. For additional information on legal proceedings, see *Note 10. Commitments and Contingencies* in *Item 1. Financial Statements* in Part I of this report.

ITEM 1A. RISK FACTORS

There have been no material changes in our risk factors disclosed in our 2010 Form 10-K. For a discussion of these risk factors, see *Item 1A. Risk Factors* in our 2010 Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

During the three months ended June 30, 2011, we repurchased the shares shown in the table below to satisfy tax withholding obligations upon the vesting of restricted stock awarded to certain of our employees:

ISSUER PURCHASES OF EQUITY SECURITIES

Period	Number of Shares Purchased (1)	Weighted Average Price Paid per Share (2)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Amount of Shares that may yet be Purchased Under the Plans or Programs
April 1, 2011 to April 30, 2011	18,481	\$ 15.31		\$
May 1, 2011 to May 31, 2011	1,983	15.70		
June 1, 2011 to June 30, 2011	17,372	17.33		
Total	37,836	\$ 16.26		\$

(1) Represents shares repurchased to satisfy tax withholding obligations upon the vesting of restricted stock awards.

(2) The price paid per share on the vesting date with respect to the tax withholding repurchases was determined using the closing price as quoted on the NYSE on the vesting date for awards granted under the Key Energy Services, Inc. 2007 Equity and Cash Incentive Plan and the Key Energy Services, Inc. 2009 Equity and Cash Incentive Plan.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. (REMOVED AND RESERVED)

ITEM 5. OTHER INFORMATION

None.
