On November 2, 2011, Hercules Technology Growth Capital, Inc. (the Company) renewed and amended its two-year revolving senior secured credit facility (the Credit Facility) with Union Bank, N.A. (Union Bank). The amendment extends the maturity date of the Credit Facility to November 2, 2014, increases the size of the Credit Facility to \$55.0 million from \$20.0 million and adds a new lender, RBC Capital Markets. Union Bank and RBC Capital Markets have made commitments of \$30.0 million and \$25.0 million, respectively. The Credit Facility contains an accordion feature, in which the Company can increase the credit line up to an aggregate of \$150.0 million from additional lenders with the agreement of Union Bank and subject to other customary conditions. There can be no assurances that additional lenders will join the Credit Facility.

Borrowings under the Credit Facility will generally bear interest at a rate per annum equal to LIBOR plus 2.25% with a floor of 4.00%. The Credit Facility requires the payment of a non-use fee of 0.50% and has an advance rate equal to 50% of eligible loans placed in the collateral pool. The Credit Facility generally requires payment of interest on a monthly basis. All outstanding principal is due upon maturity.

The Company has various financial and operating covenants required by the Credit Facility. These covenants require the Company to maintain certain financial ratios and a minimum tangible net worth in an amount, when added to outstanding subordinated indebtedness, that is in excess of \$314.0 million plus 90% of the amount of net cash proceeds received from the sale of common stock after March 31, 2011. The Credit Facility provides for customary events of default, including, but not limited to, payment defaults, breach of representations or covenants, bankruptcy events and change of control.

The foregoing description of the Credit Facility does not purport to be complete and is qualified in its entirety by reference to the full text of the loan and security agreement attached hereto as Exhibit 10.1.
