NCI BUILDING SYSTEMS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

APRIL 29, 2012

(Unaudited)

NOTE 1 BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements for NCI Building Systems, Inc. (together with its subsidiaries, unless otherwise indicated, the Company, we, us, or our) have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, the unaudited consolidated financial statements included herein contain all adjustments necessary to fairly present our financial position, results of operations and cash flows for the periods indicated. Such adjustments, other than nonrecurring adjustments that have been separately disclosed, are of a normal, recurring nature. Operating results for the fiscal three and six month periods ended April 29, 2012 are not necessarily indicative of the results that may be expected for the fiscal year ending October 28, 2012. Our sales and earnings are subject to both seasonal and cyclical trends and are influenced by general economic conditions, interest rates, the price of steel relative to other building materials, the level of nonresidential construction activity, roof repair and retrofit demand and the availability and cost of financing for construction projects.

We use a four-four-five week calendar each quarter with our year end being on the Sunday closest to October 31. The year end for fiscal 2012 is October 28, 2012.

For further information, refer to the consolidated financial statements and footnotes thereto included in our Annual Report on Form 10-K for the fiscal year ended October 30, 2011 filed with the Securities and Exchange Commission (the SEC) on December 21, 2011.

NOTE 2 ACCOUNTING PRONOUNCEMENTS

Adopted Accounting Pronouncements

In September 2011, the FASB issued ASU 2011-08, *Intangibles - Goodwill and Other (Topic 350): Testing Goodwill for Impairment* (ASU 2011-08), which gives companies the option to perform an annual qualitative assessment to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount and, in some cases, by-pass the two-step impairment test. Early adoption is permitted. Therefore, we have early adopted this ASU in our fiscal year ending October 28, 2012. The adoption of ASU 2011-08 did not have a material impact on our consolidated financial statements.

In May 2011, the FASB issued ASU 2011-04, *Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04). The amendments to this update provide a uniform framework for applying the principles of fair value measurement and include (i) amendments that clarify the Board's intent about the application of existing fair value measurement and disclosure requirements and (ii) amendments that change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. These amendments do not require additional fair value measurements. We adopted ASU 2011-04 in our second fiscal quarter ended April 29, 2012. The adoption of ASU 2011-04 did not have a material impact on our consolidated financial statements.

Recent Accounting Pronouncements

In June 2011, the FASB issued ASU 2011-05, *Comprehensive Income (Topic 220): Presentation of Comprehensive Income* (ASU 2011-05) which amends its guidance on the presentation of comprehensive income to increase the prominence of items reported in other comprehensive income. The new guidance requires that all components of comprehensive income in stockholders' equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The guidance required entities to present reclassification adjustments out of accumulated other comprehensive income by component in both the statement in which net income is presented and the statement in which other comprehensive income is presented. In December 2011, the FASB issued ASU 2011-12, *Comprehensive Income (Topic 220): Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05* (ASU 2011-12) which indefinitely deferred the guidance related to the presentation on the face of the financial statements of the effects of reclassifications out of accumulated other

Edgar Filing: NCI BUILDING SYSTEMS INC - Form 10-Q

comprehensive income on the components of net income and other comprehensive income. These amendments are to be applied retrospectively. We will adopt ASU 2011-05 and ASU 2011-12 in our first quarter of fiscal 2013 and we believe its adoption will not have any impact on our consolidated financial statements.

Table of Contents**NOTE 3 RESTRICTED CASH**

In prior year, we entered into a cash collateral agreement with our agent bank to secure letters of credit. The restricted cash was invested in a bank account securing our agent bank. As of April 29, 2012, we no longer had restricted cash as collateral related to our letters of credit because we utilized the ABL Facility to secure all our letters of credit. As of October 30, 2011, we had restricted cash in the amount of \$2.8 million as collateral related to our \$2.7 million of letters of credit for certain insurance policies, exclusive of letters of credit under our ABL Facility. Restricted cash was classified as a current asset as the underlying letters of credit were to expire within one year of the respective balance sheet date.

NOTE 4 INVENTORIES

The components of inventory are as follows (in thousands):

	April 29, 2012	October 30, 2011
Raw materials	\$ 76,511	\$ 62,801
Work in process and finished goods	30,393	25,730
	\$ 106,904	\$ 88,531

NOTE 5 SHARE-BASED COMPENSATION

Our 2003 Long-Term Stock Incentive Plan (Incentive Plan) is an equity-based compensation plan that allows us to grant a variety of types of awards, including stock options, restricted stock, restricted stock units, stock appreciation rights, performance share awards, phantom stock awards and cash awards. As of April 29, 2012 and May 1, 2011, and for all periods presented, our share-based awards under this plan have consisted of restricted stock grants and stock option grants, none of which can be settled through cash payments. Both our stock options and restricted stock awards are subject only to vesting requirements based on continued employment at the end of a specified time period and typically vest over four years or earlier upon death, disability or a change of control. However, our annual restricted stock awards also vest upon retirement and, only in the case of certain special one-time restricted stock awards, a portion vest on termination without cause or for good reason, as defined by the agreements governing such awards.

During the six month periods ended April 29, 2012 and May 1, 2011, we granted 92,832 and 121,669 stock options, respectively, and the weighted average grant-date fair value of options granted during fiscal 2012 and fiscal 2011 was \$5.12 and \$5.78, respectively.

The fair value of restricted stock awards classified as equity awards is based on the Company's stock price as of the date of grant. During the six months ended April 29, 2012 and May 1, 2011, we granted restricted stock awards with a fair value of \$6.8 million or 666,110 shares and \$6.2 million or 515,053 shares, respectively.

NOTE 6 LOSS PER COMMON SHARE

Basic loss per common share is computed by dividing net loss allocated to common shares by the weighted average number of common shares outstanding. Diluted income per common share, if applicable, considers the dilutive effect of common stock equivalents. The reconciliation of the numerator and denominator used for the computation of basic and diluted loss per common share is as follows (in thousands, except per share data):

	Fiscal Three Months Ended		Fiscal Six Months Ended	
	April 29, 2012	May 1, 2011	April 29, 2012	May 1, 2011
Numerator for Basic and Diluted Loss Per Common Share	\$ (16,281)	\$ (9,249)	\$ (26,320)	\$ (29,990)

Edgar Filing: NCI BUILDING SYSTEMS INC - Form 10-Q

Net loss allocated to common shares (1)

Denominator for Basic and Diluted Loss Per Common Share

Weighted average common shares outstanding for basic and diluted loss per share

18,832	18,275	18,760	18,215
--------	--------	--------	--------

Basic and Diluted loss per common share	\$ (0.86)	\$ (0.51)	\$ (1.40)	\$ (1.65)
---	-----------	-----------	-----------	-----------

- (1) Participating securities consist of the holders of the Convertible Preferred Stock, as defined below, and the unvested restricted Common Stock related to our Incentive Plan. These participating securities do not have a contractual obligation to share in losses; therefore, no losses were allocated in any periods presented above. These participating securities will be allocated earnings when applicable.

Table of Contents

We calculate earnings per share using the two-class method, whereby unvested share-based payment awards that contain non-forfeitable rights to dividends or dividend equivalents are participating securities and, therefore, these participating securities are treated as a separate class in computing earnings per share. The calculation of earnings per share for Common Stock presented here excludes the income, if any, attributable to the unvested restricted stock awards and our Series B Cumulative Convertible Participating Preferred Stock (Convertible Preferred Stock, and shares thereof, Preferred Shares) from the numerator and excludes the dilutive impact of those shares from the denominator. There was no income amount attributable to unvested restricted stock or Preferred Shares for the three and six month periods ended April 29, 2012 and May 1, 2011 as the restricted stock and Preferred Shares do not share in the net losses. However, in periods of net income allocated to common shares, a portion of this income will be allocable to the restricted stock and Preferred Shares. As of April 29, 2012 and October 30, 2011, the Preferred Shares were convertible into 48.9 million and 46.6 million shares of Common Stock, respectively.

For both the three and six month periods ended April 29, 2012 and May 1, 2011, all options and unvested restricted shares were anti-dilutive and, therefore, not included in the diluted loss per common share calculation.

NOTE 7 WARRANTY

We sell weathertightness warranties to our customers for protection from leaks in our roofing systems related to weather. These warranties range from two years to 20 years. We sell two types of warranties, standard and Single Source , and three grades of coverage for each. The type and grade of coverage determines the price to the customer. For standard warranties, our responsibility for leaks in a roofing system begins after 24 consecutive leak-free months. For Single Source warranties, the roofing system must pass our inspection before warranty coverage will be issued. Inspections are typically performed at three stages of the roofing project: (i) at the project start-up; (ii) at the project mid-point; and (iii) at the project completion. These inspections are included in the cost of the warranty. If the project requires or the customer requests additional inspections, those inspections are billed to the customer. Upon the sale of a warranty, we record the resulting revenue as deferred warranty revenue, which is included in other accrued expenses in our Consolidated Balance Sheets. We recognize deferred warranty revenue over the warranty coverage period in a manner that matches our estimated expenses relating to the warranty. Additionally, we maintain an accrued warranty at Robertson-Ceco II Corporation (RCC) in which the balance was \$3.1 million at both April 29, 2012 and October 30, 2011. RCC s accrued warranty programs have similar terms and characteristics to our other warranty programs although this warranty is not amortized in the same manner as our other warranty programs.

The following table represents the rollforward of our acquired accrued warranty obligation and deferred warranty revenue activity for each of the fiscal six months ended (in thousands):

	Fiscal Six Months Ended	
	April 29, 2012	May 1, 2011
Beginning balance	\$ 17,941	\$ 16,977
Warranties sold	1,479	1,411
Revenue recognized	(803)	(769)
Costs incurred and other	(109)	(302)
Ending balance	\$ 18,508	\$ 17,317

NOTE 8 LONG-TERM DEBT AND NOTE PAYABLE

Debt is comprised of the following (in thousands):

	April 29, 2012	October 30, 2011
Amended Credit Agreement, due April 2014 (interest at 6.5% at April 29, 2012 and 8.0% at October 30, 2011)	\$ 128,499	\$ 130,699
Asset-Based Lending Facility, due April 2014 (interest at 4.75%)		

Edgar Filing: NCI BUILDING SYSTEMS INC - Form 10-Q

	128,499	130,699
Current portion of long-term debt		
Total long-term debt, less current portion	\$ 128,499	\$ 130,699

Table of Contents***Amended Credit Agreement***

On October 20, 2009, we entered into the Amended Credit Agreement (the "Amended Credit Agreement"), pursuant to which we repaid \$143.3 million of the \$293.3 million in principal amount of term loans outstanding under such credit agreement and modified the terms and maturity of the remaining \$150.0 million balance. The terms of the term loan require quarterly principal payments in an amount equal to 0.25% of the principal amount of the term loan then outstanding as of the last day of each calendar quarter and a final payment of approximately \$136.3 million at maturity on April 20, 2014. However, we have made mandatory and optional prepayments on the Amended Credit Agreement and these prepayments are allowed to be applied against the remaining required quarterly principal payments. As a result, we are not required to make any additional quarterly principal payments for the remaining term of the term loan, although we intend to continue to make voluntary prepayments.

The Company's obligations under the Amended Credit Agreement and any interest rate protection agreements or other permitted hedging agreement entered into with any lender under the Amended Credit Agreement are irrevocably and unconditionally guaranteed on a joint and several basis by each direct and indirect domestic subsidiary of the Company (other than any domestic subsidiary that is a foreign subsidiary holding company or a subsidiary of a foreign subsidiary that is insignificant).

The obligations under the Amended Credit Agreement and under any permitted hedging agreement and the guarantees thereof are secured by (i) all of the capital stock and other equity interests of all direct domestic subsidiaries owned by the Company and the guarantors, (ii) up to 65% of the capital stock of certain direct foreign subsidiaries of the Company or any guarantor (it being understood that a foreign subsidiary holding company or a domestic subsidiary of a foreign subsidiary is considered a foreign subsidiary for these purposes) and (iii) substantially all other tangible and intangible assets owned by the Company and each guarantor, including liens on material real property, in each case to the extent permitted by applicable law. The liens securing the obligations under the Amended Credit Agreement, the permitted hedging agreements and the guarantees thereof are first in priority (as between the Amended Credit Agreement and the Asset-Based Lending Facility (the "ABL Facility")) with respect to stock, material real property and assets other than accounts receivable, inventory, certain deposit accounts, associated intangibles and certain other specified assets of the Company and the guarantors. Such liens are second in priority (as between the Amended Credit Agreement and the ABL Facility) with respect to accounts receivable, inventory, associated intangibles and certain other specified assets of the Company and the guarantors.

The Amended Credit Agreement contains a number of covenants that, among other things, limit or restrict our ability to dispose of assets, incur additional indebtedness, incur guarantee obligations, prepay other indebtedness, make dividends and other restricted payments, create liens, make investments, make acquisitions, engage in mergers, change the nature of our business and engage in certain transactions with affiliates.

The Amended Credit Agreement did not require financial covenants until October 30, 2011 (subject to prepayment deferrals as noted below), at which time our consolidated leverage ratio of net indebtedness to EBITDA was to be no more than 5 to 1. Net indebtedness is defined as consolidated debt less the lesser of unrestricted cash or \$50 million. This ratio steps down by 0.25 each quarter until October 28, 2012 at which time the maximum ratio is 4 to 1. The ratio continues to step down by 0.125 each quarter until November 3, 2013 to a ratio of 3.5 to 1, which remains the maximum ratio for each fiscal quarter thereafter. We will, however, not be subject to this financial covenant with respect to a specified period if certain prepayments or repurchases of the term loans under the Amended Credit Agreement are made prior to the specified period. Based on our prepayments made through April 29, 2012, the leverage ratio covenant has been deferred until the third quarter of fiscal 2013. The prepayments that have been made can be applied to continuously defer covenant requirements and are not reduced unless the Company's actual leverage ratios are above the maximum requirement for a given period. Although our Amended Credit Agreement did not require any financial covenant compliance, at April 29, 2012 and October 30, 2011, our consolidated leverage ratio as of those dates was 1.30 and 2.27, respectively.

Term loans under the Amended Credit Agreement may be repaid at any time, without premium or penalty but subject to customary LIBOR breakage costs. We also have the ability to repurchase a portion of the term loans under the Amended Credit Agreement, subject to certain terms and conditions set forth in the Amended Credit Agreement. In addition, the Amended Credit Agreement requires mandatory prepayment and reduction in an amount equal to:

the net cash proceeds of (1) certain asset sales, (2) certain debt offerings and (3) certain insurance recovery and condemnation events; and

50% of annual excess cash flow (as defined in the Amended Credit Agreement) for any fiscal year ended on or after October 31, 2010, unless a specified leverage ratio target is met.

Edgar Filing: NCI BUILDING SYSTEMS INC - Form 10-Q

The Amended Credit Agreement limited our ability to pay cash dividends on or prior to October 31, 2010 after which time we were permitted to pay dividends in an amount not to exceed the available amount (as defined in the Amended Credit Agreement). The available amount is defined as the sum of 50% of the cumulative consolidated net income from August 2, 2009 to the end of the most

Table of Contents

recent fiscal quarter, plus net proceeds of property or assets received as capital contributions, less the sum of all dividends, payments or other distributions of such available amounts, in each case subject to certain adjustments and exceptions as specified in the Amended Credit Agreement. In the absence of accumulated earnings, cash dividends and other cash restricted payments are limited to \$14.5 million in the aggregate during the term of the loan, of which we used \$11.0 million as of April 29, 2012. Each quarterly dividend payment on the Convertible Preferred Stock cannot be split between cash and payment-in-kind.

The term loan under the Amended Credit Agreement bears interest, at our option, at either LIBOR or Base Rate plus an applicable margin. To date, we have selected LIBOR interest rates. Overdue amounts will bear interest at a rate that is 2% higher than the rate otherwise applicable.

Base Rate is defined as the highest of (i) the Wells Fargo Bank, National Association prime rate, (ii) the overnight Federal Funds rate plus 0.5%, and (iii) 3%. LIBOR is defined as the applicable London interbank offered rate (not to be less than 2%) adjusted for reserves. The applicable margin until October 30, 2011 was 5.00% on Base Rate loans and 6.00% on LIBOR loans under the Amended Credit Agreement. Since October 30, 2011, the LIBOR-linked margin fluctuates based on our leverage ratio and shall be either 6% or 4.5%. Based on our leverage ratio at April 29, 2012, the applicable margin in the third quarter of fiscal 2012 will be 4.5%.

ABL Facility

On October 20, 2009, the subsidiaries of the Company, NCI Group, Inc. and RCC and the Company entered into the ABL Facility pursuant to a loan and security agreement that provided for a \$125.0 million asset-based loan facility. The ABL Facility allows us an aggregate maximum borrowing of up to \$125.0 million; however, the aggregate maximum borrowings are limited to \$100.0 million under our Amended Credit Agreement. Borrowing availability under the ABL Facility is determined by a monthly borrowing base collateral calculation that is based on specified percentages of the value of qualified cash, eligible inventory and eligible accounts receivable, less certain reserves and subject to certain other adjustments. At April 29, 2012 and October 30, 2011, our excess availability under the ABL Facility was \$83.9 million and \$87.8 million, respectively. The ABL Facility has a maturity of April 20, 2014 and includes borrowing capacity of up to \$25 million for letters of credit and up to \$10 million for swingline borrowings. Under the ABL Facility, there were no amounts of borrowings outstanding at both April 29, 2012 and October 30, 2011. In addition, at April 29, 2012 and October 30, 2011, standby letters of credit totaling approximately \$9.1 million and \$6.4 million, respectively, were issued under the ABL Facility related to certain insurance policies.

On December 3, 2010, we finalized an amendment of our ABL Facility that reduces the unused commitment fee from 1% or 0.75% based on the average daily balance of loans and letters of credit obligations outstanding to an annual rate of 0.5%. The calculation is determined on the amount by which the maximum credit exceeds the average daily principal balance of outstanding loans and letter of credit obligations. Additional customary fees in connection with the ABL Facility also apply. In addition, the amendment reduced the effective interest rate on borrowings, if any, by nearly 40% or 175 basis points. It also relaxes the prohibitions against making restricted payments or paying cash dividends, including on the Convertible Preferred Stock, to allow, in the aggregate, up to \$6.5 million of restricted payments or cash dividends each calendar quarter, provided (i) certain excess availability conditions or (ii) certain other excess availability conditions and a fixed charge coverage ratio under the ABL Facility are satisfied. However, these prohibitions are second to the cash restricted payment limitations on the Amended Credit Agreement discussed above.

The obligations of the borrowers under the ABL Facility are guaranteed by us and each direct and indirect domestic subsidiary of the Company (other than any domestic subsidiary that is a foreign subsidiary holding company or a subsidiary of a foreign subsidiary that is insignificant) that is not a borrower under the ABL Facility. Our obligations under certain specified bank products agreements are guaranteed by each borrower and each other direct and indirect domestic subsidiary of the Company and the other guarantors. These guarantees are made pursuant to a guarantee agreement, dated as of October 20, 2009, entered into by the Company and each other guarantor with Wells Fargo Foothill, LLC, as administrative agent.

The obligations under the ABL Facility and the guarantees thereof are secured by a first priority lien on our accounts receivable, inventory, certain deposit accounts, associated intangibles and certain other specified assets of the Company and a second priority lien on the assets securing the term loans under the Amended Credit Agreement on a first-lien basis.

The ABL Facility contains a number of covenants that, among other things, limit or restrict our ability to dispose of assets, incur additional indebtedness, incur guarantee obligations, engage in sale and leaseback transactions, prepay other indebtedness, modify organizational documents and certain other agreements, create restrictions affecting subsidiaries, make dividends and other restricted payments, create liens, make investments, make acquisitions, engage in mergers, change the nature of our business and engage in certain transactions with affiliates.

Under the ABL Facility, a *Dominion Event* occurs if either an event of default is continuing or excess availability falls below certain levels, during which period, and for certain periods thereafter, the administrative agent may apply all amounts in the Company's, the borrowers' and the other guarantors' concentration accounts to the repayment of the loans outstanding under the ABL Facility, subject

Table of Contents

to the Intercreditor Agreement. In addition, during such Dominion Event, we are required to make mandatory payments on our ABL Facility upon the occurrence of certain events, including the sale of assets and the issuance of debt, in each case subject to certain limitations and conditions set forth in the ABL Facility.

The ABL Facility includes a minimum fixed charge coverage ratio of one to one, which will apply if we fail to maintain at least \$15 million of minimum borrowing capacity. Although our ABL Facility did not require any financial covenant compliance, at April 29, 2012 and October 30, 2011, our fixed charge coverage ratio as of those dates, which is calculated on a trailing twelve month basis, was 3.44 to one and 0.37 to one, respectively.

Loans under the ABL Facility bear interest, at our option, as follows:

(1) Base Rate loans at the Base Rate plus a margin. The margin ranges from 1.50% to 2.00% depending on the quarterly average excess availability under such facility, and

(2) LIBOR loans at LIBOR plus a margin. The margin ranges from 2.50% to 3.00% depending on the quarterly average excess availability under such facility.

During an event of default, loans under the ABL Facility will bear interest at a rate that is 2% higher than the rate otherwise applicable. Base Rate is defined as the higher of the Wells Fargo Bank, N.A. prime rate and the overnight Federal Funds rate plus 0.5% and LIBOR is defined as the applicable London interbank offered rate adjusted for reserves.

Deferred Financing Costs

At April 29, 2012 and October 30, 2011, the unamortized balance in deferred financing costs was \$9.2 million and \$11.6 million, respectively.

Insurance Note Payable

The note payable is related to financed insurance premiums. As of April 29, 2012 and October 30, 2011, we had outstanding a note payable in the amount of \$1.6 million and \$0.3 million, respectively. Insurance premium financings are generally secured by the unearned premiums under such policies.

NOTE 9 SERIES B CUMULATIVE CONVERTIBLE PARTICIPATING PREFERRED STOCK

The CD&R Equity Investment

On August 14, 2009, the Company entered into an Investment Agreement (as amended, the Investment Agreement), by and between the Company and Clayton, Dubilier & Rice Fund VIII, L.P. (CD&R Fund VIII), pursuant to which the Company agreed to issue and sell to CD&R Fund VIII, and CD&R Fund VIII agreed to purchase from the Company, for an aggregate purchase price of \$250 million (less reimbursement to CD&R Fund VIII or direct payment to its service providers of up to \$14.5 million in the aggregate of transaction expenses and a deal fee, paid to Clayton, Dubilier & Rice, Inc., the manager of CD&R Fund VIII, of \$8.25 million), 250,000 shares of Convertible Preferred Stock. Pursuant to the Investment Agreement, on October 20, 2009 (the Closing Date), the Company issued and sold to CD&R Fund VIII and CD&R Friends & Family Fund VIII, L.P. (the CD&R Funds), and the CD&R Funds purchased from the Company, an aggregate of 250,000 Preferred Shares, representing approximately 39.2 million shares of Common Stock or 68.4% of the voting power and Common Stock of the Company on an as-converted basis as of the Closing Date (such purchase and sale, the CD&R Equity Investment). At April 29, 2012 and October 30, 2011, the CD&R Funds own 70.6% and 70.1%, respectively, of the voting power and Common Stock of the Company on an as-converted basis.

Certain Terms of the Convertible Preferred Stock

In connection with the consummation of the CD&R Equity Investment, on October 19, 2009 we filed the Certificate of Designations of the Convertible Preferred Stock (the Certificate of Designations), setting forth the terms, rights, powers, and preferences, and the qualifications, limitations and restrictions thereof, of the Convertible Preferred Stock.

Liquidation Value. Each Preferred Share has an initial liquidation preference of \$1,000.

Edgar Filing: NCI BUILDING SYSTEMS INC - Form 10-Q

Rank. The Convertible Preferred Stock ranks senior as to dividend rights, redemption payments and rights upon liquidation to the Common Stock and each other class or series of our equity securities, whether currently issued or to be issued in the future, that by its terms ranks junior to the Convertible Preferred Stock, and junior to each class or series of equity securities of the Company, whether

Table of Contents

currently issued or issued in the future, that by its terms ranks senior to the Convertible Preferred Stock. The Company does not have any outstanding securities ranking senior to the Convertible Preferred Stock. Pursuant to the Certificate of Designations, the issuance of any senior securities of the Company requires the approval of the holders of the Convertible Preferred Stock.

Dividends. Dividends on the Convertible Preferred Stock are payable, on a cumulative daily basis, as and if declared by the board of directors, at a rate per annum of 12% of the sum of the liquidation preference of \$1,000 per Preferred Share plus accrued and unpaid dividends thereon or at a rate per annum of 8% of the sum of the liquidation preference of \$1,000 per Preferred Share plus any accrued and unpaid dividends thereon if paid in cash on the dividend payment date on which such dividends would otherwise compound. If dividends are not paid on the dividend payment date, either in cash or in kind, such dividends compound on the dividend payment date. Members of the board of directors who are not affiliated with the CD&R Funds have the right to choose whether such dividends are paid in cash or in-kind, subject to the conditions of the Amended Credit Agreement and ABL Facility. The Company's Amended Credit Agreement restricts the payment of cash dividends to 50% of cumulative earnings beginning with the fourth quarter of 2009, and in the absence of accumulated earnings, cash dividends and other cash restricted payments are limited to \$14.5 million in the aggregate during the term of the loan, of which we used \$11.0 million as of April 29, 2012.

Each quarterly dividend payment on the Convertible Preferred Stock cannot be split between cash and payment-in-kind. The Company's ABL Facility, among other potentially available baskets, permits the Company to pay cash dividends, including on the Convertible Preferred Stock, up to \$6.5 million each calendar quarter, provided (i) certain excess availability conditions or (ii) certain other excess availability conditions and a fixed charge coverage ratio under the ABL Facility are satisfied.

If, at any time after the 30-month anniversary of the Closing Date of October 20, 2009 (i.e., April 20, 2012), the trading price of the Common Stock exceeds \$12.75, which is 200% of the initial conversion price of the Convertible Preferred Stock (\$6.3740, as adjusted for any stock dividends, splits, combinations or similar events), for each of 20 consecutive trading days (the Dividend Rate Reduction Event), the dividend rate (excluding any applicable adjustments as a result of a default) will become 0.00%. However, this does not preclude the payment of default dividends after the 30-month anniversary of the Closing Date. As a result of certain restrictions on dividend payments in the Company's Amended Credit Agreement and ABL Facility, the dividends for each quarter of fiscal 2010 were paid in-kind, at a pro rata rate of 12% per annum. The dividends for the December 15, 2010 and March 15, 2011 dividend payments were paid in cash and the dividends for the June 15, 2011 dividend payment was paid in-kind at a pro rata rate of 12% per annum. As a result of the two Consent and Waiver Agreements (discussed below), the September 15, 2011 and December 15, 2011 dividend payments were paid in-kind, at a pro rata rate of 8% per annum. See Note 8 Long-term Debt and Note Payable for more information on our Amended Credit Agreement and ABL Facility.

At any time prior to the Dividend Rate Reduction Event, if dividends are not paid in cash on the applicable dividend payment date, the rate at which such dividends are payable will be at least 12% per annum. Therefore, the Company accrues dividends daily based on the 12% rate and if and when the Company determines the dividends will be paid at a different rate due to either cash payment on the applicable dividend payment date or obtaining a waiver, the Company will record a subsequent benefit of the excess 4% accrual upon our board's declaration of such cash dividend and reverse the beneficial conversion feature charge associated with such accrual. However, we currently cannot pay dividends in cash because the Company's Amended Credit Agreement currently restricts the payment of cash dividends to 50% of cumulative earnings beginning with the fourth quarter of 2009, and in the absence of accumulated earnings, cash dividends and other cash restricted payments are limited to \$14.5 million in the aggregate during the term of the loan, of which we used \$11.0 million as of April 29, 2012.

The dividend rate will increase by up to 6% per annum above the rates described in the preceding paragraphs upon and during certain defaults specified in the Certificate of Designations involving the Company's failure to have a number of authorized and unissued shares of Common Stock reserved and available sufficient for the conversion of all outstanding Preferred Shares. The Company currently has sufficient authorized, unissued and reserved shares of Common Stock to effect the conversion.

On the dividend payment date, the Company has the right to choose whether dividends are paid in cash or in-kind. However, the first dividend payment which was scheduled to be paid on December 15, 2009 in the amount of \$4.6 million was required to be paid in cash by the Certificate of Designations but could not be paid in cash based on the terms of the Company's Amended Credit Agreement and ABL Facility which restricted the Company's ability to pay cash dividends until the first quarter of fiscal 2011 and until October 20, 2010, respectively. As a result, the dividend for the period up to the December 15, 2009 dividend payment date compounded at a rate of 12% per annum. We currently cannot pay this dividend in cash because the Company's Amended Credit Agreement restricts the payment of cash dividends to 50% of cumulative earnings beginning with the fourth quarter of 2009, and in the absence of accumulated earnings, cash dividends and other cash restricted payments are limited to \$14.5 million in the aggregate during the term of the loan, of which the Company used \$11.0 million as of April 29, 2012. Each quarterly dividend payment on the Convertible Preferred Stock cannot be split between cash and payment-in-kind.

Table of Contents

In addition to any dividends declared and paid as described in the preceding paragraphs, holders of the outstanding Preferred Shares also have the right to participate equally and ratably, on an as-converted basis, with the holders of shares of Common Stock in all cash dividends and distributions paid on the Common Stock.

On March 15, 2012, the Preferred Dividend Payment Committee of the board of directors declared and paid to the holders of Convertible Preferred Stock, the CD&R Funds, a dividend of 8,924.762 shares of Convertible Preferred Stock at a pro rata rate of 12% per annum for the period from December 16, 2011 to March 15, 2012.

On December 9, 2011, the Company entered into a Mutual Waiver and Consent with the CD&R Funds, under which (1) the CD&R Funds, as the holders of all of the Company's issued and outstanding Convertible Preferred Stock, agreed to accept a paid-in-kind dividend on their Preferred Shares for the quarterly dividend payment period ended December 15, 2011 computed at the dividend rate of 8% per annum, rather than the dividend rate of 12% per annum provided for in the Certificate of Designations applicable to the Preferred Shares, and (2) the Company waived its right under the Stockholders Agreement with the CD&R Funds to issue up to \$5 million of its capital stock without the consent of the CD&R Funds during the fiscal year ending October 28, 2012, subject to certain exceptions. The December 9, 2011 Mutual Waiver and Consent does not extend to dividends on the Convertible Preferred Stock accruing after December 15, 2011 or restrict our issuance of capital stock after October 28, 2012.

In view of the December 9, 2011 Mutual Waiver and Consent, the Preferred Dividend Payment Committee of the board of directors declared and directed the payment of the December 15, 2011 dividend on the Preferred Shares in-kind at the reduced rate of 8% per annum. As a result, a dividend of 5,833.4913 Preferred Shares was paid to the holders of Convertible Preferred Stock for the period from September 16, 2011 to December 15, 2011. As a result of accruing the dividend at the stated 12% rate, and subsequently paying the lower 8% rate, the Company recorded a dividend accrual reversal of \$2.9 million in the first quarter of fiscal 2012 related to dividends accrued between September 16, 2011 and December 15, 2011. Similarly, the Company recorded a beneficial conversion feature reversal of \$1.1 million in the first quarter of fiscal 2012 related to beneficial conversion feature charges between September 16, 2011 and December 15, 2011 associated with the dividend reduction.

On March 15, 2011, the Preferred Dividend Payment Committee of the board of directors declared and paid to the holders of Convertible Preferred Stock, the CD&R Funds, a \$5.5 million cash dividend at a pro rata rate of 8% per annum. As a result of paying an 8% cash dividend, we recorded a dividend accrual reversal of \$2.7 million in the second quarter of fiscal 2011 related to dividends accrued in excess of 8% between December 16, 2010 and March 15, 2011. In addition, we reversed the related beneficial conversion feature previously recorded of \$8.2 million in the second quarter of fiscal 2011 related to the paid-in-kind dividends accrued between December 16, 2010 and March 15, 2011.

On December 15, 2010, the Preferred Dividend Payment Committee of the board of directors declared and paid to the holders of Convertible Preferred Stock, the CD&R Funds, a \$5.55 million cash dividend at the rate of 8% per annum. As a result of paying an 8% cash dividend, we recorded a dividend accrual reversal of \$2.5 million in the first quarter of fiscal 2011 related to dividends accrued in excess of 8% between September 16, 2010 and December 15, 2010. In addition, we reversed the related beneficial conversion feature previously recorded of \$5.1 million in the first quarter of fiscal 2011 related to the paid-in-kind dividends accrued between September 16, 2010 and December 15, 2010.

Convertibility and Anti-Dilution Adjustments. To the extent that we have authorized but unissued shares of Common Stock, holders of Preferred Shares have the right, at any time and from time to time, at their option, to convert any or all of their Preferred Shares, in whole or in part, into fully paid and non-assessable shares of the Company's Common Stock at the conversion price set forth in the Certificate of Designations. The number of shares of Common Stock into which a Preferred Share is convertible is determined by dividing the sum of the liquidation preference of \$1,000 per Preferred Share and the accrued and unpaid dividends of such share as of the time of conversion by the conversion price in effect at the time of conversion.

The initial conversion price of the Convertible Preferred Stock was equal to \$6.3740. The conversion price is subject to adjustment as set forth in the Certificate of Designations and is subject to customary anti-dilution adjustments, including stock dividends, splits, combinations or similar events and issuance of our Common Stock at a price below the then-current market price and, within the first three years after the Closing Date, issuances of our Common Stock below the then applicable conversion price.

Milestone Redemption Right. The Company has the right, at any time on or after the tenth anniversary of the Closing Date, to redeem in whole, but not in part, all then-issued and outstanding shares of Convertible Preferred Stock in accordance with the procedures set forth in the Certificate of Designations. Any holder of Convertible Preferred Stock has the right, at any time on or after the tenth anniversary of the Closing Date, to require that the Company redeem all, but not less than all, of its shares of Convertible Preferred Stock in accordance with the procedures set forth in the Certificate of Designations. In each case, such right (the Milestone Redemption Right), is exercisable at a redemption price for each Preferred Share equal to the sum of the liquidation preference of \$1,000 per Preferred Share and the accrued and unpaid dividends of such share as of the time of redemption.

Table of Contents

Change of Control Redemption Right. Upon certain change of control events specified in the Certificate of Designations, including certain business combinations involving the Company and certain changes to the beneficial ownership of the voting power of the Company, so long as the CD&R Funds do not own 45% or more of the voting power of the Company and directors designated by the CD&R Funds are not entitled to cast a majority of the total number of votes that can be cast by the Company's board of directors or by the directors constituting the quorum approving or recommending such change of control event, holders of Preferred Shares are able to require redemption by the Company, in whole but not in part, of the Convertible Preferred Stock (1) if redeemed after the fourth anniversary of the Closing Date, at a purchase price equal to the sum of the liquidation value of such Preferred Shares and the accrued and unpaid dividends thereon as of the redemption date or (2) if redeemed prior to the fourth anniversary of the Closing Date, at a purchase price equal to the sum of (a) the liquidation value of such Preferred Shares plus the accrued and unpaid dividends thereon as of the redemption date and (b) a make-whole premium equal to the net present value of the sum of all dividends that would otherwise be payable on and after the redemption date, to and including such fourth anniversary date, assuming that such dividends are paid in cash. In addition, upon change of control events pursuant to the Amended Credit Agreement or the ABL Facility, holders of Preferred Shares are able to require redemption by the Company, in whole but not in part, of the Convertible Preferred Stock, at a purchase price equal to 101% of the sum of the liquidation value of such Preferred Shares and the accrued and unpaid dividends thereon as of the redemption date.

In the event of a merger or other business combination resulting in a change of control in which the holders of shares of our Common Stock receive cash or securities of an unaffiliated entity as consideration for such shares, if the holder of Preferred Shares does not exercise the change of control redemption right described in the paragraph above or is not entitled to the change of control redemption right in connection with such event, such holder will be entitled to receive, pursuant to such merger or business combination, the consideration such holder would have received for its Preferred Shares had it converted such shares immediately prior to the merger or business combination transaction. In the event of a merger or other business combination not resulting in a change of control in which the holders of shares of our Common Stock receive cash or securities of an unaffiliated entity as consideration for such shares, holders of Convertible Preferred Stock shall have the option to exchange their Preferred Shares for shares of the surviving entity's capital stock having terms, preferences, rights, privileges and powers no less favorable than the terms, preferences, rights, privileges and powers under the Certificate of Designations.

Vote. Holders of Preferred Shares generally are entitled to vote with the holders of the shares of our Common Stock on all matters submitted for a vote of holders of shares of the Company's Common Stock (voting together with the holders of shares of our Common Stock as one class) and are entitled to a number of votes equal to the number of shares of Common Stock issuable upon conversion of such holder's Preferred Shares (without any limitations based on our authorized but unissued shares of the Company's Common Stock) as of the applicable record date for the determination of stockholders entitled to vote on such matters.

Certain matters require the approval of the holders of a majority of the outstanding Preferred Shares, voting as a separate class, including (1) amendments or modifications to the Company's Certificate of Incorporation, by-laws or the Certificate of Designations, that would adversely affect the terms or the powers, preferences, rights or privileges of the Convertible Preferred Stock, (2) authorization, creation, increase in the authorized amount of, or issuance of any class or series of senior securities or any security convertible into, or exchangeable or exercisable for, shares of senior securities and (3) any increase or decrease in the authorized number of Preferred Shares or the issuance of additional Preferred Shares.

In addition, in the event that the Company fails to fulfill its obligations to redeem the Convertible Preferred Stock in accordance with the terms of the Certificate of Designations following the exercise of the Milestone Redemption Right or change of control redemption rights described above, until such failure is remedied, certain additional actions of the Company shall require the approval of the holders of a majority of the outstanding Preferred Shares, voting as a separate class, including the adoption of an annual budget, the hiring and firing, or the changing of the compensation, of executive officers and the commitment, resolution or agreement to effect any business combination.

Restriction on Dividends on Junior Securities. The Company is prohibited from (i) paying any dividend with respect to our Common Stock or other junior securities, except for ordinary cash dividends in which the Convertible Preferred Stock participates and which are declared, paid or set aside after the base dividend rate for the Convertible Preferred Stock has been reduced to 0.00% as described above and dividends payable solely in shares of our Common Stock or other junior securities, or (ii) repurchasing or redeeming any shares of our Common Stock or other junior securities, unless, in each case, we have sufficient access to lawful funds immediately following such action such that we would be legally permitted to redeem in full all Preferred Shares then outstanding.

Accounting for Convertible Preferred Stock

The Convertible Preferred Stock balance and changes in the carrying amount of the Convertible Preferred Stock are as follows (in thousands):

Table of Contents

	Dividends and Accretion	Convertible Preferred Stock
Balance as of October 30, 2011		\$ 273,950
Accretion	688	
Accrued paid-in-kind dividends(1)	8,837	
Reversal of additional 4% accrued dividends(2)	(2,917)	
Subtotal		6,608
Balance as of January 29, 2012		\$ 280,558
Accretion	688	
Accrued paid-in-kind dividends(1)	9,057	
Subtotal		9,745
Balance as of April 29, 2012		\$ 290,303

(1) Dividends are accrued at the 12% rate on a daily basis until the dividend payment date.

(2) The reversal of the additional 4% accrued dividends relates to the period from September 16, 2011 to December 15, 2011. In accordance with ASC Topic 815, *Derivatives and Hedging*, and ASC Topic 480, *Distinguishing Liabilities from Equity*, we classified the Convertible Preferred Stock as mezzanine equity because the Convertible Preferred Stock (1) can be settled in cash or shares of our Common Stock, (2) contains change of control rights allowing for early redemption, and (3) contains Milestone Redemption Rights which allow the Convertible Preferred Stock to remain outstanding without a stated maturity date.

In addition, the Certificate of Designations, which is the underlying contract of the Convertible Preferred Stock, includes features that are required to be bifurcated and recorded at fair value. We classified the Convertible Preferred Stock as an equity host contract because of (1) the voting rights, (2) the participating dividends on Common Stock and mandatory, cumulative preferred stock dividends, and (3) the Milestone Redemption Right which allows the Convertible Preferred Stock to remain outstanding without a stated maturity date. We then determined that the conditions resulting in the application of the default dividend rate are not clearly and closely related to this equity host contract and we bifurcated and separately recorded these features at fair value. As of both April 29, 2012 and October 30, 2011, the fair value carrying amount of the embedded derivative was \$0.1 million.

Because the dividends accrue and accumulate on a daily basis and the amount payable upon redemption of the Convertible Preferred Stock is the liquidation preference plus accrued and unpaid dividends, accrued dividends are recorded into Convertible Preferred Stock.

In accordance with ASC Subtopic 470-20, *Debt with Conversion and Other Options*, the Convertible Preferred Stock contains a beneficial conversion feature because it was issued with an initial conversion price of \$6.3740 and the closing stock price per share of Common Stock just prior to the execution of the CD&R Equity Investment was \$12.55. The intrinsic value of the beneficial conversion feature cannot exceed the issuance proceeds of the Convertible Preferred Stock less the cash paid for the deal fee paid to the CD&R Funds manager in connection with the CD&R Equity Investment, and thus was \$241.4 million as of October 20, 2009. At April 29, 2012 and October 30, 2011, all of the potentially 48.9 million and 46.6 million shares of Common Stock, respectively, issuable upon conversion of the Preferred Shares, which includes paid-in-kind dividends, were authorized and unissued.

As of April 29, 2012 and October 30, 2011, the Preferred Shares were convertible into 48.9 million and 46.6 million shares of Common Stock, respectively, at an initial conversion price of \$6.3740. The Company recorded a \$7.9 million and \$8.0 million beneficial conversion feature charge, prior to any applicable reversal, in the three month periods ended April 29, 2012 and May 1, 2011, respectively, and \$11.9 million and \$14.9 million beneficial conversion feature charge, prior to any applicable reversal, in the six month periods ended April 29, 2012 and May 1, 2011, respectively, related to dividends that have accrued and are convertible into shares of Common Stock. As a result of accruing dividends at the stated 12% rate, and subsequently paying the lower 8% rate agreed to in the Mutual Waiver and Consent, we recorded a beneficial conversion feature reversal of \$1.1 million in the first quarter of fiscal 2012 related to beneficial conversion feature charges between September 16, 2011 and December 15, 2011 associated with the dividend reduction. As a result of paying an 8% cash dividend in the second

Edgar Filing: NCI BUILDING SYSTEMS INC - Form 10-Q

quarter of fiscal 2011, we reversed the related beneficial conversion feature previously recorded of \$8.2 million in the second quarter of fiscal 2011 related to beneficial conversion feature charges between December 16, 2010 and March 15, 2011. As a result of paying an 8% cash dividend in the first quarter of fiscal 2011, we reversed the related beneficial conversion feature previously recorded of \$5.1 million in the first quarter of fiscal 2011 related to beneficial conversion feature charges between September 16, 2010 and December 15, 2010. The Company's policy is to recognize beneficial conversion feature charges on paid-in-kind dividends based on a daily dividend recognition and the daily closing stock price of our Common Stock.

Table of Contents

The Company's aggregate liquidation preference plus accrued dividends of the Convertible Preferred Stock at April 29, 2012 and October 30, 2011 are as follows (in thousands):

	April 29, 2012	October 30, 2011
Liquidation preference	\$ 301,459	\$ 286,701
Accrued dividends	10,320	10,102
Total	\$ 311,779	\$ 296,803

At April 29, 2012 and October 30, 2011, we had 301,459 and 286,701 Preferred Shares outstanding.

NOTE 10 FAIR VALUE OF FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENTS***Fair Value of Financial Instruments***

The carrying amounts of cash, restricted cash, trade accounts receivable and accounts payable approximate fair value as of April 29, 2012 and October 30, 2011 because of the relatively short maturity of these instruments. The fair values of the remaining financial instruments not currently recognized at fair value on our Consolidated Balance Sheets at the respective fiscal period ends were (in thousands):

	April 29, 2012		October 30, 2011	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Amended Credit Agreement	\$ 128,499	\$ 127,857	\$ 130,699	\$ 127,106

The fair value of the Amended Credit Agreement was based on recent trading activities of comparable market instruments which are level 2 inputs.

Fair Value Measurements

ASC Subtopic 820-10, *Fair Value Measurements and Disclosures*, requires us to use valuation techniques to measure fair value that maximize the use of observable inputs and minimize the use of unobservable inputs. These inputs are prioritized as follows:

Level 1: Observable inputs such as quoted prices for identical assets or liabilities in active markets.

Level 2: Other inputs that are observable directly or indirectly, such as quoted prices for similar assets or liabilities or market-corroborated inputs.

Level 3: Unobservable inputs for which there is little or no market data and which require us to develop our own assumptions about how market participants would price the assets or liabilities.

The following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used at April 29, 2012 and October 30, 2011.

Money market: Money market funds have original maturities of three months or less. The original cost of these assets approximates fair value due to their short-term maturity.

Mutual funds: Mutual funds are valued at the closing price reported in the active market in which the mutual fund is traded.

Edgar Filing: NCI BUILDING SYSTEMS INC - Form 10-Q

Stocks, options and ETF s: Stocks, options and ETF s are valued at the closing price reported in the active market in which the fund is traded.

Foreign currency contracts: The fair value of the foreign currency derivatives are based on a market approach and take into consideration current foreign currency exchange rates and current creditworthiness of us or the counterparty, as applicable.

Table of Contents

Assets held for sale: Assets held for sale are valued based on current market conditions, prices of similar assets in similar condition and expected proceeds from the sale of the assets.

Deferred compensation plan liability: Deferred compensation plan liability is comprised of phantom investments in the deferred compensation plan and is valued at the closing price reported in the active market in which the money market, mutual fund or NCI stock phantom investments are traded.

Embedded derivative: The embedded derivative value is based on an income approach in which we used a probability-weighted discounted cash flow model and assigned probabilities for each qualified default event.

The following table summarizes information regarding our financial assets and liabilities that are measured at fair value on a recurring basis as of April 29, 2012, segregated by level of the valuation inputs within the fair value hierarchy utilized to measure fair value (in thousands):

	Level 1	Level 2	Level 3	Total
Assets:				
Money market	\$ 10,000	\$	\$	\$ 10,000
Short-term investments in deferred compensation plan(1):				
Money market	240			240
Mutual funds Growth	630			630
Mutual funds Blend	1,900			1,900
Mutual funds Foreign blend	664			664
Mutual funds Fixed income		556		556
Total short-term investments in deferred compensation plan	3,434	556		3,990
Other investments:				
Cash	55			55
Stocks, options and ETF s	373			373
Total other investments	428			428
Total assets	\$ 13,862	\$ 556	\$	\$ 14,418
Liabilities:				
Deferred compensation plan liability	\$ (4,208)	\$	\$	\$ (4,208)
Foreign currency contracts		(21)		(21)
Embedded derivative			(68)	(68)
Total liabilities	\$ (4,208)	\$ (21)	\$ (68)	\$ (4,297)

(1) Unrealized holding gains (losses) for the three months ended April 29, 2012 and May 1, 2011 were \$0.2 million and \$0.2 million, respectively. Unrealized holding gains (losses) for the six months ended April 29, 2012 and May 1, 2011 were \$0.2 million and \$0.3 million, respectively. These unrealized holding gains (losses) are primarily offset by changes in the deferred compensation plan liability. The following table summarizes information regarding our financial assets that are measured at fair value on a nonrecurring basis as of April 29, 2012, segregated by level of the valuation inputs within the fair value hierarchy utilized to measure fair value (in thousands):

	Level 1	Level 2	Level 3	Total
Assets:				
Assets held for sale(1)	\$	\$	\$ 2,500	2,500

Total assets	\$	\$	\$ 2,500	\$ 2,500
---------------------	----	----	----------	----------

- (1) Certain assets held for sale are valued at fair value and are measured at fair value on a nonrecurring basis. Assets held for sale are reported at fair value, if, on an individual basis, the fair value of the asset is less than cost. The fair value of assets held for sale is estimated using Level 3 inputs, such as broker quotes for like-kind assets or other market indications of a potential selling value which approximates fair value. As of April 29, 2012, the fair value of one asset group held for sale exceeded that asset group's cost and carrying value. Accordingly, that asset group held for sale has been excluded from the table as of April 29, 2012.

Table of Contents

The following table summarizes information regarding our financial assets and liabilities that are measured at fair value on a recurring basis as of October 30, 2011, segregated by level of the valuation inputs within the fair value hierarchy utilized to measure fair value (in thousands):

	Level 1	Level 2	Level 3	Total
Assets:				
Money market	\$ 12,837	\$	\$	\$ 12,837

Total liabilities	\$	\$ (4,077)	\$ (79)	\$ (4,156)

The following table summarizes information regarding our financial assets that are measured at fair value on a nonrecurring basis as of October 30, 2011, segregated by level of the valuation inputs within the fair value hierarchy utilized to measure fair value (in thousands):

	Level 1	Level 2	Level 3	Total
Assets:				
Assets held for sale(1)	\$	\$	\$ 2,500	\$ 2,500
Total assets	\$	\$	\$ 2,500	\$ 2,500

- (1) Certain assets held for sale are valued at fair value and are measured at fair value on a nonrecurring basis. Assets held for sale are reported at fair value, if, on an individual basis, the fair value of the asset is less than cost. The fair value of assets held for sale is estimated using Level 3 inputs, such as broker quotes for like-kind assets or other market indications of a potential selling value which approximates fair value. As of October 30, 2011, the fair value of one asset group held for sale exceeded that asset group's cost and carrying value. Accordingly, that asset group held for sale has been excluded from the table as of October 30, 2011.

The following table summarizes the activity in Level 3 financial instruments during the six months ended April 29, 2012 and May 1, 2011 (in thousands):

Edgar Filing: NCI BUILDING SYSTEMS INC - Form 10-Q

	April 29, 2012	May 1, 2011
Beginning balance	\$ (79)	\$ (104)
Unrealized gains (1)	11	13
Ending balance	\$ (68)	\$ (91)

- (1) Unrealized gains on the embedded derivative are recorded in other income, net in the Consolidated Statements of Operations during the six months ended April 29, 2012 and May 1, 2011.

Table of Contents**NOTE 11 INCOME TAXES**

The reconciliation of income tax computed at the statutory tax rate to the effective income tax rate is as follows:

	Fiscal Three Months Ended		Fiscal Six Months Ended	
	April 29, 2012	May 1, 2011	April 29, 2012	May 1, 2011
Statutory federal income tax rate	35.0%	35.0%	35.0%	35.0%
State income taxes	4.8%	(1.9)%	4.7%	(1.9)%
Canada valuation allowance		(0.5)%		(0.9)%
Non-deductible expenses	1.9%	(2.9)%	1.9%	(2.9)%
Other	(0.1)%	5.9%	0.1%	0.6%
Effective tax rate	41.6%	35.6%	41.7%	29.9%

We expect to generate sufficient operating profits in future periods to fully utilize our U.S. net deferred tax assets of \$13.4 million. In evaluating our expectations, we have evaluated a variety of factors including multiple industry sources citing expectations of continued growth in the nonresidential construction market into 2012 and 2013, our continued market strength in the commercial and industrial subsectors of the nonresidential market that are experiencing growth above that of the overall nonresidential construction market and our internal forecast projections which we believe will continue the profitable trends experienced in the remainder of fiscal 2011 and in fiscal 2012. Our expectations could change in the near term if nonresidential construction fails to continue its projected recovery. In the event our operating results or expectations of future operating results change, a valuation allowance may be required on our existing unreserved net U.S. deferred tax assets.

The total amount of unrecognized tax benefit at both April 29, 2012 and October 30, 2011 was \$0.3 million, all of which would impact our effective tax rate, if recognized. We do not anticipate any material change in the total amount of unrecognized tax benefits to occur within the next twelve months.

NOTE 12 COMPREHENSIVE INCOME (LOSS)

Comprehensive loss consists of the following (in thousands):

	Fiscal Three Months Ended		Fiscal Six Months Ended	
	April 29, 2012	May 1, 2011	April 29, 2012	May 1, 2011
Net income (loss)	\$ 1,321	\$ (3,229)	\$ 1,910	\$ (15,954)
Foreign exchange translation gain (loss) and other, net of tax	6	(70)	1	80
Gain in fair value of foreign currency derivative, net of tax	72	75	(17)	(75)
Comprehensive income (loss)	\$ 1,399	\$ (3,224)	\$ 1,894	\$ (15,959)

Accumulated other comprehensive loss consists of the following (in thousands):

	April 29, 2012	May 1, 2011
Foreign exchange translation adjustments, net of tax	\$ 569	\$ 507
Defined benefit pension plan actuarial losses, net of tax	(6,058)	(2,524)
Foreign currency derivative, net of tax	(12)	75

Edgar Filing: NCI BUILDING SYSTEMS INC - Form 10-Q

Accumulated other comprehensive loss \$ (5,501) \$ (1,942)

A summary of the components of other comprehensive income (loss) and the related tax effects for each of the periods presented is as follows (in thousands):

	Fiscal Three Months Ended April 29, 2012			Fiscal Three Months Ended May 1, 2011		
	Before-Tax Amount	Tax (Expense) or Benefit	Net-of-Tax Amount	Before-Tax Amount	Tax (Expense) or Benefit	Net-of-Tax Amount

Other Comprehensive income (loss)	\$ (62)	\$ 46	\$ (16)	\$ 41	\$ (46)	\$ (5)

NOTE 13 BUSINESS SEGMENTS

We have aggregated our operations into three reportable segments based upon similarities in product lines, manufacturing processes, marketing and management of our businesses: metal coil coating; metal components; and engineered building systems. All business segments operate primarily in the nonresidential construction market. Sales and earnings are influenced by general economic conditions, the level of nonresidential construction activity, metal roof repair and retrofit demand and the availability and terms of financing available for construction. Products of our business segments use similar basic raw materials. The metal coil coating segment consists of cleaning, treating, painting and slitting continuous steel coils before the steel is fabricated for use by construction and industrial users. The metal components segment products include metal roof and wall panels, doors, metal partitions, metal trim, insulated panels and other related accessories. The engineered building systems segment includes the manufacturing of main frames, Long Bay® Systems and value added engineering and drafting, which are typically not part of metal components or metal coil coating products or services. The reporting segments follow the same accounting policies used for our consolidated financial statements.

We evaluate a segment's performance based primarily upon operating income before corporate expenses. Intersegment sales are recorded based on standard material costs plus a standard markup to cover labor and overhead and consist of: (i) hot-rolled, light gauge painted and slit material and other services provided by the metal coil coating segment to both the engineered building systems and metal components segments; (ii) building components provided by the metal components segment to the engineered building systems segment; and (iii) structural framing provided by the engineered building systems segment to the metal components segment. Corporate assets consist primarily of cash but also include deferred financing costs, deferred taxes and property, plant and equipment associated with our headquarters in Houston, Texas. These items (and income and expenses related to these items) are not allocated to the business segments. Corporate unallocated expenses include executive, legal, finance, tax, treasury, human resources, information technology, purchasing, marketing and corporate travel expenses. Additional unallocated expenses include interest income, interest expense and other (expense) income.

The following table represents sales, operating income and total assets attributable to these business segments for the periods indicated (in thousands):

	Fiscal Three Months Ended		Fiscal Six Months Ended	
	April 29, 2012	May 1, 2011	April 29, 2012	May 1, 2011
Total sales:				
Metal coil coating	\$ 48,839	\$ 47,927	\$ 97,922	\$ 90,201
Metal components	106,742	103,375	212,494	193,680
Engineered building systems	148,715	129,790	289,013	231,202
Intersegment sales	(54,065)	(55,527)	(105,595)	(99,432)
Total sales	\$ 250,231	\$ 225,565	\$ 493,834	\$ 415,651
External sales:				
Metal coil coating	\$ 19,572	\$ 16,985	\$ 39,810	\$ 34,178
Metal components	85,324	82,613	172,620	156,629
Engineered building systems	145,335	125,967	281,404	224,844
Total sales	\$ 250,231	\$ 225,565	\$ 493,834	\$ 415,651

Total assets	\$ 562,661	\$ 561,154

NOTE 14 CONTINGENCIES

As a manufacturer of products primarily for use in nonresidential building construction, we are inherently exposed to various types of contingent claims, both asserted and unasserted, in the ordinary course of business. As a result, from time to time, we and/or our subsidiaries become involved in various legal proceedings or other contingent matters arising from claims, or potential claims. We insure against these risks to the extent deemed prudent by our management and to the extent insurance is available. Many of these insurance policies contain deductibles or self-insured retentions in amounts we deem prudent and for which we are responsible for payment. In determining the amount of self-insurance, it is our policy to self-insure those losses that are predictable, measurable and recurring in nature, such as claims for automobile liability, general liability and workers compensation. The Company regularly reviews the status of on-going proceedings and other contingent matters along with legal counsel. Liabilities for such items are recorded when it is probable that the liability has been incurred and when the amount of the liability can be reasonably estimated. Liabilities are adjusted when additional information becomes available. Management believes that the ultimate disposition of these matters will not have a material adverse effect on the Company's operations or financial position taken as a whole.

NOTE 15 SUBSEQUENT EVENTS***Definitive Agreement to Purchase Metl-Span LLC***

On May 2, 2012, NCI Group, Inc. (NCI), a wholly owned subsidiary of the Company, entered into a definitive agreement with VSMA, Inc. (VSMA), Metl-Span LLC, and BlueScope Steel North America Corporation (Equity Purchase Agreement) to purchase Metl-Span LLC (Metl-Span) from VSMA, Inc., a subsidiary of BlueScope Steel North America Corporation, for \$145 million in cash (such acquisition, the Acquisition). Metl-Span operates five manufacturing facilities in the United States serving the nonresidential building products market with cost-effective and energy efficient insulated metal wall and roof panels. For the year ended December 31, 2011, Metl-Span had estimated revenues of \$170 million. Metl-Span is being sold on a cash-free, debt-free basis, and the purchase price is subject to adjustment based on Metl-Span's working capital at closing.

Each of NCI, VSMA and Metl-Span has made customary representations and warranties and has agreed to customary covenants in the Equity Purchase Agreement. The closing of the Acquisition, which is currently expected to close before the end of the calendar year, is subject to (i) the expiration or early termination of the waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended (the HSR Act), and (ii) other customary conditions to closing, including the execution and delivery of (a) a transition services agreement between VSMA and Metl-Span, (b) a supply agreement among Steelscape, Inc., a California corporation and affiliate of VSMA (Steelscape), Metl-Span and NCI, pursuant to which Steelscape has agreed to supply certain metallic-coated and painted steel coils for use in Metl-Span's product lines, (c) an OEM supply agreement between Metl-Span and BlueScope Buildings North America, Inc., a Delaware corporation and affiliate of VSMA (BBNA), pursuant to which Metl-Span has agreed to sell certain insulated wall, roof and ceiling panel products to BBNA, and (d) certain other related transaction documents.

The Equity Purchase Agreement is subject to termination by either NCI or VSMA for various reasons, including the failure of the closing of the Acquisition to occur on or before October 15, 2012 (the Initial Termination Date), provided that (i) NCI may extend such termination date under certain circumstances (a) to the date that is two days after the marketing period under the Commitment Letter (as described below) or (b) up to 60 days after the Initial Termination Date if all conditions to the closing of the Acquisition have been satisfied other than with respect to the HSR Act and those conditions that by their nature cannot be satisfied other than at the closing (each of which conditions is capable of being satisfied at the date of termination if the closing of the Acquisition were to occur at such time), and (ii) VSMA may extend such termination date under certain circumstances to a date that is three business days after the Initial Termination Date. The obligations of NCI to consummate the Acquisition are not subject to the availability of financing.

The Equity Purchase Agreement provides that NCI will be required to pay to VSMA a reverse termination fee of \$10.15 million upon termination under certain specified circumstances, including in the event of VSMA's termination due to NCI's failure to consummate the Acquisition if all of the conditions to its obligations have been satisfied or waived (other than those that by their nature will not be satisfied until

Edgar Filing: NCI BUILDING SYSTEMS INC - Form 10-Q

the closing, each of which is capable of being satisfied at the date of termination if the closing were to occur at that time). Under certain other specified circumstances, NCI will be required to pay a reverse termination fee of \$14.5 million including in the case of VSMA's termination under the circumstances described in the preceding sentence if either (i) the proceeds of the Term

Table of Contents

Loan Facility (as described below) could have been funded upon delivery of a drawdown notice or (ii) could not be funded and the failure of such funding was the result of a breach by NCI of any of its covenants under the Equity Purchase Agreement.

NCI and VSMA have agreed to indemnify each other for losses arising from breaches of the representations, warranties and covenants of the Equity Purchase Agreement and for certain other liabilities, subject to specified limitations. BSNA has agreed to guarantee the performance of VSMA's obligations under the Equity Purchase Agreement.

In connection with the transaction, NCI will refinance its existing ABL Facility and Term Loan, which both mature in April 2014. NCI will utilize its ABL Facility and Term Loan Facility, together with cash on hand, to fund the Acquisition.

On May 2, 2012, we entered into a debt financing commitment letter (the *Commitment Letter*) for a \$250.0 million senior secured credit facility (the *Term Loan Facility*) to be available on the closing date of the Acquisition. Proceeds from the Term Loan Facility will be used, together with approximately \$25 million of cash on hand and/or certain borrowings under the Loan and Security Agreement, as amended by the ABL Facility Amendment (in each case, as defined below), to finance the acquisition, the repayment of the existing Term Loan of NCI and the related fees and expenses. On May 16, 2012, we amended and restated the Commitment Letter solely to include an additional financial institution as a lender under the Term Loan Facility.

The Term Loan Facility will include certain representations and warranties, affirmative and negative covenants, events of default and collateral and guarantee arrangements, as described in the Commitment Letter. The Commitment Parties' obligations to provide the financing are subject to the satisfaction of specified conditions, including the consummation of the Acquisition in accordance with the terms of the Equity Purchase Agreement, the accuracy of specified representations and the absence of a material adverse effect on Metl-Span, as described in the Commitment Letter.

As a result of the anticipated terms of the Commitment Letter, in our third fiscal quarter 2012, we expect to recognize a one-time, non-cash debt extinguishment charge related to the existing Term Loan of approximately \$4 to \$5 million subject to the funding of the new Term Loan Facility.

On May 2, 2012, we entered into Amendment No. 2 (the *ABL Facility Amendment*) to the Loan and Security Agreement (the *Loan and Security Agreement*) to (i) permit the acquisition, the entry by the Company into the Term Loan Facility and the incurrence of debt thereunder and the repayment of existing indebtedness under NCI's existing Term Loan, (ii) increase the amount available for borrowing thereunder to \$150 million (subject to a borrowing base), (iii) increase the amount available for letters of credit thereunder to \$30 million, and (iv) extend the final maturity thereunder to May 2, 2017.

As a result of the ABL Facility Amendment, in our third fiscal quarter 2012, we expect to recognize a one-time, non-cash debt extinguishment charge of approximately \$2 million.

Agreement with Holders of Convertible Preferred Stock to Eliminate Future Dividend Obligations

On May 1, 2012, we reached an understanding in principle and on May 8, 2012, we entered into an Amendment Agreement (the *Amendment Agreement*) with the CD&R Funds, the holders of our convertible preferred shares, to eliminate our quarterly dividend obligation on the preferred shares, which accrued at an annual rate of 12% unless paid in cash at 8%. However, this does not preclude the payment of contingent default dividends, if applicable.

Under the terms of the Certificate of Designations, Preferences and Rights of Series B Cumulative Convertible Participating Preferred Stock (the *Certificate of Designations*), we were contractually obligated to pay quarterly dividends to the holders of the convertible preferred shares from October 20, 2009, through October 20, 2019, subject to certain dividend knock-out provisions. The Amendment Agreement provides for the Certificate of Designations to be amended to terminate the dividend obligation from and after March 15, 2012 (the *Dividend Knock-out*).

As consideration for the Dividend Knock-out, the CD&R Funds will receive a total of 37,834 additional shares of Convertible Preferred Stock, representing (i) approximately \$6.5 million of dividends accrued from March 15, 2012 through May 18, 2012 (20 trading days after April 20, 2012, on which date the dividend knock-out measurement period commenced) and (ii) approximately \$31.4 million in additional liquidation preference of Convertible Preferred Stock, or 10% of the approximate total \$313.7 million of accreted value as of May 18, 2012. Upon the closing of the transactions contemplated by the Amendment Agreement, funds managed by CD&R will hold Convertible Preferred Stock with an aggregate liquidation preference and accrued dividends of approximately \$345 million. The Convertible Preferred Stock and accrued dividends entitle the funds managed by CD&R to receive approximately 54.1 million shares of common stock, representing 72.7% of the voting power and common stock of the Company on an as-converted basis and an increase of approximately 2% from CD&R's position at April 29,

2012.

Table of Contents

The Amendment Agreement with the CD&R Funds has been approved by the Company's independent directors, as independence is defined by the rules and regulations of the Securities and Exchange Commission and the listing standards of the New York Stock Exchange, as well as by all of the Company's directors who are independent of and not affiliated with the CD&R Funds.

As a result of the Amendment Agreement, in our third fiscal quarter 2012 we expect to recognize a one-time, non-cash dividend charge related to the extinguishment of the Convertible Preferred Stock of approximately \$55 million subject to the final determination of fair value of the Convertible Preferred Stock. The actual charge will depend on completing the financial accounting analysis and the fair value assessments of the Convertible Preferred Stock. As a result, the actual noncash charge may vary significantly from our current estimate. We further expect the carrying value of the Convertible Preferred Stock to be increased to fair value from the current carrying value of \$290 million. We expect the change in carrying value to fair value to reduce additional paid-in-capital and increase accumulated deficit, collectively.

NCI BUILDING SYSTEMS, INC.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following information should be read in conjunction with the unaudited consolidated financial statements included herein under Item 1. Unaudited Consolidated Financial Statements and the audited consolidated financial statements and the notes thereto and Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for the fiscal year ended October 30, 2011.

FORWARD LOOKING STATEMENTS

This Quarterly Report includes statements concerning our expectations, beliefs, plans, objectives, goals, strategies, future events or performance and underlying assumptions and other statements that are not historical facts. These statements are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Actual results may differ materially from those expressed or implied by these statements. In some cases, our forward-looking statements can be identified by the words anticipate, believe, continue, could, estimate, expect, forecast, goal, intend, may, objective, plan, potential, predict, projection, should, will or other similar words. We have based our statements on our management's beliefs and assumptions based on information available to our management at the time the statements are made. We caution you that assumptions, beliefs, expectations, intentions and projections about future events may and often do vary materially from actual results. Therefore, we cannot assure you that actual results will not differ materially from those expressed or implied by our forward-looking statements. Accordingly, investors are cautioned not to place undue reliance on any forward-looking information, including any earnings guidance. Although we believe that the expectations reflected in the forward-looking statements are reasonable, these expectations and the related statements are subject to risks, uncertainties, and other factors that could cause the actual results to differ materially from those projected. These risks, uncertainties, and other factors include, but are not limited to:

industry cyclicality and seasonality and adverse weather conditions;

challenging economic conditions affecting the nonresidential construction industry;

volatility in the U.S. economy and abroad, generally, and in the credit markets;

ability to service or refinance our debt, including additional debt to finance the Acquisition (as defined below), and obtain future financing;

the Company's ability to comply with the financial tests and covenants in its existing and future debt obligations;

operational limitations or restrictions in connection with our debt;

recognition of asset impairment charges;

commodity price increases and/or limited availability of raw materials, including steel;

the ability to make strategic acquisitions accretive to earnings;

our ability to consummate the transactions contemplated by the Equity Purchase Agreement, dated as of May 2, 2012, by and among the Company, VSMA, Inc., a Delaware corporation, Metl-Span LLC, a Texas limited liability company, and BlueScope Steel North America Corporation, a Delaware corporation (the Acquisition);

our ability to realize the anticipated benefits of the Acquisition;

Table of Contents

retention and replacement of key personnel;

enforcement and obsolescence of intellectual property rights;

fluctuations in customer demand;

costs related to environmental clean-ups and liabilities;

competitive activity and pricing pressure;

the volatility of the Company's stock price;

the substantial rights, seniority and dilutive effect on our common stockholders of the Convertible Preferred Stock issued to the CD&R Funds;

breaches of our information security system security measures;

hazards that may cause personal injury or property damage, thereby subjecting us to liabilities and possible losses, which may not be covered by insurance;

changes in laws or regulations;

costs and other effects of legal and administrative proceedings, settlements, investigations, claims and other matters; and

other risks detailed under the caption "Risk Factors" in our most recent Annual Report on Form 10-K as filed with the SEC.

A forward-looking statement may include a statement of the assumptions or bases underlying the forward-looking statement. We believe that we have chosen these assumptions or bases in good faith and that they are reasonable. However, we caution you that assumed facts or bases almost always vary from actual results, and the differences between assumed facts or bases and actual results can be material, depending on the circumstances. When considering forward-looking statements, you should keep in mind the risk factors and other cautionary statements in this report and those described under the caption "Risk Factors" in our most recent Annual Report on Form 10-K as filed with the SEC. We expressly disclaim any obligations to release publicly any updates or revisions to these forward-looking statements to reflect any changes in our expectations unless the securities laws require us to do so.

OVERVIEW

NCI Building Systems, Inc. (together with its subsidiaries, unless the context requires otherwise, the "Company," "we," "us" or "our") is one of North America's largest integrated manufacturers and marketers of metal products for the nonresidential construction industry. We provide metal coil coating services and design, engineer, manufacture and market metal components and engineered building systems primarily for nonresidential construction use. We manufacture and distribute extensive lines of metal products for the nonresidential construction market under multiple brand names through a nationwide network of plants and distribution centers. We sell our products for both new construction and repair and retrofit applications.

Edgar Filing: NCI BUILDING SYSTEMS INC - Form 10-Q

Metal components offer builders, designers, architects and end-users several advantages, including lower long-term costs, longer life, attractive aesthetics and design flexibility. Similarly, engineered building systems offer a number of advantages over traditional construction alternatives, including shorter construction time, more efficient use of materials, lower construction costs, greater ease of expansion and lower maintenance costs.

We assess performance across our business segments by analyzing and evaluating (i) gross profit, operating income and whether or not each segment has achieved its projected sales goals, and (ii) non-financial efficiency indicators such as gross profit per employee, man hours per ton of steel produced and shipped tons per day. In assessing our overall financial performance, we regard return on adjusted operating assets, as well as growth in earnings, as key indicators of shareholder value.

Second Fiscal Quarter

Our strong second quarter of fiscal 2012 results demonstrated solid execution across each of our business segments and the success of our external and internal initiatives to generate profitable growth in a market that continues to be very challenging. Revenue growth was led by the strong performance of our engineered metal building systems and metal coil coating segments and operating profitability benefitted from a more favorable business mix as well as ongoing efficiency improvements in our manufacturing,

Table of Contents

engineering and supply chain operations. Bookings in the second quarter of fiscal 2012 were 39% above the comparable year-ago period. Backlog at the end of the second quarter of fiscal 2012 reached \$259 million which was 23% higher than at the end of the second quarter of fiscal 2011. Both the bookings and backlog are positive indicators as we enter the seasonally stronger second half of fiscal 2012. The velocity in converting our backlog to production continued at high levels in the second quarter of fiscal 2012 compared to both last year's and historical levels. All three of our business segments posted operating profits in the second quarter of fiscal 2012, led by the strong recovery of our engineered building systems segment.

The metal coil coating segment remained focused on building share in their traditional markets and growing their business in new markets. Third-party sales increased 15% and operating profit was up 12%. Refurbishment of the new Middletown, Ohio facility is proceeding on schedule, and the plant is expected to begin operating by the end of calendar 2013, providing important access to new geographic markets and enhanced logistic efficiencies for internal coating demands.

In the metal components segment, improved conditions in the manufacturing and agricultural markets offset sluggish conditions in certain commercial and industrial sectors. Third-party sales increased 3%, while operating income improved 22%, benefitting from an unusual recovery of self-insured general liability costs of \$1.9 million.

The engineered metal buildings segment's revenues increased 15% in the second quarter of fiscal 2012, compared to the second quarter of fiscal 2011, and operating profit was \$6.7 million, compared to the loss of \$0.2 million in the same period in the prior year. Revenue gains were driven by improved demand from the manufacturing, warehousing and retail sectors, and operating profitability reflected an improved mix of higher and lower complexity projects.

Industry Conditions

Our sales and earnings are subject to both seasonal and cyclical trends and are influenced by general economic conditions, interest rates, the price of steel relative to other building materials, the level of nonresidential construction activity, roof repair and retrofit demand and the availability and cost of financing for construction projects.

The nonresidential construction industry is highly sensitive to national and regional macroeconomic conditions. One of the primary challenges we face is that the United States economy is slowly recovering from a recession and is in a period of significant volatility which, beginning in the third quarter of 2008, reduced demand for our products and adversely affected our business. In addition, the tightening of credit in financial markets over the same period adversely affected the ability of our customers to obtain financing for construction projects. As a result, we have experienced decreases in orders and cancellations of orders for our products in previous fiscal quarters, and the ability of our customers to make payments has been adversely affected. Similar factors could cause our suppliers to experience financial distress or bankruptcy, resulting in temporary raw material shortages. The lack of credit also adversely affects nonresidential construction, which is the focus of our business. While economic growth has either resumed or remains flat, the nonresidential construction industry continues to face significant challenges. The graph below shows the annual nonresidential new construction starts, measured in square feet, since 1968 as compiled and reported by McGraw-Hill:

Table of Contents

Source: McGraw-Hill

When assessing the state of the metal construction market, we review information from various industry associations, third-party research, and various government reports such as industrial production and capacity utilization. One such industry association is the Metal Building Manufacturers Association (MBMA), which provides summary member sales information and promotes the design and construction of metal buildings and metal roofing systems. Another is McGraw-Hill Construction Information Group, which we review for information regarding actual and forecasted growth in various construction related industries, including the overall nonresidential construction market. McGraw-Hill Construction's nonresidential construction forecast for calendar 2012, published in April 2012, indicates an increase of 2% in square footage and a decrease of 1% in dollar value as compared to the prior calendar year. In calendar 2013, the nonresidential construction forecast is expected to increase compared to calendar 2012, with an expected increase of 16% in square footage and an increase of 14% in dollar value. Additionally, we review the American Institute of Architects (AIA) survey for inquiry and billing activity for the industrial, commercial and institutional sectors. The AIA's architecture billings index (ABI) is a closely watched metric, as billings growth for architecture services generally leads to construction spending growth 9 to 12 months forward. An ABI reading above 50 indicates an increase in month-to-month billings and a reading below 50 indicates a decrease in month-to-month billings. AIA's ABI published for April 2012 was below 50 at 48.4 but the commercial and industrial component of the index was 53.8, the eighth consecutive month above 50.

Another challenge we face both short and long term is the volatility in the price of steel. Our business is heavily dependent on the supply of steel and is significantly impacted by steel prices. For the fiscal six months ended April 29, 2012, steel represented approximately 72% of our cost of goods sold. The steel industry is highly cyclical in nature, and steel prices have been volatile in recent years and may remain volatile in the future. Steel prices are influenced by numerous factors beyond our control, including general economic conditions domestically and internationally, competition, labor costs, production costs, import duties and other trade restrictions. The monthly CRU North American Steel Price Index, published by the CRU Group, has decreased 15.9% from October 2011 to April 2012 and was 0.8% higher in April 2012 compared to April 2011.

We do not have any long-term contracts for the purchase of steel and normally do not maintain an inventory of steel in excess of our current production requirements. However, from time to time, we may purchase steel in advance of announced steel price increases. We can give no assurance that steel will be readily available or that prices will not continue to be volatile. While most of our sales contracts have escalation clauses that allow us, under certain circumstances, to pass along all or a portion of increases in the price of steel after the date of the contract but prior to delivery, for competitive or other reasons we may not be able to pass such price increases along. If the available supply of steel declines, we could experience price increases that we are not able to pass on to the end users, a deterioration of service from our suppliers or interruptions or delays that may cause us not to meet delivery schedules to our customers. Any of these problems could adversely affect our results of operations and financial condition. For additional discussion please see Item 3. Quantitative and Qualitative Disclosures About Market Risk -Steel Prices.

Table of Contents**RESULTS OF OPERATIONS**

We have aggregated our operations into three reportable segments based upon similarities in product lines, manufacturing processes, marketing and management of our businesses: (i) metal coil coating; (ii) metal components; and (iii) engineered building systems. All business segments operate primarily in the nonresidential construction market. Sales and earnings are influenced by general economic conditions, the level of nonresidential construction activity, metal roof repair and retrofit demand and the availability and terms of financing available for construction. Products of all business segments use similar basic raw materials. The metal coil coating segment consists of cleaning, treating, painting and slitting continuous steel coils before the steel is fabricated for use by construction and industrial users. The metal components segment products include metal roof and wall panels, doors, metal partitions, metal trim, insulated panels and other related accessories. The engineered building systems segment includes the manufacturing of main frames, Long Bay® Systems and value-added engineering and drafting, which are typically not part of metal components or metal coil coating products or services. The reporting segments follow the same accounting policies used for our consolidated financial statements.

We evaluate a segment's performance based primarily upon operating income before corporate expenses. Intersegment sales are recorded based on standard material costs plus a standard markup to cover labor and overhead and consist of: (i) hot-rolled, light gauge painted, and slit material and other services provided by the metal coil coating segment to both the metal components and engineered building systems segments; (ii) building components provided by the metal components segment to the engineered building systems segment; and (iii) structural framing provided by the engineered building systems segment to the metal components segment.

Corporate assets consist primarily of cash but also include deferred financing costs, deferred taxes and property, plant and equipment associated with our headquarters in Houston, Texas. These items (and income and expenses related to these items) are not allocated to the business segments. Corporate unallocated expenses include executive, legal, finance, tax, treasury, human resources, information technology, purchasing, marketing and corporate travel expenses. Additional unallocated expenses include interest income, interest expense and other (expense) income. Segment information is included in Note 13 of our consolidated financial statements.

The following table represents sales and operating income attributable to these business segments for the periods indicated (in thousands, except percentages):

	Fiscal Three Months Ended				Fiscal Six Months Ended			
	April 29, 2012	%	May 1, 2011	%	April 29, 2012	%	May 1, 2011	%
Total sales:								
Metal coil coating	\$ 48,839	20	\$ 47,927	21	\$ 97,922	20	\$ 90,201	22
Metal components	106,742	43	103,375	46	212,494	43	193,680	46
Engineered building systems	148,715	59	129,790	58	289,013	59	231,202	56
Intersegment sales	(54,065)	(22)	(55,527)	(25)	(105,595)	(22)	(99,432)	(24)
Total sales	\$ 250,231	100	\$ 225,565	100	\$ 493,834	100	\$ 415,651	100
Operating income (loss):

Income (loss) before income taxes	\$ 2,263		\$ (5,015)		\$ 3,278		\$ (22,749)	

FISCAL THREE MONTHS ENDED APRIL 29, 2012 COMPARED TO FISCAL THREE MONTHS ENDED MAY 1, 2011

Consolidated sales increased by 10.9%, or \$24.7 million for the three months ended April 29, 2012, compared to the three months ended May 1, 2011. This increase resulted from higher relative sales prices in our metal components and engineered building systems segments, which

Edgar Filing: NCI BUILDING SYSTEMS INC - Form 10-Q

increased as a result of the pass-through of higher underlying steel costs and higher transaction prices resulting from an improved production mix toward higher value-added projects. In addition, the increase resulted from higher tonnage volumes in each of our segments for the three months ended April 29, 2012 compared to the same period in 2011 which was driven by improved demand in the end use sectors we serve compared to the prior year.

Consolidated cost of sales increased by 10.0%, or \$17.5 million for the three months ended April 29, 2012, compared to the three months ended May 1, 2011. Gross margins were 23.2% for the three months ended April 29, 2012 compared to 22.5% for the same period in the prior year. The increase in gross margins was the result of higher relative sales prices in our engineered building systems segment, increased volumes in our engineered building systems and metal coil coating segments, and lower per unit conversion and delivery costs in our engineered building systems segment.

Table of Contents

Metal coil coating sales increased by 1.9%, or \$0.9 million to \$48.8 million in the three months ended April 29, 2012, compared to \$47.9 million in the same period in the prior year. Sales to third parties for the three months ended April 29, 2012 increased by 15.2% to \$19.6 million from \$17.0 million in the same period in the prior year, primarily as a result of a 30.2% increase in tons shipped due to the acquisition of new customers and end users. This increase was partially offset by a shift in product mix from package sales of coated steel products to tolling revenue for coating services. Package sales include both the toll processing services and the sale of the steel coil while toll processing services include only the toll processing service performed on the steel coil already in the customer's ownership. The remaining \$1.7 million represents a decrease in intersegment sales for the three months ended April 29, 2012 compared to the same period in the prior year. Metal coil coating third-party sales accounted for 7.8% of total consolidated third-party sales in the three months ended April 29, 2012 compared to 7.5% in the three months ended May 1, 2011.

Operating income of the metal coil coating segment increased to \$4.9 million in the three months ended April 29, 2012, compared to \$4.4 million in the same period in the prior year. The \$0.5 million increase resulted primarily from a \$0.4 million decrease in selling and administrative expenses related to various immaterial costs.

Metal components sales increased 3.3%, or \$3.4 million to \$106.7 million in the three months ended April 29, 2012, compared to \$103.4 million in the same period in the prior year. This increase was primarily due to higher sales prices, which mainly increased as a result of the pass-through of higher underlying steel costs, and a 0.9% increase in external tons shipped. Sales to third parties for the three months ended April 29, 2012 increased \$2.7 million to \$85.3 million from \$82.6 million in the same period in the prior year. The remaining \$0.7 million represents an increase in intersegment sales. Metal components third-party sales accounted for 34.1% of total consolidated third-party sales in the three months ended April 29, 2012 compared to 36.6% in the three months ended May 1, 2011.

Operating income of the metal components segment increased to \$9.0 million in the three months ended April 29, 2012, compared to \$7.4 million in the same period in the prior year. The \$1.6 million increase resulted from a \$1.9 million recovery in the current period compared to a \$1.3 million charge in the same period of the prior year related to an actuarial determined general liability charge, partially offset by margin compression related to pricing pressure coupled with increasing steel costs. In addition, the increase in operating income was partially offset by a \$0.2 million increase in selling and administrative expenses related to a \$0.9 million increase in wages and commissions, partially offset by a \$0.7 million decrease in bad debt expense.

Engineered building systems sales increased 14.6%, or \$18.9 million to \$148.7 million in the three months ended April 29, 2012, compared to \$129.8 million in the same period in prior year. This increase resulted from higher sales prices which increased as a result of the pass-through of higher underlying steel costs and a 3.6% increase in external tons shipped. Sales to third parties for the three months ended April 29, 2012 increased \$19.4 million to \$145.3 million from \$126.0 million in the same period in the prior year. The remaining \$0.4 million represents an decrease in intersegment sales. These results were driven by improved demand in the end use sectors we serve in the three months ended April 29, 2012. Engineered building systems third-party sales accounted for 58.1% of total consolidated third-party sales in the three months ended April 29, 2012 compared to 55.8% in the three months ended May 1, 2011.

Operating income (loss) of the engineered building systems segment improved to income \$6.7 million in the three months ended April 29, 2012 compared to a loss of \$0.2 million in the same period in the prior year. This \$6.9 million improvement resulted from an \$8.6 million increase in gross profit. The increase in gross profit was due to increases in relative sales prices and external tons shipped as noted above. These improvements were partially offset by a \$1.7 million increase in engineering, selling and administrative expenses primarily due to a \$1.3 million increase in wages, commissions and benefit costs which was mainly the result of higher volume and \$0.7 million increase in marketing costs.

Consolidated engineering, selling, general and administrative expenses, consisting of engineering, drafting, selling and administrative costs, decreased to \$51.6 million in the three months ended April 29, 2012, compared to \$52.7 million in the same period in the prior year. The \$1.1 million decrease in engineering, selling and administrative expenses was primarily due to a \$1.9 million recovery in the current period compared to a \$1.3 million charge in the same period of the prior year related to an actuarial determined general liability charge and a \$0.9 million decrease in bad debt expense, partially offset by a \$2.8 million increase in wages, commissions and benefit costs which was mainly the result of higher volume, \$0.8 million increase in marketing costs and \$0.5 million in one-time executive retirement costs. As a percentage of sales, engineering, selling, general and administrative expenses were 20.6% for the three months ended April 29, 2012 as compared to 23.3% for the three months ended May 1, 2011.

Acquisition-related costs for the three months ended April 29, 2012 were \$1.5 million. There was no amount recorded in the same period of the prior year. These costs represent various services to enter into a definitive agreement to purchase Metl-Span LLC for \$145 million in cash. See Definitive Agreement to Purchase Metl-Span LLC.

Table of Contents

Consolidated interest expense decreased by 21.5% to \$3.1 million for the three months ended April 29, 2012, compared to \$3.9 million for the same period of the prior year. Interest expense decreased primarily due to the decrease in the interest rate on the term loan on October 31, 2011 from 8% to 6.5% and decreases in the underlying debt balances.

Consolidated provision (benefit) for income taxes was a \$0.9 million provision for the three months ended April 29, 2012, compared to a benefit of \$1.8 million for the same period in the prior year. The effective tax rate for the three months ended April 29, 2012 was 41.6% compared to 35.6% for the same period in the prior year. The increase in the effective tax rate for the three months ended April 29, 2012 compared to the same period in the prior year was the result of state income taxes and non-deductible expenses resulting from an increase in pre-tax profit.

Consolidated Convertible Preferred Stock dividends and accretion for the three months ended April 29, 2012 was \$9.7 million compared to \$6.3 million in the same period in the prior year and related primarily to our paying accrued dividends on our Series B Cumulative Convertible Participating Preferred Stock, par value \$1.00 per share (Convertible Preferred Stock, and shares thereof, Preferred Shares), which accrue and accumulate on a daily basis at 12% per annum. We paid dividends in-kind at the rate of 12% per annum on the Preferred Shares in March 2012. Because we paid \$5.5 million of dividends on the Preferred Shares in cash in March 2011, we reversed the additional 4% of dividends accrued at 12% amounting to \$2.7 million of dividends accrued between December 16, 2010 and March 15, 2011. We do not expect to pay dividends on the Preferred Shares in future periods as a result of the Amendment Agreement. See Convertible Preferred Stock.

Consolidated Convertible Preferred Stock beneficial conversion feature charge was \$7.9 million in the three months ended April 29, 2012 compared to a \$(0.2) million in the same period in the prior year and related to dividends that have accrued on our Convertible Preferred Stock and are convertible into shares of Common Stock at a conversion price below the prevailing market price of Common Stock during the accrual period. The increase was the result of (1) our paying the March 2011 dividends in cash (at the rate of 8% per annum), rather than in-kind (at the rate of 12% per annum) and (2) our paying the March 2012 dividend in-kind at the rate of 12% per annum.

Diluted loss per common share improved to a loss of \$(0.86) per diluted common share for the three months ended April 29, 2012, compared to a loss of \$(0.51) per diluted common share for the same period in the prior year. The increase in the diluted loss per common share was primarily due to the increase in the beneficial conversion charge and the dividends and accretion on the Convertible Preferred Stock as noted above, partially offset by a \$4.6 million improvement in net income (loss) applicable to shares of our Common Stock resulting from the factors described above in this section. At April 29, 2012, the Preferred Shares were convertible into 48.9 million shares of Common Stock. The Convertible Preferred Stock and the unvested restricted Common Stock related to our Incentive Plan do not have a contractual obligation to share in losses; therefore, no losses were allocated to these shares in both periods presented. These participating securities will be allocated earnings when applicable.

FISCAL SIX MONTHS ENDED APRIL 29, 2012 COMPARED TO FISCAL SIX MONTHS ENDED MAY 1, 2011

Consolidated sales increased by 18.8%, or \$78.2 million for the six months ended April 29, 2012, compared to the six months ended May 1, 2011. The increase resulted from higher tonnage volumes in each of our segments for the six months ended April 29, 2012 compared to the same period in 2011 which was driven by improved demand in the end use sectors we serve compared to the prior year. In addition, this increase resulted from higher relative sales prices in each of our segments, which mainly increased as a result of the pass-through of higher underlying steel costs.

Consolidated cost of sales increased by 15.4%, or \$50.9 million for the six months ended April 29, 2012, compared to the six months ended May 1, 2011. Gross margins were 22.6% for the six months ended April 29, 2012 compared to 20.3% for the same period in the prior year. The increase in gross margins was the result of higher relative sales prices and increased volumes in each of our segments.

Metal coil coating sales increased by 8.6%, or \$7.7 million to \$97.9 million in the six months ended April 29, 2012, compared to \$90.2 million in the same period in the prior year. Sales to third parties for the six months ended April 29, 2012 increased by 16.5% to \$39.8 million from \$34.2 million in the same period in the prior year, primarily as a result of a 19.5% increase in tons shipped due to the acquisition of new customers and end users and a 3.5% increase in sales prices, which mainly increased as a result of the pass-through of higher underlying raw material costs. This increase was partially offset by a shift in product mix from package sales of coated steel products to tolling revenue for coating services. Package sales include both the toll processing services and the sale of the steel coil while toll processing services include only the toll processing service performed on the steel coil already in the customer's ownership. The remaining \$2.1 million represents an increase in intersegment sales for the six months ended April 29, 2012 compared to the same period in the prior year. Metal coil coating third-party sales accounted for 8.1% of total consolidated third-party sales in the six months ended April 29, 2012 compared to 8.2% in the six months ended May 1, 2011.

Table of Contents

Operating income of the metal coil coating segment increased to \$10.2 million in the six months ended April 29, 2012, compared to \$7.8 million in the same period in the prior year. The \$2.4 million increase resulted from a \$1.4 million increase in gross profit due to the improvements in our manufacturing efficiencies, pass-through of higher underlying steel costs and a \$1.0 million decrease in selling and administrative expenses related to lower legal expenses.

Metal components sales increased 9.7%, or \$18.8 million to \$212.5 million in the six months ended April 29, 2012, compared to \$193.7 million in the same period in the prior year. This increase was primarily due to higher sales prices, which mainly increased as a result of the pass-through of higher underlying steel costs, and a 3.6% increase in external tons shipped. Sales to third parties for the six months ended April 29, 2012 increased \$16.0 million to \$172.6 million from \$156.6 million in the same period in the prior year. The remaining \$2.8 million represents an increase in intersegment sales. Metal components third-party sales accounted for 35.0% of total consolidated third-party sales in the six months ended April 29, 2012 compared to 37.7% in the six months ended May 1, 2011.

Operating income of the metal components segment increased to \$14.6 million in the six months ended April 29, 2012, compared to \$7.8 million in the same period in the prior year. The \$6.8 million increase resulted from a \$7.6 million increase in gross profit due to an increase resulted from a \$1.9 million recovery in the current period compared to a \$2.4 million charge in the same period of the prior year related to an actuarial determined general liability charge, an increase in sales prices and external tons shipped as noted above. This increase was partially offset by a \$0.8 million increase in selling and administrative expenses related to a \$1.3 million increase in wages and commissions, partially offset by a \$0.7 million decrease in bad debt expense.

Engineered building systems sales increased 25.0%, or \$57.8 million to \$289.0 million in the six months ended April 29, 2012, compared to \$231.2 million in the same period in prior year. This increase resulted from a 13.3% increase in external tons shipped and higher sales prices which mainly increased as a result of the pass-through of higher underlying steel costs. Sales to third parties for the six months ended April 29, 2012 increased \$56.6 million to \$281.4 million from \$224.8 million in the same period in the prior year. The remaining \$1.3 million represents an increase in intersegment sales. These results were driven by improved demand in the end use sectors we serve in the six months ended April 29, 2012. Engineered building systems third-party sales accounted for 57.0% of total consolidated third-party sales in the six months ended April 29, 2012 compared to 54.1% in the six months ended May 1, 2011.

Operating income (loss) of the engineered building systems segment improved to income of \$14.3 million in the six months ended April 29, 2012 compared to a loss of \$5.6 million in the same period in the prior year. This \$19.9 million improvement resulted from a \$22.9 million increase in gross profit. The increase in gross profit was due to increases in relative sales prices and external tons shipped as noted above as well as an improvement in manufacturing efficiencies. These improvements were partially offset by a \$3.0 million increase in engineering, selling and administrative expenses primarily due to a \$3.4 million increase in wages, commissions and benefit costs which was mainly the result of higher volume and \$0.6 million increase in marketing costs, both partially offset by a decrease of \$0.5 million in bad debt expense.

Consolidated engineering, selling, general and administrative expenses, consisting of engineering, drafting, selling and administrative costs, increased to \$100.5 million in the six months ended April 29, 2012, compared to \$100.3 million in the same period in the prior year. The \$0.2 million increase in engineering, selling and administrative expenses was primarily due to a \$5.1 million increase in wages, commissions and benefit costs which was mainly the result of higher volume, \$0.8 million increase in marketing costs, and \$0.5 million in one-time executive retirement costs, partially offset by a \$1.9 million recovery in the current period compared to a \$2.4 million charge in the same period of the prior year related to an actuarial determined general liability charge and a \$1.4 million decrease in bad debt expense. As a percentage of sales, engineering, selling, general and administrative expenses were 20.4% for the six months ended April 29, 2012 as compared to 24.1% for the six months ended May 1, 2011.

Acquisition-related costs for the six months ended April 29, 2012 were \$1.9 million. There was no amount recorded in the same period of the prior year. These costs represent various services to enter into a definitive agreement to purchase Metl-Span LLC for \$145 million in cash. See Definitive Agreement to Purchase Metl-Span LLC.

Consolidated interest expense decreased by 21.4% to \$6.4 million for the six months ended April 29, 2012, compared to \$8.1 million for the same period of the prior year. Interest expense decreased primarily due to the decrease in the interest rate on the term loan on October 31, 2011 from 8% to 6.5% and decreases in the underlying debt balances.

Consolidated provision (benefit) for income taxes was a \$1.4 million provision for the six months ended April 29, 2012, compared to a benefit of \$6.8 million for the same period in the prior year. The effective tax rate for the six months ended April 29, 2012 was 41.7% compared to 29.9% for the same period in the prior year. The increase in the effective tax rate for the six months ended April 29, 2012 compared to the same period in the prior year was the result of state income taxes and non-deductible expenses resulting from an increase in pre-tax profit.

Table of Contents

Consolidated Convertible Preferred Stock dividends and accretion for the six months ended April 29, 2012 was \$16.4 million compared to \$12.5 million in the same period in the prior year and related primarily to our paying accrued dividends on the Preferred Shares which accrue and accumulate on a daily basis at 12% per annum. We paid dividends in-kind at the rate of 8% per annum on the Preferred Shares in December 2011 as a result of the December 9, 2011 Mutual Waiver and Consent and paid dividends in-kind at the rate of 12% per annum in March 2012. We paid \$11.0 million of dividends at the rate of 8% per annum on the Preferred Shares in cash which were related to the December 15, 2010 and March 15, 2011 dividend payments. We do not expect to pay dividends on the Preferred Shares in future periods as a result of the Amendment Agreement. See *Convertible Preferred Stock*.

Consolidated Convertible Preferred Stock beneficial conversion feature charge was \$11.9 million in the six months ended April 29, 2012 compared to a \$1.5 million in the same period in the prior year and related to dividends that have accrued on our Convertible Preferred Stock and are convertible into shares of Common Stock at a conversion price below the prevailing market price of Common Stock during the accrual period. The increase was the result of (1) our paying the December 2010 and March 2011 dividends in cash (at the rate of 8% per annum), rather than in-kind (at the rate of 12% per annum) and (2) our paying the December 2011 dividend in-kind at the rate of 8% per annum (rather than the stated 12%) as a result of the December 9, 2011 Mutual Waiver and Consent and paying the March 2012 dividend in-kind at the rate of 12% per annum.

Diluted loss per common share improved to a loss of \$(1.40) per diluted common share for the six months ended April 29, 2012, compared to a loss of \$(1.65) per diluted common share for the same period in the prior year. The decrease in the diluted loss per common share was primarily due to a \$17.9 million improvement in net income (loss) applicable to shares of our Common Stock resulting from the factors described above in this section, partially offset by an increase in the beneficial conversion charge and the dividends and accretion on the Convertible Preferred Stock as noted above. At April 29, 2012, the Preferred Shares were convertible into 48.9 million shares of Common Stock. The Convertible Preferred Stock and the unvested restricted Common Stock related to our Incentive Plan do not have a contractual obligation to share in losses; therefore, no losses were allocated to these shares in both periods presented. These participating securities will be allocated earnings when applicable.

LIQUIDITY AND CAPITAL RESOURCES**General**

Working capital was \$139.7 million and \$137.6 million at April 29, 2012 and October 30, 2011, respectively. The \$2.1 million increase in working capital during the six months ended April 29, 2012 was primarily due to earnings in the period, partially offset by normal seasonal changes in accounts receivable, inventory, accounts payable and accrued expenses.

Cash provided by operating activities was \$10.0 million and \$4.5 million for the six months ended April 29, 2012 and May 1, 2011, respectively. The \$10.0 million in cash provided by operating activities during the six months ended April 29, 2012 was attributable to the increase in earnings, partially offset by a \$10.9 million decrease in working capital, excluding cash. During the six months ended May 1, 2011, we had a \$15.6 million decrease in income taxes receivable due to a federal income tax refund received in April 2011.

Cash used in investing activities was \$13.9 million and \$7.9 million for the six months ended April 29, 2012 and May 1, 2011, respectively. The \$13.9 million used in investing activities during the six months ended April 29, 2012 was primarily attributable to \$13.9 million used for capital expenditures predominantly related to two new insulated panel system facilities, computer software and machinery and equipment.

Cash used in financing activities was \$1.3 million and \$16.5 million for the six months ended April 29, 2012 and May 1, 2011, respectively. The \$1.3 million used in financing activities during the six months ended April 29, 2012 was primarily attributable to \$2.6 million of note payable and term loan principal payments and \$1.5 million of restricted stock that was repurchased as treasury shares to satisfy minimum tax-withholding obligations arising in connection with the vesting of awards of restricted stock, partially offset by a \$2.8 million decrease in restricted cash as a result of the release of the restricted cash held as collateral on our letters of credit. During the six months ended May 1, 2011, we paid \$11.0 million of dividends in cash on the Convertible Preferred Stock and made \$4.4 million of note payable and term loan payments.

We invest our excess cash in various overnight investments which are issued or guaranteed by the federal government.

Convertible Preferred Stock

On October 20, 2009, we closed the \$250.0 million equity investment by the CD&R Funds in the Company. As a result of that equity investment, the CD&R Funds acquired 250,000 shares of Convertible Preferred Stock (such purchase and sale, the *CD&R Equity Investment*), which represented 68.4% of the then voting power and Common Stock of the Company on an as-converted basis. As of April 29, 2012 and

Edgar Filing: NCI BUILDING SYSTEMS INC - Form 10-Q

October 30, 2011, the Preferred Shares, including shares issued as in-kind dividends on the CD&R Equity Investment, were convertible into approximately 48.9 million and 46.6 million shares of Common Stock, respectively, at an initial conversion price of \$6.3740.

Table of Contents

At April 29, 2012 and October 30, 2011, we had 301,459 and 286,701 Preferred Shares outstanding, respectively. In addition, at April 29, 2012 and October 30, 2011, we had accrued but unpaid cash and in-kind dividends on the Preferred Shares with a value of \$10.3 million and \$10.1 million, respectively. As of April 29, 2012 and October 30, 2011, the aggregate liquidation preference plus aggregate accrued dividends of the Convertible Preferred Stock was \$311.8 million and \$296.8 million, respectively.

Our Amended Credit Agreement restricts the payment of cash dividends to 50% of cumulative earnings beginning with the fourth quarter of 2009, and in the absence of accumulated earnings, cash dividends and other cash restricted payments are limited to \$14.5 million in the aggregate during the term of the loan, of which we used \$11.0 million as of April 29, 2012. We paid the first two quarters of fiscal 2011 dividends on the Preferred Shares totaling \$11.0 million in cash. We paid the June 15, 2011, September 15, 2011, December 15, 2011 and March 15, 2012 dividend payments on the Preferred Shares in-kind. The determination of cash payment versus payment-in-kind or PIK of the Convertible Preferred Stock dividends will be made each quarter adhering to the limitations of our Amended Credit Agreement and ABL Facility as well as the Company's intermediate and long term cash flow requirements.

On December 9, 2011, the Company entered into a Mutual Waiver and Consent with the CD&R Funds, under which (1) the CD&R Funds, as the holders of all of the Company's issued and outstanding Convertible Preferred Stock, agreed to accept a paid-in-kind dividend on their Preferred Shares for the quarterly dividend payment period ended December 15, 2011 computed at the dividend rate of 8% per annum, rather than the dividend rate of 12% per annum provided for in the Certificate of Designations applicable to the Preferred Shares, and (2) the Company waived its right under the Stockholders Agreement with the CD&R Funds to issue up to \$5 million of its capital stock without the consent of the CD&R Funds during the fiscal year ending October 28, 2012, subject to certain exceptions. The December 9, 2011 Mutual Waiver and Consent does not extend to dividends on the Convertible Preferred Stock accruing after December 15, 2011 or restrict our issuance of capital stock after October 28, 2012.

In view of the December 9, 2011 Mutual Waiver and Consent, the Preferred Dividend Payment Committee of the board of directors declared and directed the payment of the December 15, 2011 dividend on the Preferred Shares in-kind at the reduced rate of 8% per annum. As a result, a dividend of 5,833,4913 Preferred Shares was paid to the holders of Convertible Preferred Stock for the period from September 16, 2011 to December 15, 2011. As a result of accruing the dividend at the stated 12% rate, and subsequently paying to the lower 8% rate, the Company recorded a dividend accrual reversal of \$2.9 million in the first quarter of fiscal 2012 related to dividends accrued between September 16, 2011 and December 15, 2011. Similarly, the Company recorded a beneficial conversion feature reversal of \$1.1 million in the first quarter of fiscal 2012 related to beneficial conversion feature charges between September 16, 2011 and December 15, 2011 associated with the dividend reduction.

On May 1, 2012, we reached an understanding in principle and on May 8, 2012, we entered into an Amendment Agreement (the Amendment Agreement) with the CD&R Funds, the holders of our convertible preferred shares, to eliminate our quarterly dividend obligation on the preferred shares, which accrued at an annual rate of 12% unless paid in cash at 8%. However, this does not preclude the payment of contingent default dividends, if applicable.

Under the terms of the Certificate of Designations, Preferences and Rights of Series B Cumulative Convertible Participating Preferred Stock (the Certificate of Designations), we are contractually obligated to pay quarterly dividends to the holders of the convertible preferred shares from October 20, 2009, through October 20, 2019, subject to certain dividend knock-out provisions. The Amendment Agreement provides for the Certificate of Designations to be amended to terminate the dividend obligation from and after March 15, 2012 (the Dividend Knock-out).

As consideration for the Dividend Knock-out, the CD&R Funds will receive a total of 37,834 additional shares of Convertible Preferred Stock, representing (i) approximately \$6.5 million of dividends accrued from March 15, 2012 through May 18, 2012 (20 trading days after April 20, 2012, on which date the dividend knock-out measurement period commenced) and (ii) approximately \$31.4 million in additional liquidation preference of Convertible Preferred Stock, or 10% of the approximate total \$313.7 million of accreted value as of May 18, 2012. Upon the closing of the transactions contemplated by the Amendment Agreement, funds managed by CD&R will hold Convertible Preferred Stock with an aggregate liquidation preference and accrued dividends of approximately \$345 million. The Convertible Preferred Stock and accrued dividends entitle the funds managed by CD&R to receive approximately 54.1 million shares of common stock, representing 72.7% of the voting power and common stock of the Company on an as-converted basis and an increase of approximately 2% from CD&R's position at April 29, 2012.

The Amendment Agreement with the CD&R Funds has been approved by the Company's independent directors, as independence is defined by the rules and regulations of the Securities and Exchange Commission and the listing standards of the New York Stock Exchange, as well as by all of the Company's directors who are independent of and not affiliated with the CD&R Funds.

Table of Contents

See Note 15 Subsequent Events to the consolidated financial statements for more information on the material terms of our Amendment Agreement.

Debt

We have an Amended Credit Agreement (the Amended Credit Agreement) which includes an initial \$150 million in term loans. The term loans under the Amended Credit Agreement will mature on April 20, 2014 and, prior to that date, we are required to pay quarterly installments equal to 0.25% of the principal amount of the term loan then outstanding as of the last day of each calendar quarter. However, we have made mandatory and optional prepayments under the Amended Credit Agreement and these prepayments are allowed to be applied against the required quarterly principal payments. As a result, we are not required to make the above mentioned quarterly principal payments for the remaining term of the term loans. In addition, these prepayments have deferred our leverage ratio covenant until the third quarter of fiscal 2013. At April 29, 2012 and October 30, 2011, amounts outstanding under the Amended Credit Agreement were \$128.5 million and \$130.7 million, respectively.

In addition to our Amended Credit Agreement, we have an Asset-Based Lending Facility (the ABL Facility) which allows aggregate maximum borrowings of up to \$125.0 million; however, the aggregate maximum borrowings are limited to \$100.0 million under our Amended Credit Agreement. Borrowing availability on the ABL Facility is determined by a monthly borrowing base collateral calculation that is based on specified percentages of the value of qualified cash, eligible inventory and eligible accounts receivable, less certain reserves and subject to certain other adjustments. The ABL Facility has a maturity of April 20, 2014 and includes borrowing capacity of up to \$25 million for letters of credit and up to \$10 million for swingline borrowings. See Definitive Agreement to Purchase Metl-Span LLC for a description of the Amended Credit Agreement refinancing and ABL Facility Amendment.

Amended Credit Agreement. The Company's obligations under the Amended Credit Agreement and any interest rate protection agreements or other permitted hedging agreement entered into with any lender under the Amended Credit Agreement are irrevocably and unconditionally guaranteed on a joint and several basis by each direct and indirect domestic subsidiary of the Company (other than any domestic subsidiary that is a foreign subsidiary holding company or a subsidiary of a foreign subsidiary that is insignificant). Our obligations under the Amended Credit Agreement and the permitted hedging agreements and the guarantees thereof are secured pursuant to a guarantee and collateral agreement, dated as of October 20, 2009, made by the Company and other grantors (as defined therein), in favor of the term loan administrative agent and term loan collateral agent, by (i) all of the capital stock and other equity interests of all direct domestic subsidiaries owned by the Company and the guarantors, (ii) up to 65% of the capital stock of certain direct foreign subsidiaries of the Company or any guarantor (it being understood that a foreign subsidiary holding company or a domestic subsidiary of a foreign subsidiary will be deemed a foreign subsidiary) and (iii) substantially all other tangible and intangible assets owned by the Company and each guarantor, including liens on material real property, in each case to the extent permitted by applicable law and subject to certain enumerated exceptions. The liens securing the obligations under the Amended Credit Agreement, the permitted hedging agreements and the guarantees thereof are first in priority (as between the Amended Credit Agreement and the ABL Facility) with respect to stock, material real property and assets other than accounts receivable, inventory, certain deposit accounts, associated intangibles and certain other specified assets of the Company and the guarantors. Such liens are second in priority (as between the Amended Credit Agreement and the ABL Facility) with respect to accounts receivable, inventory, associated intangibles of the Company and certain other specified assets of the guarantors. As of April 29, 2012, we do not have any outstanding interest rate hedges.

The Amended Credit Agreement contains a number of covenants that, among other things, limit or restrict our ability to dispose of assets, incur additional indebtedness, incur guarantee obligations, prepay other indebtedness, make dividends and other restricted payments, create liens, make investments, make acquisitions, engage in mergers, change the nature of our business and engage in certain transactions with affiliates.

The Amended Credit Agreement had no financial covenants until October 30, 2011 (subject to prepayment deferrals as noted below), at which time our consolidated leverage ratio of net indebtedness to EBITDA was to be no more than 5 to 1. Net indebtedness is defined as consolidated debt less the lesser of unrestricted cash or \$50 million. This ratio steps down by 0.25 each quarter until October 28, 2012 at which time the maximum ratio is 4 to 1. The ratio continues to step down by 0.125 each quarter until November 3, 2013 to a ratio of 3.5 to 1, which remains the maximum ratio for each fiscal quarter thereafter. We will, however, not be subject to this financial covenant with respect to a specified period if certain prepayments or repurchases of the term loans under the Amended Credit Agreement are made prior to the specified period. Based on our prepayments made through April 29, 2012, the

Table of Contents

leverage ratio covenant has been deferred until the third quarter of fiscal 2013. The prepayments that have been made can be applied to continuously defer covenant requirements and are not reduced unless the Company's actual leverage ratios are above the maximum requirement for a given period. Although our Amended Credit Agreement did not require any financial covenant compliance, at April 29, 2012 and October 30, 2011, our consolidated leverage ratio as of those dates was 1.30 and 2.27, respectively.

Term loans under the Amended Credit Agreement may be repaid at any time, without premium or penalty but subject to customary LIBOR breakage costs. We also have the ability to repurchase a portion of the term loans under the Amended Credit Agreement, subject to certain terms and conditions set forth in the Amended Credit Agreement. In addition, the term loans under the Amended Credit Agreement are subject to mandatory prepayment and reduction in an amount equal to:

the net cash proceeds of (1) certain asset sales, (2) certain debt offerings and (3) certain insurance recovery and condemnation events; and

50% of annual excess cash flow (as defined in the Amended Credit Agreement) for any fiscal year ended on or after October 31, 2010, unless a specified leverage ratio target is met.

Term loans under the Amended Credit Agreement bear interest, at our option, as follows:

- (1) Base Rate loans at the Base Rate plus a margin. After October 30, 2011, the margin fluctuates based on our leverage ratio and shall be either 5% or 3.5% if our leverage ratio is less than 3.5 to 1. As of the first fiscal quarter commencing January 30, 2012, the margin in each case increases by 0.25% per annum on the first day of each fiscal quarter unless the aggregate principal amount of term loans outstanding under the Amended Credit Agreement in the immediately preceding fiscal quarter of the Company has been reduced by \$3,750,000 (excluding scheduled principal amortization payments), less any prior reductions not previously applied to prevent an increase in the applicable margin, and
- (2) LIBOR loans at LIBOR (having a minimum rate of 2%) plus a margin. Since October 30, 2011, the LIBOR-linked margin fluctuates based on our leverage ratio and shall be either 6% or 4.5% if our leverage ratio is less than 3.5 to 1. As of the first fiscal quarter commencing January 30, 2012, the margin in each case increases by 0.25% per annum on the first day of each fiscal quarter unless the aggregate principal amount of term loans outstanding under the Amended Credit Agreement in the immediately preceding fiscal quarter of the Company has been reduced by \$3,750,000 (excluding scheduled principal amortization payments), less any prior reductions not previously applied to prevent an increase in the applicable margin. At April 29, 2012 and October 30, 2011, the interest rate on our Amended Credit Agreement was 6.5% and 8.0%, respectively. Based on our leverage ratio at April 29, 2012, the applicable margin in the third quarter of fiscal 2012 will be 4.5%.

Overdue amounts will bear interest at a rate that is 2% higher than the rate otherwise applicable. Base Rate is defined as the highest of (i) the Wells Fargo Bank, National Association prime rate; (ii) the overnight Federal Funds rate plus 0.5%; and (iii) 3.0% and LIBOR is defined as the applicable London interbank offered rate (not to be less than 2%) adjusted for reserves.

ABL Facility. The ABL Facility provides for an asset-based revolving credit facility which allows aggregate maximum borrowings by NCI Group, Inc. and Robertson-Ceco II Corporation of up to \$125.0 million; however, the aggregate maximum borrowings are limited to \$100.0 million under our Amended Credit Agreement. Borrowing availability under the ABL Facility is determined by a monthly borrowing base collateral calculation that is based on specified percentages of the value of qualified cash, eligible inventory and eligible accounts receivable, less certain reserves and subject to certain other adjustments. At April 29, 2012 and October 30, 2011, our excess availability under the ABL Facility was \$83.9 million and \$87.8 million, respectively. Under the ABL Facility, there were no amounts of borrowings outstanding at both April 29, 2012 and October 30, 2011. In addition, at both April 29, 2012 and October 30, 2011, letters of credit totaling approximately \$9.1 million were outstanding under the ABL Facility.

On December 3, 2010, we finalized an amendment of our ABL Facility that reduces the unused commitment fee from 1% or 0.75% based on the average daily balance of loans and letters of credit obligations outstanding to an annual rate of 0.5%, reduces the effective interest rate on borrowings, if any, by nearly 40% or 175 basis points and relaxes the prohibitions against making restricted payments or paying cash dividends, including on the Convertible Preferred Stock, to allow, in the aggregate, up to \$6.5 million of restricted payments or cash dividends each calendar quarter, provided (i) certain excess availability conditions or (ii) certain other excess availability conditions and a fixed charge coverage

Edgar Filing: NCI BUILDING SYSTEMS INC - Form 10-Q

ratio under the ABL Facility are satisfied. However, these prohibitions are second to the cash restricted payment limitations on the Amended Credit Agreement discussed above.

An unused commitment fee is paid monthly on the ABL Facility at an annual rate of 0.50% based on the amount by which the maximum credit exceeds the average daily principal balance of outstanding loans and letter of credit obligations. Additional customary fees in connection with the ABL Facility also apply.

Table of Contents

The obligations of the borrowers under the ABL Facility are guaranteed by the Company and each direct and indirect domestic subsidiary of the Company (other than any domestic subsidiary that is a foreign subsidiary holding company or a subsidiary of a foreign subsidiary that is insignificant) that is not a borrower under the ABL Facility. The obligations of the Company under certain specified bank products agreements are guaranteed by each borrower and each other direct and indirect domestic subsidiary of the Company and the other guarantors. These guarantees are made pursuant to a guarantee agreement, dated as of October 20, 2009, entered into by the Company and each other guarantor with Wells Fargo Foothill, LLC, as administrative agent.

The obligations under the ABL Facility, and the guarantees thereof, are secured by a first priority lien on our accounts receivable, inventory, certain deposit accounts, associated intangibles and certain other specified assets of the Company and a second priority lien on the assets securing the term loans under the Amended Credit Agreement on a first-lien basis, in each case subject to certain exceptions.

The ABL Facility contains a number of covenants that, among other things, limit or restrict our ability to dispose of assets, incur additional indebtedness, incur guarantee obligations, engage in sale and leaseback transactions, prepay other indebtedness, modify organizational documents and certain other agreements, create restrictions affecting subsidiaries, make dividends and other restricted payments, create liens, make investments, make acquisitions, engage in mergers, change the nature of our business and engage in certain transactions with affiliates.

Under the ABL Facility, a *Dominion Event* occurs if either an event of default is continuing or excess availability falls below certain levels, during which period, and for certain periods thereafter, the administrative agent may apply all amounts in the Company's, the borrowers' and the other guarantors' concentration accounts to the repayment of the loans outstanding under the ABL Facility, subject to the Intercreditor Agreement and certain specified exceptions. In addition, during such *Dominion Event*, we are required to make mandatory payments on our ABL Facility upon the occurrence of certain events, including the sale of assets and the issuance of debt, in each case subject to certain limitations and conditions set forth in the ABL Facility.

The ABL Facility includes a minimum fixed charge coverage ratio of one to one, which will apply if we fail to maintain at least \$15.0 million of borrowing capacity. Although our ABL Facility did not require any financial covenant compliance, at April 29, 2012 and October 30, 2011, our fixed charge coverage ratio as of those dates, which is calculated on a trailing twelve month basis, was 3.44 to one and 0.37 to one, respectively.

Loans under the ABL Facility bear interest, at our option, as follows:

- (1) Base Rate loans at the Base Rate plus a margin. The margin ranges from 1.50% to 2.00% depending on the quarterly average excess availability under such facility, and
- (2) LIBOR loans at LIBOR plus a margin. The margin ranges from 2.50% to 3.00% depending on the quarterly average excess availability under such facility. At both April 29, 2012 and October 30, 2011, the interest rate on our ABL Facility was 4.75%.

During an event of default, loans under the ABL Facility will bear interest at a rate that is 2% higher than the rate otherwise applicable. *Base Rate* is defined as the higher of the Wells Fargo Bank, N.A. prime rate and the overnight Federal Funds rate plus 0.5% and *LIBOR* is defined as the applicable London interbank offered rate adjusted for reserves.

Cash Flow

We periodically evaluate our liquidity requirements, capital needs and availability of resources in view of inventory levels, expansion plans, debt service requirements and other operating cash needs. To meet our short- and long-term liquidity requirements, including payment of operating expenses and repaying debt, we rely primarily on cash from operations. Beyond cash generated from operations, we have an undrawn ABL Facility with \$83.9 million available at April 29, 2012 and \$73.9 million of unrestricted cash at April 29, 2012. However, we have in the past, sought to raise additional capital.

We expect that, for the next 12 months, cash generated from operations will be sufficient to provide us the ability to fund our operations, provide the increased working capital necessary to support our strategy and fund planned capital expenditures of between approximately \$22 million and \$24 million for the remainder of fiscal 2012 and expansion when needed.

In the past, we have used available funds to repurchase shares of our Common Stock under our stock repurchase program though we have no intention to repurchase shares in the near-term. Although we did not purchase any Common Stock during the three months ended April 29, 2012

Edgar Filing: NCI BUILDING SYSTEMS INC - Form 10-Q

under the stock repurchase program, we did withhold shares of restricted stock to satisfy tax withholding obligations arising in connection with the vesting of awards of restricted stock related to our 2003 Long-Term Stock Incentive Plan.

Table of Contents

Our corporate strategy seeks potential acquisitions which provide additional synergies in our metal coil coating, metal components and engineered building systems segments. From time to time, we may enter into letters of intent or agreements to acquire assets or companies in these business lines. The consummation of these transactions could require substantial cash payments and/or issuance of additional debt. See Definitive Agreement to Purchase Metl-Span LLC below.

The Company may from time to time repurchase or otherwise retire the Company's debt and take other steps to reduce the Company's debt or otherwise improve the Company's financial position. These actions may include open market debt repurchases, negotiated repurchases, other retirements of outstanding debt and opportunistic refinancing of debt. The amount of debt that may be repurchased or otherwise retired, if any, will depend on market conditions, trading levels of the Company's debt, the Company's cash position, compliance with debt covenants and other considerations. Affiliates of the Company may also purchase the Company's debt from time to time, through open market purchases or other transactions. In such cases, the Company's debt may not be retired, in which case the Company would continue to pay interest in accordance with the terms of the debt, and the Company would continue to reflect the debt as outstanding in its Consolidated Balance Sheets.

Definitive Agreement to Purchase Metl-Span LLC

On May 2, 2012, NCI Group, Inc. (NCI), a wholly owned subsidiary of the Company, entered into a definitive agreement with VSMA, Inc. (VSMA), Metl-Span LLC, and BlueScope Steel North America Corporation (Equity Purchase Agreement) to purchase Metl-Span LLC (Metl-Span) from VSMA, Inc., a subsidiary of BlueScope Steel North America Corporation, for \$145 million in cash (such acquisition, the Acquisition). Metl-Span operates five manufacturing facilities in the United States serving the nonresidential building products market with cost-effective and energy efficient insulated metal wall and roof panels. For the year ended December 31, 2011, Metl-Span had estimated revenues of \$170 million. Metl-Span is being sold on a cash-free, debt-free basis, and the purchase price is subject to adjustment based on Metl-Span's working capital at closing.

Each of NCI, VSMA and Metl-Span has made customary representations and warranties and has agreed to customary covenants in the Equity Purchase Agreement. The closing of the Acquisition, which is currently expected to close before the end of the calendar year, is subject to (i) the expiration or early termination of the waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended (the HSR Act), and (ii) other customary conditions to closing, including the execution and delivery of (a) a transition services agreement between VSMA and Metl-Span, (b) a supply agreement among Steelscape, Inc., a California corporation and affiliate of VSMA (Steelscape), Metl-Span and NCI, pursuant to which Steelscape has agreed to supply certain metallic-coated and painted steel coils for use in Metl-Span's product lines, (c) an OEM supply agreement between Metl-Span and BlueScope Buildings North America, Inc., a Delaware corporation and affiliate of VSMA (BBNA), pursuant to which Metl-Span has agreed to sell certain insulated wall, roof and ceiling panel products to BBNA, and (d) certain other related transaction documents.

The Equity Purchase Agreement is subject to termination by either NCI or VSMA for various reasons, including the failure of the closing of the Acquisition to occur on or before October 15, 2012 (the Initial Termination Date), provided that (i) NCI may extend such termination date under certain circumstances (a) to the date that is two days after the marketing period under the Commitment Letter (as described below) or (b) up to 60 days after the Initial Termination Date if all conditions to the closing of the Acquisition have been satisfied other than with respect to the HSR Act and those conditions that by their nature cannot be satisfied other than at the closing (each of which conditions is capable of being satisfied at the date of termination if the closing of the Acquisition were to occur at such time), and (ii) VSMA may extend such termination date under certain circumstances to a date that is three business days after the Initial Termination Date. The obligations of NCI to consummate the Acquisition are not subject to the availability of financing.

The Equity Purchase Agreement provides that NCI will be required to pay to VSMA a reverse termination fee of \$10.15 million upon termination under certain specified circumstances, including in the event of VSMA's termination due to NCI's failure to consummate the Acquisition if all of the conditions to its obligations have been satisfied or waived (other than those that by their nature will not be satisfied until the closing, each of which is capable of being satisfied at the date of termination if the closing were to occur at that time). Under certain other specified circumstances, NCI will be required to pay a reverse termination fee of \$14.5 million including in the case of VSMA's termination under the circumstances described in the preceding sentence if either (i) the proceeds of the Term Loan Facility (as described below) could have been funded upon delivery of a drawdown notice or (ii) could not be funded and the failure of such funding was the result of a breach by NCI of any of its covenants under the Equity Purchase Agreement.

NCI and VSMA have agreed to indemnify each other for losses arising from breaches of the representations, warranties and covenants of the Equity Purchase Agreement and for certain other liabilities, subject to specified limitations. BSNA has agreed to guarantee the performance of VSMA's obligations under the Equity Purchase Agreement. In connection with the transaction, NCI will refinance its existing ABL Facility and Term Loan, which both mature in April 2014. NCI will utilize its ABL Facility and Term Loan Facility, together with cash on hand, to fund the Acquisition.

Table of Contents

On May 2, 2012, we entered into a debt financing commitment letter (the **Commitment Letter**) for a \$250.0 million senior secured credit facility (the **Term Loan Facility**) to be available on the closing date of the Acquisition. Proceeds from the Term Loan Facility will be used, together with approximately \$25 million of cash on hand and/or certain borrowings under the Loan and Security Agreement, as amended by the ABL Facility Amendment (in each case, as defined below), to finance the acquisition, the repayment of the existing Term Loan of NCI and the related fees and expenses. On May 16, 2012, we amended and restated the Commitment Letter solely to include an additional financial institution as a lender under the Term Loan Facility.

The Term Loan Facility will include certain representations and warranties, affirmative and negative covenants, events of default and collateral and guarantee arrangements, as described in the Commitment Letter. The Commitment Parties' obligations to provide the financing are subject to the satisfaction of specified conditions, including the consummation of the Acquisition in accordance with the terms of the Equity Purchase Agreement, the accuracy of specified representations and the absence of a material adverse effect on Metl-Span, as described in the Commitment Letter.

On May 2, 2012, we entered into Amendment No. 2 (the **ABL Facility Amendment**) to the Loan and Security Agreement (the **Loan and Security Agreement**) to (i) permit the acquisition, the entry by the Company into the Term Loan Facility and the incurrence of debt thereunder and the repayment of existing indebtedness under NCI's existing Term Loan, (ii) increase the amount available for borrowing thereunder to \$150 million (subject to a borrowing base), (iii) increase the amount available for letters of credit thereunder to \$30 million, and (iv) extend the final maturity thereunder to May 2, 2017.

See Note 15 - Subsequent Events to the consolidated financial statements for more information on the material terms of our Equity Purchase Agreement, Commitment Letter and ABL Facility Amendment.

NON-GAAP MEASURES

Set forth below are certain non-GAAP measures which include adjusted operating income (loss), adjusted diluted earnings (loss) per common share and adjusted EBITDA. Such measurements are not prepared in accordance with U.S. GAAP and should not be construed as an alternative to reported results determined in accordance with U.S. GAAP. Management believes the use of such non-GAAP measures on a consolidated and business segment basis assists investors in understanding the ongoing operating performance by presenting the financial results between periods on a more comparable basis. In addition, certain financial covenants related to our Amended Credit Agreement and ABL Facility are based on similar non-GAAP measures. The non-GAAP information provided is unique to the Company and may not be consistent with the methodologies used by other companies.

The following tables reconcile adjusted operating income (loss) to operating income (loss) for the periods indicated (in thousands):

	For the Three Months Ended April 29, 2012				
	Metal Coil Coating	Metal Components	Engineered		Consolidated
			Building Systems	Corporate

OFF-BALANCE SHEET ARRANGEMENTS

As part of our ongoing business, we do not participate in transactions that generate relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities (SPEs), which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes. As of April 29, 2012, we were not involved in any unconsolidated SPE transactions.

CONTRACTUAL OBLIGATIONS

In general, purchase orders issued in the normal course of business can be terminated in whole or in part for any reason without liability until the product is received.

During the three months ended April 29, 2012, we committed to a natural gas purchase obligation related to one of our Metal Coaters facilities totaling \$1.3 million over the next two years.

There have been no other material changes in our future contractual obligations since the end of fiscal 2011 other than the normal expiration of existing contractual obligations. See Item 7 of our Annual Report on Form 10-K for the fiscal year ended October 30, 2011 for more information on contractual obligations. See Note 15 Subsequent Events to the consolidated financial statements for more information on the material terms of our Equity Purchase Agreement, Commitment Letter and ABL Facility Amendment.

CRITICAL ACCOUNTING POLICIES

Edgar Filing: NCI BUILDING SYSTEMS INC - Form 10-Q

Critical accounting policies are those that are most important to the portrayal of our financial position and results of operations. These policies require our most subjective judgments, often employing the use of estimates about the effect of matters that are inherently uncertain. Our most critical accounting policies include those that pertain to revenue recognition, insurance accruals, share-based compensation, income taxes, accounting for acquisitions, intangible assets and goodwill, allowance for doubtful accounts, inventory valuation, property, plant and equipment valuation, contingencies and beneficial conversion features and dividend policy, which are described in Item 7 of our Annual Report on Form 10-K for the year ended October 30, 2011.

Table of Contents**RECENT ACCOUNTING PRONOUNCEMENTS**

In June 2011, the FASB issued ASU 2011-05, *Comprehensive Income (Topic 220): Presentation of Comprehensive Income* (ASU 2011-05) which amends its guidance on the presentation of comprehensive income to increase the prominence of items reported in other comprehensive income. The new guidance requires that all components of comprehensive income in stockholders' equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The guidance required entities to present reclassification adjustments out of accumulated other comprehensive income by component in both the statement in which net income is presented and the statement in which other comprehensive income is presented. In December 2011, the FASB issued ASU 2011-12, *Comprehensive Income (Topic 220): Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05* (ASU 2011-12) which indefinitely deferred the guidance related to the presentation on the face of the financial statements of the effects of reclassifications out of accumulated other comprehensive income on the components of net income and other comprehensive income. These amendments are to be applied retrospectively. We will adopt ASU 2011-05 and ASU 2011-12 in our first quarter of fiscal 2013 and we believe its adoption will not have any impact on our consolidated financial statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.*Steel Prices*

We are subject to market risk exposure related to volatility in the price of steel. For the fiscal six months ended April 29, 2012, steel constituted approximately 72% of our cost of sales. Our business is heavily dependent on the price and supply of steel. Our various products are fabricated from steel produced by mills to forms including bars, plates, structural shapes, sheets, hot-rolled coils and galvanized or Galvalume®-coated coils. The steel industry is highly cyclical in nature, and steel prices have been volatile in recent years and may remain volatile in the future. Steel prices are influenced by numerous factors beyond our control, including general economic conditions, domestically and internationally, the availability of raw materials, competition, labor costs, freight and transportation costs, production costs, import duties and other trade restrictions. Given the level of steel industry consolidation, the expanded capacity on the gulf coast and slow economic recovery, we believe steel prices will continue to be volatile. On average, we expect the average market price in fiscal 2012 to be in line with the prices we experienced during fiscal 2011.

Although we have the ability to purchase steel from a number of suppliers, a production cutback by one or more of our current suppliers could create challenges in meeting delivery schedules to our customers. Because we have periodically adjusted our contract prices, particularly in the engineered building systems segment, we have generally been able to pass increases in our raw material costs through to our customers. The graph below shows the monthly CRU index data for the North American Steel Price Index over the historical five-year period. The CRU North American Steel Price Index has been published by the CRU Group since 1994 and we believe this index appropriately depicts the volatility of steel prices. The index, based on a CRU survey of industry participants, is now commonly used in the settlement of physical and financial contracts in the steel industry. The prices surveyed are purchases for forward delivery, according to lead time, which will vary. For example, the April index would likely approximate our June or July steel purchase deliveries based on current lead-times. The volatility in this steel price index is comparable to the volatility we experience in our average cost of steel. Further, due to market conditions described above, the most recent CRU prices have been based on a lower than normal trading volume.

Table of Contents

Source: www.crugroup.com

We do not have any long-term contracts for the purchase of steel and normally do not maintain an inventory of steel in excess of our current production requirements. However, from time to time, we may purchase steel in advance of announced steel price increases. We can give no assurance that steel will remain available or that prices will not continue to be volatile.

We rely on a few major suppliers for our supply of steel and may be adversely affected by bankruptcy, change in control, financial condition or other factors affecting those suppliers. During the first six months of fiscal 2012, we purchased approximately 28% of our steel requirements from two vendors in the United States. No other vendor accounted for over 10% of our steel requirements during the first six months of fiscal 2012. Due to unfavorable market conditions and our inventory supply requirements, during the first six months of fiscal 2012, we purchased insignificant amounts of steel from foreign suppliers. Limiting purchases to domestic suppliers further reduces our available steel supply base.

With steel accounting for approximately 72% of our cost of sales for the fiscal six months ended April 29, 2012, a one percent change in the cost of steel would have resulted in a pre-tax impact on cost of sales of approximately \$2.7 million for the six months ended April 29, 2012, if such costs were not passed on to our customers. The impact to our financial results of operations would be significantly dependent on the competitive environment and the costs of other alternative building products, which could impact our ability to pass on these higher costs.

Interest Rates

We are subject to market risk exposure related to changes in interest rates on our Amended Credit Agreement and ABL Facility. These instruments bear interest at an agreed upon percentage point spread from either the prime interest rate or LIBOR. Under our Amended Credit Agreement, we may, at our option, fix the interest rate for certain borrowings based on a spread over LIBOR for 30 days to six months. At April 29, 2012, we had \$128.5 million outstanding under our senior Amended Credit Agreement. Based on this balance, an immediate change of one percent in the interest rate would cause a change in interest expense of approximately \$1.3 million on an annual basis. The fair value of our Amended Credit Agreement at both April 29, 2012 and October 30, 2011 was approximately \$127.9 million compared to the face value of \$128.5 million and \$130.7 million, respectively.

See Note 8 Long-Term Debt and Note Payable to the consolidated financial statements for more information on the material terms of our long-term debt.

Table of Contents

Foreign Currency Exchange Rates

We are exposed to the effect of exchange rate fluctuations on the U.S. dollar value of foreign currency denominated operating revenue and expenses. The functional currency for our Mexico operations is the U.S. dollar. Adjustments resulting from the re-measurement of the local currency financial statements into the U.S. dollar functional currency, which uses a combination of current and historical exchange rates, are included in net income in the current period. Net foreign currency re-measurement losses for both the three and six month periods ended April 29, 2012 were \$0.1 million. Net foreign currency re-measurement gains for the three and six month periods ended May 1, 2011 were \$0.2 million and \$0.3 million, respectively.

The functional currency for our Canada operations is the Canadian dollar. Translation adjustments resulting from translating the functional currency financial statements into U.S. dollar equivalents are reported separately in accumulated other comprehensive income in stockholders equity. The net foreign currency exchange gains (losses) included in net income for the three month period ended April 29, 2012 was \$0.1 million and was insignificant for the six month period ended April 29, 2012. The net foreign currency exchange gains included in net income for the three and six month periods ended May 1, 2011 were \$0.2 million and \$0.1 million, respectively. The net foreign currency translation adjustment, net of tax, and included in other comprehensive income (loss) for both the three and six month periods ended April 29, 2012 was insignificant and was \$(0.1) million for both the three and six month periods ended May 1, 2011.

Item 4. Controls and Procedures.

Disclosure Controls and Procedures.

Our management, with the participation of our chief executive officer and chief financial officer, evaluated the effectiveness of our disclosure controls and procedures as of April 29, 2012. The term disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding the required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Management believes that our disclosure controls and procedures are designed to provide reasonable assurance of achieving their objectives and based on the evaluation of our disclosure controls and procedures as of April 29, 2012, our chief executive officer and chief financial officer concluded that, as of such date, our disclosure controls and procedures were effective at such reasonable assurance level.

Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

NCI BUILDING SYSTEMS, INC.

PART II OTHER INFORMATION

Item 1. Legal Proceedings.

See Part I, Item 1, Unaudited Consolidated Financial Statements, Note 14, which is incorporated herein by reference.

Item 1A. Risk Factors.

In addition to the risk factors described below, please refer to Item 1A, Risk Factors included in our Annual Report on Form 10-K for the fiscal year ended October 30, 2011 filed with the Securities and Exchange Commission (the SEC) and incorporated herein by reference.

The proposed acquisition of Met 1 Span, LLC may not be completed on a timely basis, on anticipated terms, or at all, and there are uncertainties and risks to consummating the acquisition.

Table of Contents

As previously described, on May 2, 2012, NCI Group, Inc. (*NCI*) entered into a definitive agreement with VSMA, Inc. (*VSMA*), Metl-Span LLC, and BlueScope Steel North America Corporation (*BlueScope*) to purchase all of the outstanding membership interests of Metl-Span LLC (*Metl-Span*) from VSMA., a subsidiary of BlueScope, for \$145 million in cash (such acquisition, the *Acquisition*). Metl-Span is being sold on a cash-free, debt-free basis, and the purchase price is subject to adjustment based on Metl-Span's working capital at closing.

Each of NCI, VSMA and Metl-Span has made customary representations and warranties and has agreed to customary covenants in the Equity Purchase Agreement. The closing of the Acquisition is subject to (i) the expiration or early termination of the waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended (the *HSR Act*) and (ii) the satisfaction or waiver of other customary conditions to closing. As a result, the Acquisition may not be successfully completed. Furthermore, if the completion of the Acquisition is substantially delayed, we may not be able to realize the expected benefits of the Acquisition on a timely basis or at all.

The Equity Purchase Agreement provides that NCI will be required to pay to VSMA a reverse termination fee of \$10.15 million or \$14.50 million upon termination of the Equity Purchase Agreement under specified circumstances. If we are required to make this payment, such payment would reduce our short-term liquidity and cash flow.

Even if the Acquisition were completed, the successful integration of Metl-Span's business and operations into those of our own and our ability to realize the expected synergies and benefits of the transaction are subject to a number of risks and uncertainties, many of which are outside of our control. These risks and uncertainties include, among other things:

our ability to complete the timely integration of organizations, operations, procedures, policies and technologies, as well as the harmonization of differences in the business cultures of the two companies and retention of key personnel;

our ability to minimize the diversion of management attention from ongoing business concerns during the process of integrating the two companies; and

our ability to preserve customer, supplier and other important relationships of both NCI and Metl-Span and resolve potential conflicts that may arise.

In addition, the Acquisition may not be accretive and may cause dilution to the combined company's earnings per share, which may negatively affect the price of our common stock following consummation of the Acquisition.

If we are unable to complete the proposed Acquisition, we will have incurred substantial expenses and diverted significant management time and resources from our ongoing business. Even if we consummate the proposed Acquisition, we will still have incurred substantial expenses but may not realize the anticipated cost synergies and other benefits of the Acquisition. Given the size and significance of the Acquisition, we may encounter difficulties in the integration of the operations of the Metl-Span business, which could adversely affect our combined business and financial performance. Any failure to realize the full benefits and synergies of the Acquisition could adversely impact our business, results of operation and financial condition.

We currently expect to take on significant debt to finance the Acquisition, and such increased debt levels could adversely affect its business, cash flow and results of operations.

We expect to incur a substantial amount of indebtedness in connection with our acquisition of Metl-Span. As a result of this indebtedness, our interest payment obligations will increase. The degree to which we are leveraged could have adverse effects on our business, including the following:

Making it difficult for us to satisfy our obligations under our credit facility and contractual and commercial commitments;

Edgar Filing: NCI BUILDING SYSTEMS INC - Form 10-Q

Requiring us to dedicate a substantial portion of our cash flow from operations to payments on our indebtedness, thereby reducing the availability of our cash flow to fund working capital, capital expenditures, dividends and other general corporate purposes;

Limiting our flexibility in planning for, or reacting to, changes in our business and the industries in which we operate;

Table of Contents

Restricting us from making additional strategic acquisitions or exploiting business opportunities;

Placing us at a competitive disadvantage compared to our competitors that have less debt;

Limiting our ability to borrow additional funds; and

Decreasing our ability to compete effectively or operate successfully under adverse economic and industry conditions. If we incur additional debt, these risks will intensify. Our ability to meet our debt service obligations will depend upon our future performance, which will be subject to the financial, business and other factors affecting our operations, many of which are beyond our control.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

The following table shows our purchases of our Common Stock during the second quarter of fiscal 2012:

ISSUER PURCHASES OF EQUITY SECURITIES

Period	(a) Total Number of Shares Purchased(1)	(b) Average Price Paid per Share (or Unit)	(c) Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number of Shares that May Yet be Purchased Under the Plans or Programs(2)
January 30, 2012 to February 26, 2012				129,218
February 27, 2012 to March 25, 2012	1,386	\$ 10.96		129,218
March 26, 2012 to April 29, 2012				129,218
Total	1,386	\$ 10.96		129,218

- (1) These shares were shares of restricted stock that were withheld to satisfy tax-withholding obligations arising in connection with the vesting of awards of restricted stock. The required withholding is calculated using the closing sales price on the previous business day prior to the vesting date as reported by the NYSE.
- (2) Our board of directors has authorized a stock repurchase program. Subject to applicable federal securities law and the Certificate of Designations of our Convertible Preferred Stock, such purchases may occur, if at all, at times and in amounts that we deem appropriate. Shares repurchased are usually retired. On February 28, 2007, we publicly announced that our board of directors authorized the repurchase of an additional 0.2 million shares of our Common Stock. There is no time limit on the duration of the program. During the second quarter of fiscal 2012, we did not repurchase any shares of Common Stock. At April 29, 2012, there were 129,218 shares of Common Stock remaining authorized for repurchase under the program.
