Item 1.01 Entry into a Material Definitive Agreement.

On May 31, 2011, Golden Star Resources Ltd. (the Company) issued \$77,490,000 principal amount of 5.00% Convertible Senior Unsecured Debentures due June 1, 2017 (the New Debentures) in exchange for \$74,510,000 principal amount of 4.00% Convertible Senior Unsecured Debentures due November 30, 2012 (the Original Debentures). After the exchange, \$50,490,000 aggregate principal amount of Original Debentures remain outstanding.

The New Debentures were issued under and are governed by an indenture dated May 31, 2012, between the Company and The Bank of New York Mellon, as Indenture Trustee (the New Indenture). The New Debentures were offered and sold in a transaction exempt from the registration requirements of the Securities Act of 1933, as amended. Interest on the New Debentures will be payable semi-annually in arrears on June 1 and December 1 of each year, beginning December 1, 2012 and continuing until maturity. Each New Debenture will be, subject to certain limitations, convertible into common shares at a conversion rate of 606.0606 common shares per \$1,000 principal amount of New Debentures (equal to an initial conversion price of \$1.65 per share), subject to adjustment in certain circumstances. The New Debentures will not be redeemable at the Company's option, except in the event of certain change in control transactions where 90% or more of the outstanding New Debentures have accepted a mandatory offer to purchase by the Company.

On maturity, the Company may, at its option, satisfy its repayment obligation by paying the principal amount of the New Debentures in cash or, subject to certain limitations, by issuing that number of its common shares obtained by dividing the principal amount of the New Debentures outstanding by 95% of the weighted average trading price of its common shares on the NYSE MKT for the 20 consecutive trading days ending five trading days preceding the maturity date (the Current Market Price). If the Company elects to repay the principal amount of the New Debentures at maturity by issuing common shares, but is limited under the terms of the New Indenture from issuing a number of common shares sufficient to fully repay the New Debentures outstanding at maturity, it will pay the balance owing in cash, based on the difference between the principal amount of the New Debentures outstanding and the value of the common shares (based on the Current Market Price) delivered in repayment of the New Debentures, if any.

The New Debentures will be direct senior unsecured indebtedness of the Company, ranking equally and ratably with all other senior unsecured indebtedness, and senior to all subordinated indebtedness, of the Company. None of the Company's subsidiaries will guarantee the New Debentures, and the New Debentures will not limit the amount of debt that the Company or its subsidiaries may incur.

All references to \$ in this Current Report on Form 8-K are to United States dollars.

The above summary of the terms of the New Indenture and the New Debentures does not purport to be complete and is qualified in its entirety by reference to the provisions of the New Indenture and the New Debentures Global Debenture, which are attached as Exhibits 4.1, and 4.2, respectively, to this Current Report on Form 8-K and incorporated herein by reference.
