UNITED STATES SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

Form 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d)

OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2012

Commission file number 001-15925

COMMUNITY HEALTH SYSTEMS, INC.

(Exact name of registrant as specified in its charter)

Delaware
*(State or other jurisdiction of
incorporation or organization)*

4000 Meridian Boulevard

Franklin, Tennessee
(Address of principal executive offices)

13-3893191
(I.R.S. Employer

Identification Number)

37067

(Zip Code)

615-465-7000

(Registrant's telephone number)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Edgar Filing: COMMUNITY HEALTH SYSTEMS INC - Form 10-Q

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of July 19, 2012, there were outstanding 90,963,226 shares of the registrant's Common Stock, \$0.01 par value.

COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

The unaudited condensed consolidated financial statements of Community Health Systems, Inc. and its subsidiaries (the Company) as of June 30, 2012 and December 31, 2011 and for the three-month and six-month periods ended June 30, 2012 and June 30, 2011, have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). In the opinion of management, such information contains all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of the results for such periods. All intercompany transactions and balances have been eliminated. The results of operations for the three and six months ended June 30, 2012, are not necessarily indicative of the results to be expected for the full fiscal year ending December 31, 2012. Certain information and disclosures normally included in the notes to consolidated financial statements have been condensed or omitted as permitted by the rules and regulations of the Securities and Exchange Commission (the SEC). The Company believes the disclosures are adequate to make the information presented not misleading. The accompanying unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto for the year ended December 31, 2011, contained in the Company's Annual Report on Form 10-K.

Noncontrolling interests in less-than-wholly-owned consolidated subsidiaries of the parent are presented as a component of total equity on the condensed consolidated balance sheets to distinguish between the interests of the parent company and the interests of the noncontrolling owners. Noncontrolling interests that are redeemable or may become redeemable at a fixed or determinable price at the option of the holder or upon the occurrence of an event outside of the control of the Company are presented in mezzanine equity on the condensed consolidated balance sheets.

Allowance for Doubtful Accounts. In July 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-07, which requires healthcare organizations that perform services for patients for which the ultimate collection of all or a portion of the amounts billed or billable cannot be determined at the time services are rendered to present all bad debt expense associated with patient service revenue as an offset to the patient service revenue line item in the statement of operations. The ASU also requires qualitative disclosures about the Company's policy for recognizing revenue and bad debt expense for patient service transactions and quantitative information about the effects of changes in the assessment of collectibility of patient service revenue. This ASU was adopted by the Company on January 1, 2012. Upon adoption, the Company's provision for bad debts was presented as a reduction of operating revenues after contractual adjustments and discounts. The condensed consolidated statement of income for the three and six months ended June 30, 2011 has been restated to present the provision for bad debts as a reduction of operating revenues for comparative purposes with the June 30, 2012 presentation.

Accounts receivable are reduced by an allowance for amounts that could become uncollectible in the future. Substantially all of the Company's receivables are related to providing healthcare services to its hospitals' patients.

The Company estimates the allowance for doubtful accounts by reserving a percentage of all self-pay accounts receivable without regard to aging category, based on collection history, adjusted for expected recoveries and, if present, anticipated changes in trends. For all other non-self-pay payor categories, the Company reserves 100% of all accounts aging over 365 days from the date of discharge. The percentage used to reserve for all self-pay accounts is based on the Company's collection history. The Company collects substantially all of its third-party insured receivables, which include receivables from governmental agencies.

Collections are impacted by the economic ability of patients to pay and the effectiveness of the Company's collection efforts. Significant changes in payor mix, business office operations, economic conditions or trends in federal and state governmental healthcare coverage could affect the Company's collection of accounts receivable and the estimates of the collectability of future accounts receivable. The process of estimating the allowance for doubtful accounts requires the Company to estimate the collectability of self-pay accounts receivable, which is primarily based on its collection history, adjusted for expected recoveries and, if available, anticipated changes in collection trends. The Company also continually reviews its overall reserve adequacy by monitoring historical cash collections as a percentage of trailing net revenue less provision for bad debts, as well as by analyzing current period net revenue and admissions by payor classification, aged accounts receivable by payor, days revenue outstanding, and the impact of recent acquisitions and dispositions.

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

Operating revenues, net of contractual allowances and discounts (but before the provision for bad debts), recognized during the three and six months ended June 30, 2012 and 2011, were as follows (in thousands):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2012	2011	2012	2011
Medicare	\$ 950,887	\$ 918,669	\$ 2,015,043	\$ 1,842,533
Medicaid	396,566	348,232	711,657	669,757
Managed Care and other third-party payors	1,911,861	1,751,817	3,818,350	3,451,677
Self-pay	487,114	415,111	984,869	823,914
Total	\$ 3,746,428	\$ 3,433,829	\$ 7,529,919	\$ 6,787,881

Electronic Health Records Incentive Reimbursement. The American Recovery and Reinvestment Act of 2009 included provisions for implementing health information technology under the Health Information Technology for Economic and Clinical Health Act (HITECH). These provisions were designed to increase the use of electronic health records (EHR) technology and establish the requirements for a Medicare and Medicaid incentive payments program beginning in 2011 for eligible hospitals and providers that adopt and meaningfully use certified EHR technology. Eligibility for annual Medicare incentive payments is dependent on providers demonstrating meaningful use of EHR technology in each period over a four-year period. Initial Medicaid incentive payments are available to providers that adopt, implement or upgrade certified EHR technology; but providers must demonstrate meaningful use of such technology in subsequent years to qualify for additional incentive payments. Medicaid EHR incentive payments are fully funded by the federal government and administered by the states; however, the states are not required to offer EHR incentive payments to providers.

During the three and six months ended June 30, 2012, the Company recognized approximately \$16.8 million and \$43.0 million, respectively, of incentive reimbursement for HITECH incentives from Medicare and Medicaid related to certain of the Company's hospitals and from Medicare and Medicaid for certain of the Company's employed physicians that have demonstrated meaningful use of certified EHR technology or have completed attestations to their adoption or implementation of certified EHR technology. These incentive reimbursements were presented as a reduction of operating expenses on the condensed consolidated statement of income. During the three and six months ended June 30, 2012, the Company received cash related to the incentive reimbursement for HITECH incentives of approximately \$22.6 million and \$28.8 million, respectively. No incentive reimbursements were recognized during the three-month and six-month periods ended June 30, 2011.

Reimbursement Settlements. Included in net operating revenues for the six months ended June 30, 2012 is approximately \$101.8 million of net operating revenues from an industry-wide settlement with the United States Department of Health and Human Services and Centers for Medicare and Medicaid Services, based on a claim that acute-care hospitals in the U.S. were underpaid from the Medicare inpatient prospective payment system in federal fiscal years 1999 through 2011. The underpayments resulted from calculations related to the rural floor budget neutrality adjustments implemented in connection with the Balanced Budget Act of 1997. Also included in net operating revenues for the six months ended June 30, 2012 is an unfavorable adjustment of approximately \$21.0 million related to the newly issued Supplemental Security Income ratios for federal fiscal years 2006 through 2009 utilized for calculating Medicare Disproportionate Share Hospital reimbursements.

Throughout these notes to the condensed consolidated financial statements, Community Health Systems, Inc. (the Parent), and its consolidated subsidiaries are referred to on a collective basis as the Company. This drafting style is not meant to indicate that the publicly-traded Parent or any subsidiary of the Parent owns or operates any asset, business, or property. The hospitals, operations and businesses described in this filing are owned and operated, and management services provided, by distinct and indirect subsidiaries of Community Health Systems, Inc.

2. ACCOUNTING FOR STOCK-BASED COMPENSATION

Edgar Filing: COMMUNITY HEALTH SYSTEMS INC - Form 10-Q

Stock-based compensation awards are granted under the Community Health Systems, Inc. Amended and Restated 2000 Stock Option and Award Plan, amended and restated as of March 24, 2009 (the "2000 Plan"), and the Community Health Systems, Inc. 2009 Stock Option and Award Plan, amended and restated as of March 18, 2011 (the "2009 Plan").

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

The 2000 Plan allows for the grant of incentive stock options intended to qualify under Section 422 of the Internal Revenue Code (the IRC), as well as stock options which do not so qualify, stock appreciation rights, restricted stock, restricted stock units, performance-based shares or units and other share awards. Prior to being amended in 2009, the 2000 Plan also allowed for the grant of phantom stock. Persons eligible to receive grants under the 2000 Plan include the Company's directors, officers, employees and consultants. To date, all options granted under the 2000 Plan have been nonqualified stock options for tax purposes. Generally, vesting of these granted options occurs in one-third increments on each of the first three anniversaries of the award date. Options granted prior to 2005 have a 10-year contractual term, options granted in 2005 through 2007 have an eight-year contractual term and options granted in 2008 or later have a 10-year contractual term. As of June 30, 2012, 446,221 shares of unissued common stock were reserved for future grants under the 2000 Plan.

The 2009 Plan provides for the grant of incentive stock options intended to qualify under Section 422 of the IRC and for the grant of stock options which do not so qualify, stock appreciation rights, restricted stock, restricted stock units, performance-based shares or units and other share awards. Persons eligible to receive grants under the 2009 Plan include the Company's directors, officers, employees and consultants. To date, all options granted under the 2009 Plan have been nonqualified stock options for tax purposes. Options granted in 2011 have a 10-year contractual term. As of June 30, 2012, 1,627,477 shares of unissued common stock were reserved for future grants under the 2009 Plan.

The exercise price of all options granted is equal to the fair value of the Company's common stock on the option grant date.

The following table reflects the impact of total compensation expense related to stock-based equity plans on the reported operating results for the respective periods (in thousands):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2012	2011	2012	2011
Effect on income from continuing operations before income taxes	\$ (10,129)	\$ (10,814)	\$ (20,624)	\$ (20,732)
Effect on net income	\$ (6,432)	\$ (6,867)	\$ (13,096)	\$ (13,165)

At June 30, 2012, \$54.9 million of unrecognized stock-based compensation expense was expected to be recognized over a weighted-average period of 21 months. Of that amount, \$11.0 million related to outstanding unvested stock options was expected to be recognized over a weighted-average period of 20 months and \$43.9 million related to outstanding unvested restricted stock and restricted stock units was expected to be recognized over a weighted-average period of 21 months. There were no modifications to awards during the three-month and six-month periods ended June 30, 2012.

The fair value of stock options was estimated using the Black Scholes option pricing model with the following assumptions and weighted-average fair values during the three and six months ended June 30, 2012 and 2011:

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2012	2011	2012	2011
Expected volatility	59.9 %	38.1 %	57.8 %	31.5 %
Expected dividends	-	-	-	-
Expected term	4 years	4 years	4.1 years	4 years
Risk-free interest rate	0.6 %	1.4 %	0.7 %	1.7 %

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

In determining the expected term, the Company examined concentrations of option holdings and historical patterns of option exercises and forfeitures, as well as forward-looking factors, in an effort to determine if there were any discernable employee populations. From this analysis, the Company identified two primary employee populations, one consisting of certain senior executives and the other one consisting of substantially all other recipients.

The expected volatility rate was estimated based on historical volatility. In determining expected volatility, the Company also reviewed the market-based implied volatility of actively traded options of its common stock and determined that historical volatility utilized to estimate the expected volatility rate did not differ significantly from the implied volatility.

The expected term computation is based on historical exercise and cancellation patterns and forward-looking factors, where present, for each population identified. The risk-free interest rate is based on the U.S. Treasury yield curve in effect at the time of the grant. The pre-vesting forfeiture rate is based on historical rates and forward-looking factors for each population identified. The Company adjusts the estimated forfeiture rate to its actual experience.

Options outstanding and exercisable under the 2000 Plan and the 2009 Plan as of June 30, 2012, and changes during each of the three-month periods following December 31, 2011, were as follows (in thousands, except share and per share data):

	Shares	Weighted-Average Exercise Price	Weighted- Average Remaining Contractual Term	Aggregate Intrinsic Value as of June 30, 2012
Outstanding at December 31, 2011	8,389,142	\$ 32.83		
Granted	246,500	21.07		
Exercised	(17,244)	17.88		
Forfeited and cancelled	(130,475)	32.27		
Outstanding at March 31, 2012	8,487,923	32.53		
Granted	4,000	21.91		
Exercised	(50,018)	19.20		
Forfeited and cancelled	(103,448)	33.38		
Outstanding at June 30, 2012	8,338,457	\$ 32.59	4.8 years	\$ 15,756
Exercisable at June 30, 2012	6,732,861	\$ 32.67	3.9 years	\$ 12,670

The weighted-average grant date fair value of stock options granted during the three months ended June 30, 2012 and 2011 was \$10.01 and \$8.89, respectively, and \$9.16 and \$10.29 during the six months ended June 30, 2012 and 2011, respectively. The aggregate intrinsic value (the number of in-the-money stock options multiplied by the difference between the Company's closing stock price on the last trading day of the reporting period (\$28.03) and the exercise price of the respective stock options) in the table above represents the amount that would have been received by the option holders had all option holders exercised their options on June 30, 2012. This amount changes based on the market value of the Company's common stock. The aggregate intrinsic value of options exercised during the three months ended June 30, 2012 and 2011 was \$0.3 million and \$0.2 million, respectively. The aggregate intrinsic value of options exercised during the six months ended June 30, 2012 and 2011 was \$0.4 million and \$6.1 million, respectively. The aggregate intrinsic value of options vested and expected to vest approximates that of the outstanding options.

Edgar Filing: COMMUNITY HEALTH SYSTEMS INC - Form 10-Q

The Company has also awarded restricted stock under the 2000 Plan and the 2009 Plan to its directors and employees of certain subsidiaries. The restrictions on these shares generally lapse in one-third increments on each of the first three anniversaries of the award date. Certain of the restricted stock awards granted to the Company's senior executives contain a performance objective that must be met in addition to any vesting requirements. If the performance objective is not attained, the awards will be forfeited in their entirety. Once the performance objective has been attained, restrictions will lapse in one-third increments on each of the first three anniversaries of the award date. Notwithstanding the above-mentioned performance objectives and vesting requirements, the restrictions will lapse earlier in the event of death, disability or termination of employment by the Company for any reason other than for cause of the holder of the restricted stock, or change in control of the Company. Restricted stock awards subject to performance standards are not considered outstanding for purposes of determining earnings per share until the performance objectives have been satisfied.

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

Restricted stock outstanding under the 2000 Plan and the 2009 Plan as of June 30, 2012, and changes during each of the three-month periods following December 31, 2011, were as follows:

	Shares	Weighted-Average Grant Date Fair Value
Unvested at December 31, 2011	2,207,612	\$ 32.95
Granted	660,500	21.07
Vested	(1,082,821)	29.67
Forfeited	(1,000)	37.96
Unvested at March 31, 2012	1,784,291	30.54
Granted	8,000	21.91
Vested	(7,001)	29.78
Forfeited	(7,000)	31.39
Unvested at June 30, 2012	1,778,290	30.50

Phantom stock and restricted stock units (RSUs) have been granted to the Company's outside directors under the 2000 Plan and the 2009 Plan. On February 25, 2009, each of the Company's outside directors received a grant under the 2000 Plan of 7,151 shares of phantom stock. On May 19, 2009, the newly elected outside director received a grant under the 2000 Plan of 7,151 RSUs. On February 24, 2010, six of the Company's seven outside directors each received a grant under the 2000 Plan of 4,130 RSUs and one outside director, who did not stand for reelection in 2010, did not receive such a grant. On February 23, 2011, each of the Company's outside directors received a grant under the 2009 Plan of 3,688 RSUs. On February 16, 2012, each of the Company's outside directors received a grant under the 2009 Plan of 6,645 RSUs. Vesting of these shares of phantom stock and RSUs occurs in one-third increments on each of the first three anniversaries of the award date. Restricted stock units and phantom stock outstanding under the 2000 Plan and the 2009 Plan as of June 30, 2012, and changes during each of the three-month periods following December 31, 2011, were as follows:

	Shares	Weighted-Average Grant Date Fair Value
Unvested at December 31, 2011	52,956	\$ 31.67
RSUs Granted February 16, 2012	39,870	21.07
Vested	(27,556)	28.19
Forfeited	-	-
Unvested at March 31, 2012	65,270	26.67
RSUs Granted	-	-
Vested	(2,384)	25.27
Forfeited	-	-
Unvested at June 30, 2012	62,886	26.72

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

Under the Directors' Fees Deferral Plan, the Company's outside directors may elect to receive share equivalent units in lieu of cash for their directors' fees. These share equivalent units are held in the plan until the director electing to receive the share equivalent units retires or otherwise terminates his/her directorship with the Company. Share equivalent units are converted to shares of common stock of the Company at the time of distribution based on the closing market price of the Company's common stock on that date. The following table represents the amount of directors' fees which were deferred during each of the respective periods, and the number of share equivalent units into which such directors' fees would have converted had each of the directors who had deferred such fees retired or terminated his/her directorship with the Company as of the end of the respective periods (in thousands, except share equivalent units):

	Three Months Ended		Six Months Ended	
	2012	June 30, 2011	2012	June 30, 2011
Directors' fees earned and deferred into plan	\$ 28	\$ 55	\$ 55	\$ 110
Share equivalent units	1,237	2,142	2,218	3,517

At June 30, 2012, a total of 30,993 share equivalent units were deferred in the plan with an aggregate fair value of \$0.9 million, based on the closing market price of the Company's common stock at June 30, 2012 of \$28.03.

3. COST OF REVENUE

Substantially all of the Company's operating costs and expenses are cost of revenue items. Operating costs that could be classified as general and administrative by the Company would include the Company's corporate office costs at its Franklin, Tennessee office, which were \$56.6 million and \$47.8 million for the three months ended June 30, 2012 and 2011, respectively, and \$104.2 million and \$89.5 million for the six months ended June 30, 2012 and 2011, respectively. Included in these amounts is stock-based compensation expense of \$10.1 million and \$10.8 million for the three months ended June 30, 2012 and 2011, respectively, and \$20.6 million and \$20.7 million for the six months ended June 30, 2012 and 2011, respectively.

4. USE OF ESTIMATES

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the condensed consolidated financial statements. Actual results could differ from these estimates under different assumptions or conditions.

5. ACQUISITIONS AND DIVESTITURES*Acquisitions*

The Company accounts for all transactions that represent business combinations after January 1, 2009 using the acquisition method of accounting, where the identifiable assets acquired, the liabilities assumed and any noncontrolling interest in the acquired entity are recognized and measured at their fair values on the date the Company obtains control in the acquiree. Such fair values that are not finalized for reporting periods following the acquisition date are estimated and recorded as provisional amounts. Adjustments to these provisional amounts during the measurement period (defined as the date through which all information required to identify and measure the consideration transferred, the assets acquired, the liabilities assumed and any noncontrolling interests has been obtained, limited to one year from the acquisition date) are recorded as of the date of acquisition. Any material impact to comparative information for periods after acquisition, but before the period in which adjustments are identified, is reflected in those prior periods as if the adjustments were considered as of the acquisition date. Goodwill is determined as the excess of the fair value of the consideration conveyed in the acquisition over the fair value of the net assets acquired.

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

Effective March 5, 2012, one or more subsidiaries of the Company completed a merger with Diagnostic Clinic of Longview, P.A., which is a multi-specialty clinic serving residents of Longview, Texas and surrounding East Texas communities. This merger was accounted for as a purchase business combination. The total cash consideration paid for the business, including net working capital, was approximately \$52.3 million, with additional consideration of \$12.7 million assumed in liabilities, for a total consideration of \$65.0 million. Based upon the Company's preliminary purchase price allocation relating to this acquisition as of June 30, 2012, approximately \$41.8 million of goodwill has been recorded. The preliminary allocation of the purchase price has been determined by the Company based on available information and is subject to settling amounts related to purchased working capital. Adjustments to the purchase price allocation are not expected to be material.

Effective March 1, 2012, one or more subsidiaries of the Company completed the acquisition of MetroSouth Medical Center (330 licensed beds) located in Blue Island, Illinois. The total cash consideration paid for fixed assets was approximately \$39.3 million with additional consideration of \$11.5 million assumed in liabilities as well as a credit applied at closing of \$0.9 million for negative acquired working capital, for a total consideration of \$49.9 million. Based upon the Company's preliminary purchase price allocation relating to this acquisition as of June 30, 2012, no goodwill has been recorded. The preliminary allocation of the purchase price has been determined by the Company based on available information and is subject to settling amounts related to purchased working capital and final appraisals of tangible and intangible assets. Adjustments to the purchase price allocation are not expected to be material.

Effective January 1, 2012, one or more subsidiaries of the Company completed the acquisition of Moses Taylor Healthcare System based in Scranton, Pennsylvania, which is a healthcare system comprised of two acute care hospitals and other healthcare providers. This healthcare system includes Moses Taylor Hospital (217 licensed beds) located in Scranton, Pennsylvania, and Mid-Valley Hospital (25 licensed beds) located in Peckville, Pennsylvania. The total cash consideration paid for fixed assets and working capital was approximately \$151.1 million and \$9.2 million, respectively, with additional consideration of \$13.5 million assumed in liabilities, for a total consideration of \$173.8 million. Based upon the Company's preliminary purchase price allocation relating to this acquisition as of June 30, 2012, approximately \$54.9 million of goodwill has been recorded. The preliminary allocation of the purchase price has been determined by the Company based on available information and is subject to settling amounts related to purchased working capital and final appraisals of tangible and intangible assets. Adjustments to the purchase price allocation are not expected to be material.

Effective October 1, 2011, one or more subsidiaries of the Company completed the acquisition of Tomball Regional Hospital (358 licensed beds) located in Tomball, Texas. The total cash consideration paid for fixed assets and working capital was approximately \$192.0 million and \$17.5 million, respectively, with additional consideration of \$15.9 million assumed in liabilities, for a total consideration of \$225.4 million. Based upon the Company's final purchase price allocation relating to this acquisition, as of June 30, 2012, approximately \$32.4 million of goodwill has been recorded.

Effective May 1, 2011, one or more subsidiaries of the Company completed the acquisition of Mercy Health Partners based in Scranton, Pennsylvania, which is a healthcare system comprised of two acute care hospitals, a long-term acute care facility and other healthcare providers. This healthcare system includes Regional Hospital of Scranton (198 licensed beds) located in Scranton, Pennsylvania, and Tyler Memorial Hospital (48 licensed beds) located in Tunkhannock, Pennsylvania. This healthcare system also includes a long-term acute care facility, Special Care Hospital (67 licensed beds) located in Nanticoke, Pennsylvania, as well as several outpatient clinics and other ancillary facilities. The total cash consideration paid for fixed assets was approximately \$150.8 million, with additional consideration of \$12.3 million assumed in liabilities as well as a credit applied at closing of \$2.1 million for negative acquired working capital, for a total consideration of \$161.0 million. Based upon the Company's final purchase price allocation relating to this acquisition, as of June 30, 2012, approximately \$43.1 million of goodwill has been recorded.

Additionally, during the six months ended June 30, 2012, the Company paid approximately \$13.2 million to acquire the operating assets and related businesses of certain physician practices, clinics and other ancillary businesses that operate within the communities served by its hospitals. In connection with these acquisitions, the Company allocated approximately \$3.4 million of the consideration paid to property and equipment, \$0.3 million to net working capital, and the remainder, approximately \$9.5 million consisting of intangible assets that do not qualify for separate recognition, was allocated to goodwill. These acquisition transactions were accounted for as purchase business combinations.

Approximately \$2.3 million and \$5.3 million of acquisition costs related to prospective and closed acquisitions were expensed during the three months ended June 30, 2012 and 2011, respectively, and \$6.6 million and \$8.7 million for the six months ended June 30, 2012 and 2011, respectively.

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)*****Discontinued Operations***

Effective February 1, 2011, the Company sold Willamette Community Medical Group, which is a physician clinic operating as Oregon Medical Group, located in Springfield, Oregon, to Oregon Healthcare Resources, LLC, for \$14.6 million in cash; this business had a carrying amount of net assets, including an allocation of reporting unit goodwill, of \$19.7 million.

Effective September 1, 2011, the Company sold SouthCrest Hospital, located in Tulsa, Oklahoma, Claremore Regional Hospital, located in Claremore, Oklahoma, and other related healthcare assets affiliated with those hospitals to Hillcrest Healthcare System, part of Ardent Health Services, for approximately \$154.2 million in cash. The carrying amount of the net assets sold in this transaction, including an allocation of reporting unit goodwill, was approximately \$193.0 million.

Effective October 22, 2011, the Company sold Cleveland Regional Medical Center, located in Cleveland, Texas, and other related healthcare assets affiliated with the hospital to New Directions Health Systems, LLC for approximately \$0.9 million in cash. The carrying amount of the net assets sold in this transaction, including an allocation of reporting unit goodwill, was approximately \$14.2 million.

The Company has classified the results of operations for Oregon Medical Group, SouthCrest Hospital, Claremore Regional Hospital and Cleveland Regional Hospital as discontinued operations in the accompanying condensed consolidated statements of income for the three and six months ended June 30, 2012 and 2011.

Net operating revenues and loss from discontinued operations for the respective periods are as follows (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Net operating revenues	\$ -	\$ 68,479	\$ -	\$ 140,563
Income (loss) from operations of entities sold before income taxes	-	392	(729)	(2,280)
Impairment of hospitals sold	-	(38,600)	-	(51,695)
Loss on sale, net	-	-	-	(5,061)
Loss from discontinued operations, before taxes	-	(38,208)	(729)	(59,036)
Income tax expense (benefit)	-	1,119	(263)	(6,429)
Loss from discontinued operations, net of taxes	\$ -	\$ (39,327)	\$ (466)	\$ (52,607)

Interest expense was allocated to discontinued operations based on sale proceeds available for debt repayment.

6. INCOME TAXES

The total amount of unrecognized benefit that would affect the effective tax rate, if recognized, was approximately \$2.0 million as of June 30, 2012. During the six months ended June 30, 2012, the Company increased liabilities for uncertain tax positions by \$1.0 million and increased interest and penalties by approximately \$0.3 million. A total of approximately \$0.5 million of interest and penalties is included in the amount of

Edgar Filing: COMMUNITY HEALTH SYSTEMS INC - Form 10-Q

the liability for uncertain tax positions at June 30, 2012. It is the Company's policy to recognize interest and penalties related to unrecognized benefits in its condensed consolidated statements of income as income tax expense.

It is possible the amount of unrecognized tax benefit could change in the next twelve months as a result of a lapse of the statute of limitations and settlements with taxing authorities; however, the Company does not anticipate the change will have a material impact on its consolidated results of operations or consolidated financial position.

The Company, or one of its subsidiaries, files income tax returns in the United States federal jurisdiction and various state jurisdictions. The Company has extended the federal statute of limitations for Triad Hospitals, Inc. (Triad) for the tax periods ended December 31, 1999, December 31, 2000, April 30, 2001, June 30, 2001, December 31, 2001, December 31, 2002 and December 31, 2003. The Internal Revenue Service (the IRS) has concluded its examination of the federal tax return of Triad for the tax periods ended December 31, 2004, December 31, 2005, December 31, 2006 and July 25, 2007, and the statutes of limitations for those years will close on December 31, 2012. With few exceptions, the Company is no longer subject to state income tax examinations for years prior to 2008 and federal

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

income tax examinations with respect to Community Health Systems, Inc. federal returns for years prior to 2007. The Company's federal income tax returns for the 2007, 2008, 2009 and 2010 tax years are currently under examination by the IRS. The Company believes the results of this examination will not be material to its consolidated results of operations or consolidated financial position. In connection with the Company's 2007 and 2008 IRS examinations, the IRS has taken exception to the timing of the Company's malpractice expense deductions. Management believes that the Company's deduction timing is appropriate, and will work to resolve this item over the next 24 months. If management is unable to sustain the current timing of the Company's deduction, then it would be subject to interest and penalty costs. Management does not consider this matter to have met the recognition criteria to be considered an uncertain tax position for which a reserve is necessary.

Cash paid for income taxes, net of refunds received, resulted in net cash paid of \$22.1 million and a net cash refund of \$25.0 million for the three months ended June 30, 2012 and 2011, respectively. Cash paid for income taxes, net of refunds received, resulted in net cash paid of \$22.0 million and a net cash refund of \$25.7 million for the six months ended June 30, 2012 and 2011, respectively.

7. GOODWILL AND OTHER INTANGIBLE ASSETS

The changes in the carrying amount of goodwill for the six months ended June 30, 2012, are as follows (in thousands):

Balance as of December 31, 2011	\$	4,264,845
Goodwill acquired as part of acquisitions during 2012		106,189
Consideration adjustments and purchase price allocation adjustments for prior year's acquisitions		1,959
Balance as of June 30, 2012	\$	4,372,993

Goodwill is allocated to each identified reporting unit, which is defined as an operating segment or one level below the operating segment (referred to as a component of the entity). Management has determined that the Company's operating segments meet the criteria to be classified as reporting units. At June 30, 2012, the hospital operations reporting unit, the home care agency operations reporting unit, and the hospital management services reporting unit had approximately \$4.3 billion, \$40.5 million and \$33.3 million, respectively, of goodwill.

Goodwill is evaluated for impairment at the same time every year and when an event occurs or circumstances change that, more likely than not, reduce the fair value of the reporting unit below its carrying value. There is a two-step method for determining goodwill impairment. Step one is to compare the fair value of the reporting unit with the unit's carrying amount, including goodwill. If this test indicates the fair value is less than the carrying value, then step two is required to compare the implied fair value of the reporting unit's goodwill with the carrying value of the reporting unit's goodwill. The Company has selected September 30 as its annual testing date. The Company performed its last annual goodwill evaluation as of September 30, 2011, which evaluation took place during the fourth quarter of 2011. No impairment was indicated by this evaluation.

The Company estimates the fair value of the related reporting units using both a discounted cash flow model as well as an EBITDA multiple model. The cash flow forecasts are adjusted by an appropriate discount rate based on the Company's estimate of a market participant's weighted-average cost of capital. These models are both based on the Company's best estimate of future revenues and operating costs and are reconciled to the Company's consolidated market capitalization, with consideration of the amount a potential acquirer would be required to pay, in the form of a control premium, in order to gain sufficient ownership to set policies, direct operations and control management decisions.

Table of Contents

COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)

The gross carrying amount of the Company's other intangible assets subject to amortization was \$61.8 million at June 30, 2012 and \$60.0 million at December 31, 2011, and the net carrying amount was \$29.6 million at June 30, 2012 and \$30.6 million at December 31, 2011. The carrying amount of the Company's other intangible assets not subject to amortization was \$47.3 million at June 30, 2012 and \$46.9 million at December 31, 2011. Other intangible assets are included in other assets, net on the Company's condensed consolidated balance sheets. Substantially all of the Company's intangible assets are contract-based intangible assets related to operating licenses, management contracts, or non-compete agreements entered into in connection with prior acquisitions.

The weighted-average amortization period for the intangible assets subject to amortization is approximately eight years. There are no expected residual values related to these intangible assets. Amortization expense on these intangible assets was \$1.9 million and \$2.3 million during the three months ended June 30, 2012 and 2011, respectively, and \$3.7 million and \$4.2 million during the six months ended June 30, 2012 and 2011, respectively. Amortization expense on intangible assets is estimated to be \$4.4 million for the remainder of 2012, \$5.5 million in 2013, \$3.5 million in 2014, \$3.2 million in 2015, \$2.4 million in 2016, \$2.2 million in 2017 and \$8.4 million thereafter.

The gross carrying amount of capitalized software for internal use was approximately \$544.5 million and \$451.0 million at June 30, 2012 and December 31, 2011, respectively, and the net carrying amount considering accumulated amortization was approximately \$294.2 million and \$241.3 million at June 30, 2012 and December 31, 2011, respectively. The estimated amortization period for capitalized internal-use software is generally three years, except for capitalized costs related to significant system conversions, which is generally eight years. There is no expected residual value for capitalized internal-use software. At June 30, 2012, there was approximately \$171.9 million of capitalized costs for internal-use software that is currently in the development stage and will begin amortization once the software project is complete and ready for its intended use. Amortization expense on capitalized internal-use software was \$21.7 million and \$16.7 million during the three months ended June 30, 2012 and 2011, respectively, and \$41.4 million and \$34.7 million during the six months ended June 30, 2012 and 2011, respectively. Amortization expense on capitalized internal-use software is estimated to be \$48.8 million for the remainder of 2012, \$97.7 million in 2013, \$60.4 million in 2014, \$26.7 million in 2015, \$19.4 million in 2016, \$16.2 million in 2017 and \$25.0 million thereafter.

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****8. EARNINGS PER SHARE**

The following table sets forth the components of the numerator and denominator for the computation of basic and diluted earnings per share for income from continuing operations, discontinued operations and net income attributable to Community Health Systems, Inc. common stockholders (in thousands, except share data):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2012	2011	2012	2011
Numerator:				
Income from continuing operations, net of taxes	\$ 102,167	\$ 92,874	\$ 201,885	\$ 184,479
Less: Income from continuing operations attributable to noncontrolling interests, net of taxes	18,808	18,158	42,586	35,159
Income from continuing operations attributable to Community Health Systems, Inc. common stockholders basic and diluted	\$ 83,359	\$ 74,716	\$ 159,299	\$ 149,320
Loss from discontinued operations, net of taxes	\$ -	\$ (39,327)	\$ (466)	\$ (52,607)

9. STOCKHOLDERS EQUITY

Authorized capital shares of the Company include 400,000,000 shares of capital stock consisting of 300,000,000 shares of common stock and 100,000,000 shares of preferred stock. Each of the aforementioned classes of capital stock has a par value of \$0.01 per share. Shares of preferred stock, none of which were outstanding as of June 30, 2012, may be issued in one or more series having such rights, preferences and other provisions as determined by the Board of Directors without approval by the holders of common stock.

On December 14, 2011, the Company adopted a new open market repurchase program for up to 4,000,000 shares of the Company's common stock, not to exceed \$100 million in repurchases. The new repurchase program will conclude at the earliest of three years from the commencement date, when the maximum number of shares has been repurchased, or when the maximum dollar amount of repurchases has been expended. Through June 30, 2012, no shares have been purchased and retired under this program.

On September 15, 2010, the Company commenced an open market repurchase program for up to 4,000,000 shares of the Company's common stock, not to exceed \$100 million in repurchases. This program will conclude at the earliest of three years from the commencement date, when the maximum number of shares has been repurchased or when the maximum dollar amount of repurchases has been expended. During the three and six months ended June 30, 2012, the Company did not repurchase any shares under this program. During the three and six months ended June 30, 2011, the Company repurchased and retired 1,763,566 shares at a weighted average price of \$28.31 under this program. The cumulative number of shares that have been repurchased and retired under this program through June 30, 2012 is 3,921,138 shares at a weighted-average price of \$25.39 per share.

The Company's Credit Facility (as discussed below) limits the Company's ability to pay dividends and/or repurchase stock to an amount not to exceed \$50 million in the aggregate plus the aggregate amount of proceeds from the exercise of stock options. The indentures governing the 8⁷/₈% Senior Notes due 2015 and the 8% Senior Notes due 2019 (collectively, the Senior Notes) also limit the Company's ability to pay dividends and/or repurchase stock. As of June 30, 2012, under the most restrictive test under these agreements, the Company has approximately \$81.3 million remaining available with which to pay permitted dividends and/or repurchase shares of stock or its Senior Notes.

Change to Community Health Systems, Inc. stockholders' equity from net income attributable to Community Health Systems, Inc. and transfers to noncontrolling interests	\$	139,985

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****10. EQUITY INVESTMENTS**

As of June 30, 2012, the Company owned equity interests of 27.5% in four hospitals in Las Vegas, Nevada, and 26.1% in one hospital in Las Vegas, Nevada, in which Universal Health Systems, Inc. owns the majority interest, and an equity interest of 38.0% in three hospitals in Macon, Georgia, in which HCA Inc. owns the majority interest.

Summarized combined financial information for the three and six months ended June 30, 2012 and 2011, for these unconsolidated entities in which the Company owns an equity interest is as follows (in thousands):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2012	2011	2012	2011
Revenues	\$ 315,106	\$ 307,453	\$ 632,423	\$ 628,293
Operating costs and expenses	274,303	268,777	551,559	535,013
Income from continuing operations before taxes	40,781	38,645	80,816	93,229

The summarized financial information for the three and six months ended June 30, 2012 and 2011 was derived from the unaudited financial information provided to the Company by those unconsolidated entities.

The Company's investment in all of its unconsolidated affiliates was \$432.3 million and \$422.2 million at June 30, 2012 and December 31, 2011, respectively, and is included in other assets, net in the accompanying condensed consolidated balance sheets. Included in the Company's results of operations is the Company's equity in pre-tax earnings from all of its investments in unconsolidated affiliates, which was \$13.2 million and \$12.0 million for the three months ended June 30, 2012 and 2011, respectively, and \$25.2 million and \$30.2 million for the six months ended June 30, 2012 and 2011, respectively.

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)*****Credit Facility***

In connection with the consummation of the acquisition of Triad in July 2007, the Company's wholly-owned subsidiary CHS/Community Health Systems, Inc. (CHS) obtained approximately \$7.2 billion of senior secured financing under a new credit facility (the Credit Facility) with a syndicate of financial institutions led by Credit Suisse, as administrative agent and collateral agent, and issued approximately \$3.0 billion aggregate principal amount of 8⁷/₈% senior notes due 2015 (the 8⁷/₈% Senior Notes). The Company used the net proceeds of \$3.0 billion from the 8⁷/₈% Senior Notes offering and the net proceeds of approximately \$6.1 billion of term loans under the Credit Facility to acquire the outstanding shares of Triad, to refinance certain of Triad's indebtedness and the Company's indebtedness, to complete certain related transactions, to pay certain costs and expenses of the transactions and for general corporate uses. Specifically, the Company repaid its outstanding debt under the previously outstanding credit facility, the 6.50% senior subordinated notes due 2012 and certain of Triad's existing indebtedness.

The Credit Facility consisted of an approximately \$6.1 billion funded term loan facility with a maturity of seven years, a \$400 million delayed draw term loan facility with a maturity of seven years and a \$750 million revolving credit facility with a maturity of six years. As of December 31, 2007, the \$400 million delayed draw term loan facility had been reduced to \$300 million at the request of CHS. During the fourth quarter of 2008, \$100 million of the delayed draw term loan was drawn by CHS, reducing the delayed draw term loan availability to \$200 million at December 31, 2008. In January 2009, CHS drew down the remaining \$200 million of the delayed draw term loan. The revolving credit facility also includes a subfacility for letters of credit and a swingline subfacility. The Credit Facility requires quarterly amortization payments of each term loan facility equal to 0.25% of the outstanding amount of the term loans.

On November 5, 2010, CHS entered into an amendment and restatement of the Credit Facility. The amendment extended by two and a half years, until January 25, 2017, the maturity date of \$1.5 billion of the existing term loans under the Credit Facility and increased the pricing on these term loans to LIBOR plus 350 basis points. If more than \$50 million of the 8⁷/₈% Senior Notes remain outstanding on April 15, 2015, without having been refinanced, then the maturity date for the extended term loans will be accelerated to April 15, 2015. The amendment also increased CHS's ability to issue additional indebtedness under the uncommitted incremental facility to \$1.0 billion from \$600 million, permitted CHS to issue term loan A loans under the incremental facility, and provided up to \$2.0 billion of borrowing capacity from receivable transactions, an increase of \$0.5 billion, of which \$1.7 billion would be required to be used for repayment of existing term loans. In addition, effective February 2, 2012, the Company completed a second amendment and restatement of the Credit Facility, which extended by two and a half years, until January 25, 2017, the maturity date of an additional \$1.6 billion of the existing non-extended term loans under the Credit Facility and increased the pricing on these term loans to LIBOR plus 350 basis points. The maturity date of the balance of the term loans of approximately \$2.9 billion remained unchanged at July 25, 2014.

Effective March 6, 2012, the Company obtained a new \$750 million senior secured revolving credit facility (the Replacement Revolver Facility) and a new \$750 million incremental term loan A facility (the Incremental Term Loan) subject to the terms and conditions set forth in the Credit Facility. The Replacement Revolver Facility replaced in full the existing revolving credit facility under the Credit Facility. The net proceeds of the Incremental Term Loan were used to repay the same amount of the existing term loans under the Credit Facility. The execution of these agreements resulted in a loss from early extinguishment of debt of \$8.5 million with an after-tax impact of \$5.3 million recorded in continuing operations for the six months ended June 30, 2012. Both the Replacement Revolver Facility and the Incremental Term Loan have a maturity date of October 25, 2016, subject to customary acceleration events and to the repayment, extension or refinancing with longer maturity debt of substantially all of the Company's outstanding term loans maturing July 25, 2014 and the 8⁷/₈% Senior Notes. The pricing on each of the Replacement Revolver Facility and the Incremental Term Loan initially is LIBOR plus a margin of 250 basis points, subject to adjustment based on the Company's leverage ratio. The Incremental Term Loan amortizes at 5% in year one, 10% in years two and three, 15% in year four and 60% in year five.

The term loan facility must be prepaid in an amount equal to (1) 100% of the net cash proceeds of certain asset sales and dispositions by the Company and its subsidiaries, subject to certain exceptions and reinvestment rights, (2) 100% of the net cash proceeds of issuances of certain debt obligations or receivables-based financing by the Company and its subsidiaries, subject to certain exceptions, and (3) 50%, subject to reduction to a lower percentage based on the Company's leverage ratio (as defined in the Credit Facility generally as the ratio of total debt on the date of determination to the Company's EBITDA, as defined, for the four quarters most recently ended prior to such date), of excess cash flow (as defined) for any year, commencing in 2008, subject to certain exceptions. Voluntary prepayments and commitment reductions are permitted in whole or in part, without any premium or penalty, subject to minimum prepayment or reduction requirements.

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

The obligor under the Credit Facility is CHS. All of the obligations under the Credit Facility are unconditionally guaranteed by the Company and certain of its existing and subsequently acquired or organized domestic subsidiaries. All obligations under the Credit Facility and the related guarantees are secured by a perfected first priority lien or security interest in substantially all of the assets of the Company, CHS and each subsidiary guarantor, including equity interests held by the Company, CHS or any subsidiary guarantor, but excluding, among others, the equity interests of non-significant subsidiaries, syndication subsidiaries, securitization subsidiaries and joint venture subsidiaries.

The loans under the Credit Facility bear interest on the outstanding unpaid principal amount at a rate equal to an applicable percentage plus, at CHS's option, either (a) an Alternate Base Rate (as defined) determined by reference to the greater of (1) the Prime Rate (as defined) announced by Credit Suisse or (2) the Federal Funds Effective Rate (as defined) plus 0.50% or (3) the adjusted London Interbank Offered Rate (LIBOR) on such day for a three-month interest period commencing on the second business day after such day plus 1%, or (b) a reserve adjusted LIBOR for dollars (Eurodollar rate) (as defined). The applicable percentage for Alternate Base Rate loans is 1.25% for term loans due 2014 and is 2.25% for term loans due 2017 and the Incremental Term Loan. The applicable percentage for Eurodollar rate loans is 2.25% for term loans due 2014 and 3.50% for term loans due 2017 and the Incremental Term Loan. The applicable percentage for revolving loans is 1.50% for Alternate Base Rate revolving loans and 2.50% for Eurodollar revolving loans, in each case subject to reduction based on the Company's leverage ratio. Loans under the swingline subfacility bear interest at the rate applicable to Alternate Base Rate loans under the revolving credit facility.

CHS has agreed to pay letter of credit fees equal to the applicable percentage then in effect with respect to Eurodollar rate loans under the revolving credit facility times the maximum aggregate amount available to be drawn under all letters of credit outstanding under the subfacility for letters of credit. The issuer of any letter of credit issued under the subfacility for letters of credit will also receive a customary fronting fee and other customary processing charges. CHS is obligated to pay commitment fees of 0.50% per annum (subject to reduction based upon the Company's leverage ratio) on the unused portion of the revolving credit facility. For purposes of this calculation, swingline loans are not treated as usage of the revolving credit facility. With respect to the delayed draw term loan facility, CHS was also obligated to pay commitment fees of 0.50% per annum for the first nine months after the closing of the Credit Facility, 0.75% per annum for the next three months after such nine-month period and thereafter, 1% per annum. In each case, the commitment fee was paid on the unused amount of the delayed draw term loan facility. After the draw down of the remaining \$200 million of the delayed draw term loan in January 2009, CHS no longer pays any commitment fees for the delayed draw term loan facility. CHS paid arrangement fees on the closing of the Credit Facility and pays an annual administrative agent fee.

The Credit Facility contains customary representations and warranties, subject to limitations and exceptions, and customary covenants restricting the Company's and its subsidiaries' ability, subject to certain exceptions, to, among other things (1) declare dividends, make distributions or redeem or repurchase capital stock, (2) prepay, redeem or repurchase other debt, (3) incur liens or grant negative pledges, (4) make loans and investments and enter into acquisitions and joint ventures, (5) incur additional indebtedness or provide certain guarantees, (6) make capital expenditures, (7) engage in mergers, acquisitions and asset sales, (8) conduct transactions with affiliates, (9) alter the nature of the Company's businesses, (10) grant certain guarantees with respect to physician practices, (11) engage in sale and leaseback transactions or (12) change the Company's fiscal year. The Company is also required to comply with specified financial covenants (consisting of a leverage ratio and an interest coverage ratio) and various affirmative covenants.

Events of default under the Credit Facility include, but are not limited to, (1) CHS's failure to pay principal, interest, fees or other amounts under the credit agreement when due (taking into account any applicable grace period), (2) any representation or warranty proving to have been materially incorrect when made, (3) covenant defaults subject, with respect to certain covenants, to a grace period, (4) bankruptcy events, (5) a cross default to certain other debt, (6) certain undischarged judgments (not paid within an applicable grace period), (7) a change of control, (8) certain ERISA-related defaults and (9) the invalidity or impairment of specified security interests, guarantees or subordination provisions in favor of the administrative agent or lenders under the Credit Facility.

As of June 30, 2012, the availability for additional borrowings under the Credit Facility was \$750 million pursuant to the Replacement Revolver Facility, of which \$37.7 million was set aside for outstanding letters of credit and \$5.0 million was outstanding at June 30, 2012. CHS has the ability to amend the Credit Facility to provide for one or more tranches of term loans in an aggregate principal amount of \$1.0 billion, which CHS has not yet accessed. As of June 30, 2012, the weighted-average interest rate under the Credit Facility, excluding swaps, was 3.5%.

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)*****8⁷/₈% Senior Notes due 2015***

The 8⁷/₈% Senior Notes were issued by CHS in connection with the Triad acquisition in the principal amount of approximately \$3.0 billion. The 8⁷/₈% Senior Notes will mature on July 15, 2015. The 8⁷/₈% Senior Notes bear interest at the rate of 8.875% per annum, payable semiannually in arrears on January 15 and July 15, commencing January 15, 2008. Interest on the 8⁷/₈% Senior Notes accrues from the date of original issuance. Interest is calculated on the basis of a 360-day year comprised of twelve 30-day months.

On December 7, 2011, CHS completed the cash tender offer for \$1.0 billion of the then \$2.8 billion aggregate outstanding principal amount of the 8⁷/₈% Senior Notes. This resulted in a loss from early extinguishment of debt of \$66.0 million with an after-tax impact of \$42.0 million recorded in continuing operations for the year ended December 31, 2011.

On March 21, 2012, CHS completed the cash tender offer for \$850 million of the then \$1.8 billion aggregate outstanding principal amount of the 8⁷/₈% Senior Notes. This resulted in a loss from early extinguishment of debt of \$54.9 million with an after-tax impact of \$34.3 million recorded in continuing operations for the six months ended June 30, 2012.

After July 15, 2011, CHS is entitled, at its option, to redeem all or a portion of the 8⁷/₈% Senior Notes upon not less than 30 nor more than 60 days' notice, at the redemption prices (expressed as a percentage of principal amount on the redemption date), plus accrued and unpaid interest, if any, to the redemption date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date), if redeemed during the 12-month period commencing on July 15 of the years set forth below:

Period	Redemption Price
2011	104.438 %
2012	102.219 %
2013 and thereafter	100.000 %

Pursuant to a registration rights agreement entered into at the time of the issuance of the 8⁷/₈% Senior Notes, as a result of an exchange offer made by CHS, substantially all of the 8⁷/₈% Senior Notes issued in July 2007 were exchanged in November 2007 for new notes (the 8⁷/₈% Exchange Notes) having terms substantially identical in all material respects to the 8⁷/₈% Senior Notes (except that the 8⁷/₈% Exchange Notes were issued under a registration statement pursuant to the 1933 Act). References to the 8⁷/₈% Senior Notes shall also be deemed to include the 8⁷/₈% Exchange Notes unless the context provides otherwise.

8% Senior Notes due 2019

On November 22, 2011, CHS completed its offering of \$1.0 billion aggregate principal amount of 8% Senior Notes due 2019 (the 8% Senior Notes), which were issued in a private placement. The net proceeds from this issuance, together with available cash on hand, were used to finance the purchase of \$1.0 billion aggregate principal amount of CHS' outstanding 8⁷/₈% Senior Notes due 2015 and related fees and expenses. On March 21, 2012, CHS completed the secondary offering of \$1.0 billion aggregate principal amount of 8% Senior Notes due 2019, which were issued in a private placement (at a premium of 102.5%). The net proceeds from this issuance were used to finance the purchase of \$850 million aggregate principal amount of CHS' outstanding 8⁷/₈% Senior Notes due 2015, to pay related fees and expenses and for general corporate purposes. The 8% Senior Notes bear interest at 8% per annum, payable semiannually in arrears on May 15 and November 15, commencing May 15, 2012. Interest on the 8% Senior Notes accrues from the date of original issuance. Interest is calculated on the basis of a 360-day year comprised of twelve 30-day months.

Except as set forth below, CHS is not entitled to redeem the 8% Senior Notes prior to November 15, 2015.

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

On and after November 15, 2015, CHS is entitled, at its option, to redeem all or a portion of the 8% Senior Notes upon not less than 30 nor more than 60 days' notice, at the redemption prices (expressed as a percentage of principal amount on the redemption date), plus accrued and unpaid interest, if any, to the redemption date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date), if redeemed during the 12-month period commencing on November 15 of the years set forth below:

Period	Redemption Price
2015	104.000 %
2016	102.000 %
2017 and thereafter	100.000 %

Pursuant to a registration rights agreement entered into at the time of the issuance of the 8% Senior Notes, as a result of an exchange offer made by CHS, substantially all of the 8% Senior Notes issued in November 2011 and March 2012 were exchanged in May 2012 for new notes (the 8% Exchange Notes) having terms substantially identical in all material respects to the 8% Senior Notes (except that the 8% Exchange Notes were issued under a registration statement pursuant to the 1933 Act). References to the 8% Senior Notes shall also be deemed to include the 8% Exchange Notes unless the context provides otherwise.

Receivables Facility

On March 21, 2012, the Company and certain of its subsidiaries entered into an accounts receivables loan agreement (the Receivables Facility) with a group of conduit lenders and liquidity banks, Credit Agric le Corporate and Investment Bank, as a managing agent and as the administrative agent, and The Bank of Nova Scotia, as a managing agent. The existing and future patient-related accounts receivable (the Receivables) for certain of the Company's hospitals serve as collateral for the outstanding borrowings under the Receivables Facility. The interest rate on the borrowings is based on the commercial paper rate plus an applicable interest rate spread. Unless earlier terminated or subsequently extended pursuant to its terms, the Receivables Facility will expire on March 21, 2014, subject to customary termination events that could cause an early termination date. The Company maintains effective control over the Receivables because, pursuant to the terms of the Receivables Facility, the Receivables are sold from certain of the Company's subsidiaries to the Company, which then sells or contributes the Receivables to a special-purpose entity that is wholly-owned by the Company. The wholly-owned special-purpose entity in turn grants security interests in the Receivables in exchange for borrowings obtained from the group of third-party conduit lenders and liquidity banks of up to \$300 million outstanding from time to time based on the availability of eligible Receivables and other customary factors. The group of third-party conduit lenders and liquidity banks do not have recourse to the Company or its subsidiaries beyond the assets of the wholly-owned special-purpose entity that collateralizes the loan. The Receivables and other assets of the wholly-owned special-purpose entity will be available first and foremost to satisfy the claims of the creditors of such entity. The outstanding borrowings pursuant to the Receivables Facility at June 30, 2012 totaled \$300.0 million and are classified as long-term debt on the condensed consolidated balance sheet. At June 30, 2012, the carrying amount of Receivables included in the Receivables Facility totaled approximately \$888.0 million and are included in patient accounts receivable on the condensed consolidated balance sheet.

The Company paid interest of \$170.0 million and \$101.6 million on borrowings during the three months ended June 30, 2012 and 2011, respectively, and \$331.2 million and \$327.7 million during the six months ended June 30, 2012 and 2011, respectively.

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****12. FAIR VALUE OF FINANCIAL INSTRUMENTS**

The fair value of financial instruments has been estimated by the Company using available market information as of June 30, 2012 and December 31, 2011, and valuation methodologies considered appropriate. The estimates presented are not necessarily indicative of amounts the Company could realize in a current market exchange (in thousands):

	June 30, 2012		December 31, 2011	
	Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value
Assets:				
Cash and cash equivalents	\$ 115,109	\$ 115,109	\$ 129,865	\$ 129,865
Available-for-sale securities	33,943	33,943	31,582	31,582
Trading securities	34,946	34,946	30,486	30,486
Liabilities:				
Credit Facility	5,974,062	5,870,228	5,979,383	5,780,877
8 ⁷ / ₈ % Senior Notes	931,235	961,193	1,777,617	1,842,322
8% Senior Notes	2,023,955	2,065,000	1,000,000	995,000
Other debt	348,575	348,575	41,143	41,143

The estimated fair value is determined using the methodologies discussed below in accordance with accounting standards related to the determination of fair value based on the U.S. GAAP fair value hierarchy as discussed in Note 13. The estimated fair value for financial instruments with a fair value that does not equal its carrying value is considered a Level 2 valuation. The Company utilizes the market approach and obtains indicative pricing from the administrative agent to the Credit Facility to determine fair values, which are validated through subscription services such as Bloomberg where relevant.

Cash and cash equivalents. The carrying amount approximates fair value due to the short-term maturity of these instruments (less than three months).

Available-for-sale securities. Estimated fair value is based on closing price as quoted in public markets.

Trading securities. Estimated fair value is based on closing price as quoted in public markets.

Credit Facility. Estimated fair value is based on information from the Company's bankers regarding relevant pricing for trading activity among the Company's lending institutions.

8⁷/₈% Senior Notes. Estimated fair value is based on the average bid and ask price as quoted by the bank who served as underwriters in the sale of these notes.

8% Senior Notes. Estimated fair value is based on the average bid and ask price as quoted by the bank who served as underwriters in the sale of these notes.

Other debt. The carrying amount of all other debt approximates fair value due to the nature of these obligations.

Interest rate swaps. The fair value of interest rate swap agreements is the amount at which they could be settled, based on estimates calculated by the Company using a discounted cash flow analysis based on observable market inputs and validated by comparison to estimates obtained from the counterparty. The Company incorporates credit valuation adjustments (CVAs) to appropriately reflect both its own nonperformance or credit risk and the respective counterparty's nonperformance or credit risk in the fair value measurements. In adjusting the fair value of its

interest rate swap agreements for the effect of nonperformance or credit risk, the Company has considered the impact of any netting features included in the agreements.

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

The Company assesses the effectiveness of its hedge instruments on a quarterly basis. For the three and six months ended June 30, 2012 and 2011, the Company completed an assessment of the cash flow hedge instruments and determined the hedges to be highly effective. The Company has also determined that the ineffective portion of the hedges do not have a material effect on the Company's consolidated financial position, operations or cash flows. The counterparties to the interest rate swap agreements expose the Company to credit risk in the event of nonperformance. However, at June 30, 2012, each swap agreement entered into by the Company was in a net liability position so that the Company would be required to make the net settlement payments to the counterparties; the Company does not anticipate nonperformance by those counterparties. The Company does not hold or issue derivative financial instruments for trading purposes.

Interest rate swaps consisted of the following at June 30, 2012:

Swap #	Notional Amount (in 000 s)	Fixed Interest Rate	Termination Date	Fair Value of Liability (in 000 s)
1	\$ 200,000	4.685 %	September 11, 2012	\$ 1,679
2	100,000	3.352 %	October 23, 2012	908
3	125,000	4.375 %	November 23, 2012	1,953
4	75,000	4.380 %	November 23, 2012	1,174
5	150,000	5.020 %	November 30, 2012	2,862
6	200,000	2.242 %	February 28, 2013	2,347
7	100,000	5.023 %	May 30, 2013	4,144
8	300,000	5.242 %	August 6, 2013	15,631

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

The Company is exposed to certain risks relating to its ongoing business operations. The risk managed by using derivative instruments is interest rate risk. Interest rate swaps are entered into to manage interest rate fluctuation risk associated with the term loans in the Credit Facility. Companies are required to recognize all derivative instruments as either assets or liabilities at fair value in the condensed consolidated statement of financial position. The Company designates its interest rate swaps as cash flow hedges. For derivative instruments that are designated and qualify as cash flow hedges, the effective portion of the gain or loss on the derivative is reported as a component of OCI and reclassified into earnings in the same period or periods during which the hedged transactions affect earnings. Gains and losses on the derivative representing either hedge ineffectiveness or hedge components excluded from the assessment of effectiveness are recognized in current earnings.

Assuming no change in June 30, 2012 interest rates, approximately \$111.3 million of interest expense resulting from the spread between the fixed and floating rates defined in each interest rate swap agreement will be recognized during the next 12 months. If interest rate swaps do not remain highly effective as a cash flow hedge, the derivatives gains or losses resulting from the change in fair value reported through OCI will be reclassified into earnings.

The following tabular disclosure provides the amount of pre-tax loss recognized as a component of OCI during the three and six months ended June 30, 2012 and 2011 (in thousands):

Derivatives in Cash Flow Hedging Relationships	Amount of Pre-Tax Loss Recognized in OCI (Effective Portion)			
	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2012	2011	2012	2011
Interest rate swaps	\$ (21,704)	\$ (67,685)	\$ (44,826)	\$ (63,572)

The following tabular disclosure provides the location of the effective portion of the pre-tax loss reclassified from accumulated other comprehensive loss (AOCL) into interest expense on the condensed consolidated statements of income during the three and six months ended June 30, 2012 and 2011 (in thousands):

Location of Loss Reclassified from AOCL into Income (Effective Portion)	Amount of Pre-Tax Loss Reclassified from AOCL into Income (Effective Portion)			
	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2012	2011	2012	2011
Interest expense, net	\$ 37,316	\$ 53,649	\$ 76,926	\$ 106,573

The fair values of derivative instruments in the condensed consolidated balance sheets as of June 30, 2012 and December 31, 2011 were as follows (in thousands):

Asset Derivatives		Liability Derivatives	
June 30, 2012	December 31, 2011	June 30, 2012	December 31, 2011
Fair Value	Fair Value	Fair Value	Fair Value

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****13. FAIR VALUE***Fair Value Hierarchy*

Fair value is a market-based measurement, not an entity-specific measurement. Therefore, a fair value measurement should be determined based on the assumptions that market participants would use in pricing the asset or liability. As a basis for considering market participant assumptions in fair value measurements, the Company utilizes the U.S. GAAP fair value hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs that are classified within Levels 1 and 2 of the hierarchy) and the reporting entity's own assumption about market participant assumptions (unobservable inputs classified within Level 3 of the hierarchy).

The inputs used to measure fair value are classified into the following fair value hierarchy:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market-based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs that are supported by little or no market activity and are significant to the fair value of the assets or liabilities. Level 3 includes values determined using pricing models, discounted cash flow methodologies, or similar techniques reflecting the Company's own assumptions.

In instances where the determination of the fair value hierarchy measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment of factors specific to the asset or liability.

The following table sets forth, by level within the fair value hierarchy, the financial assets and liabilities recorded at fair value on a recurring basis as of June 30, 2012 and December 31, 2011 (in thousands):

	June 30, 2012	Level 1	Level 2	Level 3
Available-for-sale securities	\$ 33,943	\$ 33,943	\$ -	\$ -
Trading securities	34,946	34,946	-	-
Total assets	\$ 68,889	\$ 68,889	\$ -	\$ -
Fair value of interest rate swap agreements	\$ 222,127	\$ -	\$ 222,127	\$ -
Total liabilities	\$ 222,127	\$ -	\$ 222,127	\$ -
	December 31,	Level 1	Level 2	Level 3

Table of Contents

COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)

Available-for-sale securities and trading securities classified as Level 1 are measured using quoted market prices.

The valuation of the Company's interest rate swap agreements is determined using market valuation techniques, including discounted cash flow analysis on the expected cash flows of each agreement. This analysis reflects the contractual terms of the agreement, including the period to maturity, and uses observable market-based inputs, including forward interest rate curves. The fair value of interest rate swap agreements are determined by netting the discounted future fixed cash payments and the discounted expected variable cash receipts. The variable cash receipts are based on the expectation of future interest rates based on observable market forward interest rate curves and the notional amount being hedged.

The Company incorporates CVAs to appropriately reflect both its own nonperformance or credit risk and the respective counterparty's nonperformance or credit risk in the fair value measurements. In adjusting the fair value of its interest rate swap agreements for the effect of nonperformance or credit risk, the Company has considered the impact of any netting features included in the agreements. The CVA on the Company's interest rate swap agreements at June 30, 2012 resulted in a decrease in the fair value of the related liability of \$9.7 million and an after-tax adjustment of \$6.2 million to OCI. The CVA on the Company's interest rate swap agreements at December 31, 2011 resulted in a decrease in the fair value of the related liability of \$21.7 million and an after-tax adjustment of \$13.9 million to OCI.

The majority of the inputs used to value its interest rate swap agreements, including the forward interest rate curves and market perceptions of the Company's credit risk used in the CVAs, are observable inputs available to a market participant. As a result, the Company has determined that the interest rate swap valuations are classified in Level 2 of the fair value hierarchy.

14. RECENT ACCOUNTING PRONOUNCEMENTS

In September 2011, the FASB issued ASU 2011-08, which modifies how entities test goodwill for impairment. Previous guidance required an entity to perform a two-step goodwill impairment test at least annually by comparing the fair value of a reporting unit with its carrying amount, including goodwill, and recording an impairment loss if the fair value is less than the carrying amount. This ASU allows an entity to first assess qualitative factors to determine whether the existence of events or circumstances leads to a determination that it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If an entity determines after that assessment that it is not more likely than not that the fair value of a reporting unit is less than its carrying amount, then performing the two-step impairment test is not required. This ASU is required to be applied to interim and annual goodwill impairment tests performed for fiscal years beginning after December 15, 2011, and was adopted by the Company on January 1, 2012. The adoption of this ASU did not impact the Company's consolidated financial position, results of operations or cash flows.

15. SEGMENT INFORMATION

The Company operates in three distinct operating segments, represented by hospital operations (which includes its general acute care hospitals and related healthcare entities that provide inpatient and outpatient healthcare services), home care agency operations (which provide in-home outpatient care), and hospital management services (which provides executive management and consulting services to non-affiliated acute care hospitals). Only the hospital operations segment meets the criteria as a separate reportable segment. The financial information for the home care agencies and hospital management services segments do not meet the quantitative thresholds for a separate identifiable reportable segment and are combined into the corporate and all other reportable segment.

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

The distribution between reportable segments of the Company's net operating revenues and income from continuing operations before income taxes is summarized in the following tables (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Net operating revenues:				
Hospital operations	\$ 3,178,229	\$ 2,929,038	\$ 6,401,326	\$ 5,813,368
Corporate and all other	64,745	71,789	138,683	141,542
Total	\$ 3,242,974	\$ 3,000,827	\$ 6,540,009	\$ 5,954,910
Income from continuing operations before income taxes:				
Hospital operations	\$ 220,242	\$ 184,426	\$ 420,550	\$ 362,539
Corporate and all other	(68,556)	(46,731)	(123,327)	(89,147)
Total	\$ 151,686	\$ 137,695	\$ 297,223	\$ 273,392

16. CONTINGENCIES

The Company is a party to various legal proceedings incidental to its business. In the opinion of management, any ultimate liability with respect to these actions will not have a material adverse effect on the Company's consolidated financial position, cash flows or results of operations. With respect to all litigation matters, the Company considers the likelihood of a negative outcome. If the Company determines the likelihood of a negative outcome is probable and the amount of the loss can be reasonably estimated, the Company records an estimated loss for the expected outcome of the litigation and discloses that fact together with the amount accrued, if it was estimable. If the likelihood of a negative outcome is reasonably possible and the Company is able to determine an estimate of the possible loss or a range of loss, the Company discloses that fact together with the estimate of the possible loss or range of loss. However, it is difficult to predict the outcome or estimate a possible loss or range of loss in some instances because litigation is subject to significant uncertainties.

Reasonably Possible Contingencies

For the legal matter below, the Company believes that a negative outcome is reasonably possible, but the Company is unable to determine an estimate of the possible loss or a range of loss.

On February 10, 2006, the Company received a letter from the Civil Division of the Department of Justice requesting documents in an investigation it was conducting involving the Company. The inquiry related to the way in which different state Medicaid programs apply to the federal government for matching or supplemental funds that are ultimately used to pay for a small portion of the services provided to Medicaid and indigent patients. These programs are referred to by different names, including intergovernmental payments, upper payment limit programs, and Medicaid disproportionate share hospital payments. The February 2006 letter focused on the Company's hospitals in three states: Arkansas, New Mexico, and South Carolina. On August 31, 2006, the Company received a follow up letter from the Department of Justice requesting additional documents relating to the programs in New Mexico and the payments to the Company's three hospitals in that state. Through the beginning of 2009, the Company provided the Department of Justice with requested documents, met with its personnel on numerous occasions, and otherwise cooperated in its investigation. During the course of the investigation, the Civil Division notified the Company that it believed that the Company and its three New Mexico hospitals caused the State of New Mexico to submit improper claims for federal funds, in violation of the Federal False Claims Act. At one point, the Civil Division calculated that the three hospitals received ineligible federal participation payments from August 2000 to June 2006 of approximately \$27.5 million and said that if it proceeded to trial, it would seek treble damages plus

Edgar Filing: COMMUNITY HEALTH SYSTEMS INC - Form 10-Q

an appropriate penalty for each of the violations of the Federal False Claims Act. This investigation has culminated in the federal government's intervention in a qui tam lawsuit styled U.S. ex rel. Baker vs. Community Health Systems, Inc., pending in the United States District Court for the District of New Mexico. The federal government filed its complaint in intervention on June 30, 2009. The relator filed a second amended complaint on July 1, 2009. Both of these complaints expand the time period during which alleged improper payments were made. The Company filed motions to dismiss all of the federal government's and the relator's claims on August 28, 2009. On March 19, 2010, the court granted in part and denied in part the Company's motion to dismiss as to the relator's complaint. On July 7, 2010, the court denied the Company's motion to dismiss the federal government's complaint in intervention. On July 21, 2010, the Company filed its answer and pretrial discovery began. On June 2,

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

2011, the relator filed a Third Amended Complaint adding subsidiaries Community Health Systems Professional Services Corporation and CHS/Community Health Systems, Inc. as defendants. On June 6, 2011, the government filed its First Amended Complaint in intervention adding Community Health Systems Professional Services Corporation as a defendant. Discovery is closed. Motions for Summary Judgment were filed on March 27, 2012 and there is currently no hearing date on the motions nor has a trial date been set. On March 30, 2012, the court denied the Company's motion to exclude Plaintiffs' expert witness testimony, which the Company believes fails to follow the controlling Medicaid statute and regulations and results in an exaggeration of the damages estimate by fourfold. The Company has the opportunity to challenge the methodology employed at trial. The Company is vigorously defending this action.

Matters for which an Outcome Cannot be Assessed

For all of the legal matters below, the Company cannot at this time assess what the outcome may be and is further unable to determine any estimate of loss or range of loss. Because the investigations are at a very preliminary stage, there are not sufficient facts available to make these assessments.

On April 8, 2011, the Company received a document subpoena, dated March 31, 2011, from the United States Department of Health and Human Services, Office of Inspector General (the "OIG"), in connection with an investigation of possible improper claims submitted to Medicare and Medicaid. The subpoena, issued from the OIG's Chicago, Illinois office, requested documents from all of the Company's hospitals and appears to concern emergency department processes and procedures, including the Company's hospitals' use of the Pro-MED Clinical Information System, which is a third-party software system that assists with the management of patient care and provides operational support and data collection for emergency department management and has the ability to track discharge, transfer and admission recommendations of emergency department physicians. The subpoena also requested other information about the Company's relationships with emergency department physicians, including financial arrangements. The subpoena's requests were very similar to those contained in the Civil Investigative Demands received by the Company's Texas hospitals from the Office of the Attorney General of the State of Texas on November 15, 2010. This investigation is being led by the Department of Justice. The Company is continuing to cooperate with the government including detailing a process for a medical necessity review by clinical reviewers and physicians of a sampling of medical records at a small number of hospitals.

On April 22, 2011, a joint motion was filed by the relator and the United States Department of Justice in the case styled United States ex rel. and Reuille vs. Community Health Systems Professional Services Corporation and Lutheran Musculoskeletal Center, LLC d/b/a Lutheran Hospital, in the United States District Court for the Northern District of Indiana, Fort Wayne Division. The lawsuit was originally filed under seal on January 7, 2009. The suit is brought under the False Claims Act and alleges that Lutheran Hospital of Indiana billed the Medicare program for (a) false 23 hour observation after outpatient surgeries and procedures, and (b) intentional assignment of inpatient status to one-day stays for cases that do not meet Medicare criteria for inpatient intensity of service or severity of illness. The relator had worked in the case management department of Lutheran Hospital of Indiana but was reassigned to another department in the fall of 2006. This facility was acquired by the Company as part of the July 25, 2007 merger transaction with Triad. The complaint also includes allegations of age discrimination in Ms. Reuille's 2006 reassignment and retaliation in connection with her resignation on October 1, 2008. The Company had cooperated fully with the government in its investigation of this matter, but had been unaware of the exact nature of the allegations in the complaint. On December 27, 2010, the government filed a notice that it declined to intervene in this suit. The April 22, 2011 motion contained additional information about how the government intended to proceed with an investigation regarding allegations of improper billing for inpatient care at other hospitals associated with Community Health Systems, Inc. . . . asserted in other qui tam complaints in other jurisdictions. The motion stated that the Department of Justice has consolidated its investigations of the Company and other related entities and that the Civil Division of the Department of Justice, multiple United States Attorneys' offices, and the Office of Inspector General for the Department of Health and Human Services (the "HHS") are now closely coordinating their investigation of these overlapping allegations. The Attorney General of Texas has initiated an investigation; the United States intends to work cooperatively with Texas and any other States investigating these allegations. The motion also stated that the Office of Audit Services for the Office of Investigations for HHS has been engaged to conduct a national audit of certain of the Company's Medicare claims. The government confirmed that it considers the allegations made in the complaint styled Tenet Healthcare Corporation vs. Community Health Systems, Inc., et al. filed in the United States District Court for the Northern District of Texas, Dallas Division on April 11, 2011 to be related to the allegations in the qui tam and to what the government is now describing as a consolidated investigation. (Because qui tam suits are filed under seal, no one but the relator and the government knows that the suit has been filed or what allegations are being made by the relator on behalf of the government. Initially, the government has 60 days to make a determination about whether to intervene in a case and to act as the plaintiff or to decline to intervene and allow the relator to act as the plaintiff in the suit, but extensions of time are frequently granted to allow the government additional time to investigate the allegations. Even if, in the course of an

Edgar Filing: COMMUNITY HEALTH SYSTEMS INC - Form 10-Q

investigation, the court partially unseals a complaint to allow the government and a defendant to work to a resolution of the complaint's allegations, the defendant is prohibited from revealing to anyone even that the partial unsealing has occurred. As the investigation proceeds, the Company may learn of additional qui tam suits filed against the Company or its affiliated hospitals or related entities, or that contact letters, document requests, or medical record requests the Company has received in the past

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

from various governmental agencies are generated from qui tam cases filed under seal.) The motion filed on April 22, 2011 concluded by requesting a stay of the litigation in the Reuille case for 180 days, and on April 25, 2011, the court granted the motion. The Company's management company subsidiary, Community Health Systems Professional Services Corporation, the defendant in the Reuille case, consented to the request for the stay. On October 19, 2011, the government filed an application to transfer the Reuille case to the Middle District of Tennessee or for an extension of the stay for an additional 180 days. The Company agreed that a stay for an additional, but shorter period of time, 90 days, was appropriate, but did not consent to the transfer of the case. The Company's response setting forth the Company's legal arguments was filed on October 24, 2011. On November 1, 2011, the court denied the motion to transfer the matter and extended the stay until April 30, 2012. On April 26, 2012, the Company joined the government and the relator in a motion to extend the stay in this case for an additional 180 days. As noted in that filing, the Company is working with the government on a probe audit of medical records (described above with respect to the April 2011 subpoena). The stay has been extended until October 29, 2012. The Company is cooperating fully with the government in its investigations.

Three purported class action shareholder federal securities cases have been filed in the United States District Court for the Middle District of Tennessee; namely, Norfolk County Retirement System v. Community Health Systems, Inc., Wayne T. Smith and W. Larry Cash, filed May 5, 2011; De Zheng v. Community Health Systems, Inc., Wayne T. Smith and W. Larry Cash, filed May 12, 2011; and Minneapolis Firefighters Relief Association v. Community Health Systems, Inc., Wayne T. Smith, W. Larry Cash and Thomas Mark Buford, filed June 2, 2011. All three seek class certification on behalf of purchasers of the Company's common stock between July 27, 2006 and April 11, 2011 and allege that misleading statements resulted in artificially inflated prices for the Company's common stock. On September 20, 2011, all three were assigned to the same judge as related cases. On December 28, 2011, the court consolidated all three shareholder cases for pretrial purposes, selected NYC Funds as lead plaintiffs, and selected NYC Funds' counsel as lead plaintiffs' counsel. The parties negotiated operative dates for these consolidated shareholder federal securities actions. An operative consolidated complaint was filed on July 13, 2012 and a responsive pleading is due September 11, 2012.

Three purported shareholder derivative actions have also been filed in the United States District Court for the Middle District of Tennessee; Plumbers and Pipefitters Local Union No. 630 Pension Annuity Trust Fund v. Wayne T. Smith, W. Larry Cash, T. Mark Buford, John A. Clerico, James S. Ely III, John A. Fry, William Norris Jennings, Julia B. North and H. Mitchell Watson, Jr., filed May 24, 2011; Roofers Local No. 149 Pension Fund v. Wayne T. Smith, W. Larry Cash, John A. Clerico, James S. Ely, III, John A. Fry, William Norris Jennings, Julia B. North and H. Mitchell Watson, Jr., filed June 21, 2011; and Lambert Sweat v. Wayne T. Smith, W. Larry Cash, T. Mark Buford, John A. Clerico, James S. Ely, III, John A. Fry, William Norris Jennings, Julia B. North, H. Mitchell Watson, Jr. and Community Health Systems, Inc., filed October 5, 2011. These three cases allege breach of fiduciary duty arising out of allegedly improper inpatient admission practices, mismanagement, waste and unjust enrichment. On September 28, 2011, the court ordered that the Plumbers and Pipefitters Local Union No. 630 Pension Annuity Trust Fund action and the Roofers Local No. 149 Pension Fund action be consolidated for pretrial purposes, and appointed the derivative plaintiffs' lead counsel. On November 29, 2011, the court ordered that the Lambert Sweat action be consolidated with the Plumbers and Roofers consolidated derivative actions. The Plaintiffs filed an operative amended derivative complaint in these three consolidated actions on March 15, 2012. A motion to dismiss was filed on May 14, 2012 and Plaintiffs' response was filed on July 13, 2012. A reply is due on August 27, 2012. The Company believes all of these matters are without merit and will vigorously defend them.

On May 2, 2012, suit was filed in the matter styled Daniel Eagle v. Community Health Systems, Inc., Chancery Court, State of Delaware. Suit was filed under Section 220 of the Delaware General Corporation Law to inspect certain of the Company's books and records pertaining to matters concerning alleged improper admissions practices. An answer was filed on June 25, 2012 and the matter is set for a hearing on September 27, 2012. The Company is vigorously defending this action.

During the six months ended June 30, 2012, the Company met the deductible for its directors and officers insurance policy as it relates to the legal costs for the Tenet acquisition lawsuit and shareholder lawsuits of possible improper claims submitted to Medicare and Medicaid. As a result, the majority of future legal costs incurred related to these claims, covered by the directors and officers insurance policy, will be offset by insurance recoveries. The Company incurred the following pre-tax charges in connection with these legal matters and the government investigations, net of insurance recoveries, during the three and six months ending June 30, 2012 and 2011 (in thousands):

Edgar Filing: COMMUNITY HEALTH SYSTEMS INC - Form 10-Q

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****Probable Contingencies**

In addition to the cases described above, there are a number of legal matters for which, based on information currently available, the Company believes that a negative outcome is known or is probable. In the aggregate, an estimate of these losses has been accrued in the amount of \$20.4 million at June 30, 2012. Due to the uncertainties and difficulty in predicting the ultimate resolution of these contingencies, the actual amount could differ from the estimated amount; however, the Company does not believe the ultimate outcome of any of these matters would be material.

17. SUBSEQUENT EVENTS

The Company evaluated all material events occurring subsequent to the balance sheet date for events requiring disclosure or recognition in the condensed consolidated financial statements.

Effective July 1, 2012, one or more subsidiaries of the Company completed the acquisition of Memorial Health Systems in York, Pennsylvania. This healthcare system includes Memorial Hospital (100 licensed beds), the Surgical Center of York, and other outpatient and ancillary services. The total cash consideration paid at closing for long-lived assets was \$45.0 million and for preliminary net working capital was approximately \$2.6 million. As part of this purchase agreement, the Company has agreed to spend at least \$75.0 million to build a replacement hospital within five years of the closing date.

On July 3, 2012, CHS commenced a cash tender offer for any and all of the approximately \$934 million outstanding principal amount of the 8⁷/₈% Senior Notes. The total consideration payable for each \$1,000 principal amount of the 8⁷/₈% Senior Notes validly tendered and not validly withdrawn prior to the consent expiration date of July 17, 2012 is \$1,026, which includes a consent payment of \$20 per \$1,000 principal amount of notes. On July 18, 2012, CHS purchased approximately \$639.7 million of the 8⁷/₈% Senior Notes pursuant to the cash tender offer and notified holders of its intent to redeem all such remaining 8⁷/₈% Senior Notes on August 17, 2012. The total consideration to be paid for each \$1,000 principal amount of the 8⁷/₈% Senior Notes validly tendered and not validly withdrawn after July 17, 2012 is \$1,006 for each \$1,000 principal amount of notes. The tender offer is scheduled to expire on August 1, 2012, unless extended or earlier terminated.

In addition, on July 18, 2012, CHS completed an offering to issue and sell \$1.2 billion of 7¹/₈% Senior Notes due 2020. The Company used the proceeds of the offering to purchase approximately \$639.7 million of the 8⁷/₈% Senior Notes that were validly tendered and not validly withdrawn in the cash tender offer commenced on July 3, 2012, to pay for consents delivered in connection therewith and to pay related fees and expenses. The Company intends to use the remaining proceeds to redeem any remaining 8⁷/₈% Senior Notes and, to the extent any proceeds remain, for general corporate purposes.

18. SUPPLEMENTAL CONDENSED CONSOLIDATING FINANCIAL INFORMATION

In 2007, CHS issued the 8⁷/₈% Senior Notes in the aggregate principal amount of approximately \$3.0 billion. In 2011, CHS issued the 8% Senior Notes in the aggregate principal amount of \$1.0 billion, the proceeds from which were used to purchase \$1.0 billion of the 8⁷/₈% Senior Notes. In addition, CHS issued an additional \$1.0 billion of 8% Senior Notes in March 2012, the proceeds from which were used to purchase \$850 million of 8⁷/₈% Senior Notes. The 8⁷/₈% Senior Notes and 8% Senior Notes are senior unsecured obligations of CHS and are guaranteed on a senior basis by the Company and by certain of its existing and subsequently acquired or organized 100% owned domestic subsidiaries.

Both the 8⁷/₈% Senior Notes and the 8% Senior Notes are guaranteed on a joint and several basis, with limited exceptions considered customary for such guarantees, including the release of the guarantee when a subsidiary's assets used in operations are sold. The following condensed consolidating financial statements present Community Health Systems, Inc. (as parent guarantor), CHS (as the issuer), the subsidiary guarantors, the subsidiary non-guarantors and eliminations. These condensed consolidating financial statements have been prepared and presented in accordance with SEC Regulation S-X Rule 3-10 Financial Statements of Guarantors and Issuers of Guaranteed Securities Registered or Being Registered.

The accounting policies used in the preparation of this financial information are consistent with those elsewhere in the consolidated financial statements of the Company, except as noted below:

Intercompany receivables and payables are presented gross in the supplemental condensed consolidating balance sheets.

Table of Contents

COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)

Cash flows from intercompany transactions are presented in cash flows from financing activities, as changes in intercompany balances with affiliates, net.

Income tax expense is allocated from the parent guarantor to the income producing operations (other guarantors and non-guarantors) and the issuer through stockholders' equity. As this approach represents an allocation, the income tax expense allocation is considered non-cash for statement of cash flow purposes.

Interest expense, net has been presented to reflect net interest expense and interest income from outstanding long-term debt and intercompany balances.

The Company's intercompany activity consists primarily of daily cash transfers for purposes of cash management, the allocation of certain expenses and expenditures paid for by the parent on behalf of its subsidiaries, and the push down of investment in its subsidiaries. This activity also includes the intercompany transactions between consolidated entities as part of the Receivables Facility that is further discussed in Note 11. The Company's subsidiaries generally do not purchase services from one another; thus, the intercompany transactions do not represent revenue generating transactions. All intercompany transactions eliminate in consolidation.

From time to time, the Company sells and/or repurchases noncontrolling interests in consolidated subsidiaries, which may change subsidiaries between guarantors and non-guarantors. Amounts for prior periods are restated to reflect the status of guarantors or non-guarantors as of June 30, 2012.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

You should read this discussion together with our unaudited condensed consolidated financial statements and accompanying notes included herein.

Throughout this Quarterly Report on Form 10-Q, Community Health Systems, Inc., the parent company, and its consolidated subsidiaries are referred to on a collective basis using words like we, our, us and the Company. This drafting style is not meant to indicate that the publicly-traded parent company or any subsidiary of the parent company owns or operates any asset, business, or property. The hospitals, operations and businesses described in this filing are owned and operated, and management services provided, by distinct and indirect subsidiaries of Community Health Systems, Inc.

Executive Overview

We are one of the largest publicly-traded operators of hospitals in the United States in terms of number of facilities and net operating revenues. We provide healthcare services through the hospitals that we own and operate in non-urban and selected urban markets. We generate revenues by providing a broad range of general and specialized hospital healthcare services to patients in the communities in which we are located. As of June 30, 2012, we owned or leased 134 hospitals comprised of 130 general acute care hospitals and four stand-alone rehabilitation or psychiatric hospitals. In addition, we own and operate home care agencies, located primarily in markets where we also operate a hospital, and through our wholly-owned subsidiary, Quorum Health Resources, LLC, or QHR, we provide management and consulting services to non-affiliated general acute care hospitals located throughout the United States. For the hospitals and home care agencies that we own and operate, we are paid for our services by governmental agencies, private insurers and directly by the patients we serve. For our management and consulting services, we are paid by the non-affiliated hospitals utilizing our services.

As further discussed in Recent Accounting Pronouncements, during the first quarter of 2012 we adopted the provisions of Accounting Standards Update, or ASU, No. 2011-07 of the Financial Accounting Standards Board, or FASB, which requires us to present revenues net of the provision for bad debts. Prior to the adoption of this ASU, our provision for bad debts was presented as a component of operating expenses. For all periods presented in this quarterly report, revenues and any related financial ratios or metrics have been updated to reflect the change in the presentation of net operating revenues. The adoption of this standard did not impact our financial position, results of operations or cash flows.

During the six months ended June 30, 2012, we continued the execution of our acquisition strategy by acquiring three hospitals located in Scranton, Pennsylvania; Peckville, Pennsylvania; and Blue Island, Illinois and a large physician practice located in Longview, Texas. On July 2, 2012, we announced that one or more of our subsidiaries have acquired substantially all of the assets of Memorial Health Systems in York, Pennsylvania. This acquisition was effective July 1, 2012.

During the six months ended June 30, 2012, we also entered into several agreements that extend the maturity date of a significant portion of our outstanding indebtedness. As further discussed in the Liquidity and Capital Resources section, we entered into an additional amendment and restatement of our Credit Facility, which extended by two and a half years, until January 25, 2017, the maturity date of \$1.6 billion of our existing term loans. Additionally, we obtained a new \$750 million senior secured revolving credit facility and a new \$750 million incremental term loan A facility, both with a maturity date of October 25, 2016, subject to certain acceleration clauses, the net proceeds of which were used to repay the same amount of existing borrowings under the previous revolving credit facility and term loans under the Credit Facility. Finally, we completed a secondary offering of \$1.0 billion aggregate principal amount of 8% Senior Notes due 2019 sold at a premium of 102.5%, the net proceeds of which were used to finance the purchase of \$850 million aggregate principal amount of our outstanding 8⁷/₈% Senior Notes due 2015, to pay fees and expenses and for general corporate purposes. Subsequent to June 30, 2012, we announced an additional offering of \$1.2 billion aggregate principal amount of 7¹/₈% Senior Notes due 2020. In addition, on July 18, 2012, we used the proceeds of the offering to purchase \$639.7 million of the 8⁷/₈% Senior Notes that were validly tendered and not validly withdrawn in the cash tender offer commenced on July 3, 2012, to pay for consents delivered in connection therewith and to pay related fees and expenses. We intend to use the remaining proceeds to redeem any remaining 8⁷/₈% Senior Notes and, to the extent any proceeds remain, for general corporate purposes.

Our net operating revenues for the three months ended June 30, 2012 increased to approximately \$3.2 billion, as compared to approximately \$3.0 billion for the three months ended June 30, 2011. Income from continuing operations, before noncontrolling interests, for the three months ended June 30, 2012 increased 10.0% over the three months ended June 30, 2011 to \$102.2 million compared to \$92.9 million. This increase in income from continuing operations during the three months ended June 30, 2012, as compared to the three months ended June 30, 2011, is due primarily to increased revenues at our same-store hospitals, income from electronic health records incentive reimbursements and reductions in interest expense. Total inpatient admissions for the three months ended June 30, 2012 increased 3.0%, compared to the three months ended June 30, 2011, and adjusted admissions for the three months ended June 30, 2012 increased 5.7%, compared to the three months ended June 30, 2011. On a same-store basis, admissions decreased 2.0% and adjusted admissions increased 0.5%, compared with the three months ended June 30, 2011.

Table of Contents

Our net operating revenues for the six months ended June 30, 2012 increased to approximately \$6.5 billion, as compared to approximately \$6.0 billion for the six months ended June 30, 2011. Income from continuing operations, before noncontrolling interests, for the six months ended June 30, 2012 increased 9.4% over the six months ended June 30, 2011 to \$201.9 million compared to \$184.5 million. Included in income from continuing operations for the six months ended June 30, 2012, is a \$42.8 million after-tax benefit from the resolution of an industry-wide governmental settlement and a payment update related to prior periods, an \$8.7 million after-tax charge to establish reserves for certain legal matters and a \$39.5 million after-tax loss from the early extinguishment of debt. Excluding these one-time items, income from continuing operations, before noncontrolling interests, for the six months ended June 30, 2012 increased 12.4% over the six months ended June 30, 2011 to \$207.3 million compared to \$184.5 million. This increase in income from continuing operations during the six months ended June 30, 2012, as compared to the six months ended June 30, 2011, is due primarily to increased revenues at our same-store hospitals, income from electronic health records incentive reimbursements and reductions in interest expense. Total inpatient admissions for the six months ended June 30, 2012 increased 3.1%, compared to the six months ended June 30, 2011, and adjusted admissions for the six months ended June 30, 2012 increased 6.9%, compared to the six months ended June 30, 2011. On a same-store basis, admissions decreased 2.2% and adjusted admissions increased 1.5%, compared with the six months ended June 30, 2011.

Self-pay revenues represented approximately 13.0% and 12.1% of our operating revenues, net of contractual allowances and discounts (but before provision for bad debts) for the three months ended June 30, 2012 and 2011, respectively, and 13.2% and 12.1% of our operating revenues, net of contractual allowances and discounts (but before provision for bad debts) for the six months ended June 30, 2012 and 2011, respectively. The amount of foregone revenue related to providing charity care services as a percentage of net operating revenues was approximately 5.4% and 5.1% for the three months ended June 30, 2012 and 2011, respectively, and 5.1% of our net operating revenues for both of the six-month periods ended June 30, 2012 and 2011, respectively. Direct and indirect costs incurred by us in providing charity care services were approximately 1.0% of net operating revenues for both of the three-month periods ended June 30, 2012 and 2011, and 0.9% and 1.0% of our net operating revenues for the six months ended June 30, 2012 and 2011, respectively.

The Patient Protection and Affordable Care Act, or PPACA, was signed into law on March 23, 2010. In addition, the Health Care and Education Affordability Reconciliation Act of 2010, or Reconciliation Act, which contains a number of amendments to PPACA, was signed into law on March 30, 2010. These two healthcare acts, referred to collectively as the Reform Legislation, include a mandate that requires substantially all U.S. citizens to maintain medical insurance coverage which will ultimately increase the number of persons with access to health insurance in the United States. The Reform Legislation, as originally enacted, is expected to expand health insurance coverage to approximately 32 million additional individuals by 2016 and to approximately 34 million additional individuals by 2021 through a combination of public program expansion and private sector health insurance reforms. We believe the expansion of private sector and Medicaid coverage will, over time, increase our reimbursement related to providing services to individuals who were previously uninsured, which should reduce our expense from uncollectible accounts receivable. On the other hand, this legislation makes a number of other changes to Medicare and Medicaid, such as reductions to the Medicare annual market basket update for federal fiscal years 2010 through 2019, a productivity offset to the Medicare market basket update which began October 1, 2011, and a reduction to the Medicare and Medicaid disproportionate share payments, that could adversely impact the reimbursement received under these programs. The various provisions in the Reform Legislation that directly or indirectly affect reimbursement are scheduled to take effect over a number of years, and we cannot predict their impact at this time. Other provisions of the Reform Legislation, such as requirements related to employee health insurance coverage, should increase our operating costs.

Also included in the Reform Legislation are provisions aimed at reducing fraud, waste and abuse in the healthcare industry. These provisions allocate significant additional resources to federal enforcement agencies and expand the use of private contractors to recover potentially inappropriate Medicare and Medicaid payments. The Reform Legislation amends several existing federal laws, including the Medicare Anti-Kickback Statute and the False Claims Act, making it easier for government agencies and private plaintiffs to prevail in lawsuits brought against healthcare providers. These amendments also make it easier for potentially severe fines and penalties to be imposed on healthcare providers accused of violating applicable laws and regulations.

On June 28, 2012, the Supreme Court of the United States largely upheld the constitutionality of the Reform Legislation, though it overturned an aspect of the legislation that would have permitted the Federal government to withhold all Medicaid funding from a state if that state did not expand Medicaid coverage to the extent required by the Reform Legislation. The Supreme Court's ruling instead held that only new incremental funding could be withheld from a state in such a situation. As a result, states will face less severe financial consequences if they refuse to expand Medicaid coverage to individuals with incomes below certain thresholds. Since the Supreme Court's ruling, some states have suggested that, for budgetary and other reasons, they would not expand their Medicaid programs. If states refuse to expand their Medicaid programs, the number of uninsured patients at our hospitals will decline by a smaller margin as compared to our expectations when the Reform Legislation was first adopted. Because of the many variables involved, including the potential for changes to the law as a result of efforts to amend or repeal it, clarifications and modifications resulting from the rule-making process, the

Table of Contents

development of agency guidance and future judicial interpretations, whether and how many states decide to expand or not to expand Medicaid coverage, and budgetary issues at federal and state levels, we are unable to predict the net impact the Reform Legislation may have on our business, results of operations, cash flow, capital resources and liquidity. Furthermore, we cannot predict whether we will be able to modify certain aspects of our operations to offset any potential adverse consequences from the Reform Legislation.

In a number of markets, we have partnered with local physicians in the ownership of our facilities. Such investments have been permitted under an exception to the physician self-referral law, or Stark Law, that allows physicians to invest in an entire hospital (as opposed to individual hospital departments). The Reform Legislation changes the whole hospital exception to the Stark Law. The Reform Legislation permits existing physician investments in a whole hospital to continue under a grandfather clause if the arrangement satisfies certain requirements and restrictions, but physicians are now prohibited, from the time the Reform Legislation became effective, from increasing the aggregate percentage of their ownership in the hospital. The Reform Legislation also restricts the ability of existing physician-owned hospitals to expand the capacity of their facilities.

In addition to the Reform Legislation, the American Recovery and Reinvestment Act of 2009 included provisions for implementing health information technology under the Health Information Technology for Economic and Clinical Health Act, or HITECH. These provisions were designed to increase the use of electronic health records, or EHR, technology and establish the requirements for a Medicare and Medicaid incentive payments program beginning in 2011 for eligible hospitals and providers that adopt and meaningfully use certified EHR technology. These incentive payments are intended to offset a portion of the costs incurred to implement and qualify as a meaningful user of EHR. Rules adopted in July 2010 by the Department of Health and Human Services established an initial set of standards and certification criteria. Our hospital facilities have begun to implement EHR technology on a facility-by-facility basis beginning in 2011. We anticipate recognizing incentive reimbursement related to the Medicare or Medicaid incentives as we are able to implement the certified EHR technology, meet the defined meaningful use criteria, and information from completed cost report periods is available from which to calculate the incentive reimbursement. The timing of recognizing incentive reimbursement will not correlate with the timing of recognizing operating expenses and incurring capital costs in connection with the implementation of EHR technology which may result in material period-to-period changes in our future results of operations. Hospitals that do not qualify as a meaningful user of EHR technology by 2015 are subject to a reduced market basket update to the inpatient prospective payment system standardized amount in 2015 and each subsequent fiscal year. Although we believe that our hospital facilities will be in compliance with the EHR standards by 2015, there can be no assurance that all of our facilities will be in compliance and therefore not subject to the penalty provisions of HITECH. During the three and six months ended June 30, 2012, we recognized approximately \$16.8 million and \$43.0 million, respectively, of HITECH incentive reimbursements from Medicare and Medicaid related to certain of our hospitals and from Medicare and Medicaid for certain of our employed physicians, which are presented as a reduction of operating expenses. No incentive reimbursements were recognized during the three-month and six-month periods ended June 30, 2011.

As a result of our current levels of cash, available borrowing capacity, long-term outlook on our debt repayments, the refinancing of our term loans and senior notes and our continued projection of our ability to generate cash flows, we do not anticipate a significant impact on our ability to invest the necessary capital in our business over the next twelve months and into the foreseeable future. We believe there continues to be ample opportunity for growth in substantially all of our markets by decreasing the need for patients to travel outside their communities for healthcare services. Furthermore, we continue to benefit from synergies from our acquisitions and continue to strive to improve operating efficiencies and procedures in order to improve our profitability at all of our hospitals.

Table of Contents**Sources of Consolidated Net Operating Revenues**

The following table presents the approximate percentages of operating revenues, net of contractual allowances and discounts (but before provision for bad debts) by payor source for the periods indicated. The data for the periods presented are not strictly comparable due to the effect that hospital acquisitions have had on these statistics.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Medicare	25.4 %	26.8 %	26.0 % (1)	27.1 %
Medicaid	10.6 %	10.1 %	9.6 %	9.9 %
Managed Care and other third-party payors	51.0 %	51.0 %	51.2 %	50.9 %
Self-pay	13.0 %	12.1 %	13.2 %	12.1 %
Total	100.0 %	100.0 %	100.0 %	100.0 %

(1) Excludes the \$80.8 million reimbursement settlement and payment update as discussed below.

As shown above, we receive a substantial portion of our revenues from the Medicare and Medicaid programs. Included in Managed Care and other third-party payors is net operating revenues from insurance companies with which we have insurance provider contracts, Medicare managed care, insurance companies for which we do not have insurance provider contracts, workers compensation carriers and non-patient service revenue, such as rental income and cafeteria sales. In the future, we generally expect revenues received from the Medicare and Medicaid programs to increase due to the general aging of the population. In addition, the Reform Legislation, currently in effect, should increase the number of insured patients, which, in turn, should reduce revenues from self-pay patients and reduce our provision for bad debts. The Reform Legislation, however, imposes significant reductions in amounts the government pays Medicare managed care plans. Other provisions in the Reform Legislation impose minimum medical-loss ratios and require insurers to meet specific benefit requirements. In addition, specified managed care programs, insurance companies and employers are actively negotiating the amounts paid to hospitals. The trend toward increased enrollment in managed care may adversely affect our net operating revenue growth. There can be no assurance that we will retain our existing reimbursement arrangements or that these third-party payors will not attempt to further reduce the rates they pay for our services.

Net operating revenues include amounts estimated by management to be reimbursable by Medicare and Medicaid under prospective payment systems and provisions of cost-based reimbursement and other payment methods. In addition, we are reimbursed by non-governmental payors using a variety of payment methodologies. Amounts we receive for treatment of patients covered by these programs are generally less than the standard billing rates. We account for the differences between the estimated program reimbursement rates and the standard billing rates as contractual allowance adjustments, which we deduct from gross revenues to arrive at net operating revenues. Final settlements under some of these programs are subject to adjustment based on administrative review and audit by third parties. We account for adjustments to previous program reimbursement estimates as contractual allowance adjustments and report them in the periods that such adjustments become known. During the six months ended June 30, 2012, we recognized a net after-tax benefit of \$42.8 million from the resolution of an industry-wide governmental settlement and a payment update related to prior periods. Other than this adjustment, contractual allowance adjustments related to final settlements and previous program reimbursement estimates impacted net operating revenues and net income by an insignificant amount in each of the three-month and six-month periods ended June 30, 2012 and 2011. In the future, we expect the percentage of revenues received from the Medicare program to increase due to the general aging of the population.

Currently, several states utilize supplemental reimbursement programs for the purpose of providing reimbursement to providers to offset a portion of the cost of providing care to Medicaid and indigent patients. These programs are designed with input from Centers for Medicare and Medicaid Services, or CMS, and are funded with a combination of state and federal resources, including, in certain instances, fees or taxes levied on the providers. Similar programs are also being considered by other states. After these supplemental programs are signed into law, we recognize revenue and related expenses in the period in which amounts are estimable and collection is reasonably assured. Reimbursement under these programs is reflected in net operating revenues and included as Medicaid revenue in the table above, and fees, taxes or other program related costs are reflected in other operating costs and expenses.

Table of Contents

The payment rates under the Medicare program for hospital inpatient and outpatient acute care services are based on a prospective payment system, depending upon the diagnosis of a patient's condition. These rates are indexed for inflation annually, although increases have historically been less than actual inflation. On August 18, 2011, CMS issued the final rule to adjust this index by 3.0% for hospital inpatient acute care services that are reimbursed under the prospective payment system. The final rule also made other payment adjustments that, coupled with the 0.1% reduction to hospital inpatient rates implemented pursuant to the Reform Legislation, yielded a net 1.1% increase in reimbursement for hospital inpatient acute care services beginning October 1, 2011. Reductions in the rate of increase or overall reductions in Medicare reimbursement may cause a decline in the growth of our net operating revenues. In addition, specified managed care programs, insurance companies and employers are actively negotiating the amounts paid to hospitals. The trend toward increased enrollment in managed care may adversely affect our net operating revenue growth.

In addition, specified managed care programs, insurance companies and employers are actively negotiating the amounts paid to hospitals. The trend toward increased enrollment in managed care may adversely affect our net operating revenue growth.

Results of Operations

Our hospitals offer a variety of services involving a broad range of inpatient and outpatient medical and surgical services. These include general acute care, emergency room, general and specialty surgery, critical care, internal medicine, obstetrics, diagnostic services, psychiatric and rehabilitation services. The strongest demand for hospital services generally occurs during January through April and the weakest demand for these services occurs during the summer months. Accordingly, eliminating the effect of new acquisitions, our net operating revenues and earnings are historically highest during the first quarter and lowest during the third quarter.

Table of Contents

The following tables summarize, for the periods indicated, selected operating data.

	Three Months Ended		Six Months Ended	
	June 30, 2012	2011	June 30, 2012	2011
(Expressed as a percentage of net operating revenues)				
Consolidated:				
Net operating revenues	100.0 %	100.0 %	100.0 %	100.0 %
Operating expenses (a)	(85.5)%	(85.0)%	(84.8)%	(85.0)%
Depreciation and amortization	(5.5)%	(5.4)%	(5.4)%	(5.4)%
Income from operations	9.0 %	9.6 %	9.8 %	9.6 %
Interest expense, net	(4.7)%	(5.4)%	(4.7)%	(5.5)%
Loss from early extinguishment of debt	- %	- %	(1.0)%	- %
Equity in earnings of unconsolidated affiliates	0.4 %	0.4 %	0.4 %	0.5 %
Income from continuing operations before income taxes	4.7 %	4.6 %	4.5 %	4.6 %
Provision for income taxes	(1.5)%	(1.5)%	(1.4)%	(1.5)%
Income from continuing operations	3.2 %	3.1 %	3.1 %	3.1 %
Loss from discontinued operations, net of taxes	- %	(1.3)%	- %	(0.9)%
Net income	3.2 %	1.8 %	3.1 %	2.2 %
Less: Net income attributable to noncontrolling interests	(0.6)%	(0.6)%	(0.7)%	(0.6)%
Net income attributable to Community Health Systems, Inc.	2.6 %	1.2 %	2.4 %	1.6 %

	Three Months Ended	Six Months Ended
	June 30, 2012	June 30, 2012
Percentage increase (decrease) from same period prior year:		
Net operating revenues	8.1 %	9.8 %
Admissions	3.0 %	3.1 %
Adjusted admissions (b)	5.7 %	6.9 %
Average length of stay	(2.3)%	- %
Net income attributable to Community Health Systems, Inc. (c)	135.6 %	64.2 %
Same store percentage increase (decrease) from same period prior year (d)		
Net operating revenues	4.5 %	4.4 %
Admissions	(2.0)%	(2.2)%
Adjusted admissions (b)	0.5 %	1.5 %

- (a) Operating expenses include salaries and benefits, supplies, other operating expenses, electronic health records incentive reimbursement and rent.
- (b) Adjusted admissions is a general measure of combined inpatient and outpatient volume. We computed adjusted admissions by multiplying admissions by gross patient revenues and then dividing that number by gross inpatient revenues.
- (c) Includes income (loss) from discontinued operations.
- (d) Includes acquired hospitals to the extent we operated them in both periods.

Table of Contents**Three Months Ended June 30, 2012 Compared to Three Months Ended June 30, 2011**

Net operating revenues increased \$242.1 million to approximately \$3.2 billion for the three months ended June 30, 2012, from approximately \$3.0 billion for the three months ended June 30, 2011. Hospitals owned throughout both periods contributed \$133.0 million of that increase and hospitals acquired in 2012 and 2011 contributed \$109.1 million. On a same-store basis, net operating revenues increased 4.5%. The increased net operating revenues contributed by hospitals that we owned throughout both periods were primarily attributable to general rate and reimbursement increases including revenues from states with provider assessment programs.

On a consolidated basis, inpatient admissions increased by 3.0% and adjusted admissions increased by 5.7% during the three months ended June 30, 2012. On a same-store basis, inpatient admissions decreased by 2.0% during the three months ended June 30, 2012. This decrease in same-store inpatient admissions was due primarily to a decrease in admissions from women's services including obstetrics and gynecology, fewer flu and respiratory-related admissions and reductions due to competition and certain service closures in a few of our hospitals during the three months ended June 30, 2012, as compared to the three months ended June 30, 2011.

Operating expenses, excluding depreciation and amortization, as a percentage of net operating revenues, increased 0.5% to 85.5% for the three months ended June 30, 2012, compared to 85.0% for the three months ended June 30, 2011. Salaries and benefits, as a percentage of net operating revenues, increased 0.1% to 46.2% for the three months ended June 30, 2012, compared to 46.1% for the three months ended June 30, 2011. Supplies, as a percentage of net operating revenues, increased 0.1% to 15.1% for the three months ended June 30, 2012, as compared to 15.0% for the three months ended June 30, 2011. Other operating expenses, as a percentage of net operating revenues, increased 0.9% to 22.7% for the three months ended June 30, 2012, as compared to 21.8% for the three months ended June 30, 2011. This increase is due primarily to an increase in costs associated with provider taxes from states with provider assessment programs. Rent, as a percentage of net operating revenues, decreased 0.1% to 2.0% for the three months ended June 30, 2012, as compared to 2.1% for the three months ended June 30, 2011. Equity in earnings of unconsolidated affiliates, as a percentage of net operating revenues, remained consistent at 0.4% for each of the three months ended June 30, 2012 and 2011.

Electronic health records incentive reimbursements represent those incentives under the HITECH Act for which the recognition criterion has been met. For the three months ended June 30, 2012, we have recognized approximately \$16.8 million of incentive reimbursements, or 0.5% of net operating revenues. We received payments of \$22.6 million during the three months ended June 30, 2012. Operating expenses incurred related to the installation and adoption of electronic health records, including depreciation and amortization, totaled approximately 0.3% of net operating revenues for the three months ended June 30, 2012, of which depreciation and amortization represented 0.2% of net operating revenues.

Depreciation and amortization, as a percentage of net operating revenues, increased 0.1% to 5.5% for the three months ended June 30, 2012, compared to 5.4% for the three months ended June 30, 2011.

Interest expense, net, decreased by \$11.6 million from \$163.2 million for the three months ended June 30, 2011 to \$151.6 million for the three months ended June 30, 2012. A decrease in interest rates during the three months ended June 30, 2012, compared to June 30, 2011, resulted in a decrease in interest expense of \$19.7 million. Additionally, interest expense decreased by \$1.6 million as a result of more interest being capitalized during the three months ended June 30, 2012, as compared to the three months ended June 30, 2011, as the current year period had more major construction projects. These decreases were partially offset by an increase in our average outstanding debt during the three months ended June 30, 2012, compared to the three months ended June 30, 2011, which resulted in an increase in interest expense of \$9.7 million.

The net of the above mentioned changes resulted in income from continuing operations before income taxes increasing \$14.0 million from \$137.7 million for the three months ended June 30, 2011 to \$151.7 million for the three months ended June 30, 2012.

Provision for income taxes increased from \$44.8 million for the three months ended June 30, 2011 to \$49.5 million for the three months ended June 30, 2012, due primarily to the increase in income from continuing operations before income taxes in the comparable period in 2011, as discussed above. Our effective tax rate remained consistent at 32.6% for each of the three months ended June 30, 2012 and 2011.

Income from continuing operations, as a percentage of net operating revenues, increased 0.1% to 3.2% for the three months ended June 30, 2012, compared to 3.1% for the three months ended June 30, 2011. Net income, as a percentage of net operating revenues, increased 1.4% to 3.2% for the three months ended June 30, 2012, compared to 1.8% for the three months ended June 30, 2011.

Net income attributable to noncontrolling interests as a percentage of net operating revenues, remained consistent at 0.6% for each of the three months ended June 30, 2012 and 2011.

Table of Contents

Net income attributable to Community Health Systems, Inc. was \$83.6 million for the three months ended June 30, 2012, compared to \$35.4 million for the three months ended June 30, 2011, representing an increase of 135.6%. The increase in net income is primarily due to the increase in net operating revenues, income from electronic health records incentive reimbursement and a decrease in interest expense, offset by increases in operating expenses as discussed above.

Six Months Ended June 30, 2012 Compared to Six Months Ended June 30, 2011

Net operating revenues increased \$585.1 million to approximately \$6.5 billion for the six months ended June 30, 2012, from approximately \$6.0 billion for the six months ended June 30, 2011. Hospitals owned throughout both periods contributed \$260.8 million of that increase and hospitals acquired in 2012 and 2011 contributed \$243.5 million. On a same-store basis, net operating revenues increased 4.4%. The increased net operating revenues contributed by hospitals that we owned throughout both periods were primarily attributable to general rate and reimbursement increases including revenues from states with provider assessment programs. Included in net operating revenues on a non-same store basis is approximately \$101.8 million of net operating revenues from an industry-wide settlement with the United States Department of Health and Human Services and CMS, based on a claim that acute-care hospitals in the U.S. were underpaid from the Medicare inpatient prospective payment system in federal fiscal years 1999 through 2011. The underpayments resulted from calculations related to the rural floor budget neutrality adjustments implemented in connection with the Balanced Budget Act of 1997. Also included is an unfavorable adjustment of approximately \$21.0 million, related to the newly issued Supplemental Security Income ratios for federal fiscal years 2006 through 2009 utilized for calculating Medicare Disproportionate Share Hospital reimbursements.

On a consolidated basis, inpatient admissions increased by 3.1% and adjusted admissions increased by 6.9% during the six months ended June 30, 2012. On a same-store basis, inpatient admissions decreased by 2.2% during the six months ended June 30, 2012. This decrease in same-store inpatient admissions was due primarily to a decrease in admissions from women's services including obstetrics and gynecology, fewer flu and respiratory-related admissions and reductions due to competition and certain service closures in a few of our hospitals during the six months ended June 30, 2012, as compared to the six months ended June 30, 2011.

Operating expenses, excluding depreciation and amortization, as a percentage of net operating revenues, decreased 0.2% to 84.8% for the six months ended June 30, 2012, compared to 85.0% for the six months ended June 30, 2011. Salaries and benefits, as a percentage of net operating revenues, decreased 0.2% to 46.2% for the six months ended June 30, 2012, compared to 46.4% for the six months ended June 30, 2011. This decrease in salaries and benefits, as a percentage of net operating revenues, is due primarily to the increase in non-same store net operating revenues described above as well as efficiencies gained since the prior year in our hospitals owned throughout both periods. Supplies, as a percentage of net operating revenues, decreased 0.1% to 15.1% for the six months ended June 30, 2012, as compared to 15.2% for the six months ended June 30, 2011. Other operating expenses, as a percentage of net operating revenues, increased 0.9% to 22.2% for the six months ended June 30, 2012, as compared to 21.3% for the six months ended June 30, 2011. This increase is due primarily to an increase in costs associated with provider taxes from states with provider assessment programs. Rent, as a percentage of net operating revenues, decreased 0.1% to 2.0% for the six months ended June 30, 2012, as compared to 2.1% for the six months ended June 30, 2011. Equity in earnings of unconsolidated affiliates, as a percentage of net operating revenues, decreased 0.1% to 0.4% for the six months ended June 30, 2012, compared to 0.5% for the six months ended June 30, 2011.

Electronic health records incentive reimbursements represent those incentives under the HITECH Act for which the recognition criterion has been met. For the six months ended June 30, 2012, we have recognized approximately \$43.0 million of incentive reimbursements, or 0.7% of net operating revenues. We received payments of \$28.8 million during the six months ended June 30, 2012. Operating expenses incurred related to the installation and adoption of electronic health records, including depreciation and amortization, totaled approximately 0.4% of net operating revenues for the six months ended June 30, 2012, of which depreciation and amortization represented 0.2% of net operating revenues.

Depreciation and amortization, as a percentage of net operating revenues, remained consistent at 5.4% for each of the six months ended June 30, 2012 and 2011.

Interest expense, net, decreased by \$22.6 million from \$326.4 million for the six months ended June 30, 2011 to \$303.8 million for the six months ended June 30, 2012. A decrease in interest rates during the six months ended June 30, 2012, compared to June 30, 2011, resulted in a decrease in interest expense of \$33.9 million. Additionally, interest expense decreased by \$5.0 million as a result of more interest being capitalized during the six months ended June 30, 2012, as compared to the six months ended June 30, 2011, as the current year period had more major construction projects. These decreases were partially offset by an increase in our average outstanding debt during the six months ended June 30, 2012, compared to the six months ended June 30, 2011, and one additional day of interest expense since 2012 is a leap year, which resulted in an increase in interest expense of \$14.4 million and \$1.9 million, respectively.

The loss from early extinguishment of debt was recognized after the purchase of \$850 million of the 8⁷/₈% Senior Notes due 2015 and the repayment of existing term loans and revolving credit facility under the Credit Facility.

Table of Contents

The net of the above mentioned changes resulted in income from continuing operations before income taxes increasing \$23.8 million from \$273.4 million for the six months ended June 30, 2011 to \$297.2 million for the six months ended June 30, 2012.

Provision for income taxes increased from \$88.9 million for the six months ended June 30, 2011 to \$95.3 million for the six months ended June 30, 2012, due primarily to the increase in income from continuing operations before income taxes in the comparable period in 2011, as discussed above. Our effective tax rate decreased from 32.5% for the six months ended June 30, 2011 to 32.1% for the six months ended June 30, 2012 due to a one-time favorable adjustment related to an amended state tax return.

Income from continuing operations, as a percentage of net operating revenues, remained consistent at 3.1% for each of the six months ended June 30, 2012 and 2011. Net income, as a percentage of net operating revenues, increased 0.9% to 3.1% for the six months ended June 30, 2012, compared to 2.2% for the six months ended June 30, 2011. Net income, as a percentage of net operating revenues, was lower for the six months ended June 30, 2011 due to the loss on discontinued operations from loss on sale, impairment of hospitals held for sale and loss on entities sold.

Net income attributable to noncontrolling interests as a percentage of net operating revenues, increased 0.1% to 0.7% for the six months ended June 30, 2012, compared to 0.6% for the six months ended June 30, 2011.

Net income attributable to Community Health Systems, Inc. was \$158.8 million for the six months ended June 30, 2012, compared to \$96.7 million for the six months ended June 30, 2011, representing an increase of 64.2%. The increase in net income is primarily due to the increase in net operating revenues, income from electronic health records incentive reimbursement and a decrease in interest expense, offset by increases in operating expenses as discussed above.

Liquidity and Capital Resources

Net cash provided by operating activities decreased \$101.8 million, from \$584.7 million for the six months ended June 30, 2011 to \$482.9 million for the six months ended June 30, 2012. The decrease in cash provided by operating activities, in comparison to the prior year period, is primarily due to a decrease in cash flow from the change in accounts receivable of \$116.3 million, from the change in supplies, prepaid expenses and other current assets of \$49.3 million, from the change in accounts payable, accrued liabilities and income taxes of \$77.6 million and a decrease in other non-cash expenses related to the impairment of hospitals sold in 2011 of \$47.9 million. These decreases in cash flows were partially offset by an increase in net income of \$69.5 million, an increase in depreciation and amortization expense of \$29.8 million, loss from early extinguishment of debt of \$63.4 million, an increase in all other non-cash expenses of \$12.4 million, and an increase in cash flow from the change in other assets and liabilities of \$14.2 million. Included in net cash provided by operating activities for the six months ended June 30, 2012 is \$28.8 million of cash received for HITECH incentive reimbursements.

The cash used in investing activities was \$790.6 million for the six months ended June 30, 2012, compared to \$604.4 million for the six months ended June 30, 2011. The increase in cash used in investing activities, in comparison to the prior year period, is primarily due to an increase in cash used for acquisition of facilities and other related equipment of \$41.0 million, an increase in cash used for purchasing property and equipment of \$35.1 million and an increase in cash used for other investments of \$87.0 million. Included in cash outflows for other investments for the six months ended June 30, 2012 is approximately \$75.8 million of capital expenditures related to the purchase and implementation of certified EHR technology. The remaining cash outflows for other investments consists primarily of purchases and development of other internal-use software and payments made under non-employee physician recruiting agreements, of \$86.5 million. Other reasons for the increase in cash used in investing activities were the decrease in proceeds from the disposition of ancillary operations of \$18.5 million and the decrease in proceeds received from the sale of property and equipment of \$4.6 million.

The cash provided by financing activities was \$292.9 million for the six months ended June 30, 2012, compared to \$88.1 million used in financing activities for the six months ended June 30, 2011. The increase in cash provided by financing activities is due primarily to the increase in borrowings under the credit agreement, proceeds from the Receivables Facility and the issuance of long-term debt, offset partially by repayments of long-term debt during the six months ended June 30, 2012, in comparison to the prior year period.

Capital Expenditures

Cash expenditures related to purchases of facilities were \$245.2 million for the six months ended June 30, 2012, compared to \$204.3 million for the six months ended June 30, 2011. The expenditures during the six months ended June 30, 2012 were for the purchase of two hospitals in Pennsylvania, one hospital in Illinois, a physician practice in Texas, surgery centers and other physician practices and the settlement of working capital items from prior acquisitions and divestitures. The expenditures during the six months ended June 30, 2011 were for the purchase of three hospitals in Pennsylvania, surgery centers and physician practices and the settlement of working capital items from 2010 acquisitions.

Table of Contents

Excluding the cost to construct replacement hospitals, our cash expenditures for routine capital for the six months ended June 30, 2012 totaled \$315.9 million, compared to \$269.3 million for the six months ended June 30, 2011. These capital expenditures related primarily to the purchase of additional equipment, minor renovations and information systems infrastructure. Costs to construct replacement hospitals for the six months ended June 30, 2012 totaled \$70.6 million, compared to \$82.1 million for the six months ended June 30, 2011. The costs to construct replacement hospitals for both of the six-month periods ended June 30, 2012 and 2011 represented both planning and construction costs for the four replacement hospitals discussed below.

Pursuant to hospital purchase agreements in effect as of June 30, 2012, and where final certificate of need approval has been obtained, we have commitments to build the following three replacement facilities: As required by an amendment to our lease agreement entered into in 2005, we agreed to build a replacement hospital at our Barstow, California location by November 2012. As part of an acquisition in 2007, we agreed to build a replacement hospital in Valparaiso, Indiana by April 2011; however, due to delays in receiving government approved building and zoning permits, completion is not expected until the third quarter of 2012. These delays did not result in any penalties under the terms of the applicable purchase agreement and we do not expect such delays to result in any significant increase in the costs to construct the replacement facility. As part of an acquisition in 2009, we agreed to build a replacement hospital in Siloam Springs, Arkansas, which opened in April 2012. Construction costs, including equipment costs, for these three replacement facilities are currently estimated to be approximately \$308.5 million, of which approximately \$280.9 million has been incurred to date. In addition, in October 2008, after the purchase of the noncontrolling owner's interest in our Birmingham, Alabama facility, we initiated the purchase of a site, which includes a partially constructed hospital structure, for a potential replacement to our existing Birmingham facility. In September 2010, we received approval of our request for a certificate of need from the Alabama Certificate of Need Review Board; however, this certificate of need remains subject to the final resolution of an appeal process. Our estimated construction costs, including the acquisition of the site and equipment costs, are approximately \$280.0 million for the Birmingham replacement facility.

Capital Resources

Net working capital was approximately \$1.1 billion at June 30, 2012, compared to approximately \$935.0 million at December 31, 2011. The increase in net working capital is primarily attributable to an increase in working capital from the acquisition of three hospitals and a large physician practice and an increase in patient accounts receivable, offset by a decrease in income taxes receivable from tax refunds received.

In connection with the consummation of the Triad acquisition in July 2007, we obtained approximately \$7.2 billion of senior secured financing under the Credit Facility with a syndicate of financial institutions led by Credit Suisse, as administrative agent and collateral agent. The Credit Facility consisted of an approximately \$6.1 billion funded term loan facility with a maturity of seven years, a \$300 million delayed draw term loan facility (subsequently reduced by us from \$400 million) with a maturity of seven years and a \$750 million revolving credit facility with a maturity of six years. During the fourth quarter of 2008, \$100 million of the delayed draw term loan had been drawn down by us, reducing the delayed draw term loan availability to \$200 million at December 31, 2008. In January 2009, we drew down the remaining \$200 million of the delayed draw term loan. The revolving credit facility also includes a subfacility for letters of credit and a swingline subfacility. The Credit Facility requires quarterly amortization payments of each term loan facility equal to 0.25% of the outstanding amount of the term loans. On November 5, 2010, we entered into an amendment and restatement of our existing Credit Facility. The amendment extended by two and a half years, until January 25, 2017, the maturity date of \$1.5 billion of our existing term loans under the Credit Facility and increased the pricing on these term loans to LIBOR plus 350 basis points. If more than \$50 million of our 8⁷/₈% Senior Notes remain outstanding on April 15, 2015, without having been refinanced, then the maturity date for the extended term loans will be accelerated to April 15, 2015. The amendment also increased our ability to issue additional indebtedness under the uncommitted incremental facility to \$1.0 billion from \$600 million, permitted us to issue term loan A loans under the incremental facility and provided up to \$2.0 billion of borrowing capacity from receivable transactions, an increase of \$0.5 billion, of which approximately \$1.7 billion would be required to be used for repayment of our existing term loans. In addition, effective February 2, 2012, we completed an additional amendment and restatement of the Credit Facility, which extended by two and a half years, until January 25, 2017, the maturity date of an additional \$1.6 billion of our existing non-extended term loans under the Credit Facility and increased the pricing on the newly extended term loans by 125 basis points. The maturity date of the balance of the term loans of approximately \$2.9 billion remained unchanged at July 25, 2014.

Table of Contents

Effective March 6, 2012, we obtained a new \$750 million senior secured revolving credit facility, or the Replacement Revolver Facility, and a new \$750 million incremental term loan A facility, or the Incremental Term Loan. The Replacement Revolver Facility replaced in full the existing revolving credit facility under the Credit Facility. The net proceeds of the Incremental Term Loan were used to repay the same amount of the existing term loans under the Credit Facility. The execution of these agreements resulted in a loss from early extinguishment of debt of \$8.5 million with an after-tax impact of \$5.3 million recorded in continuing operations for the six months ended June 30, 2012. Both the Replacement Revolver Facility and the Incremental Term Loan have a maturity date of October 25, 2016, subject to customary acceleration events and to the repayment, extension or refinancing with longer maturity debt of substantially all of the outstanding term loans maturing July 25, 2014 and the 8⁷/₈% Senior Notes due 2015. The pricing on each of the Replacement Revolver Facility and the Incremental Term Loan is initially LIBOR plus a margin of 250 basis points, subject to adjustment based on our leverage ratio. The Incremental Term Loan amortizes at 5% in year one, 10% in years two and three, 15% in year four and 60% in year five.

The term loan facility must be prepaid in an amount equal to (1) 100% of the net cash proceeds of certain asset sales and dispositions by us and our subsidiaries, subject to certain exceptions and reinvestment rights, (2) 100% of the net cash proceeds of issuances of certain debt obligations or receivables-based financing by us and our subsidiaries, subject to certain exceptions, and (3) 50%, subject to reduction to a lower percentage based on our leverage ratio (as defined in the Credit Facility generally as the ratio of total debt on the date of determination to our EBITDA, as defined, for the four quarters most recently ended prior to such date), of excess cash flow (as defined) for any year, commencing in 2008, subject to certain exceptions. Voluntary prepayments and commitment reductions are permitted in whole or in part, without any premium or penalty, subject to minimum prepayment or reduction requirements.

The obligor under the Credit Facility is CHS. All of our obligations under the Credit Facility are unconditionally guaranteed by Community Health Systems, Inc. and certain of its existing and subsequently acquired or organized domestic subsidiaries. All obligations under the Credit Facility and the related guarantees are secured by a perfected first priority lien or security interest in substantially all of the assets of Community Health Systems, Inc., CHS and each subsidiary guarantor, including equity interests held by us or any subsidiary guarantor, but excluding, among others, the equity interests of non-significant subsidiaries, syndication subsidiaries, securitization subsidiaries and joint venture subsidiaries.

The loans under the Credit Facility bear interest on the outstanding unpaid principal amount at a rate equal to an applicable percentage plus, at our option, either (a) an Alternate Base Rate (as defined) determined by reference to the greater of (1) the Prime Rate (as defined) announced by Credit Suisse or (2) the Federal Funds Effective Rate (as defined) plus 0.5% or (3) the adjusted LIBOR rate on such day for a three-month interest period commencing on the second business day after such day plus 1%, or (b) a reserve adjusted LIBOR for dollars (Eurodollar rate) (as defined). The applicable percentage for Alternate Base Rate loans is 1.25% for term loans due 2014 and 2.25% for term loans due 2017. The applicable percentage for Eurodollar rate loans is 2.25% for term loans due 2014 and 3.5% for term loans due 2017. The applicable percentage for revolving loans was initially 1.25% for Alternate Base Rate revolving loans and 2.25% for Eurodollar revolving loans, in each case subject to reduction based on our leverage ratio. Loans under the swingline subfacility bear interest at the rate applicable to Alternate Base Rate loans under the revolving credit facility.

We have agreed to pay letter of credit fees equal to the applicable percentage then in effect with respect to Eurodollar rate loans under the revolving credit facility times the maximum aggregate amount available to be drawn under all letters of credit outstanding under the subfacility for letters of credit. The issuer of any letter of credit issued under the subfacility for letters of credit will also receive a customary fronting fee and other customary processing charges. We are obligated to pay commitment fees of 0.50% per annum (subject to reduction based upon our leverage ratio), on the unused portion of the revolving credit facility. For purposes of this calculation, swingline loans are not treated as usage of the revolving credit facility. With respect to the delayed draw term loan facility, we were also obligated to pay commitment fees of 0.50% per annum for the first nine months after the close of the Credit Facility and 0.75% per annum for the next three months after such nine-month period and thereafter 1.0% per annum. In each case, the commitment fee was based on the unused amount of the delayed draw term loan facility. After the draw down of the remaining \$200 million of the delayed draw term loan in January 2009, we no longer pay any commitment fees for the delayed draw term loan facility. We also paid arrangement fees on the closing of the Credit Facility and pay an annual administrative agent fee.

The Credit Facility contains customary representations and warranties, subject to limitations and exceptions, and customary covenants restricting our and our subsidiaries' ability, subject to certain exception, to, among other things, (1) declare dividends, make distributions or redeem or repurchase capital stock, (2) prepay, redeem or repurchase other debt, (3) incur liens or grant negative pledges, (4) make loans and investments and enter into acquisitions and joint ventures, (5) incur additional indebtedness or provide certain guarantees, (6) make capital expenditures, (7) engage in mergers, acquisitions and asset sales, (8) conduct transactions with affiliates, (9) alter the nature of our businesses, (10) grant certain guarantees with respect to physician practices, (11) engage in sale and leaseback transactions or (12) change our fiscal year. We and our subsidiaries are also required to comply with specified financial covenants (consisting of a leverage ratio and an interest coverage ratio) and various affirmative covenants.

Table of Contents

Events of default under the Credit Facility include, but are not limited to, (1) our failure to pay principal, interest, fees or other amounts under the credit agreement when due (taking into account any applicable grace period), (2) any representation or warranty proving to have been materially incorrect when made, (3) covenant defaults subject, with respect to certain covenants, to a grace period, (4) bankruptcy events, (5) a cross default to certain other debt, (6) certain undischarged judgments (not paid within an applicable grace period), (7) a change of control, (8) certain ERISA-related defaults and (9) the invalidity or impairment of specified security interests, guarantees or subordination provisions in favor of the administrative agent or lenders under the Credit Facility.

As of June 30, 2012, the availability for additional borrowings under our Credit Facility was approximately \$750 million pursuant to the revolving credit facility, of which \$37.7 million was set aside for outstanding letters of credit and \$5.0 million was outstanding at June 30, 2012. We believe that these funds, along with internally generated cash and continued access to the bank credit and capital markets, will be sufficient to finance future acquisitions, capital expenditures and working capital requirements through the next 12 months and into the foreseeable future.

On March 21, 2012, CHS completed the secondary offering of \$1.0 billion aggregate principal amount of 8% Senior Notes due 2019, which were issued in a private placement (at a premium of 102.5%). The net proceeds from this issuance were used to finance the purchase of \$850 million aggregate principal amount of CHS outstanding 8⁷/₈% Senior Notes due 2015, to pay related fees and expenses and for general corporate purposes. On March 21, 2012, CHS completed the cash tender offer for \$850 million of the \$1.8 billion aggregate outstanding principal amount of 8⁷/₈% Senior Notes due 2015. This resulted in a loss from early extinguishment of debt of \$54.9 million with an after-tax impact of \$34.3 million recorded in continuing operations for the six months ended June 30, 2012.

Subsequent to June 30, 2012, CHS initiated an offering of \$1.2 billion aggregate principal amount of 7¹/₈% Senior Notes due 2020, which were issued by means of an underwritten public offering under our automatic shelf registration filed with the Securities and Exchange Commission. We used the proceeds of the offering to purchase \$639.7 million of the 8⁷/₈% Senior Notes that were validly tendered and not validly withdrawn in the cash tender offer commenced on July 3, 2012, to pay for consents delivered in connection therewith and to pay related fees and expenses. We intend to use the remaining proceeds to redeem any remaining 8⁷/₈% Senior Notes and, to the extent any proceeds remain, for general corporate purposes. Upon the closing of the cash tender offer for and the mandatory redemption of the remaining 8⁷/₈% Senior Notes due 2015, we will have extended the maturity of all of our senior notes outstanding to at least 2019.

On March 21, 2012, through certain of our subsidiaries, we entered into an accounts receivables loan agreement, or the Receivables Facility, with a group of conduit lenders and liquidity banks, Credit Agricole Corporate and Investment Bank, as a managing agent and as the administrative agent, and The Bank of Nova Scotia, as a managing agent. The existing and future patient-related accounts receivable, or the Receivables, for certain of our hospitals serve as collateral for the outstanding borrowings under the Receivables Facility. The interest rate on the borrowings is based on the commercial paper rate plus an applicable interest rate spread. Unless earlier terminated or subsequently extended pursuant to its terms, the Receivables Facility will expire on March 21, 2014, subject to customary termination events that could cause an early termination date. We maintain effective control over the Receivables because, pursuant to the terms of the Receivables Facility, the Receivables are sold from certain of our subsidiaries to us, and we then sell or contribute the Receivables to a special-purpose entity that is wholly-owned by us. The wholly-owned special-purpose entity in turn grants security interests in the Receivables in exchange for borrowings obtained from the group of third-party conduit lenders and liquidity banks of up to \$300 million outstanding from time to time based on the availability of eligible Receivables and other customary factors. The group of third-party conduit lenders and liquidity banks do not have recourse to us or our subsidiaries beyond the assets of the wholly-owned special-purpose entity that collateralizes the loan. The Receivables and other assets of the wholly-owned special-purpose entity will be available first and foremost to satisfy the claims of the creditors of such entity. The outstanding borrowings pursuant to the Receivables Facility at June 30, 2012 totaled \$300 million and are classified as long-term debt on the condensed consolidated balance sheet. At June 30, 2012, the carrying amount of Receivables included in the Receivables Facility totaled approximately \$888.0 million and are included in patient accounts receivable on the condensed consolidated balance sheet.

Table of Contents

As of June 30, 2012, we are a party to the following interest rate swap agreements to limit the effect of changes in interest rates on approximately 60% of our variable rate debt. On each of these swaps, we receive a variable rate of interest based on the three-month LIBOR in exchange for the payment by us of a fixed rate of interest. We currently pay, on a quarterly basis, a margin above LIBOR of 225 basis points for revolving credit and term loans due 2014 and 350 basis points for term loans due 2017 under the Credit Facility.

Swap #	Notional Amount (in 000 s)	Fixed	Termination Date	Fair Value of Liability (in 000 s)
		Interest Rate		
1	\$ 200,000	4.685%	September 11, 2012	\$ 1,679
2	100,000	3.352%	October 23, 2012	908
3	125,000	4.375%	November 23, 2012	1,953
4	75,000	4.380%	November 23, 2012	1,174
5	150,000	5.020%	November 30, 2012	2,862
6	200,000	2.242%	February 28, 2013	2,347
7	100,000	5.023%	May 30, 2013	4,144
8	300,000	5.242%	August 6, 2013	15,631
9	100,000	5.038%	August 30, 2013	5,276
10	50,000	3.586%	October 23, 2013	2,013

25	100,000	3.401%	August 19, 2016	10,048
26	200,000	3.500%	August 30, 2016	20,957
27	100,000	3.005%	November 30, 2016	8,828

The Credit Facility and/or the Notes contain various covenants that limit our ability to take certain actions including, among other things, our ability to:

incur, assume or guarantee additional indebtedness;

issue redeemable stock and preferred stock;

repurchase capital stock;

make restricted payments, including paying dividends and making investments;

redeem debt that is junior in right of payment to the notes;

create liens without securing the notes;

sell or otherwise dispose of assets, including capital stock of subsidiaries;

enter into agreements that restrict dividends from subsidiaries;

Table of Contents

merge, consolidate, sell or otherwise dispose of substantial portions of our assets;

enter into transactions with affiliates; and

guarantee certain obligations.

In addition, our Credit Facility contains restrictive covenants and requires us to maintain specified financial ratios and satisfy other financial condition tests. We were in compliance with all financial ratios and other financial condition tests at June 30, 2012, and expect to remain in compliance in the future. Our ability to meet these restrictive covenants and financial ratios and tests can be affected by events beyond our control, and we cannot assure you that we will meet those tests. A breach of any of these covenants could result in a default under our Credit Facility and/or the Notes. Upon the occurrence of an event of default under our Credit Facility or the Notes, all amounts outstanding under our Credit Facility and the Notes may become due and payable and all commitments under the Credit Facility to extend further credit may be terminated.

We believe that internally generated cash, availability for additional borrowings under our Credit Facility of \$750 million (consisting of a \$750 million revolving credit facility, of which \$37.7 million is set aside for outstanding letters of credit as of June 30, 2012 and \$5.0 million was outstanding at June 30, 2012) and our ability to amend the Credit Facility to provide for one or more tranches of term loans in an aggregate principal amount of \$1.0 billion and our continued access to the bank credit and capital markets will be sufficient to finance acquisitions, capital expenditures and working capital requirements through the next 12 months. We believe these same sources of cash, borrowings under our Credit Facility as well as access to bank credit and capital markets will be available to us beyond the next 12 months and into the foreseeable future.

On May 24, 2012, we filed a universal automatic shelf registration statement on Form S-3ASR that will permit us, from time to time, in one or more public offerings, to offer debt securities, common stock, preferred stock, warrants, depositary shares, or any combination of such securities. The shelf registration statement will also permit our subsidiary, CHS, to offer debt securities that would be guaranteed by us, from time to time in one or more public offerings. The terms of any such future offerings would be established at the time of the offering.

The ratio of earnings to fixed charges is a measure of our ability to meet our fixed obligations related to our indebtedness. The following table shows the ratio of earnings to fixed charges for the six months ended June 30, 2012:

	Six Months Ended June 30, 2012
Ratio of earnings to fixed charges (1)	1.79 x

(1) Fixed charges include interest expensed and capitalized during the year plus an estimate of the interest component of rent expense. There are no shares of preferred stock outstanding. See exhibit 12 filed as part of this Report for the calculation of this ratio.

Off-balance Sheet Arrangements

Our consolidated operating results for the six months ended June 30, 2012 and 2011, included \$113.3 million and \$104.4 million, respectively, of net operating revenues and \$15.9 million and \$10.1 million, respectively, of income from operations generated from five hospitals operated by us under operating lease arrangements. In accordance with accounting principles generally accepted in the United States of America, or U.S. GAAP, the respective assets and the future lease obligations under these arrangements are not recorded on our condensed consolidated balance sheet. Lease costs under these arrangements are included in rent expense and totaled approximately \$5.8 million and \$6.0 million for the six months ended June 30, 2012 and 2011, respectively. The current terms of these operating leases expire between January 2013 and June 2022, not including lease extension options. If we allow these leases to expire, we would no longer generate revenue nor incur expenses from these hospitals.

Edgar Filing: COMMUNITY HEALTH SYSTEMS INC - Form 10-Q

In the past, we have utilized operating leases as a financing tool for obtaining the operations of specified hospitals without acquiring, through ownership, the related assets of the hospital and without a significant outlay of cash at the front end of the lease. We utilize the same operating strategies to improve operations at those hospitals held under operating leases as we do at those hospitals that we own. We have not entered into any operating leases for hospital operations since December 2000.

Table of Contents**Noncontrolling Interests**

We have sold noncontrolling interests in certain of our subsidiaries or acquired subsidiaries with existing noncontrolling interest ownership positions. As of June 30, 2012, we have hospitals in 22 of the markets we serve, with noncontrolling physician ownership interests ranging from less than 1% to 40%, including one hospital that also has a non-profit entity as a partner. In addition, we have three other hospitals with noncontrolling interests owned by non-profit entities. During the three months ended March 31, 2012, one of our subsidiaries purchased the outstanding partnership interests not already owned by us that were held by physician investors in the limited partnership that owns and operates Longview Regional Medical Center in Longview, Texas. The purchase price for these partnership interests was \$28.8 million. After acquiring these partnership interests, one or more of our subsidiaries collectively own 100% of the outstanding equity of the limited partnership that owns and operates this hospital. Redeemable noncontrolling interests in equity of consolidated subsidiaries was \$367.9 million and \$395.7 million as of June 30, 2012 and December 31, 2011, respectively. Noncontrolling interests in equity of consolidated subsidiaries was \$64.7 million and \$67.3 million as of June 30, 2012 and December 31, 2011, respectively. The amount of net income attributable to noncontrolling interests was \$18.8 million and \$18.2 million for the three months ended June 30, 2012 and 2011, respectively, and \$42.6 million and \$35.2 million for the six months ended June 30, 2012 and 2011, respectively. As a result of the change in the Stark Law whole hospital exception included in the Reform Legislation, we are not permitted to introduce physician ownership at any of our wholly-owned facilities or increase the aggregate percentage of physician ownership in any of our existing joint ventures.

Reimbursement, Legislative and Regulatory Changes

The Reform Legislation was enacted in the context of other ongoing legislative and regulatory efforts, which would reduce or otherwise adversely affect the payments we receive from Medicare and Medicaid. Within the statutory framework of the Medicare and Medicaid programs, including programs currently unaffected by the Reform Legislation, there are substantial areas subject to administrative rulings, interpretations, and discretion which may further affect payments made under those programs, and the federal and state governments might, in the future, reduce the funds available under those programs or require more stringent utilization and quality reviews of hospital facilities. Additionally, there may be a continued rise in managed care programs and additional restructuring of the financing and delivery of healthcare in the United States. These events could cause our future financial results to decline. We cannot estimate the impact of Medicare and Medicaid reimbursement changes that have been enacted or are under consideration. We cannot predict whether additional reimbursement reductions will be made or whether any such changes would have a material adverse effect on our business, financial conditions, results of operations, cash flow, capital resources and liquidity.

Inflation

The healthcare industry is labor intensive. Wages and other expenses increase during periods of inflation and when labor shortages occur in the marketplace. In addition, our suppliers pass along rising costs to us in the form of higher prices. We have implemented cost control measures, including our case and resource management program, to curb increases in operating costs and expenses. We have generally offset increases in operating costs by increasing reimbursement for services, expanding services and reducing costs in other areas. However, we cannot predict our ability to cover or offset future cost increases, particularly any increases in our cost of providing health insurance benefits to our employees as a result of the Reform Legislation.

Critical Accounting Policies

The discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with U.S. GAAP. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amount of assets and liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities at the date of our consolidated financial statements. Actual results may differ from these estimates under different assumptions or conditions.

Critical accounting policies are defined as those that are reflective of significant judgments and uncertainties, and potentially result in materially different results under different assumptions and conditions. We believe that our critical accounting policies are limited to those described below.

Third-Party Reimbursement

Net operating revenues include amounts estimated by management to be reimbursable by Medicare and Medicaid under prospective payment systems and provisions of cost-reimbursement and other payment methods. In addition, we are reimbursed by non-governmental payors using a variety of payment methodologies. Amounts we receive for treatment of patients covered by these programs are generally less than the standard billing rates. Contractual allowances are automatically calculated and recorded through our internally developed

Table of Contents

automated contractual allowance system. Within the automated system, actual Medicare DRG data and payors' historical paid claims data are utilized to calculate the contractual allowances. This data is automatically updated on a monthly basis. All hospital contractual allowance calculations are subjected to monthly review by management to ensure reasonableness and accuracy. We account for the differences between the estimated program reimbursement rates and the standard billing rates as contractual allowance adjustments, which we deduct from gross revenues to arrive at net operating revenues. The process of estimating contractual allowances requires us to estimate the amount expected to be received based on payor contract provisions. The key assumption in this process is the estimated contractual reimbursement percentage, which is based on payor classification and historical paid claims data. Due to the complexities involved in these estimates, actual payments we receive could be different from the amounts we estimate and record. If the actual contractual reimbursement percentage under government programs and managed care contracts differed by 1% at June 30, 2012 from our estimated reimbursement percentage, net income for the six months ended June 30, 2012 would have changed by approximately \$40.1 million, and net accounts receivable at June 30, 2012 would have changed by \$64.1 million. Final settlements under some of these programs are subject to adjustment based on administrative review and audit by third parties. We account for adjustments to previous program reimbursement estimates as contractual allowance adjustments and report them in the periods that such adjustments become known. During the six months ended June 30, 2012, we recognized a net after-tax benefit of \$42.8 million from the resolution of two industry-wide governmental payment updates related to prior periods. Other than this adjustment, contractual allowance adjustments related to final settlements and previous program reimbursement estimates impacted net operating revenues and net income by an insignificant amount in each of the three-month and six-month periods ended June 30, 2012 and 2011.

Allowance for Doubtful Accounts

Substantially all of our accounts receivable are related to providing healthcare services to our hospitals' patients. Collection of these accounts receivable is our primary source of cash and is critical to our operating performance. Our primary collection risks relate to uninsured patients and outstanding patient balances for which the primary insurance payor has paid some but not all of the outstanding balance, with the remaining outstanding balance (generally deductibles and co-payments) owed by the patient. At the point of service, for patients required to make a co-payment, we generally collect less than 15% of the related revenue. For all procedures scheduled in advance, our policy is to verify insurance coverage prior to the date of the procedure. Insurance coverage is not verified in advance of procedures for walk-in and emergency room patients.

We estimate the allowance for doubtful accounts by reserving a percentage of all self-pay accounts receivable without regard to aging category, based on collection history, adjusted for expected recoveries and, if present, anticipated changes in trends. For all other non-self-pay payor categories, we reserve 100% of all accounts aging over 365 days from the date of discharge. The percentage used to reserve for all self-pay accounts is based on our collection history. We believe that we collect substantially all of our third-party insured receivables, which include receivables from governmental agencies.

Collections are impacted by the economic ability of patients to pay and the effectiveness of our collection efforts. Significant changes in payor mix, business office operations, economic conditions or trends in federal and state governmental healthcare coverage could affect our collection of accounts receivable. The process of estimating the allowance for doubtful accounts requires us to estimate the collectability of self-pay accounts receivable, which is primarily based on our collection history, adjusted for expected recoveries and, if available, anticipated changes in collection trends. Significant change in payor mix, business office operations, economic conditions, trends in federal and state governmental healthcare coverage or other third-party payors could affect our estimates of accounts receivable collectability. If the actual collection percentage differed by 1% at June 30, 2012 from our estimated collection percentage as a result of a change in expected recoveries, net income for the six months ended June 30, 2012 would have changed by \$21.8 million, and net accounts receivable at June 30, 2012 would have changed by \$34.8 million. We also continually review our overall reserve adequacy by monitoring historical cash collections as a percentage of trailing net revenue less provision for bad debts, as well as by analyzing current period net revenue and admissions by payor classification, aged accounts receivable by payor, days revenue outstanding and the impact of recent acquisitions and dispositions.

Our policy is to write-off gross accounts receivable if the balance is under \$10.00 or when such amounts are placed with outside collection agencies. We believe this policy accurately reflects our ongoing collection efforts and is consistent with industry practices. We had approximately \$2.3 billion and \$2.2 billion at June 30, 2012 and December 31, 2011, respectively, being pursued by various outside collection agencies. We expect to collect less than 3%, net of estimated collection fees, of the amounts being pursued by outside collection agencies. As these amounts have been written-off, they are not included in our gross accounts receivable or our allowance for doubtful accounts. Collections on amounts previously written-off are recognized as a reduction to bad debt expense when received. However, we take into consideration estimated collections of these future amounts written-off in evaluating the reasonableness of our allowance for doubtful accounts.

All of the following information is derived from our hospitals, excluding clinics, unless otherwise noted.

Patient accounts receivable from our hospitals represent approximately 95% of our total consolidated accounts receivable.

Table of Contents

Days revenue outstanding was 58 days and 56 days at June 30, 2012 and December 31, 2011, respectively. Our target range for days revenue outstanding is 53 to 63 days.

Total gross accounts receivable (prior to allowance for contractual adjustments and doubtful accounts) was approximately \$9.5 billion and \$8.3 billion as of June 30, 2012 and December 31, 2011, respectively.

The approximate percentage of total gross accounts receivable (prior to allowances for contractual adjustments and doubtful accounts) summarized by payor category is as follows:

	June 30,	December 31,
	2012	2011
Insured receivables	64.3 %	63.7 %
Self-pay receivables	35.7 %	36.3 %
Total	100.0 %	100.0 %

For the hospital segment, the combined total of the allowance for doubtful accounts for self-pay accounts receivable and related allowances for other self-pay discounts and contractals, as a percentage of gross self-pay receivables, was approximately 84% at both June 30, 2012 and December 31, 2011. If the receivables that have been written-off, but where collections are still being pursued by outside collection agencies, were included in both the allowances and gross self-pay receivables specified above, the percentage of combined allowances to total self-pay receivables would have been approximately 91% at both June 30, 2012 and December 31, 2011.

Goodwill and Other Intangibles

Goodwill represents the excess of the fair value of the consideration conveyed in the acquisition over the fair value of net assets acquired. Goodwill is evaluated for impairment at the same time every year and when an event occurs or circumstances change that, more likely than not, reduce the fair value of the reporting unit below its carrying value. There is a two-step method for determining goodwill impairment. Step one is to compare the fair value of the reporting unit with the unit's carrying amount, including goodwill. If this test indicates the fair value is less than the carrying value, then step two is required to compare the implied fair value of the reporting unit's goodwill with the carrying value of the reporting unit's goodwill. We have selected September 30 as our annual testing date. Based on the results of our most recent annual impairment test, we have concluded that we do not have any reporting units that are at risk of failing step one of the goodwill impairment test.

Impairment or Disposal of Long-Lived Assets

Whenever events or changes in circumstances indicate that the carrying values of certain long-lived assets may be impaired, we project the undiscounted cash flows expected to be generated by these assets. If the projections indicate that the reported amounts are not expected to be recovered, such amounts are reduced to their estimated fair value based on a quoted market price, if available, or an estimate based on valuation techniques available in the circumstances.

Professional Liability Insurance Claims

As part of our business of owning and operating hospitals, we are subject to legal actions alleging liability on our part. We accrue for losses resulting from such liability claims, as well as loss adjustment expenses that are out-of-pocket and directly related to such liability claims. These direct out-of-pocket expenses include fees of outside counsel and experts. We do not accrue for costs that are part of our corporate overhead, such as the costs of our in-house legal and risk management departments. The losses resulting from professional liability claims primarily consist of estimates for known claims, as well as estimates for incurred but not reported claims. The estimates are based on specific claim facts, our historical claim reporting and payment patterns, the nature and level of our hospital operations, and actuarially determined projections. The actuarially determined projections are based on our actual claim data, including historic reporting and payment patterns which have been gathered over approximately a 20-year period. As discussed below, since we purchase excess insurance on a claims-made basis that transfers risk to third-party insurers, the liability we accrue does include an amount for the losses covered by our excess insurance. We also record a receivable for the expected reimbursement of losses covered by our excess insurance. Since we believe that the amount and timing of our future claims payments are reliably determinable, we discount the amount we accrue for losses resulting from professional liability claims using the

risk-free interest rate corresponding to the timing of our expected payments.

Table of Contents

The net present value of the projected payments was discounted using a weighted-average risk-free rate of 1.2% and 1.3% in 2011 and 2010, respectively. This liability is adjusted for new claims information in the period such information becomes known to us. Professional malpractice expense includes the losses resulting from professional liability claims and loss adjustment expense, as well as paid excess insurance premiums, and is presented within other operating expenses in the accompanying condensed consolidated statements of income.

Our processes for obtaining and analyzing claims and incident data are standardized across all of our hospitals and have been consistent for many years. We monitor the outcomes of the medical care services that we provide and for each reported claim, we obtain various information concerning the facts and circumstances related to that claim. In addition, we routinely monitor current key statistics and volume indicators in our assessment of utilizing historical trends. The average lag period between claim occurrence and payment of a final settlement is between four and five years, although the facts and circumstances of individual claims could result in the timing of such payments being different from this average. Since claims are paid promptly after settlement with the claimant is reached, settled claims represent less than 1.0% of the total liability at the end of any period.

For purposes of estimating our individual claim accruals, we utilize specific claim information, including the nature of the claim, the expected claim amount, the year in which the claim occurred and the laws of the jurisdiction in which the claim occurred. Once the case accruals for known claims are determined, information is stratified by loss layers and retentions, accident years, reported years, geography, and claims relating to the acquired Triad hospitals versus claims relating to our other hospitals. Several actuarial methods are used against this data to produce estimates of ultimate paid losses and reserves for incurred but not reported claims. Each of these methods uses our company-specific historical claims data and other information. This company-specific data includes information regarding our business, including historical paid losses and loss adjustment expenses, historical and current case loss reserves, actual and projected hospital statistical data, a variety of hospital census information, employed physician information, professional liability retentions for each policy year, geographic information and other data.

Based on these analyses, we determine our estimate of the professional liability claims. The determination of management's estimate, including the preparation of the reserve analysis that supports such estimate, involves subjective judgment of management. Changes in reserving data or the trends and factors that influence reserving data may signal fundamental shifts in our future claim development patterns or may simply reflect single-period anomalies. Even if a change reflects a fundamental shift, the full extent of the change may not become evident until years later. Moreover, since our methods and models use different types of data and we select our liability from the results of all of these methods, we typically cannot quantify the precise impact of such factors on our estimates of the liability. Due to our standardized and consistent processes for handling claims and the long history and depth of our company-specific data, our methodologies have produced reliably determinable estimates of ultimate paid losses.

We are primarily self-insured for these claims; however, we obtain excess insurance that transfers the risk of loss to a third-party insurer for claims in excess of our self-insured retentions. Our excess insurance is underwritten on a claims-made basis. For claims reported prior to June 1, 2002, substantially all of our professional and general liability risks were subject to a \$0.5 million per occurrence self-insured retention and for claims reported from June 1, 2002 through June 1, 2003, these self-insured retentions were \$2.0 million per occurrence. Substantially all claims reported after June 1, 2003 and before June 1, 2005 are self-insured up to \$4 million per claim. Substantially all claims reported on or after June 1, 2005 are self-insured up to \$5 million per claim. Management, on occasion, has selectively increased the insured risk at certain hospitals based upon insurance pricing and other factors and may continue that practice in the future. Excess insurance for all hospitals has been purchased through commercial insurance companies and generally covers us for liabilities in excess of the self-insured retentions. The excess coverage consists of multiple layers of insurance, the sum of which totals up to \$95 million per occurrence and in the aggregate for claims reported on or after June 1, 2003, up to \$145 million per occurrence and in the aggregate for claims incurred and reported after January 1, 2008 and up to \$195 million per occurrence and in the aggregate for claims reported after June 1, 2010. For certain policy years, if the first aggregate layer of excess coverage becomes fully utilized, then the self-insured retention could increase to \$10 million per claim for any subsequent claims in that policy year until our total aggregate coverage is met.

Effective January 1, 2008, the former Triad hospitals are insured on a claims-made basis as described above and through commercial insurance companies as described above for substantially all claims occurring on or after January 1, 2002 and reported on or after January 1, 2008. Substantially all losses for the former Triad hospitals in periods prior to May 1, 1999 were insured through a wholly-owned insurance subsidiary of HCA Inc., or HCA, Triad's owner prior to that time, and excess loss policies maintained by HCA. HCA has agreed to indemnify the former Triad hospitals in respect of claims covered by such insurance policies arising prior to May 1, 1999. From May 1, 1999 through December 31, 2006, the former Triad hospitals obtained insurance coverage on a claims incurred basis from HCA's wholly-owned insurance subsidiary with excess coverage obtained from other carriers that is subject to certain deductibles. Effective for claims incurred after December 31, 2006, Triad began insuring its claims from \$1 million to \$5 million through its wholly-owned captive insurance company, replacing the coverage provided by HCA. Substantially all claims occurring during 2007 were self-insured up to \$10 million per claim.

Table of Contents

There have been no significant changes in our estimate of the reserve for professional liability claims during the three and six months ended June 30, 2012.

Income Taxes

We must make estimates in recording provision for income taxes, including determination of deferred tax assets and deferred tax liabilities and any valuation allowances that might be required against the deferred tax assets. We believe that future income will enable us to realize certain deferred tax assets, subject to the valuation allowance we have established.

The total amount of unrecognized benefit that would impact the effective tax rate, if recognized, was approximately \$2.0 million as of June 30, 2012. During the six months ended June 30, 2012, we increased liabilities for uncertain tax positions by \$1.0 million and increased interest and penalties by approximately \$0.3 million. A total of approximately \$0.5 million of interest and penalties is included in the amount of liability for uncertain tax positions at June 30, 2012. It is our policy to recognize interest and penalties related to unrecognized benefits in our condensed consolidated statements of income as income tax expense.

It is possible the amount of unrecognized tax benefit could change in the next twelve months as a result of a lapse of the statute of limitations and settlements with taxing authorities; however, we do not anticipate the change will have a material impact on our consolidated results of operations or consolidated financial position.

We, or one or more of our subsidiaries, file income tax returns in the United States federal jurisdiction and various state jurisdictions. We have extended the federal statute of limitations for Triad for the tax periods ended December 31, 1999, December 31, 2000, April 30, 2001, June 30, 2001, December 31, 2001, December 31, 2002 and December 31, 2003. The IRS has concluded its examination of the federal tax return of Triad for the tax periods ended December 31, 2004, December 31, 2005, December 31, 2006 and July 25, 2007, and the statutes of limitations for those years will close on December 31, 2012. With few exceptions, we are no longer subject to state income tax examinations for years prior to 2008 and federal income tax examinations with respect to Community Health Systems, Inc. federal returns for years prior to 2007. Our federal income tax returns for the 2007, 2008, 2009 and 2010 tax years are currently under examination by the IRS. We believe the results of this examination will not be material to our consolidated results of operations or consolidated financial position. In connection with our 2007 and 2008 IRS examinations, the IRS has taken exception to the timing of our malpractice expense deductions. Management believes that our deduction timing is appropriate, and will work to resolve this item ov
