D. Major Businesses

(1) Wireless Business

The Company provides wireless telecommunications services, characterized by its competitive strengths in handheld devices, affordable pricing, network coverage and an extensive contents library. Since the introduction of services employing LTE technology in July 2011, the telecommunications market for such services has grown as demand for fast data transfer speeds and differentiated services has increased. Having reached over six million LTE subscribers as of October 31, 2012, the Company is solidifying its leadership position in LTE services based on its technology and network operating expertise. The Company is also improving the profitability of its wireless business through efficient capital expenditures and marketing and enhancement of marketing network and products. In the business-to-business area, the Company is selling industry-specific solutions focused on healthcare and education through strategic alliances.

In addition, in order to strengthen our sales channels, the Company has been offering a variety of fixed-line and wireless telecommunication convergence products to its customers through PS&Marketing Corporation, one of its subsidiaries. Furthermore, Network O&S Co., Ltd., the Company's subsidiary responsible for the operation of the Company's 2G to 4G networks (including its CDMA, WCDMA and LTE networks), provides customers with quality network services and provides the Company with technological know-how in network operations.

(2) Fixed-line Business

SK Broadband Co., Ltd. (SK Broadband) is engaged in providing telecommunications, broadcasting and new media services and various other services that are permitted to be carried out by SK Broadband under relevant regulations, as well as business activities that are directly or indirectly related to providing those services. With the adoption of K-IFRS in 2011, our broadband and fixed-line services segment also includes the following services provided by certain other subsidiaries of SK Telecom subject to consolidation under K-IFRS: multimedia services and IP TV services (Broadband Media Co., Ltd.) and telemarketing services (Broadband CS Co., Ltd.).

(3) Other Businesses

The Company is pursuing customer satisfaction by providing the best service and generating new values in diverse areas in contents delivery, location-based services, media and mobile commerce. In the contents delivery service business, the Company provides high-quality digital contents in its leading mobile contents marketplace, T Store, which had more than 17 million subscribers as of September 2012 and which the Company plans to expand globally.

In the location-based service business, users of the Company's T-Map Navigation service surpassed 15.3 million as of September 2012. T-Map Navigation provides real time traffic information and various local information. In the media business, the Company provides Hoppin service that enables subscribers to access various multimedia contents through personal computers, mobile devices and other digital devices. In the commerce and advertising area, the Company's 11th Street, which continues to gain market share, is a platform service that connects various sellers and purchasers on-line.

SK Communications Co., Ltd. (SK Communications) provides integrated portal services through NATE, social networking services through Cyworld and instant messaging services through NATE-ON. Key sources of revenue for SK Communications are display advertising, search engine-based advertising, and contents and other services. Display advertising consists of image, video and Flash-based multimedia advertising carried on NATE, Cyworld and NATE-ON and aims to give greater exposure to the advertiser's brand name to the public. The increased effectiveness of on-line media as an advertising outlet has resulted in a greatly expanded advertiser base, and the increasing variety in the format of advertising has contributed to the growth of display advertising. Search engine-based advertising refers to the type of advertising that embeds advertisements within search results produced by searches of certain keywords on the NATE portal site. Search engine-based advertising has a certain appeal to small and medium-sized advertisers. Contents and other services include sales of on-line items to be used on Cyworld, contents sales and providing certain types of services. Revenues from contents and other services are generated through sales of on-line digital items through fixed-line Cyworld services and revenues generated by usage of mobile Cyworld services, which are shared with mobile phone service operators, as well as revenues from NATE-ON instant messaging, custom decorations for mobile phones, cartoon strips, fortunetelling, games and other contents services. In addition, SK Planet Co., Ltd. (SK Planet) receives revenue from its services agreement with the Company in connection with operation of WAP wireless NATE services. Service-In Co., Ltd. is engaged in Internet service, database and on-line information service, data processing, Internet contents services, telemarketing and other computer services.

The Company is also one of the leaders in the music services industry with the continued growth of Melon, its online music service, and its investments in music distribution and production.

In order to find future growth engines and strengthen the Company's competitiveness, the Company has made strategic investments in YTK Investment Ltd., an investment fund company, and SKY Property Management Ltd., which owns SK Tower in Beijing, China.

[SK Broadband]

(1) Merger

On July 26, 2012, the board of directors of SK Broadband resolved to merge Broadband D&M Co., Ltd., an unlisted company, into SK Broadband to strengthen its competitiveness and produce synergies with its existing business. The merger was effective as of September 26, 2012. In connection with this merger, SK Broadband did not issue any new shares.

[SK Telink]

(1) Merger

On July 22, 2010, the board of directors of SK Telink Co., Ltd. (SK Telink) approved the merger of TU Media Corp. into SK Telink effective as of November 1, 2010. In connection with this merger, SK Telink issued 256,763 shares of its common stock.

[SK Communications]

(1) Merger

On June 25, 2007, the board of directors of SK Communications resolved to cause SK Communications to merge into Empas Corp., effective as of November 1, 2007. We believe this merger helped to strengthen our competitiveness in the portal services market. In the merger, one share of the predecessor company of SK Communications was converted into 3.5732182 shares of Empas Corp.

(2) Spin-off On

August 6, 2008, the board of directors of SK Communications resolved to spin off its video education business to create Etoos Co., Ltd. (Etoos), effective as of November 1, 2008. The spin-off was intended to help SK Communications to better focus on its core businesses and to give each of its business divisions greater autonomy in making operational decisions based on technical expertise specific to the respective business division.

(3) Disposition and acquisition of businesses

1. Disposition of publishing business division

On April 10, 2009, SK Communications sold its publishing business division to Etoos for Won 4,785 million in accordance with the resolution of its board of directors of March 5, 2009.

2. Acquisition of the KUKU division

On July 1, 2009, SK Communications purchased the KUKU division from SK I-Media Co., Ltd. for a purchase price of Won 1,157 million, in accordance with the June 25, 2009 resolution of its board of directors.

3. Disposition of the Spicus division

Pursuant to the July 23, 2009 resolution of its board of directors, SK Communications sold the Spicus division, its telephone English education division, to Spicus Inc., a subsidiary of Altos Ventures on August 1, 2009 for a purchase price of Won 1,493 million.

(4) Disposition of shares

Edgar Filing: SK TELECOM CO LTD - Form 6-K

1. Disposition of shares of Etoos

SK Communications sold all of its shares in Etoos to Cheong Sol pursuant to a resolution of its board of directors of October 19, 2009 and, as consideration, received Won 50,000 million principal amount of convertible bonds. Pursuant to a resolution of its board of directors of July 23, 2010, SK Communications converted Won 25 billion principal amount, out of a total of Won 50 billion principal amount, of convertible bonds of Etoos into 701,000 shares of Etoos (15.58%). Pursuant to a resolution of its board of directors of January 13, 2012, SK Communications sold Won 20 billion principal amount, out of the remaining Won 25 billion principal amount, of convertible bonds of Etoos Education Co., Ltd. to Shinhan Private Equity Fund No. 2 at a price of Won 19 billion.

2. Disposition of shares of SK i-Media

Pursuant to a resolution of its board of directors of October 17, 2011, SK Communications sold all shares of SK i-Media Co., Ltd. held by it to LK Media Tech Co., Ltd. at a price of Won 1 million.

3. Disposition of shares of U-Land, an overseas entity

Pursuant to a resolution of its board of directors of December 21, 2011, SK Communications sold all of its 29.85% interest in U-Land, an overseas entity, to SK Planet at a price of Won 10 million.

E. Other Important Matters related to Management Activities

[SK Telecom]

(1) Bank loans

On February 14, 2012, the Company borrowed Won 2.5 trillion in a syndicated loan from a syndicate of Korean banks including Kookmin Bank and Woori Bank in order to finance the purchase of Hynix Semiconductor shares. Won 2 trillion of the loan matures in three years and Won 0.5 trillion of the loan matures in one year.

[SK Broadband]

SK Broadband, a material consolidated subsidiary of ours, acquired subscriberships of regional cable and other service providers on several different occasions. Such acquisitions were intended to secure a stable subscriber base for our broadband Internet service and, at the same time, increase the service coverage area. Because such acquisitions were conducted on a relatively small scale and involved purchase of subscriberships, we did not believe such acquisitions rose to the level of purchasing an entire business line from another company or were likely to have a material impact on our business, and therefore we believed that such acquisitions did not require resolutions of our shareholders.

[SK Communications]

(1) Leak of personal information

In July 2011, a leak of personal information of subscribers of Nate and Cyworld websites operated by SK Communications, the Company's consolidated subsidiary, occurred. Two lawsuits (total claim of Won 9 million) demanding compensation for damages from the leak were filed and five payment orders (total payment amount of Won 7 million) were issued by the courts against SK Communications in connection with the leak.

[SK Telink]

On August 23, 2012, the board of directors of SK Telink resolved to discontinue operations of its satellite Digital Multimedia Broadcasting (DMB) services due to the decrease in satellite DMB subscribers and the continued burden of fixed costs. Its DMB services were discontinued as of August 31, 2012.

[Wireless Business]**A. Industry Characteristics**

As of September 30, 2012, the number of domestic mobile phone subscribers reached 53.28 million and, with more than a 100% penetration rate, the Korean mobile communication market can be considered to have reached its maturation stage. However, the penetration rate is expected to increase further due to increased use of mobile phones by corporate users resulting from the rapid growth of smartphone markets, as well as the increasing popularity of high-tech mobile devices based on wireless data services such as tablet computers.

The Korean mobile communications market continues to improve in the quality of services with the help of advances in network-related technology and the development of highly advanced LTE and 3G smartphones which enable the provision of convergence services for multimedia contents, mobile commerce, telematics, new media and other related services. In addition, through the HSPA+ network commercialized in October 2010 and the LTE network introduced in July 2011, B2B businesses, such as the corporate connected workforce business which can directly contribute to an enhancement in productivity, are expected to grow rapidly.

C. Domestic and Overseas Market Conditions

The Korean mobile communication market includes the entire population of Korea with mobile communication service needs, and almost every Korean is considered a potential user. Sales revenue related to data services is expected to increase due to the increasing popularity of smartphones and wireless Internet. The importance of the business-to-business segment, which creates added value by selling and developing various solutions, is also growing. Seasonal and economic fluctuations have much less impact on the Korean mobile communication market compared to other industries.

D. Business Overview and Competitive Strengths

The Company is seeking to transform itself from a telecommunication service provider into a comprehensive information and communication technology (ICT) service provider. It has continued to expand the scope of its services and achieved strong growth in subscribers amid fierce competition and rate cuts. For the nine months ended September 30, 2012, the Company recorded Won 12.1 trillion in revenue and Won 1,220 billion in operating income on a consolidated basis and Won 9.17 trillion in revenue and Won 1,130 billion in operating income on a separate basis.

The number of subscribers as of September 30, 2012 was 26.78 million, an increase of approximately 119,000 from the previous quarter. In particular, the number of smartphone subscribers as of September 30, 2012 was 15.28 million, an increase of 1.28 million from the previous quarter, including 5.67 million LTE subscribers, solidifying the Company's market leadership. The Company upgraded the quality of data services by providing commercial LTE services, enabling streaming of high-quality videos, high-definition voice services such as high-definition video conference calls and mobile on-line gaming services. The Company also plans to enhance customer satisfaction by improving network quality.

The Company has proved that it has superior network quality compared to its competitors according to the Korea Communications Commission quality evaluations. The Company has also proved to be the leader in Korea's top three customer satisfaction indices: according to the National Customer Satisfaction Index, Korean Customer Satisfaction Index and Korean Standard Service Quality Index, the Company has continued to hold the leading position for 15 years, 15 years and 13 years, respectively.

SK Telink, a consolidated subsidiary of the Company, plans to expand its operations to the MVNO business based on its technical expertise and know-how obtained in its international telecommunications business. SK Telink launched its pre-paid MVNO service, 7Mobile, in June 2012 and plans to launch its post-pay service in January 2013. An MVNO leases the networks of a mobile network operator (MNO) and provides wireless telecommunication services under its own brand and fee structure, without owning telecommunication networks or frequencies.

Network O&S, a subsidiary of the Company responsible for the operation of the Company's base stations and related transmission and power facilities, offers quality fixed-line and wireless products to customers, including mobile office products to business customers.

PS&Marketing Corporation, a subsidiary of the Company involved in wholesale, retail and online sales, offers fixed-line and wireless telecommunication products and services to meet the lifestyle needs of customers.

[Fixed-line Business]

A. Industry Characteristics

The Korean telecommunications industry is currently characterized by smartphones, tablet computers and other devices with enhanced mobility and cloud computing, mobile offices and other information and communications technology. In addition, mergers among fixed-line operators and wireless operators have accelerated the convergence within the telecommunications sector, creating a market structure in which groups with both fixed-line and wireless capabilities compete for greater market share to secure a more solid footing in the market. Spurred on by the introduction of various bundled products, growth in the market for IPTV services and a paradigm shift in the voice telephone market towards Internet-based telephone services, the broadband and fixed-line telecommunications market is playing a key role in the accelerated consolidation of the service providers as well as heightened competition in a growing market. The increased usage of smartphones and tablet computers, as well as the commercialization of the fourth generation LTE network, has greatly increased the demand for wireless data transmissions, thereby further emphasizing the importance of fixed-line networks.

We believe the transition to digital TV services will accelerate when analog open air TV broadcasting terminates at the end of 2012. With the introduction of new services such as smart TVs, we are seeing stronger competition in various convergence products, such as mobile IPTV and N-screen services employing smartphones and tablet computers.

B. Growth Potential

Classification		(Unit: 1,000 persons)		
		As of September 30, 2012	As of December 31, 2011	2010
Fixed-line Subscribers	High-speed Internet	18,138	17,860	17,224
	Fixed-line telephone	18,379	18,633	19,273
	IPTV (real-time)	5,820	3,591	2,740

(Source: Korea Communications Commission website)

C. Cyclical Nature and Seasonality

High-speed Internet, fixed-line telephone and IPTV services are generally not sensitive to cyclical economic changes. Demand for these services also does not show seasonal fluctuations.

We expect that the accelerated transition to digital TV services as a result of the termination of analog open air TV broadcasting, as well as the entrance of Google Inc. (Google) and Apple Inc. (Apple) into the television market and the introduction of smart TV products, will present opportunities by expanding the market size and increasing consumers' interests. We are strengthening our competitiveness in the TV business by improving the performance of our TV set boxes and expanding the number of popular channels, as well as introducing mobile IPTV services using N-screen.

D. Business Overview and Competitive Strengths

SK Broadband, which in 1999 became the first company in the world to commence commercial ADSL services, has strengthened its co-marketing efforts with SK Telecom. The co-marketing efforts and the enhanced competitiveness of the bundled products have resulted in an expanded subscriber base across all of our businesses, including broadband Internet, telephone and IPTV. In particular, we have positioned ourselves to focus on corporate customer services as one of the key strategic areas for mid- to long-term growth, and our efforts to exploit new information and communications technology-based businesses have led to revenue growth and strengthening of our competitiveness in the emerging business-to-business market.

SK Telink, a material consolidated subsidiary of the Company, provides international telecommunications service. SK Telink has been able to establish itself as a market leader as a result of its affordable pricing, proactive marketing and the quality of its services. It launched a mobile phone-based international calling service under the brand name 00700 in 1998, creating a new niche market within the long-distance telephony market that was otherwise dominated by existing service providers. In 2003, SK Telink was designated a common carrier for international calling services, which allowed us to expand our international calling services to fixed-line international calling services. In addition, in 2011, we were again ranked first in the three major independent customer satisfaction surveys, including the Korea Nation Customer Satisfaction Index, after having been ranked first in 2010. The revenue from our international calling services in 2011 was Won 416.5 billion. SK Telink

Edgar Filing: SK TELECOM CO LTD - Form 6-K

plans to strengthen its existing business, including international and long-distance calling services, while satisfying customers' diverse needs for new services.

[Other Business]

A. Industry Characteristics

As the number of smartphones distributed in Korea exceeds 30 million, the growth in various mobile devices has spurred the rise of the service provider with a strong platform business as the leader in the ICT market. A platform business acts as an intermediary by promoting interactions among various customer groups, thereby generating new values. It is important for a platform business to continually attract subscribers and users and to create an ecosystem with certain lock-in effects. A platform can exist in various forms, including as a technological standard (iOS, Android OS), a subscriber-based service platform (Facebook, Twitter) or a marketplace (Amazon, T Store). Platform businesses are evolving and expanding globally.

A platform business has strong growth potential due to its connectivity with related services and ease of global expansion. Apple became a world-leading smartphone producer based on its innovative design and the competitive strength of its App Store platform. Google has created a new ecosystem of long-tail advertising by attracting millions of third parties to its advertising platform, as well as showing strong growth in mobile markets with its competitive platform based on Android OS.

B. Growth Potential

The Company expects that the scope and value generated by the platform business, including application and content marketplaces and N-screen services, will increase, as smartphones and tablet computers become more popular and the bandwidth and speed of network infrastructure improve.

As the wireless network evolves to LTE, business opportunities for the platform business are growing, which include multimedia streaming, N-screen service based on cloud technology and high-definition location-based services. Since the platform business realizes profit by connecting with advertisements or commerce sites after building a critical mass of subscribers and traffic, the recent growth in the advertising and commerce markets is expected to present an opportunity for platform businesses.

C. Domestic and Overseas Market Conditions

(1) Competition

- Application Marketplace

The growth of application marketplaces, which started with Apple's App Store, provides the platform business with new opportunities for revenue generation. The competitive paradigm is shifting from a competition among platform operators toward a competition among ecosystems that include application developers as well as platform operators.

- Commerce Markets

The Company expects that on-line commerce markets will continue to grow due to the growth potential of the Internet shopping population and the strengthening of on-line business models by off-line operators. The Korean advertising market is expected to grow from Won 7.4 trillion in 2010 to Won 10.0 trillion in 2015. In particular, mobile advertising is expected to grow rapidly to Won 0.8 trillion in 2015, primarily due to the popularity of smartphones and convergence with location-based advertising.

- Media Contents Market

Due to an increase in the number of devices owned by each user and an increase in network speed, each user can now enjoy music or video files anywhere and anytime by storing them in cloud servers, which is called N-screen service. Users can recommend music to other users through social networking services and this is expected to become a distribution model for digital media contents. Various service providers are competing in this market expecting a strong growth in the on-line and mobile video market.

Although Internet portal service providers provide more or less identical types of services, including search, social networking, email, news and other content services, for each type of service, a small number of service providers with specialized expertise are enjoying relatively large market shares. However, the portal services market has a relatively low entry barrier and there is increased competition from new entrants. In addition, the ease of access to services provided by competitive foreign providers is also adding to a highly competitive market environment.

(2) Market Share

CyWorld service, our social networking website in Korea, had 26 million cumulative subscribers, 14 million net users and a page view of 7 billion as of September 2012. Our Nate-On service had the largest market share of 75.2% in the instant messenger market in Korea with 10 million net users as of September 2012. Our Nate search portal service had a market share of 1.8% as of September 2012. (Source: Korean Click, Company data).

D. Business Overview and Competitive Strengths

SK Planet plans to expand its platform ecosystem focusing on its Open & Collaboration motto in operating its digital content marketplaces such as T Store and Hoppin, commerce marketplaces such as 11th Street and Smart Wallet and location-based services such as T-Map Navigation, thereby ultimately increasing its enterprise value.

- Digital Content Marketplace

T Store, launched in September 2009, reached 17.15 million subscribers and cumulative downloads of 1 billion as of September 2012, solidifying its leadership position in the Korean application market and plans to widen its services to tablets and navigation devices. The Company intends to further develop T Store into a global service platform by evolving it into a personalized gateway through expansion of the scope of serviceable devices, reinforcement of digital content offerings and enhancement of search services, among other things.

- Commerce (Open Market)

11th Street, an online marketplace, has continued its growth through effective marketing and customer satisfaction. Despite its later entry into the online commerce market (launched in 2008) which was already divided between Auction and G-Market, it is leading the domestic e-commerce market and is also firmly establishing its position as the leader in the mobile commerce market. Future growth plans include overseas joint ventures based on 11th Street's business expertise.

- Location-based Service

T-Map Navigation provides map, local information, real-time traffic information and navigation services. With cumulative subscribers of 15.27 million as of September 30, 2012, T-Map Navigation is one of the leading location-based service platforms in Korea. The Company plans to further develop the T-Map Navigation platform by initiating open application programming interface-based services, providing services to more diverse types of devices and providing local area-based services.

- Media Platform

The Company's media platform business started with its Hoppin service, which provides N-screen media service enabling subscribers to enjoy contents through a number of devices. Hoppin has expanded its services to more types of smartphones and tablets and has 2.84 million subscribers as of September 30, 2012. The Company plans to develop Hoppin service into a media platform acting as an intermediary of various N-screen services. It also plans to provide media platform services in overseas markets in stages.

- Web Search through Nate.com

The Company plans to enhance the competitiveness of its web search service provided through Nate.com by adding a social search function. In addition, Cyworld plans to establish a worldwide service for global users.

- Mobile Social Networking Service

In the first quarter 2012, SK Planet, a subsidiary of the Company, acquired Mad Smart Co., Ltd., which provides tic-toc service, in order to expand its business to mobile communication and social networking services. Mobile social networking, still in its early stage of development, presents ample opportunities for new businesses and is expected to grow rapidly in the future. SK Planet plans to create synergies from the acquisition by combining its know-how in platform services and the strengths of tic-toc in social networking services.

- Music Business

The Company's online music site, MelOn, has continued to increase its sales and, for the past four years, has been recognized as having the largest market share and the highest brand recognition in the digital music sales market in Korea. As of September 30, 2012, the Company supports all major smartphone and tablet devices introduced in Korea, including the iPhone and the iPad, and is strengthening its support for its mobile customers who use MelOn services in a multi-device environment. The Company plans to strengthen its leadership in the mobile market and increase the number of its subscribers by responding to changes in the smart device and 4G LTE network environment, providing reliable service operations and continually improving service, offering relevant and special music related contents to its customers and engaging in diverse and differentiated marketing promotion activities.

Satellite DMB

The Company launched its Hanbyul satellite in 2004 and received government approval in December 30, 2004 to provide satellite DMB services. Broadcasting through satellite DMB commenced in May 2005 and satellite DMB services expanded nationwide thereafter. On August 23, 2012, the board of directors resolved to discontinue operation of its satellite DMB services due to the rapid decrease in satellite DMB subscribers and the continued burden of fixed costs. Its DMB services were discontinued as of August 31, 2012.

A. Material Legal Proceedings

(1) Claim for Copyright License Fees regarding Coloring Services

On May 7, 2010, Korea Music Copyright Association (KOMCA) filed a lawsuit with the court demanding that the Company pay KOMCA license fees for the Company's Coloring services. The court rendered a judgment against the Company ordering the Company to pay Won 570 million to KOMCA, which was affirmed by the appellate court on October 26, 2011. The Company appealed to the Supreme Court on November 8, 2011. The Company plans to vigorously defend itself in the Supreme Court by supplementing legal analysis relating to the interpretation of legal actions. While the Company does not expect immediate impact on its business and financial condition from the litigation because the judgment amount is Won 570 million and the final outcome of the litigation has not been decided, the Company may be required to pay on-going license fees in the future if it loses in the final judgment.

* Actual impact on the Company's business and financial condition from the litigation may be different from the Company's expectation stated above.

B. Other Matters

(1) Pledged Assets and Covenants

In 2011, SK Broadband, a consolidated subsidiary of the Company, pledged its real estate and short term financial instruments as collateral for one year in connection with the borrowing by Broadband Media, another consolidated subsidiary. As of September 30, 2012, the amount of real estate provided as collateral was as follows: Won 65 billion to Hana Bank, Won 78 billion to IBK Capital and Won 52 billion to Kookmin Bank; the amount of short term financial instruments provided as collateral was as follows: Won 60 billion to Korea Exchange Bank, Won 35 billion to Hana Bank, Won 34 billion to National Agricultural Cooperative Federation and Won 20 billion to Woori Bank.

In addition, in 2011, SK Broadband, a consolidated subsidiary of the Company, pledged its real estate as collateral for one year in connection with the borrowing by Broadband CS, another consolidated subsidiary. As of September 30, 2012, the amount of real estate provided as collateral was Won 16.9 billion to Kookmin Bank.

SK Broadband, a consolidated subsidiary of the Company, has also provided *geun* mortgage amounting to Won 15.2 billion to others, including Ilsan Guksa, on a part of its buildings in connection with the leasing of the buildings.

In 2011, PS&Marketing, a consolidated subsidiary of the Company, entered into a loan agreement to borrow up to Won 40 billion of working capital from Shinhan Bank. In connection with the loan agreement, it pledged Won 52 billion of its inventories to Shinhan Bank as collateral.

As of September 30, 2012, SKY Property Mgmt, Ltd. pledged CNY 519 million of its buildings and land-use rights as collateral to Korea Exchange Bank and China Merchants Bank in connection with a long-term borrowing of CNY 525 million. In the first nine months of 2012, SKY Property Mgmt, Ltd. newly borrowed long-term loans of US\$30 million and HKD 234 million from Standard Chartered Bank (HK) Ltd. and pledged its interests in its subsidiary, Shanghai Fujita Tianshan Housing Development Co., Ltd., as collateral.

(2) Payment Guarantee by the Company

The Company is participating in the tactical aeronautics project of the Defense Acquisition Program Administration of Korea (the DAPA), together with Joint Defense Corporation. The Company has guaranteed the payment of Won 4.2 billion that the DAPA has prepaid to Joint Defense Corporation.

Independent Auditors Review Report

Based on a report originally issued in Korean

To The Board of Directors and Shareholders

SK Telecom Co., Ltd.:

Reviewed financial statements

We have reviewed the accompanying condensed consolidated interim financial statements of SK Telecom Co., Ltd. and its subsidiaries (the Group), expressed in Korean won, which comprise the condensed consolidated interim statement of financial position as of September 30, 2012, the condensed consolidated interim statements of income and comprehensive income for the three-month and nine-month periods ended September 30, 2012, the condensed consolidated interim statements of changes in equity and cash flows for the nine-month period ended September 30, 2012, and notes, comprising a summary of significant accounting policies and other explanatory information.

We did not review the financial statements of SK Broadband Co., Ltd., a domestic subsidiary, two other domestic subsidiaries and an associate, whose financial statements constitute 25.8% of consolidated total assets as of September 30, 2012, and 15.2% of consolidated operating revenue for the nine-month period ended September 30, 2012. Those financial statements were reviewed by other auditors whose reports have been furnished to us, and our report, insofar as it relates to the amounts included for those subsidiaries and associate, is based solely on the reports of those other auditors.

Management's responsibility for the condensed interim financial statements

Management is responsible for the preparation and fair presentation of these condensed consolidated interim financial statements in accordance with Korean International Financial Reporting Standards (K-IFRS) No.1034, *Interim Financial Reporting*, and for such internal controls as management determines are necessary to enable the preparation of condensed consolidated interim financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' review responsibility

Our responsibility is to issue a report on these condensed consolidated interim financial statements based on our review.

We conducted our review in accordance with the Review Standards for Quarterly and Semiannual Financial Statements established by the Securities and Futures Commission of the Republic of Korea. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the Republic of Korea and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review and the reports of other auditors, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial statements referred to above are not prepared, in all material respects, in accordance with K-IFRS No.1034, *Interim Financial Reporting*.

Highlights

As discussed in note 3, the Group early adopted amendments to K-IFRS No.1001, *Presentation of Financial Statements* as of September 30, 2012 and presents discontinued operation as discussed in note 34. The Group retrospectively restated the condensed consolidated interim statements of income for the three-month and nine-month periods ended September 30, 2011, presented for comparative purposes.

Other matters

The condensed consolidated statements of income and comprehensive income for the three-month and nine-month periods ended September 30, 2011, and the condensed consolidated statements of changes in equity and cash flows for the nine-month period ended September 30, 2011, were reviewed by other auditors and their report thereon, dated November 24, 2011, stated that nothing has come to their attention that causes them to believe that the condensed consolidated interim financial statements referred to above were not prepared, in all material respects, in accordance with K-IFRS No.1034, *Interim Financial Reporting*. The accompanying condensed consolidated interim statements of income and comprehensive income of the Group for the three-month and nine-month periods ended September 30, 2011, presented for comparative purposes, are not different from those reviewed by other auditors in all material respects, except for the retrospective restatement due to the early adoption of the amendments and discontinued operation, as noted above.

In addition, the consolidated statement of financial position of the Group as of December 31, 2011, and the related consolidated statements of income, comprehensive income, changes in equity and cash flows for the year then ended, which are not accompanying this report, were audited by other auditors and their report thereon, dated March 13, 2012, expressed an unqualified opinion. The accompanying consolidated statement of financial position of the Group as of December 31, 2011, presented for comparative purposes, is not different from that audited by other auditors in all material respects.

The procedures and practices utilized in the Republic of Korea to review such condensed consolidated interim financial statements may differ from those generally accepted and applied in other countries. Accordingly, this report and the accompanying condensed consolidated interim financial statements are for use by those knowledgeable about Korean review standards and their application in practice.

This report is effective as of November 9, 2012, the review report date. Certain subsequent events or circumstances, which may occur between the review report date and the time of reading this report, could have a material impact on the accompanying condensed consolidated interim financial statements and notes thereto. Accordingly, the readers of the review report should understand that the above review report has not been updated to reflect the impact of such subsequent events or circumstances, if any.

(4) Changes in subsidiaries

There are no subsidiaries that were newly acquired during the nine-month period ended September 30, 2012 and the list of subsidiary that is newly excluded during the same period is as follows:

Subsidiary	Reason
Ntreev Soft Co., Ltd.(*1)	The Parent Company sold its investment during the period.
Broadband D&M Co., Ltd.(*2)	Merged into SK Broadband Co., Ltd. during the period.

(*1) The Parent Company sold 2,064,970 shares (ownership interest of 63.7%) of its investment to NCsoft Corporation and recognized a gain on the disposal of 66,006 million during the nine-month period ended September 30, 2012, which is included in gains(losses) related to investments in associates, net, in the accompanying condensed consolidated interim statements of income.

(*2) As of September 26, 2012, Broadband D&M Co., Ltd. was merged into SK Broadband Co., Ltd. by contribution of the net assets of Broadband D&M Co., Ltd. to SK Broadband Co., Ltd.

2. Basis of Preparation

(1) Statement of compliance

These condensed consolidated interim financial statements were prepared in accordance with K-IFRS No. 1034, *Interim Financial Reporting* as part of the period covered by the Group's K-IFRS annual financial statements. Selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the last annual consolidated financial statements as of and for the year ended December 31, 2011. These unaudited condensed consolidated interim financial statements do not include all of the disclosures required for full annual financial statements.

(2) Use of estimates and judgments

The preparation of the unaudited condensed consolidated interim financial statements in conformity with K-IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these unaudited condensed consolidated interim financial statements, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as of and for the year ended December 31, 2011.

(3) Common control transactions

SK Holdings Co, Ltd. (the Ultimate Controlling Entity) is the Ultimate Controlling Entity of the Parent Company because it has *de facto* control of the Parent Company. Accordingly, gains and losses from business acquisitions and dispositions involving entities that are under the control of the Ultimate Controlling Entity are accounted for as common control transactions within equity.

3. Significant Accounting Policies

Except as described below, the accounting policies applied by the Group in these unaudited condensed consolidated interim financial statements are the same as those applied by the Group in its consolidated financial statements as of and for the year ended December 31, 2011. The following changes in accounting policy are also expected to be reflected in the Group's consolidated financial statements as of and for the year ended December 31, 2012.

(1) Changes in accounting policy

- Presentation of financial statements

The Group early adopted the amendments to K-IFRS No. 1001, *Presentation of Financial Statements* from the interim period ended September 30, 2012. Pursuant to the amended K-IFRS No. 1001, the Group's operating income is calculated as operating revenue less operating expense and is presented separately in the accompanying condensed consolidated interim statements of income. The Group retrospectively applied the amendment and the related impact of the adoption is presented in note 3 (2) below.

(2) Impact of change in accounting policy

The impact of adopting the amendment to K-IFRS No. 1001 is as below:

4. Operating Segments

The Group's operating segments have been determined to be each business unit, for which the Group generates separately identifiable financial information that is regularly reported to the chief operating decision maker for the purpose of resource allocation and assessment of segment performance. The Group's reportable segments are: 1) cellular services, which include cellular voice service, wireless data service and wireless internet services, and 2) fixed-line telecommunication services, which include telephone services, internet services, and leased line services. All other operating segments, which include the Group's Internet portal services and other operations, that do not meet the quantitative thresholds to be considered reportable segments are presented as Other.

- (*6) As of September 30, 2012, exchangeable bonds are classified as financial liabilities at fair value through profit or loss. As of December 31, 2011, the exchangeable bonds were classified as current as the bond holders would be eligible to redeem their notes at 100% of the principal amount on April 7, 2012. However, as of September 30, 2012, the exchangeable bonds are reclassified as non-current liabilities as the bond holders have not exercised and have lost their early redemption right.

15. Borrowings and Debentures, Continued

- (*7) On April 7, 2009, the Group issued exchangeable bonds with a maturity of five years in the principal amount of USD 332,528,000 for USD 326,397,463 with a coupon rate of 1.75%. As of September 30, 2012, fair value of the exchangeable bonds is USD 357,301,336. The exchange price could be adjusted and the exchange price is 197,760 with the exchange rate of 1,383.40 per USD 1. The Group may redeem the principal amount after 3 years from the issuance date if the market price exceeds 130% of the exchange price during a predetermined period. On the other hand, the bond holders may redeem their notes at 100% of the principal amount on April 7, 2012 (3 years from the issuance date). The exchange right may be exercised during the period from May 18, 2009 to March 24, 2014 and the number of common shares that can be exchanged as of September 30, 2012 is 2,326,149 shares.

Exchange of notes to common shares may be prohibited under the Telecommunications Law or other legal restrictions which restrains foreign governments, individuals and entities from owning more than 49% of the Group's voting stock. If such 49% ownership limitation is violated due to the exercise of exchange rights, the Group will pay the bond holder a cash settlement which will be determined at the average price of one day after a holder exercises its exchange right or the weighted average price for the following five or twenty business days. Unless either previously redeemed or exchanged, the notes are redeemable at 100% of the principal amount at maturity.

In accordance with resolution of the Board of Directors on February 9, 2012, and July 28, 2012, the exchange price has changed from 209,853 to 197,760 and the number of common shares that can be exchanged was changed from 2,192,102 shares to 2,326,149 shares due to the payment of periodic and interim dividends. During the nine-month period ended September 30, 2012, no exchange was made.

	(290,660)	(285,347)

(*1) During the years ended December 31, 2003, 2006 and 2009, the Parent Company retired 7,002,235 shares, 1,083,000 shares and 448,000 shares, respectively, of treasury stock which reduced its retained earnings before appropriation in accordance with the Korean Commercial Law. As a result, the Parent Company's outstanding shares have decreased without change in the share capital.

(*2) Others primarily consist of net losses on disposals of businesses and the excess of the consideration paid by the Group over the carrying values of net assets acquired from common control transactions with entities within the control of the Ultimate Controlling Entity.

There were no changes in share capital for the nine-month period ended September 30, 2012 and for the year ended December 31, 2011.

22. Treasury Stock

Through 2009, the Parent Company acquired 8,400,712 shares of treasury stock in the open market for 1,992,083 million to provide stock dividends, issue new stocks, merge with Shinsegi Telecom, Inc. and SK IMT Co., Ltd., increase shareholder value, and to stabilize its stock prices when needed.

In addition, the Parent Company acquired 1,250,000 shares of treasury stock for 210,356 million from July 26, 2010 to October 20, 2010 and 1,400,000 shares of treasury stock for 208,012 million from July 21, 2011 to September 28, 2011, in accordance with the resolution of the Board of Directors on July 22, 2010 and July 19, 2011, respectively.

As a result of these treasury stock transactions, as of September 30, 2012 and December 31, 2011, the Parent Company has 11,050,712 shares of treasury stock at 2,410,451 million.

23. Retained Earnings

	11,610,756	11,642,525

(2) Legal reserve

The Korean Commercial Code requires the Parent Company to appropriate as a legal reserve at least 10% of cash dividends paid for each accounting period until the reserve equals 50% of outstanding share capital. The legal reserve may not be utilized for cash dividends, but may only be used to offset a future deficit, if any, or may be transferred to share capital.

(3) Reserve for research & manpower development

Reserve for research and manpower development were appropriated in order to recognize certain tax deductible benefits through the early recognition of future expenditure for tax purposes. These reserves will be reversed from appropriated and retained earnings in accordance with the relevant tax laws. Such reversal will be included in taxable income in the year of reversal.

31. Financial Risk Management

(1) Financial risk management

The Group is exposed to credit risk, liquidity risk and market risk. Market risk is the risk related to the changes in market prices, such as foreign exchange rates, interest rates and equity prices. The Group implements a risk management system to monitor and manage these specific risks.

The Group's financial assets under financial risk management consist of cash and cash equivalents, financial instruments, financial assets available-for-sale, trade and other receivables. Financial liabilities consist of trade and other payables, borrowings, and debentures.

1) Market risk

(i) Currency risk

The Group is exposed to currency risk mainly on exchange fluctuations on recognized assets and liabilities. The Group manages currency risk by currency forward, etc. if needed to hedge currency risk on business transactions. Currency risk occurs on forecasted transaction and recognized assets and liabilities which are denominated in a currency other than the functional currency of the Group.

31. Financial Risk Management, Continued

Monetary foreign currency assets and liabilities as of September 30, 2012 are as follows:

(In millions of won, thousands of U.S. dollars, thousands of Euros, thousands of Japanese Yen, thousands of other currencies)

	Assets		Liabilities	
	Foreign currencies	Won translation	Foreign currencies	Won translation
USD	91,469	102,356	1,178,660	1,319,467
EUR	111	160	2,338	3,376

CNY			2	
Others			362,689	414,632
		105,486		1,917,609

In addition, the Group has entered into cross currency swaps to hedge against currency risk related to foreign currency borrowings and debentures. (Refer to Note 20)

As of September 30, 2012, effects on income (loss) before income tax as a result of change in exchange rate by 10% are as follows:

(In millions of won)

	If increased by 10%	If decreased by 10%
USD	(38,781)	38,781
EUR	(322)	322
JPY	296	(296)
CNY		
Others	(14)	14
	(38,821)	38,821

(ii) Equity price risk

The Group has equity securities which include listed and non-listed securities for its liquidity and operating purpose. As of September 30, 2012, available-for-sale equity instruments measured at fair value amount of 784,315 million.

(iii) Interest rate risk

Since the Group's interest bearing assets are mostly fixed-interest bearing assets, as such, the Group's revenue and operating cash flow are not influenced by the changes in market interest rates. However, the Group still has interest rate risk arising from borrowings and debentures.

Accordingly, the Group performs various analysis of interest rate risk, which includes refinancing, renewal, alternative financing and hedging instrument option, to reduce interest rate risk and to optimize its financing.

31. Financial Risk Management, Continued

The Group's interest rate risk arises from floating-rate borrowings and payables. As of September 30, 2012, floating-rate debentures and borrowings amount to 519,103 million and 262,790 million, respectively, and the Group has entered into interest rate swaps to hedge interest rate risk related to floating-rate borrowings and debentures. (Refer to Note 20) If interest rate only increases (decreases) by 1%, income before income taxes for the nine-month period ended September 30, 2012 would have been decreased (increased) by 2,428 million due to the interest expense from floating-rate borrowings and bonds payables.

2) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet his/her contractual obligations. To manage credit risk, the Group evaluates the credit worthiness of each customer or counterparty considering the party's financial information, its own trading records and other factors; based on such information, the Group establishes credit limits for each customer or counterparty.

For the nine-month period ended September 30, 2012, the Group has no trade and other receivables or loans which have indications of significant impairment loss or are overdue for a prolonged period. As a result, the Group believes that the possibility of default is remote. Also, the Group's credit risk can rise due to transactions with financial institutions related to its cash and cash equivalents, financial instruments and derivatives. To minimize such risk, the Group has a policy to deal with high credit worthy financial institutions. The amount of maximum exposure to credit risk of the Group is the carrying amount of financial assets as of September 30, 2012.

In addition, the aging of trade and other receivables that are over due at the end of the reporting period but not impaired is stated in Note 6 and the analysis of financial assets that are individually determined to be impaired at the end of the reporting period is stated in Note 27.

3) Liquidity risk

The Group's approach to managing liquidity is to ensure that it will always maintain sufficient cash and cash equivalents balances and have enough liquidity through various committed credit lines. The Group maintains flexibly enough liquidity under credit lines through active operating activities.

31. Financial Risk Management, Continued

Contractual maturities of financial liabilities as of September 30, 2012 are as follows:

(In millions of won)

	Carrying amount	Contractual cash flows	Less than 1 year	1 - 5 years	More than 5 years
Accounts payable - trade	399,993	399,993	399,982	11

	11,497,205	12,898,542	3,977,724	6,825,238	2,095,580

The Group does not expect that the cash flows included in the maturity analysis could occur significantly earlier or at different amounts.

(*1) Includes estimated interest to be paid and excludes discounts on bonds.

(*2) Excludes discounts on accounts payable-other and others.

(2) Capital management

The Group manages its capital to ensure that it will be able to continue as a business while maximizing the return to shareholders through the optimization of its debt and equity balance. The overall strategy of the Group is the same as that of the Group as of and for the year ended December 31, 2011.

The Group monitors its debt-equity ratio as a capital management indicator. This ratio is calculated as total debt divided by total equity; the total debt and equity is extracted from the financial statements.

Debt-equity ratio as of September 30, 2012 and December 31, 2011 are as follows:

<i>(In millions of won)</i>	September 30, 2012	December 31, 2011
Liabilities	13,499,567	11,633,327
Equity	12,558,929	12,732,709
Debt-equity ratio	107.49%	91.37%

(3) Fair value

Fair value of the financial instruments that are traded in an active market is measured based on the quoted market price at the end of the reporting date. Disclosed market price of the financial assets held by the Group is the bid price.

Fair value of the financial instruments that are not traded in an active market is determined using the valuation method. The Group uses the various valuation methods and makes assumptions that are mainly based on market conditions existing at the end of each reporting period. Fair value of financial instruments such as long-term liabilities is measured using the various methods including estimated discounted cash flow method.

31. Financial Risk Management, Continued

Fair values of accounts receivable - trade, and accounts payable - trade are considered to be carrying amount less impairment and fair value of financial liabilities for the disclosure purpose is estimated by discounting contractual future cash flows using the current market interest rate used for the similar financial instruments by the Group.

Interest rates used by the Group for the fair value measurement as of September 30, 2012 are as follows:

	Interest rate
Derivative instruments	2.75% ~ 4.41%
Borrowings and debentures	3.13% ~ 3.20%

2) Fair value hierarchy

The different levels have been defined as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)

Level 3: inputs for the asset or liability that are not based on observable market data

Edgar Filing: SK TELECOM CO LTD - Form 6-K

(unobservable inputs)

The table below analyzes financial instruments carried at fair value, by fair value hierarchy as of September 30, 2012.

Independent Auditors' Review Report

Based on a report originally issued in Korean

To The Board of Directors and Shareholders

SK Telecom Co., Ltd.:

Reviewed financial statements

We have reviewed the accompanying condensed separate interim financial statements of SK Telecom Co., Ltd. (the Company), expressed in Korean won, which comprise the condensed separate interim statement of financial position as of September 30, 2012, the condensed separate interim statements of income and comprehensive income for the three-month and nine-month periods ended September 30, 2012, the condensed separate interim statements of changes in equity and cash flows for the nine-month period ended September 30, 2012, and notes, comprising a summary of significant accounting policies and other explanatory information.

Management's responsibility for the condensed interim financial statements

Management is responsible for the preparation and fair presentation of these condensed separate interim financial statements in accordance with Korean International Financial Reporting Standards (K-IFRS) K-IFRS No.1034, *Interim Financial Reporting*, and for such internal controls as management determines are necessary to enable the preparation of condensed separate interim financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' review responsibility

Our responsibility is to issue a report on these condensed separate interim financial statements based on our review.

We conducted our review in accordance with the Review Standards for Quarterly and Semiannual Financial Statements established by the Securities and Futures Commission of the Republic of Korea. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the Republic of Korea and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed separate interim financial statements referred to above are not prepared, in all material respects, in accordance with K-IFRS No.1034, *Interim Financial Reporting*.

Highlights

As discussed in note 3, the Company early adopted amendments to K-IFRS No.1001, *Presentation of Financial Statements* as of September 30, 2012 and retrospectively restated the condensed separate interim statements of income for the three-month and nine-month periods ended September 30, 2011, presented for comparative purposes.

Other matters

The condensed separate statements of income and comprehensive income for the three-month and nine-month periods ended September 30, 2011, and the condensed separate statements of changes in equity and cash flows for the nine-month period ended September 30, 2011, were reviewed by other auditors and their report thereon, dated November 24, 2011, stated that nothing has come to their attention that causes them to believe that the condensed separate interim financial statements referred to above were not prepared, in all material respects, in accordance with K-IFRS No.1034, *Interim Financial Reportings*. The accompanying condensed interim separate statements of income and comprehensive income of the Company for the three-month and nine-month periods ended September 30, 2011, presented for comparative purposes, are not different from those reviewed by other auditors in all material respects except for the retrospective restatement due to the early adoption of the amendments, as noted above.

In addition, the separate statement of financial position of the Company as of December 31, 2011, and the related separate statements of income, comprehensive income, changes in equity and cash flows for the year then ended, which are not accompanying this report, were audited by other auditors and their report thereon, dated March 13, 2012, expressed an unqualified opinion. The accompanying separate statement of financial position of the Company as of December 31, 2011, presented for comparative purposes, is not different from that audited by other auditors in all material respects.

The procedures and practices utilized in the Republic of Korea to review such condensed separate interim financial statements may differ from those generally accepted and applied in other countries. Accordingly, this report and the accompanying condensed separate interim financial statements are for use by those knowledgeable about Korean review standards and their application in practice.

This report is effective as of November 9, 2012, the review report date. Certain subsequent events or circumstances, which may occur between the review report date and the time of reading this report, could have a material impact on the accompanying condensed separate interim financial statements and notes thereto. Accordingly, the readers of the review report should understand that the above review report has not been updated to reflect the impact of such subsequent events or circumstances, if any.

Treasury stock	11,050,712	13.69
Total number of shares	80,745,711	100.00

2. Basis of Preparation**(1) Statement of compliance**

These condensed separate interim financial statements were prepared in accordance with K-IFRS No. 1034, *Interim Financial Reporting* as part of the period covered by the Company s K-IFRS annual financial statements. Selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the last annual separate financial statements as of and for the year ended December 31, 2011. These unaudited condensed separate interim financial statements do not include all of the disclosures required for full annual financial statements.

These condensed interim financial statements are separate interim financial statements prepared in accordance with K-IFRS No.1027,

Consolidated and Separate Financial Statements presented by a parent, an investor in an associate or a venturer in a jointly controlled entity, in which the investments are accounted for on the basis of the direct equity interest rather than on the basis of the reported results and net assets of the investees.

2. Basis of Preparation, Continued

(2) Use of estimates and judgments

The preparation of the unaudited condensed separate interim financial statements in conformity with K-IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these unaudited condensed separate interim financial statements, the significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the financial statements as of and for the year ended December 31, 2011.

(3) Common control transactions

SK Holdings Co, Ltd. (the Ultimate Controlling Entity) is the Ultimate Controlling Entity of the Company because it has *de facto* control of the Company. Accordingly, gains and losses from business acquisitions and dispositions involving entities that are under the control of the Ultimate Controlling Entity are accounted for as common control transactions within equity.

3. Significant Accounting Policies

Except as described below, the accounting policies applied by the Company in these unaudited condensed separate interim financial statements are the same as those applied by the Company in its separate financial statements as of and for the year ended December 31, 2011. The following changes in accounting policy are also expected to be reflected in the Company's separate financial statements as of and for the year ended December 31, 2012.

(1) Changes in accounting policy

- Presentation of financial statements

The Company early adopted the amendments to K-IFRS No. 1001, *Presentation of Financial Statements* from the interim period ended September 30, 2012. Pursuant to the amended K-IFRS No. 1001, the Company's operating income is calculated as operating revenue less operating expense and is presented separately in the accompanying condensed separate interim statements of income. The Company retrospectively applied the amendment and the related impact of the adoption is presented in note 3 (2) below.

3. Significant Accounting Policies, Continued

(2) Impact of change in accounting policy

13. Borrowings and Debentures, Continued

- (*4) As of September 30, 2012, exchangeable bonds are classified as financial liabilities at fair value through profit or loss. As of December 31, 2011, the exchangeable bonds were classified as current liabilities as the bond holders would be eligible to redeem their notes at 100% of the principal amount on April 7, 2012. However, as of September 30, 2012, the exchangeable bonds are reclassified as non-current liabilities as the bond holders have not exercised and have lost their early redemption right.
- (*5) On April 7, 2009, the Company issued exchangeable bonds with a maturity of five years in the principal amount of USD 332,528,000 for USD 326,397,463 with a coupon rate of 1.75%. As of September 30, 2012, fair value of the exchangeable bonds is USD 357,301,336. The exchange price could be adjusted and the exchange price is 197,760 with the exchange rate of 1,383.40 per USD 1. The Company may redeem the principal amount after 3 years from the issuance date if the market price exceeds 130% of the exchange price during a predetermined period. On the other hand, the bond holders may redeem their notes at 100% of the principal amount on April 7, 2012 (3 years from the issuance date). The exchange right may be exercised during the period from May 18, 2009 to March 24, 2014 and the number of common shares that can be exchanged as of September 30, 2012 is 2,326,149 shares.

Exchange of notes to common shares may be prohibited under the Telecommunications Law or other legal restrictions which restrains foreign governments, individuals and entities from owning more than 49% of the Company's voting stock. If such 49% ownership limitation is violated due to the exercise of exchange rights, the Company will pay the bond holder a cash settlement which will be determined at the average price of one day after a holder exercises its exchange right or the weighted average price for the following five or twenty business days. Unless either previously redeemed or exchanged, the notes are redeemable at 100% of the principal amount at maturity.

In accordance with resolution of the Board of Directors on February 9, 2012, and July 28, 2012, the exchange price has changed from 209,853 to 197,760 and the number of common shares that can be exchanged was changed from 2,192,102 shares to 2,326,149 shares due to the payment of periodic and interim dividends. During the nine-month period ended September 30, 2012, no exchange was made.

28. Financial Risk Management

(1) Financial risk management

The Company is exposed to credit risk, liquidity risk and market risk. Market risk is the risk related to the changes in market prices, such as foreign exchange rates, interest rates and equity prices. The Company implements a risk management system to monitor and manage these specific risks.

The Company's financial assets under financial risk management consist of cash and cash equivalents, financial instruments, available-for-sale financial assets, trade and other receivables. Financial liabilities consist of trade and other payables, borrowings, and debentures.

1) Market risk

(i) Currency risk

The Company is exposed to currency risk mainly on exchange fluctuations on recognized assets and liabilities. The Company manages currency risk by currency forward, etc. if needed to hedge currency risk on business transactions. Currency risk occurs on forecasted transaction and recognized assets and liabilities which are denominated in a currency other than the functional currency of the Company.

Monetary foreign currency assets and liabilities as of September 30, 2012 are as follows:

(In millions of won, thousands of U.S. dollars, thousands of Euros, thousands of Japanese Yen, thousands of other currencies)

	Assets		Liabilities	
	Foreign currencies	Korean won equivalent	Foreign currencies	Korean won equivalent
USD	15,152	16,950	1,107,882	1,239,278
EUR	111	160	2,338	3,376
JPY	178,494	2,572	12,499,057	180,126
SGD			64,567	58,918
CHF			298,035	355,571
Others			89	143
		19,682		1,837,412

In addition, the Company has entered into cross currency swaps to hedge against currency risk related to foreign currency borrowings and debentures. (Refer to Note 17)

As of September 30, 2012, effects on income (loss) before income tax as a result of change in exchange rate by 10% are as follows:

(In millions of won)	If increased by 10%	If decreased by 10%
USD	(39,303)	39,303
EUR	(321)	321
JPY	257	(257)
CHF		
Others	(14)	14
	(39,381)	39,381

28. Financial Risk Management, Continued

(ii) Equity price risk

The Company has equity securities which include listed and non-listed securities for its liquidity and operating purpose. As of September 30, 2012, available-for-sale equity instruments measured at fair value amounts to 759,877 million.

(iii) Interest rate risk

Since the Company's interest bearing assets are mostly fixed-interest bearing assets, as such, the Company's revenue and operating cash flow are not influenced by the changes in market interest rates. However, the Company still has interest rate risk arising from borrowings and debentures.

Accordingly, the Company performs various analysis of interest rate risk, which includes refinancing, renewal, alternative financing and hedging instrument option, to reduce interest rate risk and to optimize its financing.

The Company's interest rate risk arises from floating-rate borrowings and payables. As of September 30, 2012, floating-rate debentures and borrowings amount to 519,103 million and 111,860 million, respectively, and the Company has entered into interest rate swaps to hedge interest rate risk related to floating-rate borrowings and debentures (Refer to Note 17). If interest rate only increases (decreases) by 1%, income before income taxes for the nine-month period ended September 30, 2012 would not have been changed due to the interest expense from floating-rate borrowings and debentures.

2) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet his/her contractual obligations. To manage credit risk, the Company evaluates the credit worthiness of each customer or counterparty considering the party's financial information, its own trading records and other factors; based on such information, the Company establishes credit limits for each customer or counterparty.

For the nine-month period ended September 30, 2012, the Company has no trade and other receivables or loans which have indications of significant impairment loss or are overdue for a prolonged period. As a result, the Company believes that the possibility of default is remote. Also, the Company's credit risk can rise due to transactions with financial institutions related to its cash and cash equivalents, financial instruments and derivatives. To minimize such risk, the Company has a policy to deal with high credit worthy financial institutions. The amount of maximum exposure to credit risk of the Company is the carrying amount of financial assets as of September 30, 2012.

In addition, the aging of trade and other receivables that are overdue at the end of the reporting period but not impaired is stated in Note 5 and the analysis of financial assets that are individually determined to be impaired at the end of the reporting period is stated in note 24.

28. Financial Risk Management, Continued

3) Liquidity risk

The Company's approach to managing liquidity is to ensure that it will always maintain sufficient cash equivalents balance and have enough liquidity through various committed credit lines. The Company maintains flexibly enough liquidity under credit lines through active operating activities. The Company's current liabilities are greater than current assets by 413.3 billion and 518.9 billion as of September 30, 2012 and December 31, 2011, respectively. This was primarily caused by the acquisition of ownership interests in SK Hynix in February 2012. The Company plans to fund current liabilities with the cash flows generated by operations and through additional borrowings, as necessary.

Contractual maturities of financial liabilities as of September 30, 2012 are as follows:

(In millions of won)

	Carrying amount	Contractual cash flows	Less than 1 year	1 - 5 years	More than 5 years
Derivative financial liabilities	27,998	27,998		27,998	
Borrowings	1,902,331	2,134,915	101,836	2,033,079	
Debentures (*1)	3,910,044	4,948,278	325,751	2,968,667	1,653,860
Accounts payable - other and others (*2)	3,028,758	3,093,026	2,189,602	530,299	373,125
	8,869,131	10,204,217	2,617,189	5,560,043	2,026,985

The Company does not expect that the cash flows included in the maturity analysis could occur significantly earlier or at different amounts.

- (*1) Includes estimated interest to be paid and excludes discounts on bonds.
 (*2) Excludes discounts on accounts payable-other and others.

(2) Capital management

The Company manages its capital to ensure that it will be able to continue as a business while maximizing the return to shareholders through the optimization of its debt and equity balance. The overall strategy of the Company is the same as that of the Company as of and for the year ended December 31, 2011.

The Company monitors its debt-equity ratio as a capital management indicator. This ratio is calculated as total debt divided by total equity; the total debt and equity is extracted from the financial statements.

Debt-equity ratio as of September 30, 2012 and December 31, 2011 are as follows:

<i>(In millions of won)</i>	September 30, 2012	December 31, 2011
Liability	10,542,427	8,554,225
Equity	11,984,074	11,966,302
Debt-equity ratio	87.97%	71.49%

28. Financial Risk Management, Continued

(3) Fair value

Fair value of the financial instruments that are traded in an active market is measured based on the quoted market price at the end of the reporting date. Disclosed market price of the financial assets held by the Company is the bid price.

Fair value of the financial instruments that are not traded in an active market is determined using the valuation method. The Company uses the various valuation methods and makes assumptions that are mainly based on market conditions existing at the end of each reporting period. Fair value of financial instruments such as long-term liabilities is measured using the various methods including estimated discounted cash flow method.

Fair values of accounts receivable - trade, and accounts payable - trade are considered to be carrying amount less impairment and fair value of financial liabilities for the disclosure purpose is estimated by discounting contractual future cash flows using the current market interest rate used for the similar financial instruments by the Company.

Edgar Filing: SK TELECOM CO LTD - Form 6-K

Interest rates used by the Company for the fair value measurement as of September 30, 2012 are as follows:

	Interest rate
Derivative instruments	2.75% ~ 4.41%
Borrowings and Debentures	3.13%

2) Fair value hierarchy

The different levels have been defined as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs)

The table below analyzes financial instruments carried at fair value, by fair value hierarchy as of September 30, 2012.

(In millions of won)

	Level 1	Level 2	Level 3	Total
