2012 Performance Highlights

We continued during 2012 to execute upon our strategic plans by implementing initiatives and achieving objectives that the Board of Directors deems to be critical to the Company's long-term success, including:

Termination of the extraordinary supervisory oversight by the Office of the Comptroller of the Currency under the Memorandum of Understanding which had restricted the activities of PacTrust Bank since 2009;

Continuing to grow, both organically and through acquisitions, to achieve the necessary scale to compete effectively in the Company's markets;

Transitioning from a unitary savings and loan holding company to a multi-bank holding company;

Investing in the infrastructure and resources necessary to enable management to better execute the Company's strategic plans;

Augmenting the liquidity and capital strength of the Company on an enterprise-wide basis; and

Expanding the scope of services and products offered to customers to broaden the potential sources of profitable revenues. Execution of the Company's growth strategy during 2012 included completion of the acquisitions of both Beach Business Bank and Gateway Business Bank, and entering into agreements to acquire The Private Bank of California (PBOC) and The Palisades Group, LLC. With the closing of the pending acquisition of PBOC, the Company will have grown from a \$999 million in assets San Diego-based thrift at the beginning of 2012 to a \$2.5 billion in assets bank holding company providing commercial and residential lending and specialty finance services through 22 branches located across Southern California.

In addition, these acquisitions provide the foundation for one of the Company's key strategic initiatives in 2013: the launch of the Company's residential mortgage lending platform. At the beginning of 2012, the Company originated mortgage loans, primarily to be held in portfolio, almost entirely through wholesale channels utilizing loan brokers. As of December 31, 2012, the Company had 24 loan production offices in California, Arizona, Oregon and Washington and engaged in residential mortgage lending through wholesale, retail, correspondent and warehouse lending channels and engages in secondary marketing, loan pool purchases and sales, and mortgage servicing.

During 2012 the Company successfully issued \$82.7 million of 7.5% Senior Notes, providing the liquidity and capital resources necessary to both accomplish the Company's growth initiatives and ensure that its banking subsidiaries exceed the requirements for being well capitalized, a critical criterion for accomplishing the Company's overall strategic goals and business objectives. One of those objectives is to diversify the products and services offered to customers. As a result of these acquisitions and other initiatives, in addition to mortgage lending, the Company, through its banking subsidiaries, now provides commercial and industrial lending, Small Business Administration lending, equipment leasing and financing, cash and treasury management, remote deposit, ACH origination and employer/employee retirement planning, and its loan portfolios have substantially changed from more than 85% in residential mortgages at the beginning of 2012 to less than 50% at the end of 2012.

Finally, to better enable the Company to successfully execute its strategies and profitably operate its increasingly complex businesses, in 2012 the Company made numerous enhancements in external resources, including the engagement of KPMG LLP as the Company's independent auditors, and augmented the Company's senior management team, appointing:

Steven A. Sugarman as Chief Executive Officer of the Company;

Robert M. Franko as Chief Executive Officer of both Beach Business Bank and Pacific Trust Bank;

Ronald J. Nicolas, Jr. as Chief Financial Officer of the Company;

John C. Grosvenor as General Counsel of the Company;

Richard A. Herrin as Chief Administrative Officer of the Company;

Lonny D. Robinson as Chief Financial Officer of both Beach Business Bank and Pacific Trust Bank and Principal Accounting Officer of the Company; and

Craig S. Naselow as Treasurer and Chief Investment Officer of the Company.

Compensation Committee's Response to 2012 Say-on-Pay Vote

At the 2012 annual meeting of shareholders, the shareholders were presented an opportunity to vote on an advisory basis with respect to the executive compensation disclosed in the proxy statement for that meeting (commonly known as Say-on-Pay). Approximately 68% of votes cast voted in favor of the Say on Pay proposal.

Based upon the 2012 Say-on-Pay vote, and in light of the increasing complexity of the Company's businesses, the Board and Compensation Committee held meetings with members of the management team to discuss the nature and scope of the Company's executive compensation programs. The Committee and management met periodically to review and consider shareholder interests concerning the design and philosophy of the Company's compensation plans pertaining to executive officers and key personnel, including particularly incentive compensation arrangements. The Compensation Committee also reviewed the Company's performance and the compensation practices of similar financial institutions regarding employee and executive compensation.

Compensation Program Best Practices

As a result of these deliberations, and based upon the evolving nature of the Company's businesses, the Compensation Committee implemented certain new features, and retained certain pre-existing compensation strategies, that the Compensation Committee considered to be key elements for a program of compensation plans which align the interests of our executive officers and our long-term strategic direction with the interests of shareholders, and do not include features that could misalign their interests or impact the safety and soundness of the Company, such as the following:

Feature	Description
Hedging /Pledging Policy	The Company has a no-hedging policy and a no-pledging policy of Company shares.
Share Ownership Requirements	The Company recently implemented share ownership requirements for senior officers as well as the Board of Directors.
Repricing	We do not permit the repricing of underwater stock options or stock appreciation rights without the approval of shareholders.
CIC Payments	Our employment agreements do not include provisions which provide excess payments in the event of a change-in-control.
Supplemental Retirement Plans	We do not maintain any supplemental retirement arrangements with executives and employees.
Bonuses	We do not have any multi-year guaranteed bonuses as part of our employment agreements.

Philosophy and Objectives of the Compensation Program

Our compensation programs are designed to attract and retain key employees, motivate them to achieve optimal results and reward them for superior performance. Different programs are geared to short and longer-

term performance with the goal of increasing shareholder value over the long term. Executive compensation programs impact all employees by setting general levels of compensation and helping to create an environment of goals, rewards and expectations. Because we believe that the performance of every employee is important to our success, we are mindful of the effect of executive compensation and incentive programs on all of our employees.

We believe that the compensation of our executives should reflect their success as a management team, in addition to their individual contributions to that success, in attaining key operating objectives, such as growth in deposits and customer relationships, growth of operating earnings and earnings per share and, ultimately, in attaining an increased market price for our stock. We believe that the performance of the executives in managing the Company should be the basis for determining their overall compensation, taking into consideration pertinent economic conditions, interest rate trends, and the competitive market environment. We also believe that their compensation should not be based on the short-term performance of our stock, whether favorable or unfavorable, but rather that the price of our stock will, in the long-term, reflect our operating performance, and ultimately, the management of the Company by our executives. We seek to have the long-term performance of our stock reflected in executive compensation through our stock option, restricted stock grants and other equity incentive programs. Our approach to compensation management includes a review of all incentive programs to avoid imprudent risk-taking and to promote safety and soundness. In that regard, the Company intends to continuously review its compensation programs during 2013 to mirror the needs of its strategic goals and business objectives, as well as changes in its management structure, as it integrates the operations of Beach Business Bank and completes the acquisitions of PBOC and The Palisades Group, LLC.

Overview of Executive Compensation Program

Key elements of compensation for our executives include salary, an employee bonus incentive plan, equity incentive awards, 401(k) plan, and health, disability and life insurance benefits. Subject to the terms of their employment agreements (see Employment Agreements below), base salaries for our executive officers are generally reviewed, at least annually, at a meeting of the Compensation Committee. The Compensation Committee also considers executive officer performance and makes subjective recommendations for bonus payments and equity incentive awards to our executive officers based on a variety of factors, in its discretion.

These elements fit into our overall compensation objectives by helping to secure the future potential of our operations, facilitating our entry into new markets, providing proper regulatory compliance and helping to create a cohesive team.

Emphasis on Shareholder Alignment

Through the use of equity awards, such as restricted stock and stock option awards, the total compensation of each of our Named Executive Officer is highly dependent on performance and substantially aligned with shareholders interests. The Committee emphasizes individual and business performance outcomes designed to link actual compensation amounts with factors that contribute to shareowner value. Equity awards represent approximately 45% of potential compensation for our Chief Executive Officer, and more than 20% of potential compensation for the other Named Executive Officers.

Base salary is designed to be sufficiently competitive for recruitment and retention purposes and is expected to represent approximately 33% of potential compensation for our Chief Executive Officer, and approximately 50% of potential compensation for our other Named Executive Officers.

The following chart illustrates the basic pay mix for our Chief Executive Officer (excluding director fees paid prior to his employment as an officer and assuming 3-year vesting of equity awards).

The Compensation Committee, which is comprised of three independent members of the Company's Board of Directors (as discussed in greater detail under Item 13. Certain Relationships and Related Transactions, and Director Independence) revisited the Company's Compensation Committee charter in 2012 and recommended changes which were approved by the Board, including changes required to comply with recently finalized committee standards applicable to NASDAQ-listed companies such as us. The Committee is responsible for, among other things:

Reviewing goals and objectives of compensation plans and if appropriate, amending or recommending that the Board of Directors amend goals and objectives;

Reviewing compensation plans, and if appropriate, recommending to the Board of Directors the adoption of new incentive-compensation plans, equity-based plans, other compensation plans or amendments to existing plans;

Approving and reviewing the Chief Executive Officer's corporate goals and objectives and determining compensation levels;

Overseeing the evaluation of management personnel, and determining compensation levels for executive officers and other key members of management;

Reviewing the policies regarding tax deductibility of compensation for purposes of Section 162(m) of the Internal Revenue Code; and

Reviewing the Company's incentive compensation practices to determine whether they encourage excessive risk taking, and approving, or recommending to the Board of Directors for approval, changes to mitigate risk.

The Compensation Committee considers information from a variety of sources when assessing the competitiveness of the Company's current and future compensation levels. These sources include, but are not limited to, committee members, management, other members of the Board of Directors, publicly available compensation data regarding executive officers within the industry, the Company's understanding of compensation arrangements at other financial institutions with similar growth strategies, and advice from the Compensation Committee's consultants. Typically, the Chief Executive Officer makes compensation recommendations to the Compensation Committee with respect to the executive officers who report to him. Such executive officers are not present at the time of these deliberations. The Committee Chairman then makes compensation recommendations to the Compensation Committee with respect to the Chief Executive Officer, who does not attend that portion of the meeting. The Compensation Committee may accept or adjust such recommendations.

Our policy for allocating between long-term and short-term compensation is to ensure adequate base compensation to attract and retain personnel, while providing incentives with an appropriate level of risk to maximize long-term value for our company and our shareholders. Likewise, we provide cash compensation in the form of base salary to meet competitive norms and reward good performance on an annual basis in the form of

merit salary adjustments and bonus compensation to reward superior performance against specific short-term goals. We provide equity-based compensation as a long-term incentive and a means of directly aligning the interests of our executive officers with the interests of our shareholders. We believe that our overall compensation package, including benefits and equity-related awards, is competitive within the marketplace and consistent with the philosophy and objectives of our compensation program.

Role of Compensation Consultants

The Compensation Committee at times engages the services of an independent compensation consulting firm. The Compensation Committee retained the services of Pearl Meyer & Partners commencing in 2012 to assist the Committee with its review and approval of the new employment agreement with Mr. Sugarman, as well as to review market comparables for, and make recommendations regarding, remuneration of members of the Board of Directors, and to advise the Compensation Committee and the Board of Directors concerning the Company's compensation policies and programs going forward.

2012 Compensation Decisions

In December 2011, the Board of Directors adjusted the recommended level of annual incentive compensation for the Company's executive officers to reduce the amount of discretionary bonus compensation in order to reflect the fact that certain objectives for 2011 were not achieved within the time frame envisioned for their accomplishment, including particularly the termination of the 2009 Memorandum of Understanding for PacTrust Bank. Commencing in April 2012, the Compensation Committee revisited the earlier discretionary bonus decisions for the executive team once the remaining objectives for 2011 were accomplished, including the termination of the Memorandum of Understanding. In addition, among other matters, the Committee considered the results achieved by management in successfully completing the acquisitions and integrations of Gateway Business Bank and Beach Business Bank. Based upon the Committee's understanding of market levels of compensation for senior management at similar organizations, in September 2012, after considering these factors, the Committee determined to provide certain executive officers (including Messrs. Herrin, Liu and Domingo) and other employees with cash bonuses in the form of increases to their minimum base salaries under their employment agreements and grants of immediately vested shares of restricted stock. The Company entered into amended employment agreements with these officers to implement the adjusted base salary levels, but provided in the amendments that the amount of the increase in base salary would not apply for purposes of calculating severance payments except where termination of employment occurs within 12 months following a Change-in Control. In addition, in the case of Messrs. Herrin and Liu, the severance payout periods under their employment agreements were extended from 18 months to 24 months to be more consistent with the employment agreements with most of the other executive officers. See Employment Agreements. The adjustments made to base salaries, and the additional equity awards are outlined in greater detail below.

Base Salary

We seek to establish salary compensation for our executive officers based on our Company's operating performance relative to the value proposition for the Company, the compensation offered by competing employers, salaries at comparable companies and our achievement of overall Company objectives. Subject to an executive officer's minimum base salary as established by contract (see Employment Agreements), in setting base salaries, the Compensation Committee typically reviews the Chief Executive Officer's recommendations with respect to the other executive officers and discusses the relative qualifications, experience and responsibilities of the officers. The Compensation Committee also considers the salary information for executive officers of financial institutions that are comparable in size to First PacTrust. It is our policy to pay our Chief Executive Officer and other executive officers on a competitive basis that allows us to attract and retain talented managerial employees both at the senior executive level and below.

Each of the Named Executive Officers was hired pursuant to an employment agreement or subsequently signed an employment agreement that established each Named Executive Officer's minimum base salary. Each employment agreement was the result of negotiations between the Company and the Named Executive Officer.

Edgar Filing: FIRST PACTRUST BANCORP INC - Form 10-K/A

Salaries are typically reviewed and adjusted annually at the discretion of the Committee or the Board of Directors. During 2012, salaries were increased for certain of the Named Executive Officers. Subsequent to the departure of Mr. Mitchell and the appointment of Mr. Sugarman in September 2012, the Committee determined that it should enter into modified employment agreements with certain key executives, including Messrs. Franko, Herrin, Liu and Domingo. (Mr. Nicolas had not yet joined the Company). The terms of the modified agreements provided for an increase in each executive officer's base salary.

Executive	Title	Annual Rate of Base Salary	
		2011	2012
Steven A. Sugarman	Chief Executive Officer, First PacTrust Bancorp	N/A	\$ 600,000
Robert M. Franko	President, First PacTrust Bancorp; Chief Executive Officer, PacTrust Bank and Beach Business Bank	N/A	\$ 375,000
Ronald J. Nicolas Jr.	Chief Financial Officer	N/A	\$ 325,000
Richard A. Herrin	Chief Administrative Officer	\$ 250,000	\$ 320,000
Chang M. Liu	Chief Lending Officer	\$ 228,000	\$ 270,000
Gregory A. Mitchell	Former President & Chief Executive Officer	\$ 416,000	\$ 416,000
Marangal I. Domingo	Former Chief Financial Officer	\$ 275,000	\$ 325,000

The Compensation Committee generally takes into account the following factors when considering adjustments to executive officer salaries:

performance against corporate and individual objectives, relative to pertinent economic, interest rate and competitive environment factors;

difficulty of achieving desired results;

value of their unique skills and capabilities to support long-term performance of the Company;

performance of their general management responsibilities; and

contribution as a member of the executive management team and internal consistency.

Mr. Franko's 2012 salary was increased in September 2012 to \$375,000 in connection with the substantial additional responsibilities he assumed by being appointed as President and Chief Executive Officer of PacTrust Bank, in addition to his existing positions as President of the Company and President and Chief Executive Officer of Beach Business Bank. The salary increases for Messrs. Herrin, Liu and Domingo are explained above, under -2012 Compensation Decisions.

Annual Incentives

The employment contracts with our Named Executive Officers provide for additional or special compensation, such as incentive pay or bonuses, as the Board of Directors or Compensation Committee may from time to time determine. Messrs. Sugarman and Nicolas entered into employment agreements in 2012 that specify a target bonus of 50% of base salary and, in the case of Mr. Sugarman, the opportunity to receive compensation in excess of the target based on profitability of the Company's non-depository businesses. All other Named Executive Officers are eligible for bonuses but do not have a target bonus level as a percentage of their base salary defined in their employment agreements.

As discussed under -2012 Compensation Decisions, in September 2012 certain Named Executive Officers were given cash bonuses in the form of increases in base salary (reflected in the table above) and additional equity awards in the form of immediately vested shares of restricted stock, in recognition of the achievement in

2012 of certain strategic objectives that had not been accomplished during 2011, and the fact that incentive awards for 2011 had been correspondingly reduced, as well as the accomplishment of the successful acquisitions of Beach Business Bank and Gateway Business Bank, as follows:

Executive	Title	Grant Date Value of Equity Awards
Marangal I. Domingo	Former Chief Financial Officer	\$ 125,600
Richard A. Herrin	Chief Administrative Officer	\$ 125,600
Chang M. Liu	Chief Lending Officer	\$ 100,480

Following the end of 2012, the Committee commenced an evaluation of the performance compensation to be considered for the Chief Executive Officer and the other Named Executive Officers (other than Messrs. Mitchell and Domingo, each of whom was then no longer employed by the Company) based upon their performance during 2012. There was no specific weighting of business goals compared to an individual officer's performance, but instead the recommended bonus reflected a holistic view of the success of each executive in achieving objectives for their respective functional area and, consequently, the executive compensation awards paid for 2012 were above target levels in the case of Messrs. Sugarman and Nicolas. To encourage ongoing focus on long-term shareholder value and retention among select key employees, the Committee required that executive officers, except for Mr. Liu, receive a minimum of one-third of the bonus in the form of restricted stock. The shares of restricted stock vest over a minimum of three years, typically in equal annual installments. The remainder of the incentive award not paid in restricted stock was paid in cash. Since Mr. Liu's bonus was based upon loan production results, the Committee determined that Mr. Liu's entire incentive award would be paid in cash. The additional bonus amounts to certain Named Executive Officers were as follows:

Executive	Title	2012 Incentive	2012 Cash Component of the Annual Incentive
Steven A. Sugarman	Chief Executive Officer	\$ 225,000	\$ 150,750
Robert M. Franko	President, First PacTrust Bancorp; Chief Executive Officer, PacTrust Bank and Beach Business Bank	\$ 50,000	\$ 0
Ronald J. Nicolas Jr.	Chief Financial Officer	\$ 125,000	\$ 83,750
Richard A. Herrin	Chief Administrative Officer	\$ 100,000	\$ 83,500
Chang M. Liu	Chief Lending Officer	\$ 120,000	\$ 120,000

Long-Term Incentives

The Compensation Committee believes that a significant portion of Named Executive Officers' target compensation should generally be in the form of long-term incentives, which motivates leaders and key employees through the use of awards tied to the long-term performance of the Company. These awards are intended to reward performance over a multi-year period, align the interests of executives with those of shareholders, instill an ownership culture, enhance the personal stake of executive officers in the growth and success of the Company, and provide an incentive for continued service at the Company. Long-term incentive awards are currently granted under the 2011 Omnibus Incentive Plan.

The Company issues long-term incentives in three ways. First, at the discretion of the Board of Directors, the Company at times awards special inducement equity awards. These special inducement awards are negotiated upon hire or upon renegotiation of the employee's contract and are based on the Committee's understanding of the market levels of pay for the given position, the skills and experiences of the executive to be hired, and the level required to induce employment. The Committee determines for each executive the appropriate ratio of stock options/SARs and restricted stock to be issued upon hire to adequately motivate and align executive interests with the interests of shareholders.

In connection with Mr. Sugarman's appointment as co-Chief Executive Officer, Mr. Sugarman was awarded a cash-settled stock appreciation right with respect to 500,000 shares of common stock. The stock appreciation right vests in three annual installments beginning with the date of grant.

In connection with Mr. Nicolas' employment he was granted 25,000 restricted shares of common stock and 75,000 stock options. The restricted shares and stock options granted to Mr. Nicolas vest in five equal annual installments commencing upon the first anniversary of the effective date of his employment agreement.

In connection with Mr. Franko's appointment as President and Chief Executive Officer of PacTrust Bank, which added to his existing responsibilities as President of the Company and President and Chief Executive Officer of Beach Business Bank, Mr. Franko was granted 60,000 restricted shares. The restricted shares vest in five equal annual installments beginning with the date of grant.

Upon renegotiation of the employment terms for Messrs. Herrin, Liu and Domingo each received a restricted stock award of 10,000, 8,000 and 10,000 shares, respectively, which were fully vested at the date of grant.

Second, as previously outlined, the Committee believes that ongoing equity opportunities further align management's interests with the long-term interests of shareholders, encourages long-term safety and soundness of the Company, and encourages long-term retention of key employees. As a result, the Committee determined to issue a minimum of one-third of the 2012 bonus determined in 2013 in the form of restricted stock which vests over a minimum three year period to select executive officers. Individual members of management were allowed to request that a greater portion of their incentive compensation be paid in the form of restricted stock, or to vest over a longer period of time, and the Committee determined the appropriateness of the request by considering each officer's outstanding equity awards, the amount of vested equity, and other compensation elements provided by the Company.

Third, the Committee believes that equity awards align management's interests with the long-term interests of the Company's shareholders, instill an ownership culture, enhance the personal stake of executive officers in the growth and success of the Company, provide an incentive for continued service at the Company, and encourage retention of key employees. In determining whether to award long term incentives to executives, the Compensation Committee performs an annual review process which includes consideration of factors such as the Company's overall performance, duties and responsibilities assumed by the executive, the overall performance of the executive's area of responsibility, the executive's impact on strategic goals, prior levels of total compensation, the number and mix of each executive's outstanding equity-based awards, and the desired emphasis on retention and motivation. However, there is no specific weighting applied to any one factor in determining the level of equity-based awards or the mix between stock options, restricted stock, and other forms of equity awards. Instead, the process ultimately relies on a holistic and qualitative assessment of the facts and the exercise of the Compensation Committee's judgment. For 2012, the Committee determined that the outstanding inducement grants and the allocation of the bonus in the form of restricted stock provided sufficient alignment with shareholders that no additional grants were warranted.

Stock Ownership Guidelines

The Board of Directors recently adopted stock ownership guidelines for senior officers and non-employee directors of the Company. The guidelines require that our Chief Executive Officer own shares equal to at least 300% of his after-tax base salary and that the other Named Executive Officers own shares equal to at least 100% of their after-tax base salary. Each non-employee director is expected to maintain a minimum equity investment in common shares equal to at least 100% of their after-tax base annual retainer (exclusive of compensation paid for committee membership or chairmanship). Compliance with the guidelines is required to be achieved within a two-year period from their adoption.

Hedging/Pledging Policy

The Company considers it inappropriate for any director or officer to enter into speculative transactions in First PacTrust's securities. The Company's insider trading policy prohibits the purchase or sale of puts, calls,

options, or other derivative securities based on the Company's securities. This prohibition also includes hedging or monetization transactions, such as forward sale contracts, in which the stockholder continues to own the underlying security without all the risks or rewards of ownership. Finally, directors, officers, and other employees may not purchase the Company's securities on margin, or borrow against any account in which Company securities are held. The prohibitions do not apply to the exercise of stock options granted as part of a Company incentive plan.

401(k) Plan

We offer a qualified, tax exempt savings plan to our employees with a cash or deferred feature qualifying under Section 401(k) of the Code (the 401(k) Plan). All employees who have attained age 18 are eligible to make 401(k) contributions. Eligible employees are also eligible to be allocated matching and profit sharing contributions, if any, after they have attained age 18 and completed 12 months of continuous employment, during which they worked at least 1,000 hours.

During 2012, participants were permitted to make salary reduction contributions to the 401(k) Plan of up to 100% of their annual salary, up to a maximum of \$16,500. In addition, participants who have attained age 50 may defer an additional \$5,000 annually as a 401(k) catch-up contribution. All employees who participate in the 401(k) Plan received 100% matching funds for the first 4% of salary contributed by the employee during 2012. All 401(k) deferrals made by participants are before-tax contributions. In the event of retirement at age 65 or older, permanent disability or death, however, a participant will automatically become 100% vested in the value of all matching and profit sharing contributions and earnings thereon, regardless of the number of years of service with the Company.

Participants may invest amounts contributed by them, as well as employer matching and profit sharing contributions (to the extent they are fully vested), to their 401(k) Plan accounts in one or more investment options available under the 401(k) Plan. Changes in investment directions among the funds are permitted on a periodic basis pursuant to procedures established by the plan administrator. Each participant receives a quarterly statement which provides information regarding, among other things, the market value of his investments and contributions made to the 401(k) Plan on his behalf. Participants are permitted to borrow against their account balance in the 401(k) Plan.

Perquisites and Other Benefits

Our executives are entitled to few benefits that are not otherwise available to all of our employees. In this regard it should be noted that we do not provide pension arrangements, post-retirement health coverage, or similar benefits for our executives or employees other than as described in the severance agreements. Our health and insurance plans are the same for all employees. The Company currently offers employees their choice of two different health plans. Named Executive Officers are often required to drive between branches and offices located throughout the Southern California region. As a result, the Company provides each of the Named Executive Officers a company car or auto allowance due to the amount of driving required.

Equity Grant Policy

Executives currently receive long-term equity awards pursuant to the terms of the 2011 Omnibus Incentive Plan, which was approved by the Company's shareholders. The Board of Directors and, by delegation, the Compensation Committee, administers the 2011 Omnibus Incentive Plan and establishes the rules for all awards granted under the plan, including grant guidelines, vesting schedules, and other provisions. The Board of Directors or the Compensation Committee reviews these rules periodically and considers, among other things, the interests of our stockholders, market conditions, information provided by independent advisors, performance objectives, and recommendations made by the Chief Executive Officer.

The Board of Directors or the Compensation Committee reviews awards for all employees. For annual awards, the Compensation Committee reviews the recommendations of the Chief Executive Officer for executives and other employees, modifies the proposed grants in certain circumstances, and approves the awards effective as of the date of its approval.

The exercise price of stock option grants are set at 100% of the closing market price of a share of Company common stock on the date the Board of Directors or Compensation Committee approves the grants. The exercise price of new hire awards and relocation or retention grants is determined as set forth above, except that the exercise price is set on the date of hire or effective date of the underlying agreement providing for such grant rather than the date of the approval thereof.

Employment Agreements and Post-Termination Payments

As previously discussed, the Company has entered into employment agreements with each of the Named Executive Officers. The Compensation Committee determined that the compensation packages provided under these agreements was fair and reasonable on the basis of its assessment of comparable compensation opportunities available to the individuals, including the compensation arrangements of the Named Executive Officer at his prior place of employment, in the case of new hires. The specifics of these arrangements are described in detail below under Employment Agreements.

Payments Due Upon Termination or a Change in Control

Under the terms of our equity-based compensation plans and their respective employment agreements, the Chief Executive Officer and the other Named Executive Officers are entitled to severance benefits upon termination of their employment under specified circumstances. The specific terms of these arrangements, as well as an estimate of the compensation that would have been payable had they been triggered as of fiscal year-end, are described in detail below under Employment Agreements and Potential Payments upon Termination or Change in Control.

In the case of each employment agreement, the terms of these arrangements were set through the course of arms-length negotiations with the Named Executive Officer. As part of these negotiations, the Compensation Committee analyzed the terms of arrangements for comparable executives employed by companies in the banking industry. At the time of entering into these arrangements, the Compensation Committee considered the aggregate potential obligations of the Company in the context of the desirability of hiring or retaining the individual. The Compensation Committee believes that these arrangements can play a significant role in attracting and retaining key executive officers by providing security to the executive and leadership continuity to the Company.

The 2011 Omnibus Incentive Plan currently provides for the accelerated vesting of equity awards in the event of a change in control. In addition, certain employment agreements as well as certain forms of equity agreements provide for accelerated vesting of equity-based awards upon either a change in control or certain terminations of employment.

The Compensation Committee believes that for senior executives, including the Named Executive Officers, accelerated vesting of equity-based awards in the event of a change in control is generally appropriate because in some change in control situations equity of the target company is cancelled making immediate acceleration necessary in order to preserve the value of the award. In addition, the Company relies primarily on long-term incentive awards to provide the Named Executive Officers with the opportunity to accumulate substantial resources to fund their retirement income, and the Compensation Committee believes that a change in control event is an appropriate liquidation point for awards designed for such purpose.

Recoupment Policy

Under Section 304 of the Sarbanes Oxley Act, if the Company is required to restate its financial statements due to material noncompliance with any financial reporting requirements as a result of misconduct, the Chief Executive Officer and Chief Financial Officer may be required to reimburse the Company for (i) any bonus or other incentive-based or equity-based compensation received during the 12 months following the first public issuance of the non-complying document, and (ii) any profits realized from the sale of securities of the Company during that 12-month period. The Company plans to amend the recoupment policy to comply with the provisions

of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 once final rules have been implemented.

Impact of Tax and Accounting

As a general matter, the Compensation Committee takes into account the various tax and accounting implications of the compensation vehicles employed by the Company.

Accounting Impact

When determining amounts of long-term incentive grants to executives and employees, the Compensation Committee examines the accounting cost associated with the grants. Under FASB ASC Topic 718, grants of equity-based awards result in an accounting charge for the Company equal to the grant date fair value of those securities.

Tax Impact

Section 162(m) of the Internal Revenue Code does not permit publicly traded companies to take income tax deductions for compensation paid to the Chief Executive Officer and the other Named Executive Officers (other than the Chief Financial Officer) to the extent that compensation exceeds \$1.0 million per officer in any taxable year and does not otherwise qualify as performance-based compensation. The 2011 Omnibus Incentive Plan is structured so that the compensation deemed paid to an executive officer in connection with the exercise of stock options should qualify as performance-based compensation not subject to the \$1.0 million limitation. Awards of restricted stock or RSUs made under the 2011 Omnibus Incentive Plan may or may not qualify as performance-based compensation. The 2012 incentive awards paid out in restricted stock and cash to the Named Executive Officers during fiscal year 2012 did not qualify as performance-based compensation under Section 162(m) of the Code and therefore, if any of the Named Executive Officers' total compensation exceeds the \$1.0 million limit, the incentive awards issued to such officer may not be deductible for income tax purposes.

The Compensation Committee will continue to consider steps that might be in the Company's best interests to comply with Section 162(m) of the Code. However, in establishing the cash and equity incentive compensation programs for the executive officers, the Compensation Committee believes that the potential deductibility of the compensation payable under those programs should be only one of a number of relevant factors taken into consideration, and not the sole or primary factor. The Compensation Committee believes that cash and equity incentive compensation must be maintained at the requisite level to attract and retain the executive officers essential to the Company's financial success, even if all or part of that compensation may not be deductible by reason of the limitations of Section 162(m) of the Code.

Section 280G of the Internal Revenue Code provides that severance payments triggered by a change in control, which equal or exceed three times the individual's base amount are deemed to be excess parachute payments. Individuals receiving parachute payments in excess of three times their base amount are subject to a 20% excise tax on the amount of the excess payments. If excess parachute payments are made, the Company and the Bank would not be entitled to deduct the amount of the excess payments. Each employment agreement provides that severance and other payments that are subject to a change in control will be reduced as much as necessary to ensure that no amounts payable to the executive will be considered excess parachute payments.

Compensation Committee Report

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis contained above with management and, based on such review and discussion, the Compensation Committee recommended to the Company's Board of Directors that the Compensation Discussion and Analysis be included in this Annual Report on Form 10-K.

Potential Payments upon Termination of Employment or Change in Control

The following tables show the approximate value of the benefits and payments that the Named Executive Officers other than Messrs. Mitchell and Domingo (whose employment with the Company terminated on September 21, 2012 and November 13, 2012, respectively) would have been entitled to receive as of December 31, 2012 had their employment been terminated or had a change in control occurred on that date. The table excludes (i) amounts accrued through December 31, 2012 that would be paid in the normal course of continued employment, such as accrued but unpaid salary and bonus amounts, (ii) vested account balances under the Company's 401(k) plan, and (iii) already vested equity awards. Payments to Mr. Mitchell in connection with the termination of his employment are described under Separation and Settlement Agreement with Mr. Mitchell. Mr. Domingo did not receive any payments in connection with the termination of his employment, though Mr. Domingo continues to receive compensation as a consultant to the Company, as described under Consulting Agreement with Mr. Domingo.

Director Sugarman ceased receiving compensation from the Company for his Board service upon his appointment as co-Chief Executive Officer of the Company effective August 21, 2012. Director Sugarman was appointed as Chief Executive Officer of the Company effective September 21, 2012. Commencing in 2013, Mr. Seibold ceased receiving compensation for his Board service once the Company entered into a consulting arrangement with his company on December 27, 2012. See Item 13. Certain Relationships and Related Transactions, and Director Independence Certain Relationships and Related Transactions-Management Services Agreement with CS Financial, Inc.

The directors of the Company who currently also serve as directors of PacTrustBank are Messrs. Majors (Chairman of PacTrust Bank's Board), Chrisman, Seibold and Sugarman. The compensation paid to directors of PacTrust Bank (other than Messrs. Sugarman and Seibold, who ceased receiving any compensation for their service as a director of PacTrust Bank effective August 21, 2012 and December 27, 2012, respectively) consisted primarily of the following components:

for service as a PacTrust Bank Board member, compensation in the form of an annual retainer in the amount of \$40,000, payable in cash or, at the director's election, in the form of equity-based awards granted under the Omnibus Plan;

for the Chairman of PacTrust Bank's Board (currently Mr. Majors), additional compensation in the form of an annual retainer in the amount of \$20,000, payable in cash or, at the Chairman's election, in the form of equity-based awards granted under the Omnibus Plan; and

additional compensation in the amount of \$500 per meeting attended is paid for service on a committee (with service on the Loan Committee paid in the amount of \$500 per month); and

directors are also entitled to reimbursement for travel expenses, up to a maximum of \$1,000 per meeting.

Recent Changes to Director Compensation Commencing in 2013. In connection with the Compensation Committee's review of the Company's executive compensation program, the Committee also recommended changes to the Company's director compensation program to reduce director compensation in light of the enhancements to professional resources and the augmentation of management personnel which occurred during

the fourth quarter of 2012. Based upon those recommendations, the Board adopted several changes to the compensation program for directors, effective as of April 24, 2013, as follows:

the base annual retainer paid to members for service on the Board was increased to \$150,000 from \$120,000;

compensation in addition to the base annual retainer for service on the Audit Committee or Strategic Planning Committee of the Board was reduced to \$1,000 per meeting attended (instead of the annual retainer previously paid for service on those committees);

committee chairmen each will become entitled to receive compensation in addition to the base annual retainer in the amount of \$1,000 per meeting attended;

directors serving on the Company's Board will no longer receive additional compensation for their separate service on the Board of Directors of either PacTrust Bank or Beach Business Bank;

members of the Company's Audit Committee will no longer receive additional compensation for service on the Audit Committees of the Boards of Directors of either PacTrust Bank or Beach Business Bank; and

compensation for service as a director will be paid in the form of equity awards (with the option to receive equity awards net of taxes) in lieu of the previous elective system in which directors could choose to receive either cash or equity awards in payment of their compensation.

Pursuant to the terms of its charter, the Audit Committee of the Company's Board of Directors is responsible for the appointment, compensation, retention and oversight of the work of the independent registered public accounting firm. The Audit Committee must pre-approve the engagement letters and the fees to be paid to the independent registered public accounting firm for all audit and permissible non-audit services to be provided by the independent registered public accounting firm and consider the possible effect that any non-audit services could have on the independence of the auditors. The Audit Committee may establish pre-approval policies and procedures, as permitted by applicable law and SEC regulations and consistent with its charter for the engagement of the independent registered public accounting firm to render permissible non-audit services to the Corporation, provided that any pre-approvals delegated to one or more members of the committee are reported to the committee at its next scheduled meeting. At this time, the Audit Committee has not adopted any pre-approval policies.

The Audit Committee has authorized the independent registered public accounting firm to provide to the Company tax services and certain services in connection with the administration of our benefit plans. In authorizing those services, the Committee determined that providing those services were compatible with maintaining the independence of the independent registered public accounting firm.
