specified in the Preliminary Prospectus Supplement) the closing sale price (as defined in the Preliminary Prospectus Supplement) of the Issuer's common stock equals or exceeds 150% of the conversion price then in effect for at least 20 trading days (as defined in the Preliminary Prospectus Supplement) (whether or not consecutive) in a period of 30 consecutive trading days, including the last trading day of such 30 trading day period, ending on, and including, the trading day immediately preceding the business day on which the Issuer issues a press release announcing the mandatory conversion of the convertible preferred stock, in which case each holder will receive, for each share of convertible preferred stock being converted, a number of shares of the Issuer's common stock equal to the conversion rate.

If the Issuer undergoes a fundamental change (as defined in the Preliminary Prospectus Supplement) and a holder converts its convertible preferred stock at any time during the period beginning at the open of business on the trading day immediately following the effective date of such fundamental change and ending at the close of business on the 30th trading day immediately following such effective date, the holder will receive, for each share of convertible preferred stock surrendered for conversion, the greater of:

The exact stock price and effective date may not be set forth on the table, in which case:

if the stock price is between two stock prices on the table or the effective date is between two effective dates on the table, the number of additional shares will be determined by a straight-line interpolation between the number of additional shares set forth for the higher and lower stock prices or the earlier and later effective dates, as applicable, based on a 365-day year;

Edgar Filing: HALCON RESOURCES CORP - Form FWP

if the stock price is in excess of \$25.00 per share (subject to adjustment in the same manner as the stock prices), no additional shares will be added to the conversion rate; and
