**PEGASYSTEMS INC.**

**NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**1. ACCOUNTING POLICIES**

***Basis of Presentation***

Pegasystems Inc. (together with its subsidiaries, the Company ) has prepared the accompanying unaudited condensed consolidated financial statements pursuant to the rules and regulations of the U.S. Securities and Exchange Commission ( SEC ) regarding interim financial reporting. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America ( U.S. ) for complete financial statements and should be read in conjunction with the Company s audited financial statements included in the Annual Report on Form 10-K for the year ended December 31, 2013.

In the opinion of management, the Company has prepared the accompanying unaudited condensed consolidated financial statements on the same basis as its audited financial statements, and these financial statements include all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of the results of the interim periods presented. The operating results for the interim periods presented are not necessarily indicative of the results expected for the full year 2014.

During the first quarter of 2014, the Company recorded \$0.6 million in adjustments to the purchase price allocation of its acquisition of Antenna Software, Inc. and its subsidiaries ( Antenna ) on October 9, 2013. As required by applicable business combination accounting rules, these adjustments were applied retrospectively. Therefore, accounts receivable, other current assets, goodwill, accounts payable, and accrued expenses have been revised as of December 31, 2013 to reflect these adjustments. These revisions did not have any impact on the Company s previously reported results of operations or cash flows. See Note 6 Acquisition and Note 7 Goodwill and Other Intangible Assets for further discussion of these adjustments.

On March 6, 2014, the Company s Board of Directors approved a two-for-one (2:1) stock split of the Company s common stock. On April 1, 2014, each stockholder of record at the close of business on March 20, 2014 (the Record Date ) received one additional share of common stock, par value \$.01, for each share of common stock held on the Record Date. All shares of common stock and per share amounts in the Company s unaudited condensed consolidated financial statements and in the accompanying notes for all periods presented have been restated to reflect the stock split, except for the number of authorized shares of common stock. At the Company s 2014 Annual Meeting of Stockholders, which will be held on May 20, 2014, the Company is requesting stockholder approval to amend the Company s Restated Articles of Organization to increase the number of authorized shares of common stock from 100,000,000 to 200,000,000.

**Table of Contents****2. MARKETABLE SECURITIES**

(in thousands)	March 31, 2014			Fair Value
	Amortized Cost	Unrealized Gains	Unrealized Losses	
Municipal bonds	\$ 36,586	117		\$ 36,703
Corporate bonds	37,219	43	(29)	37,233
Certificates of deposit	2,697	2	(1)	2,698
	\$ 76,502	162	(30)	\$ 76,634

(in thousands)	December 31, 2013			Fair Value
	Amortized Cost	Unrealized Gains	Unrealized Losses	
Municipal bonds	\$ 41,545	75	(20)	\$ 41,600
Corporate bonds	31,868	52	(4)	31,916
Certificates of deposit	2,948	1	(4)	2,945
	\$ 76,361	128	(28)	\$ 76,461

The Company considers debt securities with maturities of three months or less from the purchase date to be cash equivalents. Interest is recorded when earned. All of the Company's investments are classified as available-for-sale and are carried at fair value with unrealized gains and losses recorded as a component of accumulated other comprehensive income, net of related income taxes.

As of March 31, 2014, remaining maturities of marketable debt securities ranged from April 2014 to July 2016, with a weighted-average remaining maturity of approximately 13 months.

**Table of Contents****3. DERIVATIVE INSTRUMENTS**

The Company uses foreign currency forward contracts ( forward contracts ) to manage its exposure to changes in foreign currency denominated accounts receivable, intercompany payables and cash primarily held by the U.S. operating company. The Company has been primarily exposed to the fluctuation in the British pound and Euro relative to the U.S. dollar. More recently, the Company has experienced increased levels of exposure to the Australian dollar and Indian rupee, for which it began to use forward contracts in the third quarter of 2013.

The forward contracts utilized by the Company are not designated as hedging instruments and as a result, the Company records the fair value of these contracts at the end of each reporting period in its consolidated balance sheet as other current assets for unrealized gains and accrued expenses for unrealized losses, with any fluctuations in the value of these contracts recognized in other (expense) income, net, in its consolidated statement of operations. These forward contracts have 90 day terms or less.

As of March 31, 2014 and December 31, 2013, the Company did not have any forward contracts outstanding.

During the first three months of 2014 and 2013, the Company entered into forward contracts with notional values as follows:

	<b>Notional Amount Three Months Ended</b>			
	<b>March 31,</b>			
<b>Foreign currency (in thousands)</b>	<b>2014</b>		<b>2013</b>	
Euro		21,900		16,000
British pound	£	26,500	£	19,000
Australian dollar	A\$	12,900	A\$	
Indian rupee	Rs	204,000	Rs	

During the first three months of 2014 and 2013, the total change in the fair value of the Company's forward contracts recorded in other expense, net, was as follows:

	<b>Change in Fair Value in USD Three Months Ended</b>			
	<b>March 31,</b>			
<b>(in thousands)</b>	<b>2014</b>		<b>2013</b>	
(Loss) gain included in other (expense) income, net	\$	(532)	\$	837

**Table of Contents****4. FAIR VALUE MEASUREMENTS***Assets Measured at Fair Value on a Recurring Basis*

Fair value is an exit price, representing the amount that would be received from the sale of an asset or paid to transfer a liability in an orderly transaction between market participants based on assumptions that market participants would use in pricing an asset or liability. As a basis for classifying the fair value measurements, a three-tier fair value hierarchy, which classifies the fair value measurements based on the inputs used in measuring fair value, was established as follows: (Level 1) observable inputs such as quoted prices in active markets for identical assets or liabilities; (Level 2) significant other observable inputs that are observable either directly or indirectly; and (Level 3) significant unobservable inputs in which there is little or no market data, which requires the Company to develop its own assumptions. This hierarchy requires the Company to use observable market data, when available, and to minimize the use of unobservable inputs when determining fair value. On a recurring basis, the Company records its marketable securities at fair value.

The Company's investments are all classified within Level 1 and Level 2 of the fair value hierarchy. The Company's investments classified within Level 1 of the fair value hierarchy are valued using quoted market prices. The Company's investments classified within Level 2 of the fair value hierarchy are valued based on matrix pricing compiled by third party pricing vendors, using observable market inputs such as interest rates, yield curves, and credit risk.

The fair value hierarchy of the Company's cash equivalents and marketable securities at fair value is as follows:

(in thousands)	March 31, 2014	Fair Value Measurements at Reporting Date Using	
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)
Money market funds	\$ 2,099	\$ 2,099	\$
Marketable securities:			
Municipal bonds	\$ 36,703	\$ 13,084	\$ 23,619
Corporate bonds	37,233	37,233	
Certificates of deposit	2,698		2,698
Total marketable securities	\$ 76,634	\$ 50,317	\$ 26,317

(in thousands)	Fair Value Measurements at Reporting Date Using		
	December 31, 2013	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)
Money market funds	\$ 2,232	\$ 2,232	\$
Marketable securities:			
Municipal bonds	\$ 41,600	\$ 10,569	\$ 31,031
Corporate bonds	31,916	31,916	
Certificates of deposit	\$ 2,945	\$	\$ 2,945
Total marketable securities	\$ 76,461	\$ 42,485	\$ 33,976

Assets Measured at Fair Value on a Nonrecurring Basis

Assets recorded at fair value on a nonrecurring basis, such as property and equipment, and intangible assets, are recognized at fair value when they are impaired. During the first three months of 2014 and 2013, the Company did not recognize any impairments on its assets measured at fair value on a nonrecurring basis.

**Table of Contents****5. TRADE ACCOUNTS RECEIVABLE, NET OF ALLOWANCE**

<b>(in thousands)</b>	<b>March 31, 2014</b>	<b>December 31, 2013</b>
Trade accounts receivable	\$ 80,084	\$ 129,007
Unbilled trade accounts receivable	30,329	38,618
<b>Total accounts receivable</b>	<b>110,413</b>	<b>167,625</b>
Allowance for sales credit memos	(1,762)	(1,997)
	<b>\$ 108,651</b>	<b>\$ 165,628</b>

Unbilled trade accounts receivable relate to services earned under time and material arrangements, and maintenance and license arrangements that had not been invoiced as of March 31, 2014 and December 31, 2013, respectively.

**6. ACQUISITION**

On October 9, 2013, the Company acquired Antenna, a leading provider of mobile application development platforms. The Company acquired all of the outstanding capital stock of Antenna in a cash merger for \$27.1 million, including the final working capital adjustment to the purchase price, which was paid in the first quarter of 2014. The total purchase price of \$27.1 million included \$4.2 million, which was deposited in escrow to secure the selling stockholders' indemnification obligations to the Company under the merger agreement that may be due to the former shareholders of Antenna over certain periods through April 2015 less any amounts presented and approved for payment against the escrow. During the first quarter of 2014, the Company incurred and recorded direct and incremental expenses associated with the transaction of \$0.2 million that were primarily professional fees.

The Company believes the acquisition will offer its clients faster time-to-market and increased flexibility in end-to-end mobile application development, powerful device management and cloud-based mobile Backend-as-a-Service.

The operations of Antenna are included in the Company's operating results from the date of acquisition. The amount of revenue and earnings of Antenna included in the Company's unaudited condensed consolidated statement of operations during the first three months of 2014 were approximately \$4.7 million and a net loss of approximately \$2.2 million, respectively. Due to the rapid integration of the products, sales force, and operations of Antenna, other than the maintenance and hosting revenue attributable to the recognition of the fair value of acquired deferred maintenance and hosting revenue, it may not be feasible for the Company to identify revenue from new arrangements attributable to Antenna.

The Company is in the process of investigating the facts and circumstances existing as of the acquisition date in order to finalize the allocation of the purchase price to the fair value of assets acquired and liabilities assumed and establish the related tax basis. As of March 31, 2014, the Company recorded a \$0.6 million purchase price adjustment against goodwill related to the final working capital adjustment, which reduced the merger consideration. This purchase price

adjustment is also reflected retrospectively as of December 31, 2013 in the accompanying unaudited condensed consolidated balance sheet.

**Table of Contents**

As of March 31, 2014, as a result of the preliminary purchase price allocation, the Company recognized \$16.4 million of goodwill, which is primarily due to the expected synergies of the combined entities and the workforce in place. The goodwill created by the transaction is nondeductible for tax purposes. The Company recorded \$36.7 million of deferred tax assets, a \$24.2 million valuation allowance related to the Company's preliminary determination it will not be able to utilize all of the acquired Antenna federal and foreign NOLs due to various limitations and restrictions, and a \$6.9 million deferred tax liability associated with the acquired intangibles, for a net deferred tax asset of \$5.6 million. A summary of the preliminary purchase price allocation for the acquisition of Antenna is as follows:

**(in thousands)**

<b>Total purchase consideration:</b>	
Cash	\$ 27,141
<b>Allocation of the purchase consideration:</b>	
Cash	\$ 783
Accounts receivable, net of allowance	4,170
Other assets	3,978
Property and equipment	655
Deferred tax assets, net	5,589
Identifiable intangible assets	10,355
Goodwill	16,418
Accounts payable	(1,403)
Accrued liabilities	(9,026)
Deferred revenue	(4,378)
Net assets acquired	\$ 27,141

The valuation of the assumed deferred revenue was based on the Company's contractual commitment to provide post-contract customer support to Antenna clients and future contractual performance obligations under existing hosting arrangements. The fair value of this assumed liability was based on the estimated cost plus a reasonable margin to fulfill these service obligations. The majority of the deferred revenue is expected to be recognized in the 12 months following the acquisition.

The valuation of the acquired intangible assets is inherently subjective and relies on significant unobservable inputs. The Company used an income approach to value the acquired customer related, technology and trade name intangible assets. The non-compete assets were valued using the with-and-without method, a form of the income approach which considers the cash flow differentials under multiple scenarios with or without key executives. The valuation for each of these intangible assets was based on estimated projections of expected cash flows to be generated by the assets, discounted to the present value at discount rates commensurate with perceived risk. The valuation assumptions take into consideration the Company's estimates of contract renewal, technology attrition and revenue

growth projections.

The estimated fair values for specifically identifiable intangible assets acquired, by major asset class, are as follows:

<b>(in thousands)</b>		<b>Weighted-average amortization period</b>
		<b>(in years)</b>
Customer related intangible assets	\$ 4,279	4
Technology	3,656	3
Non-compete	1,342	1
Trade name	1,078	3
	\$ 10,355	3.2

**Table of Contents*****Pro forma Information***

The following pro forma financial information presents the combined results of operations of the Company and Antenna as if the acquisition had occurred on January 1, 2012 after giving effect to certain pro forma adjustments. The pro forma adjustments reflected herein include only those adjustments that are directly attributable to the Antenna acquisition, factually supportable, and expected to have a continuing impact on the Company. These pro forma adjustments include a net increase in amortization expense to eliminate historical amortization of Antenna intangible assets and to record amortization expense for the \$10.4 million of acquired identifiable intangibles, a decrease in interest income as a result of the cash paid for the acquisition, and a decrease in interest expense as a result of the repayment of all Antenna outstanding debt in connection with the acquisition. The pro forma financial information does not reflect any adjustments for anticipated synergies resulting from the acquisition and is not necessarily indicative of the operating results that would have actually occurred had the transaction been consummated on January 1, 2012.

<b>(in thousands, except per share amounts)</b>	<b>Pro Forma Three Months Ended March 31, 2013</b>

**Table of Contents****10. ACCRUED RESTRUCTURING COSTS**

During the fourth quarter of 2013, in connection with the Company's evaluation of its combined facilities with Antenna, the Company approved a plan to eliminate space within one facility. The Company ceased use of this space during the fourth quarter of 2013 and recognized \$1.7 million of restructuring expenses, representing future lease payments and demising costs, net of estimated sublease income for this space. The lease expires in 2021.

A summary of the restructuring activity is as follows:

**(in thousands)**

Balance as of December 31, 2013	\$	1,591
---------------------------------	----	-------

## Restructuring costs

Cash payments		(50)
---------------	--	------

Balance as of March 31, 2014	\$	1,541
------------------------------	----	-------

<b>(in thousands)</b>	<b>As of March 31, 2014</b>	<b>As of December 31, 2013</b>
Reported as:		
Accrued expenses	\$ 404	\$ 371
Other long-term liabilities	1,137	1,220
	\$ 1,541	\$ 1,591

**11. STOCK-BASED COMPENSATION**

For the first three months of 2014 and 2013, stock-based compensation expense was reflected in the Company's unaudited condensed consolidated statements of operations as follows:

<b>(in thousands)</b>	<b>Three Months Ended March 31,</b>	
	<b>2014</b>	<b>2013</b>
Cost of services	\$ 1,011	\$ 1,173
Operating expenses	2,284	2,259
Total stock-based compensation before tax	\$ 3,295	\$ 3,432

Income tax benefit (991) (1,103)

On April 1, 2014, the Company effected a two-for-one (2:1) stock split of the Company's common stock. All shares of common stock and per share amounts in the Company's unaudited condensed consolidated financial statements and in the accompanying notes for all prior periods presented have been restated to reflect the stock split, except for the number of authorized shares of common stock. See Note 1 Accounting Policies for further discussion.

During the first three months of 2014, the Company issued approximately 192,000 shares to its employees under the Company's share-based compensation plans.

During the first three months of 2014, the Company granted approximately 885,000 restricted stock units (RSUs) and 908,000 non-qualified stock options to its employees with total fair values of approximately \$17.7 million and \$7.1 million, respectively. Approximately 100,000 RSUs were issued in connection with the election by employees to receive 50% of their 2014 target incentive compensation under the Company's Corporate Incentive Compensation Plan (the CICIP) in the form of RSUs instead of cash. Stock-based compensation of approximately \$2.0 million associated with this RSU grant will be recognized over a one-year period beginning on the grant date.

**Table of Contents**

As of March 31, 2014, the Company had approximately \$27.6 million of unrecognized stock-based compensation expense, net of estimated forfeitures, related to all unvested RSUs and unvested stock options that is expected to be recognized over a weighted-average period of 2.3 years.

**12. EARNINGS PER SHARE**

Basic earnings per share is computed using the weighted-average number of common shares outstanding during the applicable period. Diluted earnings per share is computed using the weighted-average number of common shares outstanding during the applicable period, plus the dilutive effect of outstanding options, RSUs, and warrants, using the treasury stock method and the average market price of the Company's common stock during the applicable period. Certain shares related to some of the Company's outstanding stock options and RSUs were excluded from the computation of diluted earnings per share because they were antidilutive in the periods presented, but could be dilutive in the future.

<i>(in thousands, except per share amounts)</i>	<b>Three Months Ended</b>	
	<b>March 31,</b>	
	<b>2014</b>	<b>2013</b>
<b>Basic (1)</b>		
Net income	\$ 9,765	\$ 9,069
Weighted-average common shares outstanding	76,298	75,894
Earnings (loss) per share, basic	\$ 0.13	\$ 0.12
<b>Diluted (1)</b>		
Net income	\$ 9,765	\$ 9,069
Weighted-average common shares outstanding, basic	76,298	75,894
Weighted-average effect of dilutive securities:		
Stock options	1,926	1,308
RSUs	437	374
Effect of assumed exercise of stock options, warrants and RSUs	2,363	1,682
Weighted-average common shares outstanding, diluted	78,661	77,576
Earnings (loss) per share, diluted	\$ 0.12	\$ 0.12
Outstanding options and RSUs excluded as impact would be antidilutive	57	592

(1) The number of common shares and per share amounts have been retroactively restated for all prior periods presented to reflect the Company's two-for-one common stock split effected in the form of a common stock dividend distributed on April 1, 2014

**Table of Contents****13. GEOGRAPHIC INFORMATION AND MAJOR CLIENTS**

Operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker ( CODM ) in deciding how to allocate resources and in assessing performance.

The Company develops and licenses its software solutions and provides consulting services, maintenance, and training related to its software. The Company derives substantially all of its revenue from the sale and support of one group of similar products and services software that provides business process solutions in the enterprise applications market. To assess performance, the Company s CODM reviews financial information for two operating segments, which the Company has determined can be aggregated and represent one reportable segment business process solutions.

The Company s international revenue is from sales to clients based outside of the U.S. The Company derived its operating revenue from the following geographic areas:

<i>(Dollars in thousands)</i>	<b>Three Months Ended</b>			
	<b>March 31,</b>		<b>March 31,</b>	
	<b>2014</b>		<b>2013</b>

**Table of Contents****Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations****Forward-Looking Statements**

This Quarterly Report on Form 10-Q contains or incorporates forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements include, but are not limited to, statements about our future financial performance and business plans, the adequacy of our liquidity and capital resources, the continued payment of quarterly dividends by the Company, and the timing of recognizing revenue under existing term license agreements. These forward-looking statements are based on current expectations, estimates, forecasts and projections about the industry and markets in which we operate and management's beliefs and assumptions. In addition, other written or oral statements that constitute forward-looking statements may be made by us or on our behalf. Words such as expect, anticipate, intend, plan, believe, could, estimate, may, target, project, or variations of similar expressions are intended to identify such forward-looking statements. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions that are difficult to predict. Important factors that could cause actual future activities and results to differ include, among others, variation in demand for our products and services and the difficulty in predicting the completion of product acceptance and other factors affecting the timing of license revenue recognition, the ongoing uncertainty and volatility in the global financial markets, the ongoing consolidation in the financial services and healthcare markets, reliance on third party relationships, the potential loss of vendor specific objective evidence for our consulting services, and management of the Company's growth. These risks are described more completely in Item 1A of Part I of our Annual Report on Form 10-K for the year ended December 31, 2013. We do not intend to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise.

**Business overview**

We develop, market, license, and support Better Business Software® solutions that help clients improve their business results by giving them the power to engage customers, simplify their operations, and adapt to change. Our unified software platform enables our clients to build, deploy, and change enterprise applications easily and quickly, by directly capturing business objectives, automating programming, and automating work. We also provide consulting services, maintenance, and training related to our software.

We focus our sales efforts primarily on target accounts, which are large companies or divisions within companies and typically leaders in their industry. Our strategy is to sell a series of licenses that are focused on a specific purpose or area of operations.

Our license revenue is primarily derived from sales of our Pega Build for Change® platform (PegaRULES Process Commander ( PRPC )) and related business solutions. PRPC is a comprehensive platform for building and managing Business Process Management ( BPM ) applications that unifies business rules and business processes. Our solutions, built on the capabilities of PRPC, are purpose or industry-specific collections of best practice functionality, which allow organizations to quickly implement new customer-facing practices and processes, bring new offerings to market, and provide customized or specialized processing. Our products are simpler, easier to use and often result in shorter implementation periods than competitive enterprise software products. PRPC and related business solutions can be used by a broad range of clients across markets including financial services, insurance, healthcare, communications and media, life sciences, manufacturing and high technology, and government markets.

Our business solution products include Customer Relationship Management ( CRM ) software, which enables unified predictive decisioning and analytics and optimizes the overall customer experience. Our decision management products and capabilities are designed to manage processes so that actions optimize the process outcomes based on

business objectives. We continue to invest in the development of new products and intend to remain a leader in BPM, CRM, and decision management.

We also offer Pega Cloud<sup>®</sup>, a service offering that allows our clients to immediately build, test, and deploy their applications in a secure cloud environment, while minimizing their infrastructure and hardware costs. Revenue from our Pega Cloud offering is included in services revenue.

**Table of Contents**

Our acquisition of Antenna Software, Inc. and its subsidiaries ( Antenna ) on October 9, 2013 expanded our Application Mobility Platform, which provides clients with a mobile application development platform to build, manage, and deploy mobile applications as part of a seamless omnichannel experience. Enterprises can manage the complex elements of the mobile application lifecycle including security, integration, testing, and management of mobile applications and devices. Pega's mobile application development solutions help businesses to significantly reduce their development time, deployment costs, and the complexity associated with run-the-business mobile applications. The operations of Antenna are included in our operating results from the date of acquisition. Total revenue and earnings attributable to Antenna included in our consolidated statements of operations in the first quarter of 2014 was approximately \$4.7 million and a net loss of approximately \$2.2 million, respectively. Due to the rapid integration of the products, sales force, and operations of Antenna, other than the maintenance and hosting revenue attributable to the recognition of the fair value of acquired deferred maintenance and hosting revenue, it may not be feasible for us to identify revenue from new arrangements attributable to Antenna.

We offer training for our staff, clients, and partners at our regional training facilities, at third party facilities, and at client sites. Our online training through PegaACADEMY provides an alternative way to learn our software in a virtual environment quickly and easily. We believe that this online training will continue to expand the number of trained experts at a faster pace.

**Critical accounting policies**

Management's Discussion and Analysis of Financial Condition and Results of Operations is based upon our unaudited condensed consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America ( U.S. GAAP ) and the rules and regulations of the SEC for interim financial reporting. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. We base our estimates and judgments on historical experience, knowledge of current conditions, and beliefs of what could occur in the future given available information.

There have been no changes in our critical accounting policies as disclosed in our Annual Report on Form 10-K for the year ended December 31, 2013. For more information regarding our critical accounting policies, we encourage you to read the discussion contained in Item 7 under the heading Critical Accounting Policies, Significant Judgments, and Estimates and Note 2 Significant Accounting Policies included in the notes to the Consolidated Financial Statements contained in our Annual Report on Form 10-K for the year ended December 31, 2013.

**Results of Operations**

<i>(Dollars in thousands)</i>	<b>Three Months Ended</b>		<b>Increase</b>	
	<b>March 31,</b>			
	<b>2014</b>	<b>2013</b>		
Total revenue	\$ 140,464	\$ 116,246	\$ 24,218	21 %
Gross profit	\$ 94,551	\$ 78,593	\$ 15,958	20 %
Total operating expenses	\$ 79,924	\$ 65,642	\$ 14,282	22 %
Income from operations	\$ 14,627	\$ 12,951	\$ 1,676	13 %

Income before provision for income taxes	\$ 14,541	\$ 12,018	\$ 2,523	21 %
---	-----------	-----------	----------	------

**Table of Contents****Revenue**

	Three Months Ended March 31,				Increase (Decrease)
(Dollars in thousands)	2014		2013		
<b>License revenue</b>					
Perpetual licenses	\$ 23,385	44 %	\$ 26,360	61 %	\$ (2,975)
Term licenses	26,826	51 %	15,680	36 %	11,146
Subscription	2,403	5 %	1,169	3 %	1,234
Total license revenue	\$ 52,614	100 %	\$ 43,209	100 %	\$ 9,405 22 %

The aggregate value of new license arrangements executed during the first quarter of 2014 significantly increased compared to the first quarter of 2013 due to a higher number and higher value of license arrangements executed in the first quarter of 2014. The aggregate value of new license arrangements executed fluctuates quarter to quarter. During the first quarter of 2014 and 2013, approximately 74% and 44%, respectively, of the value of new license arrangements were executed with existing clients.

The mix between perpetual and term license arrangements executed in a particular period varies based on client needs. A change in the mix between perpetual and term license arrangements executed may cause our revenues to vary materially from period to period. A higher proportion of term license arrangements executed would result in more license revenue being recognized over longer periods as payments become due or earlier if prepaid. Some of our perpetual license arrangements include extended payment terms or additional rights of use, which also result in the recognition of revenue over longer periods.

While there was a significant increase in the value of perpetual license arrangements executed during the first quarter of 2014 compared to the first quarter of 2013, perpetual license revenue decreased because the revenue recognition criteria was not met for a larger amount of perpetual arrangements signed in the first quarter of 2014 as compared to the first quarter of 2013.

The increase in term license revenue was primarily due to revenue recognized on term license arrangements executed in 2013 and a \$1.5 million prepayment of a customer arrangement in the first quarter of 2014. The aggregate value of payments due under noncancellable term licenses and our Pega Cloud arrangements grew to \$234.1 million as of March 31, 2014 compared to \$214.7 million as of March 31, 2013. We expect to recognize \$53 million of the \$234.1 million as revenue during the remainder of 2014 in addition to new term license and Pega Cloud agreements we may

complete or prepayments we may receive from existing term license agreements. See the table of future cash receipts on page 27.

Subscription revenue primarily consists of the ratable recognition of license, maintenance and bundled services revenue on perpetual license arrangements that include a right to unspecified future products. Subscription revenue does not include revenue from our Pega Cloud offerings, which is included in services. The timing of scheduled payments under client arrangements may limit the amount of revenue recognized in a reporting period. Consequently, our subscription revenue may vary quarter to quarter. The increase in subscription revenue was primarily due to the timing of a payment for a customer arrangement.

	Three Months Ended		Increase	
	March 31,			
<i>(Dollars in thousands)</i>	2014	2013		
<b><i>Maintenance revenue</i></b>				
Maintenance	\$ 44,881	\$ 36,322	\$ 8,559	24%

**Table of Contents**

The increase in maintenance revenue was primarily due to the growth in the aggregate value of the installed base of our software. Maintenance revenue primarily attributable to recognition of the fair value of the acquired Antenna deferred maintenance revenue was \$0.8 million in the first quarter of 2014.

	Three Months Ended				Increase (Decrease)	
	2014	March 31,		2013		
<i>(Dollars in thousands)</i>						
<b>Services revenue</b>						
Consulting services	\$ 38,076	89 %	\$ 33,183	90 %	\$ 4,893	15 %
Cloud	3,858	9 %	1,858	5 %	2,000	108 %
Training	1,035	2 %	1,674	5 %	(639)	(38) %
<b>Total services</b>	<b>\$ 42,969</b>	<b>100 %</b>	<b>\$ 36,715</b>	<b>100 %</b>	<b>\$ 6,254</b>	<b>17 %</b>

Consulting services primarily relate to new license implementations. Our consulting services revenue in the first quarter of 2013 was unusually low primarily because many of our large fourth quarter 2012 license arrangements were for the purchase of additional usage, which do not require implementation services.

Cloud represents revenue from our Pega Cloud offerings. The increase in cloud revenue was primarily due to a \$1.3 million increase of revenue attributable to Antenna.

The decrease in our training revenue during was primarily due to the increased adoption of our PegaACADEMY self-service online training by our partners, which has a significantly lower average price per student as compared to our traditional instructor-led training.

**Gross profit**

	Three Months Ended		Increase (Decrease)	
	2014	March 31, 2013		
<i>(Dollars in thousands)</i>				
<b>Gross Profit</b>				
Software license	\$ 51,035	\$ 41,626	\$ 9,409	23 %
Maintenance	40,217	32,587	7,630	23 %
Services	3,299	4,380	(1,081)	(25)%

Total gross profit	\$ 94,551	\$ 78,593	\$ 15,958	20 %
Total gross profit %	67 %	68 %		
Software license gross profit %	97 %	96 %		
Maintenance gross profit %	90 %	90 %		
Services gross profit %	8 %	12 %		

The increase in total gross profit was primarily due to increases in license and maintenance revenue.

The decrease in services gross profit percent was primarily due to costs incurred on several consulting projects in the first quarter of 2014 for which the corresponding revenue will be recognized in future periods as revenue recognition criteria had not been met and lower gross margin associated with Antenna projects.

**Table of Contents****Operating expenses**

<i>(Dollars in thousands)</i>	<b>Three Months Ended</b>		<b>Increase</b>	
	<b>March 31,</b>			
	<b>2014</b>	<b>2013</b>		
<b>Amortization of intangibles:</b>				
Cost of revenue	\$ 1,840	\$ 1,541	\$ 299	19 %
Selling and marketing	1,496	1,232	264	21 %
General and administrative	420	4	416	n/m
	\$ 3,756	\$ 2,777	\$ 979	35 %

n/m - not meaningful

The increase in amortization expense was due to the amortization associated with \$10.4 million of intangibles acquired from Antenna in October 2013.

<i>(Dollars in thousands)</i>	<b>Three Months Ended</b>		<b>Increase</b>	
	<b>March 31,</b>			
	<b>2014</b>	<b>2013</b>		
<b>Selling and marketing</b>				
Selling and marketing	\$ 45,807	\$ 39,270	\$ 6,537	17 %
As a percent of total revenue	33 %	34 %		

Selling and marketing headcount at March 31,	608	512	96	19 %
--	-----	-----	----	------

Selling and marketing expenses include compensation, benefits, and other headcount-related expenses associated with our selling and marketing personnel as well as advertising, promotions, trade shows, seminars, and other programs. Selling and marketing expenses also include the amortization of customer related intangibles.

The increase in selling and marketing expenses was primarily due to a \$3 million increase in compensation and benefit expenses associated with higher headcount, a \$0.7 million increase in commission expense associated with the higher value of new license arrangements executed during the first quarter of 2014 compared to the first quarter of 2013, a \$0.8 million increase in marketing and sales program expenses and a \$0.3 million increase in amortization expense related to our Antenna customer-related intangible assets.

Effective January 1, 2014, we realigned the organizational structure of our product management and design team. As a result of this change, we changed the classification of this team's expenses from selling and marketing to research and development as the roles of the members of this team are now aligned with our research and development efforts. The decrease caused by this realignment partially offset the increase in headcount as well as the overall increase in selling and marketing expenses during the first quarter of 2014 compared to the same period in 2013.

	Three Months Ended March 31,		Increase	
	2014	2013		
<i>(Dollars in thousands)</i>				
<b>Research and development</b>				
Research and development	\$ 24,609	\$ 19,576	\$ 5,033	26 %
As a percent of total revenue	18 %	17 %		
Research and development headcount at March 31,	924	754	170	23 %

Research and development expenses include compensation, benefits, contracted services, and other headcount-related expenses associated with the creation and development of our products as well as enhancements and engineering changes to existing products.

**Table of Contents**

The realignment of the organizational structure of our product management and design team as discussed above contributed to the increase in headcount as well as the overall increase in research and development expense during the first quarter of 2014 compared to the same period in 2013.

The increase in headcount also reflects the impact of Antenna and the growth in our India research facility as we have been replacing contractors with employees. The increase in offshore headcount lowered our average compensation expense per employee.

The increase in research and development expenses was primarily due to a \$3.6 million increase in compensation and benefit expenses associated with higher headcount inclusive of the \$1.8 million compensation and benefit expenses associated with our product management and design group now included in research and development and a \$0.5 million increase in expensed equipment.

	Three Months Ended		Increase	
	March 31,			
(Dollars in thousands)	2014	2013		
<b>General and administrative</b>				
General and administrative	\$ 9,302	\$ 6,796	\$ 2,506	37 %
As a percent of total revenue	7 %	6 %		

General and administrative headcount at March 31,	276	245	31	13 %
---	-----	-----	----	------

General and administrative expenses include compensation, benefits, and other headcount-related expenses associated with finance, legal, corporate governance, and other administrative headcount. It also includes accounting, legal, and other administrative fees. The general and administrative headcount includes employees in human resources, information technology and corporate services departments whose costs are allocated to our other functional departments.

The increase in general and administrative expenses was primarily due to a \$1 million increase in professional fees, a \$1.2 million increase in compensation and benefits associated with higher headcount, and a \$0.4 million increase in amortization associated with the Antenna trademark intangible asset.

**Stock-based compensation**

The following table summarizes stock-based compensation expense included in our unaudited condensed consolidated statements of operations:

	Three Months Ended	Increase (Decrease)
	March 31,	

*(Dollars in thousands)*

	<b>2014</b>	<b>2013</b>		
Cost of services	\$ 1,011	\$ 1,173	\$ (162)	(14)%
Operating expenses	2,284	2,259	25	1 %
Total stock-based compensation before tax	3,295	3,432	(137)	(4)%
Income tax benefit	(991)	(1,103)		

The decrease in stock-based compensation expense was primarily due to the timing of the 2013 and 2012 annual periodic equity grants, which occurred in March 2014 and December 2012, respectively.

**Table of Contents*****Non-operating income and expenses, net***

<i>(Dollars in thousands)</i>	<b>Three Months Ended</b>		<b>Change</b>	
	<b>2014</b>	<b>2013</b>		
Foreign currency transaction gain (loss)	\$ 322	\$ (1,890)	\$ 2,212	(117)%
Interest income, net	124	118	6	5 %
Other (expense) income, net	(532)	839	(1,371)	(163)%
Non-operating loss	\$ (86)	\$ (933)	\$ 847	(91)%

We use foreign currency forward contracts ( forward contracts ) to manage our exposure to changes in foreign currency denominated accounts receivable, intercompany payables, and cash primarily held by our U.S. operating company. We have not designated these forward contracts as hedging instruments and as a result, we record the fair value of the outstanding contracts at the end of the reporting period in our consolidated balance sheet, with any fluctuations in the value of these contracts recognized in other (expense) income, net. The fluctuations in the value of these forward contracts recorded in other (expense) income, net, partially offset in net income, the gains and losses from the remeasurement or settlement of the foreign currency denominated accounts receivable, intercompany payables, and cash held by the U.S. operating company recorded in foreign currency transaction gain (loss).

We have been primarily exposed to the fluctuation in the British pound and Euro relative to the U.S. dollar. More recently, we have experienced increased levels of exposure to the Australian dollar and Indian rupee. See Note 3 Derivative Instruments in the notes to the accompanying unaudited condensed consolidated financial statements for discussion of our use of forward contracts.

The total change in the fair value of our forward contracts recorded in other (expense) income, net, during the first quarter of 2014 and 2013 was a loss of \$0.5 million and a gain of \$0.8 million, respectively.

***Provision for income taxes***

We account for income taxes at each interim period using our estimated annual effective tax rate and adjust for discrete tax items recorded in the same period. The provision for income taxes represents current and future amounts owed for federal, state, and foreign taxes. During the first quarter of 2014 and 2013, we recorded a tax provision of \$4.8 million and \$2.9 million, respectively, which resulted in an effective tax rate of 32.8% and 24.5%, respectively. Our effective tax rate for first quarter of 2013 was below the statutory rate primarily due to a \$0.8 million tax benefit related to our 2012 research and experimentation credit recognized in the first quarter of 2013 as a result of the American Taxpayer Relief Act of 2012 that was signed into law in January 2013. Our effective tax rate for the first quarter of 2014 was higher than in the first quarter of 2013 primarily because the research and experimentation credit has not yet been extended to 2014.

**Table of Contents****Liquidity and capital resources**

<i>(in thousands)</i>	<b>Three Months Ended March 31,</b>	
	<b>2014</b>	<b>2013</b>
Cash provided by (used in):		
Operating activities	\$ 72,858	\$ 66,046
Investing activities	(2,630)	(13,224)
Financing activities	(6,587)	(4,127)
Effect of exchange rate on cash	458	(2,489)
Net increase in cash and cash equivalents	\$ 64,099	\$ 46,206
	<b>As of</b>	<b>As of</b>
	<b>March 31, 2014</b>	<b>December 31, 2013</b>
Total cash, cash equivalents, and marketable securities	\$ 220,964	\$ 156,692

The increase in cash and cash equivalents was primarily due to the significant increase in cash provided by operating activities associated with our strong accounts receivable collections during the first three months of 2014, which were generated from our significant arrangements executed in the fourth quarter of 2013. We believe that our current cash, cash equivalents, and cash flow from operations will be sufficient to fund our operations, our dividend payments and our share repurchase program for at least the next 12 months.

We evaluate acquisition opportunities from time to time, which if pursued, could require use of our funds. On October 9, 2013, we acquired Antenna for \$26.3 million in cash. During the first quarter of 2014, we paid \$0.8 million of the remaining merger consideration related to the final working capital adjustment for Antenna and we incurred direct and incremental expenses associated with the transaction of \$0.2 million.

As of March 31, 2014, approximately \$63.6 million of our cash and cash equivalents was held in our foreign subsidiaries. If it becomes necessary to repatriate these funds, we may be required to pay U.S. tax, net of any applicable foreign tax credits, upon repatriation. We consider the earnings of our foreign subsidiaries to be permanently reinvested and, as a result, U.S. taxes on such earnings are not provided. It is impractical to estimate the amount of U.S. tax we could have to pay upon repatriation due to the complexity of the foreign tax credit calculations and because we consider our earnings permanently reinvested. There can be no assurance that changes in our plans or other events affecting our operations will not result in materially accelerated or unexpected expenditures.

**Cash provided by operating activities**

The primary drivers of cash provided by operating activities during the first three months of 2014 were net income of \$9.8 million, a \$57.3 million decrease in accounts receivable due to our significant collections, and a \$18.3 million increase in deferred revenue primarily due to the timing of our annual billings.

The primary drivers of cash provided by operating activities during the first three months of 2013 were net income of \$9.1 million, a \$61.7 million decrease in account receivable due to higher collections, and a \$6.8 million increase in deferred revenue.

**Table of Contents****Future Cash Receipts from License and Cloud Arrangements**

Total contractual future cash receipts due from our existing license and Pega Cloud agreements was approximately \$270.2 million as of March 31, 2014 compared to \$253.6 million as of March 31, 2013. The future cash receipts due as of March 31, 2014 are summarized as follows:

<b>(in thousands) as of March 31, 2014</b>	<b>Contractual payments for term licenses and cloud arrangements not recorded on the balance sheet (1)</b>	<b>Other contractual license payments not recorded on the balance sheet (2)</b>	<b>Total</b>
Remainder of 2014	\$ 52,563	\$ 27,757	\$ 80,320
2015	70,599	5,259	75,858
2016	55,272	3,128	58,400
2017	30,936		30,936
2018 and thereafter	24,729		24,729
Total	\$ 234,099	\$ 36,144	\$ 270,243

(1) These amounts include contractual future cash receipts related to our on-premise term licenses and hosted Pega Cloud service offerings. The amounts related to our on-premise term licenses will be recognized as term license revenue in the future over the term of the agreement as payments become due or earlier if prepaid. Future fees associated with our Pega Cloud arrangements will be recognized ratably as cloud revenue within services revenue over the term of the agreement.

(2) These amounts will be recognized as revenue in future periods and relate to perpetual and subscription licenses with extended payment terms and/or additional rights of use.

**Cash used in investing activities**

During the first three months of 2014, cash used in investing activities was primarily for purchases of marketable debt securities of \$11.6 million, partially offset by the proceeds received from the maturities of marketable debt securities of \$11.0 million.

During the first three months of 2013, cash used in investing activities was primarily for purchases of marketable debt securities of \$15.8 million, partially offset by the proceeds received from the maturities of marketable debt securities of \$3.8 million.

**Cash used in financing activities**

Cash used in financing activities during the first three months of 2014 and 2013 was primarily for repurchases of our common stock. Since 2004, our Board of Directors has approved annual stock repurchase programs that have authorized the repurchase in the aggregate of up to \$104.5 million of our common stock. Purchases under these programs have been made on the open market.

On March 6, 2014, the Company's Board of Directors approved a two-for-one (2:1) stock split of the Company's common stock. On April 1, 2014, each stockholder of record at the close of business on March 20, 2014 (the Record Date) received one additional share of common stock, par value \$.01, for each share of common stock held on the Record Date. The number of shares and per share amounts for all prior periods presented have been retroactively restated to reflect our two-for-one common stock split, except for the number of authorized shares of common stock. The following table is a summary of our repurchase activity under all of our repurchase programs during the first three months of 2014 and 2013:

**Table of Contents**

<i>(Dollars in thousands)</i>	<b>Three Months Ended March 31,</b>			
	<b>2014</b>		<b>2013</b>	
	<b>Shares</b>	<b>Amount</b>	<b>Shares</b>	<b>Amount</b>
Prior year authorization as of January 1,		\$ 14,433		\$ 14,793
Repurchases paid	210,802	(4,476)	249,694	(3,436)
Repurchases unsettled	96	(2)	13,996	(197)
Authorization remaining as of March 31,		\$ 9,955		\$ 11,160

In addition to the share repurchases made under our repurchase programs, we net settled the majority of our employee stock option exercises and RSU vesting, which resulted in the withholding of shares to cover the option exercise price and the minimum statutory tax withholding obligations.

During the first three months of 2014 and 2013, option and RSU holders net settled stock options and vested RSUs representing the right to purchase a total of 323,000 shares and 418,000 shares, respectively, of which only 187,000 shares and 240,000 shares, respectively, were issued to the option and RSU holders and the balance of the shares were surrendered to us to pay for the exercise price and the applicable taxes. During the first three months of 2014 and 2013, instead of receiving cash from the equity holders, we withheld shares with a value of \$1.8 million and \$1.6 million, respectively, for withholding taxes, and \$1.0 million and \$0.8 million, respectively, for the exercise price. The value of share repurchases and shares withheld for net settlement of our employee stock option exercises and vesting of RSUs offset the proceeds received under our various share-based compensation plans during the first three months of 2014 and 2013.

**Dividends**

We declared a cash dividend of \$0.015 per share on a post-split basis in the first three months of 2014 and 2013. We paid cash dividends of \$1.1 million in the first three months of 2014. Our Board of Directors authorized the acceleration of the payment of the fourth quarter 2012 dividend to be paid in December 2012 rather than in January 2013. Therefore, there was no dividend payment in the first quarter of 2013. As discussed above, we declared a two-for-one common stock split that was effected in the form of a common stock dividend with distribution on April 1, 2014. As a result, it is our current intention to pay a quarterly cash dividend of \$0.015 per share, however, the Board of Directors may terminate or modify this dividend program at any time without notice.

**Item 3. Quantitative and Qualitative Disclosures about Market Risk**

Market risk represents the risk of loss that may affect us due to adverse changes in financial market prices and rates. Our market risk exposure is primarily related to fluctuations in foreign exchange rates. We enter into foreign currency forward contracts to partially mitigate our exposure to the fluctuations in foreign exchange rates. See Note 3

Derivative Instruments in the notes to the accompanying unaudited condensed consolidated financial statements for further discussion.

There were no significant changes to our quantitative and qualitative disclosures about market risk during the first three months of 2014. Please refer to Part II, Item 7A. Quantitative and Qualitative Disclosures about Market Risk included in our Annual Report on Form 10-K for the year ended December 31, 2013 for a more complete discussion

of our market risk exposure.

**Table of Contents****Item 4. Controls and Procedures***(a) Evaluation of Disclosure Controls and Procedures.*

Our management, with the participation of our Chief Executive Officer, or CEO, and Chief Financial Officer, or CFO, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act) as of March 31, 2014. In designing and evaluating our disclosure controls and procedures, our management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives, and our management necessarily applied its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Based on this evaluation, our CEO and CFO concluded that our disclosure controls and procedures were effective as of March 31, 2014.

*(b) Changes in Internal Control over Financial Reporting.*

There have been no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act) during the quarter ended March 31, 2014 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**Part II Other Information:****Item 1A. Risk Factors**

We encourage you to carefully consider the risk factors identified in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2013. These risk factors could materially affect our business, financial condition and future results and could cause our actual business and financial results to differ materially from those contained in forward-looking statements made in this Quarterly Report on Form 10-Q or elsewhere by management from time to time. There have been no material changes during the first three months of 2014 to the risk factors disclosed in our Annual Report on Form 10-K for the year ended December 31, 2013.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

The following table sets forth information regarding our repurchases of our common stock during the first quarter of 2014:

Period	Total Number of Shares Purchased (1)	Average Price Paid per Share (1)	Approximate Dollar Value of Shares That May Yet Be Purchased	
			Total Number of Shares Purchased as Part of Publicly Announced Share Repurchase Programs (1) (2)	Under Publicly Announced Share Repurchase Programs (in thousands) (2)
1/1/2014 - 1/31/2014	65,734	\$ 23.31	65,734	\$ 12,901

Edgar Filing: PEGASYSTEMS INC - Form 10-Q

2/1/2014 - 2/28/2014	58,580	21.81	58,580	11,624
3/1/2014 - 3/31/2014	86,584	19.26	86,584	9,955
Total	210,898	\$ 21.23		

- (1) The number of shares and per share amounts have been retroactively restated to reflect the Company's two-for-one common stock split effected in the form of a stock dividend distributed April 1, 2014.
- (2) Since 2004, our Board of Directors has approved stock repurchase programs that have authorized the repurchase, in the aggregate, of up to \$104.5 million of our common stock. On December 16, 2013, we announced that our Board of Directors extended the expiration date of the current stock repurchase program (the Current Program) to December 31, 2014 and authorized the Company to repurchase up to \$15 million of our stock between December 11, 2013 and December 31, 2014. Under the Current Program, purchases may be made from time to time on the open market or in privately negotiated transactions. Shares may be repurchased in such amounts as market conditions warrant, subject to regulatory and other considerations. We have established a pre-arranged stock repurchase plan, intended to comply with the requirements of Rule 10b5-1 under the Securities Exchange Act of 1934, as amended, and Rule 10b-18 of the Exchange Act (the 10b5-1 Plan). All share repurchases under the Current Program during closed trading window periods will be made pursuant to the 10b5-1 Plan.
