EXPLANATORY NOTE

This combined Quarterly Report on Form 10-Q is being filed by Aviv REIT, Inc., or AVIV, and Aviv Healthcare Properties Limited Partnership, or the Partnership. Unless the context requires otherwise or except as otherwise noted, as used herein the words we, the Company, us and our refer to AVIV and AVIV's controlled subsidiaries and the Partnership and the Partnership's controlled subsidiaries collectively, as the operations of the two aforementioned entities are materially comparable for the periods presented.

AVIV is a real estate investment trust, or REIT, and the sole general partner of the Partnership. The Partnership's capital is comprised of units of beneficial interest, or OP units. As of June 30, 2014, AVIV owned 80.5% of the economic interest in the Partnership, with the remaining interest being owned by other investors. The other investors may redeem their OP units for cash or, at the election of AVIV, for shares of AVIV's common stock, on a one-for-one basis. As the sole general partner of the Partnership, AVIV has exclusive control of the Partnership's day-to-day management.

The Company believes combining the Quarterly Reports on Form 10-Q of AVIV and the Partnership into this single report provides the following benefits:

enhances investors' understanding of AVIV and the Partnership by enabling investors to view the business as a whole in the same manner as management views and operates the business;

eliminates duplicative disclosure and provides a more streamlined and readable presentation because a substantial portion of the disclosure in this report applies to both AVIV and the Partnership; and

creates time and cost efficiencies through the preparation of one combined report instead of two separate reports.

Management operates AVIV and the Partnership as one business. The management of AVIV consists of the same employees as the management of the Partnership.

The Company believes it is important for investors to understand the few differences between AVIV and the Partnership in the context of how AVIV and the Partnership operate as a consolidated company. AVIV is a REIT, whose only material asset is its ownership of OP units of the Partnership. As a result, AVIV does not conduct business itself, other than acting as the sole general partner of the Partnership, issuing public equity from time to time and guaranteeing unsecured debt of the Partnership. AVIV has not issued any indebtedness, but has guaranteed all of the unsecured debt of the Partnership. The Partnership indirectly holds all the real estate assets of the Company. Except for net proceeds from public equity issuances by AVIV, which are contributed to the Partnership in exchange for OP units, the Partnership generates all remaining capital required by the Company's business. The sources of the remaining capital include the operations of the Partnership's direct and indirect subsidiaries, its direct or indirect incurrence of indebtedness, and the issuance of OP units.

As general partner with control of the Partnership, AVIV consolidates the Partnership for financial reporting purposes. The presentation of stockholders' equity and partners' capital are the main areas of difference between the consolidated financial statements of AVIV and those of the Partnership. The Partnership's capital consists of OP units that are owned by AVIV and the other investors. AVIV's stockholders' equity consists of common stock, additional paid in

capital and retained earnings (accumulated deficit). The OP units held by the other investors in the Partnership are presented as noncontrolling interests-operating partnership in AVIV's consolidated financial statements. There was no difference between the assets and liabilities or net income of AVIV and the Partnership as of and for the three and six month periods ended June 30, 2014.

In order to highlight the few differences between AVIV and the Partnership, there are sections in this report that discuss AVIV and the Partnership separately, including separate financial statements and controls and procedures sections. In the sections that combine disclosure for AVIV and the Partnership, this report refers to actions or holdings as being actions or holdings of the Company. Although the Partnership is generally the entity that enters into contracts, holds assets and issues debt, we believe that reference to the Company in this context is appropriate because the business is one enterprise and the Company operates the business through the Partnership.

AVIV REIT, INC.

AVIV HEALTHCARE PROPERTIES LIMITED PARTNERSHIP

Notes to Consolidated Financial Statements

June 30, 2014

(unaudited)

1. Description of Operations and Formation

Aviv REIT, Inc., a Maryland corporation (AVIV or the REIT), is the sole general partner of Aviv Healthcare Properties Limited Partnership, a Delaware limited partnership, and its subsidiaries (the Partnership). The Partnership is a majority owned subsidiary that indirectly owns all of the real estate properties. In these footnotes, the Company refers generically to AVIV, the Partnership, and their subsidiaries. The Partnership was formed in 2010 and directly or indirectly owned or leased 304 properties, principally skilled nursing facilities (SNFs), across the United States at June 30, 2014. The Company is a fully integrated self-administered real estate investment trust that owns, acquires, develops and generates the majority of its revenues by entering into long-term triple-net leases with qualified local, regional, and national operators. In addition to the base rent, leases provide for operators to pay the Company an ongoing escrow for real estate taxes. Furthermore, all operating and maintenance costs of the buildings are the responsibility of the operators. Substantially all depreciation expense reflected in the consolidated statements of operations relates to the ownership of real estate properties.

The Partnership is the general partner of Aviv Healthcare Properties Operating Partnership I, L.P. (the Operating Partnership), a Delaware limited partnership, and the sole stockholder of Aviv Healthcare Capital Corporation, a Delaware corporation. The Operating Partnership has five wholly owned subsidiaries: Aviv Financing I, L.L.C. (Aviv Financing I), a Delaware limited liability company; Aviv Financing II, L.L.C. (Aviv Financing II), a Delaware limited liability company; Aviv Financing III, L.L.C. (Aviv Financing III), a Delaware limited liability company; Aviv Financing IV, L.L.C. (Aviv Financing IV), a Delaware limited liability company; and Aviv Financing V, L.L.C. (Aviv Financing V), a Delaware limited liability company.

All of the business, assets and operations of the Company are held by the Partnership and its subsidiaries. The REIT's equity interest in the Partnership is linked to future investments in the REIT, such that future equity issuances by the REIT (pursuant to the Partnership's partnership agreement) will result in a corresponding increase in the REIT's equity interest in the Partnership. The REIT is authorized to issue 300 million shares of common stock (par value \$0.01) and 25 million shares of preferred stock (par value \$0.01). The REIT was funded in September 2010 with 13.2 million shares and approximately \$235 million from one of the REIT's stockholders, and approximately 8.5 million additional shares of common stock were issued by the REIT in connection with \$159 million of equity contributions by one of the REIT's stockholders. The Partnership's capital consists of partnership units, referred to as OP units, which are owned by AVIV and other investors.

On March 7, 2013, the Board of Directors and stockholders of the REIT approved an increase in the number of authorized shares of common stock to 300,000,000 shares of common stock and a 60.37-for-one split of issued and outstanding common stock. The increase in the authorized shares and the stock split became effective on March 8, 2013 when the REIT's charter was amended for such increase in the number of authorized REIT shares and the stock split. The common share and per common share amounts in these consolidated financial statements and notes to consolidated financial statements have been retrospectively restated to reflect the 60.37-for-one split.

On March 26, 2013, the REIT completed an initial public offering (IPO) of its common stock pursuant to a registration statement filed with the SEC, which became effective on March 20, 2013. The Company received net proceeds, after underwriting discounts and commissions, of \$282.3 million, exclusive of other costs of raising capital in consideration for the issuance and sale of approximately 15.2 million shares of common stock (which included approximately 2.0 million shares sold to the underwriters upon exercise of their option to purchase additional shares to cover over-allotments) at a price to the public of \$20.00 per share. In connection with the IPO, the Partnership's existing Class A, B, C, D and F Units were converted into a single class of OP units.

Immediately prior to the completion of the IPO, there were outstanding approximately 21.7 million shares of common stock of the REIT, limited partnership units of the Partnership which were converted into approximately 11.9 million OP units in connection with the IPO, and 125 shares of preferred stock of the REIT. On April 15, 2013, the 125 shares of preferred stock outstanding were redeemed. At June 30, 2014, there were approximately 47.2 million shares of common stock outstanding and 11.4 million OP units outstanding, which OP units are redeemable for cash or, at the REIT's option, for shares of common stock of the REIT. The operating results of the Partnership are allocated based upon the REIT's and the limited partners' respective economic interests therein. The REIT's ownership of the Partnership was 80.5% and 76.4% as of June 30, 2014 and December 31, 2013, respectively. The REIT's weighted average economic ownership of the Partnership for the three and six months ended June 30, 2014 and 2013 were 79.9%, 78.4%, 75.7%, and 71.5% respectively.

2. Summary of Significant Accounting Policies

Basis of Presentation

This report combines the Quarterly Reports on Form 10-Q for the quarter ended June 30, 2014 of AVIV and the Partnership. AVIV is a real estate investment trust (REIT) and the general partner of the Partnership. The Partnership's capital is comprised of OP units. As the sole general partner of the Partnership, AVIV has exclusive control of the Partnership's day-to-day management.

The Company believes combining the Quarterly Reports on Form 10-Q of AVIV and the Partnership into this single report provides the following benefits:

enhances investors' understanding of AVIV and the Partnership by enabling investors to view the business as a whole in the same manner as management views and operates the business;

eliminates duplicative disclosure and provides a more streamlined and readable presentation since a substantial portion of the disclosure in this report applies to both AVIV and the Partnership; and

creates time and cost efficiencies through the preparation of one combined report instead of two separate reports.

Management operates AVIV and the Partnership as one business. The management of AVIV consists of the same employees as the management of the Partnership.

The Company believes it is important for investors to understand the few differences between AVIV and the Partnership in the context of how AVIV and the Partnership operate as a consolidated company. AVIV is a REIT, whose only material asset is its ownership of OP units of the Partnership. As a result, AVIV does not conduct business itself, other than acting as the sole general partner of the Partnership, issuing public equity from time to time and guaranteeing unsecured debt of the Partnership. AVIV has not issued any indebtedness, but has guaranteed all of the unsecured debt of the Partnership. The Partnership indirectly holds all the real estate assets of the Company. Except for net proceeds from public equity issuances by AVIV, which are contributed to the Partnership in exchange for OP units, the Partnership generates all remaining capital required by the Company's business. The sources of the remaining capital include the operations of the Partnership's direct and indirect subsidiaries, its direct or indirect incurrence of indebtedness, and the issuance of OP units.

As general partner with control of the Partnership, AVIV consolidates the Partnership for financial reporting purposes. The presentation of stockholders' equity and partners' capital are the main areas of difference between the consolidated financial statements of AVIV and those of the Partnership. AVIV's stockholders' equity is comprised of common stock, additional paid in capital and retained earnings (accumulated deficit). The Partnership's capital is comprised of OP units that are owned by AVIV and other investors. The OP units held by the other investors in the Partnership are presented as part of partners' capital in the Partnership's consolidated financial statements and as noncontrolling interests-operating partnership in AVIV's consolidated financial statements. There is no difference between the assets and liabilities or net income of AVIV and the Partnership as of June 30, 2014.

The accompanying unaudited consolidated financial statements have been prepared by management in accordance with US generally accepted accounting principles, (US GAAP), for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. All significant intercompany accounts and transactions have been eliminated in the consolidated financial statements.

The Company manages its business as a single business segment as defined in Accounting Standards Codification (ASC) 280, *Segment Reporting*. The Company has one reportable segment consisting of investments in healthcare properties, consisting primarily of SNFs, assisted living facilities, (ALFs), and other healthcare properties located in the United States. All of the Company's properties generate similar types of revenues and expenses related to tenant rent and reimbursements and operating expenses.

Quarterly Reporting

The accompanying unaudited financial statements and notes of the Company as of June 30, 2014 and for the three and six months ended June 30, 2014 and 2013 have been prepared in accordance with US GAAP for interim financial information. Accordingly, certain information and footnote disclosures normally included in financial statements prepared under US GAAP have been condensed or omitted pursuant to US GAAP quarterly reporting rules. In the opinion of management, all adjustments considered necessary for a fair presentation of the Company's balance sheets, statements of operations, statement of changes in equity/partners' capital, and statements of cash flows have been included and are of a normal and recurring nature. These consolidated financial statements should be read in conjunction with the consolidated financial statements and notes for the Company for the years ended December 31, 2013, 2012, and 2011. The consolidated statements of operations and cash flows for the periods ended June 30, 2014 and 2013 are not necessarily indicative of full year results.

Table of Contents

The balance sheets at December 31, 2013 have been derived from the audited financial statements at that date, but do not include all of the information and footnotes required by US GAAP for complete financial statements. For further information, including definitions of capitalized terms not defined herein, refer to the consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2013, as filed with the Securities and Exchange Commission.

Estimates

The preparation of the financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents consist of cash and highly liquid short-term investments with original maturities of three months or less. The Company maintains cash and cash equivalents in United States banking institutions that exceed amounts insured by the Federal Deposit Insurance Corporation. The Company believes the risk of loss from exceeding this insured level is minimal.

Real Estate Investments

The Company periodically assesses the carrying value of real estate investments and related intangible assets in accordance with ASC 360, *Property, Plant, and Equipment* (ASC 360), to determine if facts and circumstances exist that would suggest that assets might be impaired or that the useful lives should be modified. In the event impairment in value occurs and a portion of the carrying amount of the real estate investments will not be recovered in part or in whole, a provision will be recorded to reduce the carrying basis of the real estate investments and related intangibles to their estimated fair value. The estimated fair value of the Company's rental properties is determined by using customary industry standard methods that include discounted cash flow and/or direct capitalization analysis (Level 3) or estimated cash proceeds received upon the anticipated disposition of the asset from market comparables (Level 2). As part of the impairment evaluation, the buildings in the following locations were impaired to reflect the estimated fair values (Level 2).

Purchase Accounting

The Company allocates the purchase price of facilities between net tangible and identified intangible assets acquired and liabilities assumed as a result of the Company purchasing the business and subsequently leasing the business to unrelated third party operators. The Company makes estimates of the fair value of the tangible and intangible assets and acquired liabilities using information obtained from multiple sources as a result of pre-acquisition due diligence,

marketing, leasing activities of the Company's operator base, industry surveys of critical valuation metrics such as capitalization rates, discount rates and leasing rates and appraisals (Level 3). The Company allocates the purchase price of facilities to net tangible and identified intangible assets and liabilities acquired based on their fair values in accordance with the provisions of ASC 805, *Business Combinations* (ASC 805). The determination of fair value involves the use of significant judgment and estimation.

The Company determines fair values as follows:

Real estate investments are valued using discounted cash flow projections that assume certain future revenue and costs and consider capitalization and discount rates using current market conditions.

The Company allocates the purchase price of facilities to net tangible and identified intangible assets acquired and liabilities assumed based on their fair values.

Other assets acquired and other liabilities assumed are valued at stated amounts, which approximate fair value.

Assumed debt balances are valued at fair value, with the computed discount/premium amortized over the remaining term of the obligation.

Table of Contents

The Company determines the value of land based on third party appraisals. The fair value of in-place leases, if any, reflects: (i) above and below-market leases, if any, determined by discounting the difference between the estimated current market rent and the in-place rentals, the resulting intangible asset or liability of which is amortized to rental revenue over the remaining life of the associated lease plus any fixed rate renewal periods if applicable; (ii) the estimated value of the cost to obtain operators, including operator allowances, operator improvements, and leasing commissions, which is amortized over the remaining life of the associated lease; and (iii) an estimated value of the absorption period to reflect the value of the rents and recovery costs foregone during a reasonable lease-up period as if the acquired space was vacant, which is amortized over the remaining life of the associated lease. The Company also estimates the value of operator or other customer relationships acquired by considering the nature and extent of existing business relationships with the operator, growth prospects for developing new business with such operator, such operator's credit quality, expectations of lease renewals with such operator, and the potential for significant, additional future leasing arrangements with such operator. The Company amortizes such value, if any, over the expected term of the associated arrangements or leases, which would include the remaining lives of the related leases. The amortization is included in the consolidated statements of operations in rental income for above or below market leases or depreciation and amortization expense for in-place lease assets. Generally, the Company's purchase price allocation of the purchased business and subsequent leasing of the business to unrelated third party operators does not include an allocation to any intangible assets or intangible liabilities, as they are either immaterial or do not exist.

Revenue Recognition

Rental income is recognized on a straight-line basis over the term of the lease when collectability is reasonably assured. Differences between rental income earned and amounts due under the lease are charged or credited, as applicable, to straight-line rent receivable, net. Income recognized from this policy is titled straight-line rental income. Additional rents from expense reimbursements for insurance, real estate taxes, and certain other expenses are recognized in the period in which the related expenses are incurred and the net impact is reflected in rental income on the consolidated statements of operations.

Below is a summary of the components of rental income for the three and six months ended June 30, 2014 and 2013 (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Cash rental income	\$ 41,243	\$ 32,017	\$ 79,761	\$ 62,558
Straight-line rental income, net	58	1,491	1,694	4,224
Rental income from intangible amortization, net	139	366	407	732
Total rental income	\$ 41,440	\$ 33,874	\$ 81,862	\$ 67,514

The Company's reserve for uncollectible operator receivables is included as a component of reserve for uncollectible secured loans and other receivables in the consolidated statements of operations.

Lease Accounting

The Company, as lessor, makes a determination with respect to each of its leases whether they should be accounted for as operating leases or direct financing leases. The classification criteria is based on estimates regarding the fair value of the leased facilities, minimum lease payments, effective cost of funds, the economic life of the facilities, the existence of a bargain purchase option, and certain other terms in the lease agreements. Payments received under operating leases are accounted for in the statements of operations as rental income for actual rent collected plus or minus a straight-line adjustment for estimated minimum lease escalators. Assets subject to operating leases are reported as real estate investments in the consolidated balance sheets. For facilities leased as direct financing arrangements, an asset equal to the Company's net initial investment is established on the balance sheet titled assets under direct financing leases. Payments received under the financing lease are bifurcated between interest income and principal amortization to achieve a consistent yield over the stated lease term using the interest method. Principal amortization (accretion) is reflected as an adjustment to the asset subject to a financing lease.

All of the Company's leases contain fixed or formula-based rent escalators. To the extent that the escalator increases are tied to a fixed index or rate, lease payments are accounted for on a straight-line basis over the life of the lease.

Table of Contents

Deferred Finance Costs

Deferred finance costs are being amortized using the straight-line method, which approximates the interest method, over the term of the respective underlying debt agreement.

Secured Loan Receivables

Secured loan receivables consist of capital improvement loans and secured loans to operators. Capital improvement loans represent the financing provided by the Company to the operator to acquire furniture, fixtures, and equipment while the operator is operating the facility. Secured loans to operators represent financing provided by the Company to operators for working capital needs. Secured loan receivables are carried at their principal amount outstanding. Management periodically evaluates outstanding secured loans and notes receivable for collectability on a loan-by-loan basis. When management identifies potential loan impairment indicators, such as nonpayment under the loan documents, impairment of the underlying collateral, financial difficulty of the operator, or other circumstances that may impair full execution of the loan documents, and management believes it is probable that all amounts will not be collected under the contractual terms of the loan, the loan is written down to the present value of the expected future cash flows. Loan impairment is monitored via a quantitative and qualitative analysis including credit quality indicators and it is reasonably possible that a change in estimate could occur in the near term. As of June 30, 2014 and December 31, 2013, respectively, secured loan receivable reserves amounted to approximately \$3.2 million and \$0, respectively. No other circumstances exist that would suggest that additional reserves are necessary at the balance sheet dates other than as disclosed in Footnote 4, Secured Loan Receivables.

Stock-Based Compensation

The Company follows ASC 718, *Stock Compensation* (ASC 718) in accounting for its stock-based payments. This guidance requires measurement of the cost of employee services received in exchange for stock compensation based on the grant-date fair value of the employee stock awards. This cost is recognized as compensation expense ratably over the employee's requisite service period. Incremental compensation costs arising from subsequent modifications of awards after the grant date must be recognized when incurred. Additionally, the Company must make estimates regarding employee forfeitures in determining compensation expense. Subsequent changes in actual experience are monitored and estimates are updated as information is available. The non-cash stock-based compensation expense incurred by the Company through June 30, 2014 is summarized in Footnote 12, Equity Compensation Plan.

Fair Value of Financial Instruments

ASC 820, *Fair Value Measurements and Disclosures* (ASC 820), establishes a three-level valuation hierarchy for disclosure of fair value measurements. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The three levels are defined as follows:

Level 1 Inputs to the valuation methodology are quoted prices (unadjusted) for identical assets;

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially

the full term of the financial instrument; and

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement. Cash and cash equivalents are reflected in the accompanying consolidated balance sheets at amounts considered by management to reasonably approximate fair value. Management estimates the fair value of its long-term debt using a discounted cash flow analysis based upon the Company's current borrowing rate for debt with similar maturities and collateral securing the indebtedness. The Company had outstanding secured loans, unsecured notes payable, and a line of credit with a carrying value of approximately \$666.1 million and \$686.4 million as of June 30, 2014 and December 31, 2013, respectively. The fair values of debt as of June 30, 2014 and December 31, 2013 were \$707.0 million and \$705.8 million, respectively, based upon interest rates available to the Company on similar borrowings (Level 3). Management estimates the fair value of its secured loan receivables using a discounted cash flow analysis based upon the Company's current interest rates for secured loan receivables with similar maturities and collateral securing the indebtedness. The Company had outstanding secured loan receivables with a carrying value of approximately \$36.7 million and \$41.7 million as of June 30, 2014 and December 31, 2013, respectively. The fair values of secured loan receivables as of June 30, 2014 and December 31, 2013 approximate their carrying value based upon interest rates available to the Company on similar borrowings.

Table of Contents**Income Taxes**

For federal income tax purposes, the Company elected, with the filing of its initial Form 1120 REIT, U.S. Income Tax Return for U.S. Real Estate Investment Trusts, to be taxed as a REIT effective as of our taxable year ending December 31, 2010. To qualify as a REIT, the Company must meet certain organizational, income, asset and distribution tests. The Company currently is in compliance with these requirements and intends to maintain REIT status. If the Company fails to qualify as a REIT in any taxable year, the Company will be subject to federal income taxes at regular corporate rates (including any applicable alternative minimum tax) and may not elect REIT status for four subsequent years. However, the Company may still be subject to federal excise tax. In addition, the Company may be subject to certain state and local income and franchise taxes. Historically, the Company and its predecessor have generally only incurred certain state and local income and franchise taxes, but these amounts were immaterial in each of the periods presented. Prior to September 2010, the Partnership was taxed as a limited partnership and the consolidated operating results were included in the income tax returns of the individual partners. No uncertain income tax positions exist as of June 30, 2014 and December 31, 2013, respectively.

Noncontrolling Interests Operating Partnership / Partnership Units

Noncontrolling interests operating partnership, as presented on AVIV's consolidated balance sheets, represent OP units held by individuals and entities other than AVIV.

Noncontrolling interests operating partnership, which can be settled by issuance of unregistered shares of AVIV's common stock are reported in the equity section of the consolidated balance sheets of AVIV. They are adjusted for income, losses and distributions allocated to OP units not held by AVIV. Adjustments to noncontrolling interests operating partnership are recorded to reflect increases or decreases in the ownership of the Partnership by holders of OP units as a result of the redemptions of OP units for cash or, at the election of AVIV, in exchange for shares of AVIV's common stock.

Prior to the IPO, the capital structure of the Company's operating partnership consisted of six classes of partnership units, each of which had different capital accounts and each of which was entitled to different distributions. In connection with the IPO, each class of units of the Partnership was converted into an aggregate of 11,938,420 OP units held by investors other than AVIV in the Partnership. As of June 30, 2014, there were 11,443,312 OP units outstanding.

Earnings Per Share of the REIT

Basic earnings per share is calculated by dividing the net income allocable to common shares for the period by the weighted average number of common shares outstanding during the period. Diluted earnings per share is calculated by dividing the net income allocable to common shares for the period by the weighted average number of common and dilutive securities outstanding during the period.

Earnings Per Unit of the Partnership

Basic earnings per unit is calculated by dividing the net income allocable to units for the period by the weighted average number of OP units outstanding during the period. Diluted earnings per unit is calculated by dividing the net income allocable to OP units for the period by the weighted average number of units and dilutive securities outstanding during the period.

Risks and Uncertainties

The Company is subject to certain risks and uncertainties affecting the healthcare industry as a result of healthcare legislation and continuing regulation by federal, state, and local governments. Additionally, the Company is subject to risks and uncertainties as a result of changes affecting operators of nursing home facilities due to the actions of governmental agencies and insurers to limit the growth in cost of healthcare services.

Recent Accounting Pronouncements

In April 2014, the FASB issued ASU No. 2014-08, *Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity* (ASU No. 2014-08). ASU No. 2014-08 changes the definition of a discontinued operation to include only those disposals of components of an entity that represent a strategic shift that has (or will have) a major effect on an entity's operations and financial results. ASU No. 2014-08 is effective prospectively for fiscal years beginning after December 15, 2014 and is available for early adoption as of January 1, 2014. The Company adopted the provisions of ASU No. 2014-08 as of January 1, 2014 and incorporated the provisions of this update to its condensed consolidated financial statements upon adoption. The adoption of ASU No. 2014-08 did not have a material impact on the Company's financial condition or results of operations.

Table of Contents

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers*, which creates a new Topic, Accounting Standards Codification Topic 606 (Topic 606). The standard is principle-based and provides a five-step model to determine when and how revenue is recognized. The core principle is that a company should recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. This standard is effective for interim or annual periods beginning after December 15, 2016 and allows for either full retrospective or modified retrospective adoption. Early adoption of this standard is not allowed. The Company is currently evaluating the impact the adoption of Topic 606 will have on its financial statements.

Reclassifications

Certain prior period amounts have been reclassified to conform to the current financial statement presentation, with no effect on the Company's consolidated financial position or results of operations.

3. Real Estate Assets**2014 Acquisitions**

The Company had the following acquisitions during the six months ended June 30, 2014 as described below:

Month Acquired	Property Type	Location	Purchase Price (in thousands)
January	SNF/ALF/ILF	MN	\$ 40,000
January	SNF	TX	15,920
March	SNF	IA	13,500
March	SNF	KY	35,000
April	SNF	FL	6,000
April	SNF	TX	53,700
May	SNF	TX	3,600
May	SNF	CA	13,350
June	SNF	KY	6,000
			187,070
February	Land Held for Development	TX	2,110
			\$ 189,180

The following table illustrates the effect on total revenues and net income as if we had consummated the acquisitions as of January 1, 2013 (in thousands, unaudited):

	For the Three Months Ended		For the Six Months Ended	
	June 30,		June 30,	
	2014	2013	2014	2013
Total revenues	\$ 43,259	\$ 39,936	\$ 88,291	\$ 79,539

Edgar Filing: AVIV REIT, INC. - Form 10-Q

Net income	8,819	16,352	23,708	8,474
------------	-------	--------	--------	-------

For the three and six months ended June 30, 2014, revenues attributable to the acquired assets in 2014 were approximately \$4.8 million and \$6.6 million and net income attributable to the acquired assets was approximately \$2.6 million and \$2.7 million, respectively, recognized in the consolidated statements of operations.

Transaction-related costs are not expected to have a continuing significant impact on our financial results and therefore have been excluded from these pro forma results. Related to the above acquisitions, the Company incurred \$0.5 million and \$1.7 million of transaction costs for the three and six months ended June 30, 2014, respectively.

Table of Contents

In accordance with ASC 805, the Company allocated the approximate net purchase price paid for these properties acquired in 2014 as follows (in thousands):

Land	\$ 21,090
Buildings and improvements	150,210
Furniture, fixtures and equipment	15,770
Land held for development	2,110
Borrowings and available cash	\$ 189,180

The Company's purchase price allocation for the 2014 acquisitions and subsequent leasing of assets does not include an allocation to any intangible assets or intangible liabilities, as these amounts are either immaterial or do not exist.

The Company considers renewals on above- or below-market leases when ascribing value to the in-place lease intangible liabilities at the date of a property acquisition. In those instances where the renewal lease rate pursuant to the terms of the lease does not adjust to a current market rent, the Company evaluates whether the stated renewal rate is above or below current market rates and considers the past and current operations of the property, the current rent coverage ratio of the operator, and the number of years until potential renewal option exercise. If renewal is considered probable based on these factors, an additional lease intangible liability is recorded at acquisition and amortized over the renewal period.

2014 Dispositions

For the three months ended June 30, 2014, the Company disposed of one property for a total sales price of \$0.1 million, and the Company recognized a net loss on sale of approximately \$8,500. The total sales price and net loss are net of transaction costs incurred in relation to the closings at the time of disposition.

For the six months ended June 30, 2014, the Company disposed of two properties for a total sales price of \$0.6 million, and the Company recognized a net loss on sale of approximately \$13,000. The total sales price and net loss are net of transaction costs incurred in relation to the closings at the time of disposition.

Construction in Process

The following summarizes the Company's construction in progress and land held for development during the six months ended June 30, 2014 (in thousands):

	June 30, 2014
Beginning balance, January 1	\$ 23,292
Additions	12,576
Placed in service	(16,595)
	\$ 19,273

During 2014 and 2013, the Company capitalized expenditures for improvements related to various construction and reinvestment projects. In 2014, the Company placed into service four completed investment projects at four properties located in California, Pennsylvania, and Texas. In 2013, the Company placed into service one completed investment project at one property located in California. In accordance with ASC 835, *Capitalization of Interest* (ASC 835), the Company capitalizes interest based on the average cash balance of construction in progress for the period using the weighted-average interest rate on all outstanding debt, which approximated 7.0% for the three and six months ended June 30, 2014. The balance of capitalized interest within construction in progress at June 30, 2014 and December 31, 2013 was \$0.3 million and \$0.8 million, respectively. The amount capitalized during the three and six months ended June 30, 2014 and 2013, relative to interest incurred was \$0.1 million, \$0.3 million, \$0.1 million, and \$0.2 million, respectively.

Table of Contents**4. Secured Loan Receivables**

The Company's reserve on a loan-by-loan basis for uncollectible secured loan receivables balances at June 30, 2014 and December 31, 2013 was approximately \$3.2 million and \$0, respectively, and any movement in the reserve is reflected in reserve for uncollectible loan and other receivables in the consolidated statements of operations. The gross balance of secured loan receivables for which a reserve on a loan-by-loan basis for uncollectible secured loan receivables has been applied was approximately \$3.2 million and \$0, at June 30, 2014 and December 31, 2013, respectively.

During 2014 and 2013, the Company funded loans for both working capital and capital improvement purposes to various operators. All loans held by the Company accrue interest and are recorded as interest income unless the loan is deemed impaired in accordance with Company policy. The payments received from the operator cover both interest accrued as well as amortization of the principal balance due. Any payments received from the operator made outside of the normal loan amortization schedule are considered principal prepayments and reduce the outstanding loan receivables balance.

5. Deferred Finance Costs

The following summarizes the Company's deferred finance costs at June 30, 2014 and December 31, 2013 (in thousands):

Revolving Credit Facility (interest rate of 2.52% on December 31, 2013)		20,000
Total	\$ 666,064	\$ 686,406

The Company used approximately \$118.0 million of the net proceeds from the Equity Offering (as defined below) to repay all outstanding indebtedness under the Revolving Credit Facility.

2019 Notes

On February 4, 2011, April 5, 2011 and March 28, 2012, the Partnership and Aviv Healthcare Capital Corporation (the Issuers) issued \$200 million, \$100 million and \$100 million of 7 3/4% Senior Notes due in 2019 (the 2019 Notes), respectively. The REIT is a guarantor of the Issuers' 2019 Notes. The 2019 Notes are unsecured senior obligations of the Issuers and will mature on February 15, 2019 and bear interest at a rate of 7.75% per annum, payable semiannually to holders of record at the close of business on the February 1 or the August 1 immediately preceding the interest payment date on February 15 and August 15 of each year, commencing August 15, 2011. Premiums of approximately \$2.75 million and \$1.0 million were associated with the offerings of the \$100 million of 2019 Notes on April 5, 2011 and the \$100 million of 2019 Notes on March 28, 2012, respectively. The premiums will be amortized as an adjustment to the yield on the 2019 Notes over their term. The Company used the proceeds to, amongst other things, pay down the outstanding balance of previous credit facilities during 2012.

2021 Notes

On October 16, 2013, the Issuers issued \$250 million of 6% Senior Notes due in 2021 (2021 Notes). The REIT is a guarantor of the Issuers' 2021 Notes. The 2021 Notes are unsecured senior obligations of the Issuers and will mature on October 15, 2021 and bear interest at a rate of 6.00% per annum, payable semiannually to holders of record at the close of business on the April 1 or the October 1 immediately preceding the interest payment date on April 15 and October 15 of each year, commencing April 15, 2014. The Company used the net proceeds to, amongst other things, pay down approximately \$135.0 million of the outstanding indebtedness under the Revolving Credit Facility during 2013.

Credit Facility

On March 26, 2013, the Company, through Aviv Financing IV, entered into a \$300 million secured revolving credit facility and \$100 million term loan with Bank of America (collectively, the Revolving Credit Facility). On April 16, 2013, the Company converted the entire \$100 million term loan into a secured revolving credit facility, thereby terminating the term loan and any availability thereunder and increasing the amount available under the secured revolving credit facility from \$300 million to \$400 million. On each payment date, the Company paid interest only in arrears on any outstanding principal balance. The interest rate was based on LIBOR plus a margin of 235 basis points to 300 basis points depending on the Company's leverage ratio. Additionally, an unused fee equal to 50 basis points per annum of the daily unused balance on the Revolving Credit Facility was payable quarterly in arrears.

On May 14, 2014, the Company terminated the Revolving Credit Facility and, through Aviv Healthcare Properties, LP, entered into a new \$600 million unsecured revolving credit facility (the Credit Facility). The Credit Facility has a rate that ranges from 170 to 225 basis points over LIBOR depending on the Company's consolidated leverage and a maturity date of May 14, 2018. The Credit Facility can be extended for an additional year at the Company's option, subject to the satisfaction of certain conditions, and contains an accordion feature increasing the borrowing capacity to \$800 million. As of June 30, 2014, the Credit Facility had a balance of \$0.

Table of Contents***Other Loans***

On June 15, 2012, a subsidiary of Aviv Financing III assumed a HUD loan with a balance of approximately \$11.5 million. Interest is at a fixed rate of 5.00%. The loan originated in November 2009 with a maturity date of October 1, 2044 and is based on a 35-year amortization schedule. The Company is obligated to pay the remaining principal and interest payments of the loan. A premium of \$2.5 million was associated with the assumption of debt and will be amortized as an adjustment to interest expense on the HUD loan over its term.

9. Commitments and Contingencies

During 2011, the Company entered into a contractual arrangement with an operator in one of its facilities to reimburse any liabilities, obligations or claims of any kind or nature resulting from the actions of the former operator in such facility, Brighten Health Care Group. The Company is obligated to reimburse the fees to the operator if and when the operator incurs such expenses associated with certain Indemnified Events, as defined therein. The total possible obligation for these fees is estimated to be \$2.3 million, of which approximately \$1.9 million has been paid to date. The remaining \$0.4 million was accrued as a component of other liabilities in the consolidated balance sheets.

The Company has purchase options with one of its tenants that are not exercisable by the tenant until January 1, 2017 for five properties and January 1, 2019 for two properties. If the 2017 pool is not exercised, the tenant loses the right to exercise the 2019 option. The purchase options call for the purchase price, as defined, to be determined at a future date. In addition, the Company has purchase options with four tenants on five properties that are exercisable by the applicable tenant at various times during the terms of the respective leases. Two of such options are exercisable at a predetermined purchase price and the remaining three call for a purchase price to be determined at a future date.

The Company is involved in various unresolved legal actions and proceedings, which arise in the normal course of our business. Although the outcome of a particular proceeding can never be predicted, we do not believe that the result of any of these other matters will have a material adverse effect on our business, operating results, liquidity or financial position.

10. Noncontrolling Interests Operating Partnership / Partnership Units

Noncontrolling interests operating partnership, as presented on AVIV's consolidated balance sheets, represent the OP units held by individuals and entities other than AVIV. Accordingly, the following discussion related to noncontrolling interests operating partnership of the REIT refers equally to OP units of the Partnership.

Holders of OP units are entitled to receive distributions in a per unit amount equal to the per share dividends made with respect to each share of AVIV's common stock, if and when AVIV's Board of Directors declares such a dividend. Holders of OP units have the right to tender their OP units for redemption, in an amount equal to the fair market value of AVIV's common stock. AVIV may elect to redeem tendered OP units for cash or for shares of AVIV's common stock. During the three and six months ended June 30, 2014, OP unitholders redeemed a total of 68,500 and 172,971 OP units in exchange for an equal number of shares of common stock of AVIV.

11. Stockholders Equity of the REIT and Partners Capital of the Partnership

Total		\$ 0.72	

12. Equity Compensation Plan

Prior to September 2010, the Partnership had established an officer incentive program linked to its future value. Class D units were periodically granted to employees of Aviv Asset Management, L.L.C. (AAM), a subsidiary of the Operating Partnership. Part of the Class D Units are defined as performance-based awards under ASC 718 and require employment of the recipient on the date of sale, disposition, or refinancing. If the employee is no longer employed on such date, the award is forfeited. The remainder of the Class D Units were time-based awards under ASC 718 and such fair value determined on the grant date was recognized over the vesting period. On March 26, 2013, the performance component Class D Units vested and along with time based units were converted to OP units in connection with the IPO, and \$0.9 million of expense was recognized.

Restricted Stock Grants

On March 26, 2013 the Company adopted the Aviv REIT, Inc. 2013 Long-Term Incentive Plan (the LTIP). The purpose of the LTIP is to attract and retain qualified persons upon whom, in large measure, the Company's sustained progress, growth and profitability depend, to motivate the participants to achieve long-term Company goals and to align the participants' interests with those of other stockholders by providing them with a proprietary interest in the Company's growth and performance. The Company's executive officers, employees, consultants and non-employee directors are eligible to participate in the LTIP. Under the plan, 2,000,000 shares of the Company's common stock are available for issuance. The shares can be issued as restricted stock awards (RSAs) or as restricted stock units (RSUs).

During 2013, the Company issued 70,500 RSAs, of which 23,250 shares were issued, vested, and are unrestricted and 47,250 shares were issued and are subject to a vesting period. During the six months ended June 30, 2014, 15,750 of the 47,250 RSAs vested. Additionally, the Company issued 226,585 RSUs, of which 17,470 were subsequently forfeited prior to the year ended December 31, 2013. Of these 226,585 RSUs, 16,361 shares were issued and vested in the six months ended June 30, 2014 and an additional 1,762 RSUs were forfeited. Some of these RSUs are subject to time vesting, and some are subject to performance vesting. The time-based equity RSUs generally vest over a period of two to three years, subject to the employee's continued employment with the Company. The performance-based RSUs are earned on the basis of Total Shareholder Return (TSR) on the Company's stock compared to the TSR of a defined group of peer companies. The first installment of the performance based RSUs are based on the companies comprising the NAREIT Equity Index and the companies comprising the Bloomberg Healthcare REIT Index for the performance period beginning on the date of the IPO and ending December 31, 2014. The second installment is based on the companies comprising the NAREIT Equity Index and the companies comprising the Bloomberg Healthcare REIT Index for the performance period beginning on the date of the IPO and ending December 31, 2015. If the service and performance conditions are met, approximately half of the RSUs will vest on December 31, 2014 and the remaining will vest on December 31, 2015. The RSUs carry dividend equivalent rights that are subject to the same

vesting terms as the underlying RSUs.

During the six months ended June 30, 2014, the Company issued 144,905 RSUs of which 1,554 have been forfeited. Some of these RSUs are subject to time vesting and some are subject to performance vesting. The time-based RSUs cliff vest over a period of three years, subject to the employee's continued employment with the Company. The performance-based RSUs cliff vest on the basis of TSR on the Company's stock compared to the TSR of a defined group of peer companies. Approximately half of the performance based RSUs are based on the companies comprising the NAREIT Equity Index for the performance period beginning on January 1, 2014 and ending December 31, 2016. Approximately half are based on the companies in the Bloomberg Healthcare REIT Index for the performance period beginning on January 1, 2014 and ending December 31, 2016. If the service and performance conditions are met, the RSUs will vest on December 31, 2016.

For the three and six months ended June 30, 2014 and 2013, the Company recognized total non-cash stock-based compensation expense related to the LTIP of \$1.5 million, \$2.6 million, \$0.04 million, and \$0.5 million, respectively.

Table of Contents

Restricted stock grants vest over specified periods of time as long as the employee remains with the Company. The following table sets forth the number of unvested shares of restricted stock and the weighted average fair value of these shares at the date of grant:

- (1) Includes 7,944 shares which were used to settle minimum employee withholding tax obligations for one employee of approximately \$0.2 million in 2014. A net of 32,111 shares of common stock were delivered in the six months ended June 30, 2014.

As of June 30, 2014, total unearned compensation on restricted stock was \$7.8 million, and the weighted average vesting period was 1.92 years.

Option Awards

On September 17, 2010, the Company adopted the 2010 Management Incentive Plan (the MIP), which provides for the grant of option awards. Two-thirds of the options granted under the MIP were performance based awards whose criteria for vesting is tied to a future liquidity event (as defined) and also contingent upon meeting certain return thresholds (as defined). The grant date fair value associated with all performance-based award options of the Company aggregated to approximately \$7.4 million at the time of the IPO. One third of the options granted under the MIP were time based awards and the service period for these options is four years with shares vesting at a rate of 25% ratably from the grant date.

In connection with the IPO, all options outstanding under the MIP, representing options to purchase 5,870,138 shares with a weighted average exercise price of \$17.47 per share, became fully-vested. In addition, recipients were entitled to receive dividend equivalents on their options awarded under the MIP. Dividend equivalents were paid on time-based options on (i) the date of vesting, with respect to any portion of a time-based option that was unvested on the date the dividend equivalent was accrued, and (ii) the last day of the calendar quarter in which such dividends were paid to stockholders, with respect to any portion of a time-based option vested as of the date the dividend equivalent was accrued. Dividend equivalents accrued and unpaid prior to the consummation of the IPO in the approximate amount of \$14.8 million were paid in shares of common stock, net of applicable withholding of approximately \$6.8 million, in an amount based on the IPO price of the common stock. No dividend equivalents will be paid for any MIP options with respect to periods after the date of the IPO by the Company.

In connection with the IPO, the holders of option awards under the MIP received a new class of units of LG Aviv L.P., the legal entity through which Goldberg Lindsay & Co., LLC holds its interest in the REIT, equal to the number of options held by such persons immediately prior to the consummation of the IPO. Under the limited partnership agreement of LG Aviv L.P., the units are entitled to receive an aggregate distribution amount equal to 14.9% of the dividend distributions declared and received by LG Aviv L.P. after the consummation of the IPO in respect of its shares of common stock. The distribution amount will be paid by LG Aviv L.P. ratably to each holder of such units on the distribution date in the proportion that the total number of units held by such holder bears to the total outstanding units of the same class. Any unit payments will be paid, if at all, on the earlier of (i) the last day of the calendar quarter in which dividends were paid to the Company stockholders and (ii) three business days following the holder's termination of employment with the Company. For the six months ended June 30, 2014, \$2.4 million was paid by LG Aviv L.P. to the holders of such units.

The Company has used the Black-Scholes option pricing model to estimate the grant date fair value of the options. In connection with the IPO, all options outstanding under the MIP became fully-vested, and the plan was retired. There were no options awarded in the six months ended June 30, 2014 or 2013.

The Company recorded non-cash compensation expenses of approximately \$0, \$0, \$0, and \$9.0 million for the three and six months ended June 30, 2014 and 2013, respectively, related to the time and performance based stock options accounted for as equity awards, as a component of general and administrative expenses in the consolidated statements of operations.

At June 30, 2014, there is no unrecognized compensation cost to be recognized related to the option awards.

Dividend equivalent rights associated with the MIP that became payable upon vesting amounted to \$0, \$0, \$0 and \$15.4 million for the three and six months ended June 30, 2014 and 2013, respectively.

15. Subsequent Events

On July 1, 2014, the Company acquired three properties in Missouri for a purchase price of \$16.2 million from an unrelated third party.

On July 10, 2014, the Company acquired three properties and two land parcels in Massachusetts for a purchase price of \$94.3 million. Sidney and Evelyn Insoft, the parents of Steven Insoft, the Company's President and Chief Operating Officer, jointly hold a 50% equity interest in the sellers of the properties, representing a gross economic interest in the sale of approximately \$47.1 million. The Company believes that the terms of the acquisition were fair and reasonable and reflect terms that the Company would expect to obtain in an arm's length transaction for comparable properties.

The following table illustrates the effect on total revenues and net income as if we had consummated the above acquisitions, as well as those noted in Note 3, Real Estate Assets, as of January 1, 2013 (unaudited).

AVIV and certain of the Partnership's direct and indirect wholly owned subsidiaries (the Subsidiary Guarantors) fully and unconditionally guaranteed, on a joint and several basis, the obligation to pay principal and interest with respect to our 2019 Notes and 2021 Notes issued in February 2011, April 2011, March 2012 and October 2013. The 2019 Notes and 2021 Notes were issued by the Partnership and Aviv Healthcare Capital Corporation. Separate financial statements of the guarantors are not provided, as the consolidating financial information contained herein provides a more meaningful disclosure to allow investors to determine the nature of the assets held by and the operations of the respective guarantor and non-guarantor subsidiaries. Other wholly owned subsidiaries (Non-Guarantor Subsidiaries) that were not included among the Subsidiary Guarantors were not obligated with respect to the 2019 Notes and 2021 Notes. The properties held by the Non-Guarantor Subsidiaries are subject to mortgages. The following summarizes the Partnership's condensed consolidating information as of June 30, 2014 and December 31, 2013 and for the three and six months ended June 30, 2014, and 2013:
