VOTING

How to Vote Your Shares

If you are a registered stockholder, you can vote at the meeting any shares that were registered in your name as the stockholder of record as of the record date. If your shares are held in street name through a broker, bank or other nominee, you are not a holder of record of those shares and cannot vote them at the Annual Meeting unless you have a legal proxy from the holder of record. If you plan to attend and vote your street name shares at the Annual Meeting, you should request a legal proxy from your broker, bank or holder of record and bring it with you to the meeting.

Table of Contents

Whether or not you plan to attend the meeting, we strongly encourage you to vote by proxy prior to the meeting. You may vote your shares prior to the meeting by following the instructions provided on the Notice of Internet Availability of Proxy Materials, this proxy statement and the voter website, www.proxyvote.com. If you requested a paper copy of the proxy materials, voting instructions are also contained on the proxy card enclosed with those materials.

If you are a *registered* stockholder, there are three ways to vote your shares before the meeting:

By Internet (www.proxyvote.com): Use the Internet to transmit your voting instructions until 11:59 p.m. EDT on June 10, 2015. Have your Notice of Internet Availability of Proxy Materials with you when you access the website and follow the instructions to obtain your records and to create an electronic voting instruction form.

By telephone (1-800-690-6903): Use any touch-tone telephone to submit your vote until 11:59 p.m. EDT on June 10, 2015. Have your Notice of Internet Availability of Proxy Materials in hand when you call and then follow the instructions you receive from the telephone voting site.

By mail: If you requested a paper copy of the proxy materials, mark, sign and date the proxy card enclosed with those materials and return it in the postage-paid envelope we have provided. To be valid, proxy cards must be received before the start of the Annual Meeting. Proxy cards should be returned to Vote Processing, c/o Broadridge, 51 Mercedes Way, Edgewood, NY 11717.

If your shares are held in street name, your broker, bank or other holder of record may provide you with a Notice of Internet Availability of Proxy Materials. Follow the instructions on the Notice to access our proxy materials and vote online or to request a paper or email copy of our proxy materials. If you received these materials in paper form, the materials included a voting instruction card so you can instruct your broker, bank or other holder of record how to vote your shares.

You should provide voting instructions for all proposals appearing on the proxy/voting instruction card. The persons named as proxies on the proxy card will vote your shares according to your instructions. However, if you do not provide voting instructions with your proxy, then the designated proxies will vote your shares for the election of the nominated directors, for the ratification of the Company's independent registered public accounting firm, for the approval of the Company's executive compensation, for approval of the amendments to the 2010 Incentive Plan, for approval of the Company's non-binding proxy access proposal, and against the shareholder proposal. If any nominee for election to the Board is unable to serve, which is not anticipated, or if any other matters properly come before the meeting, then the designated proxies will vote your shares in accordance with their best judgment.

How to Revoke Your Proxy

If you are a registered stockholder, you can revoke your proxy and change your vote at any time prior to the Annual Meeting by:

Notifying our Corporate Secretary in writing at One Village Center Drive, Van Buren Township, Michigan 48111 (the notification must be received by the close of business on June 10, 2015);

Voting again by Internet or telephone prior to 11:59 p.m. EDT on June 10, 2015 (only the latest vote you submit will be counted); or

Submitting a new properly signed and dated paper proxy card with a later date (your proxy card must be received before the start of the Annual Meeting).

If your shares are held in street name, you should contact your broker, bank or other holder of record about revoking your voting instructions and changing your vote prior to the meeting.

Edgar Filing: VISTEON CORP - Form PRE 14A

If you are eligible to vote at the Annual Meeting, you also can revoke your proxy or voting instructions and change your vote at the Annual Meeting by submitting a written ballot before the polls close.

Table of Contents

Stockholders Entitled to Vote and Ownership

You are entitled to one vote at the Annual Meeting for each share of the Company's common stock that you owned of record at the close of business on April 15, 2015. As of April 15, 2015, the Company had issued and outstanding 44,575,398 shares of common stock. Information regarding the holdings of the Company's stock by directors, executive officers and certain other beneficial owners can be found beginning on page 14.

A list of the stockholders of record entitled to vote at the Annual Meeting will be available for review by any stockholder, for any purpose related to the meeting, between 9:00 a.m. and 5:00 p.m. at the principal offices of the Company, located at One Village Center Drive, Van Buren Township, Michigan 48111, for ten days before the meeting.

Required Vote to Approve the Proposals

The Company's Bylaws require that a majority of the Company's common stock be represented at the Annual Meeting, whether in person or by proxy, for the quorum that is needed to transact any business.

Election of Directors. To be elected, directors must receive a majority of the votes cast (the number of shares voted For a director nominee must exceed the number of votes cast Against that nominee), except in the event of a contested election. A properly executed proxy marked Abstain with respect to such matter will not be counted as votes For or Against a director, although it will be counted for purposes of determining whether there is a quorum. In the event of a contested election (where the number of nominees exceeds the number of vacancies), the affirmative vote of a plurality of the votes cast at the meeting would be required for the election of directors. A properly executed proxy marked to withhold authority with respect to the election of one or more directors will not be voted with respect to the director or directors indicated, although it will be counted for purposes of determining whether there is a quorum.

Other Proposals. For each proposal other than the election of directors, the affirmative vote of the holders of a majority of the shares represented in person or by proxy and entitled to vote on the item will be required for approval. A properly executed proxy marked Abstain with respect to any such matter will not be voted, although it will be counted for purposes of determining whether there is a quorum. Accordingly, an abstention will have the effect of a negative vote.

If you hold your shares in street name through a broker or other nominee and you do not give voting instructions at least ten days before the meeting to your broker or other nominee, then your broker or other nominee may exercise voting discretion only with respect to matters considered to be routine by the New York Stock Exchange, such as the ratification of the appointment of the independent registered public accounting firm. On non-routine matters, such as the election of directors and the other proposals, the brokers or other nominees cannot vote your shares absent voting instructions from the beneficial holder, resulting in so-called broker non-votes. Broker non-votes are not deemed to be votes cast, and as a result have no effect on the outcome of any matters presented, but will be counted in determining whether there is a quorum.

Where to Find Voting Results

The Company will publish the voting results in a Current Report on Form 8-K to be filed with the SEC within four business days after the voting results are known. You will also find the results in the investor information section of the Company's website (www.visteon.com/investors).

Cost of Solicitation

The Company will pay for soliciting these proxies. The Company's directors, officers and employees may solicit proxies in person or by telephone, mail, email, telecopy or letter. The Company has also retained Georgeson Inc. to assist it in distributing proxy solicitation materials and soliciting proxies at a cost of approximately \$8,000 plus reasonable out-of-pocket expenses. The Company will reimburse brokers and other nominees for their reasonable out-of-pocket expenses for forwarding proxy materials to beneficial owners.

Table of Contents

ITEM 1. ELECTION OF DIRECTORS

The first proposal on the agenda for the Annual Meeting will be electing ten directors to hold office until the Annual Meeting of Stockholders to be held in 2016. We expect each nominee for election as a director to be able to serve if elected. If any nominee is not able to serve, proxies will be voted in favor of the remainder of those nominated and may be voted for substitute nominees, unless the Board chooses to reduce the number of directors serving on the Board.

The Company's Bylaws provide that in any uncontested election (an election in which the number of nominees for director is not greater than the number to be elected), each director shall be elected if the number of votes cast for the nominee's election exceed the number of votes cast against that nominee's election. The Bylaws also provide that any nominee who does not receive more votes cast for the nominee's election than the number of votes cast against that nominee in an uncontested election is expected to promptly tender his or her resignation to the Chairman of the Board, which resignation shall be promptly considered through a process managed by the Corporate Governance and Nominating Committee, to determine if a compelling reason exists for concluding that it is in the best interests of the Company for such incumbent to remain a director based on certain factors. The Corporate Governance and Nominating Committee shall provide its recommendation to the Board with respect to any tendered resignation within 14 days of the certification of the election voting results and such recommendation shall be acted on by the Board within 30 days of the certification of the voting results. If a resignation offer is not accepted by the Board, it will publicly disclose its decision, including a summary of reasons for not accepting the offer of resignation. In a contested election (an election in which the number of nominees for director is greater than the number to be elected), the directors shall be elected by a plurality of the votes of the shares present in person or represented by proxy at the meeting and entitled to vote on the election of directors.

Director Nomination Process

The Corporate Governance and Nominating Committee assesses all director candidates, whether submitted by management, a stockholder or otherwise, and recommends nominees for election to the Board. The Corporate Governance and Nominating Committee commenced an active search in 2014 for potential director candidates that met its qualification objectives and to further enhance the Board's diversity. The Corporate Governance and Nominating Committee engaged Egon Zehnder, a director search firm, to assist it in identifying and evaluating potential director candidates, as well as utilizing the contacts of existing directors and executives of the Company. In January 2015, the Board appointed, following the recommendation of the Corporate Governance and Nominating Committee, Ms. Maguire and Dr. Yassini-Fard to the Board. Ms. Maguire was identified through the search firm process and Dr. Yassini-Fard was proposed as director candidate by a current director. In April 2015, the Corporate Governance and Nominating Committee determined that all incumbent directors wishing to stand for election this year should be re-nominated to stand for election at this Annual Meeting. The key considerations for Board candidates in this process included: specific skills and intellectual capital aligned with the Company's future strategic and operating challenges, strong commitment to increasing shareholder value, core business competencies, including a record of success, financial literacy, a high degree of ethics and integrity, interpersonal skills, enthusiasm, independence and prior board experience. The Board considers diversity to be an important factor in the selection and nomination of director candidates. Although the Board does not establish specific goals with respect to diversity, the Board's overall diversity is a significant consideration in the nomination process. This process resulted in selecting a Board that would have a diversity of international perspectives and experiences in light of the Company's global business. The current nominees range in age from forty-three to seventy-one, one is female, and two were born or reside outside of the United States.

The Board concurred with the recommendations of the Corporate Governance and Nominating Committee. The specific experiences, qualifications and skills that were considered in their initial selection, and considered by the Board in their nomination, are included after each of the individual biographies below. Messrs. Cocroft, Jones, Leuliette, Manzo, Scricco, Treadwell, Wilson and Yuen are current directors and nominees who have been elected by stockholders at the last annual meeting of stockholders, and Ms. Maguire and Dr. Yassini-Fard are current directors and nominees who were appointed after the last annual meeting of stockholders.

The Board of Directors Recommends that You Vote FOR the Election of Duncan H. Cocroft, Jeffrey D. Jones, Timothy D. Leuliette, Joanne M. Maguire, Robert J. Manzo, Francis M. Scricco, David L. Treadwell, Harry J. Wilson, Rouzbeh Yassini-Fard and Kam Ho George Yuen as Directors.

CORPORATE GOVERNANCE

Corporate Governance Guidelines

The Board has adopted Corporate Governance Guidelines to define the role of the Board, its structure and composition, as well as set forth principles regarding director commitment expectations and compensation. The guidelines also limit the number of other boards a director may serve on and the maximum age of directors.

Board Leadership Structure

After considering evolving governance practices and its current profile, since September 2012, the Board has separated the positions of Chairman and Chief Executive Officer by appointing a non-executive Chairman. The non-executive Chairman will serve in a lead capacity to coordinate the activities of the other outside Directors and to perform the duties and responsibilities as the Board of Directors may determine from time to time. Currently, these responsibilities include:

To preside at all meetings of shareholders;

To convene and preside at all meetings of the Board, including executive sessions of the independent Directors;

Develop, with the assistance of the Chief Executive Officer (the CEO), the agenda for all Board meetings;

Collaborate with the CEO, committee Chairs, and other Directors to establish meeting schedules, agendas, and materials in order to ensure that all Directors can perform their duties responsibly and that there is sufficient time for discussion of all agenda items;

Advise the CEO on the quantity, quality, and timeliness of information delivered by management to the Board and provide input so that Directors can effectively and responsibly perform their duties;

Counsel the CEO on issues of interest or concern to Directors and encourage all Directors to engage the CEO with their interests and concerns;

Board Risk Oversight

The Board believes that its primary responsibility is to oversee the business and affairs of the Company for the protection and enhancement of shareholder value, which includes assessing major risks facing the Company and options for mitigating these risks. The committees help the Board carry out this responsibility by focusing on specific key areas of risk inherent in our business.

The Audit Committee oversees risks associated with financial and accounting matters, including compliance with legal and regulatory requirements, and the Company's financial reporting and internal control systems.

The Corporate Governance and Nominating Committee oversees risks associated with corporate governance, including Board structure and director succession planning.

The Organization and Compensation Committee helps ensure that the Company's compensation policies and practices support the retention and development of executive talent with the experience required to manage risks inherent to the business and do not encourage or reward excessive risk-taking by our executives.

The Finance and Corporate Strategy Committee oversees risks associated with financial instruments, financial policies and strategies, and capital structure.

The Board receives regular updates from the committees about their activities in this regard. The Company's enterprise risk management approach utilizes a risk committee comprised of management level employees to monitor, manage and communicate significant risks related to global financial, operating, strategic, and compliance matters. The risk committee meets on a regular basis, and is chaired by the Company's General Counsel, who makes periodic reports to the Chief Executive Officer and the Board of Directors or its committees.

Director Independence

The Corporate Governance Guidelines adopted by the Board of Directors provide that a majority of the members of the Board, and each member of the Audit, Organization and Compensation, Corporate Governance and Nominating, and Finance and Corporate Strategy Committees, must meet the independence criteria of applicable law and stock exchange listing standards. For a director to be considered independent, the Board must determine that the director does not have any direct or indirect material relationship with the Company. To assist it in determining director independence, the Board of Directors has adopted the Visteon Director Independence Guidelines. The Visteon Director Independence Guidelines contain categorical standards of independence which conform to, or are more exacting than applicable law and stock exchange listing standards. In addition to applying its guidelines, the Board will consider all relevant facts and circumstances that it is aware of in making an independence determination.

The Board undertook its annual review of director independence in April 2015, and, based on the listing standards of the New York Stock Exchange and the Visteon Director Independence Guidelines, the Board has affirmatively determined that all of the non-employee directors, namely Ms. Maguire and Messrs. Cocroft, Jones, Manzo, Scricco, Treadwell, Wilson, Yassini-Fard and Yuen, are independent. None of these

non-employee directors currently has any relationship with the Company (other than as a director or stockholder). Mr. Leuliette is not independent due to his employment as a senior executive of the Company.

Pursuant to the Corporate Governance Guidelines, the non-employee directors meet without management at the end of every regularly scheduled Board meeting. The presiding director at these meetings is the non-executive Chairman or the Lead Independent Director, or if there be none, the most tenured independent director in attendance.

All amounts deferred are distributed following termination of board service in a lump sum or in ten annual installments on the later of January 15th of the year following or six months after the date of termination of service or upon a change in control. As noted above, stock units held under the Non-Employee Director Stock Unit

Timothy D. Leuliette, President and Chief Executive Officer (CEO);

Jeffrey M. Stafeil, Executive Vice President and Chief Financial Officer (CFO);

Martin T. Thall, Executive Vice President and President, Electronics Product Group;

Peter M. Ziparo, Vice President and General Counsel, effective April 2014; and

Michael J. Widgren, Senior Vice President, Corporate Controller and Chief Accounting Officer.

Executive Summary

The executive team's primary focus remains on optimizing the business portfolio in order to deliver profits and generate cash, maximizing shareholder value. During 2014, we implemented changes and entered into significant agreements to unlock shareholder value and strongly position the new Visteon for future growth. Specifically, as we enter 2015, we are positioning the Company to become a pure-play, world-class Cockpit Electronics Ecosystems Enterprise (Electronics business) that is a leader in innovation.

Highlights of these key actions and other 2014 financial and strategic achievements are summarized below.

2014 Adjusted EBITDA of \$702 million, up 17% from 2013;

2014 Adjusted Free Cash Flow of \$111 million;

Completing the acquisition of the JCI Electronics business, which, when combined with our existing capabilities, is expected to enhance Visteon's competitive position in the fast-growing vehicle cockpit electronics segment by strengthening its global scale, manufacturing and engineering footprint, product portfolio and customer penetration. On a combined basis, the Company's Electronics business is expected to have approximately \$3 billion in annual revenue with a No. 2 global position in driver information and above-average growth rates for the cockpit electronics segment, supplying nine of the world's ten largest vehicle manufacturers;

Winning a record \$1.3 billion of new and re-win Electronics business during 2014;

Strengthening our balance sheet by transferring approximately \$350 million of U.S. pension assets to Prudential Insurance Company of America in settlement of approximately \$350 million of U.S. pension obligation, which substantially reduces the related risk of economic volatility associated with the pension assets and obligation;

Edgar Filing: VISTEON CORP - Form PRE 14A

Acquiring the thermal and emissions product line of Cooper Standard, which was added to our Halla Visteon Climate Control Corporation (HVCC) business;

Completing the divestiture of the majority of the Interiors business, which allows the Company to focus on its market-leading position in the Electronics business;

Entering into a Share Purchase Agreement in December 2014 with Hahn & Co. Auto Holdings Co., Ltd. and Hankook Tire Co., Ltd. to sell all of our outstanding shares in HVCC for approximately \$3.6 billion or KRW 52,000 per share. The agreement, subject to regulatory reviews, shareholder approval and other conditions, is expected to be completed in the first half of 2015; and

Returning approximately \$500 million in cash to shareholders through share repurchases in 2014.

Table of Contents

Our recent total shareholder returns (TSR) have been strong, as shown below, with 2014 at +30% and the three-year TSR (2012 to 2014) at +114%.

2014 Named Executive Officer Annualized Target Compensation Opportunity Is Primarily Performance-based

The vast majority of the annualized target compensation opportunity (including long-term incentives awarded in 2012) is performance-based with the amounts realized, if any, based on our financial results or stock price performance. In 2014, 83% of the CEO's annualized target compensation was provided through annual and long-term incentive award opportunities.

Base Salary 17% of the target compensation mix

Annual Incentive award opportunity 20%

Long-Term Incentive award opportunity 63%

Our Strong 2014 Performance Results Are Reflected in 2014 Compensation

The 2014 compensation for our Named Executive Officers is commensurate with the Company's 2014 performance and the goals of our executive compensation program. The mix of award types and incentive plan performance measures was selected to align with our business strategy, talent needs, and market practices. Actual pay realized by the executive officers was based primarily on the Company's financial and stock price performance results. A minority of pay was based on fixed elements (base salaries, perquisites, and retirement benefit contributions on base salaries), given our focus on performance-based pay elements (annual and long-term incentives).

The Company's Adjusted EBITDA performance for 2014 far exceeded our targeted Adjusted EBITDA metric for our Annual Incentive award opportunity. The Company also generated total shareholder return of +30% for 2014.

No New Long-Term Incentive Compensation Awards for Longer Serving NEOs

In 2012, the Organization and Compensation Committee (the Committee) granted long-term incentive awards to certain Named Executive Officers that were designed to cover awards that would have been made in each of 2013, 2014 and 2015. As a result, the CEO and other Named Executive Officers hired/in the role before 2014 did not receive an annual grant of long-term incentive awards in 2014. The 2012 awards are tied to long-term value creation, as measured by total shareholder return and sustained stock price appreciation. The Organization and Compensation

Table of Contents

Committee designed the executive officer long-term incentive structure to align management with the ultimate measure of the Company's success by our shareholders' long-term stock price performance. Mr. Thall, who joined the Company in November 2013, was awarded a long-term incentive opportunity that is based on increasing the value of the Company's Electronics business. Executives who participated in the Late 2012 Three-Year award (covering 2013 to 2015) did not participate in the 2014 Long-Term Incentive (LTI) award. Mr. Ziparo's late 2012 award was a one year award covering 2013, as such he was the only NEO to receive an LTI award in 2014.

2014 Say-on-Pay Advisory Vote Outcome

In 2014, our executive compensation program received 88.8% approval from our shareholders. This strong level of shareholder support was an improvement on the 72.4% approval received in 2013. Our goal is to continue to meet the approval of our shareholders and remain responsive to their concerns. As such, we regularly have discussions with shareholders to ensure they understand our officer pay program and to address any questions. During 2014 these discussions did not identify any issues, which further confirmed that, overall, our officer pay program is well aligned to shareholder value creation. As detailed throughout this Compensation Discussion & Analysis, we believe the officer compensation program is strongly aligned with shareholder value creation, and reflects strong corporate governance practices.

Executive Compensation Program Design and Governance Practices

Our executive compensation program is designed to provide strong alignment between executive pay and Company performance, and incorporates best practices. Here are some of the compensation practices we follow and those that we avoid.

What We Do

- ü The Committee approves all aspects of officer pay

- ü Target pay levels, on average, to be within a competitive range of the median of comparable companies, considering an individual's responsibilities, business impact, performance and other factors

- ü Provide the majority of pay through performance-based annual and long-term programs

- ü Balance short- and long-term incentives using multiple performance metrics, covering individual, financial and total shareholder return performance

- ü Have double trigger (qualified termination of employment following a change in control) equity acceleration for all of the CEO's awards and most equity awards granted since mid-2012. Beginning in 2015, all equity awards have a double trigger, as specified in the amended 2010 Incentive Plan (shareholder proposal herein)

- ü Cap incentive awards that are based on performance goals

Edgar Filing: VISTEON CORP - Form PRE 14A

- ü Have change in control agreements with a double trigger for cash severance payments to be made

- ü Apply robust stock ownership guidelines to ensure ongoing and meaningful alignment with stockholders

- ü Have a compensation recovery (clawback) policy for executive officers in the event of a financial restatement

- ü Prohibit hedging transactions, purchasing the Company s common stock on margin or pledging such shares

- ü Provide limited perquisites

- ü Review key elements of the officer pay program annually, as conducted by the Committee, which also considers our business and talent needs, and market trends

- ü Use an independent compensation consultant

Executive Compensation Program Philosophy

The primary objectives of the Company's executive compensation program are to recruit, motivate, and retain highly-qualified executives who are key to our long-term success and will focus on maximizing shareholder value. As such, the Company's executive compensation program is structured to accomplish the following:

Drive achievement of the Company's strategic plans and objectives;

Create strong alignment of the interests of executives with the creation of shareholder value, particularly as measured by total shareholder return/stock price appreciation;

Table of Contents

Provide a market competitive total compensation package customized to fit our business and talent needs; and

Be cost-effective and straightforward to understand and communicate.

For each element of compensation and in total, the Company generally targets annualized compensation to be within a competitive range of market median, considering an individual's experience, performance, and business impact, as well as our organizational structure and cost implications. The target compensation mix is set based on position responsibilities, individual considerations, and market competitive practices. The proportion of variable, or at risk, compensation, provided through incentive programs, increases as an employee's level of responsibility increases commensurate with the position's impact on the business. The actual pay earned, if any, for annual and long-term incentives reflects Company and individual performance.

Market Compensation Practices

As one of the inputs in determining executive compensation each year, the Company reviews survey and proxy compensation data regarding market practices. In 2014, the Company reviewed NEO base salaries, target annual and long-term incentive award opportunities, as well as selected pay program design practices. In conducting this review, the Committee selected 16 companies in similar industries (the Compensation Peer Group) with median annual revenues of approximately \$7 billion (range of \$2 to \$16 billion), and general industry as comparators. We believe the Compensation Peer Group represents a reasonable comparator group of direct automotive supplier peers and other related companies with which we currently compete for executive talent. When general industry compensation data are used, the Company is not aware of the specific participant companies in the analysis. The Compensation Peer Group, which is unchanged from 2013, is listed below.

Executive Compensation Program Description of Primary Elements

An overview of the primary elements of the executive compensation program is presented below. Consistent with our emphasis on aligning pay and performance, the largest portion of the target compensation opportunity is provided through annual and long-term incentive programs.

Each primary element of the executive compensation program is described below.

Base Salary

Base salaries, combined with medical, life and disability benefits, provide basic security for our employees at levels necessary to attract and retain a highly qualified and effective salaried workforce. Base salaries are determined taking into account market data as well as an individual's position, responsibilities, experience, and value to the Company. During 2014 three of the Named Executive Officers received base salary increases. Effective April 1, 2014, Messrs. Stafeil and Widgren received merit-based salary increases of 3% to \$689,585 and \$422,300, respectively and, coinciding with his promotion, Mr. Ziparo received a market- and merit-based increase resulting in an annualized salary of \$350,000. The actual salaries paid to each Named Executive Officer for 2014 are presented in the Summary Compensation Table.

Annual Incentive Awards

The Company's Annual Incentive (AI) program provides key salaried employees the opportunity to earn an annual cash bonus based on specified individual, financial, operational and/or strategic goals. This program is designed to motivate executives to achieve key short-term financial and operational goals of the Company. The target incentive

Table of Contents

opportunities are expressed as a percentage of base salary, which are set by the Committee considering the potential impact on the business of each role, the relationships among the roles and market competitive levels for the positions. The target annual incentive opportunities, as a percentage of base salary as of December 31, 2014, are: Mr. Leuliette 125%, Messrs. Stafeil and Thall 80%, Mr. Ziparo 50% and Mr. Widgren 60%. Actual awards earned can range from 0% to 200% of target based on Company, business unit and individual performance.

On February 26, 2014, the Committee approved 2014 AI award opportunities for approximately 1,500 global salaried employees, including the Named Executive Officers. The Committee determined that the maximum amount an executive officer would be eligible for under the 2014 AI would be based upon the Company's achievement of Adjusted EBITDA in 2014, which serves as a single umbrella performance measure. The Committee would then exercise its negative discretion from these maximum amounts based on assessment of individual, product group and Company performance with respect to relevant financial and operational goals.

Specific threshold, target, and maximum goals for the 2014 AI are set forth below, as well as the percentage of the target award earned and 2014 actual results.

Measure (\$ in millions)	2014 Threshold (0%)	2014 Target (100%)	2014 Maximum (200%)	2014 Actual	Resulting Award as % of Target
Adjusted EBITDA	<\$ 340	\$ 340	\$ 580	\$ 702	200%

Adjusted EBITDA was defined as net income (loss) attributable to the Company, plus net interest expense, provision for income taxes, depreciation and amortization and net income attributable to non-controlling interests, as further adjusted to eliminate the impact of asset impairments, gains or losses on divestitures, discontinued operations, net restructuring expenses and other reimbursable costs, non-cash stock-based compensation expense, certain non-recurring employee charges and benefits, reorganization items, other non-operating gains and losses, and equity in net income of non-consolidated affiliates.

In its exercise of negative discretion from these maximum amounts, the Committee reduced the awards payable to all NEOs under the umbrella arrangement and determined their actual AI awards based on their individual performance and the degree of achievement of the general financial performance, new business wins and quality goals used in determining the funding of AI awards for employees other than executive officers. The total funding available for Corporate and Electronics participants was based on achieved Adjusted EBITDA results of \$702 million and \$208 million, respectively, for 2014.

The Committee considered the following factors in determining the amount of the final awards:

Individual performance factors, including strategic transactions, leadership and balance sheet improvement;

Adjusted Free Cash Flow performance;

New Business Wins; and

Quality.

As a result of the foregoing, the executives' 2014 incentive awards were paid at approximately the following rates: 145% of target for Mr. Thall reflecting the Electronics group performance, 113% of target for Mr. Leuliette, 125% of target for Mr. Stafeil, 136% of target for Mr. Ziparo and 103% of target for Mr. Widgren. The payouts for the executives reflect their leadership and significant contributions to our strong 2014 performance, including the electronics acquisition, interiors divestiture, overall financial results and TSR of +30% as detailed in the Executive Summary. The amounts paid to the Named Executive Officers are set forth in the Summary Compensation Table under the column Non-Equity Incentive Plan Compensation.

Long-Term Incentive Awards

Edgar Filing: VISTEON CORP - Form PRE 14A

The Company's Long-Term Incentive program is designed to reward executives for the achievement of specified multi-year goals that are linked to the Company's long-term financial performance, to align the delivery of incentive value with increases in the Company's stock price and to retain key employees. Typically awards are granted each year with

Table of Contents

a vesting or performance period of three years; however, in some situations, such as the recruitment of new executives or to focus on objectives with a different duration, the Company may use a shorter or longer period. The annualized total targeted long-term incentive award opportunity, expressed as a percentage of base salary, is typically determined by organization level.

2014 Long-Term Incentive Grants to Mr. Ziparo

On March 27, 2014, Mr. Ziparo, who did not participate in the Late 2012 Three-Year Awards (discussed below), received regular long-term incentive grants with a grant date value, in total, equal to 105% of base salary. The grant mix was performance stock units, stock options and restricted stock units, as described below.

Award Type and Weighting	Primary Role	Design Features
<p><i>Performance Stock</i></p> <p><i>Units (50% of the total LTI award)</i></p>	<p>Reward the achievement of total shareholder return (TSR) results over 2014 to 2016 relative to returns of 17 similar companies</p>	<p>Performance stock units (PSU) provide executives the opportunity to earn shares based on the Company's three-year total shareholder return (TSR) relative to 17 automotive sector peer companies (listed below)</p>

The awards are divided among three periods with all earned awards paid at the end of the three-year cycle (paid in early 2017)

2014 TSR performance (25% of award opportunity)

2014 to 2015 TSR performance (25% of award opportunity)

2014 to 2016 TSR performance (50% of award opportunity)

The awards for the first and second performance periods will be increased to reflect the performance over the entire three-year cycle, if greater. If the Company's actual TSR is negative during a performance period, the award earned for that period cannot exceed 100% of target (regardless of ranking within the peer group).

Awards can be earned up to 150% of the target award opportunity based on the Company's TSR performance ranking within the comparator group (Visteon plus the 17 TSR peer companies)

No award earned if Visteon is in the bottom 4 companies

#5 rank, 35% of the target award is earned

#10 rank, 100% of the target award is earned

#15 or higher rank, 150% of the target award is earned

Award payouts for performance between the rankings specified above is determined based on interpolation

TSR is calculated using the 20-trading day average closing price at the start and end of the performance period, adjusted for dividends

Long-Term Incentive Grants Awarded in Late 2012 (Three-Year Award) to Cover 2013-2015

In support of the Company's business strategy and to ensure the executive officer team's potential awards are aligned to the achievement of specific levels of shareholder value creation, equity grants were made in the fourth quarter of 2012 in lieu of additional regular annual grants through 2015. Consistent with our focus on shareholder value creation, a majority of the award opportunity (75% of the grant date value) was provided through performance-based stock units and the remainder in time-based restricted stock units. The terms of the performance-based stock units and restricted stock units, which were made under the Visteon Corporation 2010 Incentive Plan, are substantially the same for all participating Named Executive Officers (excluding Mr. Thall, who was hired during 2013), and are intended to be in lieu of future potential awards under the Company's long-term incentive program for 2013, 2014, and 2015. The number of stock units awarded to the three participating NEOs in late 2012 is as follows: Mr. Leuliette 431,170, Mr. Stafeil 149,176 and Mr. Widgren 37,293. Mr. Ziparo received an equity grant of 7,260 stock units in the fourth quarter of 2012 in lieu of a grant in 2013.

The performance-based stock units will be earned, subject to continued employment, based on TSR for the period between the grant date and December 31, 2015. Vesting requires both stock price achievement and continued employment. TSR, which is stock price plus cash dividend payments, of at least \$70.00 must be achieved to vest in all of the shares, which represents appreciation of approximately 60% from the date of grant. Upon achievement of the TSR goal, which was achieved during 2013, all of the performance-based stock units were earned, but do not vest (are not paid) until the end of the performance period on December 31, 2015 assuming continued employment (or earlier for certain types of termination of employment).

The time-based restricted stock units will vest in three equal annual installments beginning one year after the date of grant based on continued employment.

Mr. Thall's Long-Term Incentive Compensation

Mr. Thall was hired on November 19, 2013, to lead and grow the value of our Electronics business. In order to induce Mr. Thall to join the Company, he received a cash bonus of \$300,000 (paid in January 2014) and a restricted stock unit award of 16,000 units, which vest annually, in one third increments, on the anniversary of the grant date.

Table of Contents

In order to best align the long-term award opportunity with his role, Mr. Thall's long-term incentive award opportunity is based on the growth in the valuation of the Electronics business unit over three to five years. Specifically, he is eligible to receive 2.2% of the incremental value created relative to the base valuation as of December 31, 2013, subject to a minimum compound annual growth rate of 5.0%. An annual valuation of the business unit will be conducted, as of year-end, by an independent appraisal firm selected by the Committee. Subject to continued employment and achieving the minimum annual growth goal, the award will become vested in three equal annual installments on each of December 31st 2016, 2017, and 2018.

Other Compensation Elements

Stock Ownership Guidelines

The Company has adopted stock ownership goals for all elected officers of the Company. The goal for these officers is to own common stock worth a multiple of salary, ranging from one times salary up to six times salary for the CEO, within five years from their date of hire or election, if later. All of the Named Executive Officers employed by the Company as an officer for five years or more are in compliance with the stock ownership guidelines. For the purpose of determining compliance with the stock ownership guidelines, the calculation includes stock owned directly, restricted stock, and restricted stock units (but excludes unexercised stock options and stock appreciation rights, and unearned performance stock units). The stock ownership guidelines are as follows:

Chief Executive Officer six times base salary;

Executive and Senior Vice Presidents and Product Group Presidents three times base salary; and

All other officers one times base salary.

Executive Perquisites and International Service Employee Program

The Company provides the Named Executive Officers with a flexible perquisite allowance program to provide basic competitive benefits. The flexible perquisite allowance is a fixed amount that is paid to each eligible executive and is designed to cover his or her expenses related to legal and financial counseling, excess liability insurance premiums, tax preparation, and airfare for spouse or partner accompanying employee on business travel, among other items. For Named Executive Officers, the amount of the allowance varies by management level, with a current range of \$15,000 to \$60,000 per year and is not grossed up. The amount paid to the Named Executive Officers in 2014 pursuant to the flexible perquisite allowance program is set forth in the All Other Compensation column of the Summary Compensation Table. The Company also maintains an Executive Security Program that permits the CEO to use corporate provided aircraft for personal and business travel, and provides the benefit of various personal health and safety protections. The CEO does not receive a tax gross-up for personal use of corporate provided aircraft. There was no personal use of corporate provided aircraft during 2014.

As a global organization, senior executives of the Company are located in key business centers around the world. To facilitate the assignment of experienced employees to support the business, the Company has an International Long Term Assignment Policy to address incremental costs incurred by assignees as a result of their international assignments. The policy provides for the reimbursement of incremental housing, cost of living, education and other costs incurred in conjunction with international assignments as well as the tax costs associated with these payments. The Company provides tax equalization to employees on international assignment. The tax equalization policy is intended to ensure that the employee bears a tax burden that would be comparable to the home country tax burden on income that is not related to the international assignment. It is the objective of the Company's International Long Term Assignment Policy that the employee not be financially disadvantaged as a result of the international assignment nor that the employee experience windfall gains. Mr. Thall began an international assignment in January 2015 and is now based in Kerpen, Germany.

Retirement Benefits Overview

The Named Executive Officers participate in the Company's qualified retirement and savings plans in their respective home countries on the same basis as other similarly situated employees. Over the last several years, the Company has

Table of Contents

made changes to the type of retirement plans and the level of benefits provided under such plans, based on an assessment of the Company's business and talent needs, costs, market practices, and other factors. Effective December 31, 2011, the U.S. defined benefit pension plan was frozen for all participants. All of the NEOs participate in U.S.-based plans.

The Named Executive Officers, as well as most U.S. salaried employees, are entitled to participate in the Visteon Investment Plan, Visteon's 401(k) investment and savings plan. The Company's match is 100% of the employee's eligible contributions up to 6% of eligible pay (subject to IRS limits), which was designed to attract and retain employees in light of the Company's freezing of other retirement benefit plans. Amounts deferred for each Named Executive Officer are reflected in the Salary column of the Summary Compensation Table. The Company also maintains a Savings Parity Plan, which provides eligible participants with Company contributions of 6% of eligible pay that are restricted due to IRS limits under the broad-based, qualified 401(k) plan. The Company's Supplemental Executive Retirement Plan (SERP) provides eligible participants annual Company contributions of 6%, 9% (Executive and Senior Vice Presidents), or 14.5% (CEO) of pay in place of the prior defined benefit formulas in the plan for service after January 1, 2012. The SERP is closed to new entrants other than elected Company officers. Company contributions to these plans on behalf of the NEOs are included in the All Other Compensation column of the Summary Compensation Table.

Additional details about the Company's prior and current retirement plans are presented in a later section, under Retirement Benefits.

Severance and Change in Control Benefits

The Company has entered into change in control agreements with all of its executive officers, including the Named Executive Officers. These agreements, which were last revised in October 2012, provide for certain benefits if a qualifying termination occurs following a change in control of the Company. For the Named Executive Officers, change in control cash severance benefits are provided as a multiple of 1.5, 2.0 (EVPs), or 2.5 (CEO) times the officer's sum of annual base salary and target annual incentive. In addition, the agreements provide for other severance benefits, such as the continuation of medical benefits and outplacement assistance. The agreements have a double trigger provision, which would require that the executive's employment terminate following a change in control in order to receive benefits under the agreement. No excise tax gross-up provisions are contained in the change in control severance arrangements.

Upon the involuntary termination of employment by the Company (other than for specified reasons, including disability, availability of other severance benefits, and inappropriate conduct), executive officers are entitled to severance benefits under the 2010 Visteon Executive Severance Plan, which was revised effective October 2012. Under this Plan, a specific and consistent level of severance benefits are provided with a cash severance payment of 1.0 (VPs) or 1.5 (SVPs, EVPs and CEO) times the sum of an executive's annual base salary and target annual incentive. Executives would also be entitled to the reimbursement of medical coverage premiums under COBRA for up to eighteen months following termination, the provision of outplacement services for up to twelve months, and the payment of a pro-rated portion of any outstanding annual incentive bonus based on actual Company performance during the performance period.

The severance plan and change in control agreements provide that outstanding stock-based awards vest only in accordance with the applicable terms and conditions of such awards. For additional details about the change in control agreements, the severance plan, the terms and conditions of awards, and the estimated value of these potential payouts, see the section Potential Payments Upon Termination. The terms of Mr. Leuliette's compensation package, including potential severance and change in control benefits, are detailed in his employment agreement, see the section Employment Agreement with Mr. Leuliette.

Other Executive Compensation Policies

Stock Awards Granting Policy. In 2014 the Company granted regular stock awards to one of its Named Executive Officers (Mr. Ziparo). Stock awards made to executives and key employees at the time they become employees or officers of the Company (such as for Mr. Thall, who joined the Company in 2013) have a grant date on the later of the

Table of Contents

date employment commences or the date the Committee approves the awards. In all cases, the exercise price of stock options and stock appreciation rights is the average of the high and low trading price on the grant date. Stock price is not a factor in selecting the timing of equity-based awards.

Securities Trading and Anti-Hedging/Anti-Pledging Policy. The Company maintains a Policy Regarding Purchases and Sales of Company Stock that imposes specific standards on directors and officers of the Company. The policy is intended not only to forbid such persons from trading in Company stock on the basis of inside information, but to avoid even the appearance of improper conduct on the part of such persons. In addition to the specific restrictions set forth in the policy, the policy requires that all transactions in Company stock by such persons and by others in their households be pre-cleared by the General Counsel. The only exception to the pre-clearance requirement is regular, ongoing acquisition of Company stock resulting from continued participation in employee benefit plans that the Company or its agents may administer. The policy also expressly prohibits directors and officers from engaging in hedging transactions involving the Company's stock or pledging the Company's stock.

Pay Clawbacks. In April 2013, the Company adopted a compensation recovery policy, which requires each executive officer of the Company to repay or forfeit a portion or all of any annual incentive, performance stock units or other performance-based compensation granted to him or her on or after September 29, 2012 if:

the payment, grant, or vesting of such compensation was based on the achievement of financial results that were subsequently the subject of a restatement of the Company's financial statements filed with the Securities and Exchange Commission;

the amount of the compensation that would have been received by the executive officer had the financial results been properly reported would have been lower than the amount actually received; and

the Board determines in its sole discretion that it is in the best interests of the Company and its stockholders for the executive officer to repay or forfeit all or any portion of the compensation.

Tax Deductibility of Executive Compensation. Section 162(m) of the Internal Revenue Code of 1986, as amended (the Code), limits the Company's federal income tax deduction to \$1 million per year for compensation to its CEO and certain other highly compensated executive officers. Qualified performance-based compensation for the CEO and certain covered officers is not, however, subject to the deduction limit, provided certain requirements of Section 162(m) are satisfied. We consider the impact of this rule when developing and implementing our executive compensation program. Annual Incentive awards, performance-based stock units, and stock options (and stock appreciation rights) generally are designed to meet the deductibility requirements. We also believe that it is important to preserve flexibility in administering compensation programs in a manner designed to promote varying business and talent goals. Accordingly, we have not adopted a policy that all compensation must qualify as deductible under Section 162(m).

Statement Regarding Compensation Risk Assessment

The Company believes that its compensation programs, policies and practices do not create risks that are reasonably likely to have a material adverse effect on the Company. Specifically, as detailed previously, the Company maintains a market competitive, balanced executive compensation program with varying incentive award types, performance metrics, performance/vesting periods and includes governance features that mitigate potential risk (including Committee oversight, maximum potential payouts are set under incentive plans, stock ownership guidelines, and a pay clawback policy).

The ultimate value of stock-based awards, if any, will depend on the future value of the common stock and the holder's investment decisions, neither of which can be accurately predicted.

Visteon Corporation 2010 Incentive Plan

The Visteon Corporation 2010 Incentive Plan permits grants of stock options, stock appreciation rights, performance stock units, restricted stock, restricted stock units and other rights relating to our common stock, as well as performance and time-based cash bonuses. In 2014, the Company implemented an annual incentive cash bonus program for eligible employees, including the Named Executive Officers and a long-term equity-based incentive program for eligible employees, including Mr. Ziparo, who did not participate in the late 2012 Three-Year equity-based incentive program designed to cover long-term incentive awards in 2013, 2014 and 2015. In 2012, the Company implemented two long-term

Edgar Filing: VISTEON CORP - Form PRE 14A

equity-based incentive programs one for the 2012-2014 performance period and one designed to cover long-term incentive awards that would have been made in each of 2013, 2014 and 2015, for eligible employees, including the Named Executive Officers. These programs are discussed further under Compensation Discussion and Analysis, above. Except under certain circumstances such as retirement or involuntary termination, an executive must be employed in good standing with the Company at the conclusion of a performance period to be entitled to a bonus payment. The Committee retains discretion under the 2010 Incentive Plan to modify or adjust any award at any time.

The stock options awarded under the 2014 long-term incentive program vest ratably over three years from the date of grant. The exercise price of the stock options is the average of the high and low selling prices of our common stock on the New York Stock Exchange on the date of grant, unless otherwise approved by the Organization and Compensation Committee. Any unexercised stock options will expire after seven years. If a holder of a stock option retires, becomes disabled, or dies, his or her stock options continue to be exercisable up to the normal expiration date. See Potential Payments Upon Termination or Change-in-Control, below. The stock options are subject to certain conditions, including not engaging in

competitive activity, and generally cannot be transferred. The restricted stock units awarded under the 2014 long-term incentive program vest ratably over three years from the date of grant and will be paid in cash based on the average of the high and low selling prices of our common stock on the New York Stock Exchange on such vesting date or common stock, at the election of the Company. The performance stock units awarded under the 2014 long-term incentive program vest on January 31, 2017 based on the achievement of certain relative total shareholder return metrics and will be paid in cash based on the average of the high and low selling prices of our common stock on the New York Stock Exchange on such vesting date or common stock, at the election of the Company. Holders of restricted stock units and performance stock units (to the extent earned) may receive the same cash dividends or dividend equivalents as other stockholders owning common stock. No dividends were paid in 2014.

Employment Agreement with Mr. Leuliette

The Company and Mr. Leuliette entered into an employment agreement as of September 30, 2012. Under the terms of the employment agreement, Mr. Leuliette serves as the Chief Executive Officer and President of the Company, with an initial term of three years and three months through December 31, 2015. Pursuant to the Employment Agreement, Mr. Leuliette received an initial annualized base salary of \$1.15 million, with a target annual cash bonus opportunity of 120% of his base salary, and a cash sign-on payment of \$500,000, subject to clawback if Mr. Leuliette is terminated for cause (as defined in the employment agreement) or voluntarily terminates his employment without good reason (as defined in the employment agreement) before December 31, 2014. The employment agreement replaces a letter agreement that the Company and Mr. Leuliette entered into as of August 10, 2012 in connection with his appointment as Interim Chairman of the Board, Interim Chief Executive Officer and Interim President, during which time he received a signing bonus of \$500,000 in cash in addition to the approximate \$96,000 monthly base salary.

In June 2014, Mr. Leuliette's employment agreement was amended to extend the term through December 31, 2017. This amended agreement increased the target annual cash bonus opportunity to 125% of base salary beginning in 2014 and, effective in 2016, eliminated the perquisite payment of \$60,000 and increased base salary by \$30,000.

Subsequent to the announcement of the pending sale of Halla Visteon Climate Control Corporation, in March 2015, the Company announced that Mr. Leuliette's employment as CEO will terminate following the appointment of his successor. With the pending sale of HVCC and the divestiture of the majority of the Interiors business including Yanfeng Visteon Automotive Trim Systems Co., Ltd., Mr. Leuliette has accomplished the goals established by the Board more quickly than anticipated at the time of his contract extension. In connection with his anticipated departure, the Company expects to provide Mr. Leuliette with separation benefits consistent with an involuntary termination as discussed further below and in the section titled "Potential Payments Upon Termination."

If Mr. Leuliette is terminated without cause or his employment is voluntarily terminated for good reason, he will receive (i) a cash payment equal to 1.5 times the sum of his annual base salary and bonus, (ii) a pro rata annual bonus for the year of termination based on corporate achievement levels for the entire year, (iii) outplacement services reimbursement of up to \$50,000 and (iv) up to 18 months of health benefits. Mr. Leuliette will be entitled to participate in the Company's standard benefits and perquisites on the same basis as other senior executives of the Company, as well as receive reimbursement of up to \$25,000 of professional fees incurred in connection with finalizing the employment agreement and related agreements. The employment agreement includes a clawback provision whereby Mr. Leuliette may be required, upon certain triggering events, to repay all or a portion of his incentive compensation, pursuant to any clawback policy adopted by or applicable to the Company under the Dodd-Frank Wall Street Reform and Consumer Protection Act. The employment agreement also contains customary confidentiality, ownership of works and non-disparagement provisions, as well as standard non-competition and non-solicitation provisions.

Retirement Benefits*Defined Benefit Plans*

The following table sets forth the actuarial present value of each Named Executive Officer's accumulated benefit under each defined benefit plan, assuming benefits are paid at normal retirement age. The table also shows the number of years of credited service under each such plan, computed as of the same pension plan measurement date used in the Company's audited financial statements for the year ended December 31, 2014. The table also reports any pension benefits paid to each Named Executive Officer during the year.

Table of Contents

Employee Benefit Plans to the consolidated financial statements included in Item 8 Financial Statements and Supplementary Data of the Company's 2014 Form 10-K. The benefits were assumed to be payable at normal retirement ages or such earlier ages at which the executives could commence an unreduced retirement benefit.

The Company froze compensation and service in its defined benefit pension plan for U.S. employees effective December 31, 2011. The frozen plan, the Visteon Pension Plan (the Qualified Pension Plan), is a defined benefit plan qualified under Section 401(a) of the Internal Revenue Code (the Code). Visteon provides additional pension benefits to its U.S. executives under the following nonqualified supplemental pension arrangements: the 2010 Supplemental Executive Retirement Plan (SERP); and the 2010 Pension Parity Plan (Pension Parity Plan). The defined benefit component of the SERP and the Pension Parity Plan were also frozen on December 31, 2011.

In order to reduce the costs and volatility of these benefits to permit the Company to compete on a global basis, Visteon has made a number of modifications to its retirement programs over time. As a result, participation in these plans, and certain features of the plans, depend on when each executive was hired by the Company.

U.S. Executives Hired on or After January 1, 2002 and prior to January 1, 2012 Messrs. Ziparo and Widgren

Qualified Pension Plan

Salaried employees hired on or after January 1, 2002 and prior to January 1, 2012 participate in the BalancePlus Program, a feature of the Qualified Pension Plan. The monthly benefit payable from the BalancePlus Program is based on the greater of the Cash Balance benefit or the Pension Equity benefit attributable to service prior to July 1, 2006, and a Cash Balance benefit for service thereafter through December 31, 2011. The Cash Balance benefit is based on a hypothetical account which grows with 4% pay credits through December 31, 2011 and interest credits based on the 30-year Treasury bond rate continuing until commencement of benefit payments. The Pension Equity benefit is based on a hypothetical account at age 65 equal to 12.5% of Final Average Monthly Salary times credited service. At retirement, these account balances may be paid as a lump sum (for benefits commencing after December 31, 2012) or converted into a monthly benefit payable in the form of a life annuity. Credited service earned under the Pension Equity feature of the plan ceased to accrue as of June 30, 2006, although changes in base pay continued to be recognized for purposes of determining the Final Average Monthly Salary through December 31, 2011. The benefit payable from the BalancePlus Program is reduced for early commencement if payment begins before age 65.

Nonqualified Pension Plans

Since the Qualified Pension Plan is a qualified plan, it is subject to the rules of the Code. The Code limits the amount of benefits that may be paid by a qualified plan and it limits the amount of salary that may be recognized in computing plan benefits. The maximum accrued benefit for 2014 is \$210,000 and the maximum annual salary the plan may recognize for 2011, the year the plan was frozen is \$245,000. The Pension Parity Plan, an unfunded, nonqualified pension plan, restores any benefits lost due to the limitations on benefits and compensation imposed by the Code. The changes to the Qualified Pension Plan that took effect on July 1, 2006 and December 31, 2011 also apply to the Pension Parity Plan.

Eligible executives hired on or after January 1, 2002 and prior to January 1, 2012 participate in the BalancePlus SERP feature of the SERP. The BalancePlus SERP provides an additional monthly benefit based upon a hypothetical account balance that is in excess of the amount calculated under the Qualified Pension Plan BalancePlus Program and the Pension Parity Plan. The account balance from the BalancePlus SERP before offset is calculated under the formulas in the BalancePlus Program with the following modifications: 1) Annual Salary is calculated without regard to the Code compensation limit; 2) Final Average Monthly Salary is increased by the average of the three highest consecutive Annual Incentive amounts; and 3) a 15% benefit multiplier is used under the Pension Equity formula in lieu of the 12.5% benefit multiplier. The Pension Equity account under the BalancePlus SERP has its own early retirement reduction factors, which are applied at early retirement before offsetting the amount calculated under the BalancePlus Program and the Pension Parity Plan. Unlike the Qualified and Pension Parity Plans, the service under the Pension Equity formula was not frozen in 2006, but continued to be recognized through December 31, 2011.

Table of Contents

The Pension Parity Plan, Savings Parity Plan and SERP provide for automatic payment in the form of a single lump sum distribution for benefits commencing on and after January 1, 2007. The actuarial conversion factors used to determine the single lump distribution are the same as those used to value the Company's pension obligations in the audited financial statements.

Defined Contribution Qualified Plan

The Named Executive Officers, as well as most U.S. salaried employees, are also entitled to participate in the Visteon Investment Plan, Visteon's investment and savings plan. The amounts that may be deferred are limited by the Code. From January 1, 2012, the Company matched employee contributions of up to 6% of pay at a rate of 100% of the employee's eligible contributions. Amounts deferred for each Named Executive Officer are reflected in the Salary column of the above Summary Compensation Table.

Savings Parity and Amended SERP Plans

Effective January 1, 2012, the Company adopted a new Savings Parity Plan that restores company matching contributions under the Visteon Investment Plan lost due to Code limitations, and amended the SERP to provide benefits through a defined contribution approach: eligible employees will receive credits equal to 6%, 9%, or 14.5% of base compensation and annual incentive, dependent upon their organizational levels. The account balances in both the Savings Parity Plan and the amended SERP will be increased or reduced to reflect earnings and losses on hypothetical investments designated by the employee.

2014 Nonqualified Deferred Compensation

The following table provides information about the nonqualified defined contribution deferred compensation plans in which our NEOs participate. Our NEOs participate in the Savings Parity Plan and the Defined Contribution SERP (DC SERP) Plan, both of which became effective on January 1, 2012. The Savings Parity Plan restores company matching contributions under the Visteon Investment Plan, Visteon's investment and savings plan, lost due to IRS Code limitations. The DC SERP plan provides benefits through a defined contribution approach where eligible employees receive credits equal to 6%, 9% or 14.5% of base compensation and annual incentive, dependent upon their organizational levels. Account balances in both the Savings Parity Plan and DC SERP will be increased or reduced to reflect earnings and losses on hypothetical investments designated by the employee.

Potential Payments Upon Termination

Set forth below are estimated accelerated payments and benefits that would be provided to the Named Executive Officers upon their termination of employment (or that would be accelerated upon a change in control) under specified circumstances assuming that the relevant triggering event occurred at December 31, 2014. These disclosed amounts are estimates only and do not necessarily reflect the actual amounts that would be paid to the Named Executive Officers, which would only be known at the time that they become eligible for payment and would only be payable if any of the triggering events were to occur. Accrued amounts (other than the accelerated vesting of retirement benefits noted below) under the Company's pension and defined contribution plans are not included in this table.
