It is expected that delivery of the Notes will be made against payment therefor on or about the closing date specified on the cover page of the prospectus supplement, which will be the fifth London business day following the date of pricing of the Notes (this settlement cycle being referred to as T+5). Under E.U. Central Securities Depositories Regulation, trades in the secondary market generally are required to settle in two London business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade Notes on the date of pricing or the next succeeding London business day will be required, by virtue of the fact that the Notes initially will settle in T+5, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement.
