Linked to the S&P 500® Index

Unlike ordinary debt securities, the securities do not pay interest or repay a fixed amount of principal at maturity. Instead, the securities provide for a Redemption Amount that may be greater than, equal to or less than the Principal Amount of the securities, depending on the performance of the Index from the Starting Level to the Ending Level.

The Redemption Amount will reflect the following terms:

**If the level of the Index increases:**

You will receive the Principal Amount plus 150% participation in the upside performance of the Index, subject to a maximum total return at maturity of 62% of the Principal Amount

Agent's Commission 3.44%; dealers, including Wells Fargo Advisors, LLC (WFA), may receive a selling concession of up to 1.50% and WFA will receive a distribution expense fee of 0.120%

**If the level of the Index decreases, but the decrease is not more than 20%, or equals the Starting Level:**

You will be repaid the Principal Amount

**If the level of the Index decreases by more than 20%:**

You will receive less than the Principal Amount and will have 1-to-1 downside exposure to the decrease in the level of the Index in excess of 20%

Investors may lose up to 80% of the Principal Amount

All payments on the securities are subject to the credit risk of Canadian Imperial Bank of Commerce, and you will have no ability to pursue the securities included in the Index for payment; if the Issuer defaults on its obligations, you could lose some or all of your investment

No periodic interest payments or dividends

No exchange listing; designed to be held to maturity

The estimated value of the securities is not an indication of actual profit to the Issuer or to any of the Issuer's affiliates, nor is it an indication of the price, if any, at which Wells Fargo Securities, LLC or any other person may be willing to buy the securities from you at any time after issuance. <sup>(1)</sup> The annualized rates of return are calculated on a semi-annual bond equivalent basis with compounding.

<sup>(2)</sup> The Starting Level.

The above figures are for purposes of illustration only and may have been rounded for ease of analysis. The actual amount you receive on the Stated Maturity Date and the resulting pre-tax rates of return will depend on the actual Ending Level.

How the Redemption Amount is calculated

The Redemption Amount will be determined as follows:

If the Ending Level is greater than the Starting Level, the Redemption Amount will be equal to the lesser of:

(i) \$1,000 *plus*

(ii) the Capped Value

If the Ending Level is less than or equal to the Starting Level, but greater than or equal to the Threshold Level, the Redemption Amount will be equal to \$1,000

If the Ending Level is less than the Threshold Level, the Redemption Amount will be equal to \$1,000 *minus*

**In such a case, you will lose up to 80% of your Principal Amount.**
