PROXY STATEMENT
OF
WESBANCO, INC.
One Bank Plaza
Wheeling, West Virginia 26003
ANNUAL MEETING OF STOCKHOLDERS
APRIL 20, 2016

This statement is furnished to the stockholders of Wesbanco, Inc. (the Corporation) in connection with the solicitation of proxies to be used in voting at the annual meeting of the stockholders of the Corporation (the Annual Meeting), which will be held in the Glessner Auditorium at Wilson Lodge, Oglebay Resort and Conference Center, Wheeling, West Virginia, 26003, at 12:00 Noon E.D.T. on Wednesday, April 20, 2016. This statement is first being mailed to the stockholders on or about March 11, 2016.

The Corporation is the parent company and the holder of all of the outstanding shares of the capital stock of Wesbanco Bank, Inc. (the Bank), Wheeling, West Virginia. The Corporation also maintains two other operating subsidiaries, namely, Wesbanco Securities, Inc., St. Clairsville, Ohio, and Wesbanco Insurance Services, Inc., Shinnston, West Virginia.

Proxies

The proxies are solicited by the Board of Directors of the Corporation (the Board or Board of Directors), and the cost thereof is being borne by the Corporation. Employees and Directors of the Corporation and its subsidiaries may follow up on this written solicitation by telephone or other methods of communication.

Proxies may be revoked by the stockholders who execute them at any time prior to the exercise thereof by a later dated proxy, by written notice to the Corporation, or by appearing in person and voting at the Annual Meeting. Unless so revoked, the shares represented by all proxies will be voted, by the persons named in the proxies, at the Annual Meeting and all adjournments thereof, in accordance with the specifications set forth therein, or, absent such specifications, in accordance with the discretion of the holders of such proxies.

As an alternative to submitting the enclosed proxy, stockholders who hold shares directly in their name may vote over the Internet or by telephone by following the instructions set forth on the Proxy Card.

Delivery of Proxy Materials to Households

Annually, the Corporation mails to each registered stockholder at a shared address, not previously notified, a separate notice of its intention to household proxy materials. Beneficial stockholders (those who hold common shares through

a financial institution, broker or other record holder) are notified of the house holding process by the record holder. Those registered and beneficial stockholders who are eligible and have not opted-out (as defined below) of the house holding process will receive one copy of the Corporation's Annual Report to Stockholders for the year 2015 and one copy of this Proxy Statement. A separate proxy card and a separate notice of the meeting of stockholders will continue to be included for each account at the shared address.

Registered stockholders who reside at a shared household and who would like to receive a separate Annual Report and/or a separate Proxy Statement (to opt-out), or have questions regarding the house holding process, may contact the Corporation's transfer agent and registrar by calling (888) 294-8217 or forwarding a written request addressed to Computershare Investor Services LLC, P.O. Box 30170, College Station, TX 77842-3170. Promptly upon request, a separate Annual Report and/or separate Proxy Statement will be sent. By contacting the transfer agent, registered stockholders sharing an address can also request delivery of a single copy of annual reports or proxy statements if they are receiving multiple copies. Beneficial stockholders should contact their brokers, financial institutions, or other record holder for specific information on the house holding process as it applies to those accounts.

Table of Contents

Stock Outstanding and Voting Rights

The authorized capital stock of the Corporation consists of 100,000,000 shares of common stock with a par value of \$2.0833 per share (the Common Stock), and 1,000,000 shares of preferred stock without par value. Of the 100,000,000 shares of authorized Common Stock, as of March 2, 2016, there were 38,342,535 shares issued and outstanding. There were no shares of preferred stock outstanding as of that date.

The authorized shares of preferred stock of the Corporation may be issued in one or more classes or series with such preferences and voting rights as the Board of Directors may fix in the resolution providing for the issuance of such shares. The issuance of shares of preferred stock could affect the relative rights of the Common Stock. Depending upon the exact terms, limitations and relative rights and preferences, if any, of the shares of preferred stock as determined by the Board of Directors of the Corporation at the time of issuance, the holders of preferred stock may be entitled to a higher dividend rate than that paid on the Common Stock, a prior claim on funds available for the payment of dividends, a fixed preferential payment in the event of liquidation and dissolution of the Corporation, redemption rights, rights to convert their preferred stock into shares of Common Stock, and voting rights which would tend to dilute the voting control of the Corporation by the holders of the Corporation's Common Stock.

A quorum is required to conduct business at the Annual Meeting. A majority of the outstanding shares of the Corporation present in person or represented by proxy constitutes a quorum. Abstentions, votes withheld and shares represented by broker non-votes are counted in determining whether a quorum is present. Non-votes by banks, brokerage houses, custodians, nominees and other fiduciaries (broker non-votes) and abstentions will be counted for the purpose of determining whether a quorum is present, but broker non-votes will not be included for purposes of determining whether stockholder approval of a matter has been obtained. A broker non-vote occurs when a broker, bank or other stockholder of record, in nominee name or otherwise, exercising fiduciary powers (typically referred to as being held in street name), submits a proxy for the Annual Meeting, but does not vote on a particular proposal because that broker or holder does not have discretionary voting power with respect to that proposal and has not received voting instructions from the beneficial owner. Under the rules that govern brokers who are voting with respect to shares held in street name, brokers have the discretion to vote those shares on routine matters, but not on non-routine matters. Non-routine matters include, among other matters, the election of directors and actions on executive compensation. Therefore, if a beneficial owner of the Corporation's Common Stock does not give the broker or nominee specific voting instructions on Items 1, 2 or 4, the holder's shares will not be voted on those items and a broker non-vote will occur. Brokers will have discretionary authority to vote on Item 3. Broker non-votes will have no effect on the voting results for such proposals.

Stockholders of record as of the close of business on March 2, 2016 will be entitled to vote at the Annual Meeting. Each stockholder will be entitled to one vote for each share of Common Stock held as of the record date, as shown by the records of the transfer agent. Cumulative voting in the election of Directors is permitted by West Virginia statutory provisions, and the exercise of that right is not subject to any condition precedent. Each stockholder is entitled to as many votes as shall equal the number of his shares of Common Stock multiplied by the number of Directors to be elected within each class, and the stockholder may cast all of such votes for a single Director or distribute them among two or more Directors. The nominees receiving the highest number of for votes in each class five in the class of 2019 and one in the class of 2017 will be elected as Directors of the Corporation. Proxies marked as withhold (including proxies containing broker non-votes) will not be counted as votes either for or against the nominee. Such withhold votes are not counted in the election of directors and do not affect the outcome.

Cumulative voting is not permitted with respect to Items 2, 3 or 4, approval of which will require that the number of votes favoring the proposal exceed the votes cast opposing the proposal. Proxies marked as abstaining (including proxies containing broker non-votes) will not be counted as votes for or against the proposals and will not affect the

outcome of any of the three proposals.

Dimensional, however, disclaimed beneficial ownership of the shares.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 (the Exchange Act) requires the Corporation s officers, directors, and persons who own more than 10% of a registered class of the Corporation s equity securities, to file reports of ownership and changes in ownership with the Securities & Exchange Commission (the SEC). Officers, directors and greater than 10% stockholders are required to furnish the Corporation with copies of all Section 16(a) reports they file.

Based solely on its review of the copies of Forms 3, 4 and 5 received by it, or written representations from certain reporting persons that no Forms 5 were required for those persons, the Corporation believes that, during the calendar year 2015, all filing requirements applicable to its officers, directors and greater than 10% beneficial owners were fulfilled, except for one transaction by Brent E. Richmond, an executive officer.

The Corporation is required to report late filings.

Transactions with Directors and Officers

Transactions with Related Persons

The Corporation generally considers credit relationships with directors and/or their affiliates to be immaterial and as not impairing the director s independence so long as the terms of the credit relationship are similar to other comparable borrowers. The Corporation uses the following guidelines to determine the impact of a credit relationship on a director s independence. The Corporation presumes that extensions of credit which comply with Federal Reserve Regulation O to be consistent with director independence. In other words, the Corporation does not consider normal, arms length credit relationships entered into in the ordinary course of business to negate a director s independence.

Regulation O requires such loans to be made on substantially the same terms, including interest rates and collateral, and following credit-underwriting procedures that are no less stringent than those prevailing at the time for comparable transactions by the Bank with other persons. Such loans also may not involve more than the normal risk of repayment or present other unfavorable features. Additionally, no event of default may have occurred (that is, such loans are not disclosed as non-accrual, past due, restructured, or potential problems). The Board of Directors must review any credit to a director or his or her related interests that has become criticized in order to determine the impact that such classification has on the director s independence. In addition, the Corporation does not consider to be independent any director who is also an executive officer of a company to which the Corporation has extended credit unless such credit meets the substantive requirements of Regulation O.

James C. Gardill, Director and Chairman of the Corporation, Denise Knouse-Snyder, a Director-nominee, and Mr. Gardill s son, J. Christopher Gardill are members of Phillips, Gardill, Kaiser & Altmeyer, PLLC, which serves as the Corporation s primary outside legal counsel and its General Counsel as the Corporation does not maintain an internal legal staff. Fees aggregating \$1,673,981 were paid to the law firm for legal services rendered to the Corporation and its affiliates during the year, which amount represented approximately 42.7% of the total amount paid to all law firms retained in 2015. The Audit Committee does review and approve the engagement letter of the firm each year under the Corporation s Related Party Transaction Policy.

Several directors have been appointed to the Board and subsequently nominated for election pursuant to acquisition and merger related agreements. The rent payable on the lease for 2015 was \$149,832.95, which include other lessee expenses under the lease.

She also receives director's fees as approved by the Board of Directors on April 23, 2015, which arrangement was also reviewed and approved for the year 2016 by the Audit Committee under the Corporation's Related Party Transaction Policy.

Policies and Procedures for Approval of Related Party Transactions

The Corporation recognizes that related party transactions can present potential or actual conflicts of interest and create the appearance that corporate decisions are based on considerations other than the best interests of the Corporation and its stockholders. Therefore, the Board of Directors has adopted a formal, written policy with respect to related party transactions.

For the purpose of the policy, a related party transaction is a transaction in which the Corporation participates and in which any related party has a direct or indirect material interest, other than (i) transactions available to all employees or customers generally, (ii) transactions involving less than \$120,000 when aggregated with all similar transactions, or (iii) loans made by the Bank in the ordinary course of business, made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable loans with persons not related to the Bank, and not involving more than the normal risk of collectability or presenting other unfavorable features.

Under the policy, any related party transaction must be reported to the Audit Committee and may be consummated or may continue only (i) if the Audit Committee, or Chairman thereof acting between meetings, approves or ratifies such transaction and if the transaction is on terms comparable to those that could be obtained in arm's length dealing with an unrelated third party, (ii) if the transaction involves compensation that has been approved by the Compensation Committee, or (iii) if the transaction has been approved by the disinterested members of the Board of Directors. The Audit Committee may approve or ratify the related party transaction only if the Audit Committee determines that, under all of the circumstances, the transaction is in the best interests of the Corporation.

The current policy was formalized and adopted in February 2007, and subsequently revised on August 7, 2008. The Policy is reviewed annually by the Board of Directors and was last approved on August 27, 2015. All related party transactions which were required to be reported in this Proxy Statement were approved by either the Audit Committee or the Compensation Committee of the Board of Directors.

Table of Contents**Election of Directors**

The Board of Directors of the Corporation is divided into three classes, as nearly equal in number as the numerical membership of the Board will permit, the members of such classes to serve staggered terms of three years each. The Bylaws permit the Board to determine each year the number of Directors up to a maximum of thirty-five, and the Board of Directors has determined that the Board shall consist of sixteen members, and has fixed the number of Directors to be elected to the Board of Directors at the forthcoming meeting at six persons with five to serve for a term of three years which will expire at the annual stockholders meeting in 2019 and one to serve for a term of one year which will expire at the annual stockholders meeting in 2017.

The Corporation and its banking subsidiary, the Bank, maintain separate boards, but the directors of the Corporation also serve as directors of the banking subsidiary.

There are no family relationships among the directors, nominees or executive officers of the Corporation, except that Abigail M. Feinknopf is the sister of Jay T. McCamic. A majority of the Corporation's directors are independent as defined in Nasdaq listing standards. The Board has determined that all of the directors and nominees are independent, as that term is defined under the Nasdaq definition, except for Paul M. Limbert, James C. Gardill, Todd F. Compensation Discussion and Analysis

Introduction

The following discussion and analysis explains the Corporation's compensation program as it applies to the executive officers named in the Summary Compensation Table on page 34, who we refer collectively to as the named executive officers. This discussion and analysis should be read in conjunction with the Summary Compensation Table, its accompanying footnotes and the additional tables and narrative disclosure that follows the Summary Compensation Table. The named executive officers of the Corporation presently are serving without compensation from the Corporation. They are, however, compensated by the Bank for services rendered as officers of the Bank.

Overall, the Board of Directors believes that the Corporation's compensation program is effective in aligning the compensation of our executive officers with the long-term interests of our stockholders. Incentive compensation programs consist of a blend of annual and long-term performance and time based compensation,

Table of Contents

are structured to preclude excessive and unnecessary risk-taking, and utilize performance metrics established in advance based on an annual budget and business planning process. The incentive plans also contain caps or limitations on the amounts that can be awarded. Management and the Compensation Committee have exercised the program responsibly, as demonstrated by the elimination of annual cash bonuses when performance goals were not achieved in 2009. Also, the addition of another form of equity compensation, restricted stock, which was overwhelmingly approved by our stockholders in 2010, has added an optional form of long term incentive which directly ties to building stockholder value.

The Compensation Committee considered the results of the 2015 advisory, non-binding vote on executive compensation in connection with the discharge of its responsibilities. Since approximately 93% of the total shares voted on the proposal were voted in favor of the compensation of our named executive officers described in our proxy statement in 2015, the Compensation Committee did not implement significant changes to our executive compensation program as a result of the shareholder advisory vote.

Beginning in 2016, the Compensation Committee adopted a new Total Shareholder Return Plan for certain executive officers, including the named executive officers, which is described in more detail in the section titled "Total Shareholder Return Plan and Awards" found on page 26. In addition, they adopted a formal written Clawback Policy and Shareholding Guidelines which are described in more detail on page 33.

Compensation Philosophy and Objectives

The Corporation's Compensation Committee has adopted a philosophy statement on executive compensation. The philosophy statement expresses the Corporation's desire to become the employer of choice and to be viewed as a model of best practices for executive compensation. Applying that philosophy, our compensation programs are designed to provide the appropriate mix of compensation and benefits in order to promote the interests of the Corporation and its stockholders while enabling us to attract and retain top-quality executive talent. The primary objectives of the compensation policies for executive officers are to:

Attract and retain executive officers by offering base salary that is competitive with that offered by similarly situated banks in the markets in which we compete and by rewarding outstanding individual performance;

Promote and reward the achievement of short-term and long-term objectives set by the Board and management without encouraging unnecessary and excessive risk taking by our executive officers; and

Align the interests of executive officers with those of our stockholders by making incentive compensation an important aspect of our executive's compensation.

The philosophy statement delineates the following four fundamental principles in establishing executive compensation: (i) the Corporation's performance both in terms of the attainment of short-term and long-term goals; (ii) the competitiveness of the Corporation's executive officers' salaries to that of similarly qualified and situated officers in markets in which it competes; (iii) the individual performance of each executive officer and (iv) the recommendations of the Chief Executive Officer regarding all executive officers other than himself.

Administration of the Executive Compensation Program

Compensation Committee Process. Our Compensation Committee meets as often as necessary to perform its duties and responsibilities. The Compensation Committee met three times during calendar year 2015 and has met once so far during calendar year 2016. Mr. McCamic, Chairman of our Compensation Committee, works with our Chief Executive Officer to establish the meeting agenda. The Compensation Committee typically meets with the Chief Executive Officer and, where appropriate, with legal counsel and with outside compensation advisors. The Compensation Committee also regularly meets in executive session without management.

Table of Contents

The Committee annually reviews the Compensation Committee Charter and all incentive plans used throughout the Corporation in all business lines. In this review of the incentive plans, the Committee makes a determination of whether the plans, individually or collectively, encourage excessive risk taking, that each of the plans have reasonable limits and caps, and that the overall structure of the incentive plans is aligned with the interests of the stockholders.

The Compensation Committee receives and reviews materials in advance of each meeting. These materials include information that management believes will be helpful to the Compensation Committee, as well as materials that the Committee has specifically requested. Depending on the agenda for the particular meeting, these materials may include:

Financial reports on year-to-date performance versus budget and compared to prior year performance;

Calculations and reports on levels of achievement of individual and corporate performance objectives;

Reports on the Corporation's strategic objectives and budget for future periods;

Reports on the Corporation's year over year performance and current year performance versus a peer group of companies;

Information on the executive officers' stock ownership and option holdings;

Information regarding equity compensation plan dilution;

Estimated grant date values of stock options (using the Black-Scholes valuation methodology);

Tally sheets setting forth the total compensation of the named executive officers, including base salary, cash incentives, equity awards, perquisites and other compensation and any amounts payable to the executives upon voluntary or involuntary termination, early or normal retirement or following a change in control of the Corporation;

Information regarding compensation programs and compensation levels at study groups of companies identified by independent compensation consultants or through statistical comparisons compiled by management using third party source information such as SNL Financial Executive Compensation Review; and

Independent consultant reports.

Use of Peer Group. The philosophy statement adopts the position that annual compensation for all executive officers should be targeted to be at or above the 50th percentile of companies in our peer group and should provide for performance bonuses based on performance metrics established at the discretion of the Compensation Committee. Our management compiled peer group reports for 2015 reviewed by our Compensation Committee consisted of 18 regional banks from approximately \$4.5 to \$17 billion in total assets. The peer group used for our executive compensation review differs from the indices used in the performance graph contained in our annual report on Form 10-K. Our peer group for 2015 compensation purposes (the 2015 Peer Group) was comprised of the 18 banks listed below:

1 st Source Corporation	First Commonwealth Financial Corporation	Old National Bancorp
NBT Bancorp, Inc.	First Financial Bancorp	Park National Corporation
First Merchants Corporation	Pinnacle Financial Partners, Inc.	S&T Bancorp, Inc.
F.N.B. Corporation	Community Bank System, Inc.	United Bankshares, Inc.
Chemical Financial Corporation	Eagle Bancorp, Inc.	National Penn Bancshares, Inc.
TowneBank	Tompkins Financial Corporation	Union Bankshares Corporation

Table of Contents

Our 2015 Peer Group is different than our peer group used in 2014, as the Compensation Committee, with input from an investment banking firm, adjusted the group to a larger asset size to correspond with the increase in size of the Corporation due to the ESB acquisition.

In January 2015 the Compensation Committee engaged a consultant, Cowden Associates, Inc., to update their 2011 market based study of total compensation for the named executive officers. The Compensation Committee has determined that Cowden Associates, Inc. is independent and that there are no conflicts of interest with respect to the work of Cowden Associates, Inc. The consulting firm examined base compensation, annual incentive opportunities, long term incentive opportunities, equity programs, health, retirement and other perquisites of the top five executives of Wesbanco in the context of their total compensation and compared that total compensation to the total compensation of the 2014 Wesbanco peer group. They also provided conclusions regarding the overall competitiveness and reasonability of total compensation paid to the named executive officers. The peer group used in the study consisted of the 18 banks that were included in the prior 2014 peer group.

In conjunction with their review, the consulting firm reviewed the historical financial performance for Wesbanco and the peer group of banks. They also reviewed the most recent annual, as well as the two-year and three-year performance based on return on average assets and return on average equity, among other comparisons. They then compared how Wesbanco performed during this same period. The consultants also reviewed historical compensation levels for the Wesbanco peer group and they reviewed the most recent annual, as well as the most recent two year compensation for the peer group. They then compared how Wesbanco ranked during the same period.

In conjunction with peer performance, with respect to return on average assets (ROAA), for 2013, Wesbanco's ROAA was 1.05% compared to the peer average of 1.00%, putting it in the 65th percentile. For the two year period of 2012 and 2013, Wesbanco's ROAA was 0.97%, compared to the peer average of 1.03%, putting it in the 49th percentile. With respect to return on average common equity (ROACE), Wesbanco's average was 8.72% for 2013, compared to the peer average of 8.85%, putting it in the 62nd percentile. For the two year period of 2012 and 2013, Wesbanco's ROACE was 8.13%, compared to the peer group average of 9.16%, putting it in the 28th percentile.

Comparing performance to base compensation for 2013, except for the CFO position, the Wesbanco named executive officers approximate the 25th percentile in base salaries. Wesbanco's CFO approximates the 50th percentile. With respect to total compensation, relative to the peer group, except for the CFO, the Wesbanco named executive officers approximate the 25th percentile. Wesbanco's CFO approximates the 62nd percentile. In reviewing the salary of the CEO in particular, for the one year period, the peer average of \$586,209 compared to Wesbanco's salary of \$486,500 representing 83% of the average and placing it in the 32nd percentile of all CEOs in the peer group.

The Compensation Committee also considered a separate management-prepared total compensation comparison with the 2015 Peer Group. This analysis compared each type of compensation (base pay, incentive compensation, stock options and awards, retirement benefits and all other compensation) and total average compensation for each named executive officer of Wesbanco to the average of the 2015 Peer Group based on 2014 proxy information. For the year 2015, Mr. Clossin's total compensation was approximately 46.3% of the peer average for total compensation for other bank CEO positions, which equates to the 7th percentile. Mr. Young's total compensation approximated 74.7% of the average for the peer group of CFOs (27th percentile), Mr. Zatta's was 52.3% of the 2015 Peer Group's next highest paid executive (1st percentile), Mr. Dargusch was 62.1% of the next highest paid executive (23rd percentile) and Ms. Asensio's was 65.1% of the next highest paid executive (23rd percentile).

Management's Role in the Compensation-Setting Process. Management plays a significant role in the compensation setting process. The most significant aspects of management's role are:

Evaluating employee performance;

18

Table of Contents

Establishing business performance targets and objectives for individual executives other than the named executive officers; and

Recommending salary levels and option awards.

Our Chief Executive Officer works with the Compensation Committee Chair in establishing the agenda for Compensation Committee meetings. Our management also prepares meeting information for each Compensation Committee meeting.

The Chief Executive Officer also participates in Compensation Committee meetings at the Committee's request to provide:

Background information regarding the Corporation's strategic objectives;

His evaluation of the performance of the senior executive officers; and

Compensation recommendations as to senior executive officers (other than himself).

Annual Evaluation. Our Compensation Committee meets in an executive session each year to evaluate the performance of the named executive officers, to determine their annual bonuses for the prior fiscal year, to establish their performance objectives for the current fiscal year, to set their base salaries for the next calendar year, and to consider and approve any grants to them of equity incentive compensation.

The Compensation Committee's process begins with establishing individual and corporate performance objectives for senior executive officers, including all of our named executive officers, in the second quarter of each calendar year. Our Compensation Committee engages in an active dialogue with the Chief Executive Officer concerning strategic objectives and performance targets. The Compensation Committee reviews the appropriateness of the financial measures used in incentive plans and the degree of difficulty in achieving specific performance targets. Corporate performance objectives typically are established on the basis of a targeted return on assets and return on equity, as well as growth in earnings per share and individual goals for particular business units within the Corporation.

Components of Executive Compensation

The principal components of our executive compensation program are:

Base salary;

Annual incentive awards;

Long-term incentives; and

Supplemental Executive Retirement Plan.

In addition to these principal components, our compensation program also includes employment contracts, change in control agreements, deferred compensation opportunities, retirement plans, a bank owned life insurance program and other perquisites and benefits, each of which are discussed in this Compensation Discussion & Analysis with respect to the named executive officers.

Annual Compensation

Our executive officers receive two forms of annual compensation, base salary and annual incentive awards. The levels of base salary and annual incentive awards for our executive officers are established annually under a program intended to maintain parity with the competitive market for executives in comparable positions.

Table of Contents

The annual compensation program, as espoused by our Compensation Committee through its philosophy statement, is intended to target Corporation performance, both in terms of the attainment of short-term and long-term goals, and to consider principally return on equity, growth in earnings per share, and return on assets.

Base Salary. Base salary is a critical element of executive compensation because it provides executives with a base level of monthly income. In determining base salaries, our Compensation Committee considers the executive's qualifications and experience, scope of responsibilities and future potential, the goals and objectives established for the executive, the executive's past performance, competitive salary practices at companies in the study groups, internal pay equity and the tax deductibility of base salary.

Based on compensation data provided by the Compensation Committee's independent compensation consultant, Cowden Associates, Inc., peer group comparisons, individual evaluations and internal equities, Todd Clossin, our Chief Executive Officer, recommends base salaries for all executive officers to the Compensation Committee for their consideration, except with respect to his own salary. Based on the Compensation Committee's review of the applicable compensation data, as discussed above and including Mr. Clossin's recommendations, base salary increases for all officers for the 2015 fiscal year averaged approximately 3% except for changes in base salary due to title or position changes of the named executive officers. Mr. Clossin received an increase of 10% pursuant to which his base compensation increased from \$500,000 to \$550,000 as President and CEO, Mr. Young received an increase of 3%, Mr. Dargusch 3%, Mr. Zatta 3% and Ms. Asensio 4%. See the Summary Compensation Table on page 34 for more information about the 2015 base salaries of our named executive officers.

Annual Cash Incentive Awards. Annual incentive awards, in the form of annual cash bonuses, are made to our named executive officers under the amended and restated Wesbanco, Inc. Key Executive Incentive Bonus, Option and Restricted Stock Plan, which we refer to as the Incentive Plan and which was approved by our stockholders on April 21, 2010. For additional information regarding our Incentive Plan, see the section entitled Key Executive Incentive Bonus, Option and Restricted Stock Plan on page 36 and Item 4 Approval of Material Terms of Performance Goals Under the Incentive Plan beginning on page 56. The Compensation Committee makes awards and determines the amount, terms and conditions of each such award as well as the respective performance goals to be achieved in each period by the participants under the Incentive Plan. The Compensation Committee believes that annual cash incentive awards for our executives, which are the variable and at-risk portion of annual compensation, should be generally targeted at a maximum of 50% of base salary for the Chief Executive Officer and a somewhat lesser percentage for our other executive officers.

Eligibility for Annual Incentive Awards. In general, the following thresholds must be satisfied for an executive to be eligible to receive an annual incentive award: (i) the executive must receive a fully competent performance rating; and (ii) the Corporation must meet 85% of its overall corporate goal.

Performance Rating. Our Chief Executive Officer annually rates the performance of each of our other named executive officers and assigns a performance rating to the executives based on the executive's performance during the fiscal year. The Chair of our Compensation Committee evaluates the performance of our Chief Executive Officer and assigns his performance rating. For 2015, all of our named executive officers received fully competent performance ratings.

Overall Corporate Goal. The Corporation's overall corporate goal is targeted earnings per share (EPS) for a given fiscal year. The Committee set target performance measures based in part upon management's confidential business plan and budget. The Committee set the EPS target at target levels deemed appropriate based on industry expectation, market opportunities and other factors the Committee believes are relevant.

The Corporation's GAAP and non-GAAP (excluding merger related expenses) EPS for the 2015 fiscal year did not meet the overall corporate goal but it did meet the threshold of at least 85% of the overall corporate goal. The Committee reviewed the results using both GAAP and non-GAAP earnings and elected to use non-GAAP

Table of Contents

earnings in its analysis and determination. The Committee determined that the use of non-GAAP earnings was the appropriate benchmark for incentive bonuses for the year as there were significant one-time merger related expenses included in GAAP earnings. The EPS goal may be adjusted by the Committee, in its sole discretion, for items attributed to non-GAAP operating events impacting the Corporation's operating results, such as mergers and acquisitions, unusual gains or losses, significant asset sales or other out-of-the ordinary or one-time events which significantly impact the normal operations. The target EPS for the overall corporate goal in 2015 was \$2.41, which the Corporation did not meet under either GAAP (\$2.15) or non-GAAP (\$2.34).

If the minimum overall corporate goal is not satisfied in a fiscal year, the Compensation Committee has the discretion to grant annual incentive awards for named executive officers and may adjust individual performance targets, which are discussed below, and determine the amount of an incentive award, accordingly. The Compensation Committee did not make any adjustments in the individual performance targets for 2015 for the named executive officers.

Determination of Incentive Award Amounts. If the eligibility thresholds discussed above have been satisfied, the Compensation Committee determines the amount of an executive's annual cash incentive award based on the executive's target incentive award and the satisfaction of corporate and individual performance targets discussed below.

Target Annual Incentive Awards. The table below sets forth certain information regarding the target, maximum and actual annual incentive awards for each named executive officer for the fiscal year ended December 31, 2015.

Annual Incentive Awards

Name	Maximum Incentive Award % of Base Salary	Maximum Incentive Award	Target Incentive Award	Actual 2015 Incentive Award
Todd F. Clossin	50%	\$ 275,000	\$ 275,000	\$ 273,981
President & Chief Executive Officer				
Robert H. Young	45%	\$ 126,408	\$ 126,408	\$ 125,939
Executive Vice President & Chief Financial Officer				
Jonathan D. Dargusch	45%	\$ 108,062	\$ 108,062	\$ 105,286
Executive Vice President Wealth Management				
Jayson M. Zatta	45%	\$ 109,510	\$ 109,510	\$ 105,263
Executive Vice President & Chief Lending Officer				
Lynn D. Asensio	45%	\$ 101,501	\$ 101,501	\$ 101,501
Executive Vice President Retail Branch Operations				

As shown in the table above, the maximum annual incentive award that a named executive officer may receive is based on a percentage of the executive's annual base salary. The maximum annual incentive award an executive may receive is 115% of each of the executive's individual targets for any one measurement category but the overall bonus cannot exceed the maximum percentage of base salary established for such officer during the year (note that the base salaries used are those established for the named executive officers by the Committee in May of the applicable year and, due to the timing of salary increases, differ slightly from the base salaries disclosed in the Summary Compensation Table). The Compensation Committee sets target annual incentive awards to approximate annual cash incentive awards in the 50th percentile range for comparable positions at banks within the peer group and considers the different accountabilities and responsibilities for the CEO and the other named executive officers. For 2015, the Compensation Committee determined that the target annual incentive award for our CEO would be equal to 50% of his base salary, which was \$275,000. The Compensation Committee determined that the 2015 target annual incentive award for our CFO would be 45% of his base salary, or \$126,408. In addition, the Compensation Committee set the target annual incentive awards for Jonathan D.

Table of Contents

Dargusch, Jayson M. Zatta and Lynn D. Asensio at 45% of each officer's base salary. See the table above for a comparison of the annual incentive award actually paid to each named executive officer in 2015 compared to the target and maximum awards that each executive could have received.

Individual Performance Targets. The Compensation Committee sets individual performance targets for each of the named executive officers. For Mr. Clossin and Mr. Young, annual incentive awards are based on the following measures of Corporation performance: return on assets (ROA), return on equity (ROE), and EPS. In addition, Mr. Dargusch's, Mr. Zatta's and Ms. Asensio's annual incentive awards are also based on certain specific business unit performance targets. These goals are established through the business planning process which develops an annual budget and are then recommended to the Compensation Committee by our Chief Executive Officer. The Compensation Committee then establishes the individual performance targets based in part on such recommendations. The Compensation Committee also retains some discretion to determine annual incentive awards outside of the relevant performance targets, as described below. The Corporation achieved its target level in ROE and its threshold level in ROA. Target levels for 2015 for ROA were 1.11% and for ROE 8.01%. Actual non-GAAP results were a ROA of 1.08% and ROE of 8.3%.

For each named executive officer, their specific performance targets are weighted according to the extent to which the executive will be evaluated for delivering the results on the targets. The targets are set so that they are attainable if the Corporation meets its budgeted goals for the year. Since the Corporation met the threshold level of its budgeted goal for EPS for 2015, the named executive officers were eligible for bonuses.

The Committee discretion portion is determined by the Committee utilizing a number of factors, including:

(i) attainment of goals, (ii) opportunities for attainment, (iii) marketplace impact, (iv) competition, (v) effectiveness in performance and (vi) individual performance.

Payment of Annual Incentive Awards. Annual incentive awards for each named executive officer are calculated by multiplying the weighting assigned to a performance target by the target incentive award for the executive. The resulting product is then multiplied by the actual results achieved for that performance target. The Compensation Committee does this for each performance target, with the sum of all performance targets for a named executive officer generally being the annual incentive award for the executive. For 2015, the Corporation satisfied its minimum overall corporate goal, so the formula yielded an incentive award for each named executive officer.

The Committee considered the growth in net income, the consummation of the largest acquisition in its history and the attainment of the threshold for EPS and ROA and the target ROE for the year. ROA declined

Table of Contents

slightly to 1.08% compared to 1.12% in 2014. ROE declined slightly to 8.3% for 2015 compared to 8.97% for 2014. Return on average tangible equity also declined slightly from 15.39% in 2014 to 13.41% on GAAP. EPS declined slightly from \$2.41 in 2014 to \$2.34 in 2015 on a non-GAAP basis.

The Committee also considered the significant impact the interest rate decline had on earnings in 2015, which was primarily a market driven issue.

The Compensation Committee, at its discretion, may allocate a portion of the annual cash bonus award to a deferred payout period. The deferred payout portion is then spread ratably over a three-year period beginning in the third year following the award of compensation. Thus, the annual bonus may include both a currently paid portion and a deferred portion. The Committee believes the deferral serves as an executive retention incentive in that an executive terminating his or her employment before deferred amounts are paid out forfeits such unpaid amounts. The Committee did not allocate any portion to a deferred payment period for 2015.

The amount of each award was based primarily on the executive officer's performance, the level of his or her responsibilities and internal equity considerations. The Committee also considered the competitive market data from compensation surveys provided by the consultant. In assessing each officer's performance and determining award amounts, the Committee noted the following achievements:

In determining Mr. Clossin's award, the Committee noted that the Corporation had met the threshold level in both ROA and EPS and had met target in ROE. The Committee also noted that the Corporation had completed its largest acquisition in its history in less than four months from its announcement date. It also noted the improvement in the efficiency ratio through prudent expense management. The Committee also noted significant success in recruiting new lending talent in key markets, achieving organic loan growth over and above the acquisition and improving credit quality in all statistical categories. These achievements position the Corporation well moving forward, notwithstanding the interest rate and regulatory environment, and the Committee felt that Mr. Clossin's effort and work merited full discretion.

In determining Mr. Young's award, the Committee noted that the Corporation had met the threshold level in both ROA and EPS and had met target in ROE. The Committee also noted his efforts in the Corporation's completion of its largest acquisition in its history in less than four months from its announcement date. It also noted his efforts in implementation of the new Basel III Capital standards for the Corporation as well as other new accounting and regulatory requirements. It also noted his continuing efforts in the Corporation's investor relations program and in overseeing the Corporation's Community Reinvestment Act Program which again received recognition from the FHLBank Pittsburgh in the form of a 2015 Council's award. The Committee also noted the recognition of Wesbanco's financial performance in various financial press rankings and publications and felt Mr. Young's efforts and work merited full discretion.

In determining Mr. Dargusch's award, the Committee noted the challenges created by market volatility in growing assets under management, but recognized the growth in trust and fiduciary fees achieved, and double digit growth in net securities brokerage revenue and net insurance services revenue. The Committee also noted his leadership in bringing together in a coordinated delivery and referral network various business lines, including Trust and Wealth Management, Private Banking, Securities Brokerage and Insurance Services. The Committee also noted his continued success in growing private banking services in multiple

markets while overseeing a strong and growing Trust and Wealth Management platform and felt Mr. Dargusch's efforts and work merited full discretion.

In determining Mr. Zatta's award, the Committee noted his success in meeting target in increasing C&I lending outstandings, exceeding the maximum threshold in residential mortgage loan production, exceeding the maximum threshold in loan fee income and achieving credit quality benchmarks. The Committee also noted growth in the loan portfolio to \$5.1 billion, including the acquisition, while achieving organic growth of 7% through \$1.8 billion in loan originations. Given these performance benchmarks, the Committee felt Mr. Zatta's efforts and work merited full discretion.

Table of Contents

In determining Ms. Asensio's award, the Committee noted her success in meeting all of her business line targets for the year, including the ESB cost save goal, the small business loan goal, home equity growth goal and the goal in growing the cross sell ratio. The Committee also noted her efforts in achieving a re-mix in deposits, growing non-interest bearing deposits by approximately 11.5%, excluding the impact of the merger, while at the same time reducing single service certificate of deposit customers all of which will provide continuing benefits to the Corporation's cost of funds. Additionally, she was instrumental in developing strategies and marketing efforts to grow electronic banking fees by approximately 13% year over year, including the acquisition impact. Given these performance achievements, the Committee felt Ms. Asensio's efforts and work merited full discretion.

Long-Term Incentive Compensation

Our Compensation Committee believes that long-term incentive compensation is an important component of our compensation program because it has the effect of retaining and motivating executives, aligning executives' financial interests with the interests of stockholders, and rewarding the achievement of the Corporation's long-term strategic goals. Three principal types of long-term incentive awards are available to grant to executive officers under the Corporation's Incentive Plan:

Stock options;

Restricted stock; and

Long-term cash bonuses.

In addition to these long-term incentive awards, the Compensation Committee has discretion to grant various other types of incentive awards.

Stock Options. Stock options provide our executive officers with the opportunity to purchase and maintain an equity interest in the Corporation and to share in the appreciation of the value of our stock. The Compensation Committee utilizes stock options as a compensation tool because they focus executives on the Corporation's long-term performance, including stock appreciation. The Compensation Committee awards stock options in amounts and subject to terms and conditions intended to be competitive with those awarded for comparable positions at banks within the peer group. The Compensation Committee receives recommendations from our Chief Executive Officer for executive officers other than himself and provides overall compensation expense calculations for such awards. Stock options were granted to executive officers in 2015. See the Grants of Plan-Based Awards for the Year Ended December 31, 2015 table on page 35. Some features of our stock option program include:

Options are structured as either performance-based or time-based and vest ratably over a designated period, assuming pre-established EPS targets are met for performance-based options and the lapse of the designated period for time-based options. They are exercisable as they vest over the vesting period;

If EPS targets for a given year are not met, options that are performance-based are forfeited;

The term of each grant does not exceed 10 years;

As defined in our Incentive Plan, the exercise price is equal to the closing market price on the day prior to the grant date (we do not grant discounted stock options);

Grants do not include reload or restored provisions; and

Repricing of stock options is prohibited.

Please see the Outstanding Equity Awards at Fiscal Year-End table on page 38, for a description of the outstanding options of our named executive officers.

Table of Contents

Restricted Stock Awards. Prior to 2010, stock options were the only long-term equity awards made by the Corporation. However, the Incentive Plan, among other things, also authorizes awards of restricted stock. Restricted stock is granted at the discretion of the Committee and the Committee determines the applicable vesting schedule reflecting attainment of designated performance goals and/or continuous employment over a period of years specified in the award documents. The Committee may provide for the payment of any applicable dividends paid with respect to any shares of common stock subject to a restricted stock award during the period prior to the lapse of the restrictions. See *Grants of Plan-Based Awards for the Year Ended December 31, 2015* table on page 35 for information regarding the shares of restricted stock awarded to our named executive officers during 2015.

Long-Term Cash Bonuses. Under the long-term bonus portion of our Incentive Plan, participating key employees have an opportunity to earn incentive compensation, if any, based on the actual achievement of performance goals set for that key employee over several fiscal years. The Compensation Committee has not utilized this optional benefit feature of our Incentive Plan and in certain prior years has elected to simply defer payment of a portion of the annual bonus award each year to create a deferred payment feature subject to future service. However, no portion of the 2015 bonuses awarded to our named executive officers was deferred.

Total Shareholder Return Plan and Awards. Beginning in 2016, the Committee adopted a new Total Shareholder Return Plan (*TSRP*), including related Administrative Rules, for certain executive officers as a form of long-term, performance-based restricted stock incentive under the Incentive Plan.

Description of TSRP. The *TSRP* measures the total shareholder return (*TSR* , which is, generally, the change in trading prices of a share of Corporation common stock plus dividends paid) on Corporation common stock over a three-year measurement period (the *Performance Period*) relative to the *TSR* of a group of publicly traded companies deemed comparable by the Compensation Committee to the Corporation (the *TSR Peer Group*) over the same *Performance Period*. To prevent distortions, the opening values and closing values of a share of common stock for the *TSRP*, both of the Corporation and for each member of the *TSR Peer Group*, are determined using the sixty (60) day trailing average of trading prices of the common stock of the Corporation and of the common stock of each member of the *TSR Peer Group* immediately preceding the opening and closing of the *Performance Period*, respectively. Only dividends actually paid are included in determining *TSR* for the common stock of the Corporation and for the common stock of the members of the *TSR Peer Group*.

As of the beginning of the *Performance Period*, participants are awarded *TSR* opportunities denominated in the number of shares earned if target performance is achieved (*Target TSR Shares*). The number of *Target TSR Shares* is based on a percentage of base salary, which for the 2016-2018 *Performance Period* was approximately 15%. No dividends paid by the Corporation on its common stock during the three-year measurement period will be paid to or be accrued for holders of *Target TSR Shares*. After the performance period, dividends on any earned but not distributed *Target TSR Shares* will result in the delivery of additional shares to holders of such *Target TSR Shares*. The increase in shares will be determined using the dollar value of the dividends paid on Corporation common stock and the trading price of Corporation common stock on the date the dividend was paid.

Target TSR Shares will vest and be converted into shares of common stock of the Corporation if the *TSR* of Corporation common stock is equal to or greater than the 50th percentile of the *TSR* of the *TSR Peer Group*. If the *TSR* of Corporation common stock is less than the 50th percentile of the *TSR Peer Group* *TSR*, all *Target TSR Shares* will be forfeited. If the *TSR* of Corporation common stock is equal to or greater than the 75th percentile of the *TSR Peer Group*, 200% of the *Target TSR Shares* will be earned. No more than 200% of the *Target TSR Shares* will be earned even if the *TSR* on the Corporation common stock exceeds the 75th percentile of the *TSR Peer Group* *TSR*. If the *TSR* of the Corporation common stock is between the 50th and 75th percentiles, the number of shares of Corporation common stock earned will be determined using straight line interpolation.

Individuals who are awarded Target TSR Shares are subject to the Corporation's clawback policy discussed below as well as certain restrictive covenants that survive the Performance Period.

2016 Awards. The Compensation Committee made TSRP awards effective January 1, 2016 for the Performance Period beginning January 1, 2016 and ending December 31, 2018 to certain executive officers. Retirement Plans

The Corporation maintains a defined benefit pension plan, which we refer to as the Defined Benefit Plan for all employees employed prior to August 1, 2007, an Employee Stock Ownership and 401(k) Plan for all employees, and a Supplemental Employee Retirement Plan, which we refer to as the SERP, for certain executive officers.

Defined Benefit Plan. Under the Defined Benefit Plan, which is compulsory and noncontributory, the compensation covered is the salary of a participant as limited by applicable IRS regulations. The benefit payable under the Defined Benefit Plan is a function of a participant's highest consecutive five-year average annual covered compensation during the ten years immediately prior to retirement and credited years-of-service while a plan participant. The Corporation closed the Defined Benefit Plan to new participants effective August 1, 2007, and the plan has not accepted new participants since that date.

Average compensation for named executive officers as of the end of 2015 is: Mr. Young, \$289,399; and Ms. Asensio, \$221,887. The estimated years of service for each named executive are as follows: Mr. Young: 14.4 and Ms. Asensio: 10. Mr. Clossin, Mr. Dargusch and Mr. Zatta are not eligible to participate in the Plan. See the Pension Benefits table on page 39 for an estimation of the present value of the retirement benefits (qualified plan only) that each of our named executive officers would receive if he or she retired at age 65. The defined benefit plan has a maximum individual annuity payout of \$60,000 per year. Under current IRS rules only annual compensation of \$265,000 (for 2015) or less is considered covered compensation for defined benefit plan purposes.

Wesbanco KSOP Plan. The Wesbanco Employee Stock Ownership and 401(k) Plan (the KSOP Plan) is a qualified non-contributory employee stock ownership plan with a deferred savings plan feature under Section 401(k) of the Code. The employee stock ownership feature of the KSOP Plan (the ESOP) was adopted by the Corporation on December 31, 1986, and subsequently amended and restated effective January 1, 1996, to add 401(k) pre-tax savings features (the KSOP). All employees of the Corporation, together with all employees of our subsidiary companies which adopt the KSOP Plan, are eligible to participate in the KSOP on the first day of the month following completion of sixty (60) days of service and attaining age 21. The KSOP Plan is administered by a Committee appointed by the Board of Directors of the Corporation.

The Board of Directors has the ability to authorize discretionary contributions to the KSOP Plan through the ESOP portion of the Plan. During 2015 no discretionary contributions were made to the ESOP portion of the KSOP Plan.

Table of Contents

As of December 31, 2015, the Plan Trust held 552,868 shares or 1.44% of the outstanding shares of the Corporation's Common Stock, all of which are allocated to specific employee accounts for both the ESOP component and the 401(k) savings component. No shares were allocated to the named executive officers for 2015 under the ESOP component of the KSOP Plan.

As of December 31, 2015, the account balances in the KSOP Plan for each of the named executive officers is as follows: Mr. Clossin, \$68,957; Mr. Young, \$420,689; Mr. Dargusch, \$153,335; Mr. Zatta, \$252,072; and Ms. Asensio, \$243,061.

SERP. The Corporation maintains a supplemental executive retirement plan (the SERP) for certain of its executive officers, including Mr. Young, but excluding Mr. Clossin, Mr. Dargusch, Mr. Zatta and Ms. Asensio. Although benefits under the SERP are unsecured, the Corporation funds payment of certain of such benefits through bank owned life insurance arrangements where appropriate or available. The SERP is a non-qualified retirement benefit. See footnote 6 to the Summary Compensation Table on page 34 for the accrued benefits for the named executive officers.

The SERP provides for payment of a scheduled annual benefit at normal retirement age of 65 of a fixed amount which was set at the time of adoption, payable annually for a period of 10 years. The plan further provides, pursuant to a schedule, for (i) a reduced early retirement benefit, (ii) a disability retirement benefit, and (iii) for certain officers, a benefit payable upon a termination of employment other than due to death, disability or retirement within three years after a change of control (as defined in the plan) of the Corporation. Each of these annual benefits is payable in monthly installments for a period of 10 years beginning with the month following the later of (i) date that the executive attains age 65, or (ii) retires.

Death benefits also are payable under the SERP. If the executive dies prior to any termination of employment with the Corporation, the executive's designated beneficiary is entitled to a payment of a death benefit under a split dollar life insurance agreement. If the executive dies after payment of retirement benefits under the SERP has commenced, any remaining benefit payments will be paid to the executive's designated beneficiary in the same manner as they would have been paid to the executive. In addition, if the executive dies after termination of employment with the Corporation and prior to the commencement of any payment of retirement benefits under the SERP, the executive's designated beneficiary will be entitled to receive payment of the executive's retirement benefit under the SERP beginning with the month following the executive's death.

One of the five named executive officers has supplemental retirement plan benefits, payable for a ten- year term beginning at age 65 or later retirement. Mr. Young has an annual benefit in the amount of \$40,000. For more information about the SERP, see the Pension Benefits table on page 39 and the section entitled Potential Payments Upon Termination or Change in Control on page 41.

Why We Maintain the Defined Benefit Plan, KSOP and SERP. The Corporation is a product of an active mergers and acquisitions program and we have evolved and grown from a local community bank into a regional bank holding company over a period of years. Historically, we maintained a single form of pension benefit, which is the Defined Benefit Plan. Many of our long-term employees have significant vested benefits under the Defined Benefit Plan and, therefore, the plan has been viewed as an important source of financial security to the vast majority of long-term employees.

However, due to the costs of administration of the Defined Benefit Plan and the caps in benefits payable under the plan, its flexibility in meeting the retirement needs of our executive officers became problematic. Additionally, as acquisitions and recruitment brought into the Corporation new employees with limited vesting opportunities under the

Defined Benefit Plan and experience with more flexible salary replacement retirement programs, the need to offer a broader array of retirement benefits became a competitive necessity. The Executive Committee recommended the closure of the Defined Benefit Plan to new participants in 2007, which was approved by the Board and implemented by plan amendment.

Table of Contents

Additionally, the limitations and costs of our Defined Benefit Plan caused us to pursue other strategies designed to provide salary replacement programs for retirement planning for our executive officers. Recruitment of experienced executive officers also required more flexible benefit programs to offset career change disadvantages and to offer offsetting benefit programs. The Corporation adopted an employee stock ownership plan in 1986, which evolved into a 401(k) benefit plan, and which was enhanced in 2005 to make it more competitive. The Compensation Committee believes that the benefit plans offered are competitive with those provided by other banks with which we compete for executive talent.

Perquisites and Other Benefits

In addition to the annual and long-term compensation described above, named executive officers receive other benefits and items of compensation. Such benefits and other items of compensation include, among others: group life insurance, club dues and supplemental group life insurance. These benefits are provided to increase the availability of the executives to focus on the business of the enterprise. The costs associated with providing these benefits and other items of compensation for our named executive officers are reflected in the Summary Compensation Table on page 34. A chart disclosing the value of these additional items is found on page 35 entitled All Other Compensation .

Executive officers participate in other employee benefit plans generally available to all employees on the same terms as similarly situated employees. These plans include medical, dental, group life insurance and group disability programs, as well as health savings accounts for reimbursement of medical expenses. Our Compensation Committee has requested that we disclose all perquisites provided to our named executive officers in the Summary Compensation Table on page 34 even if the perquisites fall below the disclosure thresholds under the SEC rules.

Deferred Compensation Opportunities

Another aspect of our executive compensation program is the Wesbanco, Inc. Deferred Compensation Plan, which we refer to as the Deferred Compensation Plan. The Deferred Compensation Plan is a voluntary, non-tax qualified, deferred compensation plan available to our directors and employees specifically named by our Compensation Committee, which employees include all of our named executive officers, to enable them to save for retirement by deferring from 1% to 100% of their base salary and bonus or director fees. The Deferred Compensation Plan permits, but does not require, the Corporation to make matching contributions with respect to participating employees, but not for directors. Balances for participating employees and directors are deemed invested in investment vehicles permitted from time to time by the Board of Directors in advance and credits (or debits) for investment experience may be made from time to time based on individual fund elections similar to what participants in the KSOP are permitted to make. One of the purposes of the plan is to permit the Corporation to supplement retirement benefits for executive officers who will not, because of age or service requirements, realize any significant benefits under the Corporation's qualified benefit plans. In addition, the Compensation Committee believes that the Deferred Compensation Plan is competitive with that provided by other banks with which we compete for executive talent. During 2015, the Corporation made matching contributions for several of our named executive officers. See the Nonqualified Deferred Compensation table on page 40 for additional information about the Deferred Compensation Plan for our named executive officers.

Bank-Owned Life Insurance Program

In 2002, the Corporation implemented a bank-owned life insurance program which was primarily designed to offset the cost of certain employee benefit plans. The policies purchased are primarily Modified Endowment Contracts, and it is the Corporation's intention to hold the insurance until the ultimate death of each insured. The Corporation addressed West Virginia's insurable interest requirements by offering the program only to officers, required their written consent to participate in the program, and irrevocably assigned a \$25,000 death benefit for each insured to be

paid to the insured's beneficiary upon the death of the insured directly from the Corporation's general accounts.

Table of Contents

Specifically, the 2002 program insures approximately 95 current or former officers, at the level of assistant vice president or higher. Each officer has consented to participate in the program. Each officer has also been irrevocably assigned a \$25,000 death benefit in the policy proceeds on the employee's life which is payable to the insured's designated beneficiary upon the death of the insured. On average, the death benefit payable to the Corporation as a multiple of salary is approximately nine times annual salary. Of the named executive officers, only Mr. Young has such a policy for the primary benefit of the Corporation against his life, and only if such policy remains in force by the Corporation until his death would the above-noted \$25,000 supplemental benefit be paid to his beneficiaries.

An additional purchase of bank-owned life insurance was consummated in 2010 insuring 34 individuals, some of whom were also in the 2002 program. For those individuals not receiving a \$25,000 supplemental death benefit policy in the 2002 program, such was offered for the 2010 purchase, and all individuals consented to the purchase.

Other bank-owned life insurance is owned by the Corporation as a result of various acquisitions of other banks since 2002. The original institution insuring officers under their programs did not offer a supplemental death benefit but did receive consents from the insured officers for such purpose. A total of 177 current and former officers are insured by the Corporation under all three of the above-noted programs. As a result of the ESB acquisition, additional bank-owned life insurance has been inherited which currently insures 33 current and former officers.

Employment Contracts

The Corporation and its subsidiaries provide certain executive officers, including our named executive officers, with written employment contracts. These contracts are all substantially the same and are structured on a revolving three-year term which is annually renewable. The contracts provide for discharge for cause, and terminate in the event of the death of the employee. If terminated by reason of the death of the employee, the Corporation is obligated to pay to the employee's estate an amount equal to six months of the base salary. If terminated without cause, the employee is entitled to a severance payment equal to the greater of (i) six months of the employee's base salary, or (ii) the base salary the employee would have received had he continued to be employed throughout the end of the then-existing term of the agreement. There are no golden parachute type provisions, change in control provisions, tax gross up provisions or other similar provisions contained in the contracts. See the section entitled "Potential Payments Upon Termination or Change in Control," including the related tables, beginning on page 41 for an estimate of the benefits that our named executive officers would be entitled to receive pursuant to their respective employment agreements under various employment termination scenarios.

Although the employment contracts for each executive officer contain termination provisions which would permit salary continuation under certain circumstances in the event the contracts are terminated by the Corporation, the Change in Control Agreements, described in a succeeding section, contain provisions that, if the employee so elects, supersede and replace the termination benefits under an employee's employment contract in the event of a termination or severance of such an executive officer's employment subsequent to a change in control. Thus, the employee can elect a termination payment only under one form of benefit, either under the employment contract or the Change in Control Agreement, and if the employee elects a benefit under the Change in Control Agreement, no termination benefit is payable under the employee's employment agreement.

Change in Control Agreements

On April 24, 2014, the Corporation and the Bank entered into a change in control agreement with Mr. Clossin (the Change in Control Agreement). The Change in Control Agreement is for a term of three years, with automatic one-year extensions. The Change in Control Agreement sets forth certain terms and conditions upon the occurrence of a change in control event. Absent a change in control event (as defined in the Change

Table of Contents

in Control Agreement and summarized below), the Change in Control Agreement does not require the Corporation or the Bank to retain the executive in its employ or to pay any specified level of compensation or benefits.

The Change in Control Agreement provides that if a change in control event of the Corporation or the Bank which employ the employee occurs, the Corporation and the Bank will be obligated to either continue to employ the executive during the time period starting upon the occurrence of a change in control event and ending two years thereafter (the Term of Employment) or provide severance as per the Change in Control Agreement as described below.

If, during the Term of Employment, the executive is discharged by the Corporation or the Bank without cause or resigns for good reason, then the executive shall receive a lump sum payment equal to two times (i) the highest rate of the executive's annual base salary in effect prior to the date of termination, and (ii) the greater of the executive's average annual bonus over the most recent two years ending prior to the date of termination, or the executive's bonus established for the annual bonus plan year in which the date of termination occurs. If the executive is terminated during the Term of Employment for any reason other than cause, then for a period of 18 months from the date of termination, the executive and/or the executive's family will continue to receive insurance and health care benefits as of the effective date of the change in control event, subject to reduction to avoid duplication with benefits of a subsequent employer. Under a superseding clause in the Change in Control Agreement, in the event of a termination or severance of the executive's employment subsequent to a change in control event, benefits under the Change in Control Agreement will supersede and replace the benefits under the executive's Restated Agreement described above.

Generally, and subject to certain exceptions, a change in control event is deemed to occur if (a) final regulatory approval is obtained for a party to acquire securities of the Corporation or the Bank representing 20% or more of the combined voting power of the Corporation or the Bank's then outstanding securities; (b) during any two consecutive years, there is a significant change in the Corporation's or the Bank's Board of Directors not approved by the incumbent Board; or (c) final regulatory approval is obtained for a plan of complete liquidation or dissolution or sale of all or substantially all of the Corporation's or the Bank's assets or certain significant reorganizations, mergers and similar transactions involving the Corporation or the Bank.

If an excise tax under Section 4999 of the Internal Revenue Code applies to these payments, the Corporation will either pay the executive a reduced amount as a lump sum or over an extended period of years such that the net present value of such payments would not cause an excise tax to become due.

The Corporation has entered into agreements with all of our named executive officers and with certain other officers to encourage those key officers not to seek other employment because of the possibility of another entity's acquisition of the Corporation. These agreements were designed to secure the executives' continued service and dedication to the best interests of stockholders in the face of the perception that a change in control could occur, or of an actual or threatened change in control. Because of the amount of acquisition activity in the banking industry, the Board of Directors believed that entering into these agreements was in our stockholders' best interests.

The agreements operate only upon the occurrence of a change in control as defined in the agreements. Absent a change in control, the agreements do not require us to retain the executives or to pay them any specified level of compensation or benefits. Each agreement provides that if a change in control of the Corporation or the Bank which employs the employee occurs, we will be obligated to continue to employ the executive during the time period starting upon the occurrence of a change in control and ending two years thereafter (or, if earlier, at the executive's retirement date under established rules of the Corporation's tax-qualified retirement plan).

Generally, and subject to certain exceptions, a change in control will be deemed to have occurred if (i) final regulatory approval is obtained for any party to acquire securities of the Corporation and/or the Bank

Table of Contents

representing 20% or more of the combined voting power of the Corporation or the Bank's then outstanding securities; (ii) during any two consecutive years, there is a significant change in the Corporation or the Bank's Board of Directors not approved by the incumbent Board; or (iii) final regulatory approval is obtained for a plan of complete liquidation or dissolution or sale of all or substantially all of the Corporation or the Bank's assets or certain significant reorganizations, mergers and similar transactions involving the Corporation or the Bank.

If during this two-year period the executive is discharged without cause or resigns for good reason, then the executive will receive a lump sum payment equal to a multiple from one to three times (i) the highest rate of the executive's annual base salary in effect prior to the date of termination, (ii) the greater of the executive's average annual bonus over the one to three year period ending prior to the date of termination, or the executive's bonus established for the annual bonus year in which the date of termination occurs, and (iii) continuation of all medical benefits for eighteen months from the termination with premium payments the same as existed at the time of the change in control. If an excise tax under Section 4999 of the Code applies to these payments, the Corporation will either pay the executive a reduced amount as a lump sum or over an extended period of years such that the net present value of such payments would not cause an excise tax to become due. In addition, for a period of 18 months from the date of termination, the executive and/or the executive's family generally will continue to receive insurance and health care benefits equivalent to those in effect immediately prior to the date of the change in control.

The Board considered both so-called "single trigger" change in control arrangements, which generally entitle an executive to benefits if the executive's employment is terminated for any reason during a specified period after a change in control, and "double trigger" change in control arrangements, which typically require the executive's termination to be involuntary or the executive's resignation to be for good reason. The Board elected "double-trigger" change in control agreements because the Board was of the view that requiring the executive's employment termination to be involuntary or for good reason would adequately mitigate the personal concerns of executives in connection with potential change in control scenarios and satisfy the purpose of the agreements.

See the section entitled "Potential Payments Upon Termination or Change in Control," including the related table, beginning on page 41 for an estimate of the benefits that our named executive officers would be entitled to receive under certain scenarios pursuant to their respective change in control agreements as a result of a change in control.

Tax Deductibility of Compensation

Under Section 162(m) of the Code, publicly-held corporations generally may not take a tax deduction for compensation in excess of \$1 million paid to any named executive officer during any fiscal year. There is an exception to the \$1 million limitation for performance-based compensation meeting certain requirements. To maintain flexibility in compensating executive officers in a manner designed to promote varying corporate goals, our Compensation Committee has not adopted a policy requiring all compensation to be deductible. However, the Compensation Committee considers deductibility under Section 162(m) with respect to compensation arrangements for executive officers. In 2015, none of our executive officers received compensation that the Corporation could not deduct by reason of Section 162(m).

Our Policies With Respect to the Granting of Stock Options

Stock options may be granted by either the Compensation Committee or the full Board. The Board generally does not grant options, although the Compensation Committee regularly reports its activity, including approval of grants, to the Board.

Timing of Grants. Stock options are granted at a regularly scheduled meeting of the Compensation Committee. This meeting occurs approximately one month after our annual stockholders meeting and the Compensation Committee also approves salary adjustments at this meeting. On limited occasions, grants may occur at an interim meeting of the Compensation Committee, primarily for the purpose of approving a

Table of Contents

compensation package for newly hired or promoted executives. The timing of these grants is driven solely by the activity related to the need for the hiring or promotion and not our stock price or the timing of any release of company information.

Option Exercise Price. The exercise price of a newly granted option (that is, not an option assumed in, or granted in connection with, an acquisition) is the closing price on the Nasdaq on the day before the date of grant as set forth in the Long-Term Incentive Plan.

Clawback Policy. At its November 18, 2015 meeting, the Committee adopted a compensation clawback policy intended to comply with Dodd-Frank Section 954 and Proposed Exchange Act Rule 10D-1 and provide additional clawback rights for the Corporation (the Clawback Policy). The Clawback Policy requires certain mandatory clawbacks for accounting restatements for material noncompliance with the financial reporting requirements of the securities laws and permits the Committee certain discretionary clawbacks in other circumstances.

The Clawback Policy requires an individual agreement with each named executive officer and with each other participant in certain compensation programs based on performance. In the individual agreement, the named executive officer not only acknowledges the Clawback Policy but also agrees to the terms and conditions of the mandatory and discretionary clawbacks. Each individual agreement requires the signature of the applicable named executive officers and other participating individuals.

Stock Ownership Guidelines. The Compensation Committee also adopted shareholding guidelines for named executive officers. Under the guidelines the target for the Chief Executive Officer would be to hold shares of Corporation common stock worth three (3) times his annual base salary and each other named executive officer hold one and one half (1.5) times his or her annual base salary. The Corporation had no shareholding guidelines in the past. In light of the relatively recent hiring and/or promotion of several of the named executive officers, the shareholding guidelines will be phased in over five years.

Review of All Components of Executive Compensation

The Compensation Committee reviews all components of compensation paid to or earned by our named executive officers, including salary, annual and long-term incentive compensation, accumulated realized and unrealized equity-based gains, the dollar value to the executive and cost to the Corporation of all perquisites and other personal benefits, the earnings and accumulated payout obligations under our deferred compensation plans, the actual projected payout obligations under our supplemental retirement income plan and the hypothetical payout obligations under several potential severance and change-in-control scenarios. When the Compensation Committee considers setting various compensation components for our named executive officers, the Compensation Committee takes into consideration the aggregate amounts and mixes of all the principal components, in addition to peer group information.

Compensation Committee Report

The Compensation Committee of the Corporation has reviewed and discussed the foregoing Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussion, the Compensation Committee recommended to the Board, and the Board has approved, that the Compensation Discussion and Analysis be included in this Proxy Statement.

Perquisites and Other Benefits

Perquisites and other benefits represent a small part of the Corporation's compensation package, and are offered only after consideration of business need. The primary perquisites are matching contributions to amounts deferred from compensation by the Corporation's executive officers, club dues, group life insurance and split dollar benefits. The following chart lists the principal perquisites and personal benefits and other miscellaneous compensation elements which are included in the Summary Compensation Table as All Other Compensation, found on page 35 and the dollar value of the Corporation's aggregate incremental cost of each.

Key Executive Incentive Bonus, Option and Restricted Stock Plan

The Board of Directors of the Corporation adopted and approved, effective February 19, 1998 (the Effective Date), the Key Executive Incentive Bonus, Option and Restricted Stock Plan (the Incentive Plan). The Incentive Plan was initially approved by the stockholders of the Corporation on April 15, 1998, and the stockholders approved an increase in the amount of stock available under the Incentive Plan to 1,000,000 shares on April 18, 2001. The stockholders approved an amended and restated Incentive Plan on April 21, 2010. The amended and restated Incentive Plan, among other things, authorized awards of restricted stock (in addition to stock options, which the Corporation has historically granted), and increased the authorized shares for issuance under the plan by an additional 800,000 shares. The Incentive Plan is administered by the Compensation Committee of the Corporation¹.

The Incentive Plan is designed to pay incentive compensation, in the case of Annual Bonus or Long Term Bonus (including both cash-based and equity-based awards), or permit granting of Stock Options, if the Committee determines, after review of all applicable measurements and circumstances, predetermined performance goals or other eligibility criteria are actually achieved. For awards with one or more performance conditions, if the Committee determines that applicable performance goals have not been met for a particular measurement period, no incentive compensation will be paid and/or no options or other equity-based awards will become vested with respect to that measurement period unless the award was based on other criteria.

The Board of Directors of the Corporation is involved in the operation of the Incentive Plan to the extent of determining whether annual incentive awards will be made for a particular fiscal year and/or whether long-term incentive awards will be made available for a particular series of fiscal years and informing the Committee of the Board s priorities as to performance goals. The Committee makes awards and determines the amount, terms and conditions of each such award as well as the respective performance goals to be achieved in each period by the participants. The Committee has the sole discretion to interpret the Incentive Plan, establish and modify administrative rules, impose conditions and restrictions on awards, and take such other actions as it deems necessary or advisable, including, but not limited to, considering the effect, if any, of extraordinary items or special circumstances on the ability of one or more participants (each, a Key Employee) to achieve performance goals for a period.

The Incentive Plan provides for awards of up to 1,800,000 shares of Common Stock. The number of shares available for issuance under the Incentive Plan is subject to anti-dilution adjustments upon the occurrence of significant corporate events. The shares offered under the Incentive Plan are either authorized and unissued shares or issued shares which have been reacquired by the Corporation and held in treasury.

The Incentive Plan generally consists of four portions: the annual bonus portion, the long-term bonus portion, the stock option portion and the restricted stock portion. A Key Employee may participate in one or more portions simultaneously. The annual bonus portion provides a participating Key Employee an opportunity to earn incentive compensation, if any, based on the actual achievement of performance goals set for that Key Employee over a fiscal year of the Corporation. Under this program a total of \$1,298,492 in cash was allocated and paid for such bonuses in 2015, of which \$711,970 was paid to the named executive officers. For more information on these bonuses, see Annual Cash Incentive Awards on page 20.

The Committee may grant to a Key Employee stock options which do not qualify as incentive stock options (non-qualified stock options). The terms and conditions of stock option grants including the quantity, price, waiting periods, and other conditions on exercise are determined by the Committee but the exercise price per share may not be less than the closing market price on the day prior to the grant date. Options may vest over a period of time determined by the Committee based on the lapse of time or the actual achievement of performance goals set by the Committee at the time of grant. Under the Incentive Plan, if a Change in Control occurs, all stock options will become

vested and exercisable and all opportunities for Annual Bonus and Long Term Bonus will be deemed earned and be immediately payable.

¹ Capitalized terms not herein defined in this section have the meanings given to them in the Incentive Plan.

Table of Contents

During 2015, the Compensation Committee awarded 94,800 stock options to executive officers of the Corporation of which 13,000 options were awarded to the named executive officers. For more information on these awards see *Grants of Plan-Based Awards for the Year Ended December 31, 2015* on page 35. For outstanding options for the named executive officers see the table titled *Outstanding Equity Awards at Fiscal Year-End* on page 38.

The Committee may also grant to a Key Employee restricted stock. The Committee has the discretion under the Plan to award shares of restricted stock with restrictions that will lapse, if at all, upon the attainment of performance and/or personal goals or the completion of a specified period of employment. In 2015, the Compensation Committee did grant time-vesting restricted stock. The Committee may provide for the payment of any applicable dividends paid with respect to any shares of common stock subject to a Restricted Stock Award during the period prior to the lapse of the restrictions. In addition, effective January 1, 2016 the Compensation Committee granted performance-based restricted stock in the form of TSRP awards to certain executive officers with a 2016-2018 performance measurement period.

During 2015, the Compensation Committee awarded 48,550 shares of time vested restricted stock to executive officers of the Corporation of which 13,000 shares were granted to the named executive officers. The Restriction Period for the shares is three years from the date of the award. See *Grants of Plan-Based Awards for the Year Ended December 31, 2015* on page 35.

Table of Contents**Pension Benefits**

The table below shows the present value of accumulated benefits payable to each of the named executive officers, including the number of years of service credited to each such named executive officer, under each of the Defined Benefit Plan and the SERP, determined using interest rate and mortality rate assumptions consistent with those used in the Corporation's financial statements. Information regarding the Defined Benefit Plan and the SERP can be found in the text following the table.

The Corporation maintains the Defined Benefit Plan for all employees employed prior to August 1, 2007, and the SERP for certain executive officers. The preceding pension benefits table lists the approximate present value of the retirement benefits (qualified plan only) an executive officer would receive if he or she retired at age 65. Amounts are based on a full life annuity form for the defined benefit plan. The values reflected in the Present Value of Accumulated Benefit column of the Pension Benefits table are equal to the actuarial present value of each officer's accrued benefit under the applicable plan as of December 31, 2015, using the same actuarial factors and assumptions used for financial statement reporting purposes. These assumptions are described in Note 12 under Part II, Item 8, Financial Statements and Supplementary Data of our Form 10-K for the year ended December 31, 2015.

Under the Defined Benefit Plan, a participant's compensation covered by the Corporation's pension plan is cash compensation reported on the Form W-2 plus 401(k) Plan elective deferrals and Section 125 contributions made by the employee (as reported in the Summary Compensation Table), for the 60 consecutive months out of the last 120 consecutive months of the participant's career for which such average is the highest, or in the case of a participant who has been employed for less than 60 months, the period of his employment with the Corporation. The plan benefit is not subject to any offset for social security benefits. Under current IRS rules only annual compensation of \$265,000 (for 2015) or less is considered covered compensation for defined benefit plan purposes.

The Corporation closed the Defined Benefit Plan to new participants effective August 1, 2007, and the plan has not accepted new participants since that date.

Table of Contents

In 1999, the Corporation approved and subsequently established the SERP for certain executive officers, including some of the named executive officers. Although benefits under the plan are unsecured, the Corporation funded payment of certain of such benefits through bank-owned life insurance arrangements where appropriate or available. The plan is a non-qualified retirement benefit. The SERP's annual accrued benefits for the named executive officers are noted in the Summary Compensation Table.

The Compensation Committee also made modifications to the form of agreement used under the SERP during 2005. At its meeting on May 18, 2005, the Committee authorized the use of a form of agreement which eliminated the change in control trigger contained in the existing form of agreement and offered executive officers who had an existing agreement, including Mr. Young, the option of using either form of agreement. The benefit to those officers electing such change in form of agreement would be to eliminate any corresponding offset to their Change in Control Agreement benefits by reason of payments due under the SERP. Mr. Young elected not to convert to the new form of agreement.

The Corporation's non-qualified Deferred Compensation Plan permits voluntary participation by employees specifically named by the Compensation Committee, including the named executive officers. The Committee also authorized the inclusion of directors into the new Deferred Compensation Plan providing for the transfer into the plan of the account balances of directors participating in the former Directors Deferred Compensation Plan, which was replaced with the new plan. The new plan was adopted to meet the requirements of the American Jobs Creation Act of

2004 and its implementing regulations.

The plan permits participating executive officers and directors to elect in advance to defer from 1% to 100% of base salary and bonus or director fees into the plan on an annual basis. The plan permits, but does not require, the Corporation to make matching contributions with respect to participating employees. No employer contributions can be made with respect to directors. Employer contributions to the plan for individual participants require the approval of the Compensation Committee. Balances for participating employees and directors are deemed invested in investment vehicles permitted from time to time by the Board of Directors in advance and

Table of Contents

credits (or debits) for investment experience may be made from time to time. One of the purposes of the plan is to permit the Corporation to supplement retirement benefits for executive officers who will not, because of age or service requirements, realize any significant benefits under the Corporation's defined benefit pension plan. Matching contributions were made for the named executive officers for 2015 as disclosed in the Nonqualified Deferred Compensation table above.

Distributions are made at either the applicable date selected by participating officers or directors at the time they made their election to defer or after separation from service.

Potential Payments Upon Termination or Change in Control

The table below entitled Executive Benefits and Payments Upon Termination on page 44 summarizes the estimated payments to be made under each contract, agreement, plan or arrangement which provides for payments to a named executive officer at, following, or in connection with any termination of employment including by resignation, retirement, disability or a constructive termination of a named executive officer, or a change in the named executive officer's responsibilities, following a change in control. However, in accordance with SEC regulations, we do not report in this table any amount to be provided to a named executive officer under any arrangement which does not discriminate in scope, terms, or operation in favor of our executive officers and which is available generally to all salaried employees. Also, the following table does not repeat information disclosed above under the pension benefits table, the deferred compensation table, or the outstanding equity awards at fiscal year-end table, except to the extent that the amount payable to the named executive officer would be enhanced by the termination event.

For the purpose of the quantitative disclosures in the below table, and in accordance with SEC regulations, we have assumed that the termination took place on December 31, 2015, the last business day of our most recently completed fiscal year, and that the price per share of our Common Stock is the closing market price as of that date \$30.02.

The Corporation has entered into employment contracts with its executive officers, including the named executive officers, which are structured on a revolving three-year term which are annually renewable. These contracts do not contain an acceleration provision based on a change in control of the Corporation. If they are terminated by reason of the death of the employee, then the Corporation is required to pay the employee's designated beneficiary an amount equal to six months of the employee's base salary. If the employee is terminated for cause, then no severance payment is due. If the employee is terminated without cause, then the Corporation is obligated to pay the employee the greater of (i) six months of the employee's base salary, or (ii) the base salary the employee would have received had he continued to be employed throughout the end of the then existing term of the agreement. In the event of a resignation of the employee, the Corporation is not required to pay any severance.

Severance

The Corporation has entered into Change in Control Agreements with members of senior management, including each of our named executive officers pursuant to which the Corporation would pay certain benefits. The Corporation would make such payments only if a change in control takes place, and if the Corporation terminates an executive without cause or the executive resigns for good reason within two years of the change in control. The term cause is defined in the agreements to include acts of dishonesty, disloyalty or fraud, inattention, neglect or inability to perform duties, or breach of the employee's covenants or terms of the agreement or engaging in intentional gross misconduct. The term good reason is defined to include (i) assignment to duties materially inconsistent with those in effect ninety days prior to a change in control; (ii) assigning the officer to a location in excess of 35 miles from his existing location; (iii) reduction in salary in excess of 10%; (iv) failure of a successor company to assume the obligations of the agreement and (v) termination of the officer without cause.

Table of Contents

Generally, and subject to certain exceptions, a change in control shall be deemed to have occurred if (i) final regulatory approval is obtained for any party to acquire securities of the Corporation and/or the Bank representing 35% or more of the combined voting power of the Corporation or the Bank then outstanding securities; (ii) during any two consecutive years, there is a significant change in the Corporation or the Bank Board of Directors not approved by the incumbent Board; or (iii) final regulatory approval is obtained for a plan of complete liquidation or dissolution or sale of all or substantially all of the Corporation or the Bank assets or certain significant reorganizations, mergers and similar transactions involving the Corporation or the Bank.

The Corporation will pay an amount up to three times (less for certain officers) the sum of (1) the highest annual base salary in effect at any time up to termination, (2) the greater of (i) the employee's average annual bonus over the most recent three bonus years (less years for certain officers), or (ii) the employee's bonus for the year of termination, and (3) continuation of all medical benefits for eighteen months from the termination with premium payments the same as existed at the time of the change in control. The Corporation would pay such amount in a lump sum within thirty days following the termination, subject to any limitations calculated under Code Section 409(a).

If an excise tax under Section 4999 of the Code applies to these payments, the Corporation will either pay the executive a reduced amount as a lump sum or will pay such amount over an extended period of years such that the net present value of such payments would not cause an excise tax to become due. For more information about our Change in Control agreements, please see the section of our Compensation Discussion and Analysis entitled "Change in Control Agreements" on page 30.

Long-Term Incentive Plan

The Long-Term Incentive Plan contains certain acceleration provisions which apply to benefits, options and restricted stock granted thereunder. In the event of the retirement or disability of an employee, each installment of incentive compensation earned for cycles completed prior to such retirement or disability shall be paid to the employee on the date such amounts would be distributable without regard to such retirement or disability and no installment shall be forfeited. In addition, the Compensation Committee may, in its sole discretion, permit such employee to receive a pro rata portion of the annual bonus or long-term bonus which otherwise would have been distributable to such employee if the performance level actually achieved as of the date of his or her termination of employment had continued for the remainder of the incentive cycle and the Compensation Committee may, in its discretion, permit the exercise of any then outstanding stock option, to the extent then vested, for a period not to exceed two years after such retirement or disability. In the event of the death of an employee, each installment of incentive compensation earned for a given year completed prior to the employee's death shall be paid to his or her beneficiary within one hundred twenty days following the date of death. In addition, the Compensation Committee may, in its discretion, permit the employee's beneficiary to receive a pro rata portion of the cash as annual bonus or long-term bonus which would otherwise have been distributable to the employee with respect to those open fiscal year and incentive cycles as if the performance level actually achieved as of the date of his or her death had continued for the remainder of the fiscal year or incentive cycle. Additionally, the Compensation Committee may, in its discretion, permit the exercise of any then outstanding stock option, to the extent then vested, for a period not to exceed one year after such death. Restricted stock fully vests in the event of the death, disability or retirement of the employee.

The Long-Term Incentive Plan also contains a change in control trigger provision. Under this provision, if there is in fact a change in control, then all fiscal year or incentive cycles then formed shall be deemed completed and the performance goals for each period shall be deemed to be met at the greater of (i) the target level or (ii) the level of achievement which would have been attained if actual performance to such time continued until the end of such period. Additionally, all stock options granted under the Plan shall be deemed vested and completely exercisable, all restricted stock fully vests and all performance goals for each fiscal year or incentive cycle shall be deemed met at the

superior performance level. All unpaid installments of incentive compensation earned in prior years shall be vested and distributable and, in the case of deferred installments, as if the deferral period elected by the employee had been completed. Additionally, all incentive compensation of each employee shall be distributed within ten days of the happening of the event giving rise to a change in control.

Table of Contents

In the event of a termination of an employee for cause, the Compensation Committee may, in its discretion, determine that the employee has forfeited the right to receive any installment of incentive compensation under the Long-Term Incentive Plan, any stock option, whether or not then vested, shall be void and no longer exercisable and all restricted stock shall be forfeited, upon the occurrence of a termination for cause.

SERP

There are two versions of the SERP agreement used currently, one with a change in control provision and one without. One of the five named executive officers has a SERP agreement namely, Mr. Young. Mr. Young has a SERP agreement with a change in control feature.

Both forms of agreement provide for an actuarially reduced benefit in the event of early termination or retirement equivalent to 100% of the accrued benefit payable to the employee at the time of such early termination or retirement. In each case, the benefit is payable at normal retirement age except that the Corporation has discretion to make a lump sum payment in lieu of the annual benefit payable for a term of ten years, discounted to present value. Both forms of agreement also provide for a disability benefit occurring prior to normal retirement age. In the event of disability, the employee is vested in his normal retirement benefit commencing in the month following his normal retirement age.

Additionally, both forms of agreement provide a death benefit. If the employee dies while in the active service of the Corporation, the employee's beneficiary is entitled to receive the split dollar death benefit payable under the terms of the policy. If the employee dies after any lifetime benefit payments have commenced, but before receiving all such payments, the Corporation is required to pay the remaining benefits to the employee's beneficiary at the same time and in the same amounts they would have been paid to the employee had the employee survived. If the employee dies after termination of employment but before lifetime benefit payments have commenced, the Corporation shall pay the benefit payments to the employee's beneficiary that the employee was entitled to prior to death except that the benefit payment shall commence on the 1st day of the month following the date of the employee's death.

Mr. Young's SERP agreement, which contains a change in control benefit provision, provides that in the event of a change in control of the Corporation, Mr. Young is vested in the normal retirement benefit which is payable at normal retirement age. However, under the terms and conditions of the change in control agreements that the Corporation has in place, any accelerated vesting of the benefit and corresponding present value thereof would reduce the lump sum payment payable to the employee under the change in control agreements. For certain other officers who are not named executive officers, whose SERP agreements do not contain a change in control feature, they would continue to vest benefits under the SERP in the event of a change in control and in the event of a termination following a change in control would not receive any accelerated vested benefit under the terms of the SERP agreement. For more information about our SERP, please see the section of our Compensation Discussion and Analysis entitled "Retirement Plans - SERP" on page 28.

Retirement Plans

Presently, employees eligible to participate in the Defined Benefit Plan become vested in their Defined Benefit Plan after five years of service. Employees become vested in the KSOP Plan immediately with respect to elective contributions, five years with respect to the ESOP component thereof, and immediately with respect to matching contributions by the Corporation. In addition, employees are eligible for a reduced retirement benefit under the terms of the Defined Benefit Plan after ten years of service and attaining age 60. Once vested, employees are entitled to pension benefits upon retirement. All of the participating named executive officers are vested in their Defined Benefit Plan. The benefits payable under both the KSOP Plan and the Defined Benefit Plan are not enhanced based on the circumstances regarding termination, or in the event of a change in control. Because the Corporation would not

enhance the benefits payable under any of these plans if the employment of one of its named executive officers terminate, the Corporation does not report any amount in respect of these plans in the table below. For more information about our Defined Benefit Plan, please see the section of our Compensation Discussion and Analysis entitled Retirement Plans Defined Benefit Plan on page 27.

Corporate Governance

The Corporation is committed to maintaining strong corporate governance practices that allocate rights and responsibilities among stockholders, the Board of Directors and management, in a manner that benefits the long-term interests of the Corporation's stockholders. Accordingly, the Corporation's corporate governance practices are designed not just to satisfy regulatory requirements, but to provide for effective oversight and management of the Corporation.

In conjunction with these requirements, the Corporation previously adopted a Code of Business Conduct and Ethics which it reviews and approves annually. It most recently reviewed and approved the policy at its regular meeting on August 27, 2015. The Code applies to all officers, employees and directors of the Corporation

Table of Contents

and includes a Code of Ethics and a formal statement of policy requiring all employees of the Corporation to adhere to high standards of ethical business conduct and it details a number of those standards. The Code of Ethics is available on the Corporation's website at www.wesbanco.com under the "Investor Relations" section.

The Corporation has a Nominating Committee, a Compensation Committee and an Audit Committee, all the members of which are independent, as that term is defined in the Nasdaq listing standards. In addition, all Audit Committee members are also independent under the independence standards of Rule 10A-3 under the Act. The Audit Committee has adopted an Audit Committee Charter which was last approved by the Audit Committee on July 25, 2015. The Audit Committee reviews and reassesses the adequacy of its charter on an annual basis. The Nominating Committee has adopted a written charter. The Nominating Committee approved the slate of directors nominated for election as described herein under the caption "Election of Directors". (The selections were recommended by the Chief Executive Officer and Executive Committee of the Corporation and approved by the Nominating Committee.) The Compensation Committee has also adopted a written charter which was last reviewed and approved on February 17, 2016. The charters for the Corporation's Nominating Committee, Compensation Committee and Audit Committee are available on the Corporation's website at www.wesbanco.com under the "Investor Relations" section.

The Corporation has also adopted a written policy for employee complaint procedures for reporting of accounting irregularities which provides a specific confidential reporting mechanism available to all employees of the Corporation.

The independent directors meet in executive sessions without management at least two (2) times per year and held their most recent executive session during a regular board meeting on February 18, 2016. The Board of Directors has expressed an intention of maintaining a regular schedule of such meetings as part of its regular meeting agenda.

Stockholders may communicate with the Board by mailing written communications to the attention of the Corporate Secretary at the principal office of the Corporation at One Bank Plaza, Wheeling, WV 26003. All such communications are reviewed by the Secretary of the Corporation and submitted to the Board unless they are determined to be non-substantive.

Board Size and Separate Chairman

The Board of Directors has adopted a policy that its size should be in the range of 15 to 25 members. In establishing its size, the Board considers a number of factors, including (i) resignations and retirements from the current Board, (ii) the availability of candidates, and (iii) balancing the desire of having a small enough Board to facilitate deliberations with, at the same time, having a large enough Board to have the diversity of backgrounds, professional experience and skills so that the Board and its committees can effectively perform their responsibilities in overseeing the Corporation's businesses.

Since 1990, the Corporation has separated the position of chief executive officer and Chairman. The Board has determined that this structure is beneficial since it utilizes a non-management Board member to balance the interests of all constituencies in the overall governance structure. The Chairman presides over all meetings of the Board and works with the chief executive officer in establishing agendas, developing policy initiatives and communicating priorities established by the Board.

The Board is active in addressing risk oversight of the Corporation. The chief risk officer reports directly to the CEO and submits a quarterly risk assessment report which is reviewed quarterly with the Board by the chief risk officer. Additionally, the Board has established a Disclosure Committee of executive management, including the Chairman of the Board and the Chairman of the Audit Committee, which meets quarterly with internal audit, risk management and

representatives of the Corporation's independent auditor to review material disclosures in the Corporation's financial statements prior to their release. The Board also receives regular reports from the

Table of Contents

chairs of the Audit Committee and the Loan Review Committee of the Bank. Additionally, routine reports are provided by the Corporation's counsel and its chief compliance officer. The internal auditor also reports directly to the Board of Directors.

Criteria for Membership on the Board

While a significant amount of public attention has been focused on the need for a majority of members of a Board to be independent a requirement that the Board fully supports and, indeed, is committed to exceeding independence is just one of the important factors that the Board and its Nominating Committee take into consideration in selecting nominees for director. The Nominating Committee and the Board of Directors apply the same criteria to all candidates, regardless of whether the candidate is proposed by a stockholder or some other source.

Overall Composition. As a threshold matter, the Board of Directors believes it is important for the Board as a whole to reflect the appropriate combination of skills, professional experience, market geographic diversity and diversity of backgrounds in light of the Corporation's current and future business needs. Diversity is further defined to include gender, ethnic and geographic diversity.

Personal Qualities. Each director must possess certain personal qualities, including financial literacy and a demonstrated reputation for integrity, judgment, business acumen, and high personal and professional ethics. In addition, each director must be at least 21 years of age at the commencement of service as a director and less than 70 years of age at the time of nomination.

Commitment to the Corporation and its Stockholders. Each director must have the time and ability to make a constructive contribution to the Board, as well as a clear commitment to fulfilling the director's fiduciary duties and serving the interests of all the Corporation's stockholders.

Other Commitments. Each director must satisfy the requirements of antitrust and banking laws that limit service as an officer or director of a significant competitor of the Corporation. In addition, in order to ensure that directors have sufficient time to devote to their responsibilities, the Board determined that directors should generally serve on no more than two (2) other public company boards.

Additional Criteria for Incumbent Directors. During their terms, all incumbent directors on the Corporation's Board are expected to prepare for (by carefully reading any materials distributed in advance of meetings) and attend the meetings of the Board and committees on which they serve and the annual meetings of stockholders; to stay informed about the Corporation and its businesses; to participate in discussions; to comply with applicable Corporation policies; and to provide advice and counsel to the Corporation's management.

Additional Criteria for New Directors. As a result of its assessment of the Board's current composition and in light of the Corporation's current and expected business needs, the Nominating Committee has identified additional criteria for new members of the Board. The following attributes may evolve over time depending on changes in the Board and the Corporation's business needs and environment, and may be changed at any time.

Professional Experience. New candidates for the Board should have significant experience in areas such as the following: (i) chief executive officer of a corporation (or a comparable position in the government or non-profit sector); (ii) chief financial officer of a corporation (or a comparable position in the government or non-profit sector); (iii) other substantive business experience or expertise; or (iv) a high-level position and

expertise in one of the following areas financial services, investment banking, accounting, legal or public relations.

Diversity. The Nominating Committee also believes it would be desirable for new candidates for the Board to enhance the gender, ethnic, and/or geographic diversity of the Board.

Table of Contents

Committee Eligibility. In addition to satisfying the independence requirements that apply to directors generally (see below), the Nominating Committee believes that it would be desirable for new candidates for the Board to satisfy the requirements for serving on the Board's committees, as set forth in the charters for those committees and applicable regulations.

Director Experience. The Nominating Committee believes it is also generally desirable, although not critical, for candidates for the Board to have experience as a director of a public corporation.

Independence. In addition to the foregoing criteria, the Board of Directors and Nominating Committee have established a policy that a majority of the directors must be independent under applicable Nasdaq and SEC standards. In addition, the Board has established the goal that a substantial majority of the Board should be independent. The Board has determined that ten of the fourteen current directors (or 71% of the Board), and four of the six nominees for director, are independent in accordance with Nasdaq and SEC standards. If all of the nominees are elected, the resulting Board will have eleven independent directors out of a total of sixteen or 69%. The Board applies Nasdaq stock market criteria in making its independence determinations. Specifically, under the Nasdaq standards, a director would not be viewed as independent if he or she:

is employed by the corporation or a consolidated parent or subsidiary of the corporation or has been so employed at any time during the past three years;

has a family member who is, or within the past three years was, employed as an executive officer by the corporation or any parent or subsidiary of the corporation;

is, or has a family member who is, a partner in, or a controlling shareholder or executive officer of any organization, including any nonprofit organization, to which the corporation made, or from which the corporation received, payments for property or services in the current or any of the past three fiscal years, that exceed 5% of the recipient's consolidated gross revenues for the year or \$200,000, whichever is more, other than payments arising solely from investments in the corporation's securities or payments under non-discretionary charitable contribution matching programs;

has received (or has a family member who has received) payments in excess of \$120,000 from the listed corporation or any parent or subsidiary of the listed corporation during any period of twelve consecutive months within the past three years, other than compensation for board or board committee service, non-compensatory payments arising solely from investments in the corporation's securities, compensation paid to a family member who is a non-executive employee of the corporation or its parent or subsidiary, or benefits under a tax-qualified retirement plan or non-discretionary compensation;

is, or has a family member who is, employed as an executive officer of another entity where, at any time during the past three years, any of the executive officers of the listed corporation served on the compensation committee of such other entity; or

is, or has a family member who is, a current partner of the corporation's outside auditor, or was a partner or employee of the corporation's outside auditor who worked on the corporation's audit at any time during any of the past three years.

Director Nomination Process

There are a number of different ways in which an individual may be nominated for election to the Board of Directors.

Nominations Developed by the Nominating Committee. The Nominating Committee may identify and propose an individual for election to the Board. This involves the following steps:

Assessment of Needs. As described above, the Nominating Committee conducts periodic assessments of the overall composition of the Board in light of the Corporation's current and expected business

Table of Contents

needs and, as a result of such assessments, the Nominating Committee may establish specific qualifications that it will seek in Board candidates. The Nominating Committee reports on the results of these assessments to the full Board of Directors.

Identifying New Candidates. In light of such assessments, the Nominating Committee may seek to identify new candidates for the Board (i) who possess the specific qualifications established by the Nominating Committee and (ii) who satisfy the other requirements for Board service. In identifying new director candidates, the Nominating Committee seeks advice and names of candidates from Nominating Committee members, other members of the Board, members of management, and other public and private sources, including stockholders.

Reviewing New Candidates. The Nominating Committee reviews the potential new director candidates identified through this process. This involves reviewing the candidates' qualifications as compared to the specific criteria established by the Nominating Committee and the more general criteria established by the Corporation's Bylaws and Nasdaq listing requirements. The Nominating Committee may also select certain candidates to be interviewed by one or more Nominating Committee members.

Reviewing Incumbent Candidates. On an annual basis, the Nominating Committee also reviews incumbent candidates for re-nomination to the Board. This review involves an analysis of the criteria set forth above that apply to incumbent directors.

Recommending Candidates. The Nominating Committee recommends a slate of candidates for the Board of Directors to submit for election by the Corporation's stockholders at the annual stockholders meeting. This slate of candidates may include both incumbent and new nominees. In addition, apart from this annual process, the Nominating Committee may, in accordance with the Bylaws, recommend that the Board elect new members of the Board to fill vacancies who will serve until the next annual stockholders meeting.

Stockholder Nominations Submitted to the Nominating Committee. Stockholders may also submit names of director candidates to the Nominating Committee for its consideration. The same evaluation procedures apply to all candidates for director nomination, including candidates submitted by stockholders. The process for stockholders to use in submitting suggestions to the Nominating Committee is by written recommendation addressed to the Corporate Secretary, in care of the Corporation at One Bank Plaza, Wheeling, WV 26003. The recommendation must include, among other information, biographical information about the nominee, share ownership of the nominee, business experience of the nominee and the name, address and number of shares owned by the stockholder submitting the request. For more information on stockholder nominations, please see the section entitled "Stockholders Intending to Nominate Candidates for Election to Board of Directors Must Give Notice to Corporation" on page 53.

Stockholder Nominations Submitted to Stockholders. Stockholders may choose to submit nominations directly to the Corporation's stockholders. The Corporation's Bylaws set forth the process that stockholders may use if they choose this approach, which is described below at "Stockholders Intending to Nominate Candidates for Election to Board of Directors Must Give Notice to Corporation."

Board Responsibilities

The Board's primary responsibility is to seek to maximize long-term stockholder value. The Board selects senior management of the Corporation, monitors management's and the Corporation's performance, and provides advice and counsel to management. Among other things, at least annually, the Board reviews the Corporation's strategy and approves a business plan and budget for the Corporation. The Board also reviews and approves transactions in accordance with guidelines that the Board may adopt from time to time. In fulfilling the Board's responsibilities, directors have full access to the Corporation's management, internal and external auditors, and outside advisors.

Table of Contents

Board Meetings

The Board of Directors held regular meetings every other month in 2015. At its regular meeting on October 22, 2015 the Board conducted an annual corporate governance review. The Board of Directors also communicates informally with management on a regular basis.

Committees of the Board

In addition to the Executive Committee, the Board has three standing committees which consist solely of independent board members: the Audit Committee, the Compensation Committee and the Nominating Committee. The Corporation also has three committees which include both directors and management personnel: the Personnel and Post-Retirement Committee, the Insurance Committee and the Marketing Committee. Finally, the Board also has a Disclosure Committee which includes the Chairman of the Board and the Chairman of the Audit Committee.

Each of the Audit Committee, the Compensation Committee and the Nominating Committee is composed entirely of independent directors. The Chair of each committee is an independent director. Each committee also holds regular executive sessions at which only committee members are present. Each committee is also authorized to retain its own outside counsel and other advisors as it desires.

As noted above, charters for each of the Executive Committee, Audit Committee, Compensation Committee and Nominating Committee are available on the Corporation's website, but a brief summary of the committees responsibilities follows:

Audit Committee. The Audit Committee assists the Board of Directors in fulfilling its responsibilities in connection with the Corporation's (i) independent auditors, (ii) internal auditors, (iii) financial statements, (iv) earnings releases and guidance, (v) financial and capital structure and strategy, as well as (vi) the Corporation's compliance program, internal controls and risk management.

Nominating Committee. The Nominating Committee is responsible for assisting the Board in relation to (i) director nominations, (ii) committee structure and appointments, (iii) Board performance evaluations, (iv) regulatory matters relating to corporate governance, (v) stockholder proposals and communications, and (vi) management succession.

Compensation Committee. The Compensation Committee is responsible for (i) approving compensation and employment agreements for, and reviewing benefits provided to, the Corporation's senior executives, (ii) overseeing the Corporation's disclosure regarding executive compensation, (iii) reviewing the Corporation's overall compensation structure and benefit plans, (iv) reviewing officer appointments, (v) overseeing the Corporation's human development programs designed to attract, retain, develop, and motivate the Corporation's employees, (vi) reviewing the Corporation's organization chart, and (vii) compensating directors.

Board Self-Evaluation

The Board of Directors conducts a self-evaluation of its performance annually, which includes a review of the Board's composition, responsibilities, structure, processes and effectiveness.

Director Orientation and Education

Each individual, upon joining the Board of Directors, is provided with an orientation regarding the role and responsibilities of the Board and the Corporation's operations. As part of this orientation, new directors have

opportunities to meet with members of the Corporation's management. The Corporation is also committed to the ongoing education of its directors. From time to time, the Corporation's executives, the heads of its business groups and outside experts make presentations to the Board regarding their respective areas.

Non-Employee Director Compensation and Stock Ownership

The Board of Directors is responsible for establishing compensation for the Corporation's non-employee directors. The Compensation Committee reviews the compensation for non-employee directors, including reviewing compensation provided to non-employee directors at other companies, and makes a recommendation to the Board for its approval.

In order to align the interests of directors and stockholders, it is also the Board's policy that non-employee directors are encouraged to own an amount of the Corporation's stock that is significant in light of each director's individual means.

The Corporation also expects all directors to comply with all federal, state and local laws regarding trading in securities of the Corporation and disclosing material, non-public information regarding the Corporation, and the Corporation has procedures in place to assist directors in complying with these laws.

Meetings of Board of Directors and Committees and Compensation of Members

The Board of Directors of the Corporation meets every other month, and the Executive Committee of the Corporation meets monthly. In 2015, fees paid for attendance at Board meetings and meetings of the Executive Committee were \$1,500 and \$1,250, respectively. The Directors receive an annual fee of \$18,000 payable quarterly at the rate of \$4,500 per quarter and the Chairman of the Board and Chairman of the Audit Committee each received an annual fee of \$81,000 and \$31,000, respectively. During 2015, the Board of Directors of the Corporation held six meetings. Directors of the Corporation were also paid a fee of \$1,000 for attendance at meetings of other committees of the Corporation. No annual or meeting fees are paid to Directors who are also current officers of the Corporation or any of its affiliates. Fees in the total amount of \$679,150 were paid to Directors consisting of the annual retainer and fees for attendance at meetings of the Board of Directors of the Corporation and the Bank and at meetings of all committees of the Corporation and Bank during 2015. Fees in the aggregate amount of \$80,000 were credited to the accounts of those Directors who elected to participate in the Wesbanco Deferred Compensation Plan, pursuant to which payment of fees for attendance at meetings of the Board of Directors and committees established by the Board may be deferred and deemed invested in Common Stock or in a money market account.

Each director attended at least 75% of the total meetings of the Board of Directors and its committees of which he or she is a member held in 2015. Fourteen of fifteen total directors at the time attended the 2015 stockholders meeting. Attendance at the annual stockholders meeting is considered in evaluating incumbent directors.

The Corporation has a standing Compensation Committee. The members of the Corporation's Compensation Committee included Jay T. McCamic, Chairman, Christopher V. Criss, Vaughn L. Kiger and Henry L. Schulhoff, all of whom are independent directors as the term is defined in Nasdaq listing standards and under applicable law. The Compensation Committee met three times during the fiscal year ended December 31, 2015 and once since January 1, 2016.

Compensation Committee Interlocks and Insider Participation

None of the Corporation's executive officers serve as a member of the compensation committee of any other company that has an executive officer serving as a member of the Corporation's Board of Directors. None of the Corporation's executive officers serve as a member of the board of directors of any other company that has an executive officer serving as a member of the Board's Compensation Committee.

Audit Committee

The Corporation has an Audit Committee. All members are considered independent under Nasdaq listing standards and Rule 10A-3 under the Exchange Act and the currently serving members are: Christopher V. Criss, Chairman, Reed J. Tanner, Ernest S. Fragale and D. Bruce Knox. Certain members of the Audit Committee are partners, controlling stockholders or executive officers of an organization that has a lending relationship with the banking affiliate of the Corporation, or individually, they maintain such relationships. The Corporation's Board of Directors has determined that such lending relationships do not interfere with the director's exercise of independent judgment. The Board of Directors of the Corporation has determined that Reed J. Tanner, a licensed Certified Public Accountant, is an audit committee financial expert as defined in Item 407 of Regulation S-K and that he is independent as that term is used in Item 7 of Schedule 14A. The Corporation has adopted a formal charter and the Audit Committee has reviewed and assessed the adequacy of the written charter during the past year. The Audit Committee met nine times in 2015.

Report of Audit Committee

The Audit Committee oversees the Corporation's financial reporting process on behalf of the Board of Directors. Management has the primary responsibility for the financial statements and the reporting process including the systems of internal controls. In fulfilling its oversight responsibilities, the Audit Committee reviewed the audited financial statements in the Annual Report with management, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements.

The Audit Committee reviewed with the registered public accounting firm, Ernst & Young LLP, who are responsible for expressing an opinion on the conformity of those audited financial statements with accounting principles generally accepted in the United States, their judgments as to the quality, not just the acceptability, of the Corporation's accounting principles and such other matters as are required to be discussed with the Audit Committee by Statement on Auditing Standards No. 61, Communication With Audit Committees (as amended), as adopted by the Public Company Accounting Oversight Board in Rule 3200T, other standards of the Public Company Accounting Oversight Board (United States), the rules of the SEC, and other applicable regulations. The Audit Committee has received the written disclosures and the letter from the independent auditors required by the applicable requirements of the Public Company Accounting Oversight Board's Rule 3526, Communication with Audit Committees Concerning Independence, and has discussed with the independent auditors the independent auditors' independence from management and the Corporation and considered the compatibility of nonaudit services with the auditors

independence.

Table of Contents

The Audit Committee discussed with the Corporation's internal and independent auditors the overall scope and plans for and results of their respective audits. The Audit Committee meets with the internal and independent auditors, with and without management present, to discuss the results of their examinations, their evaluations of the Corporation's internal controls, credit quality and the overall quality of the Corporation's financial reporting.

The Audit Committee Charter provides that the Audit Committee is responsible for the appointment, compensation and oversight of the external auditor. It also confirms that the Audit Committee considers non-audit related fees and services when addressing auditor independence. The Charter also provides that the Audit Committee review and evaluate the lead partner of the independent auditor.

In reliance on the review and discussions referred to above, the Audit Committee recommended to the Board of Directors (and the Board has approved) that the audited financial statements be included in the Annual Report on Form 10-K for the year ended December 31, 2015, for filing with the SEC. This report is not deemed soliciting material or deemed to be filed with the SEC or subject to Regulation 14A, or to the liabilities of Section 18 of the Securities Exchange Act of 1934, as amended, except to the extent requested by the Corporation or specifically incorporated by documents otherwise filed.

Stockholders Intending to Nominate Candidates for Election to Board of Directors Must Give Notice to Corporation

Sections 4, 5 and 6 of Article III of the Amended and Restated Bylaws of the Corporation require stockholders intending to make a director nomination at a stockholders' meeting to have provided the Corporation advance written notice of such nominations, no later than (i) with respect to an election to be held at an annual meeting, 90 days prior to the anniversary of the previous year's annual stockholders' meeting, or (ii) with respect to an election to be held at a special meeting of stockholders, the close of business on the 10th day following the date on which notice of such meeting is first given to the stockholders. Sections 4, 5 and 6 of Article III (i) explicitly provide that Sections 4, 5 and 6 of Article III are the exclusive means for a stockholder to make such nominations, other than proposals governed by Rule 14a-11 of the Exchange Act (which provides its own procedural requirements) and (ii) set forth the required disclosures regarding (A) the stockholders making such nomination, which include, among other things, the class and number of shares of stock of the Corporation owned beneficially by the proposing stockholder and any relationship between the stockholder and the proposed nominee and (B) the nominee, which include, among other things, all information relating to such person that would be required to be disclosed in solicitations of proxies for elections of directors. In addition, the Amended and Restated Bylaws provide that a stockholder making a director nomination at a stockholders' meeting must not only be a stockholder at the time of the notice, but also at the time of the meeting.

Proposals of Stockholders for Presentation at Next Year's Annual Meeting, to be Held April 19, 2017

Proposals which stockholders intend to present at next year's annual meeting, to be held on Wednesday, April 19, 2017, will be eligible for inclusion in the Corporation's proxy material for that meeting if they are submitted to the Corporation in writing not later than November 11, 2016. A proponent may submit only one proposal. At the time of

the submission of a proposal, a stockholder also may submit a written statement in support thereof for inclusion in the proxy statement for the meeting, if requested by the proponent; provided, however, that a proposal and its supporting statement in the aggregate shall not exceed 500 words.

Table of Contents

Additionally, if properly requested, a stockholder may submit a proposal for consideration at next year's annual meeting, but not for inclusion in the Corporation's proxy material for that meeting. To make such a proposal, the Corporation must receive from the stockholder a notice in writing of such request by January 20, 2017.

Independent Registered Public Accounting Firm

Ernst & Young LLP served as the registered public accounting firm for the Corporation and all affiliates for the year 2015. The services rendered by Ernst & Young LLP during the year 2015 consisted primarily of audit, audit-related and tax services as approved by the Audit Committee or under terms of the Corporation's audit services pre-approval policy. The Audit Committee has approved Ernst & Young LLP as independent auditors to audit the consolidated financial statements of the Corporation for the year ending December 31, 2016. It is expected that a representative of Ernst & Young LLP will be present at the annual stockholders meeting. Such representative will have the opportunity to make a statement if such representative desires to do so, and will be available to respond to appropriate questions from the stockholders who are present. A representative of Ernst & Young, LLP attended last year's annual stockholders meeting.

The Audit Committee's pre-approval policies and procedures are detailed in the Audit Committee Charter. Generally, these procedures require the Audit Committee to pre-approve all auditing services to be performed by its independent auditor subject to a de minimis exception. The pre-approval may be delegated to the Chairman subject to review and ratification by the Audit Committee at its next scheduled meeting. Of the 2015 audit fees of \$1,264,010, all were pre-approved by the Audit Committee before commencement of the service. Additionally, 100% of the tax and audit-related fees totaling \$246,413 and \$79,740, respectively, were pre-approved by the Audit Committee.

Audit Fees

The aggregate fees of Ernst & Young LLP billed for each of the last two fiscal years for professional services rendered for the audit of the Corporation's annual financial statements included in Form 10-K filed with the Securities and Exchange Commission, and its internal controls over financial statement preparations, and the quarterly reviews of the Corporation's financial statements included in Forms 10-Q for 2015 and 2014, respectively, were \$1,264,010 and \$925,414. Also included for both years were professional services rendered for accounting consultation on matters addressed during the audit or interim reviews, consents on certain SEC registration statements, an audit of the Corporation's broker-dealer (Wesbanco Securities, Inc.) and a HUD procedures audit. For 2015, \$249,800 related to acquisition and business combination procedures related to the ESB acquisition are also included in the total fees above.

Audit-Related Fees

Ernst & Young LLP provides other audit-related services to the Corporation from time to time. The aggregate fees for these services billed for each of the last two fiscal years were \$79,740 for 2015 and \$79,330 for 2014. Audit-related fees in both years were for services rendered in conjunction with the Corporation's retirement plan audits and an internal controls report for the Trust and Investment Services Division.

Tax Fees

Ernst & Young LLP also provides certain tax related services, and the aggregate fees billed for each of the last two fiscal years for such services were \$246,413 for 2015 and \$246,421 for 2014, respectively. These services for both years included preparation of the Corporation's tax filings, tax compliance and consultation services and certain acquisition tax planning advisory services and tax compliance work for the Trust and Investment Services Division for

client fiduciary tax returns, which for 2015 totaled \$145,792 of the above-noted total.

Table of Contents**All Other Fees**

All Other Fees for the years ended December 31, 2015 and 2014, were \$0 for each year.

Proxy Solicitor

The Corporation has retained Georgeson Shareholder Communications, Inc. to assist in the solicitation of proxies for a fee of \$8,000, plus expenses. Proxies may also be solicited by employees of the Corporation. Proxies may be solicited by mail and by telephone call.

Item 2 Approval of an Advisory (Non-Binding) Vote on the Corporation's Executive Compensation Paid to the Named Executive Officers

Section 951 of the Dodd-Frank Wall Street Reform and Consumer Protection Act amended the Exchange Act by adding Section 14A. Section 14A(a)(1) requires that not less frequently than once every 3 years, a proxy or consent or authorization for an annual or other meeting of the stockholders for which the proxy solicitation rules of the Commission require compensation disclosure shall include a separate resolution subject to stockholder vote to approve the compensation of executives, as disclosed pursuant to Item 402 of Regulation S-K (a say-on-pay vote). The say-on-pay vote is not binding on the Corporation or the Board of Directors. Considering the advisory (non-binding) recommendation of the Corporation's stockholders at the April 20, 2011 Annual Meeting of Stockholders regarding the frequency of the say-on-pay vote, the Board of Directors voted on June 23, 2011 for the Corporation's non-binding say-on-pay vote to occur every year.

As discussed in detail above, Item 2 is a non-binding say-on-pay vote of the stockholders whereby stockholders are asked to approve the compensation paid to the Corporation's named executive officers, as disclosed pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, compensation tables and narrative discussion. The Board of Directors believes the Corporation's compensation program is reasonable and balanced in comparison to the size and financial performance of the Corporation. It includes appropriate incentives in both annual and long term performance-based compensation reflecting both short term and long term goals without encouraging unnecessary and excessive risk-taking by our executive officers. Importantly, it aligns the interests of our executive officers with those of our stockholders with the inclusion of equity compensation in the form of stock options and restricted stock. The incentive compensation award opportunities for our named executive officers take into account stockholder interests through the establishment of challenging performance targets based on business plans and budgets approved by the Board.

The Board of Directors strongly endorses the Corporation's executive compensation program and recommends that stockholders vote in favor of the following advisory resolution:

RESOLVED, that the compensation paid to the Corporation's named executive officers, as disclosed in this proxy statement pursuant to the compensation disclosure rules of the Securities and Exchange Commission, which disclosures shall include the Compensation Discussion and Analysis section and the related compensation tables and narrative discussion, and all disclosures pursuant to Item 402 of Regulation S-K, is hereby APPROVED.

As an advisory vote, this proposal is not binding on the Corporation. However, our Compensation Committee, which is responsible for designing and administering our executive compensation program, values the opinions expressed by stockholders in their vote on this proposal and will consider the outcome of the vote when making future compensation decisions for named executive officers.

The Board of Directors recommends a vote FOR Item 2 to approve the advisory proposal to approve the compensation paid to the Corporation's named executive officers.

Item 3 Advisory (Non-Binding) Vote Ratifying the Appointment of Independent Registered Public Accounting Firm

Independent Registered Public Accounting Firm

The Audit Committee of the Board of Directors is responsible for appointing the Corporation's independent registered public accounting firm, and the Committee has selected Ernst & Young LLP to serve as our independent registered public accounting firm for our fiscal year ending December 31, 2016. We are submitting this selection for stockholder ratification at the Annual Meeting. We expect a representative of Ernst & Young LLP to be present at the Annual Meeting and to have an opportunity to make a statement if he or she desires to do so and will be available to respond to appropriate questions from stockholders. Ernst & Young LLP also served as our independent registered public accounting firm for our fiscal year ended December 31, 2015.

Although we are not required to have our stockholders ratify the selection of our independent registered public accounting firm, our Board of Directors has determined to seek this ratification from stockholders as a means of soliciting stockholders' opinions and as a matter of good corporate governance. If our stockholders do not ratify the selection, the Audit Committee will reconsider whether to retain Ernst & Young LLP, but may retain them nonetheless. Even if the selection is ratified, the Audit Committee, in its discretion, may change the appointment at any time during the year if it determines that such a change would be in the best interests of the Corporation and its stockholders.

Directors Recommendation

The Board of Directors unanimously recommends a vote FOR Item 3, the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for our fiscal year ending December 31, 2016.

Item 4 Approval of Material Terms of Performance Goals Under the Incentive Plan

As described above in Compensation Discussion and Analysis, the Corporation uses performance-based incentive compensation pursuant to the Wesbanco, Inc. Key Executive Incentive Bonus, Option and Restricted Stock Plan (the Incentive Plan) as a significant portion of our executives' compensation to align their interests with those of our stockholders. The Incentive Plan provides the Compensation Committee discretion to select performance measures for use as prospective performance goals under the Incentive Plan to enable the Compensation Committee to structure performance-based compensation in the way that it believes will best incentivize the Corporation's executives to achieve our business plan and maximize stockholder value. Section 162(m) of the U.S. Internal Revenue Code (IRC) limits the deductibility of compensation paid to our chief executive officer and each of our other three highest compensated executive officers (other than our chief financial officer) to \$1 million each unless that compensation is considered performance-based compensation under Section 162(m). Certain types of incentive compensation awarded to those executive officers under the Incentive Plan may be considered performance-based compensation provided the Section 162(m) requirements are met. One of these requirements is that stockholders approve (and re-approve) the material terms of the performance goals underlying the performance-based awards. For purposes of Section 162(m), these include a description of the business criteria on which performance goals may be based. Section 162(m) requires re-approval of the performance goals every five years.

Accordingly, stockholders are being asked only to re-approve the material terms of the performance goals under the Incentive Plan at the Annual Meeting. Stockholders are not being asked to approve any amendment to the Incentive Plan or to approve the Incentive Plan itself. *This proposal is not requesting any additional shares of common stock under the Incentive Plan.*

Table of Contents

If the stockholders do not approve the material terms of the performance goals under the Incentive Plan, there will be no impact on the terms of the Incentive Plan. The Incentive Plan will continue to remain in existence, and awards may continue to be made in accordance with the terms of the Incentive Plan. The only impact on the Corporation will be that some or all of the value of certain awards that are based on the achievement of one or more performance goals may not be deductible under the IRC as a result of the limitations imposed under Section 162(m) of the IRC.

Conversely, stockholder approval is only one of several requirements under Section 162(m) that must be satisfied for amounts realized under the Incentive Plan to qualify for the performance-based compensation exemption under Section 162(m), and submission of the material terms of the performance goals under the Incentive Plan for stockholder approval should not be viewed as a guarantee that we can deduct all compensation payable under the Incentive Plan that is intended to be performance-based.

The Board believes that it is in the best interests of the Corporation and its stockholders to enable the Corporation to pay incentive compensation under arrangements that qualify as fully tax-deductible performance-based compensation under the Incentive Plan. The Board is therefore asking stockholders to re-approve, for Section 162(m) purposes, the material terms of the performance goals set forth herein. The material terms of the performance goals under the Incentive Plan that must be re-approved for purposes of Section 162(m) include (1) the employees eligible to receive the performance-based compensation, (2) the performance criteria under which the performance-based compensation will be determined, and (3) the maximum amount of performance-based compensation that could be paid to any employee in a fiscal year. Each of these aspects of the Incentive Plan is discussed below, and stockholder approval of this Item 4 will be deemed to constitute approval of each of these aspects of the Incentive Plan for purposes of the approval requirements of Section 162(m) of the IRC.

Description of the Incentive Plan

The following summary, including the material terms of the performance goals, is qualified in its entirety by the terms of the Incentive Plan, a copy of which is attached to this proxy as Appendix A.

ADMINISTRATION

The Board of Directors has the authority and responsibility to determine from year to year whether and which type of awards may be made under the Incentive Plan for that year or a particular incentive period. If the Board determines that incentive awards will be made available under the Incentive Plan, the Board will further designate for the Compensation Committee the performance goals the Board believes to be important for the Corporation's success for that incentive period. Based upon the Board's direction, the Compensation Committee has the authority to determine, within the limits of the express provisions of the Incentive Plan, the individuals to whom awards will be granted, the nature, amount and terms of such awards and the objectives and conditions for earning such awards. The Compensation Committee also has the authority to interpret the Incentive Plan, as well as the discretion to delegate its ministerial functions under the Incentive Plan to such other persons as the Committee deems appropriate.

SUMMARY OF AWARD TERMS AND CONDITIONS***Key Executive Awards***

General. The Incentive Plan generally has four portions under which key executives may be granted awards: an Annual Bonus Portion, a Long Term Bonus Portion, a Stock Option Portion and a Restricted Stock Portion. The Annual Bonus Portion offers Participants opportunities for incentive compensation generally denominated in cash, based on the degree of attainment of corporate and/or personal goals over one fiscal year. The Long Term Bonus Portion offers Participants opportunities for incentive compensation denominated, generally in cash and shares of the

Corporation's common stock, based on the degree of attainment of corporate and/or personal goals over more than one fiscal year. The Stock Option Portion permits the Committee to award non-qualified stock options which will become vested, if at all, based on attainment of performance goals or the completion of a

Table of Contents

specified period of time. The Restricted Stock Portion permits the Committee to award shares of the Corporation's common stock subject to forfeiture restrictions that will lapse, if at all, upon the attainment of performance and/or personal goals, or the completion of a specified period of employment.

In recognition that certain executives may be in a position to have more influence over attainment of certain goals, the Incentive Plan does not require the use of uniform performance goals or performance levels for all participants. Accordingly, opportunities to earn incentive compensation as well as the individual and collective goals to be met to realize incentive compensation, as Annual Bonus or Long Term Bonus or to vest Stock Options or Restricted Stock under the Incentive Plan, may vary from one participant to another.

Annual Bonus Portion. The Annual Bonus Portion focuses on the business plan for a specified fiscal year and sets goals to be achieved in that year. If the goals are met, incentive compensation for the Annual Bonus Portion is paid primarily in cash.

Long Term Bonus Portion. The Long Term Bonus Portion focuses on the business plan over several successive fiscal years. If goals are met over the measurement period, Long Term Bonus is paid in the form of a combination of stock and cash. The typical number of years applicable to measure performance with respect to a Long Term Bonus award is generally 3 years, but the Incentive Plan allows the Compensation Committee to elect, in its discretion, to include more or fewer years in an incentive period.

Awards under the Long Term Bonus Portion are denominated in Units. Each basic Unit is expressed in terms of dollars and whole or fractional shares of the Corporation's stock. Generally, the appropriate composition of each Unit should be a combination of shares and cash so that any income tax obligations of the participant in connection with the award may be settled without requiring a sale of shares.

Stock Option Awards. Stock Options are granted at the discretion of the Compensation Committee, each with an exercise price equal to the then fair market value of a share of Corporation stock. The Compensation Committee determines the applicable vesting schedule based upon attainment of performance goals set for each year under the Annual Bonus Plan (or if no Annual Bonus Plan is in effect for that year, performance goals set specifically for the Stock Option Portion). The Compensation Committee may also award options that vest over a specific period of time.

Restricted Stock Awards. Restricted Stock is granted at the discretion of the Compensation Committee and the Committee determines the applicable vesting schedule reflecting attainment of designated performance goals and/or continuous employment over a period of years specified in the award documents. The Committee may provide for the payment of any applicable dividends paid with respect to any shares of common stock subject to a Restricted Stock award during the period prior to the lapse of the restrictions.

Total Shareholder Return Plan (TSRP) Awards. TSRP awards are a type of restricted stock award granted under the Restricted Stock Portion of the Incentive Plan. TSRP awards are made at the discretion of the Compensation Committee and generally measure the change in trading prices of a share of Corporation common stock plus dividends paid over a measurement period, typically three years (such sum is TSR), relative to the TSR of a group of publicly traded companies deemed comparable by the Compensation Committee to the Corporation over the same measurement period. The Compensation Committee sets the various thresholds of TSR and the corresponding resulting Corporation common stock awards at each level.

Granting of Awards. The Board of Directors, in consultation with management and in connection with the Corporation's ongoing business planning processes, will direct which goals are to be achieved over the applicable fiscal year with respect to each type of award granted and, for purposes of the Long Term Bonus Portion, over the

applicable multi-year incentive period. The Compensation Committee will determine and set the following to be consistent with the Board's directions:

- (a) Performance goals appropriate to the Board's directions;

Table of Contents

- (b) The composition of Units used to denominate incentive compensation opportunities for the Long Term Bonus Portion;
- (c) Threshold, target and superior levels of achievement with respect to performance goals for the Annual and Long Term Bonus Portions, respectively;
- (d) Amounts of potential awards, expressed in Units for the Long Term Bonus Portion and dollars for the Annual Bonus Portion, which may be distributed to a participant, in the event threshold, target or superior performance levels are achieved; and
- (e) Whether awards of Stock Options or Restricted Stock will be granted in that year and, if so, in what amount and to which participants.

The performance goals applicable to awards made to participants who are subject to, and which are intended to comply with, the performance-based compensation requirements of Section 162(m) of the IRC shall be based on one or more of the following measures (the Performance Goals):

Earnings per share

Return on equity

Return on assets

Other return measures such as return on capital, invested capital, equity, sales, or revenue

Net operating profit

Cash flow

Loan portfolio growth

Core deposit growth

Credit quality

Non-interest income

Non-performing asset ratio

Charge-offs

Stock price appreciation

Total stockholder return

Relative total shareholder return against the total shareholder return of a peer group

The Performance Goals may be measured with respect to the Corporation or any one or more of its subsidiaries, divisions or affiliates, either in absolute terms or as compared to another Corporation or companies, or an index established or designated by the Compensation Committee. The above terms will have the same meaning as in the Corporation's financial statements, or if the terms are not used in the Corporation's financial statements, as applied pursuant to generally accepted accounting principles, or as used in the industry, as applicable.

The maximum awards that can be granted under the Incentive Plan in any calendar year to a single participant who is subject to, and which is intended to comply with, Section 162(m) of the IRC is 75,000 shares of common stock in the form of stock options, 20,000 shares of common stock in the form of restricted stock, and \$300,000 in the form of cash-based incentive awards.

Determination of and Payment of Awards. Incentive compensation for both the Annual Bonus and the Long Term Bonus will be determined by the Compensation Committee based on a review of the achievement of the

Table of Contents

applicable performance goals within 75 days of the end of the fiscal year or other specified incentive period. Amounts earned as Annual Bonus will be paid in a single sum as soon as practicable after its determination. Historically, it has generally been the Compensation Committee's practice to limit the amount of Annual Bonus to a maximum of 50% of base salary for the Chief Executive Officer and a somewhat lesser percentage of base salary for other executive officers. Amounts earned as Long Term Bonus will be distributed in 3 substantially equal annual installments. The payment of these bonus amounts and of each installment is contingent upon the participant being an employee of the Corporation on the date of distribution, except if the cessation of employment is related to his or her death, disability or retirement.

The Compensation Committee also will determine the extent to which any performance goals applicable to an award have been achieved, resulting in the vesting of all or a portion of such award. Stock Options, to the extent vested and exercisable, can be exercised in accordance with the terms and conditions set forth in the stock option agreement which evidences those Stock Options. Restricted Stock will become vested on the terms and conditions set forth by the Compensation Committee at the time of grant. TSRP awards will become vested on the terms and conditions set forth by the Compensation Committee at the time of grant after the Compensation has certified the applicable performance results. Generally, awards under the Incentive Plan will be deemed payable (and any applicable performance goals will be deemed to have been met at the target level of performance) upon the occurrence of a change in control of the Corporation (as defined in the Incentive Plan).

Non-Employee Director Awards

General. The Incentive Plan has two portions under which non-employee directors may be granted awards: a Stock Option Portion and a Restricted Stock Portion. The Stock Option Portion permits the Compensation Committee to award non-qualified stock options in such amounts and subject to such terms and conditions as the Compensation Committee may establish, subject to the requirements of the Incentive Plan. The Restricted Stock Portion permits the Compensation Committee to award shares of the Corporation's common stock in such amounts and subject to such terms and conditions as the Compensation Committee may establish, subject to the requirements of the Incentive Plan. Generally, awards to non-employee directors under the Incentive Plan will be deemed vested upon the occurrence of a change in control of the Corporation (as defined in the Incentive Plan).

Stock Option Awards. Stock Options are granted to non-employee directors at the discretion of the Compensation Committee, each with an exercise price equal to the then fair market value of a share of Corporation stock. Each option will become vested and exercisable, if at all, based on meeting specified periods of service on the Corporation's Board following the grant of the option or other time-based conditions. Stock Options, to the extent vested and exercisable, can be exercised in accordance with the terms and conditions set forth in the applicable stock option agreement, but in no event will Options granted to non-employee directors be exercisable for a period of more than ten years from the grant date.

Restricted Stock Awards. Restricted Stock is granted to non-employee directors at the discretion of the Compensation Committee subject to forfeiture restrictions that will lapse, if at all, on meeting specified periods of service on the Corporation's Board following the grant of the restricted stock or other time-based conditions. The Compensation Committee may provide for the payment of any applicable dividends paid with respect to any shares of common stock subject to a Restricted Stock award during the period prior to the lapse of the restrictions.

ELIGIBILITY AND LIMITATION ON AWARDS

The Compensation Committee may grant awards to any Key Executive or Non-Employee Director of the Corporation. For purposes of the Incentive Plan, the term Key Executive means any executive level employee of the Corporation

(as well as executive level employees of any subsidiary of the Corporation) who are in a position to directly influence the achievement of performance goals designated by the Board. For purposes of the Incentive Plan, the term Non-Employee Director means any member of the Corporation's Board of

Table of Contents

Directors who has not been an employee of the Corporation for a period of at least one year prior to the relevant date. Employees designated as Key Executives for Annual Bonus and/or Long Term Bonus purposes, may or may not, in the discretion of the Compensation Committee, be eligible for awards under other portions of the Incentive Plan. Designation as a Key Executive for one year or incentive period does not entitle the individual to be designated as a Key Executive for any other year or incentive period. It is presently contemplated that approximately 14 persons, which includes all of the Corporation's current Non-Employee Directors, will be eligible to receive awards under the Incentive Plan.

AWARDS GRANTED UNDER THE INCENTIVE PLAN

The future amounts that will be received by participants under the Incentive Plan are not determinable. The stock option awards granted to the Corporation's named executive officers under the Incentive Plan and outstanding as of December 31, 2015 are set forth in the "Outstanding Equity Awards at Fiscal Year-End" table found on page 38 of this Proxy Statement. As of January 31, 2016 (i) the Corporation's executive officers as a group (10 officers) held outstanding stock option grants for 60,250 shares, (ii) the Corporation's non-employee directors as a group (14 directors) held no outstanding stock option grants as none have yet been awarded under the Incentive Plan, and (iii) all of our employees other than our executive officers (116 employees) held outstanding stock option grants for 226,300 shares.

SHARES SUBJECT TO THE INCENTIVE PLAN

The number of shares of the Corporation's common stock available for issuance with respect to awards under the Incentive Plan is 1,800,000, of which approximately 288,541 shares remains available for new awards. No more than 300,000 of the total shares of common stock reserved under the Incentive Plan may be awarded as restricted stock awards.

With respect to awards made under the Incentive Plan, shares underlying awards that are forfeited or canceled (as a result, for example, of the lapse of an option or a forfeiture of restricted stock), as well as any shares surrendered to or withheld by the Corporation in payment or satisfaction of the exercise price of a stock option or tax withholding obligations with respect to an award, will no longer be available for new grants under the Incentive Plan. Shares to be issued under the Incentive Plan will be authorized but unissued shares of common stock or shares of stock reacquired by the Corporation.

ANTI-DILUTION PROTECTION

In the event of any substantial corporate event or transaction that affects the number of shares outstanding, the Compensation Committee is empowered to make such equitable adjustments with respect to awards or any provisions of the Incentive Plan as it deems necessary and appropriate, including, if necessary, any adjustments in the maximum number of shares of common stock subject to the Incentive Plan, the number of shares of common stock subject to and the exercise price of an outstanding award, or the maximum number of shares that may be awarded as a particular type of award.

AMENDMENT AND TERMINATION

The Board of Directors may at any time amend or terminate the Incentive Plan, provided that no such action will adversely affect any rights of participants with respect to any outstanding awards made under the Incentive Plan without the consent of the participants.

FEDERAL INCOME TAX CONSEQUENCES

The federal income tax consequences of the issuance and exercise of awards under the Incentive Plan are as described below. The following information is only a summary of the tax consequences of the awards, and participants should consult with their own tax advisors with respect to the tax consequences inherent in the ownership or exercise of the awards, and the ownership and disposition of any underlying securities.

Table of Contents

Nonqualified Stock Options. A participant who is granted a nonqualified stock option under the Incentive Plan will not recognize any income for federal income tax purposes on the grant of the option. Generally, on the exercise of the option, the participant will recognize taxable ordinary income equal to the excess of the fair market value of the shares on the exercise date over the option price for the shares, subject to certain limits on the deductibility of compensation under the IRC. The Corporation generally will be entitled to a deduction on the date of exercise in an amount equal to the ordinary income recognized by the participant. Upon disposition of the shares purchased pursuant to the stock option, the participant will recognize long-term or short-term capital gain or loss, as the case may be, equal to the difference between the amount realized on such disposition and the basis for such shares, which basis includes the amount previously recognized by the participant as ordinary income.

Restricted Stock. A participant will not be taxed at the date of an award of restricted shares, but will be taxed at ordinary income rates on the fair market value of any restricted shares as of the date that the restrictions lapse, unless the participant, within 30 days after transfer of such restricted shares to the participant, elects under Section 83(b) of the IRC to include in income the fair market value of the restricted shares as of the date of such transfer. The Corporation will be entitled to a corresponding deduction, subject to certain limits on the deductibility of compensation under the IRC. Any disposition of shares after the restrictions lapse will be subject to the regular rules governing long-term and short-term capital gains and losses, with the basis for this purpose equal to the fair market value of the shares at the end of the restricted period (or on the date of the transfer of the restricted shares, if the employee elects to be taxed on the fair market value upon such transfer). To the extent dividends that accumulate during the restricted period are paid upon the lapse of the applicable restrictions under the award, any such dividends will be taxable to the participant at ordinary income tax rates and will be deductible by the Corporation.

TSRP Awards. A participant who is granted an award under the TSRP portion of the Incentive Plan will not recognize any income for federal income tax purposes on the date of grant. The participant will recognize ordinary income for federal income tax purposes on the date the right to receive shares vest, that is, when restrictions lapse based on relative TSR, and the amount of that ordinary income will be equal to the fair market value of the shares the participant is then eligible to receive. The Corporation will be entitled to a corresponding deduction, subject to certain limits on deductibility under the IRC. Any disposition of the shares after the restrictions lapse will be subject to rules governing long-term and short-term capital gains and losses, with the basis for this purpose equal to the fair market value of the shares when the restrictions lapse based on relative TSR. To the extent dividends that accumulate during the restricted period are paid on the lapse of the applicable restrictions under the award, any such dividends will be taxable to the participant at ordinary income tax rates and will be deductible by the corporation.

Compensation. Generally, a participant will not recognize taxable income upon the grant of any cash-based Annual Bonus or Long-Term Incentive Bonus awards. Subsequently, when the conditions and requirements for the grants have been satisfied and the payment determined, any cash paid to or otherwise received by the participant with respect to such award will constitute ordinary income to the participant. The Corporation also will then be entitled to a deduction in the same amount, subject to certain limits on the deductibility of compensation under the IRC.

NEW PLAN BENEFITS

Awards made under the Incentive Plan will be made at the Committee's discretion, subject to the terms of the Incentive Plan. Therefore, the benefits and amounts that will be received or allocated under the Incentive Plan are generally not determinable at this time. For information regarding past grants made in 2015 and outstanding equity awards, see the disclosure in this Proxy Statement in the Grants of Plan-Based Awards table on page 35 and the Outstanding Equity Awards at Fiscal Year-End table on page 38. This Item 4 will not impact any outstanding equity awards or amend the terms of the Incentive Plan.

WESBANCO, INC.

INCENTIVE BONUS, OPTION AND RESTRICTED STOCK PLAN

INTRODUCTION

The purposes of the WesBanco, Inc. Incentive Bonus, Option and Restricted Stock Plan are to enhance shareholder value and to contribute to the growth of WesBanco, Inc., its subsidiaries and affiliates by:

1. directing the planning, implementation and supervisory efforts of Key Executives toward the achievement of strategic, financial and individual goals determined by the Board of Directors of the Company to be in the best interests of the Company and its shareholders over annual and multi-year planning cycles;
2. requiring Key Executives and Non-Employee Directors to position the Company, in light of changing business conditions and the Company's business plans, to succeed over annual and multi-year business horizons;
3. placing a significant portion of the compensation of Key Executives at risk in the event Performance Goals are not met and, thereby, provide substantial incentive to achieve annual and longer term goals;
4. identifying the interests of Key Executives and Non-Employee Directors more closely with those of shareholders by denominating compensation at least in part in Shares of Common Stock and options to purchase Shares of Common Stock; and
5. providing the Company with a flexible compensation arrangement to use as a tool to attract and retain Key Executives and Non-Employee Directors of outstanding competence.

The Plan is designed to accomplish its purposes by providing financial rewards to Key Executives if, but only if, pre-established financial and/or personal goals, which may include completion of specified periods of employment, are achieved. Non-Employee Directors are eligible to receive grants of nonqualified options and will be rewarded if the trading price for the Common Stock increases after the date the nonqualified option is granted.

For Key Executives:

The Plan has four portions for Key Executives: an Annual Bonus Portion, a Long Term Bonus Portion, a Stock Option Portion and a Restricted Stock Portion. The Annual Bonus Portion offers Participants opportunities for Incentive Compensation generally denominated in cash, based on the degree of attainment of corporate and/or personal goals over one fiscal year. The Long Term Bonus Portion offers Participants opportunities for Incentive Compensation denominated, generally in cash and Shares of Common Stock, based on the degree of attainment of corporate and/or personal goals over more than one fiscal year. The Stock Option Portion permits the Compensation Committee to award options which will become vested, if at all, based on attainment of performance goals or the completion of a specified period of employment. The Restricted Stock Portion permits the Compensation Committee to award shares of Common Stock subject to restrictions that will lapse, if at all, upon the attainment of performance and/or personal goals or the completion of specified period of employment.

Participation in any portion of the Plan will be limited to those executive level employees of the Company (including in that term executive level employees of any subsidiary of the Company) who are in a position to directly influence the achievement of goals set by the Board. The Plan is not intended to be a broad based arrangement. Further, in recognition that certain executives may be in a position to have more influence over attainment of certain goals, the

Plan does not require that all Performance Goals or Performance Levels be uniform for all Key Executives. In addition, in recognition that certain executives may be able to influence the outcome of certain goals set for a particular Fiscal Year but not for a period longer than a Fiscal Year, a Key Executive may be made eligible for an Annual Bonus but not for a Long Term Bonus and/or Stock Options or, in the alternative, for a Long Term Bonus, Stock Options or Restricted Stock but not an Annual Bonus. Inclusion in one portion of the Plan or for any one year is no assurance of future eligibility by a particular Key Executive for

Table of Contents

any other portion or any other year or Incentive Cycle. Accordingly, opportunities to earn Incentive Compensation as well as the individual and collective goals to be met to realize Incentive Compensation, as Annual Bonus or Long Term Bonus or to vest Stock Options or Restricted Stock under the Plan, may vary from Key Executive to Key Executive.

The Annual Bonus Portion focuses on the business plan for the next Fiscal Year and sets goals to be achieved in that Fiscal Year. If the goals are met, Incentive Compensation for the Annual Bonus portion is paid primarily in cash. On the other hand, Long Term Bonus focuses on the business plan over several successive Fiscal Years. If goals are met over the measurement period, Long Term Bonus is paid in the form of a combination of stock and cash.

The number of years under consideration for a Long Term Bonus is referred to as an Incentive Cycle. It is intended that an Incentive Cycle will be formed each year for the number of years for which a reasonably thorough business plan can be prepared. At the adoption of the Plan, the appropriate number of years to be included in an Incentive Cycle is believed to be three but the Plan allows the Compensation Committee to elect, in its discretion exercised at the formation of each Incentive Cycle, to include more or fewer years in an Incentive Cycle.

For the Long Term Bonus Portion, Incentive Compensation is denominated as a Unit, that is, the basic unit of Incentive Compensation expressed in terms of dollars and whole or fractional Shares. Moreover, at the adoption of the Plan, it is believed that the appropriate composition of each Unit should be a combination of Shares and cash so that any income tax obligations of Key Executives in connection with the Plan may be settled without resort to sale of Shares.

Stock Options are granted at the discretion of the Compensation Committee, each with an exercise price equal to the then fair market value of a share of Common Stock. The Compensation Committee shall set a vesting schedule with vesting in years following the grant of the Stock Option based upon continuation of employment for that year or attainment in each such year of performance goals set for that year under the Annual Bonus Plan (or if no Annual Bonus Plan is in effect for that year, performance goals set specifically for the Stock Option Portion.)

Restricted Stock is granted at the discretion of the Compensation Committee. The Compensation Committee shall set as a vesting schedule attainment of performance goals and/or continuous employment over a period of years specified in the granting documents.

The Board of Directors, in consultation with management and in connection with the Company's ongoing business planning processes, will direct which goals are to be achieved over the ensuing Fiscal Year for purposes of the Annual Bonus, Stock Option and Restricted Stock Portions and for the longer Incentive Cycle for purposes of the Long Term Bonus. The Compensation Committee will determine and set the following to be consistent with the Board's directions:

- (a) Performance Goals appropriate to the Board's directions;
- (b) the composition of Units used to denominate Incentive Compensation opportunities for the Long Term Bonus;
- (c) Threshold, Target and Superior levels of achievement with respect to Performance Goals for the Annual and Long Term Bonus, respectively;
- (d) Incentive Compensation, expressed in Units for Long term Bonus and dollars for Annual Bonus, which may be distributed to each Key Executive, in the event Threshold, Target or Superior Performance Levels are achieved; and

(e) whether Stock Options will be granted in that year and, if so, in what amount and to what Key Employees.

A-2

Table of Contents

The Compensation Committee will then communicate with the Key Executive and cause the execution and delivery of such documents as may be required to implement the Plan for the Fiscal Year for Annual Bonus and Stock Option purposes and the Incentive Cycle for Long Term Bonus purposes.

At or after (but not more than seventy five days after) the end of a particular Fiscal Year and/or an Incentive Cycle, the Compensation Committee, after review of financial and other information appropriate to determining whether Performance Goals have been met for that Fiscal Year or Incentive Cycle, including, but not limited to, extraordinary items and/or special circumstances, and taking such other actions as the Compensation Committee shall deem appropriate, will:

(i) determine the level of actual achievement of Performance Goals, taking into account, to the extent the Committee deems appropriate in its sole judgment, extraordinary items and/or special circumstances which affected or may have affected the ability of one or more of the Key Executives to achieve one or more of the Performance Goals;

(ii) determine the Incentive Compensation, if any, to be distributed to each Key Executive participating in the Plan as Annual Bonus for a particular Fiscal Year or Long Term Bonus for that Incentive Cycle and the vesting, if any, with respect to any previously granted Stock Options; and

(iii) direct the commencement of installment distributions of Incentive Compensation which may have been earned under the Plan as Long Term Bonus with respect to that Incentive Cycle.

To accommodate the changing nature of the Company's business and the adjustments to business objectives from year to year, as well as to provide continuous incentive to achieve those objectives and to offset the effects of business anomalies, the Long Term Bonus Portion is designed to form a new Incentive Cycle each year and to have that Incentive Cycle overlap with the Incentive Cycles for the preceding and subsequent years. Each Incentive Cycle, if formed, will be formed independently of any other Incentive Cycle and Incentive Compensation for any Incentive Cycle will be determined with respect to only that Incentive Cycle. In this regard, the rolling three year Incentive Cycles are intended as a complement to the Annual Bonus portion of this Plan.

Incentive Compensation for both the Annual Bonus and the Long Term Bonus will be determined by the Compensation Committee within seventy-five (75) days of the end of that Incentive Cycle. Incentive Compensation earned as Annual Bonus will be paid in a single sum as soon as practicable after its determination. Incentive Compensation earned with respect to a particular Incentive Cycle will be distributed in three (3) substantially equal annual installments. The payment of Incentive Compensation and of each installment is contingent upon a Key Employee's being an employee of the Company on the date of distribution, except if the cessation of employment is related to death, disability or retirement of that Key Employee.

Stock Options, to the extent vested and exercisable, can be exercised in accordance with the terms and conditions set forth in the stock option agreement which evidences those Stock Options. Restricted Stock will become vested on the terms and conditions set forth by the Compensation Committee at the time of grant.

For Non-Employee Directors:

The Plan has two features for Non-Employee Directors. The Plan permits the Compensation Committee to grant Stock Options and/or shares of Restricted Stock to Non-Employee Directors. Grants of Stock Options to Non-Employee Directors may vest based on a period of continuous service on the Board. Restrictions on shares of Restricted Stock may lapse based on a period of Continuous Service on the Board.

Administrative Delegation:

In order to facilitate the administration of the Plan, the Plan contemplates that the Compensation Committee may delegate ministerial functions, such as preparation of documents and notices, withholding for required taxes and delivery of distributions authorized under the Plan, to such members of the management of the Company as the Compensation Committee shall deem appropriate.

If the Board determines it appropriate to form an Incentive Cycle for Long Term Bonus purposes and/or to make Annual Bonus opportunities available for the ensuing Fiscal Year, the Board shall direct the Compensation Committee's attention to the results the Board believes important for the Company to achieve during that Incentive Cycle or Fiscal Year. With respect to results to be achieved, it is intended that the Board will give qualitative directions, generally providing priorities among the Company's several operations.

ARTICLE III

OPERATION OF THE PLAN FOR KEY EXECUTIVES

3.1 Commencement of Annual Bonus and/or Long Term Bonus Opportunities. The Board of Directors shall inform the Compensation Committee whether Annual Bonus opportunities will be made available for a particular Fiscal Year and/or whether Long Term Bonus opportunities will be made available for an Incentive Cycle which will include that Fiscal Year. If Annual Bonus and/or Long Term Bonus opportunities are to be made available, the Board shall also inform the Compensation Committee of the results the Board believes important to be achieved during that Fiscal Year and/or Incentive Cycle.

3.2 Implementation of Annual and/or Long Term Bonus Opportunities. In the event it is informed that Annual Bonus or Long Term Bonus opportunities will be made available, the Compensation Committee shall promptly:

(a) determine the number of Fiscal Years to be included in the Incentive Cycle;

(b) determine the Performance Goals for Annual and Long Term Bonus purposes;

(c) determine which executive employees will be Key Executives eligible to participate in the Plan for the Fiscal Year for Annual Bonus and for the Incentive Cycle for Long Term Bonus Purposes;

(d) determine the composition of Units to denominate Incentive Compensation for Long Term Bonus purposes for that Incentive Cycle;

(e) establish Threshold, Target and Superior Performance Levels with respect to the Performance Goals for each Key Executive, expressed in dollars for Annual Bonus and Units for Long Term Bonus; and

(f) determine the amount of Incentive Compensation opportunities for the respective Key Executives for Annual Bonus and Long Term Bonus purposes at the respective levels of achievement; and

A-7

Table of Contents

(g) communicate the foregoing to each Key Executive and prepare, execute and deliver, on behalf of and binding, upon the Company, such documents evidencing the foregoing as the Committee shall determine appropriate.

3.3 Measurement of Performance. No later than seventy-five (75) days after the last day of the Fiscal Year measured for Annual Bonus purposes and of the last day of the last Fiscal Year in any Incentive Cycle, the Committee shall review such financial, performance or other information relating to the Company and the Performance Goals, including, but not limited to, extraordinary items and/or special circumstances, and shall determine whether the Performance Goals for that Fiscal Year and/or Incentive Cycle have been achieved and, if so, the Performance Level of achievement, respectively. From the Performance Level actually achieved, the Committee shall determine the amount in cash for Annual Bonus and/or the number of Units of Incentive Compensation, if any, distributable to any Key Executive. Except as provided in Section 6.3 of this Plan, no Incentive Compensation shall be distributed unless the Committee determines that no less than Threshold has been reached. In the event the level of achievement exceeds Threshold but is not exactly equal to Threshold, Target or Superior, the Committee shall interpolate between the amount or number of Units assigned to each such Performance Level for each Key Executive to determine the number of Units of Incentive Compensation distributable.

3.4 Distribution of Incentive Compensation.

(a) Annual Bonus. The amount of cash earned as Annual Bonus shall be paid in a single payment, net of applicable withholding for taxes, as soon as practicable after the amount is determined, *provided, however*, no Incentive Compensation as Annual Bonus shall be payable to a Key Employee who ceases to be an employee of the Company for any reason other than death or retirement prior to the distribution date.

(b) Long Term Bonus. The amount of Incentive Compensation earned in any Incentive Cycle shall be distributed in three (3) substantially equal installments. The first installment shall be distributed within five (5) working days of the determination of performance under Section 3.3. The second installment with respect to an Incentive Cycle shall be distributable on the first business day of the calendar year next following the calendar year in which the first installment was paid and the third installment with respect to an Incentive Cycle shall be distributable on the anniversary of the second installment. The distribution of each installment of Incentive Compensation is contingent (in addition to the conditions set forth in Section 3.6) upon the employment with the Company of the Key Employee to whom such installment is due on the date the installment is distributable, *provided, however*, if a Key Employee ceases employment with the Company for reasons of his death, disability or Retirement, the condition of continued employment shall not apply. In the event a Key Employee otherwise due an installment of Incentive Compensation is not an employee of the Company on the date such installment is distributable under this Section 3.4, that and any subsequently distributable installments shall be forfeited by that Key Employee and shall not be distributed to him or her at any time.

3.5 Additional Conditions to the Distribution of Incentive Compensation.

(a) In Default. No Incentive Compensation shall be payable to any Key Executive with respect to a Fiscal Year or an Incentive Cycle if, as of the date distribution thereof is due under this Plan, the Company is in default under any instrument, indenture or agreement to which the Company is a party and by which the Company is bound.

(b) Not an Employee. Except as provided in Article V, no Incentive Compensation shall be distributed to any Key Executive with respect to a Fiscal Year or an Incentive Cycle unless such Key Executive is an employee of the Company on the last business day of the last Fiscal Year in that Incentive Cycle.

3.6 Withholding for Taxes from Incentive Compensation. From each installment of Incentive Compensation, the Company shall withhold the amount required (as determined by the Company in good faith) to be withheld for applicable taxes and shall promptly remit the withheld amount to the appropriate taxing

bodies. In the event that an installment will be paid in part in cash and in part in Shares of Common Stock, withholding shall be taken from the cash portion first. Withholding from the stock portion shall be accomplished in a manner not inconsistent with applicable securities laws as determined by the Company.

3.7 Terms and Conditions of Stock Options. The Compensation Committee shall have authority and responsibility and all necessary discretion for granting Stock Options under this Plan and setting the terms and conditions of each grant to the extent not inconsistent with the terms of this Plan. Each grant and the terms and conditions of a grant of a Stock Option shall be evidenced by an option agreement between the Company and the person to whom such Stock Option has been granted. The Compensation Committee shall have the power and authority, which need not be exercised uniformly among all grants, to set the terms and conditions of each grant of Stock Options except that the following terms and conditions shall apply to all Stock Options granted hereunder:

- a. Non-qualified Options. All Stock Options granted under the Plan shall be non-qualified options, that is, Stock Options shall not be eligible for the tax treatment described in Section 422 of the Internal Revenue Code of 1986, as amended (the Code).
- b. Exercise Price. Each Stock Option shall have a per Share exercise price equal to Fair Market Value as of the date the Stock Option is granted.
- c. Term of Options. Each Stock Option shall have a term not to exceed ten (10) years from the date of grant.
- d. Vesting Schedule. No Stock Option shall be immediately vested when granted. Each Stock Option shall be subject to a vesting schedule which vests such Stock Option over one or more Fiscal Years based on attainment of Performance Goals during such Fiscal Years. The vesting schedule may take into account exceptional performance in one or more years in determining vesting in other years. The number of Fiscal Years in a particular vesting schedule and the applicable Performance Goals shall be determined by the Compensation Committee.
- e. No Exercise After Termination of Employment. Except as provided in Article VI, no Stock Option shall vest or be exercisable after a Key Employee ceases to be an employee of the Company.

3.8 Exercise of Stock Options. To the extent then vested, Stock Options may be exercised in whole or in part at any time or from time to time prior to the expiration date of such Stock Option. The Stock Option shall be exercised by delivery to the Company of a written notice of exercise setting forth the number of Stock Options to be exercised and indicating which one or combination of the following methods shall be used to pay the aggregate exercise price:

- a. cash;
- b. shares of Common Stock held by the Key Executive for more than six months prior to the relevant date; and/or

- c. cashless exercise or interim broker loan. In the event a cashless exercise or interim broker loan arrangement is intended, the arrangements made shall be to the satisfaction of the Compensation Committee in its sole and complete discretion.

Notwithstanding the notice of exercise and delivery of the exercise price, no certificates representing Shares of Common Stock shall be delivered to a Key Executive unless or until all applicable federal, state and local tax withholding and payroll taxes have been paid or appropriate arrangements satisfactory to the Committee made for payment or withholding. Any such withholding and payroll tax withholding obligations may be settled in cash paid by the Key Executive, reduction in the number of Shares of Common Stock issuable with respect to such exercise or a combination of the foregoing or any other reasonable means approved by the Compensation Committee.

3.9 Terms and Conditions of Restricted Stock. The Compensation Committee shall have authority and responsibility and all necessary discretion for granting shares of Restricted Stock under this Plan and setting the terms and conditions of each grant to the extent not inconsistent with the terms of this Plan. Each grant and the terms and conditions of that grant shall be evidenced by a restricted stock agreement between the Company and the person to whom such grant of Restricted Stock has been granted. The Compensation Committee shall have the power and authority, which need not be exercised uniformly among all grants, to set the terms and conditions of each grant of shares of Restricted Stock.

ARTICLE IV

OPERATION OF PLAN FOR NON-EMPLOYEE DIRECTORS

From time to time the Board may determine whether Stock Options or Restricted Stock shall be granted to Non-Employee Directors. If the Board determines that Stock Options or Restricted Stock shall be awarded to Non-Employee Directors, subject to the following limitations, the Compensation Committee shall determine the identity of the grantees, the number of Stock Options or shares of Restricted Stock to be awarded to each grantee and the terms and conditions of the grant:

1. All Stock Options granted to Non-Employee Directors shall be nonqualified options (as described in Section 3.7(a) above) and the exercise price shall be no less than the Fair Market Value on the date of grant.
2. Vesting schedules for Stock Options and restrictions applicable to shares of Restricted Stock shall be time-based only.
3. No Stock Option shall be exercisable after the tenth anniversary of the date of grant of that Stock Option.
4. In lieu of Section 6.1 and 6.2, if an optionee ceases to be a member of the Board for any reason other than death, disability or retirement with the consent of the majority of then members of the Board, his or her Stock Options shall cease to vest and shall cease to be exercisable four months after the date the optionee ceases to be a member of the Board. If an optionee ceases to be a member of the Board for reasons of death, disability or retirement with the consent of a majority of the members of the Board, his or her Stock Options shall cease to vest but any then vested Stock Options shall remain exercisable in accordance with the terms applicable on the date of grant.
5. The Change in Control provisions of Section 6.3 shall apply to all grants to Non-Employee Directors.
6. Each grant of Stock Options or Restricted stock shall be evidenced by an award agreement setting forth the terms and conditions of the award and which shall incorporate this Plan as it may be amended from time to time.
7. For Non-Employee Directors, the Company shall not withhold for income or payroll taxes on any exercised Stock Option or Shares delivered on the lapse of restrictions on shares of Restricted Stock.

ARTICLE V

Amendment or Termination of the Plan

The Board of Directors may, in its sole and complete discretion, terminate this Plan at any time or amend this Plan from time to time. No amendment shall adversely affect the rights of Key Employees or Non-Employee Directors hereunder with respect to then open Fiscal Years or Incentive Cycles or then outstanding Stock Options or Restricted

Stock. Without the written consent of all Key Executives who had been provided an opportunity to earn Incentive Compensation during an open Fiscal Year or Incentive Cycle and/or all Key Executive and Non-Employee Directors who had been granted a Stock Option or Restricted Stock, no amendment or termination shall affect the rights of the Non-Employee Directors to exercise Stock Options or receive shares of Common Stock not subject to restrictions in accordance with the terms of the Stock Options or Restricted Stock or of those

SPECIAL CIRCUMSTANCES

6.1 **Retirement or Disability.** In the event of a Key Executive's Retirement or Disability:

a. Each installment of Incentive Compensation earned for Incentive Cycles completed prior to the relevant event shall be paid to the Key Employee on the date such amounts would be distributable without regard to the Key Employee's Retirement or Disability and no installment shall be forfeited;

b. the Compensation Committee may, in its discretion, permit the Key Executive to receive a pro rata portion of the cash as Annual Bonus or Units as Long Term Bonus or shares of Restricted Stock which otherwise would have been distributable to such Key Executive with respect to an open Fiscal Year or Incentive Cycle if the Performance Level actually achieved as of the date of his or her termination of employment had continued for the remainder of the Incentive Cycle; and

c. the Compensation Committee may, in its discretion, permit the exercise of any then outstanding Stock Option, to the extent then vested, for a period not to exceed two (2) years after such Retirement or Disability.

6.2 **Death.** In the event a Key Executive dies:

a. Each installment of Incentive Compensation earned for a Fiscal Year or Incentive Cycles completed prior to the Key Employee's death shall be paid to his or her Beneficiary within one hundred twenty (120) days following the date of the Key Employee's death;

b. the Compensation Committee may, in its discretion, permit the Key Executive's Beneficiary to receive a pro rata portion of the cash as Annual Bonus and/or Units as Long Term Bonus and/or shares of Restricted Stock which otherwise would have been distributable to the Key Executive with respect to those open Fiscal Year and Incentive Cycles if the Performance Level actually achieved as of the date of his or her death had continued for the remainder of the Fiscal Year and/or Incentive Cycles; and

c. the Compensation Committee may, in its discretion, permit the exercise of any then outstanding Stock Option, to the extent then vested, for a period not to exceed one (1) year after such death.

6.3 **Change in Control.** In the event that (i) any person or group acting in concert acquires, other than from the Company, 20% or more of the outstanding voting securities of the Company, (ii) more than one third of the individuals comprising the Board at the beginning of an Incentive Cycle cease to be members of the Board of Directors during the Incentive Cycle (except a member who is replaced by a person nominated by the then Board shall not be considered under this subsection), (iii) the Company sells all or substantially all of its assets or (iv) such other event occurs which would constitute a change in control under rules promulgated by the Securities Exchange Commission, provided, however, notwithstanding the foregoing, no Change of Control shall be deemed to have occurred unless the events giving rise to the Change in Control would also constitute a change in control for the purposes of Section 409A of the Code and the regulations promulgated thereunder:

- a. all Fiscal Year and/or Incentive Cycles then formed shall be deemed completed and the Performance Goals for each such period shall be deemed to be met at the greater of (i) Target or (ii) the level of achievement which would have been attained if actual performance to such time continued until the end of each such period;
- b. all Stock Options shall be deemed vested and completely exercisable and all Performance Goals for each such Fiscal Year and/or Incentive Cycle shall be deemed met at the Superior Performance Level;

c. all unpaid installments of Incentive Compensation earned in prior years shall be vested and distributable and, in the case of deferred installments, as if the deferral period elected by the Key Employee had been completed; and

d. all Incentive Compensation of each Key Executive shall be distributed within ten (10) days of the happening of that event unless prior to the happening of the event giving rise to a change in control, such Incentive Compensation shall have been distributed.

6.4 **Cause.** In the event the Compensation Committee determines that a Key Executive has committed an act constituting Cause, the Compensation Committee may, in its discretion, declare that the Key Executive has forfeited the right to receive any installment of any Incentive Compensation under this Plan for the Incentive Cycle, without regard to whether or not the Key Executive's employment has been terminated. Each agreement evidencing a Stock Option shall provide that such Stock Option, whether or not then vested, shall be void and no longer exercisable upon the occurrence of a termination for cause.

ARTICLE VII

MISCELLANEOUS

7.1 **Non-Assignability.** No right to Incentive Compensation which is or may be earned under this Plan shall be assignable or transferable by the Key Executive. During the life of the Key Executive, any distribution of Incentive Compensation made with respect to a Key Executive shall be made only to such Key Executive. Stock Options may be transferred by a Non-Employee Director if such transfer is permitted under the applicable option agreement.

7.2 **Withholding Taxes.** The Company shall have the right to withhold from any distribution to be made to a Key Executive under the terms of the Plan or with respect to an exercise of Stock Options an amount sufficient to satisfy the Company's obligations under any federal, state and local withholding tax requirements applicable to such distribution.

7.4 **Non-Uniform Determinations.** Since it is the intent of this Plan to reward extraordinary performance by the Key Executives, any determinations made by the Compensation Committee under this Plan (including without limitation determinations of Key Executives, Performance Goals, Units, Performance Levels and any other determination within the discretion of the Compensation Committee) need not be uniform and may be made by the Compensation Committee selectively among persons who receive, or are eligible to receive, Incentive Compensation under this Plan, whether or not such persons are similarly situated.

7.5 **No Continuing Right to Participate.** A Key Executive shall not have any right to receive Incentive Compensation for an Incentive Cycle merely because he or she was granted an opportunity to earn Incentive Compensation for a prior Incentive Cycle. The right to participate in the Plan shall be subject to a new determination by the Compensation Committee each Incentive Cycle, and participation in the Plan during any one Incentive Cycle shall not confer any rights with respect to any subsequent Incentive Cycle.

7.6 **Unfunded Plan.** The Plan shall at all times be entirely unfunded and no provision shall at any time be made with respect to segregating assets of the Company for distribution of any Incentive Compensation hereunder. No Key Executive, Non-Employee Director or other person shall have any interest in any particular assets of the Company by

reason of participation in this Plan. Key Executives (or their Beneficiaries, if applicable) shall have only the rights of a general unsecured creditor of the Company with respect to the Incentive Compensation payable under the Plan.

7.12 Compliance with Securities Laws. The Compensation Committee may hold certificates in connection with any distribution, attach legends to certificates, require representations for Key Executives and Non-Employee Directors (or Beneficiaries, if appropriate) and take such other actions (including, but not limited to, forming a subcommittee of the Compensation Committee comprised only of disinterested persons, as described above, to act in connection with the Plan) as the Committee deems necessary or advisable to ensure or enhance compliance by the Plan, the Company and all Key Executives with applicable federal and state securities laws.
