Table of Contents

<Shareholders Proposals (Proposals 3 through 10) Pages 41 through 52>

These proposals have been made by certain shareholders (three (3) persons in total).

Proposals 3 through 5 have been jointly made by two (2) shareholders. (The total voting interest of such two shareholders is 0.0001%.) Proposals 6 through 10 have been made by one (1) shareholder. (The voting interest of such shareholder is 0.002%.) We have reproduced the details and reason for each proposal as they originally appear, without making any changes to the factual understanding of the proposer(s) or omissions and errors.

What is a Shareholder Proposal?

Under the Companies Act, a Shareholder's Right to Propose is recognized on condition that certain requirements are satisfied.

When these proposals are made, the Company is required to insert the proposals in this convocation notice regardless of the content thereof, except for the case where there is any breach of laws and regulations or the Articles of Incorporation.

This fiscal year, as eight (8) proposals were made by three (3) shareholders, the Company inserted such proposals in this convocation notice; however, the Board of Directors of the Company opposes all such proposals.

Please exercise your voting rights after reading the opinions of the Board of Directors of the Company stated on the following pages.

Proposal 3: Partial amendment to the Articles of Incorporation (Organizations that decide dividends from surplus, etc.)

1. Details of Proposal

It is proposed that Articles 47 of the Articles of Incorporation be changed as described below:

Current version

The Company shall decide distribution of dividends from surplus and other matters provided for in each item of Article 459, Paragraph 1 of the Companies Act, not by a resolution of a general meeting of shareholders, but by a resolution of the Board of Directors, unless otherwise provided for in laws or regulations.

Proposed version

The Company may decide distribution of dividends from surplus and other matters provided for in each item of Article 459, Paragraph 1 of the Companies Act, by a resolution of the Board of Directors, unless otherwise provided for in laws or regulations.

2. Reasons for Proposal

When the Company made an amendment to the Articles of Incorporation on the occasion of its transformation into a Company with Committees in the year before last, the organization that decides dividends from surplus, etc. was changed to the Board of Directors. However, such change was a deceptive act intended to include unrelated content in the proposal to amend its Articles of Incorporation. As evidence, Mitsubishi UFJ Financial Group maintains a general meeting of shareholders as an organization that decides dividends even after its transformation to a Company with Committees last year. As a result, the Company deprived its shareholders of the right to express their opinion regarding dividends at the general meetings of shareholders. Predictably, the Board of Directors will argue that the shareholders, if they are not satisfied with the level of dividend, could refrain from reappointing the directors, whose term of office is a year. However, there may be quite a number of shareholders who are not satisfied with the level of the dividends, but do not feel it is necessary to replace the directors, and it is unreasonable to deprive such shareholders of their opportunity to express their opinions. While the Board of Directors may decide the amount of dividends, the shareholders should also be able to make proposals regarding dividends, and the shareholders, at the general meetings of shareholders, should be able to decide which is more appropriate.

(Company's Note) The details and reasons of the proposal are as stated in the submitted document.

Opinion of the Board of Directors of the Company

<Oppose> The Board of Directors of the Company **opposes this proposal**.

The majority of the members of the Board of Directors of the Company are Non-Executive Directors, including 6 Outside Directors, and the chairperson of the Board of Directors and all of the members of the Nominating Committee and Compensation Committee are Outside Directors; therefore, the organization of the Board of Directors assures the high independency to sufficiently fulfill its obligations to shareholders, and the transparency and fairness of its decision-making process. Accordingly, it has been approved that, under Articles 459 and 460 of the Companies Act, the material business judgment on dividends from surplus, etc., is to be made, not by a resolution of a general meeting of shareholders, but by a resolution of the Board of the Directors, from the perspective of mobility and specialty, similar to many other companies with nominating committee, etc.

The Company is required to secure sufficient capital adequacy in order to comply with international financial regulations, and we believe that the Board of Directors' judgment on matters regarding dividends, etc., as a part of capital management that is integrally implemented with the business policy based on the management environment and financial conditions, will lead to the improvement of the corporate value and the interests of shareholders. Accordingly, the Board of Directors is of the opinion that it is unnecessary to change the provision of the Articles of Incorporation as proposed.

Proposal 4: Partial amendment to the Articles of Incorporation (Exercise of voting rights of shares held for strategic reasons)

1. Details of Proposal

It is proposed that the following provision be added to the Articles of Incorporation:

The Company shall instruct its subsidiaries that the Company administers, such as bank subsidiaries and securities companies subsidiaries, in exercising voting rights of shares held for strategic reasons, to exercise their voting rights appropriately by means such as seeking opinions from independent proxy advisers.

2. Reasons for Proposal

The group holds equity portfolio of JPY 4 trillion or more on a consolidated basis and recognized Net Losses related to Stocks in the amount of JPY 400 billion or more in fiscal year 2008, thereby contributing to demands for large amounts of capital increases, which were conducted twice. Although the most basic point is to reduce the amount of its holding shares, with respect to continuous shareholding, risk management and value enhancement measures to avoid impairment of stock value are necessary. Nevertheless, actions that were strikingly lacking in economic rationality, such as consistently opposing the shareholders' proposals for dividend increases in Sanyo Engineering & Construction (the company has continued to have an extremely low ROE ratio over a period of many years and management is handed down by hereditary succession), were continuously taken in the course of exercising voting rights of shares held for strategic reasons. In the case where there is collusion between the group and its business partners, voting rights are quite likely to be prevented from being exercised objectively and rationally. This means that asset management is conducted against the common interests of the shareholders. Therefore, enhancement of the equity portfolio value should be pursued through the rational exercise of voting rights of shares held for strategic reasons by means such as consulting proxy advisers for advice. At the general meeting of shareholders of the Company last year, this proposal received recommended approval of ISS, and was agreed to by the shareholders holding 34% of the voting shares.

(Company's Note) The details and reasons of the proposal are as stated in the submitted document.

Opinion of the Board of Directors of the Company

<Oppose> The Board of Directors of the Company **opposes this proposal.**

With regard to decisions on exercising the voting rights of shares held for strategic reasons by the Company and its Core Subsidiaries (*), it is necessary to make comprehensive decisions upon consideration of various matters through discussions with the issuing companies and verification with independent specialized departments, from the following viewpoint.

Table of Contents

- Whether the issuing company has established an appropriate governance structure, and whether such company has made appropriate decisions leading to an increase in the medium- to long-term corporate value of such company

- Whether such decision contributes to an increase to the corporate value of the group.

In particular, with respect to a proposal that may affect corporate value and the shareholders' interests, approval or disapproval is to be decided comprehensively after confirmation of such proposal's purpose and policy for the improvement of the corporate value.

The group will make continued efforts to ensure that voting rights are exercised appropriately based on the above policy. Accordingly, the Board of Directors is of the opinion that it is unnecessary to add the proposed provision to the Articles of Incorporation.

Proposal 5: Appointment as Director

1. Details of Proposal

It is proposed that Mitsutaka Yamaguchi (born on January 26, 1967) be named as candidate for director.

Brief Personal Record

March 1991 Graduated from Chuo University Faculty of Law

1998 Passed the Real Estate Appraisers Examination

Mr. Yamaguchi served as a member of the Society for the Protection of the Rights of Individual Shareholders of Kanebo (*Kanebo kojiri kabunushi no kenri wo mamoru kai*) and as a representative of the Society for Gyu-kaku Victimized by Advantage (*Advantage higai Gyu-kaku kai*), and is presently a preparatory school instructor

In January 2016, Mr. Yamaguchi published *Retorts of the Individual Shareholders (Kojiri Tousehika No Gyakushu)* (an electronic book) based on his experience of being involved in the Kanebo court case, etc.

Letter of acceptance of office available

Number of Shares of Stock of the Company held 30,000 shares

2. Reasons for Proposal

All of the Company's Outside Directors are people of unquestioning obedience, and there is no Outside Director who truly has independent opinions. Therefore, the governance is extremely poor.

As Mr. Yamaguchi wrote in *Retorts of Individual Shareholders (Kojiri Tousehika No Gyakushu)*, he has conducted volunteer activities to protect individual investors for a long time, and he is an appropriate person such that the interests of shareholders are reflected in the management.

In addition, as an independent Outside Director, Mr. Yamaguchi commits to (i) disclosing his direct email address to those shareholders who satisfy the requirements for submission of a proposal and (ii) making himself available for interview once or more per month if such shareholder wishes to interview an Outside Director.

Table of Contents

Mr. Yamaguchi believes that, in order to realize the genuine One Mizuho, it is necessary to (i) integrate leasing companies affiliated with the Company (Century Tokyo Leasing Corporation, Fuyo General Lease Co., Ltd. and IBJ Leasing Company, Limited) and to (ii) integrate real estate companies affiliated with the Company (UNIZO Holdings Company, Limited and Hulic Co., Ltd.). In addition, he also believes that the Company should change its attitude of neglecting shareholders, by answering prior questions from shareholders at the general meetings of shareholders and filing the annual securities report before the general meetings of shareholders.

(Company's Note) The details and reasons of the proposal are as stated in the submitted document.

Opinion of the Board of Directors of the Company
<Oppose> The Board of Directors of the Company **opposes this proposal.**

The 6 candidates for Outside Director decided by the Nominating Committee are deeply knowledgeable, abundantly experienced and highly specialized in areas including corporate management, compliance with laws and regulations, financial accounting, internal control and macroeconomic policy and are highly independent from the management. In addition, their continuous contribution is very promising since they actually provide appropriate checks and balances on the management through unreserved opinions to the management at meetings of the Board of Directors or various Committees and greatly contribute to the realization of a high level of governance, centered on the Board of Directors, with productive discussions from the standpoint of every stakeholder perspective.

In order to secure the effectiveness of the Board of Directors' supervisory function and for the Company to fulfill its social role and mission by contributing to the improvement of corporate value, and the domestic and international, development of economy and industry, and social prosperity that arises from such improvement of corporate value, we believe that the composition of the Board of Directors decided by the Nominating Committee is most appropriate. Accordingly, the Board of Directors is of the opinion that it is unnecessary to appoint a Director according to this proposal.

Proposal 6: Partial amendment to the Articles of Incorporation (Improvement in respect of the manner of speaking to customers as well as the handling of customers on the telephone)

1. Details of Proposal

It is proposed that the following provision be added to the Articles of Incorporation:

Any unpleasant manner of speaking to customers and handling of customers on the telephone shall be prohibited.

2. Reasons for Proposal

In spite of its long-established high commission fees imposed on customers (the proposer would immediately abandon your company if an alternative financial instruments trading service were available from any other company), the manner of speaking to customers of Mizuho Securities, one of the group companies of your company, was that of adding "Yes" to the ends of sentences, which could be interpreted as looking down on a person. When calling Mizuho itself, the proposer also experienced such an unpleasant response as hanging up the phone in a disagreeable manner without say anything. The proposer supposes that a person who is a customer of a company and also a shareholder of the company holding shares exceeding 510,000 in number is in such a position as to be held in the highest regard by the company. The proposer believes that employee salaries, pensions and welfare, etc., should be reconsidered based on the fact that securities companies and banks respectively manage their business with their profits obtained from commission fees from customers and interest rate differentials.

(Company's Note) The details and reasons of the proposal are as stated in the submitted document.

Opinion of the Board of Directors of the Company

<Oppose> The Board of Directors of the Company **opposes this proposal.**

The group's actions are based on the principle of focusing on client-oriented. Being aware that every service offered by every employee leads to obtaining customer satisfaction and trust, the Company seeks to build medium- to long-term relationships of trust with customers that emphasize sincere ties.

Specifically, the Company intends to improve its quality of customer service by utilizing every possible opportunity for training, individual counseling, checks from an outside viewpoint, etc.

Accordingly, the Board of Directors is of the opinion that it is unnecessary to add the proposed provision to the Articles of Incorporation.

Table of Contents

Proposal 7: Partial amendment to the Articles of Incorporation (Not-informing customers of their inferiority of customer grade)

1. Details of Proposal

It is proposed that the following provision be added to the Articles of Incorporation:

The company should not inform customers of their inferiority of customer grade.

2. Reasons for Proposal

When the proposer applied for shares in the IPO of the shares of the three Japan Post Group companies at a branch of Mizuho Securities, the salesperson told the proposer "You would not be allotted any shares even if you applied. As applications via the Internet will be dealt with fairly, please apply via the Internet, clearly indicating that the proposer was of the lowest customer grade, which was extremely unpleasant. It is stated on the Mizuho Securities website that the allocation of the IPO shares depends on each customer's grade and that the customer grade information is undisclosed. The foregoing is misconduct and may constitute a human rights infringement. The proposer hopes that your company uses this occasion as an opportunity to reconsider your responses to customers at once. When the proposer asked the security guard at the former Dai-Ichi Kangyo Bank what the amount of the money transfer fee was, he unkindly responded "as it says there." The proposer merely asked because no information could be seen, but is this the quality of Mizuho?"

(Company's Note) The details and reasons of the proposal are as stated in the submitted document.

Opinion of the Board of Directors of the Company

<Oppose> The Board of Directors of the Company **opposes this proposal.**

In Mizuho Securities Co., Ltd., there is no such "customer grade" as referred to in this proposal.

For the allocation of share certificates, etc., to customers relating to deals for primary or secondary offerings or engagements for secondary offerings, it is a basic policy of Mizuho Securities Co., Ltd. to strive to accurately understand customer investment needs, appropriately conduct the foregoing offerings and endeavor to make fair allocations.

Table of Contents

Specifically, for customers who have registered for the service offered through the Mizuho Securities Net Club to participate in a drawing, Mizuho Securities Co., Ltd. holds the drawing in accordance with the Japan Securities Dealers Association's rules to determine allocations. For customers who have applied at branches, etc., instead of holding the drawing, Mizuho Securities Co., Ltd. endeavors to determine allocations in accordance with the suitability rules, by taking into comprehensive consideration customers' experience and knowledge concerning securities investments, their degree of understanding of the risks relating to securities and their investment plans.

Accordingly, the Board of Directors is of the opinion that it is unnecessary to add the proposed provision to the Articles of Incorporation.

Proposal 8: Partial amendment to the Articles of Incorporation (Abolishment of minimum fee for Green Sheet)

1. Details of Proposal

It is proposed that the following provision be added to the Articles of Incorporation:

The minimum fee for Green Sheet shall be abolished.

2. Reasons for Proposal

In relation to Green Sheet, a situation exists in which Mizuho Securities (hereinafter the Securities Company) is unduly profiting by repeatedly selling single units of shares with a price per share in the single digits or more or less 10 yen, and charging a fee each time a share purchase agreement is concluded. If this situation occurs just once or twice, one could think that he/she was unlucky; however, if it occurs frequently, one will become highly suspicious of illicit trading. The Securities Company argued that they were selling single units of shares as a tax reduction measure, so I asked why both endorsement signatures were the same. The Securities Company stated that it was a common security, which contradicted their first response. Then they retorted that they were selling without entering the shareholder name changes. No one would continue to purchase and sell single units of shares for a prolonged period, knowing that any profit will be offset by the fees that are paid both at the time of purchase and sale. The minimum fee should be abolished for the sake of preventing unfair practices.

(Company's Note) The details and reasons of the proposal are as stated in the submitted document.

Opinion of the Board of Directors of the Company

<Oppose> The Board of Directors of the Company **opposes this proposal.**

Mizuho Securities Co., Ltd. appropriately manages the Green Sheet issues in accordance with the Japan Securities Dealers Association's regulations as well as the rules set forth by the association in order to ensure the orderly execution of OTC transactions and the establishment of fair business practices.

In determining the transaction fee to be borne by our customers, Mizuho Securities Co., Ltd. has taken into account the relevant transaction fee applied to transactions at financial instruments exchanges conducted over wide price ranges and for various trading units and business cost comprehensively and set a minimum fee.

By this measure, Mizuho Securities Co., Ltd. continually provides our customers with opportunities to trade securities at appropriate terms, cost and speed.

Accordingly, the Board of Directors is of the opinion that it is unnecessary to add the proposed provision to the Articles of Incorporation.

Proposal 9: Partial Amendment to the Articles of Incorporation (Abolishment of Mizuho Securities Customer Grading System (excluding IPOs))

1. Details of Proposal

It is proposed that the following provision be added to the Articles of Incorporation:

The customer grading system (excluding IPOs) shall be abolished.

2. Reasons for Proposal

A customer grading system is assumed to have existed since the Shinko Securities days; one could go to another broker if one wishes to apply for IPO shares. There are numerous financial instruments business operators, so one can choose a broker of one's choice; however, it is unacceptable to apply the system to an exclusively-handled Green Sheet. Even if I submit an offer, if there is another offer for the same price, it is 100% certain that the other party's will be accepted, and either Mizuho Securities doesn't sell the share(s) or they assign to me only the left-overs (there were many cases I could purchase only one unit). I cannot help thinking that there is a priority for selling shares of stock in accordance with a customer's grade. When I made a complaint back in the Shinko Securities days, I was suspended from transactions (such suspension was lifted after I promised not to make another complaint). Using the exclusive and confidential nature of Green Sheet, Mizuho Securities is doing as it pleases and I have doubts that any good will come of this.

(Company's Note) The details and reasons of the proposal are as stated in the submitted document.

Opinion of the Board of Directors of the Company

<Oppose> The Board of Directors of the Company **opposes this proposal.**

Customer grading as suggested in this proposal does not exist at Mizuho Securities Co., Ltd.

In addition, Mizuho Securities Co., Ltd. appropriately manages Green Sheet issues in accordance with the Japan Securities Dealers Association's regulations as well as the rules set forth by the association in order to ensure the orderly conduct of OTC transactions and the establishment of fair business practices.

Accordingly, the Board of Directors is of the opinion that it is unnecessary to add the proposed provision to the Articles of Incorporation.

Proposal 10: Partial amendment to the Articles of Incorporation (Submission to Bank of Japan of written request for withdrawal of negative interest rate policy)

1. Details of Proposal

It is proposed that the following provision be added to the Articles of Incorporation:

The presidents of the banks within the group shall deliver by hand to the Governor of the Bank of Japan a written request for withdrawal of the negative interest rate policy.

2. Reasons for Proposal

The negative interest rate policy adopted by the Bank of Japan is a policy that imposes burdens only on financial institutions (i.e., their shareholders). Its objectives of increasing loans, improving money circulation, putting the economy on track for recovery and increasing profit have not been achieved as intended; the number of loans has not increased, and although individual housing loans have increased in number, most of the loans constituting this increase are for refunding purposes and have not led to an increase in profit. Loans to low creditworthy customers will only result in non-performing loans, and lessons from the past financial crisis are not being heeded. Dampened sentiment of many investors due to a plunge in the stock prices of banks, insurance companies and the three Japan Post Group companies has made consumer spending fall further, and such situation has formed a vicious cycle. The presidents of the banks within the group should deliver by hand to the Governor of the Bank of Japan a written request not to impose burdens only on particular industries but to adopt alternative policies.

(Company's Note) The details and reasons of the proposal are as stated in the submitted document.

Opinion of the Board of Directors of the Company

<Oppose> The Board of Directors of the Company **opposes this proposal.**

With respect to the effect of the policies of the Bank of Japan on private financial institutions, not only short-term profitability but also factors such as the effect on profit resulting from the medium- to long-term invigoration of the Japanese economy should be taken into consideration, and the Board of Directors does not believe it should be argued one-sidedly that the withdrawal of the policy is required.

Accordingly, the Board of Directors is of the opinion that it is unnecessary to add the proposed provision to the Articles of Incorporation.

(from April 1, 2015 to March 31, 2016)

1. Matters Regarding the Current State of the Mizuho Financial Group, Inc.

(1) Developments and Results of Operations, etc.

Main Businesses of the Group

The group companies of Mizuho Financial Group, Inc. (the Group) are composed of Mizuho Financial Group, Inc. (MHFG), 143 consolidated subsidiaries and 27 affiliates under the equity method. The Group engages in banking business, trust business, securities business and other financial services.

The chart above briefly illustrates the relationship between MHFG and the core group companies.

Table of Contents

Financial and Economic Environment (For the Fiscal Year ended March 31, 2016)

Reviewing the economic environment over the fiscal year ended March 31, 2016, although the global economy as a whole continued to recover gradually, weakness in the recovery is seen in some regions. As for the future direction of the economy, although continued recovery is expected, particularly in the major industrialized countries, lingering concerns over a downturn in China's economy, trends in resource prices and increased geopolitical risk need continued and careful observation.

In the United States, the economy continued to be on a recovery trend under favorable employment conditions. As for the future direction of the economy, although steady recovery in the economy is expected to continue, concerns over an economic downturn in emerging countries and the possible effects of movements toward normalization of monetary policy require attention.

In Europe, the economies in the United Kingdom and the Euro area continued to be steady, although the recovery speed was slightly reduced. It is expected that the economies of the region will continue to exhibit the same trend; however, factors such as high unemployment rates, the effect of the slowdown of the Russian economy and trends in monetary policy still continue to require attention.

In Asia, the slowdown of China's economy continued. In the future, although the economies of the region will be supported by the effects of various policies, the Chinese economy is expected to experience slowdown due to downward pressure from the adjustment of capital assets. As for the economies of emerging countries, the situation in which growth momentum was lacking continued. As for the future direction of the economy, partially due to the effects of currency depreciation and the decline of resource prices, the pace of economic expansion is expected to remain gradual.

In Japan, although exports and production are improving, consumer spending remained weak and the economy as a whole stayed in a temporary lull. As for the future direction of the economy, the Japanese economy can be expected to pick up, supported by factors such as growth in consumer spending backed by a recovery in employee compensation and increased corporate earnings due to the decline in oil prices; however, foreign exchange trends require attention.

Developments and Results of Operations, etc.

[Results of Operations for fiscal 2015]

Profit Attributable to Owners of Parent for fiscal 2015 increased by JPY 59.0 billion on a year-on-year basis to JPY 670.9 billion. This result shows a 106% achievement against the earnings plan for fiscal 2015 of JPY 630.0 billion.

During fiscal 2015, the business environment for financial institutions continued to be harsh due to factors such as increased uncertainty in the domestic and foreign economic environment (including changes in China's economy since the second half of fiscal 2015), the appreciation of the yen, and the introduction of a negative interest rate policy in Japan too. As a result, Consolidated Net Business Profits for fiscal 2015 decreased by JPY 24.1 billion on a year-on-year basis to JPY 852.8 billion. On the other hand, Credit-related Costs decreased by JPY 30.4 billion and remained at a level that is approximately half of the planned amount. In addition, Net Gains (Losses) related to Stocks increased by JPY 73.7 billion on a year-on-year basis to JPY 205.6 billion due to the progress in sales of stocks and therefore, Profit Attributable to Owners of Parent increased. As a result, Consolidated Common Equity Tier 1 Capital Ratio as of March 31, 2016 was 10.50%.

MHFG continues to pursue disciplined capital management policy which maintains the optimal balance between strengthening of stable capital base and steady returns to shareholders.

As a new policy to return profits to shareholders, starting from fiscal 2014, we have implemented a steady dividend payout policy setting a dividend payout ratio on a consolidated basis of approximately 30% as a guide for our consideration. Based on this policy, MHFG proposes to make year-end cash dividend payments of JPY 3.75 per share on Common Stock (resulting in annual cash dividends including interim dividends totaling JPY 7.50 per share for fiscal 2015, which is the same amount as that for the previous fiscal year) for fiscal 2015, as forecasted as dividends estimates for fiscal 2015. MHFG also proposes to make cash dividend payments on Preferred Stock as prescribed.

The Group had formulated and promoted the medium-term business plan, One MIZUHO New Frontier Plan Stepping up to the Next Challenge , for the three (3) year period from fiscal year 2013. As the final year of the plan, we positioned fiscal year 2015 as the year in which the Group would do its utmost to establish competitive advantages, and together strived to further promote the evolution of the integrated strategy between banking, trust banking and securities functions, namely the One MIZUHO strategy, and enhance its corporate governance.

As part of this approach, the Group, in fiscal year 2015, selected four key focus areas transactions with corporations and their owners, transactions with large corporations, transactions with non-Japanese blue chip companies, and asset management and has endeavored to achieve growth in earning power.

In asset management, MHFG and Dai-ichi Life Insurance Company, Limited have for the purpose of strengthening the asset management business, been proceeding with the detailed preparation such as decisions on the integration of the asset management functions of the two groups in October 2016 and naming the new company Asset Management One. Asset Management One will aim at becoming the number one asset management company in terms of customer trust by fulfilling its fiduciary duties¹, as well as becoming the number one asset management company in Asia that is competitive with the largest global asset management firms.

Moreover, the environment surrounding the new financial services has been changing recently, such as the development of what is commonly referred to as FinTech, which involves the integration of finance and information and communication technology (ICT), and under such circumstances, MHFG upgraded its call centers by introducing an artificial intelligence-based computer system and began providing internet-based asset management services by making efforts to develop advanced products and services, that lead to the creation of new business and the improvement of customer accessibility.

¹ Fiduciary duties is a general term for the broad range of various roles and responsibilities that fiduciaries are expected to fulfill when engaging in certain business activities in order to live up to the trust that is placed in them by their customers. The term appears as a loan word in Japanese in the Financial Service Agency's Strategic Directions and Priorities.

Table of Contents

With respect to the corporate governance system, MHFG, as a Company with Three Committees, established a system that will be able to sufficiently fulfill its obligations to its shareholders. In addition, in June 2015, MHFG, as a listed company, promptly filed with the Tokyo Stock Exchange the Report on Corporate Governance describing its responses to the Corporate Governance Codes. Accordingly, MHFG is in compliance with all the principles.

In addition, in an effort to further enhance its risk governance, MHFG, as a financial group among the Global Systemically Important Financial Institutions (G-SIFIs), clarified its role and responsibilities in its business operations in preparation for the implementation of the principles in April 2016, in accordance with the three lines of defense² set forth in the revised Corporate governance principles for banks, published in July 2015 by the Basel Committee on Banking Supervision.

With respect to legal compliance, in conjunction with further enhancing its framework for the severance of transactions with anti-social elements, MHFG intensified various efforts, including its countermeasures against money laundering and terrorist financing.
