PRIIPs Regulation / Prospectus Directive / Prohibition of Sales to EEA Retail Investors

The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (EEA). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, MiFID II); (ii) a customer within the meaning of Directive 2002/92/EC (the Insurance Mediation Directive), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Directive 2003/71/EC (as amended, the Prospectus Directive). Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the PRIIPs Regulation) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

This prospectus supplement and the accompanying prospectus have been prepared on the basis that any offer of the Notes in any member state of the EEA will be made pursuant to an exemption under the Prospectus Directive from the requirement to publish a prospectus for offers of the Notes. This prospectus supplement is not a prospectus for the purposes of the Prospectus Directive.

Covenants

The terms of the Notes and the indenture governing each series of Notes limit our ability and the ability of certain of our subsidiaries to incur certain liens without equally and ratably securing the Notes. See Description of the Notes Limitation on Liens Covenant for a further discussion. Other than this covenant, the terms of the Notes will contain limited protections for holders of the Notes. In particular, the Notes will not place any restrictions on our or our subsidiaries ability to:

engage in a change of control transaction;

subject to the covenant discussed under Description of the Notes Limitation on Liens Covenant, issue secured debt or secure existing unsecured debt;

issue debt securities or otherwise incur additional unsecured indebtedness or other obligations;

purchase or redeem or make any payments in respect of capital stock or other securities ranking junior in right of payment to the Notes;

pay dividends;

sell assets;

enter into transactions with related parties; or

conduct other similar transactions that may adversely affect the holders of the Notes.

Use of Proceeds

We intend to use the net proceeds from this offering for general corporate purposes, including funding a portion of the consideration for the acquisition of Validus. See Use of Proceeds.

Further Issuances

We may create and issue further notes ranking equally and ratably with either series of Notes in all respects, on the same terms and conditions (except that the initial public offering price and issue date

Concurrent Offering

Concurrently with this offering of the Notes, AIG intends to issue \$ principal amount of % Fixed-to-Floating Rate Series A-9 Junior Subordinated Debentures Due 2048 (the Junior Subordinated Debentures). AIG intends to use the net proceeds from the issuance of the Junior Subordinated Debentures for general corporate purposes, including funding a portion of the consideration for the acquisition of Validus. The issuance of the Junior Subordinated Debentures and the issuance of the Notes in this offering are not contingent upon one another.

Trustee and Paying Agent

The trustee and paying agent for each series of Notes is The Bank of New York Mellon.

Governing Law

The indenture and the supplemental indentures under which the Notes are being issued and the Notes will be governed by the laws of the State of New York.

Risk Factors

Investing in the Notes involves risks. You should consider carefully all of the information in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein and therein. In particular, you should consider carefully the specific risk factors described in Risk Factors in this prospectus supplement and Part I, Item 1A. of AIG's Annual Report on Form 10-K for the year ended December 31, 2017, before purchasing any Notes.

Table of Contents

RISK FACTORS

An investment in the Notes involves certain risks. You should carefully consider the risks described below and in Part I, Item 1A. of AIG's Annual Report on Form 10-K for the year ended December 31, 2017, as well as other information included, or incorporated by reference, in this prospectus supplement and the accompanying prospectus, before purchasing any Notes. Events relating to any of the following risks, or other risks and uncertainties, could seriously harm our business, financial condition and results of operations. In such a case, the trading value of the Notes could decline, or we may be unable to meet our obligations under the Notes, which in turn could cause you to lose all or part of your investment.

The Notes are unsecured debt and will be effectively subordinated to any secured obligations we may incur.

The Notes will be our unsecured obligations and will rank effectively junior to any secured obligations we may incur, to the extent of the collateral securing those obligations. For example, if we were unable to repay indebtedness or meet other obligations under our secured debt, the holders of that secured debt may have the right to foreclose upon and sell the assets that secure that debt. In such an event, it is possible that we would not have sufficient funds to pay amounts due on the Notes.

In addition, if we are declared bankrupt, become insolvent or are liquidated or reorganized, holders of our secured debt will be entitled to exercise the remedies available to a secured lender under applicable law and pursuant to the instruments governing such debt, and any of our secured indebtedness will be entitled to be paid in part or in full, to the extent of our pledged assets or the pledged assets of the guarantors securing that indebtedness before any payment may be made with respect to the Notes from such pledged assets. Secured lenders not paid in full from pledged assets may be entitled to an unsecured claim for the balance of their debt (or such lesser amount as any applicable limited recourse may provide). Holders of the Notes will participate ratably in our remaining assets with all holders of any unsecured indebtedness that does not rank junior to the Notes, based upon the respective amounts owed to each holder or creditor. In any of the foregoing events, there may not be sufficient assets to pay amounts due on the Notes. As a result, holders of the Notes would likely receive less, ratably, than holders of our secured indebtedness.

The indenture relating to each series of Notes and the terms of the Notes contain limited protection for holders of the Notes.

The indenture (described further in Description of the Notes below and Description of Debt Securities AIG May Offer The Senior, Subordinated and Junior Debt Indentures in the accompanying prospectus) under which each series of Notes will be issued and the terms of the Notes offer limited protection to holders of the Notes. In particular, the terms of the indenture and the terms of the Notes will not place any restrictions on our or our subsidiaries' ability to:

engage in a change of control transaction;

subject to the covenant discussed under Description of the Notes Limitation on Liens Covenant, issue secured debt or secure existing unsecured debt;

issue debt securities or otherwise incur additional unsecured indebtedness or other obligations;

purchase or redeem or make any payments in respect of capital stock or other securities ranking junior in right of payment to the Notes;

pay dividends;

sell assets;

enter into transactions with related parties; or

conduct other similar transactions that may adversely affect the holders of the Notes.

S-5

Table of Contents

Furthermore, the terms of the indenture and the terms of the Notes will not protect holders of the Notes in the event that we experience changes (including significant adverse changes) in our financial condition or results of operations, as they will not require that we or our subsidiaries adhere to any financial tests or ratios or specified levels of net worth, revenues, income, cash flow or liquidity. In addition, the Notes do not provide for a step-up in interest on, or any other protection against, a decline in our credit ratings.

Our ability to incur additional debt and take a number of other actions that are not limited by the terms of the indenture or the Notes could negatively affect the value of the Notes.

In addition, our existing credit facilities include more protections for the lenders thereunder than are available to holders of the Notes under the indenture and the terms of the Notes. For example, subject to certain exceptions, our existing credit facilities restrict our ability and the ability of certain of our subsidiaries to, among other things, incur certain types of liens, merge, consolidate, sell all or substantially all of our assets and engage in transactions with affiliates. Our existing credit facilities also require us to maintain a specified total consolidated net worth and consolidated total debt to consolidated total capitalization. If we fail to comply with those covenants and are unable to obtain a waiver or amendment, an event of default would result under our existing credit facilities, and the lenders thereunder could, among other things, declare any outstanding borrowings under our existing credit facilities immediately due and payable. However, because the Notes do not contain similar covenants, such events may not constitute an event of default under the Notes and the holders of the Notes would not be able to accelerate the payment under the Notes. As a result, holders of the Notes may be effectively subordinated to the lenders of our existing credit facilities, and to new lenders or note holders, to the extent the instruments they hold include similar protections.

We and our subsidiaries have significant leverage and debt obligations. Payments on the Notes will depend on receipt of dividends and distributions from our subsidiaries, and the Notes will be structurally subordinated to the existing and future indebtedness of our subsidiaries.

We are a holding company and we conduct substantially all of our operations through subsidiaries. We are also permitted, subject to certain limitations under our existing indebtedness and limits that may be imposed by regulatory agencies, to obtain additional long-term debt and working capital lines of credit to meet future financing needs. This would have the effect of increasing our total leverage. Furthermore, subject to the covenant discussed under

Description of the Notes Limitation on Liens Covenant, the indenture relating to each series of Notes does not prohibit us or our subsidiaries from incurring additional secured or unsecured indebtedness. As of December 31, 2017, we had approximately \$31.6 billion of consolidated debt (including approximately \$6.2 billion of subsidiary debt obligations not guaranteed by us). See Capitalization below for our outstanding debt as adjusted to give effect to this offering and the concurrent offering of the Junior Subordinated Debentures.

We depend on dividends, distributions and other payments from our subsidiaries to fund payments on the Notes. Further, the majority of our investments are held by our regulated subsidiaries. Our subsidiaries may be limited in their ability to make dividend payments or advance funds to us in the future because of the need to support their own capital levels or because of regulatory limits.

Our right to participate in any distribution of assets from any subsidiary upon the subsidiary's liquidation or otherwise is subject to the prior claims of any preferred equity interest holders and creditors of that subsidiary, except to the extent that we are recognized as a creditor of that subsidiary. To the extent that we are a creditor of a subsidiary, our claims would be subordinated to any security interest in the assets of that subsidiary and/or any indebtedness of that subsidiary senior to that held by us. As a result, the Notes will be structurally subordinated to all existing and future liabilities of our subsidiaries. You should look only to the assets of American International Group, Inc. as the source of payment for the Notes, and not those of our subsidiaries.

S-6

Table of Contents

The trading market for the Notes may be limited and you may be unable to sell your Notes at a price that you deem sufficient.

Each series of Notes being offered by this prospectus supplement and the accompanying prospectus is a new issue of securities for which there is currently no active trading market. We do not intend to list either series of Notes on any securities exchange or include either series of Notes in any automated quotation system. The underwriters currently intend, but are not obligated, to make a market for the Notes and may cease doing so at any time. As a result, an active trading market may not develop for the Notes, or if one does develop, it may not be sustained. If an active trading market fails to develop or cannot be sustained, you may not be able to resell your Notes at their fair market value or at all.

Whether or not a trading market for either series of Notes develops, neither we nor the underwriters can provide any assurance about the market price of the Notes. Several factors, many of which are beyond our control, might influence the market value of the Notes, including:

our creditworthiness and financial condition (whether actual or perceived);

actions by credit rating agencies;

the market for similar securities;

prevailing interest rates;

the time remaining until the Notes mature; and

economic, financial, geopolitical, regulatory and judicial events that affect us, the industries and markets in which we are doing business, and the financial markets generally.

Financial market conditions and prevailing interest rates have fluctuated in the past and are likely to fluctuate in the future. Such fluctuations could have an adverse effect on the price of the Notes, regardless of our prospects and financial performance and condition.

As a result of one or more of those factors, the Notes that an investor purchases may trade at a discount to the price that the investor paid for such Notes. Moreover, these factors interrelate in complex ways, and the effect of one factor may offset or enhance the effect of another factor.

There are potential conflicts of interest between investors in the Notes and the quotation agent.

AIG Markets, Inc., our subsidiary, will serve as the quotation agent in connection with any redemption of the Notes. The quotation agent will determine the redemption price of the Notes. The quotation agent will exercise discretion and judgment in performing these duties. Absent manifest error, all determinations by the quotation agent will be final and binding on investors, without any liability on our part. The exercise of this discretion by the quotation agent could

adversely affect the redemption price of the Notes. Investors will not be entitled to any compensation from us for any loss suffered as a result of any determinations by the quotation agent, even though the quotation agent may have a conflict of interest at the time of such determinations.

Our credit ratings may not reflect all risks of an investment in the Notes.

Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings will generally affect the market value of the Notes. Our credit ratings, however, may not reflect the potential impact of risks related to market or other factors discussed in this prospectus supplement and the accompanying prospectus on the value of the Notes.

DESCRIPTION OF THE NOTES

We have summarized below certain terms of the % Notes Due 2028 (the 2028 Notes) and the % Notes Due 2048 (the 2048 Notes and, together with the 2028 Notes, the Notes). This summary supplements and amends the general description of the Notes contained in the accompanying prospectus. Any information regarding the Notes contained in this prospectus supplement that is inconsistent with information in the accompanying prospectus will apply and will supersede any inconsistent information in the accompanying prospectus.

You should refer to the Indenture, dated as of October 12, 2006, between us and The Bank of New York Mellon, as trustee, as supplemented by the Fourth Supplemental Indenture, dated as of April 18, 2007, and the Eighth Supplemental Indenture, dated as of December 3, 2010, and with respect to each series of Notes, as further supplemented by the applicable supplemental indenture governing such series of Notes. The Indenture, as so supplemented, is referred to as the Indenture in this prospectus supplement. The Indenture, including these supplemental indentures, has been filed as an exhibit to the registration statement, or will be filed as an exhibit to our Current Report on Form 8-K relating to this offering. The following summary, together with the descriptions in the accompanying prospectus, of certain provisions of the Notes and the Indenture does not purport to be complete and is subject, and qualified in its entirety by reference, to all of the provisions of the Notes and the Indenture, including the definitions of terms therein. See Where You Can Find More Information in this prospectus supplement and the accompanying prospectus for details on how you may obtain a copy of the Indenture from us.

Each series of Notes will be issued as a separate series of the debt securities under the Indenture, as described herein and in the accompanying prospectus.

General

Each series of Notes will be issued in fully registered form without interest coupons in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof and will be represented by Global Notes (as defined below) registered in the name of The Depository Trust Company (DTC) or its nominee.

The Notes will be unsecured obligations of AIG and will rank equally with all of our other existing and future unsecured indebtedness. See Risk Factors The Notes are unsecured debt and will be effectively subordinated to any secured obligations we may incur in this prospectus supplement for additional information on this risk. In addition, the Notes will be structurally subordinated to all future and existing obligations of our subsidiaries, which is significant. See Risk Factors We and our subsidiaries have significant leverage and debt obligations. Payments on the Notes will depend on receipt of dividends and distributions from our subsidiaries, and the Notes will be structurally subordinated to the existing and future indebtedness of our subsidiaries in this prospectus supplement for additional information on this risk.

The 2028 Notes will be issued in an initial aggregate principal amount of \$. The 2048 Notes will be issued in an initial aggregate principal amount of \$. We may, without the consent of the holders of the Notes of a series, increase the principal amount of the Notes of such series by issuing additional notes on the same terms and conditions (except that the initial public offering price, issue date and initial interest payment date may vary) and with the same CUSIP number, ISIN and common code as the Notes of such series being offered by this prospectus supplement. The Notes of such series being offered by this prospectus supplement and any additional notes of the same series would rank equally and ratably and would be treated as a single class for all purposes of the Indenture.

The 2028 Notes will mature on April , 2028. The 2048 Notes will mature on April , 2048. Principal of and interest on the Notes will be payable, and the Notes will be exchangeable and transferable, at our office or agency in

The City of New York, which initially will be the corporate trust office of the trustee currently located

at 101 Barclay Street, New York, New York 10286. No service charge will be made for any registration of transfer or exchange of the Notes, except for any tax or other governmental charge that may be imposed in connection therewith.

The Notes do not provide for any sinking fund or permit holders to require us to repurchase the Notes.

For so long as the Notes are in book-entry form, payments of principal and interest will be made in immediately available funds by wire transfer to DTC or its nominee. We may issue definitive Notes in the limited circumstances set forth in Book-Entry System below.

Business Day for the purposes of the Notes means each Monday, Tuesday, Wednesday, Thursday or Friday that is not a day on which banking institutions in The City of New York are authorized or obligated by law or executive order to close.

Interest

The 2028 Notes will bear interest at the rate of % per annum, payable semi-annually in arrears on each April and October , commencing on October , 2018, to holders of record on the immediately preceding March and September . The 2048 Notes will bear interest at the rate of % per annum, payable semi-annually in arrears on each April and October , commencing on October , 2018, to holders of record on the immediately preceding March and September . Interest on each series of Notes will be computed on the basis of a 360-day year comprised of twelve 30-day months. On the maturity date of each series of Notes, holders will be entitled to receive 100% of the principal amount of such series of Notes plus accrued and unpaid interest, if any. If any interest payment date or the maturity date of the Notes falls on a day that is not a Business Day, we will make the required payment on the next succeeding Business Day, and no additional interest will accrue in respect of the payment made on that next succeeding Business Day.

Early Redemption

At any time prior to January , 2028, in the case of the 2028 Notes, and at any time prior to October , 2047, in the case of the 2048 Notes, we will have the right to redeem the Notes of such series, in whole or in part, at a redemption price equal to the greater of:

100% of the principal amount of the Notes of such series to be redeemed; and

as determined by the quotation agent (as defined below), the sum of the present values of the remaining scheduled payments of principal and interest thereon (not including any portion of such payments of interest accrued as of the date of redemption) (assuming for such purpose that the 2028 Notes mature on January , 2028 and that the 2048 Notes mature on October , 2047), discounted to the redemption date, on a semi-annual basis assuming a 360-day year consisting of twelve 30-day months at the adjusted treasury rate, plus basis points in the case of the 2028 Notes and plus basis points in the case of the 2048 Notes, plus, in each case, accrued and unpaid interest thereon to, but excluding, the date of redemption.

At any time on or after January , 2028, in the case of the 2028 Notes, and at any time on or after October , 2047, in the case of the 2048 Notes, we may redeem the Notes of such series, in whole or in part, at a redemption price equal to 100% of the principal amount of the Notes of such series being redeemed, plus accrued and unpaid interest to but

excluding the date of redemption.

The definitions of certain terms used in this section are listed below.

Adjusted treasury rate means, with respect to any redemption date of either series of Notes, the rate per annum equal to the semi-annual equivalent yield to maturity of the comparable treasury issue, assuming a price

S-11

Table of Contents

for the comparable treasury issue (expressed as a percentage of its principal amount) equal to the comparable treasury price for such redemption date.

Comparable treasury issue means the U.S. Treasury security selected by the quotation agent as having a maturity comparable to the remaining term of the Notes to be redeemed (assuming for such purpose that the 2028 Notes mature on January , 2028 and that the 2048 Notes mature on October , 2047) that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of such Notes.

Comparable treasury price means, with respect to any redemption date, the average of the reference treasury dealer quotations for such redemption date.

Quotation agent means AIG Markets, Inc. or any other firm appointed by us, acting as quotation agent. AIG Markets, Inc. is our subsidiary.

Reference treasury dealer means:

each of Merrill Lynch, Pierce, Fenner & Smith Incorporated, Morgan Stanley & Co. LLC, RBC Capital Markets, LLC, Wells Fargo Securities LLC and one primary treasury dealer (as defined below) selected by each of Credit Suisse Securities (USA) LLC and U.S. Bancorp Investments, Inc., or the respective successor of any of the foregoing; provided, however, that if any of the foregoing shall cease to be a primary U.S. government securities dealer in the United States (a primary treasury dealer), we will substitute therefor another primary treasury dealer; and

any other primary treasury dealer selected by the quotation agent after consultation with us.

Reference treasury dealer quotations means with respect to each reference treasury dealer and any redemption date, the average, as determined by the quotation agent, of the bid and asked prices for the comparable treasury issue (expressed in each case as a percentage of its principal amount) quoted in writing to the quotation agent by such reference treasury dealer at 3:30 p.m. on the third Business Day preceding such redemption date.

All calculations made by the quotation agent for the purposes of calculating the redemption price of the Notes shall be conclusive and binding on the holders of the Notes, the trustee and us, absent manifest error. See Risk Factors There are potential conflicts of interest between investors in the Notes and the quotation agent.

If less than all of the Notes of either series are to be redeemed at any time, selection of the Notes of that series for redemption will be made by the trustee in accordance with the procedures of DTC, provided that the unredeemed portion of the principal amount of any Note shall be in a denomination of not less than \$2,000.

We will give to DTC a notice of redemption at least 30 days but not more than 60 days before the redemption date. If the Notes of either series are to be redeemed in part only, the notice of redemption will state the portion of the principal amount thereof to be redeemed. A new Note of such series in a principal amount equal to the unredeemed portion thereof will be issued in the name of the holder thereof upon cancellation of the original Note. Notice by DTC to its participants and by participants to street name holders of indirect interests in the Notes will be made according to arrangements among them and may be subject to statutory or regulatory requirements. The redemption may be conditioned upon the occurrence of one or more conditions precedent.

Unless we default in payment of the redemption price, on and after the redemption date, interest will cease to accrue on the Notes of such series or portions thereof called for redemption. If a redemption date falls on a day that is not a Business Day, we will make the required payment on the next succeeding Business Day, and no additional interest will accrue in respect of the payment made on that next succeeding Business Day.

Limitation on Liens Covenant

We have made a covenant with respect to the Notes of each series that we will not, and will not permit any Designated Subsidiary (as defined below) to, directly or indirectly, create, issue, assume, incur or guarantee any indebtedness for money borrowed (other than non-recourse indebtedness) which is secured by a mortgage, pledge, lien, security interest or other encumbrance of any nature on any of the present or future voting stock of a Designated Subsidiary unless the Notes and, if we so elect, any of our other indebtedness ranking at least *pari passu* with the Notes, are secured equally and ratably with (or prior to) such other secured indebtedness. For purpose of this covenant, Designated Subsidiary means American Home Assurance Company, National Union Fire Insurance Company of Pittsburgh, Pa., and any subsidiary the assets of which exceed 20% of our consolidated assets, to be determined as of the last day of the most recent calendar quarter ended at least 30 days prior to the date of such determination and in accordance with generally accepted accounting principles as in effect on the last day of such calendar quarter. As of December 31, 2017, AGC Life Insurance Company, AIG Life Holdings, Inc., AIG Property Casualty Inc., AIG Property Casualty U.S., Inc., AIUH LLC, American General Life Insurance Company and SAFG Retirement Services, Inc. had assets that exceeded 20% of our consolidated assets.

Other than the covenant described above and the provisions described in Description of Debt Securities AIG May Offer Special Situations Mergers and Similar Transactions in the accompanying prospectus, the Indenture or the Notes do not contain other provisions that afford holders of the Notes of either series protection in the event we:

engage in a change of control transaction;

subject to the covenant discussed above, issue secured debt or secure existing unsecured debt;

issue debt securities or otherwise incur additional unsecured indebtedness or other obligations;

purchase or redeem or make any payments in respect of capital stock or other securities ranking junior in right of payment to the Notes;

sell assets;

pay dividends;

enter into transactions with related parties; or

conduct other similar transactions that may adversely affect the holders of the Notes.

See Risk Factors The indenture relating to the Notes and the terms of the Notes contain limited protection for holders of the Notes for a further discussion of the limited protections provided to holders of the Notes.

Defeasance

The defeasance provisions of the Indenture will apply to the Notes. See Description of Debt Securities AIG May Offer Defeasance beginning on page 10 in the accompanying prospectus.

Governing Law

The Indenture and the Notes of each series will be governed by, and construed in accordance with, the laws of the State of New York.

Book-Entry System

The Notes of each series will be issued in the form of one or more permanent registered securities in global form (Global Notes), registered in the name of DTC or its nominee. Purchasers of the Notes of either series

Table of Contents

may hold beneficial interests in the Global Notes through DTC, or through the accounts that Clearstream Banking S.A. (Clearstream) and Euroclear Bank S.A./N.V. (Euroclear) maintain as participants in DTC. For more information concerning DTC and its book-entry system as well as Clearstream and Euroclear, see Legal Ownership and Book-Entry Issuance in the accompanying prospectus.

Notes represented by Global Notes will be exchangeable for Note certificates, registered in the names of owners of beneficial interests in the Global Notes, with the same terms and in authorized denominations, only if:

the depository notifies us that it is unwilling, unable or no longer permitted under applicable law to continue as depository for the Global Notes and we do not appoint another institution to act as depository within 90 days;

we notify the trustee that we wish to terminate the Global Notes; or

an event of default has occurred with regard to the Notes and has not been cured or waived.

In any such instance, an owner of a beneficial interest in the Global Notes will be entitled to physical delivery of the Notes represented by the Global Notes of such series equal in principal amount to that beneficial interest and to have those Notes registered in its name. Notes of such series so issued will be in definitive registered form, in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. Notes of such series so registered can be transferred by presentation for registration of transfer to the transfer agent at its corporate trust office and must be duly endorsed by the holder or his attorney duly authorized in writing, or accompanied by a written instrument or instruments of transfer in form satisfactory to us or the trustee duly executed by the holder or its attorney duly authorized in writing. We may require payment of a sum sufficient to cover any tax or other governmental charge that may be imposed in connection with any exchange or registration of transfer of definitive Notes of such series.

If the Global Notes are terminated, only DTC, as depository, and not we or the trustee, is responsible for deciding the names of the persons in whose names the Notes delivered in exchange will be registered and, therefore, who will be the holders of those Notes.

Concerning the Trustee

The Bank of New York Mellon will initially be the trustee under the Indenture and also the paying agent and the transfer agent and registrar for each series of Notes. We have entered, and from time to time may continue to enter, into banking or other relationships with The Bank of New York Mellon or its affiliates. See Description of Debt Securities AIG May Offer Our Relationship with the Trustee beginning on page 13 in the accompanying prospectus.

Table of Contents**UNDERWRITING**

Under the terms and subject to the conditions contained in an underwriting agreement, dated the date of this prospectus supplement, the underwriters named below, for whom Merrill Lynch, Pierce, Fenner & Smith Incorporated and U.S. Bancorp Investments, Inc. are acting as global coordinators and representatives, and, together with Credit Suisse Securities (USA) LLC, Morgan Stanley & Co. LLC, RBC Capital Markets, LLC and Wells Fargo Securities LLC, as joint book-running managers of the offering, have severally agreed to purchase, and we have agreed to sell to them, severally, the principal amount of each series of Notes set forth opposite their names below:

Credit Suisse Securities (USA) LLC	\$	\$
Morgan Stanley & Co. LLC	\$	\$
RBC Capital Markets, LLC	\$	\$

The underwriting agreement provides that the obligations of the underwriters to purchase each series of Notes included in this offering are subject to certain conditions precedent. The underwriters are committed to take and pay for all the Notes of a series being offered, if any are taken.

Each series of Notes is being offered separately and not as part of a unit. The offering of each series of Notes is not cross-conditioned on the offering of the other series of Notes. AIG may sell the 2028 Notes, the 2048 Notes or both. In addition, the issuance of the Notes in this offering and the issuance of the Junior Subordinated Debentures are not contingent upon one another.

We have been advised by the representatives of the underwriters that the Notes of each series sold by the underwriters to the public will initially be offered at the respective prices set forth on the cover of this prospectus supplement. Any Notes sold by the underwriters to securities dealers may be sold at a discount from the initial public offering price of up to % of the principal amount of the 2028 Notes and up to % of the principal amount of the 2048 Notes. Any such securities dealers may resell Notes of either series purchased from the underwriters to certain other brokers or dealers at a discount from the initial public offering price of up to % of the principal amount of the 2028 Notes and up to % of the principal amount of the 2048 Notes. After the initial offering of each series of Notes to the public, the underwriters may from time to time change the public offering price and other selling terms.

The following table shows the per Note and total underwriting discounts and commissions to be paid to the underwriters by us. The per Note discount is expressed as a percentage of the principal amount of the Notes.

The Notes of each series are a new issue of securities with no established trading market. We do not intend to list the Notes of either series on any national securities exchange or to include the Notes of either series in any automated quotation system. We cannot assure you that the prices at which the Notes will sell in the market after this offering will not be lower than the initial offering price or that an active trading market for either series of Notes will develop and continue after this offering. We have been advised by the underwriters that the

Table of Contents

underwriters intend to make a market in each series of Notes but are not obligated to do so and may discontinue market making at any time without notice. No assurance can be given as to the liquidity of the trading market for either series of Notes. See Risk Factors The trading market for the Notes may be limited and you may be unable to sell your Notes at a price that you deem sufficient for a further discussion of this risk.

The underwriters intend to offer the Notes for sale primarily in the United States either directly or through affiliates or other dealers acting as selling agents. The underwriters may also offer the Notes for sale outside the United States either directly or through affiliates or other dealers acting as selling agents.

In order to facilitate the offering of each series of Notes, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of either series of Notes or both. Specifically, the underwriters may over-allot in connection with the offering, creating a short position in the Notes of such series for their own account. In addition, to cover over-allotments or to stabilize the price of the Notes of such series, the underwriters may bid for, and purchase, the Notes of such series on the open market. Finally, the underwriting syndicate may reclaim selling concessions allowed to an underwriter or a dealer for distributing the Notes of such series in the offering, if the syndicate repurchases previously distributed Notes of such series in transactions to cover syndicate short positions, in stabilization transactions or otherwise. Any of these activities may stabilize or maintain the market price of the Notes of such series above independent market levels. The underwriters are not required to engage in these activities, and may end any of these activities at any time.

We estimate that total out-of-pocket expenses of this offering payable by us, excluding underwriting discounts and commissions, will be approximately \$.

We have agreed to indemnify the several underwriters against, and to contribute toward, certain liabilities, including liabilities under the Securities Act of 1933, as amended.

Certain of the underwriters and their respective affiliates have rendered and may in the future render various investment banking, lending and commercial banking services and other advisory services to us and our subsidiaries. Certain of these relationships involve transactions that are material to us and our affiliates and for which those underwriters received significant fees. Certain of the underwriters have received, and may in the future receive, customary compensation from us and our subsidiaries for such services. Additionally, certain of the underwriters are acting as underwriters in connection with the concurrent offering of the Junior Subordinated Debentures for which they will receive customary compensation from us.

Certain of the underwriters are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, principal investment, hedging, financing and brokerage activities. Some of the underwriters or their affiliates have a lending relationship with us or our subsidiaries, and certain of those underwriters or their affiliates routinely hedge, and certain other of those underwriters or their affiliates may hedge, their credit exposure to us or our subsidiaries consistent with their customary risk management policies. A typical hedging strategy would include these underwriters or their affiliates hedging their exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the Notes of either series. Any such credit default swaps and short positions could adversely affect future trading prices of the Notes of either series. In the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (which may include bank loans and/or credit default swaps) for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities and instruments. Such investments and securities activities may involve our securities and/or instruments. The underwriters and their

affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Table of Contents

We expect that delivery of the Notes will be made to investors on or about March 1, 2018, which is five business days following the date of the pricing of the Notes (such settlement cycle referred to as T+5). Under Rule 15c6-1 of the Exchange Act, trades in the secondary market generally are required to settle on the second business day following the date of any contract for sale (such settlement cycle referred to as T+2), unless the parties to a trade expressly agree otherwise. Accordingly, purchasers who wish to trade the Notes on any date prior to two business days before March 1, 2018 will be required, by virtue of the fact that the Notes will settle in T+5, to specify an alternative settlement cycle at the time of the trade to prevent a failed settlement and should consult their own advisers in connection with that election.

Selling Restrictions

No action has been or will be taken by us that would permit a public offering of the Notes of either series, or possession or distribution of this prospectus supplement or the accompanying prospectus or any other offering or publicity material relating to the Notes of either series, in any country or jurisdiction outside the United States where, or in any circumstances in which, action for that purpose is required. Accordingly, the Notes of either series may not be offered or sold, directly or indirectly, and this prospectus supplement, the accompanying prospectus and any other offering or publicity material relating to the Notes of either series may not be distributed or published, in or from any country or jurisdiction outside the United States except under circumstances that will result in compliance with applicable laws and regulations.

Canada

Each series of Notes may be sold only to purchasers purchasing, or deemed to be purchasing, as principal that are accredited investors, as defined in National Instrument 45-106 Prospectus Exemptions or subsection 73.3(1) of the Securities Act (Ontario), and are permitted clients, as defined in National Instrument 31-103 Registration Requirements, Exemptions and Ongoing Registrant Obligations. Any resale of either series of Notes must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable securities laws.

Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this prospectus supplement together with the accompanying prospectus (including any amendment thereto) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for particulars of these rights or consult with a legal advisor.

Pursuant to section 3A.3 of National Instrument 33-105 Underwriting Conflicts (NI 33-105), the underwriters are not required to comply with the disclosure requirements of NI 33-105 regarding underwriter conflicts of interest in connection with this offering.

Prohibition of Sales to EEA Retail Investors

Each underwriter has represented and agreed that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes to any retail investor in the EEA. - (i) a retail client as defined in point (11) of Article 4(1) of MiFID II;

- (ii) a customer within the meaning of the Insurance Mediation Directive, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or
