Corporate High Yield Fund III, Inc.

The Benefits and Risks of Leveraging

Corporate High Yield Fund III, Inc. utilizes leveraging through borrowings or issuance of short-term debt securities or shares of Preferred Stock. The concept of leveraging is based on the premise that the cost of assets to be obtained from leverage will be based on short-term interest rates, which normally will be lower than the income earned by the Fund on its longer-term portfolio investments. Since the total assets of the Fund (including the assets obtained from leverage) are invested in higher-yielding portfolio investments, the Fund's Common Stock shareholders are the beneficiaries of the incremental yield.

Leverage creates risks for holders of Common Stock including the likelihood of greater net asset value and market price volatility. In addition, there is the risk that fluctuations in interest rates on borrowings (or in the dividend rates

Edgar Filing: CORPORATE HIGH YIELD FUND III INC - Form N-CSRS

on any Preferred Stock, if the Fund were to issue Preferred Stock) may reduce the Common Stock's yield and negatively impact its net asset value and market price. If the income derived from securities purchased with assets received from leverage exceeds the cost of leverage, the Fund's net income will be greater than if leverage had not been used. Conversely, if the income from the securities purchased is not sufficient to cover the cost of leverage, the Fund's net income will be less than if leverage had not been used, and therefore the amount available for distribution to Common Stock shareholders will be reduced.

Proxy Results

During the six-month period ended November 30, 2004, Corporate High Yield Fund III, Inc.'s shareholders voted on the following proposal. The proposal was approved at a shareholders' meeting on August 25, 2004. A description of the proposal and number of shares voted are as follows:

		Shares Voted For	Shares With Held From Voting

1. To elect the Fund's Board of Directors:	Terry K. Glenn	35,159,801	899,4
	James H. Bodurtha	35,162,209	897,0
	Joe Grills	35,146,937	912,2
	Herbert I. London	35,147,878	911,3
	Andre F. Perold	35,145,722	913,5
	Roberta Cooper Ramo	35,148,154	911,0
	Robert S. Salomon, Jr.	35,147,208	912,0
	Stephen B. Swensrud	35,139,120	920,1

2 CORPORATE HIGH YIELD FUND III, INC. NOVEMBER 30, 2004

A Letter From the President

Dear Shareholder

As we ended the current reporting period, several topics weighed heavily on investors' minds. Among them were questions about economic growth, corporate earnings, interest rates and inflation, politics, the price of oil and terrorism -- all issues that are worth addressing here.

While the pace of economic expansion slowed somewhat between the first and second quarters of 2004, gross domestic product reaccelerated in the third quarter and is expected to approach 4% for the year. The generally favorable economic environment has benefited American corporations, which continued to post strong earnings. Although the extraordinary results seen in 2004 are likely to moderate in 2005, solid productivity, improved revenue growth and cost discipline all point to a vital corporate sector.

In terms of inflation and interest rates, the Federal Reserve Board has signaled its confidence in the economic recovery by increasing the Federal Funds target rate five times since June 2004, from 1% to 2.25% as of the December 14 Federal Open Market Committee meeting. Inflation, for its part, has remained fairly subdued.

While the re-election of President Bush was generally viewed as

Edgar Filing: CORPORATE HIGH YIELD FUND III INC - Form N-CSRS

business-friendly, the rising price of oil continued to be a concern for consumers and corporations. Although the price of oil has exceeded \$50 per barrel recently, the situation is far from the crisis proportions we saw in the 1980s. Lastly, but importantly, terrorism and geopolitical tensions are unwelcome realities we are forced to live with today. Historically, however, the financial effects of any single event tend to be short-lived.

Amid the ambiguities, fixed income markets provided positive results. The Lehman Brothers Aggregate Bond Index, for example, returned +4.44% for the 12-month period and +3.82% for the six-month period ended November 30, 2004. The 10-year Treasury yield was essentially unchanged year-over-year, while the three-month Treasury ended the period at 2.23%, up from 1.08% six months ago and .93% 12 months ago.

The key during uncertain times is to remain focused on the big picture. Investment success comes not from reacting to short-term volatility, but from maintaining a long-term perspective and adhering to the disciplines of asset allocation, diversification and rebalancing. We encourage you to work with your financial advisor to ensure these time-tested techniques are incorporated into your investment plan.

Finally, after 35 years in the asset management business, it is with great satisfaction and some nostalgia that I embark on my retirement, effective January 1, 2005. The industry has evolved significantly over the past three and a half decades, and I am privileged to have been a part of it. I wish you continued success as you pursue your investment goals and, as always, I thank you for allowing Merrill Lynch Investment Managers to be a part of your financial life.

Sincerely,

/s/ Terry K. Glenn

A Discussion With Your Fund's Portfolio Manager

The Fund outperformed the benchmark CSFB High Yield Index for the six-month period, benefiting from its use of leverage and strong returns from several individual holdings.

How did the Fund perform during the period?

For the six-month period ended November 30, 2004, the Common Stock of Corporate High Yield Fund III, Inc. had net annualized yields of 9.60% and 10.05%, based on a period-end per share net asset value of \$9.02 and a per share market price of \$8.61, respectively, and \$.434 per share income dividends. Over the same period, the total investment return on the Fund's Common Stock was +12.51%, based on a change in per share net asset value from \$8.43 to \$9.02, and assuming reinvestment of all distributions.

The Fund's return significantly exceeded that of the high yield market, as measured by the Credit Suisse First Boston (CSFB) High Yield Index, which returned +9.31% for the six-month period ended November 30, 2004. The Fund

Edgar Filing: CORPORATE HIGH YIELD FUND III INC - Form N-CSRS

slightly underperformed its comparable Lipper category of High Current Yield Funds (Leveraged), which had an average return of +13.08% for the same period. (Funds in this Lipper category aim for relatively high current yield from investment in fixed income securities, have no quality or maturity restrictions and tend to invest in lower-grade debt issues.)

For a description of the Fund's total investment return based on a change in the per share market value of the Fund's Common Stock (as measured by the trading price of the Fund's shares on the New York Stock Exchange), and assuming reinvestment of dividends, please refer to the Financial Highlights section of this report. As a closed-end fund, the Fund's shares may trade in the secondary market at a premium or a discount to the Fund's net asset value. As a result, total investment returns based on changes in the market value of the Fund's Common Stock can vary significantly from total investment returns based on changes in the Fund's net asset value.

For the most part, the high yield market remained strong throughout the past six months. The market gleaned support from a generally healthy economic environment, a decline in default rates by high yield issuers and robust demand for the asset class on the part of both domestic institutional and foreign investors.

The new-issue calendar remained active in 2004. As of November 30, year-to-date new issuance totaled some \$127.7 billion, with the majority of the proceeds used for bank loan and other debt repayment. At the same time, the default rate of high yield corporate borrowers has continued to decline. As reported by Moody's, the default rate fell sharply over the past two years, from 8.5% at year-end 2002 to just 2% at the end of the third quarter of 2004. This trend, coupled with a healthy economy and muted inflation, has encouraged investment demand for the high yield borrowing sector.

What factors contributed to the Fund's performance?

The Fund's performance benefited from the use of leverage and positive results from several holdings that rebounded during the period. The strongest performance came from the utility sector, especially independent power producers Calpine Corporation, Mission Energy and The AES Corporation, as the improving economy and refinancings led to an improved outlook for these companies. Also outperforming were the convertible bonds of Tyco International Group SA and Halliburton Company. Tyco's earnings benefited from the expanding economy, as well as from corporate streamlining by a new management team. Halliburton resolved asbestos and silica litigation that had overshadowed the company's improving earnings picture.

What changes were made to the portfolio during the period?

We added modestly to our convertible bond holdings, raising our total allocation in that category to 7.6% of the Fund's net assets. We continue to believe that convertible securities will add incremental performance to the Fund in an environment where high yield bonds appear to be fully valued. Convertible securities can be volatile, reflecting movements in the underlying stocks; therefore, we anticipate that our holdings will be subject to the same risks. However, we have attempted to mitigate that risk by choosing higher-quality issues and by purchasing bonds that are somewhat insulated from downside volatility while benefiting from rising stock prices. Among the Fund's most significant convertible positions are Liberty Media Corporation (rated BBB-), which

Edgar Filing: CORPORATE HIGH YIELD FUND III INC - Form N-CSRS

converts to shares of Time Warner, and CenterPoint Energy, Inc. (rated BBB-), a power distributor. During the period, we sold most of our position in Tyco International convertible bonds for a substantial profit and the securities of Citizens Utilities (rated BB+), which converted to common stock and paid a substantial dividend prior to our sale.

With short-term interest rates rising, we invested modestly in floating rate securities and bank loans, which total near 5.5% of Fund net assets at November 30, 2004. We also have maintained our overweighting in the CCC category, believing that many bonds in this category have better credit quality than is implied by the rating and that other bonds in this category will benefit from the strengthening economy.

The Fund's leverage averaged 25.2% during the past six months. That is, the Fund borrowed the equivalent of 25.2% of total assets invested, earning incremental yield on the investments we made with the borrowed funds. For the six months ended November 30, 2004, the average amount borrowed was \$109.7 million, and the daily weighted average interest rate was 1.86%. While leveraging will hinder the Fund's total return in a weak market, the converse also is true. We intend to maintain our leverage position in the mid-20% range, although that level may vary somewhat as we adjust the portfolio's holdings. (For a more complete discussion of the benefits and risks of leveraging, see page 2 of this report to shareholders.)

How would you characterize the Fund's position at the close of the period?

We expect increasing pressure in the market from rising interest rates, but believe high yield securities will continue to find support from a gradually improving economy and the resultant positive corporate earnings. We have positioned the Fund to benefit in this environment and have taken steps -- for example, adding floating rate securities -- to moderate the impact of higher interest rates on the portfolio.

We continue to believe that the chemical sector represents good relative value. We have overweighted that sector, with 8.3% of total investments allocated to that industry. Our focus in that sector remains on specialty chemicals firms that have some pricing flexibility and more stable end markets. Another large industry allocation is in utilities, at 8.5% of total investments. Although we believe utilities are stable and relatively defensive, we are underweight in the sector relative to the high yield market as a whole. We believe the sector in general is fully valued and offers neither substantial appreciation potential nor significant yield. The exception is Calpine, which, though volatile, offers both appreciation and yield as the strengthening economy improves its earnings prospects.

The Fund is underweight in the leisure sector, based on our belief that these securities already have priced in the upside potential. We maintain an underweight position in information technology, given our perception of high valuations, unstable earnings and potentially limited recovery value if earnings decline in the sector. We have limited exposure to the retail, food and drug, and finance sectors, based on what we believe is inadequate and uncertain asset protection in these areas of the market. Similar to the CSFB High Yield Index, the Fund had an average credit rating of B at the close of the period.

Elizabeth M. Phillips
Vice President and Portfolio Manager

- + For Fund compliance purposes, "Industry" means any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Fund management. This definition may not apply for purposes of this report, which may combine such industry sub-classifications for reporting ease.
- * The cost and unrealized appreciation/depreciation of investments as of November 30, 2004, as computed for federal income tax purposes, were as follows:

Aggregate cost	\$436,016,861
Gross unrealized appreciation	\$ 34,501,465
Gross unrealized depreciation	(9,757,990)
Net unrealized appreciation	\$ 24,743,475

- ** Represents a zero coupon or step bond; the interest rate shown reflects the effective yield at the time of purchase by the Fund.
- (a) Floating rate corporate debt in which the Fund invests generally pays interest at rates that are periodically redetermined by reference to a base lending rate plus a premium. The base lending rates are generally (i) the lending rate offered by one or more major European banks, such as LIBOR (London InterBank Offered Rate), (ii) the prime rate offered by one or more major U.S. banks or (iii) the certificate of deposit rate. Corporate loans represent 2.3% of the Fund's net assets.
- (b) Non-income producing security.
- (c) Non-income producing security; issuer filed for bankruptcy or is in default of interest payments.
- (d) Floating rate note.
- (e) The security may be offered and sold to "qualified institutional buyers" under Rule 144A of the Securities Act of 1933.
- (f) Other interests represent beneficial interest in liquidation trusts and other reorganization entities.
- (g) Represents a pay-in-kind security which may pay interest/dividends in

Edgar Filing: CORPORATE HIGH YIELD FUND III INC - Form N-CSRS

additional face/shares.

- (h) Warrants entitle the Fund to purchase a predetermined number of shares of common stock and are non-income producing. The purchase price and number of shares are subject to adjustment under certain conditions until the expiration date.

Investments in companies considered to be an affiliate of the Fund (such companies are defined as "Affiliated Companies" in Section 2 (a) (3) of the Investment Company Act of 1940) were as follows:

Affiliate	Net Activity	Interest Income
Merrill Lynch Liquidity Series, LLC Cash Sweep Series I	\$ (82,499)	\$1,918

Swaps outstanding as of November 30, 2004 were as follows:

	Notional Amount	Unrealized Appreciation
Receive a variable rate return based on 1-month USD LIBOR and pay a fixed rate equal to 1.56% interest		
Broker, UBS Warburg Expires June 2005	\$30,000,000	\$241,700

Notes to Financial Statements

1. Significant Accounting Policies:

Corporate High Yield Fund III, Inc. (the "Fund") is registered under the

Edgar Filing: CORPORATE HIGH YIELD FUND III INC - Form N-CSRS

Investment Company Act of 1940, as amended, as a diversified, closed-end management investment company. The Fund's financial statements are prepared in conformity with U.S. generally accepted accounting principles, which may require the use of management accruals and estimates. Actual results may differ from these estimates. These unaudited financial statements reflect all adjustments, which are, in the opinion of management, necessary to present a fair statement of the results for the interim period. The Fund determines and makes available for publication the net asset value of its Common Stock on a daily basis. The Fund's Common Stock is listed on the New York Stock Exchange ("NYSE") under the symbol CYE. The following is a summary of significant accounting policies followed by the Fund.

(a) Valuation of investments -- Debt securities are traded primarily in the over-the-counter markets and are valued at the last available bid price in the over-the-counter market or on the basis of values obtained by a pricing service. Pricing services use valuation matrixes that incorporate both dealer-supplied valuations and valuation models. The procedures of the pricing service and its valuations are reviewed by the officers of the Fund under the general direction of the Board of Directors. Such valuations and procedures will be reviewed periodically by the Board of Directors of the Fund. Financial futures contracts and options thereon, which are traded on exchanges, are valued at their closing prices as of the close of such exchanges. Options written or purchased are valued at the last sales price in the case of exchange-traded options. In the case of options traded in the over-the-counter ("OTC") market, valuation is the last asked price (options written) or the last bid price (options purchased). Swap agreements are valued by quoted fair valuations received daily by the Fund from the counterparty. Short-term investments with a remaining maturity of 60 days or less are valued at amortized cost which approximates market value, under which method the investment is valued at cost and any premium or discount is amortized on a straight line basis to maturity. Repurchase agreements are valued at cost plus accrued interest. Investments in open-end investment companies are valued at their net asset value each business day. Securities and other assets for which market quotations are not readily available are valued at fair value as determined in good faith by or under the direction of the Board of Directors of the Fund.

Equity securities that are held by the Fund, which are traded on stock exchanges or the Nasdaq National Market, are valued at the last sale price or official close price on the exchange, as of the close of business on the day the securities are being valued or, lacking any sales, at the last available bid price for long positions, and at the last available ask price for short positions. In cases where equity securities are traded on more than one exchange, the securities are valued on the exchange designated as the primary market by or under the authority of the Board of Directors of the Fund. Long positions traded in the OTC market, Nasdaq Small Cap or Bulletin Board are valued at the last available bid price obtained from one or more dealers or pricing services approved by the Board of Directors of the Fund. Short positions traded in the OTC market are valued at the last available asked price. Portfolio securities that are traded both in the OTC market and on a stock exchange are valued according to the broadest and most representative market.

Generally, trading in foreign securities is substantially completed each day at various times prior to the close of business on the NYSE. The values of such securities used in computing the net asset value of the Fund's shares are determined as of such times. Foreign currency exchange rates also are generally determined prior to the close of business on the NYSE. Occasionally, events affecting the values of such securities and such exchange rates may occur between the times at which they are determined and the close of business on the NYSE that may not be reflected in the computation of the Fund's net asset value. If events (for example, a company announcement, market volatility or a natural disaster) occur during such periods that are expected to materially affect the value of such securities, those securities may be valued at their fair value as

Edgar Filing: CORPORATE HIGH YIELD FUND III INC - Form N-CSRS

determined in good faith by the Fund's Board of Directors or by the Investment Adviser using a pricing service and/or procedures approved by the Fund's Board of Directors.

(b) Derivative financial instruments -- The Fund may engage in various portfolio investment strategies both to increase the return of the Fund and to hedge, or protect, its exposure to interest rate movements and movements in the securities markets. Losses may arise due to changes in the value of the contract or if the counterparty does not perform under the contract.

18 CORPORATE HIGH YIELD FUND III, INC. NOVEMBER 30, 2004

Notes to Financial Statements (continued)

- o Options -- The Fund may write and purchase call and put options. When the Fund writes an option, an amount equal to the premium received by the Fund is reflected as an asset and an equivalent liability. The amount of the liability is subsequently marked-to-market to reflect the current market value of the option written. When a security is purchased or sold through an exercise of an option, the related premium paid (or received) is added to (or deducted from) the basis of the security acquired or deducted from (or added to) the proceeds of the security sold. When an option expires (or the Fund enters into a closing transaction), the Fund realizes a gain or loss on the option to the extent of the premiums received or paid (or gain or loss to the extent the cost of the closing transaction exceeds the premium paid or received).

Written and purchased options are non-income producing investments.

- o Financial futures contracts -- The Fund may purchase or sell financial futures contracts and options on such futures contracts. Futures contracts are contracts for delayed delivery of securities at a specific future date and at a specific price or yield. Upon entering into a contract, the Fund deposits and maintains as collateral such initial margin as required by the exchange on which the transaction is effected. Pursuant to the contract, the Fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in value of the contract. Such receipts or payments are known as variation margin and are recorded by the Fund as unrealized gains or losses. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.
- o Swaps -- The Fund may enter into swap agreements, which are over-the-counter contracts in which the Fund and a counterparty agree to make periodic net payments on a specified notional amount. The net payments can be made for a set period of time or may be triggered by a predetermined credit event. The net periodic payments may be based on a fixed or variable interest rate; the change in market value of a specified security, basket of securities, or index; or the return generated by a security.

(c) Foreign currency transactions -- Transactions denominated in foreign currencies are recorded at the exchange rate prevailing when recognized. Assets and liabilities denominated in foreign currencies are valued at the exchange rate at the end of the period. Foreign currency transactions are the result of settling (realized) or valuing (unrealized) assets or liabilities expressed in foreign currencies into U.S. dollars. Realized and unrealized gains or losses from investments include the effects of foreign exchange rates on investments.

Edgar Filing: CORPORATE HIGH YIELD FUND III INC - Form N-CSRS

(d) Income taxes -- It is the Fund's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.

(e) Security transactions and investment income -- Security transactions are recorded on the dates the transactions are entered into (the trade dates). Realized gains and losses on security transactions are determined on the identified cost basis. Dividend income is recorded on the ex-dividend dates. Interest income is recognized on the accrual basis. The Fund amortizes all premiums and discounts on debt securities.

(f) Dividends and distributions -- Dividends from net investment income are declared and paid monthly. Distributions of capital gains are recorded on the ex-dividend dates.

(g) Securities lending -- The Fund may lend securities to financial institutions that provide cash or securities issued or guaranteed by the U.S. government as collateral, which will be maintained at all times in an amount equal to at least 100% of the current market value of the loaned securities. The market value of the loaned securities is determined at the close of business of the Fund and any additional required collateral is delivered to the Fund on the next business day. Where the Fund receives securities as collateral for the loaned securities, it collects a fee from the borrower. The Fund typically receives the income on the loaned securities but does not receive the income on the collateral. Where the Fund receives cash collateral, it may invest such collateral and retain the amount earned on such investment, net of any amount rebated to the borrower. Loans of securities are terminable at any time and the borrower, after notice, is required to return borrowed securities within five business days. The Fund may pay reasonable finder's, lending agent, administrative and custodial fees in connection with its loans. In the event that the borrower defaults on its obligation to return borrowed securities because of insolvency or for any

CORPORATE HIGH YIELD FUND III, INC.

19

[LOGO] Merrill Lynch Investment Managers

Notes to Financial Statements (continued)

other reason, the Fund could experience delays and costs in gaining access to the collateral. The Fund also could suffer a loss where the value of the collateral falls below the market value of the borrowed securities, in the event of borrower default or in the event of losses on investments made with cash collateral.

(h) Custodian bank -- The Fund recorded an amount payable to the custodian bank reflecting an overnight overdraft, which resulted from an unprojected payment of net investment income dividends.

2. Investment Advisory Agreement and Transactions with Affiliates:

The Fund has entered into an Investment Advisory Agreement with Fund Asset Management, L.P. ("FAM"). The general partner of FAM is Princeton Services, Inc. ("PSI"), an indirect, wholly-owned subsidiary of Merrill Lynch & Co., Inc. ("ML & Co."), which is the limited partner.

FAM is responsible for the management of the Fund's portfolio and provides the necessary personnel, facilities, equipment and certain other services necessary to the operation of the Fund. For such services, the Fund pays a monthly fee at an annual rate of .60% of the Fund's average weekly net assets plus the proceeds

Edgar Filing: CORPORATE HIGH YIELD FUND III INC - Form N-CSRS

of any outstanding principal borrowed. FAM has entered into a Sub-Advisory Agreement with Merrill Lynch Asset Management U.K. Limited ("MLAM U.K."), an affiliate of FAM, pursuant to which MLAM U.K. provides investment advisory services to FAM with respect to the Fund. There is no increase in the aggregate fees paid by the Fund for these services.

The Fund has received an exemptive order from the Securities and Exchange Commission permitting it to lend portfolio securities to Merrill Lynch, Pierce, Fenner & Smith Incorporated ("MLPF&S"), a subsidiary of ML & Co., or its affiliates. Pursuant to that order, the Fund also has retained Merrill Lynch Investment Managers, LLC ("MLIM, LLC"), an affiliate of FAM, as the securities lending agent for a fee based on a share of the returns on investment of cash collateral. MLIM, LLC may, on behalf of the Fund, invest cash collateral received by the Fund for such loans, among other things, in a private investment company managed by MLIM, LLC or in registered money market funds advised by FAM or its affiliates.

In addition, MLPF&S received \$1,641 in commissions on the execution of portfolio security transactions for the Fund for the six months ended November 30, 2004.

For the six months ended November 30, 2004, the Fund reimbursed FAM \$3,606 for certain accounting services.

Certain officers and/or directors of the Fund are officers and/or directors of FAM, PSI, MLAM U.K., and/or ML & Co.

3. Investments:

Purchases and sales of investments, excluding short-term securities, for the six months ended November 30, 2004 were \$150,337,509 and \$133,379,427, respectively.

4. Capital Share Transactions:

The Fund is authorized to issue 200,000,000 shares of capital stock, par value \$.10, all of which were initially classified as Common Stock. The Board of Directors is authorized, however, to classify and reclassify any unissued shares of capital stock without approval of the holders of Common Stock.

Shares issued and outstanding during the six months ended November 30, 2004 and for the year ended May 31, 2004 increased by 60,292 and 325,778, respectively, as a result of dividend reinvestment.

5. Short-Term Borrowings:

On May 26, 2004, the Fund entered into a \$160,000,000 revolving credit and security agreement with Citibank, N.A. and other lenders (the "Lenders"). Under the revolving credit and security agreement, the Fund may borrow money through (i) a line of credit from certain Lenders at the Eurodollar rate plus .75% or the highest of the federal funds rate plus .50%, a base rate as determined by Citibank, N.A. and/or the latest three-week moving average of secondary market morning offering rates in the United States for three-month certificates of deposit of major U.S. money market banks plus .50%, or (ii) the issuance of commercial paper notes by certain Lenders at rates of interest based upon the weighted average of the per annum rates paid or payable by such Lenders in respect of those commercial paper notes. As security for its obligations to the Lenders under the revolving credit and security agreement, the Fund has granted a security interest in substantially all of its assets to and in favor of the Lenders. The Fund also pays additional borrowing costs which include a commitment fee for this facility at the annual rate of .10% and a program fee of .24% on the borrowings outstanding.

For the six months ended November 30, 2004, the average amount borrowed was

Edgar Filing: CORPORATE HIGH YIELD FUND III INC - Form N-CSRS

approximately \$109,688,000 and the daily weighted average interest rate was 1.86%.

20 CORPORATE HIGH YIELD FUND III, INC. NOVEMBER 30, 2004

Notes to Financial Statements (concluded)

6. Capital Loss Carryforward:

On May 31, 2004, the Fund had a net capital loss carryforward of \$236,944,109, of which \$6,419,421 expires in 2007, \$21,954,305 expires in 2008, \$34,200,029 expires in 2009, \$52,918,036 expires in 2010, \$119,513,437 expires in 2011 and \$1,938,881 expires in 2012. These amounts will be available to offset like amounts of any future taxable gains.

7. Subsequent Event:

The Fund paid an ordinary income dividend in the amount of \$.074000 per share on December 21, 2004 to shareholders of record on December 10, 2004.

order to receive this service, you must register your account and provide us with e-mail information. To sign up for this service, simply access this Web site at <http://www.icsdelivery.com/live> and follow the instructions. When you visit this site, you will obtain a personal identification number (PIN). You will need this PIN should you wish to update your e-mail address, choose to discontinue this service and/or make any other changes to the service. This service is not available for certain retirement accounts at this time.

CORPORATE HIGH YIELD FUND III, INC.

NOVEMBER 30, 2004

23

[LOGO] Merrill Lynch Investment Managers

www.mlim.ml.com

Corporate High Yield Fund III, Inc. seeks to provide shareholders with current income by investing primarily in a diversified portfolio of fixed income securities that are rated in the lower rating categories of the established rating services (Ba or lower by Moody's Investors Service, Inc. or BB or lower by Standard & Poor's Corporation) or are unrated securities of comparable quality.

This report, including the financial information herein, is transmitted to shareholders of Corporate High Yield Fund III, Inc. for their information. It is not a prospectus. The Fund has leveraged its Common Stock to provide Common Stock shareholders with a potentially higher rate of return. Leverage creates risk for Common Stock shareholders, including the likelihood of greater volatility of net asset value and market price of Common Stock shares, and the risk that fluctuations in short-term interest rates may reduce the Common Stock's yield. Past performance results shown in this report should not be considered a representation of future performance. Statements and other information herein are as dated and are subject to change.

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities is available (1) without charge, upon request, by calling toll-free 1-800-MER-FUND (1-800-637-3863); (2) at www.mutualfunds.ml.com; and (3) on the Securities and Exchange Commission's Web site at <http://www.sec.gov>. Information about how the Fund voted proxies relating to securities held in the Fund's portfolio during the most recent 12-month period ended June 30 is available (1) at www.mutualfunds.ml.com and (2) on the Securities and Exchange Commission's Web site at <http://www.sec.gov>.
