## COMMENT

Terry Burman, Group Chief Executive, commented In the US like for like sales increased by 4.9% in the third quarter although like for like sales growth for the month of October was below that of the quarter as a whole. The business again outperformed its main competition and gained market share.

In the UK while moderation in the pace of growth seen in June and July continued, the 4.8% increase in like for like sales was a solid performance.

Our businesses have performed well in the first nine months of the year and supported by an increase in marketing activity and a number of new product initiatives are well positioned to compete during the important fourth quarter.
