Dividend Reinvestment Plans

Each Fund offers an automatic dividend reinvestment program. If Fund shares are registered in your name and you are not already reinvesting dividends but would like to do so, contact the dividend plan agent, Mellon Investor Services LLC, at 800 851-9677. You will be asked to put your request in writing. If you have shares registered in a "street" name, contact your financial advisor or the broker/dealer holding the shares.

Under the current policies of Arizona Municipal Income Fund, Florida Insured Municipal Income Fund, and Minnesota Municipal Income Fund II, all distributions of net investment income and capital gains to common stock shareholders are automatically reinvested in additional shares unless shareholders elect to receive all dividends and other distributions in cash paid by check mailed directly to shareholders by the dividend plan agent. Under the current policies of Colorado Insured Municipal Income Fund, distributions of net investment income and capital gains to common shareholders will be paid in cash unless shareholders notify Mellon Investor Services LLC of their desire to participate in the dividend reinvestment program.

After each Fund declares a dividend or determines to make a capital gains distribution, the plan agent will, as agent for the participants, receive the cash payment and use it to buy shares in the open market on the American Stock Exchange. The Funds will not issue any new shares in connection with the plan. You can contact Mellon at:

Mellon Investor Services LLC
Dividend Reinvestment Department

Financial highlights

Delaware Investments Arizona Municipal Income Fund, Inc.

Selected data for each share of the Fund outstanding throughout each period were as follows:

	Six Months Ended 9/30/06 (1) (Unaudited)	3/31/06	3/31/05
Net asset value, beginning of period	\$14.730	\$15.070	\$15.570
Income (loss) from investment operations:			
Net investment income	0.471	0.951	0.956
Net realized and unrealized gain (loss) on investments	0.201	(0.177)	(0.332)
Dividends on preferred stock from:			
Net investment income	0.162)	(0.232)	(0.118)
Net realized gain on investments	-	(0.002)	(0.003)
	<u> </u>	<u> </u>	<u> </u>
Total dividends on preferred stock	(0.162)	(0.234)	(0.121)
	<u> </u>	<u> </u>	<u> </u>
Total from investment operations	0.510	0.540	0.503
	<u> </u>	<u> </u>	<u> </u>
Less dividends and distributions to common shareholders from:			
Net investment income	(0.400)	(0.860)	(0.960)
Net realized gain on investments	-	(0.020)	(0.043)
	<u> </u>	<u> </u>	<u> </u>
Total dividends and distributions	(0.400)	(0.880)	(1.003)
	<u> </u>	<u> </u>	<u> </u>
Net asset value, end of period	\$14.840	\$14.730	\$15.070
	<u> </u>	<u> </u>	<u> </u>
Market value, end of period	\$15.800	\$15.980	\$15.390
	<u> </u>	<u> </u>	<u> </u>
Total investment return based on: (2)			
Market value	1.47%	9.74%	(0.78%)
Net asset value	3.39%	3.31%	3.34%
Ratios and supplemental data:			
Net assets applicable to common shares, end of period (000 omitted)	\$44,262	\$43,923	\$44,936
Ratio of expenses to average net assets			

Edgar Filing: DELAWARE INV COLORADO INSURED MUNICIPAL INCOME FUND INC - Form N-CSR

applicable to common shares (3)	1.03%	1.03%	1.18%
Ratio of net investment income to average net assets			
applicable to common shares (3)	6.42%	6.28%	6.34%
Ratio of net investment income to average net assets			
applicable to common shares net of dividends			
to preferred shares (4)	4.21%	4.72%	5.54%
Portfolio turnover	11%	2%	8%

Leverage analysis:

Value of preferred shares outstanding (000 omitted)	\$25,000	\$25,000	\$25,000
Net asset coverage per share of preferred shares,			
end of period	\$138,524	\$137,847	\$139,872
Liquidation value per share of preferred shares (5)	\$50,000	\$50,000	\$50,000

(1) Ratios and portfolio turnover have been annualized and total return has not been annualized.

(2) Total investment return is calculated assuming a purchase of common stock on the opening of the first day and a sale on the closing of the last day of each period reported. Dividends and distributions, if any, are assumed for the purposes of this calculation to be reinvested at prices obtained under the Fund's dividend reinvestment plan.

Generally, total investment return based on net asset value will be higher than total investment return based on market value in periods where there is an increase in the discount or a decrease in the premium of the market value to the net asset value from the beginning to the end of such periods.

Conversely, total investment return based on net asset value will be lower than total investment return based on market value in periods where there is a decrease in the discount or an increase in the premium of the market value to the net asset value from the beginning to the end of such periods.

(3) Ratios do not reflect the effect of dividend payments to preferred shareholders.

(4) Ratio reflects total net investment income less dividends paid to preferred shareholders divided by average net assets applicable to common shareholders.

(5) Excluding any accumulated but unpaid dividends.

See accompanying notes

Leverage analysis:

Value of preferred shares outstanding (000 omitted)	\$40,000	\$40,000	\$40,000
Net asset coverage per share of preferred shares, end of period	\$142,537	\$142,291	\$144,205
Liquidation value per share of preferred shares (5)	\$50,000	\$50,000	\$50,000

- (1) Ratios and portfolio turnover have been annualized and total return has not been annualized.
- (2) Total investment return is calculated assuming a purchase of common stock on the opening of the first day and a sale on the closing of the last day of each period reported. Dividends and distributions, if any, are assumed for the purposes of this calculation to be reinvested at prices obtained under the Fund's dividend reinvestment plan.

Generally, total investment return based on net asset value will be higher than total investment return based on market value in periods where there is an increase in the discount or a decrease in the premium of the market value to the net asset value from the beginning to the end of such periods. Conversely, total investment return based on net asset value will be lower than total investment return based on market value in periods where there is a decrease in the discount or an increase in the premium of the market value to the net asset value from the beginning to the end of such periods.

- (3) Ratios do not reflect the effect of dividend payments to preferred shareholders.
- (4) Ratio reflects total net investment income less dividends paid to preferred shareholders divided by average net assets applicable to common shareholders.
- (5) Excluding any accumulated but unpaid dividends.

Notes to financial statements

Delaware Investments Closed-End Municipal Bond Funds

September 30, 2006 (Unaudited)

Delaware Investments Arizona Municipal Income Fund, Inc. ("Arizona Municipal Fund"); Delaware Investments Colorado Insured Municipal Income Fund, Inc. ("Colorado Insured Municipal Fund") and Delaware Investments Minnesota Municipal Income Fund II, Inc. ("Minnesota Municipal Fund II") are organized as Minnesota corporations and Delaware Investments Florida Insured Municipal Income Fund ("Florida Insured Municipal Fund") is organized as a Massachusetts Business Trust (each referred to as a "Fund" and collectively as the "Funds"). Arizona Municipal Fund, Florida Insured Municipal Fund and Minnesota Municipal Fund II are considered diversified closed-end management investment companies and Colorado Insured Municipal Fund is considered a non-diversified closed-end management investment company under the Investment Company Act of 1940, as amended. The Funds' common shares trade on the American Stock Exchange. The Funds' preferred shares are traded privately through a remarketing agent.

The investment objective of each Fund is to provide high current income exempt from federal income tax and from the personal income tax of its state, if any, consistent with the preservation of capital. Florida Insured Municipal Fund will generally seek investments that will enable its shares to be exempt from Florida's intangible personal property tax. Each Fund will seek to achieve its investment objective by investing substantially all of its net assets in investment grade, tax-exempt municipal obligations of its respective state.

1. Significant Accounting Policies

The following accounting policies are in accordance with U.S. generally accepted accounting principles and are consistently followed by the Funds.

Security Valuation - Long-term debt securities are valued by an independent pricing service and such prices are believed to reflect the fair value of such securities. Short-term debt securities having less than 60 days to maturity are valued at amortized cost, which approximates market value. Other securities and assets for which market quotations are not readily available are valued at fair value as determined in good faith under the direction of each Fund's Board of Directors/Trustees. In determining whether market quotations are readily available or fair valuation will be used, various factors will be taken into consideration, such as market closures, aftermarket trading or significant events after local market trading (e.g., government actions or pronouncements, trading volume or volatility on markets, exchanges among dealers, or news events).

In September 2006, the Financial Accounting Standards Board (FASB) issued FASB Statement No. 157, Fair Value Measurements, (Statement 157). Statement 157 establishes a framework for measuring fair value in generally accepted accounting principles, clarifies the definition of fair value within that framework, and expands disclosures about the use of fair value measurements. Statement 157 is intended to increase consistency and comparability among fair value estimates used in financial reporting. Statement 157 is effective for fiscal years beginning after November 15, 2007. Management does not expect the adoption of Statement 157 to have an impact on the amounts reported in the financial statements.

Federal Income Taxes - Each Fund intends to continue to qualify for federal income tax purposes as a regulated investment company and make the requisite distributions to shareholders. Accordingly, no provision for federal income taxes has been made in the financial statements.

On July 13, 2006, the Financial Accounting Standards Board (FASB) released FASB Interpretation No. 48 "Accounting for Uncertainty in Income Taxes" (FIN 48). FIN 48 provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements. FIN 48 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Funds' tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense in the current year. Adoption of FIN 48 is required for fiscal years beginning after December 15, 2006 and is to be applied to all open tax years as of the effective date. Although the Funds' tax positions are currently being evaluated, management does not expect the adoption of FIN 48 to have a material impact on the Funds' financial statements.

Use of Estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Other - Expenses directly attributable to a Fund are charged directly to that Fund. Other expenses common to various funds within the Delaware Investments(R) Family of Funds are generally allocated amongst such funds on the basis of average net assets. Management fees and some other expenses are paid monthly. Security transactions are recorded on the date the securities are purchased or sold (trade date) for financial reporting purposes. Costs used in calculating realized gains and losses on the sale of investment securities are those of the specific securities sold. Interest income is recorded on the accrual basis.

Discounts and premiums are amortized to interest income over the lives of the respective securities. Each Fund declares and pays dividends from net investment income monthly and distributions from net realized gain on investments, if any, at least annually. In addition, in order to satisfy certain distribution requirements of the Tax Reform Act of 1986, the Funds may declare special year-end dividend and capital gains distributions during November or December to shareholders of record on a date in such month. Such distributions, if received by shareholders by January 31, are deemed to have been paid by the Funds and received by shareholders on the earlier of the date paid or December 31 of the prior year.

The Funds receive earnings credits from their custodian when positive cash balances are maintained, which are used to offset custody fees. The expense paid under the above arrangement is included in custodian fees on the Statements of Operations with the corresponding expense offset shown as "expense paid indirectly."

20

2. Investment Management, Administration Agreements and Other Transactions with Affiliates

In accordance with the terms of its respective investment management agreement, each Fund pays Delaware Management Company (DMC), a series of Delaware Management Business Trust and the investment manager, an annual fee of 0.40%, which is calculated daily based on the average weekly net assets of each Fund, including assets attributable to any preferred stock that may be outstanding.

Delaware Service Company, Inc. (DSC), an affiliate of DMC, provides accounting and administration services. Each Fund pays DSC a monthly fee computed at the annual rate of 0.04% of the Fund's average daily net assets for accounting and administration services.

At September 30, 2006, each Fund had liabilities payable to affiliates as follows:

	Arizona Municipal Fund	Colorado Insured Municipal Fund
Investment management fee payable to DMC	\$23,054	\$37,980
Accounting administration and other expenses payable to DSC	3,915	19,076
Other expenses payable to DMC and affiliates*	1,824	2,750

*DMC, as part of its administrative services, pays operating expenses on behalf of each Fund and Such expenses include items such as printing of shareholder reports, fees for audit, legal and custodian fees and directors/trustees' fees.

As provided in the investment management agreement, each Fund bears the cost of certain legal and tax services, including internal legal and tax services provided to each Fund by DMC and/or its' affiliates employees. For the six months ended September 30, 2006, each Fund was charged for internal legal and

Edgar Filing: DELAWARE INV COLORADO INSURED MUNICIPAL INCOME FUND INC - Form N-CSR

tax services by DMC as follows:

Arizona Municipal Fund	Colorado Insured Municipal Fund
\$927	\$1,555

Directors/Trustees' Fees and Benefits include expenses accrued by the Funds for each Directors/Trustee's retainer, per meeting fees and retirement benefits. Independent Directors/Trustees with over five years of uninterrupted service are eligible to participate in a retirement plan that provides for the payment of benefits upon retirement. The amount of the retirement benefit is based on factors set forth in the plan including the number of years of service. On November 16, 2006, the Board of Directors/Trustees of the Fund unanimously voted to terminate the retirement plan. Payments equal to the net present value of the earned benefits will be made in 2007 to those independent directors/trustees and retired independent directors/trustees so entitled. The retirement benefit payout for the Arizona Municipal Fund, Colorado Insured Municipal Fund, Florida Insured Municipal Fund and Minnesota Municipal Fund II are \$5,506, \$9,218, \$4,431 and \$21,329, respectively. Certain officers of DMC and DSC are officers and/or directors/trustees of the Funds. These officers and directors/trustees are paid no compensation by the Funds.

3. Investments

For the six months ended September 30, 2006, the Funds made purchases and sales of investment securities other than short-term investments as follows:

	Arizona Municipal Fund	Colorado Insured Municipal Fund
Purchases	\$3,567,938	\$3,095,720
Sales	5,869,390	6,545,283

At September 30, 2006, the cost of investments for federal income tax purposes has been estimated since the final tax characteristics cannot be determined until fiscal year end. At September 30, 2006, the cost of investments and unrealized appreciation (depreciation) for each Fund were as follows:

	Arizona Municipal Fund	Colorado Insured Municipal Fund
Cost of investments	\$66,014,565	\$107,088,420
Aggregate unrealized appreciation	\$ 3,261,863	\$ 6,054,728
Aggregate unrealized depreciation	(28,010)	-

Net unrealized appreciation	\$ 3,233,853	\$ 6,054,728
-----------------------------	--------------	--------------

(continues) 21

Notes to financial statements

Delaware Investments Closed-End Municipal Bond Funds

4. Dividend and Distribution Information

Income and long-term capital gain distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles. Additionally, net short-term gains on sales of investment securities are treated as ordinary income for federal income tax purposes. The tax character of dividends and distributions paid during the six months ended September 30, 2006 and the year ended March 31, 2006 was as follows:

	Arizona Municipal Fund	Colorado Insured Municipal Fund	F
Six Months Ended 9/30/06*			
Tax-exempt income	\$1,675,008	\$2,788,545	
Long-term capital gain	-	237,031	
Total	<u>\$1,675,008</u>	<u>\$3,025,576</u>	
Year Ended 3/31/06			
Tax-exempt income	\$3,261,410	\$5,673,140	
Long-term capital gain	64,461	174,385	
Total	<u>\$3,325,871</u>	<u>\$5,847,525</u>	

*Tax information for the six months ended September 30, 2006 is an estimate and the tax character may be redesignated at fiscal year end.

The components of net assets are estimated since final tax characteristics cannot be determined until fiscal year end. As of September 30, 2006, the estimated components of net assets on a tax basis were as follows:

	Arizona Municipal Fund	Colorado Insured Municipal Fund
Shares of beneficial interest	\$40,838,893	\$67,238,110
Undistributed tax-exempt income	56,064	566,699
Undistributed long-term capital gains	-	169,941
Realized gains 4/1/06 - 9/30/06	164,120	-
Capital loss carryforwards as of 3/31/06	(30,981)	-
Unrealized appreciation of investments	3,233,853	6,054,728
Net assets	\$44,261,949	\$74,029,478

The differences between book basis and tax basis components of net assets are primarily attributable to tax deferral of losses on wash sales and tax treatment of market discount on debt instruments.

For financial reporting purposes, capital accounts are adjusted to reflect the tax character of permanent book/tax differences. Reclassifications are primarily due to tax treatment of dividends and distributions and market discount on certain debt instruments. Results of operations and net assets were not affected by these reclassifications. For the six months ended September 30, 2006, the Funds recorded an estimate of these differences since the final tax characteristics cannot be determined until fiscal year end.

	Arizona Municipal Fund	Colorado Insured Municipal Fund
Undistributed (Accumulated) net investment income (loss)	\$(3,138)	627
Accumulated net realized gains (losses)	3,138	(627)

22

4. Dividend and Distribution Information (continued)

For federal income tax purposes, capital loss carryforwards may be carried forward and applied against future capital gains. Capital loss carryforwards remaining at March 31, 2006 will expire as follows:

	Arizona Municipal Fund	Minnesota Municipal Fund II
2008	\$ -	\$339,543
2009	-	175,804
2010	-	8,416

Edgar Filing: DELAWARE INV COLORADO INSURED MUNICIPAL INCOME FUND INC - Form N-CSR

2013	-	9,826
2014	30,981	-
	<hr/>	<hr/>
Total	\$ 30,981	\$533,589
	<hr/>	<hr/>

For the six months ended September 30, 2006, each Fund had capital gains, which may reduce the capital losses carryforwards as follows:

Arizona Municipal Fund	Minnesota Municipal Fund II
<hr/>	<hr/>
\$164,120	\$138,091

5. Capital Stock

Pursuant to their articles of incorporation, Arizona Municipal Fund, Colorado Insured Municipal Fund and Minnesota Municipal Fund II each have 200 million shares of \$0.01 par value common shares authorized. Florida Insured Municipal Fund has been authorized to issue an unlimited amount of \$0.01 par value common shares. The Funds did not repurchase any shares under the Share Repurchase Program during the six months ended September 30, 2006. Shares issuable under the Funds' dividend reinvestment plan are purchased by the Funds' transfer agent, Mellon Investor Services, LLC, in the open market.

For the six months ended September 30, 2006, the Funds did not have any transactions in common shares.

The Funds each have one million shares of \$0.01 par value preferred shares authorized, except for Florida Insured Municipal Fund, which has an unlimited amount of \$0.01 par value preferred shares authorized. On May 14, 1993, Arizona Municipal Fund and Florida Insured Municipal Fund issued 500 and 400 preferred shares, respectively. Also on that date, Minnesota Municipal Fund II issued 600 Series A and 600 Series B preferred shares. On September 23, 1993, Colorado Insured Municipal Fund issued 800 preferred shares. The preferred shares of each Fund have a liquidation preference of \$50,000 per share plus an amount equal to accumulated but unpaid dividends.

In connection with the reorganizations described in Note 6 on the next page, shareholders of Minnesota Municipal Fund II approved amendments to its charter to create two new series to absorb the preferred stock of Delaware Investments Minnesota Municipal Income Fund, Inc. ("Minnesota Municipal Fund") and Delaware Investments Minnesota Municipal Income Fund III, Inc. ("Minnesota Municipal Fund III"). These new series have identical rights and preferences (including liquidation rights) in all material respects to the preferred shares of Minnesota Municipal Fund and Minnesota Municipal Fund III, and are substantially similar to the Series A and B preferred shares of Minnesota Municipal Fund II with respect to their preferences, voting powers, restrictions, limitation as to dividends, qualifications, liquidation rights, and term and conditions of redemption.

Minnesota Municipal Fund II issued 400 Series C Preferred Shares to preferred shareholders of Minnesota Municipal Fund in exchange for that Fund's preferred shares and 300 Series D Preferred Shares to preferred shareholders of Minnesota Municipal Fund III in exchange for that Fund's preferred shares at the close of the reorganization on February 24, 2006.

Dividends for the outstanding preferred shares of each Fund are cumulative at a rate established at the initial public offering and are typically reset every 28

days based on the results of an auction. Dividend rates (adjusted for any capital gain distributions) ranged during the six months ended September 30, 2006 as follows:

Fund	Low		High
Arizona Municipal Fund	3.00%	to	3.97%
Colorado Insured Municipal Fund	3.05%	to	4.00%
Florida Insured Municipal Fund	3.00%	to	4.20%
Minnesota Municipal Fund II	3.21%	to	3.95%

(continues) 23

Notes to financial statements

Delaware Investments Closed-End Municipal Bond Funds

5. Capital Stock (continued)

Citigroup Global Markets, Inc. (formerly Salomon Smith Barney, Inc.), and Merrill Lynch Pierce, Fenner & Smith Inc. (Colorado Insured Municipal Fund only), as the remarketing agents, receive an annual fee from each of the Funds of 0.25% of the average amount of preferred stock outstanding.

Under the 1940 Act, the Funds may not declare dividends or make other distributions on common shares or purchase any such shares if, at the time of the declaration, distribution or purchase, asset coverage with respect to the outstanding preferred stock is less than 200%. The preferred shares are redeemable at the option of the Funds, in whole or in part, on any dividend payment date at \$50,000 per share plus any accumulated but unpaid dividends whether or not declared. The preferred shares are also subject to mandatory redemption at \$50,000 per share plus any accumulated but unpaid dividends whether or not declared, if certain requirements relating to the composition of the assets and liabilities of each Fund are not satisfied. The holders of preferred shares have voting rights equal to the holders of common shares (one vote per share) and will vote together with holders of common shares as a single class. However, holders of preferred shares are also entitled to elect two of each Fund's Directors. In addition, the 1940 Act requires that along with approval by shareholders that might otherwise be required, the approval of the holders of a majority of any outstanding preferred shares, voting separately as a class would be required to (a) adopt any plan of reorganization that would adversely affect the preferred shares, and (b) take any action requiring a vote of security holders pursuant to Section 13(a) of the 1940 Act, including, among other things, changes in each of the Fund's subclassification as a closed-end investment company or (c) changes in their fundamental investment restrictions.

6. Fund Reorganization

At the close of business on February 24, 2006, Minnesota Municipal Fund II acquired substantially all of the assets of Minnesota Municipal Fund and Minnesota Municipal Fund III, each pursuant to an Agreement and Plan of Acquisition (the "Reorganization"). The common shareholders of Minnesota Municipal Fund and Minnesota Municipal Fund III each received common shares of Minnesota Municipal Fund II equal to the aggregate net asset value of their

respective shares prior to the Reorganization. The preferred shares of Minnesota Municipal Fund and Minnesota Municipal Fund III received the same number of Series C and Series D preferred shares, respectively, of Minnesota Municipal Fund II as they held in their respective Funds prior to the Reorganization (see Note 5). The Reorganizations were treated as non-taxable events and, accordingly, Minnesota Municipal Fund II's basis in the securities acquired reflected the historical cost basis as of the date of transfer. The net assets, net unrealized appreciation and accumulated net realized gain (loss) of Minnesota Municipal Fund and Minnesota Municipal Fund III as of the close of business on February 24, 2006, were as follows:

	Net Assets	Net Unrealized Appreciation	Accumulated Net Realized Gain/Loss
	<hr/>	<hr/>	<hr/>
Minnesota Municipal Fund	\$38,077,404	\$2,648,640	\$ 2,145
Minnesota Municipal Fund III	25,566,621	1,999,455	(81,744)

The net assets of Minnesota Municipal Fund II prior to the Reorganization were \$108,531,274. The combined net assets of Minnesota Municipal Fund II after the Reorganization were \$172,175,299.

Minnesota Municipal Fund II will continue to trade and to be listed on the American Stock Exchange. Beginning on February 27, 2006 and going forward, however, Minnesota Municipal Fund and Minnesota Municipal Fund III will no longer trade or be listed on the American Stock Exchange, and their corporate existence will be liquidated and dissolved. In January 2007, shareholders of Minnesota Municipal Fund and Minnesota Municipal Fund III will receive Form 1099-DIV that will report the amount and character of each Fund's distributions paid in calendar year 2006.

Common and preferred shares of Minnesota Municipal Fund II issued to shareholders of Minnesota Municipal Fund and Minnesota Municipal Fund III in connection with the Reorganization were as follows:

	Common Shares Issued	Exchange Ratio	Preferred Shares Issued	Exchange Ratio
	<hr/>	<hr/>	<hr/>	<hr/>
Minnesota Municipal Fund	2,543,581	1.02 to 1	400	1 to 1
Minnesota Municipal Fund III	1,709,194	1.08 to 1	300	1 to 1

7. Credit and Market Risk

The Funds use leverage in the form of preferred shares. Leveraging may result in a higher degree of volatility because each Fund's net asset value could be more sensitive to fluctuations in short-term interest rates and changes in market value of portfolio securities attributable to the leverage.

The Funds concentrate their investments in securities issued by municipalities. The value of these investments may be adversely affected by new legislation within the states, regional or local economic conditions, and differing levels of supply and demand for municipal bonds. Many municipalities insure repayment for their obligations. Although bond insurance reduces the risk of loss due to default by an issuer, such bonds remain subject to the risk that market value may fluctuate for other reasons and there is no assurance that the insurance company will meet its obligations. These securities have been identified in the Statements of Net Assets.

7. Credit and Market Risk (continued)

The Funds may invest in inverse floating rate securities ("inverse floaters"), a type of derivative tax-exempt obligation with floating or variable interest rates that move in the opposite direction of short-term interest rates, usually at an accelerated speed. Consequently, the market values of inverse floaters will generally be more volatile than other tax-exempt investments. Such securities are identified on the Statements of Net Assets.

The Funds may invest in advanced refunded bonds, escrow secured bonds or defeased bonds. Under current federal tax laws and regulations, state and local government borrowers are permitted to refinance outstanding bonds by issuing new bonds. The issuer refinances the outstanding debt to either reduce interest costs or to remove or alter restrictive covenants imposed by the bonds being refinanced. A refunding transaction where the municipal securities are being refunded within 90 days from the issuance of the refunding issue is known as a "current refunding". "Advance refunded bonds" are bonds in which the refunded bond issue remains outstanding for more than 90 days following the issuance of the refunding issue. In an advance refunding, the issuer will use the proceeds of a new bond issue to purchase high grade interest bearing debt securities which are then deposited in an irrevocable escrow account held by an escrow agent to secure all future payments of principal and interest and bond premium of the advance refunded bond. Bonds are "escrowed to maturity" when the proceeds of the refunding issue are deposited in an escrow account for investment sufficient to pay all of the principal and interest on the original interest payment and maturity dates.

Bonds are considered "pre-refunded" when the refunding issue's proceeds are escrowed only until a permitted call date or dates on the refunded issue with the refunded issue being redeemed at the time, including any required premium. Bonds become "defeased" when the rights and interests of the bondholders and of their lien on the pledged revenues or other security under the terms of the bond contract are substituted with an alternative source of revenues (the escrow securities) sufficient to meet payments of principal and interest to maturity or to the first call dates. Escrowed secured bonds will often receive a rating of AAA from Moody's Investor's Service, Inc., Standard & Poor's Ratings Group, and/or Fitch Ratings due to the strong credit quality of the escrow securities and the irrevocable nature of the escrow deposit agreement.

Each Fund may invest up to 15% of its total assets in illiquid securities, which may include securities with contractual restrictions on resale, securities exempt from registration under Rule 144A of the Securities Act of 1933, as amended, and other securities which may not be readily marketable. The relative illiquidity of these securities may impair each Fund from disposing of them in a timely manner and at a fair price when it is necessary or desirable to do so. While maintaining oversight, each Fund's Board of Trustees/Directors has delegated to DMC the day-to-day functions of determining whether individual securities are liquid for purposes of each Fund's limitation on investments in illiquid assets. At September 30, 2006, there were no Rule 144A securities and no securities have been determined to be illiquid under each Fund's Liquidity Procedures.

8. Contractual Obligations

The Funds enter into contracts in the normal course of business that contain a

variety of indemnifications. The Funds' maximum exposure under these arrangements is unknown. However, the Funds have not had prior claims or losses pursuant to these contracts. Management has reviewed the Funds' existing contracts and expects the risk of loss to be remote.

Changes to the Funds' Investment Policies

At a meeting on August 16-17, 2006, the Funds' Boards of Directors/Trustees approved the following changes and clarifications to the Funds' non-fundamental investment policies. The changes became effective on September 1, 2006.

Delaware Investments Arizona Municipal Income Fund, Inc. - The Fund may invest up to 20% of its net assets in municipal obligations issued by or on behalf of territories of the United States - such as Guam, the U.S. Virgin Islands or Puerto Rico - that are exempt from Arizona and federal income tax, subject to the Fund's fundamental investment policy to invest 80% of its net assets in Arizona municipal obligations.

The Fund may invest in the lowest tier of investment grade rated bonds (i.e., rated Baa by Moody's or BBB by S&P).

Delaware Investments Colorado Insured Municipal Income Fund, Inc. - The Fund may invest up to 20% of its net assets in municipal obligations issued by or on behalf of territories of the United States - such as Guam, the U.S. Virgin Islands or Puerto Rico - that are exempt from Colorado and federal income tax, subject to the Fund's fundamental investment policy to invest 80% of its net assets in Colorado municipal obligations.

Delaware Investments Florida Insured Municipal Income Fund - The Fund may invest up to 20% of its net assets in municipal obligations issued by or on behalf of territories of the United States - such as Guam, the U.S. Virgin Islands or Puerto Rico - that are exempt from federal income tax and Florida's intangible personal property tax, subject to the Fund's fundamental investment policy to invest 80% of its net assets in Florida municipal obligations.

Delaware Investments Minnesota Municipal Income Fund II, Inc. - The Fund may invest in municipal obligations issued by or on behalf of territories of the United States - such as Guam, the U.S. Virgin Islands or Puerto Rico - that are exempt from Minnesota and federal income tax to the extent that not more than 5% of the Fund's exempt interest dividends are derived from such obligations, subject to the Fund's fundamental investment policy to invest 80% of its net assets in Minnesota municipal obligations.

The Fund may invest in the lowest tier of investment grade rated bonds (i.e., rated Baa by Moody's or BBB by S&P).

*Subsequent to the mailing of the proxy materials for the Annual Meeting, Jude T. Driscoll, a Director/Trustee and one of the nominees for election to the Board of each Fund, resigned from the Board of each Fund, effective August 1, 2006. As a result, Mr. Driscoll withdrew from the election. At a regularly scheduled Board meeting on August 16, 2006, each Fund's Nominating Committee recommended that the applicable Fund's Board substitute Patrick P. Coyne for Mr. Driscoll as a nominee for election to the Board and each Board recommended naming Mr. Coyne as a substitute nominee for election to the Board.

As disclosed in the Proxy Statement, in the case of the withdrawal of a nominee for election, the power given by shareholders in the Proxy Card may be used by the persons named as proxies to vote for a substitute nominee or nominees as recommended by the existing Board. Accordingly, the proxies exercised their discretion to vote for the Mr. Coyne, the substitute nominee for election to each Board, at the Annual Meeting.

Delaware Investments Closed-End Municipal Bond Funds

Board Consideration of Delaware Investments Closed-End Municipal Bond Funds
Investment Advisory Agreement

At a meeting held on May 17-18, 2006 (the "Annual Meeting"), the Board of Trustees/Directors ("Trustees"), including a majority of disinterested or independent Trustees, approved the renewal of the Investment Advisory Agreements for the Delaware Investments Arizona Municipal Income Fund, Inc.; Delaware Investments Colorado Insured Municipal Income Fund, Inc.; Delaware Investments Florida Insured Municipal Income Fund; and Delaware Investments Minnesota Municipal Income Fund II, Inc. (each a "Fund" and collectively the "Funds"). In making its decision, the Board considered information furnished throughout the year at regular Board meetings, as well as information prepared specifically in connection with the Annual Meeting. Information furnished and discussed throughout the year included reports detailing Fund performance, investment strategies, expenses, compliance matters and other services provided by Delaware Management Company ("DMC"), the investment advisor. Information furnished specifically in connection with the Annual Meeting included materials provided by DMC and its affiliates ("Delaware Investments") concerning, among other things, the level of services provided to the Funds, the costs of such services to the Funds, economies of scale and the financial condition and profitability of Delaware Investments. In addition, in connection with the Annual Meeting, the Board considered independent historical and comparative reports prepared by Lipper Inc. ("Lipper"), an independent statistical compilation organization. The Board also considered industry comparative information presented by representatives from Lipper. The Lipper reports compared each Fund's investment performance and expenses with those of other comparable mutual funds. The Board also received certain supplemental information regarding management's policy with respect to advisory fee levels and its philosophy with respect to breakpoints; the structure of portfolio manager compensation; and any constraints or limitations on the availability of securities in certain investment styles which might inhibit DMC's ability to fully invest in accordance with Fund policies.

In considering such materials, the independent Trustees received assistance and advice from and met separately with independent counsel and representatives from Lipper. At the meeting with representatives from Lipper, Mr. Driscoll, then Chairman of the Delaware Investments Family of Funds, and Chairman and Chief Executive Officer of the investment advisor, was present to respond to questions by Lipper and the independent Trustees. While the Board considered the Investment Advisory Agreements for all of the funds in the Delaware Investments Family of Funds at the same Board meeting, information was provided and considered by the Board for each fund individually. In approving the continuance of the Investment Advisory Agreement for each Fund, the Board, including a majority of independent Trustees, determined that the existing advisory fee structure was fair and reasonable and that the continuance of the Investment Advisory Agreement was in the best interests of the Fund and its shareholders. While attention was given to all information furnished, the following discusses the primary factors relevant to the Board's deliberations and determination, including those relating to the selection of the investment advisor and the

approval of the advisory fee.

Nature, Extent and Quality Of Service. Consideration was given to the services provided by Delaware Investments to the Funds and their shareholders. In reviewing the nature, extent and quality of services, the Board emphasized reports furnished to it throughout the year at regular Board meetings covering matters such as the compliance of portfolio managers with the investment policies, strategies and restrictions for the Funds, the compliance of management personnel with the Code of Ethics adopted throughout the Delaware Investments Family of Funds complex, the adherence to fair value pricing procedures as established by the Board and the accuracy of net asset value calculations. The Board noted that it was pleased with the current staffing of the Funds' investment advisor during the past year, the emphasis on research and the compensation system for advisory personnel. Favorable consideration was given to DMC's efforts to maintain, and in some instances increase, financial and human resources committed to fund matters. Other factors taken into account by the Board were Delaware Investments' preparedness for, and response to, legal and regulatory matters. The Board was satisfied with the nature, extent and quality of the overall services provided by Delaware Investments.

Investment Performance. The Board considered the investment performance of DMC and the Funds. The Board was pleased by DMC's investment performance. The Board placed significant emphasis on the investment performance of the Funds in view of its importance to shareholders. While consideration was given to performance reports and discussions with portfolio managers at Board meetings throughout the year, particular weight was given to the Lipper reports furnished for the Annual Meeting. The Lipper reports prepared for each Fund showed the investment performance of its shares in comparison to a group of similar funds as selected by Lipper (the "Performance Universe"). A fund with the highest performance is ranked first, and a fund with the lowest is ranked last. The highest/best performing 25% of funds in the Performance Universe make up the first quartile; the next 25% - the second quartile; the next 25% - the third quartile; and the lowest/worst performing 25% of funds in the Performance Universe make up the fourth quartile. Comparative annualized performance for the Fund was shown for the past one, three, five and 10 year periods ended January 31, 2006. The Board noted its objective that each Fund's performance for the periods considered be at or above the median of its Performance Universe. The following paragraph summarizes the performance results for the Funds and the Board's view of such performance.

Delaware Investments Arizona Municipal Income Fund, Inc. - The Performance Universe for the Fund consisted of the Fund and all leveraged closed-end other states municipal debt funds as selected by Lipper. The Lipper report comparison showed that the Fund's total return for the one and three year periods was in the fourth quartile of such Performance Universe. The report further showed that the Fund's total return for the five and 10 year periods was in the second quartile. The Board noted that the Fund's performance results were mixed, but on an overall basis tended toward median, which was acceptable.

Delaware Investments Colorado Insured Municipal Income Fund, Inc. - The Performance Universe for the Fund consisted of the Fund and all leveraged closed-end other states municipal debt funds as selected by Lipper. The Lipper report comparison showed that the Fund's total return for the one and three year periods was in the fourth quartile of such Performance Universe. The report further showed that the Fund's total return for the five and 10 year periods was in the second and first quartiles, respectively. The Board noted that the Fund's performance results were mixed, but on an overall basis tended toward median, which was acceptable.

Other Fund information

Delaware Investments Closed-End Municipal Bond Funds

Board Consideration of Delaware Investments Closed-End Municipal Bond Funds
Investment Advisory Agreement (continued)

Delaware Investments Florida Insured Municipal Income Fund - The Performance Universe for the Fund consisted of the Fund and all leveraged closed-end Florida municipal debt funds as selected by Lipper. The Lipper report comparison showed that the Fund's total return for the one year period was in the third quartile of such Performance Universe. The report further showed that the Fund's total return for the three and five year periods was in the fourth quartile and the Fund's total return for the 10 year period was in the second quartile. The Board noted that the Fund's performance results were not in line with the Board's objective. The Board also noted that the Performance Universe is not comprised solely of insured funds. Many of the funds (even certain of the insured funds) in the Performance Universe can maintain exposure to BBB rated bonds, which have significantly outperformed the AAA rated bonds that the Fund invests in. Based upon the Fund's investment restrictions and the composition of the Performance Universes, the Board was satisfied with the Fund's performance results.

Delaware Investments Minnesota Municipal Income Fund II, Inc. - The Performance Universe for the Fund consisted of the Fund and all leveraged closed-end Minnesota municipal debt funds as selected by Lipper. The Lipper report comparison showed that the Fund's total return for the one year period was ranked third of the three funds in the Performance Universe. The report further showed that the Fund's total return for the three year period ranked first of the three funds in the Performance Universe and the Fund's total return for the five and 10 year periods ranked first of the two funds in the Performance Universe. The Board noted that the Fund's performance results were mixed, but on an overall basis, tended toward median, which was acceptable.

Comparative Expenses. The Board considered expense comparison data for the Delaware Investments Family of Funds. Management provided the Board with information on pricing levels and fee structures for the Funds. The Board focused particularly on the comparative analysis of the management fees and total expense ratios of each Fund and the management fees and expense ratios of a group of similar leveraged closed-end funds as selected by Lipper (the "Expense Group"). In reviewing comparative costs, each Fund's contractual management fee and the actual management fee incurred by the Fund were compared with the contractual management fees (assuming all funds in the Expense Group were similar in size to the Fund) and actual management fees (as reported by each fund) of other funds within the Expense Group, taking into effect any applicable breakpoints and fee waivers. Each Fund's total expenses were also compared with those of its Expense Group. The Board also considered fees paid to Delaware Investments for non-management services. The Board noted its objective to limit each Fund's total expense ratio to an acceptable range as compared to the median of the Expense Group. The following paragraph summarizes the expense results for the Funds and the Board's view of such expenses.

Delaware Investments Arizona Municipal Income Fund, Inc. - The expense comparisons for the Fund showed that its actual management fee and total expenses were in the quartile with the second lowest expenses of its Expense Group. The Board was satisfied with the management fees and total expenses of the Fund in comparison to its Expense Group as shown in the Lipper report.

Delaware Investments Colorado Insured Municipal Income Fund, Inc. - The expense comparisons for the Fund showed that its management fee was in the quartile with the second lowest expenses of its Expense Group and its total expenses were in the quartile with the lowest expenses of its Expense Group. The Board was satisfied with the management fees and total expenses of the Fund in comparison to its Expense Group as shown in the Lipper report.

Delaware Investments Florida Insured Municipal Income Fund - The expense comparisons for the Fund showed that its management fee was in the quartile with the lowest expenses of its Expense Group and its total expenses were in the quartile with the second lowest of its Expense Group. The Board was satisfied with the management fees and total expenses of the Fund in comparison to its Expense Group as shown in the Lipper report.

Delaware Investments Minnesota Municipal Income Fund II, Inc. - The expense comparisons for the Fund showed that its management fee was in the quartile with the second highest expenses of its Expense Group and its total expenses were in the quartile with the second lowest expenses of its Expense Group. The Board was satisfied with the total expenses of the Fund in comparison to its Expense Group as shown in the Lipper report.

Management Profitability. The Board considered the level of profits, if any, realized by Delaware Investments in connection with the operation of the Funds. In this respect, the Board reviewed the Investment Management Profitability Analysis that addressed the overall profitability of Delaware Investments' business in providing management and other services to each of the individual funds and the Delaware Investments Family of Funds as a whole. Specific attention was given to the methodology followed in allocating costs for the purpose of determining profitability. Management stated that the level of profits of Delaware Investments, to a certain extent, reflected operational cost savings and efficiencies initiated by Delaware Investments. The Board considered Delaware Investments' expenditures to improve services provided to fund shareholders and to meet additional regulatory and compliance requirements resulting from recent SEC initiatives. The Board also considered the extent to which Delaware Investments might derive ancillary benefits from fund operations, including the potential for procuring additional business as a result of the prestige and visibility associated with its role as service provider to the Delaware Investments Family of Funds, the benefits from allocation of fund brokerage to improve trading efficiencies and the use of "soft" commission dollars to pay for proprietary and non-proprietary research. The Board did not find that the level of profits realized by Delaware Investments from the relationships with the Funds and the Delaware Investments Family of Funds required negotiation of reduction fees.

Economies of Scale. As a closed-end fund, each Fund does not issue shares on a continuous basis. Fund assets increase only to the extent that the value of the underlying securities in the Fund increase. Accordingly, the Board determined that the Funds were not likely to experience significant economies of scale due to asset growth and, therefore, a fee schedule with breakpoints to pass the benefit of such economies of scale on to shareholders was not likely to provide the intended effect.

This semiannual report is for the information of Delaware Investments Closed-End Municipal Bond Funds shareholders. The return and principal value of an investment in each Fund will fluctuate so that shares, when resold, may be worth more or less than their original cost. Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940 that the Funds may, from time-to-time, purchase shares of their common stock on the open market at market prices.
