Portfolio management review

Delaware Investments Dividend and Income Fund, Inc.

November 30, 2006

The managers of Delaware Investments Dividend and Income Fund, Inc. provided the answers to the questions below as a review of the Fund's activities for the fiscal year ended November 30, 2006. Please see pages 3 and 4 to learn more about the Fund managers.

Q: Can you please discuss the investment environment during the year ended November 30, 2006?

A: On the whole, the U.S. stock market performed well and turned in higher returns than we anticipated at the outset of the year.

Investors largely saw two different sets of conditions during the year. Roughly through June 2006, U.S. stocks faced headwinds. Energy costs continued to rise, which put downward pressure on corporate earnings and consumer spending. Interest rates rose as well. Stronger-than-expected inflation reports in the spring made it more likely that the Federal Reserve Board (Fed) would continue to raise short-term rates. The threat of a weakening economy coupled with uncertainty about the inflation picture was a negative influence on equity prices, and market performance was particularly weak in May and June 2006.

By July, conditions had improved noticeably. Corporate earnings, though slowing, remained relatively solid, as did consumer spending in the face of a weakening housing market. In addition, oil prices began declining sharply from their historic highs and the Fed finally decided not to raise interest rates in August and beyond, boosting performance in both the stock and bond markets through the end of the year.

Q: How did the Fund perform during the year ended November 30, 2006?

A: Delaware Investments Dividend and Income Fund, Inc. returned +22.41% at net asset value and +16.96% at market price (both figures reflect all distributions reinvested). For complete annualized performance for Delaware Investments Dividend and Income Fund, Inc., please see the table on page 6. By comparison, the Fund's benchmark - the Standard and Poor's 500 Index - returned +14.23%, and the Fund's peer group, as measured by the Lipper Closed-end Income and Preferred Stock Funds Average, gained 14.60% (source: Lipper).

Delaware Investments Dividend and Income Fund, Inc. is invested primarily in four types of assets: large-cap value equities, real estate investment trusts (REITs), high-yield bonds, and convertible securities, the last of which have some features of both equity and fixed income securities. Each security type in the Fund produces a measure of income for investors, and each may perform differently from the others in different types of market environments.

During the year, dividend-oriented equity investors generally fared well, and as the year progressed investors appeared to become increasingly risk averse. Also of note, REITs strongly outperformed the broad U.S. stock market during the year. For instance, the NAREIT Equity REIT Index, which tracks the performance of U.S. REITs, gained 36.93%.

Q: What factors influenced performance in the Fund?

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

A: Expecting a slowdown in the economy and a reduced rate of corporate earnings growth, we believed it was prudent to position the equity portion of the investment portfolio even more defensively than might be typical. As a result, we held overweightings compared to the index in less economically sensitive sectors, such as healthcare and consumer staples. The Fund was also underweight in more economically sensitive areas, such as consumer discretionary.

We regularly look to invest in undervalued companies with good businesses that we believe are priced well below their intrinsic value. During the most recent period, we focused on companies that we believed to have particularly sound balance sheets, strong dividend yields, and the potential to continue generating relatively stable earnings, even in a weaker economy.

This approach led us to hold relatively small positions in the energy and industrial sectors, both of which tend to be relatively sensitive to economic changes. As the fiscal

Portfolio management review

year progressed, however, we found an increasing number of opportunities among stocks in the technology industry that we believed to be attractively valued, adding a new position in Intel. More technology stocks were passing our strict screening process, as a number of companies established shareholder-friendly policies in the midst of successful turnarounds.

After several years of robust REIT performance, we continued to exercise caution in this portion of the Fund, emphasizing companies with strong or improving fundamentals and attractive valuations. We concentrated on several key areas of the REIT market, beginning with economically sensitive holdings such as industrial REITs. These cyclical companies generally benefit from steady gross domestic product growth during the year.

We also were more heavily weighted than the NAREIT Equity REIT Index in REITs with exposure to office property markets. We felt higher construction costs would limit development in this category. In urban markets, certain office stocks benefited during the year as increased demand drove rental rates higher. Rising real estate prices in recent years forced many would-be homebuyers to rent, creating what we believed were attractive prospects for apartment REITs. We generally tried to capitalize on these and other trends.

REIT valuations have been propelled to all-time highs. Although we remained optimistic at fiscal year end about the general long-term prospects for REITs, we also remained skeptical about whether valuations can be sustained. By fiscal year end, we had begun planning to focus on new opportunities only very selectively, especially in the apartment and office sectors.

The Fund's various fixed income investments continued to provide another source of income for shareholders as well as a measure of diversification for the Fund. While stocks generally outperformed bonds for the year, total return performance from high yield bonds was competitive. High yield bonds are noninvestment grade

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

securities issued by organizations with noninvestment grade credit ratings; as such, they offer investors higher yields but an increased risk of default by the issuer.

Especially during the late-year rally, lower-rated bonds outperformed other types of fixed income investments, as a general search for yield could be detected in the marketplace. As always, our approach to high yield investing remained based on the selection of individual securities, analyzing the credits available to us in the marketplace one bond issue at a time. Although the economic climate and other big-picture factors were influential in the market this year, we believe that company-specific characteristics generally played a larger role in performance. We avoided making significant sector bets, preferring to focus our research efforts on uncovering securities that we thought offered value and yield advantages.

Q: Could you provide an example of a high yield bond that influenced performance?

A: Charter Communications is a major company in the telecommunications industry that provides broadband services to its customers. The company's bonds traded lower early in the fiscal year on concerns about its subscriber base that stemmed from Adelphia's bankruptcy proceedings. Later, the company posted stabilized earnings and the bonds bounced back. Charter Communications remained in the Fund at year end and represented one of the larger fixed income positions.

Q: Could you please name specific equity securities that influenced performance?

A: Among large-cap value stocks, several consumer discretionary stocks were noteworthy for generating strong gains during the fiscal year. Toy manufacturer Mattel benefited from the success of key brands and better supply chain management, as well as from lower energy prices, which served to reduce production costs for the company. Limited Brands performed well, in part on a turnaround in its apparel businesses, as well as from its personal care segment, Bath and Body Works. In healthcare, the Fund gained from its holdings in Merck. The pharmaceutical company's stock recovered off a low, as investors' concerns about legal liability surrounding its Vioxx pain medication abated.

2

Our holdings in the financial category were often among our weakest equity performers. For example, one stock that trailed the performance of the broad equity market was bank company Huntington Bancshares. As with other banks, Huntington Bancshares encountered difficulty as the company's earnings suffered from less profitable lending activities, caused by a challenging interest rate environment. Insurance company Hartford Financial Services also underperformed relative to the overall stock market, hindered by increased competition and a slowdown in the growth of auto insurance premiums, among other factors.

Performance summary

Delaware Investments Dividend and Income Fund, Inc.

The performance data quoted represent past performance; past performance does not guarantee future results. Investment return and principal value will fluctuate so your shares, when sold, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. A rise/fall in interest rates can have a significant impact on bond prices and the net asset value (NAV) of the Fund. Funds that invest in bonds can lose their value as interest rates rise and an investor can lose principal. Please obtain the performance data for the most recent month end by calling 800 523-1918.

Instances of high double-digit returns are unusual, cannot be sustained, and were achieved primarily during favorable market conditions.

Fund performance

Average annual total returns

Through November 30, 2006	1 year	5 years	10 years	Lifetime
At Market Price	+16.96%	+8.94%	+8.45%	+9.61%
At Net Asset Value	+22.41%	+14.02%	+9.86%	+10.57%

High yielding noninvestment grade bonds involve higher risk than investment grade bonds. Adverse conditions may affect the issuer's ability to pay interest and principal on these securities.

Funds that invest in REITs are subject to many of the risks associated with direct real estate ownership and, as such, may be adversely affected by declines in real-estate values and general and local economic conditions.

Diversification does not assure a profit or protect against loss in a declining market.

Returns reflect reinvestment of all distributions. Dividends and distributions, if any, are assumed, for the purpose of this calculation, to be reinvested at prices obtained under the Fund's dividend reinvestment policy. Shares of the Fund were initially offered with a sales charge of 6%. Performance since inception does not include the sales charge or any brokerage commissions for purchases made since inception. (2) Total investment return is calculated assuming a purchase of common stock on the opening of the period and the closing of the last day of each period reported. Dividends and distributions, if any, are assumed to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Total investment return based on net asset value will be higher than total investment return based on market value in periods where there is an increase in the discount or decrease in the premium of the market value to the net asset value of such periods. Conversely, total investment return based on net asset value will be lower than total investment return based on market value in periods where there is a decrease in the discount or an increase in the premium of the market value to the net asset value from the beginning to the end of such periods.

(3) Adjusted average net assets excludes debt outstanding.

Notes to financial statements

Delaware Investments Dividend and Income Fund, Inc.

November 30, 2006

Delaware Investments Dividend and Income Fund, Inc. (the "Fund") is organized as a Maryland corporation and is a diversified closed-end management investment company under the Investment Company Act of 1940, as amended. The Fund's shares trade on the New York Stock Exchange under the symbol DDF.

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

The investment objective of the Fund is to seek high current income. Capital appreciation is a secondary objective.

1. Significant Accounting Policies

The following accounting policies are in accordance with U.S generally accepted accounting principles and are consistently followed by the Fund.

Security Valuation - Equity securities, except those traded on the Nasdaq Stock Market, Inc. (Nasdaq), are valued at the last quoted sales price as of the time of the regular close of the New York Stock Exchange (NYSE) on the valuation date. Securities traded on the Nasdaq are valued in accordance with the Nasdaq Official Closing Price, which may not be the last sales price. If on a particular day an equity security does not trade, then the mean between the bid and the asked prices will be used. U.S. Government and agency securities are valued at the mean between the bid and asked prices. Long-term debt securities are valued by an independent pricing service and such prices are believed to reflect the fair value of such securities. Short-term debt securities having less than 60 days to maturity are valued at amortized cost, which approximates market value. Securities lending collateral is valued at amortized cost, which approximates market value. Other securities and assets for which market quotations are not readily available are valued at fair value as determined in good faith under the direction of the Fund's Board of Directors. In determining whether market quotations are readily available or fair valuation will be used, various factors will be taken into consideration, such as market closures, or with respect to foreign securities, aftermarket trading or significant events after local market trading (e.g., government actions or pronouncements, trading volume or volatility on markets, exchanges among dealers, or news events).

In September 2006, the Financial Accounting Standards Board (FASB) issued FASB Statement No. 157, Fair Value Measurements, (Statement 157). Statement 157 establishes a framework for measuring fair value in generally accepted accounting principles, clarifies the definition of fair value within that framework, and expands disclosures about the use of fair value measurements. Statement 157 is intended to increase consistency and comparability among fair value estimates used in financial reporting. Statement 157 is effective for fiscal years beginning after November 15, 2007. Management does not expect the adoption of Statement 157 to have an impact on the amounts reported in the financial statements.

Federal Income Taxes - The Fund intends to continue to qualify for federal income tax purposes as a regulated investment company and make the requisite distributions to shareholders. Accordingly, no provision for federal income taxes has been made in the financial statements.

On July 13, 2006, FASB released FASB Interpretation No. 48 "Accounting for Uncertainty in Income Taxes" (FIN 48). FIN 48 provides guidance for how uncertain tax positions should be recognized, measured, presented, and disclosed in the financial statements. FIN 48 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Fund's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense in the current year. Adoption of FIN 48 is required for fiscal years beginning after December 15, 2006 and is to be applied to all open tax years as of the effective date. Although the Fund's tax positions are currently being evaluated, management does not expect the adoption of FIN 48 to have a material impact on the Fund's financial statements.

Distributions - The Fund has a managed distribution policy. Under the policy, the Fund declares and pays monthly distributions and is managed with a goal of

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

generating as much of the distribution as possible from ordinary income (net investment income and short-term capital gains). The balance of the distribution then comes from long-term capital gains to the extent permitted and, if necessary, a return of capital. The current annualized rate is \$0.96 per share. The Fund continues to evaluate its monthly distribution in light of ongoing economic and market conditions and may change the amount of the monthly distributions in the future.

Repurchase Agreements - The Fund may invest in a pooled cash account along with other members of the Delaware Investments(R) Family of Funds pursuant to an exemptive order issued by the Securities and Exchange Commission. The aggregate daily balance of the pooled cash account is invested in repurchase agreements secured by obligations of the U.S government. The respective collateral is held by the Fund's custodian bank until the maturity of the respective repurchase agreements. Each repurchase agreement is at least 102% collateralized. However, in the event of default or bankruptcy by the counterparty to the agreement, realization of the collateral may be subject to legal proceedings.

Borrowings - The Fund issues short-term commercial paper at a discount from par. The discount is amortized as interest expense over the life of the commercial paper using the straight-line method (See Note 7).

Use of Estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Other - Expenses directly attributable to the Fund are charged directly to the Fund. Other expenses common to various funds within the Delaware Investments Family of Funds are generally allocated amongst such funds on the basis of average net assets. Management fees and some other expenses are paid monthly. Security transactions are recorded on the date the securities are purchased or sold (trade date) for financial reporting purposes. Costs used in calculating realized gains and losses on the sale of investment securities are those of the specific securities sold. Dividend income is recorded on the ex-dividend date and interest income is recorded on the accrual basis. Discounts and premiums on non-convertible debt securities are amortized to interest income over the lives of the respective securities. Distributions received from investments in Real Estate Investment Trusts (REITs) are recorded as dividend income on the ex-dividend date, subject to reclassification upon notice of the character of such distribution by the issuer.

1. Significant Accounting Policies (continued)

Subject to seeking best execution, the Fund may direct certain security trades to brokers who have agreed to rebate a portion of the related brokerage commission to the Fund in cash. Such commission rebates are included in realized gain on investments in the accompanying financial statements and totaled \$1,218 for the year ended November 30, 2006. In general, best execution refers to many factors, including the price paid or received for a security, the commission charged, the promptness and reliability of execution, the confidentiality and placement accorded the order, and other factors affecting the overall benefit obtained by the Fund on the transaction. DMC, as defined below, and its

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

affiliates have previously and may in the future act as an investment advisor to mutual funds or separate accounts affiliated with the administrator of the commission recapture program described above. In addition, affiliates of the administrator act as consultants in helping institutional clients choose investment advisors and may also participate in other types of businesses and provide other services in the investment management industry.

The Fund may receive earnings credits from its custodian when positive cash balances are maintained, which are used to offset custody fees. There were no earnings credits for the year ended November 30, 2006.

2. Investment Management, Administration Agreements and Other Transactions with Affiliates

In accordance with the terms of its investment management agreement, the Fund pays Delaware Management Company (DMC), a series of Delaware Management Business Trust and the investment manager, an annual fee of 0.55%, which is calculated daily based on the adjusted average weekly net assets.

Delaware Service Company, Inc. (DSC), an affiliate of DMC, provides accounting and administration services. The Fund pays DSC a monthly fee computed at the annual rate of 0.04% of the Fund's adjusted average weekly net assets for accounting and administration services.

For purposes of the calculation of investment management fees and administration fees, adjusted average weekly net assets does not include the commercial paper liability.

At November 30, 2006, the Fund had liabilities payable to affiliates as follows:

Investment management fee payable to DMC	\$90,548
Accounting and administration fees and other expenses payable to DSC	8,577
Other expenses payable to DMC and affiliates *	63,865

* DMC, as part of its administrative services, pays operating expenses on behalf of the Fund and is reimbursed on a periodic basis. Such expenses include items such as printing of shareholder reports, fees for audit, legal and tax services, stock exchange fees, custodian fees and directors fees.

As provided in the investment management agreement, the Fund bears the cost of certain legal and tax services, including internal legal and tax services provided to the Fund by DMC and/or its affiliates' employees. For the year ended November 30, 2006, the Fund was charged \$6,949 for internal legal and tax services provided by DMC and/or its' affiliates employees.

Directors' Fees and Benefits include expenses accrued by the Fund for each Director's retainer, per meeting fees and retirement benefits. Independent Directors with over five years of uninterrupted service are eligible to participate in a retirement plan that provides for the payment of benefits upon retirement. The amount of the retirement benefit is determined based on factors set forth in the plan, including the number of years of service. On November 16, 2006, the Board of Directors of the Fund unanimously voted to terminate the retirement plan. Payments equal to the net present value of the earned benefits will be made in 2007 to those independent directors and retired directors so entitled. The retirement benefit payout for the Fund is \$18,481. Certain officers of DMC, DSC and DDLP are officers and/or directors of the Fund. These officers and directors are paid no compensation by the Fund.

3. Investments

For the year ended November 30, 2006, the Fund made purchases of \$116,591,415

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

and sales of \$136,497,001 of investment securities other than short-term investments.

At November 30, 2006, the cost of investments for federal income tax purposes was \$194,887,269. At November 30, 2006, the net unrealized appreciation was \$25,853,089, of which \$26,878,559 related to unrealized appreciation of investments and \$1,025,470 related to unrealized depreciation of investments.

4. Dividend and Distribution Information

Income and long-term capital gain distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles. Additionally, net short-term gains on sales of investment securities are treated as ordinary income for federal income tax purposes. The tax character of dividends and distributions paid during the years ended November 30, 2006 and 2005 was as follows:

	Year Ended	
	2006	2005
Ordinary income	\$ 6,915,192	\$ 8,898,947
Long-term capital gains	5,252,912	2,947,249
	<hr/>	<hr/>
Total	\$12,168,104	\$11,846,196
	<hr/>	<hr/>

5. Components of Net Assets on a Tax Basis

As of November 30, 2006, the components of net assets on a tax basis were follows:

Shares of beneficial interest	\$127,301,245
Undistributed long-term capital gains	3,169,940
Unrealized appreciation of investments	25,853,089
	<hr/>
Net assets	\$156,324,274
	<hr/>

The differences between book basis and tax basis components of net assets are primarily attributable to tax deferral of losses on wash sales, treatment of contingent payment debt instruments and tax treatment of market discount and premium on debt instruments.

For financial reporting purposes, capital accounts are adjusted to reflect the tax character of permanent book/tax differences. Reclassifications are primarily due to tax treatment of market discounts and premiums on certain debt instruments and tax treatment of contingent payment debt

instruments. Results of operations and net assets were not affected by these reclassifications. For the year ended November 30, 2006, the Fund recorded the following reclassifications.

Undistributed net investment income	\$ 144,814
Accumulated net realized gain (loss)	(144,814)

6. Capital Stock

Shares obtained under the Fund's dividend reinvestment plan are purchased by the Fund's transfer agent, Mellon Investor Services, LLC, in the open market. There were no shares issued under the Fund's dividend reinvestment plan for the years ended November 30, 2006 and 2005.

On May 19, 2005, the Fund's Board of Directors approved a tender offer for shares of the Fund's common stock. The tender offer authorized the Fund to purchase up to 10% of its issued and outstanding shares at a price equal to the Fund's net asset value at 4:00pm New York City time on July 1, 2005, the first business day following the expiration of the offer. The tender offer commenced on June 3, 2005 and expired on June 30, 2005. In connection with the tender offer, the Fund purchased 1,287,630 shares of capital stock at a total cost of \$16,855,077.

On May 18, 2006, the Fund's Board of Directors approved a tender offer for shares of the Fund's common stock. The tender offer authorized the Fund to purchase up to 5% of its issued and outstanding shares at a price equal to the Fund's net asset value at the close of business on the New York Stock Exchange on July 3, 2006, the first business day following the expiration of the offer. The tender offer commenced on June 2, 2006 and expired on June 30, 2006. In connection with the tender offer, the Fund purchased 579,434 shares of capital stock at a total cost of \$7,463,110. The tender offer was oversubscribed, and all tenders of the shares were subject to proration (at a ratio of approximately 0.775731221) in accordance with the terms of the tender offer.

The Fund did not purchase any shares under the Share Repurchase Program during the years ended November 30, 2006 and 2005.

7. Commercial Paper

As of November 30, 2006, \$44,000,000 (par value) of commercial paper was outstanding with an amortized cost of \$43,706,134. The weighted average discount rate of commercial paper outstanding at November 30, 2006 was 5.32%. The average daily balance of commercial paper outstanding during the year ended November 30, 2006 was \$45,947,392 at a weighted discount rate of 4.19%. The maximum amount of commercial paper outstanding at any time during the year was \$48,000,000. On June 22, 2006, the Fund reduced the commercial paper outstanding to \$44 million in conjunction with the tender offer.

In conjunction with the issuance of the commercial paper, the Fund entered into a line of credit arrangement with J.P. Morgan Chase for \$30,000,000. Interest on borrowings is based on market rates in effect at the time of borrowing. As of November 17, 2006, the commitment fee is computed at the rate of 0.10% per annum on the unused balance. Prior to November 17, 2006, the rate was 0.12%. For the year ended November 30, 2006, the Fund was charged fees of \$35,792 which is included in "commercial paper fees" on the Statement of Operations. During the year ended November 30, 2006, there were no borrowings under this arrangement.

8. Securities Lending

The Fund, along with other funds in the Delaware Investments(R) Family of Funds,

may lend its securities pursuant to a security lending agreement (Lending Agreement) with J.P. Morgan Chase. Initial security loans made pursuant to the Lending Agreement are required to be secured by U.S. government obligations and/or cash collateral not less than 102% of the market value of the securities issued in the United States. With respect to each loan, if the aggregate market value of the collateral held on any business day is less than the aggregate market value of the securities which are the subject of such loan, the borrower will be notified to provide additional collateral not less than the applicable collateral requirements. Cash collateral received is invested in fixed-income securities, with a weighted average maturity not to exceed 90 days, rated in one of the top two tiers by Standard & Poor's Ratings Group or Moody's Investors Service, Inc. or repurchase agreements collateralized by such securities. However, in the event of default or bankruptcy by the lending agent, realization and/or retention of the collateral may be subject to legal proceedings. In the event the borrower fails to return loaned securities and the collateral received is insufficient to cover the value of the loaned securities and provided such collateral shortfall is not the result of investment losses, the lending agent has agreed to pay the amount of the shortfall to the Fund, or at the discretion of the lending agent, replace the loaned securities. The Fund continues to record dividends on the securities loaned and is subject to change in value of the securities loaned that may occur during the term of the loan. The Fund has the right under the Lending Agreement to recover the securities from the borrower on demand. The security lending agent and the borrower retain a portion of the earnings from the collateral investments. The Fund records security lending income net of such allocation.

At November 30, 2006, the market value of securities on loan was \$20,544,004, for which cash collateral was received and invested in accordance with the Lending Agreement. Such investments are presented on the Statement of Net Assets under the caption "Securities Lending Collateral."

9. Credit and Market Risks

The Fund invests in high yield fixed income securities, which carry ratings of BB or lower by Standard & Poor's Rating Group and/or Ba or lower by Moody's Investors Service, Inc. Investments in these higher yielding securities are generally accompanied by a greater degree of credit risk than higher rated securities. Additionally, lower rated securities may be more susceptible to adverse economic and competitive industry conditions than investment grade securities.

The Fund may invest up to 10% of its total assets in illiquid securities, which may include securities with contractual restrictions on resale, securities exempt from registration under Rule 144A of the Securities Act of 1933, as amended, and other securities which may not be readily marketable. The relative illiquidity of these securities may impair the Fund from disposing of them in a timely manner and at a fair price when it is necessary or desirable to do so. While maintaining oversight, the Board of Directors has delegated to DMC the day-to-day functions of determining whether individual securities are liquid for purposes of the Fund's limitation on investments in illiquid assets. Rule 144A and illiquid securities have been identified on the Statement of Net Assets.

24

9. Credit and Market Risks (continued)

The Fund invests in REITs and is subject to some of the risks associated with

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

that industry. If the Fund holds real estate directly as a result of defaults or receives rental income directly from real estate holdings, its tax status as a regulated investment company may be jeopardized. There were no direct holdings during the year ended November 30, 2006. The Fund's REIT holdings are also affected by interest rate changes, particularly if the REITs it holds use floating rate debt to finance their ongoing operations.

10. Contractual Obligations

The Fund enters into contracts in the normal course of business that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts. Management has reviewed the Fund's existing contracts and expects the risk of loss to be remote.

11. Tax Information (Unaudited)

The information set forth below is for the Fund's fiscal year as required by federal laws. Shareholders, however, must report distributions on a calendar year basis for income tax purposes, which may include distributions for portions of two fiscal years of a fund. Accordingly, the information needed by shareholders for income tax purposes will be sent to them in January of each year. Please consult your tax advisor for proper treatment of this information.

For the fiscal year ended November 30, 2006, the Fund designates distributions paid during the year as follows:

(A) Long-Term Capital Gain Distributions (Tax Basis)	(B) Ordinary Income Distributions * (Tax Basis)	Total Distributions (Tax Basis)	(C) Qualifying Dividends (1)
43%	57%	100%	32%

(A) and (B) are based on a percentage of the Fund's total distributions.

(C) is based on a percentage of ordinary income distributions of the Fund.

(1) Qualifying dividends represent dividends which qualify for the corporate dividends received deduction.

* For the fiscal year ended November 30, 2006, certain dividends paid by the Fund may be subject to a maximum tax rate of 15%, as provided by the Jobs and Growth Tax Relief Reconciliation Act of 2003. The Fund intends to designate up to a maximum amount of \$2,205,255 to be taxed at a maximum rate of 15%. Complete information will be computed and reported in conjunction with your 2006 Form 1099-DIV.

Report of independent
registered public accounting firm

To the Shareholders and Board of Directors

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

Delaware Investments Dividend and Income Fund, Inc.

We have audited the accompanying statement of net assets of Delaware Investments Dividend and Income Fund, Inc. (the "Fund") as of November 30, 2006, and the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Fund's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of November 30, 2006, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Delaware Investments Dividend and Income Fund, Inc. at November 30, 2006, the results of its operations and cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended, and its financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

J. Richard Zecher	11,073,906.453	187,145.133	327,618.273

*Mr. Driscoll withdrew from election. The persons named as proxies used the power given to them by shareholders to vote for a substitute nominee (in the case of the withdrawal of the nominee for election) as recommended by the existing Board. The Fund's Board approved Patrick P. Coyne as the substitute nominee. Accordingly, the named proxies used their discretion to vote for Patrick P. Coyne, the substitute nominee.

Corporate Governance (Unaudited)

The Fund's audit committee charter is available on its web site at <http://www.delawareinvestments.com>, and the charter is also available in print to any shareholder who requests it. The Fund submitted its Annual CEO certification for 2006 to the NYSE on September 15, 2006 stating that the CEO was not aware of any violation by the Fund of the NYSE's corporate governance listing standards. In addition, the Fund had filed the required CEO/CFO certifications regarding the quality of the Fund's public disclosure as exhibits to the Forms N-CSR and Forms N-Q filed by the Fund over the past fiscal year. The Fund's Form N-CSR and Form N-Q filings are available on the Commission's web site at <http://www.sec.gov>.

Tender Offer (Unaudited)

As described in Note 6 to the Financial Statements, the Fund conducted a tender offer in 2006. There can be no assurance that a tender offer will reduce or eliminate any spread between market price and the net asset value of the Fund's shares. The market price of the shares will, among other things, be determined by the relative demand for and supply of shares in the market, the Fund's investment performance, the Fund's dividends and yields, and investor perception of the Fund's overall attractiveness as an investment as compared with other investment alternatives. Nevertheless, the fact that a tender offer may be conducted may result in more of a reduction in the spread between market price and net asset value than might otherwise be the case. The Fund's Board of Directors, consistent with its fiduciary obligations, may explore alternatives to a tender offer to reduce or eliminate the Fund's potential market value discount from net asset value. Therefore, the Fund cannot provide assurance that it will make tender offers in the future.

The tender offer plan described in the Fund's prospectus contemplates that a shareholder wishing to accept a tender offer must tender all (but not less than all) of the Fund shares owned by the shareholder or attributed to it under Section 318 of the Internal Revenue Code, unless the Fund has received a private letter ruling the Internal Revenue Service ("IRS") that a tender of less than all of a shareholder's shares will not cause non-tendering shareholders to

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

realize constructive distributions on their shares under Section 305 of the Internal Revenue Code. In connection with the 2005 tender offer and the favorable private letter ruling received by the Fund on May 5, 2005, the Fund, through its counsel, was informed by the Office of Associate Chief Counsel (Corporate) that the IRS would not issue to the Fund a similar ruling in future years. The IRS's informal policy is to issue no more than two such rulings to any one taxpayer on the premise that multiple tender offers may constitute such a "plan" that has the result of increasing the proprietary interests of some shareholders in the assets and income of the funds and the receipt of money by other shareholders. Since the Fund's organization in 1993, the Fund has consummated three tender offers, one in 2000, one in 2005, and one in 2006.

In light of this communication from the IRS, it was determined that the Fund had no affirmative obligation to obtain a ruling from the IRS as a pre-condition to accepting partial tenders. The Fund has previously stated that it would not seek a private letter ruling from the IRS in connection with accepting partial tenders for any future Fund tender offers.

Rescission of Exemptive Order (Unaudited)

In 1995, the Fund implemented a managed distribution policy. Under the policy, the Fund is managed with a goal of generating as much of the dividend as possible from ordinary income (net investment income and short-term capital gains). The balance of the dividend then comes from long-term capital gains to the extent permitted and, if necessary, a return of capital. In 2002, the Securities and Exchange Commission (the "SEC") granted the Fund an exemption from Section 19(b) of the Investment Company Act of 1940 (the "1940 Act") to allow the Fund to distribute long-term capital gains up to 12

(continues) 27

Other Fund information

Delaware Investments Dividend and Income Fund, Inc.

times per year (the "Order"). The Order gave the Fund the ability to characterize a portion of each monthly distribution made pursuant to the Fund's managed distribution policy as long-term capital gain. On the basis of a separate matter, the SEC has recently rescinded the Fund's Order. The Fund has applied for a new Section 19(b) exemptive order ("New Order"). While the application is pending, the Fund's ability to characterize any portion of distributions made pursuant to the Fund's managed distribution policy as long-term capital gains will be limited to the instances permitted by Section 19(b) of the 1940 Act. Additionally, the rescission of the Fund's Order may (but not necessarily will) lead to one or more of the following: (i) a lower monthly distribution amount made pursuant to the Fund's managed distribution policy; (ii) the Fund's share price trading at a discount (if the Fund is trading at a premium) or the Fund's share price trading at a greater discount from its net asset value than would otherwise have been the case if the Order were in effect (if the Fund is trading at a discount); or (iii) the amount of distributions paid in a given year may be higher than would have been paid when the Order was in effect if some part of the monthly distributions paid by the Fund are classified as returns of capital rather than from long-term capital gains and, in addition to such distributions, the Fund separately pays out its long-term capital gains as permitted by Section 19(b) of the 1940 Act. The preceding issues may be mitigated or eliminated if the Fund receives the New Order in a

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

timely manner, but there is no guarantee of such result.

Additions to Portfolio Management Team

During the year ended November 30, 2006, Babak Zenouzi, Nikhil G. Lalvani, and Nashira S. Wynn were each appointed co-portfolio managers of the Fund. Mr. Zenouzi assumed primary responsibility for managing the REIT and convertible securities holdings for the Fund, and consults regularly Damon J. Andres in this capacity. Mr. Lalvani and Ms. Wynn focus on the large-cap value equity portion of the Fund. Mr. Zenouzi, Mr. Lalvani, and Ms. Wynn work with Mr. Andres, D. Tysen Nutt, Jr., Jordan L. Irving, Anthony A. Lombardi, Robert A. Vogel, Jr., and Timothy L. Rabe in making day-to-day decisions for the Fund.

Distribution Information (Unaudited)

Shareholders were sent monthly notices from the Fund that set forth estimates, on a book basis, of the source or sources from which monthly distributions were paid. Subsequently, these estimates may have been corrected in part. Listed below is a written statement of the sources of these monthly distributions, as corrected, on a book basis.

Board of directors/trustees
and officers addendum

Delaware Investments(R) Family of Funds

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

A mutual fund is governed by a Board of Directors/Trustees, which has oversight responsibility for the management of a fund's business affairs. Directors/Trustees establish procedures and oversee and review the performance of the investment manager, the distributor, and others who perform services for the fund. The independent fund directors/trustees, in particular, are advocates for shareholder interests. Each director/trustee has served in that capacity since he or she was elected to or appointed to the Board of Directors, and will continue to serve until his or her retirement or the election of a new director/trustee in his or her place. The following is a list of the Directors and Officers with certain background and related information.

Item 2. Code of Ethics

The registrant has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, regardless of whether these individuals are employed by the registrant or a third party. A copy of the registrant's Code of Business Ethics has been posted on Delaware Investments' internet website at www.delawareinvestments.com. Any amendments to the Code of Business Ethics, and information on any waiver from its provisions granted by the registrant, will also be posted on this website within five business days of such amendment or waiver and will remain on the website for at least 12 months.

Item 3. Audit Committee Financial Expert

The registrant's Board of Trustees/Directors has determined that each member of the registrant's Audit Committee is an audit committee financial expert, as defined below. For purposes of this item, an "audit committee financial expert" is a person who has the following attributes:

- a. An understanding of generally accepted accounting principles and financial statements;
- b. The ability to assess the general application of such principles in connection with the accounting for estimates, accruals, and reserves;
- c. Experience preparing, auditing, analyzing, or evaluating financial statements that present a breadth and level of complexity of accounting issues that are generally comparable to the breadth and complexity of issues that can reasonably be expected to be raised by the registrant's financial statements, or

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

experience actively supervising one or more persons engaged in such activities;

d. An understanding of internal controls and procedures for financial reporting; and

e. An understanding of audit committee functions.

An "audit committee financial expert" shall have acquired such attributes through:

a. Education and experience as a principal financial officer, principal accounting officer, controller, public accountant, or auditor or experience in one or more positions that involve the performance of similar functions;

b. Experience actively supervising a principal financial officer, principal accounting officer, controller, public accountant, auditor, or person performing similar functions;

c. Experience overseeing or assessing the performance of companies or public accountants with respect to the preparation, auditing, or evaluation of financial statements; or

d. Other relevant experience.

The registrant's Board of Trustees/Directors has also determined that each member of the registrant's Audit Committee is independent. In order to be "independent" for purposes of this item, the Audit Committee member may not: (i) other than in his or her capacity as a member of the Board of Trustees/Directors or any committee thereof, accept directly or indirectly any consulting, advisory or other compensatory fee from the issuer; or (ii) be an "interested person" of the registrant as defined in Section 2(a)(19) of the Investment Company Act of 1940.

The names of the audit committee financial experts on the registrant's Audit Committee are set forth below:

Thomas L. Bennett (1)
Thomas F. Madison
Janet L. Yeomans (1)
J. Richard Zecher

Item 4. Principal Accountant Fees and Services

(a) Audit fees.

The aggregate fees billed for services provided to the registrant by its independent auditors for the audit of the registrant's annual financial statements and for services normally provided by the independent auditors in connection with statutory and regulatory filings or engagements were \$13,700 for the fiscal year ended November 30, 2006.

(1) The instructions to Form N-CSR require disclosure on the relevant experience of persons who qualify as audit committee financial experts based on "other relevant experience." The Board of Trustees/Directors has determined that Mr. Bennett qualifies as an audit committee financial expert by virtue of his

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

education, Chartered Financial Analyst designation, and his experience as a credit analyst, portfolio manager and the manager of other credit analysts and portfolio managers. The Board of Trustees/Directors has determined that Ms. Yeomans qualifies as an audit committee financial expert by virtue of her education and experience as the Treasurer of a large global corporation.

The aggregate fees billed for services provided to the registrant by its independent auditors for the audit of the registrant's annual financial statements and for services normally provided by the independent auditors in connection with statutory and regulatory filings or engagements were \$14,800 for the fiscal year ended November 30, 2005.

The Pre-Approval Policy requires the registrant's independent auditors to report to the Audit Committee at each of its regular meetings regarding all services initiated since the last such report was rendered, including those services authorized by the Pre-Approval Policy.

(f) Not applicable.

(g) The aggregate non-audit fees billed by the registrant's independent auditors for services rendered to the registrant and to its investment adviser and other service providers under common control with the adviser were \$263,188 and \$213,940 for the registrant's fiscal years ended November 30, 2006 and November 30, 2005, respectively.

(h) In connection with its selection of the independent auditors, the registrant's Audit Committee has considered the independent auditors' provision of non-audit services to the registrant's investment adviser and other service providers under common control with the adviser that were not required to be pre-approved pursuant to Rule 2-01(c)(7)(ii) of Regulation S-X. The Audit Committee has determined that the independent auditors' provision of these services is compatible with maintaining the auditors' independence.

Item 5. Audit Committee of Listed Registrants

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

The registrant has a separately-designated standing Audit Committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934. The members of the registrant's Audit Committee are Thomas L. Bennett, Thomas F. Madison, Janet L. Yeomans and J. Richard Zecher.

Item 6. Schedule of Investments

Included as part of report to shareholders filed under Item 1 of this Form N-CSR.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies

The registrant has formally delegated to its investment adviser (the "Adviser") the ability to make all proxy voting decisions in relation to portfolio securities held by the registrant. If and when proxies need to be voted on behalf of the registrant, the Adviser will vote such proxies pursuant to its Proxy Voting Policies and Procedures (the "Procedures"). The Adviser has established a Proxy Voting Committee (the "Committee") which is responsible for overseeing the Adviser's proxy voting process for the registrant. One of the main responsibilities of the Committee is to review and approve the Procedures to ensure that the Procedures are designed to allow the Adviser to vote proxies in a manner consistent with the goal of voting in the best interests of the registrant.

In order to facilitate the actual process of voting proxies, the Adviser has contracted with Institutional Shareholder Services ("ISS") to analyze proxy statements on behalf of the registrant and other Adviser clients and vote proxies generally in accordance with the Procedures. The Committee is responsible for overseeing ISS's proxy voting activities. If a proxy has been voted for the registrant, ISS will create a record of the vote. By no later than August 31 of each year, information (if any) regarding how the registrant voted proxies relating to portfolio securities during the most recently disclosed 12-month period ended June 30 is available without charge (i) through the registrant's website at <http://www.delawareinvestments.com>; and (ii) on the Commission's website at <http://www.sec.gov>.

The Procedures contain a general guideline that recommendations of company management on an issue (particularly routine issues) should be given a fair amount of weight in determining how proxy issues should be voted. However, the Adviser will normally vote against management's position when it runs counter to its specific Proxy Voting Guidelines (the "Guidelines"), and the Adviser will also vote against management's recommendation when it believes that such position is not in the best interests of the registrant.

As stated above, the Procedures also list specific Guidelines on how to vote proxies on behalf of the registrant. Some examples of the Guidelines are as follows: (i) generally vote for shareholder proposals asking that a majority or more of directors be independent; (ii) generally vote against proposals to require a supermajority shareholder vote; (iii) votes on mergers and acquisitions should be considered on a case-by-case basis, determining whether the transaction enhances shareholder value; (iv) generally vote against proposals to create a new class of common stock with superior voting rights; (v) generally vote re-incorporation proposals on a case-by-case basis; (vi) votes with respect to equity-based compensation plans are generally determined on a case-by-case basis; and (vii) generally vote for proposals requesting reports on the level of greenhouse gas emissions from a company's operations and products.

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

Because the registrant has delegated proxy voting to the Adviser, the registrant is not expected to encounter any conflict of interest issues regarding proxy voting and therefore does not have procedures regarding this matter. However, the Adviser does have a section in its Procedures that addresses the possibility of conflicts of interest. Most proxies which the Adviser receives on behalf of the registrant are voted by ISS in accordance with the Procedures. Because almost all registrant proxies are voted by ISS pursuant to the pre-determined Procedures, it normally will not be necessary for the Adviser to make an actual determination of how to vote a particular proxy, thereby largely eliminating conflicts of interest for the Adviser during the proxy voting process. In the very limited instances where the Adviser is considering voting a proxy contrary to ISS's recommendation, the Committee will first assess the issue to see if there is any possible conflict of interest involving the Adviser or affiliated persons of the Adviser. If a member of the Committee has actual knowledge of a conflict of interest, the Committee will normally use another independent third party to do additional research on the particular proxy issue in order to make a recommendation to the Committee on how to vote the proxy in the best interests of the registrant. The Committee will then review the proxy voting materials and recommendation provided by ISS and the independent third party to determine how to vote the issue in a manner which the Committee believes is consistent with the Procedures and in the best interests of the registrant.

Description of Material Conflicts of Interest

Individual portfolio managers may perform investment management services

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

for other accounts similar to those provided to the Funds and the investment action for each account and Fund may differ. For example, an account or Fund may be selling a security, while another account or Fund may be purchasing or holding the same security. As a result, transactions executed for one account may adversely affect the value of securities held by another account. Additionally, the management of multiple accounts and Funds may give rise to potential conflicts of interest, as a portfolio manager must allocate time and effort to multiple accounts and Funds. A portfolio manager may discover an investment opportunity that may be suitable for more than one account or Fund. The investment opportunity may be limited, however, so that all accounts for which the investment would be suitable may not be able to participate. The Manager has adopted procedures designed to allocate investments fairly across multiple accounts.

A portfolio manager's management of personal accounts also may present certain conflicts of interest. While the Manager's Code of Ethics is designed to address these potential conflicts, there is no guarantee that it will do so.

Compensation Structure

Each portfolio manager's compensation consists of the following:

Base Salary. Each named portfolio manager receives a fixed base salary. Salaries are determined by a comparison to industry data prepared by third parties to ensure that portfolio manager salaries are in line with salaries paid at peer investment advisory firms.

Bonus. Each portfolio manager is eligible to receive an annual cash bonus which is based on quantitative and qualitative factors. The amount of the pool for bonus payments is first determined by mathematical equation based on assets, management fees and expenses, including fund waiver expenses, for registered investment companies, pooled vehicles, and managed separate accounts. Generally, approximately 80% of the bonus is quantitatively determined. For investment companies, each manager is compensated according to the Fund's Lipper peer group percentile ranking on a one-year and three-year basis. For managed separate accounts the portfolio managers are compensated according to the composite percentile ranking in consultant databases. There is no objective award for a fund that falls below the 50th percentile for a given time period. There is a sliding scale for investment companies that are ranked above the 50th percentile. The managed separate accounts are compared to Callan and other databases. The remaining 20% portion of the bonus is discretionary as determined by Delaware and takes into account subjective factors.

Deferred Compensation. Each named portfolio manager is eligible to participate in the Lincoln National Corporation Executive Deferred Compensation Plan, which is available to all employees whose income exceeds a designated threshold. The Plan is a non-qualified unfunded deferred compensation plan that permits participating employees to defer the receipt of a portion of their cash compensation.

Stock Option Incentive Plan/Equity Compensation Plan: Portfolio managers may be awarded options to purchase common shares of Delaware Investments U.S., Inc. pursuant to the terms of the Delaware Investments U.S., Inc. Stock Option Plan (non-statutory or "non-qualified" stock options). In addition, certain managers may be awarded restricted stock units, or "performance shares", in Lincoln. Delaware Investments U.S., Inc., is an indirect subsidiary of DMH and, therefore, of Lincoln.

The Delaware Investments U.S., Inc. Stock Option Plan was established in 2001 in order to provide certain investment personnel of the Manager with a more direct means of participating in the growth of the investment manager. Under the terms of the plan, stock options typically vest in 25% increments on a four-year schedule and expire ten years after issuance. Options are awarded from time to time by the investment manager in its full discretion. Option awards may be based in part on seniority.

Portfolio managers who do not participate in the Delaware Investments U.S., Inc. Stock Option Plan are eligible to participate in Lincoln's Long-Term Incentive Plan, which is designed to provide a long-term incentive to officers of Lincoln. Under the plan, a specified number of performance shares are allocated to each unit and are awarded to participants in the discretion of their managers in accordance with recommended targets related to the number of employees in a unit that may receive an award and the number of shares to be awarded. The performance shares have a three year vesting schedule and, at the end of the three years, the actual number of shares distributed to those who received awards may be equal to, greater than or less than the amount of the award based on Lincoln's achievement of certain performance goals relative to a pre-determined peer group.

Other Compensation: Portfolio managers may also participate in benefit plans and programs available generally to all employees.

officer have evaluated the registrant's disclosure controls and procedures within 90 days of the filing of this report and have concluded that they are effective in providing reasonable assurance that the information required to be disclosed by the registrant in its reports or statements filed under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission.

(b) Management has made changes that have materially affected, or are reasonably likely to materially affect, registrant's internal controls over financial reporting. To seek to increase the controls' effectiveness, these changes provide for enhanced review of contracts relating to complex transactions and the applicability of generally accepted accounting principles to such transactions, including enhanced consultation with registrant's independent public accountants in connection with such reviews.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.
