PART I

Item 1 - Description of Business

Formation and History

We were incorporated in the State of Delaware under the name 51142 Inc. on February 2, 2005 as a blank check company to engage in any lawful corporate undertaking, including, but not limited to, selected mergers and acquisitions.

On July 8, 2005, pursuant to the terms of a Stock Purchase Agreement, Signet Entertainment Corporation, a Florida corporation, purchased all of our issued and outstanding common stock for cash consideration of \$36,000. Subsequently, we changed our name to Signet International Holdings, Inc.

On September 8, 2005, pursuant to a Stock Purchase Agreement and Share Exchange by and among us, Signet Entertainment Corporation, and the shareholders of Signet Entertainment Corporation (Shareholders), we acquired all of the then issued and outstanding preferred and common shares of Signet Entertainment Corporation for a total of 3,421,000 common shares and 5,000,000 preferred shares of our stock which was issued to the Signet Entertainment Corporation shareholders. Pursuant to the agreement, Signet Entertainment Corporation became our wholly owned subsidiary.

Our business plan has been and continues to be oriented towards the building of a new broadcast media group comprised of television stations and complimentary syndication and production companies serving mid- to large-sized U.S. markets. Upon the successful completion of our capital raising efforts to adequately fund the implementation of our business plan we intend to grow into one of the most significant and diversified television broadcasting companies in the country today. Our business plan focuses on three complimentary segments: ownership and operations of various television stations, ownership of a programming and syndication company and the ownership and operation of a television production company.

Currently, we only have a single wholly-owned subsidiary, Signet Entertainment Corporation (SIG), which was incorporated on October 17, 2003 for the purpose of launching a gaming and entertainment television network. We will purchase, lease, and employ the apparatus, equipment, and personnel necessary to establish the network. The network intends to cover major Poker and Blackjack tournaments as well as other major high stakes casino games. The network also intends to cover via satellite and cable other sports events such as horse racing and selected global events which have a sports and entertainment format. SIG's largest source of revenue will come from advertising, specifically from various resorts and casinos, and sporting sites in North and South America, Europe, Asia and Africa. SIG will realize income from infomercials and sports and entertainment programming that offer subject matter that are all-encompassing to the network's format. Signet International Holdings, Inc. does not have international operations.

Broadcast and Intellectual Properties

On April 13, 2006, we purchased the exclusive rights to 20 titled half-hour screen plays representing original programming from FreeHawk Productions, Inc. (FreeHawk). On August 19, 2006, by mutual agreement, Signet and FreeHawk rescinded this agreement. On April 20, 2007, the Company entered into a new purchase agreement with FreeHawk for 100% of the rights to 21 separate television series to be produced by FreeHawk exclusively for Signet. The total consideration paid by us for these rights was 270,000 shares of restricted, unregistered common stock and a \$50,000 open account payable. Based on an independent third-party appraisal, we valued this transaction at approximately \$2,870,625. The common stock was issued pursuant to an exemption from registration under Section 4(2) of the Securities Act of 1933, as amended, and no underwriter was used in this transaction.

On May 22, 2007, the Company acquired the exclusive television rights to "Tales From The moe.Republic", by John E. Derhak. This full-length novel is in the process of being published and is currently being sold in an abridged, autographed limited edition through the website www.moerepublic.org. We paid consideration of 113,662 shares of our restricted, unregistered common stock and a \$25,000 open accounts payable for these rights. Based on an independent third-party appraisal, the Company valued this transaction at approximately \$1,136,600. The common stock was issued pursuant to an exemption from registration under Section 4(2) of the Securities Act of 1933, as amended, and no underwriter was used in this transaction.

Broadcast technology

On April 6, 2009, the Company entered into an Exclusive Licensing Agreement (Agreement) with Kerner Broadcasting Corporation, a Nevada Corporation (KBC) and Signet Entertainment Corporation, the Company's wholly-owned subsidiary. Pursuant to the Agreement, KBC granted the Company, through its subsidiary, the exclusive, nontransferable right and license to use, market, sell, and otherwise commercialize KBC's 3-Dimension (3-D) television technology.

On April 9, 2010, one of the principals of KBC confirmed to the Company that at the time it entered into the Agreement with us, KBC did not own the rights to the above referenced 3D technology and that KBC has since ceased all operations and has been dissolved as a corporation. We, in consultation with our legal counsel, are considering all available legal remedies that may be available as a consequence of KBC's conduct relative to this matter. However, the possibility of any recovery from an action we initiate may be remote.

As our management believes that this technology will be the next breakthrough in television production and broadcasting, we have started preliminary confidential negotiations with two other 3D technology developers that we believe have a viable product in an effort to obtain the required technology for the continued development of 3D TV Network.

Defined Business Model and Plan of Future Undertakings

Signet International Holdings' ultimate objective is to acquire whether by affiliation or asset purchase TV stations and/or TV Networks. Additionally, the company will pursue the acquisition of syndication and distribution entities along with film libraries and other intellectual properties along with original programming. The conclusive outcome of our business archetypically will be to take advantage of digital multiplexing distribution of TV programming of a TV Network. The Company will also endeavor to identify advanced cutting-edge technology in the 4-D volumetric delivery applications of which will be designed to be adapted for Computer, Television and Motion Pictures, Mobile devices and other applications. Once combined, these two missions, (TV Network and 4-D Applications,) will set our company distinctively aside and well apart from others.

THE ACQUISITION OF 4-D INTERACTIVE, LLC

On January 11, 2011 we executed a contract with 4-D Interactive, LLC a Florida Corporation active in the technology of volumetric advancements in mathematical applications as described below. The company is now a wholly owned subsidiary of Signet International Holdings, Inc.

4-D Volumetric Inventions. We have 2 fundamental inventions applicable to computers, television and movie theatres. It is important to note that these advances in media technology are "auto stereoscopic" and therefore do not require the use of glasses of any kind to enjoy their visual affects properties.

These inventions are:

1. A New display media technology for 2-D, 3-D and 4-D imaging in an ambient light environment. It allows the simultaneous display of many multiples of High Definition images (still or moving) on the same display without overlapping. The total number of possible displays is classified; however it is substantially greater than 100. To enable the reader to comprehend the implausible resolution of the new media, we offer the following example: if hundreds of people were all watching the same screen, they could choose to see from hundreds of totally different 3/4-D or standard 2-D motion pictures all playing at the same time on the same screen, naturally headsets would be required to separate the audio. This new display, in conjunction with the second invention described below, can also be incorporated as an attachment to a regular desktop computer. A lab prototype of the display elements has been finalized and it has confirmed the feasibility and viability that, as configured, it meets the level of resolution required to perform as described1.
2. A new method of 4-D data processing and a multi-dimensional input device. By the use of our new "source selection technology", this invention revolutionizes the way we communicate with computers. 4-D data processing replaces the conventional very slow process of data retrieval and makes this process a minimum of ten times faster even when working with existing computers. This technology and its device can be offered as an attachment on all of today's regular flat-screen computers.

A combination of these two inventions totally changes our everyday experience. Watching a computer screen as well as TV screen and a Motion Picture screen becomes totally autonomous. Viewing on the same display, one user can, in the case of a computer: watch a streaming TV production while another person can browse the Internet and yet another can write a letter. All do it at the same time. No one sees what you see. You do not see what others see. This same effect is obtainable in Theaters and TV.

THE ACQUISITION OF ACCESS MEDIA GROUP, INC. AND ITS SUBSIDIARY, AMG-TV

In 2009, Signet signed an acquisition agreement with the AMG TV Network. The AMG TV Network distributes its programming 24/7 365 to over 79 Million TV households in the USA and as many in Europe and also services delivery to all of the Caribbean New Zealand and Germany, with a footprint in Central and South America and a third quarter 2011 launch in Asia.

AMG-TV is one of the fastest growing broadcast networks in the industry, delivering television to viewers through affiliated broadcast stations and cable stations, Direct and Dish networks. AMG-TV programming is useful and informative, entertaining and distinctive; a slice of life with shows that highlight the entertainment wishes of viewers: Home Life, Adventure, Sports, Drama, Comedy, Health, Finance, Instruction, Travel and Children's programming.

AMG-TV currently holds over 2,000 titles at the Pittsburgh library. A second library of 1,500 feature films and vintage programming is housed outside of Dallas and the library in New Jersey consists of 500 music specials and films. These assets are available in numerous formats.

This advantage of owning our own Network is by far the dynamic which will enhance our efforts to gain public awareness and target sales demographics as we desire. Our products will be marketed under the "Signet" brand and we expect "Signet" to become a household word, therefore, Signet could assume the role of both manufacturer and distributor of all its technologies. We will set timeliness exposure of marketing sales campaigns including airing news and updated company information to the Public.

Future considerations

We continually evaluate all of the above components of our business plan, the current state of the domestic and international economies and the capital markets to attempt to develop a successful and viable business. However, at the time of this filing, we cannot predict whether or not our current plans will be ultimately be successful, remain as viable business opportunities or strategies, or we will seek to take advantage of other compatible situations that may be presented to us in future periods.

Employees

We currently have one employee, our sole officer, Ernest W. Letiziano. Mr. Letiziano is Chief Executive Officer and in that role Mr. Letiziano will be responsible for the implementation of our business plan. This will involve all the duties normally ascribed to a Chief Executive Officer for the day-to-day management of the business, including but not limited to: secure and manage revenues, manage costs and cash, safeguard assets, ensure proper reporting and compliance with reporting bodies, ensure that our stockholder s interests are protected, manage risk and escalate issues as appropriate to the Board, conduct regular reviews of the business with the Board, and contribute, faithfully and diligently, to the strategic development of the business.

Competition

With the growing availability of on-demand, self-programming and search features, along with increased competition from converging industry players in telecommunications and the Internet, the television industry has been and continues to face unparalleled complexity that will alter traditional TV business models. The entertainment industry is therefore, extremely competitive.

This competition comes from both companies within the industry and those who are engaged in other forms of entertainment media that create alternative forms of leisure entertainment. The increasing gap between the major networks and the smaller ones allows market space for smaller companies, such as Signet, to develop.

Currently the over the air networks may be identified by size according to the number of TV households they attract. The basic category or groupings of the major networks and several of the lesser but better known networks are as follows:

Major networks such as ABC, CBS, NBC, FOX

Major cable networks such as: ESPN, USA, Bravo, Fox Sports Net, UPN, PAX, The Travel Channel, The Tube
Smaller cable networks: Food Channel, Spike TV, HGTV, and Golf Channel

Smaller Cable/Satellite networks such as: CGTV Network (Canada), Variety Sports Network, TVG Horse Racing.

Such networks currently reach between one and eight million TV households.

We believe that our key competitive strategy rests in the diversification in business risk and delivery systems. We plan to be a provider of television content creation, packaging, programming and distribution; not only to our owned and operated LPTV stations, but via other distribution systems such as cable and satellite. Additionally, as previously discussed, we plan to have our own sports and entertainment network to offer to stations and cable systems.

We intend to develop and implement strategies that will not only serve this diverse audience but will achieve significant cost savings from the traditional supply chain in order to fund new delivery channels, whether it be cable, broadcast TV, full power or low power, the Internet or satellite.

The entertainment industry, and particularly the television industry, is a highly competitive commerce. Currently this industry continues to experience pressure from a period of mergers and acquisitions and fluctuating revenues which are dependent on current economic conditions. Once our presence is recognized, we anticipate that we will experience potential competitors who have greater financial, marketing, programming and broadcasting resources than we do.

The markets in which we have targeted to acquire are also in a constant state of change arising from such issues as technological improvements and economic and regulatory developments. Technological innovation and the resulting proliferation of television entertainment, such as cable television, wireless cable, satellite-to-home distribution services, pay-per-view and home video and entertainment systems, have fractionalized television viewing audiences and have subjected free over-the-air television broadcast stations to increased competition. We may not be able to compete effectively or adjust our business plans to meet changing market conditions. We are unable to predict what form of competition will develop in the future, the extent of the competition or its possible effects on our proposed businesses.

Government Regulation

The broadcasting industry is subject to regulation by the FCC pursuant to the Communications Act of 1934, as amended (the Communications Act). Approval by the FCC is required for the issuance, renewal and assignment of station operating licenses and the transfer of control of station licensees. Although we do not currently hold any FCC licenses, in the event that we acquire or are granted an FCC license in the future, the Company's business will be dependent upon its continuing to hold television broadcast licenses from the FCC, which licenses are issued for maximum terms of eight years. While in the vast majority of cases such licenses are renewed by the FCC, there can be no assurance that the Company will be able to renew licenses it acquires or is granted at their expiration dates. If such licenses were not renewed or acquisitions approved, we may lose revenue that we otherwise could have earned.

Although we do not currently own any broadcast properties, our business plan contemplates that we may acquire such properties through acquisition of LPTV stations. Based on same, Federal regulation of the broadcasting industry will limit our operating flexibility, which may affect our ability to generate revenue or reduce our costs in the event we acquire such broadcast properties. In addition, Congress and the FCC currently have under consideration, and may in the future adopt, new laws, regulations and policies regarding a wide variety of matters (including technological changes) that could, directly or indirectly, materially and adversely affect our ability to acquire broadcast properties and the operation and ownership of such broadcast properties. New Federal legislation may limit our ability to conduct our business in ways that we believe would be advantageous and may thereby negatively affect our operating results and strategic decisions.

We have not applied to acquire any existing or new FCC licenses. However, application will be made immediately subsequent to execution of an agreement which results in the acquisition of a license, LPTV station or other broadcast property. Although the waiting period for approval of such licenses can take between 60 -90 days, such period will have no effect on our business since we intend to assume responsibility only upon license approval.

Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements.

Such factors include, among others, the following: international, national and local general economic and market conditions; demographic changes; our ability to sustain, manage or forecast its growth; our ability to successfully make and integrate acquisitions; existing government regulations and changes in, or the failure to comply with, government regulations; adverse publicity; competition; fluctuations and difficulty in forecasting operating results; changes in business strategy or development plans; business disruptions; the ability to attract and retain qualified personnel; and other factors referenced in this and previous filings.

Given these uncertainties, readers of this Form 10-K and investors are cautioned not to place undue reliance on such forward-looking statements. We disclaim any obligation to update any such factors or to publicly announce the result of any revisions to any of the forward-looking statements contained herein to reflect future events or developments.

(2) Results of Operations

We had no revenue for either of the years ended December 31, 2012 or 2011.

Our total general and administrative operating expenses for each of the years ended December 31, 2012 and 2011 were approximately \$431,000 and \$315,000, respectively. Included in these expenses is approximately \$90,000 per year, for executive salaries and approximately \$101,000 and \$129,000 for the years ended December 31, 2012 and 2011, respectively, for administrative and other non-executive compensation during the same annual periods. Our non-compensation expenses were approximately \$241,000 and \$96,000 for each of the years ended December 31, 2012 and 2011, with the majority of these expenditures relating to office rents, as previously discussed, and legal and other professional fees. All of the above expenses relate, principally, to the consistent refinement and implementation of our business plan, the maintenance of the corporate entity and the preparation and filing of various periodic reports pursuant to the Securities Exchange Act of 1934, as required.

It is anticipated that future expenditure levels will increase when we implement our business plan and start full-scale operations.

Earnings per share for the respective years ended December 31, 2012 and 2011 were \$(0.05) and \$(0.05) based on the weighted -average shares issued and outstanding at the end of each respective period.

We do not expect to generate any meaningful revenue or incur operating expenses for purposes other than refining and implementing our business plan and maintaining our obligations as a reporting company under the Securities Exchange Act of 1934 unless and until such time that we begin meaningful operations.

At December 31, 2012 and 2011, respectively, we had working capital of approximately \$(1,500,000) and \$(1,400,000), respectively. The working capital deficit includes aggregate accrued officer and other compensation of approximately \$1,377,000 and \$1,186,000 which all concerned parties have agreed to defer payment of said accrued compensation until the Board of Directors deem payments be made on an appropriate timely basis or as financial conditions warrant.

It is the intent of management and significant stockholders to provide sufficient working capital necessary to support and preserve the integrity of the corporate entity. However, there is no legal obligation for either management or significant stockholders to provide additional future funding. Should this pledge fail to provide financing, we have not identified any alternative sources. Consequently, there is substantial doubt about our ability to continue as a going concern.

The need for capital may change dramatically as a result of any business acquisition or combination transaction. There can be no assurance that we will identify any such business, product, technology or company suitable for acquisition in the future. Further, there can be no assurance that we would be successful in consummating any acquisition on favorable terms or that it will be able to profitably manage the business, product, technology or company it acquires.

(3) Plan of Business

With the status of the current U. S. economy, we have experienced a significant reluctance of investors willing to enter into debt or equity financing. It has been determined that to spend additional time to pursue funding in the TV and Media industry other than the acquisition of AMG TV, and Intellectual Properties, Signet will seek only those investors interested in funding the AMG TV acquisition and operations and the possibilities of expanding the 3-D TV market into the AMG TV system. Based upon our ongoing review and understanding of the marketplace today, we believe that we will be able to take the appropriate steps to effectuate the acquisition of those companies or private inventors who own Intellectual Properties and successfully negotiate with them in the foreseeable future. However, our current financial condition and the condition of the capital markets in today's environment may not allow us to complete any acquisition in a timely manner including the acquisition of AMG TV.

At the present time, management has no commitments for raising additional operating capital. Accordingly, our future cash requirements are anticipated to be met through the sale of additional equity securities, short-term loans from executive officers and/or the proceeds of additional equity offerings in conjunction with the acquisition of AMG TV. Although we have verbal assurances from Mr. Letiziano that he will provide such interim working capital, there is no legal obligation for either management or significant stockholders to provide additional future funding. We may raise additional funds through public offerings of equity, securities convertible into equity or debt, or private offerings of securities. Our History from inception and onward are chronicled below:

Signet International Holdings, Inc.

On October 17, 2003 Signet Entertainment Corporation was incorporated for the purpose of launching a Gaming, Sports and Entertainment Television Network. The network will also cover via satellite and cable major sports and entertainment events and selected global events which have a sports format.

On February 2, 2005 Signet (formerly known as 51142, Inc.) was incorporated under the laws of the State of Delaware to engage in any lawful corporate undertaking, including, but not limited to, selected mergers and acquisitions.

On September 8, 2005, pursuant to a Stock Purchase Agreement and Share Exchange between Signet Entertainment Corporation, a private Florida corporation, and us (the "Agreement"), we obtained all of the issued and outstanding shares of Signet Entertainment. Pursuant to the Agreement, Signet Entertainment became our wholly owned subsidiary. Our business plan is to launch an International 3-D Television Network.

On March 8, 2007 the NASD assigned the stock symbol "SIGN" to Signet International Holdings, Inc. for the purpose of publicly trading our shares Over The Counter Bulletin Board.

On April 24, 2007 we signed a contract with FreeHawk Productions, Inc. in which we acquired the rights to 21 screen plays the content of which provides a variety of made for TV themes from comedy to drama and children's' topics.

On June 4, 2007 we signed a contract with Mr. John Derhak, author of Tales of the moe. Republic. This novel has sold in excess of five thousand copies and is gathering popularity. The TV adaptation will yield a number of series from each chapter which introduces unique characters.

On July 24, 2008 we signed an Option to acquire the assets and business of Access Media Group, Inc. the parent of AMG TV, the TV distribution and syndication company currently distributing its programs to in excess of 70 million TV households in the USA, all the Caribbean, New Zealand, Germany, Central and South America and a third quarter 2009 launch in Asia. AMG TV has multiplexing capabilities

On April 6, 2009 we signed an Exclusive Licensing Agreement with Kerner Broadcasting Corporation (KBC), a private Nevada corporation having exclusive rights to the Kerner 3-D TV technology. Kerner Optical Research (KOR) and its Kerner affiliated groups, San Rafael, CA, who together, indicated to have developed demonstrable technology to show they can deliver 3-D images to the television screen by means of a set top box.

On May 5, 2009 we incorporated Signet 3D Entertainment, Inc., for the purpose of licensing or acquiring 3-D Television technology to be employed to launch original programming and special events including establishing 3-D TV Network.

On September 17, 2009 we signed an Asset Purchase Agreement for the acquisition of Access Media Group, Inc. the parent of AMG TV. The Network has grown to in excess, of 78 million television households in the USA, and as a result AMG as shown an encouraging dynamic in advertising revenues. We have mutually agreed not to assume total responsibilities of AMG TV operations until we have settled our arrangements with the 3D technology group.

On September 19, 2009 we were advised by Kerner's President that a new Principal will be joining Kerner in the furtherance financial good of all concerned. Kerner cancelled all previously scheduled demonstrations and requested two weeks' time to introduce us to the new Principal would review our financial package and fund our Private Placement Memorandum.

On February 22, 2010 we served notice to Kerner advising of our intention to file our claim with the American Arbitration Association charging Kerner's unlawful transfer thereby impeding of our exclusive rights to a third party and to seek legal remedies for our loss of time and efforts in a scheduled 3 -D Network launch.

On March 1, 2010 we were advised by the former Kerner principals that a major reorganization of the company was effectuated and that on October 15, 2009 all original titles and rights to intellectual properties, patents, and other related technology were sold and transferred to Pllx3, Inc., a Delaware corporation operating in Santa Clarita, CA ,for undisclosed financial consideration. We subsequently learned that prior to executing the above contract on October 13, 2009; the original Kerner founders transferred most of their Intellectual Properties to their own new company, Visual 3-D Impressions, Inc., a California corporation (V3-DI) with the original founders being the only principals. In a May 2010 memo to Signet, the newly installed Principals of Pllx3 expressed their desires to move forward with us but would not recognize the Signet Exclusive Rights Agreement.

On May 1, 2010 we were advised by V3-DI that Pllx3 breached their contract and did not pay the balance due to V3-DI.

On May 25, 2010 we executed two separate Binding Letters of Intent for Acquisition of Pllx3, Inc. and V3-DI who were to become wholly-owned subsidiaries of Signet 3 D Entertainment, Inc. predicated upon the outcome of our due diligence procedures. We arranged to retain an Independent Technologist to accompany our Audit firm to examine, appraise and determine values and reconcile a purchase price.

On September 2, 2010 we rescinded our Acquisition Contract with V 3-DI and notified the principals of our election to immediately withdraw our interests in V3-DI and any continued relationship with its principals. It was also determined that in the best interest of our Company, we disassociate ourselves from Pllx3 as well; we allowed the closing terms of that contract to expire without further notice.

On January 11, 2011 we executed a Binding Letter of Intent for the acquisition of 4-D Interactive, LLC, a Florida Corporation organized to further apply its research efforts to 4-D, next- generation volumetric technology. The data results of this original technology have proven the accredited discovery of mathematical equations which demonstrate the 4-D Volumetric applications to be exact. The functionality of these technological mathematical discoveries will allow immediate direct application to the motion picture, computer and television industries. Patent papers, rights searches and prototype applications are currently in process. Because of the immense commercial possibilities of the technology subject matter, we have contacted industrial design to supply us with prototyping, manufacturing. We also will identify marketing support to combine efforts as directed by AMG TV.

(4) Capital Resources and Liquidity

As of December 31, 2012, we had approximately \$107,000 in cash. Our monthly cash requirements presently average approximately \$7,100 per month as our operating activities required approximately \$125,000 and \$65,000 for each of the years ended December 31, 2012 and 2011, respectively.

As reflected in the accompanying financial statements, we are in the development stage with no operations. Our ability to continue as a going concern is dependent on our ability to raise additional capital and implement our business plan. The financial statements do not include any adjustments that might be necessary if we are unable to

continue as a going concern. We have no plans to utilize any cash for payments of compensation to our sole officer and employee until we are properly funded. We intend to raise additional capital to continue our operations although there is no assurance we will be successful. Currently, we have no material commitments to make capital expenditures.

It is the intent of management and significant stockholders, if necessary, to provide sufficient working capital necessary to support and preserve the integrity of the corporate entity. However, there is no legal obligation for either management or significant stockholders to provide additional future funding. Should this pledge fail to provide financing, we have not identified any alternative sources. Consequently, there is substantial doubt about our ability to continue as a going concern.

Our need for capital may change dramatically as a result of any business acquisition or combination transaction. There can be no assurance that we will identify any such business, product, technology or company suitable for acquisition in the future. Further, there can be no assurance that we would be successful in consummating any acquisition on favorable terms or that it will be able to profitably manage the business, product, technology or company it acquires.

Management believes that actions presently being taken to obtain additional funding and implement its strategic plans provide the opportunity for us to continue as a going concern. We continue to be in the process of refining and implementing our business plan and raising additional capital. As such, the Company is considered to be a development stage company.

(5) Critical Accounting Policies

Our financial statements and related public financial information are based on the application of accounting principles generally accepted in the United States (GAAP). GAAP requires the use of estimates; assumptions, judgments and subjective interpretations of accounting principles that have an impact on the assets, liabilities, revenues and expense amounts reported. These estimates can also affect supplemental information contained in our external disclosures including information regarding contingencies, risk and financial condition. We believe our use of estimates and underlying accounting assumptions adhere to GAAP and are consistently and conservatively applied. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Actual results may differ materially from these estimates under different assumptions or conditions. We continue to monitor significant estimates made during the preparation of our financial statements.

Our significant accounting policies are summarized in the accompanying financial statements. While all these significant accounting policies impact our financial condition and results of operations, our views certain of these policies as critical. Policies determined to be critical are those policies that have the most significant impact on our financial statements and require management to use a greater degree of judgment and estimates. Actual results may differ from those estimates. Our management believes that given current facts and circumstances, it is unlikely that applying any other reasonable judgments or estimate methodologies would cause effect on our consolidated results of operations, financial position or liquidity for the periods presented in this report.

(6) Effect of Climate Change Legislation

We currently has no known or identified exposure to any current or proposed climate change legislation which could negatively impact our operations or require capital expenditures to become compliant. Additionally, any currently proposed or to-be-proposed-in-the-future legislation concerning climate change activities, business operations related thereto or a publicly perceived risk associated with climate change could, potentially, negatively impact our business activities.

Item 8 - Index to Financial Statements

Item 9 - Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

Item 9A - Controls and Procedures

Disclosure Controls and Procedures. Our management, under the supervision and with the participation of our Chief Executive Officer (CEO) and Chief Financial Officer (CFO), has evaluated the effectiveness of our disclosure controls and procedures as defined in Rules 13a-15 promulgated under the Exchange Act as of the end of the period covered by this Annual Report. Based on such evaluation, our CEO and CFO have concluded that, as of the end of the period covered by this Annual Report, our disclosure controls and procedures are effective. Disclosure controls and procedures are controls and procedures designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms and include controls and procedures designed to ensure that information we are required to disclose in such reports is accumulated and communicated to management, including our CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure.

Management's Annual Report on Internal Control over Financial Reporting. Management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rule 13a-15(f) of the Exchange Act.

Internal control over financial reporting is defined under the Exchange Act as a process designed by, or under the supervision of, our CEO and CFO and effected by our board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that:

- Pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of our assets;
- Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors; and
- Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the financial statements.

Because of its inherent limitation, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluations of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate. Accordingly, even an effective system of internal control over financial reporting will provide only reasonable assurance with respect to financial statement preparation.

Management's assessment of the effectiveness of the Company's internal control over financial reporting is as of the year ended December 31, 2011. Because we have only one officer and director, the Company's internal controls are deficient for the following reasons, (1) there are no entity level controls because there is only one person serving in the dual capacity of sole officer and director, (2) there are no segregation of duties as that same person approves, enters, and pays the Company's bills, and (3) there is no separate audit committee. As a result, the Company's internal controls have an inherent weakness which may increase the risks of errors in financial reporting under current operations and accordingly are deficient as evaluated against the criteria set forth in the Internal Control - Integrated Framework issued by the committee of Sponsoring Organizations of the Treadway Commission. Based on our evaluation, our management concluded that our internal controls over financial reporting were not effective as of December 31, 2011.

This Annual Report does not include an attestation report of our registered public accounting firm regarding our internal control over financial reporting. Management's report was not subject to attestation by our registered public accounting firm pursuant to temporary rules of the SEC that permit us to provide only management's report in this Annual Report.

Changes in Internal Control over Financial Reporting. There was no change in our internal control over financial reporting that occurred during the quarter ended December 31, 2012 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting which internal controls will remain deficient until such time as the Company completes a merger transaction or acquisition of an operating business at which time management will be able to implement effective controls and procedures.

Audit Committee

We do not have a standing audit committee of the Board of Directors. Management has determined not to establish an audit committee at present because of our limited resources and limited operating activities do not warrant the formation of an audit committee or the expense of doing so. We do not have a financial expert serving on the Board of Directors or employed as an officer based on management's belief that the cost of obtaining the services of a person who meets the criteria for a financial expert as defined in Regulation S-K is beyond its limited financial resources and the financial skills of such an expert are simply not required or necessary for us to maintain effective internal controls and procedures for financial reporting in light of the limited scope and simplicity of accounting issues raised in its financial statements at this stage of its development.

Financial Information System Design and Implementation: L.A. Prevratil, LLC did not charge the Company any fees for financial information system design and implementation fees.

The Company has no formal audit committee. However, the entire Board of Directors (Board) is the Company's defacto audit committee. In discharging its oversight responsibility as to the audit process, the Board obtained from the independent auditors a formal written statement describing all relationships between the auditors and the Company that might bear on the auditors' independence as required by the appropriate Professional Standards issued by the Public Company Accounting Oversight Board, the U. S. Securities and Exchange Commission and/or the American Institute of Certified Public Accountants. The Board discussed with the auditors any relationships that may impact their objectivity and independence, including fees for non-audit services, and satisfied itself as to the auditors' independence. The Board also discussed with management, the internal auditors and the independent auditors the quality and adequacy of the Company's internal controls.

The Company's principal accountant, L.A. Prevratil, LLC, engaged an outside firm other than the principal accountant's full-time, permanent employees for quality control review.

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

Effective May 6, 2003, the Securities and Exchange Commission adopted rules that require that before our auditor is engaged by us to render any auditing or permitted non-audit related service, the engagement be:

We do not have an audit committee. Our entire board of directors pre-approves all services provided by our independent auditors.

The pre-approval process has just been implemented in response to the new rules. Therefore, our board of directors does not have records of what percentages of the above fees were pre-approved. However, all of the above services and fees were reviewed and approved by the entire board of directors either before or after the respective services were rendered.

Letterhead of L.A. Prevratil, LLC

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Signet International Holdings, Inc.

We have audited the consolidated balance sheet of Signet International Holdings, Inc. (a Delaware corporation and a developmental stage company) as of December 31, 2012, 2011, and the related statements of income, stockholders' equity and comprehensive income, and cash flows for each of the years in the two-year period ended December 31, 2012. Signet International Holding's management is responsible for these financial statements. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Signet International Holdings, Inc. as of December 31, 2012 and 2011, and the results of its operations and its cash flows for each of the years in the two-year period ended December 31, 2012 and from October 17, 2003 (inception), to December 31, 2012, in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As shown in the financial statements, the Company has incurred net losses since its inception and has experienced severe liquidity problems. Those conditions raise substantial doubt about the Company's ability to continue as a going concern. Management's plans in regard to those matters also are described in Note C. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

(a development stage company)
Notes to Consolidated Financial Statements
December 31, 2012 and 2011

Note A - Organization and Description of Business

Signet International Holdings, Inc. (Company) was incorporated on February 2, 2005 in accordance with the Laws of the State of Delaware as 51142, Inc. The Company changed its corporate name to Signet International Holdings, Inc. in conjunction with the September 8, 2005 transaction discussed below.

On September 8, 2005, pursuant to a Stock Purchase Agreement and Share Exchange (Agreement) by and among Signet International Holdings, Inc. (Signet); Signet Entertainment Corporation (SIG) and the shareholders of SIG (Shareholders) (collectively SIG and the SIG shareholders shall be known as the "SIG Group"), Signet acquired 100.0% of the then issued and outstanding preferred and common stock of SIG for a total of 3,421,000 common shares and 5,000,000 preferred shares of Signet's stock issued to the SIG Group. Pursuant to the agreement, SIG became a wholly owned subsidiary of Signet.

Signet Entertainment Corporation was incorporated on October 17, 2003 in accordance with the Laws of the State of Florida. SIG was formed to establish a television network "The Gaming and Entertainment Network". To date, this effort has been incomplete.

The Company is considered in the development stage and, as such, has generated no significant operating revenues and has incurred cumulative operating losses of approximately \$2,964,000.

Note B - Preparation of Financial Statements

The acquisition of Signet Entertainment Corporation by Signet International Holdings, Inc. effected a change in control of Signet International Holdings, Inc. and is accounted for as a "reverse acquisition" whereby Signet Entertainment Corporation is the accounting acquirer for financial statement purposes. Accordingly, for all periods subsequent to the "reverse merger" transaction, the financial statements of the Signet International Holdings, Inc. will reflect the historical financial statements of Signet Entertainment Corporation from its inception and the operations of Signet International Holdings, Inc. subsequent to the September 8, 2005 transaction date.

The Company follows the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America and has a year-end of December 31.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Management further acknowledges that it is solely responsible for adopting sound accounting practices, establishing and maintaining a system of internal accounting control and preventing and detecting fraud. The Company's system of internal accounting control is designed to assure, among other items, that 1) recorded transactions are valid; 2) valid transactions are recorded; and 3) transactions are recorded in the proper period in a timely manner to produce financial statements which present fairly the financial condition, results of operations and cash flows of the Company for the respective periods being presented.

The accompanying consolidated financial statements contain the accounts of Signet International Holdings, Inc. and its wholly-owned subsidiary, Signet Entertainment Corporation. All significant intercompany transactions have been eliminated. The consolidated entities are collectively referred to as “Company”.

Note C - Going Concern Uncertainty

The Company is still in the process of developing and implementing its business plan and raising additional capital. As such, the Company is considered to be a development stage company.

Notes to Consolidated Financial Statements - Continued

December 31, 2012 and 2011

Note C - Going Concern Uncertainty - Continued

The Company's continued existence is dependent upon its ability to generate sufficient cash flows from operations to support its daily operations as well as provide sufficient resources to retire existing liabilities and obligations on a timely basis.

The Company anticipates that future sales of equity securities to fully implement its business plan or to raise working capital to support and preserve the integrity of the corporate entity may be necessary. There is no assurance that the Company will be able to obtain additional funding through the sales of additional equity securities or, that such funding, if available, will be obtained on terms favorable to or affordable by the Company.

If no additional capital is received to successfully implement the Company's business plan, the Company will be forced to rely on existing cash in the bank and upon additional funds which may or may not be loaned by management and/or significant stockholders to preserve the integrity of the corporate entity at this time. In the event, the Company is unable to acquire sufficient capital, the Company's ongoing operations would be negatively impacted.

It is the intent of management and significant stockholders to provide sufficient working capital necessary to support and preserve the integrity of the corporate entity. However, no formal commitments or arrangements to advance or loan funds to the Company or repay any such advances or loans exist. There is no legal obligation for either management or significant stockholders to provide additional future funding.

While the Company is of the opinion that good faith estimates of the Company's ability to secure additional capital in the future to reach our goals have been made, there is no guarantee that the Company will receive sufficient funding to sustain operations or implement any future business plan steps.

Note D - Summary of Significant Accounting Policies

1. Cash and cash equivalents

For Statement of Cash Flows purposes, the Company considers all cash on hand and in banks, certificates of deposit and other highly-liquid investments with maturities of three months or less, when purchased, to be cash and cash equivalents.

3. Research and development expenses

Note D - Summary of Significant Accounting Policies - Continued

5. Income Taxes - continued

The Company uses the asset and liability method of accounting for income taxes. At December 31, 2012 and 2011, respectively, the deferred tax asset and deferred tax liability accounts, as recorded when material to the financial statements, are entirely the result of temporary differences. Temporary differences generally represent differences in the recognition of assets and liabilities for tax and financial reporting purposes, primarily accumulated depreciation and amortization, allowance for doubtful accounts and vacation accruals.

The Company has adopted the provisions required by the Income Taxes topic of the FASB Accounting Standards Codification. The Codification Topic requires the recognition of potential liabilities as a result of management's acceptance of potentially uncertain positions for income tax treatment on a "more-likely-than-not" probability of an assessment upon examination by a respective taxing authority. As a result of the implementation of the Codification's Income Tax Topic, the Company did not incur any liability for unrecognized tax benefits.

6. Earnings (loss) per share

Basic earnings (loss) per share is computed by dividing the net income (loss) available to common shareholders by the weighted-average number of common shares outstanding during the respective period presented in our accompanying financial statements.

Fully diluted earnings (loss) per share is computed similar to basic income (loss) per share except that the denominator is increased to include the number of common stock equivalents (primarily outstanding options and warrants).

Common stock equivalents represent the dilutive effect of the assumed exercise of the outstanding stock options and warrants, using the treasury stock method, at either the beginning of the respective period presented or the date of issuance, whichever is later, and only if the common stock equivalents are considered dilutive based upon the Company's net income (loss) position at the calculation date.

At December 31, 2012 and 2011, and subsequent thereto, the Company's issued and outstanding preferred stock is considered anti-dilutive due to the Company's net operating loss position.

7. Pending and/or New Accounting Pronouncements

The Company is of the opinion that any pending accounting pronouncements, either in the adoption phase or not yet required to be adopted, will not have a significant impact on the Company's financial position or results of operations.

Note E - Fair Value of Financial Instruments

The carrying amount of cash, accounts receivable, accounts payable and notes payable, as applicable, approximates fair value due to the short term nature of these items and/or the current interest rates payable in relation to current market conditions.

Interest rate risk is the risk that the Company's earnings are subject to fluctuations in interest rates on either investments or on debt and is fully dependent upon the volatility of these rates. The Company does not use derivative instruments to moderate its exposure to interest rate risk, if any.

Financial risk is the risk that the Company's earnings are subject to fluctuations in interest rates or foreign exchange rates and are fully dependent upon the volatility of these rates. The company does not use derivative instruments to moderate its exposure to financial risk, if any.

The Company has 180 days to complete the acquisition after serving notice to AMG TV that the Company intends to exercise the option and is actively pursuing capital resources in order to exercise the option and integrate these operations according to the Company's Business Plan.

On September 18, 2009, the Company and the owners of Access Media Group, Inc. executed an Asset Purchase Agreement (Purchase Agreement) whereby the Company will acquire "... one hundred percent (100%) of the Pittsburgh, PA leased facility (and/or any other leased facility owned or leased by Seller), licenses, equipment and ancillaries of the assets listed and identified on Exhibit A which includes a list of Affiliates and Clearances and all other assets including but not limited to intellectual properties, leases, licenses, permits, clients lists, contracts, applications pending or otherwise owned by AMG-TV without lien or security interest. The purchase price is approximately \$3,000,000 composed of 100,000 shares of common stock valued at \$5.00 per share and a note payable of \$2,500,000. The \$2,500,000 note payable bears interest at prime plus 2%, [accruing from September 18, 2009] and is payable in increments of \$100,000 starting on the 180th day after September 18, 2009 and \$100,000 every 90 days thereafter. This Purchase Agreement was originally scheduled to close and become effective as of January 1, 2010; however, in March 2010, the Company and Access Media Group, Inc. mutually agreed to defer the closing on this Purchase Agreement with no other changes to the terms and conditions until funding sources can be arranged.

Note G - Broadcast and Intellectual Properties

On April 20, 2007, the Company entered into a new purchase agreement with FreeHawk for 100% of the rights to 21 television series to be produced by FreeHawk exclusively for Signet. The total consideration paid by the Company for these rights was 270,000 shares of restricted, unregistered common stock and a \$50,000 open account payable. Based on an independent third-party appraisal, the Company valued this transaction at approximately \$2,870,625. The common stock was issued pursuant to an exemption from registration under Section 4(2) of the Securities Act of 1933, as amended, and no underwriter was used in this transaction.

On May 22, 2007, the Company acquired the exclusive television rights to "Tales From The moe.Republic", by John E. Derhak. This full-length novel is in the process of being published and is currently being sold in an abridged, autographed limited edition through the website www.moerepublic.org. Total consideration paid by the Company for these rights was 113,662 shares of restricted, unregistered common stock and a \$25,000 open account payable. Based

on an independent third-party appraisal, the Company valued this transaction at approximately \$1,136,600. The common stock was issued pursuant to an exemption from registration under Section 4(2) of the Securities Act of 1933, as amended, and no underwriter was used in this transaction.

On July 19, 2005, the Company issued 1,000,000 shares of preferred stock to an existing shareholder and Company officer for services related to the organization and structuring of the Company and its proposed business plan. This transaction was valued at approximately \$10,000, which approximates the value of the services provided.

Concurrent with the reverse merger transaction, these shareholders exchanged their Signet Entertainment Corporation preferred stock for equivalent shares of Signet International Holdings, Inc. Series A Super Preferred stock, as described above.

Note J - Common Stock Transactions

On October 17, 2003 and November 1, 2003, in connection with the incorporation and formation of the Company, an aggregate of approximately 3,294,000 shares of restricted, unregistered shares of common stock and were issued to various founding individuals. This combined preferred stock and common stock issuances were collectively valued at approximately \$40,810, which approximated the fair value of the time provided by the individuals and the related out-of-pocket expenses.

On June 16, 2004 and December 3, 2004, the Company sold, in three separate transactions to three unrelated individuals, an aggregate 70,000 shares of restricted, unregistered common stock for \$35,000 cash. These shares were sold pursuant to an exemption from registration under Section 4(2) of the Securities Act of 1933, as amended, and no underwriter was used any of the three transactions.

Between July 20, 2005 and August 26, 2005, Signet Entertainment Corporation sold an aggregate 57,000 shares of common stock to existing and new shareholders at a price of \$0.01 per share for gross proceeds of approximately \$570. As this selling price was substantially below the "fair value" of comparable transactions, the Company recognized a charge to operations for consulting expense equivalent to the difference between the established "fair value" of \$1.00 per share (as determined by the pricing in the September 2005 Private Placement Memorandum) and the selling price of \$0.01 per share.

On September 9, 2005, the Company commenced the sale of common stock pursuant to a Private Placement Memorandum in a self-underwritten offering. This Memorandum is offering for sale to persons who qualify as accredited investors and to a limited number of sophisticated investors, on a best efforts basis, up to 2,000,000 of our common shares at \$1.00 per share, for anticipated gross proceeds of \$2,000,000. The common shares will be offered through the Company's officers and directors on a best-efforts basis. The minimum investment is \$1,000, however, the Company might, at its sole discretion, accept subscriptions for lesser amounts. Funds received from all subscribers will be released to the Company upon acceptance of the subscriptions by the Company's management. Through December 31, 2006, the Company has sold an aggregate 381,000 shares for gross proceeds of \$381,000 under this Memorandum.

On March 31, 2006, the Company repurchased 50,000 shares of common stock from the estate of a deceased shareholder which purchased said shares for \$50,000 cash pursuant to the aforementioned September 2005 Private Placement Memorandum for \$50,000 cash. In June 2006, the Company's Board of Directors cancelled these shares and returned them to unissued status.

On June 22, 2006, the Company issued 250,000 shares of unregistered, restricted common stock, valued at \$0.50 per share or \$125,000, in payment of consulting fees. As the agreed-upon value of the services provided was less than the "fair value" of comparable transactions, the Company has recognized an additional charge to Consulting Fees equivalent to the difference between the established "fair value" of \$1.00 per share (as determined by the pricing in the September 2005 Private Placement Memorandum) and the agreed-upon value of \$0.50 per share in the corresponding line item in the Company's Statement of Operations.
