1. ORGANIZATION

China Gewang Biotechnology, Inc. (the “Company”), formerly known as Rich Star Development, was incorporated under the laws of the State of Nevada on May 29, 2009. From its inception until the closing of the reverse merger described below, the Company was a development-stage company in the business of sourcing and distributing food products, paper products, janitorial products, restaurant utensils and equipment to the food service industry in the PRC.

On April 20, 2015, the Company completed a reverse merger transaction through a share exchange with the stockholders of Biotechnology International Holding Ltd. (“Biotechnology International”), whereby the Company acquired 100% of the outstanding shares of Biotechnology International in exchange for 32,000,000 shares of its common stock, representing 90.14% of the issued and outstanding shares of common stock. As a result of the reverse merger, Biotechnology International became the Company’s wholly-owned subsidiary and the former Biotechnology International stockholders became our controlling stockholders. The share exchange transaction was treated as a reverse acquisition, with Biotechnology International as the acquirer and the Company as the acquired party for accounting purposes.

On January 8, 2015, the Company filed a certificate of amendment to its articles of incorporation to change its name from “Rich Star Development” to “China Gewang Biotechnology, Inc.”

On July 20, 2016 the Company filed with the Nevada Secretary of State a Certificate of Amendment to Articles of Incorporation. The Certificate of Amendment increased the number of authorized shares of common stock from 75 million to 100 million.

Majority-owned subsidiary: Guangdong Gewang

As a result of the transaction with Biotechnology International, the Company owns all of the issued and outstanding common stock of Hong Kong Gewang Holdings Group Limited (“Hong Kong Gewang”), a wholly-owned subsidiary of Biotechnology International, which in turn owns all of the issued and outstanding common stock of Gewang Selenium Enrichment Information Consulting (Shenzhen) Co., Ltd. (“Gewang Selenium”). Before August 8, 2016, the Company effectively and substantially controlled Guangdong Gewang Biotechnology Co., Ltd. (“Guangdong Gewang”) through a series of captive agreements between Guangdong Gewang and Gewang Selenium. Guangdong Gewang, incorporated under the laws of the People’s Republic of China (“PRC”) on June 2010, is primarily engaged in the sale of selenium supplements within the PRC. It is a member of the Chinese Selenium Supplements Association.

CHINA GEWANG BIOTECHNOLOGY, INC. AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED FEBRUARY 28, 2017 AND FEBRUARY 29, 2016

(UNAUDITED) (IN U.S. \$)

1. ORGANIZATION (continued)

On July 13, 2016, Gewang Selenium exercised its option to purchase all of the registered equity of Guangdong Gewang. The purchase price paid for the equity was RMB10,000 (approximately US\$1,500). The equity was purchased from Shili Zhang, Yun Zeng and Wei Xu. Shili Zhang was the Company's CEO until April 8, 2016 and is the father of Mengdi Zhang, who was the beneficial owner of 22.7% of the Company's outstanding common stock at the time of the sale on July 13, 2016. The other two sellers are not affiliated with the Company.

Upon application to the provincial government for registration of the transfer of equity, the Company was informed that Gewang Selenium would not be permitted to own 100% of Guangdong Gewang. Therefore the parties modified the exercise of the option to provide that Gewang Selenium would purchase only 98% of the registered equity of Guangdong Gewang. The purchase price paid for the equity was RMB 9,800 (approximately US\$1,500). The remaining 2% of the registered equity was then sold by Yun Zeng to Haiping Wu for a price of RMB 200,000 (approximately US\$30,400), which equaled 2% of the registered equity of Guangdong Gewang. Haiping Wu is a Director of Guangdong Gewang. The acquisition, as modified, was then approved by the provincial government on August 8, 2016.

Prior to the acquisition, Gewang Selenium controlled Guangdong Gewang through a series of contractual agreements, which made Guangdong Gewang a variable interest entity, the effect of which was to cause the balance sheet and operating results of Guangdong Gewang to be consolidated with those of Gewang Selenium in the Company's financial statements. As a result of the acquisition by Gewang Selenium of the registered ownership of Guangdong Gewang, the balance sheet and operating results of Guangdong Gewang will hereafter continue to be consolidated with those of Gewang Selenium as its majority-owned subsidiary. The previous non-controlling interest was reclassified to additional paid-in-capital.

The business of Guangdong Gewang consists of:

Sale of selenium supplements

Through a partnership with the Academy of Agricultural Sciences of Shangdong Province (the “Academy”), a highly regarded research institute in China, the Company has licensed the exclusive right to contract for the manufacture and marketing of products, two selenium capsules and one selenium powder, using formulas developed and owned by the Academy.

CHINA GEWANG BIOTECHNOLOGY, INC. AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED FEBRUARY 28, 2017 AND FEBRUARY 29, 2016

(UNAUDITED) (IN U.S. \$)

1. ORGANIZATION (continued)

Sale of selenium products

In March 2016, the Company signed cooperation agreements with six selenium enriched food product manufacturers, providing for Guangdong Gewang to distribute 89 distinct selenium products to chain stores. The products include processed foods such as selenium enriched porridge, ready to eat foods such as selenium enriched peanuts and ingredients such as selenium enriched flower. The Company is actively engaged in marketing healthy selenium rich foods including Selenium Rich Maize Residue, Selenium Rich Brown Rice, Selenium Enriched Black Beans, Selenium Enriched Buckwheat Kernel and Selenium Enriched Ormosia. The Company's distribution of these foods compliments the Company's sale of selenium supplements by raising awareness of the need for selenium in the diets of our target consumer market.

Equity investment: Guangdong Tianmei

On April 28, 2016, the Company's wholly-owned subsidiary, Biotechnology International, entered into an investment agreement with Guangdong Tianmei Selenium-Rich Beverage Chain Co., Ltd. ("Guangdong Tianmei"). Guangdong Tianmei was organized in May 2015, and is engaged in the business of distributing selenium-rich bottled water and also functions as a placement agent for a variety of products from various manufacturers, all within the PRC. The investment agreement provided that Biotechnology International would pay US\$1,000,000 to acquire a 30% interest in an Australian corporation to be formed, which would indirectly own all of the equity in Guangdong Tianmei.

The foregoing acquisition by Biotechnology International of 30% of Tianmei Beverage Group Corporation Limited, an Australian corporation ("Tianmei Australia"), was completed in May 2016, at which time Tianmei Australia acquired ownership, through subsidiaries, of Guangdong Tianmei. The \$1,000,000 purchase price was paid in full on June 17, 2016.

On February 23, 2017, Guangdong Tianmei entered into an acquisition agreement with Chenzhou Qianlifeng Beverage Co., Ltd. (“Chenzhou Qianlifeng”). Chenzhou Qianlifeng specializes in the production of selenium-rich water, and was contracted by Guangdong Tianmei to bottle selenium-rich water under Guangdong Tianmei’s label. The acquisition agreement provided that Guangdong Tianmei would pay RMB 5,000,000 (approximately US\$724,600) to acquire a 100% interest in Chenzhou Qianlifeng. The total price was fully paid on February 23, 2017.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED FEBRUARY 28, 2017 AND FEBRUARY 29, 2016

(UNAUDITED) (IN U.S. \$)

1. ORGANIZATION (continued)

As a result of the entry into the foregoing agreements, the Company has a corporate structure which is as follows:

CHINA GEWANG BIOTECHNOLOGY, INC. AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED FEBRUARY 28, 2017 AND FEBRUARY 29, 2016

(UNAUDITED) (IN U.S. \$)

2.SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting and presentation

The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. The consolidated financial statements include those of the Company and its subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

The unaudited interim consolidated financial statements of the Company as of February 28, 2017, and for the three months ended February 28, 2017 and February 29, 2016 have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) and the rules and regulations of the Securities and Exchange Commission (the “SEC”) which apply to interim financial statements. Accordingly, they do not include all of the information and footnotes normally required by accounting principles generally accepted in the United States of America for annual financial statements. In the opinion of management, such information contains all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of the results for the periods presented. The results of operations for the three months ended February 28, 2017 are not necessarily indicative of the results to be expected for future quarters or for the year ending November 30, 2017. The interim consolidated financial information should be read in conjunction with the consolidated financial statements and the notes thereto, included in the Company’s Form 10-K filed with the SEC.

The Company uses the equity method of accounting for its equity investment in Tianmei Australia. Under the equity method, investments are carried at cost and increased or decreased by the Company’s pro-rata share of earnings or losses. The carrying costs of these investments is also increased or decreased to reflect additional contributions or withdrawals of capital. Any difference in the book equity and the Company’s pro-rata share of the net assets of the investment will be reported as gain or loss at the liquidation of the investment. Losses in excess of the investment are recorded when the Company is committed to provide additional financial support. The Company uses the equity method for its 30% investment because the Company has the ability to exercise significant influence over Tianmei

Australia and its subsidiaries.

The consolidated financial statements and notes to the consolidated financial statements are presented in United States dollars (“US Dollar” or “US\$” or “\$”).

CHINA GEWANG BIOTECHNOLOGY, INC. AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED FEBRUARY 28, 2017 AND FEBRUARY 29, 2016

(UNAUDITED) (IN U.S. \$)

2.SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Use of estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Foreign currency translations

Almost all of the Company assets are located in the PRC. The functional currency for the Company's operations is the Renminbi ("RMB"). The Company uses the United States Dollar ("US Dollar" or "US\$" or "\$") for financial reporting purposes. The financial statements of the Company have been translated into US Dollars in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Section 830, "*Foreign Currency Matters*."

All asset and liability accounts have been translated using the exchange rate in effect at the balance sheet date. Equity accounts have been translated at their historical exchange rates when the capital transactions occurred. Statements of income and comprehensive income, changes in stockholders' equity and cash flows have been translated using the average exchange rate for the periods presented. Adjustments resulting from the translation of the Company's financial statements are recorded as other comprehensive income (loss).

CHINA GEWANG BIOTECHNOLOGY, INC. AND SUBSIDIARIES**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****FOR THE THREE MONTHS ENDED FEBRUARY 28, 2017 AND FEBRUARY 29, 2016****(UNAUDITED) (IN U.S. \$)****2.SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****Foreign currency translations (continued)**

The exchange rates used to translate amounts in RMB into US Dollars for the purposes of preparing the financial statements are as follows:

	February 28, 2017 (Unaudited)	November 30, 2016
Balance sheet items, except for stockholders' equity, as of periods end	0.1456	0.1452
		Three Months Ended February 29, 2016 (Unaudited)
Amounts included in the statements of income and comprehensive income, changes in stockholders' equity and cash flows for the periods presented	0.1449	0.1533

For the three months ended February 28, 2017 and February 29, 2016, foreign currency translation adjustments of \$52,792 and \$(186,413), respectively, have been reported as other comprehensive income (loss). Other comprehensive income (loss) of the Company consists entirely of foreign currency translation adjustments.

Although the PRC government regulations now allow convertibility of the RMB for current account transactions, significant restrictions still remain. Hence, such translations should not be construed as representations that the RMB could be converted into US Dollars at that rate or any other rate.

The value of the RMB against the US Dollar and other currencies may fluctuate and is affected by, among other things, changes in the PRC's political and economic conditions. Any significant revaluation of the RMB may materially affect the Company's financial condition in terms of US Dollar reporting. During the year ended December 31, 2016, the PRC devalued its currency by approximately 8%. Further devaluations of its currency could occur in the future.

CHINA GEWANG BIOTECHNOLOGY, INC. AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED FEBRUARY 28, 2017 AND FEBRUARY 29, 2016

(UNAUDITED) (IN U.S. \$)

2.SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue recognition

Revenues are primarily derived from selling selenium supplements and selenium products to wholesale customers, contract distributors, and from our retail stores. The Company's revenue recognition policies comply with FASB ASC 605 "*Revenue Recognition*." The Company recognizes revenue when the following fundamental criteria are met: (i) persuasive evidence of an arrangement exists, (ii) delivery has occurred, (iii) the price paid by the customer is fixed or determinable and (iv) collection of the resulting accounts receivable is reasonably assured. The Company recognizes revenue for sales upon transfer of title to the customers. Customer purchase orders and/or contracts are generally used to determine the existence of an arrangement. Shipping documents and the completion of any customer acceptance requirements, when applicable, are used to verify product delivery. The Company assesses whether a price is fixed or determinable based upon the payment terms associated with the transaction and whether the sales price is subject to refund or adjustment. For manufacturing defects identified by customers at acceptance, the Company will return the goods to the manufacturer and receive replacements. The Company has had no product returns or sales discounts and allowances because goods delivered and accepted by customers are not returnable.

Wholesale Revenue

Wholesale revenue is recognized when title to the product is transferred to the distributors. Title is transferred upon receipt at the distributors' locations, as determined by the specific sales terms.

The Company pays distributors certain incentives for promoting and placing its products, which allows the Company to quickly expand its distribution network and sales volume. The costs associated with these incentives is deducted from gross revenue in the consolidated statements of income and comprehensive income.

CHINA GEWANG BIOTECHNOLOGY, INC. AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED FEBRUARY 28, 2017 AND FEBRUARY 29, 2016

(UNAUDITED) (IN U.S. \$)

2.SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue recognition (continued)

Retail Revenue

Company-operated retail store revenues are recognized when payment is tendered at the point of sale.

The Company's net revenues for the three months ended February 28, 2017 and February 29, 2016 were comprised as follows:

	2017	2016
Wholesale gross revenue-selenium supplements	\$3,075,103	\$829,085
Wholesale gross revenue-selenium products	18,013,025	-
Less: promotion fees-selenium products,	(2,074,411)	-
Wholesale revenues, net	19,013,717	829,085
Retail revenue-selenium supplements	1,207,534	389,013
Retail revenue-selenium products	920,881	-
	\$21,142,132	\$1,218,098

Shipping costs

Shipping costs incurred by the Company are recorded as selling expenses. Shipping costs for the three months ended February 28, 2017 and February 29, 2016 were \$25,593 and \$15,026, respectively.

Advertising costs

Advertising costs are charged to operations when incurred. For the three months ended February 28, 2017 and February 29, 2016, advertising expenses were \$449,044 and \$21,462, respectively.

Cash and cash equivalents

The Company considers all demand and time deposits and all highly liquid investments with an original maturity of three months or less to be cash equivalents.

CHINA GEWANG BIOTECHNOLOGY, INC. AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED FEBRUARY 28, 2017 AND FEBRUARY 29, 2016

(UNAUDITED) (IN U.S. \$)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Accounts receivable

Accounts receivable are recorded at the contract amount after deduction of trade discounts and, allowances, if any, and do not bear interest. The allowance for doubtful accounts, when necessary, is the Company's best estimate of the amount of probable credit losses from accounts receivable. The Company determines the allowance based on historical write-off experience, the level of past-due accounts based on the contractual terms of the receivable, the relationship with the customer and current economic conditions.

Account balances are charged off against the allowance after all means of collection have been exhausted and the potential for recovery is considered remote. The Company does not have any off-balance-sheet credit exposure related to its customers.

As of February 28, 2017 and November 30, 2016, accounts receivable were \$14,374,154 and \$11,205,011, respectively. The increase is primarily due to the recent sales with new wholesale distributors, which has been subsequently fully collected. Therefore, the Company determined that an allowance for doubtful accounts was not necessary. Historically, the Company did not have any uncollectable accounts receivable.

Inventory

Inventory, comprised principally of boxed selenium capsules, selenium-glossy ganoderma capsules and selenium powder, is valued at the lower of cost or market. The value of inventory is determined using the first-in, first-out method.

The Company periodically estimates an inventory allowance for estimated unmarketable inventories when necessary. Inventory amounts are reported net of such allowances, if any. There were no allowances for inventory as of February 28, 2017 and November 30, 2016.

Property and Equipment

Fixed assets are recorded at cost, less accumulated depreciation. Cost includes the prices paid to acquire the assets, and any expenditures that substantially increase an asset's value or extends the useful life of an existing asset. Depreciation is computed using the straight-line method over the estimated useful lives of the assets. Major repairs and betterments that significantly extend original useful lives or improve productivity are capitalized and depreciated over the periods benefited. Maintenance and repairs are generally expensed as incurred. The estimated useful lives for fixed asset categories are as follows:

Furniture and equipment	3-5years
Motor vehicles	4 years

CHINA GEWANG BIOTECHNOLOGY, INC. AND SUBSIDIARIES

(UNAUDITED) (IN U.S. \$)

2.SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fair value of financial instruments

FASB ASC 820, “*Fair Value Measurement*” specifies a hierarchy of valuation techniques based upon whether the inputs to those valuation techniques reflect assumptions other market participants would use based upon market data obtained from independent sources (observable inputs). In accordance with ASC 820, the following summarizes the fair value hierarchy:

- | | |
|---------------------|--|
| Level 1
Inputs – | Unadjusted quoted market prices for identical assets and liabilities in an active market that the Company has the ability to access. |
| Level 2
Inputs – | Inputs other than the quoted prices in active markets that are observable either directly or indirectly. |
| Level 3
Inputs – | Inputs based on valuation techniques that are both unobservable and significant to the overall fair value measurements. |

ASC 820 requires the use of observable market data, when available, in making fair value measurements. When inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Company did not identify any assets or liabilities that are required to be presented at fair value on a recurring basis. Carrying values of non-derivative financial instruments, including cash and cash equivalents, accounts receivable, inventory, prepaid expenses, accounts payable, taxes payable, accrued liabilities and other payables, and loan from stockholder, approximated their fair values due to the short nature of these financial instruments. There

were no changes in methods or assumptions during the periods presented.

CHINA GEWANG BIOTECHNOLOGY, INC. AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED FEBRUARY 28, 2017 AND FEBRUARY 29, 2016

(UNAUDITED) (IN U.S. \$)

2.SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Prepaid expenses

Prepaid expenses primarily consist of promotion expenses, rent, advertising expenses and licensing fees.

Prepaid promotion expenses represent prepayments made to resellers for distributing our products to retail stores. Prepaid promotion expenses as of February 28, 2017, and November 30, 2016 were \$2,653,684 and \$4,275,602, respectively.

On January 5, 2011, the Company entered into a license agreement for the technology utilized for the manufacture of its selenium capsules and powder products from an unrelated third party for five years from January 2011 to December 2015. On December 30, 2015, the Company renewed the license agreement for another five years to December 2020 for \$86,912 (RMB 600,000) each year. The related prepaid licensing fees as of February 28, 2017, and November 30, 2016 were \$72,785 and \$7,259, respectively. The license provides for renewal options. Since this agreement requires the advance payment of the annual licensing fee, there were no minimum payments remaining under this agreement as of February 28, 2017 and November 30, 2016.

On September 30, 2016, the Company entered into a six-month agreement with an advertising company for \$908,725 (RMB 6,000,000). As of February 28, 2017, and November 30, 2016, the unamortized balance of \$145,570 and \$605,816, respectively, was included in prepaid expenses on the balance sheet.

Impairment of long-lived assets

The Company applies FASB ASC 360, "*Property, Plant and Equipment*," which addresses the financial accounting and reporting for the recognition and measurement of impairment losses for long-lived assets. In accordance with ASC 360, long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The Company will recognize the impairment of long-lived assets in the event the net book value of such assets exceeds the future undiscounted cash flows attributable to those assets. No impairment of long-lived assets was recognized for the three months ended February 28, 2017 and February 29, 2016.

FOR THE THREE MONTHS ENDED FEBRUARY 28, 2017 AND FEBRUARY 29, 2016

(UNAUDITED) (IN U.S. \$)

2.SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Statutory reserve fund

Pursuant to corporate law of the PRC, the Company is required to transfer 10% of its net income, as determined under PRC accounting rules and regulations, to a statutory reserve fund until such reserve balance reaches 50% of the Company's registered capital. The statutory reserve fund is non-distributable other than during liquidation and can be used to fund previous years' losses, if any, and may be utilized for business expansion or used to increase registered capital, provided that the remaining reserve balance after use is not less than 25% of registered capital. The statutory reserve fund was \$759,094 as of February 28, 2017 and November 30, 2016, respectively. As of November 30, 2016, the required statutory reserve fund has been fully funded.

Income taxes

The Company accounts for income taxes in accordance with FASB ASC 740, "*Income Taxes*" ("ASC 740"), which requires the recognition of deferred income taxes for differences between the basis of assets and liabilities for financial statement and income tax purposes. Deferred tax assets and liabilities represent the future tax consequences for those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled. Deferred taxes are also recognized for operating losses that are available to offset future taxable income. A valuation allowance is established when necessary to reduce deferred tax assets to the amount expected to be realized.

ASC 740 addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under ASC 740, the Company may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position would be measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. ASC 740 also provides guidance on de-recognition of income tax assets and

liabilities, classification of current and deferred income tax assets and liabilities, and accounting for interest and penalties associated with tax positions. As of February 28, 2017 and November 30, 2016, the Company does not have a liability for any unrecognized tax benefits. The Company's tax filings are subject to examination by the tax authorities. The tax years of 2013, 2014 and 2015 remain open to examination by tax authorities in the PRC.

CHINA GEWANG BIOTECHNOLOGY, INC. AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED FEBRUARY 28, 2017 AND FEBRUARY 29, 2016

(UNAUDITED) (IN U.S. \$)

2.SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Income taxes (continued)

The income tax laws of various jurisdictions in which the Company and its subsidiaries operate are summarized as follows:

United States

The Company is subject to United States tax at graduated rates from 15% to 35%. No provisions for income tax in the United States have been made as the Company had no U.S. taxable income for the three months ended February 28, 2017 and February 29, 2016.

British Virgin Islands (“BVI”)

Biotechnology International is incorporated in the BVI and is governed by the income tax laws of the BVI. According to current BVI income tax law, the applicable income tax rate for the Company is 0%.

Hong Kong

Hong Kong Gewang is incorporated in Hong Kong. Pursuant to the income tax laws of Hong Kong, the Company is not subject to tax on non-Hong Kong source income.

The People's Republic of China ("PRC")

Gewang Selenium and Guangdong Gewang are subject to an Enterprise Income Tax at 25% and file their own tax returns.

3. RECENTLY ISSUED ACCOUNTING STANDARDS

In May 2014, the FASB issued ASU No. 2014-09, "*Revenue from Contracts with Customers (Topic 606)*." This guidance supersedes current guidance on revenue recognition in Topic 605, "*Revenue Recognition*." In addition, there are disclosure requirements related to the nature, amount, timing, and uncertainty of revenue recognition. In August 2015, the FASB issued ASU No. 2015-14 to defer the effective date of ASU No. 2014-09 for all entities by one year. For public business entities that follow U.S. GAAP, the deferral results in the new revenue standard being effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2017, with early adoption permitted for interim and annual periods beginning after December 15, 2016. In March 2016, the FASB issued Accounting Standards Update No. 2016-12, Revenue from Contracts with Customers, with respect to Principal versus Agent Considerations. In April 2016, the FASB issued Accounting Standards Update No. 2016-12, Revenue from Contracts with Customers, with respect to Identifying Performance Obligations and Licensing. In April 2016, the FASB additionally issued Accounting Standards Update No. 2016-12, Revenue from Contracts with Customers, with respect to Narrow-Scope Improvements and Practical Expedients. In December 2016, the FASB issued Accounting Standards Update No. 2016-20, Revenue from Contracts with Customers, with respect to Technical Corrections and Improvements. We do not believe this will have a material impact on our consolidated financial statements as currently they are not effective.

CHINA GEWANG BIOTECHNOLOGY, INC. AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED FEBRUARY 28, 2017 AND FEBRUARY 29, 2016

(UNAUDITED) (IN U.S. \$)

3. RECENTLY ISSUED ACCOUNTING STANDARDS (continued)

In February 2016, the FASB issued ASU 2016-02, “Leases.” The new standard establishes a right-of-use (“ROU”) model that requires a lessee to record a ROU asset and a lease liability on the balance sheet for all leases with terms longer than 12 months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition in the income statement. The new standard is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. A modified retrospective transition approach is required for lessees for capital and operating leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements, with certain practical expedients available. We do not believe this will have a material impact on our consolidated financial statements as currently all leases are prepaid.

In July 2015, the FASB issued ASU 2015-11 (Subtopic 330), “Simplifying the Measurement of Inventory,” which provides guidance to companies who account for inventory using either the first-in, first-out (“FIFO”) or average cost methods. The guidance states that companies should measure inventory at the lower of cost or net realizable value. Net realizable value is defined as the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal and transportation. ASU 2015-11 is effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. This accounting standard update is not expected to have a material impact on the Company’s consolidated financial statements.

4. RELATED PARTY TRANSACTIONS

In March 2016 the Company entered into a one year promotion agreement with Guangdong Tianmei, in which it now holds an indirect 30% ownership interest. The agreement expired on March 31, 2017. Under the agreement, Guangdong Tianmei introduced the Company to Guangzhou Huayuda Commerce and Trade Co., Ltd. (“Guangzhou Huayuda”). Guangzhou Huayuda operated 14 stores in March 2016, and in August 2016 it expanded to 200 stores. The Company sells selenium enriched products to these stores, and pays a monthly promotion fee to Guangdong Tianmei for each product sold in each store of RMB 108 (US\$16.60). Sales to Guangzhou Huayuda were approximately RMB 9,381,000 (US\$1,359,000) for the three months ended February 28, 2017. Promotion expenses incurred during the three months ended February 28, 2017 and February 29, 2016 were \$356,686 and \$0, respectively.

The Company entered into an agreement with Guangdong Tianmei on June 10, 2015 to license the use of the Company's trademark for 10 years. Trademark revenue recorded for the three months ended February 28, 2017 and February 29, 2016 were \$1,470 and \$0, respectively. The future commitment is approximately \$1,500 each year.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED FEBRUARY 28, 2017 AND FEBRUARY 29, 2016

(UNAUDITED) (IN U.S. \$)

4. RELATED PARTY TRANSACTIONS (continued)

Equity investment

On April 28, 2016, the Company's wholly-owned subsidiary, Biotechnology International, entered into an investment agreement with Guangdong Tianmei. At that time, 88% of the equity in Guangdong Tianmei was owned by two individuals who together directly or indirectly owned approximately 57% of the Company's outstanding shares. The investment agreement required that Biotechnology International pay US\$1,000,000 to acquire a 30% interest in an Australian corporation, which would indirectly own all of the equity in Guangdong Tianmei.

The acquisition by Biotechnology International of 30% of Tianmei Australia was completed in May 2016, at which time Tianmei Australia acquired ownership, through subsidiaries, of Guangdong Tianmei.

The net worth of Guangdong Tianmei at the time of the acquisition was \$4,888,840, 30% of which was \$1,466,652. As the Company and Guangdong Tianmei were under common control at the time of the acquisition, the \$466,652 by which the Company's share of the net book value of Guangdong Tianmei exceeded the purchase price has been recorded as an increase to additional paid-in capital.

The changes in the equity investment are summarized as follows:

	February 28, 2017	November 30, 2016
Initial investment	\$ 1,466,652	\$ 1,466,652
Pro rata share of net income for the year ended November 30, 2016	4,536,760	4,536,760

Edgar Filing: CHINA GEWANG BIOTECHNOLOGY, INC. - Form 10-Q

Pro rata share of net income for the three months ended February 28, 2017	2,153,016	-
Investment, end of year/period	\$ 8,156,428	\$ 6,003,412

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED FEBRUARY 28, 2017 AND FEBRUARY 29, 2016

(UNAUDITED) (IN U.S. \$)

5. LEASES

The Company leased its warehouse and office space from an unrelated third party under a one-year operating lease, which expired on July 1, 2016. The lease required the Company to prepay the total rent of US\$86,912 (RMB 600,000) in advance for one year. On June 29, 2016, the Company renewed the lease with total rent of approximately US\$86,900 (RMB 600,000), which commenced on July 2, 2016 and expires on July 1, 2017.

The following additional leases are in effect at February 28, 2017:

The Company leases its flagship store in Guangzhou from an unrelated third party. The lease commenced on June 1, 2016 and expires on May 31, 2017. The lease required the Company to prepay the rent of \$145,396 (RMB 960,000) in advance for one year. The Company paid the rent in June 2016.

The Company leases its Foshan store, Longyan store and Zhuzhou store from three unrelated third parties. All three leases commenced on June 1, 2016 and expire on May 31, 2017. These leases each required the Company to prepay the rent of \$63,611 (RMB 420,000) in advance for one year. The Company fully paid the rent in June 2016. Since these leases require the advance payment of the annual rent, there are no minimum payments remaining under these leases.

Prepaid lease payments were \$109,905 and \$ 221,123 at February 28, 2017 and November 30, 2016, respectively. Rent expense for the three months ended February 28, 2017 and February 29, 2016 was \$102,121 and \$66,686, respectively.

6. FIXED ASSETS

Fixed assets as of February 28, 2017 and November 30, 2016 are summarized as follows:

	February 28,	November 30,
	2017	2016
Electronic equipment	\$ 126,190	\$ 125,850
Motor vehicles	121,479	121,151
Office equipment	12,063	12,031
	259,732	259,032
Less: accumulated depreciation	(143,681)	(130,265)
Fixed assets - net	\$ 116,051	\$ 128,767

For the three months ended February 28, 2017 and February 29, 2016, depreciation expense was \$13,000 and \$10,108, respectively.

CHINA GEWANG BIOTECHNOLOGY, INC. AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED FEBRUARY 28, 2017 AND FEBRUARY 29, 2016

(UNAUDITED) (IN U.S. \$)

7. LOANS

The Company obtained non-interest bearing demand loans from a former officer and stockholder, who resigned from office on April 8, 2016. The loans of \$228,259 and \$228,238 at February 28, 2017 and November 30, 2016, respectively, are reflected as loans from third party.

The Company obtained non-interest bearing demand loans from one of its stockholders. The loans of \$366,852 and \$237,639 at February 28, 2017 and November 30, 2016, respectively, are reflected as loans from stockholder.

8. INCOME TAXES

The provision for income taxes for the three months ended February 28, 2017 and February 29, 2016 consisted of the following:

	2017 (Unaudited)	2016 (Unaudited)
Current	\$ 1,219,136	\$ 123,416
Deferred	-	-
	\$ 1,219,136	\$ 123,416

No provisions for income taxes in the United States have been made. The Company did not generate any income in the United States or otherwise have any U.S. taxable income. The Company does not believe that it has any U.S. Federal income tax liabilities with respect to any transactions that the Company or any of its subsidiaries may have engaged in through February 28, 2017. However, there can be no assurance that the Internal Revenue Service (“IRS”) will agree with this position, and therefore the Company ultimately could be liable for U.S. Federal income taxes, interest and penalties. The tax years ended November 30, 2015 and December 31, 2014 and 2013 remain open to

examination by the IRS.

The Company did not file on time its U.S. federal income tax returns, including, without limitation, information returns on IRS Form 5471, "*Information Return of U.S. Persons with Respect to Certain Foreign Corporations*" for the short year tax return ended November 30, 2015 filed as a result of the change in fiscal year. Failure to furnish any income tax returns and information returns with respect to any foreign business entity required, within the time prescribed by the IRS, subjects the Company to certain civil penalties. Management is of the opinion that penalties, if any, that may be assessed would not be material to the consolidated financial statements.

CHINA GEWANG BIOTECHNOLOGY, INC. AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED FEBRUARY 28, 2017 AND FEBRUARY 29, 2016

(UNAUDITED) (IN U.S. \$)

9. CONCENTRATION OF CREDIT AND BUSINESS RISKS

Cash and cash equivalents

Substantially all of the Company's assets and bank accounts are in banks located in the PRC and are not covered by protection similar to that provided by the FDIC on funds held in United States banks.

Major customers

For the three months ended February 28, 2017, three customers accounted for 62% of total sales, the largest of which accounted for 25%. For the three months ended February 29, 2016, no customers accounted for over 10% of total sales. As of February 28, 2017, three customers accounted for 67% of trade accounts receivable, the largest of which accounted for 27%. As of November 30, 2016, three customers accounted for 64% of trade accounts receivable, the largest of which accounted for 24%

Vulnerability Due to Operations in the PRC

The Company's operations may be adversely affected by significant political, economic and social uncertainties in the PRC. Although the PRC government has been pursuing economic reform policies for more than twenty years, no assurance can be given that the PRC government will continue to pursue such policies or that such policies may not be significantly altered, especially in the event of a change in leadership, social or political disruption or unforeseen circumstances affecting the PRC's political, economic and social conditions. There is also no guarantee that the PRC government's pursuit of economic reforms will be consistent or effective. The economy in the PRC has recently started to narrow.

CHINA GEWANG BIOTECHNOLOGY, INC. AND SUBSIDIARIES

FOR THE THREE MONTHS ENDED FEBRUARY 28, 2017 AND FEBRUARY 29, 2016

(UNAUDITED) (IN U.S. \$)

10. COMMITMENTS AND CONTINGENCIES

On December 30, 2015, the Company entered into a technology usage agreement with the Academy for the right to use a non-patented selenium-enrichment technology for its supplements manufacturing. The agreement commenced on December 30, 2015 and expires on December 29, 2020. The annual fee of RMB 600,000 (approximately US\$87,000) is required to be paid in advance before December 30 each year.

On April 8, 2016, Guangdong Gewang entered into a Performance Salary Assessment Agreement with the Company's Chief Executive Officer ("CEO"). The agreement states that the CEO would receive additional monthly compensation of RMB 50,000 (approximately US\$7,000), only when the monthly net income of Guangdong Gewang exceeds RMB 2,500,000 (approximately US\$363,000). The agreement commenced on April 8, 2016 and expired on April 7, 2017. For three months ended February 28, 2017, the CEO received additional monthly compensation in each month.

On July 1, 2016, the Company entered into three year agreements with four of its directors for total compensation of approximately \$15,000 (RMB 110,000) per month.

As of September 1, 2016, the Company has a long-term agreement with the Academy. This agreement entitles the Company to the exclusive right of first refusal to use the research related to advanced selenium-enrichment techniques and technology that the Academy develops. The agreement calls for quarterly payments of approximately \$579,700 (RMB 4,000,000). For the use of the techniques and/or technology developed, additional charges will be negotiated.

11. PARENT COMPANY ONLY CONDENSED FINANCIAL INFORMATION (continued)

Basis of Presentation

The Company records its investment in its subsidiaries under the equity method of accounting. Such investments are presented as “Investments in subsidiaries” on the condensed balance sheets and the subsidiaries and the prior VIE profits are presented as “Share of earnings from investments in subsidiaries and VIE” on the condensed statements of income.

Certain information and footnote disclosures normally included in financial statements prepared in conformity with accounting principles generally accepted in the United States of America have been condensed or omitted. The parent only financial information has been derived from the Company’s consolidated financial statements and should be read in conjunction with the Company’s consolidated financial statements.

There were no cash transactions in the US parent company during the three months ended February 28, 2017.

Restricted Net Assets

Under the PRC laws and regulations, the Company’s PRC subsidiaries are restricted in their ability to transfer certain of their net assets to the Company in the form of dividend payments, loans or advances. The restricted net assets of the Company’s PRC subsidiaries were approximately \$36,867,000 and \$14,621,000 as of February 28, 2017 and November 30, 2016, respectively.

The Company's operations and revenues are conducted and generated in the PRC, and all of the Company's revenues being earned and currency received are denominated in RMB. RMB is subject to the foreign exchange control regulations in China, and, as a result, the Company may be unable to distribute any dividends outside of China due to the PRC foreign exchange control regulations that restrict the Company's ability to convert RMB into US Dollars.

CHINA GEWANG BIOTECHNOLOGY, INC. AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED FEBRUARY 28, 2017 AND FEBRUARY 29, 2016

(UNAUDITED) (IN U.S. \$)

11. PARENT COMPANY ONLY CONDENSED FINANCIAL INFORMATION (continued)

Restricted Net Assets (continued)

Schedule I of Article 5-04 of Regulation S-X requires the condensed financial information of the parent company to be filed when the restricted net assets of consolidated subsidiaries exceed 25 percent of consolidated net assets as of the end of the most recently completed fiscal year. For purposes of the above test, restricted net assets of consolidated subsidiaries shall mean that amount of the Company's proportionate share of net assets of consolidated subsidiaries (after intercompany eliminations) which as of the end of the most recent fiscal year may not be transferred to the parent company by its subsidiaries in the form of loans, advances or cash dividends without the consent of a third party. The condensed parent company only financial statements have been prepared in accordance with Rule 12-04, Schedule I of Regulation S-X as the restricted net assets of the Company's PRC subsidiaries exceed 25% of the consolidated net assets of the Company.

12. SUBSEQUENT EVENTS

The Company's management has performed subsequent events procedures through April 11, 2017, which is the date the consolidated financial statements were available to be issued. There were no subsequent events requiring adjustment to or disclosure in the consolidated financial statements

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of Operations

The following table sets forth key components of our results of operations during the quarters ended February 28, 2017 and February 29, 2016, and the percentage changes between those two periods.

	Three Months Ended		
	February 28, 2017 (US \$)	February 2016 (US \$)	Change %
Gross revenue	\$21,142,132	\$1,218,098	1,636 %
Cost of Sales	(13,914,305)	(342,608)	3,961 %
Gross profit	7,227,827	875,490	726 %
Selling and marketing expenses	1,444,913	270,671	434 %
General and administrative expenses	381,355	136,961	178 %
Research and development	579,412	--	100 %
Total operating expenses	2,405,680	407,632	490 %
Operating income	4,822,147	467,858	931 %
Other income (expense)	(1,058)	6,256	117 %
Income before provision for income taxes	4,821,089	474,114	917 %
Provision for income taxes	1,219,136	123,416	888 %
Equity in income of investee	2,153,012	--	100 %
Net income before noncontrolling interests	5,754,965	350,698	1,544 %
Noncontrolling interests	(73,148)	(18,512)	295 %
Net income attributable to common stockholders	\$5,681,817	\$332,186	1,610 %

Sales

Our sales increased to \$21,142,132 for the fiscal quarter ended February 28, 2017 from \$1,218,098 for the quarter ended February 29, 2016. Since the end of the prior year's quarter, we have begun to wholesale products manufactured by other companies through our distribution network and have also increased the volume of sales of our Jindanli branded products. Since March 2016, we have signed agreements with seven distributors to distribute selenium products to chain stores encompassing hundreds of retail stores, and we made net sales of selenium-related products totaling \$15,938,614 to these distributors during the first quarter of fiscal year 2017. The following factors had the greatest impact on our increase in sales:

Total wholesale sales, including of our Jindanli branded products and products manufactured by other companies, to our distribution network of 15 wholesale customers by our headquarters marketing personnel increased by \$18,184,632, primarily due to an increase in the number of sales personnel during fiscal year 2016.

Of the total increase in wholesale sales for the quarter ended February 28, 2017, \$15,938,614 was attributable to the wholesale of 89 selenium product types manufactured by other companies. In the first quarter of fiscal year 2016, we did not wholesale any products other than our Jindanli branded products. Since March 2016, we have signed agreements with six manufacturers and with seven distributors to create a network for our distribution of selenium products to chain stores, and this expansion of our customer base has greatly increased our volume of sales.

Of the total increase in wholesale sales for the quarter ended February 28, 2017, \$2,246,018 was attributable to an increase in the volume of our three Jindanli branded selenium supplements, from \$829,085 during the quarter ended February 29, 2016, an increase of 271%. The increase is related to an expansion of our sales staff, which has increased the volume of sales of our existing products.

Retail sales increased by \$1,739,402, or 447% during the quarter ended February 28, 2017. Due to increased rent and unsatisfactory pedestrian flow, we closed our Changcheng, Xiamen and Changsha stores on May 31, 2016 and opened stores in Foshan, Longyan and Zhuzhou and a flagship store in Guangzhou on June 1, 2016. The new stores are located in areas with better pedestrian flow, resulting in a sharp increase in retail sales. In addition, the new stores stock an inventory of over 90 selenium products, whereas the previous stores stocked only our three selenium supplements.

Gross Profit

For the past three years we have sold our three selenium supplements, and only in March 2016 began to resell a wide variety of selenium-related products that we purchase at wholesale. After increasing during the 2014 and 2015 fiscal years, the unit prices that we pay to our manufacturers for the selenium supplements stabilized in the second quarter of fiscal 2016. As a result, our gross margin for selenium supplements was not significantly changed: 72.0% in the first quarter of fiscal year 2017 compared to 72.2% in the first quarter of fiscal year 2016. However, the selenium-related products that we resold during first quarter of fiscal year 2017 yielded a gross margin of only 21%. As a result, our overall gross margin during the three months ended February 28, 2017 declined to 34.2% from 71.8% recorded on the sale of selenium supplements alone during the three months ended February 29, 2016.

Selling expenses

Our selling and marketing expenses increased by 431% to \$1,444,913 for the quarter ended February 28, 2017 from \$270,671 for the quarter ended February 29, 2016. Our selling expenses include rent, transportation expenses, advertising expenses and salaries incurred for the sales function, all of which will tend to increase as our sales increase. In the quarter ended February 28, 2017, we incurred \$449,044 in advertising expense, which is significantly higher than we incurred in the past. We are committed to paying our current rate of advertising costs until March 31, 2017.

General and administrative expenses

Our general and administrative (“G&A”) expenses increased by 178% to \$381,355 for the quarter ended February 28, 2017 from \$136,961 for the quarter ended February 29, 2016. The largest components of our G&A expenses are the salaries of administrative personnel and fringe benefits provided to all of our staff. The change in G&A expenses occurred primarily as a result of the expansion of our business over the prior year, as reflected in the growth of our sales, which led to increases in travel and entertainment expenses. In addition, to enable us to manage our expanding operations, we added administrative personnel.

Income from operations

Because the sharp increase in our sales generated a material increase in our gross profit, our operating income increased by 931% to \$4,822,147 for the quarter ended February 28, 2017, from \$467,858 for the quarter ended February 29, 2016.

As we have very little debt, our interest expense for the quarters ended February 28, 2017 and February 29, 2016 was substantially offset by interest income earned on our bank balances, resulting in other expense of (\$1,058) for the quarter ended February 28, 2017 and other income of 6,256 for the quarter ended February 29, 2016. Our pre-tax income, therefore, was \$4,821,089 for the quarter ended February 28, 2017 and \$474,114 for the quarter ended February 29, 2016.

Net income

Due to the increase in our pre-tax income, our provision for income taxes increased by 888% to \$1,219,136 for the quarter ended February 28, 2017 from \$123,416 for the quarter ended February 29, 2016. In this period, our effective tax rate was the same as the statutory rate of 25%. We also recorded equity investment income of \$2,153,012, representing our 30% interest in the net income reported by Tianmei Australia for the quarter ended February 28, 2017. After deducting the provision for income taxes and adding equity in income of investee, China Gewang reported net income before noncontrolling interests of \$5,754,965 for the quarter ended February 28, 2017 and \$350,698 for the quarter ended February 29, 2016.

Before August 8, 2016, the VIE Agreements assigned to Gewang Selenium 95% of the net income of Guangdong Gewang. On August 8, 2016, Gewang Selenium purchased 98% of the registered equity of Guangdong Gewang. Our non-controlling interest, therefore, was reduced from 5% to 2%. We recorded a deduction for noncontrolling interests of \$73,148 and \$18,512 for the quarters ended February 28, 2017 and February 29, 2016, respectively, after which our net income attributable to common stockholders was \$5,681,817 (\$0.08 per share) and \$332,196 (\$0.01 per share) for the quarters ended February 28, 2017 and February 29, 2016, respectively.

Foreign Currency Translation Adjustment

Our reporting currency is the U.S. dollar. Our local currency, the Renminbi (RMB), is our functional currency. Results of operations and cash flow are translated at average exchange rates during the period being reported upon, and assets and liabilities are translated at the unified exchange rate as quoted by the People's Bank of China on the balance sheet date. Translation adjustments resulting from this process are included in other comprehensive income. For the quarters ended February 28, 2017 and February 29, 2016, foreign currency translation adjustments of \$52,792 and \$(186,413), respectively, have been reported as other comprehensive income (loss) in the consolidated statement of income and comprehensive income (loss). The loss during quarter ended February 29, 2016 was primarily due to devaluation of the PRC currency of approximately 3.5% in three months ended February 28, 2016. Additional devaluations could occur in the future and affect our results.

RMB is not freely convertible into the currency of other nations. All such exchange transactions must take place through authorized institutions. There is, therefore, no guarantee the RMB amounts could have been, or could be, converted into US dollars at the rates used in translation. Substantially all of our assets are located in the PRC which makes it difficult for any funds to be utilized outside the PRC.

Liquidity and Capital Resources

We have financed our operations primarily through cash flows from operations and sale of our common stock. As a result, at February 28, 2017, our only debt was \$595,111 in loans, which consisted of US Dollars loaned to pay our administrative expenses in the U.S.. The debt at February 28, 2017 represented an increase of \$129,234 during the quarter.

During the quarter ended February 28, 2017, our working capital of \$2,757,769 represented an increase of \$3,612,048, approximately equal to our net income of \$3,601,9536 before adding our portion of Guangdong Tianmei's income. The approximation of our net income from the operations of Guangdong Gewang to the increase in our working capital occurs because our operations, which involve no manufacturing and limited real estate, require very modest capital investments and, as a result, almost all of our assets (other than our investment in Guangdong Tianmei) and all of our liabilities are current. Until we further implement our plan to open a series of dedicated retail stores, which will add depreciable capital assets to our balance sheet, net income should continue to increase our working capital.

During the quarter ended February 28, 2017, we used cash for neither investing nor financing. During the quarter ended February 29, 2016 we used \$78,567 to purchase equipment, and we obtained \$5,473,200 from the sale of shares of our common stock. As we develop our physical presence by investing in retail stores, cash used in investing activities will increase, and may require expansion of our cash flows from financing activities.

During the quarter ended February 28, 2017, although we recorded net income of \$5,754,965, our operations provided only \$3,821,856 in net cash. The primary reasons for the difference were:

Our net income included \$2,153,012 attributable to our investment in Guangdong Tianmei, which represents our 30% equity interest in the net income of Guangdong Tianmei for the quarter.

The marked increase in our sales volume during the quarter caused our accounts receivable balance at February 28, 2017 to exceed the balance at November 30, 2016 by \$3,169,143. All of these receivables have been collected since the fiscal year-end.

We decreased the balance of our prepaid expenses by \$1,975,828 to a balance of \$3,564,223. Included in that balance was \$2,653,684 in promotion fees prepaid to certain of our distributors. Those prepaid fees will be amortized over the terms of our distribution agreements with those distributors. During the quarter ended February 28, 2017, \$2,074,411 in promotion fees was expensed.

These uses of cash were partially offset by a \$1,975,828 reduction in our prepaid expenses balance. This primarily represents the amortization of promotion fees prepaid during fiscal year 2016 to certain of our distributors, which are being amortized over the terms of our distribution agreements. In addition, we recorded a \$981,647 increase in our accounts payable and a \$345,140 increase in our tax payable, both of which reflect the growth in our operations.

We have no long-term debt or any debt other than the loans of U.S. dollars discussed above. Our most significant capital commitments for the next year are:

Our greatest capital commitments in the long term are our quarterly payments to the Academy for a selenium enrichment technology and research research related to advanced selenium-enrichment techniques. Currently, we have committed to paying the Academy RMB 600,000 (US\$86,724) per year for the next four years for selenium-enrichment technology and RMB 4,000,000 (US\$578,160) quarterly for research related to advanced selenium-enrichment techniques for the next ten years. We expect to fund these fees from operations.

In the short term, over the next year we expect to renew all of our current leases, which will require prepayment of RMB 2,820,000 (US\$407,603), which we expect to pay from operations. We also hope to open up to 26 new retail stores, which will require a capital commitment of US\$2,309,000.

During fiscal year 2016 we expended \$3,745,884 on promotion fees to distributors. These fees are generally paid up front on an annual basis. Because of the increase in our sales, which we believe has resulted in part from our sales team seeking out new wholesale customers and paying these promotion fees, we plan to spend more on promotion fees in the upcoming fiscal year. We have projected that we could spend up to RMB 57,283,200 (US\$8,279,367) in promotion fees in the 2017 fiscal year.

We have ample cash and our operations are profitable. In addition, we expect our recent success in collecting our entire accounts receivable balance within 60 days to be replicated, due to our close relationship with our customers. For these reasons, we do not anticipate incurring significant additional debt. Therefore, our liquidity should be adequate to sustain the full implementation of our business plan for at least the next twelve months and the foreseeable future. We intend to apply a portion of our cash resources to an increase in the number of distributors with which we have relationships. Since the settlement period for payment of invoices by the distributors is, in some cases, as long as 90 days, our cash resources will be needed to offset the gap between the cash collections and cash payments.

Impact of Recent Accounting Pronouncements

New accounting rules and disclosure requirements can significantly impact the comparability of our financial statements. Please refer to Note 2 of our consolidated financial statements included in this Form 10-Q.

In February 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") ASU 2016-02 – Leases. The new standard establishes a right-of-use ("ROU") model that requires a lessee to record a ROU asset and a lease liability on the balance sheet for all leases with terms longer than 12 months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition in the income statement. The new standard is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. A modified retrospective transition approach is required for lessees for capital and operating leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements, with certain practical expedients available. We are currently evaluating the impact of our pending adoption of the new standard on our financial statements.

Except for the foregoing ASU, there were no recent accounting pronouncements that we expect to have a material effect on the Registrant's financial position or results of operations.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition or results of operations.

ITEM 3 QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Foreign Exchange Risk

Substantially all of our revenues and our expenses are denominated in RMB. We believe the impact of foreign currency risk is not material and we have not used any forward contracts, currency borrowings or derivative instruments to hedge our exposure to foreign currency exchange risk. Although in general our exposure to foreign exchange risks should be limited, the value of your investment in our shares will be affected by the foreign exchange rate between U.S. dollars and RMB because the value of our business is effectively denominated in RMB, while we use the U.S. dollar as our reporting currency and our common stock is traded in U.S. dollars. The value of the RMB against the U.S. dollar and other currencies is affected by, among other things, changes in China's political and economic conditions and China's foreign exchange policies.

To the extent that we need to convert U.S. dollars into RMB for our operations, acquisitions or other uses within China, appreciation of the RMB against the U.S. dollar would have an adverse effect on the RMB amount we receive from the conversion. To the extent that we seek to convert RMB into U.S. dollars, depreciation of the RMB against the U.S. dollar would have an adverse effect on the U.S. dollar amount we receive from the conversion. As of February 28, 2017, we had RMB-denominated cash, cash equivalents, and short-term investments of RMB116.6 million, which we recorded as US\$16,982,700 on our balance sheet. A 10% change in the exchange rate between the RMB and the U.S. dollar would result in an increase or decrease of \$1,698,270 in the U.S. dollar-denominated value of this cash, cash equivalents and short-term investments.

Interest Rate Risk

Our exposure to interest rate risk primarily relates to the interest income generated by our cash resources, which is mostly held in interest-bearing bank deposits. We have not used any derivative financial instruments to manage our interest risk exposure. Interest-earning instruments carry a degree of interest rate risk. We have not been exposed, nor do we anticipate being exposed, to material risks due to changes in interest rates. However, our future interest income may be lower than expected due to changes in market interest rates.

ITEM 4 CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures. Our Chief Executive Officer and Chief Financial Officer carried out an evaluation of the effectiveness of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) promulgated by the Securities and Exchange Commission) as of February 28, 2017. The evaluation revealed that there are material weaknesses in our disclosure controls, specifically:

The relatively small number of employees who are responsible for accounting functions prevents us from segregating duties within our internal control system.

Our internal financial staff lack expertise in identifying and addressing complex accounting issued under U.S. Generally Accepted Accounting Principles.

Our executive officers are not familiar with the accounting and reporting requirements of a U.S. public company.

We have not developed sufficient documentation concerning our existing financial processes, risk assessment and internal controls.

Based on their evaluation, our Chief Executive Officer and Chief Financial Officer concluded that the Company's system of disclosure controls and procedures was not effective as of February 28, 2017.

Changes in Internal Controls. There was no change in internal controls over financial reporting (as defined in Rule 13a-15(f) promulgated under the Securities Exchange Act of 1934) identified in connection with the evaluation described in the preceding paragraph that occurred during the Company's first fiscal quarter that has materially affected or is reasonably likely to materially affect the Company's internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

None.

Item 1A Risk Factors

There have been no material changes from the risk factors included in our Annual Report on Form 10-K for the year ended November 30, 2016.

Item 2. Unregistered Sale of Securities and Use of Proceeds

(a) Unregistered sales of equity securities

None during the 1st quarter of fiscal 2017.

(c) Purchases of equity securities

The Company did not repurchase any of its equity securities that were registered under Section 12 of the Securities Exchange Act during the 1st quarter of fiscal 2017.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures

None.

Item 5. Other Information.

None.

Item 6. Exhibits
