**Basis of presentation:**

The accompanying interim unaudited consolidated financial statements have been prepared in accordance with United States generally accepted accounting principles for interim financial information and with the instructions to Form 10-QSB. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for a complete set of annual consolidated financial statements. In the opinion of management, all adjustments (consisting solely of normally recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and nine month periods ending September 30, 2004 are not necessarily indicative of the results that may be expected for the year ended December 31, 2004 or for any other period.

For further information, refer to the consolidated financial statements and footnotes thereto included in Unity Wireless Corporation's (the Corporation) annual report on Form 10-KSB for the year ended December 31, 2003. Except as indicated in note 2(a), the accounting policies applied in the preparation of these interim consolidated financial statements are consistent with those applied in the consolidated financial statements filed with the Corporation's annual report.

These financial statements have been prepared on the going concern basis under which an entity is considered to be able to realize its assets and satisfy its liabilities in the ordinary course of business. Operations to date have been significantly financed by long-term debt and equity transactions. At September 30, 2004, the Corporation requires additional financing to continue to operate at current levels throughout the year. Accordingly, the Corporation's future operations are dependent upon the identification and successful completion of additional long-term or permanent equity financing, the continued support of creditors and stockholders, and, ultimately, the achievement of profitable operations. There can be no assurances that the Corporation will be successful. If it is not, the Corporation will be required to reduce operations or liquidate assets. The Corporation will continue to evaluate its projected expenditures relative to its available cash and to seek additional means of financing in order to satisfy its working capital and other cash requirements. The consolidated financial statements do not include any adjustments relating to the recoverability of assets and classification of assets and liabilities that might be necessary should the Corporation be unable to continue as a going concern.

2.

**Significant accounting policies:**

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America using the same accounting policies and methods of application as those disclosed in the Corporation's financial statements for the year ended December 31, 2003, except for note 2(a):

## Stock-based compensation:

On January 1, 2004, the Corporation adopted FASB Statement No. 148, *Accounting for Stock-Based Compensation Transition and Disclosure*, using the modified prospective method. Under the modified prospective method of adoption selected by the Corporation, the employee stock-based compensation expense recognized in the three and nine month periods ended September 30, 2004 are the same as that which would have been recognized for the current three and nine month periods had the recognition provision of SFAS No. 123, *Accounting for Stock-based Compensation*, been applied from its original effective date. Results for prior periods have not been restated.

Had compensation cost been retroactively determined based on the fair value at the grant dates for those options issued to employees and consultants, consistent with the method described in SFAS No. 123, the Corporation's loss and loss per common share would have been increased to the pro forma amounts indicated below.

**Convertible debentures:**

(a) During August 2004, the Corporation realized gross cash proceeds of \$1,250,000 from the issuance of 8% redeemable convertible notes of the Corporation plus 3,750,000 share purchase warrants on the completion of a private placement effected pursuant to Regulation D under the Securities Act of 1933. The agreement was signed on August 31, 2004 and the notes are to mature on August 31, 2006. The notes are convertible at the option of the holder or automatically convert into common stock, subject to volume limitations, if the closing price of the common stock during a designated period is not less than \$0.30. The conversion price of the notes is \$0.20 per share of common stock. Interest on these notes is payable quarterly. At the option of the Corporation, and subject to certain conditions being met, the Corporation may make quarterly interest payments in cash or in common stock of the Corporation. If the Corporation elects to settle with shares, the number of shares issuable is calculated by reference to the market price at that time.

Each warrant issued entitles the holder to purchase one of the Corporation's common shares and is exercisable at a price of \$0.20 on or before September 1, 2009, on which date the warrants will expire.

For accounting purposes, the Corporation calculated the fair value of warrants issued with the convertible debenture using the Black-Scholes option pricing model and the intrinsic value of the beneficial conversion feature, which aggregated \$705,266. The intrinsic value of the beneficial conversion option is the amount by which the fair value of the underlying common shares at the date of the agreement exceeded the value of shares issuable based on the carrying value of the debenture, after reducing such carrying value for the fair value of the warrants. These assigned values were recorded as a reduction to the amount initially assigned to the notes and as additional paid-in capital. The remaining balance of \$544,734 was recorded as a long-term liability. The carrying value of the liability is being accreted to the redemption value of the notes over the period from August 31, 2004 to the initial maturity date of August 31, 2006.

During the period ended September 30, 2004, accretion of \$20,082 has been recorded as a charge to the statement of operations, and an increase in the carrying value of the liability.

(b) Also during August 2004, the Corporation amended a note payable that was entered into during the first quarter of 2004 for gross cash proceeds of \$100,000 and an annual interest rate of 12%. As a result of the amendment, the note agreement allowed for the conversion of the notes into common stock of the Corporation and 555,555 share purchase warrants were issued based on the completion of a private placement effected pursuant to Regulation D under the Securities Act of 1933. The agreement was signed on August 5, 2004 and the notes are to mature on December 31, 2004. The notes are convertible at the option of the holder based on a conversion price of \$0.18 per share of common stock. Interest on these

notes is payable quarterly. At the option of the Corporation, the Corporation may make quarterly interest payments in cash or in common stock of the Corporation's common stock.

Each warrant entitles the holder to purchase one of the Corporation's common shares and is exercisable at a price of \$0.23 on or before August 31, 2006, on which date the warrants will expire.

For accounting purposes, the Corporation calculated the fair value of warrants originally issued using the Black-Scholes option pricing model and the intrinsic value of the beneficial conversion feature, which aggregated to \$99,999. These assigned values were recorded by a reduction to the amount as initially assigned to the notes and as additional paid-in capital. The intrinsic value of the beneficial conversion option is the amount by which the fair value of the underlying common shares at the date of the agreement exceeded the value of shares issuable based on the carrying value of the debenture after reducing such carrying value for the fair value of the warrants. A nominal value of \$1 is recorded as a current liability. The carrying value of the liability is being accreted to the redemption value of the notes over the period from August 5, 2004 to the initial maturity dates of December 31, 2004.

During the period ended September 30, 2004, accretion of \$nil has been recorded as a charge to the statement of operations, and an increase in the carrying value of the liability.

**Contingent liabilities:**

(a)

Contingent liability on sale of products:

(i)

Under a certain license agreement, the Corporation is committed to royalty payments based on the sales of products using certain technologies. Royalties are paid at rates between 6% to 7% of sales of licensed products sold integrating the XNN Technology into various products to a minimum of \$150,000 within twelve months subsequent to the first commercial sales of the integrated product.

(ii)

Under an agreement with the Government's National Research Council Canada IRAP ( IRAP ) program, the Corporation received conditionally repayable government assistance amounting to \$356,000 (CDN\$483,491) to support the development of a multi-carrier linear power amplifier. Under the terms of the agreement, an amount up to a maximum of \$534,000 (CDN\$725,236) is to be repaid at a rate of 1.5% of quarterly gross revenue commencing on September 1, 2003, on a quarterly basis. For the nine months ended September 30, 2004, the Corporation recorded \$57,761 (CDN\$76,786) as royalties and nil in 2003.

(iii)

Under an agreement with the Canada Israel Industrial Research & Development Foundation, the Corporation is eligible to receive conditionally repayable government assistance amounting to \$256,744 (CDN\$350,000) to support the development of a multi-carrier linear power amplifier. To date, the Corporation claimed gross proceeds of nil in 2004 and \$163,456 (CDN\$233,333), in 2003, which have been recorded as government grant income. Under the terms of the agreement, commencing with the first commercial transaction, the assistance is repayable to the extent of 2.5% of yearly gross sales until 100% of the grant has been repaid.

The Corporation recognizes royalty obligations as determinable in accordance with agreement terms.

Item 2. Management's Discussion and Analysis or Plan of Operation

The following discussion of the financial condition, changes in financial condition, and results of operations of Unity Wireless Corporation should be read in conjunction with our most recent financial statements and notes appearing: (1) in this Form 10-QSB; (2) our Form 10-QSB for the second quarter ended June 30, 2004 filed August 6, 2004; (3) our Form 10-QSB for the first quarter ended March 31, 2004 filed May 17, 2004; (4) our Form SB-2/A registration statements filed October 27, 2004 and May 13, 2004; and (5) the Form 10-KSB for the year ended December 31, 2003 filed on March 29, 2004.

The financial statements have been prepared on the going concern basis under which an entity is considered to be able to realize its assets and satisfy its liabilities in the ordinary course of business. Operations to date have been primarily financed by borrowing and equity transactions. Our future operations are dependent upon the identification and successful completion of additional long-term or permanent equity financing, the continued support of creditors and stockholders, and, ultimately, the achievement of profitable operations. There can be no assurances that we will be successful. If we are not, we will be required to reduce operations or liquidate assets. We will continue to evaluate our projected expenditures relative to our available cash and to seek additional means of financing in order to satisfy our working capital and other cash requirements. The auditors' report on the audited consolidated financial statements for the fiscal year ended December 31, 2003 contained in the 10-KSB filed on March 29, 2004, includes an explanatory paragraph that states that as we have suffered recurring losses from operations, substantial doubt exists about our ability to continue as a going concern. The audited consolidated financial statements or the interim quarterly unaudited consolidated financial statements included with this quarterly report do not include any adjustments relating to the recoverability of assets and classification of assets and liabilities that might be necessary should we be unable to continue as a going concern.

*Forward-Looking Statements*

This quarterly report contains forward-looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995. These statements relate to future events or our future financial performance. In some cases, you can identify forward-looking statements by terminology such as "may", "will", "should", "expects", "plans", "anticipates", "believes", "estimates", "predicts", "potential" or "continue" or the negative of these terms or other comparable terminology. These statements are only predictions and involve known and unknown risks, uncertainties and other factors, including the risks in the section entitled "Risk Factors", that may cause our or our industry's actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Except as required by applicable law, including the securities laws of the United States, we do not intend to update any of the forward-looking statements to conform these statements to actual results.

Our financial statements are stated in United States Dollars (US\$) and are prepared in accordance with United States Generally Accepted Accounting Principles.

In this quarterly report, unless otherwise specified, all dollar amounts are expressed in United States dollars. All references to "CDN\$" refer to Canadian dollars and all references to "common shares" refer to the common shares in our capital stock.

As used in this quarterly report, the terms "we", "us", "our", and "Unity" mean Unity Wireless Corporation, unless otherwise indicated.

*General*

We are in the business of designing, developing and manufacturing RF (radio frequency) subsystems including high power linear RF amplifiers and specialized integrated communications products targeting both the cellular and fixed wireless markets, referred to as wireless local loop. Wireless local loop networks are sometimes referred to as "the last mile" solution - unlike cellular phone systems which are mobile wireless networks, wireless local loop is designed to deliver voice and high speed data (e.g., Internet) services to fixed locations such as homes and small offices without the need for special wiring via wireless communication devices. Most of our products are high power amplifiers, defined as single and multi-channel power amplifiers used for sending signals from a network to a terminal such as a cell phone. Our products are used in base stations and repeaters that are used to extend coverage in cellular telephone networks. Some products are also used in base station equipment.

### *Results of Operations*

#### Three months Ended September 30, 2004 and September 30, 2003

##### Sales

Net sales in the third quarter of 2004 were \$1,027,160, an increase of \$918,570 or 846%, from \$108,590 in the third quarter of 2003. This increase in sales reflects realization of projects in our customer base as well as a general improvement in the telecommunications industry.

##### Cost of Goods Sold and Operating Expenses

Cost of goods sold in the third quarter of 2004 was \$814,399, an increase of \$533,709 or 190%, from \$280,690 in the third quarter of 2003. Cost of goods sold includes stock-based compensation expense of \$5,608 in 2004 versus \$1,257 in 2003.

The gross margin in the third quarter of 2004 was \$212,761 or 20.7% of net sales, an increase of \$384,861, from a gross margin of \$(172,100) in the third quarter of 2003. The increase was primarily due to greater net sales achieved in the third quarter of 2004 versus 2003.

Research and development expenses in the third quarter of 2004 were \$243,524, a decrease of \$67,587 or 22% from \$311,111 in the third quarter of 2003. Before stock-based compensation expenses, research and development expenses were relatively unchanged for the period. Research and development expenses include stock-based compensation expense of \$8,043 in 2004 versus \$52,352 in 2003.

Royalty payments to government agencies due to repayable government grant obligations were \$15,407 in the third quarter of 2004, compared with nil for the same period in 2003. The increase was due to repayable government grants becoming due in the third quarter 2004.

Sales and marketing expenses in the third quarter of 2004 were \$96,207, an increase of \$14,186 or 17% from \$82,021 in the third quarter of 2003. The increase was primarily due to additional sales initiatives that include additional sales personnel on staff and increased travel expenses to visit new customers. Sales and marketing expenses include stock-based compensation expense (recovery) of \$(8,638) in 2004 versus \$24,975 in 2003.

Exchange (gain) loss in the third quarter of 2004 was \$69,628, an increase of \$79,548, from an exchange (gain) loss of \$(9,920) in the third quarter of 2003 due to fluctuations in the currency exchange rate between the U.S. and Canada.

Our company's revenues are received in U.S. dollars, while the majority of expenses are incurred in Canadian dollars. During the third quarter of 2004, the Canadian dollar has strengthened relative to the U.S. dollar resulting in the exchange loss.

Interest expense for the third quarter 2004 was \$26,843, a decrease of \$9,904 from \$36,747 in the third quarter 2003. The decrease primarily reflects the conversion of debentures in the fourth quarter 2003.

General and administrative expenses in the third quarter of 2004 were \$330,822, a decrease of \$57,356 or 15%, from \$388,178 in 2003. The decrease is mostly due to lower operating expenses, better buying decisions and generally tighter fiscal control of expenditures. General and administrative expenses include stock-based compensation expense of \$124,192 in 2004 versus \$111,201 for 2003.

Accretion of interest and debt settlement charges for the third quarter of 2004 were \$20,082, a decrease of \$49,156 compared to charges of \$69,238 for the same period in 2003. The decrease was due to fewer debt settlement agreements reached in the third quarter 2004 versus the same period in 2003.

Loss in the third quarter of 2004 was \$605,447, a decrease of \$457,873 or 43% from \$1,063,320 in the third quarter of 2003. The decrease was largely the result of increased sales in the third quarter of 2004 over the same period in 2003.

#### Nine months Ended September 30, 2004 and September 30, 2003

##### Sales

Net sales in the nine months ended September 30, 2004 were \$3,850,740, an increase of \$1,694,262 or 79%, from \$2,156,478 in the same period of 2003. This increase in sales reflects realization of projects in our customer base as well as a general improvement in the telecommunications industry.

##### Cost of Goods Sold and Operating Expenses

Cost of goods sold in the nine months ended September 30, 2004 was \$3,154,210, an increase of \$1,502,776 or 91%, from \$1,651,434 in the same period of 2003. Cost of goods sold includes stock-based compensation expense of \$14,728 in 2004 versus \$1,257 in 2003.

The gross margin in the nine months ended September 30, 2004 was \$696,530 or 18% of net sales, a decrease from the gross margin of 23% of net sales in the same period of 2003. The decrease was primarily due to the production tooling and various ramp-up, expediting and additional period costs incurred in the first half of 2004.

Research and development expenses in the nine months ended September 30, 2004 were \$891,629, an increase of \$238,596 or 37% from \$653,033 in the same period of 2003. This increase primarily reflects an increase in additional engineering personnel on staff. Research and development expenses include stock-based compensation expense of \$29,616 in 2004 versus \$38,366 in 2003.

There were no government grant expenses in the nine months ended September 30, 2004, compared with \$171,442 for the same period in 2003 as no receivables or expenses were due to the Company under government sponsored programs in 2004.

Royalty payments to government agencies due to repayable government grant obligations in the nine months ended September 30, 2004 were \$57,761, compared with nil for the same period in 2003. The increase was due to repayable government grants becoming due in 2004.

Sales and marketing expenses in the nine months ended September 30, 2004 were \$373,471, an increase of \$131,147 or 54% from \$242,324 in the same period of 2003. The increase was primarily due to additional sales initiatives which include additional sales personnel on staff and increased travel expenses to visit new customers. Sales and marketing expenses include stock-based compensation expense of \$38,808 in 2004 versus \$7,404 in 2003.

Exchange (gain) loss in the nine months ended September 30, 2004 was \$68,279, an increase of \$57,621, from an exchange loss of \$10,658 in the same period of 2003 due to fluctuations in the currency exchange rate between the U.S. and Canada. Our company's revenues are received in U.S. dollars, while the majority of expenses are incurred in Canadian dollars.

Interest expense in the nine months ended September 30, 2004 was \$41,366, a decrease of \$80,561 from \$121,927 in the same period 2003. The decrease primarily reflects the conversion of debentures in the fourth quarter 2003.

General and administrative expenses in the nine months ended September 30, 2004 were \$1,204,597, an increase of \$423,261 or 54%, from \$781,336 in same period 2003. Before stock-based compensation expenses, general and administrative expenses were relatively unchanged for the period. General and administrative expenses include stock-based compensation expense of \$523,321 in 2004 versus \$88,221 for 2003.

Accretion of interest and debt settlement charges for the nine months ended September 30, 2004 were \$57,475, a decrease of \$78,960 compared to charges of \$136,435 for the same period in 2003. The decrease was due to fewer debt settlement agreements reached in the nine months ended September 30, 2004 versus the same period in 2003.

Loss for the nine months ended September 30, 2004 was \$2,026,172, an increase of \$747,068 or 58% from \$1,279,104 in the same period of 2003. The increase was largely the result of lower gross margins due to the manufacturing ramp-up costs, the hiring of additional engineering personnel, and increased sales initiatives. Loss includes stock-based compensation expense of \$606,473 in 2004 versus \$135,248 for 2003.

#### *Liquidity and Capital Resources*

Since our inception, we have been dependent on investment capital as our primary source of liquidity. We had an accumulated deficit at September 30, 2004 of \$(20,529,252). During the nine months ended September 30, 2004, we incurred a net loss of \$(2,026,172), including stock-based compensation expenses of \$606,473. During 2003, we incurred a net loss, inclusive of stock-based compensation expense, of \$3,007,950.

During the three and nine month periods ended September 30, 2004, our cash position increased due to receipt of cash from certain shareholders subscribing to a private placement of convertible debentures. The primary use of cash was for our continued operations with an increase in accounts receivable, inventory and accounts payable reflecting an increase in net sales in the nine months ended September 30, 2004. We currently are in various stages of discussion with our suppliers regarding extended payment terms for their respective outstanding September 30, 2004 accounts payable balances.

During the three and nine months periods ended September 30, 2004, we had no material investing activities.

During the three month period ended September 30, 2004, we issued 166,667 shares of common stock upon exercise of warrants for cash proceeds of \$25,000 and 35,000 shares of common stock upon exercise of options for cash proceeds of \$5,800. We also issued 154,330 shares of common stock upon settlement of \$27,994 in accounts payable.

In August 2004, we amended a 12% \$100,000 demand promissory note (i) to provide for a maturity date of December 31, 2004, (ii) to permit conversion of the note by the holder into 555,555 shares of common stock, and (iii) to permit us to pay interest in shares of registered common stock. As part of this transaction, we granted a warrant to purchase 555,555 shares of common stock for \$0.23 expiring August 31, 2006.

Also in August 2004, the Company sold \$1,250,000 principal amount of Secured Convertible Promissory Notes ( Notes ) and Warrants to purchase 3,125,000 shares of common stock at \$0.20 per share ( Warrants ) to the following

investors: Bridges & Pipes LLC, Bushido Capital Master Fund, L.P., DCOFI Master LDC, and William N. Weidman. The total offering price was \$1,250,000. In connection with the financing, the Company paid a total of \$125,000 in fees and \$13,200 in expenses, including \$110,000 in fees to Duncan Capital LLC ( Duncan ) but excluding fees of the Company's counsel. The Company also issued to Duncan warrants to purchase 625,000 shares of common stock at an exercise price of \$0.20 in the form consistent with those of the Warrants sold to investors. The Company granted to Duncan certain first refusal and other rights in respect of certain future transactions, and certain indemnification rights. The principal, interest and other amounts owing under the Notes are convertible into common stock at the option of the holders at \$0.20 per share. The principal, interest and other amounts owing under the Notes are secured by a first lien on all of the Company's assets, and automatically convert into common stock at \$0.20 per share, subject to volume limitations set forth in the Notes, if the closing price of the common stock during a period designated in the Notes is not less than \$0.30 per share and a registration statement is then in effect with respect to the sale of the shares of common stock issuable on conversion. The Warrants are exercisable at \$0.20 per share and expire on September 1, 2009. On notice by the Company the Warrants will expire earlier if the closing price of the common stock during a period designated in the Warrants is not less than \$0.40 per share and a registration statement is in effect with respect to the sale of the shares of common stock issuable on exercise. The Warrants may be exercised on a cashless basis (i.e., by deducting from the number of shares otherwise issuable on exercise a number of shares that have a then market value equal to the exercise price) after August 30, 2005 so long as no registration statement is in effect with respect to the sale of shares issuable on exercise. The Company agreed not to pay dividends or materially change its line of business so long as the Notes are outstanding.

During the nine month period ended September 30, 2004, we issued 267,735 shares of common stock in settlement of \$55,256 of accounts payable; 12,046,143 shares of common stock upon exercise of warrants for cash proceeds of \$1,465,702; 254,917 shares of common stock upon exercise of options for cash proceeds of \$40,574; and 1,016,105 shares of common stock upon private placement for cash proceeds of \$152,416. The Company also issued convertible notes for proceeds of \$1,350,000 as described above.

Other than operating loan commitments and a commitment under existing leases for an aggregate of \$387,000 through 2009, we have no material commitments, including capital commitments, outstanding at September 30, 2004.

Our capital requirements are difficult to plan in light of our current strategy to expand our customer base and to develop new products and technologies. Our operations to date have been primarily financed by sales of our equity securities. As of September 30, 2004, we had working capital of \$1,104,888.

Our operations presently are generating negative cash flow, and we do not expect positive cash flow from operations in the near term. Our ability to continue as a going concern is dependent upon obtaining further financing, successful and sufficient market acceptance of our current products and any new product offerings that we may introduce, the continuing successful development of our products and related technologies, and, finally, achieving a profitable level of operations. The issuance of additional equity securities by us could result in a significant dilution in the equity interests of our current stockholders. Obtaining commercial loans, assuming those loans would be available, will increase our liabilities and future cash commitments.

Due to the uncertainty of our ability to meet our current operating and capital expenses, in their report on the annual consolidated financial statements for 2003, our independent auditors included an explanatory paragraph regarding concerns about our ability to continue as a going concern. Our consolidated financial statements contain additional note disclosures describing the circumstances that lead to this disclosure by our independent auditors.

#### *Inflation*

We do not believe that inflation has had a significant impact on our consolidated results of operations or financial condition.

## RISK FACTORS

For information on risk factors refer to Unity Wireless Corporation's SB-2/A registration statements filed October 27, 2004 and May 13, 2004 and the Company's annual report on Form 10-KSB for the year ended December 31, 2003.

### Item 3. Controls and Procedures

An evaluation has been carried out under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and the operation of our "disclosure controls and procedures" (as such term is defined in Rules 13a-15(e) under the Securities Exchange Act of 1934). Based on such evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that the disclosure controls and procedures are reasonably designed and effective to ensure that (i) information required to be disclosed by us in the reports we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and (ii) such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

## PART II - OTHER INFORMATION

### Item 1. Legal proceedings

Other than as set forth below, we know of no material, active or pending legal proceedings against our company, nor are we involved as a plaintiff in any material proceeding or pending litigation. There are no proceedings in which any of our directors, officers or affiliates, or any registered or beneficial shareholder, is an adverse party or has a material interest adverse to our interest.

We, along with Sonic Systems Corporation and M&M Realty Incorporated, have been sued in the Supreme Court of British Columbia, Canada, by Integrated Global Financial Corporation. The lawsuit was commenced on January 5, 2001. Integrated Global alleges it has options to purchase 500,000 shares, with no expiry date, at an alleged exercise price of \$1.00 per share, plus unspecified damages. We dispute the allegations and are defending the claim. A trial date has been set in September 2004. Examinations for Discovery have been conducted. The matter is at a very preliminary stage. It is our view that the claim has little, if any, merit and we do not expect the proceeding to have any material adverse effect on us. It is our position that these options have expired and we have not included such options in our outstanding options at September 30, 2004.

Subsequent to the quarter end, the above referenced lawsuit was dismissed by the Supreme Court of British Columbia, Canada.

### Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the three month period ended September 30, 2004, we issued 166,667 shares of common stock upon exercise of warrants for cash proceeds of \$25,000 and 35,000 shares of common stock upon exercise of options for cash proceeds of \$5,800. We also issued 154,330 shares of common stock upon settlement of \$27,994 in accounts payable.

In August 2004, we amended a 12% \$100,000 demand promissory note (i) to provide for a maturity date of December 31, 2004, (ii) to permit conversion of the note by the holder into 555,555 shares of common stock, and (iii) to permit us to pay interest in shares of registered common stock. As part of this transaction, we granted a warrant to purchase 555,555 shares of common stock for \$0.23 expiring August 31, 2006.

Also, in August 2004, the Company sold \$1,250,000 principal amount of Secured Convertible Promissory Notes ( Notes ) and Warrants to purchase 3,125,000 shares of common stock at \$0.20 per share ( Warrants ) to the following

investors: Bridges & Pipes LLC, Bushido Capital Master Fund, L.P., DCOFI Master LDC, and William N. Weidman. The total offering price was \$1,250,000. In connection with the financing, the Company paid a total of \$125,000 in fees and \$13,200 in expenses, including \$110,000 in fees to Duncan Capital LLC ( Duncan ) but excluding fees of the Company's counsel. The Company also issued to Duncan warrants to purchase 625,000 shares of common stock at an exercise price of \$0.20 in the form consistent with those of the Warrants sold to investors. The Company granted to Duncan certain first refusal and other rights in respect of certain future transactions, and certain indemnification rights. The principal, interest and other amounts owing under the Notes are convertible into common stock at the option of the holders at \$0.20 per share. The principal, interest and other amounts owing under the Notes are secured by a first lien on all of the Company's assets, and automatically convert into common stock at \$0.20 per share, subject to volume limitations set forth in the Notes, if the closing price of the common stock during a period designated in the Notes is not less than \$0.30 per share and a registration statement is then in effect with respect to the sale of the shares of common stock issuable on conversion. The Warrants are exercisable at \$0.20 per share and expire on September 1, 2009. On notice by the Company the Warrants will expire earlier if the closing price of the common stock during a period designated in the Warrants is not less than \$0.40 per share and a registration statement is in effect with respect to the sale of the shares of common stock issuable on exercise. The Warrants may be exercised on a cashless basis (i.e., by deducting from the number of shares otherwise issuable on exercise a number of shares that have a then market value equal to the exercise price) after August 30, 2005 so long as no registration statement is in effect with respect to the sale of shares issuable on exercise. The Company agreed not to pay dividends or materially change its line of business so long as the Notes are outstanding.

Subsequent to the end of the period ended September 30, 2004, the Company issued 2,250,001 shares of common stock upon exercise of warrants for cash proceeds of \$241,667. We issued replacement warrants to these warrant holders to purchase 1,125,000 shares of common stock exercisable at \$0.20 for a period of two years upon the exercise of their prior warrant. We also issued a warrant to purchase 150,000 shares of common stock exercisable at \$0.20 for a period of five years to a consultant as part of their contract extension.
