Item 2.02. Results of Operations and Financial Condition.

The information set forth in Item 7.01 below is incorporated herein by reference.

Item 7.01. Regulation FD Disclosure.

On October 18, 2017, Windstream Holdings, Inc. (together with its subsidiaries, “Windstream”) announced the commencement of certain debt exchange offers and consent solicitations with respect to senior notes issued by Windstream Services, LLC (“Services”). The exchange offers, if accepted, will provide Windstream with an extended maturity profile and enhance its liquidity over the coming years. The consent solicitations seek consents from Services’s noteholders to waive certain alleged defaults with respect to transactions related to the spin-off of Uniti Group, Inc. (“Uniti”) and to amend indentures governing these notes to give effect to such waivers and amendments. Windstream denies that any alleged default has occurred and is seeking a judicial declaration that there has been no default in connection with the spin-off and related transactions.

In connection with these transactions, Windstream is releasing selected preliminary, unaudited financial and operational results for the three months ended September 30, 2017. Windstream has not yet completed its financial closing process, and the information set out below should be considered preliminary and subject to change. The preliminary financial data included in this Current Report has been prepared by and is the responsibility of management. Windstream’s independent registered public accounting firm has not audited, reviewed, compiled or performed any procedures with respect to its preliminary financial and operational data, and does not express an opinion or any other form of assurance with respect to the preliminary data. The selected preliminary financial and operational data below is not a comprehensive statement of Windstream’s financial results for the three months ended September 30, 2017, and its actual results may differ materially from these estimates due to the completion of its financial closing procedures, final adjustments, review by its independent registered public accounting firm and other developments that may arise between now and the time the results are finalized.

While complete financial information and operating data are not available, based on information currently available, Windstream expects the following results for the three months ended September 30, 2017:

• Consolidated Service revenue to be approximately \$1.47 billion

• Consolidated Adjusted OIBDAR to be approximately \$490 million and consolidated operating income to be approximately \$43 million

• Adjusted Capex to be approximately \$205 million and GAAP capital expenditures to be approximately \$217 million

• ILEC consumer high-speed internet customer losses to be approximately 8,400

Notably, adjusted OIBDAR for the three months ended September 30, 2017 was impacted by approximately \$15 million due to typical higher seasonal expenses in our ILEC business unit and a regulatory reserve true-up item. During the fourth quarter, we expect sequential revenue pressures will be more than offset by normal, seasonal expense reductions, additional incremental, sequential expense reductions (including interconnection expenses, IT integration cost savings and acquisition synergies), and an additional month of Broadview adjusted OIBDAR.

Adjusted OIBDAR is defined as operating income plus depreciation and amortization expense, excluding the impacts of pension costs, restructuring charges, share-based compensation expense, merger, integration and certain other costs and excluding the impact of the annual cash payment due under the master lease agreement with Uniti Group, Inc.

Adjusted capital expenditures is defined as capital expenditures excluding post-merger integration capital expenditures related to the acquired Broadview Networks Holdings, Inc. and EarthLink Holdings Corp. operations.

Below is a reconciliation of our non-GAAP financial measures:
