06.01 NOTES TO THE QUARTERLY INFORMATION

Notes to quarterly information (parent company and consolidated) as of March 31, 2010

(Amounts in thousands of Brazilian Reais, unless otherwise stated)

1. Operations

Gafisa S.A. and its subsidiaries (collectively, the "Company") started its commercial operations in 1997 with the objectives of: (a) promoting and managing all forms of real estate ventures on its own behalf or for third parties; (b) purchasing, selling and negotiating real estate properties in general, including provision of financing to real estate clients; (c) carrying out civil construction and civil engineering services; (d) developing and implementing marketing strategies related to its own or third party real estate ventures; and (e) investing in other Brazilian or foreign companies which have similar objectives as the Company's.

The Company forms jointly-controlled ventures (Special Purpose Entities - SPEs) and participates in consortia and condominiums with third parties as a means of meeting its objectives. The controlled entities share the structure and corporate, managerial and operating costs with the Company.

On February 27, 2009, Gafisa and Odebrecht Empreendimentos Imobiliários S.A. announced an agreement for the dissolution of their partnership in Bairro Novo Empreendimentos Imobiliários S.A., terminating the Shareholders' Agreement then effective between the partners. Therefore Gafisa is no longer a partner in Bairro Novo Empreendimentos Imobiliários S.A.. The real estate ventures that were being conducted together by the parties started to be carried out separately, Gafisa in charge of developing the Bairro Novo Cotia real estate venture, whereas Odebrecht Empreendimentos Imobiliários S.A. in charge of the other ventures of the dissolved partnership.

On June 29, 2009, Gafisa S.A. and Construtora Tenda S.A. entered into a Private Instrument for Assignment and Transfer of Quotas and Other Covenants, in which Gafisa assigns and transfers to Tenda 41,341,895 quotas of Cotia1 Empreendimento Imobiliário for the net book value of R\$ 41,342 (Note 7). On December 30, 2009, the shareholders of Gafisa and Tenda approved the merger by Gafisa of total shares outstanding issued by Tenda. Because of the merger, Tenda became a wholly-owned subsidiary of Gafisa, and its shareholders received shares of Gafisa in exchange for their shares of Tenda at the ratio of 0.205 shares of Gafisa to one share of Tenda, as negotiated between Gafisa and the Independent Committee of Tenda,

both parties having been advised by independent expert companies. In view of the exchange ratio, 32,889,563 common shares were issued for the total issue price of R\$ 448,844 (Note 8).

06.01 NOTES TO THE QUARTERLY INFORMATION

On February 22, 2010, the split of our common shares was approved in the ratio of one existing share to two newly-issued shares, thus increasing the number of shares from 167,077,137 to 334,154,274.

In March 2010, the Company completed a public offering, resulting in a capital increase of R\$ 1,063,750 with the issue of 85,100,000 shares, comprising 46,634,420 shares in Brazil and 38,465,680 ADRs.

2. Presentation of the Quarterly Information

The quarterly information was approved by the Board of Directors in their meeting held on April 29, 2010.

The quarterly information were prepared and are being presented in accordance with the accounting practices adopted in Brazil, which take into consideration the provisions contained in the Brazilian Corporate Law - Law No. 6,404/76, amended by Laws Nos. 11,638/07 and 11,941/09, the Pronouncement, Guidance and Interpretation issued by the Accounting Standards Committee (CPC), approved by the proper authorities. Therefore, they do not consider the early adoption of the technical pronouncements issued by CPC, approved by the Federal Accounting Council (CFC), required for the years starting after January 1, 2010, as provided for in CVM Resolution No. 603/09.

The Company is discussing this matter with the other companies of the segment aiming at improving its understanding about its applicability in the segment and the Brazilian scenario, and arrived at the understanding that at present it is not possible to determine the effects of such changes on the shareholders' equity and results for the quarter ended March 31, 2010.

3. Significant accounting practices adopted in the preparation of the quarterly information

a) Accounting estimates

The preparation of the quarterly information in accordance with the accounting practices adopted in Brazil requires the Company's management to make judgments to determine and record accounting estimates. Assets and liabilities affected by estimates and assumptions include the residual value of property and equipment, provision for impairment, allowance for doubtful accounts, deferred tax assets, provision for contingencies and measurement of

financial instruments. The settlement of transactions involving these estimates may result in amounts different from those estimated in view of the inaccuracies inherent in the process for determining them. The Company review estimates and assumptions at least annually.

b) Recognition of results

(i) Real estate development and sales

Revenues, as well as costs and expenses directly related to real estate development units sold and not yet finished, are recognized over the course of the construction period and the following procedures are adopted:

(a) For completed units, the result is recognized when the sale is made, with the transfer of significant risks and rights, regardless of the receipt of the contractual amount, provided that the following conditions are met: (a) the result is determinable, that is, the collectibility of the sale price is reasonably assured or the amount that will not be collected can be estimated, and (b) the earnings process is virtually complete, that is, the Company is not obliged to perform significant activities after the sale to earn the profit. The collectibility of the sales price is demonstrated by the client's commitment to pay, which in turn is supported by initial and continuing investment.

(b) In the sales of unfinished units, the following procedures and rules were observed:

§ The incurred cost (including the costs related to land, and other expenditures directly related to increase inventories) corresponding to the units sold is fully appropriated to the result.

§ The percentage of incurred cost (including costs related to land) is measured in relation to total estimated cost, and this percentage is applied on the revenues from units sold, determined in accordance with the terms established in the sales contracts, thus determining the amount of revenues and selling expenses to be recognized in direct proportion to cost.

§ Any amount of revenues recognized that exceeds the amount received from clients is recorded as current or non-current assets. Any amount received in connection with the sale of units that exceeds the amount of revenues recognized is recorded as "Obligations for purchase of land and advances from clients".

§ Interest and inflation-indexation charges on accounts receivable as from the time the client takes possession of the property, as well as the adjustment to present value of accounts receivable, are appropriated to the result from the development and sale of real estate using the accrual basis of accounting pro rata basis.

§ The financial charges on accounts payable for acquisition of land and those directly associated with the financing of construction are recorded in inventories of properties for sale, and appropriated to the incurred cost of finished units, following the same criteria for appropriation of real estate development cost of units under construction sold.

The taxes on the difference between the revenues from real estate development and the accumulated revenues subject to tax are calculated and recognized when the difference in revenues is recognized.

The other advertising and publicity expenses are appropriated to results as they are incurred represented by media insertion using the accrual basis of accounting.

06.01 NOTES TO THE QUARTERLY INFORMATION

(ii) Construction services

Revenues from real estate services consist primarily of amounts received in connection with construction management activities for third parties, technical management and management of real estate; revenues are recognized as services are rendered.

(iii) Barter transactions

Barter transactions of land in exchange for units, the value of land acquired by the Company is calculated based on the fair value of real estate units to be delivered. The fair value is recorded in inventories of Properties for sale against liabilities for Advances from clients, at the time the barter agreement is signed, provided that the real estate development recording is obtained. Revenues and costs incurred from barter transactions are appropriated to income over the course of construction period of the projects, as described in item (b).

c) Financial instruments

Financial instruments are recognized only from the date the Company becomes a party to the contract provisions of financial instruments, which include financial investments, accounts receivable and other receivables, cash and cash equivalents, loans and financing, as well as accounts payable and other debts. Financial instruments that are not recognized at fair value through income are added by any directly attributable transactions costs.

After the initial recognition, financial instruments are measured as described below:

(i) Financial instruments at fair value through income

A financial instrument is classified into fair value through income if held for trading, that is, designated as such when initially recognized. Financial instruments are designated at fair value through income if the Company manages these investments and makes decisions on purchase and sale based on their fair value according to the strategy of investment and risk management documented by the Company. After initial recognition, attributable transaction costs are recognized in income when incurred. Financial instruments at fair value through income are measured at fair value, and their fluctuations are recognized in income.

(ii) Loans and receivables

Loans and receivables are measured at cost amortized using the method of effective interest rate, reduced by possible impairment.

d) Cash and cash equivalents

Consist primarily of bank certificates of deposit and investment funds, denominated in reais, having a ready market and original maturity of 90 days or less or in regard to which there are no penalties or other restrictions for early redemption. Most of financial investments are classified into the category "financial assets at fair value through income".

Investment funds in which the Company is the sole owner are fully consolidated.

e) Receivables from clients

These are stated at cost plus accrued interest and indexation adjustments, net of adjustment to present value. The allowance for doubtful accounts arising from the provision of services, when applicable, is set up by the Company's management when there is no expectation of realization. In relation to receivables from development, the allowance for doubtful accounts is set up at an amount considered sufficient by Management to cover estimated losses on realization of credits that do not have general guarantee.

The installments due are indexed based on the National Civil Construction Index (INCC) during the construction phase, and based on the General Market Prices Index (IGP-M) and interest, after delivery of the units. For accounts receivable due of sale of units, the understanding of Management is that there is no need of setting up an allowance because it has general guarantee and the prices of units are above their book value, except for those related to the subsidiary Tenda.

f) Certificates of real estate receivables (CRI)

The Company assigns receivables for the securitization and issuance of mortgage-backed securities ("CRI"). When this assignment does not involve right of recourse, it is recorded as a reduction of accounts receivable. When the transaction involves recourse against the Company, the accounts receivable sold is maintained on the balance sheet. The financial guarantees, when a participation is acquired (subordinated CRI) and maintained to secure the receivables that were assigned, are recorded in the balance sheet in non-current receivables at fair value.

g) Investment Fund of Receivables ("FIDC") and Real estate credit certificate (CCI)

The Company consolidates Investment Funds of Receivables (FIDC) in which it holds subordinated quotas, subscribed and paid in by the Company in receivables.

Pursuant to CVM Instruction No. 408, the consolidation by the Company of FIDC arises from the evaluation of the underlying and economic reality of these investments, considering, among others: (a) whether the Company still have control over the assigned receivables, (b) whether it still retains any right in relation to assigned receivables, (c) whether it still bears the risks and responsibilities for the assigned receivables, and (d) whether the Company fundamentally or usually pledges guarantees to FIDC investors in relation to the expected receipts and interests, even informally.

06.01 NOTES TO THE QUARTERLY INFORMATION

When consolidating the FIDC in its quarterly information, the Company discloses the receivables in the group of accounts of receivables from clients and the FIDC net worth is reflected in other accounts payable, the balance of subordinated quotas held by the Company being eliminated in this consolidation process.

The financial costs of these transactions are appropriated on pro rata basis in the adequate heading of financial expenses.

The Company carries out the assignment and/or securitization of receivables related to credits of statutory lien on completed real estate ventures. This securitization is carried out upon the issuance of the real estate credit certificate (CCI), which is assigned to financial institutions that grant credit. The funds from assignment are classified in the heading other accounts payable, until certificates are settled by clients.

h) Properties for sale

Land is stated at cost of acquisition. Land is recorded only after the deed of property is registered. The Company also acquires land through barter transactions where, in exchange for the land acquired, it undertakes to deliver (a) real estate units under development or (b) part of the sales revenues originating from the sale of the real estate units. Land acquired through barter transaction is stated at fair value.

Properties are stated at construction cost, which does not exceed the net realizable value. In the case of real estate developments in progress, the portion in inventories corresponds to the cost incurred for units that have not yet been sold. The incurred cost comprises construction (materials, own or outsourced labor, and other related items), expenses for regularizing lands and ventures, and financial charges appropriated to the development as incurred during the construction phase.

When the cost of construction of properties for sale exceeds the expected cash flow from sales, once completed or still under construction, an impairment charge is recognized in the period when the book value is considered no longer to be recoverable.

Properties for sale are reviewed to evaluate the recovery of the book value of each real estate development when events or changes in macroeconomic scenarios indicate that the book value may not be recoverable. If the book value of a real estate development is not recoverable, compared to its realizable value through expected cash flows, a provision is recorded.

06.01 NOTES TO THE QUARTERLY INFORMATION

The Company capitalizes interest on developments during the construction phase, arising from the National Housing System and other credit lines that are used for financing the construction of developments (limited to the corresponding financial expense amount), which are recognized in income in the proportion to units sold, the same criterion for other costs.

i) Deferred selling expenses

Brokerage expenditures are recorded in results following the same percentage-of-completion criteria adopted for the recognition of revenues. The charges related to sales commission of the buyer are not recognized as revenue or expense of the Company.

j) Warranty provision

The Company and its subsidiaries record a provision to cover expenditures for repairing construction defects covered during the warranty period, except for the subsidiaries that operate with outsourced companies, which are the own guarantors of the constructions services provided. The warranty period is five years from the delivery of the unit.

k) Prepaid expenses

These are taken to income in the period to which they relate.

l) Property and equipment

Recorded at cost. Depreciation is calculated based on the straight-line method considering the estimated useful life of the assets, as follows:

(i) Vehicles □ 5 years;

(ii) Office equipment and other installations □ 10 years;

(iii) Sales stands, facilities, model apartments and related furnishings - 1 year.

Expenditures incurred for the construction of sales stands, facilities, model apartments and related furnishings are capitalized as Property and equipment. Depreciation of these assets commences upon launch of the development and is recorded over the average term of one year and subject to periodical analysis of asset impairment.

m) Intangible assets

Intangible assets relate to the acquisition and development of computer systems and software licenses, recorded at acquisition cost, and are amortized over a period of up to five years.

n) Goodwill and negative goodwill on the acquisition of investments

The Company's investments in subsidiaries include goodwill when the acquisition cost exceeds the book value of net tangible assets of the acquired subsidiary and negative goodwill when the acquisition cost is lower.

Up to December 31, 2008, the goodwill is amortized in accordance with the underlying economic basis which considers factors such as the land bank, the ability to generate results from developments launched and/or to be launched and other inherent factors. From January 1, 2009 goodwill is no longer amortized in results for the period.

The Company annually evaluates at the balance sheet date whether there are any indications of permanent loss and potential adjustments to measure the residual portion not amortized of recorded goodwill, and records an impairment provision, if required, to adjust the carrying value of goodwill to recoverable amounts or to realizable values. If the book value exceeds the recoverable amount, the amount thereof is reduced.

Goodwill that cannot be justified economically is immediately charged to results for the year.

Negative goodwill that is justified economically is appropriated to results at the extent the assets which originated it are realized. Negative goodwill that is not justified economically is recognized in results only upon disposal of the investment.

o) Investments in subsidiaries and joint-controlled investees

If the Company holds more than half of the voting capital of another company, the latter is considered a subsidiary and is consolidated. In situations where shareholder agreements grant the other party veto rights affecting the Company's business decisions with regards to its subsidiary, such affiliates are considered to be jointly-controlled companies and are recorded on the equity method.

Cumulative movements after acquisitions are adjusted in cost of investment. Unrealized gains or transactions between Gafisa S.A. and its affiliates and subsidiary companies are eliminated in proportion to the Gafisa S.A.'s interest; unrealized losses are also eliminated, unless the

transaction provides evidence of impairment of the asset transferred.

When the Company's interest in the losses of subsidiaries is equal to or higher than the amount invested, the Company recognizes the residual portion of the net capital deficiency since it assumes obligations to make payments on behalf of these companies or for advances for future capital increase.

The accounting practices of acquired subsidiaries are aligned with those of the parent company, in order to ensure consistency with the practices adopted by the Company.

p) Obligations for purchase of land and advances from clients due to barter transactions

These are contractual obligations established for purchases of land in inventory (Property for sale) which are stated at amortized cost plus interest and charges proportional to the period (pro rata basis), when applicable, net of adjustment to present value.

The obligations related to barter transactions of land in exchange for real estate units are stated at fair value, as advances from clients.

q) Taxes on income

Taxes on income in Brazil comprise Federal income tax (25%) and social contribution (9%), as recorded in the statutory accounting records, for entities on the taxable profit regime, for which the composite statutory rate is 34%. Deferred taxes are provided on all temporary tax differences.

As permitted by tax legislation, certain subsidiaries and jointly-controlled companies, the annual billings of which were lower than a specified amount, opted for the presumed profit regime. For these companies, the income tax basis is calculated at the rate of 8% on gross revenues plus financial income and for the social contribution basis at 12% on gross revenues plus financial income, upon which the income tax and social contribution rates, 25% and 9%, respectively, are applied. The deferred tax assets are recognized to the extent that future taxable income is expected to be available to be used to offset temporary differences based on the budgeted future results prepared based on internal assumptions. New circumstances and economic scenarios may change the estimates, as approved by the Management bodies.

Deferred tax assets arising from net operating losses have no expiration dates, though offset is restricted to 30% of annual taxable income. Taxable entities on the presumed profit regime cannot offset prior year losses against tax payable.

In the event realization of deferred tax assets is not considered to be probable, no amount is recorded (Note 16).

r) Other current and non-current liabilities

These liabilities are stated on the accrual basis at their known or estimated amounts, plus, when applicable, the corresponding charges and inflation-indexed variations through the balance sheet date, which contra-entry is included in income for the year. When applicable, current and non-current liabilities are recorded at present value based on interest rates that reflect the term, currency and risk of each transaction.

The liability for future compensation of employee vacations earned is fully accrued.

06.01 NOTES TO THE QUARTERLY INFORMATION

Gafisa S.A. and its subsidiaries do not offer private pension plans or retirement plan or other post-employment benefits to employees.

s) Stock option plan

As approved by its Board of Directors, the Company offers to its selected executives share-based compensation plans ("Stock Options").

The fair value of services received from the plan participants, in exchange for options, is determined in relation to the fair value of shares, on the grant date of each plan, and recognized as expense as contra-entry to shareholders' equity at the extent service is rendered.

t) Profit sharing program for employees and officers

The Company provides for the distribution of profit sharing benefits and bonuses to employees recognized in results in General and administrative expenses.

Additionally, the Company's bylaws establish the distribution of profit sharing to executive officers (in an amount that does not exceed the lower of their annual compensation or 10% of the Company's net income).

The bonus systems operate on a three-tier performance-based structure in which the corporate efficiency targets as approved by the Board of Directors must first be achieved, followed by targets for the business units and finally individual performance targets.

u) Present value adjustment

The assets and liabilities arising from long or short-term transactions, if they had a significant effect, were adjusted to present value.

In installment sales of unfinished units, real estate development entities have receivables formed prior to delivery of the units which does not accrue interest, were discounted to

present value. The reversal of the adjustment to present value, considering that an important part of the Company's activities is to finance its customers, was made as a contra-entry to the real estate development revenue group itself, consistent with the interest accrued on the portion of accounts receivable related to the "after the keys" period

The financial charges of funds used in the construction and finance of real estate ventures shall be capitalized. As interest from funds used to finance the acquisition of land for development and construction is capitalized, the accretion of the present value adjustment arising from the obligation is recorded in Real estate development operating costs or against inventories of Properties for sale, as the case may be, until the construction phase of the venture is completed.

06.01 NOTES TO THE QUARTERLY INFORMATION

Accordingly, certain asset and liability items are adjusted to present value based on discount rates that reflect management's best estimate of the value of money over time and the specific risks of the asset and the liability.

The applied discount rate's underlying economic basis and assumption is the average rate of the financing and loans obtained by the Company, net of the inflation-index effect of IGP-M (Note 5).

v) Test for impairment

Management reviews annually the carrying value of assets with the objective of evaluating events or changes in economic and operational circumstances that may indicate impairment or reduction in their recoverable amounts. When such evidences are found, the carrying amount is higher than the recoverable one, so a provision for impairment is set up, adjusting the carrying to the recoverable amount. The goodwill and intangible assets with indefinite useful lives have the recovery of their amounts tested annually, whether there is or not indications of reduction in value.

w) Debenture and share issuance expenses

Transaction costs and premiums on issuance of securities, as well as share issuance expenses are accounted for as a direct reduction of capital raised. In addition, transaction costs and premiums on issuance of debt securities are amortized over the terms of the security and the balance is presented net of issuance expenses.

x) Contingent assets and liabilities and legal obligations

The accounting practices to record and disclose contingent assets and liabilities and legal obligations are as follows: (i) Contingent assets are recognized only when there are general guarantees or final and unappealable favorable court decisions. Contingent assets which depend on probable successful lawsuits are only disclosed in a Note to financial statements; and (ii) Contingent liabilities are accrued when losses are considered probable and the involved amounts are reasonably measurable. Contingent liabilities which losses are considered possible are only disclosed in a Note to financial statements, and those which losses are considered remote are not accrued nor disclosed.

y) Statements of cash flows and added value

Statements of cash flows are prepared and presented as per CVM Resolution No. 547, of August 13, 2008, which approved the CPC 03 □ Statement of Cash Flows. Statements of added value are prepared and presented as per CVM Resolution No. 557, of November 12, 2008, which approved CPC 09 □ Statement of Added Value.

06.01 NOTES TO THE QUARTERLY INFORMATION

Fundo de Investimento Arena is a multimarket fund under management and administration of Santander Asset Management and custody of Itau Unibanco. The objective of this fund is to appreciate the value of its quotas by investing the funds of its investment portfolio, which may be composed of financial and/or other operating assets available in the financial and capital markets that yield fixed return. Assets eligible to the portfolio are the following: government bonds, derivative contracts, debentures, CDBs and Bank Receipts of Deposits (RDBs), investment fund quotas of classes accepted by CVM and securities purchased under agreement to resell, according to the rules of the National Monetary Council (CMN). There is no grace period for redemption of quotas, which can be redeemed with a return at any time. The fund's tax treatment is that applicable to long-term investment funds.

Fundo de Investimento Colina is a fixed-income private credit fund under management and administration of Santander Asset Management and custody of Itau Unibanco. The objective of this fund is to provide a return higher than 101% of CDI. The assets eligible to the portfolio are the following: government bonds, derivative contracts, debentures, CDBs and RDBs. The consolidated portfolio can generate exposure to Selic/CDI, fixed rate and price indices. There is no grace period for redemption of quotas, which can be redeemed with a return at any time. The fund's tax treatment is that applicable to long-term investment funds.

Fundo de Investimento Vista is a fixed-income private credit fund under management and administration of Votorantim Asset Management and custody of Itau Unibanco. The objective of this fund is to provide a return higher than 101% of CDI. The assets eligible to the portfolio are the following: government bonds, derivative contracts, debentures, CDBs and RDBs. The consolidated portfolio can generate exposure to Selic/CDI, fixed rate and price indices. There is no grace period for redemption of quotas, which can be redeemed with a return at any time. (i) The balance of accounts receivable from units sold and not yet delivered is limited to the portion of revenues accounted for net of the amounts already received.

The balances of advances from clients (development and services), which exceed the revenues recorded in the period, amount to R\$ 222,866 in consolidated at March 31, 2010 (December 31, 2009 - R\$ 222,284), and are classified in Obligations for purchase of land and advances from clients.

Accounts receivable from completed real estate units delivered are in general subject to annual interest of 12% plus IGP-M variation, the financial income being recorded in income as Revenue from real estate development; the interest recognized for the periods ended March 31, 2010 and March 31, 2009 totaled R\$ 7,667 and R\$ 16,176, respectively.

An allowance for doubtful accounts is not considered necessary, except for Tenda, since the history of losses on accounts receivable is insignificant. The Company's evaluation of the risk of loss takes into account that these credits refer mostly to developments under construction, where the transfer of the property deed only takes place after the settlement and/or negotiation of the client receivables.

The allowance for doubtful accounts for Tenda totaled R\$ 17,995 (consolidated) at March 31, 2010 (December 31, 2009 □ R\$ 17,841), and is considered sufficient by the Company's management to cover the forecast of future losses on the realization of accounts receivable of this subsidiary.

The total reversal value of the adjustment to present value recognized in the real estate development revenue for the period ended March 31, 2010 amounted to R\$ 1,592 (parent company) and R\$ 7,338 (consolidated), respectively.

Receivables from real estate units not yet finished were measured at present value considering the discount rate determined according to the criterion described in Note 3(u). The net rate applied by the Company and its subsidiaries varied from 5.16% to 6.28% for the quarter ended March 31, 2010.

(ii) On March 31, 2009, the Company carried out a FIDC transaction, which consists of an assignment of a portfolio comprising select residential and commercial real estate receivables arising from Gafisa and its subsidiaries. This portfolio was assigned and transferred to [Gafisa FIDC] which issued Senior and Subordinated quotas. This first issuance of senior quotas was made through an offering restricted to qualified investors. Subordinated quotas were subscribed exclusively by Gafisa. Gafisa FDIC acquired the portfolio of receivables at a discount rate equivalent to the interest rate of finance contracts.

Gafisa was hired by Gafisa FDIC and will be remunerated for performing, among other duties, the conciliation of the receipt of receivables owned by the fund and the collection of past due receivables. The transaction structure provides for the substitution of the Company as collection agent in case of non-fulfillment of the responsibilities described in the collection service contract.

The Company assigned its receivables portfolio amounting to R\$ 119,622 to Gafisa FIDC in exchange for cash, at the transfer date, discounted to present value, for R\$ 88,664. The following two quota types were issued: Senior and Subordinated. The subordinated quotas were exclusively subscribed by Gafisa S.A., representing approximately 21% of the amount issued, totaling R\$ 18,958 (present value). At March 31, 2010 it totaled R\$ 16,806 (Note 8). Senior and Subordinated quota receivables are indexed by IGP-M and incur interest at 12% per year.

The Company consolidated Gafisa FIDC in its quarterly information, accordingly, it discloses at March 31, 2010 receivables amounting to R\$ 48,446 in the group of accounts of receivables from clients, and R\$ 31,640 is reflected in other accounts payable, the balance of subordinated quotas held by the Company being eliminated in this consolidation process.

(iii) On June 26, 2009, the Company carried out a CCI transaction, which consists of an assignment of a portfolio comprising select residential real estate credits from Gafisa and its subsidiaries. The Company assigned its receivables portfolio amounting to R\$ 89,102 in exchange for cash, at the transfer date, discounted to present value, of R\$ 69,315, classified into the heading "Other Accounts Payable - Credit Assignments".

8 book CCIs were issued, amounting to R\$ 69,315 at the date of issue. These 8 CCIs are backed by Receivables which installments fall due on and up to June 26, 2014 ([CCI-Investor]).

CCI-Investor, pursuant to Article 125 of the Brazilian Civil Code, carry general guarantees represented by statutory lien on real estate units, as soon as the following occurs: (i) the suspensive condition included in the registration takes place, in the record of the respective real estate units; (ii) the assignment of receivables from the assignors to SPEs, as provided for in Article 167, item II, (21) of Law No. 6,015, of December 31, 1973; and

(*) The Company participates in the development of real estate ventures with other partners, directly or through related parties, based on the constitution of condominiums and/or consortia. The management structure of these enterprises and the cash management are centralized in the lead partner of the enterprise, which manages the construction schedule and budgets. Thus, the lead partner ensures that the investments of the necessary funds are made and allocated as planned. The sources and use of resources of the venture are reflected in these balances, observing the respective participation percentage, which are not subject to indexation or financial charges and do not have a predetermined maturity date. The average term for the development and completion of the projects in which the resources are invested is between 24 and 30 months. The Company receives a compensation for the management of these ventures.

As mentioned in Note 1, on June 29, 2009, Gafisa S.A. and Construtora Tenda S.A. entered into a Private Instrument for Assignment and Transfer of Quotas and Other Covenants, in which

Gafisa assigns and transfers to Tenda 41,341,895 quotas of Cotia1 Empreendimento Imobiliário for the net book value of R\$ 41,342 (recognized in the heading "Current accounts related to real estate venture"), payable in 36 monthly installments from March 2010 to March 2013. The value of each installment will be added by interests at 0.6821% per month, and monetary adjustment equivalent to the positive variation of IGPM.

future profitability, which was amortized exponentially and progressively up to December 31, 2008 to match the estimated profit before taxes of AUSA on accrual basis of accounting. From January 1, 2009, the goodwill from the acquisition of AUSA was no longer amortized according to the new accounting practices; however, it will be evaluated, at least annually, in a context of evaluation of recoverable value and potential losses. The Company has a commitment to purchase the remaining 40% of AUSA's capital stock based on the fair value of AUSA, evaluated at the future acquisition dates, the purchase consideration for which cannot yet be calculated and, consequently, is not recognized. The contract for acquisition provides that the Company undertakes to purchase the remaining 40% of AUSA in the following five years (20% in January 2010 and 20% in January 2012) for settlement in cash or shares, at the Company's sole discretion (Note 22).

On October 26, 2007, the Company acquired 70% of Cipesa and Gafisa S.A. and Cipesa incorporated a new company, Cipesa Empreendimentos Imobiliários Ltda. ("Nova Cipesa"), in which the Company holds a 70% interest and Cipesa has 30%. Gafisa S.A. made a contribution in Nova Cipesa of R\$ 50,000 in cash and acquired the shares which Cipesa held in Nova Cipesa amounting to R\$ 15,000, paid on October 26, 2008. Cipesa is entitled to receive from the Company a variable portion corresponding to 2% of the Total Sales Value (VGV), as defined, of the projects launched by Nova Cipesa through 2014, not to exceed R\$ 25,000. Accordingly, the Company's purchase consideration totaled R\$ 90,000 and goodwill amounting to R\$ 40,686 was recorded, based on expected future profitability. From January 1, 2009, according to the new accounting practices, the goodwill from the acquisition of Nova Cipesa will be evaluated, at least annually, in a context of evaluation of recoverable value and potential losses.

In November 2007, the Company acquired for R\$ 40,000 the remaining interest in certain ventures with Redevco do Brasil Ltda. ("Redevco"). As a result of this transaction, the Company recognized negative goodwill of R\$ 31,235, based on expected future profitability, which was amortized exponentially and progressively up to December 31, 2009, based on the estimated profit before taxes on net income of these SPEs. In the period ended March 31, 2010, the Company amortized negative goodwill amounting to R\$ 1,205 arising from the acquisition of these SPEs (March 31, 2009 □ R\$ 1,273).

On October 21, 2008, as part of the acquisition of its interest in Tenda, the Company contributed the net assets of Fit Residencial amounting to R\$ 411,241, acquiring 60% of the shareholders' equity of Tenda, which at that date presented shareholders' equity book value of R\$ 1,036,072, with an investment of R\$ 621,643. The sale of the 40% quotas of Fit Residencial to Tenda shareholders in exchange for the Tenda shares generated negative goodwill of R\$ 210,402, which is based on expected future results, reflecting the gain on the

sale of the interest in Fit Residencial (gain on the exchange of shares). This negative goodwill is being amortized over the average construction period (through delivery of the units) of the real estate ventures of Fit Residencial at October 21, 2008, and by the negative effects on realization of certain assets arising from the acquisition of Tenda. In 2009, the total gain on partial sale of Fit Residencial was amortized in the amount of R\$ 169,394, of which R\$ 52,600 in the period ended March 31, 2009.

The Company has restrictive debenture covenants which limit its ability to perform certain actions, such as the issuance of debt, and that could require the early redemption or refinancing of loans if the Company does not fulfill these. The first placement of the Second Program and the first placement of the Third Program have cross-restrictive covenants in which an event of default or early maturity of any debt above R\$ 5 million and R\$ 10 million, respectively, requires the Company to early amortize the first placement of the Second Program.

On July 21, 2009, the Company renegotiated with the debenture holders the restrictive debenture covenants of the Second Program, and obtained the approval for taking out the covenant that limited the Company's net debt to R\$ 1.0 billion and increasing the financial flexibility, changing the calculation of the ratio between net debt and shareholders' equity. As a result of these changes, interest repaid by the Company increased to CDI + 2% to 3.25% per year.

The actual ratios and minimum and maximum amounts stipulated by these restrictive covenants and measured under Brazilian GAAP at March 31, 2010 and December 31, 2009 are as follows:

(a) In January 2008, the Company formed an unincorporated venture (SCP), the main objective of which is to hold interests in other real estate development companies. At March 31, 2010, the SCP received contributions of R\$ 313,084 (represented by 13,084,000 Class A quotas fully paid-in by the Company and 300,000,000 Class B quotas from the other venture partners). The SCP will preferably use these funds to acquire equity investments and increase the capital of its investees. As the decision to invest or not is made jointly by all quotaholders, the venture is treated as a variable interest entity and the Company deemed to be the primary beneficiary; at March 31, 2010, Obligations to venture partners amounting to R\$

300,000 mature on January 31, 2014. The SCP has a defined term which ends on January 31, 2014 at which time the Company is required to redeem the venture partner's interest. The venture partner receives an annual dividend substantially equivalent to the variation in the Interbank Deposit Certificate (CDI) rate, at March 31, 2010, the amount accrued totaled R\$ 4,262. The SCP's charter provides for the compliance with certain covenants by the Company, in its capacity as lead partner, which include the maintenance of minimum indices of net debt and receivables. At March 31, 2010, the SCP and the Company were in compliance with these clauses.

13. Commitments and provision for contingencies

(a) At March 31, 2010, the provisions for contingent liability related to civil lawsuits include R\$ 72,266, related to lawsuits in which the Company is included as successor in foreclosure actions, in which the original debtor is a former shareholder of Gafisa, Cimob Companhia Imobiliária ("Cimob"), among other companies of the group, on the understanding that the Company should be liable for the debts of Cimob. Some lawsuits, amounting to R\$ 8,053, are backed by a guarantee insurance, in addition to a judicial deposit amounting to R\$ 63,678, in connection with the blocking of Gafisa's bank accounts; and there is also the blocking of Gafisa's treasury to guarantee the foreclosure.

The Company is filing appeals against all decisions, as it considers that the inclusion of Gafisa in the lawsuits is legally unreasonable; these appeals aim at releasing amounts and obtaining the recognition that it cannot be held liable for the debt of a company that does not have any relationship with Gafisa. The Company has even obtained favorable decisions in some similar cases, in which it was awarded final and unappealable decisions recognizing the lack of responsibility for the debts of Cimob. The final decision on the Company's appeal, however, cannot be predicted at present.

06.01 NOTES TO THE QUARTERLY INFORMATION

(b) The subsidiary AUSA is a party in judicial lawsuits and administrative proceedings related to Excise Tax (IPI) and Value-added Tax on Sales and Services (ICMS) on two imports of aircraft in 2001 and 2005, respectively, under leasing agreements without purchase option. The likelihood of loss in the ICMS case is estimated by legal counsel as (i) probable in regard to the principal and interest, and (ii) remote in regard to the fine for noncompliance with ancillary obligations. The amount of the contingency estimated by legal counsel as a probable loss amounts to R\$ 10,566 and is recorded in a provision in the financial information at March 31, 2010.

At March 31, 2010, the Company is monitoring other lawsuits and risks, the likelihood of which, based on the position of legal counsel, is possible but not probable, totaling approximately R\$ 108,488, according to the historical average of lawsuits and for which management believes a provision for loss is not necessary.

(b) Commitment to complete developments

The Company is committed to deliver units to owners of land who exchange land for real estate units developed by the Company.

The Company is also committed to complete units sold and to comply with the requirements of the building regulations and licenses approved by the proper authorities.

As described in Note 4, at March 31, 2010, the Company has resources approved and recorded as financial investments guaranteed which will be released to the extent ventures progresses in the total amount of R\$ 395,483 (parent company) and R\$ 425,563 (consolidated) to meet these commitments.

06.01 NOTES TO THE QUARTERLY INFORMATION

To be eligible for the plans (plans from 2000 to 2002), participant employees are required to contribute 10% of the value of total benefited options on the date the option is granted and, additionally, for each of the following five years, 18% of the price of the grant per year.

To be eligible for the 2006 and 2007 plans, employees are required to contribute at least 70% of the annual bonus received to exercise the options, under penalty of losing the right to exercise all options of subsequent lots.

The exercise price of the grant is inflation adjusted (IGP-M index), plus annual interest at 3%. The stock option may be exercised in one to five years subsequent to the initial date of the work period established in each of the plans. The shares are usually available to employees over a period of ten years after their contribution.

The Company records the cash receipt against a liability account to the extent the employees make advances for the purchase of the shares during the vesting period. There were no advanced payments in the year ended March 31, 2010.

The Company may decide to issue new shares or transfer the treasury shares to the employees in accordance with the clauses established in the plans. The Company has the right of first refusal on shares issued under the plans in the event of dismissals and retirement. In such cases, the amounts advanced are returned to the employees, in certain circumstances, at amounts that correspond to the greater of the market value of the shares (as established in the rules of the plans) or the amount inflation-indexed (IGP-M) plus annual interest at 3%.

In 2008, the Company issued a new stock option plan. In order to become eligible for the grant, employees are required to contribute from 25% to 80% of their annual net bonus to exercise the options within 30 days from the program date.

On June 26, 2009, the Company issued a new stock option plan for granting 1,300,000 options. In addition, the exchange of the 2,740,000 options of the 2007 and 2008 plans for 1,900,000 options granted under this new stock option plan was approved.

The assumptions adopted for recording the stock option plan for 2009 were the following: expected volatility of 40%, expected share dividends of 1.91%, and risk-free interest rate at 8.99%.

From July 1, 2009, the Company's management opted for using the Binomial and Monte Carlo models for pricing the options granted in replacement for the Black-Scholes model, because on its understanding these models are capable of including and calculating with a wider range of variables and assumptions comprising the plans of the Company. The effect of this model replacement was brought about prospectively on July 1, 2009, with the recording of income amounting to R\$ 1,650 for the period ended March 31, 2010.

(ii) Tenda

Tenda has a total of three stock option plans, the first two were approved in June 2008, and the other one in April 2009. These plans, limited to the maximum of 5% of total capital shares and approved by the Board of Directors, stipulate the general terms, which, among other things, (i) define the length of service that is required for employees to be eligible to the benefits of the plans, (ii) select the employees that will be entitled to participate, and (iii) establish the purchase prices of the preferred shares to be exercised under the plans.

In the option granted in 2008, when exercising the option the base price will be adjusted according to the market value of shares, based on the average price in the 20 trading sessions prior to the commencement of each annual exercise period. The exercise price is adjusted according to a fixed table of values, according to the share value in the market, at the time of the two exercise periods for each annual lot. In the options granted in 2009, the vesting price is adjusted by the IGP-M variation, plus interests at 3%. The stock option may be exercised by beneficiaries, who shall partially use their annual bonuses, as awarded, in up to 10 years subsequent to the initial date of the work period established in each of the plans. The shares are usually available to employees over a period of two to five years after their contribution.

16. Deferred taxes

Deferred taxes are recorded to reflect the future tax effects attributable to temporary differences between the tax bases of assets and liabilities and their respective carrying amounts.

According to CVM Instruction No. 371, of June 27, 2002, the Company, based on a technical study, approved by Management, on the estimate of future taxable income, recognized tax credits on income tax and social contribution loss carryforwards for prior years, which do not have maturity and can be offset up to 30% of annual taxable income. The carrying amount of deferred tax asset is periodically reviewed, whereas projects are reviewed annually; in case there are significant factors that may change such projection, these are reviewed over the year by the Company.

The Company calculates its taxes based on the recognition of results proportionally to the receipt of the contracted sales, in accordance with the tax rules determined by the Federal Revenue Service (SRF) Instruction 84/79, which differs from the calculation of the accounting revenues based on the costs incurred versus total estimated cost. The tax basis will crystallize over an average period of four years as cash inflows arise and the conclusion of the corresponding projects.

Other than for Tenda, Gafisa has not recorded a deferred income tax asset on the tax losses

and social contribution tax loss carryforwards of its subsidiaries which adopt the taxable income regime and do not have a history of taxable income for the past three years.

The projections of future taxable income consider estimates that are related, among other things, to the Company's performance and the behavior of the market in which it operates, as well as certain economic factors. Actual results could differ from these estimates.

Management considers that deferred tax assets arising from temporary differences will be realized at the extent the contingencies and events are settled.

Based on estimated future taxable income of Gafisa, the expected recovery profile of the income tax and social contribution loss carryforwards of the parent company and Tenda is:

(a) Adherence to the "Crisis Tax Recovery Program" (Crisis Refis)

Pursuant to Law No. 11,941/2009 of May 27, 2009 and the Provisional Measure No. 470/2009 of October 13, 2009, the Company and its subsidiaries submitted the Request for Special Installment Payment - "REFIS IV" to the Federal Revenue Service, with the migration of the debt balance of the Extraordinary Installment Payment of the Ministry of Finance (PAEX) and inclusion of the lawsuits ended against the Federal Revenue Service amounting to R\$ 25,120. Such Law and Provisional Measure establish a reduction in fine, interest, legal charges and payment with tax loss. The Company opted for the cash payment of tax debts amounting to R\$ 17,304, and the consolidated gain with the adherence to Refis amounted to R\$ 3,999. The total portion payable in installment amounted to R\$ 6,818, divided into 180 monthly installments, the minimum installment starting from September 2009 until the consolidation of the debt plus interest corresponding to the monthly variation of SELIC.

The Company is required to make regular tax and contribution payments, in installments and in cash, as basic condition for maintaining the installment payment and its conditions. At March 31, 2010, the Company is in compliance with the payments.

17. Financial instruments

The Company and its subsidiaries participate in operations involving financial instruments. Management of these instruments is made through operational strategies and internal controls aimed at liquidity, return and safety. The use of financial instruments with objective of hedge is made through a periodical analysis of exposure to the risk that the management intends to cover (exchange, interest rate, etc) which is approved by the Board of Directors for authorization and performance of the proposed strategy. The policy on control consists of permanently following up the contracted conditions in relation to the conditions prevailing in the market. The Company and its subsidiaries do not invest for speculation in derivatives or any other risky assets. The result from these operations is consistent with the policies and strategies devised by the Company's management.

06.01 NOTES TO THE QUARTERLY INFORMATION

The Company's and its subsidiaries operations are subject to the risk factors described below:

(a) Risk considerations

(i) Credit risk

The Company and its subsidiaries restrict their exposure to credit risks associated with cash and cash equivalents, investing in financial institutions considered highly rated and in short-term securities.

With regards to accounts receivable, the Company restricts its exposure to credit risks through sales to a broad base of clients and ongoing credit analysis. Additionally, there is no history of losses due to the existence of liens for the recovery of its products in the cases of default during the construction period.

Other than for Tenda, the Company management did not deem necessary the recognition of a provision to cover losses for the recovery of receivables related to delivered real estate units at March 31, 2010. There was no significant concentration of credit risks related to clients for this period.

(ii) Derivative financial instruments

The Company adopts the policy of participating in operations involving derivative financial instruments with the objective of mitigating or eliminating currency risks, as described below.

In the period ended March 31, 2009, the Company had derivative financial instruments, settled in that same year, with the objective of hedging against fluctuations in foreign exchange rates.

(iii) Interest rate risk

It arises from the possibility that the Company and its subsidiaries earn gains or incur losses because of fluctuations in the interest rates of its financial assets and liabilities. Aiming at mitigating this kind of risk, the Company and its subsidiaries seek to diversify funding in terms of fixed and floating rates. The interest rates on loans, financing and debentures are disclosed in Notes 10 and 11. The interest rates contracted on financial investments are disclosed in Note 4. Accounts receivable from real estate units delivered, as disclosed in Note 5, are subject to annual interest rate of 12%, appropriated on pro rata basis.

(iv) Capital structure risk (or financial risk)

It arises from the choice between own (capital contribution and retained earnings) and third-party capital that the Company and its subsidiaries make to finance its operations. In order to mitigate liquidity risks and optimize the weighted average cost of capital, the Company and its subsidiaries permanently monitor the levels of indebtedness according to the market standards and the fulfillment of indices (covenants) provided for in loan, finance and debenture contracts.

(b) Valuation of financial instruments

The main financial instruments receivable and payable are described below, as well as the criteria for their valuation:

(i) Cash and cash equivalents

The market value of these assets does not differ significantly from the amounts presented on the quarterly information (Note 4). The contracted rates reflect usual market conditions.

Investment funds in which the Company has an exclusive interest make transactions with derivatives, among others. As mentioned in Note 4, the amount accounted for investment funds is recorded at market value at March 31, 2010.

(ii) Loans and financing and debentures

Loans and financing are recorded based on the contractual interest rates of each operation, except for loans denominated in foreign currency, which are stated at fair value as contra-entry to results. Interest rate estimates for contracting operations with similar terms and amounts are used for the determination of market value. The terms and conditions of loans and financing and debentures obtained are presented in Notes 10 and 11. The fair value of the other loans and financing, recorded based on the contractual interest of each operation, does not significantly differ from the amounts presented in the quarterly information.

06.01 NOTES TO THE QUARTERLY INFORMATION

20. Insurance

Gafisa S.A. and its subsidiaries maintain insurance policies against engineering risk, barter guarantee, guarantee for the completion of the work and civil liability related to unintentional personal damages caused to third parties and material damages to tangible assets, as well as against fire hazards, lightning strikes, electrical damages, natural disasters and gas explosion. The contracted coverage is considered sufficient by management to cover possible risks involving its assets and/or responsibilities. In view of their nature, the risk assumptions made are not included in the scope of the review of quarterly information. Accordingly, they were not reviewed nor audited by our independent public accountants.

21. Segment information

Starting in 2007, following the acquisition, formation and merger of Alphaville, FIT Residencial, Bairro Novo and Tenda, the Company's Management assesses segment information on the basis of different business segments and economic data rather than based on the geographic regions of its operations.

The segments in which the Company operates are the following: Gafisa for ventures targeted at high and medium income; Alphaville for platted lots; and Tenda for ventures targeted at low income.

The Company's chief executive officer, who is responsible for allocating resources among the businesses and monitoring their progresses, uses economic present value data, which is derived from a combination of historical and forecasted operating results. The Company provides below a measure of historical profit or loss, selected segment assets and other related information for each reporting segment.

This information is gathered internally and used by management to develop economic present value estimates, provided to the chief executive officer for making operating decisions, including the allocation of resources among segments. The information is derived from the statutory accounting records which are maintained in accordance with the accounting practices adopted in Brazil. The reporting segments do not separate operating expenses, total assets and depreciation. No revenues from an individual client represented more than 10% of net sales and/or services.

22. Subsequent events

(a) Purchase of the 20% interest in Alphaville Urbanismo S.A.

On April 19, 2010, the Company submitted a proposal to the Extraordinary Shareholders' Meeting, called to be held on May 18, 2010, in order to pass a resolution on the approval of the Merger Protocol and Justification related to the merger by the Company of the total amount of shares issued by Shertis Empreendimentos e Participações S.A., which main asset comprises 20% of the capital stock of Alphaville Urbanismo S.A. (AUSA). The Merger of Shares has the purpose of carrying out the implementation of the Second Phase of the schedule for investment planned in the Investment Agreement and other Covenants, signed between the Company and Alphaville Participações S.A. (Alphapar) on October 2, 2006, thus increasing the interest of Gafisa in the capital stock of AUSA to 80%. As a result of the Merger of Shares, Shertis will be converted into a wholly-owned subsidiary of Gafisa, which shareholders' equity will increase and new shares will be issued to be assigned to Alphapar, current shareholder of Shertis.

--- Over R\$ 2.1 billion in Cash and Cash Equivalents ---

FOR IMMEDIATE RELEASE - São Paulo, May 3rd, 2010 Gafisa S.A. (Bovespa: GFSA3; NYSE: GFA), Brazil's leading diversified national homebuilder, today reported financial results for the first quarter ended March 31, 2010.

Commenting on results, Wilson Amaral, CEO of Gafisa, said: Positive momentum continued into the first quarter of 2010 with strong sales velocities across the company and a launch pace of R\$ 703 million, more than triple the amount in Q109, despite the seasonally low period due to the summer holidays and Carnival. Sales for the quarter increased 53% to R\$ 857 million as compared to Q1 2009, indicating that we are back to a strong growth trajectory after a period of uncertainty in the first half of last year. Top line growth and improving operating leverage contributed to the increase to R\$ 168.5 of adjusted EBITDA, while adjusted EBITDA margin improved significantly from 14.1% to 18.6% as compared to the previous year's period. With over R\$ 2 billion in cash and cash equivalents and a lower leverage ratio of 34.6% as a result of our recent follow-on offering, we have reduced our financing cost structure and ensured our ability to fund our current plans for growth.

Amaral added, We have in place a platform to serve all segments of the large and growing Brazilian housing market and we will continue to benefit from our leading brands and strong reputation. Gafisa is leveraging the scale, operating efficiency and strong execution capacity to deliver high value products in line with demand trends across the country. With the offering behind us, we will now turn our focus to increasing our land bank, accelerating the pace of our launches and opportunistically looking at synergistic acquisitions. We remain very optimistic about the prospects for our industry overall. This sentiment has been reinforced by the recently renewed support of the affordable housing segment by the Brazilian Government, where we are particularly well positioned to deliver high quality products to that market through our well-established Tenda brand.

12.01 COMMENT ON THE CONSOLIDATED PERFORMANCE IN THE QUARTER

CEO Commentary and Corporate Highlights for 1Q10

The first quarter of 2010 began and ended on a strong note for Gafisa. Our consolidated platform of three leading brands, Gafisa, AlphaVille and Tenda, is reaping the benefits of scale, brand recognition, excellence in execution, product scope and geographic reach. Our successful performance was recognized for the second year in a row through being named as The Largest Construction Company in Brazil by ITCnet. Macroeconomic trends and industry specific events indicate continuing strong prospects for us during the year ahead, and contributed to robust demand for our housing products across all segments.

During the quarter, the Government reaffirmed its commitment to the development of entry level housing through the Minha Casa, Minha Vida (MCMV) Program by announcing the extension of that program, a doubling of its initial committed resources to R\$ 72 billion and a target of developing two million new homes over the next four years, signaling its continued support of the industry as a whole. Tenda, Gafisa's business dedicated to that segment ramped up its launches of new developments, which more than doubled from the fourth quarter, to meet the growing demand. Sales velocity of over 32% during the quarter also underscored the demand for Tenda's product, especially in light of the fact that most of our new developments were launched toward the end of the quarter given the holiday periods. And finally, in late March, Gafisa completed a successful follow-on offering of more than R\$ 1 billion that coupled with our existing cash and ample access to construction lines of credit will allow us to markedly expand our diversified portfolio of businesses and enhance our execution capacity as Brazil's largest construction company. An efficient operating platform that features three leading national brands that together serve all segments of the housing market, positions us to capture an important share of the projected 1.5 million new homes in annual demand growth.

A favorable environment for home sales continued throughout the first quarter despite the traditionally slower period due to summer holidays and Carnival, and we expect it will prevail through the year's end on the basis of strong fundamentals. Despite signs of temporary increased inflationary pressure, real wages continue to grow, interest rates remain relatively low and unemployment rates continue to fall amid a backdrop of strong consumer confidence. The growth rate in financing available to housing has remained robust despite historically high Selic rates, strengthening our view that this short term interest increase will not impact the sector. In 2005, when the Selic was at 20%, financing grew at a rapid clip and, in 2008 when the Central Bank increased the Selic from 11.25% to 13.75%, there was no impact in the housing

finance growth trend. This time, the market expects the Selic to reach 11.75% by the end of 2010 and then to drop back down again in 2011. Additionally, mortgage rates are linked to the TR rate, which has a low historic correlation to Selic. Finally, a combination of subsidies and financing derived from the FGTS, which is linked to the TR rate, serves to minimize the impact of general interest rate increases on mortgages tied to the entry level segment facilitated through the Caixa Economica Federal (Caixa).

On the inflationary front, while we are seeing increases in labor costs, up to now, the significant pent up demand allows room for price increases in all segments and our Gafisa product contracts allow us to adjust all balances and payments in line with inflationary changes. The expanded use of aluminum mold technology as well as the reductions in construction cycle time for our Tenda product allow us to reduce our exposure to inflationary cost pressures as well, which we also believe will be a temporary concern, since the Central Bank is already taking the appropriate actions to control this pressure.

Brazil has enjoyed this positive macroeconomic climate thanks in part to a healthy financial system, which has seen both public and private lenders step forward to address the country's high housing deficit and low mortgage penetration. Caixa, a financial institution central to these efforts, offers strong mortgage lending capacity as evidenced by its R\$24 billion FGTS budget and has consistently improved its capacity to process mortgage applications and transfer contracted housing units to its books under the MCMV Program. Caixa's performance continues to benefit Tenda, where we saw the number of contracted units up to April 2010, equivalent of 5,108 units, to reach 84% of the entire number contracted during 2009.

Even without the benefit of the proceeds from the oversubscribed share offering, which were received in the final days of March, Gafisa maintained a strong pace of execution during the quarter, launching R\$ 703.2 million, more than quadruple the amount of Q109. The benefits of the net proceeds of R\$1.02 billion generated by the offering are expected to be reaped in subsequent quarters, as our improved cash position of over R\$2.1 billion will provide us with the financial flexibility to acquire land to support a substantial pipeline of projects, increase our launch activity to keep pace with mounting demand, and to opportunistically pursue strategic acquisitions to broaden our scope as we have done in the past.

12.01 COMMENT ON THE CONSOLIDATED PERFORMANCE IN THE QUARTER

Follow-on Share Offering:

In March, Gafisa completed an oversubscribed follow-on offering, selling 85 million shares at R\$12.50 and generating primary proceeds of R\$ 1.06 billion and net proceeds of R\$ 1.02 billion. Coupled with existing cash and ample access to construction lines of credit, the proceeds will allow the Company to markedly expand its diversified portfolio of businesses and enhance its execution capacity. The proceeds, received by the Company on March 29, 2010, improved the Company's cash position to more than R\$2.1 billion, and are expected to be used for land acquisition, to fund launch activity to keep pace with mounting demand, and to pursue strategic acquisitions.

Acquired Additional 20% of AlphaVille (Subsequent event):

On October 2, 2006, Gafisa executed an Investment Agreement governing Gafisa's admission in the capital stock of Alphaville Urbanismo S.A. (AUSA), which stipulated that an equity participation of 60% (First Stage) would be increased to 80% in 2010 (Second Stage) and to 100% after 2011 (Third Stage). To increase Gafisa's equity participation in AUSA's to 80% per the Investment Agreement, Gafisa and Shertis Empreendimentos e Participações S.A. (Shertis), a wholly-owned subsidiary of Alphaville Participações S.A., acquired an additional 20% of capital stock (Second Stage) through a merger, by Gafisa, of all shares issued by Shertis. As a result of the merger of shares, Shertis will become a wholly-owned subsidiary of Gafisa. The merger of shares shall entail an increase in the equity of Gafisa in the amount of R\$21,902,489.00, corresponding to the book equity value of the shares issued by Shertis merged into Gafisa, according to the appraisal report prepared by APSIS.

Increased Launches, Strong Sales Velocity at Tenda:

Tenda, Gafisa's business dedicated to the entry level and affordable market segment, continued to ramp up its launches of new developments in order to meet robust demand. Tenda's first quarter launches more than doubled as compared to the previous quarter, with more than 60% of the quarter's launches coming outside of the traditional markets of Rio de Janeiro and São Paulo. Sales velocity of over 32% during the first quarter underscored strong demand for Tenda's product, especially given that most new developments were launched toward the end of the quarter, after the holiday periods.

Higher Volume of Mortgage Transfers under Minha Casa, Minha Vida:

The consistently improving capacity of Caixa Economica Federal (Caixa) to process mortgage applications and transfer contracted housing units to its books under the MCMV Program, combined with more efficient internal processes at Tenda, continued to benefit Tenda's business during the beginning of the year, where the number of contracted units up to April reached 84% of the entire number contracted during 2009.

Minha Casa, Minha Vida 2:

While full details of the extension of the MCMV program have not yet been provided, the Brazilian government issued a general outline in March, in which it announced an extension of MCMV through 2014, and a total investment of R\$72 billion, more than double the R\$34 billion allocated to the initial program. The goal of the second phase of the MCMV program is to deliver two million homes in four years encompassing an even lower income segment than previously targeted, but also expanded the current resources available to 40% of the total new amount to be destined to the 3-10x wages segments. All of this activity underscores both the government's continued commitment to the financing of entry level housing and the significant, untapped demand within the affordable housing segments, demand that we expect will benefit Tenda, our business dedicated to that segment.

Tenda's Operational Improvement:

The first quarter of 2010 was the first full quarter that Tenda has been operated as a wholly-owned subsidiary of Gafisa. As part of this transition, we integrated much of the back office operations, consolidated the reporting structure and took full strategic control of the direction and priorities of the business. The results of the work that was begun last year with Tenda and this past quarter are now bearing fruit. It delivered 24 completed projects/phases during the quarter and importantly, with the growth in revenue and operational and sales efficiencies achieved, contributed to the solid 18.6% Adjusted EBITDA margin for the company on a consolidated basis reflecting the combined favorable SG&A/Net Revenue. Additionally, with the number of mortgage contracted and transferred to Caixa up sequentially, Tenda is now well positioned to accelerate growth in a profitable fashion. We still have an important challenge related to 2010 Tenda's launches, but up to now we are on track with our strategic plan.

12.01 COMMENT ON THE CONSOLIDATED PERFORMANCE IN THE QUARTER

Launches

In the 1Q10, launches were R\$ 703 million, an increase of 339% compared to the 1Q09, represented by 26 projects/phases, located in 16 cities.

46% of Gafisa launches represented a price per unit below R\$ 500 thousand, while nearly 74% of Tenda s launches had prices per unit below R\$ 130 thousand. The Gafisa segment was responsible for 44% of launches, Alphaville accounted for 14% and Tenda for the remaining 42%.

12.01 COMMENT ON THE CONSOLIDATED PERFORMANCE IN THE QUARTER

Pre-Sales

Pre-sales in the quarter increased by 53% to R\$ 857.3 million when compared to the 1Q09 and the amount sold was equivalent to 122% of the quarterly launches.

The Gafisa segment was responsible for 44% of total pre-sales, while Alphaville and Tenda accounted for almost 14% and 43% respectively. Considering Gafisa's pre-sales, 86% corresponded to units priced below R\$ 500 thousand, while 72% of Tenda's pre-sales came from units priced below R\$ 130 thousand. Overall sales from inventory continued to be robust. Pre-sales from projects launched before 2009 accounted for 70% of our total consolidated sales.

The tables below illustrate a detailed breakdown of our pre-sales for the first quarters 2009 and 2008:

Sales Velocity

The consolidated company attained a sales velocity of 25.2% in the 1Q10, compared to a velocity of 16% in the 1Q09. The company sales velocity increased as compared to the previous period, mainly due to Alphaville and Tenda's improved performances during the quarter. Additionally, in this quarter we had a positive impact of R\$ 69.6 million, mainly due to an inventory price increase. The launches sales velocity was 38.0% or 51.7% if we consider the figures until the end of April, since most of the launches occurred at the end of the quarter.

Operations

Gafisa's geographic reach and execution capacity is substantial. The Company is upholding and advancing its reputation for delivering projects according to schedule and within budget. It was present in 22 different states, with 194 projects under development at the end of the first quarter. Some 420 engineers and architects were in the field, in addition to approximately 480 intern engineers in training.

Another example of the Company's execution capacity is the strong pace of revenue recognition, demonstrating that the execution pace of construction is trending with the level of sales growth. Gafisa and its subsidiaries continue to selectively launch successful projects in new regions and in multiple market segments, maximizing returns in accordance with market demand. Up to April Tenda contracted 5,108 units with CEF and we have close to 22,000 units under analysis at Caixa. Only in April Tenda contracted 2,320 units.

Land Bank

The Company's land bank of approximately R\$ 15.6 billion is composed of 418 different projects in 22 states, equivalent to more than 86 thousand units. In line with our strategy, 40% of our land bank was acquired through swaps which require no cash obligations. As the proceeds from the follow-on offering were only received at the end of March, our land bank for Q1 had not yet benefited from our increased capacity to acquire new land.

In this quarter we changed our managerial swap method calculation, in order to reflect the percentage of the swap based on the cost of the land, instead of the equivalent percentage of the PSV, which better reflect the swap impact.

The table below shows a detailed breakdown of our current land bank:

1Q10 - Revenues

On the strength of solid sales performance in the 1Q10, both from launched projects and inventories, and an accelerated pace of construction, the Company was able to recognize substantial net operating revenues for 1Q10, which rose by 67% to R\$ 907.6 million from R\$ 541.9 million in the 1Q09, with Tenda contributing 31% of the consolidated revenues.

Revenues for the industry are recognized based on actual cost versus total budgeted costs of land and construction (Percentage of Completion method or PoC method).

The table below presents detailed information about pre-sales and recognized revenues by launch year:

12.01 COMMENT ON THE CONSOLIDATED PERFORMANCE IN THE QUARTER

1Q10 - Gross Profits

On a consolidated basis, gross profit for the 1Q10 totaled R\$ 252.7 million, an increase of 63% over 1Q09, reflecting continued growth and business expansion. The gross margin for 1Q10 reached 27.8% (30.4% w/o capitalized interest) 70 bps lower than the 1Q09, mainly due to product mix associated with a onetime swap agreement, from our successful project called "Paulista Corporate", which have a high relative swap due to its prime location, negatively affecting the gross margin 1T10 (we drop the suspension clause), since the cost of units to be delivered to the landowner are recorded in revenue and cost with the same value, given there is no profit margin in the swapped units, bringing down the consolidated margin.

Table 12 - Capitalized interest

| | Final balance | 94,101 | 91,254 | 91,568 |

1Q10 Selling, General, and Administrative Expenses (SG&A)

In the 1Q10, SG&A expenses totaled R\$ 108.7 million, compared to R\$ 102.5 in the same quarter of 2009. When compared to the 4Q09, the SG&A decrease from R\$ 133.6 million to R\$ 108.7 million, mainly due to lower selling expenses partially related to lower sales volume in the first quarter, when compared to the 4Q09, as well as increased efficiencies in the sales structures.

All the ratios improved when compared to the 1Q09, mainly due to the continued improvement coming from

Tenda and also from synergies gains related to merge of Tenda into Gafisa. As Tenda's sales and revenues continue to ramp up in the coming quarters, the costs associated with its sales platform will be diluted and its fixed cost ratios improved.

We continue to expect synergies to be achieved through shared back office functions, leveraging office infrastructure, and the accelerated implementation of systems such as SAP across Tenda's operations, expected to go live in the 3Q10, which should help us to keep an adequate SG&A/Net Revenue ratio.

When compared to the 1Q09, SG&A/Net revenue improved, falling by 694 basis points, to a comfortable level of 12.0%.

| | SG&A / Net revenues | 12.0% | 18.9% | 14.9% | -694 bps | -290 bps |

1Q10 Other Operating Results

In the 1Q10, our results reflected a negative impact of R\$2.0 million, net of provisions, compared to a positive impact of R\$ 29.9 million in the 1Q09 mainly due to the amortization of Tenda's goodwill (R\$ 52.6 million).

1Q10 Adjusted EBITDA

We adjust our EBITDA for expenses associated with stock options plans, as it represents a non-cash expense. Our Adjusted EBITDA for the first quarter totaled R\$ 168.5 million, 120% higher than the R\$ 76.6 million for 1Q09, with a consolidated adjusted margin of 18.6%, an increase of 442 basis points from the 14.1% in the 1Q09 (ex Tenda's goodwill and net of provisions).

We continue to be confident that the synergies to come related to the merger of Tenda and also the higher dilution of SG&A could benefit our margins for the coming quarters, and accordingly we are confident that we could achieve our guidance of 18.5% to 20.5% EBITDA margin for 2010.

1Q10 - Depreciation and Amortization

Depreciation and amortization in 1Q10 was R\$ 10.2 million, an increase of R\$ 2.2 million when compared to the R\$ 8.0 million recorded in 1Q09.

1Q10 - Financial Results

Net financial expenses totaled R\$ 33.3 million in 1Q10, compared to net financial expenses of R\$ 9.2 million in the 1Q09 and a net expense of R\$ 27.9 million in the 4Q09. The increase in the 1Q10 was mainly due to the higher average net debt position, since we received the proceeds coming from the equity offering on March 29th, and did not benefit from anticipated financial revenue during 1Q10.

1Q10 - Taxes

Income taxes, social contribution and deferred taxes for 1Q10 amounted to R\$ 22.5 million compared to R\$16.3 million in 1Q09. The effective tax rate was 22.8% in the 1Q10 compared to 29.4% in 1Q09, mainly due to the deferred tax over the amortization of Tenda's negative goodwill that negatively impacted the 1Q09.

1Q10 - Adjusted Net Income

Net income in 1Q10 was R\$ 64.8 million. However, if we consider the adjusted net income (before deduction of expenses related to minority shareholders and stock options), this figure reached R\$ 79.6 million, with an adjusted net margin of 8.8%, representing growth of R\$ 22.6 million when compared to the R\$ 57.1 million in the 1Q09.

1Q10 - Earnings per Share

Earnings per share already adjusted for the 2:1 stock split in all comparable periods were R\$ 0.15/share in the 1Q10 compared to R\$ 0.14/share in 1Q09, a 9.5% increase. Shares outstanding at the end of the period were 418.7 million (ex. Treasury shares) and R\$ 259.9 million in the 1Q09.

Backlog of Revenues and Results

The backlog of results to be recognized under the PoC method reached R\$ 1.03 billion in the 1Q10, R\$ 27 million higher than 1Q09. The consolidated margin in the 1Q10 was 35.1%, 54 bps higher than the 1Q09.

The table below shows our revenues, costs and results to be recognized, as well as the expected margin:

Liquidity

On March 31st, 2010, Gafisa had a cash position of R\$ 2.13 billion. On the same date, Gafisa's debt and obligations to investors totaled R\$ 3.33 billion, resulting in a net debt and obligations of R\$ 1.2 billion. Net debt and investor obligation to equity and minorities ratio was 34.6% compared to 83.8% in 4Q09, mainly due to the equity offering, partially offset by R\$ 233 million cash burn in the quarter. When excluding Project Finance, this ratio reached a negative -14.0%, a comfortable leverage level.

Gafisa's cash burn rate in the quarter reached R\$ 233 million. This amount reflects a strong pace of construction activity at the Company.

Currently we have access to a total of R\$ 3.8 billion in construction finance lines of credit provided by all of the major banks in Brazil. At this time we have R\$ 2.1 billion in signed contracts and R\$ 439 million in contracts in process, giving us additional availability of R\$ 1.2 billion.

We also have receivables (from units already delivered) of R\$ 250 million available for securitization.

The following tables set forth information on our debt position as of March 31, 2010.

Glossary

Backlog of Results As a result of the Percentage of Completion Method of recognizing revenues, we recognize revenues and expenses over a multi-year period for each residential unit we sell. Our backlog of results represents revenues minus costs that will be incurred in future periods from past sales.

Backlog of Revenues As a result of the Percentage of Completion Method of recognizing revenues, we recognize revenues over a multi-year period for each residential unit we sell. Our backlog represents revenues that will be incurred in future periods from past sales.

Backlog Margin Equals to Backlog of Results divided Backlog of Revenues to be recognized in future periods.

Land Bank Land that Gafisa holds for future development paid either in Cash or through swap agreements. Each decision to acquire land is analyzed by our investment committee and approved by our Board of Directors.

PoC Method Under Brazilian GAAP, real estate development revenues, costs and related expenses are recognized using the percentage-of-completion (PoC) method of accounting by measuring progress towards completion in terms of actual costs incurred versus total budgeted expenditures for each stage of a development.

Pre-sales Contracted pre-sales are the aggregate amount of sales resulting from all agreements for the sale of units entered into during a certain period, including new units and units in inventory. Contracted pre-sales will be recorded as revenue as construction progresses (PoC method). There is no definition of "contracted pre-sales" under Brazilian GAAP.

Affordable Entry Level residential units targeted to the mid-low and low income segments with prices below R\$ 1,800 per square meter.

LOT (Urbanized Lots) land subdivisions, or lots, with prices ranging from R\$ 150 to R\$ 600 per square meter

SFH Funds Funds from SFH are originated from the Governance Severance Indemnity Fund for Employees (FGTS) and from savings accounts deposits. Banks are required to invest 65% of the total savings accounts balance in the housing sector, either to final customers or developers, at lower interest rates than the private market.

Swap Agreements A system in which we grant the land-owner a certain number of units to be built on the land or a percentage of the proceeds from the sale of units in such development in exchange for the land. By acquiring land through this system, we intend to reduce our cash requirements and increase our returns.

12.01 COMMENT ON THE CONSOLIDATED PERFORMANCE IN THE QUARTER

About Gafisa

Gafisa is a leading diversified national homebuilder serving all demographic segments of the Brazilian market. Established over 55 years ago, we have completed and sold more than 990 developments and built more than 11 million square meters of housing, more than any other residential development company in Brazil. Recognized as one of the foremost professionally managed homebuilders, "Gafisa" is also one of the most respected and best-known brands in the real estate market, recognized among potential homebuyers, brokers, lenders, landowners, competitors, and investors for its quality, consistency, and professionalism. Our pre-eminent brands include Tenda, serving the affordable/entrylevel housing segment, and Gafisa and Alphaville, which offer a variety of residential options to the midto higher-income segments. Gafisa S.A. is traded on the Novo Mercado of the BM&FBOVESPA (BOVESPA:GFSA3) and on the New York Stock Exchange (NYSE:GFA).

21.01 SPECIAL REVIEW REPORT WITHOUT EXCEPTIONS

Special Review Report of Independent Certified Accountants

To the shareholders and management of Gafisa S.A:

1. We have carried out a limited review of the quarterly information of Gafisa S.A. (parent company and consolidated) at March 31, 2010, comprising the balance sheet, the statements of income, of changes in shareholders' equity and of cash flows, and the accounting information included in the performance report for the quarter then ended. This information is the responsibility of the Company's management.

2. Our review was carried out in accordance with specific standards established by the Institute of Independent Auditors of Brazil (IBRACON), in conjunction with the Federal Accounting Council (CFC), and mainly comprised: (a) inquiries of and discussions with management responsible for the accounting, financial and operating areas of the parent company and its subsidiaries with regard to the main criteria adopted for the preparation of the quarterly information (ITR); and (b) a review of the significant information and of the subsequent events which have, or could have, significant effects on the Company's and its subsidiaries' financial position and operations.

3. Based on our limited review, we are not aware of any material modifications that should be made to the quarterly information referred to in paragraph 1 for such information to be stated in accordance with the regulations of the Brazilian Securities Commission (CVM) applicable to the preparation of quarterly information (ITR).

4. As mentioned in Note 2 (a), in 2009 the Brazilian Securities Commission (CVM) approved several Pronouncements, Interpretation and Technical Instructions Guidance issued by the Accounting Pronouncements Committee (CPC), effective for 2010, on changes to the accounting practices adopted in Brazil. As allowed by CVM Resolution No. 603/09, the quarterly information mentioned in paragraph 1 were prepared in accordance with the accounting practices adopted in Brazil until December 31, 2009, therefore, it does not consider such changes. In line with this provision, it neither considers the changes in the accounting information in the balance sheet data at December 31, 2009, or in the statements of income, of changes in shareholders' equity and of cash flows for the quarter ended March 31, 2009.
