### ***Forward-Looking Statements***

This Report on Economic and Financial Analysis contains forward-looking statements relating to our business. Such statements are based on management's current expectations, estimates and projections about future events and financial trends, which could affect our business. Words such as: "believes," "anticipates," "plans," "expects," "intends," "aims," "evaluates," "predicts," "foresees," "projects," "guidelines," "should" similar expressions are intended to identify forward-looking statements. These statements, however, do not guarantee future performance and involve risks and uncertainties, which could be beyond our control. Furthermore, certain forward-looking statements are based on assumptions that, depending on future events, may prove to be inaccurate. Therefore, actual results may differ materially from the plans, objectives, expectations, projections and intentions expressed or implied in such statements.

Factors which could modify actual results include, among others, changes in regional, national and international commercial and economic conditions; inflation rates; increase in customer delinquency on the account of borrowers in loan operations, with the consequent increase in the allowance for loan losses; loss of funding capacity; loss of customers or revenues; our capacity to sustain and improve performance; changes in interest rates which could, among other events, adversely affect our margins; competition in the banking sector, financial services, credit card services, insurance, asset management and other related sectors; government regulations and fiscal matters; disputes or adverse legal proceedings or rulings; as well as credit risks and other loan and investment activity risks.

Accordingly, the reader should not rely excessively on these forward-looking statements. These statements are valid only as of the date they were prepared. Except as required under applicable legislation, we assume no obligation whatsoever to update these statements, whether as a result of new information, future events or for any other reason.

Few numbers of this Report were submitted to rounding adjustments.

Therefore, amounts indicated as total in certain charts may not correspond to the arithmetic sum of figures preceding them.

**Summarized Analysis of Adjusted Income**

**Adjusted Net Income and Profitability**

In the second quarter of 2013, Bradesco posted adjusted net income of R\$2,978 million, up 1.2%, or R\$35 million over the previous quarter, mainly due to (i) the greater business volume that increased fee and commission income; offset by: (ii) lower financial margin income, impacted by reduced income from non-interest financial margin; and (iii) higher operating expenses.

In the year-over-year comparison, adjusted net income increased by 3.7%, or R\$209 million, in the first half of 2013, for Return on Adjusted Average Shareholders' Equity (ROAE) of 18.8%.

Shareholders' Equity stood at R\$66,028 million in June 2013, up 3.3% over the same period of 2012. The Capital Adequacy Ratio stood at 15.4%, 11.6% of which fell under Tier I Reference Shareholders' Equity.

Total Assets came to R\$896,697 million in June 2013, up 8.0% over June 2012, driven by the increase in operations and the expansion of business volume. Return on Average Assets (ROAA) came to 1.3%.

## Summarized Analysis of Adjusted Income

### Efficiency Ratio (ER)

The “adjusted to risk” ER over the last 12 months, which reflects the impact of risk associated with the loan operations<sup>(2)</sup> which reached 52.6% in the second quarter of 2013, remaining stable from the previous quarter, mainly due to the decrease in expenses with allowance for loan losses in the monthly comparison.

ER over the last 12 months<sup>(1)</sup> and quarterly ER increased by 0.3 p.p. and 1.2 p.p. in the second quarter of 2013 from the previous quarter, reaching 41.8% and 42.1%, respectively. This variation was mainly due to the reduction in non-interest financial margin, due to lower gains from the market arbitrage in the quarter.

(1)  $ER = (\text{Personnel Expenses} - \text{Employee Profit Sharing} + \text{Administrative Expenses}) / (\text{Financial Margin} + \text{Fee and Commission Income} + \text{Income from Insurance} + \text{Equity in the Earnings (Losses) of Unconsolidated Companies} + \text{Other Operating Income} - \text{Other Operating Expenses})$ . Considering the ratio between: (i) total administrative costs (Personnel Expenses + Administrative Expenses + Other Operating Expenses + Tax Expenses not related to revenue generation + Insurance Selling Expenses) and (ii) revenue net of related taxes (not considering Claims and Selling Expenses from the Insurance Group), our ER in the second quarter of 2013 would be 44.6%; and

(2) Including ALL expenses, adjusted for granted discounts, loan recovery and sale of foreclosed assets, among others.

## **Summarized Analysis of Adjusted Income**

### **Financial Margin**

The R\$119 million decrease between the second and the first quarters of 2013 was mainly due to the lower result from the: (i) non-interest margin, in the amount of R\$179 million, due to lower gains from the market arbitrage; and offset: (ii) by the increase in the interest margin, in the amount of R\$60 million, as a result of higher gains from Loan and Funding margins.

In the first half of 2013, financial margin came to R\$21,293 million, a R\$436 million decrease from the same period in 2012, due to: (i) the lower result from the non-interest margin, in the amount of R\$774 million, due to lower gains from the market arbitrage, and offset by: (ii) the R\$338 million increase in income from interest-earning operations due to an increase in business volume, mainly from Loan and Insurance.

## **Summarized Analysis of Adjusted Income**

### **Expanded Loan Portfolio<sup>(1)</sup>**

In June 2013, Bradesco's expanded loan portfolio totaled R\$402.5 billion, which was up 2.8% in the quarter, due to: (i) a 3.6% growth in Individuals; (ii) a 3.5% growth in Small and Medium-sized Entities (SMEs); and (iii) a 1.5% growth in Corporations.

In the last 12 months, the expanded loan portfolio increased 10.3%, driven by: (i) the 11.2% growth in SMEs; (ii) the 10.1% growth in Individuals; and (iii) the 9.7% growth in Corporations.

To the Corporate segment, the products that posted the strongest growth in the last 12 months were: (i) export financing; and (ii) real estate financing – corporate plan. To the Individuals segment, the main highlights were: (i) real estate financing; and (ii) payroll-deductible loans.

(1) Includes sureties, guarantees, letters of credit, advances of credit card receivables, debentures, promissory notes, assignment of receivables-backed investment funds and mortgage-backed receivables and rural loan.

For more information, see Chapter 2 of this Report.

### **Allowance for Loan Losses**

For the fourth consecutive quarter, ALL expenses reduced to R\$3,094 million in the second quarter of 2013, down 0.5% from the previous quarter, even considering the 2.6% growth in the loan portfolio – as defined by Bacen in the quarter. This result was due to the reduction in delinquency level, despite the typical higher delinquency in the first months of the year.

In the year-over-year comparison, this expense reduced by 4.6%, even considering the 9.5% increase in loan operations – as defined by Bacen,

resulting from the reduced delinquency level in the last 12 months.

### **Summarized Analysis of Adjusted Income**

In the second quarter of 2013, revenue grew by 20.9% over the previous quarter, boosted by Life and Pension Plan, Capitalization Bond and Auto/RE products, which increased 32.2%, 14.5% and 12.9%, respectively.

Net income for the second quarter of 2013 was in line with the previous quarter, mainly due to: (i) the 20.9% growth in revenue, as mentioned above; (ii) the increase in equity income; and (iii) the improvement in the administrative efficiency ratio; partially offset by: (iv) the 1.5 p.p. increase in claims ratio; and (v) the reduction in financial income.

In the first half of 2013, production was up 15.3% from the same period in 2012, led by Health, Capitalization and Life and Pension Plan products, which increased 23.3%, 21.8% and 12.7%, respectively.

Net income for the first half of 2013 increased by 4.2% over that of the previous year, due to: (i) a 15.3% increase in revenue; (ii) a 1.2 p.p. decrease in claims ratio; (iii) the improved financial income; and (iv) the increase in the administrative efficiency ratio, already considering the sector's collective bargaining agreement in January 2013.

Grupo Bradesco Seguros complies with the regulatory requirements, also complying with global standards (Solvency II), with a leverage of 3.0 times its Shareholders' Equity in the period.

### **Fee and Commission Income**

In the second quarter of 2013, fee and commission income came to R\$4,983 million, up R\$384 million, or 8.3% over the previous quarter, mainly due to the increase in business volume, highlighting the excellent performance of underwriting / financial advisory revenues in the quarter. Other sources of income that contributed to this result were: (i) card income; (ii) income from loan operations; (iii) checking account income; and (iv) fund management income.

In the year-over-year comparison, the increase of R\$1,183 million, or 14.1%, in the first half of 2013 was mainly due to: (i) the performance of the credit card segment, driven by the growth in revenue and transactions; (ii) higher income from checking accounts, which was a result of a better business volume and an increase in the checking account holder base, which posted net growth of 694 thousand active accounts in the period; (iii) higher gains from capital market operations (underwriting / financial advisory); (iv) greater income from collections; (v) greater income from fund management, whose volume of assets and portfolios under management increased by 11.4% in the period; and (vi) higher income from loan operations, due to greater volume of contracted operations and sureties and guarantees in the period.

## Summarized Analysis of Adjusted Income

### Personnel Expenses

In the second quarter of 2013, the R\$132 million increase from the previous quarter is a result of variations in:

- structural expenses – R\$73 million increase, mainly due to the lower concentration of vacations in the second quarter of 2013; and
  - non-structural expenses – R\$59 million increase, mainly due to greater expenses with provision for labor claims.
- the R\$57 million increase in non-structural expenses, mainly due to greater expenses with provision for labor claims.

In the year-over-year comparison, the R\$325 million increase in the first half of 2013 was mainly due to:

- the R\$268 million, or 5.6% increase, in structural expenses, resulting from greater expenses with salaries, social charges and benefits, due to raise in salary levels, as per collective bargaining agreement (a 7.5% adjustment); and

Note: Structural Expenses = Salaries + Social Charges + Benefits + Pension Plans.

Non-Structural Expenses = Employee and Management Profit Sharing + Training + Labor Provision + Costs with Termination of Employment Contracts.

Press Release

## **Summarized Analysis of Adjusted Income**

### **Administrative Expenses**

Despite the higher expenses with (i) the opening of 5,459 service points in the period, mainly the opening of 4,343 *Bradesco Espresso* points, for a total of 70,829 service points on June 30, 2013, and (ii) the increase in business and service volume in the period, the administrative expenses increased only 2.8% between the first half of 2012 and 2013, as a result of the continued efforts to reduce costs, led by our Efficiency Committee. It is worth noting that IPCA and IGP-M inflation indexes reached 6.7% and 6.3%, respectively, in the last 12 months.

In the second quarter of 2013, the 3.6% increase in administrative expenses from the previous quarter was mainly due to the greater business and service volume in the quarter which, consequently, increased expenses with:

(i) outsourced services; (ii) data processing; (iii) depreciation and amortization; (iv) financial system services; and (v) communication.

### **Other Operating Income and Expenses**

Other operating expenses, net of other operating income, totaled R\$1,147 million in the second quarter of 2013, remaining practically stable when compared to the previous quarter.

Year over year, other operating expenses, net of other operating income, increased by R\$286 million in the first half of 2013, mainly as a result of greater expenses with: (i) operating provisions, particularly those for civil contingencies; (ii) amortization of intangible assets; and (iii) sundry losses.

## **Summarized Analysis of Adjusted Income**

### **Income Tax and Social Contribution**

Income tax and social contribution increased 1.0% in comparison with the previous quarter and 5.5% in the year-over-year comparison, mainly due to the increase in taxable result.

It is worth noting the effective rate, which came to 41.4% in the second quarter of 2013, remaining stable over the previous quarters.

### **Unrealized Gains**

Unrealized gains totaled R\$12,006 million in the second quarter of 2013, an R\$8,320 million decrease from the previous quarter. This was mainly due to the fixed-income securities subject to mark-to-market accounting, most of them related to the Insurance Group. These securities serve as guarantee of technical reserves, which are not subject to mark-to-market accounting.

Press Release

## **Economic Scenario**

In the second quarter of 2013, the different global liquidity conditions are a result of the Federal Reserve's expected decision of beginning a reduction in monetary stimulus in the coming months. However, the U.S. Central Bank has emphasized that it will maintain its accommodative monetary policy for a long time, in order to support the ongoing recovery of the North American economy, which tends to benefit the whole world in the medium run, despite its initial side effects.

With regard to the Chinese economy, a growth below that obtained in the past year is a consensus, although an abrupt slowdown is not expected. Moreover, the purpose of an intended lower rate of expansion, which was a decision of local government authorities and a response to their economic policy, is to reduce existing macroeconomic and sectorial distortions. Thus, the world's second largest economy tends to have a more sustained and qualitative growth over the coming years.

In turn, the Brazilian economy is more prepared to face the world economy's current transition phase and the challenges concerning the domestic economic policy management. This view is supported by improved macroeconomic fundamentals and institutional advances in the past years. This process has been accompanied by the increase in social indicators.

The recovery of the Brazilian economy in the past months has been mainly supported by productive investments, which tend to rise thanks to infrastructure concessions program in the second half-year. The great performance of the domestic agribusiness sector led by increased production and higher income should be pointed out. The 2013 GDP growth is expected to be higher than the past

The expectations in the medium run point to a favorable scenario to the Brazilian economy, which has one of the most complete and diversified private sectors among the emerging nations. The exploration of the pre-salt discoveries and the hosting of major sporting events constitute a series of opportunities that are only available to a select group of nations tend to improve Brazil's infrastructure, as well as increase long-term production and income.

Despite the risks to the scenario and the challenges faced by the Brazilian economy in the pursuit of higher sustainable growth in the near future, Bradesco is maintaining a positive outlook, with favorable prospects in its operational segments. The volume of credit is growing at rates that are both sustainable and risk-compatible, while delinquency has been showing signs of a decline. Thanks to the intense and ongoing upward social mobility of recent years, the scenario for the banking and insurance sectors remains highly favorable.

year and even better in 2014.

(1) Average Margin Rate = (Financial Margin / Average Assets – Purchase and Sale Commitments – Permanent Assets) Annualized

The second quarter of 2013 had a financial margin of R\$10,587 million, an R\$119 million decrease when compared to the first quarter of 2013, due to: (i) the non-interest margin of R\$179 million, due to lower gains from market arbitrage; and offset: (ii) by the R\$60 million increase in interest margin.

In the first half of 2013, financial margin stood at R\$21,293 million, a R\$436 million decrease year over year, due to: (i) lower results from non-interest margin, totaling R\$774 million, due to lower gains from market arbitrage; and offset: (ii) by higher results from interest-earning operations, amounting to R\$338 million, arising from greater business volume.

In the second quarter of 2013, financial margin with loan operations reached R\$7,634 million, up 3.0% or R\$220 million over the first quarter of 2013. The variation is the result of: (i) the increase in average business volume, in the amount of R\$260 million; and (ii) the decrease in average spread, in the amount of R\$40 million.

Year over year, the financial margin for the first half of 2013 grew 3.5%, or R\$505 million, resulting from: (i) a R\$1,326 million increase in the volume of operations; and (ii) the decrease in average spread, amounting to R\$821 million, mainly affected by the drop in interest rates used.

**Loan Financial Margin - Interest**

**Loan Financial Margin - Net Margin**

The graph above presents a summary of loan activity. The Gross Margin line refers to interest income from loans, net of opportunity cost (a specific rate by type of operation and term).

The ALL curve shows delinquency costs, which are represented by Allowance for Loan Losses (ALL) expenses, plus discounts granted in transactions net of loan recoveries, arising from the sale of foreclosed assets, among other.

In the second quarter of 2013, the net margin curve, which refers to loan interest income net of ALL, grew 5.5% over the previous quarter, mainly due to increase in business volume. In the year-over-year comparison, the curve was up 10.0% in the first half of 2013, driven by: (i) the reduction in delinquency costs; and (ii) the increase in business volume.

### **Loan Portfolio<sup>(1)</sup> - By Flow of Maturities**

The maturities of performing loans were longer in June 2013, mainly due to BNDES onlending and real estate financing. Note that, due to their

guarantees and characteristics, these operations, in addition to being exposed to lower risk, provide favorable conditions to gain customer loyalty.

Economic and Financial Analysis

**Loan Financial Margin - Interest**

**Loan Portfolio<sup>(1)</sup> - Delinquency over 90 days**

Delinquency ratio over 90 days had a reduction in the quarter and in the last 12 months, maintaining an improvement in a gradual downward trend. This positive result is observed in all segments.

As shown in the graph below, the total delinquency ratio for operations overdue from 61 to 90 days remained stable in the quarter and had a slight decrease over the last 12 months.

(1) As defined by Bacen.

## **Loan Financial Margin - Interest**

### **Allowance for Loan Losses (ALL) x Delinquency x Losses<sup>(1)</sup>**

The ALL of R\$21.5 billion, representing 7.0% of the total portfolio, comprises the generic provision (customer and/or operation rating), the specific provision (non-performing loans) and the excess provision (internal criteria).

Bradesco has appropriate provisioning levels sufficient to support possible changes in scenarios, such as higher delinquency levels and/or changes in the loan portfolio profile.

It is worth mentioning the assertiveness of adopted provisioning criteria, which is proven by: (i) analyzing historical data on recorded allowances for loan losses; and (ii) effective losses in the subsequent twelve-month period, i.e., for an existing provision of 7.4% of the portfolio<sup>(1)</sup>, in June 2012, the effective gross loss in the subsequent twelve-month period was 4.8%, meaning that the existing provision exceeded the loss over the subsequent twelve-month period by more than 55%, as shown in the graph below.

In the first half of 2013, interest funding financial margin was R\$2,061 million against the R\$2,209 million in the same period of 2012, down by 6.7% or R\$148 million, mainly driven by R\$114 million decrease in average spread, due to the interest rate decrease in the period (Selic).

## Economic and Financial Analysis

### Funding Financial Margin - Interest

#### Loans vs. Funding

To analyze Loan Operations in relation to Funding, it is necessary to deduct from total customer funding (i) the amount committed to reserve requirements at Bacen, (ii) the amount of available funds held at customer service network, as well as (iii) add funds from domestic and foreign lines of credit that finance loan needs.

Bradesco depends little on interbank deposits and foreign lines of credit, given its capacity to effectively obtain funding from customers. This is a

result of: (i) the outstanding position of its service points; (ii) the extensive diversity of products offered; and (iii) the market's confidence in the Bradesco brand.

Note that the use of funds provides a comfortable margin, which proves that Bradesco is capable of meeting demand for funds for loans using its own funding.

(1) Considering only debentures used to back purchase and sale commitments; and

(2) Including: Financial Bills, on June 30, 2013, amounting to R\$31,878 million (R\$25,417 million on March 31, 2013 and R\$31,124 million on June 30, 2012).

**Demand Deposits**

The R\$872 million increase in the second quarter of 2013, when compared to the previous quarter, was basically driven by the seasonality of the first quarter of 2013, mainly due to the use of funds by our customers to pay one-time expenses at the beginning of the year (e.g., IPVA and IPTU taxes).

The R\$4,057 million, or 12.5%, increase in comparison with the second quarter of 2012 was mainly due to the improved funding and the increased account holder base.

## Savings Deposits

Savings deposits increased 3.5% in the quarter-over-quarter comparison and 16.6% in the last 12 months, mainly as a result of: (i) greater funding volume; and (ii) the remuneration of savings account reserve.

The new savings remuneration rule determines that: (i) the existing account savings up to May 3, 2012 will continue to remunerate at TR + 0.5% p.m.; and (ii) for deposits made as of May 4, 2012, the new rules are: (a) if the Selic rate is higher than 8.5% p.a., the TR + 0.5% p.m. remuneration will be maintained; and (b) when the Selic rate is equal to or lower than 8.5% p.a., the remuneration will be 70% of Selic rate + TR.

Bradesco is always increasing its savings accounts base and posted net growth of 2.5 million new savings accounts over the last 12 months.

Economic and Financial Analysis

**Funding Financial Margin - Interest**

**Time Deposits**

In the second quarter of 2013, time deposits totaled R\$98,573 million, remaining practically stable quarter over quarter and decreasing by 19.0% on the same period of the previous year.

Such performance is basically due to the new business opportunities offered to customers.

**Debentures**

On June 30, 2013, Bradesco's debentures amounted to R\$60,077 million, a 3.2% increase in the quarter-over-quarter comparison and a 7.8% increase over the last 12 months.

These variations are mainly due to the placement and maturity of the securities, which are also used to back purchase and sale commitments that are, in turn, impacted by the levels of economic activity.

**Borrowing and Onlending**

The quarter-over-quarter increase of R\$2,912 million, or 6.3%, was mainly due to the R\$3,000

R\$12,517 million in June 2012 to R\$11,214 million in June 2013, mainly due to: (a) the settlement of

million increase in foreign-currency-denominated and/or indexed borrowing and onlending, from R\$8,214 million in March 2013 to R\$11,214 million in June 2013, as a result of:

- (a) the exchange gain of 10.0% in the quarter; and
- (b) funds raised from loans abroad.

Year over year, the balance was up R\$1,226 million in the first half of 2013, mainly due to: (i) the R\$2,529 million increase in volume of funds raised through loans and onlending in Brazil, especially through Finame operations; and partially offset: (ii) by the R\$1,303 million decrease in foreign-currency-denominated and/or indexed borrowing and onlending, from

operations; and partially offset by: (b) the exchange gain of 9.6% in the period.

**Funding Financial Margin - Interest****Funds for the Issuance of Securities**

Funds from issuance of securities totaled R\$53,821 million, a 12.5% or R\$5,988 million increase in the quarter, mainly due to: (i) the increased inventory of Financial Bills, from R\$25,417 million in March 2013 to R\$31,878 million in June 2013, mainly due to the new issuances in the period; and partially offset: (ii) by the lower volume of securities issued abroad, in the amount of R\$1,099 million.

Between the first half of 2012 and 2013, there was an increase of R\$2,663 million, mainly driven by: (i) the higher volume of Mortgage Bonds, in the amount of R\$1,594 million; and (ii) the higher volume of Letters of Credit for Agribusiness, in the amount of R\$1,071 million; (iii) the new issuances of Financial Bills, whose amount increased R\$754 million; and partially offset: (iv) by the R\$493 million reduction in Collateral Mortgage Notes.

**Subordinated Debt**

Subordinated Debt totaled R\$36,222 million in June 2013 (R\$9,548 million abroad and R\$26,674 million in Brazil). In the last 12 months, Bradesco issued R\$4,143 million in Brazil.

Additionally, note that R\$26,355 million of total subordinated debt is used to compose the Tier II of the Capital Adequacy Ratio, given their maturity terms.

Expenses	(12,303)	(15,237)	(7,654)	(4,650)	2,934	(3,004)

Quarter over quarter, interest financial margin from Securities/Other was down by R\$285 million, mainly due to the decrease in average spread of operations of R\$291 million, as a result of the lower gain from fixed-rate trading portfolio management.

Year over year, interest financial margin from Securities/Other stood at R\$2,141 million, versus the R\$2,411 million recorded in the first half of 2012, down 11.2% or R\$270 million. This result was due to: (i) the decrease in the average spread of R\$418 million, driven by the lower gain from fixed-rate trading portfolio management; and offset: (ii) by the increase in the volume of operations, which affected the result in R\$148 million.

In the quarter-over-quarter comparison, interest financial margin from insurance operations decreased R\$38 million, or 4.1%, due to: (i) the R\$73 million decrease in average spread; and offset: (ii) by the higher volume of operations, totaling R\$35 million.

In the year-over-year comparison, interest financial margin from insurance operations was up 15.9%, or R\$251 million, in the first half of 2013 due to: (i) the higher volume of operations, in the amount of R\$290 million; and offset: (ii) by the R\$39 million decrease in average spread.

The non-interest financial margin in the second quarter of 2013 stood at R\$18 million in comparison with the R\$197 million of the previous quarter. Year over year, non-interest margin decreased R\$774 million in the first half of 2013. The variations in non-interest financial margin were a result of:

- Insurance - which is represented by gains/loss from equity securities, and the variations in the periods are associated with market conditions, which enabled greater/lower gain opportunity; and
- Securities/Other - which had decreases of R\$91 million and R\$654 million between the first quarter of 2012 and 2013 and between the first half of 2012 and 2013, respectively, due to lower gains from market arbitrage. It is worth noting that an R\$148 million gain from the partial sale of BM&FBovespa shares was recorded in the second quarter of 2013.

Note: For comparison purposes, the non-recurring events are not considered.

Net income for the second quarter of 2013 had a decrease of 7.2% over the first quarter of 2013, mainly due to: (i) the decrease in the financial result; (ii) the 2.6 p.p. increase in claims ratio (1.4 p.p. of which due to revaluation of assumptions for premium reserve); partially offset by: (iii) the 5.0% increase in revenue.

Net income for the first half of 2013 was up 7.7% over the same period of the previous year, due to: (i) the 24.5% increase in revenue; (ii) the steady claims ratio; and (iii) the improved financial and equity result.

In June 2013, Bradesco Saúde and Mediservice maintained strong market position in the corporate segment (source: ANS).

Approximately 70 thousand companies in Brazil have Bradesco Saúde insurance and Mediservice plans.

Of the 100 largest companies in Brazil in terms of revenue, 53 are Bradesco Saúde and Mediservice customers (source: *Exame* magazine's Best and Major Companies (*Melhores e Maiores*) ranking, July 2013).

In the second quarter of 2013, revenue grew 14.5% over the previous quarter and the administrative efficiency ratio remained stable. Net income decreased 26.7% over the previous quarter, mainly due to the lower financial result.

Net income for the first half of 2013 was up 16.4% when compared to the same period of the previous year, as a result of: (i) the 21.8% increase in capitalization bond income; (ii) improved financial result; and (iii) the steady administrative efficiency ratio.

## Bradesco Capitalização

Bradesco Capitalização ended the second quarter of 2013 leading the capitalization bond companies ranking, due to its policy of transparency and of adjusting its products based on potential consumer demand.

In order to offer the capitalization bond that best fits the profile and budget of each customer, Bradesco Capitalização has developed several products that vary in accordance with payment method (lump-sum or monthly), contribution term, frequency of draws and premium amounts. This phase was mainly marked by a closer relationship with the public by consolidating *Pé Quente Bradesco* products.

Among these products, it is worth pointing out the performance of the social and environmental products, from which a part of the profit is allocated to socially responsible projects, while also allowing the customer to create a financial reserve. Bradesco Capitalização currently has partnerships with the following social and environmental institutions: (i) Fundação SOS Mata Atlântica (contributes to the conservation of biological and cultural diversity of the Atlantic Forest, stimulating social and environmental citizenship); (ii) Instituto Ayrton Senna (contributes to education and human development, reducing illiteracy rates, school failure and drop-out rates); (iii) Fundação Amazonas Sustentável (contributes to the sustainable development, environmental preservation and improvement to the quality of life of communities that benefit from the preservation centers in the state of Amazonas); (iv) the Brazilian Cancer Control Institute (contributes to the development of projects for the prevention, early diagnosis and treatment of breast cancer in Brazil); and (v) Projeto Tamar (created to save sea turtles).

Bradesco Capitalização was the first capitalization bond company in Brazil to receive the ISO 9001 of Quality Management, certification which is held to date. Since 2009, it was certified by Fundação Vanzolini with the ISO 9001 Version 2008 for Management of Bradesco Capitalization Bonds. This attests to the quality of internal processes and confirms the principle targeting good products, services and continuous growth.

The portfolio is composed of 22.5 million active bonds, of which: 36.3% are Traditional Bonds sold in the branch network and at Bradesco *Dia & Noite* service channels, up 2.8% over June 2012; and 63.7% are incentive bonds (assignment of drawing rights), such as partnerships with Bradesco Vida e Previdência and Bradesco Auto/RE, which were up 10.2% over June 2012. Given that the purpose of this type of capitalization bond is to add value to the associated company product or even encourage the performance of its customers, bonds have reduced maturity and grace terms and lower sale price.

(1) 2Q13 considers the latest data released by Susep (May 2013).

Net income for the second quarter of 2013 was up by 53.6% from the previous quarter, due to: (i) the steady claims ratio; (ii) the lower operating expenses; and (iii) the improved equity result.

Net income for the first half of 2013 was 5.3% lower than that posted in the same period in 2012, due to: (i) lower equity result; and partially offset by: (ii) the decrease in claims and expense ratio; and (iii) higher financial result.

In the Property Insurance segment, the focus on large brokers and Corporate and Middle Market customers was maintained. This results in renewal of the main accounts, whether in leadership or participation in co-insurance. Also note the excellent performance of the Engineering Risks segment: the partnership with the Real Estate Loan area has enabled new insurance contracts from its customer base.

In Aviation and Maritime Hull insurance, the increased exchange with Corporate and Middle Market segments has been drawn on extensively,

Despite strong competition in the Auto/RCF line, the insurer has increased its customer base, mainly due to improvements to current products and the creation of products for a specific target-public. Among them, it is worth noting the launch of the First Vehicular Protection of Bradesco Seguro (*Bradesco Seguro Primeira Proteção Veicular*), exclusive to Bradesco's account holders, which helps, through the Day and Night Support services, new vehicles and vehicles of up to 15 years of use.

For better service, Bradesco Auto/RE currently has 23 Bradesco Auto Centers (BAC), which offer policyholders the greatest variety of services in a single place, including: auto claims services, reserve rental cars, installation of anti-theft equipment, preventative maintenance checks, glass repairs or replacement and environmental vehicle inspections.

taking full advantage of the stronger sales of new aircraft and those of the maritime segment.

The transportation segment is still the primary focus, with essential investments made to leverage new business, especially in the renewal of reinsurance agreements, which gives insurers the power to assess and cover risk, and consequently increase competitiveness in more profitable businesses such as international transportation insurance for shipping companies involved in international trade.

**Checking Account**

In the second quarter of 2013, fee and commission income from checking accounts increased 6.7% in comparison with the previous quarter, mainly due to: (i) the net increase of 429 thousand new checking accounts; (ii) the expansion of the customer service portfolio; and (iii) the realignment of certain fees.

Year over year, income grew by R\$169 million, or 10.9%, in the first half of 2013, mainly due to: (i) the expansion of the checking account customer base, which posted a net increase of 693 thousand active current account holders (642 thousand individual customers and 51 thousand corporate customers); (ii) the expansion of the customer service portfolio; and (iii) the realignment of certain fees.

**Loan Operations**

In the second quarter of 2013, income from loan operations totaled R\$573 million, up 10.8% in comparison with the previous quarter, mainly driven by the greater volume of operations in the quarter.

Year over year, the 6.3% increase in the first half of 2013 was mainly the result of the greater income from collaterals, up 20.1%, mainly deriving from the 19.9% growth in the volume of Sureties and Guarantees in the period.

## Fund Management

In the second quarter of 2013, income from fund management totaled R\$581 million, up R\$31 million in comparison with the previous quarter, mainly due to higher number of business days in the quarter, offsetting the 1.9% drop in the volume of funds and portfolios raised and managed.

Year over year, the R\$70 million or 6.6% increase in the first half of 2013 was mainly due to: (i) increases in funds and portfolios, which grew by 11.4%; partially offset by (ii) the 12.7% decrease in the Ibovespa index in the period, impacting income from managed funds and portfolios pegged to equities.

The highlight was the investments in third-party funds, which grew by 19.4% in the period, followed by the 8.6% increase in fixed-rate funds.

### **Custody and Brokerage Services**

In the second quarter of 2013, total custody and brokerage service income had an increase of R\$12 million in relation to the previous quarter, basically due to the increase in volume of trading in BM&FBovespa, which influenced custody and brokerage service income.

Year over year, the 10.2% increase in the first half of 2013 reflected the increase in custody services, with an R\$85 billion gain in assets under custody.

### **Underwriting / Financial Advisory Services**

The R\$104 million increase in the quarter-over-quarter comparison mainly refers to the performance of the capital market operations in the second quarter of 2013. Furthermore, changes in this income are often the result of capital markets' volatile performance.

Year over year, there was an increase of R\$122 million in the first half of 2013, mainly as a result of a greater business volume in the second quarter of 2013.

## **Personnel Expenses**

In the second quarter of 2013, personnel expenses came to R\$3,191 million, a 4.3% or R\$132 million variation from the previous quarter. The increase in structural expenses of R\$73 million was due to the lower concentration of holidays in the second quarter of 2013, for a total of R\$67 million. The increase in non-structural expenses of R\$59 million was due to greater expenses for the provision for labor claims, totaling R\$46 million.

**Personnel and Administrative Expenses**

**Personnel Expenses**

Year over year, the R\$325 million increase in the first half of 2013 was due to: (i) the structural expenses totaling R\$268 million, related to the increase in expenses with payroll, social charges and benefits, impacted by the raise in salary levels (collective bargaining agreement of 2012); and (ii) the increase in non-structural expenses of R\$57 million, which was mainly a result of

greater expenses with provision for labor claims, totaling R\$43 million.

Economic and Financial Analysis

**Personnel and Administrative Expenses**

**Administrative Expenses**

In the second quarter of 2013, administrative expenses came to R\$3,578 million, up 3.6%, or R\$123 million, from the previous quarter, mainly due to greater business and service volume in the quarter, consequently increasing expenses with: (i) outsourced services, totaling R\$45 million; (ii) data processing, totaling R\$15 million; (iii) depreciation and amortization, totaling R\$12 million; (iv) financial system services, totaling R\$10 million; and (v) communication, totaling R\$10 million.

Despite the greater expenses with (i) the opening of 5,459 service points in the period, mainly the opening of 4,343 *Bradesco Expresso* points, for a total of 70,829 service points on June 30, 2013 and (ii) the increase in business and service volume in the period, administrative expenses increased only by 2.8% between the first half of 2013 and the same period in 2012, thanks to the Efficiency Committee efforts to control these expenses. Note that, in the last 12 months, the inflation rates Extended Consumer Price Index (IPCA) and General Market Price Index (IGP-M) stood at 6.7% and 6.3% respectively.

### **Operating Coverage Ratio <sup>(1)</sup>**

In the quarter, the coverage ratio over the last 12 months maintained its improvement with a 1.9 p.p. growth, mainly due to an increase in fee and commission income, combined with ongoing cost control efforts, including the initiatives of our Efficiency Committee.

It is worth noting that 69.6% is the best rate over the last 18 quarters.

### **Tax Expenses**

The R\$106 million decrease in tax expenses in comparison with the previous quarter was mainly driven by the decrease in PIS/Cofins taxable bases in the second quarter of 2013.

Year over year, these expenses increased R\$137 million in the first half of 2013, mainly due to higher PIS/Cofins/ISS expenses, reflecting the higher taxable income, especially fee and commission income.

Economic and Financial Analysis

**Equity in the Earnings (Losses) of Unconsolidated Companies**

In the second quarter of 2013, the equity in the earnings (losses) of unconsolidated companies was R\$12 million. The R\$9 million increase over the previous quarter was basically due to the improved results from the unconsolidated companies Integritas Participações and Fleury.

In the year-over-year comparison, the reduction in the first half of 2013 was mainly due to lower results from the unconsolidated company “IRB – Brasil Resseguros.”

**Operating Income**

Operating income in the second quarter of 2013 was R\$4,583 million, up R\$36 million from the previous quarter. This result was mainly due to: (i) the increase in fee and commission income, amounting to R\$384 million; (ii) the R\$106 million decrease in tax expenses; partially offset by: (iii) the R\$255 million increase in personnel and administrative expenses; (iv) the R\$127 million decrease in operating income from Insurance, Pension Plans and Capitalization Bonds; and (v) lower financial margin, amounting to R\$119 million.

Year over year, the R\$415 million or 4.8% increase in the first half of 2013 is basically a result of: (i) the R\$1,183 million increase in fee and commission income; (ii) the R\$353 million increase in operating income from Insurance, Pension Plans and Capitalization Bonds; (iii) lower allowance for loan loss expenses, in the amount of R\$298 million; partially offset by: (iv) a R\$516 million increase in personnel and administrative expenses; (v) lower financial margin, amounting to R\$436 million; (vi)

the R\$286 million increase in other operating expenses (net of other income); and (vii) the R\$137 million increase in tax expenses.

— Report on Economic and Financial Analysis – June 2013

---

**Non-Operating Income**

In the second quarter of 2013, non-operating income posted a loss of R\$24 million, R\$14 million less than the previous quarter and R\$22 million more than the first half of 2012, due to greater non-operating expenses (such as losses on sale of foreclosed assets/other) in the period.

## Sustainability

### Bradesco maintains the ISO 14064 certification

In the second quarter of 2013, Bradesco maintained the ISO 14064 certification, which establishes standards to quantify, monitor, verify and validate greenhouse gas (GHG) emissions.

Fundação Carlos Alberto Vanzolini was responsible for the Bank's certification process. Between April 8 and 10, the foundation analyzed the data from the Bradesco Organization's "2012 Greenhouse Gas Emissions Inventory" and from the "Greenhouse Gas Emissions Management System" in order to determine if they complied with the certification requirements.

### 2013 Carbon Disclosure Project

The Carbon Disclosure Project (CDP) is a unified global system that collects information on corporate climate change policies, encouraging greater transparency for shareholders and investors. Bradesco has been a signatory of the CDP since 2006. A total of 4,100 companies worldwide report to the CDP, corresponding to

ISO 14064 guides Bradesco's policy on climate change, gives technical support to carbon offset processes, and develops a performance indicator on which sustainability reports such as GRI (Global Reporting Initiative), DJSI (Dow Jones Sustainability Index), ISE Bovespa and CDP (Carbon Disclosure Project) are grounded.

During these seven years in which Bradesco has maintained the certification, the Bank has improved the methodology adopted for data collection, enhanced information management and developed and monitored GHG emission reduction projects.

81% of the companies in the annual ranking of the world's 500 largest corporations. In 2012, 52 Brazilian companies reported their GHG emissions and climate change policies. Currently, the initiative is backed by more than 722 investors representing an excess of US\$87 trillion in assets.

## **Investor Relations (IR)**

In the second quarter of 2013, the Investor Relations department participated in nine events abroad, in the cities of Hong Kong, Singapore, Beijing, London, New York and Toronto. The local calendar of events included two “Apimec” meetings in Belo Horizonte and Salvador, with 458 participants, including investors, shareholders and market analysts.

Bradesco was also present in three editions of Expo Money, the largest financial education event in Latin America, which took place in Curitiba, Recife and Florianópolis, and in two of these cities—Curitiba and Florianópolis—there were also Bradesco Apimec presentations. In addition, the Investor Relations team frequently keeps contact with shareholders, investors and analysts via telephone, email, or at Bradesco's headquarters.

## **Corporate Governance**

Bradesco's management is made up of the Board of Directors and the Statutory Board of Executive Officers. The former is composed of eight members who are eligible for reelection, and includes seven external members, including the Chairman (Mr. Lázaro de Mello Brandão) and one internal member (The Chief Executive Officer, Mr. Luiz Carlos Trabuco Cappi). The Board members are elected by the Annual Shareholders' Meeting, which elect the members of the Board of Executive Officers.

Bradesco's Corporate Governance structure includes five Committees subordinated to the Board of Directors, two (2) of which Statutory Committees (Audit and Compensation) and three (3) Non-Statutory Committees (Ethical Conduct, Internal Controls and Compliance, and Integrated Risk Management and Capital Allocation), in addition to forty-three (43) Executive Committees subordinated to the Board of Executive Officers, assisting it in performing its duties.

Bradesco guarantees its shareholders, as a minimum dividend, 30% of adjusted net income, as well as 100% tag-along rights for common shares and 80% for preferred shares. Preferred shares are also entitled to dividends 10% greater than those paid to common shares.

Bradesco voluntarily adhered to Level 1 Corporate Governance of BM&FBovespa in 2001, and to the Code of Self-Regulation and Best Practices for Publicly-Held Companies, issued by the Brazilian Association of Publicly-Held Companies (Abrasca), in 2011.

Bradesco was rated AA+ (Excellent Corporate Governance Practices) by Austin Rating.

Additional Information

**Investments in Infrastructure, Information Technology and Telecommunication**

2013 is being a remarkable year for Bradesco. In the first half, technology enabled the business many achievements and innovations that have further improved the experience that more than 25 million account holders have with the Complete Bank.

Bradesco's technological apparatus and infrastructure provides convenience, facility and security to its customers when contracting and using its products and services. Despite its customer service channels, Bradesco still remains physically close to its customers. In the second quarter, 1,221 *Bradesco Expresso* service points were inaugurated, totaling more than 44.8 thousand service points nationwide. The *Bradesco Celular* channel exceeded the mark of 2 million active clients, a growth of more than 580% in the last two years. In addition to the many applications already available, Bradesco launched in May the version for Android operational system of *Bradesco Universitários*, enabling customers to access internet banking and exclusive content targeting students, such as grade and absence control, and access *Rádio Bradesco*, among others. The Bank also launched the Bradesco Investor Relations application for iPhone and iPad. It is a direct channel between the Bank and its shareholders, investors, analysts and all those who are involved in the capital market. Another convenience for Bradesco customers is the possibility to recharge pre-paid mobile phones—even without credit—through the phone itself. The amount is debited from the account and the credit is inserted in the phone by the operator.

Biometry, an innovative technology launched by Bradesco in 2007, exceeded the mark of 12 million registered customers, providing them with convenience and security. Customers carried out

For corporate customers, Bradesco launched the *Portal Sociedade de Negócios*, a new customer service channel for micro and small enterprises that aims to support the management of the business and contribute to an expansion of commercial contacts.

In May, Bradesco launched a chat about graphical analysis on Bradesco Corretora's website. Investors are able to talk with graphical analyst Daniel Marques in real time and request analyzes of securities, recommendations for purchase and sale and general clarifications. Bradesco also stood out on prestigious surveys that assess quality and performance in managing investment funds through BRAM - Bradesco Asset Management.

For those who like to travel, now it is possible to reload the Global Travel Card—a prepaid card in U.S. dollars, British pounds or euro—through the internet banking.

The Bradesco Seguros group also innovated and launched an application for the hearing impaired. In partnership with ProDeaf of Recife (state of Pernambuco), it developed an application called *Avatar*. This pioneering solution in Brazil enables the translation of Portuguese into the Brazilian Sign Language (LIBRAS). Available to mobile phones with the Android technology, the application enables hearing impaired customers to access the websites of Bradesco Seguros, Bradesco Auto/RE, Bradesco Saúde and Bradesco Vida e Previdência, being able to reach all content available on these channels. The idea is to contribute to social integration, in addition to breaking the communication barrier between Bradesco and this group—estimated at 2.7 million people in Brazil—that does not know Portuguese, or prefers the LIBRAS.

more than 4.2 million withdrawals balance statement checks without using their cards, only with the branch and account numbers, by using biometry and password. Transactions totaling more than R\$450 million were performed.

Bradesco has also made available to its new customers free online courses through its website [www.bradesco.com.br](http://www.bradesco.com.br). There are training courses on computing, budget planning, the Portuguese language orthographic agreement, etc.

Additional Information**Investments in Infrastructure, Information Technology and Telecommunication**

Bradesco wants to improve not only the life of its many customers, but also the life of its employees. For that, the Bank made available several systems and tools, and implemented changes that make all difference and facilitate their work. For example, a new channel was developed to increase the knowledge of Bradesco's employees: Portal de Vídeos, a modern platform that allows faster access to training videos, as well as advertising and TV Bradesco materials.

The Branch Network also has an important tool to monitor the performance of the management of accounts of corporate customers: the AGC, which helps measure the team's performance and put into practice a strategy and work plan that will yield better results. In addition, the teams can, through the Electronic Board Treasury System, simulate rates, spreads and gross results of loan operations of corporate customers, thus helping the Branch Manager to make decisions regarding the rates practiced while searching for greater efficiency in transactions.

Innovation is a continuous concern of Bradesco. Therefore, in January 2013 the Bank created the Innovation Executive Committee. With the effective participation of members of the Board of Executive Officers, the group developed a new innovation model for Bradesco, which is more productive and multi-departmental.

The Bradesco Organization is recognized on the market by its pioneering position in technology. The Bank was considered the most valuable brand in Brazil, with technology being one of the criteria evaluated by the specialized consulting firm BrandAnalytics. Bradesco was also considered the most profitable bank in Latin America and the United States, according to a study disclosed by Economatica.

Furthermore, Bradesco was one of the winners of the XII Efinance Award, granted by Editora Executivos Financeiros, aiming to reward the most inventive and innovative implementations, solutions and applications in the IT and telecommunications areas, and recognize the talent and competence of professionals of the companies whose solutions were applied in 2012. Bradesco was the winner in the following categories: Internet Banking Broker, IT Infrastructure – Environment Development, Core System-Credit, Call Center, Social Networks, Mobile Infrastructure Management, Content Management, IT Governance, Mobile Banking, Innovation and Security.

As a prerequisite for its continuous expansion, Bradesco invested R\$2,296 million in Infrastructure, Information Technology and Telecommunications in the first half of 2013. The total amount invested over recent years, including infrastructure (facilities, restorations, improvements, furniture and fixtures), can be found below:

Additional Information

**Risk Management**

Given the growing complexity of products and services and the globalization of the Organization's business, risk management has become a highly strategic activity, which must be constantly enhanced to keep pace with the dynamism of the markets and the pursuit of best practices, exemplified by the fact that Bradesco became the first and only Brazilian bank authorized by the Central Bank to use its own internally-developed market risk management models to calculate regulatory capital since January 2013.

The Organization exercises corporate risk control in an integrated and independent manner, preserving and valuing collegiate decision-making and developing and implementing methodologies, models, and measurement and control tools. It also provides training to employees from all Organization levels, from the business areas to the Board of Directors.

The management process ensures that risks can be proactively identified, measured, mitigated, monitored and reported as required in line with the complexity of the Organization's financial products and activity profile.

Detailed information on the risk management process, reference shareholders' equity and required reference shareholders' equity, as well as the Organization's risk exposure, can be found in the Risk Management Report on the Investor Relations website, at [www.bradescori.com.br](http://www.bradescori.com.br).

**Capital Management**

The Capital Management structure enables the Organization to reach its strategic objectives through an appropriate capital sufficiency planning. To comply with the definitions of governance, the Statutory and Executive Committees were considered, for assistance of the Board of Directors and the Board of Executive Officers in management and decision making.

Further information on the capital management structure can be found in the Risk Management Report and the 2012 Annual Report on the Investor Relations website: [www.bradescori.com.br](http://www.bradescori.com.br).

In line with definitions of governance, a new area responsible for the Conglomerate's capital

management was created: the Internal Capital Adequacy Assessment Process (ICAAP) and Capital Management, which acts jointly with the Integrated Risk Control Department, associated companies, business areas and the Organization's supporting areas.

— Report on Economic and Financial Analysis – June 2013

Additional Information**Capital Adequacy Ratio**

In June 2013, Bradesco's Reference Shareholders' Equity amounted to R\$92,629 million, versus a Required Reference Shareholders' Equity of R\$66,389 million, resulting in a R\$26,240 million capital margin. This figure was mostly impacted by the credit risk portion, representing 79.4% of the risk-weighted assets. The Capital Adequacy Ratio decreased by 0.2 p.p., from 15.6% in March 2013 to 15.4% in June 2013, mainly impacted by: (i) the mark-to-market devaluation of fixed income securities; (ii) the maturity of subordinated debts eligible to tier II capital; and offset by: (iii) the reduction in capital allocation to loan risk portion in the quarter.

Note that in March 2013 the Brazilian Central Bank disclosed a set of four resolutions and fifteen circular letters, which implement in Brazil the recommendations of the Basel Committee on Banking Supervision on financial institutions' capital structure, known as "Basel III." The main purposes are: (i) to improve the financial institutions' capacity of absorbing shocks arising from the financial system or other industries; (ii) to reduce the impact of the financial sector conditions on the real sector of the economy; (iii) to contribute to the financial stability; and (iv) to foster the sustainable economic growth. The implementation of the new capital structure in Brazil will begin as of October 1, 2013.

Independent Auditors' Report

**Reasonable assurance report from independent auditors on the supplementary financial information**

To the Directors of

Banco Bradesco S.A.

Osasco – SP

**Introduction**

We were engaged to apply reasonable assurance procedures for the supplementary accounting information included in the Economic and Financial Analysis Report of Banco Bradesco S.A. (“Bradesco”) for the semester ended June 30, 2013, which is prepared under the Bradesco’s Management responsibility. Our responsibility is to issue a Reasonable Assurance Report on such supplementary accounting information.

**Scope, procedures applied and limitations**

The reasonable assurance procedures were performed in accordance with standard NBC TO 3000 - Assurance Engagement Other than Audit and Review, issued by the Brazilian Federal Accounting Council (CFC – Conselho Federal de Contabilidade) and the ISAE 3000 – International Standard on Assurance Engagements issued by International Auditing and Assurance Standards Board – IASB, respectively, both for assurance engagements other than audits or reviews of historical financial information.

The reasonable assurance procedures comprised of: (a) planning of the work, considering the relevance of the supplementary financial information and the internal control systems that served as a basis for the preparation of the Economic and Financial Analysis Report of Bradesco; (b) obtaining an understanding of

the calculation methodology and the consolidation of indicators through interviews with the management responsible for the preparation of the supplementary accounting information, and (c) comparison of the financial and accounting indicators with the information disclosed at this date and/or accounting records.

The procedures that were applied do not constitute an audit or review in accordance with Brazilian and international auditing and review standards. Additionally, our report does not offer reasonable assurance on the scope of future information (such as goals, expectations and ambitions) and descriptive information that is subject to subjective assessment.

### **Criteria for preparation of the supplementary accounting information**

The supplementary accounting information disclosed in the Economic and Financial Analysis Report for the semester ended June 30, 2013, were prepared by Management of Bradesco, based on the consolidated financial information included in the financial statement and on the criteria described in the Economic and Financial Information Report, in order to provide additional analysis, but without being part of the consolidated financial statements released in this date.

**Reasonable assurance report from independent auditors on the supplementary financial information**

**Conclusion**

Based on the procedures applied, the supplementary accounting information included in the Economic and Financial Analysis Report for the semester ended June 30, 2013, are presented fairly, in all material respects, with regard to the information referred to in the paragraph of criteria for preparation of supplementary accounting information.

Financial Statements, Independent Auditors' Report, Summary of the Audit Committee's Report and Fiscal Council's Report

**Management Report**

Dear Shareholders,

We hereby present the financial statements of Banco Bradesco S.A., for the first half of 2013, prepared in accordance with the accounting practices adopted in Brazil and applicable to institutions authorized to operate by the Brazilian Central Bank.

Thanks to the ongoing recovery of productive investments, Brazil may well record more growth in the coming quarters than it did in 2012, although this will require a decline in inflationary pressure in order to maintain workers' purchasing power and, in a broader sense, macroeconomic predictability. At the same time, the reassessment of the global scenario poses difficulties due to reduced international liquidity and the downward trend in commodities prices. All in all, however, Bradesco still believes that the country is better prepared, both structurally and institutionally, to overcome the challenges that have recently intensified.

**1. Net Income for the Period**

In the first half of 2013, Bradesco posted Net Income of R\$5.868 billion, corresponding to earnings per share of R\$1.40 and a return on average Shareholders' Equity<sup>(\*)</sup> of 18.7%. The annualized Return on Average Total Assets stood at 1.3%.

Taxes and contributions, including social security contributions, paid or provisioned, came to R\$12.991 billion, of which R\$4.894 billion related to taxes withheld and collected from third parties, and R\$8.097 billion from activities developed by the Bradesco Organization, equivalent to 138.0% of Net Income.

A total of R\$2.066 billion was allocated to shareholders as Interest on Shareholders' Equity, of which R\$1.305 billion was paid as monthly and

In compliance with Article 8 of Brazilian Central Bank Circular Letter 3068/01, Bradesco declares that it has the financial capacity and the intention of holding to maturity those securities classified under "held-to-maturity securities." Bradesco further declares that the operations of Banco Bradesco S.A., its subsidiary, are sufficient to cover the strategic goals defined in the business plan, pursuant to Article 11 of Regulatory Attachment I to National Monetary Council Resolution 4122/12.

**3. Funding and Assets under Management**

On June 30, 2013, total funding raised and assets under management totaled R\$1.234 trillion, 9.1% more than in the previous year, broken down as follows:

R\$475.310 billion in demand deposits, time deposits, interbank deposits, open market and savings accounts, up by 7.3%;

R\$427.237 billion in assets under management, comprising investment funds, managed portfolios and third-party fund quotas, an 11.4% increase;

R\$177.511 billion in the exchange portfolio, borrowings and onlendings, working capital, tax payments and collection and related charges, funds

interim dividends and R\$760.657 million was provisioned. Interim Interest on Shareholders' Equity, paid on July 18, 2013, represents approximately 10 times the amount of monthly paid interest.

## 2. Paid-in Capital and Reserves

At the end of the first half, paid-in capital came to R\$38.100 billion. Together with Equity Reserves of R\$27.928 billion, Shareholders' Equity came to R\$66.028 billion, 3.3% up on the same period last year and equivalent to a book value of R\$15.72 per share.

Based on its stock price, Bradesco's Market Capitalization came to R\$124.716 billion on June 30, 2013, equivalent to 1.9 times Shareholders' Equity.

Managed Shareholders' Equity was equivalent to 7.4% of Consolidated Assets, which totaled R\$896.697 billion, 8.0% more than in June 2012. Accordingly, the Capital Adequacy Ratio stood at 15.4% of the consolidated financial result and 15.4% of the consolidated economic and financial result, which is substantially higher than the 11% minimum established by National Monetary Council Resolution 2099/94, in conformity with the Basel Committee. At the end of the half year, the fixed asset ratio in relation to Consolidated Reference Assets, was 44.3% in the consolidated financial result and 17.3% in the consolidated economic and financial result, well within the 50% limit.

from the issue of securities, subordinated debt in Brazil and other funding, a 3.8% expansion;

R\$131.819 billion in technical reserves for insurance, pension plans and capitalization bonds, up by 17.9%; and

R\$21.669 billion in foreign funding, through public and private issues, subordinated debt and the securitization of future financial flows, equivalent to US\$9.780 billion.

## 4. Loan Operations

At the end of the first half, consolidated loan operations came to R\$402.517 billion, 10.3% up on the same period in 2012, broken down as follows:

R\$6.647 billion in advances on exchange contracts, giving a total export financing portfolio of US\$13.932 billion;

### **6. Banco Bradesco BBI**

Bradesco BBI, the Organization's investment bank, advises customers on share issues, mergers and acquisitions and the structuring and distribution of debt instruments, including debentures, promissory notes, CRIs, mortgage-backed investment funds, receivables-backed investment funds (FIDCs) and bonds in Brazil and abroad, in addition to structured financing operations for companies and project finance. In the first half, Bradesco BBI executed operations worth more than R\$55.801 billion.

### **7. Bradesco Insurance Group**

On June 30, 2013, the Bradesco Insurance Group, one of the leaders in the insurance, capitalization bond and private pension plan segments, posted Net Income of R\$1.861 billion and Shareholders'

Equity of R\$16.342 billion. Net written insurance premiums, pension contributions and capitalization bond revenue totaled R\$24.191 billion, 15.3% up on the same period in 2012.

## 5. Bradesco's Customer Service Network

Present nationwide and in several locations abroad, Bradesco's customer service network is based on the highest standards of quality and efficiency, underpinned by state-of-the-art technology, enabling it to provide customers and users with convenience, facility and security. At the end of the first half, it comprised 58,271 service points, 34,322 terminals in the Bradesco *Dia & Noite* Network, 33,819 of which also operating on weekends and holidays, 13,650 terminals in the *Banco24Horas* (24-Hour Bank) network, through which customers can make withdrawals, transfers and payments, obtain statements, check balances and solicit loans. In the payroll-deductible loan segment, the network had 1,404 Bradesco Promotora correspondent bank branches and, in the vehicle segment, 15,667 Bradesco Financiamentos points of sale:

8,487 Branches and PAs (Service Branches) in Brazil (Branches: Bradesco 4,668, Banco Bradesco Financiamentos 19, Banco Bankpar 2, Banco Bradesco BBI 1, Banco Bradesco Cartões 1 and Banco Alvorada 1; and PAs 3,795);

3 Overseas Branches, one in New York and two in Grand Cayman;

10 Overseas Subsidiaries (Banco Bradesco Argentina S.A. in Buenos Aires; Banco Bradesco Europa S.A. in Luxembourg; Bradesco North America LLC and Bradesco Securities, Inc. in New York; Bradesco Securities UK Limited in London, Bradesco Securities Hong Kong Limited and Bradesco Trade Services Limited in Hong Kong; Bradesco Services Co. Ltd. in Tokyo; Cidade Capital Markets Ltd. in Grand Cayman; and Bradescard Mexico, Sociedad de Responsabilidad Limitada in Mexico);

## 8. Corporate Governance

Bradesco's presence in the Brazilian capital market dates from 1946, when its shares began trading on the Stock Exchange. In 1997, its level I ADRs (American Depositary Receipts) backed by preferred shares began trading on the U.S. market, followed by level II ADRs, backed by common and preferred shares in 2001 and 2012, respectively. Also in 2001, its GDRs (Global Depositary Receipts) began trading on the European market (Latibex).

Bradesco's Management comprises the Board of Directors and Board of Executive Officers. Members of the Board of Directors are elected on an annual basis by the Annual Shareholders' Meeting and are responsible for electing the members of the Board of Executive Officers. The posts of Chairman of the Board of Directors and Chief Executive Officer may not be occupied by the same person.

Financial Statements, Independent Auditors' Report, Summary of the Audit Committee's Report and Fiscal Council's Report

## **Management Report**

The Fiscal Council, consisting of three sitting members and three alternates, one sitting member and his or her alternate being elected by the preferred shareholders, has been installed every year since 2002. The term of office of the present Fiscal Council, elected by the Annual Shareholders' Meeting of March 11, 2013, will last until the next ASM in 2014.

In July 2005, Bradesco was awarded an AA rating (Excellent Corporate Governance Practices), by Austin Rating, which was upgraded to AA+ in December 2011, thanks to the improvement of several of the Bank's corporate governance practices.

As an example of these good practices, it is worth noting Bradesco's voluntary adherence, in 2001, to Corporate Governance Level 1 of the BM&FBOVESPA – Securities, Commodities and Futures Exchange. In 2011, also voluntarily, it adhered to the Code of Self-Regulation and Best Practices for Publicly-Held Companies, issued by the Brazilian Association of Publicly-Held Companies (Abrasca), adopting the "apply or explain" principle, in line with its determination to do everything possible to improve its governance.

In compliance with CVM Rule 381/03, in the first half the Bradesco Organization neither contracted from nor had services provided by KPMG Auditores Independentes that were not related to the external audit, in a level higher than 5% of total fees relating to external audit. Other services provided by external auditors were agreed procedures to review financial information, draws and system diagnosis. The Bank's policy is in line with the principles of preserving the auditors' independence, which are based on generally accepted international criteria, i.e. the auditors should not audit their own work, perform managerial duties for their clients or

All of these procedures improve the quality of operational processes and propagate the importance of a culture of control, ratifying the improvement of best practices.

### **Prevention of Money Laundering and Terrorism Financing**

Bradesco maintains specific policies, rules, procedures and systems to prevent and/or detect the utilization of its structure and products and services for money laundering purposes and the financing of terrorism.

It provides training for its employees via various program formats, including informative brochures, videos, in-house and distance learning courses, and specific in-house lectures for the areas involved.

Suspicious or atypical cases are submitted to the Suspicious Transaction Assessment Commission, made up of representatives from several areas, which decides if they will be forwarded to the regulatory authorities.

The Prevention of Money Laundering and Terrorism Financing Program is supported by the Executive Committee to Prevent Money Laundering and the Financing of Terrorism, which is responsible for evaluating the work and the need to align procedures with the rules established by the regulatory authorities and with best national and international practices.

### **Independent Authentication of Models**

The Independent Authentication of Models area is responsible for issuing a grounded and independent opinion on whether the internal models are functioning in accordance with the envisaged objectives and if the results obtained are appropriate

promote their clients' interests.

### **8.1. Internal Controls and Compliance**

The effectiveness of the Organization's internal controls is sustained by its people, processes and technology. We therefore employ skilled professionals exclusively dedicated to this purpose, supported by previously defined and implemented processes and appropriate technology for the needs of the business.

The internal controls and compliance policy and the corporate risk management and control methodology are duly formalized, in accordance with the main control frameworks, including the Committee of Sponsoring Organizations of the Treadway Commission (COSO) and the Control Objectives for Information and Related Technology (COBIT), which encompass business and technology aspects, respectively, National Monetary Council Resolution 2554/98, the Public Company Accounting Oversight Board (PCAOB) and Section 404 of the U.S. Sarbanes-Oxley Act.

Internal controls are developed jointly with the areas responsible for the various products, services and processes, whose adherence tests are applied with the required frequency, and the results reported to the Audit and Internal Controls and Compliance Committees, as well as the Board of Directors. In cases of non-compliance, corrective measures are implemented and monitored.

for their required purpose. It reports to managers, the internal auditors and the Integrated Risk Management and Capital Allocation Committee (COGIRAC).

Internal business support models facilitate the handling of critical issues, the improvement of processes and the standardization and streamlining of decisions in the context in which they are inserted. They also represent an important means of retaining knowledge.

In accordance with the guidelines of the New Capital Accord – Basel II and the requirements of the Brazilian Central Bank, the internal risk management models are submitted to an ongoing process of critical analysis, ensuring their high quality and ability to respond appropriately to their objectives, the so called Independent Validation Process.

## **Management Report**

### **Information Security**

At the Bradesco Organization, information security comprises a set of controls, represented by procedures, processes, organizational structures, policies, rules and IT solutions to protect data with respect to confidentiality, integrity and availability. The bases for the protection of information assets are described in Bradesco's Information Security Policy and Rules.

Based on best international standards and practices of information security, the corporate awareness and training programs, as well as the above-mentioned policy and rules, are focused on protecting customers' data and the Organization's strategic information.

The Security Commissions and the Corporate Security Executive Committee meet periodically to examine and approve directives, measures and guidelines to support the Organization's information security processes and procedures.

#### **8.2. Information Disclosure and Transparency Policies**

Bradesco held 66 internal and external meetings with Brazilian and foreign investors in the first half, as well as 102 conference calls, 13 events in Brazil and 13 abroad. Four of these events were presentations to the Association of Analysts and Capital Market Professionals (Apimec), serving 887 people in different regions of the country. It also held two video chats with Bradesco's Investor Relations Officer, geared towards individual investors, and participated in the ExpoMoney Fair in Curitiba, Florianópolis and Recife.

### **9. Integrated Risk Control**

#### **9.1. Risk Management**

Risk management is a highly strategic activity due to the growing complexity of services and products and the globalization of the Organization's business. Market dynamism obliges us to continually improve this activity, with a constant focus on best practices. As a result, in January 2013, Bradesco became the first and only bank in the country to receive Central Bank authorization to adopt the internal market risk models already used by its management, to calculate regulatory capital.

The Organization maintains corporate control over risks in an integrated and independent manner, preserving and valuing collegiate decisions, developing and implementing methods, models, and measurement and control tools, supported by a framework of committees subordinate to the Board of Directors, including the Audit Committee, and executive committees. It also keeps employees at all levels, from the business areas to the Board of Directors, fully informed of any changes.

The management process allows risks to be proactively identified, measured, mitigated, monitored and reported.

#### **9.2. Credit Risk**

Credit risk management is a continuous and evolutionary process of mapping, measuring and diagnosing through the use of models, instruments and procedures which requires a high degree of discipline and control when analyzing operations and preserves the integrity and independence of processes. It covers all aspects related to the

The Bradesco Apimec Meeting in Belo Horizonte (MG) was broadcast live over the Internet, exemplifying the Organization's aim of delivering information to the largest possible number of people in a transparent and democratic manner.

All information regarding the Bradesco Organization, including its profile, history, shareholding structure, management reports, financial results, latest acquisitions, Apimec meetings, and the Economic and Financial Analysis Report, as well as general financial market information are available on its Investor Relations website at [www.bradesco.com.br/ri](http://www.bradesco.com.br/ri).

Bradesco also publishes a series of periodicals, both physically and electronically, including *Revista Bradesco* (twice a year), *Cliente Sempre em Dia* (every quarter), *PrimeLine* (every two months) and a Fact Sheet containing the period's financial highlights (on request), all of which targeting an external audience. The Bank's Sustainability Report is produced simultaneously with its Annual Report.

granting of loans, including characteristics of the borrower and credit concentration, guarantees and terms, from which the quality of the portfolio is derived.

The Organization continuously maps all activities that could generate exposure to credit risk, classifying them by probability and magnitude, and determines their managers, as well as measurement and mitigation plans. Control is exercised on a centralized and standardized corporate basis.

### **9.3. Market Risk**

Market risk is carefully identified, mapped, measured, mitigated, controlled, managed and reported. The Organization's market risk exposure profile is conservative in nature and guidelines and limits are monitored independently on a daily basis.

Control over activities exposed to market risk is exercised by all of the Organization's companies in a corporate and centralized manner.

### **9.4. Liquidity Risk**

The Organization's Market and Liquidity Risk Management Policy, together with the resulting rules and procedures, defines not only the minimum levels to be observed, including considerations of stress scenarios, but also the type of financial instruments in which funds should be invested and the operating strategy to be adopted if needed.

The liquidity risk management process involves the daily monitoring of the composition of available funds, compliance with minimum liquidity levels and contingency plans for stress situations. Positions are controlled and monitored in a centralized manner.

### **9.5. Operational Risk**

Operational risk management is essential for the generation of added value. Risk control is conducted in a centralized, consolidated manner through identification and measurement, and the application of mitigation and monitoring plans, by each of the Organization's companies.

One of the most important operational risk management procedures is business continuity management, which consists of a set of plans to be implemented during crisis situations in order to ensure the recovery and continuity of business and prevent financial losses.

## **10. Human Resources**

Always in line with market requirements, the Bradesco Organization maintains an excellent Human Resources Management model, with an emphasis on development through heavy investments in training programs in order to foster professional growth. The outcome of these policies is reflected in the increasing quality and efficiency of

– **Sustainable Finances** – aimed at fostering sustainable development through products that comply with best social and environmental practices. The concept of sustainable development in regard to banking inclusion and the democratization of credit, is applied when approving and monitoring loans and is also present in the products offered, such as lines of credit, investments, cards, insurance policies, private pension plans and capitalization bonds, as well as information on risk management;

– **Responsible Management** – demonstrates how Bradesco relates to its strategic stakeholders, as well as brand management and environmental management actions. It consists of initiatives based on our Sustainability Policy, designed to value and develop employees' potential, improve the work place and ensure more eco-efficient practices, and on our commitment to the Global Compact, the Millennium Goals and the Equator Principles. As a result, Bradesco has been included in various sustainability indexes, including the NYSE's Dow Jones Sustainability Index and the BM&BOVESPA's Corporate Sustainability Index (ISE) and Carbon Efficient Index (ICO2), and has received a number of certifications and awards; and

– **Social and Environmental Investments** - through private sector investments, sponsorships and donations, the Organization contributes to environmental preservation, social inclusion and the development of its surrounding communities through educational, sporting, environmental and cultural projects and events. The main environmental preservation and social inclusion initiatives include Fundação Bradesco, the Bradesco Sports and Education Program, Fundação SOS Mata Atlântica

our services. In the first half of 2013, 1,348 courses were administered to 628,074 employees.

The Organization took another important step forward in this aspect by creating the Bradesco Corporate University (UNIBRAD), as part of a larger strategy of focusing on its employees' individual competencies, offering in-house, external and online courses to enhance their professional and personal qualifications.

Benefits aimed at promoting the quality of life, well-being and security of its staff and their dependents covered 206,836 employees in the period.

## 11. Sustainability

Since Bradesco began operations, its activities have been underpinned by such issues as education, individual development, banking inclusion and the promotion of citizenship. Its sustainability guidelines, strategies and initiatives are supported by best corporate governance practices and grouped into three major categories: Sustainable Finances, Responsible Management and Social and Environmental Investments.

and Fundação Amazonas Sustentável.

## Fundação Bradesco

Fundação Bradesco, the Organization's pioneering social investment vehicle, has developed an extensive social and educational program designed to improving the learning experience throughout Brazil. It has 40 schools located in all Brazilian states and the Federal District, with a special emphasis on socially and economically underprivileged regions.

This year, the estimated budget of R\$460.961 million will provide free, high-quality education to: a) 106,843 students enrolled in its schools in the following levels: basic education (kindergarten to high school) and vocational training - high school, youth and adult education; and preliminary and continuing vocational training, which focuses on creating jobs and income; b) around 350 thousand students who will complete at least one of the distance-learning courses (EaD) available on the e-learning portal; and c) 68,323 beneficiaries in partnership projects and initiatives, including the Digital Inclusion Centers (CIDs), the Educa+Ação program and technology courses (Educar and Aprender). The approximately 47 thousand students enrolled in the basic education system also receive uniforms, school supplies, meals, and medical and dental assistance free of charge.

## **Management Report**

The 11<sup>th</sup> edition of National Volunteer Day, held on May 18, 2013, united 25,218 volunteers in 72 different locations across Brazil, including Fundação Bradesco schools and service points close to the schools' facilities. All in all, 314,452 initiatives were implemented in the educational, leisure, sports and environment areas, exemplifying solidarity and social awareness.

### **Bradesco Sports and Education Program**

For more than 26 years, the Bradesco Sports Program has been supporting the social inclusion and citizenship of children and teenagers through sports, combining education, health and well-being projects.

In Osasco (SP), the Program maintains 17 Training and Specialist Centers to teach women's basketball and volleyball in its Sports Development Center, Fundação Bradesco schools, private schools and sports centers. Currently, around 2 thousand girls aged between 8 and 20 are taking part in the program, reinforcing Bradesco's commitment to defending a country that is giving increasing value to recognizing talent, effort and the full exercise of citizenship

## ***Notes to the Consolidated Financial Statements***

### **1) OPERATIONS**

Banco Bradesco S.A. (Bradesco) is a private-sector publicly traded company and Universal Bank that carries out all types of banking activities that it is authorized to do so through its commercial, foreign exchange, consumer financing and housing loan portfolios. The Bank has a number of other activities, either directly or indirectly, through its subsidiaries, particularly in leasing, investment banking, brokerage, consortium management, credit cards, real estate projects, insurance, pension plans and capitalization bonds. Operations are conducted within the context of the companies within the Bradesco Organization, working together in the market.

### **2) PRESENTATION OF THE FINANCIAL STATEMENTS**

Bradesco's consolidated financial statements include the financial statements for Banco Bradesco, its foreign branches, subsidiaries and jointly-controlled entities, in Brazil and abroad, including SPEs (Special Purpose Entities). They were prepared based on accounting practices issued by Laws 4595/64 (Brazilian Financial System Law) and 6404/76 (Brazilian Corporate Law), along with amendments introduced by Laws 11638/07 and 11941/09 relating to the accounting of operations, associated with rules and instructions of the National Monetary Council (CMN) and the Brazilian Central Bank (Bacen), Brazilian Securities and Exchange Commission (CVM), where applicable, National Private Insurance Council (CNSP), Insurance Superintendence (Susep) and National Supplementary Healthcare Agency (ANS). The financial statements of leasing companies included in the consolidated information were prepared using finance leases, whereby leased fixed assets are classified as operating leases less the residual value paid in advance.

In the preparation of these consolidated financial statements, intercompany transactions, including investments, assets and liabilities, revenue, expenses and unrealized profit were eliminated and net income and shareholders' equity attributable to the non-controlling interests were accounted for on a separate line. For jointly-controlled investments with other shareholders, assets, liabilities and income and loss were proportionally consolidated in the consolidated financial statements according to the interest on shareholders' equity of each investee. Goodwill on the acquisition of investments in subsidiary/unconsolidated companies or jointly-controlled entities is included in investments and intangible assets (Note 15a). The foreign exchange variation from foreign branches or investments is presented in the income statement accounts together with changes in the value of the derivative financial instrument, borrowing or onlending operation to eliminate the effect of these investment hedge instruments.

The financial statements include estimates and assumptions, such as: the calculation of estimated loan losses; fair value estimates of certain financial instruments; civil, tax and labor provisions; impairment losses of securities classified as available-for-sale and held-to-maturity and non-financial assets; the calculation of technical reserves for insurance, pension plans and capitalization bonds; and the determination of the useful life of specific assets. Actual results may differ from those based on estimates and assumptions.

Bradesco's consolidated financial statements were approved by the Board of Directors on July 19, 2013.

**3) SIGNIFICANT ACCOUNTING PRACTICES**

**a) Functional and Presentation Currencies**

Consolidated financial statements are presented in Brazilian reais, which is also Bradesco's functional currency. Foreign branches and subsidiaries are mainly a continuation of activities in Brazil, and, therefore, assets, liabilities and profit or losses are translated into Brazilian reais using the appropriate currency exchange rate to comply with accounting practices adopted in Brazil. Foreign currency translation gains and losses arising are recognized in the period's income statement under items "Derivative Financial Instruments" and "Borrowing and Onlending."

**b) Income and Expense Recognition**

Income and expenses are recognized on an accrual basis together to determine the net income for the period to which they relate, regardless of receipt or payment of funds.

Fixed rate transactions are recorded at their redemption value with the income or expense relating to future periods being recorded as a deduction from the corresponding asset or liability. Finance income and costs are prorated daily and calculated based on the exponential method, except when they relate to discounted notes or to foreign transactions which are calculated using the straight-line method.

Floating rate or foreign-currency-indexed transactions are adjusted for inflation at the end of the reporting period.

Insurance and coinsurance premiums, net of premiums assigned to coinsurance and reinsurance and corresponding commissions, are recognized on a straight-line basis during the policies' effective period through accrual and reversal of the unearned premium reserve of deferred acquisition costs. Revenues from premiums and the corresponding deferred acquisition costs, relating to existing risk but with no policy issued, are recorded in the income statement at the beginning of the risk coverage, based on estimated

figures.

Income and expenses arising from DPVAT insurance operations are recorded based on information provided by the Seguradora Líder dos Consórcios do Seguro DPVAT S.A.

Accepted coinsurance and retrocession operations are recorded based on the information received from other companies and IRB - Brasil Resseguros S.A., respectively. Reinsurance operations with IRB are recorded based on operating and financial transactions sent by IRB whereas operations with other reinsurance companies are recorded based on their financial records subject to analysis. Deferral of reinsurance premiums granted is consistent to the corresponding reinsurance premium and/or reinsurance contract.

Brokerage and acquisition of new health insurance operations are deferred and recorded in the income statement over a 12-month period on a straight-line basis.

Pension plan contributions and life insurance premiums covering survival are recognized in the income statement as they are received. Income from management fees paid by special-purpose investment funds are recognized on the accrual basis at contractual rates.

Income from capitalization bonds is recognized when it is effectively received. Income from expired capitalization plans is recorded after the statute of limitation, under Article 206 of the Brazilian Civil Code. The expenses for placement of capitalization bonds, classified as "Acquisition Costs," are recognized when they are incurred. Technical reserves are recorded when the respective revenues are registered in books.

### ***Notes to the Consolidated Financial Statements***

#### **c) Cash and cash equivalents**

Cash and cash equivalents include: funds available in currency, investments in gold, investments in federal funds purchases and securities sold under agreements to repurchase and interest-earning deposits in other banks, maturing in 90 days or less and present an insignificant risk of change in fair value, that are used by Bradesco to manage its short-term commitments.

Cash and cash equivalents detailed balances are reflected in Note 6.

#### **d) Interbank investments**

Unrestricted purchase and sale commitments are stated at their fair value. Other investments are stated at cost, plus income earned up to the end of the reporting period, net of any devaluation allowance, if applicable.

The breakdown, terms and proceeds relating to interbank investments are presented in Note 7.

#### **e) Securities - Classification**

- Trading securities - securities acquired for the purpose of being actively and frequently traded. They are recorded at cost, plus income earned and adjusted to market value in the income statement for the period;
- Available-for-sale securities - securities that are not specifically intended for trading purposes or to be held to maturity. They are recorded at cost, plus income earned, which is recorded in profit or loss in the

period and adjusted to market value within shareholders' equity, net of tax, which will be recognized in profit or loss only when effectively disposed; and

- Held-to-maturity securities - securities intended and for the financial capacity to be held in the portfolio up to maturity. They are recorded at cost, plus earnings recognized in profit or loss for the period.

Securities classified as trading or available-for-sale, as well as derivative financial instruments, are recorded at their estimated fair value in the consolidated statement of financial position. The fair value is generally based on market prices or quotations for assets or liabilities with similar characteristics. If market prices are not available, fair values are based on traders' quotations, pricing models, discounted cash flows or similar techniques to determine the fair value and may require judgment or significant estimates by Management.

Classification, breakdown and segmentation of securities are presented in Note 8 (a to d).

**f) Derivative financial instruments (assets and liabilities)**

Classified according to intended use by Management, on the date that the operation was entered into and considering if it was intended for hedging purposes or not.

Operations involving derivative financial instruments are designed to meet the Bank's own needs in order to manage overall exposure, as well as to meet customer requests to manage their positions. Gains and losses are recorded in income or expenses accounts of the respective financial instruments.

Derivative financial instruments used to mitigate risk deriving from exposure to variations in the market value of financial assets and liabilities are designated as hedges and are classified according to their nature:

- Market risk hedge: for financial instruments classified in this category as well as the hedge-related financial assets and liabilities, gains and losses, realized or not, are recorded in the income statement; and

Bradesco \_\_\_\_\_

Financial Statements, Independent Auditors' Report, Summary of the Audit Committee's Report and Fiscal Council's Report

**Notes to the Consolidated Financial Statements**

- Cash flow hedge: the effective portion of valuation or devaluation of financial instruments classified in this category is recorded, net of tax, in a specific account under shareholders' equity. The ineffective portion of the respective hedge is directly recognized in the income statement.

A breakdown of amounts included in derivative financial instruments, in the balance sheet and memorandum accounts, is disclosed in Note 8 (e to h).

**g) Loans and leasing, advances on foreign exchange contracts, other receivables with credit characteristics and allowance for loan losses**

Loans and leasing, advances on foreign exchange contracts and other receivables with credit characteristics are classified according to their corresponding levels of risk in compliance with: (i) the parameters established by CMN Resolution 2682/99, with nine levels of risk from "AA" (minimum risk) to "H" (maximum risk); and (ii) Management's level of risk assessment. This assessment, which is carried out regularly, considers current economic conditions and past experience with loan losses, as well as specific and general risks relating to operations, debtors and guarantors. Moreover, the period of late payment defined in CMN Resolution 2682/99 is also considered to rate customer risk as follows:

<b>Past-due period (1)</b>	<b>Customer rating</b>
from 15 to 30 days	B
from 31 to 60 days	C
from 61 to 90 days	D
from 91 to 120 days	E
from 121 to 150 days	F
from 151 to 180 days	G
more than 180 days	H

(1) For transactions with terms of more than 36 months, past-due periods are doubled, as allowed under CMN Resolution 2682/99.

Interest and inflation adjustments on past-due transactions are only recognized up to the 59<sup>th</sup> day that they are past due. As from the 60<sup>th</sup> day, they are recognized in deferred income.

H-rated past-due transactions remain at this level for six months, after which they are written-off against the existing allowance and controlled in memorandum accounts for at least five years.

Renegotiated transactions are maintained at least at the same level as previously classified. Renegotiations already written-off against the allowance and that were recorded in memorandum accounts, are rated as level "H" and any possible gains derived from their renegotiation are recognized only when they are effectively received. When there is a significant repayment on the operation or when new material facts justify a change in the level of risk, the operation may be reclassified to a lower risk category.

The estimated allowance for loan losses is calculated to sufficiently cover probable losses, considering CMN and Bacen standards and instructions, together with Management assessment to determine credit risk.

Type, values, terms, levels of risk, concentration, economic sector of the activity, renegotiation and income from loans, as well as the breakdown of expenses and statement of financial position accounts for the allowance for loan losses are presented in Note 10.

#### **h) Income tax and social contribution (assets and liabilities)**

Income tax and social contribution credits, calculated on income tax losses, social contribution losses and temporary additions are recorded in "Other Receivables - Sundry" and the provisions for deferred tax liabilities on tax differences in leasing depreciation and mark-to-market adjustments on securities are recorded in "Other Liabilities - Tax and Social Security." The income tax rate only applies to tax differences in leasing depreciation.

Financial Statements, Independent Auditors' Report, Summary of the Audit Committee's Report and Fiscal Council's Report

***Notes to the Consolidated Financial Statements***

Tax credits on temporary additions are used and/or reversed against the corresponding provision. Tax credits on income tax and social contribution losses are used when taxable income is generated, under the 30% limit of the taxable profit for the period. Such tax credits are recorded based on current expectations on when the deduction can be used, considering technical studies and analyses carried out by Management.

The provision for income tax is calculated at 15% of taxable income plus a 10% surcharge. Social contribution on net income is calculated at 15% for financial institutions and insurance companies and at 9% for other companies.

Provisions were recorded for other income tax and social contribution in accordance with specific applicable legislation.

Pursuant to Law 11941/09, changes in the criteria to recognize for revenue, costs and expenses included in the net income for the period, enacted by Law 11638/07 and by Articles 37 and 38 of Law 11941/09, shall not affect taxable income, and, for tax purposes, accounting methods and criteria in force on December 31, 2007 are considered. For accounting purposes, the tax effects of adopting the aforementioned laws are recorded in the corresponding deferred tax assets and liabilities.

The breakdown of income tax and social contribution, showing the calculations, the origin and expected use of tax credits, as well as unrecorded tax credits, are presented in Note 34.

**i) Prepaid expenses**

Prepaid expenses are represented by use of funds for future benefits or services, which are recognized in the profit or loss on an accrual basis.

Incurred costs relating to corresponding assets that will generate revenue in subsequent periods are recorded in the profit or loss according to the terms and the amount of expected benefits and directly written-off in the profit or loss when the corresponding assets or rights are no longer part of the institution's assets or when future benefits are no longer expected.

Prepaid expenses are shown in details in Note 12b.

#### **j) Investments**

Investments in unconsolidated companies, with significant influence over the investee or has at least 20% of the voting rights, under the equity method of accounting.

Tax incentives and other investments are stated at cost, less allowance for losses/impairment, where applicable.

Subsidiaries' and jointly-controlled companies are consolidated, and a list of the main companies can be found in Note 2. A list of the unconsolidated companies, as well as other investments, is shown in Note 13.

#### **k) Premises and equipment**

Relates to the tangible assets used by the Bank in its activities or used for that purpose, including those transactions which transfer risks, benefits and controls of the assets to the entity.

Fixed assets are stated at cost, net of the accumulated depreciation, calculated using the straight-line method according to the estimated economic useful life of the asset, as follows: premises - 4% p.a.; furniture and fixtures, machinery and equipment - 10% p.a.; transport systems - 20% p.a.; and data processing systems - 20% to 50% p.a., and adjusted for impairment, where applicable.

The breakdown of asset costs and their corresponding depreciation, as well as the unrecorded surplus value for real estate and fixed asset ratios, is presented in Note 14.

## ***Notes to the Consolidated Financial Statements***

### **l) Intangible assets**

Relates to the right over intangible assets used by the Bank in its activities or used for that purpose.

Intangible assets comprise:

- Future profitability/customer portfolio acquired and acquiring the right to provide banking services: is recorded and amortized, as applicable, over the period in which the asset will directly and indirectly contribute to future cash flows and adjusted through impairment, where applicable; and
- Software: stated at cost less amortization calculated on a straight-line basis over the estimated useful life (20% to 50% per annum), from the date it is available for use and adjusted through impairment, where applicable. Internal software development costs are recognized as an intangible asset when it is possible to show the intention and ability to complete such development, as well as reliably measure costs directly attributable to the software, which will be amortized during its estimated useful life, considering the future economic benefits generated.

Goodwill and other intangible assets, including their changes by class, are broken down in Note 15.

### **m) Impairment**

Financial and non-financial assets are tested for impairment.

Impairment evidence may comprise the non-payment or payment delay by the debtor, possible bankruptcy process or even significant or extended decline in asset value.

An impairment loss of a financial or non-financial asset is recognized in the profit or loss for the period if the book value of an asset or cash-generating unit exceeds its recoverable value.

Impairment losses, when applicable, are presented in Note 15 (b and c).

**n) Deposits and federal funds purchased and securities sold under agreements to repurchase**

These are recognized at the value of the liabilities and include, when applicable, related charges up to the end of the reporting period, on a daily prorated basis.

A breakdown of securities recorded in deposits and federal funds purchased and securities sold under agreements to repurchase, as well as terms and amounts recognized in the statement of financial position and income statement, is presented in Note 16.

**o) Technical reserves relating to insurance, pension plans and capitalization bonds**

- Damage, health and group insurance lines, except life insurance covering survival:
  - The unearned premium reserve (PPNG) is calculated on a daily prorated basis, using premiums net of coinsurance assignment, but including reinsurance transfer operations, is comprised of the portion corresponding to the periods of risk not arising from insurance policies less initial contracting costs, except for health insurance, and includes estimates for risks in effect but not issued (RVNE). This reserve also includes risks not yet effective and already issued;
  - The mathematical reserve for unvested benefits (PMBaC) is calculated by the difference between the current value of future benefits and the current value of future contributions, corresponding to assumed obligations;
  - The reserve for unvested benefits relating to the individual health care plan portfolio covers the holder's dependents for five years upon death, and it is calculated based on the time dependents are expected to remain in the plan up to the end of this five-year period; after this, it is calculated based on

costs on the five-year-period plan, excluding payment of premiums;

**Notes to the Consolidated Financial Statements**

- The reserve for vested benefits relating to the individual health care plan portfolio comprises obligations under the terms of the contract relating to coverage of the health care plan, and premiums for the payment of insurers participating in the Bradesco Saúde– “GBS Plan” insurance, based on the present value of estimated future expenses with health care provided to dependents whose holders already deceased, as provided for in Normative Resolution 75/04 of ANS;
  
- For Health Insurance, the reserve for incurred but not reported (IBNR) claims is calculated based on incurred but not paid (IBNP) claims less the balance of the reserve for unsettled claims (PSL) on the calculation date. A final estimate of IBNP claims based on monthly run-off triangles, which consider the claims ratio in the last 12 months, is prepared to calculate IBNP claims;
  
- For other lines, the reserve for incurred but not reported (IBNR) claims is calculated based on incurred but not paid (IBNP) claims less the balance of the reserve for unsettled claims (PSL) on the calculation date. A final estimate of IBNP claims based on half-yearly run-off triangles is prepared to calculate IBNP claims. The run-off triangles consider the historical development of claims paid in the last 14 semesters to determine a future projection per occurrence period;
  
- The reserve for unsettled claims (PSL) considers all loss notices received up to the end of the reporting period and related costs, such as loss adjustment expenses, loss of suit, among others. The reserve is adjusted for inflation and includes all claims under litigation;
  
- The reserve for redemptions and other amounts to be settled (PVR) comprises figures related to redemptions to settle and premium refund not yet paid;
  
- The complementary reserve for coverage (PCC) refers to the amount necessary to complement technical reserves, as calculated through the Liability Adequacy Test (LAT), which is prepared using statistic and actuarial methods based on realistic considerations, taking into account the biometric table BR-EMS of both genders, improvement of G Scale and forward interest rate structures (ETTJ) free from risk and authorized by Susep. The improvement rate is calculated from automatic updates of the biometric table, considering the expected increase in future life expectancy; and

- Other technical reserves are mainly recorded to cover differences between the premiums future adjustments and the ones necessary to the technical balance of healthcare plan individual portfolio, adopting the formula included in the actuarial technical note approved by ANS.

- Pension plans and life insurance covering survival:

- The unrealized risk premiums (PPNG) is calculated on a daily prorated basis, using premiums net of coinsurance assignment, but including reinsurance transfer operations, is comprised of the portion corresponding to periods of risks not arising from insurance policies and includes an estimate for risks in effect but not issued (RVNE). This reserve also includes risks not yet effective and already issued;

- The mathematical reserve for unvested benefits (PMBaC) refers to participants who have not yet received any benefit. In defined benefit pension plans, the reserve represents the difference between the current value of future benefits and the current value of future contributions, corresponding to obligations in the form of retirement, disability, pension and annuity plans. The reserve is calculated using methodologies and assumptions set forth in the actuarial technical notes;

- The mathematical reserve for unvested benefits related to life insurance and unrestricted benefit pension plans (VGBl and PGBl), apart from the defined contribution plans, shows the value of participant contributions, net of costs and other contractual charges, plus income from investment in Exclusive Investment Funds (FIEs);

**Notes to the Consolidated Financial Statements**

- The reserve for redemptions and other amounts to be settled (PVR) comprises figures related to redemptions to settle, premium refund and portability requested not yet transferred to the recipient;
- The mathematical reserve for vested benefits (PMBC) refers to participants already benefiting and corresponds to the present value of future obligations related to the payment of ongoing benefits;
- The complementary reserve for coverage (PCC) refers to the amount necessary to complement technical reserves, as calculated through the Liability Adequacy Test (LAT), which is prepared using statistic and actuarial methods based on realistic considerations, taking into account the biometric table BR-EMS of both genders, improvement of G Scale and forward interest rate structures (ETTJ) free from risk and authorized by Susep. The improvement rate is calculated from automatic updates of the biometric table, considering the expected increase in future life expectancy;
- The reserve for related expenses (PDR) is recorded to cover estimated benefit and claims expenses;
- The reserve for financial surplus (PEF) corresponds to the portion of income from investment of reserves that exceeds minimum returns from pension plans that have a financial surplus in the participation clause;
- The reserve for technical surplus (PET) corresponds to the difference between the expected and the actual amounts for events in the period for pension plans that have a technical surplus in the participation clause;
- The reserve for incurred but not reported (IBNR) events, relating to pension plans, is recorded in compliance with Susep Circular Letter 448/12;

- The reserve for unsettled claims (PSL) considers all loss notices received up to the end of the reporting period and related costs, such as loss adjustment expenses, loss of suit, among others. The reserve is adjusted for inflation and includes all claims under litigation; and
  
- Other technical reserves (OTP) comprise the amounts required by Susep Circular Letter 462/13.
  
- Capitalization bonds:
  - The mathematical reserve for capitalization bond (PMC) is recorded for each active or suspended capitalization bond during the estimated term set forth in the general conditions of the plan, and is calculated according to the methodology set forth in the actuarial technical notes;
  
  - The reserve for redemption (PR) is recorded from capitalization bonds overdue or not yet due where early redemption has been requested by the customer. Reserves are adjusted for inflation based on the indexes provided in each plan;
  
  - The reserve for draws not yet taken place (PSR) and the reserve for draws payable (PSP) are recorded to cover premiums for future draws (not yet taken place) and also for prize money from draws where customers have already been chosen (payable);
  
  - The complementary draw reserve (PCS) is recorded to cover possible insufficiency for payment of draw premiums; and
  
  - The reserve for administrative expense (PDA) is recorded to cover the plan's expenses with placement and disclosure, brokerage and others, and complies with the methodology established in actuarial technical note.

Technical reserves are shown by account, product and segment, as well as amounts and details of plan assets covering these technical reserves, and are shown in Note 21.

***Notes to the Consolidated Financial Statements***

**p) Provisions, contingent assets and liabilities and legal obligations - tax and social security**

Provisions, contingent assets and liabilities, and legal obligations, as defined below, are recognized, measured and disclosed in accordance with the criteria set out in CPC 25, approved by CMN Resolution 3823/09 and CVM Resolution 594/09:

- Contingent assets: these are not recognized in the financial statements, except when Management has control over the situation or when there are real guarantees or favorable judicial decisions, to which no further appeals are applicable, classifying the gain as practically certain by confirming the expectation of receipt or compensation against another liability. Contingent assets with a chance of probable success are disclosed in the notes to the financial statements;
- Provisions: these are recorded taking into consideration the opinion of legal counsel, the nature of the lawsuits, similarity with previous lawsuits, complexity and positioning of the courts, whenever the loss is deemed probable which would cause a probable outflow of funds to settle the obligation and when amounts can be reliably measured;
- Contingent liabilities: according to CPC 25, the term "contingent" is used for liabilities that are not recognized because their existence will only be confirmed by the occurrence of one or more uncertain future events beyond Management's control. Contingent liabilities considered as possible losses should only be disclosed in the notes when relevant. Obligations deemed remote are not recorded as a provision nor disclosed; and
- Legal obligations - provision for tax risks: results from judicial proceedings, being contested on the grounds of legality or constitutionality, which, regardless of the assessment of the probability of success, are fully recognized in the financial statements.

Details on lawsuits, as well as segregation and changes in amounts recorded, by type, are presented in Note 18.

**q) Funding expenses**

Expenses related to funding transactions involving the issuance of securities are recognized in the profit or loss over the term of the transaction and reduces the corresponding liability. They are presented in Notes 16c and 19.

**r) Other assets and liabilities**

Assets are stated at their realizable amounts, including, when applicable, related income and monetary and exchange variations (on a daily prorated basis), less provision for losses, when deemed appropriate. Liabilities include known or measurable amounts, including related charges and monetary and exchange variations (on a daily prorated basis).

**s) Subsequent events**

These refer to events occurring from the end of the reporting period to the date they are authorized to be issued.

They comprise the following:

- Events resulting in adjustments: events relating to conditions already existing at the end of the reporting period; and
- Events not resulting in adjustments: events relating to conditions not existing at the end of the reporting period.

(1) Consistent with the criterion adopted by Bacen Circular Letter 3068/01 and due to the characteristics of the securities, we are considering the derivative financial instruments, except those considered as cash flow hedges under the category Trading Securities;

(2) These refer to investment fund resources and managed portfolios applied on purchase and sale commitments with Bradesco, whose owners are consolidated subsidiaries, included in the consolidated financial statements;

(3) The investment fund quotas were distributed according to the instruments composing their portfolios and maintaining the fund category classification;

(4) In compliance with Article 8 of Bacen Circular Letter 3068/01, Bradesco declares that it has financial capacity and intention to maintain held-to-maturity securities up to their maturity dates. This financial capacity is proven in Note 32a, which presents the maturity of asset and liability operations;

(5) The number of days to maturity was based on the maturity of the instruments, regardless of their accounting classification;

(6) This column reflects book value after mark-to-market in accordance with item (7), except for held-to-maturity instruments, whose market value is higher than the original amortized cost for the amount of R\$1,834,739 thousand (R\$2,418,145 thousand on March 31, 2013 and R\$2,221,338 thousand on June 30, 2012);

(7) The market value of securities is determined based on the market price available at the end of the reporting period. If no market price quotation is available at the end of the reporting period, amounts are estimated based on the prices quoted by dealers, pricing models, quotation models or price quotations for instruments with similar characteristics; for investment funds, the original amortized cost reflects the market value of the respective quotas; and

(8) In the first half of 2013 and 2012, other than temporary impairments were not realized for available-for-sale securities.

## ***Notes to the Consolidated Financial Statements***

### **e) Derivative financial instruments**

Bradesco carries out transactions involving derivative financial instruments, which are recorded in the statement of financial position or in memorandum accounts, to meet its own needs in managing its global exposure, as well as to meet its customer's requests, in order to manage their exposure. These operations involve a series of derivatives, including interest rate swaps, currency swaps, futures and options. Bradesco's risk management policy is based on the utilization of derivative financial instruments mainly to mitigate the risks from operations carried out by the Bank and its subsidiaries.

Securities classified as trading and available-for-sale, as well as derivative financial instruments, are recognized in the consolidated statement of financial position at their estimated fair value. Fair value is generally based on quoted market prices or quotations for assets or liabilities with similar characteristics. Should market prices not be available, fair values are based on dealer quotations, pricing models, discounted cash flows or similar techniques for which the determination of fair value may require judgment or significant estimates by the Management.

Quoted market prices are used to determine the fair value of derivative financial instruments. The fair value of swaps is determined by using discounted cash flow modeling techniques that use yield curves, reflecting adequate risk factors. The information to build yield curves is mainly obtained from the Securities, Commodities and Futures Exchange (BM&FBOVESPA) and the domestic and international secondary market. These yield curves are used to determine the fair value of currency swaps, interest rate and other risk factors swaps. The fair value of forward and futures contracts is also determined based on market price quotations for derivatives traded at the stock exchange or using methodologies similar to those outlined for swaps. The fair values of loan derivative instruments are determined based on market price quotation or from specialized entities. The fair value of options is determined based on mathematical models, such as Black & Scholes, using yield curves, implied volatilities and the fair value of corresponding assets. Current market prices are used to calculate volatility.

Derivative financial instruments in Brazil mainly refer to swap and futures operations and are registered at the OTC Clearing House (Cetip) and BM&FBOVESPA.

Operations involving forward contracts of indexes and currencies are contracted by Management to hedge Bradesco's overall exposures and to meet customer needs.

Foreign derivative financial instruments refer to swap, forward, options, credit and futures operations and are mainly carried out at the stock exchanges of Chicago and New York, as well as the over-the-counter markets.

## Financial Statements, Independent Auditors' Report, Summary of the Audit Committee's Report and Fiscal Council's Report

**Notes to the Consolidated Financial Statements****f) Credit Default Swaps (CDS)**

In general, these represent bilateral agreements in which one of the parties purchases protection against the credit risk of a certain financial instrument (the risk is transferred). The selling counterparty receives remuneration that is usually paid linearly over the term of the agreement.

In the case of a default, the purchasing counterparty will receive a payment to offset the loss incurred on the financial instrument. In this case, the selling counterparty usually receives the underlying asset of the agreement in exchange for the payment.

Bradesco carried out operations involving credit derivatives to better manage its risk exposure and its assets. Contracts related to credit derivatives operations described above had their maturities up to June 30, 2013. The mark-to-market rates to protect counterparty risk through remuneration totaled R\$(1,018) thousand on March 31, 2013 and R\$505 thousand on June 30, 2012). There were no events to trigger defaults within the contracts during the period.

## Financial Statements, Independent Auditors' Report, Summary of the Audit Committee's Report and Fiscal Council's Report

**Notes to the Consolidated Financial Statements****g) Cash flow hedge**

Bradesco uses cash flow hedges to protect its cash flows from payment of interest rates on funds indexed to Bank Deposit Certificates (CDB), related to variable interest rate risk of Interbank Deposit Rate (DI Cetip), thus registering fixed cash flows.

Bradesco has traded DI Future contracts at BM&FBOVESPA since 2009, using them as cash flow hedges for funding linked to DI. The following table presents the DI Future position, where:

	2013		R\$ thousand 2012
	June 30	March 31	June 30

The Bradesco Organization's premises and equipment shows an unrecorded surplus of R\$5,266,042 thousand (R\$3,740,214 thousand on March 31, 2013 and R\$3,029,696 thousand on June 30, 2012). This is due to an increase in their market price, based on valuations by independent experts in 2013, 2012 and 2011.

The total consolidated fixed assets to net worth ratio is 17.3% (16.5% on March 31, 2013 and 18.2% on June 30, 2012), and the consolidated finance fixed assets to net worth ratio is 44.3% (43.7% on March 31, 2013 and 43.5% on June 30, 2012), whereas the maximum limit is 50%.

The difference between the total consolidated and consolidated finance fixed assets to net worth ratios is due to non-financial subsidiaries which have high liquidity and low fixed assets to net worth ratio, with the consequent increase in the consolidated finance fixed assets to net worth ratio. Whenever necessary, we may reallocate funds to the financial companies through the payment of dividends/interest on shareholders' equity to financial companies or a corporate restructuring between the financial and non-financial companies, thus improving the ratio.

**Notes to the Consolidated Financial Statements**

d) Since 2003, Bradesco has used certain agreements to optimize its funding and liquidity management activities by using SPEs - Special Purpose Entities. An SPE, also known as a Diversified Payment Rights Company outside Brazil, is financed with long-term debt and settled through future cash flows from underlying assets which basically include flows from current payment orders and future remittances made by individuals and companies located abroad to beneficiaries in Brazil for which the Bank acts as a paying agent.

Long-term securities issued by the SPE and sold to investors are settled with proceeds from the payment order flows. Bradesco is obliged to redeem these securities in specific cases of delinquency or if the SPE discontinues operations.

Funds from the sale of current and future payment order flows, received by the SPE, must be maintained in a specific bank account until a minimum amount has been reached.

#### **18) PROVISIONS, CONTINGENT ASSETS AND LIABILITIES AND LEGAL LIABILITIES - TAX AND SOCIAL SECURITY**

##### **a) Contingent assets**

Contingent assets are not recognized in the financial statements, however, there are ongoing proceedings where the chance of success is considered probable, such as: a) Social Integration Program (PIS), claiming to offset PIS against Gross Operating Income, paid under Decree-Laws 2445/88 and 2449/88, regarding the payment that exceeded the amount due under Supplementary Law 07/70 (PIS Repique); and b) other taxes, the legality and/or constitutionality of which is being challenged, where the decision may lead to reimbursement of amounts paid.

##### **b) Provisions classified as probable losses and legal obligations - tax and social security**

Bradesco Organization is a party to a number of labor, civil and tax lawsuits, arising from the normal course of business.

Management recorded provisions based on their opinion and of their legal counsel, the nature of the lawsuit, similarity to previous lawsuits, complexity and the courts standing, where the loss is deemed probable.

Management considers that the provision is sufficient to cover losses generated by the respective lawsuits.

Liability related to litigation is held until the conclusion to the lawsuit, represented by judicial decisions, with no further appeals or due to the statute of limitation.

## ***Notes to the Consolidated Financial Statements***

### **I - Labor claims**

These are claims brought by former employees and outsourced employees seeking indemnifications, especially for unpaid overtime, according to Article 224 of the Consolidation of Labor Laws (CLT). In proceedings in which a judicial deposit is used to guarantee the execution of the judgment, the labor provision is made considering the estimated loss of these deposits. For other proceedings, the provision is based on the average of payments made for claims settled over the last 12 months.

Overtime is monitored by using electronic time cards and paid regularly during the employment contract and, accordingly, the claims filed by former employees do not represent significant amounts.

### **II - Civil claims**

These are claims for pain and suffering and property damages, mainly relating to protests, returned checks, the inclusion of information about debtors in the credit restriction registry and the replacement of inflation adjustments excluded as a result of government economic plans. These lawsuits are individually controlled using a computer-based system and provisioned whenever the loss is deemed as probable, considering the opinion of Management and their legal counsel, the nature of the lawsuits, and similarity with previous lawsuits, complexity and positioning of the courts.

Most of these lawsuits are brought to the Special Civil Court (JEC), in which the claims are limited to 40 times the minimum wage and do not cause significant impact on Bradesco Organization's financial position.

Note that a significant number of legal claims pleading the incidence of inflation rates, which were excluded from inflation adjustments on savings account balances due to economic plans, were part of federal government's economic policy to reduce inflation. Although the Bank complied with the legal requirements in force at the time, these lawsuits have been recorded as provisions, taking into consideration claims effectively notified and the evaluation of the perspective of the loss, considering the current judicial decision of the Superior Court of Justice (STJ).

Two points are worth noting regarding disputes relating to economic plans: a) the Bank does not expect any significant provisions to be recorded in excess of what has been provided for, as legal new claims cannot be made; and b) the Federal Supreme Court (STF) suspended the analysis of all appeals up until a final decision issued by the court.

### **III - Legal obligations - provision for tax risks**

The Bradesco Organization is disputing the legality and constitutionality of certain taxes and contributions in court, for which provisions have been recorded in full, although there is good chance of a favorable outcome in the medium to long term, based on the opinion of Management and their legal counsel. The processing of these legal obligations whose risk is deemed as probable is regularly monitored in the legal court. During or after the conclusion of each case, a favorable outcome may arise for the Organization, resulting in the reversal of the related provisions.

**Notes to the Consolidated Financial Statements**

The main cases are:

- Cofins - R\$9,993,073 thousand (R\$9,605,570 thousand on March 31, 2013 and R\$8,082,808 thousand on June 30, 2012): a request for authorization to calculate and pay Cofins based on effective income, as set forth in Article 2 of Supplementary Law 70/91, removing the unconstitutional increase in the calculation for other revenues other than income;
- INSS Autonomous Brokers - R\$1,221,705 thousand (R\$1,181,038 thousand on March 31, 2013 and R\$1,065,260 thousand on June 30, 2012): we are requesting the impact of social security contribution on remunerations paid to third-party service providers, established by Supplementary Law 84/96 and subsequent regulations/amendments, at the 20% rate and additionally 2.5%, on the grounds that services are not provided to insurance companies but to policyholders, thus being outside the incidence of the contribution provided for in item I, Article 22, of Law 8212/91, as new wording in Law 9876/99;
- IRPJ/Loan Losses - R\$1,713,111 thousand (R\$1,689,868 thousand on March 31, 2013 and R\$1,268,824 thousand on June 30, 2012): we are requesting to deduct from income tax and social contributions payable (IRPJ and CSLL, respectively) amounts of actual and definite loan losses related to unconditional discounts granted upon receipt of claims incurred, regardless if they comply with the terms and conditions provided for in Articles 9 to 14 of Law 9430/96 that only apply to temporary losses;
- CSLL - Deductibility on IRPJ calculation basis - R\$867,168 thousand (R\$857,345 thousand on March 31, 2013 and R\$651,997 thousand on June 30, 2012): we are requesting to calculate and pay income tax calculated and paid for 1997 and subsequent years, excluding CSLL in the calculation, under Article 1, of Law 9316/96, since this contribution represents an effective, necessary and mandatory expense to the Company; and
- PIS - R\$305,648 thousand (R\$303,806 thousand on March 31, 2013 and R\$298,206 thousand on June 30, 2012): we are requesting the authorization to offset overpaid amounts in 1994 and 1995 as PIS contribution, corresponding to the surplus on the calculation established in the Constitution, i.e., gross operating income, as defined in the income tax legislation - set out in Article 44 of Law 4506/64, excluding interest income.

### c) Contingent liabilities classified as possible losses

The Bradesco Organization maintains a system to monitor all administrative and judicial proceedings in which the institution is plaintiff or defendant and, based on the opinion of legal counsel, classifies the lawsuits according to the expectation of loss. Case law trends are periodically analyzed and, if necessary, the related risk is reclassified. In this respect, contingent lawsuits deemed with the risk of a possible loss are not recorded as a liability in the financial statements. The main lawsuits classified as such are the following: a) leasing companies' Tax on Services of any Nature (ISSQN), total lawsuits correspond to R\$1,151,684 thousand (R\$1,134,548 thousand on March 31, 2013 and R\$1,092,677 thousand on June 30, 2012) which relates to the municipal tax demands other than those where the company is not located and where, under law, tax is collected; b) 2006-2010 income tax and social contribution, relating to goodwill amortization being disallowed on the acquisition of investments, for the amount of R\$838,399 thousand (R\$813,533 thousand on March 31, 2013 and R\$704,487 thousand on June 30, 2012); c) IRPJ and CSLL deficiency notice relating to disallowance of loan loss expenses, for the amount of R\$482,515 thousand (R\$475,693 thousand on March 31, 2013 and R\$291,739 thousand on June 30, 2012); d) IRPJ and CSLL deficiency note relating to disallowance of exclusions of revenues from mark-to-market securities in 2007, amounting to R\$229,556 thousand (R\$227,783 thousand on March 31, 2013); and e) IRPJ, CSLL, PIS and COFINS deficiency note, amounting to R\$334,433 thousand on alleged tax-exempt gain, when Bovespa shares were merged into *Nova Bolsa* (BM&FBovespa), in 2008.

### **Notes to the Consolidated Financial Statements**

The Special Shareholders' Meeting held on March 11, 2013 deliberated on the capital increase of R\$8,000,000 thousand, from R\$30,100,000 thousand to R\$38,100,000 thousand, through the capitalization of a portion of the "Profit Reserves – Statutory Reserve" account, in compliance with Article 169 of Law 6404/76, with a 10% stock bonus, through the issue of 382,479,458 new no-par registered, book-entry shares, of which 191,239,739 are common shares and 191,239,719 are preferred shares, paid free of charge to shareholders as bonus, at the proportion of one (1) new share for every ten (10) new shares of the same type they hold, benefiting Bradesco's shareholders of record as at March 25, 2013.

Simultaneously to the operation in the Brazilian Market and at the same proportion, the ADRs – American Depositary Receipts at the U.S. Market (NYSE) and GDRs – Global Depositary Receipts at the European Market (Latibex) were granted bonus, and shareholders received one (1) new DR for every ten (10) DRs they held as at March 28, 2013.

#### **c) Interest on shareholders' equity/dividends**

Preferred shares have no voting rights, but are entitled to all other rights and advantages given to common shares and, in compliance with Bradesco's Bylaws, have priority for repayment of capital and an additional ten percent (10%) interest on shareholders' equity and/or dividends, in accordance with the provisions of Paragraph 1, item II, of Article 17 of Law 6404/76, amended by Law 10303/01.

According to Bradesco's Bylaws, shareholders are entitled to interest on shareholders' equity and/or dividends amounting to at least 30% of the net income for the year, adjusted in accordance with Brazilian Corporate Law.

Interest on shareholders' equity is calculated based on the shareholders' equity limited to the variation in the Federal Government Long-Term Interest Rates (TJLP), subject to available profits before deductions, or transfer to retained earnings or profit reserves for the amounts equivalent or greater than twice its value.

Bradesco's capital remuneration policy aims to distribute interest on shareholders' equity at the maximum amount calculated under current legislation, and this is included, net of Withholding Income Tax, in the calculation for mandatory dividends for the year under the Company's Bylaws.

The Board of Directors' Meeting held on June 20, 2012 approved the Board of Executive Officers' proposal to pay Company's shareholders monthly interest on shareholders' equity, replacing monthly dividends. Shareholders now receive R\$0.018817992 (net of 15% withholding income tax - R\$0.015995293) per common share and R\$0.020699791 (net of 15% withholding income tax - R\$0.017594822) per preferred share, in effect from July 2012, to be paid as of August 1, 2012.

The Board of Directors' meeting held on June 27, 2012 approved the Board of Executive Officers' proposal to pay shareholders interim interest on shareholders' equity for the first half of 2012, for the amount of R\$754,300 thousand, at R\$0.188184678 (net of 15% withholding income tax - R\$0.159956976) per common share and R\$0.207003146 (net of 15% withholding income tax - R\$0.175952674) per preferred share, which was paid on July 18, 2012.

The Board of Directors' Meeting held on December 21, 2012 approved the Board of Executive Officers' proposal to pay shareholders supplementary interest on shareholders' equity for 2012, for the amount of R\$2,054,400 thousand, at R\$0.512557736 (net of 15% withholding income tax - R\$0.435674076) per common share and R\$0.563813510 (net of 15% withholding income tax - R\$0.479241484) per preferred share, which was paid on March 7, 2013.

**b) Compensation for key Management personnel**

Each year, the Annual Shareholders' Meeting approves:

- The annual overall amount of management compensation, set forth at the Board of Directors Meetings, to be paid to board members and members of the Board of Executive Officers, as determined by the Company's Bylaws, and
- The amount allocated to finance Management pension plans, within the Employee and Management pension plan of the Bradesco Organization.

For 2013, the maximum amount of R\$329,600 thousand was set for Management compensation and R\$325,600 thousand to finance defined contribution pension plans.

The current policy on Management compensation sets forth that 50% of net variable compensation, if any, must be allocated to the acquisition of preferred shares of Banco Bradesco S.A., which must be traded in three equal, annual and successive installments, the first of which maturing in the year following the payment date. This procedure complies with CMN Resolution 3921/10, that sets forth a management compensation policy for financial institutions

Bradesco does not offer long-term benefits related to severance pay or share-based compensation, pursuant to CPC 10 – Share-Based Payment, approved by CMN Resolution 3989/11, to its key Management personnel.

**Other information****l) Under current law, financial institutions are not allowed to grant loans or advances to:**

- a) Officers and members of the advisory, administrative, fiscal or similar councils, as well as to their respective spouses and family members up to the second degree;
- b) Individuals or corporations that own more than 10% of their capital; and
- c) Corporations of which the financial institution itself, any officers or administrators of the institution, as well as their spouses and respective family members up to the second degree own more than 10%.

Therefore, no loans or advances are granted by financial institutions to any subsidiary, members of the Board of Directors or Board of Executive Officers and their relatives.

(1) On June 30, 2013, direct and indirect shareholding of the members of Bradesco's Board of Directors and Board of Executive Officers amounted to 3.15% of common shares, 1.05% of preferred shares and 2.10% of all shares.

## **32) FINANCIAL INSTRUMENTS**

### **a) Risk management**

Risk management is highly strategic due to the increasing complexity of services and products and the globalization of the Organization's business. The dynamic markets lead Bradesco to an ongoing improvement of this activity in the pursuit of best practices. For that reason, Bradesco was authorized by Bacen to use its internal market risk models, which were already in force, to calculate regulatory capital as of January 2013.

The Organization controls risk management in an integrated and independent manner, preserving and valuing the Board's decisions, developing and implementing methodologies, models, and measurement and control tools. It also provides training to employees from all Organization levels, from the business areas to the Board of Directors.

The management process allows the risks to be proactively identified, measured, mitigated, monitored and reported, which is necessary in view of the Organization's complex financial products and activity profile.

**Credit risk management**

Credit risk refers to the possibility of losses associated to the non-compliance by the borrower or counterparty for their respective financial obligations under agreed terms, as well as to the reduction of the value of a loan agreement resulting from a deterioration of the borrower's risk rating, reduced earnings or remuneration, the advantages in renegotiation, recovery costs and other values related to the counterparty's non-compliance with its financial obligations.

Credit risk management in the Organization is a continuous and evolving process of mapping, development, assessment and diagnosis through the use of models, instruments and procedures that require a high degree of discipline and control during the analysis of operations to preserve the integrity and autonomy of the processes.

The Organization carefully controls its exposure to credit risk, which mainly results from loans, securities and derivative financial instruments. Credit risk also stems from financial obligations related to loan commitments or financial guarantees.

***Notes to the Consolidated Financial Statements***

**Market risk management**

Market risk is represented by the possibility of financial losses due to fluctuating prices and interest rates of the Organization's financial assets as its asset and liability operations may have mismatched maturities, currencies and indexes.

Market risk is carefully identified, measured, mitigated, controlled and reported. The Organization has a conservative exposure profile to market risk, with the guidelines and limits monitored independently on a daily basis.

Market risk is controlled for all of the Organization's companies in a corporate and centralized manner. All operations exposing the Organization to market risk are mapped, measured and classified by probability and importance, and the whole process is approved by the corporate governance structure.

## **Sensitivity analysis**

The Trading Portfolio is also monitored daily by sensitivity analyses that measure the effect of movements of market and price curves on our positions. Furthermore, a sensitivity analysis of the Organization's financial exposures (Trading and Banking Portfolio) is performed on a quarterly basis, in compliance with CVM Rule 475/08.

Note that the impact of the financial exposure on the Banking Portfolio (notably interest rates and price indexes) do not necessarily represent a potential accounting loss for the Organization because a portion of loans held in the Banking Portfolio are financed by demand and/or savings deposits, which are "natural hedges" for future variations in interest rates, moreover, interest rate variations do not represent a material impact on the Institution's result, as Loans are held to maturity. Also, due to our strong presence in the insurance and pension plan market, most of the assets are adjusted for price indexes, linked to the corresponding technical reserves.

## Financial Statements, Independent Auditors' Report, Summary of the Audit Committee's Report and Fiscal Council's Report

**Notes to the Consolidated Financial Statements**

The sensitivity analysis of the Trading Portfolio, which represents exposures that may have a material impact on the Organization's results, is presented below. Note that results show the impact for each scenario on a static portfolio position. The market dynamism results in continuous changes in these positions and does not necessarily reflect the current position. Moreover, as previously mentioned, the Organization has an ongoing process of market risk management, which constantly looks for market dynamism to mitigate related risks according to the strategy determined by Senior Management. Therefore, in cases of deterioration indicators in a certain position, proactive measures are taken to minimize any potential negative impact, aimed at maximizing the risk/return ratio for the Organization.

Report on Economic and Financial Analysis – June 2013

---

Financial Statements, Independent Auditors' Report, Summary of the Audit Committee's Report and Fiscal Council's Report

### ***Notes to the Consolidated Financial Statements***

Sensitivity analyses were carried out based on scenarios prepared for the respective dates, always considering market data at the time and scenarios that would adversely affect our positions, according to the examples below:

**Scenario 1:** Based on market information (BM&FBOVESPA, Anbima, etc.), stresses were applied for 1 basis point on the interest rate and 1% variation on prices. For example, in the scenario applied to positions on June 28, 2013, the Real/Dollar exchange rate was R\$2.25. The rate applied on the positions on June 28, 2013 was 9.42% p.a. for the 1-year fixed interest rate scenario,

**Scenario 2:** 25% stresses were determined based on market information. For instance, in the scenario applied to positions on June 28, 2013, the Real/Dollar exchange rate was R\$2.79. For the interest rate scenario, the 1-year fixed interest rate applied to positions on June 28, 2013 was 11.76% p.a. Scenarios for other risk factors also represented a 25% stress on the respective curves or prices, and

**Scenario 3:** 50% stresses were determined based on market information. For instance, in the scenario applied to positions on June 28, 2013, the Real/Dollar exchange rate was R\$3.34. For the interest rate scenario, the 1-year fixed interest rate applied to positions on June 28, 2013 was 14.12% p.a. Scenarios for other risk factors also represented a 50% stress on the respective curves or prices.

### **Liquidity Risk**

Liquidity Risk is represented by the possibility of the institution not being able to efficiently meet its obligations, without affecting its daily operations and incurring significant losses, as well as the possibility of the institution not being able to trade a position at market price due to its high amount when compared to the usually traded volume or due to some market discontinuation.

One of the objectives of the Organization's Policy on Market and Liquidity Risk Management, approved by the Board of Directors, is to lay down the rules, criteria and procedures that guarantee the establishment of the Minimum Liquidity Reserve (RML) for the Organization, as well as the strategy and action plans for liquidity crisis situations. As part of the criteria and procedures approved, the Organization also establishes a minimum liquidity reserve to be recorded daily and the types of assets eligible for making up the resources available. Moreover, instruments for managing liquidity in a normal scenario and in a crisis scenario and the strategies to be implemented in each case are established.

The liquidity risk is managed in a corporate and centralized manner, by daily monitoring of the composition of available resources, compliance with the minimum level of liquidity and contingency plans for stress situations.

## ***Notes to the Consolidated Financial Statements***

### **Operational Risk**

Operational risk is represented by losses from internal processes, personnel and inadequate systems or failures and external events. This definition includes legal risk, but excludes Strategy and Reputation Risk.

Operational risk management is essential to generate added value. Risk is controlled centrally through identification, measurement, mitigation plans and monitoring, on a consolidated basis and for each of the Organization's companies.

Among plans to mitigate operational risk, the most important is business continuity management, which consists of formal plans to be adopted during moments of crisis to guarantee the recovery and continuation of business as well as preventing loss.

### **Capital Management**

The capital management process is performed to provide the conditions necessary to meet the Organization's strategic objectives, considering the economic and commercial environment in which it operates. This process is compatible with the nature of operations, complexity of service and products and extent of the Organization's exposure to risks.

Under Bacen regulations, financial institutions are required to permanently maintain capital (Reference Shareholders' Equity) consistent with the risks of their activities, represented by Required Reference Shareholders' Equity (PRE). The PRE calculation considers, at least, the sum of credit risk, market risk and operating risk.

Adjusting to Reference Shareholders' Equity is done daily and aims to ensure that the Organization has a solid capital base to support development of activities and cope with risk, either in normal or in extreme market conditions, as well as meeting capital regulatory requirements.

### ***Notes to the Consolidated Financial Statements***

#### **Determination of the market value of financial instruments:**

- Securities and derivative financial instruments, investments, subordinated debts and treasury shares are based on the market price at the reporting date. If no quoted market price is available, estimate amounts are based on the dealer quotations, pricing models, quotation models or quotations for instruments with similar characteristics;
- Fixed rate loans were determined by discounting estimated cash flows, using interest rates applied by the Bradesco Organization for new contracts with similar features. These rates are consistent with the market at the reporting date; and
- Time deposits, funds from issuance of securities, borrowing and onlending were calculated by discounting the difference between the cash flows under the contract terms and our market rates for the same product at the reporting date.

#### **34) EMPLOYEE BENEFITS**

Bradesco and its subsidiaries sponsor a unrestricted benefit pension plan (PGBL) for employees and directors which is a private defined contribution pension plan that allows financial resources to be accumulated by participants throughout their careers by means of employee and employer contributions and invested in an Exclusive Investment Fund (FIE).

The PGBL is managed by Bradesco Vida e Previdência S.A. and BRAM - Bradesco Asset Management S.A. The Securities Dealer Company (DTVM) is responsible for the financial management of FIES.

Contributions made by employees and directors of Bradesco and its subsidiaries are for the equivalent of at least 4% of their salary, except for participants who chose to migrate from the defined benefit plan to a defined contribution plan (PGBL) in 2001, whose contributions to the PGBL were maintained at the levels that prevailed for the defined benefit plan when they migrated, always respecting the 4% minimum.

Actuarial obligations of the defined contribution plan (PGBL) are fully covered by the plan assets of the corresponding FIES.

In addition to the aforementioned plan (PGBL), participants who chose to migrate from the defined benefit plan are guaranteed a proportional deferred benefit, corresponding to their accumulated rights in the plan. For participants of the defined benefit plan, whether they migrated to the PGBL plan or not, for retirees and pensioners, the present value of the actuarial plan obligation is fully covered by the plan assets.

Banco Alvorada S.A. (successor from the spin-off of Banco Baneb S.A.) maintains defined contribution and defined benefit retirement plans, through Fundação Baneb de Seguridade Social - Bases (related to the former employees of Baneb).

Banco Bradesco BBI S.A. (formally Banco BEM S.A.) sponsors both defined benefit and defined contribution retirement plans, through Caixa de Assistência e Aposentadoria dos Funcionários do Banco do Estado do Maranhão (Capof).

Alvorada Cartões, Crédito, Financiamento e Investimento S.A. (Alvorada CCFI) (merging company of Banco BEC S.A.) sponsors a defined benefit plan through Caixa de Previdência Privada do Banco do Estado do Ceará (Cabec).

The assets of pension plans are invested in compliance with the applicable legislation (government securities and private securities, listed company shares and real estate properties).

## Financial Statements, Independent Auditors' Report, Summary of the Audit Committee's Report and Fiscal Council's Report

**Notes to the Consolidated Financial Statements**

On December 31, 2012, according to CPC 33 – Employee Benefit, as approved by CVM Resolution 600/09, Bradesco and its subsidiaries, as sponsors of these plans, taking into consideration the economic and actuarial study, recalculated their actuarial commitments using a real interest rate that reflects the new real interest rate scenario, recognizing their obligations in the financial statements.

Bradesco's foreign branches and subsidiaries provide their employees and directors with a pension plan in accordance with standards set locally by the authorities accumulating funds throughout the participant's career.

Expenses relating to contributions made in the first half of 2013 totaled R\$307,900 thousand (R\$263,260 thousand in the first half of 2012) and R\$149,857 thousand in the second quarter of 2013 (R\$158,043 thousand in the first quarter of 2013).

In addition to this benefit, Bradesco and its subsidiaries offer their employees and management other benefits including: health insurance, dental care, life and personal accident insurance, as well as professional training, whose expenses, including the aforementioned contributions, amounted to R\$1,350,482 thousand in the first half of 2013 (R\$1,265,043 thousand in the first half of 2012) and R\$680,127 thousand in the second quarter of 2013 (R\$670,355 thousand in the first quarter of 2013).

c) In the second quarter of 2013, Bacen amended and redefined the regulations relating to reserve requirement on short exchange position. It showed the following effects:

<b>Description</b>	<b>Current regulation</b>	<b>Previous regulation</b>
Reserve requirement on short exchange position	The enforcement of the reserve requirement for financial institutions is calculated by applying a 0% rate on amount exceeding US\$3 billion.	The enforcement of the reserve requirement for financial institutions is calculated by applying a 60% rate on amount exceeding US\$3 billion.

d) As part of the convergence process with international accounting standards, the Brazilian Accounting Pronouncements Committee (CPC) issued several accounting pronouncements, as well as their interpretations and guidelines, which are applicable to financial institutions only after approval by CMN.

The accounting standards which have been approved by CMN include the following:

- Resolution 3566/08 - Impairment of Assets (CPC 01);
- Resolution 3604/08 - Statement of Cash Flows (CPC 03);
- Resolution 3750/09 - Related Party Disclosures (CPC 05);

Financial Statements, Independent Auditors' Report, Summary of the Audit Committee's Report and Fiscal Council's Report

***Independent Auditors' Report on the Consolidated Financial Information***

To the Board of Directors and Shareholders

Banco Bradesco S.A.

Osasco – SP

We have audited the accompanying consolidated financial statements of Banco Bradesco S.A. ("Bradesco"), which comprise the consolidated statement of financial position as at June 30, 2013, the consolidated statements of income, changes in equity and cash flows for the semester then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

**Management's Responsibility for the Financial Statements**

Bradesco's Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting practices adopted in Brazil applicable to institutions authorized to operate by the Brazilian Central Bank and for such internal control as management determines is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

**Independent Auditors' responsibility**

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Brazilian and International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making

those risk assessments, we consider internal controls relevant to the Bradesco's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bradesco's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements taken as a whole.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## **Opinion**

In our opinion, the consolidated financial statements, above mentioned, present fairly, in all material respects, the consolidated financial position of Banco Bradesco S.A., as at June 30, 2013, and of its consolidated financial performance and its consolidated cash flows for the semester then ended in accordance with accounting practices adopted in Brazil applicable to institutions authorized to operate by the Brazilian Central Bank.

## **Other matters**

### **Consolidated statement of value added**

We have also audited the consolidated statement of value added (DVA), preparation of which is the responsibility of the Banco Bradesco S.A.'s Management, for the semester ended June 30, 2013, which submission is required by publicly-held companies under the Brazilian Corporate Law. The aforementioned statement was subject to the same auditing procedures described above and, in our opinion, are fairly presented, in all material respects, in relation to the financial statements taken as a whole.

### **Review of corresponding amounts for the first and second quarters of 2013**

The consolidated balance sheet information as of March 31, 2013 and the related consolidated statements of income, cash flows, value added and the statement of changes in shareholders' equity for the first and second quarters of 2013, which are presented herein by the Bradesco's Management as supplemental information, were reviewed by us, on which we issued reports that did not contain any modifications, dated April 19, 2013 with reference to March 31, 2013 and the first quarter of 2013, and July 19, 2013 with

reference to the second quarter of 2013.

Financial Statements, Independent Auditors' Report, Summary of the Audit Committee's Report and Fiscal Council's Report

## **Summary of the Audit Committee's Report**

### **Corporate Governance and Related Responsibilities**

The Board of Directors of Banco Bradesco S.A. opted for a single Audit Committee for all the companies comprising the Financial Conglomerate, including Grupo Bradesco de Seguros e Previdência (Insurance Group).

The Management is in charge of defining and implementing managerial information systems to prepare the financial statements of the companies composing Bradesco Organization, pursuant to the accounting principles adopted in Brazil, applicable to institutions the Brazilian Central Bank (Bacen) authorizes to operate, the rules of the National Monetary Council, the Bacen, the Brazilian Securities and Exchange Commission (CVM), National Private Insurance Board (CNSP), the Insurance Superintendence (Susep) and the National Supplementary Healthcare Agency (ANS).

The Management is also responsible for processes, policies and internal control procedures that ensure the protection of assets, the appropriate recognition of liabilities and the management of risk operations of Bradesco Organization.

The Independent Audit is in charge of examining the financial statements and issuing a report about their compliance with the accounting principles. Additionally, as a result of its works for the purpose of issuing the aforementioned report, it also advises on accounting procedures and internal controls, without prejudice to other reports to be prepared, such as limited reviews of the quarterly information to be delivered to Bacen and CVM.

It is incumbent upon the Internal Audit (General Inspectorate Department) to check the quality of Bradesco Organization's internal control systems and the regularity of policies and procedures

Among the Audit Committee's duties are also those required by the U.S. Sarbanes-Oxley Act for companies registered with the U.S. Securities and Exchange Commission and quoted on the New York Stock Exchange.

The Audit Committee's charter is available on the website [www.bradesco.com.br](http://www.bradesco.com.br) in the Corporate Governance area.

### **Activities in the First Half of 2013**

The Audit Committee attended 99 meetings with business, risk control and management areas, and with internal and independent auditors, checking the information considered relevant or critical through the referencing of different sources.

The Audit Committee's work schedule for 2013 was focused on the main processes and products referring to Bradesco Organization's activities. Among the most relevant aspects, we point out:

- process of preparing and disclosing financial reports to shareholders and external users, which contain accounting and financial information;
- the credit and operating risk management and control systems, preparation for the use of internal models in line with the conditions set forth by the New Basel Capital Accord (Basel II) and Bacen's rules about the issue. With regard to market risk, Bacen approved on November 29, 2012 the use of internal model as of January 1, 2013;
- the improvement of internal controls systems deriving from projects in the IT and Internal Control and Compliance areas.

### **Internal Controls Systems**

established by the Management, including those adopted in the preparation of financial reports.

It is incumbent upon the Audit Committee to assess the quality and the effectiveness of the Internal and Independent Audits, the effectiveness and the sufficiency of Bradesco Organization's internal control systems and to analyze the financial statements, providing the relevant recommendations when applicable.

Based on the work program and agenda established for the first half of 2013, the Audit Committee was informed on the main processes within the Organization, evaluating their quality and management commitment to their continuous improvement.

As a result of meetings with Bradesco Organization's areas, the Audit Committee had the opportunity to suggest manners to improve the processes to the Board of Directors, as well as to monitor the implementation of improvement suggestions identified in the audit process and discussions with business and Internal Control and Compliance areas.

Financial Statements, Independent Auditors' Report, Summary of the Audit Committee's Report and Fiscal Council's Report

### ***Summary of the Audit Committee's Report***

Based on the information and remarks collected, the Audit Committee hereby deems the internal control system of Bradesco Organization as suitable to the size and complexity of its businesses and structured so as to ensure the efficiency of its operations, the financial report-generating systems, as well as compliance with internal and external rules, to which all transactions are subject.

#### **Independent Audit**

The planning of the independent audit for 2013 was discussed with KPMG Auditores Independentes (KPMG) and, throughout the first half of 2013, the audit teams responsible for services presented their results and main conclusions to the Audit Committee.

The material issues pointed out in the report about the study and the evaluation of accounting and internal controls systems, prepared in connection with the examination of the financial statements and respective recommendations for the improvement of these systems, were discussed with the Committee, which requested the monitoring of the implementations and improvements in the areas in charge.

Based on the planning submitted by auditors and on the subsequent discussions about results, the Committee considered that the works developed by the teams were adequate to the Organization's businesses.

#### **Internal Audit**

The Committee requested that the Internal Audit considered several works in line with issues covered by the Committee's agenda in its planning for 2013.

#### **Consolidated Financial Statements**

In the first half of 2013, the Committee held meetings with the General Accounting, Planning, Budget, Control and Internal Audit departments to examine the monthly, quarterly and half-yearly financial statements. These meetings analyzed and assessed the aspects of preparing individual and consolidated trial balances and balance sheets, notes to the financial statements and financial reports published with the consolidated financial statements.

Bradesco's accounting policies were also considered in the preparation of financial statements, as well as compliance with accounting practices adopted in Brazil, applicable to institutions that Bacen authorizes to operate as well as with the applicable laws.

Prior to the disclosures of the Quarterly Financial Information (IFTs) and half-yearly balance sheets, the Committee held meetings with KPMG to assess the aspects of independence of auditors and control environment when producing the figures to be disclosed.

Based on aforementioned reviews and discussions, the Audit Committee recommends that the Board of Directors approves the audited financial statements for the half-year ended June 30, 2013.

**CARLOS ALBERTO RODRIGUES GUILHERME**  
(Coordinator)

Throughout the first half of 2013, the teams in charge of executing planned works reported and discussed with the Audit Committee the main conclusions on process and inherent risks.

**JOSÉ LUCAS FERREIRA DE MELO**  
**ROMULO NAGIB LASMAR**  
**OSVALDO WATANABE**

Based on discussions regarding the planning of the Internal Audit, focused on risks, processes and the evaluation of the results thereof, the Audit Committee found that the Internal Audit had adequately met the demands of the Committee and the needs and requirements of the Organization and regulatory bodies.
