In 1Q15, net operating revenue, including construction revenue, reached R\$ 2.5 billion; an 11.6% decrease compared to 1Q14.

Costs and expenses, including construction costs, totaled R\$ 1.4 billion, down by 32.9% compared to R\$ 2.0 billion recorded in 1Q14. Excluding the R\$ 696.3 million reimbursement from the São Paulo state government, costs and expenses increased R\$ 25.8 million or 1.3%.

Adjusted EBIT, in the amount of R\$ 1.1 billion, grew 46.1% from R\$ 755.6 million recorded in the same quarter of the previous year.

Adjusted EBITDA, in the amount of R\$ 1.4 billion, increased 33.6% from R\$ 1.0 billion recorded in 1Q14.

The adjusted EBITDA margin was 55.0% in 1Q15, versus 36.4% in 1Q14. Excluding construction revenues and construction costs, the adjusted EBITDA margin was 71.6% in 1Q15 (44.5% in 1Q14).

Net income totaled R\$ 318.2 million, 33.4% lower than R\$ 477.6 million recorded in 1Q14.

2. Gross operating revenue

Gross operating revenue from water and sewage, not including construction revenue, totaled R\$ 2.0 billion, a drop of R\$ 440.0 million or 18.0%, when compared to the R\$ 2.4 billion recorded in 1Q14.

The main factors that led to this variation were:

- Bonus granted within the Water Consumption Reduction Incentive Program, with a R\$ 211.2 million impact in 1Q15, versus the R\$ 10.7 million recorded in 1Q14; and
- Decrease of 11.7% in the Company's total billed volume (13.2% in water and 9.7% in sewage).

The decline in gross operating revenue was mitigated by the application of the 6.5% tariff increase since December 2014 and the effect of the contingency tariff, totaling R\$ 79.3 million.

3. Construction revenue

Construction revenue increased R\$ 57.2 million or 10.8%, when compared to 1Q14. The variation was mainly due to higher investments in 1Q15.

5. Costs, administrative and selling expenses

In 1Q15, costs, administrative and selling expenses, dropped 32.9% (R\$ 670.5 million). Excluding construction costs, total costs and expenses dropped 47.9%. As a percentage of net revenue, cost and expenses was 55.3% in 1Q15 and 72.9% in 1Q14.

The R\$ 670.5 million decline in costs and expenses and their reduced share in net revenue were mainly caused by the São Paulo state government reimbursement.

5.1. Payroll and benefits

In 1Q15 payroll and benefits grew R\$ 37.8 million or 7.6%, due to the following:

- R\$ 19.8 million increase due to the 6.8% increase in average wages since May 2014 and the changes from the career and wage plan;

- R\$ 8.8 million upturn in the provision for the Pension Plan, arising from changes in actuarial assumptions;
- R\$ 4.9 million increase in overtime pay, mainly due to wage adjustment in the period, and the higher number of hours worked, as a result of the management and intensification of water systems maintenance; and
- R\$ 2.1 million, due to the 7.1% adjustment in healthcare expenses since July 2014.

5.2. Treatment supplies

In 1Q15, expenses with treatment supplies increased R\$ 2.6 million or 3.7%, from R\$ 69.7 million to R\$ 72.3 million, chiefly due to the beginning of the use of products that reduce the algae bloom in the São Paulo Metropolitan Region's water sources since April 2014, with a R\$ 3.2 million impact.

5.3. Services

Services expenses, in the amount of R\$ 295.9 million, dropped R\$ 18.8 million or 6.0%, in comparison to the R\$ 314.7 million in 1Q14. The main factors were:

- Lower estimate of service expenses, totaling R\$ 22.2 million, especially due to the recognition, in 1Q14, of expenses with legal services related to the agreement for the resumption of operations in the city of Diadema; and
- R\$ 7.0 million decrease in advertising campaigns.

On the other hand, the following increases occurred:

- Hiring of services in the amount of R\$ 7.4 million, mainly due to the beginning of operations in the municipality of Diadema, in March of 2014, in the amount of R\$ 6.4 million; and
- Maintenance of domestic sewage connections in several areas of the São Paulo metropolitan region, totaling R\$ 4.7 million.

Comments on the Company's Performance

5.4. Electric power

Electric power expenses totaled R\$ 159.1 million, an increase of R\$ 19.1 million or 13.6% in comparison to the R\$ 140.0 million in 1Q14, chiefly due to the average increase of 11.7% in free market tariffs and of 31.6% in regulated market tariffs.

These increases were partially offset by the average decrease of 13.3% of the Company's total electric power consumption in 1Q15.

5.5. General expenses

General expenses dropped R\$ 98.3 million or 64.4%, totaling R\$ 54.4 million, versus the R\$ 152.7 million recorded in 1Q14 mainly due to:

- R\$ 77.4 million decrease in the provision for lawsuits; and
- Lower provision for the Municipal Fund for Environmental Sanitation and Infrastructure, in the amount of R\$ 22.6 million, as a result of the decrease in revenues with the municipality of São Paulo.

5.6. São Paulo state government reimbursement

In 1Q15, the Company entered into an agreement with the São Paulo state government to receive the undisputed amount, related to the state's debt with the Company, for the payment of the benefits to former employees (GO) dealt with by state Law 4,819, of August 26, 1958, that generated a credit in the result in the amount of R\$696.3 million.

5.7. Depreciation and amortization

R\$ 6.9 million decrease or 2.7%, reaching R\$ 253.3 million in comparison to the R\$ 260.2 million recorded in 1Q14, largely due to higher provision for the amortization related to the transfer of works held in 1Q14.

5.8. Credit write-offs

Credit write-offs increased R\$ 32.6 million, especially due to the complement of the provision related to the breach of agreements with municipal clients in 1Q15.

6. Other operating revenues and expenses, net

Other operating revenues/expenses, net, recorded a R\$ 75.2 million positive variation.

6.1. Other operating revenues

An increase of R\$ 12.8 million in other operating revenues, especially through the sale of surplus electricity, totaling R\$ 21.8 million, partially offset by the decline in revenue from Rational Use of Water Program (PURA), totaling R\$ 8.8 million.

6.2. Other operating expenses

Recorded a R\$ 62.4 million decrease, mainly due to:

- Provision for the write-off of construction works and projects, in 1Q14, in the amount of R\$ 31.4 million, non-recurring;
- Lower provision for the write-off of hydrometers, resulting in a R\$ 20.2 million drop; and
- Provision for losses with contractual payments, as a result of the agreement with the municipality of Diadema, in 1Q14, totaling R\$ 13.0 million.

7.1. Financial revenues and expenses

	<i>R\$ million</i>			
Financial expenses				
Interest and charges on domestic loans and financing	(86.7)	(82.2)	(4.5)	5.5
Interest and charges on international loans and financing	(30.4)	(24.4)	(6.0)	24.6

Financial revenues	73.5	71.5	2.0	2.8
Financial expenses net of revenues	(63.8)	(65.6)	1.8	(2.7)

7.1.1. Financial expenses

Financial expenses grew R\$ 0.2 million. The main reasons were:

- R\$ 4.5 million increase in interest and charges on domestic loans and financing, mainly due to the higher interest on debentures, due to the 19th debenture issue in June 2014;
- R\$ 6.0 million increase in interest and charges on international loans and financing, due to the US dollar and Yen appreciation versus the Brazilian Real in 1Q15 (20.8% and 20.3%, respectively), when compared to the depreciation recorded in 1Q14 (-3.4% and -1.6%, respectively); and
- R\$ 10.3 million decrease in other financial expenses, largely due to the lower provision for financial charges of lawsuits.

7.1.2. Financial revenues

Financial revenues increased R\$ 2.0 million or 2.8%, due to interest over installment agreement held in the period.

7.2. Monetary and exchange rate variation on assets and liabilities

	<i>R\$ million</i>			
Monetary variation on loans and financing	(56.2)	(33.0)	(23.2)	70.3
Exchange rate variation on loans and financing	(884.5)	117.0	(1,001.5)	(856.0)

Monetary/exchange rate variation, net	(922.0)	93.1	(1,015.1)	(1,090.3)

7.2.1. Monetary/exchange rate variation on liabilities

The effect on the monetary/currency exchange variation on liabilities in 1Q15 was R\$ 1,021.0 million, higher than in 1Q14, especially due to:

- An increase of R\$ 23.2 million in expenses with monetary variation on domestic loans and financing, chiefly due to the increase in the variation of IPCA in 1Q15 (3.8%) compared to the variation recorded in 1Q14 (2.2%); and
- An upturn of R\$ 1,001.5 million in expenses with exchange variation on loans and financing, due to the appreciation of the US dollar and the Yen versus the Brazilian Real in 1Q15 (20.8% and 20.3%, respectively), when compared to the depreciation recorded in 1Q14 (-3.4% and -1.6%, respectively).

7.2.2. Monetary/Exchange rate variation on assets

R\$ 5.9 million increase, mainly due to the monetary updates on judicial deposits.

8. Income tax and social contribution

In 1Q15, the Company recorded tax losses of R\$ 548.0 million, mainly due to the permanent difference arising from the GESP agreement. These tax losses resulted in the recognition of deferred income tax/social contribution in the amount of R\$ 186.3 million.

9. Indicators

9.1. Operating

As a result of the water crisis, there was a substantial reduction in the water production volume, down by 21.2%.

There was also a substantial decline in the index that measures water losses per connection per day (IPDT) which came to 290 liters/connection x day versus 366 liters/connection x day on the same period last year.

This reduction was the result not only of loss control initiatives, but also of the water crisis and the consequent need to reduce the network pressure as a demand management mechanism.

1 Operations

Companhia de Saneamento Básico do Estado de São Paulo ("SABESP" or the "Company") is a mixed-capital company headquartered in São Paulo, at Rua Costa Carvalho, 300, CEP 05429-900, controlled by the São Paulo State Government. The Company is engaged in the provision of basic and environmental sanitation services in the State of São Paulo, as well as it supplies treated water and sewage services on a wholesale basis.

In addition to providing basic sanitation services in the State of São Paulo, SABESP may perform these activities in other states and countries, and can operate in drainage, urban cleaning, solid waste handling and energy markets. The objective set in the new vision of SABESP is to be recognized as the company that ensured universal access to water and sewage services in its marketplace, in a sustainable and competitive manner, with excellence in customer service.

On March 31, 2015, the Company operated water and sewage services in 364 municipalities of the State of São Paulo. Most of these municipalities operations are based on 30-year concession, program and services contracts. The Company has two partial contracts with the municipality of Mogi das Cruzes, however, since most of municipality is serviced by wholesale, it was not included in the 364 municipalities. On March 31, 2015, the Company had 366 contracts.

SABESP is not temporarily operating in some municipalities due to judicial orders. The lawsuits in progress refer to Álvares Florence, Cajobi, Embaúba, Iperó and Macatuba, and the carrying amount of these municipalities' intangible assets was R\$11,328 on March 31, 2015 (R\$11,328 on December 31, 2014).

As of March 31, 2015, 55 concession agreements had expired and are being negotiated. From March 31, 2015 to 2030, 37 concession agreements will expire. Management believes that concession agreements expired and not yet renewed will result in new contracts, disregarding the risk of discontinuity in the provision of municipal water supply and sewage services. By March 31, 2015, 274 program and services contracts were signed (274 contracts on December 31, 2014).

On March 31, 2015, the carrying amount of the underlying assets used in the 55 concessions of the municipalities under negotiation totaled R\$6,345,036, accounting for 24.12% of the total, and the related gross revenue for the three-month period then ended totaled R\$494,313, accounting for 19.06% of the total.

The Company's operations are concentrated in the municipality of São Paulo, which represents 46.75% of the gross revenues on March 31, 2015 (50.29% on March 31, 2014) and 42.37% of intangible assets (42.29% on December 31, 2014).

On June 23, 2010, the State of São Paulo, the Municipality of São Paulo, the Company and the regulatory agency “Sanitation and Energy Regulatory Agency – ARSESP” signed an agreement to share the responsibility for water supply and sewage services to the Municipality of São Paulo based on a 30-year concession agreement. This agreement is extendable for another 30 years, pursuant to the law. This agreement sets forth SABESP as the exclusive service provider and designates ARSESP as regulator, establishing prices, controlling and monitoring services.

PAGE: 20 of 80

Notes to the Interim Financial Information

Also, on June 23, 2010, the State of São Paulo, the city of São Paulo and SABESP signed the “Public service provision agreement of water supply and sewage services”, a 30-year concession agreement which is extendable for another 30 years. This agreement involves the following activities:

- i. protection of the sources of water in collaboration with other agencies of the State and the City;
- ii. capture, transport and treat of water;
- iii. collect, transport, treatment and final dispose of sanitary sewage; and
- iv. adoption of other actions of basic and environmental sanitation.

In the municipality of Santos, in the Santos coast region, which has a significant population, the Company operates under an authorization by public deed, a situation similar to other municipalities in that region and in the Ribeira valley, where the Company started to operate after the merger of the companies that formed it. As of March 31, 2015, the carrying amount of the municipality of Santos’ intangible assets was R\$225,256 (R\$205,261 on December 31, 2014) and gross revenue in the three-month period ended March 31, 2015 was R\$64,400 (R\$63,407 on March 31, 2014).

Article 58 of Law 11,445/07 determines that precarious and overdue concessions, as well as those effective for an undetermined period of time, including those that do not have an instrument formalizing them, will be valid until December 31, 2010. However, Article 2 of Law 12,693 of July 24, 2012 allows program agreements to be executed until December 31, 2016.

The Company’s Management understands that the concession agreements not yet renewed are valid and will be governed by Laws 8,987/95 and 11,445/07, including those municipalities served without an agreement.

Public deeds are valid and governed by the Brazilian Civil Code.

The Company's shares have been listed in the *Novo Mercado* (New Market) segment of BM&FBovespa under the ticker symbol SBSP3 since April 2002 and on the New York Stock Exchange (NYSE) as American Depositary Receipts (“ADRs”) Level III, under the SBS code, since May 2002. In 2007, SABESP adhered to the Corporate Sustainability Index, or ISE of BM&FBovespa, which reflects the high level of commitment with sustainable development and social practices.

Since 2008, the Company has been setting up partnerships with other companies, which resulted in the following companies: Sesamm, Águas de Andradina, Saneaqua Mairinque, Aquapolo Ambiental, Águas de Castilho and Attend Ambiental. Although SABESP has no majority interest in the capital stock of these companies, the shareholders’ agreements provide for the power of veto and casting vote in certain issues jointly with associates, indicating the shared control in the management of investees.

Water shortage - SABESP’s operations have been influenced by the lowest rainfall and inflow never seen in 84 years at the reservoirs composing the Cantareira System. During the rainy season, from October 2014 to January 2015, rainfall remained below average, despite above average from February to March 2015. We expected the water volume stored at the Cantareira System to recover, however, as the levels were already low due to the lack of rainfall during Summer in 2013 and 2014, rainfall index in the region, during the rainy season from October 2014 to March 2015, was not sufficient to recover the reservoirs, whose levels are below than the one seen in the historical series. Under usual conditions, this system is liable for the direct supply of approximately 8.8 million people. To face this situation and ensure that the water supply is not interrupted, Sabesp has been adopting the following measures:

PAGE: 21 of 80

ITR - Quarterly Information Form - 03/31/2015 - CIA
SANEAMENTO BÁSICO ESTADO SÃO PAULO

Version: 1

Notes to the Interim Financial Information

- Using pumps to remove water below the catchment level of the Cantareira System, the so-called “technical reserve”, which had never been used before to supply the population;
- Offering discounts (bonus) to consumers, whose volume consumed is below the average stipulated;
- Using water from other producing systems to serve consumers previously supplied by the Cantareira System;
- Intensifying the advertising campaigns towards the rational use of water;
- Reducing pressure in the distribution network, in order to prevent water losses;
- Reducing the water volume sold to municipalities which operate their own distribution networks;
- Making investments earlier than the planned time to expand water safety.

The water reservation volume at reservoirs relies on several factors, such as levels of rain, temperature and atmospheric humidity, as well as the type and humidity of soil in water sources regions.

This scenario of water shortage in 2014 and its persistence in 2015 also impacted the Company financially. As a result, since 2014 up to date, the Company has taken decisions to minimize these effects, including rearrangement of investments, expense budget reduction, negotiation of overdue credits (mainly with the São Paulo State Government and municipalities served on a wholesale basis), implementation of contingency tariff, request for extraordinary tariff revision (see Note 30) and other actions.

The Company’s Management expects the funds available in cash equivalents on March 31, 2015, totaling R\$1,737,971, the operating cash generation estimated for 2015 and the lines of credit available for investments are sufficient to meet its short-term liabilities and not compromise the actions required to overcome the water shortage, thus preserving our consumers’ supply.

For other disclosures on the water shortage effect on revenues, see Note 24 – revenues.

The interim financial information was approved by the Board of Directors on May 14, 2015.

Notes to the Interim Financial Information

2 Basis of preparation and presentation of the financial statements

(i) Presentation of the quarterly financial information

The quarterly financial information as of March 31, 2015, was prepared based on the provisions of CPC 21 (R1) – Interim Financial Information and the international standard IAS 34 – Interim Financial Reporting, issued by the International Accounting Standards Board (IASB), applicable to the preparation of Quarterly Information Form– ITR and they are fairly presented consistent with the rules issued by the Brazilian Securities and Exchange Commission (CVM). Therefore, this Interim Financial Information takes into consideration the official letter CVM/SNC/SEP 003 of April 28, 2011, which allows the entities to present selected notes to the financial statements, in cases of redundant information already disclosed in the Annual Financial Statements. The interim financial information for March 31, 2015, therefore, does not include all the notes and reporting required by the annual financial statements, and accordingly, shall be read jointly with the financial statements as of December 31, 2014, prepared pursuant to the International Financial Reporting Standards – IFRS, issued by the International Accounting Standards Board – IASB and pursuant to the accounting practices adopted in Brazil which observe the pronouncements issued by the Brazilian Accounting Pronouncements Committee- CPC.

3 Accounting policies

The accounting policies used in the preparation of the quarterly financial information for the quarter ended March 31, 2015 are consistent with those used to prepare the Annual Financial Statements for the year ended December 31, 2014. These policies are disclosed in Note 3 to the Annual Financial Statements.

4 Risk Management

4.1 Financial Risk Management

Financial risk factors

The Company's activities are affected by Brazilian economic scenario, making it exposed to market risk (exchange rate and interest rate), credit risk and liquidity risk. The Company's financial risk management is focused on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Company's financial performance.

The Company has not utilized derivative instruments in any of the reported periods.

(a) Market risk Foreign currency risk

SABESP's foreign exchange exposure implies market risks associated with currency fluctuations, since the Company has foreign currency-denominated liabilities, mainly US dollar and yen-denominated short and long-term loans.

PAGE: 23 of 80

ITR - Quarterly Information Form - 03/31/2015 - CIA
SANEAMENTO BÁSICO ESTADO SÃO PAULO

Version: 1

Notes to the Interim Financial Information

The management of SABESP's foreign currency exposure considers several current and projected economic factors, besides market conditions.

This risk arises from the possibility that the Company may incur in losses due to exchange rate fluctuations that would impact liability balances of foreign currency-denominated loans and financing raised in the market and related financial expenses. The Company does not maintain hedge or swap contracts or any derivative financial instrument to hedge against this risk, but conducts an active management of debt, taking advantage of opportunities to change expensive debts with "cheaper" debts, reducing the cost through early maturity.

A significant amount of the Company's financial debt is indexed to the U.S. dollar and Yen, in the total amount of R\$5,438,591 on March 31, 2015 (R\$4,363,898 on December 31, 2014). Below, the Company's exposure to foreign exchange risk:

	March 31, 2015		December 31, 2014	
	Foreign currency	R\$	Foreign currency	R\$
Loans and financing– US\$	1,248,706	4,005,849	1,231,188	3,270,282
Loans and financing – Yen	51,592,184	1,380,091	48,066,910	1,068,527
Interest and charges from loans and financing – US\$		50,169		17,703
Interest and charges from loans and financing– Yen		2,482		7,386
Total exposure		5,438,591		4,363,898
Financing cost		(18,384)		(17,606)
Total loans in foreign currency (Note 15)		5,420,207		4,346,292

The 25% increase in foreign currency-denominated debt from December 31, 2014 to March 31, 2015 was mainly due to the following:

1) Exchange rate changes, since the US dollar appreciated 20.8% from R\$2.6562 on December 31, 2014 to R\$3.2080 on March 31, 2015. The US dollar-denominated debt accounts for 74% of foreign currency-denominated

(a) Market risk Foreign currency risk

debts; and

- 2) A 1% increase in US dollar-denominated debt and 7% increase in the Yen-denominated debt.

On March 31, 2015, if the Brazilian *real* had depreciated or appreciated by 10% against the US dollar and Yen with all other variables held constant, effects on results before taxes on the three-month period ended March 31, 2015 would have been R\$543,859 (R\$436,390 on December 31, 2014), lower or higher, mainly as a result of foreign exchange losses or gains on the translation of foreign currency-denominated loans.

Scenario I below presents the effect in income statements for the next 12 months, considering the projected rates of the U.S. dollar and the Yen. Considering the other variables as remaining constant, the impacts for the next 12 months are shown in scenarios II and III with possible depreciations of 25% and 50%, respectively, in the Brazilian real.

(*)The probable scenario in foreign currency (US dollar and Yen) considered the average exchange rate for the 12-month period after March 31, 2015, according to BM&FBovespa.

Interest rate risk

This risk arises from the possibility that the Company could incur losses due to fluctuations in interest rates, increasing the financial expenses related to loans and financing.

The Company has not entered into any derivative contract to hedge against this risk; however continually monitors market interest rates, in order to evaluate the possible need to replace its debt.

(iii) TJLP - (Taxa de Juros a Longo Prazo), a long-term interest rate index

(iv) IPCA - (Índice Nacional de Preços ao Consumidor Amplo), a consumer price index

(v) LIBOR - London Interbank Offered Rate

As of March 31, 2015, if interest rates on loans and financing denominated in Brazilian *reais* had been 1% higher or lower with all other variables held constant, the effects on profit for the three-month period ended March 31, 2015, before taxes would have been R\$83,699 (R\$79,294 on December 31, 2014) lower or higher.

Another risk to which the Company is exposed, is the mismatch of the monetary restatement indices of its debts with those of its service revenues. Water supply and sewage services tariff adjustments do not necessarily follow the increases in the inflation indexes to adjust loans, financing and interest rates affecting the Company's indebtedness.

(b) Credit risk

Credit risk arises from cash and cash equivalents, deposits in banks and financial institutions, as well as credit exposures to wholesale basis and retail customers, including outstanding accounts receivable, restricted cash and accounts receivable from related parties. Credit risk exposure to customers is mitigated by sales to a dispersed base.

The maximum exposures to credit risk at the reporting date are the carrying amounts of instruments classified as cash equivalents, deposits in banks and financial institutions, restricted cash, trade accounts receivable and accounts receivable from related parties in the balance sheet date. See additional information in Notes 6, 7, 8 and 9.

Notes to the Interim Financial Information

Regarding the financial assets held with financial institutions, the credit quality that is not past due or subject to provision for impairment can be assessed by reference to external credit ratings (if available) or to historical information about counterparty default rates. The credit quality of counterparties which are banks, such as deposits and financial investments, the Company considers the lower rating of the counterparty published by three main international rating agencies (Fitch, Moody's and S&P), according to internal policy of market risk management:

	March 31, 2015		December 31, de 2014	
Cash at bank and short-term bank deposits				
AAA(bra)	1,734,696		1,722,347	
Other (*)	3,275		644	
	1,737,971		1,722,991	

(*)This category includes current accounts and investment funds in banks which have no credit rating information available.

The available credit rating information of the banks in which the Company made transactions during the period is as follows:

Banks	Fitch	Moody's	Standard Poor's
Banco do Brasil S.A.	AAA (bra)	Aaa.br	-
Banco Santander Brasil S.A.	AAA (bra)	Aaa.br	brAAA
Brazilian Federal Savings Bank	AAA (bra)	Aaa.br	brAAA
Banco Bradesco S.A.	AAA (bra)	Aaa.br	brAAA
Itaú Unibanco Holding S.A.	AAA (bra)	Aaa.br	brAAA

(c) **Liquidity risk**

(c) Liquidity risk

The Company's liquidity is primarily reliant upon cash provided by operating activities, loans from Brazilian Federal and State governmental financial institutions, and financing in the domestic and international capital markets. The liquidity risk management considers the assessment of its liquidity requirements to ensure it has sufficient cash to meet its Capex and operating expenses needs, as well as the payment of debts.

The funds held by the Company are invested in interest-bearing current accounts, time deposits and securities, selecting instruments with appropriate maturity or liquidity sufficient to provide margin as determined by projections mentioned above.

The table below shows the financial liabilities of the Company, into relevant maturities, including the installment of principal and future interest to be paid according to the agreement.

(*)The Company also considered future commitments (construction in progress) not yet recognized in the financial statements related to São Lourenço PPP, due to the relevance of future cash flows, the impacts on its operations and the fact the Company already has formalized this commitment through an agreement signed by the parties.

Future interest

Future interest was calculated based on the contractual clauses for all agreements. For agreements with floating interest rate, the interest rates used correspond to the base dates above.

Cross default

The Company has loan and financing agreements including cross default clauses, i.e., the early maturity of any debt may imply the early maturity of these agreements. The indicators are continuously monitored in order to avoid the execution of this clause.

(d) Sensitivity analysis on interest rate risk

The table below shows the sensitivity analysis of the financial instruments, prepared in accordance with CVM Rule 475/2008 in order to evidence the balances of main financial assets and liabilities, calculated at a rate projected until the final settlement of each contract, considering a probable scenario (scenario I), appreciation of 25% (scenario II) and 50% (scenario III).

The purpose of the sensitivity analysis is to measure the impact of changes in the market over the financial instruments of the Company, considering constant all other variables. In the time of settlement, the amounts can be different from those presented above, due to the estimates used in the measurement.

4.2 Capital management

The Company's objectives when managing capital are ensure its ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders, and to maintain an optimal capital structure to reduce the cost of capital.

The Company monitors capital based on the leverage ratio. This ratio corresponds to net debt divided by total capital. Net debt corresponds to total loans and financing less cash and cash equivalents. Total capital is calculated as total equity as shown in the statement of financial position plus net debt.

Total capital	23,731,637	22,367,179
Leverage ratio	43%	41%

On March 31, 2015, the leverage ratio increased from the 41% as of December 31, 2014 to 43%, due to the R\$1,061,260 increase in loans and financing, mainly due to the inflow of funds in 2015, loan agreements in progress and the effect of Real depreciation against the US dollar.

4.3 Fair value estimates

It is assumed that balances from trade accounts receivable (current) and accounts payable to suppliers by carrying amount, less impairment, approximate their fair values, considering the short maturity. Long-term trade accounts receivable also approximate their fair values, as they will be adjusted by inflation and/or will bear contractual interest rates over time.

4.4 Financial Instruments

On March 31, 2015 and December 31, 2014 the Company neither has financial assets classified into the fair value categories through profit or loss, held to maturity and available for sale nor financial liabilities classified as fair value through profit or loss. The Company's financial instruments included in the loans and receivables category comprise cash and cash equivalents, trade accounts receivable, balances with related parties, other accounts receivable, balances receivable from the Water National Agency – ANA, and the financial instruments under other liabilities category are comprised of balance payable to contractors and suppliers, loans and financing, balances payable deriving from the Public Private Partnership-PPP and program contract commitments, which are non-derivative financial assets and

liabilities with fixed or determinable payments, not quoted in an active market.

The estimated fair values of financial instruments are as follows:

Additionally, SABESP has financial instrument assets receivable from related parties, in the amount of R\$904,425 as of March 31, 2015 (R\$223,983 as of December 31, 2014), which were calculated in accordance with the conditions negotiated between related parties. The conditions and additional information referring to these financial instruments are disclosed in Note 9 to this interim financial information and in Note 10 to the annual financial statements as of December 31, 2014. Part of this balance, totaling R\$837,441 (R\$155,493 on December 31, 2014), refers to reimbursement from additional retirement and pension plan - G0 which is indexed by IPCA plus simple interest of 0.5% p.m. This interest rate approximates that one practiced by federal government bonds (NTN-b) with terms similar to those of related-party transactions.

Financial liabilities

	March 31, 2015		December 31, 2014	
	Carrying amount	Fair value	Carrying amount	Fair value

Public-private partnership - PPP	391,188	391,188	368,283	368,283

The criteria adopted to obtain the fair values of loans and financing, in preparing the interim financial information as of March 31, 2015, are consistent with those adopted in the Annual Financial Statements for the fiscal year ended

December 31, 2014. In the Annual Financial Statements, these criteria are disclosed in Note 5.4.

Considering the nature of other financial instruments, assets and liabilities of the Company, the balances recognized in the statement of financial position approximate the fair values, taking into account the maturities close to the end of the reporting period, comparison of contractual interest rates with market rates in similar operations at the end of the reporting periods, their nature and maturity terms.

Notes to the Interim Financial Information

(*)On March 18, 2014, the State of São Paulo, the municipality of Diadema and SABESP entered into a “Water Supply and Sewage Public Utility Services Agreement” in the municipality of Diadema. Through this contract, the State of São Paulo and the municipality of Diadema have ensured to SABESP (or subsidiary) exclusive rights to render services for a 30-year term.

On this same date, judicial settlements were signed in lawsuits filed by SABESP against the municipality of Diadema and Saned – a municipal company. Through these settlements, SABESP, the municipality of Diadema and Saned agree to suspend the execution of suits to collect receivables related to water supply at wholesale and collection of indemnity debt. The debts will progressively decrease throughout a 30-year period, under the condition that there is a full compliance with the agreements and provision of services contract.

This balance is fully accrued as losses.

Additionally, in compliance with the judicial settlements signed between SABESP and the Municipality of Diadema on March 25, 2015, SABESP and Saned entered into a Share Purchase Agreement with Empresa de Água e Esgoto de Diadema S.A. (“EAED”) – a wholly-owned subsidiary of Saned. The Agreement establishes that:

Saned must invest in EAED, certain assets, goods, rights and obligations, by capital increase, and transfer to the company its employees hired through competitive examination.

Once fulfilled these obligations, operations will be executed as provided in the Agreement. On this date, all shares issued by EAED will be effectively transferred to SABESP, corresponding to 100% of its capital stock.

SABESP will pay by offsetting credits against Saned’s debts with SABESP.

As of the reporting, such operation had not been concluded yet, as certain conditions have not been fully met. Accordingly, SABESP has not acquired EAED’s shares yet.

From January to March 2015, there were no relevant changes in relation to the operations presented in the financial statements as of December 31, 2014.

- (i) General customers - residential and small and mid-sized companies

- (ii) Special customers - large consumers, commercial, industries, condominiums and special billing consumers (industrial waste, wells, etc.).

- (iii) Agreements - installment payments of past-due receivables, plus monetary restatement and interest.

- (iv) Wholesale basis customers - municipal governments - This balance refers to the sale of treated water to municipalities, which are responsible for distributing to, billing and charging final customers. Some of these municipalities are questioning in court the tariffs charged by SABESP, which have full allowance for doubtful accounts. Additionally, the overdue amounts are included in the allowance for doubtful accounts.

(b) Agreement with the State Government of São Paulo “GESP”

On March 18, 2015, the Company, the State of São Paulo and the Department of Water and Electricity - DAEE, and the Sanitation and Water Resources Department as the intervening party, entered into a Term of Agreement in the amount of R\$1,012,310, of which R\$696,283 refer to the principal amount and R\$316,027 referring to the inflation adjustment of principal until February 2015.

The Principal Amount will be paid in 180 installments, as follows:

- The first 24 installments will be settled by immediately transferring of 2,221,000 preferred shares issued by Companhia de Transmissão de Energia Elétrica Paulista - CTEEP, totaling R\$87,174, based on the share closing price on March 17, 2015, and
- The amount of R\$609,109 will be adjusted by IPCA (Extended Consumer Price Index) until the date when payments start and paid in cash, by means of other 156 monthly installments, beginning on April 5, 2017. When payment starts, installments will be adjusted by IPCA plus simple interest of 0.5% per month.

Considering the lawsuit which objects the possibility of transferring the reservoirs is pending final and unappealable court decision, the agreement also provides for the following situations:

(b) Agreement with the State Government of São Paulo “GESP”

- If transfer is possible and the Reservoirs are effectively transferred to SABESP and registered at the notary's office, SABESP will reimburse to the State the amounts paid in replacement of Reservoirs (Principal Amount) in 60 monthly installments adjusted by IPCA until the date of payment of each installment; and
- If the transfer of Reservoirs is not possible, the State will pay to SABESP, in addition to the Principal Amount, the inflation adjustment credit in 60 installments, starting these payments at the end of Principal Amount installment payment. The amount will be adjusted by IPCA to the start date of payments and, as of this date, IPCA will be incurred plus 0.5% simple interest rates/month over the amount of each installment.

The accounting impacts of the agreement generated a debit of R\$696,283 in accounts receivable from related parties (current and non-current) and a credit in the same amount in administrative expenses.

Notes to the Interim Financial Information

(c) Contingent assets - GESP (not recorded)

SABESP had contingent assets with GESP, not recorded in assets referring to the additional retirement and pension paid (Law 4,819/58), as follows:

	March 31, 2015	December 31, 2014
Disputed amounts receivable	798,441	783,422
Undisputed amount referring to the transfer of reservoirs at Alto Tietê system to SABESP (Note 9 (b))	-	696,283
Total	798,441	1,479,705

(d) Use of reservoirs – EMAE

Empresa Metropolitana de Águas e Energia S.A. - EMAE plans to receive for the credit and to obtain financial compensation for the use of water from the Guarapiranga and Billings reservoirs, which SABESP uses in its operations, as well as the reimbursement of damages related to the failure to pay appropriately.

The Company understands that no amounts are due for the use of these reservoirs given the grants already made. Should these reservoirs not be available for use to the Company, there could be the need to collect water in more distant places. There is a risk of not properly rendering services in the region, besides increasing water supply cost.

Several lawsuits were filed by EMAE. Currently, an arbitration proceeding is in progress related to the Guarapiranga reservoir and a lawsuit related to Billings reservoir, both pleading for financial compensation due to SABESP's water collect for public supply, alleging that this conduct has been causing permanent and growing loss in the capacity of generating electricity of Henry Borden hydroelectric power plant with financial losses.

SABESP understands that the expectation for all cases is of possible losses, and for the time being, it is not feasible to estimate the amounts involved, since they were not determined.

On April 10, 2014, we issued a Notice to the Market including the information about any future agreement. However, no adjustment was confirmed and no agreement was executed by either party up to date.

(e) Agreements with reduced tariffs with State and Municipal Government Entities that joined the Water Rational Use Program (PURA)

The Company has signed agreements with government entities related to the State Government and municipalities where it operates that benefit from a reduction of 25% in the tariff of water supply and sewage services when they are not in default. These agreements provide for the implementation of the rational water use program, which takes into consideration the reduction in the water consumption.

(f) Guarantees

The State Government provides guarantees for some loans and financing of the Company and does not charge any fee with respect to such guarantees.

(g) Personnel assignment agreement among entities related to the State Government

The Company has personnel assignment agreements with entities related to the State Government, whose expenses are fully passed on and monetarily reimbursed. From January to March 2015 and 2014, the expenses related to personnel assigned by SABESP to other state government entities amounted to R\$2,962 and R\$2,494, respectively.

From January to March 2015 and 2014, expenses related to personnel assigned by other entities to SABESP totaled R\$52 and R\$96, respectively.

(h) Services obtained from state government entities

On March 31, 2015 and December 31, 2014, SABESP had an outstanding amounts payable of R\$1,288 and R\$1,569, respectively, for services rendered by São Paulo State Government entities.

(i) Non-operating assets

As of March 31, 2015 and December 31, 2014, the Company had an amount of R\$969 related to a free land lent to DAEE (Water and Electricity Department).

(e) Agreements with reduced tariffs with State and Municipal Government Entities that joined the Water Rationalization Program

(j) Sabesprev

The Company sponsors a private defined benefit pension plan, which is operated and administered by Sabesprev. The net actuarial liability recognized as of March 31, 2015 amounted to R\$689,977 (R\$676,071 on December 31, 2014), according to Note 19 (b).

(k) Compensation of Management Key Personnel

Expenses related to the compensation to the members of its Board of Directors and Officers amounted to R\$903 and R\$853 for the first quarter of 2015 and 2014, respectively. An additional amount of R\$141 and R\$140, related to the Officers' bonus program, was recorded from January to March 2015 and 2014, respectively.

(l) Loan agreement through credit facility

The Company holds interest in certain Special Purpose Entities (SPEs), not holding the majority interest but with cast vote and power of veto in some issues, with no ability to use such power of veto in a way to affect returns over investments. Therefore, these SPEs are considered for accounting purposes as jointly-owned subsidiaries.

Notes to the Interim Financial Information

The Company entered into a loan agreement through credit facility with the SPEs Aquapolo Ambiental S/A and Attend Ambiental S/A to finance the operations of these companies, until the loans and financing requested with financial institutions is cleared.

The agreements executed with Aquapolo Ambiental S/A, on March 30, 2012 and Attend Ambiental S/A, on May 9, 2014, have the following characteristics:

SPE	Principal disbursed amount	Interest balance	Total	Interest rate	Maturity
Attend Ambiental	5,400	760	6,160	SELIC + 3.5 % p.a.	(*)
Aquapolo Ambiental	5,629	3,075	8,704	CDI + 1.2% p.a.	4/30/2016
Aquapolo Ambiental	19,000	8,836	27,836	CDI + 1.2% p.a.	4/30/2015
Total	30,029	12,671	42,700		

(*)The loan agreement with SPE Attend Ambiental S/A matures within 180 days, from the date when the respective amount is available in the borrower's account, renewable for the same period.

The amount disbursed is recognized in Assets under "Other receivables" and amounts to R\$24,400 for principal and R\$9,596 for interest recognized in current assets and R\$5,629 for principal and R\$3,075 for interest in noncurrent assets. As of March 31, 2015, the balance of principal and interest rates of these agreements is R\$42,700 (R\$40,366 on December 31, 2014). In the period between January and March 2015, financial income recognized was R\$2,334 (R\$1,381 from January to March 2014).

(m) Se Liga na Rede (Connect to the Network Program)

The State Government enacted the State Law nº 14,687/12, creating the pro-connection program, destined to financially subsidize the execution of household branches necessary to connect to the sewage collecting networks, in low-income households, which agreed to adhere to the program. The program expenditures, except for indirect costs,

(l) Loan agreement through credit facility

construction margin and borrowing costs are financed with 80% of funds deriving from the State Government and the remaining 20% invested by SABESP, which is also liable for the execution of works. On March 31, 2015, the program total amount was R\$71,027 (R\$67,576 on December 31, 2014), R\$18.675 (R\$17,661 on December 31, 2014) recorded in balances receivable from related parties, the amount of R\$27,299 (R\$24,862 on December 31, 2014) recorded in the group of intangible assets and R\$25,053 (R\$25,053 on December 31, 2014) reimbursed by GESP.

10 Water National Agency - ANA

Refers to agreements executed within the scope of the Hydrographic Basin Depollution Program (PRODES), also known as "Treated Sewage Purchase Program".

This program does not finance works or equipment, remunerates by results achieved, i.e., by effectively treated sewage. In this program, the Water National Agency (ANA) makes available funds, which are restricted to a specific current account and applied in investment funds at the Caixa Econômica Federal - Federal Savings Banks (CEF), until the fulfillment of treated sewage volume is evidenced, as well as, the reduction of polluting cargoes of each agreement.

Notes to the Interim Financial Information

When resources are made available, liabilities are recorded until funds are released by ANA. After the evidence of targets stipulated in each contract, the revenue deriving from these funds is recognized, but if these targets are not met, funds will return to the National Treasury with the appropriate funds earnings. On March 31, 2015, the balances of assets and liabilities were R\$125,103 (R\$122,634 on December 31, 2014), and the liabilities are recorded under "Other liabilities" of noncurrent liabilities.

11 Investments

The Company holds interest in certain Special Purpose Entities (SPE). Although SABESP has no majority shares of its investees, the shareholders' agreement provides for the power of veto in certain management issues, with no ability to use such power of veto in a way to affect returns over investments, indicating participating shared control (joint venture – CPC 19 (R2)).

The Company holds interest valued by the equity accounting in the following investees:

Sesamm

On August 15, 2008, the Company, together with the companies OHL Médio Ambiente, Inima S.A.U. Unipersonal ("Inima"), Técnicas y Gestión Medioambiental S.A.U. ("TGM") and Estudos Técnicos e Projetos ETEP Ltda. ("ETEP") incorporated the company Serviços de Saneamento de Mogi Mirim S.A. - SESAMM for a period of 30 years from the date the concession agreement with the municipality of Mogi Mirim for the purpose of providing complementary services to the sewage diversion system and implementing and operating sewage treatment system in the municipality of Mogi Mirim, including the disposal of solid waste.

Sesamm's capital as of March 31, 2015, totaled R\$19,532, and was represented by 19,532,409 registered common shares without a par value. SABESP holds 36% of its equity interest and Inima holds another 46% of its equity interest.

(d) General information

During the period ended March 31, 2015 there were no relevant changes in the criteria to account for intangible assets and types of contracts. See further information in Note 14 (d) to the Financial Statements as of December 31, 2014.

The Company has obligations recorded in “Program Contract– Commitments” in current liabilities in the amount of R\$161,778 and R\$189,551 on March 31, 2015 and December 31, 2014, respectively, and noncurrent liabilities in the amount of R\$18,621 and R\$18,208 on March 31, 2015 and December 31, 2014, respectively.

(e) Capitalization of interest and other financial charges

From January to March 2015, the Company capitalized interest and inflation adjustment, including related foreign currency exchange effects, in concession intangible assets totaling R\$72,472 (R\$38,148 from January to March 2014), during the period in which assets were recorded as works in progress.

(f) Construction margin

The Company acts as a primary responsible to construct and install the infrastructure related to the concession, using own efforts or hiring outsourcing services, receiving the risks and benefits.

As a consequence, the Company recognizes revenue from construction service corresponding to the cost of construction increased by margin. Generally, the constructions related to the concessions are performed by third parties, in such case, the margin of the Company is lower, normally, to cover eventual administration costs, and the responsibility of the primary risk. On March 31, 2015 and 2014 the margin was 2.3%.

Notes to the Interim Financial Information

(i) Main events in the quarter

(a) BNDES

Funding in the first quarter totaled R\$56,000, referring to agreements 12.2.138.1 (BNDES Tiete III) and 09.2.1535.1 (BNDES Onda Limpa).

(b) BID

Funding in the first quarter totaled R\$62,419, referring to agreement 2202 (BID 2202).

(c) JICA

Funding in the first quarter totaled R\$123,808, referring to agreements BZ-P17 (JICA 17) and BZ-P19 (JICA 19).

(d) Foreign exchange variation

The US dollar increased 20.8%, from R\$2.6562 on December 31, 2014 to R\$3.2080 on March 31, 2015, increasing debt by R\$686,590. The Yen increased 20.3%, from R\$0.02223 on December 31, 2014 to R\$0.02675 on March 31, 2015, increasing debt by R\$213,910.

(e) Leasing

(i) Main events in the quarter

On January 15, 2015, the São José dos Campos Sanitary Sewage System started and the corresponding amount on March 31, 2015 is R\$97,981.

(ii) Covenants

On March 31, 2015, the Company had met the requirements set forth by its loan and financing agreement, except for the ratio applicable to agreements with the BNDES, adjusted net debt/ adjusted EBITDA ratio, which should be equal to or less than 3.00, and its default will be characterized when this ratio is not reached for, at least, two quarters, consecutive or not, within a 12-month period. On March 31, 2015 and December 31, 2014, the ratios were 3.09 and 3.17, respectively.

With this ratio's default, SABESP must provide guarantee by maintaining funds totaling approximately R\$250,000 in a restricted bank account, which must occur within 30 days as of the publication of interim financial information as of March 31, 2015.

Notes to the Interim Financial Information

(b) Explanation on the nature of main classes of lawsuits

(i) Customer claims

Approximately 1,220 lawsuits were filed by commercial customers, which claim that their tariffs should correspond to other consumer categories, and 720 lawsuits which claim a reduction in the sewage tariff due to losses in the system, consequently requesting the refund of amounts charged by the Company and 60 lawsuits where customers plead the reduction in tariff under the category as “Social Welfare Entity”. The Company was granted both favorable and unfavorable final decisions at several court levels and recognized provisions when the chances of losses are probable. The decrease of R\$52,026 in the lawsuits classified as probable loss (net of escrow deposits) is mainly related to revisions of expectations caused by favorable decisions to the Company.

(ii) Supplier claims

Suppliers’ claims include lawsuits filed by some suppliers alleging underpayment of monetary restatements, withholding of amounts related to the understated inflation rates deriving from Real economic plan, and the economic and financial imbalance of the agreements. These lawsuits are in progress at different courts and a provision is recognized when the chances of losses are probable.

(iii) Other civil claims

These mainly refer to indemnities for property damage, pain and suffering, and loss of profits allegedly caused to third parties, filed at different court levels, dully accrued when classified as probable losses.

(iv) Tax claims

Tax claims refers mainly to issues related to tax collections challenged due to differences in the interpretation of legislation by the Company's management, accrued when classified as probable loss.

(v) Labor claims

The Company is a party to labor lawsuits, involving issues such as overtime, shift schedule, health hazard premium and hazardous duty premium, prior notice, change of function, salary equalization, and other. Part of the amount involved is in provisional or final execution at various court levels, and thus is classified as of probable or possible loss. The Company recognized a provision for claims which likelihood of loss is considered probable. The decrease of R\$19,770 in lawsuits with probable chances of losses (net of escrow deposits) is mainly related to reversals of provisions referring to settlements in the Company's administrative proceedings.

PAGE: 62 of 80

Notes to the Interim Financial Information

(vi) Environmental claims

Environmental claims refer to several administrative proceedings and lawsuits filed by government entities, including Companhia de Tecnologia de Saneamento Ambiental – Cetesb, Public Prosecution Office of the State of São Paulo and others, that aim affirmative and negative covenants and penalty is estimated due to failure to comply in addition to the imposition of indemnity due to environmental damages allegedly caused by the Company. The amounts accrued represent the best estimate of the Company at this moment, however, may differ from the amount to be disbursed as indemnity to alleged damages, in view of the current stage of referred proceedings. The decrease of R\$40,729 in lawsuits with expectation of probable losses (net of escrow deposits) is mainly related to the change in amount of a lawsuit due to the expectation of settlement with the parties involved.

(c) Lawsuits with possible likelihood of loss

The Company is party to lawsuits and administrative proceedings relating to environmental, tax, civil and labor claims, which are assessed by Management whose chances of loss are possible and are not recorded. Liability contingencies classified as possible loss represent the amount of approximately R\$4,415,600 on March 31, 2015 (December/2014 – R\$3,779,100). The main variations refer to two new lawsuits (environmental and labor), totaling R\$276,225 and R\$98,279, respectively. The amounts considered for reporting purposes are the amounts questioned by adverse parties, which is not possible estimate the amounts involved for the Company, due to the initial phase of lawsuit.

(d) Lawsuits with settlements made in 2015

During the first quarter of 2015, the Company made several judicial and administrative settlements, and the main totaled R\$194,348. Of this amount, R\$189,475 refer to works and R\$4,873 refer to environmental compensation, the latter, recorded as “other liabilities”, in the statement of financial position. The balance payable on March 31, 2015, referring to these environmental liabilities is R\$22,676.

Other information is stated in Note 19 to the Annual Financial Statements as at December 31, 2014.

(v) Labor claims

19 Employee Benefits

(a) Health benefit plan

The health benefit plan is managed by Fundação Sabesp de Seguridade Social - SABESPREV and consists of optional, free choice, health plans sponsored by contributions of SABESP and the active participants, as follows:

- . Company: 7.3% on average, of gross payroll;

- . Participating employees - 3.21% of base salary and premiums, equivalent to 2.2% of payroll, on average.

Pursuant to Law 4,819/58, employees who started services prior to May 1974 and were retired as an employee of the Company acquired a legal right to receive supplemental pension payments, which rights are referred as "Plan G0". The Company pays these supplemental benefits on behalf of the State Government and makes claims for reimbursements from the State Government, which are recorded as accounts receivable from shareholder, limited to the amounts considered virtually certain that will be reimbursed by the State Government. As of March 31, 2015, the Company recorded a defined benefit obligation for Plan G0 of R\$2,081,608 (R\$2,053,527 on December 31, 2014).

(c) Profit sharing

The Company recorded as reference to the 2015 Profit Sharing Program, the amount corresponding to one-month salary for each employee, depending on the establishment goals. From January to March 2015 and 2014, R\$17,307 and R\$17,212, respectively were accrued.

20 Services payable

The services account records the balances payable, mainly from services received from third parties, such as supply of electric power, reading of hydrometers and delivery of water and sewage bills, cleaning, surveillance and security services, collection, legal counsel services, audit, marketing and advertising and consulting services, among others. This account also records the amounts payable from the percentage in the revenues of São Paulo local government. The balances on March 31, 2015 and December 31, 2014 were R\$402,830 and R\$318,973, respectively.

21 Equity

(a) Authorized capital

The Company is authorized to increase capital by up to R\$15,000,000 (R\$15,000,000 in December 2014), based on a Board of Directors' resolution, after submission to the Fiscal Council.

In the event of capital increase, issue of convertible debentures and/or warrants by means of private subscription, shareholders will have preemptive right in the proportion of number of shares held, pursuant to Article 171 of Law 6.404/76.

(b) Subscribed and paid-in capital

Subscribed and paid-in capital is represented by 683,509,869 registered, book-entry common shares without par value as of March 31, 2015 (683,509,869 in December 31, 2014), held as follows:

24 Operating Revenue

(a) Revenue from water and sewage services:

	January to March 2015	January to March 2014
Metropolitan region of São Paulo	1,301,350	1,729,248
Regional Systems (i)	703,142	715,183
Total (ii)	2,004,492	2,444,431

(i) Including the municipalities operated in countryside and at the coast of the State of São Paulo.

(ii) The gross operating revenue from sale of products and services decreased 18% on March 31, 2015, compared to same period of 2014. The decrease is, due to the 11.7% drop in the water and sewage total billed volume, from January to March 2015, when compared to same period of 2014. In addition, the amount of R\$211,235 related to bonus, contributed to the decrease of revenue. On the other hand, there was a positive impact of 5.22%, referring to the tariff adjustment in December 2014, besides the R\$79,271, related to contingency tariff, both from January to March 2015.

* Bonus: SABESP's Incentive Program for Reduction of Water Consumption

- **Bonus effectiveness is postponed**

By means of Resolution 536 of December 18, 2014, ARSESP authorized the postponement of the Incentive Program for Reduction Water Consumption's effectiveness until the end of 2015 or until the reservoir levels are regularized, whichever occurs first.

- **Adoption of contingency tariff**

On January 7, 2015, ARSESP published Resolution 545, through which it authorizes the contingency tariff to the users whose monthly consumption exceeds the average seen in the period between February 2013 and January 2014, as follows:

- (i) 40% addition over the tariff amount, applicable to the water consumption that exceeds until 20% of average; or
- (ii) 100% addition over the tariff amount, applicable to the water consumption that exceeds more than 20% of average.

All the users are subject to the contingency tariff, including those with firm demand contracts, except for the following cases:

- (i) those with water monthly consumption lower than or equal to 10 m³; and
- (ii) hospitals, first-aid clinics, nursing homes, police stations, prisons, detention facilities and centers of Fundação CASA (social and educational treatment center for adolescents).

The contingency tariff will take effect for consumption measured as of the publication of Resolution until December 31, 2015 and shall only apply to the municipalities' users:

- (i) where the regulation and inspection of sanitation services are the responsibility of ARSESP; and
- (ii) who have been included in the SABESP's Incentive Program to Reduce Water Consumption.

SANEAMENTO BÁSICO ESTADO SÃO PAULO

Version: 1

Notes to the Interim Financial Information

(ii) The monetary variation derives from increase in the indexes defined in the loan agreements, such as, TR and IPCA, which were 0.2% and 3.8%, respectively, in the first quarter of 2015 (0.2% and 2.2%, respectively, in same period of 2014). The exposures to these rates are shown in Note 4.1 (d).

(iii) The variation is mainly due to reversal of inflation adjustment of customers' lawsuits and environmental claims, due to settlements and the amendment in the chances of losses in these lawsuits, due to favorable decisions to the Company.

(iv) The increase in expenses mainly derives from appreciation of the US dollar and Yen in the first quarter of 2015, of 20.7% and 20.3%, respectively, compared to a depreciation of 3.4% and 1.6%, respectively, in the same period of 2014.

27 Other operating income (expenses), net

	January to March 2015	January to March 2014
Other net operating income (i)	29,283	16,507
Other operating expenses (ii)	2,774	(59,576)
Other net operating income (expenses), net	32,057	(43,069)

Other operating income is comprised by sale of property, plant and equipment, sale of contracts awarded in public bids, electricity selling right, indemnities and reimbursement of expenses, fines and collaterals, property leases, reuse water, PURA projects and services.

(i) Other operating income increased by R\$12.8 million, mainly due to revenue from the electricity selling right at the Chamber of Trade of Electricity, this increase was partially offset by a revenue decreased with the Water Rational Use Program (PURA).

Other operating expenses consist mainly of write-off of concessions due to obsolescence, discontinued construction works, unproductive wells, projects considered economically unfeasible, losses on property, plant and equipment.

(ii) The variation in other operating expenses is due to the decrease in expenses with provision for hydrometer losses in 2015 and the provision for losses with works, projects, hydrometer and accounts receivable with the municipality of Diadema recorded in 2014.

30 Events after the reporting period

- **Tariff revision**

On May 4, 2015, ARSESP published two resolutions:

- Resolution 560, which authorized a 7.7875% adjustment over current tariffs, composed of:

a) 2015 annual tariff adjustment of 7.1899%, calculated based on the 8.1285% variation of IPCA from March 2014 to March 2015, less the efficiency factor (X factor) of 0.9386%; and

b) additional adjustment of 0.5575%, due to the postponement to apply the Ordinary Tariff Revision, authorized for May 2014 but only applied in December 2014, when it was partially offset.

- Resolution 561, which established the 6.9154% index referring to SABESP's Extraordinary Tariff Revision applicable over the tariffs authorized on this date by ARSESP Resolution n° 560, mentioned above.

These two tariff adjustments, accumulated, result in an index of 15.24%, applicable 30 days after their publication in the State Official Gazette.

- **Water Supply and Sewage Services Agreement**

On May 7, 2015, the Company formalized the Water Supply and Sewage Services Agreement with the municipalities of Barueri and Mairiporã for a 30-year term.

- **CTEEP's shares are received**

On May 12, 2015, the Company received the transfer of 2,221,000 shares of Companhia de Transmissão de Energia Elétrica Paulista – CTEEP, referring to the first twenty-four installments of the Agreement with the São Paulo State Government, as per Note 9 (b).

REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

To the Shareholders, Board of Directors and Management of

Companhia de Saneamento Básico do Estado de São Paulo - SABESP

São Paulo - SP

Introduction

We have reviewed the accompanying interim financial information of Companhia de Saneamento Básico do Estado de São Paulo - SABESP (the “Company”) included in the Quarterly Information Form (ITR), for the quarter ended March 31, 2015, which comprises the financial position as of March 31, 2015 and the related statements of income, comprehensive income, changes in equity and cash flows for the three-month period then ended, including the explanatory notes.

The Company’s Management is responsible for the preparation of the interim financial information in accordance with technical pronouncement CPC 21 (R1) - Interim Financial Information and in accordance with international standard IAS 34 - *Interim Financial Reporting*, issued by the International Accounting Standards Board (IASB), as well as for the presentation of such information in accordance with the standards issued by the Brazilian Securities and Exchange Commission, applicable to the preparation of Interim Financial Information - ITR. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and international standards on review of interim financial information (NBC TR 2410 and ISRE 2410 - *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with standards on auditing and, consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information included in the ITR referred to above was not prepared, in all material respects, in accordance with CPC 21 (R1) and IAS 34, applicable to the preparation of Interim Financial Information - ITR, and presented in accordance with the standards issued by the Brazilian Securities and Exchange Commission.

Other matters

Statements of value added

We have also reviewed the statements of value added (DVA) for the three-month period ended March 31, 2015, prepared under the responsibility of the Company's Management, the presentation of which is required by the standards issued by the CVM - Brazilian Securities and Exchange Commission applicable to the preparation of Interim Financial Information - ITR and considered as supplemental information by IFRSs, which does not require the presentation of DVA. These statements were subject to the same review procedures described above, and, based on our review, nothing has come to our attention that causes us to believe that they were not prepared, in all material respects, consistently with the interim financial information taken as a whole.

The accompanying interim financial information has been translated into English for the convenience of readers outside Brazil.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
