GOL announces expansion of operating margin to 10% in 3Q16

Operating income was R\$233 million in the period

Message from Management

GOL posted an operating margin of 9.7% in 3Q16, accompanied by an operating result (EBIT) of R\$232.6 million, due to the rationalization of capacity, which reduced the number of seats available for sale by 20.1%, leading to a 1.5% increase in yield, and the strict control over costs, which fell by 12.6%. In the year through September, EBIT was R\$498.3 million, with a margin of 6.9%, and net income reached R\$1.1 billion, representing a margin of 15.7%.

Aiming to ensure a better flight experience for our customers, in August 2016 we launched the GOL Premium Lounge in Guarulhos International Airport in São Paulo. The new VIP lounge has modern and distinctive spaces specially designed to provide clients with increased ease and convenience. We will be inaugurating two more lounges, in the Galeão Airport in Rio de Janeiro, by 1Q17.

On October 4, we undertook the first commercial flight in South America with internet on board on the Congonhas-Brasilia-Congonhas route. The Company's entire fleet will be equipped with this service by October 2018.

We announced the expansion of our codeshare agreement with Copa Airlines and Aeromexico, as well as a new partnership with Emirates. As a result, passengers served by these companies will only have to check-in themselves and their baggage once and will be able to take advantage of an extensive route network. Customers will also benefit from being able to accumulate miles and redeem tickets through loyalty programs.

We deepened our activities with Smiles in order to provide more benefits and amenities to customers, exemplified by the expansion of miles accumulation to promotional fares. In addition, customers entitled to a category upgrade during the year and who accumulate more qualifying miles than necessary will be entitled to carry the surplus forward to the following year, helping them maintain their category or possibly entitling them to a new upgrade.

We concluded our service to the Olympic Summer Games held in Rio de Janeiro in August and September with absolute success. All in all, we carried more than 7,200 athletes, 5,604 passengers with reduced mobility or special needs, and 49 delegations. The launch of the accessibility ramp, the improvements in our processes and procedures and the excellence of our service, as well as the high level of security in our operations represent the medals we won in the Games and which we will wear with great pride!

I would like to thank all the organizations and our Team of Eagles who played a vital role in helping us get through this period of rapid economic change. We are convinced we will arise from this arduous and complex process even stronger, more efficient and fully prepared for a new cycle in Brazil's economy.

GOL announces expansion of operating margin to 10% in 3Q16

Operating income was R\$233 million in the period

Salaries, wages and benefits per ASK reached R\$3.30 cents, up 4.1% (-2.8% in nominal terms) compared to the previous year due to an increase of 11% in employee wages from the collective pay rise agreement, partially offset by 9.4% reduction in the workforce.

Aircraft rent per ASK totaled R\$2.31cents, a 8.0% increase (0.8% in nominal terms) compared to 2015, mainly due to the higher number of aircraft under operating lease contracts compared to the same period last year (101 on 3Q16 versus 98 on 3Q15), although there was an impact of 8.3% average depreciation of the US Dollar against the Real.

Sales and marketing per ASK registered R\$1.19 cents, a decrease of 16.3% (-21.9% in nominal terms) compared to the previous year, mainly due to the decrease in sales commission tickets and losses with accounts receivables.

Aircraft and traffic servicing per ASK totaled R\$2.12 cents in the period, stable compared to 3Q15 (-6.6% in nominal terms), due to increased expenses on IT services in domestic and international databases, more than offset by a lower volume of purchases of similar companies crossings.

Maintenance materials and repairs per ASK registered R\$0.91cents, a decrease of 8.7% (-14.7% in nominal terms) compared to 2015, reflecting the 8.3% appreciation in average BRL/USD rate and reversal of provisions related to aircraft returns.

Depreciation and amortization per ASK reached R\$0.88 cents, an increase of 3.1% (-3.7% in nominal terms), according to the aircraft returns and appreciation of the Real against the US dollar by 8.3%, partially counterbalanced by the reduction of life cycle of spare parts from 25 to 18 years.

Other expenses per ASK reached R\$0.85 cents, a 37.6% (-41.8% in nominal terms) decrease year-over-year due to the adjustment of Company's capacity and consequent lower number of accommodation for the crew members and interrupted flights.
