On May 20, 2011, Integra LifeSciences Holdings Corporation (the "Company") borrowed \$85 million under its senior secured revolving credit facility. As a result of this borrowing, the Company has \$291.3 million of outstanding borrowings under its credit facility as of the date of this filing. The Company used the funds for the acquisition of SeaSpine, Inc. and for other general corporate purposes.

The outstanding borrowings have one-month and three-month interest periods. The weighted average interest rate of the outstanding borrowings is approximately 2.56%.

The credit facility requires the Company to maintain various financial covenants, including a maximum consolidated total leverage ratio, a minimum fixed charge coverage ratio, a minimum liquidity requirement and a maximum capital expenditure requirement. The credit facility also contains customary affirmative and negative covenants, including those that limit the Company's and its subsidiaries' ability to incur additional debt, incur liens, make investments, enter into mergers and acquisitions, liquidate or dissolve, sell or dispose of assets, repurchase stock and pay dividends, engage in transactions with affiliates, engage in certain lines of business and enter into sale and leaseback transactions.
