**Infineon Technologies revises outlook for Communication Solutions**

Neubiberg, Germany May 29, 2008 Infineon Technologies today revised the outlook for its Communication Solutions segment due to lower volumes in certain wireless platform projects. Infineon now anticipates revenues in the third quarter of fiscal year 2008 to be about flat from the previous quarter. The company also expects that the revised revenue outlook in combination with customization expenses associated with the ramp of new platforms should lead to a decline in EBIT excluding gains and charges from the previous quarter. The company anticipates revenues and EBIT excluding gains and charges to improve in the fourth quarter of fiscal year 2008 compared to the previous quarter.
