Under the renewed facility, the credit limit may be increased to \$650 million or greater under certain circumstances and the period in which funds are available on a revolving basis has been extended to July 2, 2015, after which if the facility is not refinanced, the notes will convert to term notes with a maturity date of July 2, 2019. The term notes amortize on a level basis over the four year term period to 60% of the outstanding balance.

The interest rate on the notes is LIBOR plus 1.95% during the two year revolving period and will increase to LIBOR plus 2.95% for the term period. The advance rate is increased to 81%. The facility contains customary affirmative and negative covenants, financial covenants, representations and warranties, and events of default, which are subject to various exceptions and qualifications. The proceeds will be used to finance the acquisition of equipment and for other general corporate purposes.
