is still pushing forward the intelligence upgrade of the local access networks to speed up the full launch of services such as multi-service bundling and same number services across the market. This enables the Company to leverage the advantages of its capability to provide multi-faceted telecommunications services as well as extensive network resources, aiming to attract and retain fixed-line subscribers while mitigating the impact of mobile substitution.

The board of directors of the Company (the Board) wishes to remind investors that the above financial and operational data for the first three quarters in 2006 are unaudited. Investors are cautioned not to unduly rely on such data.

In the meantime, investors are advised to exercise caution in dealing in the securities of the Company.
