**Explanation for filing of Amendment:**

Inclusion of Management's conclusion regarding the effectiveness of our Disclosure Controls and Procedures to Item # 8a, which was inadvertently omitted, to properly reflect the required Item 307 information of Regulation S-B.

**Item 8A.**

**DISCLOSURE CONTROLS AND PROCEDURES**

**Evaluation of Disclosure Controls and Procedures**

Under the supervision and with the participation of management, including the Chief Executive Officer and President and the Chief Financial Officer, we evaluated the effectiveness of the design and operation of the disclosure controls and procedures (as such term is defined in Rule 13a-15(e) under the Securities and Exchange Act of 1934 (the Exchange Act)). Disclosure controls and procedures are the controls and other procedures that we designed to ensure that we record, process, summarize and report in a timely manner the information we must disclose in reports that we file with or submit to the Securities and Exchange Commission under the Exchange Act. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, our disclosure controls and procedures were effective as of the end of the period covered by this report.

**Changes in Internal Control over Financial Reporting**

There were no changes to our Company's internal control over financial reporting that occurred during the period that has materially affected, or is reasonably likely to materially affect the Company's internal control over financial reporting.

**Management's Report on Internal Control over Financial Reporting**

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. This internal control system was designed to provide reasonable assurance to the Company's management and Board of Directors regarding the preparation and fair presentation of published financial statements.

All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

Management assessed the effectiveness of the Company's internal control over financial reporting as of June 30, 2008. In making this assessment, we used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control Integrated Framework.

Based on our assessment, we believe that, as of June 30, 2008, the Company's internal control over financial reporting is effective based on those criteria.

There are two deficiencies, which are not required to be disclosed but to which management has elected to disclose, within the Company's internal control over financial reporting:

Segregation of Duties (control deficiency)

Due to the size of the Company, there is a lack of a proper segregation of duties, including that of the Chief Financial Officer.

Reporting Controls over Inventory (significant deficiency)

The Company lacks a perpetual inventory system to adequately account for inventory transactions and to report inventory, leading it to be reasonably possible that financial statements are misstated during interim periods. Full physical inventory counts are conducted at year-end allowing for any misstatement to be inconsequential.

This annual report does not include an attestation report of the Company's independent registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation pursuant to temporary rules of the Securities and Exchange Commission.
