AUTOZONE, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note A- Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and with instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments, including normal recurring accruals, considered necessary for a fair presentation have been included. Certain prior year amounts have been reclassified to conform to current year presentations. For further information, refer to the consolidated financial statements and footnotes included in the 2007 Annual Report to Shareholders for AutoZone, Inc. (AutoZone or the Company) for the year ended August 25, 2007.

Operating results for the twelve and twenty-four weeks ended February 9, 2008 are not necessarily indicative of the results that may be expected for the fiscal year ending August 30, 2008. Each of the first three quarters of AutoZone's fiscal year consists of 12 weeks, and the fourth quarter consists of 16 or 17 weeks. The fourth quarter for fiscal 2007 had 16 weeks and for fiscal 2008 will have 17 weeks. Additionally, the Company's business is somewhat seasonal in nature, with the highest sales generally occurring in the spring and summer months of March through August and the lowest sales generally occurring in the winter months of December through February.

Note B- Share-Based Payments

Share-based compensation transactions are accounted for in accordance with the provisions of Statement of Financial Accounting Standards (SFAS) No. 123(R) Share-Based Payment. AutoZone recognizes compensation expense for share-based payments based on the fair value of the awards at the grant date. Share-based payments include stock option grants and the discount on shares sold to employees under various share purchase plans.

Total share-based expense (a component of operating, selling, general and administrative expenses) was \$4.2 million for the twelve week period ended February 9, 2008 and was \$4.5 million for the comparable prior year period.

Share-based expense was \$8.4 million for the twenty-four week period ending February 9, 2008 and was \$8.8 million for the comparable prior year period.

AutoZone grants options to purchase common stock to some of its employees and directors under various plans at prices equal to the market value of the stock on the dates the options are granted. Options have a term of 10 years or 10 years and one day from grant date. Director options generally vest three years from the grant date. Employee options generally vest in equal annual installments on the first, second, third and fourth anniversaries of the grant date. Employees and directors generally have 30 days after the employment relationship ends, or one year after death, to exercise all vested options. The fair value of each option grant is separately estimated for each vesting date. The fair value of each option is amortized into compensation expense on a straight-line basis between the grant date for the award and each vesting date. The Company has estimated the fair value of all stock option awards as of the date of the grant by applying the Black-Scholes-Merton multiple-option pricing valuation model. The application of this valuation model involves assumptions that are judgmental and highly sensitive in the determination of compensation expense. The weighted average key assumptions used in determining the fair value of options granted in the twenty-four week periods ended February 9, 2008 and February 10, 2007 are as follows:

	2008	2007
Expected price volatility	25%	26%
Risk-free interest rate	3.7%	4.6%
Weighted average expected lives in years	4.0	3.9
Forfeiture rate	10.0%	10.0%
Dividend yield	0.0%	0.0%

The Company generally issues new shares when options are exercised. A summary of stock option activity since our fiscal year end is as follows:

	Twenty-Four Weeks Ended February 9, 2008		Twenty-Four Weeks Ended February 10, 2007	
	Weighted Average		Weighted Average	
	Options	Exercise Price	Options	Exercise Price
Beginning of year outstanding	2,956,765	\$ 79.24	3,355,542	\$ 70.73

Table of Contents

On December 12, 2007, the Board of Directors amended the 2003 Director Stock Option Plan in connection with the Board's adoption of a Director Compensation Program effective January 1, 2008. The Director Compensation Program allows each non-employee director to choose between two pay options, and the number of stock options a director receives under the Plan now depends on which pay option the director chooses. Prior to the amendment, each non-employee director automatically received an option to purchase 1,500 shares of common stock on January 1 of each year and each director who owned common stock worth at least five times the annual retainer fee on that date received an additional option to purchase 1,500 shares. In addition, each new director received an option to purchase 3,000 shares upon election to the Board, plus a portion of the annual directors' option grant prorated for the portion of the year served in office.

Note C- Income Taxes

AutoZone adopted Financial Accounting Standards Board Interpretation No. 48, Accounting for Uncertainty in Income Taxes, (FIN 48) on August 26, 2007. FIN 48 prescribes a recognition threshold that a tax position is required to meet before being recognized in the financial statements and provides guidance on derecognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure and transition issues. The adoption of FIN 48 resulted in a charge to the beginning balance of retained earnings of \$26.9 million at the date of adoption. Including this cumulative effect amount, total unrecognized tax benefits upon adoption were \$49.2 million. Of this total, \$23.8 million represented unrecognized tax benefits that, if recognized, would reduce the Company's effective tax rate.

The Company accrues interest on unrecognized tax benefits as a component of income tax expense. Penalties, if incurred, would be recognized as a component of income tax expense. Upon adoption of FIN 48, the Company had approximately \$16.3 million of such accrued interest and penalties included in accrued liabilities associated with unrecognized tax benefits. As of February 9, 2008, there were no material changes to the adoption date disclosures made above.

The major jurisdictions where the Company files income tax returns are the United States and Mexico. Generally, returns filed for tax years 2003 through 2007 remain open and subject to examination by the relevant tax authorities. The Company is typically engaged in various tax examinations at any given time, both by U. S. federal and state taxing jurisdictions and Mexican tax authorities. As a result of tax audit closings, settlements, and the expiration of statutes to examine such returns in various jurisdictions over the next 12 months, the Company estimates that the amount of unrecognized tax benefits could be reduced by approximately \$30.5 million.

Note D- Inventories

Inventories are stated at the lower of cost or market using the last-in, first-out (LIFO) method. Included in inventory are related purchasing, storage, delivery and handling costs. Due to price deflation on the Company's merchandise purchases, the Company's inventory balances are effectively maintained under the first-in first-out method. The Company's policy is not to write up inventory in excess of replacement cost, resulting in cost of sales being reflected at the higher amount. The cumulative balance of this unrecorded adjustment, which is reduced upon experiencing price inflation on our merchandise purchases, was \$228.6 million at February 9, 2008, and \$227.9 million at August 25, 2007.

Note E- Pension Plans

The (income) cost components of net periodic benefit income related to our pension plans for all periods presented are as follows:

The Company makes contributions in amounts at least equal to the minimum funding requirements of the Employee Retirement Income Security Act of 1974. During the twenty-four week period ended February 9, 2008 the Company made \$1.3 million in contributions to the plan and expects to fund approximately \$2 million during the remainder of this fiscal year.

Table of Contents**Note F- Long-Term Debt**

The Company's long-term debt consisted of the following:

<i>(in thousands)</i>	February 9, 2008	August 25, 2007

	\$ 2,095,000	\$ 1,935,618

Balances maturing in the next twelve months are classified as long-term in the accompanying condensed consolidated balance sheets as the Company has the ability and intent to refinance them on a long-term basis.

Note G- Stock Repurchase Program

On June 6, 2007, the Board of Directors increased the Company's cumulative share repurchase authorization limit from \$5.4 billion to \$5.9 billion. From January 1, 1998 to February 9, 2008, the Company has repurchased a total of 102.2 million shares at an aggregate cost of \$5.8 billion, including 2,897,744 shares of its common stock at an aggregate cost of \$350.0 million during the twenty-four week period ended February 9, 2008. Considering cumulative repurchases as of February 9, 2008, the Company has \$108.3 million remaining under the Board's authorization to repurchase its common stock.

Note H- Comprehensive Income

Comprehensive income includes foreign currency translation adjustments; the impact from certain derivative financial instruments designated and effective as cash flow hedges, including changes in fair value, as applicable, and the reclassification of gains and/or losses from accumulated other comprehensive loss to net income to offset the earnings impact of the underlying items being hedged; and changes in the fair value of certain investments classified as available for sale. Comprehensive income for all periods presented is as follows:

Report of Independent Registered Public Accounting Firm
The Board of Directors and Stockholders
AutoZone, Inc.

We have reviewed the condensed consolidated balance sheet of AutoZone, Inc. as of February 9, 2008, the related condensed consolidated statements of income for the twelve and twenty-four week periods ended February 9, 2008 and February 10, 2007, and the condensed consolidated statements of cash flows for the twenty-four week periods ended February 9, 2008 and February 10, 2007. These financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the condensed consolidated financial statements referred to above for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of AutoZone, Inc. as of August 25, 2007, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for the year then ended, not presented herein, and, in our report dated October 19, 2007, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of August 25, 2007 is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.****Overview**

We are the nation's leading specialty retailer and a leading distributor of automotive parts and accessories. As of February 9, 2008, we operated 4,128 stores including 128 stores in Mexico, compared with 3,955 stores including 108 stores in Mexico at February 10, 2007. Each of our stores carries an extensive product line for cars, sport utility vehicles, vans and light trucks, including new and remanufactured automotive hard parts, maintenance items, accessories and non-automotive products. In many of our stores we also have a commercial sales program that provides commercial credit and prompt delivery of parts and other products to local, regional and national repair garages, dealers and service stations. We also sell the ALLDATA brand diagnostic and repair software. On the web, we sell diagnostic and repair information and automotive hard parts, maintenance items, accessories and non-automotive products through www.autozone.com. We do not derive revenue from automotive repair or installation.

Operating results for the twelve and twenty-four weeks ended February 9, 2008, are not necessarily indicative of the results that may be expected for the fiscal year ending August 30, 2008. Each of the first three quarters of our fiscal year consists of 12 weeks, and the fourth quarter consists of 16 or 17 weeks. The fourth quarter for fiscal 2007 had 16 weeks and for fiscal 2008 will have 17 weeks. Additionally, our business is somewhat seasonal in nature, with the highest sales generally occurring in the spring and summer months of March through August and the lowest sales generally occurring in the winter months of December through February.

Twelve Weeks Ended February 9, 2008,**Compared with Twelve Weeks Ended February 10, 2007**

Net sales for the twelve weeks ended February 9, 2008, increased \$38.9 million to \$1.339 billion, or 3.0% over net sales of \$1.300 billion for the comparable prior year period. Domestic same store sales (sales for stores opened at least one year) decreased 0.3%. Domestic retail sales increased 1.9%, domestic commercial sales increased 3.4%, and combined sales from our ALLDATA and Mexico operations increased 18.3%.

Gross profit for the twelve weeks ended February 9, 2008, was \$667.8 million, or 49.9% of net sales, compared with \$639.2 million, or 49.2% of net sales, during the comparable prior year period. Gross profit as a percentage of sales was favorable primarily due to our ongoing category management efforts.

Operating, selling, general and administrative expenses for the twelve weeks ended February 9, 2008, were \$470.9 million, or 35.2% of net sales, compared with \$450.3, or 34.6% of net sales, during the comparable prior year period. The increase in operating expenses, as a percentage of sales, was primarily due to higher occupancy costs. Interest expense, net for the twelve weeks ended February 9, 2008, was \$28.6 million compared with \$26.8 million during the comparable prior year period. This increase was primarily due to higher average borrowing levels over the comparable prior year period. Average borrowings for the twelve weeks ended February 9, 2008, were \$2.155 billion, compared with \$1.933 billion for the comparable prior year period. Weighted average borrowing rates were 5.3% at February 9, 2008, and 5.7% at February 10, 2007.

Our effective income tax rate was 36.6% of pretax income for the twelve weeks ended February 9, 2008, and 36.5% for the comparable prior year period. The actual annual rate for fiscal 2008 will depend on a number of factors, including the amount and source of operating income and the timing and nature of discrete income tax events.

Net income for the twelve week period ended February 9, 2008, increased by \$3.7 million to \$106.7 million, and diluted earnings per share increased by 15.7% to \$1.67 from \$1.45 in the comparable prior year period. The impact on current quarter diluted earnings per share from the stock repurchases since the end of the comparable prior year period was an increase of \$0.08.

Twenty-Four Weeks Ended February 9, 2008,**Compared with Twenty-Four Weeks Ended February 10, 2007**

Net sales for the twenty-four weeks ended February 9, 2008, increased \$101.5 million to \$2.795 billion, or 3.8% over net sales of \$2.693 billion for the comparable prior year period. This increase in sales was primarily driven by sales from new stores, as domestic comparable store sales (sales for domestic stores opened at least one year) were flat. Domestic DIY sales increased 2.8%, domestic commercial sales increased 3.9%, and combined sales from our ALLDATA and Mexico operations increased 19.8%.

Gross profit for the twenty-four weeks ended February 9, 2008, was \$1.394 billion, or 49.9% of net sales, compared with \$1.325 billion, or 49.2% of net sales, during the comparable prior year period. Gross profit as a percentage of sales was favorable primarily due to our ongoing category management efforts.

Table of Contents

Operating, selling, general and administrative expenses for the twenty-four weeks ended February 9, 2008, was \$960.0 million, or 34.3% of net sales, compared with \$912.6 million, or 33.9% of net sales, during the comparable prior year period. The increase in operating expenses, as a percentage of sales, was primarily due to higher occupancy costs.

Interest expense, net for the twenty-four weeks ended February 9, 2008, was \$56.7 million compared with \$53.9 million during the comparable prior year period. This increase was primarily due to higher average borrowing levels. Average borrowings for the twenty-four weeks ended February 9, 2008, were \$2.095 billion, compared with \$1.944 billion for the comparable prior year period. Weighted average borrowing rates were 5.5% at February 9, 2008, and 5.7% at February 10, 2007.

Our effective income tax rate was 36.6% of pretax income for the twenty-four weeks ended February 9, 2008, and 36.6% for the comparable prior year period. The actual annual rate for fiscal 2008 will depend on a number of factors, including the amount and source of operating income and the timing and nature of discrete income tax events.

Net income for the twenty-four week period ended February 9, 2008, increased by \$12.3 million to \$239.2 million, and diluted earnings per share increased by 16.7% to \$3.70 from \$3.17 in the comparable prior year period. The impact on current year diluted earnings per share from the stock repurchases since the end of the comparable prior year period was an increase of \$0.16.

Liquidity and Capital Resources

The primary source of our liquidity is our cash flows realized through the sale of automotive parts and accessories. For the twenty-four weeks ended February 9, 2008, our net cash flows from operating activities provided \$297.0 million as compared with \$280.5 million during the comparable prior year period. The increase was primarily due to growth in net income. Our cash flows from operating activities continued to benefit from our inventory purchases being largely financed by our vendors as evidenced by our accounts payable to inventory ratio of 89% at February 9, 2008 and 87% at February 10, 2007.

Our net cash flows from investing activities for the twenty-four weeks ended February 9, 2008, used \$106.0 million as compared with \$118.4 million used in the comparable prior year period. Capital expenditures for the twenty-four weeks ended February 9, 2008, were \$95.1 million compared to \$102.3 million for the comparable prior year period. During this twenty-four week period, we opened 72 stores, including five new stores in Mexico. In the comparable prior year period, we opened 76 domestic stores, including two stores that were closed as a result of hurricane damage in the prior year, and eight in Mexico. We expect to invest in our business consistently with historical rates during fiscal 2008, primarily related to our new store development program, enhancements to existing stores and the construction of our new distribution center in Pennsylvania. Investing cash flows were also impacted by our wholly-owned insurance captive, which purchased \$25.5 million in marketable securities and sold \$14.1 million in marketable securities during the twenty-four week period ended February 9, 2008. During the comparable prior year period, this captive purchased \$59.5 million in marketable securities and sold \$43.2 million in marketable securities. Our net cash flows from financing activities for the twenty-four weeks ended February 9, 2008, used \$184.1 million compared to \$167.6 million used in the comparable prior year period. Net proceeds from commercial paper borrowings were \$198.3 million versus \$2.7 million in the comparable prior year period. Repayment of debt was \$38.9 million as compared to \$5.6 million in the comparable prior year period. Stock repurchases were \$350.0 million in the current twenty-four week period as compared with \$219.7 million in the comparable prior year period. For the twenty-four weeks ended February 9, 2008, proceeds from the sale of common stock and exercises of stock options provided \$14.1 million, including \$2.4 million in related tax benefits. In the comparable prior year period, proceeds from the sale of common stock and exercises of stock options provided \$59.6 million, including \$12.2 million in related tax benefits.

Depending on the timing and magnitude of our future investments (either in the form of leased or purchased properties or acquisitions), we anticipate that we will rely primarily on internally generated funds and available borrowing capacity to support a majority of our capital expenditures, working capital requirements and stock repurchases. The balance may be funded through new borrowings. We anticipate that we will be able to obtain such financing in view of our credit ratings and favorable experiences in the debt markets in the past.

Credit Ratings

At February 9, 2008, AutoZone had a senior unsecured debt credit rating from Standard & Poor's of BBB+ and a commercial paper rating of A-2. Moody's Investors Service had assigned us a senior unsecured debt credit rating of Baa2 and a commercial paper rating of P-2. On December 5, 2007, Standard & Poor's revised the credit outlook for AutoZone to negative from stable. If our credit ratings drop, our interest expense may increase; similarly, we anticipate that our interest expense may decrease if our credit ratings are raised. If our commercial paper ratings drop below current levels, we may have difficulty continuing to utilize the commercial paper market and our interest expense could increase, as we could then be required to access more expensive bank lines of credit. If our senior unsecured debt ratings drop below investment grade, our access to financing may become more limited.

Table of Contents*Debt Facilities*

We maintain \$1.0 billion of revolving credit facilities with a group of banks to primarily support commercial paper borrowings, letters of credit and other short-term unsecured bank loans. These facilities, which expire in May 2010, may be increased to \$1.3 billion at AutoZone's election, allow up to \$200 million in letters of credit, and allow up to \$100 million in capital leases. As the available balance is reduced by commercial paper borrowings and certain outstanding letters of credit, the Company had \$451.8 million in available capacity under these facilities at February 9, 2008. The rate of interest payable under the credit facilities is a function of Bank of America's base rate or a Eurodollar rate (each as defined in the facility agreements), or a combination thereof.

Our borrowings under our Senior Notes arrangements contain minimal covenants, primarily restrictions on liens. Under our other borrowing arrangements, covenants include limitations on total indebtedness, restrictions on liens, a minimum fixed charge coverage ratio and a provision where repayment obligations may be accelerated if AutoZone experiences a change in control (as defined in the agreements). All of the repayment obligations under our borrowing arrangements may be accelerated and come due prior to the scheduled payment date if covenants are breached or an event of default occurs. As of February 9, 2008, we were in compliance with all covenants and expect to remain in compliance with all covenants.

Stock Repurchases

On June 6, 2007, the Board of Directors increased the Company's cumulative share repurchase authorization from \$5.4 billion to \$5.9 billion. From January 1, 1998 to February 9, 2008, we have repurchased a total of 102.2 million shares at an aggregate cost of \$5.8 billion, including 2,897,744 shares of its common stock at an aggregate cost of \$350.0 million during the twenty-four week period ended February 9, 2008. Considering cumulative repurchases as of February 9, 2008, the Company has \$108.3 million remaining under the Board's authorization to repurchase our common stock.

Off-Balance Sheet Arrangements

In conjunction with our commercial sales program, we offer credit to some of our commercial customers. Certain of the receivables related to the credit program are sold to a third party at a discount for cash with limited recourse. We have established a reserve for this recourse. At February 9, 2008, the receivables facility had an outstanding balance of \$54.5 million and the balance of the recourse reserve was approximately \$1.5 million.

Since fiscal year end, we have cancelled, issued new and modified existing stand-by letters of credit that are primarily renewed on an annual basis to cover premium and deductible payments to our workers' compensation carrier. Our total standby letters of credit commitment at February 9, 2008, was \$113.2 million compared with \$113.3 million at August 25, 2007, and our total surety bonds commitment at February 9, 2008, was \$11.5 million compared with \$11.3 million at August 25, 2007.

We have entered into pay-on-scan (POS) arrangements with certain vendors, whereby we will not purchase merchandise supplied by a vendor until just before that merchandise is ultimately sold to our customers. Title and certain risks of ownership remain with the vendor until the merchandise is sold to our customers. Since we do not own merchandise under POS arrangements until just before it is sold to a customer, such merchandise is not recorded on our balance sheet. Upon the sale of the merchandise to our customers, we recognize the liability for the goods and pay the vendor in accordance with the agreed-upon terms. Although we do not hold title to the goods, we control pricing and credit collection risk and therefore, gross revenues under POS arrangements are included in net sales in the income statement. Sales of merchandise under POS approximated \$13.6 million and \$24.9 million for the twelve and twenty-four weeks ended February 9, 2008, and \$45.0 million and \$110.2 million for the twelve and twenty-four weeks ended February 10, 2007. Merchandise under POS arrangements was \$10.8 million at February 9, 2008, and \$22.4 million at August 25, 2007.

Critical Accounting Policies

In our first quarter 2008 filing on form 10-Q, we made the following change to our critical accounting policies from those disclosed in Part II, Item 7, of our Annual Report on Form 10-K for the fiscal year ended August 25, 2007.

As discussed in Note C Income Taxes to the accompanying unaudited condensed consolidated financial statements, AutoZone adopted Financial Accounting Standards Board Interpretation No. 48, Accounting for Uncertainty in Income Taxes, (FIN 48) on August 26, 2007. The adoption of FIN 48 resulted in a charge to the beginning balance of

retained earnings of \$26.9 million at the date of adoption. We previously accounted for such contingent liabilities in accordance with Statement of Financial Accounting Standards No. 5, Accounting for Contingencies (SFAS 5). Under FIN 48, we recognize tax benefits only for income tax positions that are more likely than not to be sustained upon examination by tax authorities. The amount recognized is measured as the largest amount of benefit that is greater than 50 percent likely to be realized upon settlement with the taxing authority. Unrecognized tax benefits are tax benefits claimed in our returns or expected to be claimed in our returns that do not meet these recognition and/or the measurement standards. We classify interest and penalties, if applicable, related to income tax liabilities as a component of income tax expense.

Table of Contents**Forward-Looking Statements**

Certain statements contained in this Quarterly Report on Form 10-Q are forward-looking statements. Forward-looking statements typically use words such as believe, anticipate, should, intend, plan, will, expect, estimate, positioned, strategy and similar expressions. These are based on assumptions and assessments made by our management in light of experience and perception of historical trends, current conditions, expected future developments and other factors that we believe to be appropriate. These forward-looking statements are subject to a number of risks and uncertainties, including without limitation, competition; product demand; the economy; credit markets; the ability to hire and retain qualified employees; consumer debt levels; inflation; weather; raw material costs of our suppliers; energy prices; war and the prospect of war, including terrorist activity; availability of commercial transportation; construction delays; access to available and feasible financing; and changes in laws or regulations. Forward-looking statements are not guarantees of future performance and actual results, developments and business decisions may differ from those contemplated by such forward-looking statements, and such events could materially and adversely affect our business. Forward-looking statements speak only as of the date made. Except as required by applicable law, we undertake no obligation to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise. Actual results may materially differ from anticipated results. Please refer to the Risk Factors section contained in our Annual Report on Form 10-K for the fiscal year ended August 25, 2007, for more information related to those risks.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

At February 9, 2008, the only material changes to our instruments and positions that are sensitive to market risk since the disclosures in our 2007 Annual Report to Shareholders were the \$198.3 million net increase in commercial paper and the purchase of \$25.5 million in marketable securities, partially offset by the sale of \$14.1 million in short-term investments, to support the self-insurance reserves in our wholly-owned insurance captive.

The fair value of our debt was estimated at \$2.115 billion as of February 9, 2008, and \$1.928 billion as of August 25, 2007, based on the quoted market prices for the same or similar debt issues or on the current rates available to AutoZone for debt of the same remaining maturities. Such fair value is greater than the carrying value of debt by \$20.1 million at February 9, 2008, and less than the carrying value of debt by \$7.6 million at August 25, 2007. Considering the effect of any interest rate swaps designated and effective as cash flow hedges, we had \$405.0 million of variable rate debt outstanding at February 9, 2008, and \$245.6 million of variable rate debt outstanding at August 25, 2007. At these borrowing levels for variable rate debt, a one percentage point increase in interest rates would have had an unfavorable annual impact on our pre-tax earnings and cash flows of \$4.1 million in fiscal 2008 and \$1.6 million in fiscal 2007, which includes the effects of interest rate swaps. The primary interest rate exposure on variable rate debt is based on LIBOR. Considering the effect of any interest rate swaps designated and effective as cash flow hedges, we had outstanding fixed rate debt of \$1.690 billion at February 9, 2008, and August 25, 2007. A one percentage point increase in interest rates would reduce the fair value of our fixed rate debt by \$58.0 million at February 9, 2008 and \$60.8 million at August 25, 2007.

Item 4. Controls and Procedures.

An evaluation was performed under the supervision and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of February 9, 2008. Based on that evaluation, our management, including the Chief Executive Officer and Chief Financial Officer, concluded that our disclosure controls and procedures were effective as of February 9, 2008. During or subsequent to the quarter ended February 9, 2008, there were no changes in our internal controls that have materially affected or are reasonably likely to materially affect, internal controls over financial reporting.

PART II. OTHER INFORMATION**Item 1. Legal Proceedings.**

As of the date of this filing, there have been no additional material legal proceedings or material developments in the legal proceedings disclosed in Part I, Item 3, of our Annual Report on Form 10-K for the fiscal year ended August 25, 2007.
