Section 2 Financial Information

Item 2.05 Costs Associated with Exit or Disposal Activities.

As a result of continued adverse market conditions, the Registrant has initiated a program to further reduce its overhead and other costs. The program includes an expected salaried workforce reduction and is targeted to reduce costs by an additional \$25 million to \$35 million annually, before charges for termination benefits.

The cost reduction program, including the expected workforce reduction, is being communicated to salaried employees beginning on May 11, 2009. The first step in the expected workforce reduction will be to offer voluntary severance benefits. After the number of participants in the voluntary separation program is determined, an involuntary separation program may be implemented. Employees who are separated, either voluntarily or involuntarily, will receive separation benefits that include a lump sum payment based on earnings and length of service, an allowance to continue medical, dental and vision coverage and outplacement services. It is expected that all affected employees will be informed, and that the separation plan will be substantially completed, by the end of June 2009.

The Registrant will record charges for termination benefits related to the workforce reductions in the current and future fiscal quarters in accordance with FASB Statement of Financial Accounting Standards No. 146, Accounting for Costs Associated with Exit or Disposal Activities. The Registrant estimates that these charges will aggregate \$3 million to \$5 million and that cash expenditures will be incurred in the current and future fiscal quarters in the full amount of the charges.
