PROXY STATEMENT

ANNUAL MEETING OF STOCKHOLDERS
May 17, 2018

INTRODUCTION

We are furnishing this Proxy Statement to you in connection with a solicitation of proxies by the Board of Directors (the "Board") of Cboe Global Markets, Inc., a Delaware corporation, for use at the Cboe Global Markets, Inc. 2018 Annual Meeting of Stockholders (the "Annual Meeting") on Thursday, May 17, 2018 at 9:00 a.m., local time, and at any adjournments or postponements of the Annual Meeting. The approximate date on which this Proxy Statement and the accompanying form of proxy are first being sent to stockholders is April 5, 2018.

Except as otherwise indicated, the terms "the Company," "Cboe Global Markets," "we," "us" and "our" refer to Cboe Global Markets, Inc. Following the acquisition of Bats, on October 16, 2017, we changed our name to Cboe Global Markets, Inc. When we use the term "Cboe Options," we are referring to Cboe Exchange, Inc. (formerly known as Chicago Board Options Exchange, Incorporated), a wholly owned subsidiary and predecessor entity of Cboe Global Markets.

VOTING INSTRUCTIONS AND INFORMATION

Why did I receive these proxy materials?

Our Board is asking for your proxy in connection with the Annual Meeting. By giving us your proxy, you authorize the proxyholders (Edward T. Tilly and Patrick Sexton) to vote your shares at the Annual Meeting according to the instructions that you provide. If the Annual Meeting is adjourned or postponed, your proxy will be used to vote your shares when the meeting reconvenes.

Our 2017 Annual Report to Stockholders, which includes a copy of our Annual Report on Form 10-K for the year ended December 31, 2017 (excluding exhibits), as filed with the Securities and Exchange Commission (the "SEC"), is being mailed to stockholders with this Proxy Statement.

Who can vote at the Annual Meeting?

You are entitled to vote your shares of our common stock if you were a stockholder at the close of business on March 20, 2018, the record date for the Annual Meeting. On that date, there were 112,319,786 shares of our common stock outstanding and 345,836 unvested restricted shares of our common stock outstanding, which have been granted to our employees and directors and have voting rights at the Annual Meeting. Therefore, there are 112,665,622 shares of voting common stock outstanding, each of which entitles the holder to one vote for each matter to be voted on at the Annual Meeting. Our outstanding common stock is held by approximately 181 stockholders of record as of March 20, 2018.

Who is and is not a stockholder of record?

If you hold shares of common stock registered in your name at our transfer agent, Computershare, you are a stockholder of record.

If you hold shares of common stock indirectly through a broker, bank or similar institution, or are an employee or director who holds shares of restricted stock at Fidelity, you are not a stockholder of record, but instead hold in "street name." Please see the information under the heading "If I hold my shares in "street name" and do not provide voting instructions, can my broker still vote my shares?" for important information.

Table of Contents

If you are a stockholder of record, Computershare is sending these proxy materials to you directly. If you hold shares in street name, these materials are being provided to you either by the broker, bank or similar institution through which you hold your shares.

What do I need to do to attend the Annual Meeting?

Attendance at the Annual Meeting is generally limited to our stockholders and their authorized representatives. All stockholders must bring an acceptable form of identification, such as a driver's license, in order to attend the Annual Meeting in person. In addition, if you hold shares of common stock in street name and would like to attend the Annual Meeting, you will need to bring an account statement or other acceptable evidence of ownership of shares as of the close of business on March 20, 2018, the record date for the Annual Meeting.

If you hold shares in street name and you want to vote your shares in person at the Annual Meeting, you must bring a legal proxy signed by your bank, broker or nominee to the Annual Meeting.

Any representative of a stockholder who wishes to attend the Annual Meeting must present acceptable documentation evidencing his or her authority, acceptable evidence of ownership by the stockholder of common stock as described above and an acceptable form of identification. We reserve the right to limit the number of representatives for any stockholder who may attend the Annual Meeting.

Please contact Investor Relations at investorrelations@Cboe.com or (312) 786-5600 in advance of the Annual Meeting if you have questions about attending the Annual Meeting, including regarding the required documentation. If you plan to attend the Annual Meeting, please provide adequate time to pass through the security process necessary to gain access to the meeting room.

Will the Annual Meeting be webcast?

Yes. A live webcast of the Annual Meeting will be provided on the Investor Relations section of our website at <http://ir.Cboe.com>. On the Events and Presentations page of our Investor Relations website, click on "Listen to Webcast" for the Annual Meeting. If you miss the meeting, you can view a replay of the webcast on that site. Please note that you will not be able to vote your shares or ask questions via the webcast. Please submit your vote in advance of the Annual Meeting.

How do I vote?

You may cast your vote in one of four ways:

• **By Internet.** The web address for Internet voting is www.investorvote.com/Cboe and is also on the enclosed proxy card. Internet voting is available 24 hours a day.

• **By Telephone.** The number for telephone voting is 1-800-652-VOTE (8683) and is also on the enclosed proxy card. Telephone voting is available 24 hours a day.

• **By Mail.** Mark the enclosed proxy card, sign and date it, and return it in the pre-paid envelope we have provided. • **At the Annual Meeting.** You may vote in person at the Annual Meeting (see "What do I need to do to attend the Annual Meeting?").

If you choose to vote by Internet, by telephone or at the Annual Meeting, then you do not need to return the proxy card. To be valid, your vote by Internet, telephone or mail must be received by May 16, 2018, the deadline specified on the proxy card. If you vote by Internet or telephone and subsequently obtain a legal proxy from your account representative, then your prior vote will be revoked regardless of whether you vote that legal proxy.

The Internet and telephone voting procedures are designed to authenticate stockholders' identities, allow stockholders to give their voting instructions and confirm that stockholders' instructions have been recorded properly. Stockholders voting by Internet or telephone should understand that, while we do not charge any fees for voting by Internet or telephone, there may nevertheless be costs that must be borne by you.

Table of Contents

May I change my vote?

If you are a stockholder of record, you may revoke your proxy or change your vote at any time before it is voted at the Annual Meeting by:

- submitting a new proxy by telephone or through the Internet, after the date of the earlier voted proxy,
- returning a signed proxy card dated later than your last proxy,
- submitting a written revocation to the Corporate Secretary of Cboe Global Markets, Inc. at 400 South LaSalle Street, Chicago, Illinois 60605, or
- appearing in person and voting at the Annual Meeting.

If you are a stockholder of record and need a new proxy card, to change your vote or otherwise, please contact the Corporate Secretary at the address above or via email at CorporateSecretary@Cboe.com.

If your bank, broker or other nominee holds your shares in "street name," you may revoke your proxy or change your vote only by following the separate instructions provided by your bank, broker or nominee.

To vote in person at the Annual Meeting, you must attend the meeting and cast your vote in accordance with the voting provisions established for the Annual Meeting. Attendance at the Annual Meeting without voting in accordance with the voting procedures does not, by itself, revoke a proxy. If your bank, broker or other nominee holds your shares and you want to attend and vote your shares at the Annual Meeting, you must bring a legal proxy signed by your bank, broker or nominee to the Annual Meeting.

If I submit a proxy by Internet, telephone or mail, how will my shares be voted?

If you properly submit your proxy by one of these methods, and you do not subsequently revoke your proxy, your shares of common stock will be voted in accordance with your instructions.

If you sign, date and return your proxy card but do not give voting instructions, your shares of common stock will be voted as follows:

- FOR the election of each of our director nominees,
- FOR the advisory vote to approve the compensation paid to our executive officers,
- FOR the approval of the Cboe Global Markets, Inc. Employee Stock Purchase Plan,
- FOR the ratification of the appointment of Deloitte as our independent registered public accounting firm for our 2018 fiscal year, and
- otherwise in accordance with the judgment of the persons voting the proxy on any other matter properly brought before the Annual Meeting.

In addition, if you properly submit your proxy by one of these methods, and you do not subsequently revoke your proxy, and any other matters are properly presented at the Annual Meeting, your shares of common stock will be voted in accordance with the judgment of the persons voting the proxy on such matters. We are not aware of any other matters that will be considered at the Annual Meeting.

If I hold my shares in "street name" and do not provide voting instructions, can my broker still vote my shares?

Under the rules of various securities exchanges, brokers that have not received voting instructions from their customers 10 days prior to the meeting date may vote their customers' shares in the brokers' discretion on the proposal regarding the ratification of the appointment of Deloitte as our independent registered public accounting firm for our 2018 fiscal year, because the rules of the exchanges currently deem this a "discretionary" matter. Absent instruction, brokers will not be able to vote on any of the other matters included in this Proxy Statement. If brokers exercise their discretion in voting on

Table of Contents

the proposal regarding the ratification of Deloitte, a "broker non-vote" will occur as to the other matters presented for a vote at the Annual Meeting, unless you provide voting instructions.

What vote is required for adoption or approval of each matter?

Election of Directors. You may vote FOR or AGAINST each of the director nominees or you may ABSTAIN. Each nominee must receive the affirmative vote of a majority of the votes cast with respect to his or her election in order to be elected. Each nominee has tendered his or her resignation, contingent on failing to receive a majority of the votes cast in this election and acceptance by the Board. In the event any director fails to receive a majority of votes cast, the Nominating and Governance Committee will consider and make a recommendation to the Board as to whether to accept the resignation.

Advisory Vote to Approve Executive Compensation. You may vote FOR or AGAINST the advisory proposal to approve our executive compensation or you may ABSTAIN. A majority of the shares of common stock cast must be voted FOR approval of the advisory proposal in order for it to pass. Votes cast FOR or AGAINST with respect to the proposal will be counted as shares cast on the proposal.

Approval of the Cboe Global Markets, Inc. Employee Stock Purchase Plan. You may vote FOR or AGAINST the proposal to approve the Cboe Global Markets, Inc. Employee Stock Purchase Plan or you may ABSTAIN. A majority of the shares of common stock cast must be voted FOR approval of the proposal in order for it to pass. Votes cast FOR or AGAINST with respect to the proposal will be counted as shares cast on the proposal.

Ratification of the Appointment of our Independent Registered Public Accounting Firm. You may vote FOR or AGAINST the ratification of the appointment of our independent registered public accounting firm or you may ABSTAIN. A majority of the shares of common stock cast must be voted FOR ratification in order for it to pass. Votes cast FOR or AGAINST with respect to this matter will be counted as shares cast on the matter.

Abstentions and Broker Non-Votes. Abstentions and broker non-votes will not be considered a vote cast either for or against any of the matters being presented in this proxy statement. If you do not provide your broker with voting instructions, the broker cannot vote your shares on any matter other than the ratification of the appointment of our independent registered public accounting firm. A "broker non-vote" occurs when your broker submits a proxy for the meeting with respect to discretionary matters, but does not vote on non-discretionary matters because you did not provide voting instructions on these matters. In the case of a discretionary matter (i.e., the ratification of the appointment of our independent registered public accounting firm), your broker is permitted to vote your shares of common stock even when you have not given voting instructions (as described above under "If I hold my shares in "street name" and do not provide voting instructions, can my broker still vote my shares?").

How many votes are required to transact business at the Annual Meeting?

A quorum is required to transact business at the Annual Meeting. The holders of a majority of the outstanding shares of our common stock as of March 20, 2018, present in person or represented by proxy and entitled to vote, will constitute a quorum for the transaction of business at the Annual Meeting. Abstentions and broker non-votes are treated as present for quorum purposes.

What happens if the meeting is postponed or adjourned?

Your proxy will remain valid and may be voted at the postponed or adjourned meeting. You will be able to change or revoke your proxy until it is voted.

Who will count the vote?

The Company has engaged Computershare to serve as the inspector of elections for the Annual Meeting. As inspector of elections, Computershare will tabulate the voting results.

What does it mean if I get more than one proxy or voting instruction card?

If your shares are registered in more than one name or in more than one account, you will receive more than one card. This may occur if you hold common stock in multiple accounts, such as with different brokers in street name and as the record holder with Computershare. Please complete and return all of the proxy or voting instruction cards that you receive (or vote by telephone or through the Internet all of the shares on all of the proxy or voting instruction cards received) to ensure that all of your shares are voted.

PROPOSAL ONE

ELECTION OF DIRECTORS

Board Composition

Our Third Amended and Restated Certificate of Incorporation provides that our Board will consist of not less than 11 and not more than 23 directors. Our Board currently has 14 directors. Each director is elected annually to serve until the next Annual Meeting of Stockholders or until his or her successor is elected or appointed and qualified, except in the event of earlier death, resignation or removal. There is no limit on the number of terms a director may serve on our Board.

General

At the Annual Meeting, our stockholders will be asked to elect the 13 director nominees set forth below, each to serve until the 2019 Annual Meeting of Stockholders. All of the director nominees have been recommended for election by our Nominating and Governance Committee and approved and nominated for election by our Board. The director nominees include two new nominees, James E. Parisi and Jill E. Sommers. In addition, with respect to Mr. Tilly, his employment agreement provides that the Company will nominate him as a director for stockholder approval at each annual meeting during his employment with us. All of the director nominees, other than Mr. Parisi and Ms. Sommers, were elected as directors by stockholders at the 2017 Annual Meeting of Stockholders.

Messrs. Boris, Mitchell and Skinner are not standing for reelection as directors at the Annual Meeting. We thank them for their dedicated service to the Cboe family. The Board intends to decrease the total number of directors constituting our entire Board to 13, reflecting its intent to fill two of the three vacancies created by these three departures.

All of the nominees have indicated their willingness to serve if elected. If any nominee is unable or unwilling to serve as a director at the time of the Annual Meeting, then shares represented by properly executed proxies will be voted at the discretion of the persons named in those proxies for such other person as the Board may designate. We do not presently expect that any of the nominees will be unavailable. Your proxy for the Annual Meeting cannot be voted for more than 13 nominees.

Qualifications and Experience

The Board believes that the skills, qualifications and experiences of the director nominees make them all highly qualified to serve on our Board, both individually and as providing complementary skills on our Board. Our director nominees also exhibit an effective mix of diverse perspectives. Board Structure

Independence

Our Bylaws require that, at all times, no less than two-thirds of our directors will be independent. The Nominating and Governance Committee has affirmatively determined that all of our current directors are independent under Nasdaq Global Select Market's ("Nasdaq") and BZX Exchange's ("BZX") listing standards for independence, except Mr. Tilly. In addition, R. Eden Martin and Susan M. Phillips, who resigned as directors effective February 28, 2017 in connection with the closing of the acquisition of Bats, were determined to be independent. William J. Brodsky, who resigned as a director effective February 28, 2017 in connection with the closing of the acquisition of Bats, was determined not to be independent.

All of the directors on each of the Audit, Compensation and Nominating and Governance Committees are independent. Each of these Committees reports to the Board as they deem appropriate, and as the Board may request.

Lead Director

The Board has an independent Lead Director, Mr. Boris. Our Corporate Governance Guidelines require that an independent director serve as our Lead Director. The Lead Director is elected by the Board, upon the recommendation of the Nominating and Governance Committee. In connection with Mr. Boris not standing for reelection as a director at the Annual Meeting, a new Lead Director is expected to be elected by the Board, upon the recommendation of the Nominating and Governance Committee. The Charter of the Lead Director, Appendix A to our Corporate Governance Guidelines, provides that the Lead Director's responsibilities include, among other items:

- Chair all meetings of the non-employee and independent directors of the Board, including the executive sessions;
 - Approve agendas for Board meetings and consult with the Chairman on other matters pertinent to us and the Board;
 - Serve as a liaison between the Chairman and the independent Directors;
 - Approve meeting schedules to assure that there is sufficient time for discussion of all agenda items;
 - Advise and consult with the Chairman and CEO on the general scope and type of information to be provided in advance of Board meetings;
- In collaboration with the Chairman and CEO, consult with the appropriate members of senior management about what information pertaining to our finances, operations, strategic alternatives, and compliance is to be sent to the Board; and
- To perform other duties as the Board may determine.

Chairman and CEO Roles

Effective February 28, 2017, in connection with the closing of the acquisition of Bats, we combined the roles of Chairman and CEO, with Mr. Tilly serving as the Chairman and CEO. Prior to that time, the roles of Chairman and CEO, were separated, with Mr. Brodsky serving as Chairman and Mr. Tilly serving as CEO. The Board carefully considered its Board leadership structure and the benefits of continuity in leadership roles and determined that combining the roles of Chairman and CEO at this time enhances the Company's strategic alignment and supports Cboe Global Markets' ability to deliver stockholder value.

The Board periodically reviews the leadership structure and may make changes in the future based upon what the Board believes to be in the best interests of the Company and stockholders at the time. At certain points in our history, the Chairman and CEO roles have been held by the same person, and at other times, the roles have been held by different individuals. Under our Bylaws, the Chairman may, but need not be, our CEO, and the Board believes it is important to retain its flexibility to allocate the responsibilities of the offices of the Chairman and CEO in any way that is in the best interests of the Company and stockholders at a given point in time based upon then-prevailing circumstances. The Board believes that the decision as to who should serve in those roles, and whether the offices should be combined or separate, should be assessed periodically by the Board, and that the Board should not be constrained by a rigid policy mandate when making these determinations.

Table of Contents

In addition, our Board has implemented the following elements in order to ensure independent oversight for us and for our Board:

- requiring the Board to consist of at least two-thirds independent directors who meet regularly without management and solely with non-employee and independent directors,

- appointing an independent Lead Director.

Board Oversight of Risk

The Board is responsible for overseeing our risk management processes. The Board stays apprised of particular risk management matters in accordance with its general oversight responsibilities.

In 2017, the Board delegated to the Audit Committee oversight of risk management. Among its duties, the Audit Committee was responsible for reviewing our compliance, guidelines, policies and practices for identifying, assessing and managing key risks, and reviewing the adequacy and effectiveness of internal controls and procedures. In late 2017, the Board delegated to the Risk Committee oversight of risk management beginning in 2018. The Risk Committee was established on December 19, 2017 and had no meetings during 2017. Among its duties, the Risk Committee is responsible for reviewing our compliance, guidelines, policies and practices for identifying and assessing and managing key risks. The Audit Committee has been delegated oversight of risk management as it relates to the adequacy and effectiveness of internal controls and procedures and financial reporting risk. The Compensation Committee has been delegated oversight of risk management as it relates to our compensation policies and procedures. All Committees report to the full Board on a routine basis and when a matter rises to the level of a material or enterprise level risk.

Our management is responsible for daily risk management. In addition, representatives of each of our divisions attend periodic enterprise risk management meetings at which an established matrix of identified risks is reviewed to evaluate the level of potential risks facing us and to identify any new risks. This group, along with our Chief Risk Officer, provided information and recommendations to the Audit Committee in 2017 as necessary and provides information and recommendations to the Risk Committee as necessary. We believe this division of risk management responsibilities is an effective approach for addressing the enterprise risks that we face.

We believe that each of the individuals serving on our Board has the necessary skills, qualifications and experiences to address the challenges and opportunities we face. The Nominating and Governance Committee is responsible for considering and recommending to the Board nominees for election as director, including considering each incumbent director's continued service on the Board. The Committee annually reviews the skills and characteristics required of directors in the context of the current composition of the Board, our operating requirements and the long-term interests of our stockholders. In evaluating director candidates, the Committee takes into consideration many factors, including the individual's educational and professional background, whether the individual has any special experience in a relevant area, personal accomplishments and cultural experiences. In addition, the Committee may consider such other factors it deems appropriate when conducting its assessment of director candidates.

Board Self-Evaluations

The Nominating and Governance Committee is responsible for establishing and overseeing the Board's and Committees' annual self-evaluations to determine whether the Board and the Committees are functioning effectively and to identify potential areas of improvement. The annual evaluation process includes the Chairman of the Nominating and Governance Committee and the Lead Director interviewing each member of the Board and each Committee conducting its own self-evaluation by discussing various topics and subject areas related to the Committee. These discussions are then reported to the Nominating and Governance Committee and the Board for their review and consideration.

Stockholder Engagement

Cboe Global Markets and its Board are committed to fostering long-term and institution-wide relationships with stockholders and maintaining their trust and goodwill. As a result, each year we interact with stockholders through a variety of engagement activities. These engagements routinely cover strategy and performance, corporate governance, compensation and other current and emerging issues to ensure that our Board and management understand and address the issues that are important to our stockholders.

In 2017, we also conducted an outreach specifically focused on corporate governance and proxy season trends and issues, targeting our top ten stockholders that represent nearly 50 percent of institutional holdings. Through this effort, we spoke with representatives representing nearly 28 percent of our outstanding shares at the time of the outreach. Through these discussions we gain valuable feedback, and this feedback is shared with the Board and its relevant Committees and we take steps to address any areas of improvement. These discussions also covered our executive compensation program.

In addition, our quarterly earnings calls are open to the general public and feature a live webcast. The Annual Meeting, to be held in Chicago, also includes a live webcast, so all of our stockholders may listen to the meeting remotely if they are unable to attend the meeting in person.

Communications with Directors

As provided in our Corporate Governance Guidelines, stockholders and other interested parties may communicate directly with our independent directors or the entire Board. Our policy and procedures regarding these communications are located in the Investor Relations section of our website at <http://ir.Cboe.com>.

Brodsky and Martin and Ms. Phillips vested on February 28, 2017. In addition, they also received in connection with the acquisition of Bats retainer payments that would have been payable to them if they had not ceased to serve on the Board prior to our 2017 Annual Meeting of Stockholders.

(4) Messrs. Mitchell, Ratterman and Richter, who joined the Board on February 28, 2017, also received the same compensation and equity as described above for all other directors, but on a pro rata basis for the portion of time served in 2017 until our 2017 Annual Meeting of Stockholders, which included a grant to each of 270 shares of restricted stock that vested in 2017.

Director Stock Ownership and Holding Guidelines

The Compensation Committee has adopted stock ownership and holding guidelines, which provide that each non-employee director should own stock equal to three times the cash annual retainer for directors within three years of joining the Board. For purposes of this ownership and holding requirement, (a) shares owned outright or in trust and (b) restricted stock, including shares that have been granted but are unvested, are included. In addition, each non-employee director is required to hold all of their shares until the guidelines are met, except for sales of shares to pay taxes with respect to the vesting or exercising of equity grants. Other than Mr. Farrow, who was first elected to our Board in 2016, each of the non-employee incumbent directors has met the ownership requirement as of December 31, 2017.

Director Hedging and Pledging Policies

Under our Insider Trading Policy, our directors are prohibited from entering into transactions involving options to purchase or sell our common stock or other derivatives related to our common stock. Our Insider Trading Policy also prohibits directors from entering into any pledges or margin loans on shares of our common stock. None of the directors have existing pledges or margin loans on shares of our common stock.

2017 Business Highlights

The following is a brief summary of our 2017 business highlights as they relate to the key performance metrics used in our performance-based compensation program as well as other business highlights.

On February 28, 2017, we completed our transformational acquisition of Bats. Following the acquisition, we are one of the world's largest exchange holding companies and a leader in providing global investors cutting-edge trading and investment solutions. Our 14 trading venues include the largest options exchange in the U.S. and the largest stock exchange by value traded in Europe, and the Company is the second-largest stock exchange operator in the U.S. and a leading market globally for exchange-traded products trading.

Increased share of total U.S. exchange-traded options contracts on a combined company basis for 2017 to 41.4%, up from 38.7% for 2016.

We ended 2017 with approximately \$25 million in realized synergies, primarily seen in compensation and benefits and professional fees and outside services. We also continued to make solid progress executing on our integration plans.

As planned, on February 25, 2018, we completed the migration of CFE to the Bats technology platform. The migration of our trading technology onto Bats' proven platform underpins the scale and efficiency we expect to gain from the acquisition of Bats. We expect to complete the C2 migration to the Bats technology platform on May 14, 2018.

Realized fifth consecutive year of record index option trading, with new average daily volume record highs in VIX options and futures and SPX options.

Grew our ETP listings to 250, an 82% increase from 137 at the end of 2016. Of those additions, 30 are BlackRock iShares funds, which transferred from a competing marketplace in 2017. Our market share grew to 12% of all U.S. ETPs from 7% in 2016.

We won 32% of all new U.S. ETP listings and 62% of transfers, our highest-ever percentages, including some of the largest ETP launches this year.

Grew our global FX market share to approximately 13% for the year, up from 12% in 2016.

We continued to focus on our core index business, while extending our global reach to promote an expanded product line. We opened a satellite Hong Kong office, while continuing to leverage our presence in London and Singapore. We believe that the performance of the Company demonstrates that management is keenly focused on obtaining short-term results, while positioning the Company for long-term growth. We also continued our integration of Bats, while achieving our previously disclosed synergy goals. Our business continued to generate strong cash flows from operations and we paid down debt and deployed capital to enhance stockholder returns while retaining the flexibility to pursue new opportunities. To that end, in 2017:

in keeping with our goal of consistent and sustainable dividend growth, we increased our quarterly dividend by 8% to \$0.27 per share; and

we paid off \$400 million of the \$1.65 billion of debt we incurred in the aggregate to finance our acquisition of Bats.

As a result of these business highlights and capital allocation decisions, as of December 31, 2017, we achieved a total stockholder return of approximately 70% for 2017 and approximately 104% over the past three years.

Compensation Philosophy and Summary

Our executive compensation program is designed to attract and retain talented and dedicated executives who are instrumental in our achievement of key strategic business objectives. To meet these objectives, the Compensation Committee designed and implemented a program that pays a substantial portion of executive compensation based on corporate and individual performance.

The Compensation Committee believes that compensation plays a vital role in contributing to the achievement of key strategic business objectives that ultimately drive long-term business success. Accordingly, we designed our executive compensation program to focus our executives on achieving critical corporate financial and strategic goals, while taking steps to position the business for sustained growth in financial performance over time. The compensation arrangements for Messrs. Concannon and Hemsley, which are set forth in their respective employment and offer letter agreements, were determined using the same methodology as used for each of the other named executive officers. These employment and offer letter agreements are described more fully below under "Severance, Change in Control and Employment-Related Agreements."

The following table lists the various components included in total compensation for our executive officers and each element's purpose. Later sections provide additional details regarding each component.

The following charts are an approximate distribution of the total target 2017 compensation mix for the Chairman and Chief Executive Officer and the other named executive officers as a group (excluding Messrs. Provost and O'Connell).

Total target compensation is the sum of an executive officer's 2017 base salary, target annual incentive and target value for long-term equity awards (i.e., RSUs and PSUs). The following does not reflect the Lag Grants (as defined below), Sign-on Grants (as defined below) nor the retirement benefits described below.

2017 Compensation Changes

The Board and Compensation Committee determine actual bonus payouts based on achieved results against pre-established performance metrics. For both 2016 and 2017, bonus payouts were based on achieved performance against a corporate performance metric weighted 70% and individual performance goals weighted 30%. As a result of the acquisition of Bats and our executives' focus on the integration of Bats and growing our revenues, the Compensation Committee changed the 2017 corporate performance metrics to better align the interests of our executives with our business strategy and with stockholders. For 2017, the corporate performance metrics were the achievement of synergies and revenues, compared to 2016, when the corporate performance metric was pre-tax, pre-bonus net income.

Previously, the Compensation Committee approved granting PSUs that were one-half subject to relative total stockholder return goals and one-half subject to earnings per share goals. As a result of the Bats acquisition, the Compensation Committee determined not to grant PSUs subject to earnings per share goals in 2017, due to the difficulty in setting a meaningful long-term earnings per share goal immediately following the acquisition. Therefore, the Compensation Committee

Table of Contents

approved granting all PSUs subject to the achievement of relative total stockholder return against pre-determined performance goals over a three-year performance period.

The Board and Compensation Committee annually review whether our compensation program rewards our executives based on the performance of the Company and with a pay mix that is in-line with our peers, without causing sudden disruptions in compensation that may result in turnover. In connection with this review, for 2017, the Board and Compensation Committee changed the methodology for granting equity awards. Previously, the Board and Compensation Committee granted a mix of RSUs and PSUs in the first quarter of the year to each executive that related to the prior service year. The equity awards were essentially granted on a one-year lag ("Lag Grants"). To align with best practices, stockholder interests and our peers, beginning in 2017, the Board and Compensation Committee granted a mix of RSUs and PSUs in the first quarter of the service year. Since 2017 is the transition year, the Summary Compensation Table below reflects both the Lag Grants for 2016 service, and the annual equity awards ("Catch-up Grants") that were granted for 2017 service. We do not plan to award equity on a one-year lag in the future. With the granting of the 2017 Catch-Up Grants, the Board and Compensation Committee believe that the new compensation cycle for executives has been established and plan to continue granting annual awards in the first quarter of the service year.

Role of the Compensation Committee

The Compensation Committee is responsible for reviewing the various components of the total compensation program for all executive officers. The Compensation Committee either approves or makes recommendations to the Board regarding compensation related decisions. To provide the Compensation Committee with advice and assistance related to the design of our incentive compensation plans, the Compensation Committee engaged Meridian Compensation Partners, LLC ("Meridian") as its independent compensation consultant. Meridian consultants regularly attend meetings of the Compensation Committee. In addition, Messrs. Tilly and Concannon generally attended in 2017 portions of the meetings of the Compensation Committee to provide information and assistance, other than when the Compensation Committee discussed the respective executive's compensation.

Independent Compensation Consultant

Meridian, our independent compensation consultant, reviews the executive compensation program and advises the Compensation Committee on best practices and plan design to help improve the Company's program's effectiveness. In addition, the consultant provides advice to the Compensation Committee on the Company's compensation peer groups and on the competitive positioning of the various components of the executive compensation program. The independent compensation consultant also meets with the Compensation Committee in executive session without management present and may communicate directly, as needed, with members of the Compensation Committee and the Board at large. Based on a review of its engagement of the independent compensation consultant and consideration of factors set forth in SEC, Nasdaq and BZX rules, the Compensation Committee determined that Meridian's work did not raise any conflicts of interest and that it is independent.

Company's Response to Stockholder Votes on Say-on-Pay and on Frequency of Stockholder Vote on Say-on-Pay
At the 2017 Annual Meeting of Stockholders, our "say-on-pay" proposal received the support of over 95% of the votes cast for approval of our 2016 executive compensation program as disclosed in our 2017 Proxy Statement, and every year since going public in 2010, we have received over 85% stockholder support of our executive compensation programs. The Compensation Committee has reviewed the results of the stockholder vote on our 2016 executive compensation program and considered such results supportive of our executive compensation program and the Compensation Committee's measured approach to modifying our compensation practices to enhance their alignment with stockholder interests. In addition, the Compensation Committee has determined that the vote result did not warrant any large-scale changes to our executive compensation program; however, the Compensation Committee continues to take steps to ensure our compensation practices remain aligned with best practices and stockholder interests.

In addition, at the 2017 Annual Meeting of Stockholders, the proposal to continue the annual frequency for holding a stockholder vote on future "say-on-pay" proposals received the support of over 85% of the votes cast. In connection

with such result, the Board determined that a non-binding "say-on-pay" vote will be included annually, consistent with prior practice, in our future proxy materials until the next vote on frequency or until the Board elects to implement a different frequency for such advisory votes.

Peer Groups and Comparative Data

Based on advice from our independent compensation consultant, the Compensation Committee continued to use two peer groups from which to derive competitive market compensation data: (i) the Securities Exchange Peer Group and (ii) the Broader Financial and Technology Industry Peer Group. The Securities Exchange Peer Group was composed of seven companies, each with a heavy focus on our industry. The Broader Financial and Technology Industry Peer Group was composed of 18 companies, and included financial services firms and technology-focused companies with corporate profiles similar to ours, with revenues ranging between one-third to three-times the Company's projected annual revenue. The Compensation Committee utilizes this two peer group model to derive meaningful compensation data due to our unique business model and to ensure that our target compensation is competitive. The Compensation Committee also uses this data as points of reference, rather than as the determining factors in setting compensation for our executive officers.

With respect to the industry-specific Securities Exchange Peer Group, the Compensation Committee recognizes that the Company falls below the median annual revenue, but believes that the Securities Exchange Peer Group is appropriate due to the limited number of competitors in our industry. With respect to the Broader Financial and Technology Industry Peer Group, the Company's annual revenue falls slightly above the median of the peer group and the Company's market capitalization falls above the median of the peer group.

Elements of Compensation

Base Salary. The base salary for our named executive officers is designed to be part of a competitive total compensation package when compared to both of our peer groups. Base salary provides our named executive officers with a measure of certainty within their total compensation package and provides a baseline for their target payout opportunity under the annual incentive plan. In setting base salary, in addition to considering peer group data, the Compensation Committee also considered for each named executive officer the following factors:

position, individual performance,
experience, potential to influence our future success, and
industry specific knowledge, total compensation.
level of responsibility,

For 2017, the Compensation Committee reviewed and made recommendations to the Board regarding the base salaries for each of the named executive officers, other than Messrs. Concannon and Hemsley, with input in part from Mr. Tilly regarding the individual performances of Mr. Dean, Ms. Moffic-Silver, Mr. Provost and Mr. O'Connell. Due to the acquisition of Bats, our strong corporate performance in 2016, Mr. Tilly's assumption of additional responsibilities in leading a larger company, and our goal of aligning compensation with comparative market data provided by Meridian, the base salary for Mr. Tilly increased 15% in February 2017. No changes were made to the base salaries for Mr. Dean, Ms. Moffic-Silver, Mr. Provost and Mr. O'Connell in 2017.

With respect to Messrs. Concannon and Hemsley, for 2017, the Compensation Committee reviewed and made recommendations to the Board regarding their initial base salaries upon the beginning of their employment with us. In setting base salaries, the Compensation Committee considered input in part from Mr. Tilly, the executives' pay histories at Bats and comparative market data provided by Meridian. The base salaries are set forth in their respective employment and offer letter agreements, which are described more fully below under "Severance, Change in Control and Employment-Related Agreements."

Annual Incentive. The annual incentive, or bonus, component of the total compensation package paid to our named executive officers is intended to reward performance relative to annual goals that were approved by the Board and Compensation Committee at the beginning of the year. In the first quarter following the performance year, the Compensation Committee reviews corporate and individual performance for the year and makes recommendations to the Board for annual incentives to be paid to the named executive officers.

The Compensation Committee established a target annual incentive opportunity for each of the named executive officers, other than Messrs. Concannon and Hemsley, by considering market data derived from our two peer groups, in addition to the following factors: the executive officer's job responsibilities, experience, pay history and ability to affect our success in the upcoming year. With respect to Messrs. Concannon and Hemsley, for 2017, the Compensation Committee established a target annual incentive opportunity for each of the executive officers by considering comparative market data and the following factors: the executive officer's expected job responsibilities, experience, pay history at Bats and ability to affect our success in the upcoming year, following the start of their employment with us. The initial target annual incentive opportunities for Messrs. Concannon and Hemsley are set forth in their respective employment and offer letter agreements, which are described more fully below under "Severance, Change in Control and Employment-Related Agreements."

Below are the 2017 target annual incentive amounts for the named executive officers, shown as a percentage of salary. The target annual incentive opportunity amount for Mr. Tilly increased from 150% in 2016 to 165% in February 2017, due to the acquisition of Bats, strong corporate performance in 2016, his additional responsibilities in leading a larger company and to align compensation with comparative market data provided by Meridian. We made no changes to the target annual incentive opportunity amounts for Mr. Dean, Ms. Moffic-Silver, Mr. Provost and Mr. O'Connell in 2017.

The Compensation Committee determines actual bonus payouts based on achieved results against pre-established performance metrics. The use of pre-established performance metrics creates an annual incentive plan that rewards our executive officers for superior performance, reduces payouts when performance does not meet target and eliminates payouts if performance does not meet threshold. In addition, the performance metrics create a more structured, formulaic annual incentive plan - the executive officers know throughout the year what needs to be accomplished and what specific bonus dollar amounts can be earned at different performance levels.

The Company funds the annual incentive plan for our U.S. named executive officers from a bonus pool based on the achievement of a corporate performance metric. The Compensation Committee also establishes annual performance metrics for each named executive officer that include corporate metrics and non-financial individual goals. At the beginning of 2017, the Compensation Committee established the "bonus pool" based on a percentage of the Company's adjusted pre-tax net income and allocated a fixed proportion of any bonus pool formed to our named executive officers, other than Mr. Hemsley, who is a U.K. based employee, and Messrs. Provost and O'Connell. However, the Compensation Committee maintains discretion to adjust a named executive officer's allocable share of the bonus pool based on achieved performance against corporate performance metrics (achievement of synergies and revenues) weighted 70% in the aggregate and individual performance goals weighted 30%. In no event may the Compensation Committee award an annual incentive bonus in an amount greater than a named executive officer's allocable portion of the bonus pool.

Under the annual incentive plan, the Compensation Committee established threshold, target and maximum performance levels. The Company will pay no annual incentive bonus if actual performance is below threshold. The following chart shows the aggregate bonus payout opportunity for each named executive officer at these performance levels. Mr. Hemsley receives his cash compensation in British pounds and his salary and bonus payout opportunity as reported below were converted to U.S. dollars using a rate of £1.00 to \$1.35, which was the exchange rate as of December 31, 2017.

Corporate Performance. The corporate performance metrics, achievement of synergies (30%) and achievement of revenue (40%), are weighted 70% in the aggregate of each named executive officer's target annual incentive opportunity. The Compensation Committee approved these metrics to better align the interests of our executives with stockholders and to focus on the integration of Bats through cost savings and growing our revenue. More specifically,

these metrics focus and reward management's efforts to achieve key business strategy goals of synergies related to the transformational acquisition of Bats and continuing to increase our revenue by increasing trading in our products.

Table of Contents

The Compensation Committee established the following levels of the achievement of synergies and revenue for 2017 to be met with respect to threshold, target and maximum bonus payouts. The Compensation Committee used straight-line interpolation to determine amounts for any results in between the threshold and target performance levels and in between the target and maximum performance levels. The following also shows the actual performance and percentage payouts for 2017.

Performance Metric	Weighting	Threshold	Target	Maximum	Actual
Corporate Performance Metrics					
Achievement of Synergies	30%	\$10 million	\$15 million	\$25 million	\$25 million
Percentage Payout of Target	—	50%	100%	150%	150%
Achievement of Revenue	40%	\$916 million	\$1,145 million	\$1,374 million	\$1,154 million
Percentage Payout of Target	—	0%	100%	200%	101%

The 2017 achievement of synergies is measured as of December 31, 2017 and the target is \$15 million of 2017 realized cost synergies that was reviewed by the Board in September 2016 and thereafter publicly disclosed. The achievement of 2017 revenue is revenues less cost of revenues, other than royalties, measured as of December 31, 2017 on a combined company basis, which assumes that the acquisition of Bats occurred on January 1, 2017. The target 2017 revenues less cost of revenues, other than royalties, projection was presented to and reviewed by the Board.

On February 9, 2018, we publicly disclosed the 2017 realized cost synergies and revenue on a combined company basis. Revenues less cost of revenues, other than royalties, on a combined company basis is a non-GAAP measure used by the Company and a reconciliation to GAAP revenues is provided in Appendix B. For 2017, the unweighted payout percentage for corporate performance was approximately 131% of each named executive officer's target annual incentive award opportunity, not including Messrs. Provost, Dean and O'Connell. The separation agreements for Messrs. Provost, Dean and O'Connell are described more fully below under "Severance, Change in Control and Employment-Related Agreements."

Individual Performance. The individual performance goals are 30% of each named executive officer's target annual incentive opportunity. Based upon data and analysis on each goal as provided by management, the Compensation Committee determined the unweighted payout percentage of target annual incentive award opportunity for individual performance for each named executive officer.

Early in 2017, the Compensation Committee set the following strategic goals for 2017:

- **Acquisition of Bats:** Ensure successful integration of Bats;
- **Resources:** Ensure resources are in place to implement plans to leverage existing technology and develop new trading technology;
- **Indexes:** Strengthen core index franchise;
- **Methodologies:** Pursue leveragable methodologies;
- **Customer Engagement:** Reach out via education, technology and analytics;
- **Geographic Expansion:** Widen global access and distribution;
- **Asset Class Diversification:** Create markets for the Company's capabilities; and
- **Customer Capital:** Facilitate products and customers.

As discussed above in "2017 Business Highlights," overall, we substantially performed on our targeted 2017 strategic goals.

The Compensation Committee received input from Mr. Tilly regarding the individual performance of Mr. Concannon. The Compensation Committee also received input from Messrs. Tilly and Concannon regarding the individual performances and recommendations regarding incentive compensation of the other executive officers. The Compensation Committee, with input from the Board, also evaluated the performance of Messrs. Tilly and Concannon with respect to the following:

Table of Contents

Mr. Tilly's Individual Goals:

- manage the Company and its affiliates to achieve the strategic goals listed above which allow for long-term success;
- manage the successful integration of Bats;
- manage communications with the investment community so as to cultivate a loyal stockholder base; and
- work with the Compensation Committee and the Board in continuing to develop and enhance the Company's succession plan for all senior management positions. The succession plan will identify and qualify multiple potential successors for each senior management position.

Mr. Concannon's Individual Goals:

- ensure resources are in place to execute the Company's strategic goals listed above;
- manage the successful integration of Bats;
- manage communications with the investment community so as to cultivate a loyal stockholder base; and
- manage the operation of the Company and its affiliates to ensure reliable and efficient service at a competitive cost.

Based on these factors and its deliberations, the Compensation Committee determined for individual performance the payout percentage of each named executive officer's target annual incentive award opportunity. Such individual performance payout percentages of target ranged from 115% to 198%, not including Messrs. Provost, Dean and O'Connell. The "Non-Equity Incentive Plan Compensation" column of the Summary Compensation Table below reflects amounts paid under the annual incentive plan.

Long-Term Incentive Plan. The Compensation Committee strongly believes that a stock ownership culture enhances our long-term success. We have adopted the Second Amended and Restated Long-Term Incentive Plan, which was approved by stockholders at the 2016 Annual Meeting of Stockholders. Under the plan, the Compensation Committee may grant equity or cash awards, including restricted stock, restricted stock units and options. Stock options were not featured in our long-term incentive program in 2017.

The Compensation Committee believes that equity awards assist us in meeting the following goals:

- aligning the financial interests of our Board members and employees with the interests of our stockholders;
- aligning our Board and executive compensation with that of our peers in terms of vehicle and value;
- providing competitive compensation to assist in retaining highly skilled and qualified Board members and executives; and
- deferring a significant portion of total compensation to the future and linking the ultimate value of the award to our future stock price.

In addition, in connection with our acquisition of Bats, the Company assumed the Bats Global Markets, Inc. 2009 Stock Option Plan (the "2009 Plan"), the Bats Global Markets, Inc. Third Amended and Restated 2012 Equity Incentive Plan (the "2012 Plan") and the Bats Global Markets, Inc. 2016 Omnibus Incentive Plan (the "2016 Plan", and collectively, the "Bats Plans"). Restricted stock and stock options were granted to Bats' employees under the Bats Plans and vest in equal annual installments over either three or four years. The stock options and some restricted stock granted under the Bats Plans are fully vested. Following Bats' initial public offering, no new awards could be made under the 2009 Plan and 2012 Plan. No awards have been made under the Bats Plans subsequent to our acquisition of Bats. We will not grant any additional awards under the Bats Plans; however, there are still awards outstanding under these plans. Information on the outstanding awards and shares of common stock reserved under the Bats Plans is provided more fully below under "Equity Compensation Plan Information."

2017 Grants

The Compensation Committee and the Board granted equity awards in early 2017 for 2016 service, also known as the Lag Grants, and also granted equity awards in early 2017 for 2017 service, also known as the Catch-up Grants.

Messrs. Concannon and Hemsley received the Catch-up Grants and were not eligible for Lag Grants because they joined us in connection with the acquisition of Bats and provided no services to us in 2016.

Catch-up Grants

The Catch-up Grants are long-term incentive awards granted in connection with the 2017 service year and were awarded at the target amount for each executive. The Compensation Committee set each named executive officer's target long-term incentive value based on comparative market data and individual performance. Once the Compensation Committee set the target long-term incentive value for each named executive officer, one-half of the target value was granted in the form of time-based RSUs and one-half of the target value was granted in the form of PSUs.

Time-Based Restricted Stock Units. Time-based RSUs comprise 50% of the 2017 grant value and have a three-year vesting period, with one-third of the RSUs vesting on each of the first, second and third anniversaries of the grant date. The vesting of these awards is not subject to performance conditions. The Compensation Committee granted time-based RSUs to align the interests of management with stockholders and to provide a retention incentive.

Performance-Based Restricted Stock Units subject to Relative Total Stockholder Return ("PSUs-TSR"). PSUs comprise the remaining 50% of the 2017 grant value. All of the PSU grants are subject to the achievement of relative total stockholder return ("TSR") against pre-determined performance goals over a three-year performance period. The number of PSUs-TSR that will vest at the end of the three-year performance period will vary from 0% to 200% of the target number of PSUs-TSR granted to each named executive officer, based on our TSR relative to the TSR for the S&P 500 Index during the three-year performance period. We calculate TSR as the increase in our stock price over the performance period plus reinvested dividends, divided by the stock price at the beginning of the performance period. The Compensation Committee selected the relative TSR performance metric to incent management to increase TSR for the benefit of stockholders, and believes that tying a portion of each executive's compensation to TSR compared to a broad index encourages management to generate superior returns.

The Company will settle vested PSUs and RSUs in shares of the Company's common stock. For each vested RSU or PSU, the named executive officer will receive one share of our common stock. To receive shares earned under RSUs and PSUs, a named executive officer must be continuously employed during the applicable service period or performance period, subject to acceleration in the event of a change in control or in the event of a participant's earlier death, disability or qualified retirement.

As a result of the Bats acquisition and the difficulty in setting a meaningful three year earnings per share ("EPS") goal, the Compensation Committee did not grant in 2017 PSUs subject to the achievement of EPS against pre-determined performance goals ("PSUs-EPS").

The details of the RSUs awarded with a three-year vesting period are as follows.

The 2017 time-based RSU grants of equity awards for Messrs. Dean, Provost and O'Connell vested in 2017 in accordance with their separation agreements. In addition, in accordance with their separation agreements, each of Messrs. Dean, Provost and O'Connell became entitled to accelerated vesting of any outstanding PSUs, including the 2016 and 2017 grants of PSUs, held by the executive prorated for the portion of the performance period completed at the time of termination and subject to attainment of the applicable performance goals through the full performance period. The separation agreements are described more fully below under "Severance, Change in Control and Employment-Related Agreements."

Lag Grants

The Lag Grants are long-term incentive awards granted in connection with the 2016 service year and awarded at the target amount for each executive. Prior to 2017, Cboe's practice has been to grant equity in the first quarter following the year of service. Beginning in 2017, the Board and Compensation Committee changed its methodology for granting equity awards and granted equity in the first quarter of the service year. Since 2017 is the transition year, the Summary Compensation Table reflects both the Lag Grants for 2016 service, and the Catch-Up Grants, for 2017 service. The Compensation Committee set each named executive officer's target long-term incentive value based on comparative market data and individual performance. Once the Compensation Committee set each named executive officer's the target long-term incentive value for each named executive officer, all of the target value was granted in the form of time-based RSUs. The time-based RSUs comprise 100% of the 2017 Lag Grant value and have a three-year vesting period, with one-third of the RSUs vesting on each of the first, second and third anniversaries of the grant date. The vesting of these awards is not subject to performance conditions.

The Company will settle vested RSUs in shares of the Company's common stock. For each vested RSU, the named executive officer will receive one share of our common stock. To receive shares earned under RSUs, a named executive officer must be continuously employed during the applicable service period, subject to acceleration in the event of a change in control or in the event of a participant's earlier death, disability or qualified retirement. The Compensation Committee granted time-based RSUs to align the interests of management with stockholders and to provide a retention incentive.

2017 Sign-On Grants

The Compensation Committee and the Board granted special one-time sign-on equity awards ("Sign-on Grant") in early 2017 to Messrs. Concannon and Hemsley when they joined us in connection with the acquisition of Bats. These time-based RSUs vest in full on the third anniversary of the closing of the acquisition of Bats. The vesting of these awards is not subject to performance conditions.

The Company will settle vested Sign-on Grant RSUs in shares of the Company's common stock. For each vested RSU, the named executive officer will receive one share of our common stock. To receive shares earned under RSUs, a named executive officer must be continuously employed during the applicable service period, subject to acceleration in the event of a change in control or in the event of a participant's earlier death, disability or qualified retirement.

The Compensation Committee granted these Sign-on Grant RSUs to align the interests of the new executives with stockholders and to provide a significant retention incentive for Messrs. Concannon and Hemsley to remain with the Company post-acquisition instead of terminating their employment relationship to collect the change-in-control benefits to which they were otherwise entitled in connection with the acquisition.

The details of the Sign-on Grant RSUs with a three-year cliff vesting period awarded to Messrs. Concannon and Hemsley on February 28, 2017 are as follows.

2015 PSU Grants Vested

In early 2018, the Compensation Committee determined, with respect to the 2015 grants of equity awards, the achievement of relative TSR against pre-determined performance goals and the achievement of EPS against pre-determined performance goals, both over a three-year performance period from January 1, 2015 through December 31, 2017. The TSR percentile attained was the 95th percentile, and so 200% of the PSUs-TSR vested for each applicable named executive officer. The cumulative EPS attained was \$8.23, and so approximately 123% of the PSUs-EPS vested for each applicable named executive officer. The specific performance goals for the PSUs-TSR and PSUs-EPS for the 2015-2017 performance period were previously disclosed in our proxy statement covering 2015 compensation. Messrs. Concannon and Hemsley did not receive the 2015 grants of equity awards. The 2015 grants of equity awards for Messrs. Provost and O'Connell were prorated for the portion of the performance period completed at the time of termination and subject to attainment of the applicable performance goals through the full performance period, vested in accordance with their separation agreements, which are described more fully below under "Severance, Change in Control and Employment-Related Agreements." Certain details of the PSUs vested based on achievement of 2015-2017 EPS and TSR performance goals and proration, with respect to Messrs. Provost and O'Connell, are as follows and do not include the dividend equivalent payments.

Please refer to the Summary Compensation Table below for complete disclosure of the total compensation of our named executive officers reported in accordance with the SEC disclosure requirements.

Stock Ownership and Holding Guidelines

The Compensation Committee adopted stock ownership and holding guidelines, shown below, specifying the levels of stock ownership that each named executive officer must maintain while employed by us. For purposes of this ownership requirement, (a) shares owned outright or in trust and (b) restricted stock or stock units, including shares or units with time-based or performance conditions that have been granted but are unvested, are included. Each named executive officer has three years to meet the guidelines from the date that such officer was appointed to his or her position. In addition, in 2017 we revised our guidelines so that each named executive officer is required to hold all of their shares until the guidelines are met, except for sales of shares to pay taxes with respect to the vesting or exercising of equity grants. Each named executive officer has met the applicable holding requirement based on his or her position with us. Messrs. Provost and O'Connell met the applicable holding requirements of four times base salary and two times base salary, respectively, as of February 28, 2017.

Named Executive Officer Holding Requirement

Edward T. Tilly Five times base salary

Christopher R. Concannon Four times base salary

Alan J. Dean Two times base salary

Joanne Moffic-Silver Two times base salary

Mark S. Hemsley Two times base salary

Pledging Policy

Our Insider Trading Policy prohibits executive officers from entering into any pledges or margin loans on shares of our common stock. None of the named executive officers have existing pledges or margin loans on shares of our common stock.

Clawbacks

The Compensation Committee has a policy for the clawback of cash incentive payments and long-term incentives based on the provisions of the Dodd-Frank Act. The policy provides that we will attempt to recover incentive amounts paid to executive officers in the event of any material noncompliance with any financial reporting requirement. The policy has a three-year look-back and applies to both current and former executives, regardless of such executive's involvement in the noncompliance. The equity award agreements contain provisions applying the clawback policy to equity grants.

Employee Benefit Plans, Severance, Change in Control and Employment-Related Agreements

We make medical, life and disability plans available to all of our employees and, for named executive officers and certain other employees, we provide participation in the Supplemental Executive Retirement Plan and the Executive Retirement Plan, which are described more fully below under "Summary Compensation – Non-Qualified Deferred Compensation Plans." We offer these plans in order to provide a competitive benefits program, a level of protection for catastrophic events and income during retirement. These plans are defined contribution plans, and we do not provide any defined benefit retirement plans to our executive officers or employees. Effective January 1, 2017, the Company froze the Executive Retirement Plan to new executive officers and employees. In addition, as of December 31, 2017, we had employment agreements with Messrs. Tilly and Concannon, an offer letter agreement with Mr. Hemsley, separation agreements with Messrs. Dean, Provost and O'Connell and an Executive Severance Plan for other executive officers in order to encourage retention, maintain a consistent management team to effectively run our operations, assist with retirement proceedings and allow executives to focus on our strategic business priorities. The employment agreements with Messrs. Tilly and Concannon, the offer letter agreement with Mr. Hemsley and the Executive Severance Plan contain severance and change in control provisions and are described more fully below under "Severance, Change in Control and Employment-Related Agreements." Any payments under the employment agreements, offer letter agreement and the Executive Severance Plan upon a change in control will only occur if the named executive officer's employment is terminated without cause or he or she resigns for good reason during a set period following the change in control, known as a double trigger provision.

Tax and Accounting Considerations

The Compensation Committee considers the tax and accounting implications of compensation to us and the tax implications to our named executive officers. To the extent possible, the Compensation Committee strove to provide compensation deductible under Section 162(m) of the Internal Revenue Code and, to that end, certified, as applicable, the level of attainment of the performance targets under the Second Amended and Restated Long-Term Incentive Plan annually in accordance with Section 162(m). Nonetheless, changes in tax laws or their interpretation and other outside factors may affect the deductibility of certain compensation payments. For example, the Tax Cuts and Jobs Act, which was signed into law December 22, 2017, limits the deductibility of compensation paid to our named executive officers to \$1 million each year for taxable years beginning after December 31, 2017. The Compensation Committee reserves the right to pay compensation that is not deductible for tax purposes when, in its judgment, such compensation is appropriate.

Risk Assessment

We believe that any potential risks arising from our employee compensation policies and practices are not likely to have a material adverse effect on us. With assistance from Meridian, our independent compensation consultant, the Compensation Committee reviewed and discussed a risk assessment of our compensation policies and practices for all employees for 2017, including non-executive officers, in its oversight capacity.

The Compensation Committee and management considered a number of factors, including the following factors, when reviewing potential risk from our employee compensation policies and practices:

Our compensation program is designed to provide a mix of both fixed and variable incentive compensation.

The variable portions of compensation are designed to reward both annual and long-term performance. We believe that this design mitigates any incentive for short-term risk-taking that could be detrimental to the Company's long-term best interests.

Our senior executives are subject to stock ownership and holding guidelines, which we believe provide incentives for our executives to consider the long-term interests of the Company and our stockholders and discourage excessive risk-taking that could negatively impact our stock price over time.

We include clawback provisions in our executives' cash incentive and equity incentive awards as a mechanism to recover compensation in the event of financial reporting wrongdoing.

We utilize an independent compensation consultant to provide the Compensation Committee with advice on best practices and the risks associated with various compensation policies.

(1) These equity incentive awards, also known as Catch-up Grants, were made in restricted stock units, half of which are subject to performance conditions. The restricted stock unit awards that are not subject to performance conditions have a three-year vesting schedule under which one-third of the shares granted will vest each year on the anniversary of the grant date. Dividend equivalent payments are made on these restricted stock units.

(2) These equity incentive awards, also known as Lag Grants, were made in restricted stock units that are not subject to performance conditions and have a three-year vesting schedule under which one-third of the shares granted will vest each year on the anniversary of the grant date. Dividend equivalent payments are made on these restricted stock units.

Table of Contents

Information presented for Messrs. Concannon and Hemsley is from February 28, 2017, the date that each joined (3) the Company in connection with our acquisition of Bats, to December 31, 2017. Grants of equity awards made by Bats prior to the acquisition and assumed by us are not included in the table.

These equity incentive awards, also known as Sign-on Grants, were made in restricted stock units that are not (4) subject to performance conditions and will vest in whole on the third anniversary of the grant date. Dividend equivalent payments are made on these restricted stock units.

Pursuant to Messrs. Dean's, Provost's and O'Connell's separation agreements, the restricted stock units not subject to performance conditions held by the executive will be subject to accelerated vesting in full at the time of separation and the restricted stock units subject to performance conditions held by the executive will be subject to (5) accelerated vesting and prorated for the portion of the performance period completed at the time of termination and subject to attainment of the applicable performance goals through the full performance period. The separation agreements are described more fully below under "Severance, Change in Control and Employment-Related Agreements."

Mr. Hemsley receives his cash compensation in British pounds. The amounts reported were converted to U.S. (6) dollars using a rate of £1.00 to \$1.35, which was the exchange rate as of December 31, 2017.

Pursuant to Messrs. Provost's and O'Connell's separation agreements, the restricted stock unit awards for 2016 (7) service, also known as Lag Grants, were paid in the form of cash.

The restricted stock units subject to performance conditions have a performance condition under which the number of units that will ultimately be awarded will vary from 0% to 200% of the original grant, based on our total stockholder return (calculated as the increase in our stock price over the performance period plus reinvested dividends, divided by the stock price at the beginning of the performance period) relative to the total stockholder returns for the S&P 500 Index during the performance period. Dividend equivalent payments on these restricted stock units accrue and are paid out in shares upon vesting.

For all of the awards, vesting will accelerate upon death, disability or the occurrence of a change in control. Vesting will also accelerate upon a qualified retirement, except that the restricted stock units subject to performance conditions accelerate pro rata based on the number of days in employment during the performance period. Unvested portions of the restricted stock units will be forfeited if the executive officer terminates employment with us prior to the applicable vesting date. The restricted stock units are subject to non-compete, non-solicitation and confidentiality covenants.

Pursuant to the merger agreement, each outstanding option to purchase Bats common stock (each, a "Bats stock option") of the executive that was outstanding immediately prior to the effective time of our acquisition of Bats (the "Effective Time") was converted into an option to purchase our common stock, on the same terms and conditions (including vesting schedule) as were applicable to such Bats stock option (but taking into account any changes, including any acceleration of vesting of such Bats stock option, occurring by reason of the transactions (10)contemplated by the merger agreement). The number of shares of our common stock subject to each such converted stock option equals the number of shares of Bats common stock subject to the corresponding Bats stock option immediately prior to the Effective Time, multiplied by the exchange ratio of 0.4452 (subject to certain adjustments and rounding). The exercise price per share for each such converted stock option equals the per share exercise price specified in the corresponding Bats stock option divided by the exchange ratio (rounded up to the nearest cent).

Pursuant to the merger agreement, each award of restricted Bats common stock ("Bats restricted stock") of the executive that was unvested immediately prior to the Effective Time was assumed by us and converted into an award of restricted shares of our common stock, subject to the same terms and conditions (including vesting schedule) that applied to the applicable Bats restricted stock immediately prior to the Effective Time (but taking into account any changes, including any acceleration of vesting of such Bats restricted stock, occurring by reason provided for in the merger agreement). The number of shares of our common stock subject to each such converted award of Bats restricted stock equals the number of shares of Bats common stock subject to the corresponding Bats restricted stock award multiplied by 0.4452.

(1) The information presented for Messrs. Concannon and Hemsley is from February 28, 2017, the date that each joined the Company in connection with our acquisition of Bats, to December 31, 2017.

Pursuant to the merger agreement, each Bats stock option of the executive that was outstanding immediately prior to the Effective Time was converted, based on the exchange ratio of 0.4452, into an option to purchase our common stock, on the same terms and conditions (including vesting schedule) as were applicable to such Bats stock option (but taking into account any changes, including any acceleration of vesting of such Bats stock option, occurring by reason of the transactions contemplated by the merger agreement). Each award of Bats restricted stock of the executive that was unvested immediately prior to the Effective Time was assumed by us and converted, based on the exchange ratio of 0.4452, into an award of restricted shares of our common stock, subject to the same terms and conditions (including vesting schedule) that applied to the applicable Bats restricted stock immediately prior to the Effective Time (but taking into account any changes, including any acceleration of vesting of such Bats restricted stock, occurring by reason provided for in the merger agreement).

The conversions of Bats stock options and Bats restricted stock are not included in the table.

(2) Pursuant to Messrs. Dean's, Provost's and O'Connell's separation agreements, the table reflects the accelerated vesting in full of outstanding restricted stock units held by the executive. The table does not reflect Lag Grant RSUs granted to Messrs. Provost and O'Connell in 2017 for 2016 service that were paid in the form of cash. Such actual cash value paid to the executive is set forth in the "Stock Awards" column in the "Summary Compensation Table" above. The separation agreements are described more fully below under "Severance, Change in Control and

Employment-Related Agreements" below.

(1) Executive and registrant contributions include contributions during 2017. Mr. Concannon is not eligible to participate in the Executive Retirement Plan and he did not make any contributions to the Supplemental Executive Retirement Plan. Mr. Hemsley, as a U.K. based employee, is neither eligible to participate in the Supplemental Executive Retirement Plan nor the Executive Retirement Plan.

(2) The amount of executive contributions made by each named executive officer and reported in this column is included in each named executive officer's compensation reported in the Summary Compensation Table under the column labeled "Salary."

(3) The amount of registrant contributions reported in this column for each named executive officer is also included in his or her compensation reported in the Summary Compensation Table under the column labeled "All Other Compensation."

(4) Earnings are based upon the investment fund selected by the named executive officer for each plan.

Non-Qualified Defined Contribution Plans

We do not have a defined benefit retirement plan. We currently have two non-qualified defined contribution plans in which the named executive officers may, as applicable, participate: the Supplemental Executive Retirement Plan ("SERP") and the Executive Retirement Plan ("ERP"). The investment options for these plans only include investment options that are available under the qualified plans.

The SERP is designed for employees whose level of compensation exceeds the IRS defined annual compensation limit (\$270,000 for 2017). Under the SERP, we match deferral contributions made by executives under the SERP with respect to compensation in excess of the IRS compensation limit. These contributions mirror those under the 401(k) plan. In 2017, we matched employee contributions up to 4% of the employee's compensation, subject to statutory limitations. We matched 200% of such contributions. Mr. Hemsley, as a U.K. based employee, is not eligible to participate in the SERP.

All named executive officers, other than Messrs. Concannon and Hemsley, are eligible to participate in the ERP. Our 2017 contribution to the ERP was six percent of each participant's base salary and annual incentive, and, in the future, we expect to make further contributions consistent with this formula. Effective January 1, 2017, the ERP is frozen to new executive officers and employees.

All of the named executive officers, other than Messrs. Concannon and Hemsley, participate in the age-based component of the ERP. In addition to the contribution to the ERP described in the preceding paragraph, under the age-based component, we contribute to each eligible employee's account an amount equal to a percentage of the employee's base salary and cash incentive, based on such employee's age at the start of the year, as set forth in the table below.

Table of Contents

Age of Participant	Contribution Percentage
Under 45	1%
45 to 49	3%
50 to 54	6%
55 to 59	9%
60 to 64	11%
65 and over	None

All of our contributions to non-qualified defined contribution plans vest 20% for each year of continuous service, identical to the qualified 401(k) plan. All of our named executive officers, other than Messrs. Concannon and Hemsley, are fully vested in the plans.

In connection with the acquisition of Bats, we did not assume any additional non-qualified defined contribution plans, because Bats did not have any plan that provided for the deferral of compensation on a basis that was not tax qualified.

SEVERANCE, CHANGE IN CONTROL AND EMPLOYMENT-RELATED AGREEMENTS

We currently have employment agreements with Messrs. Tilly and Concannon and the rest of the named executive officers are covered by either the Executive Severance Plan, separation agreements or offer letter agreements. The material terms of the agreements and the plan are discussed below.

Mr. Tilly's Employment Agreement

Under the Employment Agreement as in effect on December 31, 2016, and as amended and restated on February 27, 2017 (the "Tilly Employment Agreement"), Mr. Tilly serves as our Chairman and CEO. The Tilly Employment Agreement is scheduled to expire on December 31, 2019, and thereafter will be automatically renewed for successive one-year terms unless either the Company or Mr. Tilly gives notice not to renew the agreement at least 180 days prior to the expiration of the then current term.

The Tilly Employment Agreement provides for an annual base salary of \$1,150,000. Mr. Tilly is also eligible to receive cash and equity incentive awards, each in the sole discretion of the Board, except that for 2017 the Tilly Employment Agreement provides that Mr. Tilly will be eligible for a target annual incentive award opportunity of \$1,897,500 and a target annual equity incentive award having a grant date value of \$3,000,000. Mr. Tilly is entitled to participate in all of our employee benefit and fringe benefit plans that are generally available to similarly situated members of senior management. Pursuant to the Tilly Employment Agreement, Mr. Tilly has agreed to certain non-compete and non-solicit provisions during the employment term and for two years thereafter, as well as indefinite confidentiality obligations.

Under the Tilly Employment Agreement, upon a termination of employment by the Company without cause or by Mr. Tilly for good reason, or if Mr. Tilly's employment is terminated due to death or disability, Mr. Tilly (or his estate, as applicable) will be entitled to receive the following: (i) accrued but unpaid base salary through the date of termination; (ii) a pro-rated bonus equal to the bonus that Mr. Tilly would have received for the calendar year in which termination occurs, based on actual performance, pro-rated for the portion of the calendar year worked; (iii) a lump sum cash severance payment in an amount equal to the sum of (A) two times the annual base salary in effect on the date of termination and (B) two times the target bonus for the year of termination; (iv) a lump sum cash payment in an amount equal to the aggregate amount of all employer contributions Mr. Tilly would have received had his employment continued for a period of two years under the SMART Plan, the SERP and the ERP; and (vii) Company-paid premiums for coverage under the Consolidated Omnibus Budget Reconciliation Act of 1985, as amended ("COBRA"), or an amount equal to Mr. Tilly's COBRA premiums, sufficient to cover full family health care for a period of 18 months following the termination of employment and, at the end of such period, reimbursement of premiums for six additional months of coverage under a comparable individual health policy. Mr. Tilly would also receive these same benefits if he is terminated without cause or resigns for good reason within 18 months after a change in control, except that he will be reimbursed for 18 months of individual health coverage following the expiration of his COBRA period, rather than six months.

Mr. Concannon's Employment Agreement

Under the Employment Agreement dated as of February 27, 2017 (the "Concannon Employment Agreement"), Mr. Concannon, effective upon our acquisition of Bats on February 28, 2017 (the "Effective Date"), serves as our President and Chief Operating Officer. The Concannon Employment Agreement is scheduled to expire on December 31, 2019, and thereafter will be automatically renewed for successive one-year terms unless either the Company or Mr. Concannon gives notice not to renew the agreement at least 180 days prior to the expiration of the then current term.

The Concannon Employment Agreement provides for an annual base salary of \$1,000,000. Mr. Concannon is also eligible to receive cash and equity incentive awards, each in the sole discretion of the Board, except that for 2017 the Concannon Employment Agreement provides that Mr. Concannon will be eligible for an initial target annual incentive award opportunity of \$1,500,000 and an initial target annual equity incentive award having a grant date value of \$2,000,000. In addition, the Concannon Employment Agreement provides for a special one-time grant of RSUs with a grant date value of \$2,000,000, also known as the Sign-on Grant, which will vest in full upon the third anniversary of the Effective Date provided that Mr. Concannon remains in continuous employment through such date (subject to accelerated vesting as described below). Mr. Concannon is entitled to participate in all of our employee benefit and fringe benefit plans that are generally available to similarly situated members of senior management, other than the frozen ERP. Pursuant to the Concannon Employment Agreement, Mr. Concannon has agreed to certain non-compete and non-solicit provisions during the employment term and for two years thereafter, as well as indefinite confidentiality obligations.

Under the Concannon Employment Agreement, upon a termination of employment by the Company without cause or by Mr. Concannon for good reason, Mr. Concannon will be entitled to receive the following: (i) accrued but unpaid base salary through the date of termination; (ii) a pro-rated bonus equal to the bonus that Mr. Concannon would have received for the calendar year in which termination occurs, based on actual performance, pro-rated for the portion of the calendar year worked (the "Pro-Rated Bonus"); (iii) a lump sum cash severance payment in an amount equal to (1) if the termination of employment occurs within 24 months immediately following the Effective Date, the sum of (A) two times the annual base salary in effect on the date of termination and (B) two times the target bonus for the year of termination, or (2) if the termination of employment occurs after the 24-month period immediately following the Effective Date, the sum of (A) one times the annual base salary in effect on the date of termination and (B) one times the target bonus for the year of termination; (iv) a lump sum cash payment in an amount equal to (1) if the termination of employment occurs within 24 months immediately following the Effective Date, the aggregate amount of all employer contributions Mr. Concannon would have received had his employment continued for a period of two years under the SMART Plan and the SERP, or (2) if the termination of employment occurs after the 24-month period immediately following the Effective Date, the aggregate amount of all employer contributions Mr. Concannon would have received had his employment continued for a period of one year under the SMART Plan and the SERP; (v) accelerated vesting of all outstanding equity awards granted by Bats prior to the consummation of the acquisition of Bats and assumed pursuant to the related merger agreement (the "Bats Equity Acceleration"); (vi) accelerated vesting of any unvested portion of the Sign-on Grant; and (vii) Company-paid premiums for coverage under COBRA, or an amount equal to Mr. Concannon's COBRA premiums, sufficient to cover full family health care for a period of either (A) 18 months following the termination of employment, if the termination of employment occurs within the 24-month period immediately following the Effective Date, or (B) 12 months following the termination of employment, if the termination of employment occurs after the 24-month period immediately following the Effective Date. Mr. Concannon would also receive these same benefits if he is terminated without cause or resigns for good reason within 18 months after a change in control, except that with respect to clauses (iii), (iv) and (vii), Mr. Concannon will be entitled to the maximum amounts described above. If Mr. Concannon's employment is terminated due to death or disability, Mr. Concannon (or Mr. Concannon's estate, as applicable) will be entitled to receive (i) annual base salary through the date of termination; (ii) the Pro-Rated Bonus; and (iii) the Bats Equity Acceleration.

Executive Severance Plan

Except as disclosed herein, the other named executive officers do not have employment agreements; however, the Compensation Committee believes it is appropriate to provide an Executive Severance Plan to encourage retention, maintain a consistent management team to effectively run our operations and allow executives to focus on our strategic business priorities. In 2017, the plan covered Messrs. Dean, Provost and O'Connell and Ms. Moffic-Silver, as well as other officers. The plan also covers Mr. Hemsley beginning on February 28, 2019, that is, 24 months after our acquisition of Bats when he ceases to be eligible for change in control severance benefits under his employment agreement with Bats (as described below). Under the plan, an executive who experiences an involuntary termination (as defined in the plan, which includes a resignation for good reason) is entitled to receive the following severance benefits:

- the executive's accrued salary, unpaid expenses, accrued and unpaid vacation days through the date of termination and any unpaid bonus earned in any year prior to the year in which the executive's employment terminates,

Table of Contents

an amount equal to a pro-rated bonus for the year of employment termination, based on actual performance for such year, a severance payment in an amount equal to the sum of the executive's base salary and target annual bonus (or, in the case of Messrs. Dean, Provost and O'Connell and Ms. Moffic-Silver, two times the sum of their base salary and target annual bonus), and COBRA premiums for 18 months.

In connection with their separation from the Company, the Board took action to provide these severance benefits to Messrs. Dean, Provost and O'Connell and Ms. Moffic-Silver.

Under the terms of the plan, if the executive's employment is terminated either by us for cause, or by the executive other than for good reason (each as defined in the plan), we will pay the executive any unpaid bonus and accrued benefits.

If the executive is terminated in connection with a change in control, which includes a termination without cause or a resignation for good reason that occurs within a period beginning six months before a change in control and ending two years after, such executive will also receive a cash payment equal to the value of a pro-rated equity award based on the portion of the calendar year during which the executive is employed by the Company. The plan also provides that we will require any successor to expressly assume and agree to maintain the plan.

In addition to the above, the plan provided Messrs. Provost and O'Connell with certain death and disability benefits if the executive died or was terminated due to becoming disabled. These benefits included accrued but unpaid salary; a pro-rated target bonus; and a salary and bonus payment in an amount equal to the sum of (a) two times his annual rate of base salary and (b) two times his target annual bonus. The plan also provided that, for Messrs. Provost and O'Connell, the salary and target bonus amount to be paid as the severance benefit would be deemed compensation for the Company's non-qualified plans. Messrs. Provost, Dean and O'Connell and Ms. Moffic-Silver have also agreed to certain non-compete and non-solicitation provisions during their employment and for a period of two years following termination of their employment.

Offer Letter Agreement

We entered into an offer letter agreement with Mr. Hemsley, dated September 25, 2016 (the "Offer Letter Agreement"), pursuant to which he indicated his intent to enter into employment with us following our acquisition of Bats in exchange for the compensation specified therein.

Under Mr. Hemsley's Offer Letter Agreement, Mr. Hemsley, effective upon our acquisition of Bats on February 28, 2017, serves as our EVP, President Europe. Mr. Hemsley's Offer Letter Agreement provides for an initial annual base salary of 483,890 GBP and an initial target annual bonus of 459,696 GBP. Mr. Hemsley's Offer Letter Agreement also provides that Mr. Hemsley will be eligible for an initial target annual equity incentive award having a grant date value of \$596,000.

Mr. Hemsley agreed in his Offer Letter Agreement not to assert that the transition from his former position with Bats to his current positions with us, in connection with our acquisition of Bats, constitutes good reason for him to resign under his former employment agreement with Bats. In exchange for such agreement, we granted Mr. Hemsley an award of RSUs, also known as a Sign-on Grant, with a grant date value of \$596,000 that will vest on the third anniversary of our acquisition of Bats, subject to his continuous employment with us through such vesting date. Mr. Hemsley is entitled to participate in all of our employee benefit and fringe benefit plans that are generally available to similarly situated members of senior management, other than the frozen ERP and the SERP. Pursuant to the Offer Letter Agreement, Mr. Hemsley further agreed to comply with the confidentiality, noncompetition, nonsolicitation and nondisparagement obligations in his employment agreement with Bats and agreed that those obligations will be for the benefit of both the Company and Bats.

Mr. Hemsley continues to be eligible for the severance and other change in control benefits under his employment agreement with Bats, dated December 17, 2015, and as modified by the Offer Letter Agreement (collectively, the "Employment Agreement"), including the accelerated vesting of his Bats equity awards assumed in the acquisition (but not any Company awards granted after the acquisition of Bats). As discussed above, 24 months after the Effective Date, Mr. Hemsley will become eligible for coverage under the Executive Severance Plan in lieu of any right to severance or other termination-related benefits under his Employment Agreement.

Table of Contents

Under the Employment Agreement, upon a termination of Mr. Hemsley's employment by us without cause, following 90 days' written notice, or by the executive for good reason, the terminated executive is entitled to: (i) one times his annual base salary; (ii) an amount equal to one times his target bonus; (iii) reimbursement for insurance premiums payable over twelve (12) months; and (iv) his pro rata bonus as of the date of termination based on actual performance. Upon a voluntary termination of Mr. Hemsley's employment without good reason, he is entitled to one times his annual base salary during such time that we elect to enforce his covenant not to compete.

Mr. Hemsley is entitled to certain severance compensation and benefits upon a change in control. The Employment Agreement provides that if, within the 24-month period occurring immediately after a change in control, the executive is terminated by us without cause or terminates his employment for good reason, he is entitled to: (i) two times his annual base salary; (ii) an amount equal to two times his (A) target annual bonus and (B) 15% of his annual base salary (as an approximate milestone bonus payment); (iii) reimbursement for insurance premiums payable in a lump sum; (iv) his pro rata bonus as of the date of termination based on target performance; and (v) accelerated vesting of all outstanding equity awards.

If Mr. Hemsley retires, dies or becomes disabled, or his employment is terminated for cause, the executive will not receive any cash severance benefits (except for the payment of the executive's pro rata bonus based on actual performance as of the date of termination due to the executive's death or disability). Mr. Hemsley may choose to continue medical and dental benefits through COBRA or his insurance at his own cost.

Under Mr. Hemsley's Employment Agreement, we are required to provide him with 90 days' written notice of termination of employment, except where termination is due to ill health or injury or events where an immediate termination is permitted under his Employment Agreement. In the event he is unable to work due to ill health or injury for an aggregate period of 130 working days in a 12-month period, his employment may be terminated with notice of the statutory minimum plus one week. During his notice period, Mr. Hemsley is entitled to base salary and contractual benefits or, in our discretion, we may pay Mr. Hemsley his base salary and other contractual benefits in lieu of all or part of any notice period.

Under the 2009 Plan, all stock options are fully vested. Unvested restricted stock and unvested stock options granted under the 2012 Plan and the 2016 Plan and held by Mr. Hemsley are subject to accelerated vesting upon the death or disability of the executive or upon his termination without cause within twelve (12) months following a change of control event, unless otherwise set forth in the Employment Agreement.

Separation Agreements

Mr. O'Connell was 65 years of age and, as such, was entitled to the accelerated vesting of his RSUs and PSUs in the manner described in clauses (ii) and (iii) upon retirement. Mr. Provost was 64 years of age and otherwise would have become entitled to the accelerated vesting of his RSUs and PSUs in the manner described in clauses (ii) and (iii) if he had retired on or after attaining age 65.

Mr. Dean was 63 years of age and otherwise would have become entitled to the accelerated vesting of his RSUs and PSUs in the manner described in clauses (ii) and (iii) if he had retired on or after attaining age 65.

Concannon and Hemsley, are fully vested in our qualified and non-qualified defined contribution plans, so there is no acceleration of vesting on these events.

PAY RATIO

As required by Section 953(b) of the Dodd-Frank Wall Street Reform and Consumer Protection Act, and Item 402(u) of Regulation S-K, we are providing the following information about the relationship of the median of the annual total compensation of our employees (other than Mr. Tilly, our Chairman and Chief Executive Officer ("CEO")) and the annual total compensation of Mr. Tilly. The pay ratio included in this information is a reasonable estimate calculated in a manner consistent with Item 402(u) of Regulation S-K.

55 Cboe Global Markets 2018 Proxy Statement

Table of Contents

For 2017, the median of the annual total compensation of all employees of the Company (other than our CEO) was \$144,616 and the annual total compensation of our CEO was \$10,122,933, as reported above in the "Total" column of our 2017 Summary Compensation Table above, and excluding the value of the Lag Grants was \$7,622,895. Based on this information, the ratio of the annual total compensation of our CEO to the median of the annual total compensation of all employees was 70 to 1.

Prior to 2017, Cboe's practice has been to grant equity in the first quarter following the year of service. Beginning in 2017, the Board and Compensation Committee changed its methodology for granting equity awards and granted equity in the first quarter of the service year. Since 2017 is the transition year, the Summary Compensation Table reflects both the Lag Grants for 2016 service, and the Catch-Up Grants, for 2017 service. We do not plan to award equity on a one-year lag in the future. With the granting of the 2017 Catch-Up Grants, the Board and Compensation Committee believe that the new compensation cycle for executives has been established and plan to continue granting annual awards in the first quarter of the service year. As such, we believe that a ratio excluding the value of the Lag Grants provides an additional perspective on the ratio. Based on this information, the ratio of the annual total compensation of our CEO, excluding the value of the Lag Grants, to the median of the annual total compensation of all employees is 53 to 1.

We identified the median employee by reviewing the annual total compensation of all full-time, part-time and temporary employees employed by us on October 2, 2017 as reflected in our payroll records. Annual total compensation included salary, commissions, bonus, value of equity grants and value of benefits received. In making this determination, we used our employee population size of 878 employees as of October 2, 2017. The population size includes employees outside of the United States and the employees of Bats, which we acquired during fiscal 2017 in a transaction that closed on February 28, 2017. After identifying the median employee, we calculated annual total compensation for such employee using the same methodology we use for calculating total compensation for each of our named executive officers as set forth in the "Summary Compensation Table" above.

The Company has grants of restricted stock and restricted stock units covering a total of 652,460 shares of our (1) common stock outstanding as of December 31, 2017 under the Second Amended and Restated Long-Term Incentive Plan.

In connection with our acquisition of Bats, the Company assumed the Bats Plans. No awards were made under the Bats Plans subsequent to our acquisition of Bats. On March 1, 2017, we reserved 1,305,918 shares of our common stock for issuance under the Bats Plans. As of December 31, 2017, 442,042 shares of our common stock were covered by outstanding and unexercised options granted under the Bats Plans, which awards had a weighted average exercise price of \$25.36 and of which 401,507 shares were exercisable as of December 31, 2017. Additionally, as of December 31, 2017, 525,737 shares of our common stock were covered by outstanding restricted stock awards granted under the Bats Plans. These shares are not included in the table above. We will not grant any future awards under the Bats Plans.

PROPOSAL TWO

ADVISORY VOTE TO APPROVE EXECUTIVE COMPENSATION

In accordance with Section 14A of the Exchange Act, the Board is providing our stockholders with an advisory vote to approve executive compensation. This advisory vote, commonly known as a "say-on-pay" vote, is a non-binding vote to approve the compensation paid to our named executive officers as disclosed in this proxy statement in accordance with SEC rules. The Board has adopted a policy of providing for annual "say-on-pay" votes in accordance with the results of our last stockholder advisory vote.

As discussed in the "Compensation Discussion and Analysis" section, our executive compensation program is designed to meet the following objectives:

- attract and retain talented and dedicated executives,
- motivate our executives to achieve corporate goals that create value for our stockholders, and
- align the compensation of our executive officers with stockholder returns.

The Compensation Committee has implemented the following best practices applicable to our executive officers in order to achieve these objectives:

- a high proportion of performance-based compensation with limits on all incentive award payouts,
- stock ownership and holding guidelines,
- double trigger change in control provisions in employment agreements and the Executive Severance Plan,
- prohibition on hedging,
- prohibition of pledging,
- elimination of tax gross-up payments in the event of a change in control, and
- clawbacks of incentive compensation.

We believe that the compensation paid to the named executive officers is appropriate to align their interests with those of our stockholders to generate stockholder returns. Accordingly, the Board recommends that our stockholders vote in favor of the say-on-pay vote as set forth in the following non-binding resolution:

RESOLVED, that our stockholders approve, on an advisory basis, the compensation paid to our named executive officers, as disclosed in this Proxy Statement, including under the heading "Compensation Discussion and Analysis," the accompanying compensation tables and the corresponding narrative discussion.

As this is an advisory vote, the outcome of the vote is not binding on us with respect to executive compensation decisions, including those relating to our named executive officers. Our Compensation Committee and Board value the opinions of our stockholders. The Compensation Committee and Board will consider the results of the say-on-pay vote and evaluate whether any actions should be taken in the future.

Non-binding approval of our executive compensation program requires that a majority of the shares cast on this matter be cast in favor of the proposal. Abstentions and broker non-votes will not be counted as votes cast and therefore will not affect the vote.

The Board recommends that the stockholders vote FOR approval, in a non-binding resolution, of the compensation paid to our executive officers.

PROPOSAL THREE

APPROVAL OF THE CBOE GLOBAL MARKETS, INC. EMPLOYEE STOCK PURCHASE PLAN

Introduction

On February 15, 2018, the Board approved the Cboe Global Markets, Inc. Employee Stock Purchase Plan (the "ESPP"), subject to approval by stockholders at the Annual Meeting. The ESPP is a broad-based plan that permits our employees to contribute up to 10% of wages and base salary to purchase shares of our common stock at a discount, as described below under "Summary Description of the ESPP-Purchases." If approved by the stockholders, a total of 750,000 shares of our stock will be made available for purchase under the ESPP. The ESPP will become effective on the date the stockholders approve the ESPP.

Rationale For Implementing the ESPP

The Board is asking stockholders to approve the ESPP for the following reasons:

1. To form part of our total compensation package by permitting our employees to contribute up to 10% of wages and base salary to purchase shares of our stock at a discount;
2. To help attract and retain qualified employees through the acquisition of a larger personal financial interest in us; and
3. To further align the interests of our employees and our stockholders.

For these reasons, the Board believes that the approval of the ESPP is in the best interests of the Company and our stockholders.

Recommendation of the Board

The approval of the ESPP requires that a majority of the shares cast on this matter be cast in favor of the proposal. Abstentions and broker non-votes will not be counted as votes cast and therefore will not affect the vote.

The Board recommends a vote FOR approval of the Cboe Global Markets, Inc. Employee Stock Purchase Plan.

Summary Description of the ESPP

The following is a summary of the material features of the ESPP. The summary is not a complete description of all the terms of the ESPP and is qualified in its entirety by reference to the complete text of the ESPP, which is attached to this Proxy Statement as Appendix A. To the extent there is a conflict between this summary and the actual terms of the ESPP, the terms of the ESPP will govern.

Purpose

The purpose of the ESPP is to facilitate our employees' participation in the ownership and economic progress of us by providing our employees with an opportunity to purchase shares of our common stock. The ESPP and the options to purchase shares of our common stock granted to participants under the ESPP are intended to qualify under the provisions of Sections 421 and 423 of the Internal Revenue Code (the "Code"). However, the ESPP also authorizes the grant of options under a component of the plan that is not intended to qualify as an "employee stock purchase plan" under Section 423 of the Code and is instead intended to achieve tax, securities law, or other objectives, generally

when the ESPP is offered outside of the United States (the "Non-423 Component").

Plan Term

The ESPP is scheduled to expire ten years following the effective date of the ESPP. The term will expire sooner if the maximum number of shares available for issuance under the ESPP has been issued, our stockholders do not approve the ESPP within 12 months after the date the ESPP is adopted by our Board or our Board terminates the ESPP.

Table of Contents

Authorized Shares and Share Limits

Subject to adjustment (as described below), 750,000 shares of our common stock are available for sale under the ESPP (representing less than 1% of our issued and outstanding shares as of March 20, 2018). A participant may not purchase more than a maximum of 312 shares of our common stock during any single offering period. The Compensation Committee, may, for future offering periods, increase or decrease, in its absolute discretion, the maximum number of shares of common stock that an eligible employee may purchase during each offering period.

Authorized and unissued shares of our common stock or shares reacquired by us may be made subject to purchase under the ESPP, as determined in the discretion of our Compensation Committee or our Board. If any purchase of shares of our common stock pursuant to an option under the ESPP is not consummated for any reason, the shares subject to such option may be again made available for sale under the ESPP.

Administration

Our Compensation Committee will administer the ESPP and will have authority to: designate participants (subject to Section 423 of the IRC); designate our subsidiaries and affiliates whose employees will be offered participation in the ESPP; determine all questions with regards to rights of employees, including but not limited to, eligibility to participate in the ESPP and the range of permissible percentages of contributions and the maximum amount; adopt rules of procedure and regulations necessary for the administration of the ESPP (provided that such rules are not inconsistent with the terms of the ESPP) and enforce the terms of the ESPP and regulations adopted; direct the administration of the ESPP; direct or cause the distribution of shares of our common stock purchased under the ESPP; furnish or cause to be furnished to us information required for tax or other purposes; engage the service of counsel and agents whom it may deem advisable to assist it with the performance of its duties; prescribe procedures to be followed by eligible employees to participate in the ESPP; receive from us, our subsidiaries and each eligible employee information necessary for the proper administration of the ESPP; maintain separate accounts in the name of each participant; interpret and construe the ESPP in its sole discretion, correct any defect, supply any omission or reconcile any inconsistency in the ESPP to carry the ESPP into effect; and make any changes or modifications necessary to administer and implement the provisions of the ESPP in any foreign country to the fullest extent possible.

In its sole discretion, our Board may administer the ESPP. Further, to the extent not prohibited by applicable laws, the Compensation Committee may delegate some or all of its authority to administer the ESPP to a subcommittee, to a stock administrator or to such other persons or groups as it deems necessary, advisable or appropriate.

Eligibility

Our full time and part time employees (including employees of our designated subsidiaries and affiliates) are generally eligible to participate in the ESPP. However, the Compensation Committee may determine, prior to an offering period, that the following categories of employees will not be eligible to participate in the ESPP: (i) employees whose customary employment is for not more than five months per year or not more than 20 hours per week (or a lesser number of months or hours), (ii) employees who have not completed two years of service with us on the first day of any offering period (or a lesser period), or (iii) highly compensated employees (as defined in Section 414(q) of the Code). Further, no employee will be eligible to participate in the ESPP if, immediately after the grant of an option to purchase shares under the ESPP, that employee would own 5% of the total combined voting power or value of all classes of our common stock. In addition, employees who are citizens or residents of a foreign jurisdiction may be excluded from participating in the ESPP if the grant of an option to such employees would be prohibited under the laws of such foreign jurisdiction or if compliance with the laws of such foreign jurisdiction would cause the ESPP to violate the requirements of Section 423 of the IRC. As of December 31, 2017, approximately 800 employees would be eligible to participate in the ESPP.

Participation

In order to participate in the ESPP, an employee who is eligible at the beginning of an offering period will authorize payroll deductions of up to 10% of wages and base salary on an after-tax basis for each pay date during the offering period. If necessary to comply with non-U.S. requirements, participants may be permitted to make contributions to the ESPP by check, cash or other means rather than by payroll deductions. A participant may not alter the amount of his or her contributions during an offering period, but may withdraw from participation (as summarized below).

The Compensation Committee may adopt and amend stock purchase sub-plans with respect to employees of non-U.S. designated subsidiaries and designated affiliates with such provisions as the Compensation Committee may deem appropriate to conform with local laws, practices and procedures. All such sub-plans shall be subject to the limitations on the number of

59 Cboe Global Markets 2018 Proxy Statement

shares that may be issued under the ESPP, and except as otherwise provided in the applicable sub-plan, shall be subject to all of the provisions of the ESPP. The Compensation Committee is authorized to adopt sub-plans with terms that vary with applicable local requirements regarding items such as eligibility to participate, the dates and duration of offering periods, the method of determining the exercise price, the discount from fair market value at which shares may be purchased, any minimum or maximum amount of contributions a participant may make in an offering period, the treatment of options upon a change in control or a change in capitalization of the Company, and such other variations described in the ESPP.

Unless otherwise specified by the Compensation Committee, each offering to employees of a designated subsidiary or affiliate under the ESPP will be considered a separate offering for purposes of Section 423 of the Code.

No participant may accrue options to purchase shares of our common stock at a rate that exceeds \$25,000 in fair market value of our stock (determined at the time such options are granted) for each calendar year in which such rights are outstanding at any time.

Offering Periods

The ESPP provides for offering periods to be specified by the Compensation Committee, provided that an offering period shall not exceed twenty-seven months in length, with purchases being made on the last day of each offering period.

Purchases

On the last day of an offering period, also referred to as the exercise date, a participant's accumulated contributions are used to purchase shares of our common stock. The exercise price per share offered in a given offering period shall be specified by the Compensation Committee and shall not be less than the lesser of (i) 85% of the fair market value of a share on the first day of the applicable offering period or (ii) 85% of the fair market value of a share on the applicable exercise date. As of March 20, 2018 the closing price of a common share on Nasdaq was \$119.90.

Participants are not entitled to any dividends or voting rights with respect to options to purchase shares of our common stock under the ESPP. Shares received upon exercise of an option shall be entitled to receive dividends on the same basis as other outstanding shares of our common stock.

Transferability

No rights or accumulated contributions of a participant under the ESPP may be assigned, transferred, pledged or otherwise disposed of in any way (other than by will or the laws of descent and distribution), and any such attempt may be treated by the Company as an election to withdraw from the ESPP.

Withdrawal and Termination of Employment

A participant can withdraw all, but not less than all, of the contributions credited to his or her account for the applicable offering period by delivery of notice up to a certain number of days prior to the exercise date to be specified by the Compensation Committee or to be provided for in the applicable subscription agreement. In order to resume participation in a subsequent offering period, such individual must re-enroll in the ESPP.

If a participant's employment is terminated on or before the exercise date (including due to retirement or death), the participant will be deemed to have elected to withdraw from the ESPP, and the accumulated contributions held in the participant's account will be returned to the participant or his or her beneficiary (in the event of the participant's

death). A participant's transfer of employment between the Company and its designated subsidiaries and affiliates will not be considered a termination of employment for purposes of the ESPP.

Adjustments Upon Changes in Capitalization and Certain Transactions

In the event of a merger, reorganization, consolidation, recapitalization, dividend or distribution, stock split, reverse stock split, spin-off or other similar transaction or other change in corporate structure affecting shares of our common stock or their value, the Compensation Committee shall make such adjustments to the ESPP, including to the number of shares issuable thereunder and the maximum number of shares purchasable by a participant during an offering period, and to outstanding options, as it deems equitable or appropriate. Further, upon the occurrence of any of the foregoing events or upon any other unusual or reoccurring transactions or events affecting us or any changes in applicable laws, regulations or accounting principles, our Compensation Committee, in its sole discretion, is authorized to take action to:

Table of Contents

• terminate outstanding options in exchange for an amount of cash equal to the amount that would have been obtained if such options were currently exercisable;

• replace outstanding options with other rights or property;

• provide for the assumption of outstanding options by a successor or survivor corporation (or a parent or subsidiary) or the substitution of similar rights covering such successor or survivor (or a parent or subsidiary);

• make adjustments to the number and type of common stock (or other securities or property) subject to outstanding options under the ESPP and/or to the terms and conditions of outstanding options and options which may be granted in the future;

• shorten the offering period then in progress and set as the new exercise date, which shall be a date immediately prior to the date of any transaction or event described above and provide for necessary procedures to effectuate such actions; and/or

• provide that all outstanding options will terminate without being exercised.

Amendment and Termination

Our Board may amend, alter, suspend, discontinue or terminate the ESPP or any portion thereof at any time and for any reason, except that our Board may not, without stockholder approval, increase the maximum number of shares of common stock that may be issued under the ESPP (except pursuant to or in connection with a change in capitalization or other transaction summarized above). Except as required to comply with Section 423 of the Code, as required to obtain a favorable tax ruling from the Internal Revenue Service, or as specifically provided in the ESPP, no such amendment, alteration, suspension, discontinuation or termination of the ESPP may be made to an outstanding option which adversely affects the rights of any participant without the consent of such participant.

New Plan Benefits

Because participation in the ESPP by the Company's employees is entirely voluntary and benefits under the ESPP depend on the fair market value of the Company's common stock at future dates, it is not possible to determine the benefits that will be received by the Company's employees. As of the date of this Proxy Statement, no employee has been granted any options under the proposed ESPP. Please see the disclosure under "-Eligibility" above for the persons eligible to participate in the ESPP.

Federal Income Tax Information

The following summary briefly describes U.S. federal income tax consequences of options under the ESPP based on tax laws as in effect on the date of this Proxy Statement for participants who are tax resident in the United States, but is not a detailed or complete description of all U.S. federal tax laws or regulations that may apply, and does not address any local, state or other country laws. Therefore, no one should rely on this summary for individual tax compliance, planning or decisions. Participants in the ESPP should consult their own professional tax advisors regarding the taxation of options under the ESPP. The discussion below concerning tax deductions that may become available to us under U.S. federal tax law is not intended to imply that we will necessarily obtain a tax benefit or asset from those deductions. Taxation of equity-based payments in countries other than the United States does not generally correspond to U.S. federal tax laws, and is not covered by the summary below.

Code Section 423 Plan Offerings

Options granted under a Code Section 423 offering are intended to qualify for favorable federal income tax treatment available to options granted under an employee stock purchase plan which qualifies under the provisions of Section 423(b) of the Code. Under these provisions, no income will be taxable to a participant until the shares purchased under the ESPP are sold or otherwise disposed of. If the shares are disposed of within two years from the option grant date (i.e., the first day of the offering period) or within one year from the exercise date of the shares - a transaction referred to as a "disqualifying disposition" - the participant will realize ordinary income in the year of such disposition equal to the difference between the fair market value of the shares on the exercise date and the exercise price. The amount of such ordinary income will be added to the participant's basis in the shares, and any additional gain or resulting loss recognized on the disposition of the shares after such

61 Cboe Global Markets 2018 Proxy Statement

Table of Contents

basis adjustment will be a capital gain or loss. A capital gain or loss will be long-term if the participant holds the shares for more than one year after the exercise date.

If the shares purchased under the ESPP are sold (or otherwise disposed of) more than two years after the option grant date and more than one year after the shares are transferred to the participant, then the lesser of (i) the excess of the sale price of the shares at the time of disposition over the exercise price, and (ii) the excess of the fair market value of the shares as of the option grant date over the exercise price (determined as of the first day of the offering period) will be treated as ordinary income. The amount of any such ordinary income will be added to the participant's basis in the shares, and any additional gain or resulting loss recognized on the disposition of the shares after such basis adjustment will be long-term capital gain or loss.

The Company (or applicable designated subsidiary) generally will be entitled to a deduction in the year of a disqualifying disposition equal to the amount of ordinary income realized by the participant as a result of such disposition, subject to the satisfaction of any tax reporting obligations. In other cases, no deduction is allowed.

Non-423 Component Offerings

If the option is granted in an offering under the Non-423 Component of the ESPP, then the amount equal to the difference between the fair market value of the shares on the exercise date and the exercise price will be treated as ordinary income at the time of such purchase. In such instances, the amount of such ordinary income will be added to the participant's basis in the shares, and any additional gain or resulting loss recognized on the disposition of the shares after such basis adjustment will be a capital gain or loss. A capital gain or loss will be long-term if the participant holds the shares for more than one year after the exercise date.

The Company (or applicable designated affiliate) generally will be entitled to a deduction in the year of purchase equal to the amount of ordinary income realized by the participant as a result of such disposition, subject to the satisfaction of any tax-reporting obligations. For U.S. participants, FICA/FUTA taxes will be due in relation to ordinary income earned as a result of participation in a Non-423 Offering.

The approval of the ESPP requires that a majority of the shares cast on this matter be cast in favor of the proposal. Abstentions and broker non-votes will not be counted as votes cast and therefore will not affect the vote.

The Board recommends a vote FOR approval of the Cboe Global Markets, Inc. Employee Stock Purchase Plan.

Deloitte, an independent registered public accounting firm, served as our independent registered public accounting firm for the year ended December 31, 2017, and our Audit Committee has again selected Deloitte to serve as our independent registered public accounting firm for the 2018 fiscal year. Representatives of Deloitte will be present at the Annual Meeting, will have the opportunity to make a statement if they so desire and will be available to respond to appropriate questions.

Although stockholder ratification is not required by our Bylaws or otherwise, the Board, as a matter of good corporate governance, is requesting that stockholders ratify the selection of Deloitte as our independent registered public accounting firm for the 2018 fiscal year. If stockholders do not ratify Deloitte, the Audit Committee will reconsider its appointment.

The ratification of the appointment of Deloitte as our independent registered public accounting firm for the 2018 fiscal year requires that a majority of the shares cast on this matter be cast in favor of the proposal. Your broker is permitted to vote your shares of common stock on this matter even when you have not given voting instructions. Abstentions will not be counted as votes cast and therefore will not affect the vote.

The Board and the Audit Committee recommend that stockholders vote FOR ratification of the appointment of Deloitte as our independent registered public accounting firm for the 2018 fiscal year.

The Plan includes two components: a Section 423 of the Code Component (the "423 Component") and a non-Section 423 of the Code Component (the "Non-423 Component"). The Company's intention is to have the 423 Component of the Plan qualify as an "Employee Stock Purchase Plan" under Section 423 of the Code. The provisions of the 423 Component shall, accordingly, be administered, interpreted and construed so as to extend and limit participation in a manner consistent with the requirements of that Section of the Code. - (a) **General Rule.** Subject to the requirements of Section 5, any full or part time Employee who is providing services to the Company, a Designated Subsidiary or a Designated Affiliate shall be eligible to participate as an "Eligible Employee" during the Offering Period beginning on an Enrollment Date, unless any such Employee is specifically excluded by the Committee from participation. The Committee, in its discretion, from time to time may, prior to an Offering Date for all options to be granted on such Offering Date in an Offer, determine that the definition of Eligible Employee will or will not include an individual if he or she: (i) has not completed at least two (2) years of service since his or her last hire date (or such lesser period of time as may be determined by the Committee in its discretion), (ii) customarily works not more than twenty (20) hours per week (or such lesser period of time as may be determined by the Committee in its discretion), (iii) customarily works not more than five (5) months per calendar year (or such lesser period of time as may be determined by the Committee in its discretion), or (iv) is a highly compensated employee within the meaning of Section 414(q) of the Code, provided that any such exclusion is applied with respect to each Offering in a uniform manner to all similarly-situated Employees who otherwise would be Eligible Employees for that Offering. Further, Employees who are citizens or residents of a non-U.S. jurisdiction may be excluded from participation in the Plan or an Offering if the participation of such Employees is prohibited under the laws of the applicable jurisdiction or if complying with the laws of the applicable jurisdiction would cause the Plan or an Offering to violate Section 423 of the Code.
- (b) **Exceptions.** Notwithstanding any provisions of the Plan to the contrary, no Employee shall be granted an option to purchase Shares under the Plan if:
 - (i) Immediately after the grant, such Employee (or any other person whose stock would be attributed to such Employee pursuant to Section 424(d) of the Code) would own stock (including for purposes of this Section 3(b) any stock he or she holds outstanding options to purchase) possessing 5% or more of the total combined voting power or value of all classes of stock of the Company or of any Parent or Subsidiary computed in accordance with Section 423(b)(3) of the Code, or
 - (ii) Such option would permit such Employee's right to purchase stock under all employee stock purchase plans (described in Section 423 of the Code) of the Company, its Parent and Subsidiaries to accrue at a rate which exceeds USD 25,000 of fair market value of such stock (determined at the time such option is granted) for each calendar year in which such option is outstanding at any time, in accordance with the provisions of Section 423(b)(8)

of the Code.

SECTION 4. Offering Periods.

(a) Shares shall be offered for purchase under the Plan through a series of successive Offering Periods. The Committee shall designate the duration and commencement date of each Offering Period and shall specify whether the Offering Period applies to the 423 Component of the Plan, the Non-423 Component of the Plan, or both; provided that no Offering Period shall exceed twenty-seven (27) months in length. For the sake of clarity, the Committee may establish different Offering Periods for the 423 Component of the Plan and the Non-423 Component of the Plan. Within the limitations set forth herein, the Committee will have the power to change the duration of the Offering Periods (including the commencement dates thereof)

Table of Contents

without stockholder approval. Any such change shall be announced to Eligible Employees prior to the scheduled beginning of the first Offering Period to be affected thereafter.

(b) Unless otherwise specified by the Committee, each offering to Eligible Employees shall be deemed a separate Offering, even if the dates and other terms of the applicable Offering Periods of each such offering are identical, and the provisions of the Plan will separately apply to each Offering. To the extent permitted by Treasury Regulation Section 1.423-2(a)(1), the terms of each separate Offering need not be identical, provided that, for the 423 Component of the Plan, the terms of the Plan and an Offering together satisfy Treasury Regulation Sections 1.423-2(a)(2) and (a)(3).

SECTION 5. Participation.

(a) An Eligible Employee shall become a Participant by completing a subscription agreement in such form as shall be specified by the Company ("Subscription Agreement"), and returning it to the Stock Administrator prior to the Enrollment Date for the applicable Offering Period, unless an earlier or later time for filing the Subscription Agreement is set by the Committee for all Eligible Employees with respect to such Offering Period.

(b) Except for differences that are otherwise consistent with Section 423(b)(5) of the Code, all Eligible Employees who participate in the 423 Component of the Plan shall have the same rights and privileges.

(c) The Committee may adopt and amend stock purchase sub-plans with respect to employees of non-U.S. Designated Subsidiaries and non-U.S. Designated Affiliates with such provisions as the Committee may deem appropriate to conform with local laws, practices and procedures, the terms of which sub-plans may take precedence over other provisions of this Plan, with the exception of Section 12(a) hereof, but unless otherwise superseded by the terms of such sub-plan, the provisions of this Plan shall govern the operation of such sub-plan. Without limiting the generality of the foregoing, the Committee is specifically authorized to adopt sub-plans which, for purposes of the Non-423 Component, may be outside the scope of Section 423 of the Code regarding, without limitation, (i) eligibility to participate, (ii) the definition of Eligible Compensation, (iii) the dates and duration of Offering Periods or other periods during which Participants may make Contributions toward the purchase of Shares, (iv) the method of determining the Exercise Price and the discount from Fair Market Value at which Shares may be purchased, (v) any minimum or maximum amount of Contributions a Participant may make in an Offering Period or other specified period under the applicable sub-plan, (vi) the treatment of options upon a change in control or a change in capitalization of the Company, (vii) the handling of Contributions, (viii) the making of Contributions to the Plan (including, without limitation, in forms other than payroll deductions), (ix) establishment of bank or trust accounts to hold Contributions, (x) payment of interest, (xi) conversion of local currency, (xii) obligations to pay payroll tax, (xiii) determination of beneficiary designation requirements, (xiv) withholding procedures and (xv) handling of stock certificates that vary with applicable local requirements.

SECTION 6. Payment for Shares.

(a) At the time a Participant files his or her Subscription Agreement, such Participant shall elect to have Contributions made on each pay day during the applicable Offering Period at a whole percentage rate not to exceed 10% of the Eligible Compensation which a Participant receives on each pay date during the Offering Period. The Committee may permit Eligible Employees participating in an Offering Period to contribute amounts to the Plan through payment by payroll deduction or, to comply with non-U.S. requirements, by cash, check, or other means, provided that such Contributions shall not exceed 10% of the Eligible Compensation received each pay period during the Offering Period.

- (b) Payroll deductions or contributions, as applicable, for a Participant will commence on the first pay date following the Offering Date and will end on the last pay day prior to the Exercise Date of such Offering Period to which such authorization is applicable, unless sooner terminated by the Participant as provided in Section 10 hereof.
- (c) All payroll deductions during an Offering Period that are made from a Participant's Eligible Compensation shall be credited to his or her Participant Account under the Plan on an after-tax basis.
- (d) Subject to Applicable Laws, a Participant may discontinue his or her participation in the Plan as provided in Section 10, but no other change can be made during an Offering Period and, for the avoidance of doubt, a Participant may not alter the amount of his or her Contributions for that Offering Period.
- (e) Unless otherwise specified by a Participant prior to the Enrollment Date of any subsequent Offering Period (or such earlier date specified by the Committee) by completing a Committee-specified process, a Participant shall be deemed

Table of Contents

to have elected to participate in each subsequent Offering Period to the same extent and in the same manner as the prior Offering Period, subject to the terms and conditions of this Plan and the applicable Subscription Agreement.

SECTION 7. Grant of Option.

(a) On the Offering Date for each Offering Period, each Participant shall be granted an option to purchase on the applicable Exercise Date, a maximum number of 312 Shares; provided, however, that the number of Shares subject to such option shall be reduced, if necessary, to a number of Shares which would not exceed the limitations described in Sections 3(b) and 12(a) hereof. The Committee may, for future Offering Periods, increase or decrease, in its absolute discretion, the maximum number of Shares that an Eligible Employee may purchase during each Offering Period.

(b) The exercise price per Share offered in a given Offering Period (the "Exercise Price") shall be established by the Committee (and may differ among Offerings, as determined by the Committee in its sole discretion), but shall in no event be less than the lesser of (i) 85% of the Fair Market Value of a Share on the Offering Date for the applicable Offering Period or (ii) 85% of the Fair Market Value of a Share on the applicable Exercise Date.

SECTION 8. Exercise of Option. The Participant's option for the purchase of Shares will be exercised automatically on the Exercise Date of such Offering Period by purchasing the maximum number of Shares subject to such option which may be purchased at the Exercise Price with the funds in his or her Participant Account subject to adjustment pursuant to Section 18, and provided further that such purchase will be subject to the limitations set forth in Sections 3(b) and 12(a), unless, prior to such Exercise Date, the Participant has withdrawn from the Offering Period pursuant to Section 10. No fractional Shares will be purchased. Any Contributions accumulated in a Participant Account which are not sufficient to purchase a full Share will, at the discretion of the Committee, be refunded to the Participant without interest, or be retained in the Participant Account for the subsequent Offering Period. During a Participant's lifetime, a Participant's option to purchase Shares hereunder is exercisable only by such Participant.

SECTION 9. Delivery. Unless otherwise provided by the Company, the Stock Administrator shall hold Shares issued pursuant to the exercise of the option until any such Shares are distributed to the Participant, transferred or sold in accordance with procedures established from time to time by the Company or the Stock Administrator. Shares shall be delivered as soon as reasonably practicable after termination of a Participant's Continuous Status as an Employee or receipt of such request by the Participant for delivery of all Shares, subject to compliance with all Applicable Laws.

SECTION 10. Withdrawal; Termination of Employment.

(a) A Participant may withdraw all, but not less than all, of the Contributions credited to his or her Participant Account for the applicable Offering Period by delivery to the Stock Administrator of notice, in the form specified by the Company, on any date up to a certain number of days prior to the Exercise Date to be specified by the Stock Administrator or to be provided for in the applicable Subscription Agreement. All of the Participant's Contributions credited to his or her Participant Account for such Offering Period will be paid to such Participant as soon as reasonably practicable after receipt of his or her notice of withdrawal. Such withdrawal shall permanently terminate the Participant's participation for the Offering Period in which the withdrawal occurs. In order to resume participation in a subsequent Offering Period, such individual must re-enroll in the Plan (by timely completing the required Subscription Agreement) prior to the Enrollment Date for the applicable Offering Period, unless an earlier or later time for filing the Subscription Agreement is set by the Committee for all Eligible Employees with respect to such Offering Period.

(b) In the event of the termination on or before the Exercise Date of the Participant's Continuous Status as an Employee or a Participant's ceasing to be an Eligible Employee for any reason, he or she will be deemed to have elected to withdraw from the Plan, and the Participant or his or her Beneficiary (in the event of such Participant's death and if permitted) shall receive any funds in his or her Participant Account as soon as reasonably practicable after the date of such withdrawal, and such Participant's option will be automatically terminated. For purposes of the 423 Component of the Plan, the employment relationship shall be treated as continuing intact while a Participant is on military or sick leave or other bona fide leave of absence approved by the Company or the Designated Subsidiary so long as the leave does not exceed three (3) months or, if longer than three (3) months, the individual's right to reemployment is provided by statute or has been agreed to by contract or in a written policy of the Company which provides for a right of reemployment following the leave of absence. Further, the employment relationship shall be treated as continuing intact where a Participant transfers employment between the Company, Designated Subsidiaries and/or Designated Affiliates; provided, however, that an individual who is not employed by the Company or a Designated Subsidiary on the Offering Date and through a date that is no more than three (3) months prior to the Exercise Date will participate only in the Non-423 Component unless the individual continues to have a right to reemployment with the Company or a Designated Subsidiary provided by statute or contract or in a written policy of the Company which

Table of Contents

provides for a right of reemployment following the leave of absence. The Committee or its delegate shall establish rules to govern other transfers into the 423 Component, and between any separate Offerings established thereunder, consistent with the applicable requirements of Section 423 of the Code.

(c) A Participant's withdrawal from one Offering Period will not have any effect upon his or her eligibility to participate in a different Offering Period or in any similar Plan which may hereafter be adopted by the Company.

SECTION 11. Interest. No interest shall accrue on the Eligible Compensation deductions of a Participant or on any other amounts in his or her Participant Account, except as may be required by Applicable Laws, as determined by the Committee.

SECTION 12. Shares.

(a) The maximum number of Shares which shall be made available for sale under the Plan shall be 750,000 Shares, subject to adjustment upon changes in capitalization of the Company as provided in Section 18. Either authorized and unissued Shares or issued Shares heretofore or hereafter reacquired by the Company may be made subject to purchase under the Plan, in the sole and absolute discretion of the Board or the Committee. Further, if for any reason any purchase of Shares pursuant to an option under the Plan is not consummated, the Shares subject to the applicable Subscription Agreement may be made available for sale pursuant to a new Subscription Agreement under the Plan. The limitation set forth in this section may be used to satisfy purchases of Shares under either the 423 Component or the Non-423 Component of the Plan and any applicable sub-plans.

(b) If, on a given Exercise Date, the Shares with respect to which options are to be exercised exceed the Shares then available under the Plan, the Committee shall make a pro rata allocation of the remaining Shares that are available for purchase in as uniform a manner as shall be reasonably practicable and as it shall determine to be equitable. In such event, the Company shall give notice to each Participant of such reduction in the number of Shares which such Participant shall be allowed to purchase. Notwithstanding anything to the contrary herein, the Company shall not be obligated to issue Shares hereunder if, in the opinion of the Company, such issuance would constitute a violation of Applicable Laws.

(c) Notwithstanding anything contained herein to the contrary, all Shares acquired pursuant to the Plan shall be and remain subject to any incentive compensation clawback or recoupment policy currently in effect or as may be adopted by the Board and, in each case, as may be amended from time to time. No such policy adoption or amendment shall in any event require the prior consent of any Participant.

SECTION 13. No Rights as a Stockholder. Neither the Participant nor his or her Beneficiaries will have any interest or other right in, or dividend or voting rights with respect to, Shares covered by his or her option until such option has been exercised and the related Shares have been purchased under the Plan. Shares purchased upon exercise of an option shall be entitled to receive dividends on the same basis as other outstanding Shares.

SECTION 14. Administration.

(a) The Plan shall be administered by the Committee, which shall be appointed by the Board; provided, however, that members of the Board who are Eligible Employees, if any, may not vote on any matter affecting the administration of the Plan or the grant of any option pursuant to the Plan. All decisions of the Committee shall be final, conclusive and binding upon all parties, including the Company, its stockholders and Participants and any Beneficiaries thereof. The Committee may issue rules and regulations for administration of the Plan. It shall meet at such times and places as it may determine.

(b) Subject to the terms of the Plan and Applicable Laws, the Committee (or its delegate) shall have the full power and authority to: (i) designate Participants; (ii) appoint the Stock Administrator and direct the administration of the Plan by the Stock Administrator in accordance with the provisions herein set forth; (iii) adopt rules of procedure and regulations necessary for the administration of the Plan, provided that such rules are not inconsistent with the terms of the Plan; (iv) determine, in its sole discretion, all questions with regard to rights of Employees and Participants under the Plan, including but not limited to, the eligibility of an Employee to participate in the Plan, including whether an Employee shall be eligible to participate in the 423 Component or the Non-423 Component, and the range of permissible percentages of Eligible Compensation an Eligible Employee may specify to be withheld or contribute and the maximum amount; (v) designate which entities shall be Designated Subsidiaries or Designated Affiliates; (vi) enforce the terms of the Plan and the rules and regulations it adopts; (vii) direct or cause the Stock Administrator to direct the distribution of the Shares purchased hereunder; (viii) furnish or cause the Stock Administrator to furnish the Employer with information which the Employer may require for tax or other purposes; (ix) engage the service of counsel (who may, if appropriate, be counsel for the Employer) and agents

SECTION 15. Transferability. Neither any monies credited to a Participant's Participant Account nor any rights with regard to the exercise of an option to purchase Shares under the Plan may be assigned, transferred, pledged, or otherwise disposed of in any way (other than by will or by laws of descent and distribution) by the Participant. Any such attempt at assignment, transfer, pledge, or other disposition shall be without effect, except that the Company shall treat such act as an election to withdraw funds in accordance with Section 10.

SECTION 16. Use of Funds. All Contributions received or held by the Company, Designated Affiliates and/or Designated Subsidiaries under the Plan may be used by the Company, Designated Affiliates and/or Designated Subsidiaries for any corporate purpose, and the Company, Designated Affiliates and/or Designated Subsidiaries shall not be obligated to segregate such funds, except as may be required by Applicable Laws, as determined by the Committee. Until the Shares are issued, Participants will only have the rights of an unsecured creditor with respect to the Plan, although Participants in certain non-U.S. jurisdictions may have additional rights were required under Applicable Laws, as determined by the Committee.

SECTION 17. Reports. Individual Participant Accounts will be maintained for each Participant, and statements will be given or made available to Participants promptly following an Exercise Date, which statements will set forth the amount of Contributions for the applicable Offering Period, the Exercise Price, the number of Shares purchased, and the remaining cash balance, if any.

SECTION 18. Adjustments Upon Changes in Capitalization and Certain Transactions. Except as would cause the 423 Component of the Plan to fail to satisfy the requirements of Section 423 of the Code: (a) in the event of any merger, reorganization, consolidation, recapitalization, dividend or distribution (whether in cash, shares or other property, other than a regular cash dividend), stock split (including a stock split in the form of a stock dividend), reverse stock split, spin-off or similar transaction or other change in corporate structure affecting the Shares or the value thereof, such adjustments and other substitutions shall be made to the Plan and to outstanding options as the Committee, in its sole discretion, deems equitable or appropriate taking into consideration any applicable accounting and tax consequences, including such adjustments in the limitations in Section 7(a) and Section 12 and in the class and number of Shares and Exercise Price with respect to outstanding options under the Plan; and (b) in the

event of any transaction or event described in (a) above, or any unusual or nonrecurring transaction or events affecting the Company or any changes in applicable laws, regulations or accounting principles, the Committee, in its sole discretion and on such terms and conditions as it deems appropriate, is hereby authorized to: (i) provide for either (X) termination of any outstanding option in exchange for an amount of cash, if any, equal to the amount that would have been obtained upon exercise of such option had such option been currently exercisable or (Y) the replacement of such outstanding option with other rights or property selected by the Committee in its sole discretion; (ii) provide that the outstanding options under the Plan shall be assumed by the successor or survivor corporation, or a parent or subsidiary thereof, or shall be substituted for by similar rights covering the stock of the successor or survivor corporation, or a parent or subsidiary thereof, with appropriate adjustments as to the number and kind of shares and exercise prices; (iii) make adjustments in the number and type of Shares (or other securities or property) subject to outstanding options under the Plan and/or in the terms and conditions of outstanding options and options which may be granted in the future; (iv) shorten the Offering Period then in progress and set a new Exercise Date, which shall be a date immediately prior to the date of any transaction or event described

in (a) above and provide for any other necessary procedures to effectuate such actions; and/or (v) provide that all outstanding options shall terminate without being exercised.

Except as expressly provided in the Plan, no Participant shall have any rights by reason of any subdivision or consolidation of shares of stock of any class, the payment of any dividend, any increase or decrease in the number of shares of any class or any dissolution, liquidation, merger or consolidation of the Company or any other corporation. Except as expressly provided in the Plan or pursuant to action of the Committee, no issuance by the Company or shares of stock of any class, or securities convertible into stock of any class, shall affect, and no adjustment by reason thereof, shall be made with respect to, the number of Shares subject to an option or the grant or Exercise Price of any option.

SECTION 19. Amendment or Termination.

(a) The Board may amend, alter, suspend, discontinue or terminate the Plan or any portion thereof at any time and for any reason; provided, however, that the Board (i) shall not, without the approval of the stockholders of the Company, increase the maximum number of Shares which may be issued under the Plan (except pursuant to Section 18) or (ii) shall otherwise obtain stockholder approval of any amendment, alteration, suspension, discontinuance or termination of the Plan, if, and to the extent, required by applicable law. Except as specifically provided in the Plan, as required to comply with Section 423 of the Code, or as required to obtain a favorable ruling from the U.S. Internal Revenue Service, no such amendment, alteration, suspension, discontinuance or termination of the Plan pursuant to this Section 19 may make any change in any option theretofore granted which adversely affects the rights of any Participant under the 423 Component without the consent of such Participant.

(b) Without stockholder approval and without regard to whether any Participant rights may be considered to have been "adversely affected," the Committee or its delegate, to the extent permitted under the terms of the Plan, applicable law, the bylaws of the Company and under the Committee charter, may change the Offering Periods or Exercise Price, limit the frequency or number of changes in the amount withheld or contributed during an Offering Period, establish the exchange rate applicable to amounts withheld or contributed in a currency other than U.S. dollars, permit payroll withholding or contributions in excess of the amount designated by a Participant to adjust for delays or mistakes in the Company's processing of properly completed Subscription Agreements, establish reasonable waiting and adjustment periods and/or accounting and crediting procedures to ensure that amounts applied toward the purchase of Shares for each Participant properly correspond with the Participant's Subscription Agreement, and establish such other limitations or procedures as the Committee deems appropriate.

(c) The Plan shall automatically terminate on the Exercise Date that Participants become entitled to purchase a number of Shares greater than the number available for purchase under Section 12.

SECTION 20. Section 409A of the Code; Tax Qualification.

(a) Options granted under the 423 Component are exempt from the application of Section 409A of the Code. Options granted under the Non-423 Component to U.S. taxpayers are intended to be exempt from the application of Section 409A under the short-term deferral exception and any ambiguities shall be construed and interpreted in accordance with such intent. Subject to Section 20(b), options granted to U.S. taxpayers under the Non-423 Component are subject to such terms and conditions that will permit such options to satisfy the requirements of the short-term deferral exception available under Section 409A of the Code, including the requirement that the shares of Common Stock subject to an option be delivered within the short-term deferral period. Subject to Section 20(b), in the case of a Participant who would otherwise be subject to Section 409A of the Code, to the extent the Company determines that an option or the exercise, payment, settlement or deferral is subject to Section 409A of the Code, the option shall be granted, exercised, paid, settled or deferred in a manner that will comply with Section 409A of the

Code, including Treasury Regulations and other interpretive guidance issued thereunder, including without limitation any such regulations or other guidance that may be issued after the Effective Date. Anything in the foregoing to the contrary notwithstanding, the Company shall have no liability to a Participant or any other party if the option that is intended to be exempt from, or compliant with Section 409A of the Code is not so exempt or compliant or for any action taken by the Company with respect thereto.

(b) Although the Company may endeavor to (i) qualify an option for favorable tax treatment under the laws of the U.S. or jurisdictions outside of the U.S. or (ii) avoid adverse tax treatment (e.g., under Section 409A of the Code), the Company makes no representation to that effect and expressly disavows any covenant to maintain favorable or avoid unfavorable tax treatment, notwithstanding anything to the contrary in this Plan. The Company is not constrained in its corporate activities by any potential negative tax impact on Participants under the Plan.

SECTION 21. Notices.

(a) All notices or other communications by an Eligible Employee or a Participant to the Company under or in connection with the Plan shall be deemed to have been duly given when received in the form specified by the Company at the location, or by the person, designated by the Company for the receipt thereof.

(b) All notices or other communications by the Employer, the Company, the Board or the Committee under or in connection with the Plan shall be deemed to have been duly given when (i) personally delivered, including electronic transmission in such form as the Board or the Committee shall direct, or (ii) placed in the mail of the country of the sender in an envelope addressed to the last known address of the person to whom the notice is given.

SECTION 22. Stockholder Approval. The effectiveness of the Plan shall be subject to approval by the stockholders of the Company within twelve (12) months before or after the date the Plan is adopted by the Board. Notwithstanding any provision to the contrary, failure to obtain such stockholder approval shall void the Plan, any options granted under the Plan, any Share purchases pursuant to the Plan, and all rights of all Participants.

SECTION 23. Conditions Upon Issuance of Shares. Shares shall not be issued with respect to an option unless the exercise of such option and the issuance and delivery of such Shares pursuant thereto shall comply with all applicable provisions of U.S. and non-U.S. law, including, without limitation, the U.S. Securities Act of 1933, as amended, the Exchange Act, the rules and regulations promulgated under both sets of laws and the requirements of any stock exchange upon which the Shares may then be listed, and shall be further subject to the approval of counsel for the Company with respect to such compliance. As a condition to the exercise of an option, the Company may require the person exercising such option to represent and warrant at the time of any such exercise that the Shares are being purchased only for investment and without any present intention to sell or distribute such Shares if, in the opinion of counsel for the Company, such a representation is required by any of the aforementioned applicable provisions of law.

SECTION 24. Withholding; Disqualifying Disposition. Notwithstanding any other provision of the Plan, at the time a Participant's option under the Plan is exercised, in whole or in part, or at the time some or all of the Shares issued under the Plan are disposed of by a Participant (or any other time that a taxable event related to the Plan occurs), the Participant must make adequate provision for the payment and/or withholding of federal, state, local or any other tax liability payable to any authority, national insurance, social security, payment-on-account or other tax withholding obligations, if any, which arise upon the exercise of the option or the disposition of the Shares (or any other time that a taxable event related to the Plan occurs), including, for the avoidance of doubt, any liability of the Participant to pay an Employer tax or social insurance contribution obligation, which liability has been shifted to the Participant as a matter of law or contract. At any time, the Company or Employer may, but shall not be obligated to, withhold from the Participant's compensation, the amount necessary for the Company or Employer to meet applicable withholding obligations, including any withholding required to make available to the Company or Employer any tax deductions or benefits attributable to a sale or early disposition of Shares by the Participant. In addition, the Company or Employer may (i) withhold from the proceeds of the sale of Shares, (ii) withhold a sufficient whole number of Shares otherwise issuable upon purchase having an aggregate Fair Market Value sufficient to satisfy applicable withholding obligations, or (iii) withhold by any other means set forth in the applicable Subscription Agreement.

SECTION 25. Notification of Sale of Shares. Each Participant shall give the Stock Administrator prompt notice of any disposition of Shares acquired pursuant to the option granted under the Plan in accordance with such procedures as may be established by the Stock Administrator. The Stock Administrator may require that until such time as a Participant disposes of Shares acquired pursuant to the option granted under the Plan, the Participant shall hold all such Shares in the Participant's name and with a third-party broker/administrator designated by the Company until the lapse of any time period(s) established by the Stock Administrator.

SECTION 26. Effective Date of the Plan. The Plan shall be effective as of the Effective Date, subject to its approval by the stockholders of the Company as described in Section 22.

SECTION 27. Term of Plan. The Plan shall continue in effect until the earliest to occur of (a) the tenth-year anniversary of the Effective Date; (b) the maximum number of Shares available for issuance under the Plan have been issued in accordance with Section 19(c); (c) the Board terminates the Plan in accordance with Section 19(a); or (d) the failure to obtain stockholder approval pursuant to Section 22.

SECTION 28. No Rights Implied. Nothing contained in the Plan, any modification or amendment to the Plan, or the creation of any Participant Account, the execution of any Subscription Agreement, or the issuance of any Shares, shall give any Employee or Participant any right to continue his or her employment, any legal or equitable right against the Employer or

Company or any officer, director, or employee of the Employer or the Company, or interfere in any way with the Employer's or the Company's right to terminate or otherwise modify an Employee's employment at any time, except as expressly provided by the Plan.

SECTION 29. Severability. If any provision of the Plan is or becomes or is deemed to be invalid, illegal or unenforceable in any jurisdiction, or as to any person or entity, or would disqualify the Plan under any law deemed applicable by the Committee, such provision shall be construed or deemed amended to conform to applicable laws, or if it cannot be so construed or deemed amended without, in the determination of the Committee, materially altering the intent of the Plan, such provision shall be stricken as to such jurisdiction, person or entity, and the remainder of the Plan shall remain in full force and effect.

SECTION 30. Waiver of Notice. Any person entitled to notice under the Plan may waive such notice.

SECTION 31. Successors and Assigns. The Plan shall be binding upon all persons entitled to purchase Shares under the Plan, their respective heirs, legatees, and legal representatives, including, without limitation, such person's estate and the executors, any receiver, trustee in bankruptcy or representative of creditors of such person, and upon the Employer, its successors and assigns.

SECTION 32. Headings. The titles and headings of the sections are included for convenience of reference only and are not to be considered in construction of the provisions hereof.

SECTION 33. Governing Law and Jurisdiction. The Plan shall be governed by the laws of the U.S. State of Delaware, without application of the conflicts of law principles thereof, except to the extent Delaware law is preempted by federal law. The jurisdiction and venue for any disputes arising under, or any action brought to enforce (or otherwise relating to) this Plan shall be exclusively in the courts in the State of Illinois, County of Cook, including the U.S. federal courts located therein (should federal jurisdiction exist). The obligation of the Employer to sell and deliver Shares under the Plan is subject to Applicable Laws and to the approval of any governmental authority required in connection with the authorization, issuance, sale, or delivery of such Shares.

APPENDIX B

RECONCILIATION OF NON-GAAP FINANCIAL MEASURES TO GAAP MEASURES

In addition to disclosing results determined in accordance with U.S. generally accepted accounting principles ("GAAP"), Cboe Global Markets, Inc. has disclosed certain non-GAAP measures of operating performance. These measures are not in accordance with, or a substitute for, GAAP, and may be different from or inconsistent with non-GAAP financial measures used by other companies. The non-GAAP measures provided in this Proxy Statement are revenues less cost of revenues and revenues less cost of revenues, other than royalties, on a combined company basis. Management believes that the non-GAAP financial measures presented in this Proxy Statement provide a means to determine compensation payouts under our annual incentive plan. Additionally, due to the transformative nature of the Bats acquisition, the Company believes that providing a discussion of its revenues on a non-GAAP combined basis provides management and investors an additional perspective on the Company's financial and operational performance and trends.

The non-GAAP unaudited combined financial measures have been prepared by recording combined adjustments to the historical consolidated financial statements of Cboe Global Markets, Inc. The combined financial measures for the twelve months ended December 31, 2016 have been prepared as if the Bats acquisition closed on January 1, 2016. The combined financial measures for the twelve months ended December 31, 2017 have been prepared as if the Bats acquisition closed on January 1, 2017.

The combined financial measures are not necessarily indicative of the financial position or results of operations that would have occurred had the transaction been effected on the assumed date. Additionally, future results may vary significantly from the results reflected in the combined financial measures.
