ARC Group Worldwide, Inc.

Notes to Condensed Consolidated Financial Statements

March 31, 2013

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Nature of Business

Quadrant Metals Technology, LLC (referred to herein as “QMT” or the “Predecessor”) was formed in March 2011, to function as a holding company for a group of diversified manufacturing and distribution companies. Upon formation, QMT acquired controlling interests in TeknaSeal LLC (“TeknaSeal”) as of May 1, 2011 and in FloMet LLC (“Flomet”) as of June 30, 2011. In addition, QMT acquired General Flange & Forge (“GF&F”) as of April 18, 2011 and has held controlling interests in GF&F since that date. Furthermore, TubeFit LLC (“TubeFit”) was formed on November 1, 2011 and QMT has held controlling interests in TubeFit since that date. During the third quarter of fiscal 2013, the Company made the decision to discontinue the operations of TubeFit, which was previously included within its Flanges & Fittings segment. While QMT was formed in 2011 as a holding company, affiliated companies have held controlling interests in FloMet and TeknaSeal for over 10 years.

Advanced Forming Technology, Inc. (“AFT”) is comprised of two operating units, AFT-US and AFT Hungary. AFT-US was founded in 1987. From 1991 until its acquisition by ARC, AFT was operated as a division of Precision Castparts Corporation, a publicly traded company.

ARC Group Worldwide, Inc. (referred to herein as the “Company” or “ARC”) was organized under the laws of the State of Utah on September 30, 1987.

Completion of Acquisitions

On August 8, 2012, ARC completed the acquisition of QMT and AFT (referred to herein as the “QMT Acquisition” and the “AFT Acquisition”). The QMT Acquisition was accounted for as a reverse acquisition under generally accepted accounting principles, whereby QMT was deemed to be the accounting acquirer in the acquisition. The financial statements for periods prior to August 8, 2012 reflect only the operations of QMT. ARC’s historical accumulated

deficit for periods prior to August 8, 2012, in the amount of \$10.2 million was eliminated against additional paid in capital, and the accompanying financial statements present the previously issued shares of ARC common stock as having been issued pursuant to the merger on August 8, 2012. The shares of common stock issued to QMT pursuant to the merger are presented as having been outstanding for since July 1, 2011. All transactions between divisions and/or wholly owned subsidiaries of the Company or the Predecessor have been eliminated in the financial statements.

The accompanying financial statements include the results of operations of ARC, QMT and AFT for periods subsequent to the acquisition; for periods prior to the acquisition the results of operations are presented only for QMT.

Unaudited Interim Financial Information

The accompanying interim unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, the accompanying unaudited consolidated condensed financial statements contain all of the normal recurring adjustments necessary to present fairly the financial position of the Company as of March 31, 2013, the results of its operation and its cash flows for the three months and nine months then

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

ended. For further information, refer to the Predecessor’s financial statements and footnotes thereto included in the Company’s Report on Form 8-K/A, filed on September 28, 2012, for the year ended June 30, 2012.

The Company’s fiscal year begins July 1 and ends June 30 and the quarters for interim reporting consist of thirteen weeks, therefore, the quarter end will not always coincide with the date of the calendar month.

Prior to the date of the acquisitions noted above, the Predecessor operated in two business segments, identified as the Precision Components Group, consisting of FloMet and TeknaSeal, and the Flanges and Fittings Group, consisting of GF&F and TubeFit. After completion of the acquisitions mentioned above, ARC operates three business segments: the Precision Components Group, consisting of FloMet, AFT-US, AFT-Hungary, and TeknaSeal; the Flanges and Fittings Group, consisting of GF&F and TubeFit; and the Wireless Group, consisting of ARC Wireless LLC and ARC Wireless Ltd. During the third quarter of fiscal year 2013, the Company made the decision to discontinue the operations of TubeFit, which was previously included within its Flanges & Fittings segment. The operations of TubeFit have been included in our financial statements as discontinued operations for all periods presented.

Operating results for the nine months ended March 31, 2013 are not necessarily indicative of the results to be expected for the full year or any future period.

Significant Business Acquisitions

The purchase price was allocated based on the information currently available, and may be adjusted after obtaining more information regarding, among other things, asset valuations, liabilities assumed, and revisions of preliminary estimates. The following table summarizes the estimated fair values of the assets acquired and liabilities assumed at the acquisition date.

To record the assets and liabilities for the reverse merger of ARC by QMT (in thousands):

Purchase price	\$ 10,225
Less fair value of assets acquired:	
Cash and cash equivalents	10,590

Edgar Filing: ARC Group Worldwide, Inc. - Form 10-Q

Accounts receivable, net	1,096
Inventories, net	737
Prepaid and other current assets	40
Property and equipment, net	236
Intangible assets	109
Other	6
Fair value of liabilities assumed:	
Accounts payable	(2,030)
Accrued expenses	(169)
Current portion of capital lease	(9)
Non-controlling interest	—
Fair value of net assets acquired	10,606
Negative goodwill resulting from the acquisition, accounted for as a bargain purchase	\$(381)

7

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**Significant Business Acquisitions (continued)**

To record the assets and liabilities purchased in the acquisition of AFT (in thousands):

Purchase price	\$42,722
Less fair value of assets acquired:	
Cash and cash equivalents	735
Accounts receivable, net	6,236
Inventories, net	6,521
Prepaid and other current assets	264
Property and equipment, net	21,590
Other intangible assets	4,972
Fair value of liabilities assumed:	
Accounts payable	(3,007)
Accrued expenses	(1,375)
Fair value of net assets acquired	35,936
Goodwill resulting from the acquisition	\$6,786

Reasons for the acquisitions at the agreed upon purchase price include synergies between the businesses, including cross fertilization of product/customer applications, expanded R&D capabilities, and operational synergies, among others. It is also believed that the acquisitions will help generate further scale and lead to enhanced revenue and earnings growth. The combination of two of the largest recognized leaders in the metal injection molding (“MIM”) industry will provide distinct scale advantages creating substantial barriers to entry for other companies and providing ARC with long-term strategic positioning as the clear market leader in the MIM industry.

Pro forma Financial Information (Unaudited)

The historical operating results of ARC and AFT have not been included in the Company’s historical consolidated operating results prior to their acquisition dates. The following unaudited pro forma information presents the combined results of continuing operations for the three and nine months ended March 31, 2013 and April 1, 2012 as if the acquisition had been completed on July 1, 2012 and July 1, 2011, respectively. The unaudited pro forma results do not reflect any material adjustments, operating efficiencies or potential cost savings which may result from the consolidation of operations but do reflect certain adjustments expected to have a continuing impact on the combined results.

Edgar Filing: ARC Group Worldwide, Inc. - Form 10-Q

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**Significant Business Acquisitions (continued)**

QMT acquired a 90% ownership of TubeFit on October 31, 2011 for \$150 thousand. TubeFit began business on October 31, 2011. TubeFit purchased the assets of Fittube Piping Products, Inc. for \$150 thousand. The allocation of the purchase price for Fittube Piping Products, Inc. is as follows (in thousands):

Inventory	\$17
Fixed Assets	4
Goodwill	129

TubeFit sells imported flanges in carbon steel, stainless steel and alloys. As of March 28, 2013 the remaining 10% interest was assigned to QMT, thus QMT retained 100% ownership in TubeFit as of quarter end March 31, 2013. During the third quarter of fiscal year 2013, the Company made the decision to discontinue the operations of TubeFit, which was previously included within its Flanges & Fittings segment. The operations of TubeFit have been included in our financial statements as discontinued operations for all periods presented.

QMT acquired a 90% ownership of GF&F on March 1, 2011 with an initial cash investment in GF&F of \$2.3 million. GF&F began business on March 1, 2011. With the initial cash investments of its shareholders and a bank loan, GF&F purchased assets and assumed liabilities of General Flange & Forge Corporation for \$5.507 million on April 18, 2011. The allocation of the purchase price of General Flange & Forge, Inc. is as follows (in thousands):

Cash	\$326
Accounts Receivable	933
Inventory	2,113
Fixed Assets	573
Other Assets	16
Goodwill	1,711
Accounts Payable	(165)

GF&F distributes imported and domestic flanges in carbon steel, stainless steel and alloys. All activity from the date of the acquisition of GF&F has been reflected in the consolidated statement of income.

QMT acquired an 85.03% ownership of TeknaSeal on May 1, 2011 by exchanging membership units of Quadrant Metals Technologies LLC for membership units of TeknaSeal that were originally owned by the members of QMT. The investment in TeknaSeal has been recorded on the books of QMT at the TeknaSeal book value. TeknaSeal manufactures hermetic glass-to-metal components to meet customer specifications. The annual activity of TeknaSeal in 2011 is reported in the consolidated statement of income as it was under common control for all of fiscal 2011.

QMT acquired an 84.99% ownership of FloMet on June 30, 2011 by exchanging membership units of QMT for membership units of FloMet that were originally owned by the members of QMT. The investment in FloMet has been recorded on the books of QMT at the FloMet book value. FloMet manufactures component parts from metal powder, primarily stainless steel base, to customer specifications. The annual activity of FloMet in 2011 is reported in the consolidated financial statements as it was under common control for all of fiscal 2011.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Cash and Cash Equivalents

For purposes of reporting cash flows, the Company considers all highly liquid debt instruments with an initial maturity of less than three months to be cash equivalents. The Company places its cash with high credit quality financial institutions and does not believe it is exposed to any significant credit risk on cash and cash equivalents. At times, cash in the bank may exceed FDIC insurable limits.

Accounts Receivable

The Company uses the allowance method to account for uncollectible accounts receivable. The allowance is sufficient to cover both current and anticipated future losses. Uncollectible amounts are charged against the allowance account. Management estimates this amount based upon prior experience with customers and an analysis of individual trade accounts. An allowance for doubtful accounts of \$100 thousand and \$125 thousand has been reserved as of March 31, 2013 and June 30, 2012, respectively.

The Company offers most customers between net 30 and 45-day terms. In special situations, the Company may offer extended terms or discounts to selected customers. Accounts are considered past due if a payment is not received within credit terms.

Inventories

The Company values inventories at the lower of average cost or market using the first-in, first-out (FIFO) method. It is the Company's practice to provide a valuation allowance for inventories to account for potential market pricing deflation and inventory shrinkage. Management actively reviews this inventory to determine that all materials are for products still in production to determine any potential obsolescence issues. An allowance for inventory obsolescence of \$206 thousand and \$45 thousand has been reserved as of March 31, 2013 and June 30, 2012, respectively.

Plant and Equipment

Plant and equipment are stated at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the assets as follows:

Useful Life

Building and Improvements 7 to 40 years

Machinery and Equipment 3 to 12 years

Major additions and improvements are capitalized, while replacements, maintenance and repairs, which do not improve or extend the life of the respective assets, are expensed as incurred.

Depreciation expense totaled \$.8 million and \$.2 million for the three months ended March 31, 2013 and April 1, 2012, respectively and \$2.1 million and \$0.6 million for the nine months ended March 31, 2013 and April 1, 2012, respectively.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Long-lived Assets

The carrying value of long-lived assets are reviewed annually; if at any time the facts or circumstances at any of our individual subsidiaries indicate impairment of long-lived asset values, as a result of a continual decline in performance, or as a result of fundamental changes in a subsidiary's market conditions, a determination is made as to whether the carrying value of the property's long-lived assets exceeds estimated realizable value. Long-lived assets consist primarily of Property and Equipment. No impairment was determined as of March 31, 2013 and June 30, 2012 for continuing operations. The Company has recorded the Property and Equipment of Discontinued Operations at net realizable value for the quarter ended March 31, 2013.

Goodwill and Intangibles

Goodwill is recognized as a result of a business combination when the price paid for the acquired business exceeds the fair value of its identified net assets. Identifiable intangible assets are recognized at their fair value when acquired. Goodwill and intangible assets with indefinite useful lives are not amortized, but instead tested for impairment at least annually. Intangible assets with definite useful lives are amortized over their respective estimated useful lives to their estimated residual values, and reviewed for impairment.

The Company has evaluated its goodwill and intangibles, that were acquired in prior periods, for impairment and has determined that goodwill and intangibles were not impaired for continuing operations. The Company has determined goodwill impairment for period ending March 31, 2013 in the amount of \$129 thousand related to discontinued operations.

The Predecessor identified no material separately identifiable intangible assets in 2011 as a result of its acquisitions.

The Company identified other identifiable intangible assets in the amount of \$5.1 million as a result of its acquisitions in fiscal year 2013. Amortization expense totaled \$.3 million for the three and nine months ended March 31, 2013 for other identifiable intangible assets which reflects amortization expense from acquisition date of August 8, 2012 to current period.

Edgar Filing: ARC Group Worldwide, Inc. - Form 10-Q

The estimated future amortization expense for the next five years, assuming no change in the gross carrying amount of acquisition intangibles are as follows (in thousands):

Fiscal period ending June 30,	2013	2014	2015	2016	2017	2018
Future intangibles amortization expense	\$ 126	\$ 504	\$ 503	\$ 503	\$ 502	\$ 502

Acquisitions during fiscal year 2013 resulted in an increase in goodwill and intangibles of approximately \$11.8 million. The carrying amounts of these assets are as follows (in thousands):

	March 31, 2013	June 30, 2012
Precision Components	\$ 16,549	\$ 5,123
Flanges and Fitting	1,712	1,712
Wireless	108	—
Total	\$ 18,369	\$ 6,835

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Deferred Revenue

Unearned revenue consists of customer deposits for the development of molds used in the manufacturing process. As of March 31, 2013 and June 30, 2012 unearned income was \$989 thousand and \$132 thousand respectively. The Company recognizes revenue and the related expenses when the customer approves the mold for production. Accordingly, as of March 31, 2013 and June 30, 2012, the Company and Predecessor have incurred costs of \$1.3 million and \$101 thousand, respectively, related to molds in the process of being developed which have been deferred and are included as part of the total current assets on the accompanying balance sheet.

Revenue Recognition

Revenue is measured at the fair value of the consideration received or receivable net of sales tax, trade discounts and customer returns.

Revenue from the sale of goods is recognized when the following conditions are satisfied: (1) the Company and the Predecessor have transferred to the buyer the significant risks and rewards of ownership of the goods; (2) the Company and the Predecessor retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold; (3) the amount of revenue can be measured reliably; (4) it is probable that the economic benefits associated with the transaction will flow to the entity; and (5) the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Research and Development Costs

Research and development costs are expensed as incurred. The majority of these expenditures consist of salaries for engineering and manufacturing personnel and fees paid to consultants for services rendered. For the three months ended March 31, 2013 and April 1, 2012, the Company incurred \$160 thousand and \$200 thousand, respectively, and for the nine months ended March 31, 2013 and April 1, 2012, the Company incurred \$557 thousand and \$635 thousand, respectively, for research and development, which is included in selling, general and administrative expenses on the accompanying statement of income.

Financial Instruments

The Company's financial instruments consist of cash and cash equivalents, notes and accounts receivable, accrued liabilities, and notes and accounts payable. It is management's opinion that the Company is not exposed to significant interest rate or credit risks arising from these instruments. The fair values of these financial instruments approximate their carrying values.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Income Taxes

The Company accounts for income taxes pursuant to *Accounting Standards Codification* (“ASC”) 740, *Income Taxes*, which utilizes the asset and liability method of computing deferred income taxes. The objective of this method is to establish deferred tax assets and liabilities for any temporary differences between the financial reporting basis and the tax basis of the Company’s assets and liabilities at enacted tax rates expected to be in effect when such amounts are realized or settled. The current and deferred tax provision is allocated among the members of the consolidated group on the separate income tax return basis.

ASC 740 also provides detailed guidance for the financial statement recognition, measurement and disclosure of uncertain tax positions recognized in the financial statements. Tax positions must meet a “more-likely-than-not” recognition threshold at the effective date to be recognized. During the nine months ended March 31, 2013 the Company recognized no adjustments for uncertain tax positions.

The Company recognizes interest and penalties related to uncertain tax positions in income tax expense. No interest and penalties related to uncertain tax positions were recognized at March 31, 2013. The Company expects no material changes to unrecognized tax positions within the next twelve months.

As a limited liability company, the Predecessor’s taxable income or loss was allocated to the members in accordance with their respective percentage ownership. Therefore, no provision or liability for income taxes has been included in the financial statements prior to August 8, 2012.

The tax returns for the years ending June 30, 2010 through 2012 are open to examination by federal and state authorities.

Presentation of Certain Taxes

The Company collects various taxes from customers and remits these amounts to applicable taxing authorities. The Company’s accounting policy is to exclude these taxes from revenues and cost of sales.

Advertising

Advertising costs are charged to operations when incurred. Total advertising costs for the three months ended March 31, 2013 and April 1, 2012 was approximately \$25 thousand and \$23 thousand, respectively and for the nine months ended March 31, 2013 and April 1, 2012 was approximately \$61 thousand and \$66 thousand, respectively.

NOTE B – RECENT ACCOUNTING PRONOUNCEMENTS

Changes to accounting principles generally accepted in the United States of America (U.S. GAAP) are established by the Financial Accounting Standards Board (FASB) in the form of accounting standards updates (ASUs) to the FASB's Accounting Standards Codification.

The Company considers the applicability and impact of all ASUs. ASUs not listed below were assessed and determined to be either not applicable or are expected to have minimal impact on our consolidated financial position or results of operations.

In June 2011, the FASB issued an update to ASC No. 220, "Presentation of Comprehensive Income," which eliminates the option to present other comprehensive income and its components in the statement of shareholders' equity. The Company can elect to present the items of net income and other comprehensive income in a single continuous statement of comprehensive income or in two separate, but consecutive, statements. Under either method the statement would need to be presented

NOTE B – RECENT ACCOUNTING PRONOUNCEMENTS (continued)

with equal prominence as the other primary financial statements. The amended guidance, which must be applied retroactively, is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011, with earlier adoption permitted. In December 2011, the FASB issued another update on the topic, which deferred the effective date pertaining only to the presentation of reclassification adjustments on the face of the financial statements. The adoption of the new guidance did not have a material impact on the consolidated financial statements.

In September 2011, the FASB issued amendments to the goodwill impairment guidance which provides an option for companies to use a qualitative approach to test goodwill for impairment if certain conditions are met. The amendments are effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011 (early adoption is permitted). The implementation of the amended accounting guidance has not had a material impact on our consolidated financial position or results of operations.

In December 2011, the FASB issued an amendment to the accounting guidance for disclosure of offsetting assets and liabilities and related arrangements. The amendment expands the disclosure requirements in that entities will be required to disclose both gross information and net information about both instruments and transactions eligible for offset in the statement of financial position and instruments and transactions subject to an agreement similar to a master netting arrangement. The amendment is effective for fiscal years, and interim periods within those years, beginning on or after January 1, 2013, and shall be applied retrospectively. We do not expect the adoption of this accounting pronouncement to have a material impact on our financial statements when implemented.

In July 2012, the Financial Accounting Standards Board (“FASB”) issued guidance which amends the guidance on testing indefinite-lived intangible assets, other than goodwill, for impairment. Under the new guidance, an entity testing an indefinite-lived intangible asset for impairment has the option of performing a qualitative assessment before calculating the fair value of the asset. If the entity determines, on the basis of qualitative factors, that the fair value of the indefinite-lived intangible asset is not more likely than not impaired, the entity would not need to calculate the fair value of the asset. The guidance is effective for the Company for our annual impairment test for fiscal 2014. The adoption of this guidance is not expected to have a significant impact on our consolidated financial position, results of operations, or cash flows.

In August 2012, the FASB issued ASU 2012-03, “Technical Amendments and Corrections to SEC Sections: Amendments to SEC Paragraphs Pursuant to SEC Staff Accounting Bulletin (SAB) No. 114, Technical Amendments Pursuant to SEC Release No. 33-9250, and Corrections Related to FASB Accounting Standards Update 2010-22 (SEC Update)” in Accounting Standards Update No. 2012-03. This update amends various SEC paragraphs pursuant to the issuance of SAB No. 114. The adoption of ASU 2012-03 is not expected to have a material impact on our financial position or results of operations.

In October 2012, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2012-04, "Technical Corrections and Improvements" in Accounting Standards Update No. 2012-04. The amendments in this update cover a wide range of Topics in the Accounting Standards Codification. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this update will be effective for fiscal periods beginning after December 15, 2012. The adoption of ASU 2012-04 is not expected to have a material impact on our financial position or results of operations.

In February 2013, the FASB issued ASU 2013-02, "Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income," ("ASU 2013-02"). ASU 2013-02 adds new disclosure requirements for items reclassified out of accumulated other comprehensive income ("AOCI"). ASU 2013-02 intends to help the Company improve the transparency of changes in other comprehensive income ("OCI") and items reclassified out of AOCI in the Company's financial statements. ASU 2013-02 does not amend any existing requirements for reporting net income or OCI in the Company's financial statements. ASU 2013-02 is effective for annual and interim reporting periods beginning after December 15, 2012.

NOTE B – RECENT ACCOUNTING PRONOUNCEMENTS (continued)

Adoption of this guidance did not have a significant impact on the determination or reporting of the Company's financial results.

In March 2013, the FASB issued ASU 2013-05, "Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity," ("ASU 2013-05"). The objective of ASU 2013-05 is to clarify the applicable guidance for the release into net income of the cumulative translation adjustment upon derecognition of a subsidiary or group of assets within a foreign entity. ASU 2013-05 is effective for annual and interim reporting periods beginning after December 15, 2013 with early adoption permitted. The Company is currently evaluating the impact that the adoption will have on the determination or reporting of its financial results.

NOTE C – INVENTORY

Inventories consisted of the following (in thousands):

	March 31, 2013	June 30, 2012
Raw Materials and Supplies	\$2,902	\$1,332
Work In Process	5,149	768
Finished Goods	3,378	1,594
	11,429	3,694
Less: Reserve for Obsolescence	206	45
	\$11,223	\$3,649

NOTE D – PLANT and EQUIPMENT

Plant and equipment consisted of the following (in thousands):

March 31,	June 30, 2012
--------------	------------------

Edgar Filing: ARC Group Worldwide, Inc. - Form 10-Q

	2013	
Land	\$1,197	\$—
Building and Improvements	12,859	2,201
Machinery and Equipment	18,288	8,058
Office Equipment	270	528
Leasehold Improvements	65	44
Automobiles	186	147
Construction in Process	479	146
	33,344	11,124
Less: Accumulated Depreciation	8,736	6,651
	\$24,608	\$4,473

NOTE E – LONG-TERM DEBT

Long-term debt payable consists of the following:

On August 8, 2012, QMT entered into an agreement with TD Bank, N.A. for a \$25.0 million credit facility to fund the purchase of Precision Castparts Corp.'s ("PCC") interest in Advanced Forming Technology Inc. and AFT-Hungary Kft., and to pay off the balances of outstanding loans held as of that date.

The Credit facility is described as follows :	Balance as of (in thousands)	
	Mar 31, 2013	Jun 30, 2012
Revolving line of credit not to exceed \$10.0 million with a maturity date of August 8, 2015; collateralized by accounts receivable and inventory; the amount available from this line is determined by a monthly borrowing base. Interest is accrued and payable monthly.	\$4,191	
Term Loan A in the amount of \$3.6 million, collateralized by equipment payable in equal monthly payments of \$60 thousand plus accrued interest, with a maturity date of August 8, 2017.	\$3,191	
Term Loan B (commercial mortgage) in the amount of \$5.5 million payable in equal monthly installments of \$18 thousand plus accrued interest with maturity date of August 8, 2022, with a five year call option.	\$5,342	
Term Bridge Loans-amounting to \$8.9 million consisting of :		
a) \$6.9 million with interest only payments for the first 6 months and 23 monthly principal payments of \$300 thousand plus interest with maturity date of February 8, 2015.	\$6,248	
b) \$2.0 million, with interest rate at one month Libor + 400 bps with a 5% floor; payable in 6 equal payments of \$341 thousand plus accrued interest with maturity date of February 8, 2013.	\$0	
Subtotal	18,972	
Convertible Note Payable to Precision Castparts in the amount of \$17.6 million; due at 8/8/2017; interest is equal to the Five-Year U.S. Treasury Note Constant Maturity rate adjusted on each anniversary and is paid on a quarterly basis; this Note is subordinated to the first priority security interest of TD Bank, N.A. Subject to certain terms of the agreement the Holder has the option to convert outstanding principal and unpaid interest into shares of the Company's Common Stock.	17,600	
Notes Payable to bank; these notes were all paid off as part of the Business Combination on August 8, 2012		6,868

Edgar Filing: ARC Group Worldwide, Inc. - Form 10-Q

Total Long-Term Debt from Continuing Operations	\$36,572	\$6,868
Less: Current Portion from Continuing Operations	(8,732)	(1,491)
Total Long-Term Debt Less Current Portion	\$27,840	\$5,377

NOTE E – LONG TERM DEBT (continued)

Maturities are as follows
on notes payable and
Line of Credit at March
31, 2013:

2013	\$8,732
2014	4,541
2015	1,099
2016	941
2017	18,301
2018 – 2022	2,958

An economic hedging instrument was required through the Bank to synthetically convert the floating rate to an indicative fixed rate on 50% of the notional amounts of Term Loan A and Term Loan B for a term of five years. Fixed rate through a derivative swap was locked in at the time the Swap was executed; the swap is discussed in Note F.

Certain loans are subject to financial and non-financial covenants established by the bank; compliance is determined on an annual basis using audited and consolidated financial statements. As of March 31, 2013 and June 30, 2012 the Company was in compliance with all covenants.

NOTE F - DERIVATIVES AND HEDGING ACTIVITIES

Pay Fixed, Receive-Variable Interest Rate Swaps

Objective of the swaps: QMT entered into two separate pay-fixed, receive-variable interest rate swaps with the objective of eliminating the variability in the Company’s interest expense on 50% of its \$3,612 thousand Term Loan (“Term Loan A”) and of its \$5,470 thousand Term Loan (Term Loan B) attributable to changes in one month LIBOR. The Term Loans were made pursuant to the Loan and Security Agreement (“Agreement”) dated August 8, 2012 between QMT and the Bank.

The terms of the outstanding swaps as of March 31, 2013 were as follows:

Associated Debt	Notional Amount (thousands)	Effective Date	Fixed Rate Paid	Variable Rate Received	Fair Value (thousands)	Swap Termination Date
Term Loan A	\$ 1,595	8-Aug-2012	0.85%	LIBOR*	\$ 11	8-Aug-2017
Term Loan B	\$ 2,671	8-Aug-2012	1.10%	LIBOR*	\$ 36	8-Aug-2017

*One month London Interbank Offered Rate

The Company estimated the fair value of these instruments based on a market position at close of business March 28, 2013 and on such basis determined the fair value adjustment to be \$28 thousand.

Termination of Swap prior to maturity will be settled at market value and may result in a payment to or from borrower determined at the time of termination.

The swaps are classified within Level 2 of the Fair Value Hierarchy.

NOTE G – BENEFIT PLANS

401(k) Plan

Each of the operating entities of the Predecessor sponsors a 401(k) plan and matches employee contributions as determined by resolution of the Board on an annual basis. The employer contribution criteria currently varies by operating entity. The amount charged to expense under the Plan was \$74 thousand and \$50 thousand for the three months ended March 31, 2013 and April 1, 2012, respectively, and \$193 thousand and \$139 thousand for the nine months ended March 31, 2013 and April 1, 2012, respectively.

Cash Incentive Plan

Certain full-time salaried employees of the Company are covered under a contributory cash incentive plan. The Company's contributions are based on amounts established at the discretion of the Board. The Company's contributions to this plan for the three months ended March 31, 2013 and April 1, 2012 were \$135 thousand and \$191 thousand, respectively, and for the nine months ended March 31, 2013 and April 1, 2012 were \$348 thousand and \$469 thousand, respectively.

NOTE H – COMMITMENTS

The Company leases land, facilities and equipment under various non-cancellable operating lease agreements expiring through August 31, 2017 and contain various renewal options.

At March 31, 2013, future rental commitments under non-cancellable operating leases were as follows (in thousands):

March 31,	
2013	\$450
2014	454
2015	273
2016	213
2017	184
Thereafter	112

Rent expense was \$119 thousand and \$70 thousand for the three months ended March 31, 2013 and April 1, 2012, respectively, and \$331 thousand and \$228 thousand for the nine months ended March 31, 2013 and April 1, 2012, respectively.

The Company entered into an employee agreement with its president and CEO dated March 1, 2011. The agreement will expire February 24, 2014, with an automatic one year renewal option. The President and CEO's annual salary is \$267.3 thousand and he is eligible for benefits as provided to similar situated employees of QMT.

NOTE I – CUSTOMER AND SUPPLIER CONCENTRATION RISK

The Company had sales from operations to four and three customers for the nine months ended March 31, 2013 and April 1, 2012 that represented approximately 37.8% and 33% of our sales. The concentration of the Company's business with a relatively small number of customers may expose us to a material adverse effect if one or more of these large customers were to experience financial difficulty or were to cease being customer for non-financial related issues. At March 31, 2013 and June 30, 2012 these customers represented approximately 35.9% and 5.5%, respectively, of our net trade accounts receivable.

At March 31, 2013 and June 30, 2012, respectively, there was no concentration in the volume of business above 5% transacted with a particular supplier(s) for which the Company had no alternative sources of supply.

NOTE J – FLOMET SHARE OPTION NOTE RECEIVABLE

At March 31, 2013 and June 30, 2012 the Company had a balance of notes receivable related to financed options in the amounts of \$272 thousand and \$303 thousand. Payments on the notes receivable are to be made from incentive compensation earned by the optionee. In the event insufficient incentive compensation is earned by the optionee to meet the principal payments due under the note receivable, the payments can be waived until sufficient incentive compensation is earned. The note has been classified as a reduction of equity.

NOTE K – EARNINGS PER SHARE

Basic earnings (loss) per share includes no dilution and is computed by dividing income available to common stockholders by the weighted average number of common shares outstanding for the period. Diluted earnings (loss) per share, reflects the potential dilution of securities that could share in the earnings of the entity. As of March 31, 2013 the Company had no outstanding stock options, therefore there was no computation of effect of dilutive securities. In addition, the net effect of the convertible debt is immaterial to the dilutive calculation.

The following table represents a reconciliation of the shares used to calculate basic and diluted earnings (loss) per share for the respective periods indicated (in thousands, except per share amounts):

	For the Nine Months Ended					
	March 31, 2013			April 1, 2012		
	Net Earnings			Net Earnings		
	(Loss)	Weighted	Per Share	(Loss)	Weighted	Per Share
	Attributed	Average	Earnings	Attributed	Average	Earnings
	to	Shares	(Loss)	to	Shares	(Loss)
	Common			Common		
	Stock			Stock		
Basic EPS:						
Net Earnings from Continuing Operations	\$ 1,865	5,439	\$ 0.34	\$ 3,664	4,030	\$ 0.91
Net Loss from Discontinued Operations	(408)	5,439	(0.08)	(95)	4,030	(0.02)
Effect of Dilutive Securities	—	—	—	—	—	—
Employee stock options	—	—	—	—	—	—
Diluted earnings per share	\$ 1,457	5,439	\$ 0.27	\$ 3,569	4,030	\$ 0.89

For the Three Months Ended

Edgar Filing: ARC Group Worldwide, Inc. - Form 10-Q

	March 31, 2013			April 1, 2012		
	Net Earnings (Loss)			Net Earnings (Loss)		
	Attributed to Common Stock	Weighted Average Shares	Per Share Earnings (Loss)	Attributed to Common Stock	Weighted Average Shares	Per Share Earnings (Loss)
Basic EPS:						
Net Earnings from Continuing Operations	\$1,020	5,673	\$ 0.18	\$1,334	4,030	\$ 0.33
Net Loss from Discontinued Operations	(268)	5,673	(0.05)	(49)	4,030	(0.01)
Effect of Dilutive Securities	—	—	—	—	—	—
Employee stock options	—	—	—	—	—	—
Diluted earnings per share	\$752	5,673	\$ 0.13	\$1,285	4,030	\$ 0.32

NOTE L - INCOME TAXES

The current income tax provision for the three months ended and nine months ended March 31, 2013 is \$188 thousand. In addition, for the three months ended March 31, 2013, there were \$119K thousand in local foreign taxes paid.

Goodwill recorded as part of an asset purchase agreement is deductible for tax purposes and only recorded as a book charge if it is impaired. A deferred tax liability is recorded as the tax deduction is realized, which will not be reversed unless and until the goodwill is disposed of or impaired. The Company will continue to record an income tax expense related to the amortization of goodwill as a discrete item each quarter unless and until such impairment occurs.

As of March 31, 2013, our net deferred tax assets of \$2,064 thousand are fully offset by a valuation allowance. ASC 740, *Income Taxes*, provides for the recognition of deferred tax assets if realization of such assets is more likely than not.

Based upon the weight of available evidence, which includes historical operating performance and uncertainties in forecasting our future results, we provided a full valuation allowance against our net U.S. deferred tax assets and a full valuation allowance against certain foreign deferred tax assets. The Company will reassess the need for a valuation allowance on a quarterly basis. A subsequent determination that the valuation allowance should be reduced would generally result in a benefit to the income tax provision.

The Company is still obtaining the information needed in connection with the calculation of the current and deferred tax provision which may result in a revision within the measurement period of such amounts once the information is obtained.

NOTE M – SEGMENT INFORMATION

The Predecessor operated as a diversified manufacturing holding company active in metal injection molding, specialty hermetic seals, and flanges & fittings. Prior to August 8, 2012 the Company operated under two reportable business segments: Precision Components and Flanges & Fittings. The Precision Components segment included results of its precision miniature components manufacturing subsidiary, FloMet, as well as its hermetic sealing manufacturing subsidiary, TeknaSeal. The Flanges & Fittings business segment included the results of the remaining two subsidiaries specializing in the manufacture and distribution of carbon, stainless and alloy flanges and fittings, namely GF&F and TubeFit, which is currently classified as a discontinued operation. Subsequent to the acquisitions on August 8, 2012,

the Company has operated three business segments: the Precision Components Group, consisting of FloMet, AFT-US, AFT-Hungary, and TeknaSeal; the Flanges and Fittings Group, consisting of GF&F and TubeFit; and the Wireless Group, consisting of ARC Wireless LLC and ARC Wireless Ltd.

NOTE M – SEGMENT INFORMATION (continued)

During the third quarter of fiscal 2013, the Company made the decision to discontinue operation of TubeFit, which was previously included within its Flanges & Fittings segment. Consequently, the Company has classified the results of operations of TubeFit as a discontinued operation for all periods presented.

Summarized segment information for our three continuing segments for the three and nine months ended March 31, 2013 and April 1, 2012 is as follows:

	For the nine months ended	
	(in thousands)	
	03/31/2013	04/01/2012

NOTE N – RELATED PARTY TRANSACTIONS

Quadrant Management Inc. (“Quadrant”) is under common control with Brean Murray Carret Group, Inc. (“Brean Murray”). Quadrant indirectly owned 74% of the membership interests of QMT prior to the acquisition. Brean Murray is the controlling shareholder of ARC. Brean Murray and Quadrant are under common control and therefore Brean Murray, Quadrant, ARC and QMT are affiliates under common control. Specifically, Brean Murray controls 100% of the ownership interests of Quadrant as well as, via certain wholly-owned intermediaries, 63.7% of the shares of ARC.

Pursuant to the original terms of the ARC Advisory Agreement entered into on January 21, 2009 (the “ARC Advisory Agreement”), Quadrant has provided ARC financial advisory and business consulting services, including restructuring services. In consideration for the restructuring services provided by Quadrant since November 2008 and for ongoing services, ARC originally agreed to pay Quadrant the following compensation: (1) an initial cash fee of \$250 thousand upon signing the ARC Advisory Agreement; (2) an annual fee of the greater of: (i) \$250 thousand; (ii) 20% of any increase in reported earnings before interest, taxes, depreciation and amortization after adjusting for one-time and non-recurring items (“EBITDA”) for the current financial year over preceding year; or (iii) 20% of reported EBITDA for the current financial year; and (3) all reasonable out-of-pocket expenses incurred by Quadrant in performing services under the ARC Advisory Agreement.

The ARC Advisory Agreement technically provides Quadrant the right to receive 20% of ARC’s EBITDA, even if such EBITDA is derived from the QMT Acquisition and the AFT Acquisition. However, Quadrant has granted waivers to certain provisions of the ARC Advisory Agreement (the “Quadrant Waiver”), such that: (I) in calendar year 2012 Quadrant shall only be paid an annual fee equal to the greater of (i) \$250 thousand; (ii) the product of (a) 20% and (b) the EBITDA of ARC for the twelve months ending December 31, 2012 less the combined EBITDA of QMT and AFT for the twelve months ending February 29, 2012 less the EBITDA of ARC for the twelve months ending December 31, 2011; or (iii) the product of (a) 20% and (b) the reported EBITDA for the financial year of the Company minus the reported EBITDA for QMT and AFT for the twelve months ended February 29, 2012; and (II) in calendar year 2013 Quadrant shall only be paid an annual fee equal to the greater of (i) \$250 thousand; (ii) the product of (a) 20% and (b) the EBITDA of ARC for the twelve months ending December 31, 2013 less the EBITDA of ARC for the twelve months ending December 31, 2012; or (iii) the product of (a) 20% and (b) the reported EBITDA for the financial year of the Company minus the reported EBITDA for QMT and AFT for the twelve months ended February 29, 2012. The ARC Advisory Agreement has been further revised such that it shall no longer extend for additional one-year periods after its expiration on December 31, 2013 in the absence of written termination notice by either party.

In consideration for granting the foregoing waiver, and in consideration for substantial merger and acquisition support services rendered to ARC over the past several years, Quadrant and ARC entered into a Letter Agreement pursuant to which ARC agreed to pay Quadrant transaction fees upon the closing of the QMT and AFT Acquisitions, calculated by reference to 2% of the total enterprise value for the QMT Acquisition and AFT Acquisition. As a result of the Closing of the QMT and AFT Acquisitions on August 8, 2012, a fee of \$1.6 million has been paid to Quadrant.

In addition, Quadrant and QMT have entered into a non-exclusive financial advisory agreement (the “QMT Financial Advisory Agreement”), whereby Quadrant performs ongoing consulting and advisory services for QMT through Quadrant personnel (acting at all times as independent contractors to QMT). The scope of such services includes business consulting services, financial advisory services, and other services. In consideration for such services, on April 1, 2012 QMT commenced paying an annual cash fee to Quadrant of \$250 thousand to be paid in quarterly installments. QMT shall reimburse Quadrant for all reasonable out-of-pocket costs and expenses incurred by Quadrant in connection with the performance of its services. The QMT-Quadrant financial advisory agreement continues in effect following the acquisition of QMT by the Company and will remain effective through December 31, 2013 in accordance with the Amendment to the QMT Financial Advisory Agreement.

NOTE N – RELATED PARTY TRANSACTIONS (continued)

As a result of the accounting for the reverse merger, the statement of operations reflect only the fees earned by Quadrant for financial advisory services provided to QMT prior to August 8, 2012 and subsequent to August 8, 2012, fees earned by Quadrant for financial advisory services provided to ARC and QMT.

As of March 31, 2013 and April 1, 2012, the Company owed \$362 thousand and \$537 thousand, respectively to Quadrant Management Inc. Fees earned by Quadrant for the nine months ending March 31, 2013 and April 1, 2012 were \$513 thousand and \$413 thousand, respectively. Fees earned by Quadrant for the three months ending March 31, 2013 and April 1, 2012 were \$163 thousand and \$188 thousand, respectively.

In addition, the following officers and directors of ARC are also affiliated with Quadrant and Brean Murray: Mr. Jason Young, the Company's Chairman, has been a Managing Director at Quadrant since 2005, where he is responsible for making investments in US and emerging market companies, and where he frequently serves in active management- or director-level roles. Mr. Theodore Deinard, who served as the Company's Interim Chief Executive Officer and as a director of the Company during the period covered by this Report, is a Managing Director of Quadrant (on April 29, 2013, Mr. Deinard resigned as the Interim Chief Executive Officer of the Company and as a member of the Company's Board of Directors). Ms. Keerat Kaur is a Vice President of Quadrant and the Corporate Secretary of ARC. Mr. Deinard is also related by marriage to an officer of Quadrant. Mr. Jason Young and Mr. Alan Quasha, an officer of Quadrant, each serve on the Board of Directors of QMT and receive fees for such services. Messrs. Young and Deinard recused themselves from all deliberations and voting of the Board in respect of the QMT Acquisition matters. Mr. Young, Mr. Deinard and Ms. Kaur do not directly own any shares of ARC in their own respective names and are not deemed to beneficially own Company shares through any entities other than Brean Murray or Quadrant. Mr. Young and Mr. Deinard are each deemed to share voting and investment power over the shares beneficially owned by Brean Murray.

During the year ending June 30, 2012, FloMet redeemed membership units owned by certain members and sold them to Quadrant Management, Inc. The total purchase/selling price of the membership units was \$393 thousand. The total amount receivable pursuant to the purchase of these units from Quadrant Management, Inc. as of March 31, 2013 and June 30, 2012 was \$0 and \$197 thousand, respectively. The total amount due to the former members as of March 31, 2013 and June 30, 2012 was \$0 and \$197 thousand, respectively.

During fiscal year ending June 30, 2012, FloMet loaned its president \$303 thousand. The balance due to FloMet as of March 31, 2013 and June 30, 2012 was \$272 thousand and \$303 thousand. Interest accrued at March 31, 2013 associated with this loan amounted to \$3 thousand.

As of March 31, 2013 Quadrant Metals Technologies owed its members \$20 thousand for state income tax withheld on membership distributions.

NOTE O – DISCONTINUED OPERATIONS

During the third quarter of fiscal year 2013, the Company made the decision to discontinue operation of TubeFit, which was previously included within its Flanges & Fittings segment. The current inventory and equipment are expected to be sold in the fourth quarter of fiscal year 2013. The operations of TubeFit have been included in our consolidated statement of operations as discontinued operations for all periods presented. Results for discontinued operations for the three and nine months ended March 31, 2013 and April 1, 2012 were as follows (in thousands):

	Three Months Ended		Nine Months Ended	
	March 31, 2013	April 1, 2012	March 31, 2013	April 1, 2012
Net sales from discontinued operations	\$ 105	\$ 345	\$ 348	\$ 366
Operating loss from discontinued operations	\$ (121)	\$ (55)	\$ (266)	\$ (106)
Other income (expense)	\$ (129)	\$ —	\$ (142)	\$ —
Loss from discontinued operations	\$ (250)	\$ (55)	\$ (408)	\$ (106)

The following assets and liabilities of TubeFit were segregated into Assets of Discontinued Operations and Liabilities of Discontinued Operations as appropriate in the balance sheet as of March 31, 2013 and June 30, 2012 as follows (in thousands):

	March 31, 2013	June 30, 2012
Accounts receivable, net	\$ 29	\$ 121
Inventories, net	\$ 474	\$ 224
Prepaid/Other Current Assets	\$ 13	\$ 17
Property and Equipment, net	\$ 25	\$ 40
Goodwill	\$ —	\$ 129
Other	\$ —	\$ 12
Assets of Discontinued Operations	\$ 541	\$ 543
Accounts payable	\$ 71	\$ 5
Accrued expenses	\$ 11	\$ 2
Liabilities of Discontinued Operations	\$ 82	\$ 7

NOTE P - SUBSEQUENT EVENTS

Management has evaluated the impact of events occurring after March 31, 2013 up to the date of the filing of these interim unaudited condensed consolidated financial statements. These statements contain all necessary adjustments and disclosures resulting from that evaluation.

NOTE P - SUBSEQUENT EVENTS (continued)

The Company entered into an Asset Purchase Agreement with Service Metal Products Company effective April 1, 2013, agreeing to sell fixed assets and inventory of its' discontinued operation TubeFit. The agreed upon purchase price was \$25 thousand for the fixed assets plus the Company's aggregate cost of the inventory, which was determined to be \$474 thousand. The purchaser will pay the Company in four equal installments, beginning May 1, 2013. The carrying cost of TubeFit's fixed assets and inventory at March 31, 2013 are \$35 thousand and \$482 thousand, respectively. The Company recorded adjustments to write down the net realizable value of these assets of \$10 thousand and \$8 thousand that resulted in a loss of \$18 thousand for the quarter ending March 31, 2013.

In addition, the Company entered into a Sublease Agreement with Service Metal Products Company on and effective April 1, 2013. The Sublease Agreement will run coterminous with the term of the Prime Lease, which expires March 31, 2017. The Subtenant's monthly payment amount equals the amount due from TubeFit and will have the right to terminate the Sublease at any time by providing written notice to the Company at least thirty (30) days prior to the effective date of such termination. The lease commitment and its expirations amounts are included in our Note H to the financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion is intended to assist you in understanding our business and the results of our operations. It should be read in conjunction with the Consolidated Condensed Financial Statements and the related notes that appear elsewhere in this report as well as our Annual Report on Form 10-K for the year ended December 31, 2011 as well as our report on Form 8-K/A filed on September 28, 2012. Certain statements made in our discussion may be forward looking. Forward-looking statements involve risks and uncertainties and a number of factors could cause actual results or outcomes to differ materially from our expectations. These risks, uncertainties, and other factors include, among others, the risks described in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011 and Report on Form 8-K/A filed with the Securities and Exchange Commission, as well as other risks described in this Quarterly Report. Unless the context requires otherwise, when we refer to "we," "us" and "our," we are describing ARC Group Worldwide, Inc. and its consolidated subsidiaries on a consolidated basis.

ARC BUSINESS OVERVIEW

After completion of the mergers mentioned above, ARC's operations consist of three groups of companies: the Precision Components Group, consisting of FloMet, AFT-US, AFT-Hungary, and TeknaSeal; the Flanges and Fittings Group, consisting of GF&F and TubeFit and the Wireless Group, consisting of ARC Wireless LLC and ARC Wireless Ltd. During the quarter ended March 31, 2013 Tubefit's operations were reclassified as discontinued operations.

PRECISION COMPONENTS GROUP

The precision component industry is comprised of a number of significant industries commonly defined by the process and/or type of metal utilized to manufacture the component. Common processes include casting, forging, machining, stamping, powder metallurgy (conventional P/M metal injection molding ("MIM"), and powder forging) and extrusion. Materials range from basic iron and steel to aluminum, magnesium, zinc, precious metals, copper and brass, tin, tungsten, titanium and others. While there are no compiled figures for the total of these markets, it is believed to be in total of hundreds of billions of dollars annually.

The Precision Components Group companies participate in several significant metal component fabrication market segments providing high quality fabricated metal components and the hermetic sealing of those components to some of the fastest growing industries, among them medical devices, firearms and electronic devices.

FLANGE AND FITTINGS GROUP

GF&F is one of approximately 10 domestic flange manufacturers in the United States, and the only one on the East Coast. GF&F has been in business since 1972. The majority of flange manufacturers are in the South West. GF&F is a very customer-driven and service-oriented company. GF&F estimates that the domestic market, combining carbon, stainless and alloy flanges, is more than a billion dollars.

GF&F's business model is focused on converting foreign-purchased alloy steel and stainless steel forgings into domestic flanges via value-added processing to provide a finished component with sufficient domestic content to qualify as domestically produced. The company also sells foreign produced finished flanges for certain applications. Additionally, the company will purchase forgings produced in the US and Europe and machine them into finished flanges for high-integrity applications.

WIRELESS GROUP

The Wireless Group focuses on wireless broadband technology related to propagation and optimization. It designs and develops hardware, including antennas, radios, and related accessories, used in broadband and other wireless networks. Products are sold to public and private carriers, wireless infrastructure providers, wireless equipment distributors, value added resellers and other original equipment manufacturers.

Growth in product revenue is dependent on market acceptance of the new ARCFlex™ family of full solution radio products, on gaining further traction with current and new customers for the existing product portfolio, as well on developing new products to support our wireless initiatives. Revenue growth for the products is correlated to the overall global wireless market and to the ability to take market share from our competitors. The Group focuses on keeping our operational and general costs low in order to improve margins.

Specific growth areas are last mile wireless broadband Internet delivered over standards-based solutions such as Worldwide Interoperability for Microwave Access (“WiMAX”), WiFi or vendor specific proprietary solutions; GPS and Mobile SATCOM solutions for network timing, fleet and asset tracking and monitoring; Machine to machine (“M2M”) communications for controlling or monitoring data from devices; and base stations to build out or optimize carrier networks.

DISCONTINUED OPERATIONS

TubeFit

TubeFit’s operations consisted of the distribution of imported fittings and both imported and domestic flanges. TubeFit served a segment of the market called the General Commodity Welds Fitting and Flange market. Tubefit is no longer actively operating and the assets and liabilities of Tubefit are presented as discontinued operations in the Company’s financial statements as of March 31, 2013 and June 30, 2012 and the results of operation are presented as discontinued operations for the nine and three months ending March 31, 2013 and April 1, 2012 at its net realizable value.

ARC’s Financial Condition

Edgar Filing: ARC Group Worldwide, Inc. - Form 10-Q

As of March 31, 2013 the Company had total assets of \$69.3 million, consisting of total current assets of \$26.1 million, plant and equipment, net of accumulated depreciation, of \$24.6 million, and total long term assets of \$18.6 million. In comparison, as of June 30, 2012 the Company had total assets of \$21.3 million, consisting of total current assets of \$9.7 million, plant and equipment, net of accumulated depreciation of \$4.5 million, and total long-term assets of \$7.2 million. The significant increase of \$48.0 million in total assets is mainly attributed to the fair value of assets acquired in the business combination transaction discussed in Note A to the financial statements which amounted to \$52.9 million. This amount is offset by \$2.4 million in depreciation and amortization and reductions of accounts receivable and inventory in both General Flange and ARC Wireless amounting to approximately \$1.0 million.

At March 31, 2013 and at June 30, 2012 the Company had working capital of \$8.7 million and \$6.0 million, respectively. The increase in working capital was driven by the increase in accounts receivable and inventory largely due to the acquisition of AFT and AFT-Hungary.

At March 31, 2013, the Company's total current assets of \$26.1 million consisted of cash and cash equivalents of \$2.6 million, accounts receivable, net of allowance for doubtful accounts, of \$11.1 million, inventory of \$11.2 million, prepaid expenses and other assets of \$0.7 million and current assets of discontinued operations of \$0.5 million. Total current liabilities of 17.4 million consisted of current portion of long-term debt in the amount of \$4.5 million, line of credit of \$4.2 million, accounts payable and accrued liabilities \$7.6 million, deferred revenue of \$1.0 million, and current liabilities of discontinued operations of \$82 thousand.

ARC's Financial Condition

The Company's total current assets of \$9.7 million as of June 30, 2012, consisted of cash and cash equivalents of \$1.5 million, accounts receivable, net of allowance for doubtful accounts of \$3.6 million, inventory of \$3.6 million, a related party receivable of \$0.2 million, prepaid expenses and other assets of \$0.4 million, and current assets of discontinued operations of \$0.4 million. Total current liabilities of \$3.7 million consisted of current portion of long-term debt in the amount of \$1.5 million, accounts payable and accrued expenses of \$1.7 million, deferred revenue of \$0.1 million and a related party payable of \$0.4 million.

As of March 31, 2013, long term assets consisted of goodwill and other identifiable intangibles in the amount of \$18.4 million, and \$0.2 million in other assets. As of June 30, 2012 long term assets consisted of goodwill and other identifiable intangibles in the amount of \$6.8 million, \$0.2 million in other assets and \$0.2 million in assets of discontinued operations. The increase in goodwill and other intangibles is attributed to \$11.7 million in intangibles related to the acquisition of AFT and \$0.1 million of intangibles related to the reverse acquisition of ARC. The discontinued operations are attributed to Tubefit's non-current assets at net realizable value.

The Company's total liabilities and stockholders' equity were \$45.2 million and \$24.1 million, respectively, as of March 31, 2013. In comparison, as of June 30, 2012 the Company's total liabilities and members' equity were \$9.0 million and \$12.3 million, respectively. The increase in total liabilities was primarily attributed to the increase in total debt as the result of the acquisition. The change in stockholders' equity was driven by the increase in additional paid in capital, due to reverse acquisition accounting for the Predecessor's investment in ARC.

Results of Continuing Operations for the Nine Months Ended March 31, 2013 and April 1, 2012

For the nine months ended March 31, 2013, the Company's total sales were \$49.0 million, and other income including the gain on bargain purchase of \$0.4 million. In comparison, total sales were \$22.7 million for the nine months ended April 1, 2012 and \$.1 million of other income.

The increase in sales of approximately \$26.3 million for the nine months ended March 31, 2013 compared to the nine months ended April 1, 2012 is primarily attributed to incremental sales volume as a result of the acquisition of ARC and AFT, on August 8, 2012. Increased demand in the firearms market has also positively impacted the Company's sales revenue.

For the nine months ended March 31, 2013, the Company's total cost of sales and operating expenses were \$46.3 million, including cost of sales of \$36.2 million, selling, general and administrative expenses of \$8.5 million, and nonrecurring merger expenses of \$1.6 million. For the nine months ended April 1, 2012, QMTs total cost of sales and operating expenses were \$18.5 million, including cost of sales of \$13.3 million and selling, general and administrative expenses of \$5.2 million. For the nine months ended March 31, 2013, the Company's other income included \$0.4 million in gains on the bargain purchase of ARC offset by interest and miscellaneous expense of \$0.6 million; for the nine months ended April 1, 2012 the Company had other expense of \$0.3 million attributable to interest expense, offset with other income of \$0.1 million.

The cost of sales and operating expense increase over prior year is attributed to the acquisition of AFT and ARC on August 8, 2012 resulting in \$27.1 million of additional cost of sales and operating expenses for acquired manufacturing volume and \$1.6 million of merger expenses.

The Company's net income before non-controlling interest for the nine months ended March 31, 2013 was \$1.7 million compared to earnings before non-controlling interest for the nine months ended April 1, 2012 of \$3.8 million. The earnings before non-controlling interest decreased significantly over the prior year due to decreased net income attributed to initial merger and acquisitions costs. The net income as of March 31, 2013 excluding merger expenses and the gain on bargain purchase is \$2.9 million.

Results of Continuing Operations for the Nine Months Ended March 31, 2013 and April 1, 2012

Income allocated to the Company's non-controlling interest was \$0.2 million for the nine months ended March 31, 2013 compared to \$0.2 million for the nine months ended April 1, 2012.

For the nine months ended March 31, 2013, the Company's net income attributable to ARC was \$1.5 million compared to \$3.6 million in net income for the nine months ended April 1, 2012. As noted above, the significant reductions in net earnings for the nine months ended March 31, 2013 over the nine months ended April 1, 2012 were primarily due to nonrecurring merger expenses of \$1.6 million.

Results of Continuing Operations for the Three Months Ended March 31, 2013 and April 1, 2012

For the three months ended March 31, 2013, the Company's total sales were \$18.2 million. In comparison, total sales were \$7.6 million for the three months ended April 1, 2012.

The increase in sales of approximately \$10.6 million for the three months ended March 31, 2013 compared to the three months ended April 1, 2012 resulted from the acquisition of ARC and AFT on August 8, 2012 and recent increased demand from our firearms market segment customers.

For the three months ended March 31, 2013, the Company's total cost of sales and operating expenses were \$16.7 million, including cost of sales of \$13.5 million and selling, general and administrative expenses of \$3.2 million. For the three months ended April 1, 2012, total cost of sales and operating expenses were \$6.3 million, including cost of sales of \$4.4 million and selling, general and administrative expenses of \$1.9 million. For the three months ended March 31, 2013, the Company had other expense of \$0.2 million primarily attributable to interest expense; for the three months ended April 1, 2012 the Company had net other expense of \$0.1 million primarily attributable to interest expense.

The cost of sales and operating expense increase over prior year is attributed to the acquisition of AFT and ARC on August 8, 2012 resulting in \$10.8 million of additional cost of sales and operating expenses for acquired manufacturing volume.

The Company's net income before non-controlling interest for the three months ended March 31, 2013 was \$0.8 million compared to earnings before non-controlling interest for the three months ended April 1, 2012 of \$1.2 million. The earnings before non-controlling interest decreased over the prior year due to increased interest expense associated with long-term debt and higher operating costs as a percentage of sales associated with the lower historical margin levels at the acquired entities AFT and ARC Wireless.

Income allocated to the Company's non-controlling interest was \$80 thousand for the three months ended March 31, 2013 compared to (\$0.1) million loss for the three months ended April 1, 2012.

For the three months ended March 31, 2013, the Company's net income attributable to ARC was \$0.8 million compared to \$1.3 million in net income for the three months ended April 1, 2012. The difference is driven by \$.3 million in other intangible asset amortization expense for the period ending March 31, 2013 and discontinued operations loss of \$.25 million which includes the goodwill impairment for TubeFit for the period ending March 31, 2013.

Results of Continuing Operations by Segment: Comparison between Nine Months and Three Months Ended March 31, 2013 and April 1, 2012

Prior to the date of the acquisitions noted above, the Predecessor operated in two business segments, identified as the Precision Components Group, consisting of FloMet and TeknaSeal, and the Flanges and Fittings Group, consisting of GF&F and TubeFit. After completion of the acquisitions mentioned above, ARC operates three business segments: the Precision Components Group, consisting of FloMet, AFT-US, AFT-Hungary, and TeknaSeal; the Flanges and Fittings Group, consisting of GF&F; and the Wireless Group, consisting of ARC Wireless LLC and ARC Wireless Ltd. As noted previously, TubeFit, which was previously reported under the Flanges and Fittings segment has been classified as discontinued operations and therefore is excluded from the segment information below.

The following tables provide the dollar amount and percentage of net sales and operating profit for each reportable segment for the nine months and three months ended March 31, 2013 and April 1, 2012. It is noted that there is no data reflected for the Wireless segment for the nine months or three months ended April 1, 2012 as this date is prior to the reverse acquisition transaction.

Precision Components

Precision Components' sales were \$42.6 million for the nine months ended March 31, 2013, compared to sales of \$16.6 million for the nine months ended April 1, 2012, an increase of \$25.9 million. Operating income was \$5.2 million for the nine months ended March 31, 2013 compared to \$3.7 million for the nine months ended April 1, 2012, an increase of \$1.5 million. Segment operating income as a percent of segment sales for the nine months ended March 31, 2013 decreased to 12.2 percent from 22.2 percent of segment sales for the nine months ended April 1, 2012.

Precision Components' sales were \$16.1 million for the three months ended March 31, 2013, compared to sales of \$5.7 million for the three months ended April 1, 2012, an increase of \$10.5 million. Operating income was \$1.6 million for the three months ended March 31, 2013 compared to \$1.3 million for the three months ended April 1, 2012, an increase of \$0.3 million. Segment operating income as a percent of segment sales for the three months ended March

31, 2013 decreased to 10.2 percent from 23.1 percent of segment sales for the three months ended April 1, 2012.

Precision Components

Sales for the Precision Components segment increased, by \$10.4 million or 185.5 percent, comparing the three months ended March 31, 2013 to the three months ended April 1, 2012 primarily due to the acquisitions of AFT and AFT-HU on August 8, 2012 and the inclusion of their operating results in this segment, which increased sales by \$11.0 million and was slightly offset by \$.6 million decrease in revenues for FloMet and TeknaSeal reflecting the general slowing economy.

The firearms market segment at AFT continued to grow strongly as the company was able to meet increased demand and secure several new programs from their customers in this growing market segment. Sales at AFT-HU to their automotive turbocharger customers reflected the increasing demand for turbochargers in cars as engine displacements continue to shrink to meet increasing fuel economy requirements. Turbochargers enable the automakers to downsize engines while improving performance thus providing customers with a relatively transparent solution to improved fuel efficiency without sacrificing power.

The operating costs for the segment increased on a percentage basis over prior year due to lower historical margin levels at AFT and AFT-HU due to higher material costs as a percentage of sales and certain manufacturing inefficiencies which are being addressed with a large number of continuous improvement programs and price increases to certain customers. We expect that the current slowing economy will continue to have a slightly negative impact on revenues for the balance of fiscal year 2013. The Precision Components segment is experiencing a slight slowdown in demand in several important market segments such as medical devices but we expect demand in the firearms and automotive segment to offset much of the negative impact on revenues. The operating companies have implemented additional cost reduction and continuous improvement activities to maintain and improve margins, and will also aggressively pursue price increase opportunities with certain customers to offset increases in raw materials and other operating costs. Additionally, we expect demand in Europe for automotive turbochargers to continue its strong growth patterns which should translate into increased revenues at AFT-HU.

Flanges & Fittings

Flanges and Fittings' sales were \$4.9 million for the nine months ended March 31, 2013, compared to sales of \$6.1 million for the nine months ended April 1, 2012. Segment operating income was \$0.4 million for the nine months ended March 31, 2013, compared to segment operating income of \$0.8 million for the nine months ended April 1, 2012. Segment operating income, as a percent of segment sales, for the nine months ended March 31, 2013 decreased to 8.3 percent from 12.7 percent of segment sales for the nine months ended April 1, 2012.

Flanges and Fittings' sales were \$1.6 million for the three months ended March 31, 2013, compared to sales of \$1.9 million for the three months ended April 1, 2012. Segment operating income was \$.1 million for the three months ended March 31, 2013, compared to segment operating income of \$0.3 million for the three months ended April 1, 2012. Segment operating income, as a percent of segment sales, for the three months ended March 31, 2013 decreased to 5.1 percent from 13.1 percent of segment sales for the three months ended April 1, 2012.

The reduction in revenues and operating income reflects the impact of the slowing in the general economy in the quarter in addition to the significant impacts of Hurricane Sandy on our customer base in the Northeast US. Additionally, the decision was made in the quarter to discontinue operations of Tubefit due to the subsidiary's continuing inability to generate adequate sales volume and positive income as a result of significant price competition in the Southwest U.S. geographic market.

Flanges & Fittings

We have made certain cost reductions in our General Flange operation to reduce our operating costs as the Northeast recovers and demand in that geographic market improves as reconstruction projects get underway with the improved weather in the area.

As with our Precision Components segment, the Flanges & Fittings segment is witnessing a slight slowdown in overall demand from its customers due to the sluggish US economy. However, we remain optimistic about the overall prospects of the Flanges & Fittings industry. The increasing attention on energy, chemical manufacturing, food processing, and other industries requiring flow management all appear to position General Flange and Forge for future growth. GF&F is focused on continuing to expand its customer base in 2013, particularly with the instrumentation market segment and the energy segment by marketing flanges rated for higher pressure applications than current product lines.

Wireless

Wireless sales were \$1.5 million for the nine months ended March 31, 2013. Segment operating loss was \$.3 million for the nine months ended March 31, 2013. Segment operating loss, as a percent of segment sales, for the nine months ended March 31, 2013 was -18.6 percent.

Wireless sales were \$.5 million for the three months ended March 31, 2013. Segment operating loss was \$18 thousand for the three months ended March 31, 2013. Segment operating loss, as a percent of segment sales, for the three months ended March 31, 2013 was -3.2 percent. In the third quarter fiscal year 2013 cost reduction efforts were implemented for ARC Wireless to minimize the operating loss for the quarter and structure the organization for improved operating performance going forward.

Financial Condition (in millions)

	March 31, 2013	June 30, 2012
Current ratio (1)	1.5 to 1	2.6 to 1
Working capital (2)	\$8.7	\$6.0
Total debt	\$36.6	\$6.8
Total cash less debt	\$(33.9)	\$(5.4)

Edgar Filing: ARC Group Worldwide, Inc. - Form 10-Q

Stockholders' equity	\$24.1	\$12.3
Total liabilities to equity	1.9 to 1	0.7 to 1

(1) *Current ratio is calculated as current assets divided by current liabilities.*

(2) *Working capital is the difference between current assets and current liabilities.*

At March 31, 2013 the cash balance is \$2.6 million, current assets of \$26.1 million and current liabilities of \$17.4 million. We believe that we have the ability to provide for our fiscal 2013 operational needs through projected operating cash flow and cash on hand.

The net cash provided by operating activities was \$3.3 million for the nine months ended March 31, 2013, compared to net cash provided by operating activities of \$4.7 million for the nine months ended April 1, 2012, primarily attributed to the reduced net income in fiscal year 2013 as a result of the \$1.6 million in merger expenses.

The net cash used in investing activities was \$31.3 million for the nine months ended March 31, 2013, compared to \$1.0 million for the nine months ended April 1, 2012. During the nine months ended March 31, 2013 and April 1, 2012, \$312 thousand and \$587 thousand, respectively, was invested in manufacturing equipment to drive an increase in production efficiencies through automation and improvements. The remaining year over year difference is attributed to the assets acquired in the business combination.

The net cash provided by financing activities was \$29.1 million for the nine months ended March 31, 2013 consisting mostly of debt proceeds to finance the AFT Acquisition, offset with the repayment of outstanding QMT loans, and \$569 thousand in distributions to members and non-controlling interest members. The net cash used in financing activities was \$1.8 million for the nine months ended April 1, 2012, of which approximately \$1.2 million were distributions to members.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Pursuant to permissive authority under Regulation S-K, Rule 305, we have omitted Quantitative and Qualitative Disclosures About Market Risk.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our filings with the Securities and Exchange Commission (SEC) are recorded, processed, summarized and reported within the time period specified in the SEC's rules and forms, and that such information is accumulated and communicated to management, including our chief executive officer and chief financial officer, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure based on the definition of "disclosure controls and procedures" as defined in Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act").

As of the end of the period covered by this report, and under the supervision and with the participation of our management, including our Chief Executive Officer and the person performing the similar function as Chief Financial Officer, we evaluated the effectiveness of the design and operation of these disclosure controls and procedures. Based on this evaluation and subject to the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the quarter ended March 31, 2013 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
