Quarterly Report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the quarterly period ended September 30, 2013

Transition Report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the transition period from _____ to _____

Commission File Number 001-34470

ECHO GLOBAL LOGISTICS, INC.
(Exact Name of Registrant as Specified in its Charter)

Delaware
(State or Other Jurisdiction of
Incorporation or Organization)

20-5001120
(I.R.S. Employer Identification No.)

600 West Chicago Avenue
Suite 725
Chicago, Illinois 60654
Phone: (800) 354-7993
(Address (including zip code) and telephone number (including area code)
of registrant's principal executive offices)

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes: No:

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes: No:

Indicate by check mark whether the Registrant is an a large accelerated filer, an accelerated filer, or non-accelerated filer. See definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer: Accelerated filer: Non-accelerated filer: Smaller reporting company

Edgar Filing: Echo Global Logistics, Inc. - Form 10-Q

(Do not check if a smaller
reporting company)

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes: No:

As of October 31, 2013, the Registrant had 23,468,507 shares of Common Stock, par value \$0.0001 per share, outstanding.

Table of Contents

Echo Global Logistics, Inc. and Subsidiaries
Notes to Unaudited Consolidated Financial Statements
Nine Months Ended September 30, 2013 and 2012

1. Summary of Significant Accounting Policies

Basis of Presentation

The condensed consolidated financial statements include the accounts of Echo Global Logistics, Inc. and its subsidiaries (the "Company"). All significant intercompany accounts and transactions have been eliminated in the consolidation. The consolidated statements of income include the results of entities or assets acquired from the effective date of the acquisition for accounting purposes.

The preparation of the consolidated financial statements is in conformity with the rules and regulations of the Securities and Exchange Commission ("SEC") and accounting principles generally accepted in the United States ("U.S. GAAP") for interim financial information. Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted pursuant to such rules or regulations. In the opinion of management, the accompanying unaudited financial statements reflect all adjustments considered necessary for a fair presentation of the results for the period and those adjustments are of a normal recurring nature. The operating results for the nine month period ended September 30, 2013 are not necessarily indicative of the results expected for the full year of 2013. These interim consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's most recent audited financial statements.

Preparation of Financial Statements and Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenue and expenses during the reporting periods. Actual results can differ from those estimates.

Fair Value of Financial Instruments

The carrying values of the Company's financial investments, which consist of cash and cash equivalents, accounts receivable, accounts payable and capital lease obligations, approximate their fair values due to their short term nature. The fair value of the contingent consideration obligation is determined based on the likelihood of contingent earn-out payments.

2. New Accounting Pronouncements

In February 2013, the Financial Accounting Standards Board ("FASB") issued an update to the authoritative guidance which requires disclosure information about the amounts reclassified out of accumulated other comprehensive income. This update does not apply to the Company since there are no items of other comprehensive income in any period presented.

In July 2013, the FASB issued authoritative guidance under Accounting Standard Update ("ASU") 2013-11, which provides guidance on the financial statement presentation of an unrecognized tax benefit when a net operating loss ("NOL") carryforward, a similar tax loss, or a tax credit carryforward exists. ASU 2013-11 requires entities to present an unrecognized tax benefit as a reduction of a deferred tax asset for a NOL or tax credit carryforward whenever the

NOL or tax credit carryforward would be available to reduce the additional taxable income or tax due if the tax position is disallowed. This accounting standard update requires entities to assess whether to net the unrecognized tax benefit with a deferred tax asset as of the reporting date. ASU 2013-11 will be effective for the Company's first quarter of fiscal 2014. The Company is currently evaluating the impact of this accounting standard update on its consolidated financial statements.

Echo Global Logistics, Inc. and Subsidiaries
Notes to Unaudited Consolidated Financial Statements
Nine Months Ended September 30, 2013 and 2012

3. Acquisitions

2013 Acquisitions

Open Mile, Inc.

Effective March 11, 2013, the Company acquired Open Mile, Inc. ("Open Mile"), a truckload transportation brokerage with offices in Boston, Massachusetts, and the results of Open Mile have been included in the unaudited consolidated financial statements since that date. The Company agreed to purchase the assets and assume certain liabilities of Open Mile for \$2,025,000 in cash. There is no contingent consideration associated with the purchase of Open Mile. As a result of the acquisition, the Company recorded \$579,972 of goodwill, which is approximately the amount of goodwill deductible for U.S. income tax purposes. Pro forma results of the acquisition were not presented as they are not material to the financial statements.

4. Fair Value Measurement

The Company applies ASC Topic 820 "Fair Value Measurements and Disclosures" ("ASC Topic 820") for its financial assets and financial liabilities. The guidance requires disclosures about assets and liabilities measured at fair value. The Company's financial assets primarily consist of financial liabilities primarily related to contingent earn-out payments of \$9,078,945. The potential earn-out payments and performance measures are defined in the individual purchase agreement for each acquisition. EBITDA is the performance target defined and measured to determine the earn-out payment due, if any, after each defined measurement period.

ASC Topic 820 includes a fair value hierarchy that is intended to increase consistency and comparability in fair value measurements and related disclosures. The fair value hierarchy is based on observable or unobservable inputs to valuation techniques that are used to measure fair value. Observable inputs reflect assumptions market participants would use in pricing an asset or liability based on market data obtained from independent sources while unobservable inputs reflect a reporting entity's pricing based upon its own market assumptions. The fair value hierarchy consists of the following three levels:

Level 1: Inputs are quoted prices in active markets for identical assets or liabilities.

Level 2: Inputs are quoted prices for similar assets or liabilities in an active market, quoted prices for identical or similar assets or liabilities in markets that are not active, and inputs other than quoted prices that are observable and market-corroborated inputs, which are derived principally from or corroborated by observable market data.

Level 3: Inputs that are derived from valuation techniques in which one or more significant inputs or value drivers are unobservable.

The significant inputs used to derive the fair value of the contingent consideration obligation include financial forecasts of future operating results, the probability of reaching the forecast and an appropriate discount rate for each contingent liability. The probability of paying the contingent consideration ranges from 5% to 55%, with discount rates used in determining the fair value of the contingent consideration ranging between 6% and 15%. Historical results of the respective acquisitions serve as the basis for the financial forecasts used in the valuation. Quantitative factors are also considered in these forecasts, including acquisition synergies, growth and sales potential and potential operational efficiencies gained. Changes to the significant inputs used in determining the fair value of the contingent consideration could result in a change in the fair value of the contingent consideration. However, the correlation and

Edgar Filing: Echo Global Logistics, Inc. - Form 10-Q

inverse relationship between higher projected financial results to the discount rate applied and probability of meeting the financial targets mitigates the effect of any changes to the unobservable inputs.

The following table sets forth the Company's financial liabilities measured at fair value on a recurring basis and the basis of measurement at September 30, 2013 and December 31, 2012:

	Fair Value Measurements as of September 30, 2013			
	Total	Level 1	Level 2	Level 3
Liabilities:				
Contingent consideration obligation	\$(9,078,945)	\$—	\$—	\$(9,078,945)

Table of Contents

Echo Global Logistics, Inc. and Subsidiaries
 Notes to Unaudited Consolidated Financial Statements
 Nine Months Ended September 30, 2013 and 2012

	Fair Value Measurements as of December 31, 2012			
	Total	Level 1	Level 2	Level 3
Liabilities:				
Contingent consideration obligation	\$(10,664,251)	\$—	\$—	\$(10,664,251)

The following table provides a reconciliation of the beginning and ending balances for the liabilities measured at fair value using significant unobservable inputs (Level 3):

Balance at December 31, 2012	Due to Seller	
	\$(10,664,251)
Change in fair value	(444,694)
Payment of contingent consideration	2,030,000	
Balance at September 30, 2013	\$(9,078,945)

For the nine month period ended September 30, 2013, the Company recorded an adjustment to each of the ten remaining contingent consideration obligations related to our acquisitions. The adjustments were the result of adjusting for the time value of money and using revised forecasts and updated fair value measurements that adjusted the Company's estimated earn-out payments related to the purchases of these businesses.

For the nine month periods ended September 30, 2013 and 2012, the Company recognized a charge of \$444,694 and a benefit of \$443,520, respectively, in selling, general, and administrative expenses in the consolidated statement of income due to the change in fair value measurements using a level three valuation technique.

For the nine month period ended September 30, 2013, the Company paid \$2,030,000 in contingent earn-out payments. The Company paid the former owners of Lubenow Logistics LLC ("Lubenow"), Freight Management Inc. ("FMI"), Freight Lanes International Inc. ("FLI") and Advantage Transport, Inc. ("Advantage"), \$280,000, \$520,000, \$305,000 and \$925,000, respectively, as the EBITDA targets set forth in the purchase agreement had been met. For the nine month period ended September 30, 2012, the Company paid \$2,882,500 in contingent earn-out payments. The Company paid the former owners of Resource Group Associates ("RGA"), Distribution Services Inc. ("DSI"), Nationwide Traffic Services, LLC ("Nationwide"), Lubenow, FMI and Advantage \$200,000, \$520,000, \$437,500, \$280,000, \$520,000 and \$925,000, respectively, as the EBITDA targets set forth in the purchase agreement had been met.

5. Intangible Assets

The following is a roll-forward of goodwill from December 31, 2012 to September 30, 2013:

Balance as of December 31, 2012	\$51,073,903
Adjustment to goodwill related to prior acquisitions	(3,815)
Goodwill acquired related to the purchase of Open Mile	579,972
Balance as of September 30, 2013	\$51,650,060

Table of Contents

Echo Global Logistics, Inc. and Subsidiaries
 Notes to Unaudited Consolidated Financial Statements
 Nine Months Ended September 30, 2013 and 2012

The following is a summary of amortizable intangible assets as of September 30, 2013 and December 31, 2012:

	September 30, 2013	December 31, 2012	Weighted-Average Life
Customer relationships	\$21,438,979	\$21,438,979	8.6 years
Noncompete agreements	139,000	139,000	2.9 years
Trade names	190,000	190,000	3.0 years
	21,767,979	21,767,979	8.5 years
Less accumulated amortization	(10,539,365) (8,749,057)
Intangible assets, net	\$11,228,614	\$13,018,922	

Amortization expense related to intangible assets was \$1,790,308 and \$1,457,316 for the nine months ended September 30, 2013 and 2012, respectively.

The estimated amortization expense for the next five years and thereafter is as follows:

Remainder of 2013	\$581,368
2014	2,033,737
2015	1,784,218
2016	1,432,832
2017	1,160,975
Thereafter	4,235,484
	\$11,228,614

6. Accrued Expenses

The components of accrued expenses at September 30, 2013 and December 31, 2012 are as follows:

	September 30, 2013	December 31, 2012
Accrued compensation	\$1,867,102	\$2,258,566
Accrued rebates	2,463,771	1,902,436
Deferred rent	1,825,994	1,153,376
Other	1,419,703	1,689,655
Total accrued expenses	\$7,576,570	\$7,004,033

7. Income Taxes

The following table shows the Company's effective income tax rate for the three and nine months ended September 30, 2013 and 2012:

	Three Months Ended		Nine Months Ended	
	September 30, 2013	2012	September 30, 2013	2012
Income before provision for income taxes	\$7,037,054	\$3,737,718	\$18,451,862	\$14,407,128
Income tax expense	(2,674,729) (1,451,412) (6,990,288) (5,406,198
Effective tax rate	38.0	% 38.8	% 37.9	% 37.5

 Notes to Unaudited Consolidated Financial Statements
 Nine Months Ended September 30, 2013 and 2012

8. Earnings Per Share

Basic earnings per common share is calculated by dividing net income available to common stockholders by the weighted average number of common shares outstanding. Diluted earnings per share is calculated by dividing net income by the weighted average shares outstanding plus share equivalents that would arise from the exercise of stock options and the vesting of restricted stock. There were no employee stock options excluded from the calculation of diluted earnings per share for the nine month periods ended September 30, 2013 and 2012. The computation of basic and diluted earnings per common share for the three and nine month periods ended September 30, 2013 and 2012 are as follows:

	Three Months Ended		Nine Months Ended	
	September 30, 2013	2012	September 30, 2013	2012
Numerator:				
Net income	\$4,362,325	\$2,286,306	\$11,461,574	\$9,000,930
Denominator:				
Denominator for basic earnings per share-weighted-average shares	22,888,907	22,383,168	22,847,574	22,272,952
Effect of dilutive securities:				
Employee stock options	572,050	512,106	504,820	548,994
Denominator for dilutive earnings per share	23,460,957	22,895,274	23,352,394	22,821,946
Basic net income per common share	\$0.19	\$0.10	\$0.50	\$0.40
Diluted net income per common share	\$0.19	\$0.10	\$0.49	\$0.39

9. Stock-Based Compensation Plans

Using the Black-Scholes-Merton option valuation model and the assumptions listed below, the Company recorded \$769,727 and \$2,636,317 in compensation expense related to stock-based compensation, with corresponding tax benefits of \$300,194 and \$1,028,164 for the three and nine month periods ended September 30, 2013, respectively. For the three and nine month periods ended September 30, 2012, the Company recorded \$600,710 and \$2,139,513 in compensation expense with corresponding tax benefits of \$234,277 and \$834,410, respectively. For the nine month period ended September 30, 2013, the Company granted 3,000 stock options to one employee. During the nine month period ended September 30, 2012, the Company did not grant any stock options. The Company granted 125,863 and 454,487 shares of restricted stock to various employees during the nine month periods ended September 30, 2013 and September 30, 2012, respectively. In 2013, the Company initiated a performance stock incentive plan for certain executives that is based on specific financial performance measurements. The Company granted 34,328 shares of performance stock during the nine month period ended September 30, 2013.

The following assumptions were utilized in the valuation for options granted during the nine months ended September 30, 2013. There were no options granted during the nine month period ended September 30, 2012.

	Nine Months Ended September 30, 2013	
Dividend Yield	—	
Risk-free interest rate	1.7	%
Weighted-average expected life	5.5 years	
Volatility	35.0	%

Nine Months Ended September 30, 2013 and 2012

10. Related Parties

Certain stockholders of the Company have a direct and/or indirect ownership interest in InnerWorkings, Inc. ("InnerWorkings"), a publicly-traded company that provides print procurement services.

The Company provides transportation and logistics services to InnerWorkings. The Company recognized revenue of \$3,702,258 and \$9,995,973 for the three and nine month periods ended September 30, 2013, respectively, from InnerWorkings. For the three and nine months ended September 30, 2012, the Company recognized revenue of \$2,278,066 and \$8,143,867, respectively, from Innerworkings. InnerWorkings also provides an immaterial amount of print procurement services to the Company.

As of September 30, 2013 and December 31, 2012, the Company had net receivables due from InnerWorkings of \$2,465,880 and \$2,583,949, respectively. The Company had accounts payable of \$28,582 and \$53,347 due to InnerWorkings as of September 30, 2013 and December 31, 2012, respectively, as a result of the print procurement services provided by InnerWorkings.

Matthew W. Ferguson, an executive officer at CareerBuilder.com, a privately-held online job website, is a member of the Company's Board of Directors. CareerBuilder.com provides the Company with online job posting services.

11. Legal Matters

In the normal course of business, the Company is subject to potential claims and disputes related to its business, including claims for freight lost or damaged in transit. Some of these matters may be covered by the Company's insurance and risk management programs or may result in claims or adjustments with the Company's carriers.

In July 2012, the Company acquired the assets of Shipper Direct, a truckload transportation brokerage located near Nashville, Tennessee. In August 2012, the Company discovered that the revenue and profitability of the acquired business, both prior and subsequent to the acquisition, were not as expected based on representations contained in the Asset Purchase Agreement. The Company believes the representations made in the Asset Purchase Agreement were fraudulent. The founders of Shipper Direct, who had become employees of the Company, were terminated as a result, and the Company requested that the sellers return the entire purchase price and that the contingent consideration provision of the Asset Purchase Agreement to be voided. However, the Company received only \$1,779,554. On September 25, 2012, the sellers asserted indemnification claims against the Company under the indemnification provisions of the Asset Purchase Agreement for \$2,400,000, including a claim for the repayment of the \$1,779,554 return of purchase price. The Company believes the sellers' indemnification claims are without merit and intends to vigorously defend against any legal action taken by the sellers with respect to their indemnification claims.

In November 2012, the founders filed a complaint with the U.S. Department of Labor alleging that their employment was wrongfully terminated in violation of the whistleblower provisions of Sarbanes-Oxley. On August 27, 2013, this action was terminated in the Company's favor when the founders voluntarily withdrew their complaint.

In January 2013, the Company filed a lawsuit in the U.S. District Court for the Northern District of Illinois against Shipper Direct, the founders and others alleging, among other things, breach of contract and fraud. The lawsuit is seeking monetary damages in excess of \$2,500,000. On May 28, 2013, the Company obtained a default judgment against the founders, which they have subsequently attempted to vacate, the resolution of which is still pending.

Management does not believe that the outcome of any of the legal proceedings to which the Company is a party will have a material adverse effect on its financial position or results of operations.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

We are a leading provider of technology-enabled transportation and supply chain management solutions. We utilize a proprietary technology platform to compile and analyze data from our multi-modal network of transportation providers to satisfy the transportation and logistics needs of our clients. This model enables us to quickly adapt and offer the most efficient and cost-effective solutions for our clients' shipping needs. We focus primarily on arranging transportation across truckload ("TL") and less than truckload ("LTL"), and we also offer inter-modal (which involves moving a shipment by rail and truck), small parcel, domestic air, expedited and international transportation services. Our core logistics services include rate negotiation, shipment execution and tracking, carrier management, routing compliance and performance management reporting.

We procure transportation and provide logistics services for clients across a wide range of industries, such as manufacturing, construction, consumer products and retail. Our clients fall into two categories, Enterprise and Transactional. We typically enter into multi-year contracts with our Enterprise clients, which are often on an exclusive basis for a specific transportation mode or point of origin. As part of our value proposition, we also provide core logistics services to these clients. We provide transportation and logistics services to our Transactional clients on a shipment-by-shipment basis, typically with individual, or spot market, pricing.

Results of Operations

The following table represents certain statement of income data:

	Three Months Ended September 30, 2013		Nine Months Ended September 30, 2013	
	2012	2012	2012	2012

Table of Contents

Revenue

We generate revenue through the sale of transportation and logistics services to our clients. Revenue is recognized when the client's product is delivered by a third-party carrier. Our revenue was \$662.9 million and \$546.5 million for the nine month periods ended September 30, 2013 and 2012, respectively, a period-over-period increase of 21.3%.

Our revenue is generated from two different types of clients: Enterprise and Transactional. Our Enterprise accounts typically generate higher dollar amounts and volume than our Transactional relationships. We categorize a client as an Enterprise client if we have a contract with the client for the provision of services on a recurring basis. Our contracts with Enterprise clients typically have a multi-year term and are often on an exclusive basis for a specific transportation mode or point of origin. In several cases, we provide substantially all of a client's transportation and logistics requirements. For the nine month period ended September 30, 2013, we entered into contracts with twenty-one new Enterprise clients. We categorize all other clients as Transactional clients. We provide services to our Transactional clients on a shipment-by-shipment basis. For the nine month periods ended September 30, 2013 and 2012, Enterprise clients accounted for 30% and 31%, respectively, of our revenue and Transactional clients accounted for 70% and 69%, respectively, of our revenue. We expect to continue to grow both our Enterprise and Transactional client base in the future, although the rate of growth for each type of client will vary depending on opportunities in the marketplace.

Revenue recognized per shipment will vary depending on the transportation mode, fuel prices, shipment weight, density and mileage of the product shipped. The primary modes of shipment that we transact in are TL, LTL, inter-modal and small parcel. Other transportation modes include domestic air, expedited services and international. Typically, our revenue is lower for an LTL shipment than for a TL shipment, and revenue per shipment is higher for shipments in modes other than TL, LTL and small parcel. Material shifts in the percentage of our revenue by transportation mode could have a significant impact on our revenue growth. For the nine month period ended September 30, 2013, LTL accounted for 42% of our revenue, TL accounted for 45% of our revenue, small parcel accounted for 5% of our revenue, inter-modal accounted for 7% of our revenue and other transportation modes accounted for 1% of our revenue. For the nine month period ended September 30, 2012, LTL accounted for 46% of our revenue, TL accounted for 44% of our revenue, small parcel accounted for 5% of our revenue, inter-modal accounted for 4% of our revenue and other transportation accounted for 1% of our revenue.

The transportation industry has historically been subject to seasonal sales fluctuations as shipments generally are lower during and after the winter holiday season because many companies ship goods and stock inventories prior to the winter holiday season. While we experience some seasonality, differences in our revenue between periods have been driven primarily by growth in our client base.

Transportation costs and net revenue

We act primarily as a service provider to add value and expertise in the procurement and execution of transportation and logistics services for our clients. Our fee structure is primarily variable, although we have entered into a limited number of fixed fee arrangements that represent an insignificant portion of our revenue. Net revenue equals revenue minus transportation costs. Our transportation costs consist primarily of the direct cost of transportation paid to the carrier.

Net revenue is the primary indicator of our ability to add value to our clients and is considered by management to be an important measurement of our success in the marketplace. Our transportation costs are typically lower for an LTL shipment than for a TL shipment. Therefore, our net revenue margin is typically higher for an LTL shipment than for

a TL shipment. Material shifts in the percentage of our revenue by transportation mode, including small parcel, could have a significant impact on our net revenue. The discussion of results of operations below focuses on changes in our net revenue and expenses as a percentage of net revenue margin. For the nine month periods ended September 30, 2013 and 2012, our net revenue was \$118.7 million and \$104.1 million, respectively, reflecting an increase of 14.1%.

Operating expenses

Our costs and expenses, excluding transportation costs, consist of commissions paid to our sales personnel, general and administrative expenses to run our business, changes related to contingent consideration and depreciation and amortization.

Commissions paid to our sales personnel, including employees and agents, are a significant component of our operating expenses. These commissions are based on the net revenue we collect from the clients for which such sales personnel have primary responsibility. For the nine month periods ended September 30, 2013 and 2012, commission expense was 25.4% and

Table of Contents

28.7%, respectively, of our net revenue. The decrease is due to a change with specific commission plans that became effective January 1, 2013 and the fluctuation of the composition of our net revenues originating from sales employees and agents. The percentage of net revenue paid as commissions will vary depending on the type of client, composition of the sales team and mode of transportation. Commission expense, stated as a percentage of net revenue, could increase or decrease in the future depending on the composition of our revenue growth and the relative impact of changes in sales teams and service offerings.

We accrue for commission expense when we recognize the related revenue. Some of our sales personnel receive a monthly advance to provide them with a more consistent income stream. Cash paid to our sales personnel in advance of commissions earned is reflected as a prepaid expense on our consolidated balance sheet. As our sales personnel earn commissions, a portion of their commission payment is withheld and offset against their prepaid commission balance, if any.

Our selling, general and administrative expenses, which exclude commission expense, changes to contingent consideration and the acquisition related impairment loss, consist of compensation costs for our sales, operations, information systems, finance and administrative support employees as well as occupancy costs, professional fees and other general and administrative expenses. For the nine month periods ended September 30, 2013 and 2012, our selling, general and administrative expenses were \$61.5 million and \$50.9 million, respectively. For the nine month periods ended September 30, 2013 and 2012, selling, general and administrative expenses as a percentage of net revenue were 51.8% and 49.0%, respectively. The increase is due to additional operating support, investments in our truckload business and the additional expense related to our acquisitions after September 30, 2012.

Our contingent consideration expenses consist of the change in the fair value of the contingent liabilities payable to the sellers of our acquired businesses. The contingent liabilities relate to expected earn-out payments that will be paid upon the achievement of certain performance measures by our acquired businesses. These liabilities are evaluated on a quarterly basis and the change in the contingent consideration is included in the selling, general and administrative expenses in our consolidated statement of income. For the nine month periods ended September 30, 2013 and 2012, we recorded a charge of \$0.4 million and a benefit \$0.4 million, respectively, related to fair value adjustments to contingent consideration.

Our acquisition related impairment loss consists of an impairment charge relating to the acquisition of the assets of Shipper Direct. Please refer to Note 11 for further information regarding the transaction. For the three and nine month periods ended September 30, 2012, we recorded a loss of \$2.5 million relating to this impairment charge.

Our depreciation expense is primarily attributable to our depreciation of computer hardware and software, equipment, furniture and fixtures and internally developed software. For the nine month periods ended September 30, 2013 and 2012, depreciation expense was \$6.1 million and \$5.0 million, respectively.

Our amortization expense is attributable to our amortization of intangible assets acquired from business combinations, including customer relationships, trade names and non-compete agreements. For the nine month periods ended September 30, 2013 and 2012, amortization expense was \$1.8 million and \$1.5 million, respectively.

Comparison of nine months ended September 30, 2013 and 2012

Revenue

Our revenue increased by \$116.4 million, or 21.3%, to \$662.9 million for the nine month period ended September 30, 2013, from \$546.5 million for the nine month period ended September 30, 2012. The increase was attributable to the increase in the number of our clients, and the total number of shipments executed on behalf of, and services provided

to, these clients. Included in this increase was \$52.2 million of additional revenue generated in 2013 from the acquisitions of Sharp Freight Systems, Inc. ("Sharp") and Open Mile, Inc. ("Open Mile").

Our revenue from Enterprise clients increased by \$28.5 million, or 16.8%, to \$198.2 million for the nine month period ended September 30, 2013, from \$169.7 million for the nine month period ended September 30, 2012, resulting from increases in the number of Enterprise clients, shipments executed on behalf of these clients and transportation rates. Our percentage of revenue from Enterprise clients decreased to 30% of our revenue for the nine month period ended September 30, 2013 from 31% for the nine month period ended September 30, 2012 due to an increase in revenue per Transactional account for the nine month period ended September 30, 2013 compared to the same period 2012.

Our revenue from Transactional clients increased by \$87.9 million, or 23.3%, to \$464.7 million for the nine month period ended September 30, 2013, from \$376.8 million for the nine month period ended September 30, 2012. Our percentage of revenue from Transactional clients increased to 70% of our revenue for the nine month period ended September 30, 2013, from

69% of our revenue for the nine month period ended September 30, 2012. During 2012, we made investments in our training program that exposed new hires to both our operational and sales departments. As a result, we noted increased sales representative productivity as tenured sales representatives could further penetrate accounts with increased operational support and experience of new hires. This was further evidenced by the fact that the number of shipments per Transactional client and number of shipments per sales representative increased over the same period in 2012. Our revenue per Transactional client increased by approximately 24.0% for the nine month period ended September 30, 2013 compared to the same period in 2012.

Transportation costs

Our transportation costs increased by \$101.7 million, or 23.0%, to \$544.2 million for the nine month period ended September 30, 2013, from \$442.5 million for the nine month period ended September 30, 2012. The growth in the total number of shipments executed on behalf of our clients accounted for most of the increase in our transportation costs during this period. Our transportation costs as a percentage of revenue increased to 82.1% for the nine month period ended September 30, 2013 from 81.0% for the nine month period ended September 30, 2012 due to a decreased percentage of LTL shipments in the composition of our sales volume. Also included in this increase is the related transportation costs associated with the revenue generated from acquisitions completed after the third quarter of 2012.

Net revenue

Net revenue increased by \$14.6 million, or 14.1%, to \$118.7 million for the nine month period ended September 30, 2013, from \$104.1 million for the nine month period ended September 30, 2012. The growth in the total number of shipments executed on behalf of our clients accounted for most of the increase in our net revenue during this period. Net revenue margins decreased to 17.9% for the nine month period ended September 30, 2013, from 19.0% for the nine month period ended September 30, 2012. The decrease in net revenue margins was primarily the result of a lower percentage of LTL revenue as a percentage of total revenue in the nine month period ended September 30, 2013 when compared to the same period 2012. TL and inter-modal revenue, which usually earn less net revenue margin percentage, increased significantly as a percentage of total revenue in the nine month period ended September 30, 2013 when compared to the same period in 2012. The cost of obtaining TL capacity has continued to increase in 2013 with new industry regulations, while demand has not been as strong as expected. This has led to a reduction of net revenue margins in the TL component of our business in 2013.

Operating expenses

Commission expense increased by \$0.3 million, or 1.0%, to \$30.1 million for the nine month period ended September 30, 2013, from \$29.8 million for the nine month period ended September 30, 2012. This increase is primarily attributable to the increase in net revenue. As a percentage of net revenue, the commission percentage of net revenue has decreased from the prior period. This decrease is due to a change with specific commission plans that became effective January 1, 2013 and the fluctuation of the composition of our net revenues originating from sales employees and agents.

Selling, general and administrative expenses increased by \$10.6 million, or 20.8%, to \$61.5 million for the nine month period ended September 30, 2013, from \$50.9 million for the nine month period ended September 30, 2012. The increase is primarily the result of hiring sales personnel who are expected to drive continued growth of our business and operational personnel to support our growth in customers and shipment volume. As a percentage of net revenue, selling, general and administrative expenses increased to 51.8% for the nine month period ended September 30, 2013, from 49.0% for the nine month period ended September 30, 2012. The increase, as a percentage of net revenue, is primarily attributable to increased compensation and facilities expenses associated with the growth of our business.

Contingent consideration

The change in contingent consideration resulted in a net increase and net decrease to our contingent consideration obligation for the nine month periods ended September 30, 2013 and 2012, respectively. The resulting expense recognized in our consolidated statement of income from the change in the contingent consideration obligation is \$0.4 million for the nine month period ended September 30, 2013 compared to a benefit of \$0.4 million for the nine month period ended September 30, 2012. For the nine month period ended September 30, 2013, the expense is due to a \$1.2 million increase in the contingent liability, primarily related to the \$0.9 million increase in the contingent consideration related to our DNA Freight Inc. ("DNA") acquisition, due to greater probability of acquisitions achieving the EBITDA earn-out targets and the time value of money. This increase was offset by a \$0.6 million and \$0.2 million decrease in the contingent consideration related to our Sharp and Purple Plum Logistics, LLC ("Purple Plum") acquisitions, respectively. The fair value of the contingent consideration obligation for each acquisition reflects updated probabilities as of September 30, 2013. For the nine month period ended September 30, 2012,

the benefit was primarily related to a decrease in the contingent liability due to DNA of \$1.0 million offset by increases in the contingent liability due to other acquisitions totaling approximately \$0.6 million in aggregate. These adjustments were the result of changes to the forecasted financial performance of each acquired business.

Acquisition related impairment loss

In the nine month period ended September 30, 2012, we recorded an acquisition related impairment loss of \$2.5 million. This acquisition related impairment charge relates to the impairment of goodwill and intangible assets related to the acquisition of the assets of Shipper Direct.

Depreciation and amortization

Depreciation expense increased by \$1.1 million, or 21.0%, to \$6.1 million for the nine month period ended September 30, 2013, from \$5.0 million for the nine month period ended September 30, 2012. The increase in depreciation expense is primarily attributable to depreciation on purchases of computer hardware and software, equipment, furniture and fixtures, and depreciation on the capitalization of internally developed software. Amortization expense increased by \$0.3 million, or 22.8%, to \$1.8 million for the nine month period ended September 30, 2013, from \$1.5 million for the nine month period ended September 30, 2012. The increase in amortization expense is the result of additional amortization expense on intangible assets acquired after September 30, 2012.

Income from operations

Income from operations increased by \$3.9 million, or 26.8%, to \$18.7 million for the nine month period ended September 30, 2013, from \$14.8 million for the nine month period ended September 30, 2012. The increase in income from operations is attributable to the increase in net revenue in excess of the increase in operating expenses.

Other expense and income tax expense

Other expense remained relatively consistent decreasing to \$0.28 million for the nine month period ended September 30, 2013, from \$0.36 million for the nine month period ended September 30, 2012.

Income tax expense increased to \$7.0 million for the nine month period ended September 30, 2013, from \$5.4 million for the nine month period ended September 30, 2012. Our effective tax rate for the nine month period ended September 30, 2013 increased to 37.9% as compared to 37.5% for the nine month period ended September 30, 2012, primarily due to slightly higher state rates and a geographic shift in our business due to acquisitions that reside in higher tax jurisdictions.

Net Income

Net income increased by \$2.5 million, or 27.3%, to \$11.5 million for the nine month period ended September 30, 2013, from \$9.0 million for the nine month period ended September 30, 2012 related to the items previously discussed.

Comparison of three months ended September 30, 2013 and 2012

Revenue

Edgar Filing: Echo Global Logistics, Inc. - Form 10-Q

Our revenue increased by \$42.1 million, or 21.8%, to \$234.8 million for the three month period ended September 30, 2013, from \$192.7 million for the three month period ended September 30, 2012. The increase was attributable to the increase in the number of our clients, and the total number of shipments executed on behalf of, and services provided to, these clients. Included in this increase was \$18.1 million of additional revenue generated in 2013 from the acquisitions of Sharp and Open Mile.

Our revenue from Enterprise clients increased by \$10.9 million, or 18.1%, to \$71.1 million for the three month period ended September 30, 2013, from \$60.2 million for the three month period ended September 30, 2012, resulting from increases in the number of Enterprise clients, shipments executed on behalf of these clients and transportation rates. Our percentage of revenue from Enterprise clients decreased to 30% of our revenue for the period ended September 30, 2013 from 31% for the period ended September 30, 2012 due to an increase in revenue per Transactional account for the three month period ended September 30, 2013 compared to the same period 2012.

Table of Contents

Our revenue from Transactional clients increased by \$31.2 million, or 23.5%, to \$163.7 million for the three month period ended September 30, 2013, from \$132.5 million for the three month period ended September 30, 2012. Our percentage of revenue from Transactional clients increased to 70% of our revenue for the three month period ended September 30, 2013, from 69% of our revenue for the three month period ended September 30, 2012. During 2012, we made investments in our training program that exposed new hires to both our operational and sales departments. As a result, we noted increased sales representative productivity as tenured sales representatives could further penetrate accounts with increased operational support and experience. This was further evidenced by the fact that the number of shipments per Transactional client and number of shipments per sales representative increased over the same period in 2012. Our revenue per Transactional client increased by approximately 16.9% for the three month period ended September 30, 2013 compared to the same period in 2012.

Transportation costs

Our transportation costs increased by \$38.2 million, or 24.4%, to \$194.3 million for the three month period ended September 30, 2013, from \$156.1 million for the three month period ended September 30, 2012. The growth in the total number of shipments executed on behalf of our clients accounted for most of the increase in our transportation costs during this period. Our transportation costs as a percentage of revenue increased to 82.7% for the three month period ended September 30, 2013 from 81.0% for the three month period ended September 30, 2012 due to a decreased percentage of LTL shipments in the composition of our sales volume. Also included in this increase is the related transportation costs associated with the revenue generated from acquisitions completed after the third quarter of 2012.

Net revenue

Net revenue increased by \$4.0 million, or 10.9%, to \$40.6 million for the three month period ended September 30, 2013, from \$36.6 million for the three month period ended September 30, 2012. The growth in the total number of shipments executed on behalf of our clients accounted for most of the increase in our net revenue during this period. Net revenue margins decreased to 17.3% for the three month period ended September 30, 2013, from 19.0% for the three month period ended September 30, 2012. The decrease in net revenue margins was primarily the result of a lower percentage of LTL revenue as a percentage of total revenue in the three month period ended September 30, 2013 when compared to the same period 2012. Conversely, the decrease in net revenue percentage was attributable to the higher percentage of TL and inter-modal revenue as a percentage of total revenue in the three month period ended September 30, 2013 when compared to the same period 2012 primarily due to our acquisition of Sharp in the fourth quarter of 2012. The cost of obtaining TL capacity has continued to increase in 2013 with new industry regulations, while demand has not been as strong as expected. This has led to a reduction of net revenue margins in the TL component of our business in 2013.

Operating expenses

Commission expense decreased by \$0.2 million, or 2.2%, to \$10.2 million for the three month period ended September 30, 2013, from \$10.4 million for the three month period ended September 30, 2012. This decrease is primarily attributable to adjustments in commission plans and sales channel mix. For the three month periods ended September 30, 2013 and 2012, commission expense was 25.1% and 28.5%, respectively, of our net revenue. This decrease is due to a change with specific commission plans that became effective January 1, 2013 and the fluctuation of the composition of our net revenue originating from sales employees and agents.

Selling, general and administrative expenses increased by \$3.0 million, or 17.3%, to \$20.6 million for the three month period ended September 30, 2013, from \$17.6 million for the three month period ended September 30, 2012. The

increase is primarily the result of hiring sales personnel who are expected to drive continued growth of our business and operational personnel to support our growth in customers and shipment volume. As a percentage of net revenue, selling, general and administrative expenses increased to 50.7% for the three month period ended September 30, 2013, from 48.0% for the three month period ended September 30, 2012. The increase, as a percentage of net revenue, is primarily attributable to increased compensation and facilities expenses associated with the growth of our business.

Contingent consideration

The change in contingent consideration resulted in a net increase to our contingent consideration obligation for the three month periods ended September 30, 2013 and 2012. The resulting expense recognized in our consolidated statement of income from the change in the contingent consideration obligation is \$30.8 thousand for the three month period ended September 30, 2013 compared to a loss of \$2.1 thousand for the three month period ended September 30, 2012. For the three month period

Table of Contents

ended September 30, 2013, the expense primarily related to increases in the contingent liability of \$0.2 million due to greater probability of acquisitions achieving the EBITDA earn-out targets and the time value of money. These increases were offset by a \$0.2 million decrease in the contingent consideration related to our Purple Plum acquisition. The fair value of the contingent consideration obligation for each acquisition reflects updated probabilities as of September 30, 2013. For the three month period ended September 30, 2012, the expense was primarily related to a decrease in the contingent liability due to DNA, a 2010 acquisition, of \$0.3 million offset by increases in the contingent liability due to Advantage of \$0.2 million and increases in the contingent liability due to other acquisitions of \$0.1 million. These adjustments were the result of changes to the forecasted financial performance of each acquired business.

Acquisition related impairment loss

In the three month period ended September 30, 2012, we recorded an acquisition related impairment loss of \$2.5 million. This acquisition related impairment charge relates to impairment of goodwill and intangible assets related to the acquisition of the assets of Shipper Direct.

Depreciation and amortization

Depreciation expense increased by \$0.3 million, or 15.6%, to \$2.1 million for the three month period ended September 30, 2013, from \$1.8 million for the three month period ended September 30, 2012. The increase in depreciation expense is primarily attributable to depreciation on purchases of computer hardware and software, equipment, furniture and fixtures, and depreciation on the capitalization of internally developed software. Amortization expense increased by \$0.1 million, or 24.7%, to \$0.6 million for the three month period ended September 30, 2013, from \$0.5 million for the three month period ended September 30, 2012. The increase in amortization expense is the result of additional amortization expense of intangible assets acquired after September 30, 2012.

Income from operations

Income from operations increased by \$3.2 million, or 84.3%, to \$7.1 million for the three month period ended September 30, 2013, from \$3.9 million for the three month period ended September 30, 2012. The increase in income from operations is attributable to the increase in net revenue in excess of the increase in operating expenses.

Other expense and income tax expense

Other expense decreased to \$0.08 million for the three month period ended September 30, 2013, from \$0.12 million for the three month period ended September 30, 2012.

Income tax expense increased to \$2.7 million for the three month period ended September 30, 2013, from \$1.5 million for the three month period ended September 30, 2012. Our effective tax rate for the three month period ended September 30, 2013 decreased to 38.0% as compared to 38.8% for the three month period ended September 30, 2012.

Net Income

Net income increased by \$2.1 million, or 90.8%, to \$4.4 million for the three month period ended September 30, 2013, from \$2.3 million for the three month period ended September 30, 2012 related to the items previously discussed.

Liquidity and Capital Resources

As of September 30, 2013, we had \$53.3 million in cash and cash equivalents, \$85.1 million in working capital and \$10.0 million available under our credit facility, which matures on July 31, 2014.

Cash provided by operating activities

For the nine month period ended September 30, 2013, \$21.7 million of cash was provided by operating activities, representing an increase of \$8.7 million compared to the nine month period ended September 30, 2012. For the nine month period ended September 30, 2013, we generated \$22.4 million in cash from net income, adjusted for non-cash operating items as compared to \$18.4 million for the nine month period ended September 30, 2012. For the nine month periods ended

Table of Contents

September 30, 2013 and 2012, cash flow generation was offset by \$0.7 million and \$5.3 million, respectively, in changes to net working capital primarily due to the growth of our business.

Cash used in investing activities

Cash used in investing activities was \$8.9 million and \$10.4 million during the nine month periods ended September 30, 2013 and 2012, respectively. For the nine month period ended September 30, 2013, the primary investing activity was related to the procurement of computer hardware and software, the internal development of computer software and the acquisition of Open Mile. For the nine month period ended September 30, 2012, the primary investing activity was related to the procurement of computer hardware and software, the internal development of computer software and acquisition related payments.

Cash used in financing activities

During the nine month period ended September 30, 2013, net cash used in financing activities was \$1.3 million compared to cash used in financing activities of \$1.5 million for the nine month period ended September 30, 2012. This was primarily attributable to the exercise of employee stock options for the nine month period ended September 30, 2013, offset by the use of cash to satisfy employee tax withholdings upon the vesting of restricted stock and contingent consideration payments of \$2.0 million. For the nine month period ended September 30, 2012, the cash used in financing activities was primarily related to the exercise of employee stock options offset by contingent consideration payments of \$2.9 million.

Credit facility

As of September 30, 2013, we had no amounts outstanding on our \$10.0 million line of credit with JPMorgan Chase Bank, N.A., which matures on July 31, 2014. Our line of credit contains limitations on our ability to incur indebtedness, create liens and make certain investments. Interest on the line of credit is payable monthly at an interest rate equal to either: (1) the prime rate or (2) LIBOR plus 1.75%. We have discretion in determining if specific advances against the line of credit are drawn down as a prime rate advance or a LIBOR advance. The terms of the credit line include various covenants, including covenants that require us to maintain a maximum leverage ratio and a minimum interest coverage ratio. As of September 30, 2013, we were in compliance with all of these covenants.

Anticipated uses of cash

Our priority is to continue to grow our revenue and net revenue. We anticipate that our operating expenses and planned expenditures will constitute a material use of cash, and we expect to use available cash to expand our sales force, to enhance our technology, to acquire or make strategic investments in complementary businesses and for working capital and other general corporate purposes. We also expect to use available cash to make approximately \$2.5 million of potential earn-out payments for the remainder of 2013 due in connection with our acquisitions. We currently expect to use up to \$3.0 million for capital expenditures for the remainder of 2013. We expect the use of cash for working capital purposes will be offset by the cash flow generated from operating earnings during this period.

Historically, our average accounts receivable lifecycle has been longer than our average accounts payable lifecycle, meaning that we have used cash to pay carriers in advance of collecting from our clients. We elect to provide this benefit to foster strong relationships with our clients and carriers. As our business grows, we expect this use of cash to continue. The amount of cash we use will depend on the growth of our business.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements.

Recent Accounting Pronouncements

In February 2013, the Financial Accounting Standards Board ("FASB") issued an update to the authoritative guidance which requires disclosure information about the amounts reclassified out of accumulated other comprehensive income. This update does not apply to the Company since there are no items of other comprehensive income in any period presented.

In July 2013, the FASB issued authoritative guidance under Accounting Standard Update ("ASU") 2013-11, which provides guidance on the financial statement presentation of an unrecognized tax benefit when a net operating loss ("NOL")

Table of Contents

carryforward, a similar tax loss, or a tax credit carryforward exists. ASU 2013-11 requires entities to present an unrecognized tax benefit as a reduction of a deferred tax asset for a NOL or tax credit carryforward whenever the NOL or tax credit carryforward would be available to reduce the additional taxable income or tax due if the tax position is disallowed. This accounting standard update requires entities to assess whether to net the unrecognized tax benefit with a deferred tax asset as of the reporting date. ASU 2013-11 will be effective for the Company's first quarter of fiscal 2014. The Company is currently evaluating the impact of this accounting standard update on its consolidated financial statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Commodity Risk

We pass through increases in fuel prices to our clients. As a result, we believe that there is no material risk exposure to us to fluctuations in fuel prices.

Interest Rate Risk

We have exposure to changes in interest rates on our line of credit. The interest rate on our line of credit fluctuates based on the prime rate or LIBOR plus 1.75%. Assuming the \$10.0 million line of credit was fully drawn, a 1.0% increase in the prime rate would increase our annual interest expense by \$100,000.

Our interest income is sensitive to changes in the general level of U.S. interest rates, in particular because all of our investments are in cash equivalents. Due to the short-term nature of our investments, we believe that there is no material risk exposure to us.

We do not use derivative financial instruments for speculative trading purposes.

Impact of Inflation

We believe that our results of operations are not materially impacted by moderate changes in the inflation rate. Inflation and changing prices did not have a material impact on our operations for the nine months ended September 30, 2013 and 2012.

Table of Contents

Item 4. Controls and Procedures

Management's evaluation of disclosure controls and procedures

Our management, with the participation of our chief executive officer and chief financial officer, evaluated the effectiveness of our disclosure controls and procedures as of September 30, 2013. The term "disclosure controls and procedures," as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act"), means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Based on the evaluation of our disclosure controls and procedures as of September 30, 2013, our chief executive officer and chief financial officer concluded that, as of such date, the Company's disclosure controls and procedures were effective at the reasonable assurance level.

Previously Reported Material Weakness in Internal Control over Financial Reporting

In connection with management's assessment of our internal control over financial reporting for the December 31, 2012 reporting period, we identified a material weakness in our internal control over financial reporting as of September 30, 2012 related to deficiencies in the process of evaluating indicators of impairment of our intangible assets. A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the Company's annual or interim financial statements will not be prevented or detected on a timely basis.

We have subsequently developed and implemented formal policies around identifying indicators of impairment and formalized steps for impairment testing once indicators are identified and concluded that the material weakness has been remediated.

As a result of the material weakness in internal control over financial reporting described above, we amended and restated our financial statements contained in our Quarterly Report on Form 10-Q for the nine months ended September 30, 2012.

For additional information regarding the restatements of these financial results and the material weakness identified by management, see "Item 4. Controls and Procedures" in the Company's Quarterly Report on Form 10-Q/A for the nine months ended September 30, 2012, filed on March 6, 2013 with the Securities and Exchange Commission.

Changes in internal control over financial reporting

Except for the remediation steps to address the material weakness in its internal control over financial reporting described above, there has been no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the quarter ended September 30, 2013 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

In the normal course of business, we are subject to potential claims and disputes related to our business, including claims for freight lost or damaged in transit. Some of these matters may be covered by our Company's insurance and risk management programs or may result in claims or adjustments with our carriers.

Effective July 1, 2012 the Company acquired the assets of Shipper Direct, a truckload transportation brokerage located near Nashville, Tennessee. In August 2012, the Company discovered that the revenue and profitability of the acquired business, both prior and subsequent to the acquisition, were not as expected based on representations contained in the Asset Purchase Agreement. The Company believes the representations made in the Asset Purchase Agreement were fraudulent. The founders of Shipper Direct, who had become employees of the Company, were terminated as a result, and the Company requested that the sellers return the entire purchase price and that the contingent consideration provision of the Asset Purchase Agreement be voided. However, the Company received only \$1,779,554. On September 25, 2012, the sellers asserted indemnification claims against the Company under the indemnification provisions of the Asset Purchase Agreement for \$2,400,000, including a claim for the repayment of the \$1,779,554 return of purchase price. The Company believes the sellers' indemnification claims are without merit and intends to vigorously defend against any legal action taken by the sellers with respect to their indemnification claims.

In November 2012, the founders filed a complaint with the U.S. Department of Labor alleging that their employment was wrongfully terminated in violation of the whistleblower provisions of Sarbanes-Oxley. On August 27, 2013, this action was terminated in the Company's favor when the founders voluntarily withdrew their complaint.

In January 2013, the Company filed a lawsuit in the U.S. District Court for the Northern District of Illinois against Shipper Direct, the founders and others alleging, among other things, breach of contract and fraud. The lawsuit is seeking monetary damages in excess of \$2,500,000. On May 28, 2013, the Company obtained a default judgment against the founders, which they have subsequently attempted to vacate, the resolution of which is still pending.

Management does not believe that the outcome of any of the legal proceedings to which we are a party will have a material adverse effect on its financial position or results of operations.

Item 1A. Risk Factors

There have been no material changes from the risk factors described in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2012.
