CAUTIONARY STATEMENT REGARDING FORWARD LOOKING STATEMENTS

As a matter of policy, the Company does not provide forecasts of future financial performance. The statements made in this Form 10-Q Quarterly Report which are not historical facts are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Such forward-looking statements often contain or are prefaced by words such as “believe”, “will” and “expect.” These statements are based on current expectations, estimates and projections about our business based, in part, on assumptions made by management. These statements are not guarantees of future performance and involve risks, uncertainties and assumptions that are difficult to predict. As a result of a number of factors, our actual results could differ materially from those set forth in the forward-looking statements. Certain factors that might cause the Company’s actual results to differ materially from those in the forward-looking statements include, without limitation, general business conditions, the demand for the Company’s services, competitive market pressures, the ability of the Company to attract and retain qualified personnel for regular full-time placement and contract assignments, the possibility of incurring liability for the Company’s business activities, including the activities of its contract employees and events affecting its contract employees on client premises, and the ability to attract and retain qualified corporate and branch management, as well as those risks discussed in the Company’s annual report on Form 10-K for the year ended September 30, 2014, and in other documents which we file with the Securities and Exchange Commission. Any forward-looking statements speak only as of the date on which they are made, and the Company is under no obligation to (and expressly disclaims any such obligation to) and does not intend to update or alter its forward-looking statements whether as a result of new information, future events or otherwise.

For the nine month ended June 30, 2015:

The Company acquired 100% of the outstanding stock of Scribe Solutions Inc. for 640,000 shares of Series A Preferred Stock valued at \$6,265,000, net of issuance costs. In addition, the Company exchanged warrants to purchase up to 6,350,000 shares of the Company's common stock valued at \$1,330,000, for Scribe warrants held by three individuals.

For the nine months ended June 30, 2014:

None

The accompanying notes are an integral part of the unaudited condensed consolidated financial statements.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

1. Description of Business

General Employment Enterprises, Inc. (the “Company”, “us”, “our” or “we”) was incorporated in the State of Illinois in 1962 and is the successor to employment offices doing business since 1893. We are a provider of permanent and temporary professional, industrial and physician assistant staffing and placement services in and near several major U.S cities. We specialize in the placement of information technology, engineering, medical and accounting professionals for direct hire and contract staffing for our clients, and provide temporary staffing services for our commercial clients. As a result of our acquisition of Scribe Solutions in April 2015, we now also offer data entry assistants (medical scribes) who specialize in electronic medical records (EMR) services for emergency departments, specialty physician practices and clinics. There is currently a growing need for medical scribes due to the rise in EMR being utilized for billing and documentation of health care services and the meaningful use requirements that are part of the Affordable Care Act.

2. Significant Accounting Policies and Estimates

The accompanying unaudited condensed consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Article 8 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete consolidated financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included. Operating results for the three and nine month period ended June 30, 2015 are not necessarily indicative of the results that may be expected for the year ending September 30, 2015. The unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the year ended September 30, 2014 as filed on December 22, 2014.

Liquidity

The Company has experienced significant losses and negative cash flows from operations in the past. Management has implemented a strategy which included cost reduction efforts, consolidation of certain back office activities to gain efficiencies as well as identifying strategic acquisitions, financed primarily through the issuance of preferred and common stock and convertible debt, to improve the overall profitability and cash flows of the Company.

In 2013, the Company entered into a three year revolving credit agreement with ACF Finco I LP (formerly Keltic) to provide working capital financing. The agreement allows ACF Finco I LP to advance the Company funds based on a percentage of eligible invoices. Management believes with current cash flow from operations, the preferred offering below and the availability under the ACF Finco I LP loan agreement, the Company will have sufficient liquidity for the next 12 months.

Edgar Filing: GENERAL EMPLOYMENT ENTERPRISES INC - Form 10-Q

On January 8, 2015, the Company completed a Securities offering with 18 individuals who collectively have purchased a total of 200,000 shares of Preferred Stock from the Company for a total purchase price of \$2,000,000. The Company netted approximately \$1,960,000, with approximately \$1,000,000 to be used as working capital and the remaining \$1,000,000 for marketing, acquisitions, expansion and to further the operations of the Company. The Preferred Stock was designated by the Company on December 15, 2014 through the filing of a Certificate of Designation of Series A Convertible Preferred Stock with the Illinois Secretary of State. Each share of Preferred Stock is initially convertible, at the election of the holder, into 50 shares of the Company's Common Stock. The foregoing conversion ratio is subject to standard adjustment mechanisms, as set forth in the Designation. All of the series A Convertible Preferred Stock have been converted into common shares subsequent to June 30, 2015.

On August 7, 2014, the Company issued a Convertible Note (the "Note") with an original principal balance of \$632,500 to Brio Capital Master Fund LTD ("Brio"), for a purchase price of \$550,000. The Note matures on February 6, 2016, and is payable in thirteen monthly installments of \$48,654, commencing in the sixth month post-closing. Brio had the right, however not the obligation, six months after closing, to convert all or any part of the outstanding Note into the Company's common stock at an initial conversion price of \$0.20 per share. As of June 30, 2015, Brio has converted the entire note into 3,162,500 shares of common stock.

Principles of Consolidation

The unaudited condensed consolidated financial statements include the accounts and transactions of the Company and its wholly-owned subsidiaries. All inter-company accounts and transactions are eliminated in consolidation.

Estimates and Assumptions

Management makes estimates and assumptions that can affect the amounts of assets and liabilities reported as of the date of the condensed consolidated financial statements, as well as the amounts of reported revenues and expenses during the periods presented. Those estimates and assumptions typically involve expectations about events to occur subsequent to the balance sheet date, and it is possible that actual results could ultimately differ from the estimates. If differences were to occur in a subsequent period, the Company would recognize those differences when they became known. Significant matters requiring the use of estimates and assumptions include, but may not be limited to, deferred income tax valuation allowances, accounts receivable allowances, accounting for acquisitions, accounting for derivatives and evaluation of impairment. Management believes that its estimates and assumptions are reasonable, based on information that is available at the time they are made.

Revenue Recognition

Direct hire placement service revenues are recognized when applicants accept offers of employment, less a provision for estimated losses due to applicants not remaining employed for the Company's guarantee period. Contract staffing service revenues are recognized when services are rendered.

Falloffs and refunds during the period are reflected in the unaudited condensed consolidated statements of operations as a reduction of placement service revenues. Expected future falloffs and refunds are reflected in the unaudited condensed consolidated balance sheet as a reduction of accounts receivable and were approximately \$130,000 and \$113,000 as of June 30, 2015 and September 30, 2014 respectively.

Cost of Contract Staffing Services

Edgar Filing: GENERAL EMPLOYMENT ENTERPRISES INC - Form 10-Q

The cost of contract services includes the wages and the related payroll taxes and employee benefits of the Company's employees while they work on contract assignments.

Cash and Cash Equivalents

Highly liquid investments with a maturity of three months or less when purchased are considered to be cash equivalents. At June 30, 2015 and September 30, 2014, there were no cash equivalents. The Company maintains deposits in financial institutions in excess of amounts guaranteed by the Federal Deposit Insurance Corporation. Cash and cash equivalents are maintained at financial institutions and, at times, balances may exceed federally insured limits. We have never experienced any losses related to these balances. Beginning in 2013, insurance coverage reverted to \$250,000 per depositor at each financial institution, and our non-interest bearing cash balances may from time to time exceed federally insured limits.

Accounts Receivable

The Company extends credit to its various customers based on evaluation of the customer's financial condition and ability to pay the Company in accordance with the payment terms. An allowance for placement fall-offs is recorded, as a reduction of revenues, for estimated losses due to applicants not remaining employed for the Company's guarantee period. An allowance for doubtful accounts is recorded, as a charge to bad debt expense, where collection is considered to be doubtful due to credit issues. These allowances together reflect management's estimate of the potential losses inherent in the accounts receivable balances, based on historical loss statistics and known factors impacting its customers. The nature of the contract service business, where companies are dependent on employees for the production cycle allows for a small accounts receivable allowance. Based on management's review of accounts receivable, an allowance for doubtful accounts of approximately \$435,000 and \$395,000 is considered necessary as of June 30, 2015 and September 30, 2014, respectively. The Company charges uncollectible accounts against the allowance once the invoices are deemed unlikely to be collectible.

Property and Equipment

Property and equipment are recorded at cost. Depreciation expense is calculated on a straight-line basis over estimated useful lives of five years for computer equipment and two to ten years for office equipment, furniture and fixtures. The Company capitalizes computer software purchased or developed for internal use and amortizes it over an estimated useful life of five years. The carrying value of property and equipment is reviewed for impairment whenever events or changes in circumstances indicate that it may not be recoverable. If the carrying amount of an asset group is greater than its estimated future undiscounted cash flows, the carrying value is written down to the estimated fair value. There was no impairment of property and equipment for the nine month periods ended June 30, 2015 and 2014.

Goodwill

Goodwill represents the excess of cost over the fair value of the net assets acquired in the various acquisitions. The Company assesses goodwill for impairment at least annually. Testing goodwill for impairment allows the Company to first assess qualitative factors to determine whether the existence of events or circumstances leads to a determination that it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If the entity determines that this threshold is not met, then performing the two-step impairment test is unnecessary. An impairment loss would be recognized to the extent the carrying value of goodwill exceeds its implied fair value.

Fair Value Measurement

The Company follows the provisions of the accounting standard which defines fair value, establishes a framework for measuring fair value and enhances fair value measurement disclosure. Under these provisions, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date.

The standard establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use on unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company's assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The hierarchy is described below:

Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2: Observable prices that are based on inputs not quoted on active markets, but corroborated by market data.

Edgar Filing: GENERAL EMPLOYMENT ENTERPRISES INC - Form 10-Q

Level 3: Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

The fair value of the Company's current assets and current liabilities, excluding the derivative liability, approximate their carrying values due to their short term nature. The carrying value of the Company's derivative liability is measured at fair value on a recurring basis based on level 3 inputs, as further discussed in note 8. The Company's goodwill and other intangible assets are measured at fair value on a non-recurring basis using level 3 inputs.

Derivative Financial Instruments

The Company does not use derivative instruments to hedge exposure to cash flow, market or foreign currency risk. Terms of convertible promissory note instruments are reviewed to determine whether or not they contain embedded derivative instruments that are required under ASC 815 “*Derivative and Hedging*” (ASC 815) to be accounted for separately from the host contract, and recorded on the balance sheet at fair value. The fair value of derivative liabilities is required to be revalued at each reporting date, with corresponding changes in fair value recorded in current period operating results.

Freestanding warrants issued by the Company in connection with the issuance or sale of debt and equity instruments are considered to be derivative instruments and are evaluated and accounted for in accordance with the provisions of ASC 815. Pursuant to ASC 815, an evaluation of specifically identified conditions is made to determine whether fair value of warrants issued is required to be classified as equity or as a derivative liability.

Intangible Assets

Customer relationships and trade names were recorded at their estimated fair value at the date of acquisition and are amortized over their estimated useful lives ranging from two to ten years using both accelerated and straight-line methods.

Loss per Share

Basic loss per share is computed by dividing net loss attributable to common stockholders by the weighted average common shares outstanding for the period. Diluted loss per share is computed giving effect to all potentially dilutive common shares. Potentially dilutive common shares may consist of incremental shares issuable upon the exercise of stock options and warrants and the conversion of notes payable to common stock. In periods in which a net loss has been incurred, all potentially dilutive common shares are considered anti-dilutive and thus are excluded from the calculation. There were approximately 52,522,000 and 20,820,000 of common stock equivalents for three and nine months ended June 30, 2015, respectively. There were no common stock equivalents for the three and nine months ended June 30, 2014, respectively.

Advertising Expenses

The majority of the Company’s advertising expense budget is used to support the Company’s business. Most of the advertisements are in print or internet media, with expenses recorded as they are incurred. For the three and nine months ended June 30, 2015 and 2014, included in selling, general and administrative expenses was advertising expense totaling approximately \$164,000 and \$514,000, and approximately \$177,000 and \$549,000, respectively.

Impairment of Long-lived Assets

The Company records an impairment of long-lived assets used in operations, other than goodwill, when events or circumstances indicate that the asset might be impaired and the estimated undiscounted cash flows to be generated by those assets over their remaining lives are less than the carrying amount of those items. The net carrying value of assets not recoverable is reduced to fair value, which is typically calculated using the discounted cash flow method. The Company did not record any impairment during the nine months ended June 30, 2015 and 2014.

Stock-Based Compensation

The Company accounts for stock-based awards to employees in accordance with applicable accounting principles, which requires compensation expense related to share-based transactions, including employee stock options, to be measured and recognized in the financial statements based on a determination of the fair value of the stock options. The grant date fair value is determined using the Black-Scholes-Merton ("Black-Scholes") pricing model. For all employee stock options, we recognize expense over the requisite service period on an accelerated basis over the employee's requisite service period (generally the vesting period of the equity grant). The Company's option pricing model requires the input of highly subjective assumptions, including the expected stock price volatility, expected term, and forfeiture rate. Any changes in these highly subjective assumptions significantly impact stock-based compensation expense.

Options awarded to purchase shares of common stock issued to non-employees in exchange for services are accounted for as variable awards in accordance with applicable accounting principles. Such options are valued using the Black-Scholes option pricing model. There were no stock options granted during the nine month period ended June 30, 2015.

Income Taxes

We record a provision for income taxes for the anticipated tax consequences of the reported results of operations using the asset and liability method. Under this method, we recognize deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the financial reporting and tax basis of assets and liabilities, as well as for operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using the tax rates that are expected to apply to taxable income for the years in which those tax assets and liabilities are expected to be realized or settled. We record a valuation allowance to reduce our deferred tax assets to the net amount that we believe is more likely than not to be realized.

Due to the private sale of shares of common stock to LEED HR during fiscal 2012 and the resulting change in control, the Company may be limited by Section 382 of the Internal Revenue Code as to the amount of net operating losses that may be used in future years.

We recognize tax benefits from uncertain tax positions only if we believe that it is more likely than not that the tax position will be sustained on examination by the taxing authorities based on the technical merits of the position. Although we believe that we have adequately reserved for our uncertain tax positions, we can provide no assurance that the final tax outcome of these matters will not be materially different. We make adjustments to these reserves when facts and circumstances change, such as the closing of a tax audit or the refinement of an estimate. To the extent that the final tax outcome of these matters is different than the amounts recorded, such differences will affect the provision for income taxes in the period in which such determination is made and could have a material impact on our financial condition and operating results.

Reclassification

Certain reclassifications have been made to the financial statements as of and for the three and nine months ended June 30, 2014 to conform to the current year presentation.

Segment Data

The Company has two operating business segments a) Contract staffing services (including our newly acquired Scribe Solutions, Inc. business, see note 10), and b) Direct hire placement. These operating segments were determined based primarily on how the chief operating decision maker views and evaluates our operations. Operating results are regularly reviewed by the chief operating decision maker to make decisions about resources to be allocated to the segment and to assess its performance. Other factors, including type of business, type of employee, length of employment and revenue recognition are considered in determining these operating segments.

3. Recent Accounting Pronouncements

No recent accounting pronouncements were issued by FASB and the SEC that are believed by management to have a material impact on the Company's present or future financial statements.

4. Property and Equipment

Property and equipment, net consisted of the following:

(In thousands)	Useful Lives	June 30, 2015	September 30, 2014
Computer software	5 years	\$ 1,447	\$ 1,447
Office equipment, furniture and fixtures and leasehold improvements	2 to 10 years	1,429	1,413
Total property and equipment, at cost		2,876	2,860
Accumulated depreciation and amortization		(2,462)	(2,407)
Property and equipment, net		\$ 414	\$ 453

Leasehold improvements are amortized over the term of the lease.

Depreciation expense for the three and nine month periods ended June 30, 2015 and 2014 was approximately \$32,000 and \$110,000, and \$38,000 and \$120,000, respectively.

5. Goodwill and Intangible AssetsGoodwill

Goodwill represents the excess of cost over the fair value of the net assets acquired from various acquisitions. Goodwill is not amortized. The Company performs a goodwill impairment test annually, by reporting unit, in the fourth quarter of the fiscal year, or whenever potential impairment triggers occur. Should the two-step process be necessary, the first step of the impairment test identifies potential impairment by comparing the fair value of a reporting unit to its carrying value including goodwill. In applying a fair-value-based test, estimates are made of the expected future cash flows to be derived from the reporting unit. Similar to the review for impairment of other long-lived assets, the resulting fair value determination is significantly impacted by estimates of future margins, capital needs, economic trends and other factors. If the carrying value of the reporting unit exceeds its fair value, the second step of the impairment test is performed to measure the amount of impairment loss, if any. The second step of the impairment test compares the implied fair value of the reporting unit goodwill with the carrying amount of that goodwill. An impairment loss would be recognized to the extent the carrying value of goodwill exceeds its implied fair value. There was no impairment recorded during the three and nine month periods ended June 30, 2015 and 2014.

Intangible Assets

As of June 30, 2015

(In Thousands)	Cost	Accumulated Amortization	Net Book Value
Customer Relationships	\$ 4,160	\$ 1,422	\$ 2,738
Trade Name	763	32	731
	\$ 4,923	\$ 1,454	\$ 3,469

As of September 30, 2014

(In Thousands)	Cost	Accumulated Amortization	Net Book Value
Customer Relationships	\$ 2,690	\$ 1,137	\$ 1,553
Trade Name	17	10	7
	\$ 2,707	\$ 1,147	\$ 1,560

Amortization expense was approximately \$139,000 and \$305,000 for the three and nine months ended June 30, 2015, respectively and was approximately \$81,000 and \$244,000 for the three and nine months ended June 30, 2014, respectively.

The trade names are amortized on a straight – line basis over the estimated useful life of five to ten years. Customer relationships are amortized based on the future undiscounted cash flows over estimated remaining useful lives of three to ten years or on a straight – line basis over five to ten years. Over the next five years, annual amortization expense for these finite life intangible assets will be approximately \$541,000 through 2020.

Long-lived assets, such as purchased intangibles subject to amortization, are reviewed for impairment when events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The Company regularly evaluates whether events and circumstances have occurred that indicate possible impairment and relies on a number of factors, including operating results, business plans, economic projections, and anticipated future cash flows. The Company uses an estimate of the future undiscounted net cash flows of the related asset or asset group over the remaining life in measuring whether the assets are recoverable.

6. Short-term Debt

On September 27, 2013, the Company (“Borrower”) entered into agreements with ACF FINCO I LP (successor-in-interest to Keltic Financial Partners II, LP) (“ACF”) (“Lender”), that provide the Company with long term financing through a six million dollar (\$6,000,000) secured revolving note (the “Note”). The Note has a term of three years and has no amortization prior to maturity. The interest rate for the Note is a fluctuating rate that, when annualized, is equal to the greatest of (A) the Prime Rate plus three and one quarter percent (3.25%), (B) the LIBOR Rate plus six and one quarter percent (6.25%), and (C) six and one half percent (6.50%), with the interest paid on a monthly basis. At June 30, 2015 and 2014 the interest rate was 6.5%. Loan advances pursuant to the Note are based on the accounts receivable balance and other assets. The Company incurred certain cash expense and commitment fees related to obtaining the agreement of approximately \$170,000, which has been paid. The Note is secured by all of the Company’s property and assets, whether real or personal, tangible or intangible, and whether now owned or hereafter acquired, or in which it now has or at any time in the future may acquire any right, title or interests. On April 21, 2014, the Company entered into the First Amendment and Waiver to the Loan and Security Agreement with ACF to adjust the covenants. On December 3, 2014, the Company entered into a Second Amendment and Waiver to the Loan and Security Agreement with ACF. On April 1, 2015 the Company entered into a third Amendment and Waiver to the Loan and Security Agreement with ACF to adjust the future covenants as outlined below and update the overall document to reflect changes to the business. As of the date of this report, the Company was in compliance with all such covenants or had received waivers related thereto.

The Company has several administrative covenants and the following financial covenant:

The Company must maintain the following EBITDA:

(a) The three (3) consecutive calendar month period ending on December 31, 2014, to be a negative number exceeding negative Two Hundred Fifty Thousand and 00/100 Dollars (\$250,000);

Edgar Filing: GENERAL EMPLOYMENT ENTERPRISES INC - Form 10-Q

(b) The six (6) consecutive calendar month period ending on March 31, 2015, to be a negative number exceeding negative Five Hundred Thousand and 00/100 Dollars (\$500,000);

(c) The nine (9) consecutive calendar month period ending on June 30, 2015, to be a negative number exceeding negative Four Hundred Sixteen Thousand and 00/100 Dollars (\$416,000);

(d) The twelve (12) consecutive calendar month period ending on September 30, 2015, to be a negative number exceeding negative Two Hundred Forty Thousand Five Hundred and 00/100 Dollars (\$240,500); and

(e) For any period commencing on or after October 1, 2015, no less than such amounts as are established by Lender for such period in Lender's permitted discretion based on the annual financial projections including such period delivered by Borrower.

As of June 30, 2015, the Company was in compliance with the EBITDA covenant and all other administrative covenants. At June 30, 2015, there was approximately \$783,000 available on the line of credit. The interest expense related to the lines of credit for the three and nine months ended June 30, 2015 and 2014 approximated \$99,000 and \$300,000, and \$69,000 and \$210,000, respectively.

7. Accrued Compensation

Accrued Compensation includes accrued wages, the related payroll taxes, employee benefits of the Company's employees while they work on contract assignments, commissions earned and not yet paid and estimated commission payable.

In connection with the completion of the sale of shares of common stock to PSQ in fiscal year 2009, the Company's then Chairman, Chief Executive Officer and President (the "former CEO") retired from those positions and his employment agreement with the Company was replaced by a consulting agreement. On January 31, 2013, he retired from all positions with the Company, however he continued to receive his monthly payments required under his consulting agreement. As of June 30, 2015, the liability has been fully paid.

8. Convertible Note

On August 7, 2014, the Company issued a Convertible Note (the "Note") with an original principal balance of \$632,500 to Brio Capital Master Fund LTD ("Brio"), for a purchase price of \$550,000. The Note matures on February 6, 2016, and is payable in thirteen monthly installments of \$48,654, commencing in the sixth month post-closing. Brio had the right, however not the obligation, to convert all or any part of the outstanding Note into the Company's common stock at an initial conversion price of \$0.20 per share. After six months from closing, the conversion price had a one-time reset to the lower of \$0.20 or 90% of the average of the 3 lowest closing prices for the previous 10 trading days, subject to a floor of \$0.14 per share. The Company was allowed to force conversion if the Company's common stock trades at 250% greater than the conversion price for 20 consecutive trading days (see Note 9).

In addition to the Note, the Company issued a warrant to purchase up to 2,371,875 shares of the Company's common stock. The warrant is exercisable at \$0.25 per share, vests 6 months after the closing, and expires 5 years thereafter.

The Note contained an embedded conversion feature requiring bifurcation and liability treatment. The Company accounted for this conversion feature and the detachable warrants by allocating the proceeds from issuance of the convertible notes to the conversion feature and the warrants. These were based on a relative fair value and the conversion feature was valued by a third party.

To recognize the fair value of the warrants, the Company discounted the note and increased additional paid in capital. The fair value of the conversion feature was approximately \$178,000 at inception, the Company discounted the note and created a derivative liability, which is evaluated each quarter and adjusted for any change in value.

Edgar Filing: GENERAL EMPLOYMENT ENTERPRISES INC - Form 10-Q

During the second quarter, Brio converted \$500,000 of its outstanding loan into 2,500,000 shares of the Company's common stock. Based on the closing stock price of \$0.85 and \$1.03 per common share, the 2,500,000 shares were valued at approximately \$2,350,000 and the Company has recognized a loss on the extinguishment of debt of approximately \$210,000. Included in the loss in extinguishment was the fair value of the derivative liability at the date of conversion.

During the third quarter, Brio converted the remaining \$132,500 of its outstanding loan into 662,500 shares of the Company's common stock. Based on the closing stock price of \$0.78 per common share, the 662,500 shares have converted into approximately \$517,000 of equity and the Company has recognized a gain on the conversion on the derivative liability of approximately \$68,000 and a loss on extinguishment of debt of approximately \$24,000 during the quarter ended June 30, 2015.

Since the issuance in 2014, the Company received approximately \$517,000 in net cash that was converted by Brio into 3,162,500 shares of the Company's common stock. Related to this transaction the Company recorded approximately \$2,867,000 in equity (including 219,000 in warrants valued in 2014), \$2,204,000 in a derivative loss, \$234,000 extinguishment of debt, and interest expense of approximately \$115,500 over the past 12 months.

9. Equity

On March 31, 2014, the Company entered into a Securities Purchase Agreement (the "SPA") with Aracle SPF I, LLC ("Aracle") pursuant to which Aracle and another subscribed investors had the right to acquire up to 12 units (the "Units"), for \$50,000 per Unit, with each Unit consisting of 250,000 shares of common stock (the "Shares") of the Company and 125,000 common stock purchase warrants (the "Warrants"). The Warrants were exercisable 6 months after issuance, had a term of 4 years, and had an exercise price of \$0.25 per warrant share. The SPA contained standard representations, warranties, and covenants. In addition, the SPA contained a price adjustment mechanism that requires the Company, with certain exceptions, to issue additional shares of common stock to the investor in the event the Company, within 12 months of the initial closing under the SPA, issue certain equity securities at a price per share less than \$0.20, provided, however, as long as the Company was listed on the NYSE MKT the total number of shares issuable under the foregoing adjustment provision may not exceed 19.9% of the Company's outstanding shares of common stock on March 30, 2014. Further, in the event the Company was delisted from the NYSE MKT while Aracle owns at least 51% of the Shares issued to it under the SPA, the Company would be required to issue an additional 3,000,000 shares to Aracle, and the 12 month price adjustment period shall be extended to 36 months.

Concurrently with entering into the SPA, the Company and Aracle conducted an initial closing thereunder, in which Aracle purchased 9.5 Units for \$475,000. The Company incurred certain expenses related to the SPA of approximately \$88,000, which were paid from the proceeds.

On April 16, 2014, the Company, Aracle and a second institutional investor (both companies referred to as "Investors"), entered into certain Securities Purchase Agreements ("SPA") pursuant to which the Investors purchased 2.5 Units for \$125,000. The Company incurred certain expenses related to the SPA of approximately \$7,250, which were paid from the proceeds of this closing.

Warrants to purchase up to 1,500,000 shares of common stock at \$0.25 per share were issued related to this Securities Purchase Agreement. The Company issued 1,224,149 shares of common stock related to the cashless exercise of the warrants. There are no warrants remaining related to the SPA signed with Aracle.

On January 8, 2015, the Company completed a Securities offering with 18 individuals who collectively have purchased a total of 200,000 shares of Preferred Stock from the Company for a total purchase price of \$2,000,000. The Company netted approximately \$1,960,000, with approximately \$1,000,000 to be used as working capital and the remaining \$1,000,000 for marketing, acquisitions, expansion and to further the operations of the Company. Each share of Preferred Stock is initially convertible, at the election of the holder, into 50 shares of the Company's Common Stock.

In addition dividends were payable in kind at the Company's option at a rate of eight percent (8%) annually. Payments of annual dividends have not been declared by the Company's Board of Directors on the outstanding Series A shares because of losses sustained by the Company. See note 10 for additional preferred shares issued related to the Scribe acquisition. As of August 14, 2015, there were no preferred dividends in arrears as all Series A preferred shares and the accrued dividends have been converted into common stock.

During the nine months ended June 30, 2015, the Company issued 615,000 shares of common stock to employees or former directors of the Company who exercised their stock options. Approximately \$194,000 was received related to the exercise of these options.

During the nine months ended June 30, 2015 a total of 5,542,951 shares of common stock were issued, however no cash was received for these issuances.

1,224,119 shares of common stock were issued related to several cashless warrant conversions.

344,021 shares of common stock were issued to the Board of Directors for services. A portion of these were issued by the Company to settle approximately \$69,000 of accrued board fees from December 31, 2014.

268,592 shares of common stock were issued to employees of the Company who exercised their stock options on a cashless basis.

Brio converted \$632,500 of its outstanding loan into 3,162,500 shares of the Company's common stock. Based on the closing stock prices of \$0.85, \$1.03 and \$0.78 per common share, the shares were valued at approximately \$2,866,750.

543,719 shares of common stock were issued related to the conversion of 10,500 shares of Series A Preferred stock.

Stock Options

The Company has recognized compensation expense in the amount of approximately \$47,000 during the three and nine months ended June 30, 2015, related to the issuance of stock options.

10. Acquisition

On December 11, 2014, the Company entered into a Stock Exchange Agreement (the "SCRIBE Agreement") with Brittany M. Dewan as Trustee of the Derek E. Dewan Irrevocable Living Trust II dated the 27th of July, 2010, Brittany M. Dewan, individually, Allison Dewan, individually, Mary Menze, individually, and Alex Stuckey, individually (collectively, the "Scribe Shareholders"). Scribe Solutions, Inc. ("Scribe") provides data entry assistants (medical scribes) who specialize in electronic medical records (EMR) services for emergency departments, specialty physician practices and clinics. The transaction was unanimously approved by written consent of the board of directors of the Company (the "Board") and the holders of a majority of the Company's outstanding stock. The Scribe transaction closed on April 1, 2015. Pursuant to the terms of the SCRIBE Agreement the Company acquired 100% of the outstanding stock of Scribe Solutions Inc., ("Scribe") from the Scribe Shareholders for

Edgar Filing: GENERAL EMPLOYMENT ENTERPRISES INC - Form 10-Q

640,000 shares of Series A Preferred Stock (the "Preferred Stock") of the Company. In addition, the Company exchanged warrants to purchase up to 6,350,000 shares of the Company's common stock, for \$0.20 per share, with a term of 10 years (the "Warrants"), for Scribe warrants held by three individuals. The issuances of Preferred Stock and Warrants by the Company was effected in reliance on the exemptions from registration afforded by Section 4(a)(2) of the Securities Act of 1933, (the "Securities Act"), and Rule 506 of Regulation D promulgated thereunder.

Under the purchase method of accounting, the transaction was valued for accounting purposes at an estimated \$7.7 million, which was the estimated fair value of the Company at the date of acquisition. The estimate was based on the consideration paid of 640,000 preferred shares and the 6,350,000 warrants granted. The 640,000 preferred shares are valued at approximately \$6,400,000, and the 6,350,000 warrants are valued at approximately \$1,330,000. The Black-Scholes option pricing model was used to value the warrants based upon an expected stock price volatility of 253.7%, a 10 year expected life of the warrant and a risk free interest rate of approximately 1.6%.

The assets and liabilities of Scribe were recorded at their respective fair values as of the closing date of the Scribe Agreement, and the following table summarizes these values based on the balance sheet at April 1, 2015, the closing date.

Edgar Filing: GENERAL EMPLOYMENT ENTERPRISES INC - Form 10-Q

The intangibles were recorded, based on the Company's estimate of fair value, which are expected to consist primarily of customer lists and trade name with an estimated life of ten years and goodwill. Upon completion of an independent purchase price allocation and valuation, the allocation intangible assets were adjusted accordingly.

\$	676	Assets Purchased
	452	Liabilities Assumed
	224	Net Assets Purchased
	7,730	Purchase Price
\$	7,506	Intangible Asset from Purchase

The primary intangible assets acquired have been identified as the customer list, trade name and goodwill and have been allocated as follows:

\$	1,470	Customer list
	746	Trade name
	5,290	Goodwill
\$	7,506	

The following unaudited pro forma combined financial information is based on the historical financial statements of the Company and Scribe, after giving effect to the Company's acquisition of Scribe.

The following unaudited pro forma information does not purport to present what the Company's actual results would have been had the acquisition occurred on October 1, 2013, nor is the financial information indicative of the results of future operations. The following table represents the unaudited consolidated pro forma results of operations for the nine months ended June 30, 2015 and 2014 and the three months ended June 30, 2014 as if the acquisition occurred on October 1, 2013. Operating expenses have been increased for the amortization expense associated with the estimated fair value adjustment as of April 1, 2015 of expected definite lived intangible assets.

Pro Forma	Nine Months Ended June 30, 2015	Nine Months Ended June 30, 2014	Three Months Ended June 30, 2014
Net sales	\$ 33,100	\$ 33,126	\$ 10,859
Cost of sales	22,748	23,177	7,567
Operating expenses	10,658	11,175	3,780
Net loss	\$ (3,197)	\$ (1,524)	\$ (578)
Basic and dilutive income per common share	\$ (0.11)	\$ (0.06)	\$ (0.02)

The Company's consolidated financial statements for the three months ended June 30, 2015 include the actual results of the Scribe acquisition since the date of April 1, 2015.

11. Commitments and Contingencies

On April 22, 2013, the Company finalized an Amendment to the Asset Purchase Agreement by and among DMCC Staffing, LLC, an Ohio limited liability company, RFFG of Cleveland, LLC an Ohio limited liability company (each a "Seller" and together, "Sellers"), the Company, and Triad Personnel Services, Inc., an Illinois corporation and wholly owned subsidiary of the Company.

The Company agreed to pay Sellers additional cash consideration of between \$550,000 and \$650,000 depending on the length of payments and 1,100,000 shares of common stock, in full satisfaction of all amounts owed to Seller, related to the Asset Purchase Agreement. The Company issued 1,100,000 shares of common stock on July 2, 2013, which was valued at approximately \$330,000. The Company elected to pay the amount over two years. To date, the Company paid \$375,000 of the cash consideration noted above. The Company has approximately \$75,000, which is included in other current liabilities on the condensed consolidated balance sheet at June 30, 2015, for the liability. There was approximately \$6,000 and \$27,000 of interest recorded for the three and nine month periods ended June 30, 2015 and approximately \$16,000 and \$62,000 of interest recorded for the three and nine month periods ended June 30, 2014, respectively. As of August 14, 2015 the debt related to this asset purchase agreement has been fully paid.

During 2013, the Company sold vehicles with a value of approximately \$225,000 and leased them back under a 30 month agreement at an interest rate of approximately 23%. At June 30, 2015, approximately \$27,000 is included in other current liabilities related to this transaction.

Lease

The Company leases space for all of its branch offices, which are located either in downtown or suburban business centers, and for its corporate headquarters. Branch offices are generally leased over periods from three to five years. The corporate office lease expires in 2018. The leases generally provide for payment of basic rent plus a share of building real estate taxes, maintenance costs and utilities.

Rent expense was approximately \$192,000 and \$578,000 and \$236,000 and \$715,000 for the three and nine month periods ended June 30, 2015 and 2014, respectively. As of June 30, 2015, future minimum lease payments due under non-cancelable lease agreements having initial terms in excess of one year, including certain closed offices, totaled approximately \$702,000, as follows: fiscal 2015 - \$98,000, fiscal 2016 - \$323,000, fiscal 2017 - \$164,000, fiscal 2018 - \$90,000 and thereafter - \$27,000.

12. Segment Data

The Company provides the following distinctive services: (a) direct hire placement services, (b) temporary professional services staffing in the fields of information technology, engineering, medical, and accounting, and (c) temporary light industrial staffing. Intersegment net service revenues are not significant. Revenues generated from the temporary professional services staffing and light industrial staffing are classified as contract staffing services revenues in the statements of operations. Selling, general and administrative expenses are not separately allocated among professional services or industrial staffing services within the contract staffing services sector for internal reporting purposes.

Unallocated corporate expenses primarily include, corporate legal expenses, consulting expenses, corporate payroll, audit fees, corporate rent and facility costs, board fees and interest expense.

13. Subsequent Events

After June 30, 2015, 829,500 shares of Series A preferred stock and the accumulated interest converted into 43,210,673 shares of common stock. As of August 14, 2015 there were no outstanding shares of preferred stock.

On July 22, 2015, the Company entered into an underwriting agreement (the "Underwriting Agreement") with Roth Capital Partners, LLC (the "Representative"), as the representative of the several underwriters identified therein (collectively, the "Underwriters"), pursuant to which the Company agreed to offer and sell up to 11,200,000 shares of the Company's common stock, no par value (the "Common Stock"), at a price of \$0.70 per share. Under the terms of the Underwriting Agreement, the Company has granted the Representative an option, exercisable for 30 days, to purchase up to an additional 1,680,000 shares of Common Stock to cover over-allotments, if any.

The Company received net proceeds from this offering, after deducting underwriting discounts and commissions and offering expenses payable by the Company of approximately \$7.8 million and issued 12,460,000 common shares, this includes the Underwriters exercise of the over-allotment option.

The offering was made pursuant to the Company's effective registration statements on Form S-3 (File No. 333- 204080), as amended and supplemented filed with the Securities and Exchange Commission (the "SEC").

The Company also issued warrants (the "Underwriter's Warrant") to the Underwriters to purchase up to a total of 1,246,000 shares of Common Stock, at a price of \$0.84 per common share and are exercisable for five years. The Underwriter's Warrant has a seven-year piggyback registration right with respect to shares of common stock underlying the Underwriter's Warrant from the date of the Underwriting Agreement.

On July 31, 2015 the Company entered into a Stock Purchase Agreement (the "Agile Agreement") with Tricia Dempsey ("Seller"). Pursuant to the terms of the Agile Agreement on July 31, 2015 the Company acquired 100% of the outstanding stock of Agile Resources, Inc., a Georgia corporation ("Agile").

Agile was founded by Seller in 2003 and provides innovative IT staffing solutions and IT consulting services ranging from legacy platforms to emerging technologies to a diversified client base across many industry verticals. Agile has a sophisticated recruiting and delivery engine and utilizes state-of-the-art technology to deliver top talent with a rapid time to market. Agile delivers CIO advisory services and IT project support resources in the areas of application architecture and delivery, enterprise operations, information lifecycle management and project management all with flexible delivery options. The staffing alternatives include the provision of contract IT professionals, contract-to-permanent and permanent placement in addition to providing IT solutions for project work including statement-of-work (SOW) engagements on a time-and-materials (T&M) basis. Agile's IT staffing solutions include providing professionals with expertise in the areas of .net, share-point, enterprise resource planning (ERP), software engineering, database support (Microsoft SQL, Oracle, Sybase & Informix), legacy systems support, data analytics, cloud migration, big data, cyber-security, health IT, network and help-desk support and mobile applications.

Under the purchase method of accounting, the transaction was valued for accounting purposes at an estimated \$3,865,000, which was the estimated fair value of the consideration paid by the Company. The estimate was based on the consideration paid of 1,201,923 shares of common stock valued based on the closing price on July 31, 2015 of \$0.72 per share and estimated cash of approximately \$3,000,000 paid based on terms of the agreement.

The assets and liabilities of Agile will be recorded at their respective fair values as of the closing date of the Agile Agreement, and the following table summarizes these values based on the estimated balance sheet at August 1, 2015, the closing date.

The intangibles will be recorded, based on the Company's estimate of fair value, which are expected to consist primarily of customer lists with an estimated life of five to ten years and goodwill. Upon completion of an independent purchase price allocation and valuation, the allocation intangible assets will be adjusted accordingly.

\$	1,450	Assets Purchased
	1,000	Liabilities Assumed
	450	Net Assets Purchased
	3,865	Purchase Price
\$	3,415	Intangible Asset from Purchase

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.**Overview**

We specialize in the placement of information technology, engineering, and accounting professionals for direct hire and contract staffing for our clients, and provide temporary staffing services for our light industrial clients. As a result of our acquisition of Scribe Solutions in April 2015, we now also offer data entry assistants (medical scribes) who specialize in electronic medical records (EMR) services for emergency departments, specialty physician practices and clinics. There is currently a growing need for medical scribes due to the rise in EMR being utilized for billing and documentation of health care services and the meaningful use requirements that are part of the Affordable Care Act.

Our staffing services are provided through a network of eighteen branch offices located in downtown or suburban areas of major U.S. cities in nine states. We have one office located in each of Arizona, Indiana, Massachusetts, North Carolina and Texas, two offices in each of California, Florida and Illinois and seven offices in Ohio.

Management has implemented a strategy which included cost reduction efforts as well as identifying strategic acquisitions, financed primarily through the issuance of common stock and convertible debt, to improve the overall profitability and cash flows of the Company. We believe our current segments complement one another and position us for future growth.

Results of Operations – Three Months Ended June 30, 2015 Compared to the Three Months Ended June 30, 2014**Results of Operations***Net Revenues*

Consolidated net revenues are comprised of the following:

(In thousands)	Three Months			
	Ended June 30,		\$ change	% change
	2015	2014		
Direct hire placement services	\$ 1,948	\$ 1,739	\$ 209	12%
Professional contract services	2,605	1,976	629	32
Industrial contract services	6,897	6,208	689	11

Edgar Filing: GENERAL EMPLOYMENT ENTERPRISES INC - Form 10-Q

Consolidated net revenues	\$	11,450	\$	9,923	\$	1,527	15%
---------------------------	----	--------	----	-------	----	-------	-----

Consolidated net revenues increased approximately \$1,527,000 or 15% compared with the same period last year. The Company acquired Scribe as of April 1, 2015, which increased the Professional Contract Services by approximately \$998,000, with the recent capital raise and addition of executive management, the Company has stabilized its sales force and is investing in revenue growth. Overall the professional services division continues to have less experienced recruiters working during the period ended June 30, 2015 compared to the prior year. Management has taken significant action during the course of the year to increase the number of experienced recruiters and improve the profitability of both divisions.

Cost of Contract Services

Cost of services includes wages and the related payroll taxes and employee benefits of the Company's employees while they work on contract assignments. Cost of contract services for the three month period ended June 30, 2015 increased by approximately 12% to approximately \$7,803,000 compared with the prior period of approximately \$6,970,000. Cost of contract services, as a percentage of contract revenue, for the three month period ended June 30, 2015 decreased approximately 2% to 68% compared with the prior period of approximately 70%. The change in the gross margin is related to several factors, including the significant increase in placement services revenue and a decrease in our workers compensation rates for the state of Ohio, as the rate was decreased by approximately 25% as of July 1, 2014.

Gross Profit percentage by segment:

	Three Months Ended June 30, 2015	Three Months Ended June 30, 2014
Gross Profit Margin %		
Direct hire placement services	100%	100%
Professional contract services	34.28%	29.6%
Industrial contract services	12.06%	9.9%
Combined Gross Profit Margin % (1)	31.85%	29.8%

(1) Includes gross profit from direct hire placements, which all associated costs are recorded as selling, general and administrative expenses.

Selling, General and Administrative Expenses

Selling, general and administrative expenses include the following categories:

- Compensation in the operating divisions, which includes commissions earned by the Company's employment consultants and branch managers on permanent and temporary placements. It also includes salaries, wages, unrecovered advances against commissions, payroll taxes and employee benefits associated with the management and operation of the Company's staffing offices.
- Administrative compensation, which includes salaries, wages, payroll taxes and employee benefits associated with general management and the operation of the finance, legal, human resources and information technology functions.
- Occupancy costs, which includes office rent, depreciation and amortization, and other office operating expenses.
- Recruitment advertising, which includes the cost of identifying job applicants.
- Other selling, general and administrative expenses, which includes travel, bad debt expense, fees for outside professional services and other corporate-level expenses such as business insurance and taxes.

The Company's largest selling, general and administrative expense is for compensation in the operating divisions. Most of the Company's employment consultants are paid on a commission basis and receive advances against future commissions. When commissions are earned, prior advances are applied against them and the consultant is paid the net amount. At that time, the Company recognizes the full amount as commission expense, and advance expense is reduced by the amount recovered. Thus, the Company's advance expense represents the net amount of advances paid, less amounts applied against commissions.

Edgar Filing: GENERAL EMPLOYMENT ENTERPRISES INC - Form 10-Q

Selling, general and administrative expenses for the three months ended June 30, 2015 decreased by approximately \$115,000 or 3% compared to the same period last year. The decrease was primarily related to management's efforts to reduce costs and eliminate unnecessary expenses. Overall expenses are expected to stabilize during the fiscal year 2015 and slightly decrease as the Company is able to capitalize on the consolidation of the acquisitions.

Interest Expense

Interest expense for the three months ended June 30, 2015, increased \$43,000, or 48% compared with the same period last year primarily as a result of a change in lender, the interest expense for acquisition payments and higher average borrowings.

Taxes

There were no credits for income taxes as a result of the pretax losses incurred during the periods because there was not sufficient assurance that future tax benefits would be realized.

Results of Operations – Nine Months Ended June 30, 2015 Compared to the Nine Months Ended June 30, 2014**Results of Operations***Net Revenues*

Consolidated net revenues are comprised of the following:

(In thousands)	Nine Months				
	Ended June 30,		\$ change	% change	
	2015	2014			
Direct hire placement services	\$ 4,880	\$ 5,253	\$ (373)	(7)%	
Professional contract services	6,167	5,816	351	6	
Industrial contract services	19,881	19,295	586	3	
Consolidated net revenues	\$ 30,928	\$ 30,364	\$ 564	2%	

Consolidated net revenues increased approximately \$564,000 or 2% compared with the same period last year. The Company acquired Scribe as of April 1, 2015, which increased the professional contract services by approximately \$998,000. In addition, the industrial contract division has increased its revenue from several new customers added in the past nine months and investments in marketing. Overall the professional services division had less experienced recruiters working during the period ended June 30, 2015 compared to the prior year, which resulted in the overall decrease in professional revenue, excluding the revenue from the acquisition. Management has taken significant action during the course of the year to increase the number of experienced recruiters and improve the profitability of both divisions.

Cost of Contract Services

Cost of services includes wages and the related payroll taxes and employee benefits of the Company's employees while they work on contract assignments. Cost of contract services for the nine month period ended June 30, 2015 increased by approximately 1% to approximately \$21,488,000 compared with the prior period of approximately \$21,295,000. Cost of contract services, as a percentage of contract revenue, for the nine month period ended June 30, 2015 decreased approximately 1% to 69% compared with the prior period of approximately 70%. The change in the gross margin is related to several factors, including the significant decrease in placement services revenue. The overall increase in costs of contract services was the result of the increase in contract revenue and the acquisition of Scribe. In addition, there was a significant decrease in our workers compensation rates for the state of Ohio, as the rate was decreased by approximately 25% as of July 1, 2014.

Gross Profit percentage by segment:

	Nine Months Ended	Nine Months Ended
Gross Profit Margin %	June 30, 2015	June 30, 2014
Direct hire placement services	100%	100%
Professional contract services	32.93%	31.0%
Industrial contract services	12.85%	10.4%
Combined Gross Profit Margin % (2)	30.52%	29.9%

(2) Includes gross profit from direct hire placements, which all associated costs are recorded as selling, general and administrative expenses.

Selling, General and Administrative Expenses

Selling, general and administrative expenses include the following categories:

- Compensation in the operating divisions, which includes commissions earned by the Company's employment consultants and branch managers on permanent and temporary placements. It also includes salaries, wages, unrecovered advances against commissions, payroll taxes and employee benefits associated with the management and operation of the Company's staffing offices.
- Administrative compensation, which includes salaries, wages, payroll taxes and employee benefits associated with general management and the operation of the finance, legal, human resources and information technology functions.
- Occupancy costs, which includes office rent, depreciation and amortization, and other office operating expenses.
- Recruitment advertising, which includes the cost of identifying job applicants.
- Other selling, general and administrative expenses, which includes travel, bad debt expense, fees for outside professional services and other corporate-level expenses such as business insurance and taxes.

The Company's largest selling, general and administrative expense is for compensation in the operating divisions. Most of the Company's employment consultants are paid on a commission basis and receive advances against future commissions. When commissions are earned, prior advances are applied against them and the consultant is paid the net amount. At that time, the Company recognizes the full amount as commission expense, and advance expense is reduced by the amount recovered. Thus, the Company's advance expense represents the net amount of advances paid, less amounts applied against commissions.

Selling, general and administrative expenses for the nine months ended June 30, 2015 decreased by approximately \$537,000 or 5% compared to the same period last year. The decrease was primarily related to management's efforts to reduce costs and eliminate unnecessary expenses. Overall expenses are expected to stabilize during the fiscal year 2015 and slightly decrease as the Company is able to capitalize on the consolidation of the acquisitions.

Interest Expense

Interest expense for the nine months ended June 30, 2015, increased \$108,000, or 36% compared with the same period last year primarily as a result of a change in lender, the interest expense for acquisition payments and higher average borrowings.

Taxes

There were no credits for income taxes as a result of the pretax losses incurred during the periods because there was not sufficient assurance that future tax benefits would be realized.

Liquidity and Capital Resources

The following table sets forth certain consolidated statements of cash flows data (in thousands):

	For the nine	For the nine
	months ended	months ended
	June 30, 2015	June 30, 2014
Cash flows used in operating activities	\$ (1,510)	\$ (72)
Cash flows used in investing activities	\$ (130)	\$ (198)
Cash flows provided by (used in) financing activities	\$ 2,585	\$ (25)

As of June 30, 2015, the Company had cash and cash equivalents of approximately \$1,113,000, which was an increase of approximately \$945,000 from approximately \$168,000 at September 30, 2014. Working capital at June 30, 2015 was approximately \$1,509,000, as compared to negative net working capital of approximately \$909,000 for September 30, 2014. Shareholders' equity at June 30, 2015 was approximately \$11,788,000.

Edgar Filing: GENERAL EMPLOYMENT ENTERPRISES INC - Form 10-Q

Net cash used in operating activities for the nine months ended June 30, 2015 and 2014 was (\$1,510,000) and (\$72,000), respectively. The fluctuation is due to the increase in account receivable, acceleration of accounts payable payments to avoid additional late fee expenses, net losses and payments of certain compensation related accruals.

Net cash used in investing activities for the nine months ended June 30, 2015 and 2014 was \$(130,000) and (\$198,000) respectively. These uses related primarily to acquisition payments and purchasing of fixed assets.

Net cash flow provided by (used in) financing activities for the nine months ended June 30, 2015 was \$2,585,000 compared to (\$25,000) in the nine months ended June 30, 2014. Fluctuations in financing activities are attributable to the level of borrowings and financing.

All of the Company's office facilities are leased. As of June 30, 2015, future minimum lease payments under non-cancelable lease commitments having initial terms in excess of one year, including closed offices, totaled approximately \$702,000.

On April 22, 2013, the Company finalized an Amendment to the Asset Purchase Agreement by and among DMCC Staffing, LLC, an Ohio limited liability company, RFFG of Cleveland, LLC an Ohio limited liability company (each a "Seller" and together, "Sellers"), the Company, and Triad Personnel Services, Inc., an Illinois corporation and wholly owned subsidiary of the Company.

The Company agreed to pay the Sellers additional cash consideration of between \$550,000 and \$650,000 depending on the length of payment terms and 1,100,000 shares of common stock, in full satisfaction of all amounts owed to Seller, related to the Asset Purchase Agreement. The Company issued 1,100,000 shares of common stock on July 2, 2013, which was valued at approximately \$330,000. During the year ended September 30, 2013, the Company paid \$200,000 of the cash consideration noted above. The Company accrued \$350,000 at September 30, 2013, for the balance of the liability, and elected to pay the remaining amount over two years. The total payments over the two years will be approximately \$450,000 with the additional \$100,000 to be recorded as interest expense. During the year ended September 30, 2014, the Company paid approximately \$225,000 to the Sellers, \$150,000 of principle and approximately \$75,000 of interest. The Company has approximately \$75,000 accrued at June 30, 2015 related to the remaining liability. As of August 14, 2015 the entire liability has been fully repaid.

On September 27, 2013, the Company ("Borrower") entered into agreements with ACF FINCO I LP (successor-in-interest to Keltic Financial Partners II, LP) ("ACF") ("Lender"), that provide the Company with long term financing through a six million dollar (\$6,000,000) secured revolving note (the "Note"). The Note has a term of three years and has no amortization prior to maturity. The interest rate for the Note is a fluctuating rate that, when annualized, is equal to the greatest of (A) the Prime Rate plus three and one quarter percent (3.25%), (B) the LIBOR Rate plus six and one quarter percent (6.25%), and (C) six and one half percent (6.50%), with the interest paid on a monthly basis. At June 30, 2015 and 2014 the interest rate was 6.5%. Loan advances pursuant to the Note are based on the accounts receivable balance and other assets. The Company incurred certain cash expense and commitment fees related to obtaining the agreement of approximately \$170,000, which has been paid. The Note is secured by all of the Company's property and assets, whether real or personal, tangible or intangible, and whether now owned or hereafter acquired, or in which it now has or at any time in the future may acquire any right, title or interests. On April 21, 2014, the Company entered into the First Amendment and Waiver to the Loan and Security Agreement with ACF to adjust the covenants. On December 3, 2014, the Company entered into a Second Amendment and Waiver to the Loan and Security Agreement with ACF. On April 1, 2015 the Company entered into a third Amendment and Waiver to the Loan and Security Agreement with ACF to adjust the future covenants as outlined below and update the overall document to reflect changes to the business. As of the date of this report, the Company was in compliance with all such covenants or had received waivers related thereto.

The Company has several administrative covenants and the following financial covenant:

27

Edgar Filing: GENERAL EMPLOYMENT ENTERPRISES INC - Form 10-Q

The Company must maintain the following EBITDA:

(a) The three (3) consecutive calendar month period ending on December 31, 2014, to be a negative number exceeding negative Two Hundred Fifty Thousand and 00/100 Dollars (\$250,000);

(b) The six (6) consecutive calendar month period ending on March 31, 2015, to be a negative number exceeding negative Five Hundred Thousand and 00/100 Dollars (\$500,000);

(c) The nine (9) consecutive calendar month period ending on June 30, 2015, to be a negative number exceeding negative Four Hundred Sixteen Thousand and 00/100 Dollars (\$416,000);

(d) The twelve (12) consecutive calendar month period ending on September 30, 2015, to be a negative number exceeding negative Two Hundred Forty Thousand Five Hundred and 00/100 Dollars (\$240,500); and

(e) For any period commencing on or after October 1, 2015, no less than such amounts as are established by Lender for such period in Lender's permitted discretion based on the annual financial projections including such period delivered by Borrower.

As of June 30, 2015, the Company was in compliance with the EBITDA covenant and all other administrative covenants. At June 30, 2015, there was approximately \$783,000 available on the line of credit. The interest expense related to the lines of credit for the three and nine months ended June 30, 2015 and 2014 approximated \$99,000 and \$300,000, and \$69,000 and \$210,000, respectively.

On March 31, 2014, the Company entered into a Securities Purchase Agreement (the "SPA") with Aracle SPF I, LLC ("Aracle") pursuant to which Aracle has the right to acquire up to 12 units (the "Units"), for \$50,000 per Unit, with each Unit consisting of 250,000 shares of common stock of the Company and 125,000 common stock purchase warrants. The warrants are exercisable 6 months after issuance, have a term of 4 years, and have an exercise price of \$0.25 per warrant share. In addition, the SPA contains a price adjustment mechanism that requires the Company, with certain exceptions, to issue additional shares of common stock to the investor in the event the Company, within 12 months of the initial closing under the SPA, issues certain equity securities at a price per share less than \$0.20, provided, however, as long as the Company is listed on the NYSE MKT the total number of shares issuable under the foregoing adjustment provision may not exceed 19.9% of the Company's outstanding shares of common stock on March 30, 2014. Further, in the event the Company is delisted from the NYSE MKT while Aracle owns at least 51% of the shares issued to it under the SPA, the Company shall issue an additional 3,000,000 shares to Aracle, and the 12 month price adjustment period shall be extended to 36 months. The warrants do not include any price protection clause.

Concurrent with the execution of the SPA, the Company and Aracle conducted an initial closing thereunder, in which Aracle purchased 9.5 Units for \$475,000.

Edgar Filing: GENERAL EMPLOYMENT ENTERPRISES INC - Form 10-Q

On April 16, 2014, the Company, Aracle and a second institutional investor entered into certain Securities Purchase Agreements (“SPA”) pursuant to which the investors purchased 2.5 Units for \$125,000.

The Company incurred certain expenses related to the SPA’s and the closings thereunder of approximately \$130,000, which were paid from the proceeds for net proceeds of approximately \$470,000.

On August 7, 2014, the Company issued a Convertible Note (the “Note”) with an original principal balance of \$632,500 to Brio Capital Master Fund LTD (“Brio”), for a purchase price of \$550,000. The Note matures on February 6, 2016, and is payable in thirteen monthly installments of \$48,654, commencing in the sixth month post-closing. Brio has the right, however not the obligation, six months after closing, to convert all or any part of the outstanding Note into the Company’s common stock at an initial conversion price of \$0.20 per share. After six months from closing, the conversion price will have a one-time reset to the lower of \$0.20 or 90% of the average of the 3 lowest closing prices for the previous 10 trading days, subject to a floor of \$0.14 per share. The Company can force conversion if the Company’s common stock trades at 250% greater than the conversion price for 20 consecutive trading days.

During the nine months ended, June 30, 2015, Brio converted \$632,500 of its outstanding loan into 3,162,500 shares of the Company’s common stock. Based on the closing stock prices of \$0.85, \$1.03 and \$0.78 per common share, the 3,162,500 shares were valued at approximately \$2,867,000 and the Company has recognized a loss on the extinguishment of debt of approximately \$235,000. Included in the loss in extinguishment was the fair value of the derivative liability at the date of conversion.

On January 8, 2015, the Company completed a Securities offering with 18 individuals who collectively have purchased a total of 200,000 shares of Preferred Stock from the Company for a total purchase price of \$2,000,000. The Company netted approximately \$1,960,000, with approximately \$1,000,000 to be used as working capital and the remaining \$1,000,000 for marketing, acquisitions, expansion and to further the operations of the Company.

On July 22, 2015, the Company entered into an underwriting agreement (the "Underwriting Agreement") with Roth Capital Partners, LLC (the "Representative"), as the representative of the several underwriters identified therein (collectively, the "Underwriters"), pursuant to which the Company agreed to offer and sell up to 11,200,000 shares of the Company's common stock, no par value (the "Common Stock"), at a price of \$0.70 per share. Under the terms of the Underwriting Agreement, the Company has granted the Representative an option, exercisable for 30 days, to purchase up to an additional 1,680,000 shares of Common Stock to cover over-allotments, if any.

The Company received net proceeds from this offering, after deducting underwriting discounts and commissions and offering expenses payable by the Company of approximately \$7.8 million and issued 12,460,000 common shares, this includes the Underwriters exercise of the over-allotment option.

The Company also issued warrants (the "Underwriter's Warrant") to the Underwriters to purchase up to a total of 1,246,000 shares of Common Stock, at a price of \$0.83 per common share and are exercisable for five years. The Underwriter's Warrant has a seven-year piggyback registration right with respect to shares of common stock underlying the Underwriter's Warrant from the date of the Underwriting Agreement.

In recent years, the Company has incurred significant losses and negative cash flows from operations. Management has implemented a strategy which included cost reduction efforts as well as identifying strategic acquisitions, financed primarily through the issuance of common stock, to improve the overall profitability and cash flows of the Company. Management believes with current cash flow from operations, the preferred offering and the availability under the ACF facility, the Company will have sufficient liquidity for the next 12 months.

Off-Balance Sheet Arrangements

As of June 30, 2015, there were no transactions, agreements or other contractual arrangements to which an unconsolidated entity was a party, under which the Company (a) had any direct or contingent obligation under a guarantee contract, derivative instrument or variable interest in the unconsolidated entity, or (b) had a retained or contingent interest in assets transferred to the unconsolidated entity.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Not applicable.

Item 4. Controls and Procedures.

Disclosure Controls and Procedures

As of June 30, 2015, the Company's management evaluated, with the participation of its principal executive officer and its principal financial officer, the effectiveness of the Company's disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the Exchange Act"). Based on that evaluation, the Company's principal executive officer and its principal financial officer concluded that the Company's disclosure controls and procedures were effective as of June 30, 2015.

Changes in Internal Control over Financial Reporting

There were no changes in the Company's internal control over financial reporting or in any other factors that could significantly affect these controls, during the Company's third quarter ended June 30, 2015, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II – OTHER INFORMATION.

Item 1. Legal Proceedings.

As of June 30, 2015, there were no material legal proceedings pending against the Company.

Item 1A. Risk Factors.

Not required.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

During the nine months ended June 30, 2015, the Company issued 615,000 shares of common stock to employees or former directors of the Company who exercised their stock options. Approximately \$194,000 was received related to the exercise of these options.

During the nine months ended June 30, 2015 a total of 5,542,951 shares of common stock were issued, however no cash was received for these issuances.

1,224,119 shares of common stock were issued related to several cashless warrant conversions.

344,021 shares of common stock were issued to the Board of Directors for services. A portion of these were issued by the Company to settle approximately \$69,000 of accrued board fees from December 31, 2014.

268,592 shares of common stock were issued to employees of the Company who exercised their stock options on a cashless basis.

Brio converted \$632,500 of its outstanding loan into 3,162,500 shares of the Company's common stock. Based on the closing stock prices of \$0.85, \$1.03 and \$0.78 per common share, the shares were valued at approximately \$2,866,750.

543,719 shares of common stock were issued related to the conversion of 10,500 shares of Series A Preferred stock.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.

Not Applicable

Item 5. Other Information.

None.

30
