QUESTIONS AND ANSWERS ABOUT THE SPECIAL MEETING

Why did I receive this Proxy Statement?

The Company has sent you the Notice of Special Meeting of Stockholders, this Proxy Statement, and the accompanying proxy or voting instruction card because the Board is soliciting your proxy to vote at a Special Meeting on December [__], 2014. This Proxy Statement contains information about the matters to be voted on at the Special Meeting.

Who is entitled to vote?

The Board has designated November [__], 2014, as the record date for the Special Meeting (the “Record Date”). You may vote if you owned common stock as of the close of business on the Record Date. On the Record Date, there were 4,498,891,910 shares of the Company’s common stock outstanding and entitled to vote at the Special Meeting.

How many votes do I have?

Each share of common stock that you own at the close of trading on the Record Date entitles you to one vote.

What am I voting on?

You will be voting on proposals to:

- amend the Company's articles of incorporation to recapitalize the Company, by reverse-splitting the outstanding common stock 1,000-to-one and reducing the authorized common stock to 100,000,000 shares, par value \$0.001 (the "Recapitalization");
- amend the Company's articles of incorporation to authorize a class of 5,000,000 shares of preferred stock and to authorize the Board to fix the number of shares and rights, preferences, and limitations of each series;
- recess the Special Meeting on one or more occasions for the purpose of soliciting additional Proxies, if necessary or appropriate; and
- consider and act upon such other business as may properly come before the Special Meeting or at any postponement or recess thereof.

How do I vote?

You may vote by mail. You do this by completing and signing your proxy card, using the prepaid and addressed envelope included with this Proxy Statement. If you mark your voting instructions on the proxy card, your shares will be voted:

- as you instruct; and
- at the discretion of Mr. Hawatmeh, if a proposal properly comes up for a vote at the Special Meeting that is not on the proxy card.

For your voting instructions to be effective, your proxy card must be received no later than the close of business on [proxy receipt date].

You may vote by Internet. If you have Internet access, you may submit your proxy by following the instructions provided in the notice, or if you requested printed proxy materials, by following the instructions provided with your proxy materials and on your proxy card or voting instruction card. On the Internet voting site, you can confirm that your instructions have been properly recorded. If you vote on the Internet, you can also request electronic delivery of future proxy materials. If you vote on the Internet, please note that there may be costs associated with electronic

access, such as usage charges from Internet access providers and telephone companies, for which you will be responsible.

You may vote by telephone. You can also vote by telephone by following the instructions provided on the Internet voting site, or if you requested printed proxy materials, by following the instructions provided with your proxy materials and on your proxy card or voting instruction card. Easy-to-follow voice prompts allow you to vote your shares and confirm that your instructions have been properly recorded.

You may vote at the Special Meeting. If you are planning to attend the Special Meeting and wish to vote your shares in person, the Company will give you a ballot at the Special Meeting. If your shares are held in a street name, you need to bring an account statement or letter from your broker, bank, or other nominee, indicating that you are the beneficial owner of the shares on the Record Date. Even if you plan to be present at the Special Meeting, the Company encourages you to complete and mail the enclosed card in advance of the Special Meeting to vote your shares by proxy.

What if I return my proxy or voting instruction card but do not mark it to show how I am voting?

Your shares will be voted according to the instructions you have indicated on your proxy or voting instruction card. You can specify whether you approve, disapprove, or abstain from the proposals. If no direction is indicated, your shares will be voted **FOR** an amendment to the Company's articles of incorporation to effect the Recapitalization, **FOR** an amendment to the Company's articles of incorporation to authorize a class of preferred stock; and **FOR** the proposal to recess the Special Meeting on one or more occasions for the purpose of soliciting additional Proxies, if necessary; *provided* that, no proxy that is specifically marked "AGAINST" the proposal to amend the Company's articles of incorporation to recapitalize the Company will be voted in favor of the recess proposal, unless it is specifically marked "FOR" the recess proposal.

May I revoke my proxy or change my vote after I return my proxy card or voting instruction card?

You may revoke your proxy or change your vote at any time before it is exercised in one of three ways:

- notify our Corporate Secretary in writing before the Special Meeting that you are revoking your proxy;
- submit another proxy card (or voting instruction card if you hold your shares in street name) with a later date; or
- vote in person at the Special Meeting on December [___], 2014.

What does it mean if I receive more than one proxy or voting instruction card?

It means that you have multiple accounts at the transfer agent and/or with banks and stockbrokers. Please vote all of your shares by returning all proxy and voting instruction cards you receive.

What constitutes a quorum?

A quorum must be present to properly convene the Special Meeting. The presence, in person or by proxy, of the holders of a majority of the outstanding shares that are entitled to vote at the Special Meeting constitutes a quorum. You will be considered part of the quorum if you return a signed and dated proxy or voting instruction card or if you attend the Special Meeting. Abstentions and broker nonvotes will be counted as shares present at the Special Meeting

for purposes of determining whether a quorum exists, but not as shares cast for any proposal. Because abstentions and broker nonvotes are not treated as shares cast, they would have no impact on any of the proposals.

What vote is required in order to approve each proposal?

The proposals for the approval of the amendment to the Company's articles of incorporation to effect the Recapitalization and to authorize a class of preferred stock require the affirmative vote of the holders of at least a majority of the Company's outstanding shares of common stock. Stockholders may vote in favor or against each proposal, or they may abstain. Abstentions and broker nonvotes will be counted for purposes of determining the presence or absence of a quorum. Abstentions are deemed to be "votes cast" and have the same effect as a vote against this proposal. Broker nonvotes are not deemed to be votes cast and, therefore, have no effect on the vote respecting this proposal.

What is the Board's recommendation?

The Board's recommendations are set forth together with a description of the proposals in this Proxy Statement. In summary, the Board recommends that you vote:

- FOR the approval of the amendment to the Company's articles of incorporation to effect the Recapitalization;
- FOR the approval of a proposed amendment to the Company's articles of incorporation to authorize a class of 5,000,000 shares of preferred stock and to authorize the Board to fix the number of shares and rights, preferences, and limitations of each series; and
- FOR the proposal to recess the Special Meeting on one or more occasions for the purpose of soliciting additional Proxies, if necessary or appropriate.

How will voting on any other business be conducted?

The Company does not know of any business or proposals to be considered at the Special Meeting other than those that are described in this Proxy Statement. If any other business is proposed and the Company decides to allow it to be presented at the Special Meeting, the proxies that the Company receives from its stockholders give the proxy holders the authority to vote on that matter according to their best judgment.

Who will count the votes?

Representatives of the Company will tabulate the votes that are received prior to the Special Meeting, will act as the inspectors of election, and will tabulate the votes, if any, that are cast in person at the Special Meeting.

Who pays to prepare, mail, and solicit the proxies?

The Company will pay all of the costs of soliciting these proxies. The Company will ask banks, brokers, and other nominees and fiduciaries to forward the proxy materials to the beneficial owners of its common stock and to obtain the authority of executed proxies. The Company will reimburse them for their reasonable expenses. In addition to the use of the mail, proxies may be solicited by the Company's officers, directors, and other employees by telephone or by personal solicitation. The Company will not pay additional compensation to these individuals in connection with their solicitation of proxies.

What do I need for admission to the Meeting?

You may attend the Special Meeting only if you are a stockholder of record or a beneficial owner as of the Record Date, or you hold a valid proxy for the Special Meeting. You should be prepared to present photo identification for admittance. If you are a stockholder of record, your name will be verified against the list of stockholders of record prior to your being admitted to the Meeting. If you hold your shares in street name, you should provide proof of beneficial ownership on the record date, such as a brokerage account statement showing that you owned CirTran common stock as of the record date, a copy of the voting instruction card provided by your broker, bank, or other nominee, or other similar evidence of ownership as of the record date. If you do not provide photo identification or comply with the other procedures outlined above upon request, you will not be admitted to the Special Meeting.

Whom should I call if I have questions?

If you have questions about the proposals or the Special Meeting, you may call Iehab Hawatmeh at (801) 963-5112. You may also send an e-mail to iehab@cirtran.com.

PROPOSAL NO. 1

PROPOSED AMENDMENT TO THE ARTICLES OF INCORPORATION

TO RECAPITALIZE THE COMPANY BY REVERSE-SPLITTING ITS OUTSTANDING COMMON STOCK 1,000-TO-ONE AND REDUCING ITS AUTHORIZED COMMON STOCK TO

100,000,000 SHARES, PAR VALUE \$0.001

The Board has determined that it is in the Company's best interest to amend its articles of incorporation to recapitalize the Company by reverse-splitting its outstanding common stock 1,000-to-one and reducing its authorized common stock to 100,000,000 shares, par value \$0.001 (the "Recapitalization"). As discussed below, if the Company's stockholders as of the Record Date approve the amendment, the Board will file an amendment to the articles of incorporation, substantially in the form set forth in Appendix 1 to this Proxy Statement, with the Nevada Secretary of State, at which time the amendment will take effect.

General

As of the Record Date, pursuant to the Company's articles of incorporation (as amended to date), the Company had the authority to issue 4,500,000,000 shares of common stock, of which 4,498,891,910 shares were issued and outstanding. As of the Record Date, there were warrants and similar rights exercisable or convertible to 25,000 shares of common stock. This figure does not include common stock issuable upon conversion of the outstanding debenture.

As described in the Company's periodic filings, one of its main sources of funding historically has been through the sales of convertible debt and equity instruments, including convertible debentures and notes. The large number of authorized and outstanding shares is cumbersome for the Company and its stockholders in a trading and securities markets not accustomed to dealing in billions or hundreds of millions of shares, particularly when their price is expressed in several decimal places, so that the aggregate value of a large number of shares is quite small. For example, the stock has recently been quoted at \$0.0002 bid, \$0.0003 asked, so the aggregate bid for 1,000,000 shares would be \$200 and the aggregate asked would be \$300. Selling 10,000,000 shares at the bid would generate gross proceeds of \$2,000. Expression of quotations in four decimal places also results in relatively large spreads between the bid and asked quotations. For example, in the above quotations the asked is 50% larger than the bid. No smaller spread is numerically possible without using a five-decimal-place number. In addition, stockholders encounter difficulties in effecting transactions in their securities because of the deposit requirements of clearing agencies, which require that broker-dealers make substantial cash deposits to clear transactions executed in the Corporation's securities. This limits stockholder liquidity. Some broker-dealers are unable to express quotations or effect transactions in five decimal places. The Board believes that the low market price for the Company's common stock expressed in four decimal places adversely affects securities broker-dealer and potential interest and may tend to depress the market

price.

The Board believes that the reverse split may result in higher price quotations for the Company's common stock, although there can be no assurance that this will be the case. Accordingly, the reverse split may reduce the value of a stockholder's shares. The Board believes, however, that the reverse split, as an integral component of the Recapitalization, is critical to enabling the Company to continue to have a presence in the securities trading market and to be able to obtain required cash and reduce indebtedness.

The Reverse Split

The Recapitalization includes a 1,000-to-one reverse split of the Company's outstanding common stock. As a result of this reverse split, the 4,498,891,910 shares issued and outstanding as of the Record Date will be reverse-split into 4,498,891 shares. The Company will not issue fractional shares. Instead, fractional shares will be round to the nearest whole share.

Convertible Debentures and Warrants

Consolidated Debenture

As of September 30, 2014, the Company had an outstanding Consolidated Debenture (as defined below) issued to YA Global Investments, L.P., formerly known as Cornell Capital Partners, L.P. (“YA Global”), with an aggregate outstanding balance of \$2,390,528, including accrued interest of \$748,291, which was then in default.

The terms of the Company’s outstanding Consolidated Debenture are governed by a February 22, 2013, Ratification Agreement with YA Global. Under this Ratification Agreement, the Company ratified the obligations under three existing convertible debentures dated May 26, 2005, December 30, 2005, and August 23, 2006, and agreed to amend, restate, and consolidate the obligations evidenced thereby into a single “Consolidated Debenture.”

Under the Ratification Agreement and Consolidated Debenture payment schedule, the Company was required to make monthly payments, to be applied first to accrued interest and then to principal, in the amount of \$100,000 per month, commencing in April 2013. The amount of its required monthly cash payment would be reduced in an amount equal to the amount credited to the lender against the obligation as a result of the lender’s exercise of the right to convert the outstanding balance due under the debentures into common stock, as provided in the original convertible debentures as well as in the Consolidated Debenture. Any amount credited against the debenture obligation in excess of \$100,000 per month would be credited against the amounts due in the next succeeding month, with the entire unpaid balance of principal and interest due on January 31, 2014.

During 2013, a total of \$1,284,412 was credited against required payments due YA Global for the conversion of indebtedness to common stock. Since 2009, the Company has had insufficient funds to pay cash to YA Global and has had to rely exclusively on the conversion of the obligation to common stock. However, no further conversions can be effected because the Company has insufficient authorized but unissued common stock. Based on the prevailing market price for its common stock, which has ranged from a high bid of \$0.0006 to a low bid of \$0.0002 during the past six months, the terms of the Consolidated Debenture would require a conversion price of \$0.001 per share, which is lower than the per-share par value, so the Company would be obligated to issue shares at \$0.001 par value. As of the date of this Proxy Statement, the entire approximately \$2.4 million debenture is past due and in default, which would require the issuance of 2.4 billion shares of the Company’s current common stock. The Company has only 81,016 authorized but unissued shares. The Consolidated Debenture provides that the holder cannot convert indebtedness to common stock if, as a result of such conversion, the holder would own more than 9.99% of the Company’s outstanding common stock. Sales of common stock that would reduce the holder’s ownership would enable the holder to convert additional amounts due under the Consolidated Debenture.

The obligation under the Company's Consolidated Debentures is secured by liens and security interests in all of the Company's assets, so the continuation of the Company is dependent of meeting this obligation. If YA Global were to exercise its collection remedies and execute on its collateral, it could take all of the Company's assets and leave nothing for other creditors or shareholders.

Management believes that the proposed amendment would benefit the Company by providing greater flexibility to the Board to honor conversion notices by YA Global and exercise notices from warrant holders, to issue additional equity securities to raise additional capital, to pursue strategic investment partners, to facilitate possible future acquisitions, and to provide stock-related employee benefits. As noted above, the Company's primary sources of financing have been private sales of common stock or other equity or debt securities convertible into common stock. The Company requires additional capital to fund its pending legal disputes with Playboy Enterprises, Inc., to support its energy drink beverage distribution activities, and to identify and pursue other business opportunities of which it may become aware. To facilitate these transactions, management believes that a recapitalization of the Company will provide additional shares that may be issued in accordance with the Company's contractual commitments or on such terms as the Board may deem appropriate.

Warrants

In addition to the shares issuable on the conversion of the Consolidated Debenture, as of September 30, 2014, the Company had the following issued and outstanding warrants exercisable for the number of shares of common stock at the weighted-average exercise price indicated below. The table also reflects the number of shares issuable and the weighted-average exercise price of the warrants, after giving effect to the proposed 1,000-to-one reverse stock split:

	Now, Before Reverse Split		After Reverse Split	
	Number	Weighted-Average Exercise Price	Number	Weighted-Average Exercise Price
YA Global warrants	25,000,000	\$ 5,041.28	25,000	\$ 0.20

As of the date of this Proxy Statement, the Company had essentially no additional shares to issue under its authorized capital limits. The proposed Recapitalization is intended, in part, to permit the Company to satisfy any conversion notices that may be presented.

The proposed Recapitalization would increase the number of shares available for issuance on the conversion of the consolidated convertible debenture and the exercise of warrants because the reverse split would reduce the number of issued and outstanding shares to 4,498,891 shares, while reducing the authorized common stock to 100,000,000 shares of common stock. Accordingly, the Company would have approximately 95.5 million shares available for future issuance.

The formula for calculating the shares to be issued in connection with conversions of these securities varies, based on the market price of its common stock. Therefore, if the Recapitalization is effected, there effectively is no limitation on the number of shares of common stock that may be issued in connection with conversion. As such, holders of the Company's common stock will experience substantial dilution of their interests to the extent that the debenture is converted and shares of the Company's common stock are issued.

The Board recognizes, of course, that the trading price for the Company's securities following a reverse-stock-split may not mathematically reflect the calculated results of the reverse-stock-split, so that a 1,000-to-one reverse-stock-split of a corporation's stock may not result in a 1,000-fold increase in the trading price for the common stock. Frequently, stocks do not trade at their pre-reverse-split equivalent trading price following a reverse split. Therefore, the reverse split could result in significant reduction in the value of the stock owned by stockholders.

Purpose of the Recapitalization

The Company requires additional financing, and it intends to continue to seek financing through private placements of equity and convertible debt securities. However, as detailed above, the Company does not have sufficient shares to enable it to pursue private placements or capital-raising transactions.

In addition to better positioning the Company for future capitalization, management believes that the Recapitalization may make other corporate opportunities, including potential mergers with or acquisitions of businesses or other related avenues of strategic growth, more available to the Company. As of the date of this Proxy Statement, the Company had no plans for acquisitions or other business combinations, although the Company continues to be open to potential opportunities for the Company.

As of the date of this Proxy Statement, the Company's articles of incorporation (as amended to date), authorized it to issue up to 4,500,000,000 shares of common stock, of which 4,498,891,910 shares, or almost 100%, of its authorized shares, are outstanding. If the reverse split and change in the authorized capital is approved, the Company would have 4,498,891 shares, or 4.5%, of its authorized common stock outstanding and 25,000 shares, or less than 1%, of its authorized shares reserved for issuance on the exercise of warrants and similar rights, plus an indeterminate number issuable on conversion of the Consolidated Debenture. The Company anticipates that it may use the additional shares available to it for a variety of purposes, including conversions of the Consolidated Debenture.

As noted above, the issuances of shares under the Consolidated Debenture are tied to variable conversion prices. Accordingly, if the market price of the Company's common stock rises, the number of shares of its common stock issuable will correspondingly decrease. Management believes that in light of market conditions and the Company's potential to develop and market its products, authorized capital of 100,000,000 shares of its common stock will enable the Company to meet its obligations, although there can be no guarantee that this will be the case. As discussed above, the Consolidated Debenture includes conversion limitations, or caps, such that YA Global is limited from converting the entire outstanding amount into shares of the Company's common stock. As such, it is unlikely that the Company would be required to meet conversion obligations of the Consolidated Debenture at one time. Conversions of the Consolidated Debenture will likely have a depressive effect on prices for the Company's common stock in any trading market that may then exist.

If the amendment to the Company's articles of incorporation is approved by its stockholders, the Company will have approximately 95.5 additional shares to issue to meet its obligations as listed above. However, because the Consolidated Debenture is held by a third party, it is not possible for management to allocate these additional shares or determine in advance how the Company will issue the shares or reserve them. Moreover, because the Consolidated Debenture has a variable conversion price, management is unable to determine how many shares may be issued in connection with the Consolidated Debenture, other than the warrants as listed above. If the amendment to the Company's articles of incorporation is approved, management intends to reserve out of the increased authorized capital a total of 25,000 shares in connection with currently outstanding warrants. Management will continue to report the Company's issuances of shares in connection with the Consolidated Debenture above in its periodic reports filed with the SEC.

There is a risk of significant downward pressure on the price of the common stock as YA Global converts its Consolidated Debenture into shares of the Company's common stock and sells material amounts of common stock, which could encourage short sales. This could place significant downward pressure on the price of the Company's common stock. Generally, "short selling" means selling a security, contract, or commodity not owned by the seller. The seller is committed to eventually purchase the financial instrument previously sold. Short sales are used to capitalize on an expected decline in the security's price. As YA Global converts the Company's Consolidated Debenture, the Company issues shares to it, which it then may choose to sell into the market pursuant to Rule 144 or other exemptions from the registration requirements. Such sales have a tendency to depress the price of a stock, which could increase the potential for short sales.

The Company's issuances of shares in connection with conversions of the Consolidated Debenture may result in substantial dilution to the interests of other holders of common stock.

Because the conversion prices of the Consolidated Debenture are based on the market price of the Company's common stock, there is effectively no limit on the number of shares that may be issued. As such, the Company's stockholders are subject to the risk of substantial dilution to their interests as a result of the Company's issuance of shares in connection with conversions of the Consolidated Debenture.

If the Company's stockholders do not approve the amendment, due to changes in the market price of the common stock affecting conversion ratios of conversions of the Consolidated Debenture, the Company may be precluded from issuing shares of its common stock as required, and the Company may remain in default of the Consolidated Debenture, which could continue to adversely affect the Company's operations and financial condition. Moreover, even if the Company were to negotiate additional merger or acquisition transactions on terms acceptable to the Company, it would not be able to complete such transactions without an increase in authorized capital.

Potential Anti-Takeover Effect

Although the increased proportion of unissued authorized shares to issued shares could, under certain circumstances, have an anti-takeover effect (for example, by permitting issuances that would dilute the stock ownership of a person seeking to effect a change in the composition of the Board or contemplating a tender offer or other transaction for the combination of the Company with another entity), the increase in the Company's shares of common stock is not being proposed as part of a plan of additional stock issuances. Nevertheless, management could use the additional shares that will be available following the Recapitalization to resist or frustrate a third-party transaction.

If the Recapitalization is approved at the Special Meeting, generally, no stockholder approval would be necessary for the issuance of all or any portion of the additional shares of common stock unless required by law or any rules or regulations to which the Company is subject.

Depending upon the consideration per share received by the Company for any subsequent issuance of common stock, such issuance could have a dilutive effect on those stockholders who paid a higher consideration per share for their stock. Also, future issuances of common stock will increase the number of outstanding shares, thereby decreasing the percentage ownership in the Company (for voting, distributions, and all other purposes) represented by existing shares of common stock. The availability for issuance of the additional shares of common stock may be viewed as having the effect of discouraging an unsolicited attempt by another person or entity to acquire control of the Company. Although the Board has no present intention of doing so, the Company's authorized but unissued common stock could be issued in one or more transactions that would make a takeover of the Company more difficult or costly, and therefore less likely. Holders of common stock do not have any preemptive rights to acquire any additional securities issued by the Company.

Consent Required for Approval

Under Nevada law and the Company's articles of incorporation, as amended to date, the proposal to amend the Company's articles of incorporation to reverse split the outstanding common stock 1,000-to-one and reduce the authorized common stock to 100,000,000 shares, par value \$0.001, must be approved by the holders of at least a majority of the Company's outstanding shares of common stock.

The proposal to effectuate the Recapitalization is a "nondiscretionary" item, meaning that brokerage firms cannot vote shares in their discretion on your behalf if you have not given the broker instructions to vote your shares held in "street" name. Abstentions will be counted as votes against this Proposal 1. Broker nonvotes will count in determining a quorum for purposes of conducting the Special Meeting, but will not count for or against Proposal 1.

Procedure for Effecting Recapitalization

If the stockholders approve the Recapitalization, the Company will file an amendment to articles of incorporation with the Nevada Secretary of State as quickly as practicable, which will become effective at filing.

No Appraisal or Dissenters' Rights

Under Nevada corporate law, the Company's stockholders are not entitled to appraisal or dissenters' rights respecting the Recapitalization, and the Company will not independently provide stockholders with any such right.

RECOMMENDATION: The Board recommends a vote "FOR" the proposal to recapitalize the Company by reverse-splitting the Company's outstanding common stock 1,000-to-one and reducing the Company's authorized common stock to 100,000,000 shares, par value \$0.001.

PROPOSAL NO. 2

PROPOSED AMENDMENT TO THE ARTICLES OF INCORPORATION

TO AUTHORIZE A CLASS OF 5,000,000 SHARES OF PREFERRED STOCK

The Company proposes to amend its articles of incorporation to authorize a class of 5,000,000 shares of preferred stock. Under the proposed amendment, the Board will be authorized, without shareholder action, to issue up to 5,000,000 shares of preferred stock in one or more series and to fix the number of shares and rights, preferences, and limitations of each series. Among the specific matters that may be determined by the Board are the dividend rate, the redemption price, if any, conversion rights, if any, the amount payable in the event of any voluntary liquidation or dissolution of the Company, and voting rights, if any. The provisions of the proposed amended articles relating to the preferred stock allow the Board to issue preferred stock with multiple votes per share and dividend rights, which would have priority over any dividends paid to the holders of common stock. The issuance of preferred stock with these rights may make the removal of management difficult, even if the removal would be considered beneficial to shareholders generally, and will have the effect of limiting shareholder participation in certain transactions such as mergers or tender offers if these transactions are not favored by management.

The Board approved the authorization of preferred stock to provide the Company with securities other than common stock that the Company may issue to obtain financing for its future operations. Preferred stock may have different and preferential voting, dividend, liquidation, or other rights to attract investment. Preferred stock may be issued in transactions that do not involve a general public offering for cash and may contain the properties of an equity and a debt instrument. Any or all rights of the preferred stock may be greater than the rights of the common stock, and the issuance of preferred stock with voting or conversion rights may also dilute and adversely affect the voting power of the holders of common stock. In addition, preferred stock may be issued as a means of preventing a hostile takeover. The Board has no plans to issue, and does not contemplate issuing, any preferred stock in the foreseeable future.

RECOMMENDATION: The Board recommends a vote “FOR” the proposal to amend the Company’s articles of incorporation to authorize a class of 5,000,000 shares of preferred stock and to authorize the Board to fix the number of shares and rights, preferences, and limitations of each series.

PROPOSAL NO. 3

RECESS OF THE SPECIAL MEETING TO SOLICIT ADDITIONAL PROXIES.

The Board unanimously executed a written consent dated November [__], 2014, authorizing and recommending that the Company's stockholders approve a proposal to recess the Special Meeting on one or more occasions, if necessary or appropriate, to solicit additional Proxies if there are insufficient votes at the time of the Special Meeting to approve the proposal to amend the Company's articles of incorporation to recapitalize the Company.

RECOMMENDATION: The Board recommends a vote "FOR" the proposal to recess the Special Meeting on one or more occasions, if necessary or appropriate, to solicit additional Proxies if there are insufficient votes at the time of the Special Meeting to approve the proposal to amend the Company's articles of incorporation to recapitalize the Company.
