SUNSTONE HOTEL INVESTORS, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

1. Organization and Description of Business

Sunstone Hotel Investors, Inc. (the “Company”) was incorporated in Maryland on June 28, 2004 in anticipation of an initial public offering of common stock, which was consummated on October 26, 2004. The Company, through its 100% controlling interest in Sunstone Hotel Partnership, LLC (the “Operating Partnership”), of which the Company is the sole managing member, and the subsidiaries of the Operating Partnership, including Sunstone Hotel TRS Lessee, Inc. (the “TRS Lessee”) and its subsidiaries, is currently engaged in acquiring, owning, asset managing and renovating hotel properties. The Company may also sell certain hotel properties from time to time. The Company operates as a real estate investment trust (“REIT”) for federal income tax purposes.

As a REIT, certain tax laws limit the amount of “non-qualifying” income the Company can earn, including income derived directly from the operation of hotels. The Company leases all of its hotels to its TRS Lessee, which in turn enters into long-term management agreements with third parties to manage the operations of the Company’s hotels, in transactions that are intended to generate qualifying income. As of June 30, 2017, the Company had interests in 26 hotels (the “26 hotels”), and the Company’s third-party managers included the following:

	Number of Hotels
Subsidiaries of Marriott International, Inc. or Marriott Hotel Services, Inc. (collectively, “Marriott”)	11
Interstate Hotels & Resorts, Inc.	4
Highgate Hotels L.P. and an affiliate	3
Crestline Hotels & Resorts	2
Hilton Worldwide	2
Hyatt Corporation	2
Davidson Hotels & Resorts	1
HEI Hotels & Resorts	1
Total hotels held for investment	26

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying consolidated financial statements as of June 30, 2017 and December 31, 2016, and for the three and six months ended June 30, 2017 and 2016, include the accounts of the Company, the Operating Partnership, the TRS Lessee and their subsidiaries. All significant intercompany balances and transactions have been eliminated. If the Company determines that it has an interest in a variable interest entity within the meaning of the Consolidation Topic of the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”), the Company will consolidate the entity when it is determined to be the primary beneficiary of the entity. Based on its review, the Company determined that all of its subsidiaries were properly consolidated as of June 30, 2017 and December 31, 2016, and for the three and six months ended June 30, 2017 and 2016.

Noncontrolling interest at both June 30, 2017 and December 31, 2016 represents the outside 25.0% equity interest in the Hilton San Diego Bayfront, which the Company includes in its financial statements on a consolidated basis.

The accompanying interim financial statements have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”) and in conformity with the rules and regulations of the Securities and Exchange Commission. In the Company’s opinion, the interim financial statements presented herein reflect all adjustments, consisting solely of normal and recurring adjustments, which are necessary to fairly present the interim financial statements. These financial statements should be read in conjunction with the financial statements included in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2016, filed with the Securities and Exchange Commission on February 23, 2017.

The Company has evaluated subsequent events through the date of issuance of these financial statements.

Table of Contents

Use of Estimates

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ materially from those estimates.

Earnings Per Share

The Company applies the two-class method when computing its earnings per share. As required by the Earnings Per Share Topic of the FASB ASC, the net income per share for each class of stock (common stock and convertible preferred stock) is calculated assuming all of the Company's net income is distributed as dividends to each class of stock based on their contractual rights. To the extent the Company has undistributed earnings in any calendar quarter, the Company will follow the two-class method of computing earnings per share.

The Company follows the requirements of the Earnings Per Share Topic of the FASB ASC. Unvested share-based payment awards that contain non-forfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are considered participating securities and shall be included in the computation of earnings per share pursuant to the two-class method.

In accordance with the Earnings Per Share Topic of the FASB ASC, basic earnings (loss) attributable to common stockholders per common share is computed based on the weighted average number of shares of common stock outstanding during each period. Diluted earnings (loss) attributable to common stockholders per common share is computed based on the weighted average number of shares of common stock outstanding during each period, plus potential common shares considered outstanding during the period, as long as the inclusion of such awards is not anti-dilutive. Potential common shares consist of unvested restricted stock awards and the incremental common shares issuable upon the exercise of stock options, using the more dilutive of either the two-class method or the treasury stock method.

The following table sets forth the computation of basic and diluted earnings per common share (in thousands, except per share data):

Edgar Filing: Sunstone Hotel Investors, Inc. - Form 10-Q

Basic and diluted income attributable to common stockholders per common share	\$ 0.21	\$ 0.26	\$ 0.47	\$ 0.25

The Company's unvested restricted shares associated with its long-term incentive plan and shares associated with common stock options have been excluded from the above calculation of earnings per share for the three and six months ended June 30, 2017 and 2016, as their inclusion would have been anti-dilutive.

New Accounting Standards and Accounting Changes

In May 2014, the FASB issued Accounting Standards Update No. 2014-09, "Revenue from Contracts with Customers (Topic 606)" ("ASU No. 2014-09"). The core principle of ASU No. 2014-09 is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in

Table of Contents

exchange for those goods or services. To achieve that core principle, an entity will need to apply a five-step model: (1) identify the contract(s) with a customer; (2) identify the performance obligations in the contract; (3) determine the transaction price; (4) allocate the transaction price to the performance obligations in the contract; and (5) recognize revenue when (or as) the entity satisfies a performance obligation. ASU No. 2014-09 was originally to be effective during the first quarter of 2017; however, the FASB issued a one-year deferral so that it now becomes effective during the first quarter of 2018. ASU No. 2014-09 will require either a full retrospective approach or a modified retrospective approach, with early adoption permitted as of the original effective date.

In March 2016, the FASB clarified the principal versus agent guidance in ASU No. 2014-09 with its issuance of Accounting Standards Update No. 2016-08, "Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations (Reporting Revenue Gross versus Net)" ("ASU No. 2016-08"). In particular, ASU No. 2016-08 clarifies how an entity should identify the unit of accounting for the principal versus agent evaluation and how it should apply the control principle to certain types of arrangements, such as service transactions by explaining what a principal controls before the specified good or service is transferred to the customer. In addition, ASU No. 2016-08 reframes the indicators to focus on evidence that an entity is acting as a principal rather than as an agent. ASU No. 2016-08 will become effective, along with ASU No. 2014-09, during the first quarter of 2018. Similar to ASU No. 2014-09, ASU No. 2016-08 will require either a full retrospective approach or a modified retrospective approach, with early adoption permitted as of the original effective date.

In May 2016, the FASB amended ASU No. 2014-09's guidance on transition, collectability, noncash consideration and the presentation of sales and other similar taxes with its issuance of Accounting Standards Update No. 2016-12, "Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients" ("ASU No. 2016-12"). The amendments clarify that, for a contract to be considered completed at transition, all (or substantially all) of the revenue must have been recognized under legacy GAAP. This clarification is important because entities that use the modified retrospective transition approach need to apply the standard only to contracts that are not complete as of the date of initial application, and entities that use the full retrospective approach may apply certain practical expedients to completed contracts. In addition, ASU No. 2016-12 clarifies that an entity should consider the probability of collecting substantially all of the consideration to which it will be entitled in exchange for goods and services expected to be transferred to the customer rather than the total amount promised for all the goods or services in the contract. ASU No. 2016-12 also clarifies that an entity may consider its ability to manage its exposure to credit risk as part of the collectability assessment, as well as that the fair value of noncash consideration should be measured at contract inception when determining the transaction price. Finally, ASU No. 2016-12 allows an entity to make an accounting policy election to exclude from the transaction price certain types of taxes collected from a customer if it discloses that policy. ASU No. 2016-12 will become effective, along with ASU No. 2014-09, during the first quarter of 2018. Similar to ASU No. 2014-09, ASU No. 2016-12 will require either a full retrospective approach or a modified retrospective approach, with early adoption permitted as of the original effective date.

The Company is in the process of evaluating the impact that ASU No. 2014-09, along with the related clarifications and amendments in ASU No. 2016-08 and ASU No. 2016-12, will have on its recognition of revenue included in its consolidated financial statements. While the Company is still evaluating the impact that the ASUs will have on accounting for the gain recognized upon the sale of a hotel, there is a possibility that the adoption of ASU No. 2014-09 will affect the timing of any gain recognition in the consolidated financial statements. For example, under current guidance, a gain on the sale of hotel properties with contingencies and some future involvement is deferred

until all contingencies have been removed. Under the new guidance, however, the entire gain on sale may be recognized upon the close of escrow. The Company expects to adopt the new ASUs under the modified retrospective approach.

In February 2016, the FASB issued Accounting Standards Update No. 2016-02, “Leases (Topic 842)” (“ASU No. 2016-02”), which will require lessees to put most leases on their balance sheets but recognize expenses in the income statement in a manner similar to today’s accounting. The guidance also eliminates today’s real estate-specific provisions and changes the guidance on sale-leaseback transactions, initial direct costs and lease executory costs for all entities. For lessors, the standard modifies the classification criteria and the accounting for sales-type and direct financing leases. All entities will classify leases to determine how to recognize lease-related revenue and expense. Classification will continue to affect amounts that lessors record on the balance sheet. ASU No. 2016-02 will become effective during the first quarter of 2019, and will require a modified retrospective approach for leases that exist or are entered into after the beginning of the earliest comparative period in the financial statements. The Company is creating an inventory of its leases and is analyzing its current ground lease obligations. The Company is currently evaluating the impact that ASU No. 2016-02 will have on its consolidated financial statements, and, other than the inclusion of operating leases on the Company’s balance sheet, such effects have not yet been determined.

In June 2016, the FASB issued Accounting Standards Update No. 2016-13, “Financial Instruments-Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments” (“ASU No. 2016-13”), which will replace today’s “incurred loss” approach with an “expected loss” model for instruments measured at amortized cost. For trade and other receivables, held-to-maturity debt securities, loans and other instruments, entities will be required to use a new forward looking “expected loss” model that generally will result in the earlier recognition of allowances for losses. In addition, entities will have to disclose significantly more information, including information they use to track credit quality by year of origination for most financing receivables. ASU No. 2016-13 will

Table of Contents

become effective during the first quarter of 2020. ASU No. 2016-13 will require a modified retrospective approach, with early adoption permitted during the first quarter of 2019. The Company does not believe that the adoption of ASU No. 2016-13 will have a material impact on its consolidated financial statements.

In September 2016, the FASB issued Accounting Standards Update No. 2016-15, “Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments (a consensus of the Emerging Issues Task Force)” (“ASU No. 2016-15”), which clarifies how entities should classify certain cash receipts and cash payments on the statement of cash flows. ASU No. 2016-15 addresses certain issues where diversity in practice was identified. It amends existing guidance, which is principles based and often requires judgment to determine the appropriate classification of cash flows as operating, investing or financing activities. In addition, ASU No. 2016-15 clarifies how the predominance principle should be applied when cash receipts and cash payments have aspects of more than one class of cash flows. ASU No. 2016-15 will become effective during the first quarter of 2018, and will generally require a retrospective approach. Early adoption is permitted. The Company does not believe that the adoption of ASU No. 2016-15 will have a material effect on its consolidated financial statements.

In November 2016, the FASB issued Accounting Standards Update No. 2016-18, “Statement of Cash Flows (Topic 230): Restricted Cash (a consensus of the FASB Emerging Issues Task Force)” (“ASU No. 2016-18”), which will require entities to show the changes in total cash, cash equivalents, restricted cash and restricted cash equivalents in the statement of cash flows. As a result, entities will no longer present transfers between cash and cash equivalents and restricted cash and restricted cash equivalents in the statement of cash flows. When cash, cash equivalents, restricted cash and restricted cash equivalents are presented in more than one line item on the balance sheet, the new guidance requires a reconciliation of the totals in the statement of cash flows to the related caption in the balance sheet. This reconciliation can be presented either on the face of the statement of cash flows or in the notes to the financial statements. ASU No. 2016-18 will become effective in the first quarter of 2018, and will require a retrospective approach. Early adoption in an interim period is permitted, but any adjustments must be reflected as of the beginning of the fiscal year that includes the interim period. Upon adoption of this standard, amounts included in restricted cash on the Company’s consolidated balance sheets will be included with cash and cash equivalents on its consolidated statements of cash flows. These amounts totaled \$66.4 million and \$67.9 million at June 30, 2017 and December 31, 2016, respectively. The adoption of this standard will not change the Company’s balance sheet presentation.

In January 2017, the FASB issued Accounting Standards Update No. 2017-01, “Business Combinations (Topic 805): Clarifying the Definition of a Business” (“ASU No. 2017-01”), which changes the definition of a business to assist entities with evaluating when a set of transferred assets and activities is a business. Under the new guidance, an entity first determines whether substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or a group of similar identifiable assets. If this threshold is met, the set of transferred assets and activities is not a business. If it is not met, the entity then evaluates whether the set meets the requirement that a business include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create outputs. ASU No. 2017-01 will become effective in the first quarter of 2018, and the guidance is to be applied prospectively. Early adoption is permitted. Once adopted, the Company will be required to analyze future hotel acquisitions to determine if the transaction qualifies as the purchase of a business or an asset. Transaction costs associated with asset acquisitions will be capitalized, while the same costs associated with a business combination will continue to be expensed as incurred. In addition, asset acquisitions will not be subject to a measurement period, as are business combinations. Depending on the Company’s conclusion, ASU No. 2017-01 may have an effect on its

consolidated financial statements.

In January 2017, the FASB issued Accounting Standards Update No. 2017-04, “Intangibles – Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment” (“ASU No. 2017-04”), which eliminates the requirement to calculate the implied fair value of goodwill (i.e., Step 2 of today’s goodwill impairment test) to measure a goodwill impairment charge. Under the new guidance, if a reporting unit’s carrying amount exceeds its fair value, an entity will record an impairment charge based on that difference. The impairment charge will be limited to the amount of goodwill allocated to that reporting unit. The standard does not change the guidance on completing Step 1 of the goodwill impairment test. An entity will still be able to perform today’s optional qualitative goodwill impairment assessment before determining whether to proceed to Step 1. ASU No. 2017-04 will become effective in the first quarter of 2019, and the guidance is to be applied prospectively. Early adoption is permitted. The Company does not believe that the adoption of ASU No. 2017-04 will have a material impact on its consolidated financial statements.

In May 2017, the FASB issued Accounting Standards Update No. 2017-09, “Compensation – Stock Compensation (Topic 718): Scope of Modification Accounting” (“ASU No. 2017-09”), which clarifies when changes to the terms or conditions of a share-based payment award must be accounted for as modifications. The new guidance will allow companies to make certain changes to awards without accounting for them as modifications, but it does not change the accounting for modifications. Under ASU No. 2017-09, an entity will not apply modification accounting to a share-based payment award if all of the following are the same immediately before and after the change: the award’s fair value (or calculated or intrinsic value, if those measurement methods are used); the award’s vesting conditions; and the award’s classification as an equity or liability instrument. ASU No. 2017-09 will become effective in the first quarter of 2018, with early adoption permitted. The Company does not believe that the adoption of ASU No. 2017-09 will have an impact on its consolidated financial statements unless it changes the terms or conditions of its grants in the future.

Noncontrolling Interest

The Company's consolidated financial statements include an entity in which the Company has a controlling financial interest. Noncontrolling interest is the portion of equity (net assets) in a subsidiary not attributable, directly or indirectly, to a parent. Such noncontrolling interest is reported on the consolidated balance sheets within equity, separately from the Company's equity. On the consolidated statements of operations and comprehensive income, revenues, expenses and net income or loss from the less-than-wholly owned subsidiary is reported at the consolidated amount, including both the amounts attributable to the Company and the noncontrolling interest. Income or loss is allocated to the noncontrolling interest based on its weighted average ownership percentage for the applicable period. The consolidated statement of equity includes beginning balances, activity for the period and ending balances for each component of stockholders' equity, noncontrolling interest and total equity.

At both June 30, 2017 and December 31, 2016, the noncontrolling interest reported in the Company's financial statements included the 25.0% outside ownership in the Hilton San Diego Bayfront.

Segment Reporting

The Company considers each of its hotels to be an operating segment, none of which meets the threshold for a separate reportable segment in accordance with the Segment Reporting Topic of the FASB ASC. Currently, the Company operates in one segment, hotel ownership.

4. Disposals

In June 2017, the Company sold the 199-room Marriott Park City located in Park City, Utah for net proceeds of \$27.0 million. The Company recognized a net gain on the sale of \$1.2 million. The sale did not represent a strategic shift that had a major impact on the Company's business plan or its primary markets, and therefore, the sale of the hotel did not qualify as a discontinued operation.

In February 2017, the Company sold the 444-room Fairmont Newport Beach located in Newport Beach, California for net proceeds of \$122.8 million. The Company recognized a net gain on the sale of \$44.3 million. The sale did not represent a strategic shift that had a major impact on the Company's business plan or its primary markets, and therefore, the sale of the hotel did not qualify as a discontinued operation. The Company classified the assets and liabilities of the Fairmont Newport Beach as held for sale as of December 31, 2016 as follows (in thousands):

5. Fair Value Measurements and Interest Rate Derivatives

Fair Value of Financial Instruments

As of June 30, 2017 and December 31, 2016, the carrying amount of certain financial instruments, including cash and cash equivalents, restricted cash, accounts receivable, accounts payable and accrued expenses were representative of their fair values due to the short-term maturity of these instruments.

The Company follows the requirements of the Fair Value Measurement and Disclosure Topic of the FASB ASC, which establishes a framework for measuring fair value and disclosing fair value measurements by establishing a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 Inputs reflect quoted prices for identical assets or liabilities in markets that are not active; quoted prices for similar assets or liabilities in active markets; inputs other than quoted prices that are observable for the asset or the liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 Unobservable inputs reflecting the Company's own assumptions incorporated in valuation techniques used to determine fair value. These assumptions are required to be consistent with market participant assumptions that are reasonably available.

As of June 30, 2017 and December 31, 2016, the only financial instruments that the Company measures at fair value are its interest rate derivatives, along with a life insurance policy and a related retirement benefit agreement. In accordance with the Fair Value Measurement and Disclosure Topic of the FASB ASC, the Company estimates the fair value of its interest rate derivatives using Level 2 measurements based on quotes obtained from the counterparties, which are based upon the consideration that would be

required to terminate the agreements. Both the life insurance policy and the related retirement benefit agreement, which are for a former Company associate, are valued using Level 2 measurements.

The following table presents the Company's assets measured at fair value on a recurring and nonrecurring basis at June 30, 2017 and December 31, 2016 (in thousands):

Common Stock

In February 2017, the Company entered into separate “At the Market” Agreements (the “ATM Agreements”) with each of Merrill Lynch, Pierce, Fenner & Smith Incorporated, J.P. Morgan Securities LLC and Wells Fargo Securities, LLC.

In accordance with the terms of the ATM Agreements, the Company may from time to time offer and sell shares of its common stock having an aggregate offering price of up to \$300.0 million. During the first six months of 2017, the Company received gross proceeds of \$76.2 million, and paid \$1.4 million in costs, from the issuance of 4,685,023 shares of its common stock in connection with the ATM Agreements. As of June 30, 2017, the Company has \$223.8 million available for sale under the ATM Agreements.

In February 2017, the Company’s board of directors authorized a share repurchase plan to acquire up to \$300.0 million of the Company’s common and preferred stock. As of June 30, 2017, no shares of either the Company’s common or preferred stock have been repurchased. Future purchases will depend on various factors, including the Company’s capital needs, as well as the Company’s common and preferred stock price.

10. Long-Term Incentive Plan

Stock Grants

Restricted shares granted pursuant to the Company’s 2004 Long-Term Incentive Plan, as amended and restated May 1, 2014, generally vest over periods from three to five years from the date of grant.

Compensation expense related to awards of restricted shares are measured at fair value on the date of grant and amortized over the relevant requisite service period or derived service period.

In accordance with the Compensation Topic of the FASB ASC, the Company has elected to account for forfeitures as they occur. The Company’s amortization expense and forfeitures related to restricted shares for the three and six months ended June 30, 2017 and 2016 were as follows (in thousands):

Three Months Ended		Six Months Ended	
June 30,		June 30,	
2017	2016	2017	2016

Edgar Filing: Sunstone Hotel Investors, Inc. - Form 10-Q

Amortization expense, including forfeitures	\$ 2,591	\$ 2,463	\$ 4,340	\$ 4,077

In addition, the Company capitalizes compensation costs related to all restricted shares granted to certain employees who work on the design and construction of its hotels. During both the three months ended June 30, 2017 and 2016, these capitalized costs totaled \$0.2 million. During the six months ended June 30, 2017 and 2016, these capitalized costs totaled \$0.3 million and \$0.5 million, respectively.

Stock Options

In April 2008, the Compensation Committee of the Company's board of directors approved a grant of 200,000 non-qualified stock options (the "Options") to one of the Company's former associates. The Options fully vested in April 2009, and will expire on April 27, 2018. The exercise price of the Options is \$17.71 per share.

11. Commitments and Contingencies

Management Agreements

Management agreements with the Company's third-party hotel managers require the Company to pay between 1.75% and 3.5% of total revenue of the managed hotels to the third-party managers each month as a basic management fee. In addition to basic management fees, provided that certain operating thresholds are met, the Company may also be required to pay incentive management fees to certain of its third-party managers. Total basic management fees, net of key money incentives received from third-party hotel managers, along with incentive management fees incurred by the Company during the three and six months ended June 30, 2017 and 2016 were included in other property-level expenses on the Company's consolidated statements of operations and comprehensive income as follows (in thousands):

	Three Months Ended		Six Months Ended	
	June 30, 2017 (unaudited)	2016 (unaudited)	June 30, 2017 (unaudited)	2016 (unaudited)

Incentive management fees	1,800	1,490	4,353	3,194
Total basic and incentive management fees	\$ 10,742	\$ 10,443	\$ 21,190	\$ 19,814

License and Franchise Agreements

The Company has entered into license and franchise agreements related to certain of its hotel properties. The license and franchise agreements require the Company to, among other things, pay monthly fees that are calculated based on specified percentages of certain revenues. The license and franchise agreements generally contain specific standards for, and restrictions and limitations on, the operation and maintenance of the hotels which are established by the franchisors to maintain uniformity in the system created by each such franchisor. Such standards generally regulate the appearance of the hotel, quality and type of goods and services offered, signage and protection of trademarks. Compliance with such standards may from time to time require the Company to make significant expenditures for capital improvements.

Total license and franchise fees incurred by the Company during the three and six months ended June 30, 2017 and 2016 were included in franchise costs on the Company's consolidated statements of operations and comprehensive income as follows (in thousands):

	Three Months Ended		Six Months Ended	
	June 30,	June 30,	June 30,	June 30,
	2017	2016	2017	2016
	(unaudited)	(unaudited)	(unaudited)	(unaudited)

Total franchise costs	\$ 9,881	\$ 9,898	\$ 17,936	\$ 17,994

- (1) Includes advertising, reservation and frequent guest club assessments.

Renovation and Construction Commitments

At June 30, 2017, the Company had various contracts outstanding with third parties in connection with the renovation and repositioning of certain of its hotel properties. The remaining commitments under these contracts at June 30, 2017 totaled \$50.3 million.

Capital Leases

The Hyatt Centric Chicago Magnificent Mile is subject to a building lease which expires in December 2097. Upon acquisition of the hotel in June 2012, the Company evaluated the terms of the lease agreement and determined the lease to be a capital lease pursuant to the Leases Topic of the FASB ASC.

Table of Contents

The capital lease asset was included in investment in hotel properties, net on the Company's consolidated balance sheets as follows (in thousands):

	June 30, 2017 (unaudited)	December 31, 2016
Gross capital lease asset - buildings and improvements	\$ 58,799	\$ 58,799
Accumulated depreciation	(7,472)	(6,738)
Net capital lease asset - buildings and improvements	\$ 51,327	\$ 52,061

Future minimum lease payments under the Company's capital lease together with the present value of the net minimum lease payments as of June 30, 2017 are as follows (in thousands):

2017	\$ 1,403
2018	1,403
2019	1,403
2020	1,403
2021	1,403

Total minimum lease payments (1)	112,923
Less: Amount representing interest (2)	(97,348)
Present value of net minimum lease payments (3)	\$ 15,575

- (1) Minimum lease payments do not include percentage rent which may be paid under the Hyatt Centric Chicago Magnificent Mile building lease on the basis of 4.0% of the hotel's gross room revenues over a certain threshold. No percentage rent was due during the three and six months ended June 30, 2017 and 2016.
- (2) Interest includes the amount necessary to reduce net minimum lease payments to present value calculated at the Company's incremental borrowing rate at lease inception.
- (3) The present value of net minimum lease payments are presented on the Company's consolidated balance sheet as of June 30, 2017 as a current obligation of \$1,000, which is included in accounts payable and accrued expenses, and as a long-term obligation of \$15.6 million, which is included in capital lease obligations, less current portion.

Ground, Building and Air Leases

Total rent expense incurred pursuant to ground, building and air lease agreements for the three and six months ended June 30, 2017 and 2016 was included in property tax, ground lease and insurance on the Company's consolidated statements of operations and comprehensive income as follows (in thousands):

	Three Months Ended		Six Months Ended	
	June 30,	June 30,	June 30,	June 30,

Concentration of Risk

The concentration of the Company's hotels in California, Illinois, Massachusetts and the greater Washington DC area exposes the Company's business to economic conditions, competition and real and personal property tax rates unique to these locales. As of June 30, 2017, 16 of the Company's 26 hotels were concentrated in California, Illinois, Massachusetts and the greater Washington DC area as follows:

	California (unaudited)	Illinois (unaudited)	Massachusetts (unaudited)	Greater Washington DC Area (unaudited)
Number of hotels	7	3	3	3
Percentage of total rooms	29	% 9	% 15	% 14
Percentage of total consolidated revenue during the past 12 months	34	% 7	% 16	% 14

Other

The Company has provided customary unsecured environmental indemnities to certain lenders. The Company has performed due diligence on the potential environmental risks, including obtaining an independent environmental review from outside environmental consultants. These indemnities obligate the Company to reimburse the indemnified parties for damages related to certain environmental matters. There is no term or damage limitation on these indemnities; however, if an environmental matter arises, the Company could have recourse against other previous owners or a claim against its environmental insurance policies.

At June 30, 2017, the Company had \$0.5 million of outstanding irrevocable letters of credit to guaranty the Company's financial obligations related to workers' compensation insurance programs from prior policy years. The beneficiaries of these letters of credit may draw upon these letters of credit in the event of a contractual default by the Company relating to each respective obligation. No draws have been made through June 30, 2017.

The Company is subject to various claims, lawsuits and legal proceedings, including routine litigation arising in the ordinary course of business, regarding the operation of its hotels and Company matters. While it is not possible to ascertain the ultimate outcome of such matters, the Company believes that the aggregate amount of such liabilities, if any, in excess of amounts covered by insurance will not have a material adverse impact on its financial condition or results of operations. The outcome of claims, lawsuits and legal proceedings brought against the Company, however,

is subject to significant uncertainties.

12. Subsequent Events

During the first week of July 2017, the Company received gross proceeds of \$3.2 million, and paid \$0.1 million in costs, from the issuance of 191,832 shares of its common stock in connection with the ATM Agreements. The shares were sold at the end of June, but due to customary settlement periods, the shares were not delivered until July. As of July 31, 2017, the Company has \$220.6 million available for sale under the ATM Agreements.

On July 25, 2017, the Company acquired the 175-room Oceans Edge Hotel & Marina located in Key West, Florida for a contractual purchase price of \$175.0 million. The newly constructed and recently opened fee simple hotel also includes a marina, wet and dry boat slips and a marina fuel station. The Company funded the acquisition with available cash on hand, including proceeds from the recent sales of the Marriott Park City and the Fairmont Newport Beach, as well as net proceeds received from the Company's recent equity issuances under its ATM Agreements. The Company is in the process of assessing the fair value of the acquired tangible assets, and any applicable intangible assets, and liabilities for this business combination.

Cautionary Statement

This report contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Exchange Act. The Company intends such forward-looking statements to be covered by the safe-harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995, and includes this statement for purposes of complying with these safe harbor provisions. Forward-looking statements, which are based on certain assumptions and describe the Company's future plans, strategies, opinions and expectations, are generally identifiable by use of the words "anticipate," "believe," "estimate," "expect," "intend," "project," or similar expressions. You should not rely on forward-looking statements because they involve known and unknown risks, uncertainties and other factors that are, in some cases, beyond the Company's control, and which could materially affect actual results, performances or achievements. Accordingly, there is no assurance that the Company's expectations will be realized. In evaluating these statements, you should specifically consider the risks outlined in detail in our Annual Report on Form 10-K, filed with the Securities and Exchange Commission on February 23, 2017, under the caption "Risk Factors" and elsewhere in this Quarterly Report on Form 10-Q, including but not limited to the following factors:

- general economic and business conditions, including a U.S. recession, changes in the European Union or global economic slowdown, which may diminish the desire for leisure travel or the need for business travel, as well as any type of flu or disease-related pandemic, affecting the lodging and travel industry, internationally, nationally and locally;
- our need to operate as a REIT and comply with other applicable laws and regulations, including new laws, interpretations or court decisions that may change the federal tax laws or the federal income tax consequences of our qualification as a REIT;
- rising hotel operating expenses, including the impact of the Patient Protection and Affordable Care Act or its potential replacement, increases in minimum wages, changes in work rules or additional costs incurred from new or renegotiated labor contracts;
- relationships with, and the requirements and reputation of, our franchisors and hotel brands;
- relationships with, and the requirements, performance and reputation of, the managers of our hotels;
- the ground, building or air leases for six of the 26 hotels held for investment as of June 30, 2017;
- competition for the acquisition of hotels, and our ability to complete acquisitions and dispositions;
- performance of hotels after they are acquired;

- new hotel supply, or alternative lodging options such as timeshare, vacation rentals or sharing services such as Airbnb, in our markets, which could harm our occupancy levels and revenue at our hotels;
- competition from hotels not owned by us;
- the need for renovations, repositionings and other capital expenditures for our hotels;
- the impact, including any delays, of renovations and repositionings on hotel operations;
- changes in our business strategy or acquisition or disposition plans;
- our level of debt, including secured, unsecured, fixed and variable rate debt;
- financial and other covenants in our debt and preferred stock;
- our hotels and related goodwill may become impaired, or our hotels which have previously become impaired may become further impaired, in the future, which may adversely affect our financial condition and results of operations;
- volatility in the capital markets and the effect on lodging demand or our ability to obtain capital on favorable terms or at all;
- potential adverse tax consequences in the event that our operating leases with our taxable REIT subsidiaries are not held to have been made on an arm's-length basis;
- system security risks, data protection breaches, cyber-attacks, including those impacting our hotel managers or other third parties, and systems integration issues; and
- other events beyond our control, including terrorist attacks or civil unrest.

These factors may cause our actual events to differ materially from the expectations expressed or implied by any forward-looking statement. Except as otherwise required by federal securities laws, the Company disclaims any obligations or undertaking to publicly release any updates or revisions to any forward-looking statement contained herein (or elsewhere) to reflect any change in the Company's expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

Sunstone Hotel Investors, Inc. (the "Company," "we" or "us") is a Maryland corporation. We operate as a self-managed and self-administered real estate investment trust ("REIT"). A REIT is a corporation that directly or indirectly owns real estate assets and has elected to be taxable as a real estate investment trust. To qualify for taxation as a REIT, the REIT must meet certain requirements, including regarding the composition of its assets and the sources of its income. REITs generally are not subject to federal income taxes at the corporate level as long as they pay stockholder dividends equivalent to 100% of their taxable income. REITs are required to distribute to stockholders at least 90% of their REIT taxable income. We own, directly or indirectly, 100% of the interests of Sunstone Hotel Partnership, LLC (the "Operating Partnership"), which is the entity that directly or indirectly owns our hotel properties. We also own 100% of the interests of our taxable REIT subsidiary, Sunstone Hotel TRS Lessee, Inc., which, directly or indirectly, leases all of our hotels from the Operating Partnership, and engages independent third-parties to manage our hotels.

We own primarily urban and resort upper upscale hotels in the United States. As of June 30, 2017, we had interests in 26 hotels (the "26 hotels"). Of the 26 hotels, we classify 23 as upper upscale, two as upscale and one as luxury as defined by Smith Travel Research, Inc. All but one (the Boston Park Plaza) of our 26 hotels are operated under nationally recognized brands such as Marriott, Hilton and Hyatt, which are among the most respected and widely recognized brands in the lodging industry. We believe the largest and most stable segment of travelers prefer the consistent service and quality associated with nationally recognized brands and well-known independent hotels.

We seek to own hotels primarily in urban and resort locations that benefit from significant barriers to entry by competitors and diverse economic drivers. As of June 30, 2017, the hotels comprising our 26 hotel portfolio average 501 rooms in size.

Our mission is to create meaningful value for our stockholders by producing superior long-term returns through the ownership of long-term relevant lodging real estate. Our values include transparency, trust, ethical conduct, honest communication and discipline. As demand for lodging generally fluctuates with the overall economy, we seek to own hotels that will maintain a high appeal with travelers over long periods of time and will generate economic earnings materially in excess of recurring capital requirements. Our strategy is to maximize stockholder value through focused asset management and disciplined capital recycling, which is likely to include selective acquisitions and dispositions, while maintaining balance sheet flexibility and strength. Our goal is to maintain low leverage and high financial flexibility to position the Company to create value throughout all phases of the operating and financial cycles.

2017 Year-To-Date Highlights

In January 2017, we received proceeds of \$240.0 million in a private placement of senior unsecured notes. The private placement consisted of \$120.0 million of notes bearing interest at a fixed rate of 4.69%, maturing in January 2026 (the “Series A Senior Notes”), and \$120.0 million of notes bearing interest at a fixed rate of 4.79%, maturing in January 2028 (the “Series B Senior Notes,” together the “Senior Notes”).

In January 2017, we used proceeds received from the Senior Notes to repay the loan secured by the Marriott Boston Long Wharf, which had a balance of \$176.0 million and an interest rate of 5.58%. The Marriott Boston Long Wharf loan was scheduled to mature in April 2017, and was available to be repaid without penalty in January 2017.

In February 2017, we sold the 444-room Fairmont Newport Beach, California for net proceeds of \$122.8 million, and recognized a net gain on the sale of \$44.3 million. The sale did not represent a strategic shift that had a major impact on our business plan or our primary markets, and, therefore, did not qualify as a discontinued operation.

In February 2017, we entered into separate “At the Market” Agreements (the “ATM Agreements”) with each of Merrill Lynch, Pierce, Fenner & Smith Incorporated, J.P. Morgan Securities LLC and Wells Fargo Securities, LLC. In accordance with the terms of the ATM Agreements, we may from time to time offer and sell our shares of common stock having an aggregate offering price of up to \$300.0 million. During the first six months of 2017, we received gross proceeds of \$76.2 million, and paid \$1.4 million in costs, from the issuance of 4,685,023 shares of our common stock in connection with the ATM Agreements. As of June 30, 2017, we have \$223.8 million available for sale under the ATM Agreements.

In February 2017, our board of directors authorized a share repurchase plan to acquire up to \$300.0 million of our common and preferred stock. As of June 30, 2017, no shares of either our common or preferred stock have been repurchased. Future purchases will depend on various factors, including our capital needs, as well as our common and preferred stock price.

Table of Contents

In June 2017, we sold the 199-room Marriott Park City, Utah for net proceeds of \$27.0 million, and recognized a net gain on the sale of \$1.2 million. The sale did not represent a strategic shift that had a major impact on our business plan or our primary markets, and, therefore, did not qualify as a discontinued operation.

Operating Activities

Revenues. Substantially all of our revenues are derived from the operation of our hotels. Specifically, our revenues consist of the following:

- Room revenue, which is the product of the number of rooms sold and the average daily room rate, or “ADR,” as defined below;
- Food and beverage revenue, which is comprised of revenue realized in the hotel food and beverage outlets as well as banquet and catering events; and
- Other operating revenue, which includes ancillary hotel revenue and other items primarily driven by occupancy such as telephone/internet, parking, spa, resort and other facility fees, entertainment and other guest services. Additionally, this category includes, among other things, attrition revenue, tenant revenue derived from hotel space leased by third parties and any performance guarantee payments.

Expenses. Our expenses consist of the following:

- Room expense, which is primarily driven by occupancy and, therefore, has a significant correlation with room revenue;
- Food and beverage expense, which is primarily driven by food and beverage sales and banquet and catering bookings and, therefore, has a significant correlation with food and beverage revenue;
- Other operating expense, which includes the corresponding expense of other operating revenue, advertising and promotion, repairs and maintenance, utilities, and franchise costs;
- Property tax, ground lease and insurance expense, which includes the expenses associated with property tax, ground lease and insurance payments, each of which is primarily a fixed expense, however property tax is subject to regular revaluations based on the specific tax regulations and practices of each municipality;

Edgar Filing: Sunstone Hotel Investors, Inc. - Form 10-Q

- Other property-level expenses, which includes our property-level general and administrative expenses, such as payroll and related costs, contract and professional fees, credit and collection expenses, employee recruitment, relocation and training expenses, management fees and other costs;
- Corporate overhead expense, which includes our corporate-level expenses, such as payroll and related costs, amortization of deferred stock compensation, business acquisition and due diligence costs, legal expenses, contract and professional fees, entity-level state franchise and minimum taxes, travel expenses, office rent and other costs; and
- Depreciation and amortization expense, which includes depreciation on our hotel buildings, improvements, furniture, fixtures and equipment, along with amortization on our franchise fees and certain intangibles. Additionally, this category includes depreciation and amortization related to furniture, fixtures and equipment (“FF&E”) for our corporate office.

Other Revenue and Expense. Other revenue and expense consists of the following:

- Interest and other income, which includes interest we have earned on our restricted and unrestricted cash accounts, as well as any energy or other rebates we have received, any miscellaneous income or any gains or losses we have recognized on sales or redemptions of assets other than real estate investments;
- Interest expense, which includes interest expense incurred on our outstanding fixed and variable rate debt and capital lease obligation, gains or losses on derivatives, amortization of deferred financing fees, and any loan fees incurred on our debt;
- Loss on extinguishment of debt, which includes losses recognized on amendments or early repayments of mortgages or other debt obligations from the accelerated amortization of deferred financing fees, along with any costs incurred;

Table of Contents

- Gain on sale of assets, which includes the gains we recognized on our sales of the Sheraton Cerritos in May 2016, the Fairmont Newport Beach in February 2017 and the Marriott Park City in June 2017, as none of these sales qualified as a discontinued operation;
- Income tax provision, which includes federal and state income taxes related to continuing operations charged to the Company net of any refunds received, and any adjustments to unrecognized tax positions, along with any related interest and penalties incurred;
- Income from consolidated joint venture attributable to noncontrolling interest, which includes net income attributable to the outside 25.0% interest in the joint venture that owns the Hilton San Diego Bayfront; and
- Preferred stock dividends and redemption charge, which includes dividends accrued on our Series D Cumulative Redeemable Preferred Stock (“Series D preferred stock”) until its redemption in April 2016, as well as dividends accrued on our Series E Cumulative Redeemable Preferred Stock (“Series E preferred stock”) and our Series F Cumulative Redeemable Preferred Stock (“Series F preferred stock”), both of which were issued in 2016, along with any redemption charges for perpetual stock redemptions made in excess of net carrying value.

Operating Performance Indicators. The following performance indicators are commonly used in the hotel industry:

- Occupancy, which is the quotient of total rooms sold divided by total rooms available;
- Average daily room rate, or ADR, which is the quotient of room revenue divided by total rooms sold;
- Revenue per available room, or RevPAR, which is the product of occupancy and ADR, and does not include food and beverage revenue, or other operating revenue;
- Comparable RevPAR, which we define as the RevPAR generated by hotels we owned as of the end of the reporting period, but excluding those hotels that we classified as held for sale, those hotels that are undergoing a material renovation or repositioning and those hotels whose room counts have materially changed during either the current or prior year. For hotels that were not owned for the entirety of the comparison periods, comparable RevPAR is calculated using RevPAR generated during periods of prior ownership. We refer to this subset of our hotels used to calculate comparable RevPAR as our “Comparable Portfolio.” Currently, our Comparable Portfolio includes all of the 26 hotels;
- RevPAR index, which is the quotient of a hotel’s RevPAR divided by the average RevPAR of its competitors, multiplied by 100. A RevPAR index in excess of 100 indicates a hotel is achieving higher RevPAR than the average of its competitors. In addition to absolute RevPAR index, we monitor changes in RevPAR index;

Edgar Filing: Sunstone Hotel Investors, Inc. - Form 10-Q

- EBITDA, which is net income (loss), excluding: noncontrolling interests; interest expense; benefit or provision for income taxes, including any changes to deferred tax assets or the valuation allowance, and income taxes applicable to the sale of assets; and depreciation and amortization;
- Adjusted EBITDA, which is EBITDA adjusted to exclude: amortization of deferred stock compensation; the impact of any gain or loss from asset sales; impairment charges; prior year property tax assessments or credits; and any other nonrecurring identified adjustments;
- Funds from operations (“FFO”) attributable to common stockholders, which is net income (loss), excluding: preferred stock dividends and any redemption charges; noncontrolling interests; gains and losses from sales of property; real estate-related depreciation and amortization (excluding amortization of deferred financing costs); and real estate-related impairment losses; and
- Adjusted FFO attributable to common stockholders, which is FFO attributable to common stockholders adjusted to exclude: penalties; written-off deferred financing costs; non-real estate-related impairment losses; income tax benefits or provisions associated with any changes to deferred tax assets or the valuation allowance, the application of net operating loss carryforwards and uncertain tax positions; and any other nonrecurring identified adjustments.

Table of Contents

Factors Affecting Our Operating Results. The primary factors affecting our operating results include overall demand for hotel rooms, the pace of new hotel development, or supply, and the relative performance of our operators in increasing revenue and controlling hotel operating expenses.

- Demand. The demand for lodging generally fluctuates with the overall economy. In aggregate, demand for our hotels has improved each year since 2010. In 2016, Comparable Portfolio RevPAR, which was affected by significant repositionings at both the Boston Park Plaza and the Wailea Beach Resort, increased 0.7% as compared to 2015, with a 40 basis point decrease in occupancy. With these two significant repositionings complete, our second quarter and year-to-date Comparable Portfolio RevPAR increased 2.5% and 3.9%, respectively, in 2017 as compared to the same periods in 2016. Occupancy decreased 60 basis points and 30 basis points during the three and six months ended June 30, 2017 as compared to the same periods in 2016.
- Supply. The addition of new competitive hotels affects the ability of existing hotels to absorb demand for lodging and, therefore, impacts the ability to drive RevPAR and profits. The development of new hotels is largely driven by construction costs and expected performance of existing hotels. In aggregate, we expect the U.S. hotel supply to increase over the near term. On a market-by-market basis, some markets may experience new hotel room openings at or greater than historic levels, including in Chicago, Houston, Los Angeles, New York City and Washington DC where there are currently higher-than-average supplies of new hotel room openings. Additionally, an increase in the supply of vacation rental or sharing services such as Airbnb also affects the ability of existing hotels to absorb demand for lodging.
- Revenues and expenses. We believe that marginal improvements in RevPAR index, even in the face of declining revenues, are a good indicator of the relative quality and appeal of our hotels, and our operators' effectiveness in maximizing revenues. Similarly, we also evaluate our operators' effectiveness in minimizing incremental operating expenses in the context of increasing revenues or, conversely, in reducing operating expenses in the context of declining revenues.

With respect to improving RevPAR index, we continue to work with our hotel operators to optimize revenue management initiatives while taking into consideration market demand trends and the pricing strategies of competitor hotels in our markets. We also develop capital investment programs designed to ensure each of our hotels is well renovated and positioned to appeal to groups and individual travelers fitting target guest profiles. Increased capital investment in our properties may lead to short-term revenue disruption and negatively impact RevPAR index. Our revenue management initiatives are generally oriented towards maximizing ADR even if the result may be lower occupancy than may be achieved through lower ADR. Increases in RevPAR attributable to increases in ADR may be accompanied by minimal additional expenses, while increases in RevPAR attributable to higher occupancy may result in higher variable expenses such as housekeeping, labor and utilities expense. Our Comparable Portfolio RevPAR index increased 100 basis points during the first six months of 2017 as compared to the same period in 2016. The increase in our Comparable Portfolio RevPAR index was due in part to increased rates at our Boston Park Plaza and Wailea Beach Resort post-repositioning and at our Hyatt Regency Newport Beach due to less competition from area hotels under renovation, along with a strong group base that allowed the hotel to increase rates. These increases were partially offset by decreased rates at our Courtyard by Marriott Los Angeles and Renaissance Los Angeles Airport due to increased competition from area hotels that were under renovation during the first six months of 2016, and at our New Orleans hotels due to a weak 2017 convention calendar.

We continue to work with our operators to identify operational efficiencies designed to reduce expenses while minimally affecting guest experience and hotel employee satisfaction. Key asset management initiatives include optimizing hotel staffing levels, increasing the efficiency of the hotels, such as installing energy efficient management and inventory control systems, and selectively combining certain food and beverage outlets. Our operational efficiency initiatives may be difficult to implement, as most categories of variable operating expenses, such as utilities and housekeeping labor costs, fluctuate with changes in occupancy. Furthermore, our hotels operate with significant fixed costs, such as general and administrative expense, insurance, property taxes, and other expenses associated with owning hotels, over which our operators have little control. We have experienced, either currently or in the past, increases in hourly wages, employee benefits (especially health insurance), utility costs and property insurance, which have negatively affected our operating margins. Moreover, there are limits to how far our operators can reduce expenses without affecting brand standards or the competitiveness of our hotels.

Room revenue. Room revenue decreased \$0.5 million, or 0.2%, for the three months ended June 30, 2017 as compared to the three months ended June 30, 2016 as follows:

The decrease in room revenue during the second quarter of 2017 as compared to the same period in 2016 was due to our sales of the Sheraton Cerritos in May 2016, the Fairmont Newport Beach in February 2017 and the Marriott Park City in June 2017 (the “Three Sold Hotels”). The sale of the Three Sold Hotels caused room revenue to decrease by \$6.3 million in the second quarter of 2017 as compared to the same period in 2016.

Room revenue generated by the 26 hotels we owned as of June 30, 2017 (our “Existing Portfolio”), increased \$5.8 million during the second quarter of 2017 as compared to the same period in 2016 due to an increase in ADR (\$7.3 million), partially offset by a decrease in occupancy (\$1.5 million). The increase in ADR was primarily driven by double digit ADR growth post-repositioning at both the Boston Park Plaza and the Wailea Beach Resort, and by strong demand at the Marriott Boston Long Wharf. During the second quarter of 2016, a combined total of 10,512 room nights were out of service at the Boston Park Plaza and the Wailea Beach Resort, displacing approximately \$2.5 million in room revenue based on the hotels achieving a potential combined 87.2% occupancy rate and combined RevPAR of \$201.83 without the renovations. These increases in ADR were partially offset by weak convention calendars in both Baltimore and New Orleans, a weak energy market in Houston, and increased competition in both Chicago and New York City. In addition, ADR decreased in San Francisco due to a lack of group room night demand in the city (or “compression”) caused by a significant renovation at the Moscone Convention Center, which led to a market-wide change in strategy to lower rates in order to increase transient occupancy.

The decrease in our Existing Portfolio’s occupancy during the second quarter of 2017 as compared to the same period in 2016 was caused by 11,460 fewer group room nights, partially offset by 6,222 more transient room nights. Group room nights decreased in Baltimore and New Orleans due to weak convention calendars, and in Orlando due to the

calendar shift moving Easter from the first quarter last year to the second quarter this year. In addition, group room nights in San Francisco decreased due to fewer conventions during the second quarter of 2017 as compared to the same period in 2016 due to the significant renovation occurring at the Moscone Convention Center, and in Houston due to a weak energy market. These decreases were partially offset by increases in group room nights at both the Boston Park Plaza and the Wailea Beach Resort post-repositioning, at the Hilton San Diego Bayfront due to a stronger convention calendar this year and at the Hyatt Regency Newport Beach due to the addition of several new groups at the hotel this year. While weak convention calendars and the Easter calendar shift negatively affected both ADR and group room nights at some of our hotels, the shift benefited the transient market at our New Orleans, Orlando, San Francisco and Wailea hotels, where transient room nights increased during the second quarter of 2017 as compared to the same period in 2016. These increases were partially offset by decreases in transient room nights at our Houston hotels due to a weak energy market combined with a decline in contract business.

Room revenue increased \$2.5 million, or 0.6%, for the six months ended June 30, 2017 as compared to the six months ended June 30, 2016 as follows:

Room revenue generated by our Existing Portfolio, increased \$13.8 million during the first half of 2017 as compared to the same period in 2016 due to an increase in ADR (\$15.2 million), partially offset by a decrease in occupancy (\$1.4 million). The increase in ADR was primarily driven by strong demand, allowing for double-digit ADR growth in San Diego and Washington DC. In addition, both the Renaissance Washington DC and the Marriott Tysons Corner experienced double-digit ADR growth as a result of the Presidential inauguration and the Women's March on Washington. Finally, both the Boston Park Plaza and the Wailea Beach Resort experienced double digit ADR growth post-repositioning. During the first six months of 2016, a combined total of 14,889 room nights were out of service at these two hotels, displacing approximately \$3.3 million in room revenue based on the hotels achieving a potential combined 76.6% occupancy rate and combined RevPAR of \$156.76 without the renovations. These increases in ADR were partially offset by weak markets and convention calendars in Baltimore, Houston and New Orleans, increased competition in New York City and a weak energy market in Houston.

Table of Contents

The decrease in our Existing Portfolio's occupancy during the first six months of 2017 as compared to the same period in 2016 was caused by 8,383 fewer transient room nights, combined with 5,479 fewer group room nights. Both transient and group room nights decreased at our Houston hotels due to a weak energy market combined with a decline in contract business. Transient room nights decreased due to a weak Chicago market combined with excess supply, and due to several of our hotels who pushed transient rate at the expense of occupancy. Group room nights decreased in New Orleans and San Francisco due to weak convention calendars.

The increase in our Existing Portfolio's room revenue was partially offset by the impact on revenue from our sales of the Three Sold Hotels, which caused room revenue to decrease by \$11.3 million in the first half of 2017 as compared to the same period in 2016.

Food and beverage revenue. Food and beverage revenue decreased \$2.7 million, or 3.3%, for the three months ended June 30, 2017 as compared to the three months ended June 30, 2016 as follows:

The Three Sold Hotels caused food and beverage revenue to decrease by \$3.5 million in the second quarter of 2017 as compared to the same period in 2016.

Food and beverage revenue generated by our Existing Portfolio increased \$0.8 million during the second quarter of 2017 as compared to the same period in 2016 primarily due to increased banquet and outlet revenue at the Boston Park Plaza and the Wailea Beach Resort due to additional restaurant and meeting space options available post-repositioning, as well as outlet revenue at the Hyatt Regency San Francisco due to the redesign of certain restaurant and lounge areas and the introduction of a new grab-and-go concept. In addition, banquet revenue increased during the second quarter of 2017 as compared to the same period in 2016 at the Hilton San Diego Bayfront due to a stronger convention calendar this year and at the Hyatt Regency Newport Beach due to the addition of new groups with banquet functions this year. These increases were partially offset by a temporary decrease in outlet revenue due to a restaurant renovation during the second quarter of 2017 at the Marriott Quincy, and at the Renaissance Washington DC due to the leasing of a previously run outlet, along with decreased guest capture at the remaining outlets. In addition, banquet revenue decreased at the Hyatt San Francisco, the Renaissance Orlando at SeaWorld® and the Houston hotels due to the decrease in group room nights. Also, room service revenue decreased at the Hilton Times Square due to the suspension of this dining option and at the Hyatt Regency San Francisco due to the restructuring of this dining option.

Food and beverage revenue increased \$1.6 million, or 1.0%, for the six months ended June 30, 2017 as compared to the six months ended June 30, 2016 as follows:

Food and beverage revenue generated by our Existing Portfolio increased \$6.9 million during the first six months of 2017 as compared to the same period in 2016 primarily due to increased banquet and outlet revenue at the Boston

Park Plaza and the Wailea Beach Resort due to additional restaurant and meeting space options available post-repositioning, and the Hyatt Regency San Francisco due to the redesign of certain restaurant and lounge areas and the introduction of a new grab-and-go concept. In addition, banquet revenue increased during the first half of 2017 as compared to the same period in 2016 at the Hilton San Diego Bayfront due to a stronger convention calendar this year and at the Hyatt Regency Newport Beach due to the addition of new groups with banquet functions this year. These increases were partially offset by temporary decreases in outlet revenue due to restaurant renovations during the first six months of 2017 at the Marriott Quincy and the Renaissance Los Angeles Airport, as well as decreased banquet revenue at the Marriott Quincy due to renovation of the function space during the first quarter of 2017, and at the Hilton Times Square due to the elimination of meeting space during the second half of 2016. In addition, room service revenue decreased at the Hilton Times Square due to the suspension of this dining option and at the Hyatt Regency San Francisco due to the restructuring of this dining option.

The increase in our Existing Portfolio's food and beverage revenue was partially offset by the Three Sold Hotels, which caused food and beverage revenue to decrease by \$5.3 million in the first half of 2017 as compared to the same period in 2016.

Other operating revenue. Other operating revenue decreased \$0.2 million, or 1.0%, for the three months ended June 30, 2017 as compared to the three months ended June 30, 2016 as follows:

The Three Sold Hotels caused other operating revenue to decrease by \$0.6 million in the second quarter of 2017 as compared to the same period in 2016.

Other operating revenue in our Existing Portfolio increased \$0.4 million for the three months ended June 30, 2017 as compared to the same period in 2016, primarily due to our managers taking a more aggressive stance on collecting attrition and cancellation revenues, along with increased resort fees. These increases in other operating revenue were partially offset by decreases in parking revenue, telephone/internet revenue and commissions.

Other operating revenue decreased \$1.1 million, or 3.2%, for the six months ended June 30, 2017 as compared to the six months ended June 30, 2016 as follows:

Table of Contents

Other operating revenue in our Existing Portfolio decreased \$0.2 million for the six months ended June 30, 2017 as compared to the same period in 2016, primarily due to decreases in parking revenue, resort fees, telephone/internet revenue, tenant lease revenue and commissions. These decreases in other operating revenue during the first six months of 2017 as compared to the same period in 2016 were partially offset by increased retail revenue at the Wailea Beach Resort, combined with increases in attrition and cancellation revenue.

The Three Sold Hotels caused other operating revenue to decrease by \$0.9 million in the first half of 2017 as compared to the same period in 2016.

Hotel operating expenses. Hotel operating expenses, which are comprised of room, food and beverage, advertising and promotion, repairs and maintenance, utilities, franchise costs, property tax, ground lease and insurance, and other hotel operating expenses remained relatively flat during the three months ended June 30, 2017 as compared to the three months ended June 30, 2016 as increased expenses in our Existing Portfolio were offset by decreases caused by the Three Sold Hotels as follows:

Hotel operating expenses in our Existing Portfolio increased \$6.3 million during the three months ended June 30, 2017 as compared to the same period in 2016. This increase is primarily related to the corresponding increases in room revenue, food and beverage revenue and retail revenue. In addition, hotel operating expenses in our Existing Portfolio increased in the second quarter of 2017 as compared to the same period in 2016 due to the following increased expenses: advertising and promotion at both the Boston Park Plaza and the Wailea Beach Resort to promote the hotels post-repositioning; repairs and maintenance due to increased payroll and related costs in this department, along with increased building maintenance; utilities due to increased water and sewer costs; franchise costs due to the increase in revenues; property taxes as the decreased assessments received at our three Chicago hotels during the second quarter of 2017 were less than the decreased assessments received at these hotels during the second quarter of 2016; and Hawaii general excise tax (“GET”) due to higher revenue at the Wailea Beach Resort post-repositioning. These increases in hotel operating expenses were partially offset by the following decreased expenses: property insurance due to a credit received when the plan year ended in June 2017; and building rent at the Hyatt Centric Chicago Magnificent Mile due to an operating expense credit received from the landlord in the second quarter of 2017.

The Three Sold Hotels caused hotel operating expenses to decrease by \$6.3 million in the second quarter of 2017 as compared to the same period in 2016.

Hotel operating expenses decreased \$3.6 million, or 1.1%, during the six months ended June 30, 2017 as compared to the six months ended June 30, 2016 as follows:

The Three Sold Hotels caused hotel operating expenses to decrease by \$11.0 million in the first six months of 2017 as compared to the same period in 2016.

Hotel operating expenses in our Existing Portfolio increased \$7.4 million during the six months ended June 30, 2017 as compared to the same period in 2016 primarily due to the same reasons noted above in the discussion regarding the second quarter, with two exceptions: building rent at the Hyatt Centric Chicago Magnificent Mile increased during the first six months of 2017 as compared to the same period in 2016 as the operating expense credit received from the landlord was less in 2017 than it was in 2016; and utilities decreased during the first six months of 2017 as compared to the same period in 2016 due to decreased electricity costs.

Other property-level expenses. Other property-level expenses decreased \$2.2 million, or 5.8%, during the three months ended June 30, 2017 as compared to the three months ended June 30, 2016 as follows:

Other property-level expenses in our Existing Portfolio decreased \$0.9 million in the second quarter of 2017 as compared to the same period in 2016, primarily due to decreased legal fees as we recognized a \$1.0 million lease termination fee in the second quarter of 2016, combined with decreased contract and professional fees and purchase rebates. These decreases were partially offset by increases in the following expenses caused by higher revenue: management fees; supplies; payroll and related costs; licenses and permits; and credit and collection expenses.

The Three Sold Hotels caused other property-level expenses to decrease by \$1.3 million in the second quarter of 2017 as compared to the same period in 2016.

Other property-level expenses decreased \$2.2 million, or 3.0%, during the six months ended June 30, 2017 as compared to the six months ended June 30, 2016 as follows:

The Three Sold Hotels caused other property-level expenses to decrease by \$2.3 million in the first half of 2017 as compared to the same period in 2016.

Table of Contents

Other property-level expenses in our Existing Portfolio increased \$0.1 million in the first half of 2017 as compared to the same period in 2016, primarily due to increases in the following expenses caused by higher revenue: management fees; supplies; credit and collection expenses; payroll and related costs; and employee relocation, recruitment and training. Partially offsetting these increased expenses, legal fees decreased during the first half of 2017 as compared to the same period in 2016 as we recognized a \$1.0 million lease termination fee in the second quarter of 2016, combined with decreased contract and professional fees and purchase rebates.

Corporate overhead expense. Corporate overhead expense increased \$0.8 million, or 11.2%, during the three months ended June 30, 2017 as compared to the three months ended June 30, 2016, primarily due to increased due diligence costs, the majority of which relates to our purchase of the Oceans Edge Hotel & Marina in July 2017, combined with increased deferred stock compensation expense and employee relations and recruitment expense.

Corporate overhead expense increased \$0.8 million, or 6.1%, during the six months ended June 30, 2017 as compared to the six months ended June 30, 2016, primarily due to the same reasons noted above in the discussion regarding the second quarter, combined with increased GET recognized during the first quarter of 2017 related to a \$5.0 million performance guarantee provided by the manager of the Wailea Beach Resort. These increases in corporate overhead expense during the first six months of 2017 as compared to the same period in 2016 were partially offset by decreased payroll and related costs, as well as decreased legal fees.

Depreciation and amortization expense. Depreciation and amortization expense decreased \$1.2 million, or 2.8%, during the three months ended June 30, 2017 as compared to the three months ended June 30, 2016 as follows:

The Three Sold Hotels caused depreciation and amortization to decrease by \$1.5 million in the second quarter of 2017 as compared to the same period in 2016.

Depreciation and amortization expense in our Existing Portfolio increased \$0.3 million in the second quarter of 2017 as compared to the same period in 2016, due to additional depreciation recognized at the Boston Park Plaza and the Wailea Beach Resort post-repositioning, partially offset by decreases in depreciation due to fully depreciated assets.

Depreciation and amortization expense decreased \$0.4 million, or 0.5%, during the six months ended June 30, 2017 as compared to the six months ended June 30, 2016 as follows:

The Three Sold Hotels caused depreciation and amortization to decrease by \$2.9 million in the first half of 2017 as compared to the same period in 2016.

Depreciation and amortization expense in our Existing Portfolio increased \$2.5 million in the first half of 2017 as compared to the same period in 2016, due to the same reasons noted above in the discussion regarding the second quarter.

Interest and other income. Interest and other income increased \$0.5 million, or 139.2%, during the three months ended June 30, 2017 as compared to the three months ended June 30, 2016. During the second quarter of 2017, we recognized \$0.7 million in interest and miscellaneous income and \$0.1 million in energy rebates due to energy efficient renovations at our hotels. In the second quarter of 2016, we recognized \$0.3 million in interest and miscellaneous income and \$0.1 million in energy rebates due to energy efficient renovations at our hotels.

Interest and other income increased \$0.7 million, or 86.0%, during the six months ended June 30, 2017 as compared to the six months ended June 30, 2016. During the first six months of 2017, we recognized \$1.1 million in interest and miscellaneous income, and \$0.2 million in energy rebates due to energy efficient renovations at our hotels. In addition, we recognized \$0.3 million in earn-out proceeds related to the Royal Palm Miami Beach, which we sold in 2011. With the receipt of the \$0.3 million during the first quarter of 2017, the earn-out is complete. In the first six months of 2016, we recognized \$0.5 million in interest and miscellaneous income and \$0.3 million in energy rebates due to energy efficient renovations at our hotels.

Interest expense. We incurred interest expense as follows (in thousands):

	Three Months Ended		Six Months Ended	
	June 30, 2017	2016	June 30, 2017	2016
Interest expense on debt and capital lease obligations	\$ 11,499	\$ 12,541	\$ 22,827	\$ 25,594
Loss on derivatives, net	1,006	2,782	349	9,184

	\$ 13,084	\$ 15,872	\$ 24,333	\$ 35,882

Table of Contents

Interest expense decreased \$2.8 million, or 17.6%, during the three months ended June 30, 2017 as compared to the three months ended June 30, 2016, and decreased \$11.5 million, or 32.2%, during the six months ended June 30, 2017 as compared to the six months ended June 30, 2016. Interest expense on our debt and capital lease obligations decreased \$1.0 million and \$2.8 million during the three and six months ended June 30, 2017, respectively, as compared to the same periods in 2016 as a result of lower balances due to monthly amortization and loan repayments during 2016 and 2017. Partially offsetting these decreases, interest expense on our debt and capital lease obligations increased due to higher interest on our variable rate debt, as well as interest on our Senior Notes issued in January 2017. In addition, changes in the fair market values of our derivatives decreased interest expense \$1.8 million and \$8.8 million during the three and six months ended June 30, 2017, respectively, as compared to the same periods in 2016. Finally, while amortization of deferred financing fees remained relatively flat in the second quarter of 2017 as compared to the same period in 2016, amortization of deferred financing fees increased interest expense by \$0.1 million during the six months ended June 30, 2017 as compared to the same period in 2016 due to additional fees incurred on our Senior Notes issued in January 2017.

Our weighted average interest rate per annum, including our variable rate debt obligation, was approximately 4.3% at both June 30, 2017 and 2016, respectively. Approximately 77.8% of our outstanding notes payable had fixed interest rates at both June 30, 2017 and 2016.

For information regarding our 2017 debt transactions, see the discussion included in “Liquidity and Capital Resources-Debt.”

Loss on extinguishment of debt. Loss on extinguishment of debt totaled zero and \$0.2 million for the three months ended June 30, 2017 and 2016, respectively, and \$4,000 and \$0.3 million for the six months ended June 30, 2017 and 2016, respectively. During the first six months of 2017, we recognized a loss of \$4,000 related to our repayment of debt secured by the Marriott Boston Long Wharf. During the first six months of 2016, we recognized losses of \$0.1 million during the first quarter and \$0.2 million during the second quarter related to our repayments of debt secured by the Boston Park Plaza and the Renaissance Orlando at SeaWorld®, respectively.

Gain on sale of assets. Gain on sale of assets totaled \$1.2 million and \$45.5 million for the three and six months ended June 30, 2017, respectively, and \$18.2 million for both the three and six months ended June 30, 2016. During the first six months of 2017, we recognized a \$44.3 million net gain on the sale of the Fairmont Newport Beach during the first quarter, and a \$1.2 million net gain on the sale of the Marriott Park City during the second quarter. Neither of these sales qualified as a discontinued operation. During the three and six months ended June 30, 2016, we recognized an \$18.2 million net gain on the sale of the Sheraton Cerritos, which did not qualify as a discontinued operation.

Income tax provision. Income tax provision totaled \$0.2 million for both the three months ended June 30, 2017 and 2016, and \$0.5 million for both the six months ended June 30, 2017 and 2016. We lease our hotels to the TRS Lessee and its subsidiaries, which are subject to federal and state income taxes. In addition, the REIT and Operating Partnership may also be subject to various state and local income taxes. During the second quarter and first six months

of 2017, we recognized combined federal and state income tax expense of \$0.2 million and \$0.5 million, respectively, based on 2017 projected taxable income net of operating loss carryforwards for our taxable entities. During the second quarter and first six months of 2016, we recognized combined federal and state income tax expense of \$0.2 million and \$0.5 million, respectively, based on 2016 projected taxable income net of operating loss carryforwards for our taxable entities.

Income from consolidated joint venture attributable to noncontrolling interest. Income from consolidated joint venture attributable to noncontrolling interest totaled \$2.2 million and \$1.7 million for the three months ended June 30, 2017 and 2016, respectively, and \$4.2 million and \$3.3 million for the six months ended June 30, 2017 and 2016, respectively. Consistent with the Presentation Topic of the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”), our net income for the three and six months ended June 30, 2017 and 2016 includes 100% of the net income generated by the entity that owns the Hilton San Diego Bayfront. The outside 25.0% interest in the entity that owns the Hilton San Diego Bayfront earned net income of \$2.2 million and \$1.7 million during the second quarter of 2017 and 2016, respectively, and \$4.2 million and \$3.3 million for the six months ended June 30, 2017 and 2016, respectively.

Preferred stock dividends and redemption charge. Preferred stock dividends and redemption charge were incurred as follows (in thousands):

We redeemed all 4,600,000 shares of our Series D preferred stock in April 2016. We recorded a redemption charge of \$4.1 million during the second quarter of 2016 related to the original issuance costs of these shares, which were previously included in additional paid in capital. In March 2016, we issued 4,600,000 shares of Series E preferred stock, and in May 2016, we issued 3,000,000 shares of Series F preferred stock.

Non-GAAP Financial Measures. We use the following “non-GAAP financial measures” that we believe are useful to investors as key supplemental measures of our operating performance: EBITDA, Adjusted EBITDA, FFO attributable to common stockholders, Adjusted FFO attributable to common stockholders and Comparable Portfolio revenues. These measures should not be considered in isolation or as a substitute for measures of performance in accordance with GAAP. EBITDA, Adjusted EBITDA, FFO attributable to common stockholders, Adjusted FFO attributable to common stockholders and Comparable Portfolio revenues, as calculated by us, may not be comparable to other companies that do not define such terms exactly as the Company. These non-GAAP measures are used in addition to and in conjunction with results presented in accordance with GAAP. They should not be considered as alternatives to operating profit, cash flow from operations, or any other operating performance measure prescribed by GAAP. These non-GAAP financial measures reflect additional ways of viewing our operations that we believe, when viewed with our GAAP results and the reconciliations to the corresponding GAAP financial measures, provide a more complete understanding of factors and trends affecting our business than could be obtained absent this disclosure. For example, we believe that Comparable Portfolio revenues are useful to both us and investors in evaluating our operating performance by removing the impact of non-hotel results such as the amortization of favorable and unfavorable tenant lease contracts. We also believe that our use of Comparable Portfolio revenues is useful to both us and our investors as it facilitates the comparison of our operating results from period to period by removing fluctuations caused by any acquisitions or dispositions, as well as by those hotels that we classify as held for sale, those hotels that are undergoing a material renovation or repositioning and those hotels whose room counts have materially changed during either the current or prior year. We strongly encourage investors to review our financial information in its entirety and not to rely on a single financial measure.

EBITDA and Adjusted EBITDA are commonly used measures of performance in many industries. We believe EBITDA and Adjusted EBITDA are useful to investors in evaluating our operating performance because these measures help investors evaluate and compare the results of our operations from period to period by removing the impact of our capital structure (primarily interest expense) and our asset base (primarily depreciation and amortization) from our operating results. We also believe the use of EBITDA and Adjusted EBITDA facilitate comparisons between us and other lodging REITs, hotel owners who are not REITs and other capital-intensive companies. In addition, certain covenants included in our indebtedness use EBITDA as a measure of financial compliance. We also use EBITDA and Adjusted EBITDA as measures in determining the value of hotel acquisitions and dispositions.

Historically, we have adjusted EBITDA when evaluating our performance because we believe that the exclusion of certain additional items described below provides useful information to investors regarding our operating performance, and that the presentation of Adjusted EBITDA, when combined with the primary GAAP presentation of net income, is beneficial to an investor’s complete understanding of our operating performance. We adjust EBITDA for the following items, which may occur in any period, and refer to this measure as Adjusted EBITDA:

- Amortization of deferred stock compensation: we exclude the noncash expense incurred with the amortization of deferred stock compensation as this expense is based on historical stock prices at the date of grant to our corporate employees and does not reflect the underlying performance of our hotels.
- Amortization of favorable and unfavorable contracts: we exclude the noncash amortization of the favorable management contract asset recorded in conjunction with our acquisition of the Hilton Garden Inn Chicago Downtown/Magnificent Mile, along with the favorable and unfavorable tenant lease contracts, as applicable, recorded in conjunction with our acquisitions of the Boston Park Plaza, the Hilton Garden Inn Chicago Downtown/Magnificent Mile, the Hilton New Orleans St. Charles, the Hyatt Regency San Francisco and the Wailea Beach Resort. We exclude the noncash amortization of favorable and unfavorable contracts because it is based on historical cost accounting and is of lesser significance in evaluating our actual performance for the current period.
- Ground rent adjustments: we exclude the noncash expense incurred from straight-lining our ground lease obligations as this expense does not reflect the actual rent amounts due to the respective lessors in the current period and is of lesser significance in evaluating our actual performance for the current period. We do, however, include an adjustment for the cash ground lease expense recorded on the Hyatt Centric Chicago Magnificent Mile's building lease. Upon acquisition of this hotel, we determined that the building lease was a capital lease, and, therefore, we include a portion of the capital lease payment each month in interest expense. We include an adjustment for ground lease expense on capital leases in order to more accurately reflect the actual rent due to the hotel's lessor in the current period, as well as the operating performance of the Hyatt Centric Chicago Magnificent Mile.
- Real estate transactions: we exclude the effect of gains and losses on the disposition of depreciable assets because we believe that including them in Adjusted EBITDA is not consistent with reflecting the ongoing performance of our assets.

Table of Contents

In addition, material gains or losses from the depreciated value of the disposed assets could be less important to investors given that the depreciated asset value often does not reflect its market value.

- Gains or losses from debt transactions: we exclude the effect of finance charges and premiums associated with the extinguishment of debt, including the acceleration of deferred financing costs from the original issuance of the debt being redeemed or retired because, like interest expense, their removal helps investors evaluate and compare the results of our operations from period to period by removing the impact of our capital structure.
- Acquisition costs: under GAAP, costs associated with completed acquisitions that meet the definition of a business in accordance with the Business Combinations Topic of the FASB ASC are expensed in the year incurred. We exclude the effect of these costs because we believe they are not reflective of the ongoing performance of the Company or our hotels.
- Noncontrolling interest: we deduct the noncontrolling partner's pro rata share of any EBITDA adjustments related to our consolidated Hilton San Diego Bayfront partnership.
- Cumulative effect of a change in accounting principle: from time to time, the FASB promulgates new accounting standards that require the consolidated statement of operations to reflect the cumulative effect of a change in accounting principle. We exclude these one-time adjustments, which include the accounting impact from prior periods, because they do not reflect our actual performance for that period.
- Impairment losses: we exclude the effect of impairment losses because we believe that including them in Adjusted EBITDA is not consistent with reflecting the ongoing performance of our remaining assets. In addition, we believe that impairment charges, which are based off of historical cost account values, are similar to gains (losses) on dispositions and depreciation expense, both of which are also excluded from Adjusted EBITDA.
- Other adjustments: we exclude other adjustments that we believe are outside the ordinary course of business because we do not believe these costs reflect our actual performance for that period and/or the ongoing operations of our hotels. Such items may include: lawsuit settlement costs; prior year property tax assessments or credits; property-level restructuring, severance and management transition costs; lease terminations; and any gains or losses we have recognized on sales or redemptions of assets other than real estate investments.

Adjusted EBITDA	\$ 102,263	\$ 101,114	\$ 171,821	\$ 162,954

Adjusted EBITDA was \$102.3 million and \$101.1 million for the three months ended June 30, 2017 and 2016, respectively, and \$171.8 million and \$163.0 million for the six months ended June 30, 2017 and 2016, respectively. Adjusted EBITDA increased \$1.1 million and \$8.9 million for the three and six months ended June 30, 2017 as compared to the same periods in 2016 in part due to additional earnings generated by the Boston Park Plaza and the Wailea Beach Resort post-repositioning, combined with increased earnings at our Newport Beach, Orlando, San Diego and Washington DC hotels due to strong demand at these locales. Partially offsetting these increases, Adjusted EBITDA decreased primarily due to the sales of the Sheraton Cerritos, the Fairmont Newport Beach and the Marriott Park City, in May 2016, February 2017 and June 2017, respectively. In addition, Adjusted EBITDA was negatively

impacted during the three and six months ended June 30, 2017 by weak Baltimore, Chicago and New Orleans markets, increased competition in New York City and a weak energy market in Houston.

We believe that the presentation of FFO attributable to common stockholders provides useful information to investors regarding our operating performance because it is a measure of our operations without regard to specified noncash items such as real estate depreciation and amortization, amortization of lease intangibles, any real estate impairment loss and any gain or loss on sale of real estate assets, all of which are based on historical cost accounting and may be of lesser significance in evaluating our current performance. Our presentation of FFO attributable to common stockholders conforms to the National Association of Real Estate Investment Trusts' ("NAREIT") definition of "FFO applicable to common shares." Our presentation may not be comparable to FFO reported by other REITs that do not define the terms in accordance with the current NAREIT definition, or that interpret the current NAREIT definition differently than we do.

Table of Contents

We also present Adjusted FFO attributable to common stockholders when evaluating our operating performance because we believe that the exclusion of certain additional items described below provides useful supplemental information to investors regarding our ongoing operating performance, and may facilitate comparisons of operating performance between periods and our peer companies. We adjust FFO attributable to common stockholders for the following items, which may occur in any period, and refer to this measure as Adjusted FFO attributable to common stockholders:

- Amortization of favorable and unfavorable contracts: we exclude the noncash amortization of the favorable management contract asset recorded in conjunction with our acquisition of the Hilton Garden Inn Chicago Downtown/Magnificent Mile, along with the favorable and unfavorable tenant lease contracts, as applicable, recorded in conjunction with our acquisitions of the Boston Park Plaza, the Hilton Garden Inn Chicago Downtown/Magnificent Mile, the Hilton New Orleans St. Charles, the Hyatt Regency San Francisco and the Wailea Beach Resort. We exclude the noncash amortization of favorable and unfavorable contracts because it is based on historical cost accounting and is of lesser significance in evaluating our actual performance for the current period.
- Noncash ground rent adjustments: we exclude the noncash expense incurred from straight-lining our ground lease obligations as this expense does not reflect the actual rent amounts due to the respective lessors in the current period and is of lesser significance in evaluating our actual performance for the current period.
- Gains or losses from debt transactions: we exclude the effect of finance charges and premiums associated with the extinguishment of debt, including the acceleration of deferred financing costs from the original issuance of the debt being redeemed or retired, as well as the noncash gains or losses on our derivatives. We believe that these items are not reflective of our ongoing finance costs.
- Acquisition costs: under GAAP, costs associated with completed acquisitions that meet the definition of a business in accordance with the Business Combinations Topic of the FASB ASC are expensed in the year incurred. We exclude the effect of these costs because we believe they are not reflective of the ongoing performance of the Company or our hotels.
- Impairment losses: we exclude the effect of non-real estate impairment losses because we believe that including them in Adjusted FFO attributable to common stockholders is not consistent with reflecting the ongoing performance of our remaining assets.
- Noncontrolling interest: we deduct the noncontrolling partner's pro rata share of any FFO adjustments related to our consolidated Hilton San Diego Bayfront partnership.
 - Other adjustments: we exclude other adjustments that we believe are outside the ordinary course of business because we do not believe these costs reflect our actual performance for that period and/or the ongoing operations of our hotels. Such items may include: lawsuit settlement costs; prior year property tax assessments or credits; changes to deferred tax assets or the valuation allowance; property-level restructuring, severance and management transition costs; lease terminations; any gains or losses we

have recognized on redemptions of assets other than real estate investments; and income tax benefits or provisions associated with the application of net operating loss carryforwards, uncertain tax positions or with the sale of assets other than real estate investments.

Adjusted FFO attributable to common stockholders was \$84.9 million and \$83.2 million for the three months ended June 30, 2017 and 2016, respectively, and \$138.0 million and \$127.4 million for the six months ended June 30, 2017 and 2016, respectively. Adjusted FFO attributable to common stockholders increased \$1.7 million and \$10.6 million in the three and six months ended June 30, 2017 as compared to the same periods in 2016 primarily due to the same reasons noted in the discussion regarding Adjusted EBITDA. In addition, Adjusted FFO attributable to common stockholders increased in the three and six months ended June 30, 2017 as compared to the same periods in 2016 due to a decrease in interest expense.

Investing Activities

Acquisitions. We did not acquire any hotels during either the three or six months ended June 30, 2017 and 2016. In July 2017, we acquired the 175-room Oceans Edge Hotel & Marina located in Key West, Florida for a contractual purchase price of \$175.0 million. The newly constructed and recently opened fee simple hotel also includes a marina, wet and dry boat slips and a marina fuel station. We funded the acquisition with available cash on hand, including proceeds from the recent sales of the Marriott Park City and the Fairmont Newport Beach, as well as net proceeds received from our recent equity issuances under our ATM Agreements.

While our primary focus is on acquiring urban and resort upper upscale hotels, our acquisition program is aimed at generating attractive risk-adjusted returns on our investment dollars, and therefore we may target lodging assets outside of the typical branded, urban, upper upscale and resort profile represented by our Existing Portfolio in order to capitalize on opportunities which may arise. We intend to select the brandings and operators for our hotels that we believe will lead to the highest returns. Additionally, the scope of our acquisitions program may include large hotel portfolios or hotel loans. Future acquisitions, if any, may be funded with cash on hand, by our issuance of additional debt or equity securities, including our common and preferred OP units provided that our stock price is at an attractive level, by draws on our \$400.0 million senior unsecured credit facility, or by proceeds received from sales of existing assets.

Table of Contents

Dispositions. We have from time to time divested of assets that no longer fit our target profile, will not offer long-term returns in excess of our cost of capital, will achieve a sale price in excess of our internal valuation, or that have high risk relative to their anticipated returns. In June 2017, we sold the 199-room Marriott Park City for net proceeds of \$27.0 million, and recognized a net gain on the sale of \$1.2 million. In February 2017, we sold the 444-room Fairmont Newport Beach for net proceeds of \$122.8 million, and recognized a net gain on the sale of \$44.3 million. In May 2016, we sold the 203-room Sheraton Cerritos for net proceeds of \$41.2 million, and recognized a net gain on the sale of \$18.2 million. None of these sales represented a strategic shift that had a major impact on our business plan or our primary markets; therefore, none of these sales qualified as a discontinued operation.

Renovations. We invested \$59.5 million and \$100.0 million in capital improvements to our hotel portfolio during the six months ended June 30, 2017 and 2016, respectively. Consistent with our strategy, during the first six months of 2017 and 2016, we undertook major renovations, repositionings and ordinary course rooms, restaurants and public space renovations. Year-to-date, none of our 2017 renovations caused room revenue disruption; however, during the three and six months ended June 30, 2016 our repositioning of the Boston Park Plaza and the Wailea Beach Resort caused room revenue disruption of approximately \$2.5 million and \$3.3 million, respectively, all of which was in line with our expectations.

Liquidity and Capital Resources

During the periods presented, our sources of cash included our operating activities and working capital, as well as proceeds from our sales of the Three Sold Hotels, sales of other assets, our term loan agreement drawn in January 2016, our Senior Notes, our ATM common stock issuances and our preferred stock offering. Our primary uses of cash were for capital expenditures for hotels, operating expenses, acquisitions of assets, repayment of notes payable, dividends and distributions on our common and preferred stock and distributions to our joint venture partner. We cannot be certain that traditional sources of funds will be available in the future.

Operating activities. Our net cash provided by or used in operating activities fluctuates primarily as a result of changes in RevPAR and the operating cash flow of our hotels. Our net cash provided by or used in operating activities may also be affected by changes in our portfolio resulting from hotel acquisitions, dispositions or renovations. Net cash provided by operating activities was \$154.3 million for the six months ended June 30, 2017 as compared to \$149.2 million for the six months ended June 30, 2016. The net increase to cash provided by operating activities during the first six months of 2017 was primarily due to increased cash generated by our hotels, most significantly at the Boston Park Plaza and the Wailea Beach Resort post-repositioning, partially offset by decreased cash generated due to our sales of the Three Sold Hotels.

Investing activities. Our net cash provided by or used in investing activities fluctuates primarily as a result of acquisitions, dispositions and renovations of hotels. Net cash provided by or used in investing activities during the first six months of 2017 as compared to the first six months of 2016 was as follows (in thousands):

	Six Months Ended June 30, 2017	Six Months Ended June 30, 2016
Proceeds from sales of assets	\$ 150,155	\$ 41,171

Payment for interest rate derivative	(19)	—
Net cash provided by (used in) investing activities	\$ 81,136	\$ (63,224)

Net cash provided by investing activities was \$81.1 million during the first six months of 2017 as compared to net cash used of \$63.2 million for the same period in 2016. During the first six months of 2017, we received proceeds of \$150.2 million from our sales of the Marriott Park City, the Fairmont Newport Beach and surplus FF&E, along with the earn-out proceeds received related to the sale of the Royal Palm Miami Beach. These cash inflows were partially offset as we increased our restricted cash replacement reserve accounts by \$2.5 million, paid a deposit of \$7.0 million towards our July 2017 acquisition of the Oceans Edge Hotel & Marina, paid \$59.5 million for renovations and additions to our portfolio and paid \$19,000 for an interest rate cap agreement on our variable-rate mortgage secured by the Hilton San Diego Bayfront.

During the first half of 2016, we received proceeds of \$41.2 million from our sales of the Sheraton Cerritos and surplus FF&E. These cash inflows were offset as we increased our restricted cash replacement reserve accounts by \$1.9 million, paid \$2.4 million to acquire the air rights at our Renaissance Harborplace and paid \$100.0 million for renovations and additions to our portfolio.

Financing activities. Our net cash provided by or used in financing activities fluctuates primarily as a result of our issuance of common stock, our issuance and repayment of notes payable and our credit facility, and our issuance and redemption of other forms of capital, including preferred equity. Net cash used in financing activities during the first six months of 2017 as compared to the first six months of 2016 was as follows (in thousands):

	Six Months Ended June 30, 2017	Six Months Ended June 30, 2016
Proceeds from preferred stock offerings	\$ —	\$ 190,000

Payments of costs related to extinguishment of notes payable	—	(153)

Distributions to noncontrolling interest	(3,362)	(2,800)
Net cash used in financing activities	\$ (7,638)	\$ (230,312)

Net cash used in financing activities was \$7.6 million during the first six months of 2017 as compared to \$230.3 million for the same period in 2016. Net cash used in financing activities during the first six months of 2017 consisted of the following cash outflows: \$3.8 million paid to repurchase common shares to satisfy the tax obligations in connection with the vesting of restricted common shares issued to employees; \$181.2 million in principal payments on our notes payable, including \$176.0 million for the loan secured by the Marriott Boston Long Wharf and \$5.2 million in principal payments on our notes payable; \$13,000 in deferred financing costs related to our Senior Notes and our credit facility; \$134.1 million in dividends and distributions to our common and preferred stockholders; and \$3.4 million in distributions to the noncontrolling interest in the Hilton San Diego Bayfront. These cash outflows were partially offset by net proceeds of \$74.8 million received from the issuance of our common stock, and \$240.0 million in proceeds received from the Senior Notes.

Net cash used in financing activities during the first six months of 2016 consisted of the following cash outflows: \$115.0 million paid to redeem our Series D preferred stock; \$2.6 million paid to repurchase common shares to satisfy the tax obligations in connection with the vesting of restricted common shares issued to employees; \$193.4 million in principal payments on our notes payable, including \$114.2 million for the loan secured by the Boston Park Plaza, \$72.6 million for the loan secured by the Renaissance Orlando at SeaWorld® and \$6.6 million in principal payments on our notes payable; \$0.2 million in costs paid to extinguish the loan secured by Renaissance Orlando at SeaWorld®; \$0.1 million in deferred financing costs related to our new \$100.0 million unsecured term loan; \$199.6 million in dividends and distributions to our common and preferred stockholders; and \$2.8 million in distributions to the noncontrolling interest in the Hilton San Diego Bayfront. These cash outflows were slightly offset by total net proceeds of \$183.4 million received from our preferred stock offerings, including \$111.0 million from the issuance of our Series E preferred stock and \$72.4 million from the issuance of our Series F preferred stock, and \$100.0 million in

proceeds received from our unsecured term loan.

Future. We expect our primary uses of cash to be for operating expenses, capital investments in our hotels, repayment of principal on our notes payable and credit facility, interest expense, dividends and distributions on our common and preferred stock, potential repurchases of our common stock, potential purchases of debt in other hotels, and acquisitions of hotels, including possibly hotel portfolios. We expect our primary sources of cash will continue to be our operating activities, working capital, notes payable and our credit facility, dispositions of hotel properties, and proceeds from public and private offerings of debt securities and common and preferred stock. Our financial objectives include the maintenance of our credit ratios, appropriate levels of liquidity and continued balance sheet strength. Consistent with maintaining our low leverage and balance sheet strength, in the near-term, we expect to fund future acquisitions, if any, largely through cash on hand, the issuance of common or preferred equity, provided that our stock price is at an attractive level, or by proceeds received from sales of existing assets in order to selectively grow the quality and scale of our portfolio. Our ability to raise funds through the issuance of equity securities depends on, among other things, general market conditions for hotel companies and REITs and market perceptions about us. We will continue to analyze alternate sources of capital in an effort to minimize our capital costs and maximize our financial flexibility, including pursuant to the ATM agreements we entered into in February 2017. Under the terms of the agreements, we may issue and sell from time to time through or to the managers, as sales agents and/or principals, shares of our common stock having an aggregate offering amount of up to \$300.0 million. Through June 30, 2017, we have received \$74.8 million in net proceeds from the issuance of 4,685,023 shares of our common stock in connection with the ATM Agreements, leaving \$223.8 million available for sale under the ATM Agreements. However, when needed, the capital markets may not be available to us on favorable terms or at all.

Table of Contents

Cash Balance. As of June 30, 2017, our unrestricted cash balance was \$597.3 million. By minimizing our need to access external capital by maintaining higher than typical cash balances, our financial security and flexibility are meaningfully enhanced because we are able to fund our business needs (including payment of cash distributions on our common stock, if declared) and near-term debt maturities with our cash on hand. Adjusting for our purchase of the Oceans Edge Hotel & Marina in July 2017, our pro forma unrestricted cash balance would be \$422.3 million.

Debt. As of June 30, 2017, we had \$994.8 million of consolidated debt, \$663.7 million of cash and cash equivalents, including restricted cash, and total assets of \$3.8 billion. We believe that by controlling debt levels, staggering maturity dates and maintaining a highly flexible capital structure, we can maintain lower capital costs than more highly leveraged companies, or companies with limited flexibility due to restrictive corporate-level financial covenants.

The weighted average term to maturity of our debt as of June 30, 2017 is approximately 6 years, and 77.8% of our debt, including the effects of interest rate swap agreements, is fixed rate with a weighted average interest rate of 4.6%. Including our variable-rate debt obligation based on the variable rate at June 30, 2017, the weighted average interest rate on our debt is 4.3%.

As of June 30, 2017, all of our outstanding debt had fixed interest rates or had been swapped to fixed interest rates, except the \$220.7 million non-recourse mortgage on the Hilton San Diego Bayfront, which is subject to an interest rate cap agreement that caps the interest rate at 4.25% until May 2019. Our mortgage debt is in the form of single asset non-recourse loans rather than cross-collateralized multi-property pools. In addition to our mortgage debt, as of June 30, 2017, we have two unsecured corporate-level term loans as well as the Senior Notes. We currently believe this structure is appropriate for the operating characteristics of our business as it isolates risk and provides flexibility for various portfolio management initiatives, including the sale of individual hotels subject to existing debt.

Each of our 2017 year-to-date debt transactions is discussed below.

In January 2017, we received proceeds of \$240.0 million in a private placement of the Senior Notes. The private placement consisted of the Series A Senior Notes, which includes \$120.0 million of notes bearing interest at a fixed rate of 4.69%, maturing in January 2026, and the Series B Senior Notes, which includes \$120.0 million of notes bearing interest at a fixed rate of 4.79%, maturing in January 2028.

In January 2017, we used proceeds received from the Senior Notes to repay the loan secured by the Marriott Boston Long Wharf, which had a balance of \$176.0 million and an interest rate of 5.58%. The Marriott Boston Long Wharf loan was scheduled to mature in April 2017, and was available to be repaid without penalty in January 2017.

We may in the future seek to obtain mortgages on one or all of our 21 unencumbered hotels, 15 of which are currently held by subsidiaries whose interests are pledged to our credit facility. Our 21 unencumbered hotels include: Boston Park Plaza; Courtyard by Marriott Los Angeles; Embassy Suites Chicago; Hilton Garden Inn Chicago Downtown/Magnificent Mile; Hilton New Orleans St. Charles; Hilton North Houston; Hyatt Centric Chicago Magnificent Mile; Hyatt Regency Newport Beach; Hyatt Regency San Francisco; Marriott Boston Long Wharf; Marriott Houston; Marriott Philadelphia; Marriott Portland; Marriott Quincy; Marriott Tysons Corner; Renaissance Harborplace; Renaissance Long Beach; Renaissance Los Angeles Airport; Renaissance Orlando at SeaWorld®; Renaissance Westchester; and Wailea Beach Resort. Should we obtain secured financing on any or all of our unencumbered hotels, the amount of capital available through our credit facility may be reduced.

Contractual Obligations. The following table summarizes our payment obligations and commitments as of June 30, 2017 (in thousands):

	Payment due by period				
	Total	Less Than 1 year	1 to 3 years	3 to 5 years	More than 5 years

Capital Expenditures and Reserve Funds

We believe we maintain each of our hotels in good repair and condition and in general conformity with applicable franchise and management agreements, ground, building and air leases, and laws and regulations. Our capital expenditures primarily relate to the ongoing maintenance of our hotels and are budgeted in the reserve accounts described in the following paragraph. We also incur capital expenditures for cyclical renovations, hotel repositionings and development. We invested \$59.5 million in our portfolio during the first six months of 2017. As of June 30, 2017, we have contractual construction commitments totaling \$50.3 million. If we renovate or develop additional hotels in the future, our capital expenditures will likely increase.

With respect to our hotels that are operated under management or franchise agreements with major national hotel brands and for all of our hotels subject to first mortgage liens, we are obligated to maintain an FF&E reserve account for future planned and emergency-related capital expenditures at these hotels. The amount funded into each of these reserve accounts is determined pursuant to the management, franchise and loan agreements for each of the respective hotels, ranging between zero and 5.0% of the respective hotel's total annual revenue. As of June 30, 2017, our balance sheet includes restricted cash of \$64.7 million, which was held in FF&E reserve accounts for future capital expenditures at the majority of our 26 hotels. According to certain loan agreements, reserve funds are to be held by the lenders or managers in restricted cash accounts, and we are not required to spend the entire amount in such reserve accounts each year.

Seasonality and Volatility

As is typical of the lodging industry, we experience some seasonality in our business as indicated in the table below. Revenue for certain of our hotels is generally affected by seasonal business patterns (e.g., the first quarter is strong in Orlando, the second quarter is strong for the Mid-Atlantic business hotels, and the fourth quarter is strong for New York City and Hawaii). Quarterly revenue also may be adversely affected by renovations and repositionings, our managers' effectiveness in generating business and by events beyond our control, such as extreme weather conditions, terrorist attacks or alerts, civil unrest, public health concerns, airline strikes or reduced airline capacity, economic factors and other considerations affecting travel. Revenues for our 26 hotel Comparable Portfolio by quarter for 2016 and 2017 were as follows (dollars in thousands):

	First Quarter	Second Quarter	Third Quarter	Fourth Quarter	Total
Revenues 2016:					
Total revenues	\$ 274,292	\$ 322,160	\$ 303,304	\$ 289,584	\$ 1,189,340
Sold hotel revenues (1)	(15,773)	(11,667)	(11,210)	(9,466)	(48,116)
Non-hotel revenues (2)	(121)	(99)	210	(5,066)	(5,076)

- (1) Sold hotel revenues include those generated by the Sheraton Cerritos, the Fairmont Newport Beach and the Marriott Park City, which we sold in May 2016, February 2017 and June 2017, respectively.
- (2) Non-hotel revenues include the amortization of favorable and unfavorable tenant lease contracts received in conjunction with our acquisitions of the Boston Park Plaza, the Hilton Garden Inn Downtown/Magnificent Mile, the Hilton New Orleans St. Charles, the Hyatt Regency San Francisco and the Wailea Beach Resort.
- (3) Total Comparable Portfolio revenues include those generated by our 26 hotel Comparable Portfolio.

Inflation

Inflation may affect our expenses, including, without limitation, by increasing such costs as labor, food, taxes, property and casualty insurance and utilities.

Critical Accounting Policies

Our discussion and analysis of our financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”). The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue and expenses and related disclosure of contingent assets and liabilities.

Table of Contents

We evaluate our estimates on an ongoing basis. We base our estimates on historical experience, information that is currently available to us and on various other assumptions that we believe are reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions. We believe the following critical accounting policies affect the most significant judgments and estimates used in the preparation of our consolidated financial statements.

- Impairment of long-lived assets. We periodically review each property for possible impairment. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future undiscounted net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment recognized is measured by the amount by which the carrying amount of the assets exceeds the estimated fair value of the assets. We perform a Level 3 analysis of fair value, using a discounted cash flow analysis to estimate the fair value of our properties taking into account each property's expected cash flow from operations, holding period and proceeds from the disposition of the property. The factors addressed in determining estimated proceeds from disposition include anticipated operating cash flow in the year of disposition and terminal capitalization rate. Our judgment is required in determining the discount rate applied to estimated cash flows, growth rate of the properties, operating income of the properties, the need for capital expenditures, as well as specific market and economic conditions.
- Acquisition related assets and liabilities. Accounting for the acquisition of a hotel property or other entity as a business combination requires an allocation of the purchase price to the assets acquired and the liabilities assumed in the transaction at their respective estimated fair values. The most difficult estimations of individual fair values are those involving long-lived assets, such as property, equipment, intangible assets and capital lease obligations that are assumed as part of the acquisition of a leasehold interest. When we acquire a hotel property or other entity as a business combination, we use all available information to make these fair value determinations, and engage independent valuation specialists to assist in the fair value determinations of the long-lived assets acquired and the liabilities assumed. Due to the inherent subjectivity in determining the estimated fair value of long-lived assets, we believe that the recording of acquired assets and liabilities is a critical accounting policy.
- Depreciation and amortization expense. Depreciation expense is based on the estimated useful life of our assets. The life of the assets is based on a number of assumptions, including the cost and timing of capital expenditures to maintain and refurbish our hotels, as well as specific market and economic conditions. Hotel properties and other investments are depreciated using the straight-line method over estimated useful lives primarily ranging from five to 35 years for buildings and improvements and three to 12 years for furniture, fixtures and equipment. While we believe our estimates are reasonable, a change in the estimated lives could affect depreciation expense and net income or the gain or loss on the sale of any of our hotels. We have not changed the estimated useful lives of any of our assets during the periods discussed.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

To the extent that we incur debt with variable interest rates, our future income, cash flows and fair values relevant to financial instruments are dependent upon prevailing market interest rates. Market risk refers to the risk of loss from adverse changes in market prices and interest rates. We have no derivative financial instruments held for trading purposes. We use derivative financial instruments, which are intended to manage interest rate risks.

As of June 30, 2017, 77.8% of our debt obligations are fixed in nature, which largely mitigates the effect of changes in interest rates on our cash interest payments. If the market rate of interest on our variable rate debt increases or decreases by 100 basis points, interest expense would increase or decrease, respectively, our future earnings and cash flows by approximately \$2.0 million based on the variable rate at June 30, 2017. After adjusting for the noncontrolling interest in the Hilton San Diego Bayfront, this increase or decrease in interest expense would increase or decrease, respectively, our future earnings and cash flows by \$1.5 million, based on the variable rates at June 30, 2017.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures. Based upon an evaluation of the effectiveness of disclosure controls and procedures, our Chief Executive Officer (“CEO”) and Chief Financial Officer (“CFO”) have concluded that as of the end of the period covered by this Quarterly Report on Form 10-Q our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”)) were effective to provide reasonable assurance that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified by the rules and forms of the Securities and Exchange Commission and is accumulated and communicated to management, including the CEO and CFO, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting. During our fiscal quarter to which this Quarterly Report on Form 10-Q relates, there has not occurred any change in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
