CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

Various statements contained in this Quarterly Report on Form 10-Q of American Homes 4 Rent (the “Company,” “we,” “our” and “us”), including those that express a belief, expectation or intention, as well as those that are not statements of historical fact, are forward-looking statements. These forward-looking statements may include projections and estimates concerning the timing and success of specific projects and our future revenues, income and capital spending. Our forward-looking statements are generally accompanied by words such as “estimate,” “project,” “predict,” “believe,” “expect,” “intend,” “anticipate,” “potential,” “plan,” “goal” or other words that convey the uncertainty of future events or outcomes. We have based these forward-looking statements on our current expectations and assumptions about future events. While our management considers these expectations and assumptions to be reasonable, they are inherently subject to significant business, economic, competitive, regulatory and other risks, contingencies and uncertainties, most of which are difficult to predict and many of which are beyond our control. These and other important factors, including those discussed or incorporated by reference under Part II, Item 1A. “Risk Factors”, Part I, Item 2. “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and elsewhere in this report and in our Annual Report on Form 10-K for the year ended December 31, 2015 and in our Quarterly Report on Form 10-Q for the quarter ended June 30, 2016, filed with the Securities and Exchange Commission, may cause our actual results, performance or achievements to differ materially from any future results, performance or achievements expressed or implied by these forward-looking statements.

While forward-looking statements reflect our good faith beliefs, assumptions and expectations, they are not guarantees of future performance, and you should not unduly rely on them. The forward-looking statements in this Quarterly Report on Form 10-Q speak only as of the date of this report. We are not obligated to update or revise these statements as a result of new information, future events or otherwise, unless required by applicable law.

American Homes 4 Rent
Notes to Unaudited Condensed Consolidated Financial Statements

Note 1. Organization and Operations

American Homes 4 Rent (the “Company,” “we,” “our” and “us”) is a Maryland real estate investment trust (“REIT”) formed on October 19, 2012. We are focused on acquiring, renovating, leasing and operating single-family homes as rental properties. As of September 30, 2016, the Company held 48,153 single-family properties in 22 states, including 1,238 properties held for sale.

From our formation through June 10, 2013, we were externally managed and advised by American Homes 4 Rent Advisor, LLC (the “Advisor”) and the leasing, managing and advertising of our properties was overseen and directed by American Homes 4 Rent Management Holdings, LLC (the “Property Manager”), both of which were subsidiaries of American Homes 4 Rent, LLC (“AH LLC”). On June 10, 2013, we acquired the Advisor and the Property Manager from AH LLC in exchange for 4,375,000 Series D units and 4,375,000 Series E units in American Homes 4 Rent, L.P. (the “operating partnership”), therefore internalizing our management including all administrative, financial, property management, marketing and leasing personnel, including executive management. The Company consolidates the Advisor and the Property Manager and the results of these operations are reflected in the condensed consolidated financial statements.

Previously, AH LLC exercised control over the Company through the contractual rights provided to the Advisor through an advisory management agreement. Accordingly, the contribution of certain properties by AH LLC to the Company have been deemed to be transactions between entities under common control, and as such, the accounts relating to the properties contributed have been recorded by us as if they had been acquired by us on the dates such properties were acquired by AH LLC. Accordingly, the condensed consolidated financial statements include AH LLC’s historical carrying values of the properties that had been acquired by AH LLC. Effective August 31, 2016, AH LLC was liquidated and its ownership interests in the operating partnership were distributed to its members.

Note 2. Significant Accounting Policies

Basis of Presentation

The condensed consolidated financial statements are unaudited and include the accounts of the Company, the operating partnership and its consolidated subsidiaries. Intercompany accounts and transactions have been eliminated. The Company consolidates real estate partnerships and other entities that are not variable interest entities (“VIEs”) when it owns, directly or indirectly, a majority interest in the entity or is otherwise able to control the entity. The Company consolidates VIEs in accordance with Accounting Standards Codification (“ASC”) No. 810, Consolidation, if it is the primary beneficiary of the VIE as determined by its power to direct the VIE’s activities and the obligation to absorb its losses or the right to receive its benefits, which are potentially significant to the VIE. Entities for which the Company owns an interest, but does not consolidate, are accounted for under the equity method of accounting as an investment in unconsolidated subsidiary and are included in escrow deposits, prepaid expenses and other assets within the condensed consolidated balance sheets. Ownership interests in certain consolidated subsidiaries of the Company held by outside parties are included in noncontrolling interest within the condensed consolidated financial statements.

The condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) and in conjunction with the rules and regulations of the Securities and Exchange Commission (“SEC”). Certain information and footnote disclosures required for annual financial statements have been condensed or excluded pursuant to SEC rules and regulations. Accordingly, the condensed consolidated financial statements do not include all of the information and footnotes required by GAAP for complete financial statements and should be read in conjunction with the audited consolidated financial statements

and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2015. Any references in this report to the number of properties is outside the scope of our independent registered public accounting firm's review of our financial statements, in accordance with the standards of the Public Company Accounting Oversight Board ("PCAOB"). In the opinion of management, all adjustments of a normal and recurring nature necessary for a fair presentation of the condensed consolidated financial statements for the interim periods have been made. The preparation of condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Effective January 1, 2016, in accordance with Accounting Standards Update ("ASU") No. 2015-03, Interest-Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs, deferred financing costs, net of amortization, related to our asset-backed securitizations have been classified in asset-backed securitizations, net within the condensed consolidated balance sheets. Prior to January 1, 2016, these costs were included in deferred costs and other intangibles, net within the condensed

consolidated balance sheets. All prior period amounts have been reclassified to conform to the current presentation. This resulted in the reclassification of \$56.6 million of deferred financing costs, net of amortization, from deferred costs and other intangibles, net to asset-backed securitizations, net as of December 31, 2015, in the condensed consolidated balance sheets.

Effective January 1, 2016, due to the stabilization of our portfolio and the majority of our properties having been initially leased, vacant single-family properties and other expenses have been reclassified in the condensed consolidated statements of operations, with vacant single-family property operating expenses combined with leased single-family property operating expenses, which are both included in property operating expenses within the condensed consolidated statements of operations, and other expenses reclassified to other expenses within the condensed consolidated statements of operations. This resulted in the reclassification of the \$2.5 million and \$13.0 million, respectively, of vacant single-family properties and other expenses for the three and nine months ended September 30, 2015, with \$1.4 million and \$10.3 million, respectively, of vacant single-family property operating expenses reclassified to property operating expenses and \$1.1 million and \$2.7 million, respectively, of other expenses reclassified to other expenses in the condensed consolidated statements of operations.

Effective July 1, 2016, due to recently increased volume in the Company's sales of single-family properties, gains and losses from the sales of single-family properties have been included in gain on sale of single-family properties, net within the condensed consolidated statements of operations. Prior period gains and losses from the sales of single-family properties, which were previously included in other revenues have been reclassified to gain on sale of single-family properties, net to conform to the current presentation.

There have been no other changes to our significant accounting policies that have had a material impact on our condensed consolidated financial statements and related notes, compared to those policies disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2015. Therefore, notes to the condensed consolidated financial statements that would substantially duplicate the disclosures contained in our most recent audited consolidated financial statements have been omitted.

Recent Accounting Pronouncements

In June 2016, the Financial Accounting Standards Board ("FASB") issued ASU No. 2016-13, Financial Instruments—Credit Losses (Topic 326), to amend the accounting for credit losses for certain financial instruments by requiring companies to recognize an estimate of expected credit losses as an allowance in order to recognize such losses more timely than under previous guidance that had allowed companies to wait until it was probable such losses had been incurred. The guidance will be effective for the Company for annual reporting periods beginning after December 15, 2019, and for interim periods within those annual periods. Early adoption is permitted for annual reporting periods beginning after December 15, 2018, and interim periods within those annual periods. The Company is currently assessing the impact of the guidance on our financial statements.

In March 2016, the FASB issued ASU No. 2016-09, Compensation — Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting (Topic 718), which simplifies several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. The guidance will be effective for the Company for annual reporting periods beginning after December 15, 2016, and for interim periods within those annual periods, with early adoption permitted. The Company is currently assessing the impact of the guidance on our financial statements.

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), which will require lessees to recognize assets and liabilities on the balance sheet for the rights and obligations created by all leases with terms of more than one year. Lessor accounting will remain similar to lessor accounting under previous GAAP, while aligning with the FASB's new revenue recognition guidance. The guidance will be effective for the Company for annual reporting

periods beginning after December 15, 2018, and for interim periods within those annual periods, with early adoption permitted. The Company is currently assessing the impact of the guidance on our financial statements.

In January 2016, the FASB issued ASU No. 2016-01, Recognition and Measurement of Financial Assets and Financial Liabilities, which amends certain aspects of recognition, measurement, presentation and disclosure of financial instruments, including the requirement to measure certain equity investments at fair value with changes in fair value recognized in net income. The guidance will be effective for the Company for annual reporting periods beginning after December 15, 2017, and for interim periods within those annual periods. The Company is currently assessing the impact of the guidance on our financial statements.

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606), which provides guidance on revenue recognition and supersedes the revenue recognition requirements in Topic 605, Revenue Recognition, most industry-specific guidance and some cost guidance included in Subtopic 605-35, "Revenue Recognition—Construction-Type and Production-Type Contracts." The standard's core principle is that a company will recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. In doing so, companies will need to use more judgment and make more estimates than under current guidance.

These judgments may include identifying performance obligations in the contract, estimating the amount of variable consideration to include in the transaction price and allocating the transaction price to each separate performance obligation. The guidance will be effective for the Company for annual reporting periods beginning after December 15, 2017, and for interim periods within those annual periods. At that time, the Company may adopt the full retrospective approach or the modified retrospective approach. Early adoption is not permitted. The Company is currently evaluating the method of adoption of this guidance and does not anticipate that the adoption of this guidance will have a material impact on our financial statements.

Note 3. Single-Family Properties

Single-family properties, net, consisted of the following as of September 30, 2016, and December 31, 2015 (dollars in thousands):

	September 30, 2016	
	Number of properties	Net book value
Leased single-family properties	44,746	\$7,072,461
Single-family properties being renovated	406	77,451
Single-family properties being prepared for re-lease	90	15,333
Vacant single-family properties available for lease	1,673	274,845
Single-family properties held for sale, net	1,238	105,308
Total	48,153	\$7,545,398
	December 31, 2015	
	Number of properties	Net book value
Leased single-family properties	36,403	\$5,895,482
Single-family properties being renovated	476	75,055
Single-family properties being prepared for re-lease	178	28,525
Vacant single-family properties available for lease	1,678	283,444
Single-family properties held for sale, net	45	7,432
Total	38,780	\$6,289,938

Single-family properties, net increased \$1.2 billion to \$7.5 billion as of September 30, 2016, compared to \$6.3 billion as of December 31, 2015, primarily related to the acquisition of 8,936 properties in connection with the Merger with American Residential Properties, Inc. ("ARPI") (see Note 10). Single-family properties, net at September 30, 2016, and December 31, 2015, included \$15.4 million and \$8.5 million, respectively, related to properties for which the recorded grant deed had not been received. For these properties, the trustee or seller has warranted that all legal rights of ownership have been transferred to us on the date of the sale, but there was a delay for the deeds to be recorded.

Depreciation expense related to single-family properties was \$67.2 million and \$63.9 million for the three months ended September 30, 2016 and 2015, respectively, and \$194.2 million and \$165.8 million for the nine months ended September 30, 2016 and 2015, respectively.

During the three and nine months ended September 30, 2016, the Company sold 453 and 587 homes, respectively, which generated total net proceeds of \$56.2 million and \$71.9 million, respectively, and resulted in a net gain on sale of \$11.7 million and \$12.6 million, respectively. In accordance with ASC 350, Intangibles—Goodwill and Other, the Company allocates a portion of goodwill to the carrying values of its leased properties sold, which results in a reduction to the gain on sale. The amount of goodwill allocated to leased properties sold during the three and nine months ended September 30, 2016, was \$0.4 million, which reduced goodwill to \$120.3 million as of September 30, 2016, compared to \$120.7 million as of December 31, 2015.

Note 4. Rent and Other Receivables, Net

Included in rent and other receivables, net is an allowance for doubtful accounts of \$4.5 million and \$3.0 million as of September 30, 2016, and December 31, 2015, respectively. Also included in rent and other receivables, net, are non-tenant receivables, which totaled \$0.7 million and \$1.0 million as of September 30, 2016, and December 31, 2015, respectively.

Note 5. Deferred Costs and Other Intangibles, Net

Deferred costs and other intangibles, net, consisted of the following as of September 30, 2016, and December 31, 2015 (in thousands):

	September 30, 2016	December 31, 2015
Deferred leasing costs	\$ 14,985	\$ 8,692
Deferred financing costs	6,520	12,454
Intangible assets:		
Value of in-place leases	22,352	152
Trademark	3,100	3,100
Database	2,100	2,100
	49,057	26,498
Less: accumulated amortization (34,041)	(34,041)	(16,069)
Total	\$ 15,016	\$ 10,429

Amortization expense related to deferred leasing costs, the value of in-place leases, trademark and database was \$6.9 million and \$2.8 million for the three months ended September 30, 2016 and 2015, respectively, and \$26.7 million and \$10.0 million for the nine months ended September 30, 2016 and 2015, respectively, which has been included in depreciation and amortization within the condensed consolidated statements of operations. Deferred financing costs relate to our revolving credit facilities. Amortization of deferred financing costs was \$0.5 million and \$0.6 million for the three months ended September 30, 2016 and 2015, respectively, and \$1.9 million and \$1.8 million for the nine months ended September 30, 2016 and 2015, respectively, which has been included in gross interest, prior to interest capitalization (see Note 6).

The following table sets forth the estimated annual amortization expense related to deferred costs and other intangibles, net as of September 30, 2016, for future periods (in thousands):

Year	Deferred Leasing Costs	Deferred Financing Costs	Value of In-place Leases	Trademark	Database
Remaining 2016	\$ 1,463	\$ 412	\$ 2,222	\$ 165	\$ 75
2017	2,054	1,633	908	660	300
2018	—	1,633	21	92	300
2019	—	1,633	2	—	300
2020	—	1,011	—	—	132
Total	\$ 3,517	\$ 6,322	\$ 3,153	\$ 917	\$ 1,107

Note 6. Debt

The following table presents the Company's debt as of September 30, 2016, and December 31, 2015 (in thousands):

	Interest Rate (1)		Maturity Date	Outstanding Principal Balance	
				September 30, 2016	December 31, 2015
AH4R 2014-SFR1 securitization (2)	2.07	%	June 9, 2019	\$ 457,979	\$ 473,755
AH4R 2014-SFR2 securitization	4.42	%	October 9, 2024	503,093	507,305
AH4R 2014-SFR3 securitization	4.40	%	December 9, 2024	519,148	523,109
AH4R 2015-SFR1 securitization (3)	4.14	%	April 9, 2045	544,861	549,121
AH4R 2015-SFR2 securitization (4)	4.36	%	October 9, 2045	473,237	476,920
Total asset-backed securitizations				2,498,318	2,530,210
Exchangeable senior notes	3.25	%	November 15, 2018	115,000	—
Secured note payable	4.06	%	July 1, 2019	50,065	50,752
Revolving credit facilities (5)	2.38	%	August 16, 2020	75,000	—
Term loan facility (6)	2.33	%	August 16, 2021	250,000	—
Total debt (7)				2,988,383	2,580,962
Unamortized discount on exchangeable senior notes				(2,134)	—
Equity component of exchangeable senior notes				(5,583)	—
Deferred financing costs, net (8)				(53,845)	(56,567)
Total debt per balance sheet				\$ 2,926,821	\$ 2,524,395

(1) Interest rates are as of September 30, 2016. Unless otherwise stated, interest rates are fixed percentages.

The AH4R 2014-SFR1 securitization bears interest at a duration-weighted blended interest rate of 1-month LIBOR plus 1.54%, subject to a LIBOR floor of 0.25%. The maturity date of June 9, 2019, reflects the fully extended maturity date based on an initial two-year loan term and three, 12-month extension options, at the Company's election, provided there is no event of default and compliance with certain other terms.

(2) The AH4R 2015-SFR1 securitization has a maturity date of April 9, 2045, with an anticipated repayment date of April 9, 2025.

(3) The AH4R 2015-SFR2 securitization has a maturity date of October 9, 2045, with an anticipated repayment date of October 9, 2025.

The revolving credit facility that was entered into in August 2016 provides for a borrowing capacity of up to \$650.0 million, with a fully extended maturity date of August 2020, and bears interest at a LIBOR rate plus a margin ranging from 1.75% to 2.30% or a base rate (generally determined according to a prime rate or federal funds rate) plus a margin ranging from 0.75% to 1.30%. The interest rate stated represents the applicable spread for LIBOR based borrowings as of September 30, 2016, plus 1-month LIBOR.

(4) The term loan facility provides for a borrowing capacity of up to \$350.0 million, with a fully extended maturity date of August 2021, and bears interest at a LIBOR rate plus a margin ranging from 1.70% to 2.30% or a base rate (generally determined according to a prime rate or federal funds rate) plus a margin ranging from 0.70% to 1.30%. The interest rate stated represents the applicable spread for LIBOR based borrowings as of September 30, 2016, plus 1-month LIBOR.

The Company was in compliance with all debt covenants associated with its asset-backed securitizations, exchangeable senior notes, secured note payable, credit facilities and term loan facility as of September 30, 2016, and December 31, 2015.

Deferred financing costs relate to our asset-backed securitizations and our term loan facility. Amortization of deferred financing costs was \$2.2 million and \$1.8 million for the three months ended September 30, 2016 and 2015, respectively, and \$6.3 million and \$5.0 million for the nine months ended September 30, 2016 and 2015, respectively, which has been included in gross interest, prior to interest capitalization.

Asset-Backed Securitization

In connection with the Merger with ARPI on February 29, 2016 (see Note 10), the Company assumed a securitization loan (the "ARP 2014-SFR1 securitization"), which involved the issuance and sale of single-family rental pass-through certificates that represent beneficial ownership interests in a loan secured by 2,875 homes held by a special purpose entity, ARP 2014-1 Borrower, LLC (the "Borrower"). The Borrower under the loan was wholly owned by another special purpose entity (the "Equity Owner") and the Equity Owner was wholly owned by the operating partnership. The loan, at the time of its origination by ARPI in August 2014, had an original principal amount of \$342.2 million and an initial term of two years, with three, 12-month extension options, resulting in a fully extended maturity date of September 9, 2019. It was comprised of six floating rate components computed monthly based on 1-month LIBOR for each interest period plus a fixed component spread for each of the six components resulting in an effective weighted-average interest rate of 1-month LIBOR plus 2.11%. Interest on the loan was paid monthly.

The 2,875 homes securing the loan were substantially similar to the other properties owned by the Company and were leased

to tenants underwritten on substantially the same basis as the tenants in the Company's other properties. During the duration of the loan, the Borrower's properties were not generally able to be transferred, sold or otherwise securitized, the Company could have substituted properties only if a property owned by the Borrower became a disqualified property under the terms of the loan, and the Borrower was limited in its ability to incur any additional indebtedness.

The loan was also secured by a security interest in all of the Borrower's personal property and a pledge of all of the assets of the Equity Owner, including a security interest in its membership interest in the Borrower. The Company provided a limited guaranty (i) for certain losses arising out of designated acts of intentional misconduct and (ii) for the principal amount of the loan and all other obligations under the loan agreement in the event of insolvency or bankruptcy proceedings. The loan required that we maintained certain covenants, including but not limited to, a minimum debt yield on the collateral pool of properties. In September 2016, the Company paid off the ARP 2014-SFR1 asset-backed securitization using available cash and borrowings from our credit facilities, which resulted in a \$10.7 million loss on early extinguishment of debt related to the write-off of the discount on the securitization. The payoff of the ARP 2014-SFR1 asset-backed securitization resulted in the release of the 2,875 collateralized homes and \$10.1 million of restricted cash for lender requirements.

Exchangeable Senior Notes, Net

In connection with the Merger with ARPI on February 29, 2016 (see Note 10), the Company assumed 3.25% exchangeable senior notes due 2018 that have a \$115.0 million aggregate principal amount and a fair value at assumption of \$112.3 million. The exchangeable senior notes are senior unsecured obligations of the operating partnership and rank equally in right of payment with all other existing and future senior unsecured indebtedness of the operating partnership. Interest is payable in arrears on May 15 and November 15 of each year, beginning May 15, 2016, until the maturity date of November 15, 2018. The operating partnership's obligations under the exchangeable senior notes are fully and unconditionally guaranteed by the Company. The exchangeable senior notes bear interest at a rate of 3.25% per annum and contain an exchange settlement feature, which provides that the exchangeable senior notes may, under certain circumstances, be exchangeable for cash, shares of our common stock or a combination of cash and shares of our common stock, at the option of the operating partnership, based on an initial exchange rate of 46.9423 shares of ARPI's common stock per \$1,000 principal amount of the notes. The adjusted initial exchange rate would be 53.2795 shares of our common stock per \$1,000 principal amount of the notes, based on the 1.135 exchange ratio of ARPI shares to our shares resulting from our merger with ARPI. The current exchange rate as of September 30, 2016, was 54.6381 shares of our common stock per \$1,000 principal amount of the notes. The exchange rate changes over time based on our common share price and distributions to common shareholders.

Prior to the close of business on the business day immediately preceding August 15, 2018, the notes will be exchangeable at the option of the holders only under the following circumstances: (1) during any calendar quarter beginning after December 31, 2013 (and only during such quarter) if the closing sale price per share of our common stock is more than 130% of the then-current exchange price for at least 20 trading days (whether or not consecutive) in the period of 30 consecutive trading days ending on the last trading day of the preceding calendar quarter; (2) during the five consecutive business-day period following any five consecutive trading-day period in which the trading price per \$1,000 principal amount of notes was less than 98% of the product of the closing sale price per share of our common stock multiplied by the then-current exchange rate; or (3) upon the occurrence of specified corporate transactions described in the indenture. On or after August 15, 2018, the notes will be exchangeable at any time prior to the close of business on the second business day immediately preceding the maturity date. Subject to its election to satisfy its exchange obligations entirely in shares of our common stock, upon exchange, the operating partnership will pay or deliver, as the case may be, to exchanging holders in respect of each \$1,000 principal amount of notes being exchanged a settlement amount either solely in cash, solely in common shares or in a combination of cash and shares of our common stock.

The fair value of the exchangeable senior notes, which was calculated using a binomial lattice model at the time of assumption, was \$112.3 million, which represents the \$115.0 million face value less a discount of \$2.7 million, which will be amortized using the effective interest method over the term of the notes. The amount recorded to exchangeable senior notes, net at the time of assumption was \$105.3 million, which represents the fair value of \$112.3 million, less the fair value of the exchange settlement feature of the notes of \$7.0 million, which was calculated using a straight-debt rate of 6.7% at the time of assumption. The fair value of the exchange settlement feature was recorded in additional paid-in capital and will be amortized using the effective interest method over the term of the notes.

As of September 30, 2016, the exchangeable senior notes, net had a balance of \$107.3 million in the condensed consolidated balance sheets, which was net of an unamortized discount of \$2.1 million and \$5.6 million of unamortized fair value of the exchange settlement feature, which was included in additional paid-in capital within the condensed consolidated balance sheets.

Credit Facilities

In March 2013, the Company entered into a \$500.0 million senior secured revolving credit facility with a financial institution,

which was subsequently amended in September 2013 to, among other things, expand our borrowing capacity to \$800.0 million and extend the repayment period to September 30, 2018. All borrowings under the credit facility accrued interest at 1-month LIBOR plus 2.75% until March 2017, and thereafter at 1-month LIBOR plus 3.125%. The credit facility was secured by our operating partnership's membership interests in entities that own certain of our single-family properties and required that we maintain certain financial covenants. In July 2016, the Company paid off the \$142.0 million of borrowings that had been outstanding on the credit facility as of June 30, 2016, using proceeds from our 6.35% Series E perpetual preferred share offering, and terminated the credit facility in August 2016. The termination of the credit facility resulted in \$2.7 million of charges during the quarter ended September 30, 2016, related to deferred financing cost write-offs, that were included in loss on early extinguishment of debt within the condensed consolidated statements of operations.

In August 2016, the Company entered into a \$1.0 billion credit agreement providing for a revolving credit facility in an aggregate principal amount of \$650.0 million and a delayed draw term loan facility in an aggregate principal amount of \$350.0 million. The interest rate on the revolving credit facility is, at the Company's election, a LIBOR rate plus a margin ranging from 1.75% to 2.30% or a base rate (generally determined according to a prime rate or federal funds rate) plus a margin ranging from 0.75% to 1.30%. Loans under the term loan facility accrue interest, at the Company's election, at either a LIBOR rate plus a margin ranging from 1.70% to 2.30% or a base rate plus a margin ranging from 0.70% to 1.30%. In each case, the actual margin is determined according to a ratio of the Company's total indebtedness to total asset value in effect from time to time. Based on current credit metrics for LIBOR based borrowings as of September 30, 2016, the revolving credit facility bears interest at 1-month LIBOR plus 1.85%, and the term loan facility bears interest at 1-LIBOR plus 1.80%. The credit agreement includes an accordion feature allowing the revolving credit facility or the term loan facility to be increased to an aggregate amount not to exceed \$1.75 billion, subject to certain conditions. The facilities mature on August 16, 2019. No amortization payments are required on the term loan facility prior to the maturity date. The Company has the option to extend the maturity date of the revolving credit facility for up to one year, and has two options to extend the maturity date of the term loan facility for up to one year each, in both cases upon payment of an extension fee. The credit agreement requires that we maintain certain financial covenants. As of September 30, 2016, the Company had \$75.0 million of outstanding borrowings against the revolving credit facility, \$250.0 million of outstanding borrowings against the term loan facility, net and was in compliance with all loan covenants.

Interest Expense

The following table displays our total gross interest, which includes unused commitment and other fees on our credit facilities and amortization of deferred financing costs, the discounts on the ARP 2014-SFR1 securitization and exchangeable senior notes and the fair value of the exchange settlement feature of the exchangeable senior notes, and capitalized interest for the three and nine months ended September 30, 2016 and 2015 (in thousands):

	For the Three Months Ended		For the Nine Months Ended	
	September 30, 2016	September 30, 2015	September 30, 2016	September 30, 2015
Gross interest	\$33,433	\$25,029	\$100,886	\$69,181
Capitalized interest	(582)	(1,163)	(1,577)	(7,642)
Interest expense	\$32,851	\$23,866	\$99,309	\$61,539

Note 7. Accounts Payable and Accrued Expenses

The following table summarizes accounts payable and accrued expenses as of September 30, 2016, and December 31, 2015 (in thousands):

	September 30, 2016	December 31, 2015
--	-----------------------	----------------------

Edgar Filing: American Homes 4 Rent - Form 10-Q

Accounts payable	\$—	\$ 1,173
Accrued property taxes	108,102	46,024
Other accrued liabilities	31,096	26,031
Accrued construction and maintenance liabilities	12,661	11,429
Resident security deposits	69,743	53,819
Prepaid rent	19,465	16,275
Total	\$ 241,067	\$ 154,751

Accounts payable and accrued expenses rose \$86.3 million to \$241.1 million as of September 30, 2016, compared to \$154.8 million as of December 31, 2015, primarily due to increases in accrued property taxes and resident security deposits, which are primarily related to the acquisition of 8,936 properties in connection with the Merger with ARPI (see Note 10).

Note 8. Shareholders' Equity

13

Issuance of Class A Common Shares and Class A Units

In February 2016, the Company issued 36,546,170 Class A common shares, \$0.01 par value per share, and 1,343,843 Class A units in connection with the Merger with ARPI (see Note 10). Class A units represent voting equity interests in our operating partnership. Holders of Class A units in our operating partnership have the right to redeem the units for cash or, at the election of the Company, exchange the units for the Company's Class A common shares on a one-for-one basis.

Perpetual Preferred Shares

Perpetual preferred shares represent non-voting preferred equity interests in the Company and entitle holders to a cumulative annual cash dividend equal to 6.5% for Series D cumulative redeemable perpetual preferred shares ("Series D perpetual preferred shares") and 6.35% for Series E cumulative redeemable perpetual preferred shares ("Series E perpetual preferred shares"), which is applied to the liquidation preference at issuance of \$25 per share. The Company may, at its option, redeem the perpetual preferred shares for cash, in whole or in part, from time to time, at any time on or after May 24, 2021, for the Series D perpetual preferred shares and June 29, 2021, for the Series E perpetual preferred shares or within 120 days after the occurrence of a change in control at a redemption price equal to the \$25 per share liquidation preference, plus any accumulated and unpaid dividends.

During May 2016, the Company issued 10,750,000 6.5% Series D perpetual preferred shares in an underwritten public offering and concurrent private placement, raising gross proceeds of \$268.8 million before offering costs of \$8.5 million.

During June 2016, the Company issued 9,200,000 6.35% Series E perpetual preferred shares in an underwritten public offering, raising gross proceeds of \$230.0 million before offering costs of \$7.5 million.

Participating Preferred Shares

As of September 30, 2016, the initial liquidation preference on the Company's participating preferred shares, as adjusted by an amount equal to 50% of the cumulative change in value of an index based on the purchase prices of single-family properties located in our top 20 markets, for all of the Company's outstanding 5.0% Series A participating preferred shares, 5.0% Series B participating preferred shares and 5.5% Series C participating preferred shares was \$470.9 million.

Conversion of Series C Convertible Units into Class A Units

The Series C convertible units represented voting equity interests in our operating partnership owned by former AH LLC members. On February 28, 2016, the third anniversary of their original issue date, the 31,085,974 Series C convertible units converted into Class A units on a one-for-one basis in accordance with their terms.

Conversion of Series E Convertible Units into Series D Convertible Units

The Series E convertible units represented non-voting equity interests in our operating partnership. Series E convertible units did not participate in any distributions and were convertible into Series D convertible units on February 29, 2016, subject to an earn-out provision based on the level of pro forma annualized EBITDA contribution, as defined, of the Advisor and the Property Manager. The terms of the earn-out provision were met in full and, therefore, the 4,375,000 Series E convertible units were converted into Series D convertible units on a one-for-one basis on February 29, 2016. The fair value of the Series D convertible units was estimated using a Monte Carlo simulation model, which was primarily driven by the most recent trading price of the Company's Class A common

shares into which the Series D convertible units are ultimately convertible. Based on this valuation, the conversion of Series E convertible units into Series D convertible units resulted in a gain of \$11.5 million which was recorded in gain on conversion of Series E units within the condensed consolidated statements of operations. Additionally, the Series E convertible units had a \$2.8 million contingent beneficial conversion feature that represents a return to the Series E convertible unit holders in the form of additional noncontrolling interest, calculated as the difference between the estimated fair value of the Series D units and the Class A units at the time of the conversion of the Series E units into Series D units in February 2016. The contingent beneficial conversion feature was recognized when the contingency was met, which occurred when the Series D units converted into Class A units on September 30, 2016.

Conversion of Series D Convertible Units into Class A Units

The Series D convertible units represented non-voting equity interests in our operating partnership owned by former AH LLC members and began participating in distributions, representing 70% of distributions declared on Class A units, 30 months after their issuance. The Series D convertible units were automatically convertible into Class A units on a one-for-one basis only after the later of (1) 30 months after the date of issuance and (2) the earlier of (i) the date on which adjusted funds from operations per Class A

common share aggregated to \$0.80 or more over four consecutive quarters following the original issuance date of the units and (ii) the date on which the daily closing price of our Class A common shares on the New York Stock Exchange ("NYSE") averaged \$18.00 or more for two consecutive quarters following the original issuance date of the units. On September 30, 2016, the above-referenced conversion contingency was met and the 8,750,000 Series D convertible units were converted into Class A units on a one-for-one basis, which resulted in a \$4.8 million noncash charge that was included in noncontrolling interest within the condensed consolidated statements of operations. The noncash charge relates to a contingent beneficial conversion feature that represents a return to the Series D convertible unit holders in the form of additional noncontrolling interest, calculated as the difference between the estimated fair value of the Series D units and the Class A units at the time of their respective issuances, which was recognized when the contingency was met.

Distributions

Our board of trustees declared distributions that totaled \$0.05 per share on our Class A and Class B common shares during the quarters ended September 30, 2016 and 2015. Distributions declared on our 5.0% Series A participating preferred shares, 5.0% Series B participating preferred shares and 5.5% Series C participating preferred shares during the quarters ended September 30, 2016 and 2015, totaled \$0.3125 per share, \$0.3125 per share and \$0.34375 per share, respectively. Distributions declared on our 6.5% Series D perpetual preferred shares and 6.35% Series E perpetual preferred shares totaled \$0.40625 per share and \$0.40569 per share, respectively, during the quarter ended September 30, 2016. Distributions declared on our Series C convertible units totaled zero and \$0.15113 per unit during the quarters ended September 30, 2016 and 2015, respectively. Distributions declared on our Series D convertible units totaled \$0.035 per unit for the quarter ended September 30, 2016, which represents 70% of distributions declared on Class A units.

Noncontrolling Interest

Noncontrolling interest as reflected in the Company's condensed consolidated balance sheets primarily consists of the interest held by former AH LLC members in units in the Company's operating partnership. Former AH LLC members owned 54,276,644 and 14,440,670, or approximately 18.5% and 6.5%, of the total 293,987,819 and 222,311,255 Class A units in the operating partnership as of September 30, 2016, and December 31, 2015, respectively. Additionally, former AH LLC members owned zero and all 31,085,974 of the Series C convertible units and owned zero and all 4,375,000 of the Series D convertible units in the operating partnership as of September 30, 2016, and December 31, 2015, respectively. Noncontrolling interest also includes interests held by former ARPI employees in Class A units of the Company's operating partnership, which were issued in connection with the Merger with ARPI in February 2016. Former ARPI Class A unit holders owned 1,279,316, or approximately 0.4% of the total 293,987,819 Class A units in the operating partnership as of September 30, 2016. Also included in noncontrolling interest is the outside ownership interest in a consolidated subsidiary of the Company.

The following table summarizes the activity that relates to the Company's noncontrolling interest as reflected in the condensed consolidated statements of operations for the three and nine months ended September 30, 2016 and 2015:

	For the Three Months Ended September 30, 2016	For the Nine Months Ended September 30, 2015	For the Three Months Ended September 30, 2016	For the Nine Months Ended September 30, 2015
Preferred income allocated to Series C convertible units	\$—	\$ 4,698	\$ 3,027	\$ 14,094
Net (loss) income allocated to Class A units	(27)	(1,575)	108	(3,241)
Net income allocated to Series D convertible units	—	—	133	—
Beneficial conversion feature	7,569	—	7,569	—
	(226)	(14)	(446)	(58)

Net loss allocated to noncontrolling interests in certain consolidated subsidiaries

\$7,316 \$ 3,109 \$10,391 \$ 10,795

2012 Equity Incentive Plan

During the nine months ended September 30, 2016 and 2015, the Company granted stock options for 708,000 and 588,500 Class A common shares, respectively, and 74,100 and 44,000 restricted stock units, respectively, to certain employees of the Company under the 2012 Equity Incentive Plan (the "Plan"). The options and restricted stock units granted during the nine months ended September 30, 2016 and 2015, vest over four years and expire 10 years from the date of grant.

Edgar Filing: American Homes 4 Rent - Form 10-Q

The following table summarizes stock option activity under the Plan for the nine months ended September 30, 2016 and 2015:

	Shares	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Life (in years)	Aggregate Intrinsic Value (1) (in thousands)
Options outstanding at January 1, 2015	2,165,000	\$ 16.17	8.8	\$ 1,890
Granted	588,500	16.49		
Exercised	(15,000)	15.00		19
Forfeited	(178,500)	16.57		
Options outstanding at September 30, 2015	2,560,000	\$ 16.23	8.3	\$ 557
Options exercisable at September 30, 2015	636,250	\$ 15.94	7.7	\$ 273
Options outstanding at January 1, 2016	2,484,400	\$ 16.22	8.0	\$ 1,225
Granted	708,000	14.15		
Exercised	(172,250)	16.12		680
Forfeited	(153,150)	16.36		
Options outstanding at September 30, 2016	2,867,000	\$ 15.70	7.84	\$ 17,021
Options exercisable at September 30, 2016	1,051,125	\$ 16.04	7.08	\$ 5,885

Intrinsic value for activities other than exercises is defined as the difference between the grant price and the market value on the last trading day of the period for those stock options where the market value is greater than the exercise price. For exercises, intrinsic value is defined as the difference between the grant price and the market value on the date of exercise.

The following table summarizes the Black-Scholes Option Pricing Model inputs used for valuation of the stock options for Class A common shares issued during the nine months ended September 30, 2016 and 2015:

	2016	2015
Weighted-average fair value	\$2.82	\$4.57
Expected term (years)	7.0	7.0
Dividend yield	3.0 %	3.0 %
Volatility	27.3%	35.9%
Risk-free interest rate	1.5 %	1.9 %

The following table summarizes the activity that relates to the Company's restricted stock units under the Plan for the nine months ended September 30, 2016 and 2015:

	2016	2015
Restricted stock units at beginning of period	91,650	85,000
Units awarded	74,100	44,000
Units vested	(27,250)	(22,000)
Units forfeited	(6,550)	(9,700)
Restricted stock units at end of the period	131,950	97,300

Total non-cash share-based compensation expense related to stock options and restricted stock units was \$0.9 million for the three months ended September 30, 2016 and 2015 and \$2.7 million and \$2.3 million for the nine months ended September 30, 2016 and 2015, respectively.

Share Repurchase Program

On September 21, 2015, the Company announced that our Board of Trustees approved a share repurchase program authorizing us to repurchase up to \$300.0 million of our outstanding Class A common shares from time to time in the open market or in privately negotiated transactions. The program does not have an expiration date, but may be suspended or discontinued at any time without notice. All repurchased shares are constructively retired and returned to an authorized and unissued status. In addition, the excess of the purchase price over the par value of shares repurchased is recorded as a reduction to additional paid-in capital. During the nine months ended September 30, 2016, we repurchased and retired approximately 6.2 million of our Class A common shares, on a settlement basis, in accordance with the program at a weighted-average price of \$15.44 per share and a total price of \$96.0 million.

During the nine months ended September 30, 2015, we repurchased and retired approximately 3.4 million of our Class A common shares, in accordance with the program at a weighted-average price of \$15.76 per share and a total price of \$53.7 million. As of September 30, 2016, we had a remaining repurchase authorization of \$146.7 million under the program.

Secondary Offering

In September 2016, the Alaska Permanent Fund Corporation (the "Selling Shareholder") sold 43.5 million of the Company's Class A common shares at an offering price of \$21.75 per share, in a registered offering (the "Secondary Offering"). The Company did not sell any shares in, or receive any proceeds from, the Secondary Offering. The Company incurred approximately \$0.2 million of expenses in the third quarter of 2016 related to the Secondary Offering, which were included in acquisition fees and costs expensed within the condensed consolidated statements of operations.

Note 9. Related Party Transactions

As of September 30, 2016, and December 31, 2015, former AH LLC members owned approximately 2.8% and 3.3%, respectively, of our outstanding Class A common shares. On a fully-diluted basis, former AH LLC members held (including consideration of 635,075 Class B common shares as of September 30, 2016, and December 31, 2015, 54,276,644 and 14,440,670 Class A units as of September 30, 2016, and December 31, 2015, respectively, zero and all 31,085,974 Series C convertible units as of September 30, 2016, and December 31, 2015, respectively, zero and all 4,375,000 Series D convertible units as of September 30, 2016, and December 31, 2015, respectively, and zero and all 4,375,000 Series E convertible units as of September 30, 2016, and December 31, 2015, respectively) an approximate 18.6% and 22.1% interest at September 30, 2016, and December 31, 2015, respectively.

As of September 30, 2016, the Company had a net receivable of \$1.3 million due from affiliates primarily related to expense reimbursements due from a joint venture, which was included in escrow deposits, prepaid expenses and other assets within the condensed consolidated balance sheets. As of December 31, 2015, the Company had a net payable of \$4.1 million payable to affiliates related to declared and unpaid distributions on the Series C units, partially offset by expense reimbursements from affiliates, which was included in amounts payable to affiliates within the condensed consolidated balance sheets.

In June 2014, the Company and the Alaska Permanent Fund Corporation ("APFC") formed a joint venture (the "Alaska Joint Venture II"). As of September 30, 2016, and December 31, 2015, we had contributed \$40.0 million to the Alaska Joint Venture II and APFC had contributed \$160.0 million. During the third quarter of 2016, the Alaska Joint Venture II paid distributions totaling \$0.4 million and \$1.6 million to us and APFC, respectively. In evaluating the Company's interest in the Alaska Joint Venture II, we concluded that the entity is not a variable interest entity after applying the variable interest model and, therefore, we account for our interest in the Alaska Joint Venture II as an investment in an unconsolidated subsidiary using the equity method of accounting after applying the voting interest model. As of September 30, 2016, the balance of the Company's investment in the Alaska Joint Venture II was \$33.3 million, which is included in escrow deposits, prepaid expenses and other assets within the condensed consolidated balance sheets. The Company has a promoted interest in the Alaska Joint Venture II in addition to owning 20% of its equity.

Note 10. Acquisitions

Merger with American Residential Properties, Inc.

On February 29, 2016, the Company completed a merger with ARPI, in which ARPI merged with and into a wholly owned subsidiary of us in a stock-for-stock transaction, with our subsidiary continuing as the surviving entity (the

"Merger"). The purpose of this acquisition was to solidify our position as the largest public owner and operator of single-family rental properties, increase scale and achieve operating synergies. ARPI's portfolio is substantially similar to our own, meets our high quality portfolio standards and the acquisition of their portfolio has allowed us to add density in key markets. As a result of the Merger, each holder of ARPI common stock received 1.135 of our Class A common shares for each share of ARPI common stock and each holder of limited partnership interests in ARPI's operating partnership received 1.135 Class A units of our operating partnership. We issued 36,546,170 Class A common shares and 1,343,843 Class A units in connection with the Merger, representing 12.7% of the total Class A common shares, Class B common shares and units of our operating partnership, collectively, as of the acquisition date. The equity transaction consideration of \$530.5 million was calculated based on the 36,546,170 Class A common shares and 1,343,843 Class A units issued in connection with the Merger valued at the Company's closing share price on the acquisition date of \$14.00 per share. Transaction costs incurred by the Company related to the Merger totaled \$7.7 million, of which \$0.5 million was incurred during the third quarter of 2016.

Edgar Filing: American Homes 4 Rent - Form 10-Q

The following table summarizes the preliminary allocation of the estimated fair values of the assets and liabilities acquired as part of the Merger as of the acquisition date (in thousands):

Net assets acquired	
Land	\$262,396
Buildings and improvements	1,014,857
Cash and cash equivalents	15,499
Restricted cash	9,521
Rent and other receivables	843
Escrow deposits, prepaid expenses and other assets	35,134
In-place leases	22,696
Accounts payable and accrued expenses	(38,485)
Net assets acquired	1,322,461
Debt assumed or extinguished	
Credit facility	350,000
Exchangeable senior notes	112,298
Asset-backed securitization	329,703
Total debt assumed or extinguished	792,001
Equity transaction consideration	530,460
Total transaction consideration	\$1,322,461

Since the completion of the Merger, the Company has consolidated the 8,936 single-family properties acquired as part of the transaction and the related results of these operations are reflected in the Company's condensed consolidated financial statements.

The following table presents the total revenues and net income (loss) attributable to the Merger that are included in our condensed consolidated statements of operations for the three and nine months ended September 30, 2016 (in thousands):

	For the Three Months Ended September 30, 2016	For the Period from February 29, 2016 to September 30, 2016
Total revenues	\$ 37,505	\$ 83,387
Net income (loss)	\$ 2,148	\$ (3,479)

Pro Forma Supplemental Information

The following table presents the Company's supplemental consolidated pro forma total revenues and net loss as if the Merger had occurred on January 1, 2015 (in thousands):

	For the Three Months Ended September 30, 2016		For the Nine Months Ended September 30, 2015	
Pro forma total revenues (1)	\$236,057	\$ 204,580	\$674,291	\$ 549,508
Pro forma net loss (1)	\$(167)	\$(22,958)	\$(18,093)	\$(42,265)

Edgar Filing: American Homes 4 Rent - Form 10-Q

Pro forma net loss per share (1) \$(0.09) \$ (0.13) \$(0.23) \$ (0.28)

(1) This pro forma supplemental information does not purport to be indicative of what the Company's operating results would have been had the Merger occurred on January 1, 2015.

18

Note 11. Earnings per Share

The following table reflects the computation of net income (loss) per share on a basic and diluted basis for the three and nine months ended September 30, 2016 and 2015 (in thousands, except share data):

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2016	2015	2016	2015
Numerator:				
Net (loss) income	\$(167)	\$(19,938)	\$1,108	\$(36,601)
Noncontrolling interest	7,316	3,109	10,391	10,795
Dividends on preferred shares	13,669	5,569	26,650	16,707
Net loss attributable to common shareholders	\$(21,152)	\$(28,616)	\$(35,933)	\$(64,103)
Denominator:				
Denominator:				
Weighted-average shares	238,401,343	211,414,368	232,036,802	211,460,840
Net loss per share—basic and diluted	\$(0.09)	\$(0.14)	\$(0.15)	\$(0.30)

Total weighted-average shares for the three and nine months ended September 30, 2016, excludes an aggregate of 81,898,292 shares or units in our operating partnership, participating preferred shares, common shares issuable upon exercise of stock options, restricted stock units and common shares issuable upon the conversion of our exchangeable senior notes from dilutive securities because they were antidilutive due to the net loss attributable to common shareholders in those periods. Total weighted-average shares for the three and nine months ended September 30, 2015, excludes an aggregate of 73,993,944 shares or units in our operating partnership, participating preferred shares, common shares issuable upon exercise of stock options, and restricted stock units from dilutive securities because they were antidilutive due to the net loss attributable to common shareholders in those periods.

Note 12. Commitments and Contingencies

As of September 30, 2016, and December 31, 2015, we had commitments to acquire 103 and 12 single-family properties, respectively, with an aggregate purchase price of \$22.4 million and \$1.7 million, respectively.

As of September 30, 2016, the Company had sales in escrow for approximately 445 of our single-family properties for an aggregate selling price of \$26.7 million.

We are involved in various legal and administrative proceedings that are incidental to our business. We believe these matters will not have a materially adverse effect on our financial position or results of operations upon resolution.

Note 13. Noncash Transactions

On February 29, 2016 we completed our Merger with ARPI in a stock-for-stock transaction. Each holder of ARPI common stock received 1.135 of our Class A common shares for each share of ARPI common stock and each holder of limited partnership interests in ARPI's operating partnership received 1.135 Class A units of our operating partnership. We issued 36,546,170 Class A common shares and 1,343,843 Class A units in connection with the Merger, representing 12.7% of the total Class A common shares, Class B common shares and units of our operating partnership, collectively, as of the acquisition date (see Note 10).

Note 14. Fair Value

The carrying amount of rents and other receivables, restricted cash, escrow deposits, prepaid expenses and other assets, and accounts payable and accrued expenses approximate fair value because of the short maturity of these amounts. The Company's interest rate cap agreement and preferred shares derivative liability are the only financial instruments recorded at fair value on a recurring basis in the condensed consolidated financial statements.

Our credit facilities, term loan facility, asset-backed securitizations, exchangeable senior notes and secured note payable are also financial instruments, which are classified as Level 3 in the fair value hierarchy as they were estimated by using unobservable inputs. We estimated their fair values by modeling the contractual cash flows required under the instruments and discounting them back to their present values using estimates of current market rates. The following table displays the carrying values and fair values of our debt instruments as of September 30, 2016, and December 31, 2015 (in thousands):

	September 30, 2016		December 31, 2015	
	Carrying Value	Fair Value	Carrying Value	Fair Value
AH4R 2014-SFR1 securitization	\$457,979	\$460,767	\$473,755	\$472,258
AH4R 2014-SFR2 securitization	503,093	513,484	507,305	476,952
AH4R 2014-SFR3 securitization	519,148	532,755	523,109	489,448
AH4R 2015-SFR1 securitization	544,861	555,558	549,121	496,673
AH4R 2015-SFR2 securitization	473,237	484,615	476,920	433,633
Total asset-backed securitizations (1)	2,498,318	2,547,179	2,530,210	2,368,964
Exchangeable senior notes, net (2)	107,283	107,283	—	—
Secured note payable	50,065	50,377	50,752	48,631
Revolving credit facilities (3)	75,000	75,000	—	—
Term loan facility (4)	250,000	250,000	—	—
Total debt	\$2,980,666	\$3,029,839	\$2,580,962	\$2,417,595

(1) The carrying values of the asset-backed securitizations exclude \$50.4 million and \$56.6 million of deferred financing costs as of September 30, 2016, and December 31, 2015, respectively.

(2) The exchangeable senior notes, net are presented net of unamortized discounts. As they were recently acquired in connection with the Merger with ARPI in February 2016, we believe the fair value approximates the carrying value.

(3) As our revolving credit facility bears interest at a floating rate based on an index plus a spread, which is a LIBOR rate plus a margin ranging from 1.75% to 2.30% or a base rate (generally determined according to a prime rate or federal funds rate) plus a margin ranging from 0.75% to 1.30%, and since this facility was recently entered into in August 2016, management believes that the carrying value of the revolving credit facility as of September 30, 2016, reasonably approximates fair value.

(4) The carrying value of the term loan facility excludes \$3.4 million of deferred financing costs as of September 30, 2016. As our term loan facility bears interest at a floating rate based on an index plus a spread, which is a LIBOR rate plus a margin ranging from 1.70% to 2.30% or a base rate (generally determined according to a prime rate or federal funds rate) plus a margin ranging from 0.70% to 1.30%, and since this facility was recently entered into in August 2016, management believes that the carrying value of the term loan facility as of September 30, 2016, reasonably approximates fair value.

Valuation of the preferred shares derivative liability considers scenarios in which the preferred shares would be redeemed or converted into Class A common shares by the Company and the subsequent payoffs under those scenarios. The valuation also considers certain variables such as the risk-free rate matching the assumed timing of either redemption or conversion, volatility of the underlying home price appreciation index, dividend payments, conversion rates, the assumed timing of either redemption or conversion and an assumed drift factor in home price appreciation across certain metropolitan statistical areas, or MSAs, as outlined in the agreement.

The following table sets forth the fair value of our contingently convertible Series E units liability and preferred shares derivative liability as of September 30, 2016, and December 31, 2015 (in thousands):

Description	September 30, 2016		Total
	Quoted Prices in Active Markets for Identifiable Inputs	Significant Unobservable Inputs	

Identifiable Intangible Assets (Level 3)
(Level 2)

Liabilities:

Preferred shares derivative liability	\$-\$	—\$ 65,730	\$65,730	
		December 31, 2015		
		Quoted Prices in Active Markets for Identifiable Intangible Assets (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Description				

Liabilities:

Contingently convertible Series E units liability	\$-\$	—\$ 69,957	\$69,957
Preferred shares derivative liability	\$-\$	—\$ 62,790	\$62,790

The following table presents changes in the fair values of our Level 3 financial instruments, consisting of our contingently convertible series E units liability and preferred shares derivative liability, which are measured on a recurring basis with changes in fair value recognized in remeasurement of Series E units and remeasurement of preferred shares, respectively, in the condensed consolidated statements of operations for the nine months ended September 30, 2016 and 2015 (in thousands):

Description	January 1, 2016	Issuances	Conversions	Remeasurement included in earnings	September 30, 2016
Liabilities:					
Contingently convertible Series E units liability	\$69,957	\$ —	—\$ (69,957)	\$ —	\$ —
Preferred shares derivative liability	\$62,790	\$ —	—\$ —	\$ 2,940	\$ 65,730
Description	January 1, 2015	Issuances	Conversions	Remeasurement included in earnings	September 30, 2015
Liabilities:					
Contingently convertible Series E units liability	\$72,057	\$ —	—\$ (3,456)	\$ 68,601	\$ 68,601
Preferred shares derivative liability	\$57,960	\$ —	—\$ 2,300	\$ 60,260	\$ 60,260

Changes in inputs or assumptions used to value the preferred shares derivative liability may have a material impact on the resulting valuation.

Note 15. Subsequent Events

Credit Facilities

As of October 31, 2016, the outstanding borrowings against the revolving credit facility and term loan facility were \$75.0 million and \$250.0 million, respectively.

Subsequent Dispositions

From October 1, 2016, through October 31, 2016, we disposed of 36 properties for aggregate net proceeds of approximately \$5.7 million.

Subsequent Acquisitions

From October 1, 2016, through October 31, 2016, we acquired 129 properties for an aggregate purchase price of approximately \$24.5 million.

Declaration of Dividends

On November 1, 2016, our board of trustees declared quarterly dividends of \$0.05 per Class A common share payable on December 30, 2016, to shareholders of record on December 15, 2016, and \$0.05 per Class B common share payable on December 30, 2016, to shareholders of record on December 15, 2016. Additionally, our board of trustees also declared quarterly dividends of \$0.3125 per share on the Company's 5.0% Series A participating preferred shares payable on December 30, 2016, to shareholders of record on December 15, 2016, \$0.3125 per share on the Company's 5.0% Series B participating preferred shares payable on December 30, 2016, to shareholders of record on December 15, 2016, \$0.34375 per share on the Company's 5.5% Series C participating preferred shares payable on December 30, 2016, to shareholders of record on December 15, 2016, \$0.40625 per share on the Company's 6.5% Series D perpetual preferred shares payable on December 30, 2016, to shareholders of record on December 15, 2016.

and \$0.39688 per share on the Company's 6.35% Series E perpetual preferred shares payable on December 30, 2016, to shareholders of record on December 15, 2016.

Hurricane Matthew

Certain of our properties in the Florida and Carolina markets were impacted by Hurricane Matthew. The Company is assessing potential damages, which are estimated to be approximately \$0.6 million to \$1.0 million.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion of our financial condition and results of operations should be read in conjunction with the financial statements and related notes appearing elsewhere in this Quarterly Report on Form 10-Q.

Overview

We are a Maryland REIT focused on acquiring, renovating, leasing and operating single-family homes as rental properties. We commenced operations in November 2012 to continue the investment activities of AH LLC, which was founded by our chairman, B. Wayne Hughes, in 2011 to take advantage of the dislocation in the single-family home market. Effective August 31, 2016, AH LLC was liquidated and its ownership interests in the operating partnership were distributed to its members.

As of September 30, 2016, we owned 48,153 single-family properties, in selected sub-markets of MSAs in 22 states, including 1,238 properties held for sale, of which 1,060 properties were former ARPI properties, compared to 38,780 single-family properties in 22 states, including 45 properties held for sale, as of December 31, 2015, and 38,377 single-family properties in 22 states, including 46 properties held for sale, as of September 30, 2015. As of September 30, 2016, we had an additional 103 properties in escrow that we expected to acquire, subject to customary closing conditions, for an aggregate purchase price of approximately \$22.4 million. As of September 30, 2016, 44,746, or 95.4%, of our total properties (excluding held for sale properties) were leased, compared to 36,403, or 94.0%, of our total properties (excluding held for sale properties) as of December 31, 2015, and 35,617, or 92.9%, of our total properties (excluding held for sale properties) as of September 30, 2015. As of September 30, 2016, our portfolio of single-family properties was internally managed through our proprietary property management platform.

Our Properties and Key Operating Metrics

The following table provides a summary of our single-family properties as of September 30, 2016:

Market	Number of Single-family Properties (1)	% of Total Single-family Properties	Avg. Gross Book Value per Property	Avg. Sq. Ft.	Avg. Property Age (years)	Avg. Year Purchased
Dallas-Fort Worth, TX	4,340	9.3	% \$161,389	2,121	12.9	2014
Atlanta, GA	3,950	8.4	% 163,473	2,109	15.7	2014
Houston, TX	3,153	6.7	% 162,284	2,113	10.9	2014
Indianapolis, IN	2,901	6.2	% 150,993	1,933	14.0	2013
Phoenix, AZ	2,776	5.9	% 161,315	1,813	14.0	2014
Charlotte, NC	2,800	6.0	% 173,351	2,024	13.3	2014
Nashville, TN	2,381	5.1	% 197,101	2,087	12.3	2014
Greater Chicago area, IL and IN	2,047	4.4	% 180,248	1,897	15.1	2013

Total / Average	95.4%	94.4%	%	\$ 1,475	12.3	7.0

(1) Leasing information excludes held for sale properties.

(2) Leased percentage, occupancy percentage, average contractual monthly rent per property, average original lease term and average remaining lease term are reflected as of period end.

(3) Represents 32 markets in 19 states.

Merger with American Residential Properties, Inc.

On February 29, 2016, the Company completed its Merger with ARPI, in which ARPI merged with and into a wholly owned subsidiary of us in a stock-for-stock transaction, with our subsidiary continuing as the surviving entity. As a result of the Merger, each holder of ARPI common stock received 1.135 of our Class A common shares for each share of ARPI common stock and each holder of limited partnership interests in ARPI's operating partnership received 1.135 Class A units of our operating partnership. We issued 36,546,170 Class A common shares and 1,343,843 Class A units in connection with the Merger, representing 12.7% of the total Class A common shares, Class B common shares and units of our operating partnership, collectively, as of the acquisition date (see Note 10).

Factors That Affect Our Results of Operations and Financial Condition

Our results of operations and financial condition are affected by numerous factors, many of which are beyond our control. Key factors that impact our results of operations and financial condition include our ability to identify and acquire properties; our pace of property acquisitions; the time and cost required to gain access to the properties and then to renovate and lease a newly acquired property at acceptable rental rates; occupancy levels; rates of tenant turnover; the length of vacancy in properties between tenant leases; our expense ratios; our ability to raise capital; and our capital structure.

Property Acquisitions and Dispositions

Since our formation, we have rapidly but systematically grown our portfolio of single-family homes. Our ability to identify and acquire single-family homes that meet our investment criteria is impacted by home prices in our target

markets, the inventory of properties available-for-sale through our acquisition channels, competition for our target assets and our available capital. Our level of acquisition activity has fluctuated based on the number of suitable investments and the level of capital available to invest. Our acquisition pace for individually acquired properties has decreased over the past year. During the quarter ended September 30, 2016, our total portfolio increased by 115 homes, including 246 homes acquired through trustee acquisitions, 172 homes acquired through bulk acquisitions, 153 homes acquired through broker acquisitions and net of 456 homes sold or rescinded, of which 312 properties were former ARPI properties.

Property Operations

The acquisition of properties involves expenditures in addition to payment of the purchase price, including property inspections, closing costs, liens, title insurance, transfer taxes, recording fees, broker commissions, property taxes and homeowner association (“HOA”) fees, when applicable. In addition, we typically incur costs between \$5,000 and \$25,000 to renovate a home to prepare it for rental. Renovation work varies, but may include paint, flooring, carpeting, cabinetry, appliances, plumbing hardware and other items required to prepare the home for rental. The time and cost involved in initially accessing our homes to prepare them for

rental can impact our financial performance and varies among properties based on several factors, including the source of acquisition channel, whether the property is located in a judicial or non-judicial foreclosure state, if applicable, and whether or not the home is occupied at the time of acquisition. This process of finalizing the acquisition and gaining initial access to the home can range from immediate access to multiple months and, on average, takes approximately 15 to 25 days. Additionally, after gaining access to the home, the time to renovate a property can vary significantly among properties and is most impacted by the age and condition of the property. On average, it takes approximately 60 to 70 days to complete the renovation process after gaining initial access to the home. Our operating results are also impacted by the amount of time it takes to market and lease a property, which can vary greatly among properties, and is impacted by local demand, our marketing techniques and the size of our available inventory. On average, it takes approximately 20 to 30 days to lease a property after completing the renovation process. Lastly, our operating results are impacted by the length of stay of our tenants and the amount of time it takes to prepare and re-lease a property after a tenant vacates. This process, which we refer to as “turnover,” is impacted by numerous factors, including the condition of the home upon move-out of the previous tenant, and by local demand, our marketing techniques and the size of our available inventory at the time of the turnover. On average, it takes approximately 50 to 60 days to complete the turnover process.

Revenue

Our revenue is derived primarily from rents collected under lease agreements with tenants for our single-family properties. These include short-term leases that we enter into directly with our tenants, which typically have a term of one year. Our rental rates and occupancy levels are affected by macroeconomic factors and local and property-level factors, including market conditions, seasonality and tenant defaults, and the amount of time it takes to renovate and re-lease properties when tenants vacate. We generally do not offer free rent or other concessions in connection with leasing our properties. Additionally, our ability to collect revenues and related operating results are impacted by the credit worthiness and quality of our tenants. On average, our tenants have household incomes ranging from \$70,000 to \$100,000 and primarily consist of families with approximately two adults and one or more children.

In addition to rental revenues, we receive fees and other reimbursements, referred to as “tenant charge-backs”, from our tenants, which are primarily designed to recover costs for certain items, such as utilities, damages and maintenance. In accordance with GAAP, these fees and tenant charge-backs are presented gross in the condensed consolidated statements of operations.

As our total portfolio occupancy continues to stabilize, our ability to maintain and grow revenues will be dependent on our ability to retain tenants and increase rental rates. We believe that our platform will allow us to achieve strong tenant retention and lease renewal rates at our properties. The average increase in rent for renewals was 3.4% and 3.3%, respectively, and the average increase in rent for re-leases was 5.0% for the three months ended September 30, 2016 and 2015. Based on our Same-Home population of properties, we experienced retention rates of 67.6% and 67.7%, respectively, for the three months ended September 30, 2016 and 2015. The average increase in rent for renewals was 3.8% and 3.0%, respectively, and the average increase in rent for re-leases was 5.8% and 3.8%, respectively, for the nine months ended September 30, 2016 and 2015. Based on our Same-Home population of properties, we experienced retention rates of 68.4% and 69.2%, respectively, for the nine months ended September 30, 2016 and 2015.

Expenses

We monitor the following categories of expenses that we believe most significantly affect our results of operations.

Property Operating Expenses

Once a property is available for lease, which we refer to as “rent-ready,” we incur ongoing property-related expenses, primarily HOA fees (when applicable); property taxes; insurance; marketing expenses; repairs and maintenance; and turnover costs, which may not be subject to our control.

Property Management Expenses

As we internally manage our portfolio of single-family properties through our proprietary property management platform, we incur costs such as salary expenses for property management personnel, lease expenses and operating costs for property management offices and technology expenses for maintaining the property management platform. As part of developing our property management platform, we have made significant investments in our infrastructure, systems and technology. We believe that these investments will enable the costs of our property management platform to become more efficient over time and as our overall portfolio grows in size.

Seasonality

We believe that our business and related operating results will be impacted by seasonal factors throughout the year. In particular, we have experienced higher levels of tenant move-outs during the late spring and summer months, which impacts both our

rental revenues and related turnover costs. Further, our property operating costs are seasonally impacted in certain markets for expenses such as HVAC repairs, turn costs and landscaping expenses during the summer season.

General and Administrative Expense

General and administrative expense primarily consists of payroll and personnel costs, trustees' and officers' insurance expenses, audit and tax fees, state taxes, trustee fees and other expenses associated with our corporate and administrative functions.

Results of Operations

Net loss attributable to common shareholders was \$21.2 million, or \$0.09 per basic and diluted share, for the three months ended September 30, 2016, compared to a net loss attributable to common shareholders of \$28.6 million, or \$0.14 per basic and diluted share, for the three months ended September 30, 2015. This improvement was primarily attributable to higher revenues and a net gain on the sale of single-family properties, partially offset by increases in property operating and depreciation expenses resulting from growth in our property count, a rise in interest expense due to higher outstanding borrowings and a loss on the early extinguishment of debt.

Net loss attributable to common shareholders was \$35.9 million, or \$0.15 per basic and diluted share, for the nine months ended September 30, 2016, compared to a net loss attributable to common shareholders of \$64.1 million, or \$0.30 per basic and diluted share, for the nine months ended September 30, 2015. This improvement was primarily attributable to higher revenues, a net gain on the sale of single-family properties and a gain on the conversion of Series E convertible units into Series D convertible units, partially offset by increases in property operating and depreciation expenses resulting from growth in our property count, a rise in interest expense due to higher outstanding borrowings and a loss on the early extinguishment of debt.

As we continue to grow our portfolio with many of our homes still recently acquired and/or renovated, we distinguish our portfolio of homes between Same-Home properties, Non-Same-Home and Other properties and Former ARPI properties in evaluating our operating performance. We classify a property as Same-Home if it has been stabilized longer than 90 days prior to the beginning of the earliest period presented under comparison, which allows the performance of these properties to be compared between periods. Single-family properties that we acquire individually (i.e., not through a bulk purchase) are classified as either stabilized or non-stabilized. A property is classified as stabilized once it has been renovated and then initially leased or available for rent for a period greater than 90 days. We classify a property as Former ARPI if it was acquired through the ARPI merger and is not classified as held for sale as of the end of the current period. All other properties, including those classified as held for sale, are classified as Non-Same-Home and Other.

One of the primary financial measures we use in evaluating the operating performance of our single-family properties is core net operating income ("Core NOI"), which we define as rents and fees from single-family properties, net of bad debt expense, less property operating expenses for single-family properties, excluding expenses reimbursed by tenant charge-backs and bad debt expense. We use Core NOI as a primary financial measure as it reflects the economic operating performance of our single-family properties without the impact of certain tenant reimbursed operating expenses that are presented gross in the condensed consolidated statements of operations in accordance with GAAP.

Edgar Filing: American Homes 4 Rent - Form 10-Q

Comparison of the Three Months Ended September 30, 2016, to the Three Months Ended September 30, 2015

The following table presents a summary of Core NOI for our Same-Home properties, Non-Same-Home and Other properties, Former ARPI properties and total properties for the three months ended September 30, 2016 and 2015 (in thousands):

	For the Three Months Ended September 30, 2016							
	Same-Home Properties (Revenue)	% of Revenue	Non-Same- Home and Other Properties	% of Revenue	Former ARPI Properties	% of Revenue	Total Properties	% of Revenue
Rents from single-family properties	\$ 106,871		\$ 60,516		\$ 29,750		\$ 197,137

Core net operating income	\$ 58,878	58.0 %	\$ 28,282	59.9 %	\$ —	—%	\$ 87,160	58.6 %

(1) Includes 25,273 properties that have been stabilized longer than 90 days prior to January 1, 2015.

A reconciliation of Core NOI to net income or loss as determined in accordance with GAAP is located at the end of this Item 2— Management’s Discussion and Analysis of Financial Condition and Results of Operations.

Core Revenues from Single-Family Properties

Same-Home Properties

Core property revenues from Same-Home properties for the three months ended September 30, 2016, increased \$5.6 million, or 5.5%, to \$107.2 million from \$101.6 million for the three months ended September 30, 2015. This rise was primarily attributable to higher average monthly rental rates, which increased to \$1,496 per month as of September 30, 2016, compared to \$1,443 per month as of September 30, 2015, and to higher average occupancy levels, which increased to 95.2% as of September 30, 2016, from 94.1% as of September 30, 2015.

Non-Same Home and Other Properties

Core property revenues from Non-Same-Home and Other properties were \$60.5 million and \$47.2 million for the three months ended September 30, 2016 and 2015, respectively. This increase was primarily attributable to growth in our average number of leased Non-Same-Home and Other properties, which rose to 13,135 leased properties for the three months ended September 30, 2016, from 11,191 leased properties for the three months ended September 30, 2015.

Core Property Operating Expenses

Core property operating expenses consist of direct property operating expenses, net of tenant charge-backs, and property management costs.

Same-Home Properties

Core property operating expenses from Same-Home properties for the three months ended September 30, 2016, decreased \$0.9 million, or 2.0%, to \$41.8 million from \$42.7 million for the three months ended September 30, 2015. Same-Home core property operating expenses as a percentage of total Same-Home core revenues from single-family properties decreased to 39.0% for the three months ended September 30, 2016, from 42.0% for the three months ended September 30, 2015. This decrease was primarily attributable to lower maintenance and turnover costs, net of tenant charge-backs, reduced property management expenses, as well as to higher core revenues from Same-Home properties.

Non-Same-Home and Other Properties

Core property operating expenses from Non-Same-Home and Other properties were \$23.0 million and \$18.9 million for the three months ended September 30, 2016 and 2015, respectively. This increase was primarily attributable to growth in our average number of Non-Same-Home and Other properties, which rose to 13,911 properties for the three months ended September 30, 2016, from 12,616 properties for the three months ended September 30, 2015. Non-Same-Home core property operating expenses as a percentage of total Non-Same-Home core revenues from single-family properties decreased to 38.0% for the three months ended September 30, 2016, from 40.1% for the three months ended September 30, 2015. This decrease was primarily attributable to higher core revenues from Non-Same-Home properties.

General and Administrative Expense

General and administrative expense, which primarily consists of payroll and personnel costs, trustees' and officers' insurance expense, audit and tax fees, state taxes, trustee fees and other expenses associated with our corporate and administrative functions, was \$7.6 million for the three months ended September 30, 2016, compared to \$6.1 million for the same period in 2015. This rise was primarily related to a \$0.9 million increase in state taxes related to the

growth of our portfolio. Annualized general and administrative expense for the three months ended September 30, 2016, was 0.37% of total quarter-end assets, compared to annualized general and administrative expense of 0.35% of total quarter-end assets for the same period in 2015.

Interest Expense

Interest expense was \$32.9 million and \$23.9 million for the three months ended September 30, 2016 and 2015, respectively. This increase was primarily due to a rise in aggregate borrowings to \$2.9 billion at September 30, 2016, from \$2.5 billion at September 30, 2015.

Acquisition Fees and Costs Expensed

All costs of our internal acquisition function are expensed in accordance with GAAP. For the three months ended September 30, 2016, acquisition fees and costs expensed totaled \$1.8 million, including \$0.5 million of transaction costs related to the ARPI

Merger and \$1.3 million of other acquisition fees and costs expensed. For the three months ended September 30, 2015, acquisition fees and costs expensed totaled \$4.2 million, including \$4.1 million of costs associated with purchases of single-family properties and \$0.1 million of transaction costs related to portfolio and bulk transactions.

Depreciation and Amortization

Depreciation and amortization expense consists primarily of depreciation of buildings. Depreciation of our assets is calculated over their useful lives on a straight-line basis over 5 to 30 years. Our intangible assets are amortized on a straight-line basis over the asset's estimated economic useful life. Depreciation and amortization expense was \$75.4 million and \$67.8 million for the three months ended September 30, 2016 and 2015, respectively. This increase was attributable to growth in our average number of depreciable properties.

Edgar Filing: American Homes 4 Rent - Form 10-Q

Comparison of the Nine Months Ended September 30, 2016, to the Nine Months Ended September 30, 2015

The following table presents a summary of Core NOI for our Same-Home properties, Non-Same-Home properties and total properties for the nine months ended September 30, 2016 and 2015 (in thousands):

	For the Nine Months Ended September 30, 2016							
	Same-Home Properties (Revenue)	% of Revenue	Non-Same-Home and Other Properties	% of Revenue	Former ARPI Properties (2)	% of Revenue	Total Properties	% of Revenue

- (1) Includes 25,273 properties that have been stabilized longer than 90 days prior to January 1, 2015.
- (2) Former ARPI properties includes the operating activity of properties acquired through the ARPI Merger from the acquisition date of February 29, 2016, through September 30, 2016.

A reconciliation of Core NOI to net income or loss as determined in accordance with GAAP is located at the end of this Item 2— Management’s Discussion and Analysis of Financial Condition and Results of Operations.

Core Revenues from Single-Family Properties

Same-Home Properties

Core property revenues from Same-Home properties for the nine months ended September 30, 2016, increased \$17.6 million, or 5.8%, to \$318.9 million from \$301.3 million for the nine months ended September 30, 2015. This rise was primarily attributable to higher average monthly rental rates, which increased to \$1,496 per month as of September 30, 2016, compared to \$1,443 per month as of September 30, 2015, and to higher average occupancy levels, which increased to 95.1% as of September 30, 2016, from 93.9% as of September 30, 2015.

Non-Same Home and Other Properties

Core property revenues from Non-Same-Home and Other properties were \$173.6 million and \$106.7 million for the nine months ended September 30, 2016 and 2015, respectively. This increase was primarily attributable to growth in our average number of leased Non-Same-Home and Other properties, which rose to 12,834 leased properties for the nine months ended September 30, 2016, from 6,736 leased properties for the nine months ended September 30, 2015.

Core Property Operating Expenses

Core property operating expenses consist of direct property operating expenses, net of tenant charge-backs, and property management costs.

Same-Home Properties

Core property operating expenses from Same-Home properties for the nine months ended September 30, 2016, increased \$2.4 million, or 2.0%, to \$121.7 million from \$119.3 million for the nine months ended September 30, 2015. Same-Home core property operating expenses as a percentage of total Same-Home core revenues from single-family properties decreased to 38.2% for the nine months ended September 30, 2016, from 39.6% for the nine months ended September 30, 2015. This decrease was primarily attributable to lower maintenance and turnover costs, net of charge-backs, reduced property management expenses, as well as to higher core revenues from Same-Home properties.

Non-Same-Home and Other Properties

Core property operating expenses from Non-Same-Home and Other properties were \$64.8 million and \$40.9 million for the nine months ended September 30, 2016 and 2015, respectively. This increase was primarily attributable to growth in our average number of Non-Same-Home and Other properties, which rose to 11,845 properties for the nine months ended September 30, 2016, from 11,453 properties for the nine months ended September 30, 2015.

Non-Same-Home core property operating expenses as a percentage of total Same-Home core revenues from single-family properties decreased to 37.3% for the nine months ended September 30, 2016, from 38.3% for the nine months ended September 30, 2015. This decrease was primarily attributable to higher core revenues from Non-Same-Home properties.

General and Administrative Expense

General and administrative expense, which primarily consists of payroll and personnel costs, trustees' and officers' insurance expense, audit and tax fees, state taxes, trustee fees and other expenses associated with our corporate and administrative functions, was \$23.0 million for the nine months ended September 30, 2016, compared to \$18.5 million for the same period in 2015. This rise was primarily related to a \$2.0 million increase in state taxes related to the growth of our portfolio. Annualized general and administrative expense for the nine months ended September 30,

2016, was 0.38% of total quarter-end assets, compared to annualized general and administrative expense of 0.36% of total quarter-end assets for the same period in 2015.

Interest Expense

Interest expense was \$99.3 million and \$61.5 million for the nine months ended September 30, 2016 and 2015, respectively. This increase was primarily due to a rise in aggregate borrowings to \$2.9 billion at September 30, 2016, from \$2.5 billion at September 30, 2015.

Acquisition Fees and Costs Expensed

All costs of our internal acquisition function are expensed in accordance with GAAP. For the nine months ended September 30, 2016, acquisition fees and costs expensed totaled \$10.9 million, including \$6.1 million of transactions costs related to the ARPI

Merger and \$4.8 million of other acquisition fees and costs expensed. For the nine months ended September 30, 2015, acquisition fees and costs expensed totaled \$14.3 million, including \$13.3 million of costs associated with purchases of single-family properties and \$1.0 million of transaction costs related to portfolio and bulk transactions.

Depreciation and Amortization

Depreciation and amortization expense consists primarily of depreciation of buildings. Depreciation of our assets is calculated over their useful lives on a straight-line basis over 5 to 30 years. Our intangible assets are amortized on a straight-line basis over the asset's estimated economic useful life. Depreciation and amortization expense was \$224.5 million and \$180.7 million for the nine months ended September 30, 2016 and 2015, respectively. This increase was attributable to growth in our average number of depreciable properties.

Critical Accounting Policies and Estimates

Our critical accounting policies are included in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, of our Annual Report on Form 10-K for the year ended December 31, 2015. There have been no significant changes to our policies during the three and nine months ended September 30, 2016. For a discussion of recent accounting pronouncements, see "Note 2—Significant Accounting Policies."

Income Taxes

We have elected to be taxed as a REIT under Sections 856 to 860 of the Internal Revenue Code of 1986, as amended (the "Code"), which commenced with our taxable year ended December 31, 2012. We believe that we have operated, and continue to operate, in such a manner as to satisfy the requirements for qualification as a REIT. Accordingly, we will not be subject to federal income tax, provided that we qualify as a REIT and our distributions to our shareholders equal or exceed our REIT taxable income.

However, qualification and taxation as a REIT depends upon our ability to meet the various qualification tests imposed under the Code, including tests related to the percentage of income that we earn from specified sources and the percentage of our earnings that we distribute to our shareholders. Accordingly, no assurance can be given that we will continue to be organized or be able to operate in a manner so as to remain qualified as a REIT. If we fail to qualify as a REIT in any taxable year, we will be subject to federal and state income tax (including any applicable alternative minimum tax) on our taxable income at regular corporate tax rates, and we may be ineligible to qualify as a REIT for four subsequent tax years. Even if we qualify as a REIT, we may be subject to certain state or local income and capital taxes and U.S. federal income and excise taxes on our undistributed taxable income, if any. Our taxable REIT subsidiaries ("TRS") will be subject to federal, state and local taxes on their income at regular corporate rates. The tax years from 2012 through 2015 remain open to examination by the taxing jurisdictions to which the Company is subject.

ASC 740-10, Income Taxes, requires recognition of deferred tax assets for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax assets and liabilities are determined based on the differences between the financial reporting and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. We recognize tax benefits of uncertain tax positions only if it is more likely than not that the tax position will be sustained, based solely on its technical merits, with the taxing authority having full authority of all relevant information. The measurement of a tax benefit for an uncertain tax position that meets the more likely than not threshold is based on a cumulative probability model under which the largest amount of tax benefit recognized is the amount with a greater than 50% likelihood of being realized upon ultimate settlement with the taxing authority having full knowledge of all the relevant information. As of September 30, 2016, there were no deferred tax assets and liabilities or unrecognized tax benefits recorded. We do not anticipate a significant change in unrecognized tax benefits within the next 12 months.

Liquidity and Capital Resources

Our liquidity and capital resources as of September 30, 2016, included cash and cash equivalents of \$106.3 million. Additionally, as of September 30, 2016, \$75.0 million was outstanding under our revolving credit facility, which provides for maximum borrowings of up to \$650.0 million and \$250.0 million was outstanding under our term loan facility, which provides for maximum borrowings of up to \$350.0 million.

Liquidity is a measure of our ability to meet potential cash requirements, maintain our assets, fund our operations, make distributions to our shareholders and meet other general requirements of our business. Our liquidity, to a certain extent, is subject to general economic, financial, competitive and other factors beyond our control. Our liquidity requirements consist primarily of funds necessary to pay for the acquisition, renovation and maintenance of our properties, HOA fees (as applicable), real estate taxes, non-recurring capital expenditures, interest and principal payments on our indebtedness, general and administrative expenses, payment of quarterly dividends on our preferred shares, and payment of distributions to our Class A common shareholders.

We seek to satisfy our liquidity needs through cash provided by operations, long-term secured and unsecured borrowings, issuances of debt and equity securities (including OP units), asset-backed securitizations, property dispositions and joint venture transactions. We have financed our operations and acquisitions to date through the issuance of equity securities, borrowings under our credit facilities and asset-backed securitizations. Going forward, we expect to meet our operating liquidity requirements generally through cash on hand and cash provided by operations. We believe our rental income, net of operating expenses and recurring capital expenditures, will generally provide cash flow sufficient to fund our operations and dividend distributions. However, our real estate assets are illiquid in nature. A timely liquidation of assets might not be a viable source of short-term liquidity should a cash flow shortfall arise, and we may need to source liquidity from other financing alternatives.

To qualify as a REIT, we are required to distribute annually to our shareholders at least 90% of our REIT taxable income, without regard to the deduction for dividends paid and excluding net capital gains, and to pay tax at regular corporate rates to the extent that we annually distribute less than 100% of our net taxable income. We intend to pay quarterly dividends to our shareholders, which in the aggregate are approximately equal to or exceed our net taxable income in the relevant year.

Cash Flows

Our cash flows provided by operating activities depend on numerous factors, including the occupancy level of our properties, the rental rates achieved on our leases, the collection of rent from our tenants and the level of property operating expenses, property management operating expenses and general and administrative expenses.

During the nine months ended September 30, 2016, net cash provided by operating activities was \$242.9 million, which included inflows of \$230.1 million from noncash adjustments to net income, \$11.7 million from other changes in operating assets and liabilities and net income of \$1.1 million. Net cash used for investing activities was \$452.0 million, which primarily consisted of cash outflows of \$350.0 million related to the payoff of the credit facility in connection with the ARPI Merger, \$188.7 million related to the acquisition of properties, \$27.1 million for the purchase of commercial real estate and \$21.7 million of renovation costs to prepare our properties for rental, partially offset by cash inflows of \$71.9 million of net proceeds received from the sales of single-family properties and \$44.5 million of net proceeds received from the sales of non-performing loans. Renovation costs typically include paint, flooring, appliances, landscaping and other improvements. Net cash provided by financing activities was \$257.7 million, which primarily consisted of cash inflows including \$482.8 million of net proceeds from the issuance of perpetual preferred shares and \$325.0 million of net borrowings against our revolving credit facilities and term loan facility, partially offset by cash outflows of \$374.0 million for payments on our asset-backed securitizations and \$96.1 million for repurchases of our Class A common shares. Net increase in cash and cash equivalents during the nine months ended September 30, 2016, was \$48.6 million.

During the nine months ended September 30, 2015, net cash provided by operating activities was \$155.9 million, which included inflows of \$193.0 million from noncash adjustments to net loss, partially offset by outflows of \$0.5 million from other changes in operating assets and liabilities and a net loss of \$36.6 million. Net cash used for investing activities was \$743.9 million, which primarily consisted of cash outflows of \$555.0 million related to the acquisition of properties and \$125.2 million of renovation costs to prepare our properties for rental. These costs typically include paint, flooring, appliances, landscaping and other improvements. Net cash provided by financing activities was \$717.6 million, which primarily consisted of cash inflows of \$1.0 billion in proceeds from our securitization transactions in March 2015 and September 2015, partially offset by net repayments of borrowings under our credit facility of \$207.0 million. Net increase in cash and cash equivalents during the nine months ended September 30, 2015, was \$129.6 million.

Credit Facilities

In March 2013, the Company entered into a \$500.0 million senior secured revolving credit facility with a financial institution, which was subsequently amended in September 2013 to, among other things, expand our borrowing capacity to \$800.0 million and extend the repayment period to September 30, 2018. All borrowings under the revolving credit facility accrued interest at 1-month LIBOR plus 2.75% until March 2017, and thereafter at 1-month LIBOR plus 3.125%. The revolving credit facility was secured by our operating partnership's membership interests in entities that own certain of our single-family properties and required that we maintain certain financial covenants. In July 2016, the Company paid off the \$142.0 million of borrowings that had been outstanding on the revolving credit facility as of June 30, 2016, using proceeds from our 6.35% Series E perpetual preferred share offering, and terminated the revolving credit facility during August 2016. The termination of the revolving credit facility resulted in \$2.7 million of charges during the quarter ended September 30, 2016, related to deferred financing cost write-offs, that were included in early extinguishment of debt within the condensed consolidated statements of operations.

In August 2016, the Company entered into a \$1.0 billion credit agreement providing for a revolving credit facility in an aggregate principal amount of \$650.0 million and a delayed draw term loan facility in an aggregate principal amount of \$350.0 million. The interest rate on the revolving facility is, at the Company's election, a LIBOR rate plus a margin ranging from 1.75% to

2.30% or a base rate (generally determined according to a prime rate or federal funds rate) plus a margin ranging from 0.75% to 1.30%. Loans under the term loan facility accrue interest, at the Company's election, at either a LIBOR rate plus a margin ranging from 1.70% to 2.30% or a base rate plus a margin ranging from 0.70% to 1.30%. In each case, the actual margin is determined according to a ratio of the Company's total indebtedness to total asset value in effect from time to time. Based on current credit metrics for LIBOR based borrowings as of September 30, 2016, the revolving credit facility bears interest at 1-month LIBOR plus 1.85%, and the term loan facility bears interest at 1-LIBOR plus 1.80%. The revolving credit facility and the term loan facility have fully extended maturity dates of August 2020 and August 2021, respectively. The credit agreement requires that we maintain certain financial covenants. As of September 30, 2016, the Company had \$75.0 million outstanding borrowings against the revolving credit facility, \$250.0 million outstanding borrowings against the term loan facility and was in compliance with all loan covenants.

Asset-Backed Securitization

In connection with the Merger with ARPI on February 29, 2016 (see Note 10), the Company assumed a securitization loan (the "ARP 2014-SFR1 securitization"), which involved the issuance and sale of single-family rental pass-through certificates that represent beneficial ownership interests in a loan secured by 2,875 homes held by a special purpose entity, ARP 2014-SFR1 Borrower, LLC (the "Borrower"). The Borrower under the loan was wholly owned by another special purpose entity (the "Equity Owner") and the Equity Owner was wholly owned by the operating partnership. The loan, at the time of its origination by ARPI in August 2014, had an original principal amount of \$342.2 million and an initial term of two years, with three, 12-month extension options, resulting in a fully extended maturity date of September 9, 2019. It was comprised of six floating rate components computed monthly based on 1-month LIBOR for each interest period plus a fixed component spread for each of the six components resulting in an effective weighted-average interest rate of 1-month LIBOR plus 2.11%. Interest on the loan was paid monthly. In September 2016, the Company paid off the ARP 2014-SFR1 asset-backed securitization using available cash and borrowings from our credit facilities, which resulted in a \$10.7 million loss on early extinguishment of debt related to the write-off of the discount on the securitization. The payoff of the ARP 2014-SFR1 asset-backed securitization resulted in the release of the 2,875 collateralized homes and \$10.1 million of restricted cash for lender requirements.

Exchangeable Senior Notes, Net

In connection with the Merger with ARPI on February 29, 2016 (see Note 10), the Company assumed 3.25% exchangeable senior notes due 2018 that have a \$115.0 million aggregate principal amount and a fair value at assumption of \$112.3 million. The exchangeable senior notes are senior unsecured obligations of the operating partnership and rank equally in right of payment with all other existing and future senior unsecured indebtedness of the operating partnership. Interest is payable in arrears on May 15 and November 15 of each year, beginning May 15, 2016, until the maturity date of November 15, 2018. The operating partnership's obligations under the exchangeable senior notes are fully and unconditionally guaranteed by the Company. The exchangeable senior notes bear interest at a rate of 3.25% per annum and contain an exchange settlement feature, which provides that the exchangeable senior notes may, under certain circumstances, be exchangeable for cash, shares of our common stock or a combination of cash and shares of our common stock, at the option of the operating partnership, based on an initial exchange rate of 46.9423 shares of ARPI's common stock per \$1,000 principal amount of the notes. The adjusted initial exchange rate would be 53.2795 shares of our common stock per \$1,000 principal amount of the notes, based on the 1.135 exchange ratio of ARPI shares to our shares resulting from our merger with ARPI. The current exchange rate as of September 30, 2016, was 54.6381 shares of our common stock per \$1,000 principal amount of the notes. The exchange rate changes over time based on our common share price and distributions to common shareholders. The exchangeable senior notes will be exchangeable for our common shares based on certain triggering events (see Note 6).

The fair value of the exchangeable senior notes, which was calculated using a binomial lattice model at the time of assumption, was \$112.3 million, which represents the \$115.0 million face value less a discount of \$2.7 million, which will be amortized using the effective interest method over the term of the notes. The amount recorded to exchangeable senior notes, net at the time of assumption was \$105.3 million, which represents the fair value of \$112.3 million, less the fair value of the exchange settlement feature of the notes of \$7.0 million, which was calculated using a straight-debt rate of 6.7% at the time of assumption. The fair value of the exchange settlement feature was recorded in additional paid-in capital and will be amortized using the effective interest method over the term of the notes.

As of September 30, 2016, the exchangeable senior notes, net had a balance of \$107.3 million in the condensed consolidated balance sheets, which was net of an unamortized discount of \$2.1 million and \$5.6 million of unamortized fair value of the exchange settlement feature, which was included in additional paid-in capital within the condensed consolidated balance sheets.

Share Repurchase Program

On September 21, 2015, the Company announced that our Board of Trustees approved a share repurchase program authorizing us to repurchase up to \$300.0 million of our outstanding Class A common shares from time to time in the open market or

in privately negotiated transactions. We repurchased and retired 6.2 million of our Class A common shares, on a settlement date basis, at a weighted-average price of \$15.44 per share and a total price of \$96.0 million during the nine months ended September 30, 2016, in accordance with the program. During the nine months ended September 30, 2015, we repurchased and retired approximately 3.4 million of our Class A common shares, in accordance with the program at a weighted-average price of \$15.76 per share and a total price of \$53.7 million. As of September 30, 2016, we had a remaining repurchase authorization of \$146.7 million under the program (see Note 8).

Off-Balance Sheet Arrangements

We have no obligations, assets or liabilities that would be considered off-balance sheet arrangements.

Non-GAAP Measures

Core Net Operating Income ("Core NOI"), Same-Home Core NOI and Same-Home Core NOI after capital expenditures

Core NOI and Same-Home Core NOI are supplemental non-GAAP financial measures that we define as rents and fees from single-family properties, net of bad debt expense, less property operating expenses for single-family properties, excluding expenses reimbursed by tenant charge-backs and bad debt expense. A property is classified as Same-Home if it has been stabilized longer than 90 days prior to the beginning of the earliest period presented under comparison. A property is removed from Same-Home if it has been classified as held for sale or has been taken out of service as a result of a casualty loss. Single-family properties that we acquire individually (i.e., not through a bulk purchase) are classified as either stabilized or non-stabilized. A property is classified as stabilized once it has been renovated and then initially leased or available for rent for a period greater than 90 days.

Core NOI and Same-Home Core NOI also excludes (1) noncash fair value adjustments associated with remeasuring our Series E convertible units liability and preferred shares derivative liability to fair value, (2) noncash gain or loss on conversion of convertible units, (3) gain or loss on early extinguishment of debt, (4) gain or loss on sale of single-family properties, (5) depreciation and amortization, (6) acquisition fees and costs expensed incurred with recent business combinations and the acquisition of individual properties, (7) noncash share-based compensation expense, (8) interest expense, (9) general and administrative expense, (10) other expenses and (11) other revenues. We further adjust Same-Home Core NOI by subtracting capital expenditures to calculate Same-Home Core NOI after capital expenditures, which we believe is a meaningful supplemental non-GAAP financial measure because it more fully reflects our operating performance after the impact of all property-level expenditures, regardless of whether they are capitalized or expensed.

We consider Core NOI, Same-Home Core NOI and Same-Home Core NOI after capital expenditures to be meaningful financial measures because we believe they are helpful to investors in understanding the operating performance of our single-family properties without the impact of certain operating expenses that are reimbursed through tenant charge-backs.

Core NOI, Same-Home Core NOI and Same-Home Core NOI after capital expenditures should be considered only as supplements to net income (loss) as a measure of our performance. Core NOI, Same-Home Core NOI and Same-Home Core NOI after capital expenditures should not be used as measures of our liquidity, nor are they indicative of funds available to fund our cash needs, including our ability to pay dividends or make distributions. Core NOI, Same-Home Core NOI and Same-Home Core NOI after capital expenditures also should not be used as substitutes for net income (loss) or net cash flows from operating activities (as computed in accordance with GAAP).

Edgar Filing: American Homes 4 Rent - Form 10-Q

The following is a reconciliation of Core NOI, Same-Home Core NOI and Same-Home Core NOI after capital expenditures to net loss attributable to common shareholders as determined in accordance with GAAP for the three and nine months ended September 30, 2016 and 2015 (amounts in thousands):

	For the Three Months Ended		For the Nine Months Ended

Same-Home core net operating income	65,324	58,878	197,137	181,962
Same-Home capital expenditures	5,720	5,798	13,879	18,900
Same-Home core net operating income after capital expenditures	\$59,604	\$53,080	\$183,258	\$163,062

Beginning January 1, 2016, property operating expenses for vacant single-family properties have been included in (1) property operating expenses and other expenses have been included in other expenses in the condensed consolidated statements of operations.

FFO / Core FFO / Adjusted FFO attributable to common share and unit holders

FFO attributable to common share and unit holders is a non-GAAP financial measure that we calculate in accordance with the White Paper on FFO approved by the Board of Governors of the National Association of Real Estate Investment Trusts (“NAREIT”), which defines FFO as net income or loss calculated in accordance with GAAP, excluding extraordinary items, as defined by GAAP, gains and losses from sales or impairment of real estate, plus real estate-related depreciation and amortization (excluding amortization of deferred financing costs and depreciation of non-real estate assets), and after adjustment for unconsolidated partnerships and joint ventures.

Core FFO attributable to common share and unit holders is a non-GAAP financial measure that we use as a supplemental measure of our performance. We compute this metric by adjusting FFO attributable to common share

and unit holders for (1) acquisition fees and costs expensed incurred with recent business combinations and the acquisition of individual properties, (2) noncash share-based compensation expense, (3) noncash interest expense related to acquired debt, (4) gain or loss on early extinguishment of debt, (5) noncash gain or loss on conversion of convertible units and (6) noncash fair value adjustments associated with remeasuring our Series E convertible units liability and preferred shares derivative liability to fair value.

Adjusted FFO attributable to common share and unit holders is a non-GAAP financial measure that we use as a supplemental measure of our performance. We compute this metric by adjusting Core FFO attributable to common share and unit holders for (1)

recurring capital expenditures that are necessary to help preserve the value and maintain functionality of our properties and (2) actual leasing costs incurred during the period. As many of our homes are still recently acquired and / or renovated, we estimate recurring capital expenditures for our entire portfolio by multiplying (a) current period actual capital expenditures per Same-Home property by (b) our total number of properties, excluding non-stabilized and held for sale properties.

We present FFO attributable to common share and unit holders because we consider this metric to be an important measure of the performance of real estate companies, as do many analysts in evaluating the Company. We believe that FFO attributable to common share and unit holders is a helpful measure of a REIT's performance since this metric excludes depreciation, which is included in computing net income and assumes the value of real estate diminishes predictably over time. We believe that real estate values fluctuate due to market conditions and in response to inflation.

We also believe that Core FFO and Adjusted FFO attributable to common share and unit holders are helpful to investors as supplemental measures of the operating performance of the Company as they allow investors to compare our operating performance to prior reporting periods without the effect of certain items that, by nature, are not comparable from period to period.

FFO, Core FFO and Adjusted FFO attributable to common share and unit holders are not a substitute for net cash flow provided by operating activities or net income (loss) per share, as determined in accordance with GAAP, as a measure of our liquidity, operating performance or ability to pay dividends. These metrics also are not necessarily indicative of cash available to fund future cash needs. Because other REITs may not compute these measures in the same manner, they may not be comparable among REITs.

The following is a reconciliation of net loss attributable to common shareholders, determined in accordance with GAAP, to FFO attributable to common share and unit holders, Core FFO attributable to common share and unit holders and Adjusted FFO attributable to common share and unit holders for the three and nine months ended September 30, 2016 and 2015 (amounts in thousands):

	For the Three Months Ended September 30, 2016		For the Nine Months Ended September 30, 2015	
	(Unaudited)	(Unaudited)	(Unaudited)	(Unaudited)
Net loss attributable to common shareholders	\$(21,152)	\$(28,616)	\$(35,933)	\$(64,103)
Adjustments:				
Noncontrolling interests in the Operating Partnership	7,542	3,123	10,838	10,853
Net (gain) loss on sale / impairment of single-family properties	(11,115)	—	(11,107)	—
Depreciation and amortization of real estate assets	73,790	66,218	220,168	174,288
FFO attributable to common share and unit holders	\$49,065	\$40,725	\$183,966	\$121,038
Adjustments:				
Acquisition fees and costs expensed	1,757	4,153	10,899	14,297
Noncash share-based compensation expense	891	913	2,744	2,343
Noncash interest expense related to acquired debt	1,474	—	3,699	—
Loss on early extinguishment of debt	13,408	—	13,408	—
Gain on conversion of Series E units	—	—	(11,463)	—
Remeasurement of Series E units	—	525	—	(3,456)
Remeasurement of preferred shares	2,490	3,000	2,940	2,300
Core FFO attributable to common share and unit holders	\$69,085	\$49,316	\$206,193	\$136,522
Recurring capital expenditures	(10,411)	(8,458)	(25,183)	(26,443)
Leasing costs	(2,119)	(2,312)	(6,199)	(7,733)

Edgar Filing: American Homes 4 Rent - Form 10-Q

Adjusted FFO attributable to common share and unit holders \$56,555 \$ 38,546 \$174,811 \$ 102,346

EBITDA / Adjusted EBITDA

EBITDA is defined as earnings before interest, taxes, depreciation and amortization. EBITDA is a non-GAAP financial measure and is used by us and others as a supplemental measure of performance. Adjusted EBITDA is a supplemental non-GAAP financial measure calculated by adjusting EBITDA for (1) acquisition fees and costs expensed incurred with recent business combinations and the acquisition of individual properties, (2) net gain or loss on sale / impairment of single-family properties, (3) noncash share-based compensation expense, (4) gain or loss on early extinguishment of debt, (5) gain or loss on conversion of convertible units and (6) noncash fair value adjustments associated with remeasuring our Series E convertible units liability and preferred shares derivative liability to fair value. We consider Adjusted EBITDA to be a meaningful financial measure of operating performance because it excludes the impact of various income and expense items that are not indicative of operating performance.

Edgar Filing: American Homes 4 Rent - Form 10-Q

The following is a reconciliation of net loss attributable to common shareholders, determined in accordance with GAAP, to EBITDA and Adjusted EBITDA for the three and nine months ended September 30, 2016 and 2015 (amounts in thousands):

Adjusted EBITDA	\$115,507	\$80,319	\$332,351	\$221,107

ITEM 3. Quantitative and Qualitative Disclosures about Market Risk

Interest Rate Risk

The primary market risk to which we believe we are exposed is interest rate risk, which may result from many factors, including government monetary and tax policies, domestic and international economic and political considerations, and other factors that are beyond our control. We may incur additional variable rate debt in the future, including additional amounts that we may borrow under our revolving credit and term loan facilities. In addition, decreases in interest rates may lead to additional competition for the acquisition of single-family homes, which may lead to future acquisitions being costlier and resulting in lower yields on single-family homes targeted for acquisition. Significant increases in interest rates may also have an adverse impact on our earnings if we are unable to acquire single-family homes with rental rates high enough to offset the increase in interest rates on our borrowings.

As of September 30, 2016, and December 31, 2015, the total outstanding balance of our variable-rate debt was comprised of borrowings on our revolving credit facility of \$75.0 million and zero, respectively, our term loan facility of \$250.0 million and zero, respectively, and AH4R 2014-SFR1 securitization of \$458.0 million and \$473.8 million, respectively. All borrowings under our revolving credit facility bear interest at a LIBOR rate plus a margin ranging from 1.75% to 2.30% or a base rate (generally determined according to a prime rate or federal funds rate) plus a margin ranging from 0.75% to 1.30% until the fully extended maturity date of August 2020, the term loan facility bears interest at a LIBOR rate plus a margin ranging from 1.70% to 2.30% or a base rate (generally determined according to a prime rate or federal funds rate) plus a margin ranging from 0.70% to 1.30% until the fully extended maturity date of August 2021, and the AH4R 2014-SFR1 securitization bears interest at a duration-weighted blended interest rate of 1-month LIBOR plus 1.54%. Assuming no change in the outstanding balance of our existing variable-rate debt, the following table illustrates the effect of a 100 basis point increase or decrease in the LIBOR rate on our projected annual interest expense as of September 30, 2016, and December 31, 2015 (in thousands):

	September 30, 2016	December 31, 2015
Impact to future earnings due to variable rate debt, before the effect of capitalization:		
Rate increase of 1% (1)	\$ 7,828	\$ 4,738
Rate decrease of 1% (2)	\$ (2,981)	\$ (384)

- (1) Calculation of additional projected annual interest expense as a result of a 100 basis point increase reflects the potential impact of our interest rate cap agreement as of September 30, 2016.
- (2) Calculation of projected decrease in annual interest expense as a result of a 100 basis point decrease is reflective of any LIBOR floors or minimum interest rates stated in the agreements of respective borrowings.

These analyses do not consider the effects of the reduced level of overall economic activity that could exist in such an environment. Further, in the event of a change of such magnitude, we would consider taking actions to further mitigate our exposure to the change. However, because of the uncertainty of the specific actions that would be taken and their possible effects, the sensitivity analysis assumes no changes in our capital structure.

ITEM 4. Controls and Procedures

Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in reports we file and submit under the Securities Exchange Act of 1934, as amended (the "Exchange Act") is recorded, processed, summarized and reported within the time periods specified in accordance with SEC guidelines and that such information is communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure based on the definition of "disclosure controls and

procedures” in Rules 13a-15(e) and 15d-15(e) of the Exchange Act. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives and management necessarily is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures in reaching that level of reasonable assurance.

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we evaluated the effectiveness of our disclosure controls and procedures, as required by Exchange Act Rule 13a-15(b), as of the end of the period covered by this report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective, at a reasonable assurance level.

Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the quarter ended September 30, 2016, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

The Company currently is not subject to any material litigation nor, to management's knowledge, is any material litigation currently threatened against the Company other than routine litigation and administrative proceedings arising in the ordinary course of business.

Item 1A. Risk Factors

In addition to the other information in this Quarterly Report on Form 10-Q, you should carefully consider the risks described in our Annual Report on Form 10-K filed for the year ended December 31, 2015, in Part I, Item 1A, Risk Factors; in our Quarterly Report on Form 10-Q for the quarter ended June 30, 2016; and in our other filings with the SEC. These factors may materially affect our business, financial condition and operating results and could cause our actual results to differ materially from expectations.

There have been no material changes to our risk factors from those disclosed in the section entitled "Risk Factors" of our Annual Report on Form 10-K for the year ended December 31, 2015, and our Quarterly Report on Form 10-Q for the quarter ended June 30, 2016.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On September 21, 2015, the Company announced that our Board of Trustees approved a share repurchase program authorizing us to repurchase up to \$300.0 million of our outstanding Class A common shares from time to time in the open market or in privately negotiated transactions. The program does not have an expiration date, but may be suspended or discontinued at any time without notice. All repurchased shares are constructively retired and returned to an authorized and unissued status. We did not repurchase any of our Class A common shares during the three months ended September 30, 2016. As of September 30, 2016, we had a remaining repurchase authorization of \$146.7 million under the program.

Item 3. Defaults upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None.

Item 6. Exhibits

Exhibits required by Item 601 of Regulation S-K are filed herewith or incorporated herein by reference and are listed in the attached Exhibit Index which is incorporated herein by reference.

SIGNATURES

Pursuant to the requirement of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
