EXPLANATORY NOTE

This report combines the quarterly reports on Form 10-Q for the period ended March 31, 2019, of American Homes 4 Rent and American Homes 4 Rent, L.P. Unless stated otherwise or the context otherwise requires, references to “AH4R” or “the General Partner” mean American Homes 4 Rent, a Maryland real estate investment trust (“REIT”), and references to “the Operating Partnership,” “our operating partnership” or “the OP” mean American Homes 4 Rent, L.P., a Delaware limited partnership, and its subsidiaries taken as a whole. References to “the Company,” “we,” “our,” and “us” mean collectively AH4R, the Operating Partnership and those entities/subsidiaries owned or controlled by AH4R and/or the Operating Partnership.

AH4R is the general partner of, and as of March 31, 2019, owned an approximate 84.4% common partnership interest in, the Operating Partnership. The remaining 15.6% common partnership interest was owned by limited partners. As the sole general partner of the Operating Partnership, AH4R has exclusive control of the Operating Partnership’s day-to-day management. The Company’s management operates AH4R and the Operating Partnership as one business, and the management of AH4R consists of the same members as the management of the Operating Partnership.

The Company believes that combining the quarterly reports on Form 10-Q of the Company and the Operating Partnership into this single report provides the following benefits:

- enhances investors' understanding of the Company and the Operating Partnership by enabling investors to view the business as a whole in the same manner as management views and operates the business;

- eliminates duplicative disclosure and provides a more streamlined and readable presentation since a substantial portion of the disclosure applies to both the Company and the Operating Partnership; and

- creates time and cost efficiencies through the preparation of one combined report instead of two separate reports.

The Company believes it is important to understand the few differences between AH4R and the Operating Partnership in the context of how AH4R and the Operating Partnership operate as a consolidated company. AH4R’s primary function is acting as the general partner of the Operating Partnership. The only material asset of AH4R is its partnership interest in the Operating Partnership. As a result, AH4R generally does not conduct business itself, other than acting as the sole general partner of the Operating Partnership, issuing equity from time to time and guaranteeing certain debt of the Operating Partnership. AH4R itself is not directly obligated under any indebtedness, but guarantees some of the debt of the Operating Partnership. The Operating Partnership owns substantially all of the assets of the Company, including the Company’s ownership interests in its joint ventures, either directly or through its subsidiaries, conducts the operations of the Company’s business and is structured as a limited partnership with no publicly traded equity. One difference between the Company and the Operating Partnership is \$25.7 million of asset-backed securitization certificates issued by the Operating Partnership and purchased by AH4R. The asset-backed securitization certificates are recorded as an asset-backed securitization certificates receivable by the Company and as an amount due from affiliates by the Operating Partnership. AH4R contributes all net proceeds from its various equity offerings to the Operating Partnership. In return for those contributions, AH4R receives Operating Partnership units (“OP units”) equal to the number of shares it has issued in the equity offering. Based on the terms of the Agreement of Limited Partnership of the Operating Partnership, as amended (the “Agreement of Limited Partnership”), OP units can be exchanged for shares on a one-for-one basis. Except for net proceeds from equity issuances by AH4R, the Operating Partnership generates the capital required by the Company’s business through the Operating Partnership’s operations, by the Operating Partnership’s incurrence of indebtedness or through the issuance of OP units.

Shareholders' equity, partners' capital and noncontrolling interests are the main areas of difference between the consolidated financial statements of the Company and those of the Operating Partnership. The limited partnership

interests in the Operating Partnership are accounted for as partners' capital in the Operating Partnership's financial statements and as noncontrolling interests in the Company's financial statements. The noncontrolling interests in the Operating Partnership's financial statements include an outside ownership interest in a consolidated subsidiary of the Company, which was liquidated during the second quarter of 2018. The noncontrolling interests in the Company's financial statements include the same noncontrolling interests at the Operating Partnership level, as well as the limited partnership interests in the Operating Partnership. The differences between shareholders' equity and partners' capital result from differences in the equity and capital issued at the Company and Operating Partnership levels.

To help investors understand the differences between the Company and the Operating Partnership, this report provides separate consolidated financial statements for the Company and the Operating Partnership; a single set of consolidated notes to such financial statements that includes separate discussions of each entity's debt, noncontrolling interests and shareholders' equity or partners' capital, as applicable; and a combined Management's Discussion and Analysis of Financial Condition and Results of Operations section that includes discrete information related to each entity.

This report also includes separate Part I, Item 4. Controls and Procedures sections and separate Exhibits 31 and 32 certifications for each of the Company and the Operating Partnership in order to establish that the requisite certifications have been made and that the Company and the Operating Partnership are compliant with Rule 13a-15 or Rule 15d-15 of the Securities Exchange Act of 1934 and 18 U.S.C. §1350.

In order to highlight the differences between the Company and the Operating Partnership, the separate sections in this report for the Company and the Operating Partnership specifically refer to the Company and the Operating Partnership. In the sections that combine disclosure of the Company and the Operating Partnership, this report refers to actions or holdings as being actions or holdings of the Company. Although the Operating Partnership is generally the entity that directly or indirectly enters into contracts and joint ventures and holds assets and debt, reference to the Company is appropriate because the Company is one business and the Company operates that business through the Operating Partnership. The separate discussions of the Company and the Operating Partnership in this report should be read in conjunction with each other to understand the results of the Company on a consolidated basis and how management operates the Company.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

Various statements contained in this Quarterly Report on Form 10-Q of American Homes 4 Rent (“AH4R” or “the General Partner”) and of American Homes 4 Rent, L.P. (“the Operating Partnership,” “our operating partnership,” or “the OP”) including those that express a belief, expectation or intention, as well as those that are not statements of historical fact, are forward-looking statements. These forward-looking statements may include projections and estimates concerning the timing and success of specific projects and our future operations, revenues, income and capital spending. Our forward-looking statements are generally accompanied by words such as “estimate,” “project,” “predict,” “believe,” “expect,” “intend,” “anticipate,” “potential,” “plan,” “goal” or other words that convey the uncertainty of future events and outcomes. We have based these forward-looking statements on our current expectations and assumptions about future events. While our management considers these expectations and assumptions to be reasonable, they are inherently subject to significant business, economic, competitive, regulatory and other risks, contingencies and uncertainties, most of which are difficult to predict and many of which are beyond our control. These and other important factors, including those discussed or incorporated by reference under Part II, Item 1A. “Risk Factors”, Part I, Item 2. “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and elsewhere in this report and in our Annual Report on Form 10-K for the year ended December 31, 2018, filed with the Securities and Exchange Commission, may cause our actual results, performance or achievements to differ materially from any future results, performance or achievements expressed or implied by these forward-looking statements.

While forward-looking statements reflect our good faith beliefs, assumptions and expectations, they are not guarantees of future performance, and you should not unduly rely on them. The forward-looking statements in this Quarterly Report on Form 10-Q speak only as of the date of this report. We are not obligated to update or revise these statements as a result of new information, future events or otherwise, unless required by applicable law.

American Homes 4 Rent, L.P.
Notes to Unaudited Condensed Consolidated Financial Statements

Note 1. Organization and Operations

American Homes 4 Rent (“AH4R”) is a Maryland real estate investment trust (“REIT”) formed on October 19, 2012, for the purpose of acquiring, developing, renovating, leasing and operating single-family homes as rental properties. American Homes 4 Rent, L.P., a Delaware limited partnership formed on October 22, 2012, and its consolidated subsidiaries (collectively, the “Operating Partnership,” our “operating partnership” or the “OP”) is the entity through which the Company conducts substantially all of our business and owns, directly or through subsidiaries, substantially all of our assets. References to “the Company,” “we,” “our,” and “us” mean collectively, AH4R, the Operating Partnership and those entities/subsidiaries owned or controlled by AH4R and/or the Operating Partnership. As of March 31, 2019, the Company held 52,923 single-family properties in 22 states, including 1,793 properties classified as held for sale, compared to 52,783 single-family properties in 22 states, including 1,945 properties classified as held for sale, as of December 31, 2018.

AH4R is the general partner of, and as of March 31, 2019, owned an approximate 84.4% common partnership interest in, the Operating Partnership with the remaining 15.6% common partnership interest owned by limited partners. As the sole general partner of the Operating Partnership, AH4R has exclusive control of the Operating Partnership’s day-to-day management. The Company’s management operates AH4R and the Operating Partnership as one business, and the management of AH4R consists of the same members as the management of the Operating Partnership. AH4R’s primary function is acting as the general partner of the Operating Partnership. The only material asset of AH4R is its partnership interest in the Operating Partnership. As a result, AH4R generally does not conduct business itself, other than acting as the sole general partner of the Operating Partnership, issuing equity from time to time and guaranteeing certain debt of the Operating Partnership. AH4R itself is not directly obligated under any indebtedness, but guarantees some of the debt of the Operating Partnership. The Operating Partnership owns substantially all of the assets of the Company, including the Company’s ownership interests in its joint ventures, either directly or through its subsidiaries, conducts the operations of the Company’s business and is structured as a limited partnership with no publicly traded equity. One difference between the Company and the Operating Partnership is \$25.7 million of asset-backed securitization certificates issued by the Operating Partnership and purchased by AH4R. The asset-backed securitization certificates are recorded as an asset-backed securitization certificates receivable by the Company and an amount due from affiliates by the Operating Partnership. AH4R contributes all net proceeds from its various equity offerings to the Operating Partnership. In return for those contributions, AH4R receives Operating Partnership units (“OP units”) equal to the number of shares it has issued in the equity offering. Based on the terms of the Agreement of Limited Partnership of the Operating Partnership, OP units can be exchanged for shares on a one-for-one basis. Except for net proceeds from equity issuances by AH4R, the Operating Partnership generates the capital required by the Company’s business through the Operating Partnership’s operations, by the Operating Partnership’s incurrence of indebtedness or through the issuance of OP units.

Note 2. Significant Accounting Policies

Basis of Presentation

The condensed consolidated financial statements are unaudited and include the accounts of AH4R, the Operating Partnership and their consolidated subsidiaries. The condensed consolidated financial statements of the Operating Partnership include the accounts of the Operating Partnership and its consolidated subsidiaries. Intercompany accounts and transactions have been eliminated. The Company consolidates real estate partnerships and other entities that are not variable interest entities (“VIEs”) when it owns, directly or indirectly, a majority interest in the entity or is otherwise able to control the entity. The Company consolidates VIEs in accordance with Accounting Standards

Codification (“ASC”) No. 810, Consolidation, if it is the primary beneficiary of the VIE as determined by its power to direct the VIE’s activities and the obligation to absorb its losses or the right to receive its benefits, which are potentially significant to the VIE. Entities for which the Company owns an interest, but does not consolidate, are accounted for under the equity method of accounting as an investment in unconsolidated subsidiary and are included in escrow deposits, prepaid expenses and other assets within the condensed consolidated balance sheets. The ownership interest in a consolidated subsidiary of the Company held by outside parties, which was liquidated during the second quarter of 2018, is included in noncontrolling interest within the condensed consolidated financial statements.

The condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) and in conjunction with the rules and regulations of the Securities and Exchange Commission (“SEC”). Certain information and footnote disclosures required for annual financial statements have been condensed or excluded pursuant to SEC rules and regulations. Accordingly, the condensed consolidated financial statements do not include all of the information and footnotes required by GAAP for complete financial statements and should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2018. Any references in this report to the number of properties is outside the scope of our independent registered public

accounting firm's review of our financial statements, in accordance with the standards of the Public Company Accounting Oversight Board. In the opinion of management, all adjustments of a normal and recurring nature necessary for a fair presentation of the condensed consolidated financial statements for the interim periods have been made. The preparation of condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Recent Accounting Pronouncements

In June 2016, the FASB issued ASU No. 2016-13, Financial Instruments—Credit Losses (Topic 326), to amend the accounting for credit losses for certain financial instruments by requiring companies to recognize an estimate of expected credit losses as an allowance in order to recognize such losses more timely than under previous guidance that had allowed companies to wait until it was probable such losses had been incurred. The guidance will be effective for the Company for annual reporting periods beginning after December 15, 2019, and for interim periods within those annual periods. Early adoption is permitted for annual reporting periods beginning after December 15, 2018, and interim periods within those annual periods. The Company is currently assessing the impact of the guidance on our financial statements.

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), which sets forth principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract (i.e., lessors and lessees). Lessor accounting remains similar to lessor accounting under previous guidance while aligning with the FASB's revised revenue recognition guidance for non-lease components of lease agreements. The new guidance requires lessees to recognize right-of-use assets and lease liabilities on the balance sheet for the rights and obligations created by all leases with terms of more than one year. The new guidance also requires lessees and lessors to capitalize, as initial direct costs, only those costs incurred due to the execution of a lease. Other costs previously capitalized under ASC 840, including indirect leasing costs, are expensed as incurred. In July 2018, the FASB issued ASU No. 2018-11, Leases (Topic 842) Targeted Improvements, which provides lessors with a practical expedient, by class of underlying asset, to not separate non-lease components from the associated lease component if the non-lease components would otherwise be accounted for under the new revenue recognition standard and both the timing and pattern of transfer are the same for the non-lease components and associated lease component and, if accounted for separately, the lease component would be classified as an operating lease. As issued, ASU No. 2016-02 required modified retrospective application for all leases existing as of, or entered into after, the beginning of the earliest comparative period presented in the consolidated financial statements, with certain practical expedients available. ASU No. 2018-11 simplifies the transition requirements by providing companies an option to initially apply the new lease requirements as of the date of adoption and recognize a cumulative effect adjustment to the opening balance of retained earnings in the period of adoption. In December 2018, the FASB issued ASU No. 2018-20, Narrow-Scope Improvements for Lessors, which allows lessors to make an accounting policy election to exclude sales taxes and other similar taxes on lease transactions from lease revenue and the associated expense and requires lessors to exclude costs paid directly by lessees to third parties on the lessor's behalf from lease revenue. The guidance is effective for the Company for annual reporting periods beginning after December 15, 2018, and for interim periods within those annual periods, with early adoption permitted.

The Company adopted this guidance (the "new lease accounting standard") effective January 1, 2019. As part of our accounting policy for the new guidance, the Company elected the simplified transition requirements provided by ASU No. 2018-11 and applied the new lease accounting standard beginning January 1, 2019. Comparative periods are not restated. We also elected the package of practical expedients which permits the Company to not reevaluate whether existing contracts contain leases, to not reevaluate existing leases for lease classification and to not reassess initial direct costs previously capitalized prior to the adoption of the new guidance. As a result of our accounting policy elections, the Company did not recognize a cumulative effect adjustment on January 1, 2019. The new guidance

affects our policy for capitalizing initial direct costs. Had the Company adopted new guidance during the three months ended March 31, 2018, the Company would have expensed an additional \$1.6 million of indirect leasing costs that were capitalized under the previous guidance. The Company classifies our single-family property leases as operating leases and elects to not separate the lease component, comprised of rents from single-family properties, from the associated non-lease component, comprised of fees from single-family properties and tenant charge-backs. The combined component is accounted for under the new lease accounting standard while certain tenant charge-backs are accounted for as variable payments under the revenue accounting guidance. As a result of the new guidance, the Company reclassified previously reported rents from single-family properties, fees from single-family properties and tenant charge-backs to rents and other single-family property revenues within the consolidated statements of operations. Beginning January 1, 2019, the Company also reclassified bad debt expense from property operating expenses to rents and other single-family property revenues within the consolidated statements of operations; previously reported property operating expenses were not restated. As a lessee, the Company recognized \$4.8 million of lease liabilities and corresponding right-of-use assets on January 1, 2019, for office space we lease at our corporate headquarters in Agoura Hills, CA and at our field offices.

In June 2018, the FASB issued ASU No. 2018-07, Compensation—Stock Compensation (Topic 718) Improvements to Nonemployee Share-Based Payment Accounting, which aligns the measurement and classification guidance for share-based payments to nonemployees with the guidance for share-based payments to employees, with certain exceptions. The guidance is effective for the Company in annual reporting periods beginning after December 15, 2018, and for interim periods within those annual periods. The Company adopted this guidance effective January 1, 2019. The adoption of this guidance did not have a material impact on our financial statements.

In August 2018, the FASB issued ASU No. 2018-13, Fair Value Measurement (Topic 820) Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement, which eliminates, adds and modifies certain disclosure requirements for fair value measurements. Companies will no longer be required to disclose the amount of and reasons for transfers between Level 1 and Level 2 of the fair value hierarchy. Companies will also be required to disclose the range and weighted average used to develop significant unobservable inputs for Level 3 fair value measurements. The guidance is effective for fiscal years beginning after December 15, 2019, and for interim periods within those annual periods with early adoption permitted. The Company is currently assessing the impact of the guidance on our financial statements.

In August 2018, the FASB issued ASU No. 2018-15, Intangibles—Goodwill and Other—Internal-Use Software (Subtopic 350-40) Customer’s Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement that is a Service Contract, which aligns the requirements for capitalizing implementation costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software (and hosting arrangements that include an internal use software license). Capitalized implementation costs related to a hosting arrangement that is a service contract will be amortized over the term of the hosting arrangement, beginning when the module or component of the hosting arrangement is ready for its intended use. The guidance is effective for fiscal years beginning after December 15, 2019, and for interim periods within those annual periods with early adoption permitted. The Company is currently assessing the impact of the guidance on our financial statements.

Note 3. Cash, Cash Equivalents and Restricted Cash

We consider all demand deposits, cashier's checks, money market accounts and certificates of deposit with a maturity of three months or less to be cash equivalents. We maintain our cash and cash equivalents and escrow deposits at financial institutions. The combined account balances typically exceed the Federal Deposit Insurance Corporation ("FDIC") insurance coverage, and, as a result, there is a concentration of credit risk related to amounts on deposit. We believe that the risk is not significant.

Restricted cash primarily consists of funds held related to resident security deposits, cash reserves in accordance with certain loan agreements and funds held in the custody of our transfer agent for the payment of distributions. Funds held related to resident security deposits are restricted during the term of the related lease agreement, which is generally one year. Cash reserved in connection with lender requirements is restricted during the term of the related debt instrument.

The following table provides a reconciliation of cash, cash equivalents and restricted cash per the Company's and the Operating Partnership's condensed consolidated statements of cash flows to the corresponding financial statement line items in the condensed consolidated balance sheets (in thousands):

Total real estate assets, net	\$8,542,940	\$8,492,575

Single-family properties in operation, net as of March 31, 2019, and December 31, 2018, included \$3.9 million and \$5.9 million, respectively, related to properties for which the recorded grant deed had not been received. For these properties, the trustee or seller has warranted that all legal rights of ownership have been transferred to us on the date of the sale, but there was a delay for the deeds to be recorded.

Depreciation expense related to single-family properties was \$76.8 million and \$75.4 million for the three months ended March 31, 2019 and 2018, respectively.

During the three months ended March 31, 2019, the Company sold 180 homes, which generated total net proceeds of \$32.6 million and resulted in a net gain on sale of \$5.6 million, and sold land which generated total net proceeds of \$0.3 million and resulted in a net gain on sale of \$0.1 million. During the three months ended March 31, 2018, the Company sold 103 homes which generated total net proceeds of \$11.5 million and resulted in a net gain on sale of \$2.1 million.

Rents and other single-family property revenues consisted of the following for the three months ended March 31, 2019 and 2018 (in thousands):

	For the Three Months Ended	
	March 31, 2019	March 31, 2018
Rents from single-family properties (1)	\$277,694	\$218,023
Fees from single-family properties	—	2,833
Tenant charge-backs	—	35,807
Rents and other single-family property revenues	\$277,694	\$256,663

For the three months ended March 31, 2019, rents from single-family properties included \$40.0 million of variable (1) lease payments for tenant charge-backs, which are primarily related to cost recoveries on utilities, as well as \$3.0 million of variable lease payments for fees from single-family properties.

Note 5. Rent and Other Receivables, Net

Included in rent and other receivables, net is an allowance for doubtful accounts of \$9.8 million and \$8.6 million as of March 31, 2019, and December 31, 2018, respectively. Also included in rent and other receivables, net, is \$4.9 million of hurricane-related insurance claims receivable and \$0.4 million of non-tenant receivables as of March 31, 2019,

compared to \$4.9 million of hurricane-related insurance claims receivable as of December 31, 2018.

The Company generally rents our single-family properties under non-cancelable lease agreements with a term of one year. Future minimum rental revenues under existing leases on our properties as of March 31, 2019 and December 31, 2018, were as follows (in thousands):

	March 31, 2019	December 31, 2018
2019	\$414,344	\$446,745
2020	45,114	4,857

Commercial real estate, vehicles and FF&E, net	44,030	44,591
Total	\$145,940	\$146,034

In August 2018, the Operating Partnership entered into a \$156.3 million joint venture with a leading institutional investor for the purpose of developing, leasing and operating newly constructed single-family rental homes located in select submarkets in the Southeast. The initial term of the joint venture is five years, during which the Company is entitled to a proportionate share of the joint venture's cash flows based on our 20% ownership interest, along with an opportunity for a promoted interest, and also receives fees for services the Company provides to the joint venture. In evaluating the Company's 20% ownership interest in the joint venture, we concluded that the joint venture is not a variable interest entity after applying the variable interest model and, therefore, we account for our interest in the joint venture as an investment in an unconsolidated subsidiary after applying the voting interest model using the equity method of accounting. As of March 31, 2019, and December 31, 2018, the balance of the Company's investment in the joint venture was \$17.9 million and \$18.0 million, respectively, which is included in escrow deposits, prepaid expenses and other assets within the condensed consolidated balance sheets.

Note 7. Deferred Costs and Other Intangibles, Net

Deferred costs and other intangibles, net, consisted of the following as of March 31, 2019, and December 31, 2018 (in thousands):

(1) Interest rates are as of March 31, 2019. Unless otherwise stated, interest rates are fixed percentages.

(2) The AH4R 2015-SFR1 securitization has a maturity date of April 9, 2045, with an anticipated repayment date of April 9, 2025.

(3) The AH4R 2015-SFR2 securitization has a maturity date of October 9, 2045, with an anticipated repayment date of October 9, 2025.

(4) The stated interest rate on the unsecured senior notes is 4.25%, which was effectively hedged to yield an interest rate of 4.08%.

The revolving credit facility provides for a borrowing capacity of up to \$800.0 million, with a fully extended maturity date of June 2022, and bears interest at a LIBOR rate plus a margin ranging from 0.825% to 1.55% or a base rate (generally determined according to a prime rate or federal funds rate) plus a margin ranging from 0.00% to 0.55%. The interest rate stated represents the applicable spread for LIBOR based borrowings as of March 31, 2019, plus 1-month LIBOR.

The term loan component of our credit facility matures June 2022, and bears interest at a LIBOR rate plus a margin ranging from 0.90% to 1.75% or a base rate (generally determined according to a prime rate or federal funds rate) plus a margin ranging from 0.00% to 0.75%. The interest rate stated represents the applicable spread for LIBOR based borrowings as of March 31, 2019, plus 1-month LIBOR.

(7) The Company was in compliance with all debt covenants associated with its asset-backed securitizations, unsecured senior notes, revolving credit facility and term loan facility as of March 31, 2019, and December 31,

2018.

Deferred financing costs relate to our asset-backed securitizations, term loan facility and unsecured senior notes.

(8) Amortization of deferred financing costs was \$1.5 million and \$1.4 million for the three months ended March 31, 2019 and 2018, respectively, which was included in gross interest, prior to interest capitalization.

Debt Maturities

The following table summarizes the contractual maturities of the Company's debt on a fully extended basis as of March 31, 2019 (in thousands):

Remaining 2019	\$ 15,536

(1) Includes the unamortized discounts on the unsecured senior notes and deferred financing costs, net.

Unsecured Senior Notes

In January 2019, the Operating Partnership issued \$400.0 million of 4.90% unsecured senior notes with a maturity date of February 15, 2029 (the "2029 Notes"). Interest on the 2029 Notes is payable semi-annually in arrears on February 15 and August 15 of each year, commencing on August 15, 2019. The Operating Partnership received net proceeds of \$395.3 million from this issuance, after underwriting fees of approximately \$2.6 million and a \$2.1 million discount, and before estimated offering costs of \$1.0 million. The Operating Partnership used the net proceeds from this issuance to repay amounts outstanding on our revolving credit facility and intends to use the remaining net proceeds for general corporate purposes, including, without limitation, acquisition of properties, the repayment of outstanding indebtedness, capital expenditures, the expansion, redevelopment and/or improvement of our properties, working capital and other general purposes. The 2029 Notes are the Operating Partnership's unsecured and unsubordinated obligation and rank equally in right of payment with all of the Operating Partnership's existing and future unsecured and unsubordinated indebtedness. The Operating Partnership may redeem the 2029 Notes at any time, in whole or in part, at the applicable redemption price specified in the indenture with respect to the 2029 Notes. If the 2029 Notes are redeemed on or after November 15, 2028 (three months prior to the maturity date), the redemption price will be equal to 100% of the principal amount of the 2029 Notes being redeemed plus accrued and unpaid interest thereon to, but not including, the redemption date.

Interest Expense

The following table displays our total gross interest, which includes fees on our credit facilities and amortization of deferred financing costs, the discounts on unsecured senior notes, and capitalized interest for the three months ended March 31, 2019 and 2018 (in thousands):

Total	\$266,797	\$219,229

Note 10. Shareholders' Equity / Partners' Capital

When the Company issues common or preferred shares, the Operating Partnership issues an equivalent number of units of partnership interest of a corresponding class to AH4R, with the Operating Partnership receiving the net proceeds from the share issuances.

At-the-Market Common Share Offering Program

The Company established an at-the-market common share offering program under which we can issue Class A common shares from time to time through various sales agents up to an aggregate of \$500.0 million (the "At-the-Market Program"). The program was established in order to use the net proceeds from share issuances to repay borrowings against the Company's revolving credit and term loan facilities, to acquire and renovate single-family properties and for related activities in accordance with the Company's business strategy, and for working capital and general corporate purposes. The program may be suspended or terminated by the Company at any time. As of March 31, 2019, no shares have been issued under the At-the-Market Program and \$500.0 million remained available for future share issuances.

Share Repurchase Program

In February 2018, the Company's board of trustees re-authorized our existing share repurchase program, authorizing the repurchase of up to \$300.0 million of our outstanding Class A common shares and up to \$250.0 million of our outstanding preferred shares from time to time in the open market or in privately negotiated transactions. The program does not have an expiration date, but may be suspended or discontinued at any time without notice. All repurchased shares are constructively retired and returned to an authorized and unissued status. The Operating Partnership funds the repurchases and constructively retires an equivalent number of corresponding Class A units. During the three months ended March 31, 2019, we did not repurchase and retire any of our shares. During the three months ended March 31, 2018, the Company repurchased and retired 1.8 million of our Class A common shares on a settlement date basis, in accordance with the program, at a weighted-average price of \$19.36 per share and a total price of \$34.9 million. As of March 31, 2019, we had a remaining repurchase authorization of up to \$265.1 million of our outstanding Class A common shares and up to \$250.0 million of our outstanding preferred shares under the program.

Preferred Shares

As of March 31, 2019, and December 31, 2018, the Company had the following series of preferred shares outstanding (in thousands, except share data):

Distributions

During the quarter ended March 31, 2019, the Company's board of trustees declared distributions that totaled \$0.05 per share on the Company's Class A and Class B common shares, \$0.41 on the Company's 6.5% Series D perpetual preferred shares, \$0.40 on the Company's 6.35% Series E perpetual preferred shares, \$0.37 on the Company's 5.875% Series F perpetual preferred shares, \$0.37 on the Company's 5.875% Series G perpetual preferred shares and \$0.39 on the Company's 6.25% Series H perpetual preferred shares. During the quarter ended March 31, 2018, the Company's board of trustees declared distributions that totaled \$0.05 per share on the Company's Class A and Class B common shares, \$0.34 on the Company's 5.5% Series C participating preferred shares, \$0.41 on the Company's 6.5% Series D perpetual preferred shares, \$0.40 on the Company's 6.35% Series E perpetual preferred shares, \$0.37 on the Company's 5.875% Series F perpetual preferred shares and \$0.37 on the Company's 5.875% Series G perpetual preferred shares. The Operating Partnership funds the payment of distributions, and an equivalent amount of distributions were declared on the corresponding Operating Partnership units.

Noncontrolling Interest

Noncontrolling interest as reflected in the Company's condensed consolidated balance sheets primarily consists of the interests held by former American Homes 4 Rent, LLC ("AH LLC") members in units in the Operating Partnership. Former AH LLC members owned 53,743,317 and 54,243,317, or approximately 15.3% and 15.4%, of the total 352,044,277 and 351,966,447 Class A units in the Operating Partnership as of March 31, 2019, and December 31, 2018, respectively. Noncontrolling interest also includes interests held by non-affiliates in Class A units in the Operating Partnership. Non-affiliate Class A unitholders owned 1,073,509, or approximately 0.3%, of the total 352,044,277 and 351,966,447 Class A units in the Operating Partnership as of March 31, 2019, and December 31, 2018, respectively.

The following table summarizes the income or loss allocated to noncontrolling interests as reflected in the Company's condensed consolidated statements of operations for the three months ended March 31, 2019 and 2018 (in thousands):

For the Three
Months Ended

	March 31, 2019	March 31, 2018
Net income allocated to Class A units	\$3,026	\$1,125
Net income (loss) allocated to noncontrolling interest in a consolidated subsidiary	—	(11)
Total noncontrolling interest	\$3,026	\$1,114

Noncontrolling interest as reflected in the Operating Partnership's condensed consolidated statements of capital consisted solely of the outside ownership interest in a consolidated subsidiary of the Operating Partnership, which was liquidated during the second quarter of 2018. Income and loss allocated to the Operating Partnership's noncontrolling interest is reflected in noncontrolling interest within the Operating Partnership's condensed consolidated statements of operations. The Operating Partnership units owned by former AH LLC members and non-affiliates that are reflected as noncontrolling interest in the Company's condensed consolidated balance sheets are reflected as limited partner capital in the Operating Partnership's condensed consolidated balance sheets.

2012 Equity Incentive Plan

The Company's employees are compensated through the Operating Partnership, including share-based compensation. When the Company issues Class A common shares under the 2012 Equity Incentive Plan (the "Plan"), the Operating Partnership issues an equivalent number of Class A units to AH4R.

During the three months ended March 31, 2019 and 2018, the Company granted stock options for 20,000 and 140,000 Class A common shares, respectively, and 317,950 and 304,400 restricted stock units, respectively, to certain employees of the Company under the Plan. The options and restricted stock units granted during the three months ended March 31, 2019 and 2018, vest over a four-year service period, and the options expire 10 years from the date of grant.

The following table summarizes stock option activity under the Plan for the three months ended March 31, 2019 and 2018:

	Shares	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Life (in years)	Aggregate Intrinsic Value (1) (in thousands)
Options outstanding at January 1, 2018	3,052,450	\$ 16.65	6.9	\$ 16,421
Granted	140,000	19.40		
Exercised	(7,500)	16.62		22

Options outstanding at March 31, 2019	2,257,425	\$ 16.93	5.9	\$ 13,267
Options exercisable at March 31, 2019	1,867,025	\$ 16.41	5.5	\$ 11,872

Intrinsic value for activities other than exercises is defined as the difference between the grant price and the market value on the last trading day of the period for those stock options where the market value is greater than the exercise price. For exercises, intrinsic value is defined as the difference between the grant price and the market value on the date of exercise.

The following table summarizes the Black-Scholes Option Pricing Model inputs used for valuation of the stock options for Class A common shares granted during the three months ended March 31, 2019 and 2018:

	2019	2018
Weighted-average fair value	\$2.85	\$3.03
Expected term (years)	7.0	7.0
Dividend yield	3.0 %	3.0 %
Volatility	17.3 %	18.9 %
Risk-free interest rate	2.6 %	2.8 %

The following table summarizes the activity that relates to the Company's restricted stock units under the Plan for the three months ended March 31, 2019 and 2018:

	2019	2018
Restricted stock units at beginning of period	372,375	243,875

Edgar Filing: American Homes 4 Rent - Form 10-Q

Diluted	\$0.05	\$ 0.02

(1) Participating securities include unvested restricted stock units that have nonforfeitable rights to participate in dividends declared on common stock.

(2) Reflects the effect of potentially dilutive securities issuable upon the assumed vesting / exercise of restricted stock units and stock options.

The computation of diluted earnings per share for the three months ended March 31, 2019 and 2018, excludes an aggregate of zero and 17,221,189 potentially dilutive securities, respectively, which include a combination of participating preferred shares, exchangeable senior notes, common shares issuable upon exercise of stock options and unvested restricted stock units, because their effect would have been antidilutive to the respective periods. The effect of the potential conversion of OP Units is not reflected in the computation of basic and diluted earnings per share, as they are exchangeable for Class A common shares on a one-for-one basis. The income allocable to the OP units is allocated on this same basis and reflected as noncontrolling interest in the accompanying consolidated financial statements. As such, the assumed conversion of the OP units would have no net impact on the determination of diluted earnings per share.

(2) Reflects the effect of potentially dilutive securities issuable upon the assumed vesting / exercise of restricted stock units and stock options.

(3) The computation of diluted earnings per unit for the three months ended March 31, 2019 and 2018, excludes an aggregate of zero and 17,221,189 potentially dilutive securities, respectively, which include a combination of participating preferred units, exchangeable senior notes, common units issuable upon exercise of stock options and unvested restricted stock units, because their effect would have been antidilutive to the respective periods.

Note 12. Commitments and Contingencies

As of March 31, 2019, the Company had commitments to acquire 47 single-family properties for an aggregate purchase price of \$15.1 million, as well as \$50.8 million in purchase commitments that relate to both third party developer agreements and land for our internal construction program. As of December 31, 2018, the Company had commitments to acquire 88 single-family properties for an aggregate purchase price of \$25.3 million, as well as \$58.1 million in purchase commitments that relate to both third party developer agreements and land for our internal construction program.

As of March 31, 2019, and December 31, 2018, the Company had sales in escrow for approximately 279 and 78 of our single-family properties, respectively, for aggregate selling prices of \$53.6 million and \$13.6 million, respectively.

We are involved in various legal and administrative proceedings that are incidental to our business. We do not believe these matters will have a material adverse effect on our financial position or results of operations upon resolution.

On January 16, 2018, we received a letter from the staff of the SEC stating that it is conducting an investigation captioned “Trading in Silver Bay Realty Trust Corp.” The letter enclosed a subpoena that requests us to produce certain documents and communications, including those related to our communications and agreements with Silver Bay Realty Trust Corp. (“Silver Bay”), communications with Silver Bay’s financial advisor, and our purchases, sales and holdings of Silver Bay stock. We purchased Silver Bay stock in 2016 and 2017 and then sold all of our holdings in 2017 for a profit of approximately \$3.0 million. We intend to continue to cooperate fully with the SEC in connection with this matter. We do not believe this matter will have a material adverse impact on our financial position or results of operations upon resolution.

Note 13. Fair Value

The carrying amount of rents and other receivables, restricted cash, escrow deposits, prepaid expenses and other assets, and accounts payable and accrued expenses approximate fair value because of the short maturity of these amounts.

Our revolving credit facility, term loan facility and asset-backed securitizations are financial instruments, which are classified as Level 3 in the fair value hierarchy as they were estimated by using unobservable inputs. We estimated their fair values by modeling the contractual cash flows required under the instruments and discounting them back to their present values using estimates of current market rates. Our unsecured senior notes and exchangeable senior notes are also financial instruments, which are classified as Level 2 in the fair value hierarchy as their fair values are estimated using observable inputs, based on the market value of the last trade at the end of the period.

The following table displays the carrying values and fair values of our debt instruments as of March 31, 2019, and December 31, 2018 (in thousands):

	March 31, 2019		December 31, 2018

(1) The carrying values of the asset-backed securitizations, unsecured senior notes, revolving credit facility and term loan facility exclude \$29.8 million, \$8.1 million, \$6.4 million and \$0.7 million, respectively, of unamortized deferred financing costs as of March 31, 2019, and exclude \$31.0 million, \$4.7 million, \$6.9 million and \$0.8 million, respectively, of unamortized deferred financing costs as of December 31, 2018.

(2) The carrying values of the unsecured senior notes, net are presented net of unamortized discounts.

(3) As our revolving credit facility bears interest at a floating rate based on an index plus a spread, which is a LIBOR rate plus a margin ranging from 0.825% to 1.55% or a base rate (generally determined according to a prime rate or federal funds rate) plus a margin ranging from 0.00% to 0.55%, management believes that the carrying value of the revolving credit facility reasonably approximates fair value.

(4) As our term loan facility bears interest at a floating rate based on an index plus a spread, which is a LIBOR rate plus a margin ranging from 0.90% to 1.75% or a base rate (generally determined according to a prime rate or federal funds rate) plus a margin ranging from 0.00% to 0.75%, management believes that the carrying value of the term loan facility reasonably approximates fair value.

Valuation of the participating preferred shares derivative liability considered scenarios in which the participating preferred shares would be redeemed or converted into Class A common shares by the Company and the subsequent payoffs under those scenarios. The valuation also considered certain variables such as the risk-free rate matching the assumed timing of either redemption or conversion, volatility of the underlying home price appreciation index, dividend payments, conversion rates, the assumed timing of either redemption or conversion and an assumed drift factor in home price appreciation across certain metropolitan statistical areas, or MSAs, as outlined in the agreement.

In October 2017, in anticipation of the issuance of the 2028 unsecured senior notes and in order to hedge interest rate risk, the Operating Partnership entered into a treasury lock agreement on a notional amount of \$350.0 million, based on the 10-year treasury note rate at the time. The treasury lock was designated as a cash flow hedging instrument and was settled upon the issuance of the 2028 unsecured senior notes in February 2018, which resulted in a \$9.6 million gain that was recorded in other comprehensive income and is being reclassified into earnings as a reduction of interest expense over the term of the 2028 unsecured senior notes.

The following table sets forth the fair values of the participating preferred shares derivative liability as of March 31, 2019, and December 31, 2018 (in thousands):

Note 14. Subsequent Events

Subsequent Acquisitions

From April 1, 2019, through April 30, 2019, the Company acquired 59 properties for a total cost of approximately \$16.4 million, which included 23 homes developed through our internal construction program.

Subsequent Dispositions

From April 1, 2019, through April 30, 2019, the Company disposed of 44 properties for aggregate net proceeds of approximately \$8.7 million.

Departure of Directors or Officers

On April 30, 2019, B. Wayne Hughes informed American Homes 4 Rent (the “Company”) that he will retire from the Board of Trustees of the Company effective May 9, 2019, immediately following the Company’s 2019 Annual Meeting of Shareholders. Mr. Hughes, age 85, is a founder of the Company and has served as a trustee and Chairman of the Board since October 2012.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion of our financial condition and results of operations should be read in conjunction with the financial statements and related notes appearing elsewhere in this Quarterly Report on Form 10-Q.

Overview

We are a Maryland REIT focused on acquiring, developing, renovating, leasing and operating single-family homes as rental properties. The Operating Partnership is the entity through which we conduct substantially all of our business and own, directly or through subsidiaries, substantially all of our assets. We commenced operations in November 2012.

As of March 31, 2019, we owned 52,923 single-family properties, in selected sub-markets of MSAs in 22 states, including 1,793 properties held for sale, compared to 52,783 single-family properties in 22 states, including 1,945 properties held for sale, as of December 31, 2018, and 51,840 single-family properties in 22 states, including 1,892 properties to be disposed as of March 31, 2018, which included 1,318 properties held for sale and 574 properties identified for future sale. As of March 31, 2019, we had commitments to acquire an additional 47 single-family properties for an aggregate purchase price of \$15.1 million. As of March 31, 2019, 48,867, or 95.6%, of our total properties (excluding properties held for sale) were occupied, compared to 47,823, or 94.1%, of our total properties (excluding held for sale) as of December 31, 2018, and 47,095, or 94.3%, of our total properties (excluding properties to be disposed) as of March 31, 2018. Our portfolio of single-family properties is internally managed through our proprietary property management platform.

Our Properties and Key Operating Metrics

The following table provides a summary of our single-family properties as of March 31, 2019:

(1) Leasing information excludes 1,793 single-family properties held for sale as of March 31, 2019.

(2) For the three months ended March 31, 2019, represents the number of days a property is occupied in the period divided by the total number of days the property is owned during the same period.

(3) For the three months ended March 31, 2019, Average Monthly Realized Rent is calculated as the lease component of rents and other single-family property revenues (i.e., rents from single-family properties) divided by the product of (a) number of properties and (b) Average Occupied Days Percentage, divided by the number of months. For properties partially owned during the period, this is adjusted to reflect the number of days of ownership.

(4) Average original lease term and average remaining lease term are reflected as of period end.

(5) Represents the percentage change in rent on all non-month-to-month lease renewals and re-leases during the three months ended March 31, 2019, compared to the annual rent of the previously expired non-month-to-month lease for each property.

(6) Represents 25 markets in 21 states.

Factors That Affect Our Results of Operations and Financial Condition

Our results of operations and financial condition are affected by numerous factors, many of which are beyond our control. Key factors that impact our results of operations and financial condition include our ability to identify and acquire properties; our pace of property acquisitions and the time and cost required to gain access to and renovate the properties; our pace and cost of newly acquired or developed properties; the time to lease a newly acquired or developed property at acceptable rental rates; occupancy levels; rates of tenant turnover; the length of vacancy in properties between tenant leases; our expense ratios; our ability to raise capital; and our capital structure.

Property Acquisitions and Dispositions

Since our formation, we have rapidly but systematically grown our portfolio of single-family homes. Our ability to identify and acquire single-family homes that meet our investment criteria is impacted by home prices in our target markets, the inventory of properties available-for-sale through our acquisition channels, competition for our target assets and our available capital. Additionally, opportunities from new construction channels are impacted by the

availability of vacant developed lots, development land assets and inventory of homes currently under construction or newly developed. Our level of investment activity has fluctuated based on the number of suitable opportunities and the level of capital available to invest and has recently been increasingly focused on our new construction channels. During the quarter ended March 31, 2019, our total portfolio increased by 140 homes, including 219 homes acquired through broker acquisitions and 101 homes acquired through new construction channels, of which 73 homes were developed through our internal construction program, offset by 180 homes sold or rescinded. Rescinded properties represent properties for which the sale has been unwound, as in certain jurisdictions, our purchases of single-family properties at foreclosure and judicial auctions are subject to the right of rescission, which is generally caused by the borrower filing for bankruptcy.

During 2018, we identified approximately 1,500 properties to be disposed from six of our smaller markets that we are fully exiting based on market analysis. Our remaining properties to be disposed were identified based on sub-market analysis, as well as individual property-level operational review. As of March 31, 2019 and December 31, 2018, there were 1,793 and 1,945 properties classified as held for sale. We will continue to evaluate our properties for potential disposition going forward as a normal course of business.

Property Operations

The acquisition of properties involves expenditures in addition to payment of the purchase price, including property inspections, closing costs, liens, title insurance, transfer taxes, recording fees, broker commissions, property taxes and homeowner association ("HOA") fees, when applicable. In addition, we typically incur costs between \$10,000 and \$25,000 to renovate a home to prepare it for rental. Renovation work varies, but may include paint, flooring, carpeting, cabinetry, appliances, plumbing hardware and other items required to prepare the home for rental. The time and cost involved in initially accessing our homes to prepare them for rental can impact our financial performance and varies among properties based on several factors, including the source of acquisition channel, whether the property is located in a judicial or non-judicial foreclosure state, if applicable, and whether or not the home is occupied at the time of acquisition. This process of finalizing the acquisition and gaining initial access to the home can range from immediate access to multiple months and, on average, takes approximately 10 to 30 days. Additionally, after gaining access to the home, the time to renovate a property can vary significantly among properties and is most impacted by the age and condition of the property. On average, it takes approximately 50 to 70 days to complete the renovation process after gaining initial access to the home. Our operating results are also impacted by the amount of time it takes to market and lease a property, which can vary greatly among properties, and is impacted by local demand, our marketing techniques and the size of our available inventory. On average, it takes approximately 20 to 40 days to lease a property after completing the renovation process. Lastly, our operating results are impacted by the length of stay of our tenants and the amount of time it takes to prepare and re-lease a property after a tenant vacates. This process, which we refer to as "turnover," is impacted by numerous factors, including the condition of the home upon move-out of the previous tenant, and by local demand, our marketing techniques and the size of our available inventory at the time of the turnover. On average, it takes approximately 50 to 60 days to complete the turnover process.

Revenue

Our revenue is derived primarily from rents collected under lease agreements with tenants for our single-family properties. These include short-term leases that we enter into directly with our tenants, which typically have a term of one year. Our rental rates and occupancy levels are affected by macroeconomic factors and local and property-level factors, including market conditions, seasonality and tenant defaults, and the amount of time it takes to turn properties when tenants vacate. Additionally, our ability to collect revenues and related operating results are impacted by the credit worthiness and quality of our tenants. On average, our tenants have household incomes ranging from \$60,000 to \$120,000 and primarily consist of families with approximately two adults and one or more children.

Our rents and other single-family property revenues is comprised of rental revenue from single-family properties, fees from our single-family properties rentals and "tenant charge-backs," which are primarily related to cost recoveries on utilities.

Our ability to maintain and grow revenues from our existing portfolio of homes will be dependent on our ability to retain tenants and increase rental rates. We believe that our platform will allow us to achieve strong tenant retention and rental rate increases. Based on our Same-Home population of properties, the year-over-year increase in Average Monthly Realized Rent per property was 3.2% for the three months ended March 31, 2019, and we experienced turnover rates of 7.7% and 8.7% for the three months ended March 31, 2019 and 2018, respectively.

Expenses

We monitor the following categories of expenses that we believe most significantly affect our results of operations.

Property Operating Expenses

Once a property is available for lease, which we refer to as “rent-ready,” we incur ongoing property-related expenses, primarily HOA fees (when applicable); property taxes; insurance; repairs and maintenance; and turnover costs, which may not be subject to our control.

Property Management Expenses

As we internally manage our portfolio of single-family properties through our proprietary property management platform, we incur costs such as salary expenses for property management personnel, lease expenses and operating costs for property management offices and technology expenses for maintaining our property management platform. As part of developing our property management platform, we have made significant investments in our infrastructure, systems and technology. We believe that these investments will enable our property management platform to become more efficient over time, especially as our portfolio grows in size. Also included in property management expenses is noncash share-based compensation expense related to centralized and field property management employees.

Seasonality

We believe that our business and related operating results will be impacted by seasonal factors throughout the year. In particular, we have experienced higher levels of tenant move-outs and move-ins during the late spring and summer months, which impacts both our rental revenues and related turnover costs. Further, our property operating costs are seasonally impacted in certain markets for expenses such as HVAC repairs, turn costs and landscaping expenses during the summer season.

General and Administrative Expense

General and administrative expense primarily consists of corporate payroll and personnel costs, state taxes, trustees' and officers' insurance expenses, audit and tax fees, trustee fees and other expenses associated with our corporate and administrative functions. Also included in general and administrative expense is noncash share-based compensation expense related to corporate administrative employees.

Results of Operations

Net income totaled \$33.1 million for the three months ended March 31, 2019, compared to net income of \$21.5 million for the three months ended March 31, 2018. This increase was primarily attributable to higher revenues resulting from a larger number of occupied properties and higher rental rates as well as an increase in the gain on sale of single-family properties and other, net, partially offset by increases in property operating and depreciation expense resulting from growth in our property count and higher interest expense.

As we continue to grow our portfolio with a portion of our homes still recently developed, acquired and/or renovated, we distinguish our portfolio of homes between Same-Home properties and Non-Same-Home and Other properties in evaluating our operating performance. We classify a property as Same-Home if it has been stabilized longer than 90 days prior to the beginning of the earliest period presented under comparison and if it has not been classified as held for sale, identified for future sale or taken out of service as a result of a casualty loss, which allows the performance of these properties to be compared between periods. Single-family properties that we acquire individually (i.e., not through a bulk purchase) are classified as either stabilized or non-stabilized. A property is classified as stabilized once it has been renovated by the Company or newly constructed and then initially leased or available for rent for a period greater than 90 days. Properties acquired through a bulk purchase are first considered non-stabilized, as an entire group, until (1) we have owned them for an adequate period of time to allow for complete on-boarding to our operating platform, and (2) a substantial portion of the properties have experienced tenant turnover at least once under our ownership, providing the opportunity for renovations and improvements to meet our property standards. After such time has passed, properties acquired through a bulk purchase are then evaluated on an individual property basis under our standard stabilization criteria. All other properties, including those classified as held for sale or identified for future sale, are classified as Non-Same-Home and Other.

One of the primary financial measures we use in evaluating the operating performance of our single-family properties is Core Net Operating Income ("Core NOI"), which we also present separately for our Same-Home portfolio. Core NOI is a supplemental non-GAAP financial measure that we define as core revenues, which is calculated as total revenues, excluding expenses reimbursed by tenant charge-backs and other revenues, less core property operating expenses, which is calculated as property operating and property management expenses, excluding noncash share-based compensation expense and expenses reimbursed by tenant charge-backs.

Core NOI also excludes (1) noncash fair value adjustments associated with remeasuring our participating preferred shares derivative liability to fair value, (2) noncash gain or loss on conversion of shares or units, (3) gain or loss on early extinguishment of debt, (4) hurricane-related charges, net, (5) gain or loss on sales of single-family properties and other, (6) depreciation and amortization, (7) acquisition fees and costs expensed incurred with business

combinations and the acquisition of properties, (8) noncash share-based compensation expense, (9) interest expense, (10) general and administrative expense, (11) other expenses and (12) other revenues. We believe Core NOI provides useful information to investors about the operating performance of our single-family properties without the impact of certain operating expenses that are reimbursed through tenant charge-backs. We further adjust Core NOI for our Same-Home portfolio by subtracting recurring capital expenditures to calculate Same-Home Core NOI After Capital Expenditures, which we believe provides useful information to investors because it more fully reflects our operating performance after the impact of all property-level expenditures, regardless of whether they are capitalized or expensed.

Core NOI and Same-Home Core NOI After Capital Expenditures should be considered only as supplements to net income or loss as a measure of our performance and should not be used as measures of our liquidity, nor are they indicative of funds available to fund our cash needs, including our ability to pay dividends or make distributions. Additionally, these metrics should not be used as substitutes for net income or loss or net cash flows from operating activities (as computed in accordance with GAAP).

Total Revenues

Total revenues increased 8.2% to \$279.2 million for the three months ended March 31, 2019, from \$258.0 million for the three months ended March 31, 2018. Revenue growth was primarily driven by continued strong leasing activity, as the average number of occupied homes in our portfolio grew to 48,345 homes for the three months ended March 31, 2019, compared to 46,855 homes for the three months ended March 31, 2018, and higher rental rates, partially offset by a \$1.8 million reclassification of bad debt expense during the three months ended March 31, 2019, which was

included in total revenues as a result of the adoption of the new lease accounting standard.

Property Operating Expenses

Property operating expenses increased 5.6% to \$106.7 million for the three months ended March 31, 2019, from \$101.0 million for the three months ended March 31, 2018. This increase was primarily attributable to growth in the number of homes in our portfolio, higher property tax expense associated with annual rate increases and re-assessments, higher HOA fees and higher maintenance and turnover costs, partially offset by the \$1.8 million reclassification of bad debt expense associated with the adoption of the new lease accounting standard.

Property Management Expenses

For the three months ended March 31, 2019 and 2018, property management expenses were \$20.7 million and \$19.0 million, respectively, which included \$0.3 million and \$0.4 million, respectively, of noncash share-based compensation expense related to centralized and field property management employees. The increase in property management expense is primarily attributable to growth in the number of properties in our portfolio and the additional leasing costs recorded to property management expense as a result of the new lease accounting standard adopted by the Company on January 1, 2019.

Core Revenues from Same-Home Properties

Core revenues from Same-Home properties for the three months ended March 31, 2019, increased \$7.6 million, or 4.2%, to \$187.8 million from \$180.2 million for the three months ended March 31, 2018. This increase was primarily attributable to higher Average Monthly Realized Rent, which increased to \$1,600 per month for the three months ended March 31, 2019, compared to \$1,550 per month for the three months ended March 31, 2018, as well as a rise in Average Occupied Days Percentage, which increased to 95.5% for the three months ended March 31, 2019, compared to 94.8% for the three months ended March 31, 2018.

Core Property Operating Expenses from Same-Home Properties

Core property operating expenses consist of direct property operating expenses, net of tenant charge-backs, and property management costs, net of tenant charge-backs and excluding noncash share-based compensation expense. Core property operating expenses from Same-Home properties for the three months ended March 31, 2019, increased \$1.4 million, or 2.1%, to \$66.7 million from \$65.3 million for the three months ended March 31, 2018. Same-Home core property operating expenses as a percentage of total Same-Home core revenues decreased to 35.5% for the three months ended March 31, 2019, from 36.2% for the three months ended March 31, 2018. The increase in core property operating expenses was primarily attributable to higher property tax expense and HOA fees, net. These increases were partially offset by year-over-year savings in R&M and turnover costs, net and property management expenses, net due to successful operational execution in the first quarter of 2019 compared to above average levels of expenditures in the first quarter of 2018.

General and Administrative Expense

For the three months ended March 31, 2019 and 2018, general and administrative expense, which primarily consists of corporate payroll and personnel costs, state taxes, trustees' and officers' insurance expense, audit and tax fees, trustee fees and other expenses associated with our corporate and administrative functions, was \$9.4 million and \$9.2 million, respectively, which included \$0.7 million and \$0.6 million, respectively, of noncash share-based compensation expense related to corporate administrative employees. The increase in general and administrative expense was primarily related to higher personnel costs, partially offset by lower legal expenses.

Interest Expense

Interest expense was \$31.9 million and \$29.3 million for the three months ended March 31, 2019 and 2018, respectively. This increase was primarily related to the unsecured senior notes issued in January 2019, partially offset by the payoff of the secured note payable in May 2018, the \$100.0 million paydown on the term loan facility in June 2018 and the payoff of the exchangeable senior notes in November 2018.

Acquisition Fees and Costs Expensed

All costs of our internal acquisition function are expensed in accordance with GAAP. For the three months ended March 31, 2019 and 2018, acquisition fees and costs expensed totaled \$0.8 million and \$1.3 million, respectively, which were related to costs associated with purchases of single-family properties.

Depreciation and Amortization

Depreciation and amortization expense consists primarily of depreciation of buildings and improvements. Depreciation of our assets is calculated over their useful lives on a straight-line basis over 3 to 30 years. Our intangible assets are amortized on a straight-line basis over the asset's estimated economic useful life. Depreciation and amortization expense was \$81.2 million and \$79.3 million for the three months ended March 31, 2019 and 2018, respectively. This increase was primarily attributable to growth in our average number of depreciable properties.

Other Revenues

Other revenues totaled \$1.5 million for the three months ended March 31, 2019, which included \$0.6 million of fees from unconsolidated joint ventures, \$0.5 million of interest income on short-term investments and \$0.4 million of other income. Other revenues totaled \$1.3 million for the three months ended March 31, 2018, which included \$0.4 million of interest income on short-term investments, \$0.3 million of equity in earnings from unconsolidated joint ventures, \$0.2 million fees from unconsolidated joint ventures and \$0.4 million of other income.

Other Expenses

Other expenses totaled \$1.0 million for the three months ended March 31, 2019, which included \$0.5 million related to impairments on properties held for sale, \$0.4 million of expenses related to a joint venture and \$0.1 million of other expenses. Other expenses totaled \$0.8 million for the three months ended March 31, 2018, which included \$0.7 million related to impairments on properties held for sale and \$0.1 million of other expenses.

Critical Accounting Policies and Estimates

Our critical accounting policies are included in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, of our Annual Report on Form 10-K for the year ended December 31, 2018. For a discussion of recent accounting pronouncements, see Note 2.

Income Taxes

AH4R has elected to be taxed as a REIT for U.S. federal income tax purposes under Sections 856 to 860 of the Internal Revenue Code of 1986, as amended (the "Code"), commencing with our taxable year ended December 31, 2012. We believe that we have operated, and continue to operate, in such a manner as to satisfy the requirements for qualification as a REIT. Provided that we qualify as a REIT and our distributions to our shareholders equal or exceed our REIT taxable income (determined without regard to the deduction for dividends paid and excluding net capital gains), we will not be subject to U.S. federal income tax.

However, qualification and taxation as a REIT depends upon our ability to meet the various qualification tests imposed under the Code, including tests related to the percentage of income that we earn from specified sources and the percentage of our earnings that we distribute to our shareholders. Accordingly, no assurance can be given that we will continue to be organized or be able to operate in a manner so as to remain qualified as a REIT. If we fail to qualify as a REIT in any taxable year and do not qualify for certain statutory relief provisions, we would be subject to U.S. federal income tax and state income tax (including any applicable alternative minimum tax for taxable years beginning before December 31, 2017) on our taxable income at regular corporate tax rates, and we would likely be precluded from qualifying for treatment as a REIT until the fifth calendar year following the year in which we fail to qualify.

Even if we qualify as a REIT, we may be subject to certain state or local income and capital taxes and U.S. federal income and excise taxes on our undistributed REIT taxable income, if any. Certain of our subsidiaries are subject to taxation by U.S. federal, state and local authorities for the periods presented. We made joint elections to treat certain subsidiaries as taxable REIT subsidiaries (“TRSs”) which are subject to U.S. federal, state and local taxes on their income at regular corporate rates. The tax years from 2015 to present generally remain open to examination by the taxing jurisdictions to which the Company is subject.

We believe that our Operating Partnership is properly treated as a partnership for U.S. federal income tax purposes. As a partnership, the Operating Partnership is not subject to U.S. federal income tax on its income. Instead, each of the Operating Partnership's partners, including AH4R, is allocated, and may be required to pay tax with respect to, its share of the Operating Partnership's income. As such, no provision for U.S. federal income taxes has been included for the Operating Partnership.

ASC 740-10, Income Taxes, requires recognition of deferred tax assets for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax assets and liabilities are determined

based on the differences between the financial reporting and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. We recognize tax benefits of uncertain tax positions only if it is more likely than not that the tax position will be sustained, based solely on its technical merits, with the taxing authority having full authority of all relevant information. The measurement of a tax benefit for an uncertain tax position that meets the more likely than not threshold is based on a cumulative probability model under which the largest amount of tax benefit recognized is the amount with a greater than 50% likelihood of being realized upon ultimate settlement with the taxing authority having full knowledge of all the relevant information. As of March 31, 2019, there were no deferred tax assets and liabilities or unrecognized tax benefits recorded by the Company. We do not anticipate a significant change in unrecognized tax benefits within the next 12 months.

As a REIT we are required to distribute annually at least 90% of our REIT taxable income (determined without regard to the deduction for dividends paid and excluding net capital gains). We expect to use our net operating loss carryforward ("NOL") to partially reduce our REIT taxable income in current and future years. As of December 31, 2018, AH4R had a NOL for U.S. federal income tax purposes of approximately \$275.0 million. Once our NOL is fully used, we may be required to increase AH4R's distributions to comply with REIT distribution requirements.

Liquidity and Capital Resources

Our liquidity and capital resources as of March 31, 2019, included cash and cash equivalents of \$154.6 million. Additionally, as of March 31, 2019, we had no outstanding borrowings under our revolving credit facility, which provides for maximum borrowings of up to \$800.0 million.

Liquidity is a measure of our ability to meet potential cash requirements, maintain our assets, fund our operations, make distributions to our shareholders and OP unitholders, including AH4R, and meet other general requirements of our business. Our liquidity, to a certain extent, is subject to general economic, financial, competitive and other factors beyond our control. Our liquidity requirements consist primarily of funds necessary to pay for the acquisition, development, renovation and maintenance of our properties, HOA fees (as applicable), real estate taxes, non-recurring capital expenditures, interest and principal payments on our indebtedness, general and administrative expenses, payment of quarterly dividends on our preferred shares and units, and payment of distributions to our common shareholders and unitholders.

We seek to satisfy our liquidity needs through cash provided by operations, long-term secured and unsecured borrowings, issuances of debt and equity securities (including OP units), asset-backed securitizations, property dispositions and joint venture transactions. We have financed our operations and acquisitions to date through the issuance of equity securities, borrowings under our credit facilities, asset-backed securitizations and unsecured senior notes. Going forward, we expect to meet our operating liquidity requirements generally through cash on hand and cash provided by operations. We believe our rental income, net of operating expenses and recurring capital expenditures, will generally provide cash flow sufficient to fund our operations and dividend distributions. However, our real estate assets are illiquid in nature. A timely liquidation of assets might not be a viable source of short-term liquidity should a cash flow shortfall arise, and we may need to source liquidity from other financing alternatives.

To qualify as a REIT, AH4R is required to distribute annually to our shareholders at least 90% of our REIT taxable income, without regard to the deduction for dividends paid and excluding net capital gains, and to pay tax at regular corporate rates to the extent that we annually distribute less than 100% of our net taxable income. The Operating Partnership funds the payment of distributions. We expect to use our NOL to reduce our REIT taxable income in future years. As of December 31, 2018, AH4R had a NOL for U.S. federal income tax purposes of approximately \$275.0 million. Once our NOL is fully used, we may be required to increase AH4R's distributions to comply with REIT distribution requirements and our current policy of distributing approximately all of our REIT taxable income.

Cash Flows

The following table summarizes the Company's and the Operating Partnership's cash flows for the three months ended March 31, 2019 and 2018 (in thousands):

	For the Three Months Ended March 31,	
	2019	2018
Net cash provided by operating activities	\$147,936	\$112,491
Net cash used for investing activities	(130,869)	(221,631)
Net cash provided by financing activities	120,466	286,472
Net increase in cash, cash equivalents and restricted cash	\$137,533	\$177,332

Our cash flows provided by operating activities depend on numerous factors, including the occupancy level of our properties, the rental rates achieved on our leases, the collection of rent from our tenants and the level of property operating expenses, property management expenses and general and administrative expenses.

During the three months ended March 31, 2019, net cash provided by operating activities was \$147.9 million, which included cash from operations of \$113.7 million and \$34.3 million from other changes in operating assets and liabilities. Net cash used for investing activities was \$130.9 million, which primarily consisted of cash outflows of \$58.6 million related to the acquisition of properties, \$80.0 million related to cash paid for development activity, which primarily consisted of land held for development, land development and homebuilding construction in progress, \$9.7 million of initial renovation costs to prepare our properties for rental and \$15.7 million of recurring and other capital expenditures for single-family properties, partially offset by cash inflows of \$32.9 million of net proceeds received from sales of single-family properties and other assets. Net cash provided by financing activities was \$120.5 million, which primarily consisted of cash inflows of \$397.9 million in proceeds from the issuance of unsecured senior notes, net of a discount, partially offset by cash outflows including \$250.0 million of net payments on our revolving credit facilities and \$17.6 million for distributions. The net increase in cash, cash equivalents and restricted cash during the three months ended March 31, 2019, was \$137.5 million.

During the three months ended March 31, 2018, net cash provided by operating activities was \$112.5 million, which included cash from operations of \$103.4 million and \$9.1 million from other changes in operating assets and liabilities. Net cash used for investing activities was \$221.6 million, which primarily consisted of cash outflows of \$153.8 million related to the acquisition of properties, \$53.5 million related to purchases of productive assets and \$20.4 million of initial renovation costs to prepare our properties for rental, partially offset by cash inflows of \$12.0 million in net proceeds received from sales of single-family properties and other assets. Renovation costs typically include paint, flooring, appliances, landscaping and other improvements. Net cash provided by financing activities was \$286.5 million, which primarily consisted of cash inflows of \$497.2 million in proceeds from the issuance of unsecured senior notes, net of a discount, partially offset by cash outflows including \$140.0 million of net payments on our revolving credit facility, \$35.0 million for Class A common share repurchases and \$34.4 million for distributions. The net increase in cash, cash equivalents and restricted cash during the three months ended March 31, 2018, was \$177.3 million.

Unsecured Senior Notes

In January 2019, the Operating Partnership issued \$400.0 million of 4.90% unsecured senior notes with a maturity date of February 15, 2029 (the "2029 Notes"). Interest on the 2029 Notes is payable semi-annually in arrears on February 15 and August 15 of each year, commencing on August 15, 2019. The Operating Partnership received net proceeds of \$395.3 million from this issuance, after underwriting fees of approximately \$2.6 million and a \$2.1 million discount, and before estimated offering costs of \$1.0 million. The Operating Partnership used the net proceeds from this issuance to repay amounts outstanding on our revolving credit facility and intends to use the remaining net proceeds for general corporate purposes, including, without limitation, acquisition of properties, the repayment of outstanding indebtedness, capital expenditures, the expansion, redevelopment and/or improvement of our properties, working capital and other general purposes. The 2029 Notes are the Operating Partnership's unsecured and unsubordinated obligation and rank equally in right of payment with all of the Operating Partnership's existing and future unsecured and unsubordinated indebtedness. The Operating Partnership may redeem the 2029 Notes at any time, in whole or in part, at the applicable redemption price specified in the indenture with respect to the 2029 Notes. If the 2029 Notes are redeemed on or after November 15, 2028 (three months prior to the maturity date), the redemption price will be equal to 100% of the principal amount of the 2029 Notes being redeemed plus accrued and unpaid interest thereon to, but not including, the redemption date.

At-the-Market Common Share Offering Program

The Company established an at-the-market common share offering program under which we can issue Class A common shares from time to time through various sales agents up to an aggregate of \$500.0 million (the "At-the-Market Program"). The program was established in order to use the net proceeds from share issuances to repay borrowings against the Company's revolving credit and term loan facilities, to acquire and renovate single-family properties and for related activities in accordance with the Company's business strategy, and for working capital and general corporate purposes. The program may be suspended or terminated by the Company at any time. As of March 31, 2019, no shares have been issued under the At-the-Market Program and \$500.0 million remained available for future share issuances.

Share Repurchase Program

In February 2018, the Company's board of trustees re-authorized our existing share repurchase program, authorizing the repurchase of up to \$300.0 million of our outstanding Class A common shares and up to \$250.0 million of our outstanding preferred shares from time to time in the open market or in privately negotiated transactions. The program does not have an expiration date, but may be suspended or discontinued at any time without notice. All repurchased shares are constructively retired and returned to an authorized and unissued status. The Operating Partnership funds the repurchases and constructively retires an equivalent number of

corresponding Class A units. During the three months ended March 31, 2019, we did not repurchase and retire any of our shares. During the three months ended March 31, 2018, the Company repurchased and retired 1.8 million of our Class A common shares on a settlement date basis, in accordance with the program, at a weighted-average price of \$19.36 per share and a total price of \$34.9 million. As of March 31, 2019, we had a remaining repurchase authorization of up to \$265.1 million of our outstanding Class A common shares and up to \$250.0 million of our outstanding preferred shares under the program.

Off-Balance Sheet Arrangements

We have no obligations, assets or liabilities that would be considered off-balance sheet arrangements.

Additional Non-GAAP Measures

Funds from Operations ("FFO") / Core FFO / Adjusted FFO attributable to common share and unit holders

FFO attributable to common share and unit holders is a non-GAAP financial measure that we calculate in accordance with the White Paper on FFO approved by the Board of Governors of the National Association of Real Estate Investment Trusts ("NAREIT"), which defines FFO as net income or loss calculated in accordance with GAAP, excluding gains and losses from sales or impairment of real estate, plus real estate-related depreciation and amortization (excluding amortization of deferred financing costs and depreciation of non-real estate assets), and after adjustments for unconsolidated partnerships and joint ventures to reflect FFO on the same basis.

Core FFO attributable to common share and unit holders is a non-GAAP financial measure that we use as a supplemental measure of our performance. We compute this metric by adjusting FFO attributable to common share and unit holders for (1) acquisition fees and costs expensed incurred with business combinations and the acquisition of properties, (2) noncash share-based compensation expense, (3) noncash interest expense related to acquired debt, (4) hurricane-related charges, net, (5) gain or loss on early extinguishment of debt, (6) noncash fair value adjustments associated with remeasuring our participating preferred shares derivative liability to fair value, and (7) the allocation of income to our participating preferred shares in connection with their redemption.

Adjusted FFO attributable to common share and unit holders is a non-GAAP financial measure that we use as a supplemental measure of our performance. We compute this metric by adjusting Core FFO attributable to common share and unit holders for (1) recurring capital expenditures that are necessary to help preserve the value and maintain functionality of our properties and (2) capitalized leasing costs incurred during the period. As a portion of our homes are recently developed, acquired and/or renovated, we estimate recurring capital expenditures for our entire portfolio by multiplying (a) current period actual recurring capital expenditures per Same-Home Property by (b) our total number of properties, excluding newly acquired non-stabilized properties and properties classified as held for sale.

We present FFO attributable to common share and unit holders because we consider this metric to be an important measure of the performance of real estate companies, as do many investors and analysts in evaluating the Company. We believe that FFO attributable to common share and unit holders provides useful information to investors because this metric excludes depreciation, which is included in computing net income and assumes the value of real estate diminishes predictably over time. We believe that real estate values fluctuate due to market conditions and in response to inflation. We also believe that Core FFO and Adjusted FFO attributable to common share and unit holders provide useful information to investors because they allow investors to compare our operating performance to prior reporting periods without the effect of certain items that, by nature, are not comparable from period to period.

Edgar Filing: American Homes 4 Rent - Form 10-Q

FFO, Core FFO and Adjusted FFO attributable to common share and unit holders are not a substitute for net income or net cash provided by operating activities, each as determined in accordance with GAAP, as a measure of our operating performance, liquidity or ability to pay dividends. These metrics also are not necessarily indicative of cash available to fund future cash needs. Because other REITs may not compute these measures in the same manner, they may not be comparable among REITs.

The following is a reconciliation of the Company's net income or loss attributable to common shareholders, determined in accordance with GAAP, to FFO attributable to common share and unit holders, Core FFO attributable to common share and unit holders and Adjusted FFO attributable to common share and unit holders for the three months ended March 31, 2019 and 2018 (in thousands):

Leasing costs	(999)	(2,723)
Internal leasing costs (1)	—	1,589
Adjusted FFO attributable to common share and unit holders	\$ 86,866	\$ 74,721

Adjustment amount reflects the portion of leasing costs that were previously capitalized and treated as a reduction (1) to Adjusted FFO attributable to common share and unit holders, that would be expensed under the new lease accounting standard ASU 2016-02, adopted by the Company on January 1, 2019.

As a portion of our homes are recently developed, acquired and / or renovated, we estimate recurring capital expenditures for our entire portfolio by multiplying (a) current period actual recurring capital expenditures per (2) Same-Home Property by (b) our total number of properties, excluding newly acquired non-stabilized properties and properties classified as held for sale.

EBITDA / EBITDAre / Adjusted EBITDAre / Adjusted EBITDAre after Capex and Leasing Costs

EBITDA is defined as earnings before interest, taxes, depreciation and amortization. EBITDA is a non-GAAP financial measure and is used by us and others as a supplemental measure of performance. EBITDAre is a supplemental non-GAAP financial measure, which we calculate in accordance with the definition approved by NAREIT in the September 2017 White Paper by adjusting EBITDA for the net gain or loss on sales / impairment of single-family properties and other and adjusting for unconsolidated partnerships and joint ventures on the same basis.

Adjusted EBITDAre is a supplemental non-GAAP financial measure calculated by adjusting EBITDAre for (1) acquisition fees and costs expensed incurred with business combinations and the acquisition of individual properties, (2) noncash share-based compensation expense, (3) hurricane-related charges, net, (4) gain or loss on early extinguishment of debt, (5) gain or loss on conversion of shares and units and (6) noncash fair value adjustments associated with remeasuring our participating preferred shares derivative liability to fair value. Adjusted EBITDAre after Capex and Leasing Costs is a supplemental non-GAAP financial measure calculated by adjusting Adjusted EBITDAre for (1) recurring capital expenditures and (2) leasing costs. We believe these metrics provide useful information to investors because they exclude the impact of various income and expense items that are not indicative of operating performance.

As a portion of our homes are recently acquired and / or renovated, we estimate recurring capital expenditures for our entire portfolio by multiplying (a) current period actual recurring capital expenditures per Same-Home Property by (b) our total number of properties, excluding newly acquired non-stabilized properties and properties classified as held for sale.

ITEM 3. Quantitative and Qualitative Disclosures about Market Risk

Interest Rate Risk

The primary market risk to which we believe we are exposed is interest rate risk, which may result from many factors, including government monetary and tax policies, domestic and international economic and political considerations, and other factors that are beyond our control. We may incur additional variable rate debt in the future, including additional amounts that we may borrow under our revolving credit and term loan facilities. In addition, decreases in interest rates may lead to additional competition for the acquisition of single-family homes, which may lead to future acquisitions being costlier and resulting in lower yields on single-family homes targeted for acquisition. Significant increases in interest rates may also have an adverse impact on our earnings if we are unable to acquire single-family homes with rental rates high enough to offset the increase in interest rates on our borrowings.

The Company's variable-rate debt was comprised of borrowings on our term loan facility of \$100.0 million as of March 31, 2019, and comprised of borrowings on our revolving credit facility and term loan facility of \$250.0 million and \$100.0 million, respectively, as of December 31, 2018. All borrowings under our revolving credit facility bear interest at a LIBOR rate plus a margin ranging from 0.825% to 1.55% or a base rate (generally determined according to a prime rate or federal funds rate) plus a margin ranging from 0.00% to 0.55% until the fully extended maturity date of June 2022. All borrowings under our term loan facility bear interest at a LIBOR rate plus a margin ranging from 0.90% to 1.75% or a base rate (generally determined according to a prime rate or federal funds rate) plus a margin ranging from 0.00% to 0.75% until the maturity date of June 2022. Assuming no change in the outstanding balance of our existing variable-rate debt, the following table illustrates the effect of a 100 basis point increase or decrease in the LIBOR rate on our projected annual interest expense as of March 31, 2019, and December 31, 2018 (in thousands):

	March 31, December	
	2019	31, 2018
Impact to future earnings due to variable rate debt, before the effect of capitalization:		
Rate increase of 1%	\$ 1,000	\$ 3,500
Rate decrease of 1% (1)	\$(1,000)	\$(3,500)

(1) Calculation of projected decrease in annual interest expense as a result of a 100 basis point decrease is reflective of any LIBOR floors or minimum interest rates stated in the agreements of respective borrowings.

This analysis does not consider the effects of the reduced level of overall economic activity that could exist in such an environment. Further, in the event of a change of such magnitude, we would consider taking actions to further mitigate our exposure to the change. However, because of the uncertainty of the specific actions that would be taken and their possible effects, the sensitivity analysis assumes no changes in our capital structure.

ITEM 4. Controls and Procedures

American Homes 4 Rent

Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in reports we file and submit under the Securities Exchange Act of 1934, as amended (the "Exchange Act") is recorded, processed, summarized and reported within the time periods specified in accordance with SEC guidelines and that such information is communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure based on the definition of "disclosure controls and procedures" in Rules 13a-15(e) and 15d-15(e) of the Exchange Act. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well

designed and operated, can provide only reasonable assurance of achieving the desired control objectives and management necessarily is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures in reaching that level of reasonable assurance.

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we evaluated the effectiveness of our disclosure controls and procedures, as required by Exchange Act Rule 13a-15(b), as of the end of the period covered by this report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective, at a reasonable assurance level.

Internal Control over Financial Reporting

There were no changes in the Company's internal control over financial reporting during the quarter ended March 31, 2019, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

For a description of the Company's legal proceedings, see Note 12.

Item 1A. Risk Factors

In addition to the other information in this Quarterly Report on Form 10-Q, you should carefully consider the risks described in our Annual Report on Form 10-K filed for the year ended December 31, 2018, in Part I, Item 1A, Risk Factors and in our other filings with the SEC. These factors may materially affect our business, financial condition and operating results and could cause our actual results to differ materially from expectations.

There have been no material changes to our risk factors from those disclosed in the section entitled "Risk Factors" of our Annual Report on Form 10-K for the year ended December 31, 2018.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On February 22, 2018, the Company's board of trustees re-authorized our existing share repurchase program, authorizing the repurchase of up to \$300.0 million of our outstanding Class A common shares and up to \$250.0

million of our outstanding preferred shares from time to time in the open market or in privately negotiated transactions. The program does not have an expiration date, but may be suspended or discontinued at any time without notice. All repurchased shares are constructively retired and returned to an authorized and unissued status. The Operating Partnership funds the repurchases and constructively retires an equivalent number of corresponding Class A units. During the three months ended March 31, 2019, the Company did not repurchase any of our common or preferred shares. As of March 31, 2019, we had a remaining repurchase authorization of up to \$265.1 million of our outstanding Class A common shares and up to \$250.0 million of our outstanding preferred shares under the program.
