Notes to Condensed Consolidated Financial Statements

(unaudited)

Note 1 - Basis of Condensed Consolidated Financial Statements

Basis of Presentation

The condensed consolidated financial information included in this report has been prepared in accordance with U.S. generally accepted accounting principles ("GAAP") for interim financial information and Article 10 of Securities and Exchange Commission ("SEC") Regulation S-X. The principles for condensed interim financial information do not require the inclusion of all the information and footnotes required by GAAP for complete financial statements. Therefore, these financial statements should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2015. The condensed consolidated financial statements included herein are unaudited; however, in the opinion of management, they contain all normal recurring adjustments necessary for a fair statement of the consolidated results for the interim periods. All material intercompany transactions and balances have been eliminated upon consolidation.

Reclassifications and revisions

Certain 2015 amounts have been reclassified to conform to the 2016 presentation.

During the fourth quarter of 2015, the Company reclassified certain revenues and expenses related to closing protection letters and temporary labor costs. The impact to the Company's title insurance and services segment for the three and nine months ended September 30, 2015 included decreases to direct premiums and escrow fees and increases to agent premiums of \$9.5 million and \$24.6 million, increases to personnel costs of \$10.6 million and \$29.0 million, increases to premiums retained by agents of \$0.5 million and \$1.2 million and decreases to other operating expenses of \$11.1 million and \$30.2 million, respectively. The impact to the Company's specialty insurance segment for the three and nine months ended September 30, 2015 included increases to personnel costs and decreases to other operating expenses of \$0.2 million and \$0.7 million, respectively.

Also, during the fourth quarter of 2015, the Company identified certain non-risk based revenues included within direct premiums and escrow fees that should have been reflected in information and other. To correct for this error, these revenues were reclassified from direct premiums and escrow fees to information and other. The revision to the Company's title insurance and services segment for the three and nine months ended September 30, 2015 resulted in a decrease to direct premiums and escrow fees and an increase to information and other of \$10.7 million and \$31.5 million, respectively.

The Company does not consider these adjustments to be material, individually or in the aggregate, to any previously issued consolidated financial statements.

Recently Adopted Accounting Pronouncements

In September 2015, the Financial Accounting Standards Board ("FASB") issued updated guidance intended to simplify the accounting for adjustments made to provisional amounts recognized in a business combination and eliminates the requirement to retrospectively account for those adjustments. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2015 and applies prospectively to adjustments made to provisional amounts that occur after the effective date of this guidance with early adoption permitted for financial statements that have not been issued. The adoption of this guidance had no impact on the Company's condensed consolidated financial statements.

In August 2015, the FASB issued updated guidance relating to the Securities and Exchange Commission Staff Announcement at the June 18, 2015 Emerging Issues Task Force meeting on the presentation and subsequent measurement of debt issuance costs associated with line-of-credit arrangements. The updated guidance allows for the deferral and presentation of debt issuance costs as an asset which may be amortized ratably over the term of the line-of-credit arrangement, regardless of whether there are any related outstanding borrowings. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2015, with early adoption permitted. The adoption of this guidance had no impact on the Company's condensed consolidated financial statements.

In May 2015, the FASB issued updated guidance intended to eliminate the diversity in practice surrounding how investments measured at net asset value under the practical expedient with future redemption dates have been categorized in the fair value hierarchy. Under the updated guidance, investments for which fair value is measured at net asset value per share using the practical expedient should no longer be categorized in the fair value hierarchy. The updated guidance requires retrospective adoption for all periods presented and is effective for interim and annual reporting periods beginning after December 15, 2015, with early adoption permitted. The adoption of this guidance had no impact on the Company's condensed consolidated financial statements.

In April 2015, the FASB issued updated guidance intended to clarify the accounting treatment for cloud computing arrangements that include software licenses. Under the updated guidance, if a cloud computing arrangement includes a software license, the customer should account for the software license element of the arrangement consistent with the acquisition of other software licenses. If a cloud computing arrangement does not include a software license, the customer should account for the arrangement as a service contract. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2015, with early adoption permitted. The Company elected to adopt the updated guidance prospectively for all arrangements entered into or materially modified after the effective date. The adoption of this guidance did not have a material impact on the Company's condensed consolidated financial statements. The financial statement line items impacted by the adoption of the updated guidance include other intangible assets, net and depreciation and amortization. See Note 5 Other Intangible Assets for further information on the Company's internal-use software licenses.

In April 2015, the FASB issued updated guidance intended to simplify, and provide consistency to, the presentation of debt issuance costs. The new standard requires that debt issuance costs be presented in the balance sheet as a direct deduction from the carrying amount of the debt liability, consistent with debt discounts. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2015, with early adoption permitted. The adoption of this guidance did not have a material impact on the Company's condensed consolidated financial statements.

In February 2015, the FASB issued updated guidance which changes the analysis that a reporting entity must perform to determine whether it should consolidate certain types of legal entities. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2015, with early adoption permitted. The adoption of this guidance had no impact on the Company's condensed consolidated financial statements.

In June 2014, the FASB issued updated guidance intended to eliminate the diversity in practice regarding share-based payment awards that include terms which provide for a performance target that affects vesting being achieved after the requisite service period. The new standard requires that a performance target which affects vesting and could be achieved after the requisite service period be treated as a performance condition that affects vesting and should not be reflected in estimating the grant-date fair value. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2015, with early adoption permitted. The adoption of this guidance had no impact on the Company's condensed consolidated financial statements.

Pending Accounting Pronouncements

In August 2016, the FASB issued updated guidance intended to eliminate the diversity in practice regarding the presentation and classification of certain cash receipts and cash payments in the statement of cash flows. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2017, with early adoption permitted. The Company does not expect the adoption of this guidance to have a material impact on its condensed consolidated statement of cash flows.

In June 2016, the FASB issued updated guidance intended to provide financial statement users with more decision-useful information about the expected credit losses on financial instruments and other commitments to extend credit held by a reporting entity at each reporting date. The updated guidance replaces the current incurred loss impairment methodology with a methodology that reflects expected credit losses and requires the consideration of a broader range of reasonable and supportable information to inform credit loss estimates. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2019, with early adoption permitted. The Company is currently assessing the impact of the new guidance on its condensed consolidated financial statements.

In May 2016, the FASB issued updated guidance intended to clarify the guidance previously issued in May 2014 related to the recognition of revenue from contracts with customers. The updated guidance includes narrow-scope improvements intended to address implementation issues and to provide additional practical expedients in the guidance. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2017, with early adoption permitted for interim and annual reporting periods beginning after December 15, 2016. The Company does not expect the adoption of this guidance to have a material impact on its condensed consolidated financial statements.

In April 2016, the FASB issued updated guidance intended to clarify the guidance previously issued in May 2014 related to the recognition of revenue from contracts with customers. The updated guidance is intended to reduce the cost and complexity of applying the guidance on identifying promised goods or services in a contract and to improve the operability and understandability of the implementation guidance regarding the licensing of intellectual property. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2017, with early adoption permitted for interim and annual reporting periods beginning after December 15, 2016. The Company does not expect the adoption of this guidance to have a material impact on its condensed consolidated financial statements.

In March 2016, the FASB issued updated guidance intended to simplify and improve several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of such awards as either equity or liabilities and classification on the statement of cash flows. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2016, with early adoption permitted. The Company is currently assessing the impact of the new guidance on its condensed consolidated financial statements.

In March 2016, the FASB issued updated guidance intended to clarify the guidance previously issued in May 2014 related to the recognition of revenue from contracts with customers. The updated guidance is intended to improve the operability and understandability of the implementation guidance regarding principal versus agent considerations in a contract. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2017, with early adoption permitted for interim and annual reporting periods beginning after December 15, 2016. The Company does not expect the adoption of this guidance to have a material impact on its condensed consolidated financial statements.

In March 2016, the FASB issued updated guidance intended to simplify the accounting treatment for investments that become qualified for the equity method of accounting as a result of an increase in the level of ownership interest or degree of influence. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2016, with early adoption permitted. The Company expects the adoption of this guidance to have no impact on its condensed consolidated financial statements.

In February 2016, the FASB issued updated guidance that requires the rights and obligations associated with leasing arrangements be reflected on the balance sheet in order to increase transparency and comparability among organizations. Under the updated guidance, lessees will be required to recognize a right-of-use asset and a liability to make lease payments and disclose key information about leasing arrangements. The updated guidance is effective for

interim and annual reporting periods beginning after December 15, 2018, with early adoption permitted. The Company is currently assessing the impact of the new guidance on its condensed consolidated financial statements.

In January 2016, the FASB issued updated guidance intended to enhance the reporting model for financial instruments to provide users of financial statements with more decision-useful information. In addition to making other targeted improvements to current guidance, the updated guidance also requires all equity investments, except those accounted for under the equity method of accounting or those that result in consolidation of the investee, to be measured at fair value with changes in the fair value recognized through net income. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2017, with early adoption permitted in certain circumstances. While the Company expects the adoption of this guidance to impact its condensed consolidated statements of income, the materiality of the impact will depend upon the size of, and level of volatility experienced within, the Company's equity portfolio.

In May 2015, the FASB issued updated disclosure guidance related to short-duration contracts issued by insurance entities. The updated guidance is intended to increase the transparency of significant estimates made in measuring liabilities for unpaid claims and claim adjustment expenses and to provide additional insight into an insurance entity's ability to underwrite and anticipate costs associated with claims. The updated guidance is effective for annual reporting periods beginning after December 15, 2015 and for interim periods within annual periods beginning after December 15, 2016, with early adoption permitted. Except for the disclosure requirements, the Company does not expect the adoption of this guidance to impact its condensed consolidated financial statements.

In May 2014, the FASB issued updated guidance for recognizing revenue from contracts with customers to provide a single, comprehensive revenue recognition model for all contracts with customers to improve comparability within and across industries, and across capital markets. The new revenue standard contains principles that an entity will apply to determine the measurement of revenue and the timing of recognition. The underlying principle is that an entity will recognize revenue to depict the transfer of goods or services to customers at an amount that the entity expects to be entitled to in exchange for those goods or services. Revenue from insurance contracts is not within the scope of this guidance. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2016, with early adoption prohibited. In August 2015, the FASB issued updated guidance which defers the effective date of this guidance by one year to interim and annual reporting periods beginning after December 15, 2017, with early adoption permitted as of the original effective date. The Company is currently assessing the impact of the new guidance on its condensed consolidated financial statements.

Note 2 - Escrow Deposits, Like-kind Exchange Deposits and Trust Assets

The Company administers escrow deposits and trust assets as a service to its customers. Escrow deposits totaled \$7.5 billion and \$6.6 billion at September 30, 2016 and December 31, 2015, respectively, of which \$3.1 billion and \$2.6 billion, respectively, were held at the Company's federal savings bank subsidiary, First American Trust, FSB. The escrow deposits held at First American Trust, FSB are temporarily invested in cash and cash equivalents and debt securities, with offsetting liabilities included in deposits in the accompanying condensed consolidated balance sheets. The remaining escrow deposits were held at third-party financial institutions.

Trust assets held or managed by First American Trust, FSB totaled \$3.2 billion and \$3.0 billion at September 30, 2016 and December 31, 2015, respectively. Escrow deposits held at third-party financial institutions and trust assets are not considered assets of the Company and, therefore, are not included in the accompanying condensed consolidated balance sheets. However, the Company could be held contingently liable for the disposition of these assets.

In conducting its operations, the Company often holds customers' assets in escrow, pending completion of real estate transactions and, as a result, the Company has ongoing programs for realizing economic benefits with various financial institutions. The results from these programs are included in the condensed consolidated financial statements

as income or a reduction in expense, as appropriate, based on the nature of the arrangement and benefit received.

The Company facilitates tax-deferred property exchanges for customers pursuant to Section 1031 of the Internal Revenue Code and tax-deferred reverse exchanges pursuant to Revenue Procedure 2000-37. As a facilitator and intermediary, the Company holds the proceeds from sales transactions and takes temporary title to property identified by the customer to be acquired with such proceeds. Upon the completion of each such exchange, the identified property is transferred to the customer or, if the exchange does not take place, an amount equal to the sales proceeds or, in the case of a reverse exchange, title to the property held by the Company is transferred to the customer. Like-kind exchange funds held by the Company totaled \$2.2 billion and \$2.8 billion at September 30, 2016 and December 31, 2015, respectively. The like-kind exchange deposits are held at third-party financial institutions and, due to the structure utilized to facilitate these transactions, the proceeds and property are not considered assets of the Company and, therefore, are not included in the accompanying condensed consolidated balance sheets. All such amounts are placed in deposit accounts insured, up to applicable limits, by the Federal Deposit Insurance Corporation. The Company could be held contingently liable to the customer for the transfers of property, disbursements of proceeds and the returns on such proceeds.
