Interim Statements

The Condensed Consolidated Financial Statements and Notes contained in this report are unaudited but reflect all adjustments, consisting of only normal recurring adjustments, necessary for a fair presentation of the results for the interim periods of the fiscal year ending January 31, 2015 ("Fiscal 2015") and of the fiscal year ended February 1, 2014 ("Fiscal 2014"). The results of operations for any interim period are not necessarily indicative of results for the full year. The interim financial statements should be read in conjunction with the financial statements and notes thereto included in Genesco Inc.'s (the "Company") Annual Report on Form 10-K.

Nature of Operations

The Company's business includes the design and sourcing, marketing and distribution of footwear and accessories through retail stores in the U.S., Puerto Rico and Canada primarily under the Journeys, Journeys Kidz, Shi by Journeys, Underground by Journeys and Johnston & Murphy banners and under the Schuh banner in the United Kingdom and the Republic of Ireland; through e-commerce websites including [journeys.com](http://journeys.com), [journeyskidz.com](http://journeyskidz.com), [shibyjourneys.com](http://shibyjourneys.com), [schuh.co.uk](http://schuh.co.uk), [johnstonmurphy.com](http://johnstonmurphy.com) and [trask.com](http://trask.com) and catalogs, and at wholesale, primarily under the Company's Johnston & Murphy brand, the recently relaunched Trask brand, the licensed Dockers brand and other brands that the Company licenses for footwear, and the Company's SureGrip® line of slip-resistant, occupational footwear. The Company's business also includes Lids Sports Group, which operates headwear and accessory stores in the U.S. and Canada primarily under the Lids, Hat World and Hat Shack banners; the Lids Locker Room and Lids Clubhouse businesses, consisting of sports-oriented fan shops featuring a broad array of licensed merchandise such as apparel, hats and accessories, sports decor and novelty products, operating under various trade names; licensed team merchandise departments in Macy's department stores operated under the name of Locker Room by Lids and on [macys.com](http://macys.com), under a license agreement with Macy's; certain e-commerce operations including [lids.com](http://lids.com), [lids.ca](http://lids.ca), [lidslockerroom.com](http://lidslockerroom.com) and [lidsclubhouse.com](http://lidsclubhouse.com); and an athletic team dealer business operating as Lids Team Sports. Including both the footwear businesses and the Lids Sports Group business, at November 1, 2014, the Company operated 2,837 retail stores and leased departments in the U.S., Puerto Rico, Canada, the United Kingdom and the Republic of Ireland.

During the nine months ended November 1, 2014 and November 2, 2013, the Company operated five reportable business segments (not including corporate): (i) Journeys Group, comprised of the Journeys, Journeys Kidz, Shi by Journeys and Underground by Journeys retail footwear chains, catalog and e-commerce operations; (ii) Schuh Group, comprised of the Schuh retail footwear chain and e-commerce operations; (iii) Lids Sports Group, comprised as described in the preceding paragraph; (iv) Johnston & Murphy Group, comprised of Johnston & Murphy retail operations, e-commerce and catalog operations and wholesale distribution of products under the Johnston & Murphy and Trask brands; and (v) Licensed Brands, comprised of Dockers® Footwear, sourced and marketed under a license from Levi Strauss & Company; SureGrip® Footwear, occupational footwear primarily sold directly to consumers; and other brands.

Principles of Consolidation

All subsidiaries are consolidated in the Condensed Consolidated Financial Statements. All significant intercompany transactions and accounts have been eliminated.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Significant areas requiring management estimates or judgments include the following key financial areas:

Inventory Valuation

The Company values its inventories at the lower of cost or market.

In its footwear wholesale operations, its Schuh Group segment and its Lids Sports Group wholesale operations, except for the Anaconda Sports wholesale division, cost is determined using the first-in, first-out method. Market value is determined using a system of analysis which evaluates inventory at the stock number level based on factors such as inventory turn, average selling price, inventory level, and selling prices reflected in future orders. The Company provides reserves when the inventory has not been marked down to market value based on current selling prices or when the inventory is not turning and is not expected to turn at levels satisfactory to the Company.

The Lids Sports Group retail segment and its Anaconda Sports wholesale division employ the moving average cost method for valuing inventories and apply freight using an allocation method.

The Company provides a valuation allowance for slow-moving inventory based on negative margins and estimated shrink based on historical experience and specific analysis, where appropriate.

In its retail operations, other than the Schuh Group and Lids Sports Group retail segments, the Company employs the retail inventory method, applying average cost-to-retail ratios to the retail value of inventories. Under the retail inventory method, valuing inventory at the lower of cost or market is achieved as markdowns are taken or accrued as a reduction of the retail value of inventories.

Inherent in the retail inventory method are subjective judgments and estimates, including merchandise mark-on, markups, markdowns, and shrinkage. These judgments and estimates, coupled with the fact that the retail inventory method is an averaging process, could produce a range of cost figures. To reduce the risk of inaccuracy and to ensure consistent presentation, the Company employs the retail inventory method in multiple subclasses of inventory with similar gross margins, and analyzes markdown requirements at the stock number level based on factors such as inventory turn, average selling price, and inventory age. In addition, the Company accrues

markdowns as necessary. These additional markdown accruals reflect all of the above factors as well as current agreements to return products to vendors and vendor agreements to provide markdown support. In addition to markdown provisions, the Company maintains provisions for shrinkage and damaged goods based on historical rates.

Inherent in the analysis of both wholesale and retail inventory valuation are subjective judgments about current market conditions, fashion trends, and overall economic conditions. Failure to make appropriate conclusions regarding these factors may result in an overstatement or understatement of inventory value.

Impairment of Long-Lived Assets

The Company periodically assesses the realizability of its long-lived assets and evaluates such assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Asset impairment is determined to exist if estimated future cash flows, undiscounted and without interest charges, are less than the carrying amount. Inherent in the analysis of impairment are subjective judgments about future cash flows. Failure to make appropriate conclusions regarding these judgments may result in an overstatement or understatement of the value of long-lived assets. See also Notes 3 and 5.

The goodwill impairment test involves performing a qualitative assessment, on a reporting unit level, based on current circumstances. If the results of the qualitative assessment indicate that it is more likely than not that the fair value of a reporting unit is greater than its carrying amount, a two-step impairment test will not be performed. However, if the results of the qualitative assessment indicate that it is more likely than not that the fair value of a reporting unit is less than its carrying amount, then a two-step impairment test is performed. Alternatively, the Company may elect to bypass the qualitative assessment and proceed directly to the two-step impairment test, on a reporting unit level basis. The first step is a comparison of the fair value and carrying value of the business unit with which the goodwill is associated. The Company estimates fair value using the best information available, and computes the fair value derived by an income approach utilizing discounted cash flow projections. The income approach uses a projection of a reporting unit's estimated operating results and cash flows that is discounted using a weighted-average cost of capital that reflects current market conditions. A key assumption in the Company's fair value estimate is the weighted average cost of capital utilized for discounting its cash flow projections in its income approach. The Company believes the rate it used in its latest annual test, which was completed in the prior year fourth quarter, was consistent with the risks inherent in its business and with industry discount rates. The projection uses management's best estimates of economic and market conditions over the projected period including growth rates in sales, costs, estimates of future expected changes in operating margins and cash expenditures.

Other significant estimates and assumptions include terminal value growth rates, future estimates of capital expenditures and changes in future working capital requirements.

Note 1  
Summary of Significant Accounting Policies, Continued

If the carrying value of the reporting unit is higher than its fair value, there is an indication that impairment may exist and the second step must be performed to measure the amount of impairment loss. The amount of impairment is determined by comparing the implied fair value of reporting unit goodwill to the carrying value of the goodwill in the same manner as if the reporting unit was being acquired in a business combination. Specifically, the Company would allocate the fair value to all of the assets and liabilities of the reporting unit, including any unrecognized intangible assets, in a hypothetical analysis that would calculate the implied fair value of goodwill. If the implied fair value of goodwill is less than the recorded goodwill, the Company would record an impairment charge for the difference.

Environmental and Other Contingencies

The Company is subject to certain loss contingencies related to environmental proceedings and other legal matters. The Company has made pretax accruals for certain of these contingencies, including approximately \$0.1 million and \$0.0 million for the third quarter of Fiscal 2015 and 2014, respectively, and approximately \$0.5 million and \$0.4 million for the first nine months of Fiscal 2015 and 2014, respectively. These charges are included in provision for discontinued operations, net in the Condensed Consolidated Statements of Operations because they relate to former facilities operated by the Company. The Company monitors these matters on an ongoing basis and, on a quarterly basis, management reviews the Company's reserves and accruals, adjusting provisions as management deems necessary in view of changes in available information. Changes in estimates of liability are reported in the periods when they occur. Consequently, management believes that its reserve in relation to each proceeding is a best estimate of probable loss connected to the proceeding, or in cases in which no best estimate is possible, the minimum amount in the range of estimated losses, based upon its analysis of the facts and circumstances as of the close of the most recent fiscal quarter. However, because of uncertainties and risks inherent in litigation generally and in environmental proceedings in particular, there can be no assurance that future developments will not require additional reserves, that some or all reserves will be adequate or that the amounts of any such additional reserves or any such inadequacy will not have a material adverse effect upon the Company's financial condition or results of operations. See also Notes 3 and 9.

Revenue Recognition

Retail sales are recorded at the point of sale and are net of estimated returns and exclude sales and value added taxes. Catalog and internet sales are recorded at estimated time of delivery to the customer and are net of estimated returns and exclude sales and value added taxes. Wholesale revenue is recorded net of estimated returns and allowances for markdowns, damages and miscellaneous claims when the related goods have been shipped and legal title has passed to the customer. Shipping and handling costs charged to customers are included in net sales. Estimated returns are based on historical returns and claims. Historically, actual amounts of markdowns have not differed materially from estimates. Actual returns and claims in any future period may differ from historical experience.

Income Taxes

As part of the process of preparing the Condensed Consolidated Financial Statements, the Company is required to estimate its income taxes in each of the tax jurisdictions in which it operates. This process involves estimating actual current tax obligations together with assessing temporary differences resulting from differing treatment of certain items for tax and accounting purposes, such as depreciation of property and equipment and valuation of inventories. These temporary differences result in deferred tax assets and liabilities, which are included within the Condensed Consolidated Balance Sheets. The Company then assesses the likelihood that its deferred tax assets will be recovered from future taxable income. Actual results could differ from this assessment if adequate taxable income is not generated in future periods. To the extent the Company believes that recovery of an asset is at risk, valuation allowances are established. To the extent valuation allowances are established or increased in a period, the Company includes an expense within the tax provision in the Condensed Consolidated Statements of Operations. These deferred tax valuation allowances may be released in future years when management considers that it is more likely than not that some portion or all of the deferred tax assets will be realized. In making such a determination, management will need to periodically evaluate whether or not all available evidence, such as future taxable income and reversal of temporary differences, tax planning strategies, and recent results of operations, provides sufficient positive evidence to offset any potential negative evidence that may exist at such time. In the event the deferred tax valuation allowance is released, the Company would record an income tax benefit for the portion or all of the deferred tax valuation allowance released. At November 1, 2014, the Company had a deferred tax valuation allowance of \$3.7 million.

Income tax reserves for certain tax positions are determined using the methodology required by the Income Tax Topic of the Accounting Standards Codification ("Codification"). This methodology requires companies to assess each income tax position taken using a two step process. A determination is first made as to whether it is more likely than not that the position will be sustained, based upon the technical merits, upon examination by the taxing authorities. If the tax position is expected to meet the more likely than not criteria, the benefit recorded for the tax position equals the largest amount that is greater than 50% likely to be realized upon ultimate settlement of the respective tax position. Uncertain tax positions require determinations and estimated liabilities to be made based on provisions of the tax law which may be subject to change or varying interpretation. If the Company's determinations and estimates prove to be inaccurate, the resulting adjustments could be material to its future financial results.

The Company recorded an effective income tax rate of 25.6% in the third quarter of Fiscal 2015 compared to 39.3% for the same period last year and 32.9% and 40.2% for the first nine months of Fiscal 2015 and 2014, respectively. The tax rate for Fiscal 2015 was lower compared to Fiscal 2014 primarily due to a \$7.0 million reversal of charges previously recorded related to formerly uncertain tax positions that were taken by Schuh at the time of the purchase by the Company, which were favorably resolved during the third quarter of Fiscal 2015. Related to the same uncertain tax position, the Company wrote off a \$7.1 million indemnification asset during the third quarter of Fiscal 2015.

Postretirement Benefits Plan Accounting

Full-time employees who had at least 1000 hours of service in calendar year 2004, except employees in the Lids Sports Group and Schuh Group segments, are covered by a defined benefit pension plan. The Company froze the defined benefit pension plan effective January 1, 2005. The Company also provides certain former employees with limited medical and life insurance benefits. The Company funds at least the minimum amount required by the Employee Retirement Income Security Act.

As required by the Compensation – Retirement Benefits Topic of the Codification, the Company is required to recognize the overfunded or underfunded status of postretirement benefit plans as an asset or liability in its Condensed Consolidated Balance Sheets and to recognize changes in that funded status in accumulated other comprehensive loss, net of tax, in the year in which the changes occur.

The Company accounts for the defined benefit pension plans using the Compensation-Retirement Benefits Topic of the Codification. As permitted under this topic, pension expense is recognized on an accrual basis over employees' approximate service periods. The calculation of pension expense and the corresponding liability requires the use of a number of critical assumptions, including the expected long-term rate of return on plan assets and the assumed discount rate, as well as the recognition of actuarial gains and losses. Changes in these assumptions can result in different expense and liability amounts, and future actual experience can differ from these assumptions.

Cash and Cash Equivalents

The Company had total available cash and cash equivalents of \$38.0 million, \$59.4 million and \$32.3 million as of November 1, 2014, February 1, 2014 and November 2, 2013, respectively. There were no cash equivalents included in cash and cash equivalents at November 1, 2014, February 1, 2014 and November 2, 2013. Cash equivalents are highly-liquid financial instruments having an original maturity of three months or less.

At November 1, 2014, substantially all of the Company's domestic cash was invested in deposit accounts at FDIC-insured banks. The majority of payments due from banks for domestic customer credit card transactions process within 24 - 48 hours and are accordingly classified as cash and cash equivalents in the Condensed Consolidated Balance Sheets.

At November 1, 2014, February 1, 2014 and November 2, 2013, outstanding checks drawn on zero-balance accounts at certain domestic banks exceeded book cash balances at those banks by approximately \$50.1 million, \$42.1 million and \$43.3 million, respectively. These amounts are included in accounts payable in the Condensed Consolidated Balance Sheets.

Note 1  
Summary of Significant Accounting Policies, Continued

Concentration of Credit Risk and Allowances on Accounts Receivable

The Company's footwear wholesale businesses sell primarily to independent retailers and department stores across the United States. Receivables arising from these sales are not collateralized. Customer credit risk is affected by conditions or occurrences within the economy and the retail industry as well as by customer specific factors. The Company's Lids Team Sports wholesale business sells primarily to colleges and high school athletic teams and their fan bases. Including both footwear wholesale and Lids Team Sports wholesale business receivables, one customer accounted for 7% of the Company's total trade receivables balance, while no other customer accounted for more than 5% of the Company's total trade receivables balance as of November 1, 2014.

The Company establishes an allowance for doubtful accounts based upon factors surrounding the credit risk of specific customers, historical trends and other information, as well as customer-specific factors. The Company also establishes allowances for sales returns, customer deductions and co-op advertising based on specific circumstances, historical trends and projected probable outcomes.

Property and Equipment

Property and equipment are recorded at cost and depreciated or amortized over the estimated useful life of related assets. Depreciation and amortization expense are computed principally by the straight-line method over the following estimated useful lives:

Buildings and building equipment	20-45 years
Computer hardware, software and equipment	3-10 years
Furniture and fixtures	10 years

Leases

Leasehold improvements and properties under capital leases are amortized on the straight-line method over the shorter of their useful lives or their related lease terms and the charge to earnings is included in selling and administrative expenses in the Condensed Consolidated Statements of Operations.

Certain leases include rent increases during the initial lease term. For these leases, the Company recognizes the related rental expense on a straight-line basis over the term of the lease (which includes any rent holidays and the pre-opening period of construction, renovation, fixturing and merchandise placement) and records the difference between the amounts charged to operations and amounts paid as deferred rent.

The Company occasionally receives reimbursements from landlords to be used towards construction of the store the Company intends to lease. Leasehold improvements are recorded at their gross costs including items reimbursed by landlords. The reimbursements are amortized as a reduction of rent expense over the initial lease term. Tenant allowances of \$25.4 million, \$24.2 million and \$23.8 million at November 1, 2014, February 1, 2014 and November 2, 2013, respectively, and deferred rent of \$44.2 million, \$41.6 million and \$40.5 million at November 1, 2014, February 1, 2014 and November 2, 2013, respectively, are included in deferred rent and other long-term liabilities on the Condensed Consolidated Balance Sheets.

Goodwill and Other Intangibles

Under the provisions of the Intangibles – Goodwill and Other Topic of the Codification, goodwill and intangible assets with indefinite lives are not amortized, but are tested at least annually, during the fourth quarter, for impairment. The Company will update the tests between annual tests if events or circumstances occur that would more likely than not reduce the fair value of the business unit with which the goodwill is associated below its carrying amount. It is also required that intangible assets with finite lives be amortized over their respective lives to their estimated residual values and reviewed for impairment in accordance with the Property, Plant and Equipment Topic of the Codification.

Intangible assets of the Company with indefinite lives are primarily goodwill and identifiable trademarks acquired in connection with the acquisition of Schuh Group Ltd. in June 2011 and Hat World Corporation in April 2004. The Condensed Consolidated Balance Sheets include goodwill of \$201.9 million for the Lids Sports Group, \$101.9 million for the Schuh Group and \$0.8 million for Licensed Brands at November 1, 2014, \$182.4 million for the Lids Sports Group, \$104.9 million for the Schuh Group and \$0.8 million for Licensed Brands at February 1, 2014 and \$180.4 million for the Lids Sports Group, \$101.8 million for the Schuh Group and \$0.8 million for Licensed Brands at November 2, 2013. The Company tests for impairment of intangible assets with an indefinite life, relying on a number of factors including operating results, business plans, projected future cash flows and observable market data. The impairment test for identifiable assets not subject to amortization consists of a comparison of the fair value of the intangible asset with its carrying amount. The Company has not had an impairment charge for intangible assets.

In connection with acquisitions, the Company records goodwill on its Condensed Consolidated Financial Statements. This asset is not amortized but is subject to an impairment assessment at least annually. If the impairment assessment indicates that it is more likely than not that the fair value of a reporting unit is less than its carrying amount, then a two-step impairment is performed based on projected future cash flows from the acquired business discounted at a rate commensurate with the risk the Company considers to be inherent in its current business model. The Company performs the impairment assessment annually as of the close of its fiscal year, or more frequently if events or circumstances indicate that the value of the asset might be impaired.

As a result of the various acquisitions comprising the Lids Team Sports team dealer business, the Company carries goodwill related to such acquisitions at a value of \$14.2 million on its Condensed Consolidated Balance Sheets related to such acquisitions at the time of its annual impairment test in January 2014. The Company found that the result of its annual impairment test in January 2014, which valued the business at approximately \$3.9 million in excess of its carrying value, indicated no impairment at that time. The Company may determine in future impairment tests that some or all of the carrying value of the goodwill may not be recoverable. Such a finding would require a write-off of the amount of the carrying value that is impaired, which would reduce the Company's profitability in the period of the impairment charge. Holding all other assumptions constant as of the measurement date, the Company noted that an increase in the weighted average cost of capital of 100 basis points would reduce the fair value of the Lids Team Sports business by \$5.9 million.

Genesco Inc.  
and Consolidated Subsidiaries  
Notes to Condensed Consolidated Financial Statements (unaudited)

Note 1  
Summary of Significant Accounting Policies, Continued

Furthermore, the Company noted that a decrease in projected annual revenue growth by one percent would reduce the fair value of the Lids Team Sports business by \$0.4 million. However, if other assumptions do not remain constant, the fair value of the Lids Team Sports business may decrease by a greater amount.

Identifiable intangible assets of the Company with finite lives are trademarks, customer lists, in-place leases, non-compete agreements and a vendor contract. They are subject to amortization based upon their estimated useful lives. Finite-lived intangible assets are evaluated for impairment using a process similar to that used to evaluate other definite-lived long-lived assets, a comparison of the fair value of the intangible asset with its carrying amount. An impairment loss is recognized for the amount by which the carrying value exceeds the fair value of the asset.

Fair Value of Financial Instruments

The carrying amounts and fair values of the Company's financial instruments at November 1, 2014 and February 1, 2014 are:

Fair Values In thousands	November 1, 2014		February 1, 2014	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
U.S. Revolver Borrowings	\$62,200	\$62,176	\$—	\$—
UK Term Loans	52,835	52,442	33,730	33,840

Debt fair values were estimated using a discounted cash flow analysis based on current market interest rates for similar types of financial instruments and would be classified in Level 2 as defined in Note 5.

Carrying amounts reported on the Condensed Consolidated Balance Sheets for cash, cash equivalents, receivables and accounts payable approximate fair value due to the short-term maturity of these instruments.

Cost of Sales

For the Company's retail operations, the cost of sales includes actual product cost, the cost of transportation to the Company's warehouses from suppliers and the cost of transportation from the Company's warehouses to the stores. Additionally, the cost of its distribution facilities allocated to its retail operations is included in cost of sales.

For the Company's wholesale operations, the cost of sales includes the actual product cost and the cost of transportation to the Company's warehouses from suppliers.

Selling and Administrative Expenses

Selling and administrative expenses include all operating costs of the Company excluding (i) those related to the transportation of products from the supplier to the warehouse, (ii) for its retail operations, those related to the transportation of products from the warehouse to the store and (iii)

costs of its distribution facilities which are allocated to its retail operations. Wholesale and unallocated retail costs of distribution are included in selling and administrative expenses on the Condensed Consolidated Statements of Operations in the amounts of \$2.6 million and \$2.3 million for the third quarters of Fiscal 2015 and 2014, respectively, and \$7.2 million and \$6.5 million for the first nine months of Fiscal 2015 and 2014, respectively.

EVA Incentive Plan

Under the Company's EVA Incentive Plan, bonus awards in excess of a specified cap in any one year are retained and paid over three subsequent years, subject to reduction or elimination by deteriorating financial performance and historically were subject to forfeiture if the participant voluntarily resigns from employment with the Company. As a result, the bonus awards were subject to service conditions that resulted in recognition of expense over the period of service by the respective employee. During the first quarter of Fiscal 2015, the Company amended the plan to remove the future service requirement for the payment of the retained bonuses. As a result, the bonus expense that would have been deferred under the previous plan terms is now recognized in the first year of service. The Company recorded a \$5.7 million charge to earnings in the first quarter of Fiscal 2015 in connection with the amendment related to bonus amounts previously deferred to future years.

Gift Cards

The Company has a gift card program that began in calendar year 1999 for its Lids Sports operations and calendar year 2000 for its footwear operations. The gift cards issued to date do not expire. As such, the Company recognizes income when: (i) the gift card is redeemed by the customer; or (ii) the likelihood of the gift card being redeemed by the customer for the purchase of goods in the future is remote and there are no related escheat laws (referred to as "breakage"). The gift card breakage rate is based upon historical redemption patterns and income is recognized for unredeemed gift cards in proportion to those historical redemption patterns.

Gift card breakage is recognized in revenues each period for which financial statements are updated. Gift card breakage recognized as revenue was \$0.1 million and \$0.2 million for the third quarters of Fiscal 2015 and 2014, respectively, and \$0.4 million and \$0.3 million for the first nine months of Fiscal 2015 and 2014, respectively. The Condensed Consolidated Balance Sheets include an accrued liability for gift cards of \$12.7 million, \$14.4 million and \$11.1 million at November 1, 2014, February 1, 2014 and November 2, 2013, respectively.

Buying, Merchandising and Occupancy Costs

The Company records buying, merchandising and occupancy costs in selling and administrative expense on the Condensed Consolidated Statements of Operations. Because the Company does not include these costs in cost of sales, the Company's gross margin may not be comparable to other retailers that include these costs in the calculation of gross margin. Retail store occupancy costs recorded in selling and administrative expense were \$103.2 million and \$96.1 million for the third quarters of Fiscal 2015 and 2014, respectively, and \$306.9 million and \$283.1 million for the first nine months of Fiscal 2015 and 2014, respectively.

Shipping and Handling Costs

Shipping and handling costs related to inventory purchased from suppliers are included in the cost of inventory and are charged to cost of sales in the period that the inventory is sold. All other shipping and handling costs are charged to cost of sales in the period incurred except for wholesale and unallocated retail costs of distribution, which are included in selling and administrative expenses on the Condensed Consolidated Statements of Operations.

Preopening Costs

Costs associated with the opening of new stores are expensed as incurred, and are included in selling and administrative expenses on the accompanying Condensed Consolidated Statements of Operations.

Store Closings and Exit Costs

From time to time, the Company makes strategic decisions to close stores or exit locations or activities. Under the provisions of the new Property, Plant, and Equipment Topic of the Codification, which the Company adopted in the first quarter of Fiscal 2015, the definition of a discontinued operation was amended. A discontinued operation may include a component of an entity or a group of components of an entity that represent a strategic shift that has or will have a major effect on an entity's operation or financial results. If stores or operating activities to be closed or exited constitute a component or group of components that represent a strategic shift in the Company's operations, these closures will be considered discontinued operations. The results of operations of discontinued operations are presented retroactively, net of tax, as a separate component on the Condensed Consolidated Statements of Operations. In each of the years presented, no store closings have met the discontinued operations criteria.

Assets related to planned store closures or other exit activities are reflected as assets held for sale and recorded at the lower of carrying value or fair value less costs to sell when the required criteria, as defined by the Property, Plant and Equipment Topic of the Codification, are satisfied. Depreciation ceases on the date that the held for sale criteria are met.

Assets related to planned store closures or other exit activities that do not meet the criteria to be classified as held for sale are evaluated for impairment in accordance with the Company's normal impairment policy, but with consideration given to revised estimates of future cash flows. In any event, the remaining depreciable useful lives are evaluated and adjusted as necessary.

Exit costs related to anticipated lease termination costs, severance benefits and other expected charges are accrued for and recognized in accordance with the Exit or Disposal Cost Obligations Topic of the Codification.

Advertising Costs

Advertising costs are predominantly expensed as incurred. Advertising costs were \$15.3 million and \$14.1 million for the third quarters of Fiscal 2015 and 2014, respectively, and \$44.9 million and \$38.0 million for the first nine months of Fiscal 2015 and 2014, respectively. Direct response advertising costs for catalogs are capitalized in accordance with the Other Assets and Deferred Costs Topic for Capitalized Advertising Costs of the Codification. Such costs are amortized over the estimated future period as revenues are realized from such advertising, not to exceed six months. The Condensed Consolidated Balance Sheets include prepaid assets for direct response advertising costs of \$4.2 million, \$2.3 million and \$3.6 million at November 1, 2014, February 1, 2014 and November 2, 2013, respectively.

Consideration to Resellers

The Company does not have any written buy-down programs with retailers, but the Company has provided certain retailers with markdown allowances for obsolete and slow moving products that are in the retailer's inventory. The Company estimates these allowances and provides for them as reductions to revenues at the time revenues are recorded. Markdowns are negotiated with retailers and changes are made to the estimates as agreements are reached. Actual amounts for markdowns have not differed materially from estimates.

Cooperative Advertising

Cooperative advertising funds are made available to most of the Company's wholesale footwear customers. In order for retailers to receive reimbursement under such programs, the retailer must meet specified advertising guidelines and provide appropriate documentation of expenses to be reimbursed. The Company's cooperative advertising agreements require that wholesale customers present documentation or other evidence of specific advertisements or display materials used for the Company's products by submitting the actual print advertisements presented in catalogs, newspaper inserts or other advertising circulars, or by permitting physical inspection of displays. Additionally, the Company's cooperative advertising agreements require that the amount of reimbursement requested for such advertising or materials be supported by invoices or other evidence of the actual costs incurred by the retailer. The Company accounts for these cooperative advertising costs as selling and administrative expenses, in accordance with the Revenue Recognition Topic for Customer Payments and Incentives of the Codification.

Cooperative advertising costs recognized in selling and administrative expenses on the Condensed Consolidated Statements of Operations were \$1.0 million and \$0.9 million for the third quarters of Fiscal 2015 and 2014, respectively, and \$2.7 million for each of the first nine months of Fiscal 2015 and 2014. During the first nine months of Fiscal 2015 and 2014, the Company's cooperative advertising reimbursements paid did not exceed the fair value of the benefits received under those agreements.

Vendor Allowances

From time to time, the Company negotiates allowances from its vendors for markdowns taken or expected to be taken. These markdowns are typically negotiated on specific merchandise and for specific amounts. These specific allowances are recognized as a reduction in cost of sales in the period in which the markdowns are taken. Markdown allowances not attached to specific inventory on hand or already sold are applied to concurrent or future purchases from each respective vendor.

The Company receives support from some of its vendors in the form of reimbursements for cooperative advertising and catalog costs for the launch and promotion of certain products. The reimbursements are agreed upon with vendors and represent specific, incremental, identifiable costs incurred by the Company in selling the vendor's specific products. Such costs and the related reimbursements are accumulated and monitored on an individual vendor basis, pursuant to the respective cooperative advertising agreements with vendors. Such cooperative advertising reimbursements are recorded as a reduction of selling and administrative expenses in the same period in which the associated expense is incurred. If the amount of cash consideration received exceeds the costs being reimbursed, such excess amount would be recorded as a reduction of cost of sales.

Vendor reimbursements of cooperative advertising costs recognized as a reduction of selling and administrative expenses were \$1.5 million and \$0.6 million for the third quarters of Fiscal 2015 and 2014, respectively, and \$2.8 million and \$1.8 million for the first nine months of Fiscal 2015 and 2014, respectively. During the first nine months of Fiscal 2015 and 2014, the Company's cooperative advertising reimbursements received were not in excess of the costs incurred.

Environmental Costs

Environmental expenditures relating to current operations are expensed or capitalized as appropriate. Expenditures relating to an existing condition caused by past operations, and which do not contribute to current or future revenue generation, are expensed. Liabilities are recorded when environmental assessments and/or remedial efforts are probable and the costs can be reasonably estimated and are evaluated independently of any future claims for recovery. Generally, the timing of these accruals coincides with completion of a feasibility study or the Company's commitment to a formal plan of action. Costs of future expenditures for environmental remediation obligations are not discounted to their present value.

Earnings Per Common Share

Basic earnings per share excludes dilution and is computed by dividing income available to common shareholders by the weighted average number of common shares outstanding for the period. Diluted earnings per share reflects the potential dilution that could occur if securities to issue common stock were exercised or converted to common stock (see Note 8).

Share-Based Compensation

The Company has share-based compensation covering certain members of management and non-employee directors. The Company recognizes compensation expense for share-based payments based on the fair value of the awards as required by the Compensation - Stock Compensation Topic of the Codification. The Company has not granted any stock options since the first quarter of Fiscal 2008. The fair value of employee restricted stock is determined based on the closing price of the Company's stock on the date of grant. The benefits of tax deductions in excess of recognized compensation expense are reported as a financing cash flow.

Other Comprehensive Income

The Comprehensive Income Topic of the Codification requires, among other things, the Company's pension liability adjustment, postretirement liability adjustment and foreign currency translation adjustments to be included in other comprehensive income net of tax. Accumulated other comprehensive loss at November 1, 2014 consisted of \$14.8 million of cumulative pension liability adjustments, net of tax, a cumulative post-retirement liability adjustment of \$0.8 million, net of tax, and a cumulative foreign currency translation adjustment of \$3.2 million.

The following table summarizes the components of accumulated other comprehensive income for the nine months ended November 1, 2014:

Note 1  
Summary of Significant Accounting Policies, Continued

Business Segments

The Segment Reporting Topic of the Codification requires that companies disclose "operating segments" based on the way management disaggregates the Company's operations for making internal operating decisions (see Note 10).

New Accounting Principles

In April 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-08, "Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity". This update amends the definition of a discontinued operation and also provides new disclosure requirements for disposals meeting the definition, and for those that do not meet the definition, of a discontinued operation. Under the new guidance, a discontinued operation may include a component of an entity or a group of components of an entity, or a business or nonprofit activity that has been disposed of or is classified as held for sale, and represents a strategic shift that has or will have a major effect on an entity's operation and financial results. This update is effective for annual and interim periods beginning on or after December 15, 2014, with early adoption permitted. The Company adopted ASU No. 2014-08 in the first quarter of Fiscal 2015 and the adoption did not have any impact on the Company's results of operations or financial position.

In May 2014, the FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers (Topic 606)". This update provides a five-step analysis of transactions to determine when and how revenue is recognized. An entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This update is effective for annual reporting periods, and interim periods within those years, beginning after December 15, 2016. This update may be applied retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of initially applying this update recognized at the date of initial application. The Company is currently evaluating the new guidance.

Note 3  
Asset Impairments and Other Charges and Discontinued Operations

Asset Impairments and Other Charges

In accordance with Company policy, assets (other than goodwill and intangibles) are determined to be impaired when the revised estimated future cash flows are insufficient to recover the carrying costs. Impairment charges represent the excess of the carrying value over the fair value of those assets.

Asset impairment charges are reflected as a reduction of the net carrying value of property and equipment in the accompanying Condensed Consolidated Balance Sheets, and in asset impairments and other, net in the accompanying Condensed Consolidated Statements of Operations.

The Company recorded pretax charges of \$1.0 million in the third quarter of Fiscal 2015, including a \$0.6 million charge for network intrusion expenses and a \$0.4 million charge for retail store asset impairments. The Company recorded pretax charges of \$1.3 million in the first nine months of Fiscal 2015, including charges of \$2.4 million for network intrusion expenses, \$1.6 million for retail store asset impairments and \$0.7 million for other legal matters, partially offset by a \$(3.4) million gain on a lease termination of a Lids store.

The Company recorded pretax charges of \$1.5 million in the third quarter of Fiscal 2014, including a \$0.9 million charge for network intrusion expenses, a \$0.4 million charge for retail store asset impairments and a \$0.3 million charge for other legal matters. The Company recorded a pretax gain of \$(4.3) million in the first nine months of Fiscal 2014, including an \$(8.3) million gain on a lease termination, partially offset by charges of \$1.8 million for retail store asset impairments, \$1.4 million for network intrusion expenses and \$0.8 million for other legal matters.

Note 5  
Fair Value

The Fair Value Measurements and Disclosures Topic of the Codification defines fair value, establishes a framework for measuring fair value in accordance with U.S. generally accepted accounting principles and expands disclosures about fair value measurements. This Topic defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (i.e., an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. It also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement.

Note 5  
Fair Value, Continued

The following table presents the Company's assets (which excludes the Company's pension plan assets) and liabilities measured at fair value on a nonrecurring basis as of November 1, 2014 aggregated by the level in the fair value hierarchy within which those measurements fall (in thousands):

	Long-Lived Assets Held and Used	Level 1	Level 2	Level 3	Total Losses
Measured as of May 3, 2014	\$890	\$—	\$—	\$890	\$824
Measured as of August 2, 2014	258	—	—	258	418
Measured as of November 1, 2014	22	—	—	22	\$397
Sub-total asset impairment YTD					\$1,639

In accordance with the Property, Plant and Equipment Topic of the Codification, the Company recorded \$0.4 million and \$1.6 million of impairment charges as a result of the fair value measurement of its long-lived assets held and used on a nonrecurring basis during the three months and nine months ended November 1, 2014, respectively. These charges are reflected in asset impairments and other, net on the Condensed Consolidated Statements of Operations.

The Company used a discounted cash flow model to estimate the fair value of these long-lived assets. Discount rate and growth rate assumptions are derived from current economic conditions, expectations of management and projected trends of current operating results. As a result, the Company has determined that the majority of the inputs used to value its long-lived assets held and used are unobservable inputs that fall within Level 3 of the fair value hierarchy.

The Company had \$62.2 million in revolver borrowings outstanding under the Credit Facility at November 1, 2014 and had \$52.8 million in term loans outstanding under the U.K. Credit Facilities (described below) at November 1, 2014. The Company had outstanding letters of credit of \$15.5 million under the Credit Facility at November 1, 2014. These letters of credit support product purchases and lease and insurance indemnifications.

U.K. Credit Facility

In connection with the Schuh acquisition, Schuh entered into an amended and restated Senior Term Facilities Agreement and Working Capital Facility Letter (collectively, the "UK Credit Facilities") which originally provided for term loans of up to £29.5 million (a £15.5 million A term loan and £14.0 million B term loan), with an additional £12.5 million C term loan added in November 2013.

In June 2014, Schuh Group Limited entered into an Amended and Restated Facilities Agreement to provide for an additional term loan of £12.5 million ("D term loan"). The D term loan bears interest at LIBOR plus 0.95% per annum and expires June 18, 2015.

Legal Proceedings

Environmental Matters

New York State Environmental Matters

In August 1997, the New York State Department of Environmental Conservation (“NYSDEC”) and the Company entered into a consent order whereby the Company assumed responsibility for conducting a remedial investigation and feasibility study (“RIFS”) and implementing an interim remedial measure (“IRM”) with regard to the site of a knitting mill operated by a former subsidiary of the Company from 1965 to 1969. The Company undertook the IRM and RIFS voluntarily, without admitting liability or accepting responsibility for any future remediation of the site. The Company has completed the IRM and the RIFS. In the course of preparing the RIFS, the Company identified remedial alternatives with estimated undiscounted costs ranging from \$0.0 million to \$24.0 million, excluding amounts previously expended or provided for by the Company. The United States Environmental Protection Agency (“EPA”), which has assumed primary regulatory responsibility for the site from NYSDEC, issued a Record of Decision in September 2007. The Record of Decision requires a remedy of a combination of groundwater extraction and treatment and in-site chemical oxidation at an estimated present cost of approximately \$10.7 million.

In July 2009, the Company agreed to a Consent Order with the EPA requiring the Company to perform certain remediation actions, operations, maintenance and monitoring at the site. In September 2009, a Consent Judgment embodying the Consent Order was filed in the U.S. District Court for the Eastern District of New York.

The Village of Garden City, New York (the "Village"), has additionally asserted that the Company is liable for the costs associated with enhanced treatment required by the impact of the groundwater plume from the site on two public water supply wells, including historical costs ranging from approximately \$1.8 million to in excess of \$2.5 million, and future operation and maintenance costs which the Village estimates at \$126,400 annually while the enhanced treatment continues. On December 14, 2007, the Village filed a complaint against the Company and the owner of the property under the Resource Conservation and Recovery Act (“RCRA”), the Safe Drinking Water Act, and the Comprehensive Environmental Response, Compensation and Liability Act (“CERCLA”) as well as a number of state law theories in the U.S. District Court for the Eastern District of New York, seeking an injunction requiring the defendants to remediate contamination from the site and to establish their liability for future costs that may be incurred in connection with it, which the complaint alleges could exceed \$41 million, undiscounted, over a 70-year period.

The Company has not verified the estimates of either historic or future costs asserted by the Village, but believes that an estimate of future costs based on a 70-year remediation period is unreasonable given the expected remedial period reflected in the EPA's Record of Decision. On May 23, 2008, the Company filed a motion to dismiss the Village's complaint on grounds including applicable statutes of limitation and preemption of certain claims by the NYSDEC's and the EPA's diligent prosecution of remediation. On January 27, 2009, the Court granted the motion to dismiss all counts of the plaintiff's complaint except for the CERCLA claim and a state law claim for indemnity for costs incurred after November 27, 2000. On September 23, 2009, on a motion for reconsideration by the Village, the Court reinstated the claims for injunctive relief under RCRA and for equitable relief under certain of the state law theories. The Company intends to continue to defend the action if an acceptable settlement agreement cannot be reached.

Note 9  
Legal Proceedings, Continued

Whitehall Environmental Matters

The Company has performed sampling and analysis of soil, sediments, surface water, groundwater and waste management areas at the Company's former Volunteer Leather Company facility in Whitehall, Michigan.

In October 2010, the Company and the Michigan Department of Natural Resources and Environment entered into a Consent Decree providing for implementation of a remedial Work Plan for the facility site designed to bring the site into compliance with applicable regulatory standards. The Work Plan's implementation is substantially complete and the Company expects, based on its present understanding of the condition of the site, that its future obligations with respect to the site will be limited to periodic monitoring and that future costs related to the site should not have a material effect on its financial condition or results of operations.

Accrual for Environmental Contingencies

Related to all outstanding environmental contingencies, the Company had accrued \$11.9 million as of November 1, 2014, February 1, 2014 and November 2, 2013. All such provisions reflect the Company's estimates of the most likely cost (undiscounted, including both current and noncurrent portions) of resolving the contingencies, based on facts and circumstances as of the time they were made. There is no assurance that relevant facts and circumstances will not change, necessitating future changes to the provisions. Such contingent liabilities are included in the liability arising from provision for discontinued operations on the accompanying Condensed Consolidated Balance Sheets because they relate to former facilities operated by the Company. The Company has made pretax accruals for certain of these contingencies, including approximately \$0.1 million and \$0.0 million reflected in the third quarters of Fiscal 2015 and 2014, respectively, and approximately \$0.5 million and \$0.4 million in the first nine months of Fiscal 2015 and 2014, respectively. These charges are included in provision for discontinued operations, net in the Condensed Consolidated Statements of Operations and represent changes in estimates.

Other Matters

On December 10, 2010, the Company announced that it had suffered a criminal intrusion into the portion of its computer network that processes payments for transactions in certain of its retail stores. Visa, Inc., MasterCard Worldwide and American Express Travel Related Services Company, Inc. asserted claims totaling approximately \$15.6 million in connection with the intrusion and the claims of two of the claimants have been collected by withholding payment card receivables of the Company. In the fourth quarter of Fiscal 2013, the Company recorded a \$15.4 million charge to earnings in connection with the disputed liability. On March 7, 2013, the Company filed an action in the U.S. District Court for the Middle District of Tennessee against Visa U.S.A. Inc., Visa Inc. and Visa International Service Association seeking to recover \$13.3 million in non-compliance fines and issuer reimbursement assessments collected from the Company in connection with the intrusion. The Company does not currently expect any future claims in connection with the intrusion to have a material effect on its financial condition, cash flows, or results of operations.

On May 14, 2012, a putative class and collective action, Maro v. Hat World, Inc., was filed in the U.S. District Court for the Northern District of Illinois. The action alleged that the Company failed to pay the plaintiff and other, similarly situated retail store employees of Hat World, Inc., for time spent making bank deposits of store collections, and sought to recover unpaid wages, liquidated damages, statutory penalties,

attorneys fees, and costs pursuant to the federal Fair Labor Standards Act, the Illinois Minimum Wage Law and the Illinois Wage Payment and Collection Act. On January 15, 2014, the court dismissed the Maro case with prejudice, based on the plaintiffs' failure to prosecute. On July 16, 2012 and July 30, 2012, additional putative class and collective actions, Chavez v. Hat World, Inc. and Dismukes v. Hat World, Inc., were filed in the same court, alleging that certain Hat World employees were misclassified as exempt from overtime pay, and seeking similar relief. The Chavez and Dismukes actions were consolidated. The parties reached agreement on a settlement, which the court granted final approval on September 5, 2014.

On August 30, 2012, a former employee of a Company subsidiary filed a putative class and collective action, Kershner v. Hat World, Inc., in the Philadelphia, Pennsylvania Court of Common Pleas alleging violations of the Pennsylvania Minimum Wage Act by the subsidiary. The Company reached an agreement to resolve the matter. On May 29, 2014, the court granted final approval of the settlement.

On May 17, 2013, a former employee filed a putative class and representative action, Garcia v. Genesco, Inc., in the Superior Court of California for the County of Ventura, alleging various claims under the California Labor Code, including failure to provide meal and rest periods, failure to timely pay wages, failure to provide accurate itemized wage statements, and unfair competition and violation of the Private Attorneys' General Act of 2004, and seeking unspecified damages and penalties. On August 30, 2013, the Company removed the action to the United States District Court for the Central District of California. The Company has reached an agreement to settle the matter. The court preliminarily approved the proposed settlement on December 9, 2014. The Company does not expect the matter or its settlement as proposed to have a material effect on its financial condition or results of operations.

In addition to the matters specifically described in this Note, the Company is a party to other legal and regulatory proceedings and claims arising in the ordinary course of its business. While management does not believe that the Company's liability with respect to any of these other matters is likely to have a material effect on its financial position, cash flows, or results of operations, legal proceedings are subject to inherent uncertainties and unfavorable rulings could have a material adverse impact on the Company's business and results of operations.

Note 10  
Business Segment Information

During the nine months ended November 1, 2014 and November 2, 2013, the Company operated five reportable business segments (not including corporate): (i) Journeys Group, comprised of the Journeys, Journeys Kidz, Shi by Journeys and Underground by Journeys retail footwear chains, catalog and e-commerce operations; (ii) Schuh Group, comprised of the Schuh retail footwear chain and e-commerce operations; (iii) Lids Sports Group, comprised primarily of the Lids, Hat World and Hat Shack retail headwear stores, the Lids Locker Room and Lids Clubhouse fan shops (operated under various trade names), licensed team merchandise departments in Macy's department stores operated under the name of Locker Room by Lids under a license agreement with Macy's, the Lids Team Sports business and certain e-commerce operations; (iv) Johnston & Murphy Group, comprised of Johnston & Murphy retail operations, catalog and e-commerce operations and wholesale distribution of products under the Johnston & Murphy and Trask brands; and (v) Licensed Brands, comprised of Dockers Footwear, sourced and marketed under a license from Levi Strauss & Company; SureGrip Footwear, occupational footwear primarily sold directly to consumers; and other brands.

The accounting policies of the segments are the same as those described in the summary of significant accounting policies (see Note 1).

The Company's reportable segments are based on management's organization of the segments in order to make operating decisions and assess performance along types of products sold. Journeys Group, Schuh Group and Lids Sports Group sell primarily branded products from other companies while Johnston & Murphy Group and Licensed Brands sell primarily the Company's owned and licensed brands.

Corporate assets include cash, domestic prepaid rent expense, prepaid income taxes, deferred income taxes, deferred note expense and corporate fixed assets. The Company charges allocated retail costs of distribution to each segment. The Company does not allocate certain costs to each segment in order to make decisions and assess performance. These costs include corporate overhead, interest expense, interest income, asset impairment charges and other, including major litigation and major lease terminations.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward Looking Statements

This discussion and the Notes to the Condensed Consolidated Financial Statements include certain forward-looking statements, including those regarding the performance outlook for the Company and its individual businesses and all other statements not addressing solely historical facts or present conditions. Words such as "may," "will," "should," "likely," "anticipate," "expect," "intend," "plan," "project," "believe," "estimate" and similar expressions can be used to identify these forward-looking statements. Actual results could differ materially from those reflected by the forward-looking statements in this discussion, in the Notes to the Condensed Consolidated Financial Statements, and in other disclosures, including those regarding the Company's performance outlook for Fiscal 2015 and beyond.

A number of factors may adversely affect the outlook reflected in forward looking statements and the Company's future results, liquidity, capital resources and prospects. These factors (some of which are beyond the Company's control) include:

Adjustments to estimates reflected in forward-looking statements, including the amount of required accruals related to the earn-out bonus potentially payable to Schuh management based on the achievement of certain performance objectives.

The timing and amount of non-cash asset impairments related to retail store fixed assets or to intangible assets of acquired businesses.

The effectiveness of the Company's omnichannel initiatives.

Weakness in the consumer economy.

Competition in the Company's markets.

Inability of customers to obtain credit.

Fashion trends that affect the sales or product margins of the Company's retail product offerings.

Changes in consumer shopping patterns that affect traffic in malls where the Company's stores are concentrated.

Dependence of certain of the Company's businesses on branded products from independent vendors.

Changes in buying patterns by significant wholesale customers.

- Bankruptcies or deterioration in the financial condition of significant wholesale customers, limiting their ability to buy or pay for merchandise offered by the Company.

Disruptions in product supply or distribution.

- Unfavorable trends in fuel costs, foreign exchange rates, foreign labor and material costs and other factors affecting the cost of products and results of operations.

The possibility of increases in the minimum wage and other factors tending to increase operating costs.

The Company's ability to continue to complete and integrate acquisitions, expand its business and diversify its product base.

Changes in the timing of holidays or in the onset of seasonal weather affecting period-to-period sales comparisons.

The performance of athletic teams, the participants in major sporting events such as the Super Bowl and World Series, developments with respect to certain individual athletes, and other sports-related events or changes that may affect period-to-period comparisons in the Company's Lids Sports Group retail businesses.

The Company's ability to build, open, staff and support additional retail stores and to renew leases in existing stores and control occupancy costs, and to conduct required remodeling or refurbishment on schedule and at expected expense levels.

Table of Contents

• Deterioration in the performance of individual businesses or of the Company's market value relative to its book value, resulting in impairments of fixed assets or intangible assets or other adverse financial consequences.

• Unexpected changes to the market for the Company's shares.

• Variations from expected pension-related charges caused by conditions in the financial markets.

• Disruptions in the Company's information technology systems either by security breaches and incidents or by potential problems associated with the implementation of new or upgraded systems.

• The cost and outcome of litigation, investigations and environmental matters involving the Company, including but not limited to the matters discussed in Note 9 to the Condensed Consolidated Financial Statements.

Other factors set forth under the heading "Risk Factors" in the Company's Annual Report on Form 10-K for the fiscal year ended February 1, 2014 and other documents the Company files with the Securities and Exchange Commission (the "SEC").

Overview

Description of Business

The Company's business includes the design and sourcing, marketing and distribution of footwear and accessories through retail stores, including Journeys®, Journeys Kidz®, Shi by Journeys®, Underground by Journeys® and Johnston & Murphy® in the U.S., Puerto Rico and Canada, and including Schuh® and Schuh Kids stores in the United Kingdom and the Republic of Ireland; through e-commerce websites and catalogs; and at wholesale, primarily under the Company's Johnston & Murphy brand, the recently relaunched Trask brand, the licensed Dockers® brand and other brands that the Company licenses for men's footwear. The Company's wholesale footwear brands are distributed to more than 1,300 retail accounts in the United States, including a number of leading department, discount, and specialty stores. The Company also sources and markets slip-resistant, occupational footwear primarily under its SureGrip® brand and other brands licensed from third parties. The Company's business also includes Lids Sports, which operates (i) headwear and accessory stores under the Lids® name and other names in the U.S., Puerto Rico and Canada, (ii) the Lids Locker Room and Lids Clubhouse businesses, consisting of sports-oriented fan shops featuring a broad array of licensed merchandise such as apparel, hats and accessories, sports decor and novelty products, operating under various trade names, (iii) licensed team merchandise departments in Macy's department stores operated under the name of Locker Room by Lids and on macys.com under a license agreement with Macy's, (iv) e-commerce operations and (v) an athletic team dealer business operating as Lids Team Sports. Including both the footwear businesses and the Lids Sports business, at November 1, 2014, the Company operated 2,837 retail stores and leased departments in the U.S., Puerto Rico, Canada, the United Kingdom and the Republic of Ireland.

During the nine months ended November 1, 2014 and November 2, 2013, the Company operated five reportable business segments (not including corporate): (i) Journeys Group, comprised of the Journeys, Journeys Kidz, Shi by Journeys and Underground by Journeys retail footwear chains, catalog and e-commerce operations; (ii) Schuh Group, comprised of the Schuh retail footwear chain and e-commerce operations; (iii) Lids Sports Group, comprised as described in the preceding paragraph; (iv) Johnston & Murphy Group, comprised of Johnston & Murphy retail operations, catalog and e-commerce operations and wholesale distribution of products under the Johnston & Murphy and Trask brands; and (v) Licensed Brands, comprised of Dockers Footwear, sourced and marketed under a license from Levi Strauss & Company; SureGrip Footwear, occupational footwear primarily sold directly to consumers; and other brands.

Table of Contents

The Journeys retail footwear stores sell footwear and accessories primarily for 13 to 22 year old men and women. The stores average approximately 2,000 square feet. Journeys Group operates 34 stores in Canada. The Journeys Kidz retail footwear stores sell footwear primarily for younger children, ages five to 12. These stores average approximately 1,450 square feet. Shi by Journeys retail footwear stores sell footwear and accessories to fashion-conscious women in their early 20's to mid 30's. These stores average approximately 2,125 square feet. The Underground by Journeys retail footwear stores sell footwear and accessories primarily for men and women in the 20 to 35 age group. These stores average approximately 1,825 square feet. The Journeys Group stores are primarily in malls and factory outlet centers throughout the United States, Puerto Rico and Canada. Journeys also sells footwear and accessories through direct-to-consumer catalog and e-commerce operations.

The Schuh retail footwear stores sell a broad range of branded casual and athletic footwear along with a meaningful private label offering primarily for 15 to 30 year old men and women. The stores, which average approximately 5,000 square feet, include both street-level and mall locations in the United Kingdom and the Republic of Ireland. During the third quarter of Fiscal 2013, the Schuh Group opened its first Schuh Kids store. As of November 1, 2014, the Company has opened six Schuh Kids stores that sell footwear primarily for younger children, ages five to 12, and average 2,675 square feet. The Schuh Group also sells footwear through e-commerce operations.

The Lids Sports Group includes stores and kiosks, primarily under the Lids banner, that sell licensed and branded headwear to men and women primarily in the early-teens to mid-20's age group. The Lids store locations average approximately 875 square feet and are primarily in malls, airports, street-level stores and factory outlet centers throughout the United States, Puerto Rico and Canada. The Lids Sports Group also operates Lids Locker Room and Lids Clubhouse stores under a number of trade names, selling licensed sports headwear, apparel and accessories to sports fans of all ages in locations averaging approximately 2,725 square feet in malls and other locations primarily in the United States and Canada. The Lids Sports Group operates 154 stores in Canada. The Lids Sports Group also operates Locker Room by Lids leased departments in Macy's department stores selling headwear, apparel, accessories and novelties from an assortment of college and professional teams specific to particular Macy's department stores' geographic locations. As of November 1, 2014, the Company had opened 190 Locker Room by Lids leased departments averaging approximately 650 square feet. The Lids Sports Group also sells headwear and accessories through e-commerce operations. In addition, the Lids Sports Group operates Lids Team Sports, an athletic team dealer business.

Johnston & Murphy retail shops sell a broad range of men's footwear, apparel and accessories. Women's footwear and accessories are sold in select Johnston & Murphy retail locations. Johnston & Murphy shops average approximately 1,550 square feet and are located primarily in better malls and in airports throughout the United States. As of November 1, 2014, Johnston & Murphy also operated seven stores in Canada. The Company also sells Johnston & Murphy footwear and accessories in factory stores, averaging approximately 2,375 square feet, located in factory outlet malls, and through a direct-to-consumer catalog and e-commerce operation. In addition, Johnston & Murphy shoes are distributed through the Company's wholesale operations to better department and independent specialty stores. The Company also has license and distribution agreements for wholesale and retail sales of Johnston & Murphy products in various non - U.S. jurisdictions. Additionally, the Company recently relaunched the Trask brand, with men's and women's footwear and leather accessories distributed to better independent retailers and department stores.

## Table of Contents

The Licensed Brands segment markets casual and dress casual footwear under the licensed Dockers® brand to men aged 30 to 55 through many of the same national retail chains that carry Dockers slacks and sportswear and in department and specialty stores across the country. The Company entered into an exclusive license with Levi Strauss & Co. to market men's footwear in the United States under the Dockers brand name in 1991. Levi Strauss & Co. and the Company have subsequently added additional territories, including Canada and Mexico and certain other Latin American countries. The Dockers license agreement was renewed on July 23, 2012 for a term expiring on November 30, 2015, subject to extension for an additional three year term if certain conditions are met. The Company acquired Keuka Footwear in the third quarter of Fiscal 2011 and subsequently launched its SureGrip® Footwear line of slip-resistant, occupational footwear from that base. The Company sources and distributes the SureGrip line to employees in the hospitality, healthcare, and other industries.

## Strategy

The Company's long-term strategy has been to seek organic growth by: 1) increasing the Company's store base, 2) increasing retail square footage, 3) improving comparable sales, both in stores and digital commerce, 4) increasing operating margin and 5) enhancing the value of its brands.

To further supplement its organic growth potential, the Company has made acquisitions, including the acquisition of the Schuh Group in June 2011 and a number of smaller acquisitions of businesses in the Lids Sports Group's markets, and expects to consider acquisition opportunities, either to augment its existing businesses or to enter new businesses that it considers compatible with its existing businesses, core expertise and strategic profile. Acquisitions involve a number of risks, including, among others, inaccurate valuation of the acquired business, the assumption of undisclosed liabilities, the failure to integrate the acquired business appropriately, and distraction of management from existing businesses. The Company seeks to mitigate these risks by applying appropriate financial metrics in its valuation analysis and developing and executing plans for due diligence and integration that are appropriate to each acquisition. The Company also seeks appropriate opportunities to extend existing brands and retail concepts. For example, the Schuh Group opened its first Schuh Kids store during the third quarter of Fiscal 2013. The Company typically tests such extensions on a relatively small scale to determine their viability and to refine their strategies and operations before making significant, long-term commitments.

More generally, the Company attempts to develop strategies to mitigate the risks it views as material, including those discussed under the caption "Forward Looking Statements," above, and those discussed in Part II, Item 1A, Risk Factors. Among the most important of these factors are those related to consumer demand. Conditions in the external economy can affect demand, resulting in changes in sales and, as prices are adjusted to drive sales and manage inventories, in gross margins. Because fashion trends influencing many of the Company's target customers can change rapidly, the Company believes that its ability to react quickly to those changes has been important to its success. Even when the Company succeeds in aligning its merchandise offerings with consumer preferences, those preferences may affect results by, for example, driving sales of products with lower average selling prices or products which are more widely available in the marketplace and thus more subject to competitive pressures than the Company's typical offerings. Moreover, economic factors, such as persistent unemployment and any future economic contraction and changes in tax policies, may reduce the consumer's disposable income or his or her willingness to purchase discretionary items, and thus may reduce demand for the Company's merchandise, regardless of the Company's skill in detecting and responding to fashion trends. The Company believes its experience and discipline in merchandising and the buying power associated with its relative size and importance in the industry segments in which it competes are important to its ability to mitigate risks associated with changing customer preferences and other changes in consumer demand.

## Table of Contents

### Summary of Results of Operations

The Company's net sales increased 8.5% during the third quarter of Fiscal 2015 compared to the same quarter of Fiscal 2014. The increase reflected an 8% increase in Journeys Group sales, a 10% increase in Lids Sports Group sales, a 10% increase in Schuh Group sales and a 7% increase in Johnston & Murphy Group sales, offset slightly by a 2% decrease in Licensed Brands sales. Gross margin as a percentage of net sales decreased to 49.6% during the third quarter of Fiscal 2015, compared to 49.8% for the same period last year, reflecting decreased gross margin as a percentage of net sales in Schuh Group, Lids Sports Group and Johnston & Murphy Group, partially offset by increased gross margin as a percentage of net sales in Journeys Group and Licensed Brands. Selling and administrative expenses increased to 43.0% of net sales during the third quarter of Fiscal 2015 from 42.6% for the same quarter of Fiscal 2014, reflecting increases in expenses as a percentage of net sales in Journeys Group, Lids Sports Group, Licensed Brands and Corporate, partially offset by decreases as a percentage of net sales in Schuh Group and Johnston & Murphy Group. Earnings from operations decreased as a percentage of net sales during the third quarter of Fiscal 2015 compared to the same quarter of Fiscal 2014, reflecting decreased earnings from operations as a percentage of net sales in Lids Sports Group, Johnston & Murphy Group and Licensed Brands, partially offset by increased earnings from operations as a percentage of net sales in Schuh Group. Journeys Group earnings from operations as a percentage of net sales were flat for the quarter.

### Significant Developments

#### Indemnification Asset Write-off

During the third quarter and first nine months of Fiscal 2015, the Company recorded a pretax charge of \$7.1 million for the write-off of an indemnification asset related to formerly uncertain tax positions that were taken by Schuh at the time of the purchase by the Company, which were favorably resolved during the third quarter this year.

#### Change in EVA Incentive Plan

Under the Company's EVA Incentive Plan, bonus awards in excess of a specified cap in any one year are retained and paid over three subsequent years, subject to reduction or elimination by deteriorating financial performance and historically were subject to forfeiture if the participant voluntarily resigns from employment with the Company. As a result, the bonus awards were subject to service conditions that resulted in recognition of expense over the period of service by the respective employee. During the first quarter of Fiscal 2015, the Company amended the plan to remove the future service requirement for the payment of the retained bonuses. As a result, the bonus expense that would have been deferred under the previous plan terms is now recognized in the first year of service. The Company recorded a \$5.7 million charge to earnings in the first quarter of Fiscal 2015 in connection with the amendment related to bonus amounts previously deferred to future years.

#### Acquisitions

During the third quarter and first nine months of Fiscal 2015, the Company completed acquisitions of primarily small retail chains and one small wholesale business for a total purchase price of \$31.7 million and \$34.9 million, respectively. The stores and wholesale business acquired will be operated within the Lids Sports Group. During the third quarter and first nine months of Fiscal 2014, the Company completed acquisitions for a total purchase price of \$1.0 million and \$12.0 million, respectively, operated within the Lids Sports Group.

## Table of Contents

### Asset Impairment and Other Charges

The Company recorded pretax charges of \$1.0 million in the third quarter of Fiscal 2015, including a \$0.6 million charge for network intrusion expenses and a \$0.4 million charge for retail store asset impairments. The Company recorded pretax charges of \$1.3 million in the first nine months of Fiscal 2015, including charges of \$2.4 million for network intrusion expenses, \$1.6 million for retail store asset impairments and \$0.7 million for other legal matters, partially offset by a \$(3.4) million gain on a lease termination of a Lids store.

The Company recorded pretax charges of \$1.5 million in the third quarter of Fiscal 2014, including a \$0.9 million charge for network intrusion expenses, a \$0.4 million charge for retail store asset impairments and a \$0.3 million charge for other legal matters. The Company recorded a pretax gain of \$(4.3) million in the first nine months of Fiscal 2014, including an \$(8.3) million gain on a lease termination, partially offset by charges of \$1.8 million for retail store asset impairments, \$1.4 million for network intrusion expenses and \$0.8 million for other legal matters.

### Comparable Sales

During Fiscal 2013, the Company revised its presentation of comparable sales to include its e-commerce and direct mail catalog businesses. For purposes of this report, "comparable sales" are sales from stores open longer than one year, beginning in the fifty-third week of a store's operation (which we refer to in this report as "same store sales"), and sales from websites operated longer than one year and direct mail catalog sales (which we refer to in this report as "comparable direct sales"). Temporarily closed stores are excluded from the comparable sales calculation for every full week of the store closing. Expanded stores are excluded from the comparable sales calculation until the fifty-third week of operation in the expanded format.

### Results of Operations - Third Quarter Fiscal 2015 Compared to Fiscal 2014

The Company's net sales in the third quarter ended November 1, 2014 increased 8.5% to \$722.9 million from \$666.3 million in the third quarter ended November 2, 2013, reflecting increased net sales in all of the Company's business segments except Licensed Brands, and a 3% increase in comparable sales. Gross margin increased 7.9% to \$358.5 million in the third quarter this year from \$332.2 million in the same period last year, but decreased as a percentage of net sales from 49.8% to 49.6%, reflecting decreased gross margin as a percentage of net sales in Schuh Group, Lids Sports Group and Johnston & Murphy Group, offset slightly by increased gross margin as a percentage of net sales in Journeys Group and Licensed Brands. Selling and administrative expenses in the third quarter this year increased 9.6% from the third quarter last year and increased as a percentage of net sales from 42.6% to 43.0%, reflecting increased expenses as a percentage of net sales in Journeys Group, Lids Sports Group, Licensed Brands and Corporate expenses, partially offset by decreases as a percentage of net sales in Schuh Group and Johnston & Murphy Group. The Company records buying and merchandising and occupancy costs in selling and administrative expense. Because the Company does not include these costs in cost of sales, the Company's gross margin may not be comparable to other retailers that include these costs in the calculation of gross margin. Explanations of the changes in results of operations are provided by business segment in discussions following these introductory paragraphs.

Earnings from continuing operations before income taxes ("pretax earnings") for the third quarter ended November 1, 2014 were \$38.6 million compared to \$45.8 million for the third quarter ended November 2, 2013. Pretax earnings for the third quarter ended November 1, 2014 included an asset impairment and other charge of \$1.0 million, primarily related to network intrusion expenses and retail store asset

Table of Contents

impairments. Pretax earnings for this year included an indemnification asset write-off of \$7.1 million related to formerly uncertain tax positions that were taken by Schuh at the time of the purchase by the Company, which were favorably resolved during the quarter. Pretax earnings also includes \$1.0 million in expense related to the deferred purchase price obligation related to the Schuh acquisition. Because the deferred purchase price for Schuh is contingent on the payees' continuing employment with Schuh (subject to certain exceptions), U.S. Generally Accepted Accounting Principles require that it be expensed as compensation across the period of service until payment is due. Pretax earnings for the third quarter ended November 2, 2013 included an asset impairment and other charge of \$1.5 million, primarily related to network intrusion expenses, retail store asset impairments and other legal matters. Last year's pretax earnings also included \$3.0 million in expenses related to the deferred purchase price obligation in connection with the Schuh acquisition.

Net earnings for the third quarter ended November 1, 2014 were \$28.7 million (\$1.21 diluted earnings per share) compared to \$27.8 million (\$1.18 diluted earnings per share) for the third quarter ended November 2, 2013. The Company recorded an effective income tax rate of 25.6% in the third quarter this year compared to 39.3% in the same period last year. The tax rate for the third quarter of Fiscal 2015 was lower compared to last year's third quarter primarily due to a \$7.0 million reversal of charges previously recorded related to formerly uncertain tax positions that were taken by Schuh at the time of the purchase by the Company, which were favorably resolved during the third quarter of Fiscal 2015.

## Journeys Group

Net sales from Journeys Group increased 8.1% to \$303.8 million for the third quarter ended November 1, 2014 compared to \$281.1 million for the same period last year. The increase reflects primarily a 6% increase in comparable sales, which includes a 6% increase in same store sales and a 22% increase in comparable direct sales, and a 1% increase in average Journeys stores operated (i.e. the sum of the number of stores open on the first day of the fiscal quarter and the last day of each fiscal month during the quarter divided by four). The comparable sales increase reflected a 5% increase in footwear unit sales while the average price per pair of shoes was flat. Journeys Group operated 1,183 stores at the end of the third quarter of Fiscal 2015, including 184 Journeys Kidz stores, 49 Shi by Journeys stores, 113 Underground by Journeys stores and 34 Journeys stores in Canada, compared to 1,161 stores at the end of the third quarter last year, including 166 Journeys Kidz stores, 51 Shi by Journeys stores, 121 Underground by Journeys stores and 30 Journeys stores in Canada.

Journeys Group earnings from operations for the third quarter ended November 1, 2014 increased 8.6% to \$35.0 million compared to \$32.3 million for the third quarter ended November 2, 2013. The increase was primarily due to increased net sales and increased gross margin as a percentage of net sales, reflecting lower markdowns.

Earnings from operations	\$ 3,949	\$ 1,945	103.0	%
Operating margin	3.9	% 2.1	%	

Net sales from Schuh Group increased 10.2% to \$102.0 million for the third quarter ended November 1, 2014, compared to \$92.6 million for the third quarter ended November 2, 2013. The increase reflects primarily a 6% increase in average Schuh stores operated and an increase of \$2.9 million in sales due to the appreciation of the British Pound while comparable sales remained flat, reflecting a 2% decrease in same store sales and a 16% increase in comparable direct sales. Schuh Group operated 106 stores, including six Schuh Kids stores, at the end of the third quarter of Fiscal 2015, compared to 97 stores, including four Schuh Kids stores and one concession, at the end of the third quarter of Fiscal 2014.

Schuh Group earnings from operations increased to \$3.9 million for the third quarter ended November 1, 2014 compared to \$1.9 million for the third quarter ended November 2, 2013. Earnings included \$1.0 million in the third quarter of Fiscal 2015 and \$3.0 million in the third quarter of Fiscal 2014 in compensation expense related to a deferred purchase price obligation in connection with the acquisition. Earnings also included \$4.2 million in the third quarter of Fiscal 2015 and \$3.9 million in the third quarter of Fiscal 2014 related to accruals for a contingent bonus payment for Schuh employees provided for in the Schuh acquisition. The increase in earnings from operations was due primarily to increased net sales and decreased expenses as a percentage of net sales, reflecting the decrease in the deferred purchase price obligation expense.

Net sales from Lids Sports Group increased 10.5% to \$220.0 million for the third quarter ended November 1, 2014, compared to \$199.2 million for the same period last year, reflecting primarily a 7% increase in average Lids Sports Group stores operated, excluding leased departments, and a comparable sales increase of 1%, which includes a 1% increase in same store sales and a 3% increase in comparable direct sales. The sales increase also reflects an 18% increase in Lids Team Sports sales. The comparable sales increase reflects a 5% increase in average price per hat, while comparable store hat units sold were down 3% for the third quarter this year. Lids Sports Group operated 1,377 stores at the end of the third quarter of Fiscal 2015, including 117 Lids stores in Canada, 246 Lids Locker Room and Clubhouse stores, which includes 37 Locker Room stores in Canada, and 190 Locker Room by Lids leased departments in Macy's, compared

to 1,114 stores at the end of the third quarter last year, including 101 Lids stores in Canada, 170 Lids Locker Room and Clubhouse stores and 24 Locker Room by Lids leased departments in Macy's.

Lids Sports Group earnings from operations for the third quarter ended November 1, 2014 decreased 28.3% to \$8.6 million compared to \$12.0 million for the third quarter ended November 2, 2013. The decrease was due to decreased gross margin as a percentage of net sales, reflecting increased promotional activity, especially in the Locker Room and Clubhouse stores, and increased shipping and warehouse expense, and to increased expenses as a percentage of net sales, due primarily to increased occupancy expenses driven by square footage growth of more than 20% from last year primarily from growth in Locker Room stores and increased selling salaries. Earnings from operations for the third quarter this year were also down due to lower margins as a percentage of net sales in the Lids Team Sports business and increased expenses as a percentage of net sales due to salesman growth in Lids Team Sports.

## Johnston &amp; Murphy Group

Johnston & Murphy Group net sales increased 6.9% to \$66.0 million for the third quarter ended November 1, 2014 from \$61.7 million for the third quarter ended November 2, 2013, reflecting primarily a 5% increase in average stores operated for Johnston & Murphy retail operations and an 11% increase in Johnston & Murphy wholesale sales, while comparable sales were flat, which includes a 1% increase in same store sales and a 6% decrease in comparable direct sales. Unit sales for the Johnston & Murphy wholesale business increased 13% in the third quarter of Fiscal 2015 while the average price per pair of shoes decreased 2% for the same period. Retail operations accounted for 66.9% of Johnston & Murphy Group's sales in the third quarter this year, down from 68.3% in the third quarter last year. Comparable sales reflected a 2% increase in the average price per pair of shoes for Johnston & Murphy retail operations while footwear unit comparable sales decreased 3%. The store count for Johnston & Murphy retail operations at the end of the third quarter of Fiscal 2015 included 171 Johnston & Murphy shops and factory stores, including seven stores in Canada, compared to 165 Johnston & Murphy shops and factory stores, including seven stores in Canada, for the third quarter of Fiscal 2014.

Johnston & Murphy Group earnings from operations for the third quarter ended November 1, 2014 decreased 6.8% to \$4.5 million compared to \$4.8 million for the same period last year, primarily due to decreased gross margin as a percentage of net sales, reflecting increased markdowns and shipping and warehouse expenses.

	(dollars in thousands)			
Net sales	\$30,981	\$31,630	(2.1	)%
Earnings from operations	\$3,082	\$4,112	(25.0	)%
Operating margin	9.9	% 13.0	%	

Licensed Brands' net sales decreased 2.1% to \$31.0 million for the third quarter ended November 1, 2014, from \$31.6 million for the same period last year, reflecting decreased sales of Dockers Footwear and Chaps Footwear, partially offset by increased sales of SureGrip Footwear. The sales decrease in Dockers Footwear reflects limitations under the Company's wholesale credit policy on sales to a particular customer and this is expected to continue in the fourth quarter this year. Unit sales for Dockers Footwear decreased 4% for the third quarter this year while the average price per pair of Dockers shoes increased 2% compared to the same period last year.

Licensed Brands' earnings from operations decreased 25.0%, from \$4.1 million for the third quarter last year to \$3.1 million for the third quarter this year, primarily due to decreased net sales and increased expenses as a percentage of net sales, reflecting increased license agreement expense and increases in bonus, shipping and warehouse and advertising expenses.

## Corporate, Interest Expenses and Other Charges

Corporate and other expense for the third quarter ended November 1, 2014 increased to \$8.6 million compared to \$8.2 million for the third quarter ended November 2, 2013. Corporate expense in the third quarter this year included a \$1.0 million charge in asset impairment and other charges, primarily for network intrusion expenses and retail store asset impairments. Corporate and other expense in the third quarter of Fiscal 2014 included a \$1.5 million charge in asset impairment and other charges, primarily for network intrusion expenses, retail store asset impairments and other legal matters. The increase in corporate expenses excluding asset impairment and other charges is due to lower bonus reversals and noncash foreign exchange losses from holding Canadian dollar intercompany losses.

Net interest expense decreased 25.1% from \$1.2 million in the third quarter last year to \$0.9 million for the third quarter this year primarily due to lower average borrowings under the Company's Credit Facility (defined below).

## Results of Operations - Nine Months Fiscal 2015 Compared to Fiscal 2014

The Company's net sales in the first nine months ended November 1, 2014 increased 7.4% to \$1.97 billion from \$1.83 billion in the first nine months ended November 2, 2013, reflecting increased net sales in all of the Company's business segments and a 2% increase in comparable sales. Gross margin increased 6.9% to \$976.2 million in the first nine months this year from \$913.4 million in the same period last year but decreased as a percentage of net sales from 49.8% to 49.6%, reflecting decreased gross margin as a percentage of net sales in Schuh Group, Lids Sports Group and Johnston & Murphy Group, partially offset by increased gross margin as a percentage of net sales in Journeys Group and Licensed Brands. Selling and administrative expenses in the first nine months this year increased 7.8% from the first nine months last year and increased as a percentage of net sales from 45.3% to 45.5%, reflecting increased expenses in

Table of Contents

Journeys Group, Lids Sports Group, Johnston & Murphy Group and Licensed Brands, partially offset by decreased expenses in Schuh Group and Corporate expenses. Explanations of the changes in results of operations are provided by business segment in discussions following these introductory paragraphs.

Pretax earnings for the first nine months ended November 1, 2014 were \$70.9 million compared to \$84.9 million for the first nine months ended November 2, 2013. Pretax earnings for the first nine months ended November 1, 2014 included asset impairment and other charges of \$1.3 million primarily for network intrusion expenses, retail store asset impairments and other legal matters, partially offset by a gain on a lease termination. Pretax earnings for this year included an indemnification asset write-off of \$7.1 million related to formerly uncertain tax positions that were taken by Schuh at the time of the purchase by the Company, which were favorably resolved during the quarter. Pretax earnings also include \$6.3 million in expense related to the deferred purchase price obligation related to the Schuh acquisition. Pretax earnings for the first nine months ended November 2, 2013 included an asset impairment and other gain of (\$4.3) million, primarily for a gain on lease termination, partially offset by retail store asset impairments, network intrusion expenses and other legal matters. Last year's pretax earnings also included \$8.7 million in expenses related to the deferred purchase price obligation related to the Schuh acquisition.

Net earnings for the first nine months ended November 1, 2014 were \$47.3 million (\$2.00 diluted earnings per share) compared to \$50.5 million (\$2.14 diluted earnings per share) for the first nine months ended November 2, 2013. The Company recorded an effective income tax rate of 32.9% in the first nine months this year compared to 40.2% in the same period last year. This year's tax rate is lower primarily due to a \$7.0 million reversal of charges previously recorded related to formerly uncertain tax positions that were taken by Schuh at the time of the purchase by the Company, which were favorably resolved during the third quarter of Fiscal 2015.

Net sales from Journeys Group increased 5.5% to \$802.7 million for the first nine months ended November 1, 2014 compared to \$760.7 million for the same period last year. The increase reflects primarily a 4% increase in comparable sales which includes a 4% increase in same store sales and a 23% increase in comparable direct sales, and a 1% increase in average Journeys stores operated (i.e. the sum of the number of stores open on the first day of the fiscal year and the last day of each fiscal month during the nine months divided by ten). The comparable sales increase reflected a 5% increase in footwear unit sales while the average price per pair of shoes decreased 1%.

Journeys Group earnings from operations for the first nine months ended November 1, 2014 increased 9.5% to \$61.5 million compared to \$56.2 million for the first nine months ended November 2, 2013. The increase was primarily due to increased net sales and increased gross margin as a percentage of net sales, reflecting lower markdowns and changes in sales mix.

Loss from operations	\$(1,389 )	\$(4,131 )	66.4	%
Operating margin	(0.5 )%	(1.7 )%		

Net sales from the Schuh Group increased 16.5% to \$283.0 million for the first nine months ended November 1, 2014, compared to \$243.0 million for the first nine months ended November 2, 2013. The increase reflects primarily an 8% increase in average Schuh stores operated and an increase of \$18.6 million in sales due to the appreciation of the British Pound. Comparable sales were flat for the first nine months of Fiscal 2015, which includes a 1% decrease in same store sales and an 8% increase in comparable direct sales.

Schuh Group loss from operations was (\$1.4) million for the nine months ended November 1, 2014 compared to (\$4.1) million for the nine months ended November 2, 2013. The loss included \$6.3 million in the first nine months this year and \$8.7 million in the first nine months last year in compensation expense related to a deferred purchase price obligation in connection with the acquisition. The loss also included \$8.8 million in the first nine months of Fiscal 2015 and \$7.1 million in the first nine months of Fiscal 2014 related to accruals for a contingent bonus payment for Schuh employees provided for in the Schuh acquisition. The decrease in the loss from operations was due primarily to increased sales resulting in leverage in central expenses.

Net sales from Lids Sports Group increased 6.9% to \$608.6 million for the first nine months ended November 1, 2014, compared to \$569.5 million for the same period last year, reflecting primarily a 6% increase in average Lids Sports Group stores operated, excluding leased departments, while comparable sales were flat, reflecting a 1% decrease in same store sales and a 6% increase in comparable direct sales. The sales increase also reflects a 12% increase in Lids Team Sports sales. Comparable sales reflected a 3% decrease in comparable store hat units sold while the average price per hat for the first nine months this year increased 3%.

Lids Sports Group earnings from operations for the first nine months ended November 1, 2014 decreased 29.0% to \$25.2 million compared to \$35.5 million for the first nine months ended November 2, 2013. The decrease was due to decreased gross margin as a percentage of net sales, reflecting promotional activity and increased shipping and warehouse expenses, and increased expenses as a percentage of net sales,

reflecting increased occupancy and selling salaries expenses. In addition, margin was also down as a percentage of net sales in the Lids Team Sports business and expenses were up in Lids Team Sports due to salesman growth which both contributed to lower earnings in the Lids Sports Group.

Johnston & Murphy Group net sales increased 6.3% to \$184.4 million for the first nine months ended November 1, 2014 from \$173.4 million for the first nine months ended November 2, 2013, reflecting primarily a 6% increase in average stores operated for Johnston & Murphy retail operations and a 6% increase in Johnston & Murphy wholesale sales. Comparable sales for Johnston & Murphy retail operations were flat reflecting a 1% increase in same store sales and a 3% decrease in comparable direct sales. Unit sales for the Johnston & Murphy wholesale business increased 6% in the first nine months of Fiscal 2015 while the average price per pair of shoes was flat for the same period. Retail operations accounted for 69.3% of Johnston & Murphy Group's sales in the first nine months this year, down from 69.6% in the first nine months last year. Comparable sales reflects a 2% increase in average price per pair of shoes for Johnston & Murphy retail operations, while footwear unit comparable sales decreased 3%.

Johnston & Murphy Group earnings from operations for the first nine months ended November 1, 2014 decreased 17.8% to \$8.6 million compared to \$10.4 million for the same period last year, primarily due to decreased gross margin as a percentage of net sales, reflecting higher markdowns and promotional activity and increased shipping and warehouse expenses, and to increased expenses as a percentage of net sales, due primarily to increased advertising expenses and occupancy costs.

Licensed Brands' net sales increased 3.4% to \$87.7 million for the first nine months ended November 1, 2014, from \$84.9 million for the same period last year, reflecting an increase in sales of Dockers Footwear and SureGrip Footwear. Unit sales for Dockers Footwear decreased 2% for the first nine months this year while the average price per pair of Dockers shoes increased 4% compared to the same period last year.

Table of Contents

Licensed Brands' earnings from operations was flat at \$8.5 million for the first nine months this year and last year. The increase in expenses as a percentage of net sales offset the increase in net sales and the increased gross margin as a percentage of net sales.

**Corporate, Interest Expenses and Other Charges**

Corporate and other expense for the first nine months ended November 1, 2014 was \$22.1 million compared to \$18.3 million expense for the first nine months ended November 2, 2013. Corporate expense in the first nine months this year included a \$1.3 million asset impairment and other charge, which included \$4.7 million for network intrusion expenses, retail store asset impairments and other legal matters, partially offset by a (\$3.4) million gain on a lease termination. Corporate and other expense in the first nine months of Fiscal 2014 included an asset impairment and other gain of (\$4.3) which included an (\$8.3) million gain on a lease termination of a New York City Journeys store, partially offset by \$4.0 million for retail store asset impairments, network intrusion expenses and other legal matters. Excluding the adjustments listed above, corporate and other expense decreased primarily due to decreased bonus accruals and professional fees.

Net interest expense decreased 29.5% from \$3.4 million in the first nine months last year to \$2.4 million for the first nine months this year primarily due to lower average borrowings under the Company's Credit Facility.

**Liquidity and Capital Resources**

The following table sets forth certain financial data at the dates indicated.

	November 1, 2014	February 1, 2014	November 2, 2013
	(dollars in millions)		
Cash and cash equivalents	\$ 38.0	\$ 59.4	\$ 32.3
Working capital	\$ 446.3	\$ 451.3	\$ 459.6
Long-term debt (including current portion)	\$ 115.0	\$ 33.7	\$ 98.0

**Working Capital**

The Company's business is somewhat seasonal, with the Company's investment in inventory and accounts receivable normally reaching peaks in the spring and fall of each year. Historically, cash flows from operations have been generated principally in the fourth quarter of each fiscal year.

Cash provided by operating activities was \$8.9 million in the first nine months of Fiscal 2015 compared to \$25.0 million in the first nine months of Fiscal 2014. The \$16.1 million decrease in cash flow from operating activities from last year reflects a decrease in cash flow from changes in accounts payable of \$45.6 million partially offset by a \$23.5 million increase in cash flow from changes in inventory. The \$45.6 million decrease in cash flow from changes in accounts payable was due to changes in buying patterns and payment terms negotiated with individual vendors. The \$23.5 million increase in cash flow from inventory reflects lower seasonal increases in retail inventory compared to the prior year.

The \$163.3 million increase in inventories at November 1, 2014 from February 1, 2014 levels reflected increased purchases in most of the Company's business segments to support holiday sales.

Accounts receivable at November 1, 2014 increased by \$16.7 million compared to February 1, 2014, due primarily to increased sales in the wholesale businesses.

## Table of Contents

### Sources of Liquidity

The Company has three principal sources of liquidity: cash from operations, cash and cash equivalents on hand and the Credit Facility discussed below. The Company believes that cash and cash equivalents on hand, cash flow from operations and availability under its Credit Facility will be sufficient to cover its working capital and capital expenditures for the foreseeable future.

On January 31, 2014, the Company entered into a Third Amended and Restated Credit Agreement (the "Credit Facility") with the lenders party thereto and Bank of America, N.A., as agent, providing for a revolving credit facility in the aggregate principal amount of \$400.0 million, including a \$70.0 million sublimit for the issuance of letters of credit and a domestic swingline subfacility of up to \$40.0 million, a revolving credit subfacility for the benefit of GCO Canada, Inc. in an aggregate amount not to exceed \$25.0 million, which includes a \$5.0 million sublimit for the issuance of letters of credit, and revolving credit subfacility for the benefit of Genesco (UK) Limited in an aggregate amount not to exceed \$50.0 million, which includes a \$10.0 million sublimit for the issuance of letters of credit and a swingline subfacility of up to \$10.0 million. The facility has a five-year term. Any swingline loans and any letters of credit and borrowings under the Canadian and U.K. facilities will reduce the availability under the Credit Facility on a dollar-for-dollar basis.

The Company has the option, from time to time, to increase the availability under the Credit Facility by an aggregate amount of up to \$150.0 million subject to, among other things, the receipt of commitments for the increased amount. In connection with this increased facility, the Canadian revolving credit facility may be increased up to no more than \$40.0 million.

Genesco (UK) Limited has a one-time option to increase the availability of its subfacility under the Credit Facility by an additional amount of up to \$50.0 million.

The aggregate amount of the loans made and letters of credit issued under the Credit Facility shall at no time exceed the lesser of the facility amount (\$400.0 million or, if increased as described above, up to \$550.0 million or \$600.0 million, respectively) or the "Borrowing Base", which generally is based on 90% of eligible inventory plus 85% of eligible wholesale receivables (50% of eligible wholesale receivables of the Lids Team Sports business) plus 90% of eligible credit card and debit card receivables less applicable reserves (the "Loan Cap"). The relevant assets of Genesco (UK) Limited will be included in the Borrowing Base if the additional \$50.0 million sublimit increase is exercised, provided that amounts borrowed by Genesco (UK) Limited based solely on its own borrowing base will be limited to \$50.0 million and the total outstanding to Genesco (UK) Limited will not exceed 30% of the Loan Cap. The Credit Facility also provides that a first-in, last-out tranche could be added to the revolving credit facility at the option of the Company subject to, among other things, the receipt of commitments for such tranche.

In connection with the Schuh acquisition, Schuh entered into an amended and restated Senior Term Facilities Agreement and Working Capital Facility Letter (collectively, the "UK Credit Facilities"), which provide for term loans of up to £29.5 million (a £15.5 million A term loan and £14.0 million B term loan) and a working capital facility of £5.0 million. The Working Capital Facility Letter was allowed to lapse in June 2012. The A term loan bears interest at LIBOR plus 2.50% per annum. The B term loan bears interest at LIBOR plus 3.75% per annum. The Company is not required to make any payments on the B term loan until it expires October 31, 2015, unless the Company's Schuh Group segment has Excess Cash Flow (as defined in the UK Credit Facilities). The Company paid less than £0.1 million, £4.8 million and £4.5 million on the B term loan in Fiscal 2014, 2013 and 2012, respectively.

## Table of Contents

In November 2013, Schuh Group Limited entered into an Amended and Restated Facilities Agreement to provide for an additional term loan of up to £12.5 million ("C term loan"). The C term loan bears interest at LIBOR plus 2.50% per annum. In June 2014, Schuh Group Limited entered into an additional term loan of £12.5 million ("D term loan"). The D term loan bears interest at LIBOR plus 0.95% per annum.

Revolving credit borrowings averaged \$11.1 million during the nine months ended November 1, 2014 and \$36.2 million during the nine months ended November 2, 2013, as cash on hand, cash generated from operations and revolver borrowings primarily funded seasonal working capital requirements, capital expenditures and stock repurchases for the first nine months of each year.

There were \$15.5 million of letters of credit outstanding, \$52.8 million in UK term loans outstanding and \$62.2 million in revolver borrowings outstanding under the Credit Facility at November 1, 2014. The Company is not required to comply with any financial covenants under the Credit Facility unless Excess Availability (as defined in the Credit Agreement) is less than the greater of \$25.0 million or 10.0% of the Loan Cap (as defined in the Credit Agreement). If and during such time as Excess Availability is less than the greater of \$25.0 million or 10.0% of the Loan Cap, the Credit Facility requires the Company to meet a minimum fixed charge coverage ratio of (a) an amount equal to consolidated EBITDA less capital expenditures and taxes paid in cash, in each case for such period, to (b) fixed charges for such period, of not less than 1.0:1.0. Excess Availability was \$322.3 million at November 1, 2014. Because Excess Availability exceeded \$25.0 million or 10.0% of the Loan Cap, the Company was not required to comply with this financial covenant at November 1, 2014.

The Company's Credit Facility prohibits the payment of dividends and other restricted payments unless as of the date of the making of any Restricted Payment (as defined in the Credit Facility) or consummation of any Acquisition (as defined in the Credit Facility), (a) no Default (as defined in the Credit Facility) or Event of Default (as defined in the Credit Facility) exists or would arise after giving effect to such Restricted Payment or Acquisition, and (b) either (i) the Borrowers (as defined in the Credit Facility) have pro forma projected Excess Availability for the following six month period equal to or greater than 25% of the Loan Cap, after giving pro forma effect to such Restricted Payment or Acquisition, or (ii) (A) the Borrowers have pro forma projected Excess Availability for the following six month period of less than 25% of the Loan Cap but equal to or greater than 15% of the Loan Cap, after giving pro forma effect to the Restricted Payment or Acquisition, and (B) the Fixed Charge Coverage Ratio (as defined in the Credit Facility), on a pro-forma basis for the twelve months preceding such Restricted Payment or Acquisition, will be equal to or greater than 1.0:1.0 and (c) after giving effect to such Restricted Payment or Acquisition, the Borrowers are Solvent (as defined in the Credit Facility). The Company's management does not expect availability under the Credit Facility to fall below the requirements listed above during Fiscal 2015. The Company's UK Credit Facilities prohibit the payment of any dividends by Schuh or its subsidiaries to the Company.

The Company's contractual obligations at November 1, 2014 decreased approximately 3% from February 1, 2014 due primarily to a decrease in purchase obligations and a decrease in the Schuh deferred purchase price obligation due to the payment made in June of 2014, partially offset by an increase in long-term debt.

### Capital Expenditures

Total capital expenditures in Fiscal 2015 are expected to be approximately \$136 million. These include retail capital expenditures of approximately \$126 million to open approximately 16 Journeys stores, including four in Canada, 19 Journeys Kidz stores, 13 Schuh stores, including two Schuh Kids stores, eight Johnston & Murphy shops and factory stores and 218 Lids Sports Group stores and leased departments, including 32 Lids stores, with nine stores in Canada, 21 Lids Locker Room and Clubhouse stores and 165 Locker Room by Lids leased departments in Macy's department stores, and to complete approximately 127

major store renovations. The planned amount of capital expenditures in Fiscal 2015 for wholesale operations and other purposes is approximately \$10 million, including approximately \$1.5 million for corporate new systems.

### Future Capital Needs

The Company expects that cash on hand, cash provided by operations and borrowings under its Credit Facility will be sufficient to support seasonal working capital and capital expenditure requirements during Fiscal 2015. The approximately \$7.8 million of costs associated with discontinued operations that are expected to be paid during the next twelve months are expected to be funded from cash on hand, cash generated from operations and borrowings under the Credit Facility during the next twelve months.

The Company had total available cash and cash equivalents of \$38.0 million, \$59.4 million and \$32.3 million as of November 1, 2014, February 1, 2014 and November 2, 2013, respectively, of which approximately \$13.7 million, \$39.4 million and \$10.9 million was held by the Company's foreign subsidiaries as of November 1, 2014, February 1, 2014 and November 2, 2013, respectively. The Company's strategic plan does not require the repatriation of foreign cash in order to fund its operations in the U.S., and it is the Company's current intention to permanently reinvest its foreign cash and cash equivalents outside of the U.S. If the Company were to repatriate foreign cash to the U.S., it would be required to accrue and pay U.S. taxes in accordance with applicable U.S. tax rules and regulations as a result of the repatriation.

### Common Stock Repurchases

The Company repurchased 13,159 shares of common stock during the nine months ended November 1, 2014 for \$0.9 million. The Company repurchased 337,665 shares of common stock during the nine months ended November 2, 2013 for \$20.7 million. The Company has \$64.6 million remaining under its current \$75.0 million share repurchase authorization.

### Environmental and Other Contingencies

The Company is subject to certain loss contingencies related to environmental proceedings and other legal matters, including those disclosed in Note 9 to the Condensed Consolidated Financial Statements. The Company has made pretax accruals for certain of these contingencies, including approximately \$0.1 million and \$0.0 million for the third quarter of Fiscal 2015 and Fiscal 2014, respectively, and \$0.5 million and \$0.4 million for the first nine months of Fiscal 2015 and Fiscal 2014, respectively. These charges are included in provision for discontinued operations, net in the Condensed Consolidated Statements of Operations because they relate to former facilities operated by the Company. The Company monitors these matters on an ongoing basis and, on a quarterly basis, management reviews the Company's reserves and accruals in relation to each of them, adjusting provisions as management deems necessary in view of changes in available information. Changes in estimates of liability are reported in the periods when they occur. Consequently, management believes that its reserve in relation to each proceeding is a reasonable estimate of the probable loss connected to the proceeding, or in cases in which no reasonable estimate is possible, the minimum amount in the range of estimated losses, based upon its analysis of the facts and circumstances as of the close of the most recent fiscal quarter. However, because of uncertainties and risks inherent in litigation generally and in environmental proceedings in particular, there can be no assurance that future developments will not require additional reserves, that some or all reserves may not be adequate or that the amounts of any such additional reserves or any such inadequacy will not have a material adverse effect upon the Company's financial condition or results of operations.

### Financial Market Risk

The following discusses the Company's exposure to financial market risk related to changes in interest rates.

**Outstanding Debt of the Company** - The Company has \$52.8 million of outstanding U.K. term loans at a weighted average interest rate of 2.66% as of November 1, 2014. A 100 basis point increase in interest rates would increase annual interest expense by \$0.5 million on the \$52.8 million term loans. The Company has \$62.2 million of outstanding revolver loans at a weighted average interest rate of 1.82% as of November 1, 2014. A 100 basis point increase in interest rates would increase annual interest expense by \$0.6 million on the \$62.2 million revolver loans.

**Cash and Cash Equivalents** - The Company's cash and cash equivalent balances are invested in financial instruments with original maturities of three months or less. The Company did not have significant exposure to changing interest rates on invested cash at November 1, 2014. As a result, the Company considers the interest rate market risk implicit in these investments at November 1, 2014 to be low.

**Intercompany Canadian Dollar Notes Payable** - During the third quarter of Fiscal 2015, the Company loaned its Canadian subsidiary \$31.2 million Canadian dollars for an acquisition. That, combined with funds previously loaned to make another Canadian acquisition in the fourth quarter last year and to support growth initiatives, has brought the total Canadian dollar loans to \$48.4 million as of November 1, 2014. Historically, the Company has not hedged its exposure to the intercompany loans due to the expectation that new store growth would be supported by increased cash flow generated by the profits of the Canadian operations. However, the intercompany loans related to the recent acquisitions are of a longer term nature since they were made to capture market share and enter new markets. The Company is exploring ways to reduce its risk due to currency fluctuations on its intercompany loans through the combination of borrowing funds in Canada or by hedging its exposure. At the current intercompany loan balance, a one percent change in the Canadian dollar exchange rate would increase or decrease earnings by \$0.4 million.

**Accounts Receivable** - The Company's accounts receivable balance at November 1, 2014 is concentrated in two of its footwear wholesale businesses, which sell primarily to department stores and independent retailers across the United States and its Lids Team Sports wholesale business, which sells primarily to colleges and high school athletic teams and their fan bases. Including both footwear wholesale and Lids Team Sports wholesale business receivables, one customer accounted for 7%, while no other customer accounted for more than 5% of the Company's total trade receivables balance as of November 1, 2014. The Company monitors the credit quality of its customers and establishes an allowance for doubtful accounts based upon factors surrounding credit risk of specific customers, historical trends and other information, as well as customer specific factors; however, credit risk is affected by conditions or occurrences within the economy and the retail industry, as well as company-specific information.

**Summary** - Based on the Company's overall market interest rate exposure at November 1, 2014, the Company believes that the effect, if any, of reasonably possible near-term changes in interest rates on the Company's consolidated financial position, results of operations or cash flows for Fiscal 2015 would not be material.

### New Accounting Principles

Descriptions of the recently issued accounting principles, if any, and the accounting principles adopted by the Company during the nine months ended November 1, 2014 are included in Note 1 to the Condensed Consolidated Financial statements.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

The Company incorporates by reference the information regarding market risk appearing under the heading “Financial Market Risk” in Part I, Item 2, Management’s Discussion and Analysis of Financial Condition and Results of Operations.

Item 4. Controls and Procedures

Evaluation of disclosure controls and procedures.

The Company has established disclosure controls and procedures designed to ensure that information required to be disclosed by the Company, including its consolidated subsidiaries, in the reports it files or submits under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), is made known to the officers who certify the Company’s financial reports and to other members of senior management. Any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving desired objectives.

Based on their evaluation as of November 1, 2014, the principal executive officer and principal financial officer of the Company have concluded that the Company’s disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) were effective to ensure that the information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is (i) recorded, processed, summarized and reported within time periods specified in SEC rules and forms and (ii) accumulated and communicated to the Company’s management, including the Company’s principal executive officer and principal financial officer, to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting.

There were no changes in the Company’s internal control over financial reporting that occurred during the Company’s third quarter that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.
