(Performance Share Unit Agreement) to reflect an error in connection with the intended treatment at retirement. Under the revised agreement, in the event of Retirement, if the award has been held for at least twelve months, the target award will be granted (not prorated), but the shares will continue to be subject to restrictions until the end of the performance period. After certification of results for the performance period, all, a portion, or none of the award will be released, as determined by the underlying performance of the business. No more than the target number of shares may be awarded to the retiree, even if Company performance would have warranted a higher award. The terms will apply to the December 2004 grant, as originally intended.
